ENEMY LEAVING CAMBRAI, SAYS HAIG TURKEY NEXT MAY DESERT GERMANY

RIOTS BREAK OUT IN TURK CAPITAL

Turk Army Head, Pro-German, Tells Ministers Central Powers Have Not Been Beaten—Bulgaria's Surrender Disturbs Turkey and Austria-Hungary

Copenhagen, Oct. 1.—Riots have broken out in Constantinople, said a dispatch received here today. Enver Pasha, (head of the Turkish army and leader of the pro-German element in Turkey) has sent assurances to the Turkish council of ministers that the Central Powers have not been beaten, the dispatch added.

Peace Move in Turkey.
London, Oct. 1.—Although no official information has been received here of Turkey's intentions, (to effect an armistice as Bulgaria did), it was learned at noon today that the probable leader of the reported peace move.

Enver Pasha has been leader of the German element among the Turks.

Austria Gloomy.
London, Oct. 1.—That Austria-Hungary looks upon the signing of the armistice between the Allies and Bulgaria as a calamity is indicated in the following dispatch received today from Vienna:

"A quarter of a million Austro-Hungarians arrived in Sofia too late."

Paris, Oct. 1.—The signing of the armistice between the Allies and Bulgaria caused great excitement here. Members of the Chamber of Deputies are expressing the belief that Turkey will soon follow Bulgaria's lead.

Ferdinand May Abdicate.
Rome, Oct. 1.—Czar Ferdinand, of Bulgaria, will abdicate his throne in favor of his son, the Vatican learns in advices from Vienna.

GOVT TAKES OVER GERMAN NEWSPAPER INTERESTS.

Washington, Oct. 1.—The enemy interests in the German Consolidated Newspaper Company of Cleveland, Ohio, which publishes the Daily Wachter & Anzeiger, in that city, today was taken over by A. Mitchell Palmer, Alien Property Custodian. At the same time he took over the German Press & Plate Company and the Flexitype Company, both of which are owned by the publishers of the newspaper.

The enemy interest in the newspaper company is 40.3 per cent while the enemy interest in the Press & Plate Company is 55 per cent and in the Flexitype Company 56 per cent.

THREE DROWNED OFF FERRYBOAT

Elizabeth, N. J., Oct. 1.—A woman and two children were drowned in Staten Island Sound, off Elizabethport today, when the ferryboat Arthur Kills crashed into the slip with such force that an automobile truck rolled off the rear of the boat into the water.

BULGAR TROOPS MURDER OFFICERS.

London, Oct. 1.—(12:35 p. m.)—Bulgarian officers who tried to stop the flight of their troops were murdered, it was learned from inhabitants of the territory which the Allies have overrun, the Serbian War Office announced today.

STATE'S LOAN TOTAL PUT AT \$12,234,000; 6 STATES \$67,120,000

Massachusetts, Largest in Population and Resources, Leads with \$45,296,000—Connecticut Second—39 Towns of New York District Over Top.

Boston, Oct. 1.—New England's total subscription to the fighting fourth Liberty loan as tabulated up to 9 o'clock today was \$67,120,000.

This figure shows a gain since yesterday of \$23,648,000. The recorded totals, however, are but partial totals, inasmuch as in today's figures 454 out of 834 banks in the district had not reported their yesterday's totals in time for tabulation.

The number of individual subscriptions represented in today's total was 22,188; for the first two days 47,743.

Boston's total subscription for the first two days is \$28,282,000.

The state totals now stand: Massachusetts, \$45,296,000; Connecticut, \$12,234,000; Maine, \$2,424,000; New Hampshire, \$2,393,000; Vermont, \$1,896,000; Rhode Island, \$1,793,000.

New York, Oct. 1.—Thirty-nine in the New York district have reported their subscription figures to date. The number is expected to exceed a hundred before tonight, according to figures which are pouring in steadily. Today is "China Day" at the altar of liberty in Madison Square and among the leading speakers will be V. K. Wellington Koo, the Chinese minister to the United States.

Official tabulations in New York City are far behind the unofficial total, as it is reported that the clerks at the Federal Reserve bank are swamped with pledges.

When the frost is on the pumpkin and the fodder's in the shock sounds cheerful—but when the wood is in the cellar and the coal is in the bin sounds much more cheerful.

Pershing Awards Cross Of Distinguished Service To 12--How They Earned It

Washington, Oct. 1.—Twelve more members of the American Expeditionary Forces have been awarded the distinguished service cross for gallantry in action in devotion to duty on the West front, General Pershing reported to the War Department today. The officers and men honored are:

Captain Frederick W. Black, Huntington, Pa.—Went over the top and was wounded. Disregarding his wound, he pressed on and crossed and recrossed the sector, rendering first aid to wounded and placing them in shell holes. He worked unceasingly without sleep or rest, and though twice wounded refused to be evacuated until the evening of the fourth day when he was exhausted and suffering from his wounds.

Second Lieutenant Jim Quinn, Memphis, Tenn.—With a small platoon he attacked and captured a fortified French farm house in an open field. He courageously handled his men.

Sergeant John D. Licklider, Martinsburg, W. Va.—He led four men against machine gun nest, capturing it.

Sergeant John W. Backley, 1410 Washburn Ave., Chicago, Ill.—Advanced against intense machine gun fire and assisted in capturing the gun and crew.

Corporal William A. Stapleton, Rush, Ky.—with the aid of two men he charged and captured a German machine gun.

400 MILLIONS ASKED FOR NEW STEEL SHIPS BY HURLEY AND PIEZ

Heads of Shipping Board Appear Before House Appropriations Committee

TELL DETAILS OF NEW BUILDING

New Man Power Program Creates Many New Problems of Transportation—Committee in Executive Session.

Washington, Oct. 1.—More than \$400,000,000 for additional steel ship construction was asked today by Edward N. Hurley, president, and Charles Piez, vice president of the United States Shipping Board, when they appeared before the House appropriations committee.

FLYER ENGAGED TO SOCIETY GIRL.

New York, Oct. 1.—The engagement of Lieutenant Hobart A. H. Baker, American aviator and international hockey player, better known as "Hobey" Baker, to Miss Mimi Scott, prominent in New York and Newport society, was announced here today. Baker is on duty in France, where Miss Scott has been a hospital nurse since last November.

Two Captured Machine Gun.

Mechanic Frank H. Humphrey, Churches Ferry, N. H.—He charged ahead with one man and attacked a machine gun nest, putting the machine out of commission and killing the gunners.

Private Charles Kemme, Fairbury, Neb.—Displayed utter disregard of his life by advancing on a machine gun nest of two guns and six men, and put them out of action in a hand to hand combat. Later he again advanced on a machine gun which was menacing his men and later returned with the gun.

Private Guy N. Hill, address missing.—When the advance was held up by enemy machine guns, he rushed them single handed and put them out of commission and took the crew prisoners.

Private Elmer E. Feb, St. Louis, Mo.—He advanced on machine gun snipers, killing the snipers with hand grenades.

Private Ernest T. Bollinger, Little Rock, Ark.—Advanced on machine gun sniper and killed him with automatic rifle.

DE HAVILAND PLANES REACH FRANCE AT RATE OF 20 DAILY

Official Statement Today from W. L. Kenley, Head of Air Service—Planes Equipped with Liberty Motors—Only One of 750 Rejected.

Washington, Oct. 1.—De Haviland Four planes are arriving in France at the rate of approximately 20 per day and are performing excellently in combat, Major General William L. Kenley, head of the air service, announced today. The first De Haviland planes, equipped with Liberty motors, arrived in stations in France on May 13, 1918. On Aug. 20 they were arriving at the rate of 20 a day. The planes attain a speed of 130 miles an hour and make an altitude of 10,000 feet in ten minutes and 21 seconds, full load without special effort, it was stated. The pilots were able to loop, dive and 'stunt' the planes as well as they could any chase planes. Of 750 planes received in France only one was in such a condition as to be rejected.

TWO MILITARY FUNERALS

Charles Merkel and Alfred Reymander Buried—Impressive Scenes at the Graves.

St. James church and St. James cemetery were the scenes of two military funerals this morning. So close did they come together that they seemed like a double funeral. The first was that of Private Charles Merkel and before the close of the service, the funeral procession of Private Alfred Reymander was on its way and had to halt on Main street until the first had left the church. The church was packed at the Merkel funeral and there was even a larger attendance at the Reymander funeral.

Both the young soldiers were victims of pneumonia, following an attack of Spanish influenza at Camp Devens. A firing squad was provided from Company F, First Regiment, Connecticut Guard, for each funeral. Sergeant Millard Park had command of the squad at the Merkel funeral and Corporal R. O. Cheney, jr., was in command of the squad at the Reymander funeral. Bugler Eldred McCabe sounded taps at both.

A delegation from Court Manchester, Foresters of America, attended the Merkel funeral.

The Reymander funeral procession was the largest seen in Manchester for a long time. It was headed by the Italian band, followed by the firing squad from the State Guard. Then came a body of 100 or more men, representing the Sub-Alpine Athletic club, the Christopher Columbus society and the Sons of Italy. The men carried the floral tributes, which included many large set pieces. Heading the body of men were two color bearers, with the Stars and Stripes and the flag of Italy. Behind the men came a long procession of hacks. It was a most impressive sight and the slow, funeral music by the band brought tears to the eyes of those who watched from the streets and business blocks.

BELGIANS CUT FOR COMMUNICATIONS.

Paris, Oct. 1.—More villages in Belgium have been captured from the Germans and the Zarran-Roulers and Roulers-Mentia railways have been cut at several places, said an official statement issued by the Belgian war office, which was received from Havre today.

(Havre is the temporary seat of the Belgian government.)
The Belgio-British forces have occupied Oostbamburke, Amerfeld and Etuden, northwest of Roulers.

BIG MEETING THURSDAY FOR THE LIBERTY LOAN

100 Manchester Workers to Assemble at Cheney Hall at 6.30 P. M.

FINAL PLANS FOR DRIVE

Lead local liberty loan assignment of districts—Maps for the Teams—How House to House Canvass Will be Conducted.

The Manchester Liberty Loan committee completed plans today for a big meeting of Liberty Loan workers Thursday evening. The ten canvassing teams, comprising one hundred solicitors, will meet at Cheney hall at 6:30 o'clock. A buffet lunch will be served by the new cahteen of Manchester chapter, American Red Cross. Liberty Loan workers have been requested to refrain from eating an evening meal until arriving at the hall, in order that none may exceed three meals during the day.

The program for the campaign will be outlined, final instructions given, and the solicitors will be given their equipment.

Ten Districts.
The town has been divided into ten districts. Each team will have a map of its district, and there will be a master map at the War Bureau. Ray Goslee is at work on the maps. The teams will work street by street. Each team will have whole streets, including both sides of the street.

Each solicitor will be given a portfolio containing 25 application cards, 25 receipt forms, 25 factory cards, 10 non-subscription cards, 25 window cards, a quantity of buttons, complete instruction sheet, and various other articles of equipment.

Buy the Actual Bonds.
Subscriptions for the bonds have already begun at the Manchester Trust Company and the War Bureau. Several purchases have already been made. Chairman R. LaMotte Russell said today that the bank expects to be able to sell the actual bonds in a very short time. A shipment of the bonds is on the way here, and as soon as it arrives the sales outright will begin.

Facts About the Bonds.
The local Liberty Loan committee has compiled a statement for the Manchester public which gives much information concerning the plans for raising Manchester's million for the Fourth Liberty Loan. The committee requests everybody in town to buy bonds to the utmost and to be prepared when the canvassers call.

Their advice is to decide in advance what amount of bonds you will buy and be prepared when the canvasser arrives. Every factory and department will receive proper credit for any subscription made by an employee of that factory.

In subscribing for a bond it is desired that the first payment of ten per cent be given to the solicitor, but this is not necessary. The subscription can be completed later at the convenience of the subscriber before October 19 at the Manchester Trust Company. Subscriptions will be properly acknowledged by the solicitor in writing, and a receipt given for any payments made at the time of subscribing. All solicitors will wear the Fourth Liberty Loan badge and will be provided with official stationery, Liberty Loan buttons, and honor cards.

Advance Subscriptions.
Subscriptions can be made in advance of the canvass at the Manchester Trust Company or the War Bureau. This will make it possible for any who are to be away during the drive.

GERMANS LEAVING CAMBRAI, AS ALLIES STILL COME ON

City Reported by Haig to be in Flames—British and Belgians Take Roulers, Important Base of Enemy in Flanders—Balkan Front Remains Active, Despite Armistice—Allenby Still Pursues Turks

With Germany's back door opened by the collapse of Bulgaria, the Allies renewed their blows on the western battle front today, capturing more villages and closing tighter the circle of steel around the German bases of Cambrai and St. Quentin.

The French renewed the battle in Champagne, capturing the villages of Binerville and Conde Les Autry, which are very close to the scene of American operations in the Argonne forest sector. It is indicated by the extension of French pressure eastward that the French and American armies may join up in a combined drive when the next blow falls against the German left wing. The attack last week was made with the two armies cooperating, but they were not linked, being separated by the Argonne Forest.

British Take Three Villages.
Three more villages were taken by the British on the Cambrai-St. Quentin front. With the British in the outskirts of Cambrai there are strong indications that they are using the place as Field Marshal Haig's base for the drive on the German lines.

In Flanders the Belgian and British armies are reported to have taken the great German base at Roulers. This would be a serious blow to the Germans. Not only would it shake their entire Flanders front and probably compel them to give up their submarine bases at Ostend, but would open the way for attacks southward in the direction of Lille, behind the extreme northern end of the Hindenburg line.

Balkan Front Still Active.
Notwithstanding the signing of an armistice on the Balkan front further hostilities were reported there today. The Serbians have continued their advance, taking more villages.

The general advance in the Balkans at last reports was in three directions—northwards toward Serbia; northeastward towards Sofia and eastward against the Orient Railway, the only direct line of communications connecting Turkey with the Central empires.

Allenby Again Pushes On.
There is cause for Turkish perturbation in the new advance by General Allenby's British army in Palestine which is now almost in Damascus. With Damascus in their hands the British will be in a position to drive on the main lines of communication supplying the Turkish army in Mesopotamia. With this army cut off, Turkey will lie helpless before the Allies.

London, Oct. 1.—(10.30 a. m.)—British troops have captured the village of Levergies, five miles north of St. Quentin. Field Marshal Haig reported to the war office today.

Cambrai's capture is imminent. English and Canadian are closing in on it steadily. Field Marshal Haig reported that the Germans have set the city on fire.

Fighting was begun again this morning north of St. Quentin to Cambrai, the British Field Marshal reported. The villages of Proville and Tilloy were captured in the advance on Cambrai.

The text of the statement follows:
British Statement.
"We captured Levergies, north of St. Quentin. We were in possession of Vendhuil yesterday afternoon. English and Canadian troops are closing in on Cambrai. They have captured Proville and Tilloy. The enemy has set fire to Cambrai."

"Fighting began again this morning north of St. Quentin to Cambrai."

The village of Vendhuil has been in British hands since yesterday afternoon. Vendhuil lies between Cambrai and St. Quentin.

Cambrai Almost Encircled.
London, Oct. 1.—Cambrai, the important German base position, is almost completely enveloped, according to a news dispatch from the front today. Fighting is going on in the streets and the number of fires is increasing.

Fall of Monthois Near.
Paris, Oct. 1.—The annihilation or capture of two complete German divisions in the Argonne forest seemed a certainty today. The two divisions are trapped in the forest, which has been practically surrounded by General Courard's French army on the west and the American army on the east. The two Allied forces are reported to have effected a junction in the valley of the Aire, on the north of the forest. If they have, the last means of retreat for the Germans from the forest has been cut off.

General Courard's army is today nearing Monthois and the fall of that important city is believed near. The Germans have been fighting stubbornly, contesting every foot of ground, but the French have pushed them back steadily.

Premier Clemenceau watched the fighting in the Champagne on Sunday. He made his way to a front line trench and watched the fighting from the firing step.

French Take Two Villages.
Paris, Oct. 1.—Two more villages in Champagne, Binerville and Conde les Autry have been captured by the French, and further progress has been made in the district between the Aisne and Vesle rivers, the French War Office announced today.

(Binerville is only slightly more than seven miles west of Varennes, which the Americans captured in their big drive in the Argonne forest last week.)

Since September 25 the French have taken over 13,000 prisoners in Champagne and over 300 cannon. The text of the communications follows:

"Since September 25 we have captured over 13,000 prisoners in Champagne and more than 300 cannon. Many of them are heavy."

PHYSICALLY FIT AT ANY AGE. It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. Watch the kidneys. The kidneys are the most overworked organs in the human body. When they break down under the strain and crystalline look out! These sharp, crystalline tears and scratches the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease. One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism. Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately. Get a trial box of GOLD MEDAL Tablets. Gold Medal Tablets, imported direct from the laboratories in Holland where they have been in use for over two hundred years. They will give almost immediate relief. If for any cause they should not your money will be refunded. But be sure to get GOLD MEDAL. None other like the genuine. In sealed boxes, three for \$1.00.

Mrs. William McCourt of Pearl street is recovering from a severe illness. It is gravely announced that Mrs. Foch speaks two languages but this cannot account entirely for the German returned.

days of the canvass to get their sub-
scriptions in and recorded in ad-
vance. Canvassers will not call on
any who place their subscriptions be-
fore the canvass begins.

Four Plans of Payment.
Following are the four plans
whereby Manchester citizens may pay
for their Liberty bonds in the com-
ing campaign:

Plan No. 1—Cash in full, either to
canvasser or at the Manchester
Trust Company of the War Bureau.

Plan No. 2—This is the govern-
ment plan, namely: Ten per cent of
the amount with subscription, 20 per
cent November 21, 20 per cent Dec-
ember 19, 20 per cent January 16, 30
per cent and adjustment of interest
January 30.

Plan No. 3—This is the bank
plan: \$2 a week, 25 weekly pay-
ments, at the Manchester Trust Com-
pany, beginning Oct. 19; this sub-
scription requires no payment to the
canvasser, but the first payment of \$2
must be made at the Manchester
Trust Company on or before Oct. 19.

Plan No. 4—This is the factory
plan: Payment of \$1 a week
through the factory in which you
are employed. You may make your
pledge to the canvasser if you desire
to buy on this plan and the subscrip-
tion will be completed through your
employer. All of the large local
concerns will cooperate in the ad-
vantages of the factory plan for
their employees.

About the Bonds.
The Manchester committee an-
nounces the following facts about the
bonds: The bonds will be dated
October 24, 1918. The bonds will
be paid in October 1938, if not called
for payment in 1933. They will
bear interest at 4 1/4 per cent, pay-
able April 15 and October 15 and will
be issued in coupon form and regis-
tered as before.

In the hands of most holders they
will be entirely tax exempt. Fur-
ther detailed information may be had
of the Manchester Trust Company or
the War Bureau.

REV. W. H. BATH PREACHES SERMON ON SALOON EVIL

Synopsis of Address Which Caused
Considerable Comment in Man-
chester This Week.

Rev. W. H. Bath, pastor of the
South Methodist church, preached a
stirring sermon against the saloon
Sunday. The sermon caused so
much comment that the pastor was
induced to supply a synopsis for The
Evening Herald which will be found
following:

Why did God make alcohol? That
a child's pain might be eased and the
anguish of a man's suffering sooth-
ed; for the experiments of the chem-
ist in his laboratory and the artist
in his work—never for the degrada-
tion of the body, mind or soul of a
man.

What is the saloon? An institu-
tion which sells alcohol for men to
drink. And why is alcohol sold to
men to drink? That the drinker
may get sensual pleasure and the
seller may get gold. In these war
days when the call to conservation
and sacrifice is so loudly cried, the
drinker would place his sensual
pleasure and the saloon-keeper would
rate his commercial advantage above
any call of his country.

And what is patriotism? Not
mere love of country or then the
Gungelhems, trying to get into their
paddles all of Alaska they could, would
be the greatest patriots. Patriot-
ism is not so much love of country,
love of the land, as it is love of
countrymen. What is the country
without the people?

Is the saloon patriotic? You can
only answer that question by telling
whether the saloon in America loves
our countrymen. Does it? No, it
loves only his money. It takes his
money, but with his money it also
takes his health, his efficiency, his
job, his home, his character, his rep-
utation. Any institution or any
group of men who would rob their
countrymen of these cannot in any
sense be said to love their country-
men and can lay no claim to real
patriotism.

We are told that everything must
be made secondary to the winning
of the war. But there is a body of
men amongst us who would make
everything else secondary to the
liquor interests. Food will win the
war, we are told, but there was
grain enough wasted in brewing
drink the past year to feed a million
people. When we cannot have sugar
for the table, the brewer can waste
it without stint in his needless pro-
duct.

We are told that fuel will win the
war. But when there was lack of
transportation facilities last winter
to bring coal to our fireside and peo-
ple were dying of cold, and when
our transports were lying in the har-
bor because they had no coal, beer
was having the right of way. The
freight cars used for drink, if made
into one train, would reach one
quarter the way from New York to
San Francisco. Last year the brew-
ers consumed 3,000,000 tons of coal
and the output was decreased twelve
times that amount by the drink
trade.

We are told that men will win the
war. In 1914 the brewers' hand-
book boasted that 500,000 men were
maintained by their industry. Why
not cut out this business and put
this army into productive industry
or into the national uniform? 66,
000 men were actually killed on the
battlefields of the Civil war in four
years, but that many are being killed
every year in our country by the
drink habit.

We are told that money will win
the war. But we are spending
more than two billions a year in
drink in this country. The Boer
war lasted two years and eight
months costing Great Britain \$900,
000,000, but in the same length of
time we spend six times as much for
drink. A leader in reform tells us
that the amount of money wasted in
drink last year would have built all
our military camps, taken a million
of our men from their homes to the
camps, equipped them, fed, clothed
and trained them for a year, and
transported them to France.

Shall we not stop this waste? It
is the duty of every patriot to use his
influence and his ballot to rid our
country of the most unpatriotic and
most Hunnish institution in Ameri-
ca.

NEW PEACE OFFER FROM
GERMANY EXPECTED.
Amsterdam, Oct. 1.—German
Reichstag Socialists have been offi-
cially informed that Germany will
make another peace offer to the Al-
lies as a result of the action by Bul-
garia, according to the newspaper
Tid. It is said that the new offer
will be of a decisive nature.

JUST WASTED OUR PRECIOUS MAN POWER OUR PRECIOUS BOND MONEY

If Manchester Votes NEXT MONDAY for License we will not only waste HUNDREDS OF THOUSANDS OF DOLLARS that could be doing their bit in easing pain on the battlefield but we are wasting MAN POWER ALSO.

The Government is Coming into our homes and taking our 18 year old boys. Yet here in Manchester where the streets are practically manless evenings, the Saloon men want to WASTE OUR MEN not only by using men for the business who could do more important work but wrecking constitutions so that our men cannot pass the military examination.

IMPRESSIVE CEREMONIES

AT T. F. BERRY'S FUNERAL

Late Secretary of Waterbury Cham-
ber of Commerce Buried Today—
Killed in Trolley Wreck.

Waterbury, Oct. 1.—The remains
of Timothy F. Berry, late secretary
of the Chamber of Commerce, were
laid to rest today in St. Lawrence's
cemetery, New Haven, following im-
pressive funeral services which were
held at St. Margaret's Church in
this city. Every organization of
note in the city, including the Cham-
ber of Commerce, Four Minute men,
Knights of Columbus and others,
were largely represented at the fun-
eral.

The investigation into the trolley
wreck which caused Mr. Berry's
death, continued today. The special
committee of the board of education
headed by Mayor Sandland visited
New Haven this afternoon for a con-
ference with Chief Engineer Rudd,
of the Public Utilities Commission.
The Mayor announced that the com-
mittee intended to sift the causes of
the accident to the bottom.

PRESIDENT MAKES APPEAL FOR SEAMEN.

Washington, Oct. 1.—All men who
have had any experience in seafar-
ing life were called upon, in a per-
sonal appeal by President Wilson to-
day, to submit with their question-
naires a detailed account of such ex-
perience, so that the government may
know where to obtain seamen when
their services are required for the
merchant marine.

The work of seamen is so vitally
essential, the President points out,
that they have been given deferred
classification in the draft. Every
seaman and former seaman should
not hesitate to accept deferred classi-
fication.

RECONSTRUCTION RESOLUTION PASSES SENATE.

Washington, Oct. 1.—Republicans
of the Senate went on record today
as favoring preparation for the con-
ditions to follow the war. The
Weeks reconstruction resolution was
approved by the Republican confer-
ence by unanimous vote.

regular—Features—Quotations.

New York, Oct. 1.—Activity was
shown in all the various groups at
the opening of the stock market to-
day, at the high level which has been
established since the beginning of
the military movement leading up to
the submission of Bulgaria.

There was heavy trading in the
steel industrials.
The oil stocks were irregular,
with the high priced issues which
had made such violent gains in yes-
terday's trading reacting slightly
from the highest level which was
then reached.

Public utilities were again strong,
Consolidated Gas advancing 1 1-8
points to 94 3-4 and People's Gas
moving up one point to 50.

Steel Common indicated the gen-
eral tendency of Steel industrials,
falling 1 1-2 points to 111. The
greatest loss in that group was in
Bethlehem Steel B, which dropped
two points to 87 5-8.

The railroads were accumulated
by many who have placed them in
the highest class as peace stocks.
Southern railway moved up 1-4 to
28 1-2, Union Pacific 5-8 to 127 5-8
and Reading 3-8 to 0 1-8.

Pierce Oil, in which there has been
quiet accumulation by strong inter-
ests for some days, was firm at 17
1-2.

BULGARIA AND THE WAR.

The military surrender of Bulgaria to the Allies, which puts her out of the war until its conclusion, represents no change of policy on Bulgaria's part.

It is the policy of Germany at bottom, the policy of force without justice except under compulsion and without mercy under any circumstances.

The armistice is not a temporary truce, in any sense. One may call it a "purely military convention," as a contemporary does, but it is also an economic agreement, for war now draws all the human and material resources of a country into its train, and the conclusion of peace peculiarly affects both.

The report yesterday that Mackensen had reached Sophia with reinforcements need not much disturb the general satisfaction over Bulgaria's surrender.

Bulgaria should be a lesson to Turkey, which also is not inclined to support a losing cause. The isolation of Turkey should come next, and indeed had been predicted before this.

The last edition of Geer's directory, which has just come out, tells as usual of a bigger and better Hartford than the one of a year ago.

As announced elsewhere in The Evening Herald, there is to be a No License rally in front of the War Bureau every night this week.

Local speakers for the most part will be heard, although there are to be out-of-town men here on Thursday and Friday evenings and also at some of the noon meetings.

EVERYBODY A CANVASSER. Everybody in Manchester will be either a canvasser or canvassed before the present Liberty loan drive is finished.

hands of the "visitors" and another 2,500 will be on hand for emergency use.

Because the canvass will begin Friday, it must not be supposed that no work has been done hitherto.

Thursday night the workers will meet and get instructions as to the procedure on Friday.

Anybody who chooses to can subscribe of course now, and if they do so they will lighten the committee's work and save themselves a certain amount of bother.

The thing to remember is that, as in the case of every public task, the power of those in charge of it is little without the cooperation of the public in general.

We shall hear of many an instance, as we have heard already, of persons who are said to have died of Spanish influenza. But just remember, reader, that most persons die because of a lack of resistive power or a lack of proper precaution.

These beautiful days beckon one to life in the open. The yellow sunlight brightens the autumn colors of red and gold and green, and the crisp air and blue sky unite with the scenic beauties of earth to make mortals happy.

The President asks for the passage of the Anthony amendment to the federal constitution, providing for woman suffrage, on the ground that it is a measure in the interest of world-wide democracy.

The bowling season is on. Join a team, friends, and enjoy the fun. The town ought to have the material for a big league that would provide amusement all through the rest of the fall and winter.

LAST DRAFT NUMBERS ARE DRAWN TODAY

Work Lasted All Night and Required 20 Hours to Complete

MAILING HAS BEGUN

Government Printing Office Given Numbers by Telephone as Fast as Drawn from Glass Bowl.

Washington, Oct. 1.—Uncle Sam's draft lottery record was smashed when the last number of the 17,000 to determine the order number of the 13,000,000 who registered on September 12 was drawn at 8 o'clock today.

The men worked in six hour shifts, the best record for any one shift being 5,910. With the completion of the drawing the numbers were sent to the public printer.

As fast as a number was drawn and verified it was telephoned to the government printing office, where experts prepared it for printing on the master list that will be in the mails on the way to the various draft boards within a few hours after the last number is drawn.

LANSING'S "SHOTGUN NOTE" IS ACCLAIMED

America Will Adopt Reprisals against Germany, if Necessary, Secretary of State Tells Berlin.

Washington, Oct. 1.—Germany has more than met her match in the United States. No single communication since the war began has given as much satisfaction to military men here—American and Entente—as Secretary Lansing's blunt warning to Germany in the shotgun protest.

That single paragraph, Entente army officers here said today, will go farther in protecting the rights of Americans taken prisoner than anything else.

Totals \$2,324,297—District Will Soon be Out of Debt

ORFORD CO. HEADS LIST

Cheney Brothers Next—Those Who Pay Taxes on \$5,000 and Over.

The grand list of the Eighth School and Utilities District has taken another jump this year. It has now reached a total of \$2,324,297. The five mill tax levied on this amount will raise \$11,622.23. That means that the district will soon be out of debt.

The Orford Soap Company remains the district's best asset. Its grand list jumps up every year. This year it amounts to \$349,000. Cheney Brothers come next in the list.

Speaking About Ranges---

Here's one of the most wonderful ranges made

Of course, it's a GLENWOOD

As you can see it's a combination range of a new and distinct type, in fact two complete modern ranges in one. Although it is less than four feet long it can do every kind of cooking for any ordinary family by gas in warm weather, by coal or wood in Winter and by a combination of the two fuels in an emergency.

Campbell, Rickenbacker and Luke Again Distinguish Themselves—Ludendorff Withdraws Men to Strengthen West.

With the American Army Northwest of Verdun, Oct. 1.—General Ludendorff is breaking up many of his divisions on other fronts and in rest camps to obtain man power to fill up his divisions on the front line here.

This became known when it was learned that many of the German replacement divisions in the Meuse-Argonne sector comprise drafts from disorganized divisions resting in Alsace, Ardennes and Briey. Some of the units formerly policed Roumania.

It was officially confirmed today that Douglas Campbell, of San Jose, California, shot down a German airplane in June. He is now credited with downing ten enemy planes.

Eddie Rickenbacker, yesterday attacked a German observation balloon being brought up to the front on a motor truck with a semi-inflated gas bag. Rickenbacker machine gunned the crew and set fire to the truck.

It is said that the amethyst used to be worn to promote temperance and sobriety, the chrysolite to ward off fevers, the onyx worn around the neck to prevent epilepsy, the opal to cure weak eyes and the topaz to cure inflammation and keep the wearer from sleep walking.

Georgia reports that its peach crop brought more than \$10,000,000. This was to be expected, since the crop was reported ruined by frost last spring.

Work Postponed

Hartford, Oct. 1.—Because of the
epidemic of Spanish influenza, the
child welfare department of the Con-
necticut Council of Defense has as a
precautionary measure, postponed the
tour to be taken from Sept. 30 to Oct.
18 by the "Connecticut Baby Spe-
cial," the automobile truck equipped
to carry on the weighing and measur-
ing features of the child welfare
campaign.

This action was taken at the sug-
gestion of Dr. Frank T. Black, secre-
tary of the state board of health.
The tour, which will be made as soon
as the epidemic is over, was to cover
certain of the smaller towns, the cit-
ies and larger towns having already
been covered. The towns included
in the postponed tour, with the date
on which they were to be visited, are
Thompson, Sept. 30 and Oct. 1;
Pomfret, Oct. 2; Brooklyn, Oct. 3;
Sterling, Oct. 4; Canterbury, Oct. 5;

PORTADOWN CHURCH GETS SIX POUND CONTRIBUTION

This Amount Collected in Local Epis-
copal Church for Wounded Ulster-
men.

Richard Allen, treasurer of St.
Mary's Episcopal church, has received
a letter from Rev. Canon F. M. Moer-
an, rector of the Episcopal church at
Portadown, Ireland, acknowledging
the receipt of £6 from St. Mary's
church in aid of the Ulster Volun-
teer Force Hospitals, together with
a letter from Treasurer R. M. Lid-
dell of Ulster Volunteer Force Hos-
pitals, acknowledging the receipt of
the money from Mr. Moeran. The
letters were read at the services in
St. Mary's Episcopal church Sunday
and, believing there are many read-
ers of The Herald who will be inter-
ested to know that the money con-
tributed by St. Mary's church has
reached its destination and the spirit
in which it has been received, the
letters are reprinted below:

Dear Sir:
I beg to acknowledge with the
warmest thanks, the receipt of £6
from you, being the collection in St.
Mary's Episcopal church for the
wounded Ulstermen.

I also beg to enclose a receipt from
Sir Robert Liddell, who is treasurer
of the Ulster Volunteer Force Hospi-
tals, and a letter of thanks from him.

It has been a great pleasure to our
church people here (where there are
6,000 of them in my parish) to feel
that our brethren across the water
are one with us in this tremen-
dous world struggle for right and
freedom.

I know you have a good many
North of Ireland church people in
South Manchester, some from my
parish, and I trust that they are a
credit to their church, wherever they
may be.

"FIGHTING PARSONS" ARE NOT GONE BY ANY MEANS.

Cleveland, Ohio, Oct. 1.—The
"fighting parson" is not yet gone.
Twenty ministers of the Methodist
church, attending a conference here,
held a reunion of men who had
fought in the Civil War. "Fighting
in '63 made me a better Methodist
preacher," one old-time warrior as-
serted.

"Our fathers pushed Christianity
into this country at the point of
their bayonets; we saved its ideals
in 1861 with cannon and sword, and
now our sons are upholding it with
their rifles on the western front,"
said another grizzled veteran of
Grant's armies.

that about 13,000 men who have
been working in the liquor business
in Ohio will be thrown out of work

WAR CORNER

Under date of August 18th, Cor-
poral John A. Benson writes the fol-
lowing chatty letter to his parents,
Mr. and Mrs. Ezekiel Benson of Main
street:

Dear Mother (and all):

We are now located at a distant lit-
tle town far from the front and away
from the noise and nerve racking
guns.

Since leaving the former station
we have marched at least two days
and traveled quite a distance by cat-
tle car.

Most of the sleep obtained en route
was under the sky and we would
start out early the next day and
travel over the hard roads with heavy
packs. Believe me, I was happy
when we arrived as I had some
bothering blisters and I could not
bear my feet on the ground without
pain. Have had a good chance to
bathe them and give them lots of care
since arriving in this town as there
is a sufficiency of swimming pools
and streams where the water is
flowing continually from springs.
It is also possible to have laundry
done here and as we expect to stay a
month or more I shall have a chance
to keep clean.

Milk and eggs are obtainable and
seeing that I received my pay yester-
day, I will have every opportuni-
ty to live well and gain back any lost
weight.

This is a sample of the paper I re-
ceived in your package from Paris.
Nothing wonderful, but it answers the
purpose. The French use it and
one sheet when written on the inside
and folded makes envelope and all.

Have just returned from the Y.
M. C. A. where Chaplain Petty gave
his farewell address to the boys. He
is going back to a Base where he will
train other chaplains who have not
been to the front. His talk was in-
teresting and some pieces from the
band furnished the music.

Today a truck comes into town
and we will have a chance to procure
some luxuries through the U. S.
commissary such as spooks, candy
and toilet articles.

We are favored with band con-
certs every evening and it surely is a
rest camp as well as a training area.

"I'd like to be there!"

YOU have said it—as you have looked at some vivid picture or read some stirring account of our boys fighting with American courage and self-sacrifice. If you cannot go out to them, you can fight for them, over here. Smash open the way for them with howitzers and big guns. Send them ammunition, tanks, airplanes, rifles, clothing, food. Help to keep them victorious.

You can lend as fearlessly, as unselfishly, as they fight. That is *your* job as a part of our war machine.

OF COURSE you would "like to be there." They don't need you yet or you WOULD be there. But they need guns and shells, every hour they remain on the road to Berlin.

"G" MAN IN HOSPITAL

**Wounded Five Times By Shrapnel
July 20—Gets Good Treatment
and Likes the Nurses.**

Following is a series of letters written in a base hospital by Private Leroy M. Roberts of Co. G. Roberts was wounded five times on July 20 by shrapnel shell. One piece entered his left leg below the knee, another went through the right arm below the shoulder, one went into his left thigh, one in his right knee and one in his right hand. He has since been in a base hospital and as his letters tell, he is getting along nicely now. He is forced to go about on crutches, according to his last letter because of the wound in his left leg.

The picture of Roberts was taken when Co. G was in camp at New Haven before leaving for overseas duty.

The letters were written to Mrs. James A. Roberts, his mother, of 401 Hillstown Road. They follow:
Somewhere in France.
July 28th., 1918.

Dear Mother:
Just a line to let you know I am in the hospital, but am feeling pretty good, and will pull through all right so don't worry at all.

As you know, some one has got to get it, so what difference does it make, only the guy that gets it has to bear the pains, and as I am a big husky fellow, you know, I can stand it all O. K. for they are taking good care of me.

Where Wounded.
I suppose you want to know what is the matter. Well, I got wounded in five places with shrapnel, on July 20th. Two of them are serious and three not so bad. The two serious ones are, one went through my left leg below the knee and one through my right arm below the shoulder. The others are, one in my left leg in the thigh, one in my right knee, and one in my right hand, by the little finger. The one in my right arm is doing nicely, for you see I am writing to you.

I should hate to tell you what the first Hun will get that I get hold of. He will get the worst treatment that any man has had since the war began.

Well, let's talk of something a little better. How are the cows and the pigs getting along?

I will have to close for today as my arm is getting tired.

July 30th., 1918.

Dear Mother:
I will write again. I got so tired I had to rest my arm.

Now I will tell you about the hospital I am in. It is Base Hospital No. 31, A. P. O. 732. It is down by a big French summer resort. It is noted for its good spring water. If used to be a well place in peace time, where lots of people came to spend their vacation. It was a nice place, all right, but not now since they have turned it into a hospital.

Sleeps on Porch.

I have a bed on the porch. It makes it nice for, although I cannot get out of bed, I can see a lot when I sit up. It is fine here, just like home if it was not for the pains.

I am getting along fine and hope I continue to for I would like to come back and see the old town once more.

I think it will be good for sore eyes to see it again.

There are a lot of good nurses here. They take good care of us all; they can't do enough for us.

Likes Nurse.
Gee! I wish you could see the night nurse. She is a middle aged woman and she is fine. She comes around to all the beds about five times a night to see if all the boys are covered up good and warm.

When the day nurse comes to do us up she is just as careful, as she can be, not to hurt any more than necessary.

The nurse has just brought me a nice clean suit of pajamas and I am going to have them on as soon as I finish this letter.

I must rest again and will try to write more tomorrow.

July 31st., 1918.

Dear Mother:
I will write some more now. The nurse says I can write some each day and so I will.

I saw Bill Mann when they took me from the field and brought me to

**PRIVATE LEROY M. ROBERTS.
Wounded Five Times in France.**

the 101st Field Hospital. He has been transferred here from Co. G. I have not seen any of the other boys for some time.

Good Spring Water.
This place is noted for its good spring water, but to tell you the truth I had rather go out to the well that is laden with old wooden buckets that stands out back of the house and have a drink of what I call good water.

I have not had any mail since I have been in the hospital. Why don't you write? I hope I will get some soon.

Aug. 12th., 1918.

Dear Mother:
The nurse has just told me that if I want you to get this letter I will have to mail it today so I will finish it. I know it has taken me a good many days to write this but never mind, you know the reason.

To Another Hospital.
Since I started this letter I have been transferred to another hospital. I am now at Base Hospital No. 28, A. P. O. 733. I can get around on crutches. The place where the pieces of shrapnel went through my left leg is pretty bad but will be better soon and you will not know where I was hit when I get back after the war ends, if it ever does. I hope it does and soon for I am tired and sick of fighting. But I will do my bit as long as I can, and God help the Hun I lay my hands on for he will suffer.

"Kamerad" Nothing.
There was one battle I was in and a Hun shot one of our boys and came over toward me and threw up his hands and yelled "Kamerad." I gave him a 45 through the head. That is the way I give them "Kamerad" and the next one I will shoot him in his arms and his legs and his body and let him suffer awhile and then finish him. Let him suffer as I did, then I will be satisfied for a little while.

Well, I am sitting out in front of the hospital. The sun shines and it sure is a grand day.

This hospital is not as good as the other one was. We sure did have a good time there, although I couldn't get out of bed. We had a lot of jolly fellows there; they would sing and jolly from the time they awoke until time to go to sleep and keep us good and happy, but this place is dead. We are in barracks for a hospital and it is rotten.

Wants to Get Back.
But they've got the goods and that is what I am looking for, for I want to get well so I can get another "pop at a Hun." That is the fun, 'till about a million come over on you then you have still more fun. That is the time the bullets come like hail and go still faster. They have got so they just hate us, for retreat is a word we don't use up there and they know it. "Kamerad" means "kill" in our language. They will soon find out that Uncle Sam means business and he is not fooling a bit.

I will close as my news is all running out, but write to me as I have not had a letter for a month.

I was just talking to a nurse and she said, "I wish I had your hair." I said "So do I." She said "Why?" I said "because it is a rough rat's nest." She said she would give anything for such hair. I said "Give me ten franks and I will give it to you for I am broke," and she laughed and went away.

I must close for this time and I will write again soon. Give my regards to dad and best love to you from

**MILITARY CONTROL OF BULGARIA STILL
A RACE BETWEEN GERMANY AND ALLIES**

Washington, Oct. 1.—Germany and the Entente are in a race for military control of Bulgaria. The advantage is with the Entente. The rank and file of the Bulgars heartily endorse the acceptance of peace by their leaders. Her abandonment of the Central powers is accepted here as in good faith and the resentment against Austro-Germans is certain to be very great on the part of the Bulgarians. As a result military experts here today declared Germany's effort to rush troops under von Mackensen has come too late. It is true that the German Field Marshal, with certain divisions, may be in Sofia at present. But he can hardly maintain his position there, handicapped as he is with poor communications and an increasingly difficult situation in Roumania where an anti-German revolt already is assuming goodly proportions.

So well convinced are officials here that all of the advantage is with the Entente that they are speculating on the next move. There was general hope expressed in many quarters today that it will be against Turkey.

Turkey's Surrender Possible.
It was believed here by military experts that if the army of General Franchet D'Esperey should be turned toward Tchataldja in a formidable movement toward Turkey that nation would unconditionally surrender and it would not be necessary to actually commence operations.

These officials declare that the movement to follow Bulgaria's example, first reported in these dispatches last Saturday night, is much more powerful than any official advices indicate.

Only personal appeals by the German leaders and the Young Turks who are in the pay of the Kaiser has held Turkey in line until now, they say. And these officials, who are in receipt of much confidential information dealing with the Turkish situation, add that even now Turkey is only waiting to see whether Germany can carry out any serious reprisals on Bulgaria before asking for terms. But if she does not ask for terms the

elimination of Turkey will be a very easy task as she can now be attacked in force from Thrace, Asia Minor and Mesopotamia.

First Present Results.
A part at least of General D'Esperey's army can be expected to make an advance into Austro-Hungary by way of the Danube front. The first outcome of the elimination of Bulgaria will be the re-establishment of an eastern front by the Allies. Then there is every reason to believe that with Turkey eliminated the Allied naval forces will pass through the Dardanelles into the Black Sea and re-establish Roumania as an ally of the Entente. It is known here among diplomats that Great Britain and France long ago sent word to Roumania that they would aid in blotting out the German-made treaty of Bucharest where the Teutonic military machine exacted its pound of flesh from a nation rendered helpless by the desertion of her ally, Russia.

FIREWOOD SHOULD BE CUT TO IMPROVE WOOD TRACT

Emergency Fuel Supply Should Not Be Obtained in Hap-Hazard Way—Cut Valueless Trees.

Washington, Oct. 1.—In cutting firewood for this winter's emergency fuel supply the operation should be undertaken with the double purpose of furnishing heat and improving the farm wood lot at the same time. The United States Department of Agriculture has issued a brief statement which tells what to leave and what to cut.

It commends that the trees be marked for cutting now while the leaves are on them, even if other farm work prevents the actual felling until later, because it is easier to tell the different kinds by the foliage than by the bark. But the cutting should be done as soon as possible if the firewood is to be used this winter, so there will be some time for the wood to season.

In the New England and Middle Atlantic States the following kinds should be left standing to furnish lumber, except in the case of individual trees that are crooked, knotty, diseased, or defective: white pine, red spruce, balsam, chestnut, white oak, red oak, hard maple, yellow birch, tulip poplar, white ash, hickory, and basswood.

Trees of Less Value.
The trees of less value for lumber, or slow growing, and which should be cut are: hemlock, arbor vitae, black oak, scarlet oak, red maple, beech, gum, elm, gray birch, and ironwood.

In Ohio, Indiana, Illinois, and southeast Missouri save: yellow poplar, black walnut, red gum, white oak, red oak, cottonwood, hickory, white ash, hard maple, and basswood.

In these states the trees to be cut from the farm wood lot for firewood are black oak, red elm, beech, and red maple.

In the northern parts of Michigan, Wisconsin, and Minnesota the trees to be saved for lumber are: white pine, red pine, aspen, yellow birch, basswood, red oak, white ash, and hard maple.

Farmers in the northern section of these states may well cull out for firewood, and thus improve the value of their timber stands, the following: jack pine, hemlock, scarlet oak, black oak, elm, and beech.

In the southern portions of these lake states—Michigan, Wisconsin, and Minnesota—farmers would do well to save: white oak, red oak, white ash, basswood, sycamore, and hard maple.

The trees that may be removed for fuel in the southern farming section of these states are: black oak, red elm, and beech.

Buy Liberty Bonds! Buy today! Buy tomorrow and again tomorrow! Buy! Buy! Early! At any bank, cash or instalments!

Fighting Fourth Liberty Loan Facts and Figures

FIVE GREAT REASONS FOR LIBERTY BONDS

1. There is today in France the greatest army that has ever fought under the American flag. Upon that army hangs the destiny of the United States. These troops had to be trained and equipped. They had to be transported to France in spite of the German submarines. In France itself the United States had to make this support. Adequate ports had to be created. Harbors were dredged, piers were built and equipped with all the latest devices for discharging cargoes. Vast storehouses were constructed. Railroads were built and cars and locomotives sent from the United States. This in itself was one of the most amazing feats of the war and without it we should have had no armies at the front but small detachments filtered through the French and British lines.

The American army in France is the product not only of the military power of the United States, but of the financial, economic, industrial and agricultural power. American energy and Liberty Bonds made possible our fighting army. That army is the largest in our history and it is winning battles in France. It must be larger yet; it must win more battles. This is the first great reason for Liberty Bonds.

2. The American army is in France because the German army is in France. It is not necessary to rehearse the wrongs that were committed against the United States and humanity as part of the settled policy of Germany, for every American knows them. Where the German army is, there the American army will be until the war is won. This is the second great reason for Liberty Bonds.

3. Failure to win a decisive victory would mean the delivery of the American people into economic bondage for generations. A fate similar to that of Russia awaits any other country that falls under the heel of Prussian military power. We must win. This is a war to end war, and only by winning the war can we end it. This is the third great reason for Liberty Bonds.

4. Only a united America, mobilized to the last man and the last dollar, can defeat a united Germany. The victory of our men in France is now your responsibility, the responsibility of every one of us. The "Fighting Fourth" Liberty Loan is our opportunity for service, and its success or failure will be regarded throughout the world as a battle won or a battle lost. We must win. This is the fourth great reason for Liberty Bonds.

5. Whoever buys a Liberty Bond is backing the Government of the United States, but he is likewise backing his home, his children, himself, everything that he has in the world. Liberty Bonds are the great reason why without which our fighting men in France could never achieve their objective. Your country calls you to act now. It is essential that you buy bonds to the fullest extent of your ability to save and pay for them and essential that you keep them until the war is won. It is the way to win the war. In a measure the fate of our Republic rests upon each one of us, and those of us who remain at home must match in our financial support of our Government the spirit of the men at the front who have given or are ready to give the last full measure of devotion. This is the fifth great reason for buying Liberty Bonds.

Lend the way the American soldier fights,—to the utmost.

Buy Liberty Bonds and win the war! Buy early.

LIBERAL NEW ENGLAND.

New Englanders have never lagged behind when there has been a call to patriotic duty. And now, when greater demands than ever before are made upon them they have stood loyally to the test. In the three previous issues of Liberty Bonds they have bought liberally; they have bought generously of War Savings Stamps and have contributed largely to the various forms of war relief and now they are ready to subscribe to the Fighting Fourth Liberty Loan, all, and more, it is believed, than the amount assigned them. They have confidence in their Government; they will literally bank on their boys Over There and will pour out the millions so long as there is need for them to prosecute the war and bring it to a speedy, victorious end.

TEN WAR COMMANDMENTS.

Ten war commandments have been given to the people of France by the economic and social section of the League of Patriots with headquarters in Paris. They are to save, to economize, to waste nothing, all the way to the ninth when they are to "Accept without murmuring the privations which are imposed upon you. Reflect upon the sufferings of those who are fighting for you, upon the martyrdom of the population whose hearths have been devastated by the enemy"; and the tenth, "Remember that victory belongs to those who can hold out a quarter of an hour the longest."

NEW ENGLAND HONOR.

New England has brought honor to herself in the way she has absorbed the three former Liberty Loans. For the "Fighting Fourth," which begins on September 25, an even readier response is anticipated. Previous loans have furnished the sinews of war that have helped turn the tide and now that victory seems in sight there can be no doubt that not only will spare money be invested but that the future will be pledged.

LOYALTY OF NEW AMERICANS

Response of Americans of foreign birth or immediate foreign extraction to the support of the war in the Third Liberty Loan has been estimated at the national headquarters in Washington as about half, or 41 1/2% of the entire number of persons subscribing to that loan. Their subscriptions totaled \$741,437,000 or 17 1/2% per cent. of the whole amount subscribed. As most of these citizens are not of the so-called possessing class but of the non-possessing mass this is regarded as a gratifying amount indicating the loyalty of these persons to the land of the Stars and Stripes.

By taking at random detailed reports of the 38 different nationalities throughout the United States, about 10,000 individual subscriptions established an average of a fraction, over \$105 per person. Taking this average as a basis the number of individuals of foreign birth or immediate foreign extraction subscribing to the loan was about 7,061,305.

The nationalities represented by these subscribers included the Scottish, Albanian, Armenian, Assyrian, Belgian, Bohemian, Chinese, Bulgarian, Croatian, Danish, French, Finnish, German, English, Greek, Hollandish, Hungarian, Italian, Japanese, Jewish, Jugoslavian, Lithuanian, Lettish, Norwegian, Polish, Roumanian, Ruthenian, Portuguese, Russian, Serbian, Slovenian, Swedish, Swiss, Scandinavian, Syrian, Ukrainian.

As the war goes on and the need grows greater there is no doubt that these newer Americans will subscribe as liberally as the older ones to the Fourth Liberty Loan. They appreciate more than ever before the ideals of the United States and have become convinced that they are vastly more substantial than dreams for is not the country pouring out her youth, dividing her food even to the extent of pinching herself and turning over her vast industries, all for the purpose of making those ideals real to the rest of humanity?

BOYS AND GIRLS TO BUY BONDS

It is hoped that every school boy and girl in New England will buy a "Fighting Fourth" Liberty bond, each one paying for it, out of earnings. It takes such a lot of money to carry on this great war every penny that can be put into it is needed. There is plenty of money in the world. The thing is to get it into the hands of Uncle Sam so that he may turn it over in one form or another to the soldiers. There must be guns and bombs and battleships, submarines and airplanes, and there must be also things to wear and things to eat. The soldiers must be trained and they must be gotten across. There are in fact, so many things to spend money for it is impossible to count them all.

The important thing for everybody to do seems to be to get money together and then lend it to Uncle Sam. This means that money must be saved and that money must be earned. It can be saved by taking care of our clothes so as to make them last as long as they possibly can, by furnishing up the old instead of getting new and by buying only what we positively must have.

There are so many ways for boys and girls to earn money these days it seems as though every one ought to be able to earn \$1 week for a \$50 bond. There are things to be made and sold, chores to be done, errands to run. If every boy and girl will stop to think it seems to be almost certain that each one will find plenty of things to be done in his town, or his neighborhood, or his home, to help him earn all or nearly all the money. What he don't earn or save can perhaps be supplemented from previous savings.

WHAT YOU SUBSCRIBE FOR.

When you subscribe to a Fighting Fourth Liberty Loan bond you subscribe to the sentiment that the world must be made safe for democracy and subscribe to the fund that is to make the world safe for democracy. You subscribe to the belief that innocent women and children on unarmed ships shall not be sent to the bottom of the sea; that women and children and old men shall not be ravished and tortured and murdered under the plea of military necessity; that nurses shall not be shot for deeds of mercy, nor hospital ships be sunk without warning, or hospitals and unfortified cities be bombed, or cannonaded with long-range guns.

FIGHTING FOURTH RALLYING SONG.

By Maxton E. Parker.
File on the wagon old and young,
For the Fourth great L. B. Drive;
Give, give, give for Uncle Sam,
Let the world know you're alive.
Chorus:
For we must get the Kaiser Bill,
We're bound to beat the Hun;
To do it good and plenty
Will take a lot of mun.
Yes, money, money, money,
Hard cash from every one.
Then find that pocket in the shirt,
That, stocking leg explore;
Bring Uncle Sam the contents
Besides a little more.
Let Sister bring her little purse,
Let Brother break his bank;
Each family must buy a bond
To down the "Kultur" Krank.
Chorus:
Then we will SURE get Kaiser Bill,
We're BOUND to beat the Hun;
To do it good and plenty
Will take a lot of mun.
Yes, money, money, money,
Hard cash from every one.

WHEN TO START FURNACE DEPENDS ON INDIVIDUAL

No Fixed Date Set by the Fuel Administrator—His Statement.

Hartford, Oct. 1.—The question uppermost in the minds of many domestic consumers of coal as to whether or not there is a regulation in force establishing a date for the lighting of fires was answered today by Thomas W. Russell, Federal Fuel Administrator for Connecticut, in an official statement which places the responsibility for burning coal during the autumn squarely up to each individual.

The statement follows: "There seems to be a widespread impression that we have fixed a definite date on which coal fires may be started for heating such places as homes, apartment houses, and hotels. No definite date has been set, but at the same time I believe a word of explanation and caution is necessary."

"We have not established a definite date for the reason that living conditions in each family differ so materially, and conditions of health or illness are so vital. There is no intent to cause hardship or suffering among the old or the infirm. I may add that we have no intention of establishing a definite date.

"Each individual must decide the question for himself, bearing in mind the very real and urgent need for the utmost economy and efficiency in the use of coal during the coming winter.

"In issuing a warning to the public recently and in outlining frankly my expectations for the winter I have done all that seems necessary at the present time. I feel confident that the people of Connecticut, who have cooperated with such splendid patriotism in the conservation of food, may be depended upon to show the same spirit in the use of coal."

LORD CHARNWOOD TO BE ORATOR AT CENTENNIAL IN STATE OF ILLINOIS.

London—Lord Charnwood will very shortly sail for the United States, where he will remain till the New Year. At the special request of the Governor of Illinois the British Government has asked Lord Charnwood to be present as representing this country at the celebration in October of the hundredth anniversary of the creation of that State, and he will deliver an address at the unveiling there of a statue of Abraham Lincoln, whose "life"—a really brilliant piece of biography—Lord Charnwood wrote some months ago. His lordship has also received invitations from a number of friends in America to give lectures and addresses in many places.

NEW KIND OF SWINDLE IS WORKED IN ST. LOUIS.

St. Louis, Mo.—A new kind of swindle has been discovered here. H. T. Hinton, clerk in a pharmacy, received a telephone call requesting that a quart of ice cream and ten cents' worth of aspirin tablets be sent to 4917 Page Boulevard, and that change for a \$10 bill be sent out and a man on the front steps of the address, given gave the boy a worthless ten dollar check and took \$9.60 in change. The man is unknown to the occupants of the house.

"The Relics of Chateau-Thierry"

After that memorable battle, visitors went to the building back of the lines which served as a hospital. It held the American wounded who had survived that pitiless thirteen hours of beating back the Hun at Chateau-Thierry.

On that line of white stone houses on the south bank of the river the American machine gunners, after a thirty-hour ride in camions from another part of France, placed their tools of war and held for thirteen hours against the mad rushes of the oncoming Germans to get across the river.

With the same unconquerable boyishness that is laughing its way into the hearts of all civilized Europe, these heroic young soldiers had tacked upon the door of their hospital this sign:

most—"Lend the way they fight"—never stopping to count the cost.

Bonds of the Fourth Liberty Loan are being sold to help bring to a triumphant finish this crusade against the blackest evil in the world. Every Bond you can buy will help to the full value of every dollar it represents and to the full value of every ounce of patriotism you can put back of it.

It seems unfitting that we should remind ourselves that we are only lending, that we are benefiting ourselves with every Bond we buy. The very least that we can do is to lend to the ut-

P. P. BOYNTON IS DEAD; WAS 83 YEARS OF AGE

One of Oldest Residents of Manchester—A Brief Sketch of His Life.

Phlander P. Boynton, one of Manchester's oldest and most respected citizens, died this morning shortly after six o'clock at his home on Main street, at the advanced age of 83 years. Mr. Boynton had been in bed less than two weeks. He had a fall in the bath room about two weeks ago and since that time he has fallen rapidly. Previous to that time his health was very good for a man of his years and he was able to get about the house every day.

Mr. Boynton was a native of Coventry. He was born there and came to Manchester in 1855. His first work in Manchester was as a clerk in the old Union store for the late George H. Parkhurst. He remained in that position for a number of years until he started a grocery business for himself in the store on Depot Square now owned by W. L. Buckland. He continued this business for about ten years and then moved the grocery business to his place on Main street and continued to sell more or less groceries in town up to about two years ago and gave up active work. He had then reached the age of 81 years and believed that he had done his full share of the work of his life.

Mr. Boynton was the first agent of the Adams Express Company in Manchester. He did not have an automobile to deliver the packages nor even a horse and wagon. The trains in those days did not keep very close to the schedule but arrived at the station when they got here and when Mr. Boynton heard the whistle of the engine he hustled for his wheelbarrow and delivered all the packages that way. Mr. Boynton had been a subscriber of the Herald ever since the first issue of the paper.

In politics Mr. Boynton was a loyal Republican and could always, as long as his health would permit, be counted upon to attend the caucuses of the party and vote on election day. He never held any town office, being busy with his own business affairs. He was a loyal member of the North Methodist church and as long as he was able, he attended the service of the church. For years he sat in the choir.

Besides his wife he is survived by one son, F. O. Boynton. He was the last surviving member of a family of five brothers and sisters.

The funeral will take place at the house Thursday afternoon at two o'clock. Rev. E. F. Studley of the North Methodist church will officiate. The burial will be in the Buckland cemetery.

DR. RICE'S NEW POSITION.

Dr. R. W. Rice has accepted a position with the American Mutual Liability Insurance company of New York and will have charge of the company's first aid room at its branch office at 209 Pearl street, Hartford. He will retain his residence in Manchester, but will be at his Manchester office in the House & Hale block evenings only, from seven to nine o'clock. The American Mutual Liability Insurance company deals largely in factory insurance and compensation and does business with several of the factories in Manchester.

Dr. Rice was graduated from the College of Physicians and Surgeons of Baltimore in the class of 1909, being a classmate of Dr. J. A. Higgins, now engaged in war work in France. He began practicing in Manchester seven years ago last month and built up one of the largest practices in town.

WILLIAM MCGUIRE'S FUNERAL

The body of Private William McGuire, who died at Camp Devens Sunday night, arrived in town this forenoon. His father and mother arrived home last evening. The funeral will take place from St. Bridget's church Thursday morning at nine o'clock. Rev. C. J. McCann will officiate.

The members of the Knights of Columbus, to which organization he belonged, will attend the funeral in a body. The members will assemble at their club rooms at eight o'clock sharp. The burial will be in St. Bridget's cemetery.
