"THE CONNECTICUT" BUSINESS COLLEGE. ESTABLISHED 1880. INCORPORATED 1905. One of the Best Colleges of the State. Opened known as "The Old Institute."

ACTUAL BUSINESS PRACTICE TRAINING.

Morse College the Best Equipped and Most Reliable School.

There is no school that the publishers of this paper take greater pleasure in introducing than the Morse Business College at Hartford. Every year its graduates except the best positions and the demand for Morse students to take situations of responsibility is greatly in excess of the supply.

The courses of business training are most practical. Every detail of business forms, customs and accounts is taken up by Morse students in an interesting course of actual business. They learn to do by doing and the work in which every student receives individual instruction is most fascinating and valuable.

Principal E. H. Morse. In teaching force too the Morse College is without a shadow of a doubt the best commercial or shorthand school in Connecticut. Prof. L. H. Boyd, the principal of the business department, is widely known for his marvellous results with students in rapid calculation and in the management of the shorthand department.

The better class of young people attend the Morse College and the best of discipline is in consequence secured. In equipment this institution is also much the superior commercial school of this section of the country. Every student has a roll top desk and the insurance, banking and office practice fixtures and labor devices are a type of elegance which is to be found in no other school in our knowledge anywhere.

The fall term begins September 1st, but visitors are now welcome to inspect departments any day from 9 a. m. to 5 p. m. Take the elevator at 200 Main street (corner of Ashmun) Hartford, and the attendant will let you off at the principal's office where a welcome awaits you.

Girl Terribly Burned. Mildred Carlson, the seven-year-old daughter of Mr. and Mrs. Axel Carlson, of Eldridge street, was terribly burned last night while at play with a number of children. The little girl had a jack-o'-lantern made of cardboard and lit with a stump of a candle. When the child was holding the jack-o'-lantern close to her waist the candle fell out and set her dress on fire. Screaming with fright, she ran toward her home. This action only served to fan the flames, which soon enveloped her whole body. Several women from nearby houses ran out and attempted to smother the flames with their aprons but their efforts were in vain and their hands were burned. Finally a man secured a blanket and throwing it about the child carried her to her home. Dr. Weldon was summoned and upon examination he found that the little girl had been burned from her waist to her head as well as on both arms. Although the flesh is not burned deeply the burns are so extensive that it is feared they may prove fatal.

Bakery needs fresh twice daily at the Kandy Kitchen. Ice cream, by the plate, pint, quart or gallon at the Kandy Kitchen.

Express to All Trains. Freight Trucking and Moving of Household Goods. Orders may be telephoned to Perkins, 100 South Main street, or to the office at 100 South Main street.

Company G Starts for Mt. Gretna Bright and Early Tomorrow. Company G will start for their assignment with the First regiment at Mt. Gretna, Pa., early tomorrow morning. The company will assemble at the Armory on Wells street at four o'clock. They will be conveyed to the Manchester depot on special trolley cars and will take the steam train there at 5:30. The journey will be an arduous one and the men are advised to get as much rest as possible tonight. The khaki or service uniform will be worn exclusively and the men have received instructions as to other accoutrements. As only 40 men will be accommodated in each railway coach the remainder of the company will ride with some of the members of Company C, of Rockville. The company will return Sunday night, the 12th.

Big Dynamo Being Rebuilt. The large dynamo which was wrecked at the E. E. Hilliard Company's power house in Buckland a year or more ago is now being reconstructed. The Norton Electrical Instrument Company has the contract to do the work. The machinery was originally made by the Eddy Electric Company, of Windsor, which has since gone out of business. At present the E. E. Hilliard Company are using a 100-horse power motor. When the new generator is completed it will be a 157 Kilowatt machine and have 200 volts and 250 horse power.

A current magazine has an article entitled "Does it pay to be very rich?" Most of us say, "No," but certainly does not pay to be very poor.

A Kansas City boy has been sent to the school for feeble-minded just because he has a maul and a knife. Aren't you glad you don't live in Missouri?

Wanted: A woman to do washing. Address Box 21, Manchester, Conn.

ANOTHER NEW PAPER MILL.

The William Foulds & Co. Have Awarded Contract for New Structure to Be Built at Once.

The William Foulds & Company, paper manufacturers, yesterday let the contract for a new paper mill to be built just east of the mill which was completed last winter at Parker village. It will be built of brick, 5x110 feet, and be one story high. Charles O. Treat will do the mason work and E. L. G. Hohenthal the wood work. Work on the new structure will be begun at once and the company hope to have it in operation by November 1st. The machinery for the mill has already been ordered and will be here so that it can be placed in position while the mill is being built. Edward Nichols has been engaged by the firm to do all the millwright work. He placed all the machinery in the new mill last winter and did a very satisfactory job.

While the new mill will be built close to the one erected last winter, it will be practically independent of it. The new mill will be an open-roofed structure, except of the roof as it is possible to make it. It is located near the railroad track and is very convenient for receiving and shipping stock. The company has a side track which runs from the warehouse east of Parker street to the mill. The William Foulds & Company manufacturers' binders, straw, leather and button boards.

Hit by Falling Elevator. Rudolph Kissman Pinned Under Heavy Load of Paper and Seriously Hurt.

Rudolph Kissman was seriously injured Wednesday afternoon at the east mill of the Rogers Paper Manufacturing Company. Kissman had loaded an elevator with 500 pounds of wet paper and stood at the edge of the shaft looking up. When the elevator had ascended to a height of about ten feet the drum, on which the cable is wound, broke and the platform with its heavy load fell. Kissman was hit on the side of the head and knocked into the pit where he was pinned down by the elevator and its load. The elevator had to be jacked up before the injured man could be removed. Dr. Gilliam was summoned and he found that besides a bad scalp wound several ribs on the right side had been broken. Kissman had not lost consciousness. He was taken to the St. Francis hospital in Hartford. Although he stood the journey well, the injured man has been growing steadily weaker. The broken ribs punctured his lungs and it is not expected that he will recover.

Kissman lives on Parker street. He is about 40 years old and has a wife and several children. He had been employed by the Rogers Company only a few months. The elevator is capable of carrying a load of 1,000 pounds or more and there was therefore no negligence on the part of the injured man or the company by which he was employed.

Margaret Wylie. Mrs. Margaret Wylie, age 84, died this morning at the home of her son-in-law, John Porterfield, on Oak Grove street, after a short illness. She was a native of Scotland. The funeral will be held Sunday afternoon at the home at two o'clock.

OFF TO CAMP. Company G Starts for Mt. Gretna Bright and Early Tomorrow. Company G will start for their assignment with the First regiment at Mt. Gretna, Pa., early tomorrow morning. The company will assemble at the Armory on Wells street at four o'clock. They will be conveyed to the Manchester depot on special trolley cars and will take the steam train there at 5:30. The journey will be an arduous one and the men are advised to get as much rest as possible tonight. The khaki or service uniform will be worn exclusively and the men have received instructions as to other accoutrements. As only 40 men will be accommodated in each railway coach the remainder of the company will ride with some of the members of Company C, of Rockville. The company will return Sunday night, the 12th.

MANCHESTER'S GROWTH

As Shown by New Directory to Be Issued September First.

Manchester's population is still on the increase. This fact is shown by figures taken from the new directory which is now in the hands of the printer. It is expected that the directory will be ready for distribution September 1. From the compiler's manuscript we glean the following interesting facts:

Whole number of names in 1904 directory, 4,581. Names erased in preparing new directory, 1,129. New names added, 1,104. Whole number of names in new directory, 4,556. Increase, 15. Corrections, 1,195. Names brought over unchanged, 3,341. This increase in new names, although small, is remarkable, when it is remembered that since the last directory was published the Eastern Bleuchit Company, giving employment to one hundred hands, has gone out of business. Of course all the industries of the town have made gains during the last two years and at the present time there is a population of 11,000.

OBITUARY. William H. Grant. W. H. Grant, the north-end druggist, died at his home on North Main street this morning after an illness of several months. He had been a sufferer from stomach trouble for years and this eventually caused his death. He went to the Hartford hospital the 10th of May to undergo an operation. He remained at that institution just 20 days. Then he came back to Manchester. Since that time he has been under the care of his sister.

William H. Grant was the son of Mr. and Mrs. Hiram Grant, of Wapping. He was born in that place 40 years ago, and received his early education at the Wapping school. When a young man of 18 years he learned the trade of butter-maker at the Wapping Creamery. He later managed successfully two other creameries in Massachusetts. He then came to Manchester, about 14 years ago, and went into the meat business with his brother, Hiram. He has been in business in this town ever since, with the exception of one winter which was spent in California in the search for health. He was unmarried. When he returned from the West Mr. Grant bought out Rose's drug store on Depot square and conducted that business as long as his health would permit. He was a thorough business man and made a success of everything he attempted and was well thought of by everybody who knew him. Mr. Grant leaves one sister, Mrs. Josie Thrall, with whom he made his home, two brothers, Hiram and George, of this town, and Ward Grant, of Hartford.

His funeral will be held Sunday afternoon at two o'clock. Rev. W. F. Taylor, of the North Methodist church will conduct the services and the burial will be in the Wapping cemetery.

A LUCKY DOG.

Struck by Steam Engine, Run Over by Trolley Car and Lives to Bark at Automobiles.

A Manchester man has a dog which, it is believed, has a charmed life. Twice within a short time the animal has escaped death almost miraculously.

The dog was struck by a steam engine on the morning and the nine o'clock train was making good headway for Boston.

The dog was struck by a trolley car on the morning and the nine o'clock train was making good headway for Boston.

TO AID CONVICTS' FAMILIES.

Bill to Be Drawn After Justice of the Peace's Decision.

Charles Parsons of St. Joseph, Mo., representing the Missouri Society for the Friendless, addressed a large group of men on the courthouse lawn at 11 o'clock on the other evening.

Mr. Parsons has made a special study of criminals and the last seven or eight years and is confident that much good can be done for the fallen and especially those who have made their first mistake by the direction of systematic effort in their behalf.

One of the main objects of the society is to find employment for the men who are discharged with the brand of penitentiary upon their shoulders.

He says that in this state work has been obtained for 350 of such and that only twenty of that number have returned to evil ways.

Your governor, Mr. Folk, has asked our superintendent at Topeka, the Rev. E. A. Frenkelman, to prepare an important bill relating to convicts for submission to the next legislature.

This bill is to provide for the convict's family receiving an approved percentage of his earnings, as outlined in a speech by Governor Folk some months ago.

As every one knows, the greatest sufferers by the sudden removal of the head of a family are the wife and children.

At most as if by the visitation of charity they are thrown upon the charity of the world, if a portion of the wages of the husband can be turned over to the family it will prove a blessing in many ways.

It will make the convict feel that he is working for something in which he is personally interested, and it will have a strong tendency to draw him closer to the open country where he will be able to do something for himself.

It will also give the convict a sense of responsibility and a feeling that those dependent upon him are not in his hands, but in the hands of the state which has entrusted such a beautiful law in his behalf and less likely to go wrong when enacted into law.

It will also give the convict a sense of responsibility and a feeling that those dependent upon him are not in his hands, but in the hands of the state which has entrusted such a beautiful law in his behalf and less likely to go wrong when enacted into law.

BASEBALL.

Brooklyn Royal Giants Beaten in Overtime Contest.

ELEVEN INNINGS OF GILT EDGE PLAYING.

"Joe" Casey Gets Winning Hit.

The Brooklyn Royal Giants were advertised to be in the same class with the Cuban X Giants and the All Star Cubans and they certainly made good their claim to this title at Baseball Park yesterday afternoon. The 200 spectators who were at the game saw one of the most closely contested battles which has ever taken place on the Manchester diamond. The Brooklyn Giants were beaten in Rockville the day before and they were bound to win the game in Manchester. It looked a pretty sure thing for them when, in the eighth inning, the score stood 3 to 0 in their favor but they had not beaten the Manchesters even then. In their half of the eighth, with a double and a single and two errors by the Giants, Breck's men netted three runs, tying the score. Then for two innings gose eggs showed on the score board. In the first of the eleventh the dusky players made their final attempt to win the game and scored one run, but Manchester went them one better in their half and with hits by Connors and Casey made two runs and won the game.

Holland, the Giant's pitcher, had the Manchesters batters at his mercy. It was pathetic to see how they reached at balls they couldn't have touched with a telegraph pole and dug into the ground and swiped into the air. He fanned the two men at the head of the Manchester batting line, with the first six balls he pitched. In all he is credited with 17 strikeouts. Collins pitched his usual steady game. He got one of Manchester's five hits and it was a two-bagger at a critical time.

The Giants started their scoring in the second inning. Wright hit to Messenger. It was a hit all right but it got by Messenger and the runner was safe on third. The next batter got a hit also and Wright scored. Collins kept the hits well scattered after that until the sixth when Holland tore off a two-base hit. He was followed by Miller, with a home run over the left field fence. Manchester got busy in the eighth. Breck, who was the first batter, flew out to Merritt in left field. Kennedy hit to short stop but would have been out easily at first had not the short stop tried a grand stand throw which went into the bleachers. By the time the ball was recovered Kennedy was on second. Collins, who was the next man up, went to work to kill the ball and got a two-base hit, which scored Kennedy. Taylor hit to the pitcher who tried to scare Collins from going to third and as a result failed to get either man, and then the fun started. Both Taylor and Collins got off the bases and by running back and forth soon had the negro infielders rattled. Finally the first baseman got the ball and threw it to third base but there was no one there and Collins scored. When the excitement was over Manchester had two runs and a man on third.

Connors sacrificed and Taylor scored. Gilmartin struck out and Connors was caught off second. The players went out in one, two, three order for two innings. In the first of the eleventh G. Johnson drew a pass. Robinson advanced him to second with a hit. Wright was safe on first on Kelley's bad throw to first. Fouts flew out to Taylor but G. Johnson, who was on third, waited till the ball was caught and then dug for home, getting there a few seconds ahead of the ball. J. Johnson was out short stop to first and James flew out to Taylor. It was then up to Manchester. Taylor, the first man up, was out to Holland. Connors got a long fly to left field. Merritt failed to get the ball and Connors was safe on second. Gilmartin was hit by the pitcher, Kelley proved that he had the goods and scored Connors with a two-bagger. The score was then tied and the excitement was intense. Messenger struck out and the hopes of the fans were then pinned on Casey. As Casey stepped up to the plate he wore a confident smile and his confidence was not misplaced. He knew he could get a hit and he got one and as Gilmartin came across the plate the game was won. The score:

The big sale of the entire stock of the Torrington Department store starts Saturday morning at Wise, Smith & Co., Hartford.
The sheepskinners' union has been started at Littleton, N. Y. All street members are to be given union cards.
Jack Jamison, a hack driver for the Konauntz line, has tendered his resignation.—Society note in Fort Scott (Kan.), Republican.

CUBAN STARS AGAIN.

The Team that Shut Out Manchester 7 to 0 Here Next Wednesday.

The Cuban Stars will play in Manchester next Wednesday, August 16. The Stars are without doubt the best team that has visited Manchester this season. They were here July 21 and at that time batted Buckley for 14 hits and shut out our boys 7 to 0. They play fast ball all the time. They are exceptionally good in base running, they coach in Spanish and bat to perfection. Next Wednesday's game will be a good one and should attract a big crowd. The game will be called at four o'clock. Regular price of admission will be charged.

Rockville Tomorrow.

Manchester will play in Rockville tomorrow afternoon. The game will be called at 3.30. The Manchester lineup will be practically the same as in last Saturday's game. Manager Breckenridge has not given out who will pitch, but we are assured that he will be a fast man with a good record. It has been rumored about town that Rockville will not pitch West tomorrow.

BASE BALL NOTES.

Rockville has released Burke. Although a sharp hitter he could not bat.
Herman Bronkko watched Saturday's game from the Manchester players' bench.
After much preliminary discussion a game has at last been arranged between the Consolidated team and a nine from the factory league. The game will be played tomorrow afternoon at Baseball Park and the gate receipts will be divided.
The Charter Oaks will play the Windsors tomorrow. The Charter Oaks have been reorganized and is now composed of a set of snappy ball players.

Sunday School Trolley Ride.

The annual picnic of the Sunday school of the North Congregational church will be held tomorrow. The special cars will leave Oakland station at 8:25 and Depot square at 8:34. The party will go to Laurel Park and remain there until after lunch. Then a trolley ride to Warehouse Point with a stop at Piney Hedges will complete the outing. The picknickers will reach home about five o'clock. The committee has engaged two of the big cars belonging to the Springs. The cars will have ample room for all who wish to enjoy the pleasant ride.

A sweet breath adds to the joys of a kiss. You wouldn't want to kiss your mother, wife or sweetheart with a bad breath. You can't have a sweet breath without a healthy stomach. You can't have a healthy stomach without perfect digestion. There is only one remedy that digests what you eat and makes the breath as sweet as a rose—but that remedy is KODOL FOR DYSPEPSIA. It is a relief for your stomach, palpitation of the heart, and other ailments arising from disorder of the stomach and digestion. Take a little Kodol after your meals and see what it will do for you. Sold by Welch & Brown.

A woman has just died in Kansas at the age of 102. She said that she attributed her longevity to the fact that she had eaten nothing but corn and sour milk for many years. A woman almost as old died in Indiana last week, and for years she had eaten nothing but corn bread and black coffee. You can take your choice and die young.

CLEANING BY SUCTION.

Vacuum Cleaning Company Using Up-to-Date Methods at Ninth District School.

A wonderfully efficient method of housecleaning is being exploited at the main building of the Ninth district school. The Vacuum Cleaning company of New York has one of its traveling outfits here and began work Monday. The outfit consists of a two-horse wagon containing a 15 horse-power four-cylinder gasoline engine which drives a double acting vertical suction pump. From this wagon two lines of heavy hose of special construction are run into the building.

The hose are equipped with nozzles of many patterns, some with brush tips and some without. These nozzles are fashioned to clean walls, ceilings, floors or carpets. The dirt is sucked through the hose to a tank filled with water which separates the air from the dirt. The dirt is deposited in the water and the air sucked through, thus maintaining the vacuum.

There is now a force of four sweepers at work besides the engineer. It is expected that the work will be finished this week. A demonstration of the merits of this method was given at the Cheney mills and in several of the Cheney residences. The vacuum works especially well on carpets, removing every particle of dirt. The system has many advantages over the methods formerly pursued in housecleaning. It does the work thoroughly, it raises no dust and therefore is entirely sanitary. It is convenient; nothing need be moved from its place, and the apparatus is brought to the door. It cleans everything, from garret to cellar.

This company has taken many large contracts in the state, among them being the Capitol and City Hall in Hartford.

Captain Burns's Vacation.

Peter, alias "Captain" Burns took a short vacation from his life at the town house and strolled down to see the sights of the town a few days ago. Chief of Police Sheridan promptly incarcerated him and Superintendent Murdock took him back. Burns came here from New Britain about 10 years ago. He is slightly demented. He asserts that he has inherited \$46,000,000 from an uncle. Another vagary of his is that a marriage is being forced upon him. He is 55 years old, but looks much older.

Try a little KODOL FOR DYSPEPSIA after your meals. See the effect it will produce on your general feeling by digesting your food and helping your stomach to get itself into shape. Many stomachs are overworked to the point where they refuse to go further. Kodol digests your food and gives your stomach the rest it needs, while its reconstructive properties get the stomach back into working order. Kodol relieves flatulence, sour stomach, palpitation of the heart, belching, etc. Sold by Welch & Brown.

A Race Against Time.

Mamma—Why, Howard! Why do you eat those cakes so greedily? You have plenty of them.
Little Howard—I know it. That's why I'm afraid my appetite will be gone before the cakes are.—New York Press.

Something Done.

Meeker—"We had a house warming last night."
Beecher—Why, have you moved?
Meeker—No, but when I reached home from the lodge at midnight I found my wife's mother there.

A Proxy That Failed.

"Timington was voted out of our golf club."
"What for?"
"Oh, he got so lazy that he missed his caddy play for him while he carried the bag."—Detroit Free Press.

Luck.

"Did you have any luck on your fish ing trip?" asked the foreman.
"I should say so," said Mr. Oldspout absently. "I held high and low three times in succession and turned back twice."—Washington Star.

Real Estate, Life, Fire and Accident Insurance.

There has been no better time within the past five years to buy real estate in Manchester than the present—either for own use or as investment. Have some bargains to offer.
Selection of risks, means low death rate. Low death rate, low expense account and dividends determine the net cost of insurance. During the year 1905, the Northwestern paid policy holders, \$6,489,000.83 in dividends alone, more than any other company ever paid in a single year. The Northwestern can get all the business it cares to write and select its own risks.
Give me a call.

A. H. SKINNER

BANK BUILDING.

BANK BUILDING.

for further particulars.
\$9.05 for \$1,000 in dividend paid by the Northwestern in ordinary life policies. Can you match these figures?
A. H. SKINNER, Agent.

Bridge Committee Meeting.

A meeting of the committee appointed by the last town meeting to have in charge the construction of bridges at McLean hill and Oakland was held in the Hall of Records last evening. All the members of the committee, with the exception of Frank Cheney Jr., who is out of town, were present. The committee discussed and approved plans for both bridges and duplicates of these plans will be sent to construction companies who call for them. The bridge at McLean hill will be of steel girder construction and will have a span of 70 feet. The roadway plan has not yet been decided upon. The span of the present bridge is about 54 feet. The concrete abutments will rest on spiles and will extend nine feet below the surface of the road and two feet below the water line. The Oakland bridge plans call for a concrete arch with a span of 60 feet and 24 feet wide. The balustrade on each side of the bridge will be of concrete and three and one-half feet high.

BIRTHS.

Tuesday, August 7, a son to Mr. and Mrs. Edward Emerson, of Middlebury.
Tuesday, August 7, a daughter to Mr. and Mrs. Michael Smith, of Foster street.
Thursday, a daughter to Mr. and Mrs. Christian Nelson, of Middlebury.
Wheat sheaves, palm leaves, metal wreaths, also funeral designs to order at the Kandy Kitchen.
