A new shaft, gearing and pulley have been put into the north section of the new mill this week. The new shaft is eight inches in diameter, the face of the gearing is twelve inches wide and the pulley has double spokes and carries a thirty-six-inch belt. This part of the mill did not run on Mon-

"Museum of Antiquity" is most popular book ever showed this village. Mr. Bowers reports 75 orders from less than 100 calls made during the past two weeks. The book is just full of valuable information and the plates, print, paper and bindings, are first class in every respect. The work will be shown in South Manchester during the coming week.

Co. G. go into camp with the firs and second regiments, at Niantic, Sept. 4th. The encampment will last six days. Niantic makes a good camping ground and new improvements are being added to it every year. A convenient ground and able to the militia than it was ten years ago.

No wonder would-be liquor seizers fail sometimes in their searches. We learn from good authority that at a house where an unsuccessful search for liquor was made recently, the mother of the family was at the time of the officer's visit industriously rocking a cradle, in which, reposing beside a sleeping babe, was a jug of gin; at the same time another well beneath the skirts of a woman who was hard at work at a wash-tub in

THE SEIZURE REPORT. Our regular report of liquor seizures this week includes raids made on the premises of Cornelius Sullivan and Thomas Gorman. Last Wednesday, Constable Pitkin, assisted by the new constable, Mr. Loomis, searched Mr. Sullivan's place and found on the premises only a small quantity of beer. A search made at this place a few weeks ago failed to disclose any liquor. The constables then raided the new store of Thomas Gorman, just east of Hale's drug store. Here they found fourteen bottles and one keg of lager, three gallons or wine and two gallons of whiskey. They did not bring away the whiskey, for Mrs. Gorman, rather than to see the liquor confiscated preferred to destroy it herself and emptied the jug. The hearing in regard to confiscation will be held before Justice Agard Monday morn-

to Simsbury and Granby in this state, thence to Amherst, Mass., and from there, up through Southern Vermont.

Watch Hill owes its popularity in measure to Manchester people Forty years ago, before the place became known as a watering place and when a private boarding house furnished all the necessary accommodation for the annual visitors, a few Manchester families began to go there and every year since, this town has been represented there by a delegation of from ten to forty visitors.

W. E. Hudson, Orlando, Fla., sends us some information about summer weather in Forida and from good tents with board floors make his figures one would almost think this a good place to fly to in the hot months. June is the hottest month of the year there but the average noon temperature during the month was only 83.73 degrees and the nights were considerably cooler. The weather was just varied enough to be comfortable. There were fifteen clear days, three rainy days and twelve cloudy or partly cloudy days during the month.

It is interesting to note the inductive effect of Long Branch proper on dwelling in the latter puts on frill and gorgeous paint, and tries to look as Queen Anne-like as possible. The chimneys are red, the roof gray, the steps white, the veranda lake, the posts green, the lattice blue, the cornices pink, the door brown, the blinds scarlet, the fence drab, and the dog yellow. Then the furniture scattered about is vivid with color, can be. During the winter the whole village is homogenous in caste heavenward, and cliques show their ate as freely as before, but move in haughty and exclusive coteries, limimensions at the intrusion of any other cat not properly introduced .- [Cor-
