VON BERNSTORFF PLOTTED TO BLOW UP "C. P." RAILWAY

Secretary of State Lansing Gives Out Messages Late German Ambassador Sent To His Foreign Office—Irish Pro-Germans For Sabotage Purposes Named.

Washington, Oct. 10.—That Count von Bernstorff, while Ambassador of Germany to the United States, plotted the destruction of the Canadian Pacific railway at several points so it would be tied up, was made known here today. The State Department made public three telegrams which the German Ambassador exchanged with the German Foreign office on the subject, detailing the plans. One message suggested general sabotage in the United States, mentioning Americans who might be used for such a purpose. Count Bernstorff also carried his government that an organization known as "an embargo conference" was about to enter on a vigorous campaign to secure a majority of the members of Congress favorable to Germany.

The statement as made public by the State Department was as follows: Lansing's Statement. The Secretary of State publishes the following two telegrams from the German Foreign Office to Count Bernstorff, in January, 1916:

"One and two are absolutely reliable and discreet. Number Three is reliable, but not always discreet. These persons were indicated by Sir Roger Casement. In the United States sabotage can be carried out on every kind of factory for supplying munitions of war. Railway embankments and bridges must not be touched. Embassy must in no circumstances be compromised. Similar precautions must be taken in regard to Irish pro-German propaganda. Signed, Representative of General Staff."

"The following telegram from Count Bernstorff to the Foreign Office in Berlin was sent in September 1916: "September 15. With reference to report A. N. Two Hundred and Sixty-Six of May Twentieth, Nineteen Sixteen. The embargo conference in regard to works earlier fruitful cooperation Dr. Hale can give information, is just about to enter upon a vigorous campaign to secure a majority in both Houses of Congress favorable to Germany and requests further support. There is no possibility of our being compromised. Request telegraphic reply."

In connection with the mention of the name of Jeremiah O'Leary, president of the American Truth Society, in the State Department's revelations today, officials made public again the letter which President Wilson wrote him, (O'Leary), on September 29, 1916, in reply to a telegram announcing that O'Leary would not vote to re-elect him. The letter was as follows: President to O'Leary. Dear Sir: Your telegram received. I would feel deeply mortified to have you or anybody like you vote for me. Since you have chosen to many disloyal Americans and I have not, I will ask

CHENEY BROS. PLAN TO BEAUTIFY COURTS

Ground Between Franklin and Barnard Schools To Be Improved. DRIVEWAY AND GATES.

The Lynch Construction company, which is building the men's hotel and 32 houses for Cheney Brothers on the west side of the town, has been awarded the contract for grading and beautifying the court between the Franklin and Barnard schools and the rest of the ground surrounding the buildings on Educational Square and already has a large gang of men and several teams at work on the preliminary work. It is planned to do the grading, underground drainage and foundation work this fall and in the spring elaborate improvements will be put in. Part of the work this fall will be the building of a culvert over the old dry brook from School Street about half way to Wells Street. The

most elaborate improvements, however, will be made on the court between the buildings. About 40 feet back from the street line on Wells Street between the Barnard and Franklin schools, a brick wall about eight or nine feet high will be erected, so as to form a quadrangle between the wall and the three buildings. A terrace about 3 1/2 feet high will be built north of this wall and along the terrace a walk will be laid connecting the Barnard and Franklin schools. This terrace will be about 50 or 60 feet wide and will be faced by a retaining wall about 3 1/2 feet high on the north. Between the terrace and the Recreation building, the ground will be graded over.

Ornamental Gates. At either end of the wall and terrace, near the Barnard and Franklin schools, an ornamental gate will be found. From these gates, walks will be laid to a point near the center of the terrace and from here walks will be laid diagonally across the quadrangle to the entrances to the Recreation building.

Ornamental gates are to be erected over the driveway running along the south side of the Recreation building. Smaller gates will be near the southwest and southeast corners of the building. Smaller gates for the sidewalks will be erected on either side of the larger gates. All the walks inside the quadrangle will be of brick, while those outside the quadrangle will be of concrete. A number of light fixtures also will be erected in the quadrangle.

COMMANDER RUM. London, Oct. 10.—The government today began commandeering all the rum in the United Kingdom.

New York, Oct. 10.—The war is sure putting the high into the high-ball. After a meeting of the Liquor Dealers' Association today it was stated that, as a result of the new war tax, whiskey would soon be selling at \$1 a drink in this city.

LIBERTY LOANS TODAY MANCHESTER'S BIT \$77,800

CENTRAL POWERS TO CONFER ON PEACE. Geneva, Oct. 10.—An important "peace conference" is to be held in Sofia soon to consider what terms the German allies shall offer and to review the whole war situation, according to information reaching here from Vienna today. The Kaiser, Emperor, King of Austria, King Ferdinand of Bulgaria and a representative of the Sultan will be present, it was stated. This news, coming on the heels of a report that the Central Powers will make a new peace offer on the basis of no annexations and no indemnities, aroused interest in Switzerland.

JEWISH WAR REFUGEES HAD AWFUL EXPERIENCE. Reached Atlantic Port After Escaping Turks in Palestine—Nearly Crazy.

An Atlantic Port, Oct. 10.—With minds and bodies almost wrecked by starvation and other European war horrors, 81 Jewish war refugees from Palestine arrived here on a French liner today.

Temporary relief awaited them at Berne, where clothing also was provided. En route, they were attacked by a band of young Turkish soldiers who stripped them of anything of value, especially clothing and food.

Many of them have relatives in America by whom they will be cared for. Others will be taken care of by Jewish charity. At Berne, an additional 1,000 refugees are waiting to be brought over.

The first act on arriving on American soil was to offer prayer for their safe arrival; their first request was for food. The request was granted immediately by the New York members of the committee.

TO INSPECT HOSPITAL SITES. Washington, Oct. 10.—Major Thomas W. Salmon, medical reserve corps, and Captain A. H. Samuels, sanitary corps, of the National army, today were detailed to visit New York city and towns in New York, Connecticut and New Jersey to inspect hospital sites. The towns to be visited include Tarrytown, Nyack, Harmon, Peekskill and Tuxedo, N. Y., Norwalk, Conn., and Iselin, N. J. The officers are to report to Surgeon General Gorgas their recommendations.

SUSPECT MILK TRUST. Chicago, Oct. 10.—Government agents under direction of Assistant United States District Attorney Childs today are investigating evidence alleged to indicate the existence of a nation-wide trust, organized to control milk prices.

Records seized in a raid on the offices of the Milk Producers' association here, it is declared, have revealed that a national milk producers' federation with headquarters in New York, was active in the alleged movement to fix milk prices throughout the Middle West and elsewhere.

GIANTS LEADING WHITE SOX AT THE END OF 4TH INNING

San Tries Hard to Turn Grounds for Third Game of World's Series in His Hand at 10.30 This Morning—Cicotte and Burns Each Other As the Hurlers.

(Special to The Herald.) The Giants led the White Sox by a score of 10 to 0 at the end of the fourth inning. The Giants were in the lead from the first inning. Burns pitched for the White Sox and Cicotte for the Giants. The game was called at 10.30.

White Sox—J. Collins out on a foul to Rariden. McMullen fanned. E. Collins singled to center. Jackson knocked a grounder to Benton who threw him out at first. No runs, one hit, one error.

Chicago—Cicotte fouled to Rariden. J. Collins up. Holke was given an error when he muffed Collins' foul. Collins was out Zimmerman to Holke. McMullen fouled to Rariden. No runs, one hit, one error, one left.

New York—Robertson singled to center. Holke forced him. E. Collins made the play unassisted. Rariden singled to center. Holke went to third. Benton was out on a fly to Felch. Rariden went to second on the throw in. Holke held third. Burns fanned. No runs, two hits, no errors, two left.

Chicago—Cicotte fouled to Rariden. J. Collins up. Holke was given an error when he muffed Collins' foul. Collins was out Zimmerman to Holke. McMullen fouled to Rariden. No runs, one hit, one error, one left.

London, Oct. 10.—The battle of Flanders, in which both French and British armies are now on the offensive against the Germans, has reached its supreme magnitude and today it covers a field 20 square miles in extent.

It is the greatest engagement the world has ever known and it is estimated that more than 1,000,000 men and more than 5,000 guns are engaged.

As a result of the brilliant gains achieved yesterday by the Anglo-French armies, not only the German hold on the Belgian coast is menaced, but the Germans may be forced

of the British and French north and east of Ypres, and tempted counter attacks, but were unable to wrest from the Allies any of the territory that changed hands Tuesday.

MAY SPEND HALF LOAN BEFORE IT IS RAISED Much of \$3,000,000,000 in Liberty Loan Bonds Will Go Very Shortly. TREASURY DEPT. ACTS.

Issues \$300,000,000 in Short Term Treasury Certificates, Now Paying 4 Per Cent.

Washington, Oct. 10.—A tremendous over-subscription to the second Liberty Loan has become practically imperative in view of the fact that by the time the first proceeds of the loan come in, approximately half of the \$3,000,000,000 issue authorized will have been expended in the prosecution of the war and loans to the Allies.

The issue by the Treasury Department yesterday of \$300,000,000 in short term treasury certificates of indebtedness brings the total of these obligations of the United States, issued in anticipation of the loan proceeds, to \$1,550,000,000. This means that the Treasury has sold to banks and bankers notes of brief term in order to obtain ready cash to tide the government over until the proceeds of the loan come in.

The sale of these certificates began almost immediately after the close of the first Liberty Loan and have continued in \$200,000,000 to \$400,000,000 lots during August and September. The interest rate paid on these obligations has gradually crept up until the last issue pays four per cent.

These certificates are bought in large blocks by the banks and they are receivable as cash in payment for Liberty Loan bonds. This means that \$1,550,000,000 approximately in these certificates will be turned in instead of cash in payment

(Continued on Page 4.)

In addition to taking important positions from the Germans the allied armies captured upwards of 2,000 prisoners.

The German key position at Poelcappelle is in possession of the British. It is between five and six miles northeast of Ypres and is only about six miles from the German base of Roulers.

The advance of from one to two miles, scored by the allied armies in the latest thrust against the Germans, has tightened the British hold upon the Paschendale Ridge, and all German hopes that they might be able to re-capture it must now be abandoned.

Heavy fighting raged along the southern edge of the Houtholst Forest, which the Germans are making desperate efforts to hold. (Houtholst Forest lies two miles north of Poelcappelle.)

Along the northern end of the ten mile fighting line the French distinguished themselves by forcing a crossing of Broenbeek river, which is in flood, and entered St. Jan and Voelchhoek.

Counter Attacks Fail. Strong German counter attacks, launched with powerful effectives, were made during the night against the positions won by the Anglo-French armies yesterday on the West Flanders front.

All of these were repulsed, the War Office announced today, except south of the Ypres-Steden railway, where the British were forced to fall back a short distance along a front of about 2,000 yards. The German losses in the fighting that has raged since dawn yesterday have been extremely heavy.

Take Fortified Farms. In addition to the villages, trenches, concrete redoubts and "pill-box" block houses, the British and French took a number of fortified farms which the Germans thought impregnable. All of the positions captured by the Anglo-French armies were consolidated during the night. The attacks were made by the British after a terrific bombardment of the Germans and the utmost difficulties. Heavy rains had turned the ground into a treacherous swamp and the

WHAT'S WHAT AND WHO'S WHO IN MANCHESTER MOVIE HOUSES

AT THE PARK.

Yesterday, by special messenger, the great feature "The Silent Witness" came to the Popular Playhouse.

"The Silent Witness" is a photoplay that is based on the play of that title by Otto Hauerbach, and its motive arises from the author's conviction that a district attorney is as the prisoner.

The story opens in Denver, where a young woman is engaged to a college student who disappears after a dormitory fire, in which he is believed to have lost his life.

The second portion of the story finds the young man—whose mother has taken the name of the missing student, Morgan—in college, kept there by the industry of the mother.

In defending his mother's name, Bud fights with this youth and imagines that he has killed him. Arrested, Bud Morgan faces trial for his life and at the crucial moment the district attorney, returning from a vacation takes the case.

The development of the climax and the manner in which the author handles a situation in which mother, son and father figure is deft to the last degree.

AT THE CIRCLE.

Pauline Fredericks will be seen at the Circle Theater this evening in what is considered to be her greatest photoplay, "The Slave Market".

"The Slave Market" is a photoplay that is based on the play of that title by Otto Hauerbach, and its motive arises from the author's conviction that a district attorney is as the prisoner.

DAIRYING IN DANGER

Exposition Makes Attempt to Stem the World-Wide Cow Shortage.

A world-wide shortage in dairy cattle which threatens to send dairy products sky-rocketing to record price levels, has caused the management of the Eastern States Exposition and Dairy Show at Springfield, Mass., from October 12 to 20, to urge the exhibition of dairy cattle, as a stimulant to dairy production in this territory.

Government specialists assert that the dairy industry of continental Europe has broken down because of the pressing demand for meat and the necessity of conserving grain for human food.

Long after the war has ended these countries must look to the United States for pure-bred breeding stock to be used in building up this great industry again.

Even in our own country there is a serious shortage of dairy cattle and dairy experts believe that the situation is likely to become a permanent one.

The first national exhibition of the Vegetable Growers' Association of America will be held from October 12 to 20, in connection with the Eastern States Exposition and Dairy Show at Springfield, Mass.

The entire Women's Building at the exposition's plant has been assigned to the vegetable and fruit shows. Since the vegetable growers' association represents every part of this country and Canada, and they have never had a national show, they are planning to send to New England the greatest collection of market garden products ever assembled.

Gardens in Minnesota are being searched for their best products to be shown at the First National Vegetable Exhibition at the Eastern States Exposition and Dairy Show from October 12 to 20, at Springfield, Mass.

The entry of the Minnesota State Vegetable Association was the first to be made from outside of New England. Secretary Richard Wellington promises a fine display from the Gopher state.

The state exhibits will be a notable feature of the show. More than a score of associations are getting their material ready.

California is a long ways from Springfield, Mass. But there is a man in that State who has some Berkshire hogs, thinks are good enough to send across the continent to the Eastern States Exposition and Dairy Show, from October 12 to 20.

Chocolates, Schraft's, Kibbe's and Green Seal in good assortment at Peterson the Druggist.

MILLIONAIRE MAN HAVE BEEN MURDERED.

Peoria, Ill., Oct. 10.—With testimony already introduced to indicate a possibility that Jesse Barker, millionaire banker, who was found dead in the bathroom of his home here Sunday may have been slain, the coroner's inquest into the death of the millionaire continued today.

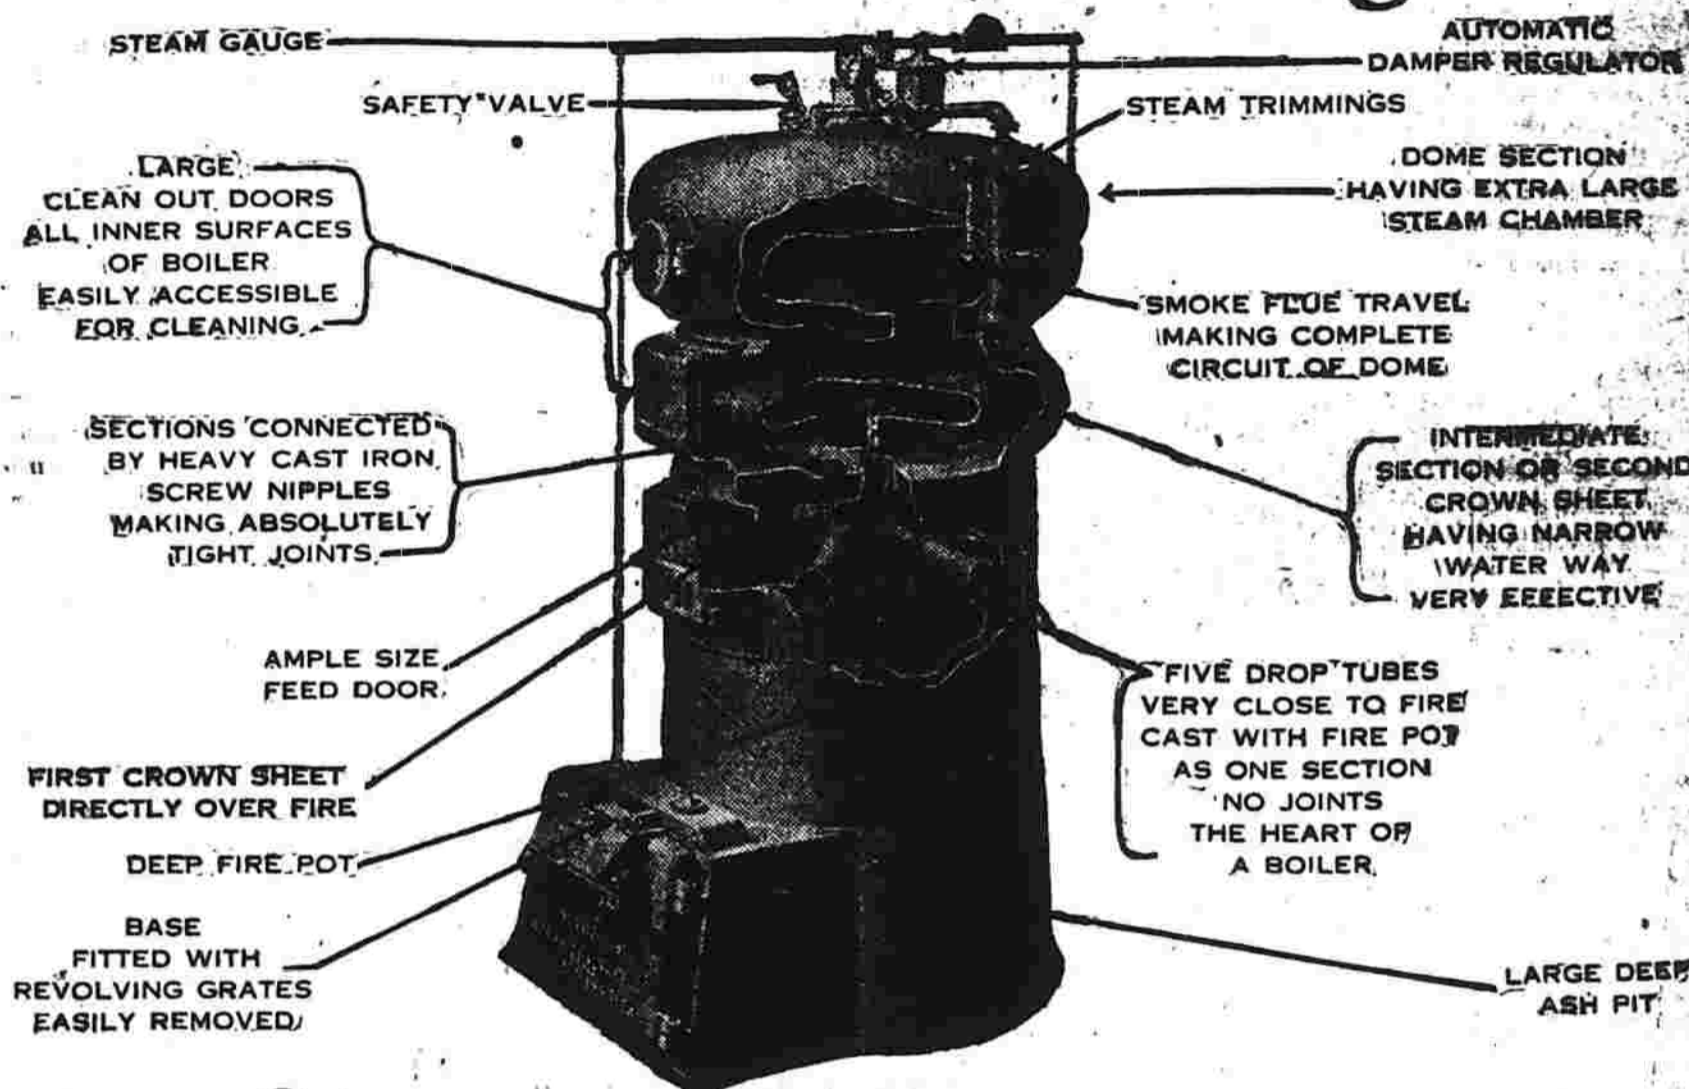

Dr. Hanna, who was the first physician summoned after the finding of the body by Mrs. Walter Barker, testified he was in doubt as to who fired the shot that killed Barker. He declared that a shot fired at long range could have killed him, and asserted the position of the body and of its clothing was not what he would have expected had Barker ended his own life.

WORLD SERIES YIELDS TO THE GAME OF WAR

Marines Take More Interest Even in Liberty Loan—Want to Cross Water.

A Marine Cantonment, Oct. 10.—There are few places in the United States today to which excitement over the world's series has not spread, but this great cantonment is one such place.

Although there are many thousands of United States marines in training here, and although army men supposedly are strong for baseball, the world's series is not creating a ripple. There is not as much interest in it, indeed, as the second Liberty Loan campaign in the camp. American soldiers in France have a score board on which today's results are being posted. Here the only thing resembling a score board is the Liberty Loan dial showing the total of camp subscriptions.

Fifty or sixty of the rabid fans among the men are away on furlough today watching the score boards. Unless one of these telephones the result here this afternoon the camp will not know the result of a game until they return.

War the Game Now.

The explanation is not hard to find. The men are interested in that more fascinating game—the game of war. While New York shouts itself hoarse, companies are racing each other digging trenches with never a thought of baseball.

Classes in nomenclature were reciting the names of various machine gun parts to their captains back in the woods. Infantrymen were banging away at targets down at the rifle range. For months the men have been without the sporting page to spur their interest. Newspapers, arriving 24 hours late, seldom are more than glanced through by men worn out by long hours of trench digging.

Want to Cross Water.

There is the hope, everywhere throughout the camp, that the word soon will come that will start the marines on the first leg of their trip to France. Everyone is working hard, expecting that the date of their embarkation will be advanced if extraordinary progress is shown. Their principal interest—in fact, their only interest—therefore, is military pre-

HOME GARDENERS MOVEMENT CONTINUING NEXT YEAR

R. LaMotte Russell Placed in Charge of State Activities With Aid of College Professors.

The committee on Food Supply and Conservation of the council authorizes the following statement on home gardens:—

It is hard to estimate the value of crops grown in home gardens. Throughout the United States this movement has been successfully carried on and particularly so in Connecticut, due to the fact that at the start, competent men in different cities took hold of the project and put it through under proper organization. The food supply committee has invited R. LaMotte Russell, who was responsible largely for the success of the Manchester Gardens, to undertake, with Professor Stevens of the Connecticut Agricultural College, general control of this movement for next year.

It is desirable to make an early start in order that ground may be prepared and amateurs warned against bad seed, which lessened the crops this year and also that home gardeners next year shall be certain not to grow too large a proportion of perishable crops.

Mr. Russell and Professor Stevens will associate with the men in different cities who have had to do with this work, this committee to be known as the sub-committee on Connecticut home gardens.

300,000 ENDORSERS

In this issue of The Herald we start publishing the advertising of Doan's Kidney Pills, the well-known remedy for kidney troubles and backache. This is a medicine which has been on the market for probably 60 years, and is sold now in every quarter of the civilized globe. A unique feature of this advertising of this product is the fact that in every newspaper where it is published the testimonials are given of people living right in that town. The proprietors state that they have in the last 20 years published the testimonials of 300,000 different people, so that without doubt Doan's Kidney Pills may be said to be the best recommended kidney medicine in the world.

The latest idea of speeding up the automobile calls for improvements in addition to the usual gear to help it over the ground.

WOMEN'S BRANCH FORMED OF COUNCIL OF DEFENSE

Local Order Will Canvass Town and Distribute Thousands of Hoover Pledges.

A local branch of the National Council of Defense, Women's Committee, was formed last evening at the Recreation building. The first important matter to be taken up by the newly organized branch will be the distribution of Hoover pledges. The town will be divided into 34 districts, the same as when the military census was taken, and women captains with assistants will visit every housewife in Manchester to have her sign the pledge.

At the meeting last evening Miss Helen G. Chapman was chosen temporary chairman. She appointed a nominating committee composed of Miss Mary Hutchinson of Rebekah Lodge, Mrs. C. E. House representing the D. A. R., and Miss Nellie Lewis, representing the Ladies' Auxiliary of the A. O. H., to suggest names for the permanent officers of the new organization. The committee returned with these nominations and the nominees were duly elected: Chairman—Mrs. W. C. Cheney. Secretary—Miss Ruth Ferguson. Treasurer—Mrs. Eleanor McCann. Several Men Present.

R. LaMotte Russell, Frank H. Anderson and G. H. Miller were among those present, and they explained the Second Liberty Loan. Mr. Anderson spoke of the aims of the local committee of the State Council for Defense, and Mr. Miller spoke on food conservation.

It was explained at the meeting last night that the canvass for signers to the pledges must start at once, so as not to interfere with the Liberty Loan campaign, which will soon be in full blast in Manchester. For this reason the 55 captains and their assistants will be named today and tonight there will be a meeting of these captains in the Recreation building, when Mr. Miller will explain the details of the canvass.

"RALLY WEEK"

Selectman Arthur E. Bowers has been appointed Director of the Speakers Bureau of the Connecticut Chamber of Commerce with headquarters at Room 25, State Capitol.

The local Chambers of Commerce are expected to furnish a large central assembly hall and to pay the travelers. No speaker will make any charge for his time or services.

The Manchester speakers and the date of the big "Rally Week" meeting will be announced as soon as plans are perfected.

CARTOONIST COMING.

John W. Bengough, of Toronto, Here Under Auspices of Local Single Tax Club.

The ticket committee of the Manchester Single Tax club today reports that tickets are selling rapidly for the lecture to be held at Tinker hall on October 26, when John W. Bengough, the eminent Canadian cartoonist will speak and draw sketches. From a review of this man's work taken from the London Daily News the critic says:

"There are few Scottish specialties throughout this country, or indeed perhaps throughout the United States, who have not been treated at some of their gatherings with the recitation of Bengough's lines to Ian MacLaren. I am glad we have among our poets those who have a desire to entertain. In literature as in other matters, more and more of our people are drifting away from the notion that only staid, serious material

is of value, and while I respect the work of a Frederick George Scott, or of a William Wiltred Campbell, I am glad that I can turn for profitable entertainment when in no mood for heavier study, to a John W. Bengough.—Frank Lawson in Daily News, London, Eng.

What Germany Has Lost. (Hartford Times.) It is singular that Germany entered on the war ostensibly to acquire things it already had, and now having lost them through war, insists that they were the objects originally sought. It claimed a "place in the sun." It possessed two sun-bathing provinces in Africa, twice as large as its home domain and capable of great development. Or if by a "place in the sun" is meant a foothold from which to exploit a rich and ancient empire it had a settlement in Kiao-chow and the fertile provinces of Shantung from which it could control northern China as fully as the British do India. They have lost their place in the sun at least for the present. The Germans also said they must enjoy the "freedom of the sea." There was not an ocean on the globe on which their steamships did not sail without hindrance, or a port or wharf which they could not use on the same terms as other nations. This right too they threw away and they may find it hard to recover. They talked, too, about a ring of enemies hostile to their development. There was none, but now there is a ring made up of the rest of the world.

THE BEGINNING OF THE END.

The steady successes of Field Marshal Haig on the West Flanders front leave no room for doubt that the beginning of the end has come. The Germans, who originally were far superior in men and, up to a few months ago, in guns also, are now inferior in both, and hardly a day goes by that they are not forced to yield further ground. The French and Belgians now find themselves able to co-operate with the British in the forward drive.

Once the Belgian coast, including Zeebrugge, is in the Allies' possession, the bugaboo of the submarine, on which the terrible von Hindenburg himself has begun to lean lately, will be a thing of the past, and men, food and munitions can be transported abroad freely.

Meanwhile, there is every evidence that the peoples of the Central Empires are commencing to realize the true state of affairs. With food at fabulous prices, even in Austria and the well-fed Hungary, Emperor Charles, as in his answer to the Pope, Count Czernin, as in his recent statement in Germany, and other leaders of the dual empire know that the hour has struck. Yesterday the Evening Herald announced that even the Pan-Germans were no longer able to hold to their position of annexations and indemnities, judging by the terms which the two governments are now said to be framing.

It is too early, however, to conclude that victory is won. It is sure only if the conflict is continued without abatement for several more months. Meanwhile, the moral pressure which the United States will bear is having its weight, regardless of the small force.

Every day since the American observation of the height of military and national egotism which Germany or more particularly Prussia, has been treading for two decades—or ever since Hegel's "Philosophy of History," for that matter—requires a certain measure of actual conquest, before the nation can be brought back to its senses and international usefulness.

THE DRAFT HITS BRIDGEPORT.

Bridgeport is complaining of the inroads which the creation of the new National Army is making upon its labor forces. The munitions city is already thousands of hands short, and will be many thousands shorter when new shops, under construction or planned, are up. Skilled help, rather than unskilled, are the great need.

Several of the larger shops have actually taken on women to eke out their forces. The Remington shops already employ large numbers of women, and they are steadily becoming more numerous and necessary for the business. It seems the foremen of the various departments, where the employment of women was feasible, put their heads together and decided after a consultation that the standard of production would not be lowered by using them.

One trouble with this, however, is that girls have been drawn from other factories, like the corset works. An executive in one of the big shops, the Evening Farmer says, is hiring and discharging an average of 500 men weekly, and another big shop is doing the same thing.

Bridgeport has enjoyed a phenomenal growth and deserves all credit for the way in which it has met the demands made by manufacturers upon it, but like many another city, which has rendered excellent service to the government and the Allies, it must be prepared for retrenchment when the war ends, as it surely will end within a year, at the farthest. Skilled help, used to settled living, cannot be expected to abandon secure jobs for work which may be more highly paid, but is of uncertain tenure.

A NEW FIRST REGIMENT.

Connecticut is one of the states in which new National Guard units are to be created, and the work will begin at once. Army recruiting offices will be opened at Hartford, New Haven, Waterbury, New London, Bridgeport and Middletown, and as soon as the desired quota

of volunteers is obtained the men will be sent to Charlotte, N. C., for winter training. There is to be no delay; the newly recruited regiment probably will be taken south within a few weeks, if the men are obtained.

The old First Regiment went out of existence when it and the Second were merged at New Haven and put into the new National Army, and the new one will be the same only in name. But it will inherit the traditions of its predecessor, and ought to command the same loyalty and local pride.

At least 1,000 men are wanted. It will be impossible to send out recruiting parties even from the six offices mentioned, and no direct solicitation will be used, practically speaking. Recruits will be forwarded first to New Haven, as before.

The toll which Germany has already taken from the countries which she has invaded and the still greater toll she would exact were she victorious, indicates what might be expected if the German army ever invaded the United States. A victorious Germany would cost the United States far more than the Liberty Loan, huge as that is. To avoid any possibility of a German levy on the United States we can well afford to loan all our available funds to the government. A loan to Uncle Sam is much to be preferred to an indemnity to Germany.

Germany's ability to hold out so long as she has in the face of superior forces is due largely to the thorough organization of all her resources. Judging from what is going on now in the United States this country will before long have its resources as well organized as Germany. But the difference between the United States and Germany is that the work of organization here is carried on by volunteers, most of them working without pay.

The Maine husking bees that used to be held in the same class with the bee staged at the Greenway Farms Monday night. There were 150 present, and a five-piece orchestra played. Also 400 bushels of corn were husked. Nothing like making play of work.

Gabriele D'Annunzio, the noted Italian poet, is exhibiting a new scheme for the relief of the world's suffering. He would never lead a man to this line was in him.

Camp Devens took \$21,000 worth of Liberty Loan bonds the first day. A good example to New England generally.

It looks at this writing as if the town soon will be singing: "Oh where are my wandering Killites tonight." The Black Watch at Hartford proved too strong for several of the men.

The condition of a nation which believes that might makes right becomes pitiable when it at length discovers that it has neither might nor right on its side.

Men who have useless habits like drinking and smoking will find encouragement to curtail them in the increased prices of liquor and tobacco. Anyhow, it is better to give these up than to cut down on food.

U. S. GERMAN PAPER QUILTS DURING WAR.

Although there was no official complaint against the paper, William F. Maag, for nearly fifty years owner and publisher of the Rundschau, a German language newspaper, voluntarily has discontinued its publication during the war. Mr. Maag also is owner and publisher of the Youngstown Vindicator.

Mr. Maag's action, it is believed, sets a precedent in this country. Giving up the publication was a personal self-sacrifice and a relinquishment of financial income. There was no lack of public confidence in the Rundschau.

GOVERNMENT MAY CONTROL STEAMSHIP PIERS.

New York, Oct. 10.—Government control of the steamship piers in the port of New York is predicted today as the result of the strike of 1,000 longshoremen which went into effect yesterday. The government plan is to assure prompt freight deliveries.

The strikers returned to work today pending a conference between steamship and government officials to be held tomorrow.

Present readjustment plans include establishment of a war zone about the piers, the drafting of men to load and unload the vessels and the closing of all saloons along the waterfront. The strikers demand a wage increase.

RECREATION BUILDING BUSY SPOT THESE DAYS

Our School Children Now Are Being Taught Physical Culture.

HAD BEEN LONG NEGLECTED

Every Afternoon and Evening the Gymnasium Has Its Classes on the Floor.

Now that physical culture has been resumed in the Ninth district schools there are busy scenes in the Recreation building on school days from eight o'clock in the morning until ten o'clock at night. School work is conducted in the gymnasium, swimming pool and auditorium from eight o'clock in the morning until 4:15 in the afternoon and the Recreation club activities begin at five o'clock and continue until ten o'clock in the evening. The Recreation club members also have the use of the building Saturday afternoons and evenings. Friday afternoons, the trade school pupils have the use of the gymnasium and swimming pool from 3 to 4:45 o'clock.

Children Use "Gym." Only the Seventh and Eighth grade and high school pupils have regular class work in the gymnasium and swimming pool. Each room or class has two periods a week, one for "gym" work and the other for swimming. Children below the Seventh grade are instructed in their respective rooms once in two weeks by Recreation Director Mueller and between his visits they are taught by their teachers. Each visit, Mr. Mueller gives the children a new series of exercises. Children below the Seventh grade also are taught folk dancing in the auditorium. The children of the Washington and Lincoln schools are included in this line of work.

Neglected Four Years. Physical culture was dropped necessarily four years ago this month on account of the big school and school pupils the Recreation building before school hours, while the juniors and seniors go after hours. The freshman classes may go on the gym floor at eight o'clock in the morning. Their class work begins at 8:15 and continues until 9 o'clock. The sophomores have from 10:15 to 11:15, while the seniors have from 3:15 to 4:15. The regular school hours are from 8:30 to 11:30 a. m. and from 1 to 3:15 p. m.

The following schedule has been arranged for the school work in the gymnasium and swimming pool:

Monday: 8:15 to 9:00, freshman boys; 9 to 9:37, Miss Starkweather's Eighth grade girls; 9:37 to 10:15, Miss Woodward's Seventh grade girls; 10:15 to 11:15, sophomore boys; 1:00 to 1:45, Miss Patee's Seventh grade boys; 1:45 to 2:30, Miss Morrison's Seventh grade boys; 3:15 to 4:15, junior and senior girls.

Tuesday: 8:15 to 9:00, freshman girls, first division; 9 to 9:37, Miss Ellsworth's Eighth grade boys; 9:37 to 10:15, Miss Cotter's Seventh grade boys; 10:15 to 11:15, sophomore girls; 1:45 to 2:30, Miss McCarthy's Seventh grade girls; 2:30 to 3:15, Miss Parkins's Seventh grade girls; 3:15 to 4:15, junior and senior boys.

Wednesday: 8:15 to 9:00, freshman girls, second division; 9:00 to 9:37, Miss Donovan's Eighth grade boys; 9:37 to 10:15, Miss Starkweather's Eighth grade girls; 10:15 to 11:15, sophomore boys; 1:00 to 1:45, Mrs. Hillsburg's Eighth grade girls; 1:45 to 2:30, Miss Woodward's Seventh grade girls; 3:15 to 4:15, junior and senior boys.

Thursday: 8:15 to 9:00, freshman boys; 9:00 to 9:37, Miss Parkins's Seventh grade girls; 9:37 to 10:15, Miss Patee's Seventh grade boys; 10:15 to 11:15, sophomore girls; 1:00 to 1:45, Miss Cotter's Seventh grade boys; 1:45 to 2:30, Miss McCarthy's Seventh grade girls; 2:30 to 3:15, Miss Parkins's Seventh grade girls; 3:15 to 4:15, junior and senior boys.

Friday: 8:15 to 9:00, freshman girls, first division; 9:00 to 9:37, Miss Ellsworth's Eighth grade boys; 9:37 to 10:15, Miss Morrison's Seventh grade boys; 10:15 to 11:15, sophomore girls; 1:00 to 1:45, Mrs. Hillsburg's Eighth grade girls; 1:45 to 2:30, Miss Donovan's Eighth grade boys; 3:00 to 4:45, trade school pupils.

Recreation Director Mueller has two assistants, Albert Both for work with the boys and men and Miss Smith for work with the girls and women. Miss Smith also teaches the classes in folk dancing.

Observer's Column

Facts and Near Facts of Interest to Evening Herald Readers

The main thing in the life of many Americans is, admittedly, the search for money. All have their particular ways of extracting the necessary legal tender from their fellow men. Some of these means are more efficient and more satisfactory than others, so much so that some Americans don't have to worry after their system gets going. Others plug away at the only means they have of getting the long green and because of a faulty plan or system are always behind.

The success which one attains in this process of extraction depends largely on one's environment. The man who hasn't the opportunity afforded him naturally cannot grasp the chance. Some men are always "Johnny on the Spot" when a chance is there.

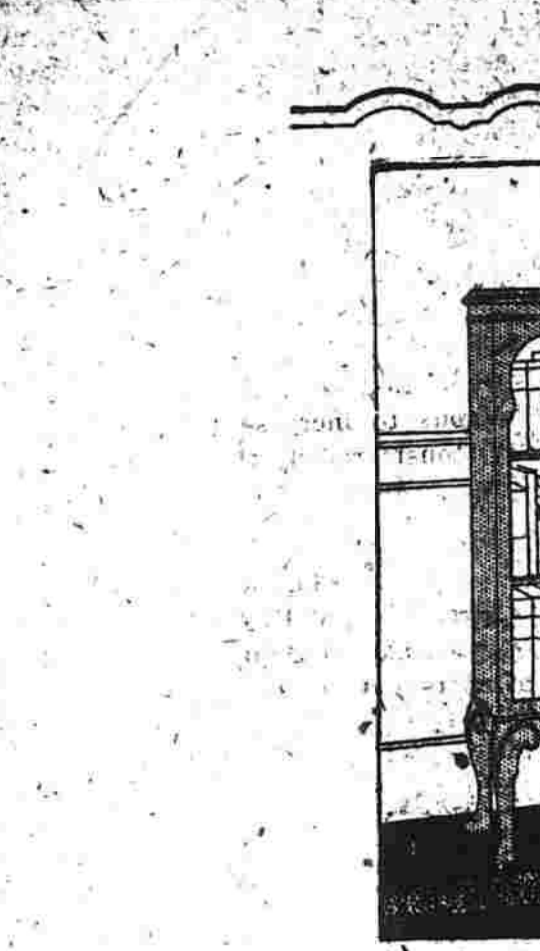

After glancing over some of Manchester's well-to-do men, it is easy to point out those men who know a good change and take it. Again, one can easily determine those who are on the right spot at the right time. There are some in and around town who have ingenious ways all their own for getting U. S. currency. They earn it. They take these means of getting the money and they are justly entitled to it.

One man in particular who lives just outside of Manchester has a scheme which would be worth a patent. Near his place there is a steep hill. The road is bad at all times and especially so in bad weather. Many autos pass there, and many of them don't. Those in the latter class pass as far as this point in the road as the house of the pad, respectively. The man in question is on the spot. He has a plan to drive his auto up the hill by means of a cable. The plan is to have a cable run up the hill. The man who has the plan is a farmer. They ask the owner of the land to give them a lift. Many are somewhat surprised at his answer. Others take it nonchalantly. It all depends upon the make of the car that is stuck. The answer is without an exception, "Yes. For three dollars." Some accept, others don't. If they don't accept the driver shifts full speed ahead to his own and the auto stays where it is. Almost always the farmer, for such he is, is called back by those who at first refused to pay the required fee, and instructed to haul the auto out of his rut or whatever holds it. The farmer demands prepayment.

This is a plan which could not have been practiced if the farmer had not lived where he does. It was his fortune to land there. Thus it is with many and isn't with many more.

The blight that has destroyed the chestnut trees has certainly been complete. Today chestnuts are as scarce as hen's eggs. There was a time when the selling of chestnuts furnished quite a little revenue for the boys who cared to go into the woods after them. The nuts at this season of the year were to be found on sale at many of the grocery stores and by most of the peanut vendors in the larger cities. J. M. Burke, the Spruce street grocer, was the headquarters for the sale of chestnuts. He used to advertise for 500 bushels and he could get rid of all the chestnuts the boys and farmers could deliver to him. The truth is that the chestnut is a thing of the past and the few that there are to be had the people are very chary about buying because of the deadly blight that has overtaken the trees.

The people as a rule have little patience with men of foreign birth who have come to the United States and prospered under the guidance of the most liberal government in the face of the earth, who in the time of trouble and war, are like warm in their loyalty to the country of their adoption. We have such men right here in Manchester. We have men who came to Manchester from foreign shores when boys. They admit that when they struck this country they had scarcely more than enough to land them here. They admit too that they have prospered because of the opportunities offered right in Manchester, and some of them have become well-to-do. But now that this country is at war with

What do you need for your home?

THIS year give new interest to your living-room by the addition of an inviting chair, or of an attractive bookcase to hold your summer accumulation of books. You are sure to find exactly what you want for your special problem among our splendid new pieces from Berkeley & Gay. They are unusually fine modern adaptations of other-day furniture masterpieces. Homelike and beautiful, these pieces will charm you by their gracious design, their richly mellowed wood tone. You will love to live with this furniture and, after all, that is the real test.

GRAND DUKE NICHOLAS REPORTED A FUGITIVE.

It has been reported at Copenhagen that the Grand Duke Nicholas, uncle of the Czar and former commander-in-chief of the Russian armies, has escaped from his estate in the Caucasus, where he retired after the revolution and where he had been practically held a prisoner of the provisional government. The dispatch comes from the Helsingfors correspondent of the Politiken, who says that the rumors persist in Petrograd that the Grand Duke is a fugitive.

INCREASE IN MUNITIONS IS PLAN OF ENGINEERS

St. Louis, Mo., Oct. 10.—Increasing the country's production of sulphuric acid by 2,000,000 tons, which can be made possible chiefly through the greater production of pyrites in this country, will be one of the principal war services of the American Institute of Mining Engineers, according to plans discussed at the second day's session of the Institute, which is in convention here. Sulphuric acid, besides being a prime requisite in the making of munitions, is important as a fertilizer ingredient and to the chemical industry.

Government authorities at Washington have informed the Institute that 6,250,000 tons of sulphuric acid were produced in this country last year, and in order to prosecute the war without handicap in this country it is necessary to increase this production to 8,000,000 tons during 1917. The principal pyrites mines are now located in Virginia, California and New York, but on account of transportation difficulties the California deposit is almost unavailable. Last year 40 per cent of the sulphuric acid production came from pyrites

shipped from Spain, 6 per cent from Canada, 13 per cent from domestic pyrites, 22 per cent from smelter acid, and 19 per cent from native sulphur.

The country's pyrites supply is said by the mining engineers to be only second in importance to increasing the supply of manganese ores for the American steel industry. The conservation of this mineral and methods to increase production are also considered by the Institute.

WOMAN INSTRUCTS STUDENT AVIATORS.

Mrs. Alys McKay Bryant is the only woman in Ohio who is training aviators for possible war service. Mrs. Bryant, an exhibition flyer and the widow of Johnny Bryant, an aviator who was killed during a flight four years ago, accepted a position as tutor in the school established here by Tom Benoist for aviators. Benoist died a few months ago and Mrs. Bryant took charge of the school. She has volunteered her services for war, but will not be summoned unless an "emergency" arises.

Use Peterson's Laxative Fig Syrup for strengthening and cleaning the stomach, liver and bowels. Best for children, 25. Adv.

Wedding

Robert J. Risley is building a tobacco warehouse.

Dr. Walter V. Trombley of Boston, is at his home here for a few days.

A daughter was born recently to Mr. and Mrs. Bert Polose.

Frederick Hunter was the weekend guest of his sister, Mrs. Robert Boardman.

Mr. and Mrs. Harold Newberry and son spent the past week in the White mountains.

Announcement is made of the coming marriage of Miss Katherine Daly, daughter of Mr. and Mrs. Robert Daly to Frank P. Gilligan of Windsor.

Miss Serena Tuttle has resigned her position in the Rye street school, her place being filled by Miss Henrietta Schader, and Miss J. P. McLaughlin has taken Miss Schader's place.

Miss Ella Deane of Hartford has been the recent guest of Miss Katherine Troy.

Miss Lula Tuttle has entered Tufts college.

Mr. and Mrs. Walter Billings have moved from W. C. Hill's house to the Dikie place.

Miss Dorothy Smith of Brooklyn, N. Y., is the guest of her grandmother, Mrs. F. W. Foster.

Miss Helen Miner has returned from Philadelphia, Pa., where she has been the guest of Mr. and Mrs. Harold Miner.

Sunday, October 7, was observed as rally Sunday in the Congregational church. There was an unusually large attendance. The sermon was preached by Rev. Joel English.

A social was given Monday evening by the Epworth League and Christian Endeavor societies.

The War Library fund has been taken care of in this community by collecting in the different districts. The following has been reported:

M. D. Sullivan, \$18.05; H. Sadd, Rye street district, \$18.05; Mrs. W. N. Foster and Mrs. G. A. Foster, East district, \$13.75; Frank Grant and L. T. Dewey, South district, \$3.55; H. B. Preston, North district, \$5.75; Mrs. F. M. Darr, \$2.75; J. E. Priestly, \$3.75; Center school, \$3.75.

Mrs. Henry Carter Smith spent the week-end at her home in this place.

Howard West and family of Rockville spent Sunday with relatives here.

Gen. Byng, retiring from the command of the Canadians in France, should be succeeded by Gen. Bang, to comport with the fighting spirit of those troops.—Concord Monitor.

Do not suffer with a cold. Use Peterson's Knox-a-Cold Tablets, 25c. Adv.

STATEMENT OF OWNERSHIP, MANAGEMENT, CIRCULATION, REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, OF MANCHESTER-EVENING HERALD, PUBLISHED DAILY EXCEPT SUNDAY AT MANCHESTER, CONNECTICUT, FOR OCTOBER 1, 1917.

I, Before me, a notary public in and for the State of Connecticut, County of Hartford, personally appeared E. Hugh Crosby, who, having been duly sworn according to law, deposes and says that he is the business manager of The Manchester Evening Herald, and that the following is the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business manager are: Publisher—The Herald Printing Co., Inc., Manchester, Conn.; Editor—Elwood S. Ella, Manchester, Conn.; Managing Editor—Elwood S. Ella, Manchester, Conn.; Business Manager—E. Hugh Crosby, Manchester, Conn.

2. That the owners are: Elwood S. Ella, Manchester, Conn.; Thomas Ferguson, Manchester, Conn.; E. Hugh Crosby, Manchester, Conn.; Dennison Talcott, Talcottville, Conn.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

4. That the two paragraphs next above, giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person to whom the stock or bonds are owned or held, as the case may be, in such fiduciary relation, and also that the said two paragraphs contain statements of the full knowledge and belief as to circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

10. That the average number of copies of each issue of this publication which are distributed through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 2,500.

High School Notes

About twenty-five sturdy lads, all students of the local high school, appeared in the Recreation building yesterday and declared their intentions of trying out for the coming season's basketball team. They said they would make good or die in the attempt. They were a strong looking lot, before practice. Not a member of last year's team failed to appear. There was material enough for four teams. The underclass aspirants were out in two teams and they practiced together. The remaining recruits made up the first and second teams and they worked together. They were put through some hard training by Coach Mueller and there was satisfaction everywhere. Manager McKay has not yet completed the season's schedule but when it is completed it will be published.

The following notice should be read by all who do not care for agony. The notice reads:

The Keating Falsetto Singing Orchestra will hold its first practice Friday. The following members are requested to be present: Director, "Falsetto" Keating, "Father" McKinney, bass; drummer, "Mert" Strickland, snare; drummer, "Gazzazza" Lamenzo, piccolo, "Hayfoot" Strant, organist, "Ding" Schuetz, saxophone, "Kid" Krause, violinist; quartet, "Deacon" Trotter, first tenor, "Falsetto" Keating, second tenor, "Murmurs" McKay, first bass, "Count de" Gordon, second bass; staff, "Ernie" Williams, manager, "Art" Knofo, drum stick carrier, "Nosy" Howes, instrument cleaner, "Windy" Richmond, property man, "Jackie" Herr, errand boy. It is especially important that the staff be present. It is requested that the manager take all the abuse accorded him by the orchestra. The manager is anxious to receive suggestions regarding this orchestra. The organization is new and the manager wants instruments of the right blend. All communications should be addressed to the Manager, 26 Squirrel street, Nutville, Conn.

WHERE RAT TAILS ARE COLLECTED FOR 100 EACH

reaping a harvest of spare change as a result of the health department's bounty of ten cents each on rats. Fearing that the rodents might overrun the neighborhood adjacent to the city dump at Monroe and Twentieth streets, the commissioners decided upon the ten-cent bounty to be paid for each rat "tail" brought in, and as a precautionary measure against disease. One youthful "chaser" has already collected for 140 "tails."

In 1875, when France was recovering from the war of 1870-71, the German government, or at least the military part, it was said, was proposing to crush her once more. When Delane became satisfied as to the accuracy of the report, he published, on May 6, the story. "The effect produced by the revelation of the German plot was instantaneous, universal and profound. Both the

A GOOD FRIEND

A good friend stands by you when in need. Manchester people tell how Doan's Kidney Pills have stood the test. J. W. Treat of 38 William St., Manchester, says: "Doan's Kidney Pills relieved me of a distressing pain across the small of my back that had annoyed me for a long time. Since then, I have had occasional attacks of backache when I have caught from over-exertion times a few days. This has never given March 17, 1907." On April 29, 1916, Mr. Treat says: "I still think as much of Doan's Kidney Pills now as when I first recommended them. I have told a great many people about them." Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Treat had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

MAY SPEND HALF LOAN BEFORE IT IS GOTTEN

(Continued from Page 1.)

for the second Liberty Loan Bonds, now selling. The government is spending money at the rate of practically \$50,000,000 a day and the cash it is receiving from the sale of these certificates will be gone by the time the loan proceeds are paid in, so this will leave of the loan proceeds \$1,450,000,000 in new money to come to the Treasury from the second Liberty loan, unless the loan is greatly over-subscribed.

Hence, Over-subscription Is Used. For this reason the government officials are hopeful that from \$6,000,000,000 to \$8,000,000,000 in bonds will be bought by the people. Such a large amount of funds to pay the interest on Prussianism is enough money to keep the war machine well oiled for some weeks.

numberless shell craters dotting the field into miniature lakes. Despite the obstacles presented by the swampy condition of the field and the obstinate resistance which the Germans put up at some points British and French troops behaved splendidly, overrunning all the objectives set for them by Field Marshal Haig.

To Hips in Mire. At some points the attackers sank to their hips, and there were many occasions when men, helpless from wounds, were smothered to death by the slime and water which engulfed them when they fell.

This is "Allies' Day" and all of England and France ring with praise of their brave soldiers.

The Australians, in particular, distinguished themselves. They attacked along the center, and so impetuous was their advance that it carried them clear down the eastern slope of Passchendaele Ridge.

But no less brave were the soldiers from Wales, Scotland, Ireland, England, Canada and New Zealand and the French.

The flare up of fighting took place on historic ground. It was in this very district that the Belgians and the handful of British and French stopped the German hordes, under von Kluck in 1914, when it looked as though the Teutons would break through to the channel coast and take Dunkirk and Calais.

DIVISION OF U. S. OIL AMONG ALLIES A PROBLEM

Representatives of Standard Oil, Navy Department, British Mission, Etc., Confer.

Washington, Oct. 10.—Division of America's oil supply among the Allies was the question under discussion here today. Huge shipments of oil, which have been made to Europe since the outbreak of the war may have to be curtailed to some extent. Allied mission members, however, have declared that their naval operations will have to be curtailed if their oil supply is curtailed. It is claimed that France is operating a large part of her vessels on petroleum and Italy is doing the same.

Members of the shipping board want a large supply of oil kept in this country for the use of the American merchant marine, which will be on the water within a few months. The United States navy is also loud in its claims that its oil needs are increasing every day. To the view of settling the question of oil distribution a joint conference is under way here today.

Prominent Men Confer. Edward N. Hurley, chairman of the shipping board, controls the situation. Through the chartering board of the shipping board Chairman Hurley can control the operations of the oil tank vessels, which are now carrying oil to Europe. Meeting with Chairman Hurley are representatives of the Navy Department, Sir Frederick Black of the British Mission, representing the allied countries and A. C. Bedford, of the Standard Oil company.

ELOPED WITH CHINAMAN; NOW THOUGHT MURDERED

Another Elsie Stegel Case Suspected by Chicago Police, Who Are Investigating.

Chicago, Oct. 10.—New York detectives and government agents are coming into Chicago today to search for Vivinia Collier, 16 years old, New York girl who disappeared after eloping across the Pacific with Lee Moy, a highly educated Chinese. A Chinatown murder mystery that may parallel the famous Elsie Stegel case is suspected by the police.

Moy, who is held by immigration authorities at New York on the technical charge of entering the United States without a permit, is alleged to have told detectives the girl would be found at 6110 West Sixty-first street, Chicago. That address has been found to be a vacant lot.

The girl, who was interested in settlement work, eloped with Moy more than a year ago. It is declared, the couple going to Hong Kong and later returning to Chicago. Moy is declared to have told the police the last he saw of the girl was when she left him in Chicago two months ago to go to New York to visit her parents.

BIG FALLING OFF IN AUTO EXPORT TRADE

Washington, Oct. 10.—Figures made public today by the Department of Commerce show there was a big falling off in the exports of American built automobiles in August as compared with the same month of last year.

In August last year, 338 commercial trucks, valued at \$2,289,307, and 3,897 pleasure cars, valued at \$5,383,354, together with parts, not including engines and tires, were shipped abroad. For the same month of last year the exports amounted to 1,565 trucks, valued at \$4,412,158; 5,254 pleasure cars, valued at \$3,574,465; while the export of parts amounted to \$2,051,895.

During the eight months ended August, the total exports of trucks, pleasure cars and parts dropped from \$79,867,129 in 1916 to \$76,347,278 in 1917.

TWO NEW CLUB HOUSES FOR CAMP DEVENS BOYS

Camp Devens, Ayer, Oct. 10.—Now that the military authorities at Camp Devens are in accord with the War Department Commission on Training Camp Activities will begin work immediately upon the construction of two club houses for the soldiers in the town of Ayer.

It is the beginning of a number of community recreation institutions which will be established in Ayer and other communities which will be called upon daily to absorb the men from Camp Devens and other training camps throughout the country.

Work has been under way for some time in the club house that is being constructed on West street, in the heart of the business section of Ayer. This club will be a three-story structure and will cost \$40,000. The other club will be located on a hill near the banks of Robbins' pond, just outside of the cantonment. It will be built at the cost of \$50,000.

Strangely enough, all this work is being pushed without any fund to draw from. A number of patriotic men have underwritten the clubs and they are later to be reimbursed by the War Camp Community Recreation Fund, which will be launched during the week ending Oct. 5 to 11. It will be a fund to raise \$3 for every man now in the army and navy. New England alone for a quota of \$700,000, while Boston must raise \$200,000.

APPOINTED MILITARY INSTRUCTOR AT HARVARD

Washington, Oct. 10.—Major Wm. F. Flynn, U. S. A., retired, was today relieved from duty in the office of the depot quartermaster at Boston and assigned as professor of military science and tactics at Harvard University.

PREPARING FOR CAMPAIGN. The advertising and publicity committee for the local Liberty Loan campaign is today arranging with the principal merchants of Manchester to arrange window displays, advertising the second loan. The movie theaters will install this week electrical signs and Charles Sweet, the bill poster, will use some of his space also to advertise the worthy cause.

RUSSIAN RADICALS CONTROL Petrograd, Oct. 10.—The Bolsheviks, (The Radicals), have gained control of the Petrograd executive committee of the Council of Workmen's and Soldiers' Delegates. Hitherto the Moderate Socialist element was in control. Tschedak has been deposed as President of the Council and the Maxamilla Trozky, (Bronstein) has been chosen to succeed him.

MAKE LESS CANDY TO SAVE SUGAR. Cleveland, Ohio, Oct. 10.—Fourteen candy manufacturers started a new working schedule today, entirely cutting off their night shifts and reducing their output in order to conserve sugar.

PLOT EXAGGERATED. Amsterdam, Oct. 10.—Rumors circulated in Germany that a revolutionary plot had been unearthed in the navy, involving independent Socialists, including Deputy Haase, were greatly exaggerated. Minister of Marine Capelle, informed the Reichstag, according to a telegram from Berlin today. While refusing to give details, the minister stated that "the plotters had been summarily dealt with."

ABOLISH TROUSER CUFFS. Youngstown, Ohio, Oct. 10.—Trouser cuffs and pinch back coats are a waste of material and must be abolished, says Herman C. Ritter, president of the National Association of Retail Clothiers, home from a conference with the Council of National Defense Economy Board.

SMOKES COST MORE. Another one of man's luxuries took a jump in price today. Cigars, beginning today, are more costly than ever before. Five cent cigars are now six, ten centers, twelve and regular fifteen cent smokes are now 16, 18 and 20 cents. The wholesalers say it is necessary to raise the price because of the increased cost of putting out the cigars and because of revenue tax imposed upon them.

STEELS AND COPPERS YIELD UNDER PRESSURE

New York, Oct. 10.—After a week opening today the stock market rallied under a general buying movement.

Steel Common was up 1/2 at 108 and Bethlehem Steel advanced 1/2 to 85 1/2. The other steel stocks also showed fractional gains. United Cigar Stores was up 1/2 at 102, after an opening loss of 1/2. Atlantic Gulf and W. I. declined one point to 99.

The copper and railroad shares were fractionally higher. A heavy tone prevailed in the late forenoon. The public utilities issues were the most prominent. Consolidated Gas declined 5/8 points to 82 1/2. Ohio Cities Gas declined to 31 1/2, but later rallied to 34 1/2. Texas company dropped six points to 126.

Anaconda declined 1 1/2 to 66 1/2 and Utah 1 1/2 to 83 1/2. Steel Common dropped from 106 to 104 1/2, followed by a rally to 105 1/2. Bethlehem Steel B declined 2 1/2 to 81, another new low record. Declines ranging from one to three points in other issues were noted.

New York, Oct. 10.—The heavy break in the prices of public utilities in the forenoon was followed by liquidation and bear drives on the stock market, this afternoon, against many of the leading industrials, when United States Steel Common had a sudden break of nearly three points to 103 1/2 and Bethlehem Steel B again lowered its record selling down 3/4 to 80.

United Cigar Stores fell three points to 98 and Midvale yielded three points to 44 1/2, a new low record. The minor steel industrials lost one to two points and copper stocks sustained about the same decline.

Marine issues, which had been fairly well held, also suffered severe losses with Marine Preferred dropping two points and Atlantic Gulf falling three points.

Money loaning at 3 1/2 per cent. New York, Oct. 10.—There was a steady tone at the opening of the cotton market today, October, on one transaction, showing a gain of 47 points, but other months were five points lower to five points higher at times.

After the call the buying increased and within a few minutes prices advanced 1 1/2 to 20 points.

THE WAR CORNER

News From Manchester Men Who Are Serving Uncle Sam on Land and Sea

THE EVENING HERALD, eager to gather every bit of news of our soldier boys, wherever they may be, invites its readers to contribute personals, portions of letters, and any information about them they may possess. Such portions of letters as are personal or which may give information to the enemy, will, of course, not be published.

The Manchester Killies were hard hit by the coming of the Black Watch company to Hartford as three members Frank and Joseph Taggard and James McCaughey have joined the British army because of the visit of the famous Canadian Highlanders. Dave Holland, another member, tried to join but he was too young.

The Killies will hold a special meeting on Thursday evening at the Lincoln school to see if they can fill up their ranks. William Thornton of the 101st Machine Gun Battalion visited his parents last Saturday afternoon, while the football team of his battalion was playing Trinity college in Hartford. His brother Samuel was left on guard Saturday, but he came home Saturday evening and went back Sunday. About all of the Manchester boys in the battalion made short visits to their homes while the battalion was on a furlough, because of the football game.

A party consisting of James C. Robinson, Michael Holloran, Robert Curran, Frank Taggard, William Wilson and Leo Schendel, went to Camp Devens Sunday to visit the Manchester boys and more particularly "Pete" Curran, to whom they presented a wrist watch and a generous stock of tobacco. The visitors report that the Manchester boys in camp are looking unusually well and healthy.

Sergeant John Benson of Company G paid an unexpected visit to his parents, Mr. and Mrs. Ezekiel Benson of Main street Sunday evening. He arrived about seven o'clock and had to leave for camp Monday. Two names have been added to The Herald's Roll of Honor; Private Harrison Wilson, who joined the regular army September 8, 1917, and George Smith, who enlisted in the navy, September 24, 1917.

Hugh Torrance of Newman street, who enlisted in the Canadian army in the summer of 1915, was a member of the famous Black Watch Regiment of Highlanders, of which the company visiting Hartford Monday was a part. While he was not in the same company, the captain of that company knew him well. Torrance was wounded in the British drive in July, 1916 and spent some time in New England and Scotland recuperating. He is now in some lighter service somewhere in England. His mother has been ill for the past three months and the family has been making every effort possible to secure a furlough for him.

BERNSTORFF PLOTTED TO WRECK "C. P." ROAD

(Continued from Page 1.)

you to convey this message to them. The State Department declines to elaborate on the series of telegrams. Secretary Lansing declared that they spoke for themselves and that there was nothing to add to them.

No information was forthcoming as to how they were transmitted between Berlin and Washington. Officials contented themselves with saying that they were not transmitted through the wireless station by deception practices on this government. It was generally assumed that these messages like others of like nature, were sent forward through a neutral diplomatic channel.

O'Leary Denies Implicitly. New York, Oct. 10.—Denying emphatically that he has ever had any connection or relations with Count von Bernstorff or any other agent of the German government, Jeremiah O'Leary today declared that he had no knowledge of the attempt of the German government to use him in carrying on the sabotage in this country and Canada.

"This is the first time I have heard of it," O'Leary said. "Of course, the German Foreign Office could naturally hold any opinion in regard to its ability to use me in such schemes. But I wish to state emphatically that I was not approached by Count von Bernstorff or any of his agents."

Is "Pro-American." "Furthermore, I would like to make it clear that I would consider such a suggestion from the German Foreign Office a gross insult. All my affairs are being conducted along strictly American lines. There is absolutely nothing pro-German about me. I am pro-American and have no intention of hindering the affairs of the United States or the Administration at Washington."

"I have always made it a point never to have any dealing with any German agents if I could detect them. But they have to be watched carefully, because they are ever ready to approach us under disguise." The embargo conference mentioned in Count von Bernstorff's last cable was organized in Chicago. It had for its avowed object securing the declaration of an embargo on munition exports by the United States government. It sent a committee to Washington to confer with Senators and Representatives. One of the developments was the introduction by Representative McLamore, of Texas, of his resolution which was designed to warn American citizens not to take passage on armed ships.

When the bugles are loudly calling, And the colors move to the front, When our own brave lads may be falling, In the fight at the battle front— In the ranks of death you will find her, Sharing the soldiers' woes, While farewell words from the bleeding hearts Will bless the "Red Cross Rose."

This fearless angel of mercy Will not from her post depart 'Though lead from the foeman's rifle Pierce the depth of her tender heart. She will follow her flag with devotion Where war's Red River flows, And "Columbia, the Gem of the Ocean," Will honor the "Red Cross Rose."

Now the bugles are loudly calling, And the colors are going to the front Soon our own brave boys may be falling, In the heat of the battle front, Through the ranks of death will be roving, Healing the soldiers' woes, Checking the flow from the bleeding heart. The faithful "Red Cross Rose."

The New Liberty Loan

We unhesitatingly recommend and urge the purchase of the new Liberty Loan, believing that investors should place in these bonds all the able up to the date of the last installment—the 15th of January, 1918. funds which they may now have on hand or which they may have available.

These bonds should be purchased not only for patriotic reasons, but because the investment is one of unusual merit. In subscribing to Liberty Bonds you are loaning money to the United States government and thus obtaining an investment which possesses the greatest possible security. You are obtaining an income of 4 per cent. You are practically insured against market depreciation, for there attaches to these bonds a conversion privilege giving you the right to convert them into higher-rate bonds if and when higher-rate bonds are next issued during the war.

Whatever your income may be, you would be exempt from all taxes on the principal and income of \$5,000 bonds of this issue. You would also be exempt on an amount in excess of \$5,000 par value, except that the income would be subject to surtaxes, excess profits and war-profits taxes.

THE HERALD PRINTING COMPANY.

GIANTS AND WHITE SIX READY FOR THIRD WORLD SERIES GAME

New York, Oct. 10.—Prospects were fair for the playing of the third world's series game between the Giants and White Sox here today, and although football weather was on tap early in the day the weather forecast, predicting rising temperature and friendly southern winds, encouraged the fans.

Both clubs enjoyed the extra day of rest which was forced upon them by Tuesday's rainstorm, and both were ready by it. If anything, the Giants got the better of the layoff, for they needed it most.

McGraw said today that his team was impatient to make a new start. Every one of the pitchers have rested up by now, and the members of the team have had ample time to regain their mental equilibrium, which was somewhat shaken by the double defeat handed them in Chicago.

Giants Still Hopeful.
The Giants have not given up hope. They believe that what is possible for the Sox to accomplish is not an impossibility for them, and they hope to even up matters by taking both of the games scheduled here.

In predicting better things for

their favorites, Giant fans are console themselves with the argument that New York had no business to lose the second game in Chicago and that Sallee was unfortunate in losing the first one.

This same Sallee, they believe, will come back by handing the White Sox a crushing defeat. His easy, swinging southpaw delivery had the Sox batsmen worried in the first game, and on the Polo Grounds, it is argued, he will be even better, for the diamond is more of a turtle back, and Sai's slippery shoots will swoop down from a higher angle.

Expect Sallee In Box.
Although McGraw refused to drop a hint regarding his pitching selection, Sallee was picked by a majority and Rowland stuck to his announcement that Cicotte was his pitching choice for the third game.

"I believe two pitchers may be enough to win this series," said Rowland, "and the White Sox will certainly not take chances as long as they are winning." All of which means that Red Faber will come back at the Giants in the fourth game.

McCarthy Out.
The announcement that Lew McCarthy's wrenched shoulder will probably keep him out of the remaining games of the series is a blow to the Giants. McCarthy's work with the stick will be missed, for although Raridan is a good catcher, he is not the hitter McCarthy is. So with Schalk in their line up the White Sox are going to have a big advantage behind the bat in the remaining games.

The winning of today's game is all-important to both teams. A Giant victory will put McGraw's team in a position where it may tie the Sox.

A White Sox victory will practically put the world's championship on the ice.

Sox Still Favored.
That the White Sox will be the winners in the end is the general belief now, for regardless of all the points which have been advanced on behalf of the Giants, the fact remains that the Chicago club won two games of ball from the men of McGraw and won them by clean, wholesome baseball, not through any fluke.

A strong point in favor of the White Sox is the fact that their substitute or second string players are much stronger than those of the Giants. The playing of Fred McMullen at third base, for instance, is a proof of the class of Rowland's reserve strength. McMullen's playing in the first two games was looked upon by many critics as an outstanding feature, and it was certainly a great satisfaction to Rowland.

Speculators Balked.
New York, Oct. 10.—Ticket speculators in New York have been effectively balked in this year's world's series for the first time in many years, it was said here today.

The fact that many of the "specs" lined up at the grand stand and bleacher exits at the Polo Grounds and offered to purchase rain checks after Tuesday's game was called off is pointed to as evidence. There were several arrests of speculators who were trying to purchase the rain checks.

FIRST U. S. CAMP NEWSPAPER APPEARS
The Post-Exchange, the weekly paper published by the men of the army ambulance training camp at Allentown, Pa., is one of the first, if not the first paper to be published in any of the camps since the United States entered the war.

It is a six page, eight column paper and appears each Saturday morning. The staff of six men editing it is made up of W. W. Farles, University of Pennsylvania, ed-

itor; William C. Moss, University of Virginia, managing editor; Basil L. Walters, city editor, University of Indiana; Clifford T. Warner, sporting editor, University of Indiana; David Kelley, University of Michigan, business manager; Sam Botzky, New York University, advertising manager.

The paper has its field among the 3,000 college men in the training camp and has a circulation of 4,000 copies a week. The men buy the paper and afterwards send it home as a "letter." Advertising sells at forty cents an inch and is regarded as a good investment both by the merchants of Allentown and national advertisers.

The pages of the paper are enlivened by snappy features, art work and the latest camp news. When the camp football games are played on Friday afternoon, the paper makes its appearance as an "extra" carrying the story of the game, play by play, in less than half an hour after the close of the game.

Present plans are for the paper to be published this winter in this city and to publish it in a slightly smaller form in France next summer, providing the war continues for a year or more. The paper is a money making venture and clears a good sum each week. Its profits are turned over to the camp and are divided equally among the 160 ambulance sections.

The men who edit the paper are relieved from all drill duties and spend their entire time down town in an Allentown newspaper office, where the Post-Exchange is printed. Here the ambulance boys get the regular newspaper atmosphere, with paste, typewriters, sheets and the noise of the press in the room.

Beautiful 1918 Maxwell Now On Exhibition

Without altering the world champion motor, the famous perfected clutch and transmission or the mighty axles, the Maxwell builders have produced a new wonder car, far superior in construction and in appearance to anything yet turned out by the Maxwell factories—we have this new and beautiful car—come and see it.

The car is larger and roomier, for one thing—the wheel-base has been increased six inches.

It is also a stronger and more rigid machine for the road.

The frame is now six inches instead of three inches deep.

And the body rests directly on this powerful frame instead of on brackets extending from the sides, as in the past.

Do you know what that means?

It means this: The firmness with which the wheels grip the road and the steadiness of the car at high speed give you a sense of security such as you have been able to enjoy before only in cars shackled with a battery of shock absorbers.

This New Car Light

There's a marvel of engineering.

The car is made bigger and lighter.

This means greater ease and

Touring Car

More than that—it means greater economy.

And the Maxwell before was the most economical 5-passenger car in the world.

Compensating underslung rear springs—the last word in spring suspension—mark this wonderful Maxwell of 1918.

They mean greater comfort—greater economy, by lessening wear and tear on the car.

Maxwell Now Has the Style of the Costliest Cars

The new Maxwell is a car of great beauty.

It has a sloped windshield and rakish lines never before produced in any car costing less than \$1200.

Its good looks now equal its proved mechanical efficiency.

The new upholstery is richer and gives a new comfort.

Inside and out the new 1918 Maxwell is a perfected car.

We're proud to sell it.

You'll be proud to own one.

MAXWELL

GREEN

STEAL A MARCH ON JACK FROST

Those unexpected cold snaps that always come before the furnace is running or the stove is set up, keep a Perfection Oil Heater handy. It gives quick, steady, portable heat.

Makes a cold room cozy in no time. Gives eight hours of glowing, comforting heat for every gallon of fuel. Particularly economical when coal and wood are high.

Used to give the final touch of comfort in 3,000,000 homes.

The new No. 500 Perfection Heater Wick comes trimmed and burned off, ready for use. Makes re-wicking easy.

For best results use So-CO-ny Kerosene.

Manufacturers of Lapidolith, the liquid chemical hardener for concrete floors.

without meat one day in each week that we will save 2,200,000,000 pounds in a year.

"I want now to acknowledge the patriotic spirit with which the hotels and restaurants have taken up the conservation days. We have a check on them, of course, and we know that the hotel or restaurant which served meat on Tuesday was the exception in nearly every city and town in the state. Many of them have gone to some expense, and all have made personal sacrifices. It would be a great aid to us if those who do observe the day would report violations by others.

"Although we have no way to count them, we know also that thousands of private homes have established the meatless Tuesday.

"I would like to correct an impression which I find is general in some parts of the state that poultry is not included in the meats to be saved. Meatless Tuesday means no meat. The Federal Food Administration is urging the eating of more poultry, but as a substitute for beef, mutton and pork on the other days of the week. If we are to observe the meatless day we must do it literally."

When one of those Zeppelins that tackled London was "brought to the earth in flames in the neighborhood of Potter's bar," Potter's bar must have done a great little business among the innocent bystanders—Paterson, N. J., Call.

ABOUT TOWN

TONIGHT IN MANCHESTER.
 Red Cross meeting, assembly hall, Home Guard drill.
 Grange, Thompson's bungalow.
 Memorial Lodge, K. of P., Orange hall.
 Manchester Lodge of Moose, Foresters' hall.
 Spanish War Veterans, Armory.
 Earl Roberts Lodge, Sons of St. George, Tinker hall.
 Circle Theater, "The Slave Market."
 Park Theater, "The Silent Witness."
Lighting Up Time.
 Auto lamps should be lighted at 5:50 p. m.
 The sun rose at 5:57 a. m.
 The sun sets at 5:20 p. m.

A wire down in Vernon caused a slight delay in traffic on the Interurban lines last evening.

The Big Five Dancing school will hold its weekly session in Tinker hall tonight.

The Stafford fair will open today and continue through tomorrow and Friday.

Mrs. Charles Taylor and Mrs. C. I. Balch left yesterday for Spring Hill, Pa., to attend the funeral of their brother-in-law.

William Rubnow of Rubnow's Specialty Shop returned last evening from a two days' business trip to New York.

Mrs. Loyden Clark is a delegate to the Ever Ready Circle of King's Daughters convention to be held in Danbury today and tomorrow.

Crowds continued to inspect Watkins Brothers store last evening. The store is celebrating its forty-third birthday.

Mrs. William Barrett and daughter, Mrs. Chesnut street have returned from a visit to Wrightstown, N. J. While there they visited the concentration camp which is situated in that place.

Charles Hines of Union street has bought a one family house on North School street from Bosco and Smith and will move his family there this week. This is one of the houses recently bought by Messrs. Bosco and Smith from the Cowles estate.

The official board of the South Methodist church will give a reception to the church choir Friday evening, October 19. A program, to include an address by Professor Carl P. Harrington of Wesleyan, who wrote some of the hymns in the Methodist church hymnal, is being arranged.

All members of the local Red Cross chapter and any others interested are invited to attend the annual meeting of the chapter in the High school hall at eight o'clock this evening.

Whistles and bells in Manchester seem to be on the strike these days, especially the bells. The town clock at midnight last night startled belated pedestrians by striking 66 at the midnight hour.

Pupils of the Rockville balloon school made a night flight yesterday morning, starting at 3 o'clock and landing in Guilford on the shore of the Sound about 6 o'clock. The start and finish were both made in the rain.

Mr. and Mrs. J. T. Robertson who have been in Syracuse and points in Canada for the last ten days, are expected home tomorrow morning. Joseph Lutz, who came here to work yesterday morning, became intoxicated and was arrested by Chief of Police Gordon and in court this morning he was fined \$3 and costs. He was given time to pay.

The local Equal Franchise League has donated the price of one of the emergency cots asked for by the local Red Cross chapter. Miss Mary Cheney bought the other. There are still two to procure and it is hoped that they will be secured at tonight's meeting of the Red Cross.

The Center Flute band is planning to make its coming Hallowe'en social and Irish tea party an event that will long be remembered in Manchester. The tickets for the affair are selling rapidly and the various committees are at work with a will to give something a little out of the ordinary in the way of entertainment. Aside from the local talent several out of town parties will have a part in the program. The public can surely rely on a jolly good time. At the Hallowe'en social last year the Orange hall was crowded.

ROBERTSON HOME SOLD TO WELLS STRICKLAND

One of the Most Beautiful Residences in North End Changes Hands Today

An important real estate transaction was put through this noon when Herbert F. Robertson sold his home on Oakland street to Wells Strickland of Addison. This beautiful home was built for Mr. Robertson a few years ago by the late Contractor White and is without doubt one of the most elaborate houses at the north end of the town. When The J. T. Robertson Company moved its plant to Syracuse Herbert went to that city to live and since that time the house has been unoccupied. He did not care to rent the house.

The house is on the east side of the street and on an elevation so that it presents a good appearance. The grounds about the house are well laid out and substantial walks lead up to the house from the street. Mr. Strickland expects to move to Manchester at once and occupy his new home. He has been in the lumber business and also does farming. The sale of the place was made by Robert J. Smith.

BULLETIN BOARDS HERE.

Will Have on Them Important Information of War's Progress.

Bulletin boards have been distributed in several places in town today. These boards will be in charge of the men at whose places they have been placed and will give much information from time to time about the progress of the war.

They are placed all over the state by the Council of Defense and will in a short time give the honor roll of Manchester. That is the names of every person who has gone from Manchester in the service of his country will be placed on the boards. It is estimated that this number will go over the three hundred mark.

These boards have been placed at the south end post office, the north end post office, the Recreation building and at the Buckland and Manchester Green post offices.

Every girl knows a grandmother, mother or aunt who can knit socks, but it took a world war to convince her she ought to learn how.—Toledo Blade.

EVENING SCHOOLS OPEN HERE MONDAY, OCT. 15

Superintendent Verplanck's Office Open Tomorrow and Friday Nights for Registrations.

Superintendent F. A. Verplanck, who has had charge of the Manchester evening schools for the past nine years, has selected the following faculty members for the sixteenth season, which will open in the high school building Monday evening, October 15:

First year English, Mrs. Florence Hillsburg.

Second Year English, Miss Elizabeth Krapowicz.

Third Year English, Miss Anna Donovan.

Grammar Class, Miss Jessie Woodward.

Cooking, Miss Myra Hunt.

Sewing, Mrs. Charles Laking, Mrs. Michael Barry, Miss Nettie Johnson.

Commercial department:

Bookkeeping, Louis St. C. Burr.

Stenography:

Pitman System, Miss Mary Levy.

Gregg System, Miss Jennie Clark.

Typewriting, Miss Marjorie Dunn.

More teachers will be added to this staff as needed.

It should be of special interest to prospective pupils in the commercial course, that both the Pitman and Gregg systems in stenography are to be taught. Instruction in all the courses in the evening school is free.

Superintendent Verplanck's office in the high school building will be open for registrations from seven to nine o'clock tomorrow and Friday evenings, instead of Friday and Saturday evenings, as previously announced. All prospective pupils are urged to register on one of these two nights, so as to avoid confusion and unnecessary delay in starting work on the opening night.

The school will be in session four nights a week, Monday, Tuesday, Thursday and Friday evenings. There will be 25 sessions in the season.

CONNECTICUT CO. FORCED TO RAISE THE CARFARE

Officials Say That Local Service Could Not Be Improved Before; Town to Profit.

While commuters are saying that the Connecticut company has money to burn, there are proofs in our town which will show that it is suffering from the increased cost of materials. The Connecticut company is not immune from the high cost of living. There are many departments of the corporation which cannot possibly make a profit because of war conditions. Either the fares had to be raised or the service had to suffer. Money was needed, mostly to repair worn out cars and motors.

Practically all the motors used on the trolley cars on the local lines are worn. Orders have been given the various electric manufacturing concerns for the new motors but to no avail. The answer is always the same. They are rushed with war orders and cannot accommodate the company unless at exorbitant prices. The result is that motors that should have been discarded are still in use. If new ones were installed they would run for months without repair and would give excellent service. The old ones are repaired every few weeks and cannot be expected to give good service. The price of a new motor is \$80, and even paying that price it is almost impossible to get them. So the company has decided to pay the price asked and give the public the good service at a slight raise in the fare.

Opportunities for work at the tramway office are excellent. Men are needed on both ends of the cars, motormen and conductors. The reason for this shortage is that men are continually leaving the company because of the ability to obtain work elsewhere with better pay. The men are paid 35 cents an hour and when the new plan begins to show results the men will probably receive more money and help will be more plentiful. This raise in the cost of labor is another of the Connecticut company's reasons for the six-cent fare.

It costs the company more for power than it ever did before. In fact, everything has taken a jump with the Connecticut company as with every other concern.

WOODMEN'S BENEFIT.

At the Park Theater, Friday evening, October 12th, the Modern Woodmen of America, Degree Team Association, will feature an amateur night. Several amateur performers have decided to be included in the program, among them being Miss Gertrude Stone, Miss Julia Fitzgerald and Miss Ruth Stevens. It is expected that several more will advise the committee of their intention of performing on Friday night.

E. M. Ogden, Odd Fellows' building, will be pleased to give full information to anyone desiring to perform on that evening.

Manager Sullivan will furnish the pictures, the feature picture being a five reel Mutual Masterpiece entitled, "Motherhood."

This picture will be shown at the Park Theater on Friday evening only, the show commencing at 7:30 p. m.

Chancellor Michaelis declares that Germany never will consent "to come crawling to the peace table." That is all right, but, on the other hand, Germany scarcely can expect to come swaggering in ready to make a "rough house" of it if her terms are denied.—Oskosh Northwestern.

OUTLAW BOWLING LEAGUE.

Robins Hop to the Uppermost Branch of the League Tree Last Evening.

At the Center alleys last evening the members of the Outlaw Bowling League rolled their weekly games. The bad weather must have affected the scores as no records were broken. In the first series of games, the Robins defeated the Eagles two out of three and in the second series, the Owls beat out the Parrots two out of three. As a result the Robins now perch on the top branch of the league tree and the Parrots pick their feed from the ground. "Bill" Gabby made both high single and high three string scores of the evening with tallies of 105 and 279.

The scores:

Nighthart	82	76	96	254
H. Chapman	89	80	89	258
W. McGonigal	77	93	96	266
248 249 281 778				
Eagles:				
M. Holmes	60	89	83	232
Gabby	83	105	91	279
Wilson	89	85	91	265
232 279 265 776				
Owls:				
Balch	73	88	89	250
J. Chapman	79	77	80	236
Johnston	79	68	82	229
221 233 251 715				
Parrots:				
Flavel	63	67	79	209
J. McGonigal	88	91	78	257
A. Holmes	77	83	93	253
228 241 250 719				
The Standings:				
	W	L	PC.	
Robins	4	2	668	
Eagles	3	3	500	
Owls	3	3	500	
Parrots	2	4	333
