U-Boat Crews "Getting Sicker

ration Between British and
American European Naval
Forces--Troops and Sup-
plies Cross Seas Safely

London, May 24.--"We have the
submarine virtually beaten. Coor-
dination between the fleets of the
allies is a done job. German diver
crews are pretty sick and are get-
ting sicker every day."

Thrusting out a fighting jaw and
snapping his teeth with a determin-
ed click, Admiral Sims, commander-
in-chief of the American naval forces
in European waters, thus summed up
the naval situation today in the Naval
building in Grosvenor Gardens.

The Admiral was loud in his
praise of the Allied sailors and de-
clared that the harmony between
them and the Yankee jacks could
not be more cordial.

Co-operation Fine.
"German U-boats are
beating the Allies' sub-

marine virtually beaten. Coordi-
nation between the fleets of the
allies is a done job. German diver
crews are pretty sick and are get-
ting sicker every day."
(In the long days and nights, in
calm and storm, they do their work
beside the best of the Allied seamen.
They have earned the praise of their
Allied comrades. Should it become
necessary they will die as nobly as
the best.)

(The foregoing is the first inter-
view given out by Admiral Sims
since he was put in command of the
American naval forces in European
waters.)

PRINCE OF CONNAUGHT
REACHES U. S. PORT

Cousin of King George On Way To
Japan on Mission--President Re-
ceives Him This Afternoon.

Connaught, Knight of the Thistle, personal aide-
de-camp to King George V of Eng-
land, and cousin of the King, arriv-
ed at an Atlantic port today, it was
announced by the State Department.
He is on his way to Japan on a spe-
cial mission from the King to the
Emperor of Japan.

His Royal Highness will proceed
at once to Washington and will be
received by President Wilson at the
White House late this afternoon.
Prince Arthur's mission to Japan in-
cludes the presentation of a field
marshal's baton to the Japanese Em-
peror, recently made a field marshal
of the British army by King George.

In addition to the Prince the party
consists of:

Captain The Hon. Joseph St. Clair,
Master of Sinclair, Esquerry to His
Royal Highness; Lieutenant General
Sir William Pulteney, K. C. B., K. C.
M. G., D. S. O.; Major The Earl of
Pembroke and Montgomery, M. V.
O., A. D. C., to General Pulteney;
Captain F. Batt, Quartermaster Third
Battalion Royal Berkshire Regi-
ment; Four Soldier Servants.

The British vessel was met by an
American destroyer and Prince
Arthur was transferred to the Ameri-
can vessel and brought to the dock
here.

Colonel E. M. House was among
the prominent men who met Prince
Arthur at the dock.

HARD COAL COMING?
ANOTHER PROMISE, ANYHOW.

June will see one and one quarter
million tons of hard coal shipped
into New England, says State Fuel
Administrator Russell. At least he
is said to have said so, but we imag-
ine he wouldn't bet on it.

Mr. Russell is said to have brought
a promise to the foregoing effect
from the hard coal committee of the
Federal Fuel Administration, which
has been convening in Philadelphia
in conference with the New England
state administrators.

MRS. STOKES GUILTY.

Mrs. Rose Pastor Stokes was
found guilty last night in Kansas
City, Mo., on all three counts of the
charge of violation of the espionage
act. Mrs. Stokes, who is a well
known Socialist, will move through
her counsel on June 1 for a new
trial, pending which sentence is de-
ferred.

A New Idea.

When all reports of captains and
teams were received this noon,
Cheney hall in Manchester's great
Red Cross drive, it was found that
the grand total had reached the
handsome sum of \$67,162.41. This
comfortably covered the minimum
quota assigned this community but
it still leaves a gap between the sum
pledged and the \$100,000 which
Manchester is determined to secure
for the Red Cross.

Some Large Pledges.
Prolonged cheering greeted the an-
nouncement made by Chairman F.
H. Anderson of several generous
gifts.

As no reports for yesterday were
made until last evening and as to-
day's reports came in at noon The
Herald is swamped with names of
contributors which it has not time to
classify and put in type today. The
names will have to be run in serial
form from day to day until all con-
tributors of \$2 or more have been

How Law Affects Manchester--What
To Do If You Work Here and Live
Somewhere Else.

Governor Holcomb has approved
the action of the local Selective Ser-
vice board in appointing a chief
registrar and members of a board
of registration for Manchester.

Edinburgh, May 24.--"We are on
the eve of a great German attack,
but those who know the prospects
are confident of the result," said
Premier Lloyd George in a speech
here.

British Report.
London, May 24.--The German
lines southwest of La Bassée were
successfully raided by the British
last night, the war office announced
today. Some prisoners were cap-
tured.

The text of the report follows:
"As the result of an enemy raid
yesterday north of Hill No. 70
(north of Lens), a few British sol-
diers were captured."

and the hours will be from
7 o'clock in the morning until 9
p. m.
George H. Waddell will act as
chief registrar and the other mem-
bers of the board are the persons
named in these columns on Wed-
nesday of this week.

RECORD NON-STOP
FLIGHT FOR 783 MILES

Katharine Stinson Flies to Bingham-
ton with U. S. Mail, Then Has to
Descend, Lacking Gasoline.

Binghamton, N. Y., May 24.--Miss
Katharine Stinson, aviatrix, will be
unable to leave Binghamton before 2
o'clock this afternoon on her trip
from Chicago to New York. Lack
of gasoline compelled Miss Stinson
to make a landing north of this city
last evening and a high wind turned
over her machine and resulted in a
broken propeller, as she brought it
to a standstill on a high hill.

But Miss Stinson established a
new American non-stop record by
flying from Chicago to Binghamton,
a distance of 783 miles, without
landing. The aviatrix made an
average speed of 78 miles per hour
for the trip.

Miss Stinson, who is carrying Chi-
cago mail to New York, is waiting
in Binghamton for a new propeller,
which is enroute from Elmira. As
soon as it arrives, Miss Stinson will
continue her trip to New York.

206 DEVENS MEN TRANSFERRED

Camp Devens, May 24.--Two hun-
dred and ninety-six of the graduates
of the third officers' training camp,
all of whom have been recommended
for commissions, have been trans-
ferred out of this cantonment and
will probably receive their commis-
sions within a short time. This
number comprises all of the infan-
try graduates with the exception of
six who are acting as instructors at
the fourth officers' training camp.
The artillery graduates at the third
officers' training camp were sent
away from here before the camp
closed.

It is amazing how promptly the
politicians favored giving a raise to
the New York city school teachers
after they got the ballot.--Paterson
Press Guardian.

"Southwest of La Bassée we
raided out a successful raid last
night and captured some prisoners.
More prisoners were taken in a patrol
encounter north of Ypres-Comines
Canal, (in Belgium)."

"German artillery was active
during the night west of Lens and
in the neighborhood of Givinchy and
Festubert."

"Our positions in the sector of the
Nieppe forest, (Flanders front),
were bombarded with gas shells."

Hospital Raids Horrible.
The Hun raid over Red Cross hos-
pitals behind the British front in
France on Sunday night was more
horrible than the sinking of the Lusitania
and hospital ships, writes a
well-known British war correspond-
ent. The casualties among the
women nurses and the helpless pa-
tients were greater than in any air
raid over London. The heroic
nurses remained with the wounded
and among the dead. There were
two separate raiding parties and
more than a score of machines took
part.

Rome, May 24.--A British air
squadron has successfully bombed
the Austrian naval base at Cattero,
said the following official announce-
ment:

"On the twentieth a British air
squadron successfully bombed the
Austrian seaplane and submarine
base at Cattero, setting fire to piers
and barracks. Despite violent fire
from anti-aircraft guns all the ma-
chines returned safely."

(Cattero lies at the southern ex-
tremity of Dalmatia, on the Adriatic
sea.)

WASHINGTON OBSERVES
"ITALY DAY."

Washington celebrated last night
with a mass meeting under the pa-
tronage of President Wilson the third
anniversary of Italy's entrance into
the war. Secretary of State Lan-
sin and Count Magochi di Cellere, the
Italian Ambassador, were the chief
speakers.

A message from President Wilson
was read.

NEW ENGLAND GIVES
\$4,000,000 TO RED CROSS.

New England yesterday went past
\$4,000,000 in the Red Cross fund
campaign, with Massachusetts actu-
ally leading. Boston has given
\$278,894. Vermont's total is \$125,-
000 and Rhode Island's \$100,000.

REAL STARS IN REEL PLAYS AT THE MOVIE THEATERS

Park Theater

A beautiful girl in a beautiful nightie forms the basis for the story of the "Midnight Trail" in which "Fighting Bill Russell" is starred and which will be shown as the headliner on the program at the Popular Playhouse this evening.

Circle Theater

Those who saw "The World for Sale" last evening at the Cozy Circle were pleased they took Jim Sullivan's advice to come because they saw one of the best Paramount features ever shown here.

Remember that this play is only part of a 10,000 feet film show which will be presented this evening again at the Circle.

For the real dyed-in-the-wool movie fan, tomorrow's bill should prove interesting. It goes tonight's bill 1,000 feet of celluloid better. There will be a Vitagraph feature, "An American Live Wire", a Big V. comedy, two novelty films and a three reel episode of Pearl White's greatest serials, "The House of Hate".

Tomorrow comes the big Saturday bill. There is an episode of that Universal thriller, "The Bull's Eye" with darling Eddie Polo.

and barked all the louder. Believing the old saying that a barking dog never bites Mr. Bowers went right up to the house where the dog was barking. The dog was different from others and seemingly forgot the saying. With a rush he was after Mr. Bowers and succeeded in ripping the leg of Mr. Bowers' trousers.

Much credit is due Mrs. Annie Hannon in this drive. Although holding down a man's job at her store on Main street, Mrs. Hannon is busy every minute for the Red Cross.

At the close of the filing of reports by the captains of the ten regular teams last evening, it was found that the day's total for the ten amounted to \$19,108.95.

Following is the amount previously reported by each of the ten regular teams, and the amount collected yesterday:

Table with 2 columns: Name and Amount. Includes entries for H. M. Burke (\$2,701.66), R. O. Cheney, Jr. (\$2,995.85), W. S. Hyde (\$1,923.89), R. J. Smith (\$1,108.32), P. J. ### LAUDS DR. BURLINGAME IN RED CROSS SPEECH

Major Alexander Lambert Tells of Former Mill Physician's Ability

### DIRECTS WORK IN PARIS

Many Local Physicians Welcome the Speaker Who is Medical Head of Red Cross Work Overseas.

Lambert said they were a brave, matter-of-fact people. They of all soldiers minded the heavy firing and shelling the least. In one place the divisional headquarters of the English army was surrounded by large ammunition dumps. There was twice as much ammunition in the place as blew up Halifax. When the commander was asked why he didn't move the headquarters to a safer place he said, "Well, the headquarters men were there first and they would resent being moved."

French morale better. No one can imagine the way the French morale has improved since America's entry into the war. There is now no danger of the people breaking under the strain. When the United States entered the war the French immediately became our nearest allies in the fight and they were the first to get through to the front lines.

children were taught games with gas masks so that if any gas shells struck they would be protected. There was one four-year-old boy in Belgium who had always lived under war conditions. He knew when the English were beating the Huns by the sound of the guns. When the Germans started shelling and he heard their shells strike he would wake up out of his sleep and cry, "Les Boches." He would listen until he heard the English guns reply. When the English guns increased until they could be heard above the sound of the Germans, the youngster would fall asleep contentedly.

In Dunkirk, the people go out into the suburbs to sleep because of the numerous air raids that city has gone through during nights.

### Red Cross Work.

The first duty of the Red Cross is to take care of the army. Much work has already been accomplished in research work. Although some people objected to animal vivisection, the work must go on. None of the hundred million dollar fund for the Red Cross is used for this purpose, however. A special fund contributed by a New York man carries on this work. One thing which has been accomplished and makes the life of the soldier in the trenches much easier is the elimination of what is known as trench fever. This is the worst kind of gripe. It attacks a man in the trenches in spells. It was discovered that this was carried by body lice.

Another thing which has been overcome since our American doctors have been fighting is gas gangrene. A serum for it has been found by the Rockefeller Institute. Lockjaw can also be cured.

New Medical Journal. Dr. Lambert has founded a medical journal in France which is sent to every doctor who has any war work to do. In this way modern ideas are given to all the medical men. Dr. Lambert wished to impress upon the people the fact that everything that is made here gets to the Red Cross. All knitted articles reach France as do the surgical supplies. And they want more of them.

About Knight Cowies. The doctor read a letter from Knight Cowies who is in the trenches. Cowies is Dr. Lambert's nephew and is well known in the army. He said he was in the trenches and showed no pity. Speaking of our own Company G, Dr. Lambert said it was up on the front line and doing fine work. He was confident that the Allies would hold the line until Americans arrived in sufficient force to turn the tide.

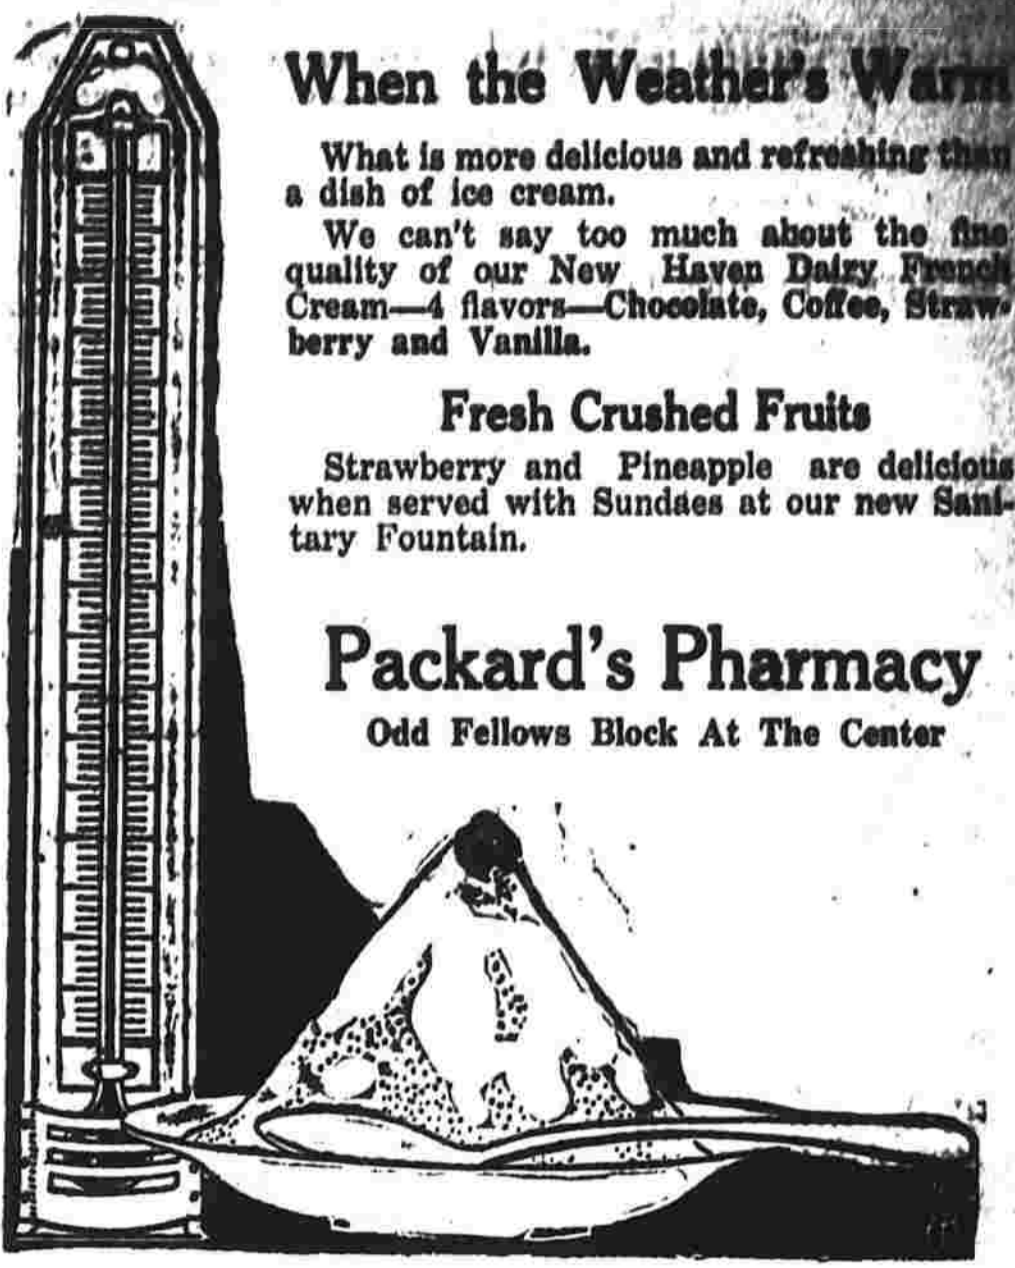

### STATE DEFENSE COUNCIL O. K'S 5,000,000 MEN PLAN

"Necessity For Tremendous Effort Leads Connecticut To Express This Wish", Says Bissell.

Hartford, May 24.—Resolutions urging that the United States now base all its war plans upon minimum of five million fighting men, which will make necessary auxiliary forces to the extent of several million additional men, have been adopted by the Connecticut State Council of Defense, approved by Governor Marcus H. Holcomb and forwarded by Richard H. Bissell, Chairman of the Council to President Wilson, Secretary of War Baker, Secretary of Navy Daniels, Provost Marshal General Crowder and members of the Connecticut delegation in Congress.

Mr. Bissell's Letter. In sending the resolutions to President Wilson, Mr. Bissell wrote: "In this connection may I not add that in adopting these resolutions the State Council of Defense, which is truly representative of our entire population, was not actuated by desire to interfere with or to criticize the military program of the Government. The resolutions were prompted by our deep conviction that plans for a greatly enlarged offensive war program should be immediately adopted and worked out in detail. The necessity for tremendous effort on the part of this country has been so ably and eloquently expressed in your recent utterances that we are moved to tender to you the assurance that the people of Connecticut are ready to contribute their full share of the men, money and munitions necessary to the adequate fulfillment of the obligations which such an effort involves."

Text of Resolution. The text of the resolutions adopted by the Connecticut State Council of Defense follows:

Dr. Burlingame was welcomed home from France by his Manchester relatives and friends last night. Since the opening of the war he has been in charge of the medical work of the Red Cross overseas. A physician of note, with a large practice in New York before he was sent abroad, he now bears the additional title of major, conferred upon him by the United States government. He is in this country to visit the various medical associations and enlist the aid of skilled physicians and surgeons for army work. Mrs. Lambert, who is doing Red Cross work in Paris, did not return with him because if she had done so she would not have been permitted, under the present rules, to go back to Paris. Dr. Lambert, after visiting some of the large cities in this country, will return to Paris about the middle of next month. He was here only over night and consented to tell the Red Cross team workers something about the work of the Red Cross in the European war zones.

Local Doctors Present. Nearly all the doctors of Manchester and some from out of town as well as many of our leading citizens gathered to hear and greet Dr. Lambert. His talk was entirely informal. One part of it which pleased his hearers was the tribute he paid to Dr. C. C. Burlingame of this place who is now his right hand man in Paris. Dr. Burlingame now has the position of director of the medical and surgical departments of the American Red Cross. "Without a question," said Dr. Lambert, "Dr. Burlingame is the best administrator the Red Cross has."

When a new hospital is wanted, of 500 or a thousand beds the requisition is handed to Dr. Burlingame and forthwith it is produced.

No Personal Experiences. Dr. Lambert said he had no personal experience to tell. There was nothing personal about the war for him. He had been at the front line once or twice, he had been shelled and under heavy firing but the Germans didn't seem to be making any special effort to get him, so there was nothing personal about it. One Englishman, Dr. Lambert said, was under fire for the first time. He was at some work and when asked how he liked to be under fire, said, "Well, it takes my mind off my work." In speaking of the English, Dr.

This paper has enlisted with the government in the name of America for the period of the war.

### "USEFUL" OCCUPATIONS.

The government will find it quite as difficult to distinguish between essential and non-essential occupations as it did between essential and non-essential industries, or necessities and luxuries, however requisite and wise the "work or fight" regulation of the Provost Marshal General may be.

Personal habits of large numbers of the people cannot be changed in a day. Recreation and amusement are necessary offsets to work and help keep the worker fit for his job. The morale of the nation as well as that of its fighters must be considered. Eating and drinking, rightly or wrongly, are among the chief forms of enjoying the leisure periods of the day.

But there can be no question that the unused supply of man power, especially in the large cities, is huge. A visitor to New York, accustomed to being busy eight hours or more daily and unaccustomed to the metropolis, is astonished at the number of healthy looking men who appear to have nothing in particular to do. Only a small proportion of them are night workers.

Most of them will find plenty of things to do in many cases to do. Looking for self-employment, in fact, is responsible for more crime, disease, social agitation and unrest and even disloyalty than any one thing. Occupational diseases wouldn't count to half the extent they do, if leisure were spent wisely.

Next to this out-and-out loafer class comes the public personal servant class, to which we have referred several times before. But with these exceptions, classifications are extremely dangerous. One knows there is a line between those doing useful and useless work—just as there is between workers and loafers—but nobody knows just where to draw it.

The government has a delicate job on its hands, and one for which the way should be paved by a campaign of popular education.

### UNSEEN WARFARE.

There are many lulls in the actual fighting on the West front, but Germany's political and economic weapons never rest. To sow dissension among neutrals so as to weaken them, to undermine their confidence in the Allies, to pave the way for post-war business, all this work is going on steadily and with dangerous results.

Germany's intrigue in Spain has not ended, nor has that in Switzerland just begun, but the nation is just waking up to the propaganda.

Carl W. Ackerman in tomorrow's number of a popular weekly has an article on "Boisheviking the Swiss" that is illuminating. We quote a few extracts:

The Boishevik seem to be working for the Kaiser in Switzerland, as most of them have been doing his bidding in Russia.

An agreement was signed between the United States and Switzerland whereby America agreed to ship thirty thousand tons of grain monthly from December of last year to December, 1918. Switzerland was elated because America had pledged the grain without demanding scores of concessions such as the German Government demands when it agrees to supply Switzerland with coal or any raw material. The United States agreed to begin delivering the grain in December, but by the middle of March only four ships had arrived at Gette, France, with grain for Switzerland. Shortage of ships, of course, was responsible.

The German propagandist seized this situation to arouse in the minds of the Swiss people suspicion of the United States Government and the American people. And he is succeeding in his object.

Germany already has Switzerland more or less by the throat economically, because the Swiss depend upon Germany almost exclusively for coal. The Allies well may watch this new Boisheviking.

### PROHIBITION AND LOYALTY.

The wet-dry issue was bound to become mixed up with the loyalty issue soon or later, because of the large proportion of Americans of German birth or lineage engaged in the manufacture particularly of beer. We do not doubt for one moment that the Anti-Saloon League would jump at the chance of entangling the liquor interests in a net of alleged treason in order to further the prohibition cause, if the organization had the facts. It already has used and is using war time arguments for all they are worth.

But facts are facts, and if all these miscellaneous charges are proved true, the deeds and the doers should be exposed, regardless of who is hurt.

The fight for prohibition has not slackened, by any means. The Pennsylvania primaries do not necessarily show how its legislature will vote, but they do indicate the fact that candidates no longer have the courage, as a rule, to come out openly against prohibition. The fight will become all the sharper, the closer the result appears to be.

The chief brewers' organization in America has been charged with conniving with and encouraging a well known pro-German organization, since become taboo. Some of its members belong or did belong to the alien alliance to which we refer. If there is anything that could have given the liquor interests a black eye, this was that thing, and the public doesn't make nice discriminations between manufacturers of whiskey and of beer.

New revelations have been made of huge sums spent to influence the election or votes of United States Senators and Representatives. Not long ago it was proved at Pittsburg that a fund of more than a million dollars was raised to affect the election of a certain United States Senator and thirty-six representatives. And it is pretty well-known that many more than one Senator have been at least approached by would-be bribers.

These are perilous days, verily, for brewers who are disloyal or act as if politics was a business.

### LIBERTY BONDS

Liberty Bonds will be payment of tuition and expenses at Bethany College next fall, according to President Cramblett.

A day or two ago we announced that Hose Company No. 2 of the north end of the town would charge admission to their whist party in thrift stamps.

Both of these incidents, and hundreds like them, illustrate the facile way in which the country is adapting itself to the tremendous exchange of money for other forms of government issues which the floating of the loans and the certificates of indebtedness and the selling of the stamps have involved. A furniture store in Manchester advertises that it will accept Liberty Bonds in payment for a piano. Various other instances will occur to anybody of bonds being taken in lieu of money.

It is true that the bond market has been seriously affected by the inroads of the government, but there is no reason why this should continue if bonds become a substitute for currency. The same thing is true of the certificates and stamps.

Hold on to your bonds by all means, until you have paid for them, if you possibly can. But if you have made up your mind to buy a useful article that helps to keep business prosperous and in condition to stand further financial drains, use your bonds. Only don't exchange them for other private securities; don't borrow on them to invest in stocks or bonds of doubtful stability.

If the war continues long we may expect to see the war issues substituted more and more frequently for cash, and no harm will be done, however novel the condition.

### DESPITE LAW, PUPILS TEAR

KAISER'S PHOTO FROM BOOKS Leavenworth, Kas., May 23.—A Leavenworth teacher who has a fourth grade class, is the idol of the boys of the town. The other day, during her geography class, a picture of the Kaiser was found in the book. The boys openly tore out the offending page with the picture of Kaiser Wilhelm. The girls, more timid, pasted paper over his face. The teacher smiled and let it go. There is a State law in Kansas about destroying public school books.

Six Ladies' coats \$18 each to close out quick, every one a bargain. Ladies' Shop, 535 Main St.—Adv.

The Hartford Times gave a lot of space yesterday to the plan of conserving fish by freezing them. Studies by the United States bureau of chemistry have shown that there is no essential difference in the meat of frozen fish and fresh. Well, we're all ready to see fish, including shad, frozen and packed away just like ice, minus of course the sawdust.

Much publicity has been given the fact that the United States leads the world in silk manufacture, whereas it doesn't produce a pound of raw silk. France provides us with more of our raw silk than any other country and Japan comes second. The kind of publicity that is needed now is one to show that silk is, because of its durability, the cheapest cloth one can buy for a gown.

The death of Lieutenant Palache of Farmington in France is only one more instance of valor in which the state can take a just pride. Any other state quite measuring up to little old Connecticut on those casualty lists, what?

The stock market these days reminds one of the way horses "jockey" about for position, before they start the race. There's a lot of "human nater" on that well known exchange.

The state fuel administrators are still holding "conferences." They have been holding conferences all spring and yet New England is not getting coal. We should like to see less talk and more coal.

The local Red Cross fund still goes marching on. And gives as well as the given to will get results from the transfer of good American greenbacks.

Tobacco is officially an essential. Of course Connecticut tobacco especially.

### CRADLE ROLL BABIES TO BE WEIGHED

South Methodist's 210 Babies to Compete for Growing Prize.

The annual Cradle Roll party of the South Methodist church will have an unusual feature on its program.

ernment's child welfare movement. Special rooms will be designated where, at 1.30 o'clock the mothers may have their babies weighed and measured. A physician and a nurse will be present to assist in this work. The records will be carefully taken and preserved. A prize of \$2.50 in gold is being offered for the child showing the greatest improvement in the coming year. The prize will be given at the annual Cradle Roll party next year. It is hoped that all the mothers will fall into the line with the government's desires in having their babies present to be weighed and measured.

It is an interesting fact that the South Methodist Cradle Roll now has 210 babies. Its Superintendent, Mrs. L. S. Burr, was recently notified that it is one of the first twenty in the whole country. Any Cradle Roll mother who desires a conveyance for herself and her baby for the party tomorrow afternoon, should telephone Mrs. Burr and an automobile will be sent.

NAMING DOBBIN KAISER GETS OWNER IN TROUBLE Oakland, Cal., May 23.—Naming his horse "Kaiser" caused John Mendonca, of this city considerable trouble. John was talking rather loudly to the animal when he was overheard by his neighbor, Hans Peterson. Hans got the idea that John was referring to him, a loyal American, as "Kaiser." He pulled Mendonca off his wagon, beat him and knocked him into the gutter. The injured man had his assailant arrested on a charge of battery.

MANCHESTER HAS A PLACE OF HIGH HONOR IN THE WAR WORK OF THE RED CROSS. Dr. Alexander Lambert of New York, who has been in charge of the medical work of the Red Cross abroad since the opening of the war, was married here to the eldest daughter of the late Knight D. Cheney and has visited this place so often in the last 25 years that he can almost claim residence here. His first assistant in France is Dr. Burlingame, who gave up his home and practice here to take that position. The local Red Cross chapter of over 10,000 members has contributed in cash and materials and labor more than most American cities of twice its size. Taken all together it will be seen that this place should be rated high in Red Cross usefulness.

### OUR RED CROSS CHAPTER CAN GIVE NO MORE KITS

That Is, During Summer Months—Latest Instructions Received From Headquarters.

According to latest orders from headquarters, the local Red Cross chapter can no longer give outfits to our boys as they leave here for the camps. To understand why this order is given it is well to read the instructions in full from headquarters. They follow:

To all Chapters and Branches, Atlantic Division, A. R. C.

Subject: Knitted goods and comfort kits.

Please discontinue the custom of giving knitted articles and comfort kits to Army components leaving home. The knitted articles are unnecessary during the summer weather, and if given now will be worn out, lost or damaged by the time they are needed in the Autumn. Further, your chapter will soon receive its allotment for knitted articles to be supplied during the next four months, and your entire output should be shipped to the Atlantic Division Supply Service.

The Bureau of Military Relief will continue its custom of delivering to the supply officer of each military contingent leaving for service abroad all the above articles for use when needed.

Concerning army and navy comfort kits, we especially request that all that are made be shipped promptly to the supply service. We are under instructions to give a kit to every man leaving for foreign service, as they may be billeted for months where they will have no opportunity to purchase these articles. Troops in camps at home are always within reach of these minor necessities.

2nd Subject: In case an enlisted man en route is taken from the train at your town on account of illness or disability, will you please see that all attention is given to him, and that an immediate report be sent to this office, together with the man's name, Military Unit and home town. John Magee, Director Military Relief.

## Three Kinds of Refrigerators

There are three distinct classes of Refrigerators. Beginning at the bottom, they are:

1. LOW GRADE—the "bargain sale" kind. Cost little—worth less. Ice consumption enormous, efficiency almost nothing.
2. MEDIUM GRADE—pretty to look at—many of them really well built—but all of them lacking in two vital essentials of refrigeration.
3. BOHN SYPHON—the Queen of all Refrigerators, and so acknowledged all over the world. No other refrigerator is licensed to use the BOHN Siphon System of rapidly circulating pure, cold, dry air. No other refrigerator is insulated with "Flaxlinum," the greatest heat-resisting insulation ever made. Ice consumption small—efficiency 100%—absolutely sanitary.

This illustration shows but little of the real merits of the BOHN—does not show its one-piece seamless porcelain-fused-into-steel lining—does not show how it keeps everything cold, clean and dry.

### WAR CORNER

Private James Powers of Company L, 102nd U. S. Infantry, writes the following letter to his sister, Mrs. Edith Ford of 161 Oak street, under date of April 25. Powers's name has not appeared in any of the casualty lists, but he says in his letter that the reason he had not written for such a long time was because he had been in a hospital for a long time and couldn't write. He adds, however, that he is now all right and tells his sister not to worry. His letter follows:

Dear Sister,

The reason I did not write to you before is because I have been in the hospital for a long time so I could not write. But I am all right now, so don't worry, I will write often now. I have been in the trenches. They are not so bad as they talk about but bad enough. But never mind, the war will soon be over now. "Old Bill" is at the end of the rope. I think the rope will be cut before he gets to the end. We have got the fighters right with us and we can do it. If "Old Bill" don't think so, let him try a couple of times more. I think this is all for this time.

P. S. I thank you all for what you sent me. Remember me to father and every one there. So don't worry I am all right. Goodbye, write soon.

From your loving brother,  
Private James Powers.

OF GREAT INTEREST HERE

Young Men Who Have Reached Majority Since June 5 Last Should Read Carefully.

Registration of young men who have reached the age of twenty-one between June 5, 1917 and June 5, 1918, will be accomplished on Registration Day with the assistance of mayors and other municipal officers, the great news agencies, the post-office department and police officials. All these forces have important duties to perform for the smooth working of the administrative system and all will be under the supervision of Governor Marcus H. Holcomb.

Under the selective service act all young men who have attained their twenty-first birthday since June 5th last are eligible for the draft army and must place information regarding themselves in the hands of the national government on Wednesday, June 5, 1918 between 7 a. m. and 9 p. m.

The local draft boards are the medium through which registration shall be accomplished. Members of the local board will act as chief registrars at the places of enrollment.

The places of registration will be posted for general information. This duty will fall to mayors in cities of 30,000 population or over and the town clerks in smaller units, these officials to be notified by the local draft boards. It will also be the duty of the mayor or town clerk, to forward to the proper local board every registration card forwarded to him by an absentee who did not know the designation and address of the local board within whose jurisdiction he permanently resides.

Many Agencies to Co-operate.

Many agencies in all matters pertaining to registration. The same spirit of co-operation will also be given by all officers of the federal and state governments to secure execution of the selective service law.

The government has called upon the press for the widest possible publicity to the President's proclamation and the rules and regulations connected with Registration Day.

Another feature of the publicity will be the posting of copies of the proclamation in public places at or in the vicinity of each post office.

To make the registration complete and to assist in the preservation of order on the Registration Day all federal marshals, deputy marshals, and investigating agents, and all police officers are required to hold themselves in readiness to give their services. They will report the names of delinquents to the local draft boards. All persons eligible for registration who fail to report the names of delinquents to the United States district attorney.

Failure on the part of any duly designated officer or agent to act will result in the appointment or designation of another officer or agent. The facts connected with such refusal or failure will be reported to the United States district attorney for the purposes of prosecution.

**Governor's Office in Charge.**  
Direct control of a great deal of the registration work is vested in the Governor's office. The first notification of the President's proclamation is telegraphed to all local draft boards by the Governor's office. That office will also distribute copies of the President's proclamation, blank registration cards and other printed material connected with registration.

The Governor's office appoints registrars other than members and salaried attaches of the local boards upon the recommendations of the latter. It also acts upon the recommendations that concern location of registration offices or additional offices for that purpose. The regulations assume that normally in a city of 30,000 population or over the present office of the local board will be the place of registration. In the plan for complete registration the desirability of establishing convenient offices for the emergency is appreciated and its solution left to the judgment of the local boards and the adjutant general.

## STATE'S YOUNG MEN RUSH TO JOIN BEFORE JUNE 5

Major Mercer Reports Unusual Number of Enlistments This Week.

Major W. A. Mercer, Recruiting Officer for the Connecticut District, states that young men are enlisting in the Army in large numbers. Most of them are boys who will be subject to registration on June 5th, and who wish to enter the service while they have a chance to volunteer.

The Field Artillery has so far covered the most popular branch among all applicants, but there are many young men skilled in various trades who may desire to work at

them during the war, and where they will probably be of more service than they would be as soldiers of the line.

Men qualified in the following trades are wanted for the Mechanical Repair Shops of the Quartermaster Corps, National Army: Auto repair mechanics, Blacksmith, Blueprint men, Carpenters, Cooks, Draftsmen, Harness makers, Machine tool inspectors, Machinists, Magneto repairmen, Mechanical engineers, Motorcycle Repairmen, Painters, Sheet Metal Workers, Plumbers, Tire Repairers, Toolmakers, Welders, Wheelwrights.

The following applicants were found physically qualified and sent to Fort Slocum, N. Y., on Wednesday: Field Artillery: William M. Plude,

Bridgeport; Charles H. Church, Hartford; William J. Dowling, Manchester; Medical Department: Carlton D. Fyler, Waterbury; Cecil H. Prentiss, Willimantic; Cavalry: Joseph T. Vigillio, Westerly, R. I.; Engineers: William E. Drury, New Haven; Quartermaster Corps: Walter A. Seagrave, New London; Tank Corps: Evelyn S. Andrews, Granby. The following were accepted for Coast Artillery and were sent to Fort Adams, R. I.: Claus J. Carlson, Benjamin Smith, New Britain; James Kiosowski, Terryville.

Gas meters will be read May 29. Consumers are requested to assure an opportunity to approach the meter on that date. The Manchester Gas Co. 20015 adv

## REVENUE BILL PROBABLY POSTPONED TILL FALL

No More Taxes for a While, If Present Index of Washington Situation Says Anything.

No revenue bill, which means no further taxes, will be introduced in the present Congress, the way things look now. The bill probably will be postponed until the short session next December, but the President may possibly call a special session just after the elections in order to gain time and insure headway for the bill. This is what the ripples say at

present, and color to the belief is lent by the fact that the President has been holding several conferences with House and Senate leaders to ascertain their views. Last night he talked with Chairman Simmons of the Senate finance committee, Chairman Kitchin of the House ways and means committee and various other members of each committee. Mr. Wilson still has an open mind on the question, and hasn't announced his final decision. The question still is open, but the chances are very much against a revenue bill at the present Congressional session.

*"A great net of mercy drawn through  
an ocean of unspeakable pain"*

## How Was the Last War Fund Spent?

IT is a fair question—and it is fairly answered in the detailed and itemized reports that have been published in the newspapers of every town and city of the land.

You never saw it? Then ask at the nearest Red Cross Chapter, or write; for the Red Cross wants you to know where your money went.

They say that Red Cross supplies have a way of coming through on time.

It is said that the Red Cross is acting in promptness when her great trial came.

And Roumania—they said no allied nation could get through to help her dire need.

But the Red Cross *found a way*.

It's not always a cheap way—"Needs must" costs money. But did you give that money *to be saved*—or *to save* lives? Are you not willing to pay five dollars or *fifty* to bring something of comfort to a war racked, tortured mortal who but for you would surely die?

And of one thing you may be sure. *Not one penny of that Hundred Million has gone for anything but War Relief.*

In the Red Cross there is no high salaried bureaucracy, no extravagant administration expense. All of the higher officials and nine-tenths of the workers are unpaid volunteers.

The cost of raising and collecting the last War Fund was about one-half of one per cent., more than covered by the banking interest on the money.

*Your* Red Cross needs another hundred million to lighten just a little of the awful load of misery "over there." Your share is all that you can give—and then a little more.

*Will you hold up your end?*

### Between Ourselves

HEEDING THE "LITTLE THINGS"  
When "millions" and "billions" and "big tasks" become the topic of a nation, there's a possibility of "forgetting the little things" that are not recorded in money.

A cheerful smile, a pleasant greeting, a sincere "thank you"—just the little every-day courtesies that many of us forget—will do much to make the passing days more pleasant.

Common sacrifices are doing their share toward making us "one big family"—patience and thoughtfulness will make the "big family" more congenial. They cost nothing; they pay wonderful dividends in happiness.

So let us in business and in social activities, "downtown or at home", be thoughtful, kind and courteous—make each day easier and pleasanter through "heeding the little things."

# Ready-to-wear Week Starting Sat., May 25th

These are busy times. Everybody is engaged in some kind of war work—or should be—and the time for home sewing is out of the question.

STORE OPENS AT 8.30 A. M.

That means you must buy your apparel all "Ready To Wear". The best of it is that we can offer you in many cases garments made up at less than today's prices for the materials alone.

COME THE FIRST DAY. SURE.

25 Serge and Silk Dresses

\$12.75

(Sold from \$15.00 to \$25.00. A wonderful lot. Come early.)

Extra Special!

27 Serge Dresses

\$14.75

Sold from \$22.50 to \$35.00.

Practically all are "Betty Wales" dresses. Fine worsted serges that will be impossible to find next fall under \$45.00. Don't hesitate. Buy two or three and save them for next fall.

21 Silk Dresses

\$14.75

Sold from \$18.00 to \$29.50.

Mostly taffeta, georgette, messaline and foulards. Navy predominates, but there is a generous assortment of novelty checks and other colors. The biggest dress values we ever offered.

## 38 "KENYON" Jersey and Tweed SUITS, at \$24.75

Summer suits, the lightest and most equalled. They are practically all sizes from 16 to 40, in Colors Kelly Green, Light Blue, Taupe, Brown, Lilac and the Summer shades. The styles are in Norfolk, some with beautiful convertible collars, slip-ons and the sleeveless jackets. In this lot are included some sporty tweeds, all silk lined. The price of these suits originally would be \$35.00 to \$45.00. They are all "KENYON" suits and that in itself alone will give you an idea of their value.

29 Suits, each \$22.75

This lot consists of Silvertone, Poiret Twill, Serges and suits which sold from \$29.50 to \$49.50. Everyone of them to close out at \$22.75. The sizes and colors are as follows:

Alexander Rogers of Main street expects to move to his new home on Locust street some time next week. He has had the house repaired and improved. Mr. Rogers bought the place from A. W. Hollister.

James Gilligan of Union street, who is a timekeeper at the carpenter shop of Cheney Brothers, will leave the employ of the company on Saturday. He is making an effort to get into the government service.

W. L. Buckland was successful last night in cleaning up every bit of the furniture and household goods of the late James Upton. He had an auction at the rear of his store on North Main street which was attended by a large crowd of people.

Patrick McGuire, son of Mr. and Mrs. William McGuire of Main street, was one of about 800 young men who left Bridgeport today to take their places in the service of the United States at Camp Upton. Mr. McGuire went to Bridgeport today to see them off. Patrick was called from Bridgeport. He was employed in the money order department at the Bridgeport post office, going there from the Manchester post office. He came home Tuesday to say good by to his parents and friends. When he left Bridgeport he was in charge of a squad of 30 men.

### OPEN-AIR MEETING.

Red Cross Gathering, Moving Pictures and Music Opposite War Bureau Tonight.

Plans have been completed for a rousing open-air Red Cross meeting tonight on Main street. The meeting will be on Main street, opposite the War Bureau in the south end.

There will be music, moving pictures, and a patriotic address by a local speaker. The pictures will describe Red Cross work, and other matters of general interest.

During the evening, the big Red Cross ambulance will be pushed down several poles toward that \$100,000 goal.

### CANINE CHORUS.

Persons living within a radius of one half mile of Homestead Park are not praising much the canine chorus that is being heard nightly. The chorus begins about eight o'clock and lasts until about two o'clock in the morning.

Every resident of Homestead Park owns a dog which is chained at night in the backyard. As soon as the moon is high in the skies, after the fashion of dogs, the canine bay at it. Soon every dog in the neighborhood is yelping and sleep is impossible.

## LOCAL SAILOR BOY TELLS OF LIFE ON OIL TANKER

How It Feels to See U-Boats and Have Only Two Guns Defending Ship.

Edward Coleman, who is enjoying a ten days furlough in town from his duties in the navy has some interesting experiences to tell of his life on the water.

Coleman was stationed on the G. F. Kelsey, a Standard Oil tanker carrying only two guns. This ship was an old one and it took her just twenty eight days to go from New York to Italy. On the return trip it took the ship thirty one days. Six months were spent in the Mediterranean. While there the crew was given a three months' furlough in France. Coleman journeyed all over Sunny France on this furlough. He was in Marseilles, Bordeaux, Paris, Lyons and numerous other big cities in that country. He says that to see France is an inspiration to go into the fight all the harder.

There is no country in the world, Coleman thinks, in which one can have so good a time as in Italy. He said that if he goes across again and has another long furlough he will spend all his time in Italy. There is music galore in that country and the people give the American sailors a good time and don't charge them exorbitant prices for it as they do in France.

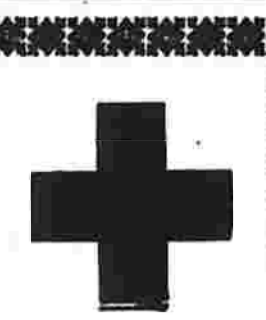

### Saw Two Subs.

While on the trip they saw but two subs. They got neither of them but the subs didn't get them either. Both submerged and disappeared. When on an old oil tanker with but two guns and travelling through the danger zone, one has a rather creepy feeling said Coleman. While under convoy with a number of other merchantmen two ships in the middle of the group were picked out by submarines and sunk. All this was done during the night and all Coleman knew of the sinking was the explosions.

"Eddie" is thankful that he won't have to go back on the G. F. Kelsey because she is now out of commission. She has been patched up and sent on the South American route. He does not know what ship he will be stationed on next.

## ALL NOW IN READINESS FOR BIG ITALIAN PARADE

Angelo Bosco to be Grand Marshal—Italian Band Exercises in Center Park.

All is in readiness for Manchester's parade this evening in observance of Italy Day, the third anniversary of Italy's entrance into the war. While the parade has been arranged by Manchester Italian residents, all organizations or any others who would like to participate in the parade are invited. The parade will form on Main street in front of the high school building and also on Charter Oak street. All who are to march are requested to assemble there not later than 6.15, as the parade is to start at 6.30. Italy's colors are displayed along the line of march.

Angelo Bosco Marshal. The parade will be headed by Angelo Bosco as marshal and E. Zardella as his aide. They will be followed by Italia and America, impersonated by Miss Angeline Mascarino and Miss Rose Pintori. Then will come the Italian and American flags, followed by the committee of arrangements.

Flags of Allies. Next in line will come the Italian band, followed by the flags of the Allies, carried by a squad of Captain Rich's State Guardsmen. A group of Italian girls, wearing scarfs of Italy's colors, green, red and white, will follow the Allies' flags and then will come a group of Italian men, carrying Italian and American flags. Mrs. Florence Hillsburg and her Americanization group will follow this contingent and the rest of the parade will be made up of many organizations and others who wish to march.

Line of March. The parade will proceed up Main street and turn into the Center park. A platform has been erected there and addresses will be given in English and Italian and selections will be played by the band. Marshal Bosco will introduce the speakers. The address in English will be given by F. A. Verplanck and E. Pagan and G. Borello will speak in Italian. Following the addresses, the
