

## POLICE ALL OVER U. S. SPREAD NET TO CATCH BOMB PLOTTERS

### Three Arrests Made in Boston — Senator Overman Another to Receive Bomb Through Mails—Plot Was Nation Wide—Discovered by Accident—Noted Men Picked Out.

New York, May 1.—A wholesale roundup of I. W. W. leaders who have openly preached violence was begun by the police today while Postoffice Department operatives and detectives sought the men who mailed bombs to many prominent officials and men of wealth throughout the country.

A number of persons were to be taken into custody in New York, Chicago and on the Pacific coast before night for questioning. In many cases their identity will be kept secret until the police have concluded their investigation.

Sent by N. Y. Reds.  
Postoffice officials here do not doubt but that the bombs mailed from here were sent by members of the New York Colony of Reds, who planned to kill several prominent persons on May Day. All last night detectives searched all anarchists haunts in the foreign sections for several suspects and the search was being continued today.

At the same time it is thought probable that the men who mailed bombs in the New York general office may have been working in conjunction with anarchists in other cities. It is for this reason that a nation-wide round up was ordered.

### In Many Cities.

The police of New York and more than a score of cities with large anarchist colonies were taking special precautions today to prevent any violent May Day demonstrations. The New York police ordered the arrest of all persons distributing circulars, printed in Yiddish, calling for a general strike today and denouncing American doughboys. The circulars demanded the liberating of Eugene V. Debs, "Bill" Hayward and Thomas Mooney.

Chief postoffice inspector William E. Cochran, in charge of the investigation here, said today that the plot was the most dangerous and extensive scheme of violence in the country's history.

"I am not naming at this time the outlaw groups that I believe to be responsible," said chief Cochran, "but I think you will have no difficulty in drawing a correct conclusion as to the responsibility, if you take into consideration the recent official activities of some of the gentlemen to whom bombs were addressed."

### Financiers Surprised.

No information was forthcoming at the offices of J. P. Morgan and John D. Rockefeller, to whom bombs were addressed, other than the statement that both financiers were surprised at the news. It is understood, however, that extra precautions have been taken to protect both men from would-be assassins as the result of the bomb discovery.

Inspectors Owen Egan and John F. Dickson of the Bureau of combustibles, who examined the sixteen bombs found here, said that the internal machines were the work of an expert.

### Skillfully Constructed.

Dickson had never examined a bomb of more skillful construction. The pasting of two little red seals on either end of the packages containing the bombs undoubtedly saved the lives of several of the men to whom the packages were addressed. When the packages were sealed they called for the first class rate and the postage was insufficient.

It was for that reason that they were laid aside and came to the attention of Charles Caplan the post-office clerk, who noted their resemblance to newspaper descriptions of bomb sent to ex-Senator Hardwick. It was Caplan's quick-

### TURBULENT STUDENTS RIOT IN CAIRO

Cairo, Egypt, (Via London, May 1.)—Turbulent students who, attempted, to prevent British government employees from returning to work in compliance with the manifesto issued by General Sir H. H. Allenby, were dispersed by the police. Government offices and officials are being guarded by troops against rioters. The press is condemning the strikers for their methods.

## SENATE BY 24-11 VOTE PASSES MOVIE MEASURE

### Overrides Governor Holcomb's Veto for Sabbath Observance.

### MOVE TO RECONSIDER

### Senator Hough Defends Veto—Governor Has Proper Sabbath, He Says.

Hartford, May 1.—By a roll call vote of 24 to 11 the Senate today passed the Sunday motion picture bill over the governor's veto, which was read in the Senate just ten minutes before the veto, which is the same as was brought into the Senate two days ago by the governor's executive secretary and then withdrawn, caused no stir among the Senators who all appeared to be thoroughly conversant with the objections made.

Senator Klett immediately moved reconsideration of the bill and then said that although loyal to the governor he could not vote to uphold the veto. The question before the Senate under the rules was: Shall the bill pass the governor's veto to the contrary notwithstanding?

Senator Hough defended the veto, saying that Governor Holcomb had been mighty loyal to this and previous legislatures, for he had not vetoed some of the foolish and objectionable matters passed. He said that Governor Holcomb was loyal to his faith and loyal to God Almighty, "whom some of us in this Senate seem to have forgotten."

### Mr. Hough's Speech.

"I don't want Rhode Island to be held up as an example for me," said Mr. Hough, "and I believe that we should surrender some of our opinion to the governor, who has lived longer than any one in this circle, has served his state longer than any one of us and who has the proper respect for the Christian New England Sabbath."

### Woodruff Unchanged.

Senator Woodruff of Orange caused surprise by saying that although he was still unchanged in his principles he had changed his mind about Sunday movie education since about a month ago when the Senate passed the bill 23 to three, he being among the minority and he intended to vote against veto. Further he said he had not received thirty five cents or any multiple thereof. He said his own church had illustrated pictures on Sunday night but his change of mind was due chiefly to the statement of Senators Delaney, prosecutor of the Birdgeport City Court and Senator Klett, prosecutor of the New Britain court, both of whom gave excellent reasons for the passage of this legislation.

### The Vote.

Those voting to uphold the veto were all Republicans, Senators Leonard, Templeton, Waterman, Bissell, Mead, McDonald, Adams, Brooks, Tiffany, Hough and Hazen. Those voting to pass the bill against the veto were: Senators Broder, Hemenway, Koplemann, Bishop, Bailey, Clynne, Hurley, French, Fox and Wilcox, Democrats; and Powers, Deming, Klett, House, Marsden, Golden, Woodruff, Bartlett, Delaney, Clark, Dillon, Williamson, Chapin and Head, Republicans.

The bill was immediately transmitted to the House under suspension of the rules.

## TO SIGN TREATY WITHIN 48 HOURS DESPITE ITALIANS

### Regardless of What Action Italy Will Take Powers to Proceed.

### IMPORTANT MESSAGES ARE SENT TO ORLANDO

### Japs Satisfied With Agreement—Wilson Urges Great Britain to Send Coal to Italy.

Paris, May 1.—The agreement on Japanese claims in the Shantung peninsula insures the signing of the treaty within 48 hours by the allied powers, regardless of Italy's position.

Within the past twenty-four hours important messages have been sent to Premier Orlando in Rome warning him of the necessity for action, but this pressure, it was said, was purely of the most friendly nature.

While Chinese official circles seem to be genuinely concerned over the Shantung settlement, it is agreed everywhere that the terms accepted will safeguard China's interests more than could have been done by any other method of action.

### Japs Satisfied.

Japanese delegates were flatly instructed that unless they retained economic rights in the Shantung peninsula they must refuse to sign the treaty. They are said to be entirely satisfied with the result of the compromise and are lined up with the American delegation on the big treaty questions.

It is understood that some of the associates of President Wilson suggested economic pressure upon Italy to change the attitude of the Italian government on Fiume.

It is possible, however, to deny that anything of the kind was ever dreamed of, so far as President Wilson is concerned.

### Children Would Suffer.

The President warned those making the suggestions that many women and children in Italy would suffer should economic pressure be attempted and declared that, regardless of the official attitude of the United States, America loves Italy, appreciates the good qualities of the Italian people and will continue to give all possible financial assistance meanwhile furnishing as much relief in foodstuffs as can be sent across the Atlantic.

The American officials have been instructed to carry out this policy to the limit.

President Wilson, furthermore, is urging Great Britain to send coal to Italy, as it is badly needed by the Italian industries.

### ANTI-BOLSHEVIKS TAKE PETROGRAD, IS REPORTED

Unconfirmed Bulletin Reaches London—Bolshevik Fleet of Gunboats Leave for Scene.

London, May 1.—An unconfirmed report was received here today that Finnish and anti-Bolshevik Russian troops had occupied Petrograd.

A Bolshevik fleet of gunboats has left Kotlas, on the Dvina river to bombard the allied positions. The War Office considers, in anticipation of the cutting off of Hungary from Russia by the Roumanian advance, that Budapest will be occupied until the Hungarian situation is stabilized.

## ANTI-BOLSHEVIKS TAKE PETROGRAD, IS REPORTED

### Unconfirmed Bulletin Reaches London—Bolshevik Fleet of Gunboats Leave for Scene.

London, May 1.—An unconfirmed report was received here today that Finnish and anti-Bolshevik Russian troops had occupied Petrograd.

A Bolshevik fleet of gunboats has left Kotlas, on the Dvina river to bombard the allied positions. The War Office considers, in anticipation of the cutting off of Hungary from Russia by the Roumanian advance, that Budapest will be occupied until the Hungarian situation is stabilized.

## FOUR LEGGED CHICKEN.

Stamford, May 1.—A freak of nature, hatched out in the form of a four legged chicken, is attracting the attention of chicken raisers here today.

The freak was born yesterday in the henery of Mrs. Nathan Rosman of 16 Lafayette street, this city. The legs are perfectly formed. As a consequence the mother hen is exuding many loud cackles over the extraordinary event.

## CHINA NOT SATISFIED WITH SHANTUNG DECISION; HOPES OF A COMPROMISE ON ADRIATIC PROBLEM

## "GERMANY WILL BE RUINED UNLESS TREATY IS SIGNED"

Berlin, April 30.—(Via London, May 1.)—"Germany will be utterly ruined unless the German envoys sign the peace treaty," said Earl Kautsky in the newspaper Freiheit today.

(Herr Kautsky was a former attaché of the German Foreign Office, commissioned to investigate the archives to fix responsibility for the war).

Herr Kautsky is believed to complete his investigation, but the publication of his report has been held

up by the government. Responsibility is said to rest with individual persons and the German institutions which gave these personages their power. The people as a whole are said to be called "not accomplices, but victims."

Herr Kautsky was quoted as saying: "We are perhaps the most unfortunate victims of the war with the exception of Belgium."

"The government considers it best to start negotiations, leaving it

to public utterances to fix responsibility for war guilt. This is about as clever as appointing Prof. Walter Schuecking to the German peace delegation after the verdict on the Fryatt case."

(The execution of Captain Fryatt, commander of a British merchant ship, for attempting to ram a German submarine which was attacking his vessel, was recently upheld by the German government, although it had been universally condemned throughout the world.)

### Dr. Koo Says Wilson Does Not Understand Real Situation — Arrangements Were Adroitly Managed—Up to Italy to Come Back or Be Considered an "Outlaw"—Treaty Soon Ready

Paris, May 1.—"The agreement to recognize Japan's claims in the Shantung peninsula is unsatisfactory to China," it was declared today by Dr. Wellington Koo, Chinese ambassador to the United States and leader of the Chinese delegation to the peace conference.

### "Wilson Don't Understand."

"I do not believe that President Wilson understands the real situation," continued the Chinese diplomat. "The Chinese are most unhappy over the outcome."

Regardless of the declaration by Dr. Koo, President Wilson is understood to have secured important concessions in the Chino-Japanese matter. The agreement results in the conversion of all German rights at Kiaochow from Germany to Japan. The terms include territorial sovereignty and other rights. The Japanese promised President Wilson that this sovereignty will eventually be returned to China while Japan retains only certain economic rights.

The Japanese demands were recognized in view of the fact that Japanese troops had taken the territory in question from the German defenders by force of arms.

Tsing Tao, (the port of Kiaochow), will be a free city so far as China is concerned.

### Adroitly Managed.

The complete arrangement was adroitly managed, but the Chinese make material gains in spite of their announced dissatisfaction.

### Italian Situation.

"Colored" reports are coming from Italy that Premier Orlando will not return to Paris unless invited, but the actual facts are said to be that the Italian statesman's return is now but an incident. The President has made his position on the Fiume question very plain and his attitude is that it is up to Italy whether or not that nation shall "outlaw" herself.

President Wilson will not allow anyone but himself to write America's position in the peace treaty.

The Italians will be left free to do as they please without further comment from the Americans.

It is now regarded as likely that the treaty may be submitted to Germany on Sunday, with a certain length of time allotted for acceptance or rejection.

## POLAND DISSATISFIED; WILL KEEP ON FIGHTING

### Decision Reached by Peace Delegates at Paris is Not to Her Lik-ing.

Warsaw, April 30.—(Via London, May 1.)—Poland is dissatisfied with the decision reached by the peace delegates at Paris regarding her eastern frontier and will refuse to accept it, according to information secured from government circles today. In the meantime, it was said, the Polish troops will continue their successful campaign.

The Polish forces engaging the Ukrainians in eastern Galicia have put the latter to flight and have relieved Lemberg from peril of capture.

### GREAT BRITAIN'S BUDGET.

London, May 1.—The clause in the new \$7,500,000,000 budget granting Colonial trade preference, was generally praised by the newspapers today.

"Chancellor Austen Chamberlain has done much that is worthy of all our praise," said the Daily Express.

## IRENE CASTLE TO WED CAPT. ROBERT E. TREMEN

### Famous Dancer to Be Married in New York Saturday—Groom From Ithaca, N. Y.

Ithaca, N. Y., May 1.—Mrs. Irene Castle, widow of Vernon Castle, the well known dancer, who met his death in an aeroplane, will be married on Saturday to Captain Robert E. Tremen, of Ithaca, friends of the groom announced today, despite Mrs. Castle's recent denial that she was engaged to Tremen. They said they had received invitations to attend the ceremony at the famous Little Church Around the Corner in New York. Captain Tremen met Mrs. Castle while she was filmed in pictures here a few years ago. While in England, after the armistice was signed, he met her again.

Tremen is the son of Robert H. Tremen, Governor of the Federal Reserve Board for the New York District, a man of much wealth. The captain is a graduate of Cornell, class of 1912. He has purchased a beautiful home in Ithaca. His friends said they understood that Mrs. Castle would retire from the stage and movies and make her home here.

## TAX ON ALL LUXURIES GOES INTO EFFECT TODAY

### Partial List of Articles On Which Consumer Must Pay Extra Beginning Today.

Washington, May 1.—Tax bombs were received by every luxury—large and small—today.

Beginning today, everything that even smacks of luxury will carry an extra tax, averaging ten per cent, to be paid not by the dealer, but by the consumer. The lowly nut sundae, for instance, is glorified to the luxury class, and hereafter those selling for ten cents will cost the purchaser an extra cent, while the fifteen cent variety will set him back an additional two cents. The same is true of all fountain delicacies.

Patent medicines, toilet articles, and other pharmacy specialties also are luxuries, in the terms of the law, and clothing that brings more than a stated price also will be taxed. For instance, men's hats are taxed ten per cent of all in excess of \$5, but women's headgear is allowed to sell for \$15 before the extra penalty is attached.

The framers of the law decreed \$10 shoes, not a luxury, and consequently you may pay as high as that amount for footwear before the ten per cent jolt is handed you. The limit for men's shirts is \$3, all varieties of kimonos, petticoats and numerous other little things that ladies wear, \$15. The list of articles taxed seems interminable.

There is a ray of sunshine in anticipation, however. It is whispered that the luxury taxes will be abolished by the next Congress. They would have been at the last session except for a legislative jam in the closing hours. So, grin and bear 'em.

## TROOPS PARADE IN PARIS STREETS READY FOR MAY DAY DISTURBANCES

### LAW AND LLOYD GEORGE ON EX-KAISER'S TRIAL

London, May 1.—A Bonar Law, former chancellor of the exchequer and now government leader in the House of Commons, is leaving for Paris to consult with Premier Lloyd George on the trial of the ex-Kaiser of Germany, the Daily Mirror announced today.

## TREATY TO BE SIGNED NOT BEFORE MAY 26

### Wilson Now Willing That Former Kaiser is Brought to Trial.

### IS ONE OF CONDITIONS

### Arraignment of Ex-Kaiser Must Be Included in Peace Terms, Officials Say.

Paris, April 30.—(Delayed.)—The treaty of peace will not be signed before May 26, according to opinion expressed in authoritative circles today. It was reported at the same time that President Wilson has now waived all objections to the trial of the former Kaiser of Germany for his war crime responsibilities.

The forthcoming arraignment of the ex-Kaiser is now one of the conditions of the peace terms.

It is now believed the German delegates will not receive the peace treaty before Monday. They may be given fourteen days for consideration of the terms and consultation with the government and the national assembly at Weimar.

George N. Barnes, of the British peace delegation and Jules Cambon, of the French delegation, were assigned to examine the credentials of the German envoys at Versailles. The work was being carried out today.

## STORM WARNING.

New York, May 1.—A southwest storm warning was issued by the local weather bureau today from Cape Henry to Boston. A disturbance of considerable intensity now centering over lower Michigan will move east northeast, increasing in intensity. Strong, southerly winds this afternoon and tonight will be scheduled by a moderate southwest gale tomorrow morning.

## REDS IN FLIGHT

### Finnish Volunteers Capture Murman Railway from Bolsheviks.

Helsingfors, April 30.—(Via London, May 1.)—Finnish volunteers have captured the Murman railway from the Bolsheviks, cutting the chief line of communication supplying the Bolshevik forces opposing the Allies on the Murmansk front. The Red troops are fleeing from Petrograd, fearing its capture by the White Guard.

Benjamin Franklin said: "God helps those that help themselves." Wise buying is first-aid to W. S. S.

## MANCHESTER WILL SEE RELIC TRAIN SATURDAY

### Wonderful Trainload of German Trophies Captured During War.

### UGLY-LOOKING HUN GUNS

Thousands of Manchester citizens will have an opportunity to see the famous German war relic train Saturday. The train will be brought here under the auspices of the Manchester Victory Loan committee. Chairman R. LaMotte Russell announced the program this noon for the Saturday exhibit of the train.

The local committee is very anxious to have a complete "clean-up" made this week. It is satisfied that if all local citizens pull together the town's quota will be raised by Saturday night.

**Must Raise Quota.**

In a circular sent to all Liberty Loan Committees today, Director L. B. Franklin explained that it was not the intention of Secretary Glass, when he announced that subscription to the Victory Loan would be limited to \$4,500,000,000 to reject in the case of over-subscription, the orders of persons who purchased \$10,000 or less.

"All communities ought to be able to and should raise subscriptions to the entire amount of their quota over and above subscriptions by banks for their own account," said Mr. Franklin. "If this is done, there will be a very heavy over-subscription to the issue and a thorough distribution of the notes, thereby contributing greatly to the stability of the market price after the campaign is over."

**No Holding Back.**

"Remember, this is the last Liberty Loan," continued Director Franklin. "There is no reason for holding back this time. The key-

note of the campaign should be "distribution", in order that the Victory notes may be purchased and paid for by the people at large out of their present or future savings, and the resources of the banks left clear to provide credit for the operation of our industries, to the end that labor may be fully employed and prosperity insured.

"While the Treasury Department expects every community to meet its quota, some very decided changes in industrial conditions and even in population have taken place since the conclusion of the last campaign, the conclusion of the last campaign, it is therefore of the utmost importance that every community make a determined effort to obtain every available subscription.

Total is \$623,800.

Figures obtained this afternoon of the Manchester Victory Loan committee show that the total amount subscribed in this community at this writing is \$623,800. This is a splendid showing, and gives indication that the town's full quota will be subscribed this week.

**Relic Train Visit.**

The official program calls for the arrival of the famous relic train at the Manchester station at 2.30. It will remain in town as follows: Manchester station, 2.30 to 4.30 Saturday afternoon; South Manchester station, 4.45 to 5.45. Addresses will be given by the Rev. C. E. Hessegrave and other local speakers at both stations. Several thousand people will be on hand to view the war relics. The following program will be carried out:

1. Aerial salute bombs will be discharged as the train reaches its stop.
2. The Victory Loan representative in charge of the train will make a brief address and ask Local Committee of three to come to the platform.
3. A five minute address by the local chairman or someone selected by him.
4. Talk by a returned soldier.
5. Address by an experienced Victory Loan speaker on the necessity of subscribing to the Loan.
6. Invitation by Liberty Loan representatives to inspect the exhibits on the train.

Portland, Me., May 1.—Nineteen-year-old Frank Shaw was spanked by Patrolman Hugh McDonough in the Municipal Court by order of Judge McGlanblow.

The spanking was administered after the boy had pleaded guilty to the larceny of lead from the roofs of buildings, and his mother, a widow, had said she had been unable to break him of some bad habits he had acquired. He was placed on probation for one year.

**NEW LUMBER RATES.**

Washington, May 1.—An entire re-classification of rates on lumber and lumber products will be undertaken by the Interstate Commerce Commission, it was announced today.

## AMERICANS MAKE READY FOR "HOP" ACROSS OCEAN

Warships Start Out to Mark Path That Airplanes Will Take in Trip.

Rockaway Beach, L. I., May 1.—Under command of Rear Admiral Hugh Rodman, the flagship New York will lead four dreadnoughts out to sea today or tomorrow to mark the lane for the attempt by United States naval seaplanes to cross the Atlantic.

The ships accompanying the New York will be the Texas, Arkansas, Utah and Florida. A large number of destroyers, commanded by Admiral Plunkett, on the Rochester, will cruise between the battleships ready to dart to the aid of any of the naval planes that comes to grief and is forced to land on the water. In case of accident the aircraft will be hoisted aboard the dreadnaughts by means of cranes.

The navy tender Melville started out to sea, late yesterday, carrying representatives of the press associations and movie men who will cover the trans-Atlantic flight.

The course to be taken by the American planes probably will be officially announced this afternoon, though it is known that it completes a stop at the Azores.

It is believed here that the start will be made early next week.

## SOUTH METHODISTS TO WELCOME SOLDIERS

Banquet Reception and Good Entertainment to be Given Next Week.

Plans for the reception to the Honor Roll men of the South Methodist church parish are fast rounding into shape. It has been decided to have the reception Friday evening, May 9. A banquet will be served at 6.30 sharp. Each man on the Honor Roll will have the privilege of inviting a friend. The members of the G. A. R. and their wives also will be guests at the banquet.

Following the banquet, there will be an entertainment, to which all members of the club, church and congregation are invited. The program will be provided by a musical club from Mt. Holyoke college, the Manchester Male quartet and an elocutionist and it is expected also that the Victor orchestra will play.

District Superintendent W. H. Bath, who was organizer of the Methodist Young Men's club, now merged with the Men's Friendship club, will be present and make a short address and Rev. G. G. Scribner, Mr. Bath's successor at the South Methodist church also will have a few words for the soldiers.

## HONOR ROLL NAMES SUBJECT TO SCRUTINY

About 100 Names Now Under Question and Some May Be Dropped.

The Manchester Welcome Home committee has been enlarged and various duties have been assigned to sub-committees. The enlarged committee will meet Friday evening to complete plans for Manchester's reception to its discharged soldiers and sailors Saturday, May 17.

It is proposed to have the bronze medals ready for presentation on that day and as each medal is to be inscribed with the name of the recipient, the Honor Roll committee is now reviewing the names on the roll with the object of determining finally just who is entitled to a place there. About 100 names now appearing on the Honor Roll are in question and their claims to a place on the permanent memorial will be fully established or the names will be dropped. It is impossible that those whose war work consisted purely of civilian duties, for which they were fully compensated, will be eliminated from the Honor Roll.

## NO MORE NAVAL RACES FOR WORLD SUPREMACY

So Says Secretary Daniels—But One Fleet Will Be Needed to Do Police Duty.

London, May 1.—The time for competitive naval programs among the powers has ended, under the League of Nations plan, according to Josephus Daniels, the American secretary of the Navy, who has just concluded a visit to the surrendered German fleet at Scapa Flow.

Mr. Daniels pointed out, however, that a mobile fleet would be necessary for police duty.

The Allies, Secretary Daniels said, are still undecided whether or not to sink the German fleet in the middle of the Atlantic ocean. If the ships are not destroyed they probably will be divided among the Allied powers. If the German fleet is sent to the bottom the action would be accompanied by elaborate ceremonies to mark the end of Germany as a sea power. There would be much waving of flags and martial music on board the Allied warships.

## TO PROBE SLUSH FUND IN ALBANY, N. Y., TODAY

State Senate Judiciary Committee to Resume Its Investigations This Afternoon.

Albany, N. Y., May 1.—The State Senate Judiciary Committee will meet here this afternoon to resume its investigation of the alleged \$500,000 slush fund said to have been offered Senator George T. Thompson of Niagara by state traction interests.

Former Governor Charles S. Whitman, Richard H. Burk, charged with being the "go-between" in the offer of the fund and George A. Glynn, chairman of the Republican state committee, have been summoned to appear before the investigation committee. They will be cross examined by counsel for Senator Thompson. Glynn has been summoned in behalf of Senator Thompson to establish the fact that the meeting between the senator and the ex-Governor at which, it was testified by Thompson, the direct offer of the fund was made for his favorable consideration of a bill pending in the legislature, designed to give traction companies increased fares, was arranged for by Mr. Whitman and that Mr. Glynn gave Thompson the invitation.

Benjamin Franklin said: "Every little makes a mickle." Sixteen "Thrillies" makes a W. S. S.

# AT THE CIRCLE TONIGHT

THE GIRL WITH THE LOCAL REPUTATION

## ELSIE FERGUSON IN "HIS PARISIAN WIFE"

AN ARTCRAFT SPECIAL—SHE WAS FROM PARIS AND HER STUNNING GOWNS MADDENED HER AMERICAN MOTHER-IN-LAW. YOU SHOULD SEE HOW THE LITTLE FRENCH GIRL WINS OUT. ADMISSION: MATINEE 5 AND 10C; EVENINGS 15 AND 20C AND WAR TAX

### Circle Theater

Is it wise for man to wed a French girl and then take her to the home of his parents? Can one overcome the objections and suspicions of one's parents if they happen to be Puritanical in their views on matrimony? If not, is it possible for the newly wedded couple to be happy?

These are the questions which Elsie Ferguson, the charming Artcraft star, answers vigorously as Fauvette, the French bride of Martin Wesley, in her latest photoplay, "His Parisian Wife," which will be displayed at the Circle theater tonight. Her volatile temperament was not appreciated or understood by her husband's parents and despite every effort made by her to win their confidence and love, they persisted in treating her as a girl with "a past" and therefore unworthy of their respect.

### Park Theater

Billie Rhodes, the sprightly little star, has in "The Love Call," her latest National production for Exhibitors Mutual release, a role that proves the clever little ingenue possessed of unusual talent for character acting. It will be shown tonight as the feature at the Park.

Miss Rhodes is always at her best when she is unhampered by conventionalities. As "The Kid" in "The Love Call," the vivacious little actress plays the part of a western girl who has been brought up in a frontier town by her drunken, crusty old father, an ex-mate on a sailing vessel, known as Mate Allen, whose favorite hang-out was O'Keefe's primitive saloon in Chugwater.

The Mate is killed by O'Keefe, and the Kid starts out into the world alone to carry out her murdered father's oft repeated wish that she get an "education." "I don't know what the blazes an 'education' is, but dad wanted I should get it, and I'm going after it," was the Kid's comment.

The Kid's quest leads to a romantic meeting with Joe Emory, a sheepherder, and later an exciting and humorous adventure with a husky, good-natured cowboy, Nick Horton, who pulls the whiskers of a college professor when the professor refused to admit the Kid into the university without some preliminary studying.

There are a couple of exciting rough-and-tumble fights in the production, one between the "Mate" and O'Keefe in the frontier saloon, and another when Nick grabs the professor by his hirsute barrage and mops up the classic floor of the college with the dignified high-brow.

The photography is striking, especially the shepherd scenes showing the flock coming down the mountain trail.

Tomorrow Madge Kennedy will be seen in a Goldwyn "The Kingdom of Youth."

Benjamin Franklin said: "Money can beget money, and its offspring can beget more." Buy W. S. S.

### POLICE SET OUT NET FOR THE BOMB PLOTTERS

(Continued from Page 1.)

Four arrests at "Hub." Boston, May 1.—Four distributors of revolutionary literature, three of them Russians, were the first suspects to be arrested in Boston today in the round-up begun, when word was received here of the nation-wide bomb plot unearthed in New York. The men who were arrested in Roxbury are being investigated by Department of Justice agents. In Roxbury court they were arraigned on the technical charge of distributing hand bills on the streets without a permit. They pleaded, guilty and their cases were continued until May 9 for sentence. The literature which they were passing out was May Day propaganda, according to the police and in vague but unmistakable terms preached "the revolution" which the extremists among syndicalists and I. W. W. agitators advocate.

"The May Day is the labor day of the revolutionary workmen," said one of the circulars. This is to be a historic May Day when the feeling of unrest spreading and all over the world the capitalistic system is being upset."

The men gave the names of Herman Schube, Robert Smith, Fred Williamson, and Rudolph Schark. The latter is a Canadian soldier of Lithuanian origin.

SENATOR GETS BOMB. Washington, May 1.—A bomb addressed to Senator Lee Overman of North Carolina has been held up in the Post Office at Salisbury, in that state, the Postoffice Department announced today.

Senator Overman was chairman

of the Senate committee that conducted an investigation of Bolshevik propaganda, running over a period of several weeks, during the last session of Congress.

### RED FLAGS HUNG OUT. Only Signs of Unrest Seen Today in Chicago.

Chicago, May 1.—Two Red flags, hung to the breeze from Madison street, stations of the elevated railway early today were the only signs of May Day unrest here. The "reds" emblem were torn down by irate "L" employees and trampled under foot. The crimson banners bore these inscriptions: "Long live the all-world proletarian dictatorship." "Hoorsay for the World Socialist Federal Soviet Republic."

Police Chief Garrity later issued an appeal to all citizens to destroy Red flags whenever they appear.

NEAR EAST CONTRIBUTORS. New York, May 1.—Among contributions to the American committee for relief in the Near East, announced today, are individual donations of \$500 from Miss Sarah A. Seabury, of New Bedford, Mass., and Augustus P. Loring, of Boston. S. J. Swift, of Worcester, Mass., contributed \$1,000 and Mrs. Elizabeth C. Russ of Hartford, \$990.

TO UNIONIZE THE WORLD. Copenhagen, May 1.—Hungarian communists are working on a scheme to unionize the mines of the world under one management and thus form a mighty front against the world's capitalism. It was reported from Vienna today. Mining experts will go to Russia and later into Germany, Great Britain and America. It was said.

### STOCK MARKET

New York, May 1.—The stock market made good progress toward adjustment with the new conditions created by the changed dividend condition of Steel Common and the majority of the list reflected a decreased supply with an increased demand at the opening today. Buying orders were plentiful in several groups of stocks with the sugar issues becoming prominent.

American Sugar Refining advanced two points to 130 7-8 and American Beet Sugar 1-2 to 81 1-2. Steel Common opened with sales at 97 to 96 3-4, a decline of 3-4 but rallied to 97 3-4 in the next few minutes. U. S. Rubber advanced a point in the initial trading to 95 1-8, but reacted to 94 3-4 in the next few sales. The motor stocks were strong, General Motors advancing 1-2 to 182 and Willys Overland 1-4 to 35. Marine Preferred was next the special dividend of ten per cent and opened unchanged at 108 3-4.

Royal Dutch reflected accumulation, advancing 1 1-8 to 110. San Francisco was again strong, advancing 1-2 to 21 1-2.

BEELGIUM WILL NOT ACCEPT. Brussels, May 1.—Belgium will not accept the terms which the Big Four desire to impose upon her, the newspaper Soir stated today.

The Belgium plenipotentiaries are said to be demanding a complete fulfillment of all promises and to be insisting that they will not sign any treaty that does not provide restoration of political and economic independence.

PORTIONS OF TREATY REACHING WASHINGTON. Washington, May 1.—Fragmentary sections of the peace treaty the Central Powers will be called upon to sign have reached the State Department, it was learned today. Just what portion of the entire document they represent, officials were unable to say. The belief was expressed, however, that they are but a very small part.

When it is received in its entirety it will be made public upon notice from Paris, and will be published simultaneously here and abroad. Press reports that a synopsis of the text would be cabled from Paris were without confirmation at the State Department.

RIOT SQUADS OUT. Buffalo, N. Y., May 1.—Two riot squads and 150 other patrolmen have been ordered to report at Genesee street and Walden avenue this afternoon for the purpose of preventing the proposed parade of Socialists.

Acting Chief of Police Higgins warned the promoters of the parade not to make the attempt and received a letter to the effect that the parade would be held as scheduled.

(By Morris)

### Look Out Below!!!

### FLETCHER WON'T GO

Arthur Fletcher is one Giant who will be missed when John J. McGraw starts his tour of South America with the Chicago White Sox next fall. The Giant shortstop and captain has already declared himself.

Fletcher has no aversion to South America. But he has a dread of a sea voyage that is the result of sad experience. Back in 1913 he went to Honolulu with Frank Bancroft's all-star aggregation of ball players. He spent six miserable days and nights in his stateroom going over and six more coming back.

### HIPPO VAUGHN TELLS OF YANKEE FAILURE

Not Laziness That Caused Him to Fail With Stallings.

Chicago Twirler Says It Was Not Indifference That Caused Him to Be Dumped to Minors, But a Lame Arm—His Record.

Jim Vaughn has given a Chicago writer an explanation of why he failed with the New York Yankees so completely several years ago that he was dumped to the minors, to then come back and prove such a winner with the Chicago Cubs. It was not indifference, but a lame arm, says Hippo Jim.

Vaughn was charged with being luckless while he was with the Yankees in 1910, '11 and '12 and was roughly panned by some New York critics. They accused him of being lazy because he did not exert himself and make his size count for a lot

Jim Vaughn.

in the way of winning ball games. They did not know he injured his arm in the season of 1910. "I hurt my arm June 1," said Vaughn, in his explanation just given. "George Stallings was manager of the club at the time and I told him so, but he declined to let me go, thinking I would return to my normal condition. My arm did not regain its strength until I joined the Kansas City team in 1913. I think the hot weather there helped it. That fall I joined the Cubs and my arm has been great ever since."

"Fans said I was lazy while with New York. That is not true. I have never mentioned a word about this before. I was game enough to take my medicine and let the critics have their say, but since I became a member of the Cubs I did all within my power to beat the Giants on the Polo grounds just to hear the fans and scribes say: 'Why didn't he pitch that way with the Yankees?' I did not because my arm was bad. Barrett, who was trainer of the club, can verify what I say.

"I like to pitch, and have never refused a manager yet. I have often worked out of my turn despite the fact that it is just as hard for a big man to pitch as it is for a little man. Size has not everything to do with twirling. It is the arm, and a man of my stature is just as likely to tire and wear out his arm as a smaller and lighter pitcher."

Vaughn certainly has not shown any lazy tendencies since he was secured by the Cubs in 1913. That year he joined the club late in the fall and pitched in seven games, five of which he won. In 1914 he took his place as a regular twirler on the staff of the club and has retained it. Not including the seven games he pitched in the fall of 1913 he has averaged better than 41 games a season. Last summer, owing to the short season, was the first year in which he did not participate in more than 40 games. He twirled in 42 in 1914, 41 in 1915, 44 in 1916, 41 in 1917 and 35 in 1918.

### PLAYERS ARE PAID MONTHLY

Difference in New Contracts This Season Is Explained by Owners of League Teams.

The club owners of major league baseball teams explaining the new contracts say the difference is simply this: The players will be paid a monthly salary for the playing season. This monthly salary in the majority of cases is just as large as it always has been, but the season will be one month shorter. The season consists of 140 games instead of 154.

### GEN. PERSHING AWARDS 17 MORE WAR CROSSES

Three of the Men of the A. E. F. Have Since Died.

### NAMES OF THE HEROES

Almost All of the Recipients Live in Michigan—"Acts of Extraordinary Heroism."

Washington, May 1.—General Pershing has awarded the Distinguished Service Cross, given for "acts of extraordinary heroism" to 17 more officers and men of the American Expeditionary Forces, the War Department announced today. Three of the awards were posthumous.

Those honored: Captain Charles Ffills, 1,242 Porter street, Detroit, Mich.

Captain Meade Frierson, Jr. (deceased), 513 Broadway, Nashville, Tenn.

First Lieutenant Herman Crites, Rochester, N. Y.

First Lieutenant Merritt Wilson, Calumet, Mich.

Sergeant Earl Adelsberger, Carey, Ohio.

Sergeant William A. Monroe, Saginaw, Mich.

Sergeant James A. McDonald, Saginaw, Mich.

Corporal Harlow B. Emerson, Lansing, Mich.

Corporal Thomas M. Purdon, Sparks, Ga.

Privates Lynn Blossom, Clark Lake, Liberty, Mich.

Leonard St. James, Bay City, Mich.

Hazel P. Wilson, 1,776 Scotten avenue, Detroit, Mich.

William Retze, Brownwood, Texas.

Mike Kaminski, 292 Wesson avenue, Detroit, Mich.

Dewey Phillips, (deceased), Saginaw, Mich.

Walter Brown, (deceased), Brainerd, Minn.

Frank B. Holmes, 612 E. 47th street, Chicago.

### NATION IS SPEEDING UP IN VICTORY LOAN DRIVE

However Figures Are Still Below Fourth Loan for Same Period.

Washington, May 1.—A distinct speeding up of the Victory Loan drive was indicated in reports reaching the Treasury Department from the 12 federal reserve districts today. The percentage of the \$4,500,000,000 officially subscribed, however, still was below that of the Fourth Liberty Loan at the same stage of the campaign. There has been a falling off in the average of quotas subscribed.

Every district is reported as hopeful but none of them is openly optimistic, treasury officials stated.

### NEW ENGLANDS FIGURES.

Boston, May 1.—New England is forging to the front in the Victory Loan campaign and now stands third among all the districts in the United States from the standpoint of subscriptions.

New England raised \$22,252,000 on the ninth and second best day of its work. This makes a total of \$145,191,000 or 38 per cent of its quota. There are nine more working days of the present campaign. In those nine days New England must raise \$229,809, or almost \$27,500,000 daily in order to realize its quota.

Connecticut heads the list of New England states. Connecticut has 64 per cent of its quota. Vermont has 60 per cent, Massachusetts 32 per cent, Maine a bit over 30 per cent, and Rhode Island under 30 per cent.

### WORCESTER HONORS BOYS RETURNING FROM FRANCE

General Holiday Declared—City Lavishly Decorated—4,000 in Line and 200,000 Spectators.

Worcester, Mass., May 1.—Worcester honored her war heroes today. More than 200,000 spectators from all over Worcester county cheered wildly while four thousand Worcester soldiers paraded through the principal streets. Tribute was paid to the men who made the supreme sacrifice when the parade halted at Victory arch and wreaths were placed for Worcester's 329 hero dead. It was a general holiday here.

Worcester's many wheels of industry ceased turning for a day. The city was lavishly decorated with illuminations provided for a special night feature. The parade was reviewed by Mayor Pehr G. Folmes from a stand in front of city hall.

Units in line were: Chief Marshal Colonel John F. J. Herbert commanded 102nd Field Artillery, G company, 101st Infantry, (Emmet Guards); A, C, H companies 104th Infantry; Worcester Aviators commanded by Lieutenant Samuel Colton, Worcester "ace" and other Worcester soldiers in United States and allied armies. Tanks and other war equipment followed the marchers. Dances, sports and other events came after the parade.

NEWSPAPERS TIED UP. Albany, N. Y., May 1.—Albany newspapers are tied up today with a strike and walkout of their printers. The printers struck on two papers and resigned their positions on the remaining publications. Higher wages are sought.

Benjamin Franklin said: "Waste neither time nor money, but make the best use of both." Buy W. S. S.

Main Office—Herald Building, Manchester, Branch Office—Ferry Block, South Manchester.

TELEPHONES. Main Office, Main and Hillard Sts. 664

THAT MAIN ST. ENCROACHMENT.

The town of Manchester should lose no time in straightening the boundary line on the east side of Main street at a point where the Holl block and the Park theater are said to encroach on the street line.

It is quite evident that the owners of these buildings erected them in good faith upon lines furnished by the town's engineer at that time.

LUXURY TAXES.

In the multiplicity of events which have been monopolizing the attention of newspaper readers the past few weeks the fact has escaped the notice of most people that the so-called "Luxury Taxes" go into effect today.

On many necessary articles, such as clothing the tax applies when the articles are of such good quality that they cost more than a certain fixed amount.

This tax will be more burdensome upon the seller than upon the buyer for the seller has to keep an accurate account of the amount collected.

Except in certain instances where taxable articles sell for a large price, and in comparatively small numbers, like automobiles for example, the cost of collecting the tax will be all out of proportion with the amount of revenue received from it.

cording the taxes which the law requires him to pay. But he must adopt such a system forthwith or he will soon find himself in trouble with the internal revenue officers.

WHAT'S THIS? MODEST, DEMURE MAID

OF 1919 MODEL IS REALLY CONSIDERED A DRUG ON THE MARKETS IN LONDON

London, (by mail).—What is the English girl of today? This after the war type, if there is such, how different is she from the girl the boy in khaki left four years ago?

The women of these sales, have they become angular, with many corners and domineering ways, or are they fluffy and altogether irresponsible—rude even?

A veritable dazzle of sharp-sentenced inquiry is filling the newspapers and magazines, punctuated with exclamation points, question marks, italics and epigram.

We hear of the officer who returned home so tired of a tweed and khaki sister that he married a chignon wife. Some aver that little Miss England, who makes a lovely flapper and later a dominating house-mistress, has moved the clock forward a few years and has now become a crisp and aggressive young person, accustomed to giving orders and expecting to be obeyed.

The demobilized girl, it is said, retains her "service" manners, reminiscent of the sergeant-major who barked his way into eternal unpopularity behind the wire entanglements.

PEACE ON EARTH" CHANT

IS FOLLOWED BY ZION CITY OVERSEER TRIP.

Zion City, Ill., May 1.—"Peace on earth, good will to men," chanted the Zion City Choir—then Rev. Wilbur Glenn Voliva, Zion City overseer, rose up in the pulpit and apropos of the proposed legislative investigation of Zion City, spoke as follows:

"Liars, thieves, murderers, skunks, stinkpots. Every member of the Illinois State Legislature is a tobacco fiend. Members of the Legislature have no manhood, no decency, no self-respect.

THE MASCOTS.

A feature of yesterday's parade in Hartford was the appearance of two overseas mascots; a bulldog and a nanny goat. The goat proudly headed one of the divisions, resplendent in a khaki blanket which bore the gold service stripes, wound stripes and "YD" insignia.

The people of Illinois are banded together to persecute Zion City, God's own city. They are determined to stamp out the fire of righteousness kindled by the prophet John Alexander Dowie.

"Where do they spend their nights? I'm going to find out. I'm having them trailed. I shall publish what I find in a book of twenty-four pages. It will make interesting reading for their wives."

After more than a half hour of this strenuous work Voliva physically exhausted, but with the light of great victory in his eyes, wrapped his metaphorical robes about him and descended from the pulpit as the choir again intoned "Peace on earth, good will toward men."

CLOCK SPRING HURLS BIG NEEDLE IN BABY'S CHEEK.

Malden, Mass., May 1.—An inoffensive looking alarm clock came near causing serious results to one member of the family of Fred Holt.

Mr. Holt was repairing the clock with a darned needle. Nearby was his nineteen-months-old son asleep on a couch. The spring of the clock slipped with such force that it threw the darned needle against the sleeping child's face, imbedding it lengthwise in the left cheek. It was necessary for a physician to open the cheek sufficiently to reach the end of the needle, cut off the hooked end and then draw it out.

GENERAL PERSHING THE GUEST OF THE BRITISH NATION.

London, May 1.—General John J. Pershing, the American commander in chief, will arrive in London on May 24 and will be the guest of the British nation, it was learned today.

SAVES 1,000 PENNIES.

Lincoln, Ill., May 1.—Mrs. James Albright, of Middletown, saved Lincoln pennies for three years. They weighed three pounds and she took them to a bank recently to be counted.

SHOVELED INTO STREET CAR BECAUSE OF TIGHT SKIRT.

Philadelphia, Pa., May 1.—To be shoveled into a street car is something new, yet that was the experience of a local young lady recently.

The young lady was wearing a skirt of the latest style which resembled a "Y". The skirt was so tight and the crowd so large that it was simply impossible to lift the garment above the straining point.

This unusual quietude did not last very long, however. During the afternoon, when those who did not go to the big military parade in Hartford had finished their naps, the street began to take on a little more life.

Part that Manchester took in celebration Town Described—Salvationists Busy Serving Refreshments—Stores and Mills Closed.

PART THAT MANCHESTER TOOK IN CELEBRATION

Town Described—Salvationists Busy Serving Refreshments—Stores and Mills Closed.

Now for Manchester's reception and welcome home celebration to her own heroes. Patriotically active in all affairs of a military nature, this town lived up to the reputation of being one of the most patriotic towns of its size in New England.

Yesterday the town was practically deserted. Although it was Hartford's own welcome home reception to her native sons, Manchester also recognized her boys who participated in the grand parade of Connecticut's contribution to the immortal 26th division.

While a large majority of the residents were preparing for the Hartford trip, there was also a large number at the North end station to cheer the troops as they passed through the town on their way to Hartford.

Salvationists Active. While a large majority of the residents were preparing for the Hartford trip, there was also a large number at the North end station to cheer the troops as they passed through the town on their way to Hartford.

closed all day. But as far as the trolley officials were concerned, it was the busiest day they had experienced in years.

Superintendent H. A. Nettleton said it reminded him of some of the old-fashioned Fourth of July rushes. Every car and man they had were pressed into service, in order to handle the crowds going to the city.

When some of the stay-at-homes saw the way the people were crowded into the cars and thought of standing up all the way to the city and then standing around two or three hours to watch the parade, they decided that they were about as lucky as those who went to the parade.

NEW YORK OPENS ITS BASEBALL SEASON TODAY.

New York, May 1.—New York's baseball wild today, this being the date of the opening of the National League season both in Manhattan and in Brooklyn.

The Giants, tied for second place with three to the good and two lost, have the Phillies for opponents. The Dodgers, winners of four out of five contests entertained the Boston Braves.

The Giants go in for pomp and ceremony, the latter including a drill, the hoisting of the American flag and a band concert.

NEW SHOREHAM HOTEL BURNS.

New Haven, May 1.—The New Shoreham hotel, one of the finest summer hostleries on the Connecticut coast, located at Morris Cove, was burned to the ground at four thirty this morning, fire starting in the boiler house.

WHAT GERMANY LOSES. London, May 1.—Germany will lose seventy per cent of her iron ore deposits, 33 per cent of her coal, 20 per cent of her potash, all her ships, and colonies and 8,000,000 of her population under the treaty terms, said a Central News dispatch from Paris today.

COULDN'T TRY HORSE, SO OWNER IS FOUND GUILTY.

Kansas City, Mo., May 1.—It cost "Zeke" Ademan, a bakery wagon driver, \$10 because his horse made a meal off of some bark on a tree. While Ademan was delivering bread the horse, evidently hungry, nibbled the bark.

"Are you guilty of destroying city property?" asked City Prosecutor Mossman, in South Side Court.

"For why, for what," said Ademan, appealing to the Court. "For why should I pay for my horse eating the tree?"

"Because we can try you and not the horse," said Judge Fleming.

BURLISON ASKED TO RESIGN.

Cleveland, O., May 1.—Postmaster General Burlison is asked to resign from the President's cabinet in a resolution which the Cleveland Federation of Labor will forward him today.

Burlison was denounced for "having steadfastly declined to deal with representatives of organized workers in his department and to redress their grievances."

**TAGGING THE BASES**

Tommy Griffith, Dodger rightfielder, hung up his first error of the season in the semi-final twenty inning struggle between the Dodgers and Phillies which ended nine to nine. Excuse—darkness.

A peep at the Tiger's error column explains why the White Sox took them into camp nine to seven. Only five.

Larry Doyle tripled the Giants to victory over the Braves, twice tying things up. Lee King, who succeeded Young in the eighth, singled in the winning scores in the tenth.

Sammy Vick's homer in the first was the opening wedge in the Yankee's defeat over the Athletics. The trusty leather disappeared into the left field bleachers.

Ping Bodie did real well in the seventh. He had three chances and only missed two. The fans enjoyed a good laugh.

"Blushing" Benny Kauff was benched in the seventh to permit Thorpe to face Nehf. Thorpe delivered with a single.

Harry Hooper drew a double and three singles in five times up. Yes, the Red Sox beat the Senators.

Turner Barber, who replaced Mann in left, scored three of the Cub runs.

**THE REC LEAGUE.**

Team 2 Wins First Place in Division D—The Summary.

Teams 2 and 3, tied for first place in Division D of the Recreation Center Combination bowling league, played off the tie last night and Team 2 won out. Both the high team scores and the high individual scores went, to Team 2, giving them two points against no points by Team 3. Richmond was the high individual bowler, with a single of 101 and a two-string of 182. The summary follows

|                     |     |     |     |
|---------------------|-----|-----|-----|
| Division D, Team 2. |     |     |     |

**REDS OVERTHROWN(?)**  
Amsterdam, May 1.—An unconfirmed report that the Red government of Bavaria has been overthrown at Munich was received here from Berlin today.

**Punching The Bag**

Youngsters breaking into the major leagues find third base one of the toughest of all positions to hold down.

The "hot corner" is a tough assignment in any league where batsmen take a healthy swing at the ball, but in the majors, where the very best batsmen in the country are continually getting the range toward left field, playing third base is anything but a sinecure.

Perhaps this is why two veteran third sackers stand out today at the best third basemen the game has known in many years. They had to be mighty good to hold down the hot corner in their respective leagues, and they had to be stars of the first water to rank where they stand today—at the head of the third basemen in all leagues.

Frank Baker and Heinie Groh are the stars in question. Baker outranked Groh in the averages for 1918 as a fielding third baseman, but not by any appreciable margin. Groh outranked Baker as a batter last year, hitting .320 to Baker's .306.

Baker was thirty-three years old in March and Groh will never see thirty again. Baker has been playing in the big show since 1909 and has always been a star. Groh came up to the Giants in 1912, was finally traded, and bloomed out as a real star after he joined the Reds.

Choosing between Groh and Baker for the premiership among third basemen is a hopeless task. One looks just as good as the other when all things are considered, and it must always be remembered that they play in different leagues. But that Groh and Baker are the best third sackers in their own leagues is undeniable.

Another veteran who, though no longer a regular, deserves mention in any story written about third basemen is Terry Turner, the peppery old star of the Cleveland Indians. Turner broke in with the Cleveland club in 1904 and has been active in every campaign since that time until this year. Last year he got into a number of games, but this year he will be used for the utility role only. Fifteen active years playing the hot

corner or any other infield position he was called upon to play as a record of which to be proud, and Terry Turner's name in the hall of fame has been placed there because he deserved it.

Likewise Groh and Baker will go down in baseball annals listed among the greatest third basemen of all time, the select set to which Turner belongs.

the strong New Departure team of Bristol. This team is managed by Harry Druequer, who formerly managed the Redwoods of Meriden, which team was considered the fastest team in Connecticut three or four years ago. The New Departure team has several of the old Redwood players and also such players as Clyde Waters, who formerly caught for New Britain in the State League; Zelle of New London; Dunlop, who is perhaps the fastest short stop in the state and who played with Cleveland in the American League under the name of Brady; "Swat" McCabe, Lanning, Pillion and a number of other star players.

Manager Dowd of the Athletics intends to bring to Manchester this year some of the fastest teams in Connecticut and Western Massachusetts, and as the Athletic Club will have to go to considerable ex-

pense to bring such teams as the Fisk Red Tops, Elm City Colored Giants of New Haven, Nutmegs of New Haven and teams of like caliber to Manchester, it is hoped that the attendance at the games will warrant the club in booking the fastest teams obtainable.

The batteries for the Athletics Sunday will be Sipples or Porteus, pitch, with Crockett on the receiving end, while the batteries for the New Departure will be Lanning, Pillion or Harrigan pitch, with Clyde Waters behind the bat. At the request of the New Departure management the game Sunday will start fifteen minutes earlier than usual, and Umpire Ed. McCarthy will call play at 3.15.

**ATHLETICS WILL OPEN THEIR SEASON SUNDAY.**  
Bristol's New Departure Team to Play at Mt. Nebo Sunday.

### SIX-HOUR DAY WITH NO REDUCTION IN OUTPUT IS PROPHECY OF MEMBERS OF PARLIAMENT FOR BRITISH MINERS

London, (by mail).—Reduction of the miners' hours to six will not necessarily mean a reduction in output; for, if we can get a little more economy of time and labor, send the men down on time and bring them up on time I think the falling off in production will be far less than the twenty or twenty-five per cent some people are estimating.

James Walton, Member of Parliament, and one of the newest delegates, summed up the miners' dispute, now in conference, in an exclusive interview for the International News Service.

"Yes, I think the miners will get their six-hour day," continued Mr. Walton, "but this does not mean that they will work only six hours, as it might in your country. The way we work over here, it will mean they will get practically an eight-hour day as they are supposed to have under the present agreement. The men now are on the job from nine to ten hours."

Mr. Walton comes straight from the coal shafts of Yorkshire as a labor representative. He has worked in the mines practically all his life, as his slightly-bowed back and heavy, powerful shoulders might indicate. He is about fifty-five years old.

"Some of my own people" went on Mr. Walton, "are now against me because I voted against calling a coal strike. But I think they will find we are accomplishing bigger things. We have never had an inquiry like the coal commission is now carrying on. That will bring out all the facts. It will show the miners' side and it will show where all the profits are going and whether some people are getting a higher percentage of the profits than they rightly should."

For instance, take an average miner's day's work. He produces five tons of coal for which he may receive from \$3.50 to \$4.50. Say it is even \$5 for the argument. The five tons is sold at two pounds ten—two pound six right where we live about \$11.50 or \$12.00 per ton, in your money. So the miner's \$5 product, you might say, is sold to the

consumer for \$55 to \$60 in your money.

"What we want to find out is where this money goes, this great difference. It certainly cannot all be charged off to transportation and handling."

"If the consumer is paying more than he ought then he should know it. If the coal men are receiving an extortionate amount then the Government ought to know it and the people ought to know it. In other words, we want all the light on the subject."

"As to pay, I do not think the miner is having a bad time of it—but I do not mean that in just those words. I mean this—I think if the cost of living could be reduced all along the line, the present pay of the miner, with the six-hour day, would be a vast improvement for him."

"Living has gone way up above what we ever dreamed. If a man has to pay six shillings for something and he only has five, he is not in a very good position. But if the cost is lowered so he will have to pay only four, the result is simple. Had the Government taken over the control of all foodstuffs at the beginning of the war and regulated prices, the miners would have been in far better position than they are today, for prices were raised wherever it was possible. What good is it to have your pockets bulging with money if prices are way above what you have. For instance, a friend of mine who has just returned from Petrograd said he refused a position at 2,000 roubles a month because he could not live there on less than 5,000 roubles a month."

"There are scores of good houses in Yorkshire. To say that the people are living in bad quarters is incorrect. There are a lot of houses that have been up for about ten years. They are good, clean and attractive; then, of course, there are others that are old and not at all attractive. There is a big demand for more houses, but we have a promise that the Government will take this matter in hand and will provide fewer houses to the acre

than now prevails. Under the present conditions the workers are badly blocked in. We are gradually getting improvements right along, like schools libraries and all that."

"As to the matter of hours, there has been a vast improvement. We are supposed to work eight hours now, but as a matter of fact about the way it works out is this:

"We go on top at 5 o'clock and go underneath about 5.15. We are down until 2.30 to 2.45 before we get back again. There are four pits, and, of course, some of them send the men down on the dot, but not always. So you will see that the men put in nearly ten hours from the time they report for work until they are free again."

"If this commission, after its inquiry, agrees to the six-hour day—and I think it will—worked on the same principle, you can see that the men really will be putting in about eight hours a day at their work."

"Some people are maintaining that this will mean a reduction in output of from twenty to twenty-five per cent, but I am of the opinion that if we get a little more efficiency at the top of the mines, say by sending down the men when they are supposed to go down, keeping them properly at work and bringing them up when they are supposed to come up, there will be a far better spirit of co-operation with the mine-owners and not such a falling off in output as is predicted."

"In some mines the output will be lowered, of course; but in others the men may do even better than they do now. The miner, on the average, gets about seventeen shillings six pence—about \$4.25 in your money. I think that is about as good an average figure as any one can give. Some make, of course, from twenty shillings to thirty, and then there are some who have no ambition and do not seem to care whether they make more than eight or ten."

#### "BOTTLE OF VINEGAR" WAS IN REALITY, REAL BOOZ.

St. Louis, Mo., April 30.—"I can't get it into my head why youse 'Dicks' are arresting me for having a bottle of vinegar," Robert Dozier, a negro, told two detectives who arrested him when they saw him trying to sell the bottle to a soldier. The soldier told the officers that Dozier told him the bottle contained whiskey and wanted to sell it to him for \$3. The 'dicks' didn't agree with that alibi.

### PRICES OF CLOTHING DISCUSSED BY CLOTHIER

Expert Observer Explains Conditions and Laws Which Prevent Quick Restoration of Old Levels.

"In studying the significance of the reductions recently made by manufacturers on spring goods we must be careful not to misjudge the situation," says J. W. Rich of the firm of Title & Rich. "If we look for a too radical further decline, we are apt to be misled."

"The world is on a new price level," he continued, "controlled by high wages, heavier overhead costs and many other influences. Prices can only be deflated to a point that is justified by new world conditions. After the Civil war it took ten years for general commodity prices to return to the pre-war level, and it took seventeen years for clothing prices to get back to those prevailing in 1869. Inasmuch as it is generally known that labor and overhead costs will remain high and as clothing will be sold on a narrow margin of profit right from the start the only thing remaining that can control clothing prices will be the raw wool market and the piece goods situation."

"The wool situation is this: The recent sales of government controlled wool at auction show declines of 10 per cent to 25 per cent from the former high level and are approximately now on the basis of the English prices but at that double those prevailing on wools before the war. The price is controlled by the fact that all of Europe is practically without wool and will have to replenish its supply as soon as peace makes possible a resumption of international trade. It is true that in Australia there is a large accumulation due to lack of transportation facilities. But in spite of that the shortage in Europe should completely offset all of the accumulations in the hands of the government and the wool dealers. Some authorities predict that wool will go up as soon as peace is declared and even the most pessimistic anticipate nothing more than a very gradual decline. But regardless of the wool situation the whole piece goods market has been stabilized by the American Woolen company who control two-thirds of the woolen piece goods output of the country. The result is that buyers have gone in and bought freely; in fact so freely that in some departments thus far the American Woolen company has actually been compelled to reduce the size of the orders placed by manufacturers."

"The prospects for the retail clothing look very favorable, and a large volume of business is now enjoyed by all merchants. In most sections of the country the return of two million men to civilian clothes will greatly increase purchasing power in men's wear lines. In agricultural districts good crops at high prices will yield a satisfactory profit to farmers and planters. In manufacturing centers, mills will be operated because practically all important lines of business are now going through the same process of stabilization as the woolen industry."

"The interior wearing quality of many fabrics sold during the war will make necessary the purchase of considerable volume of new wearing apparel. Lastly, the new colorings and new models that are shown now will create a large volume of business this spring and summer with the young fellows and up-to-date dressers."

In substantiation of the soundness of the general conditions all over the country and the great demands made on this country by all other countries in Europe, Mr. Rich predicts prosperity in every line of business and urges all men who are in need of wearing apparel to purchase now. The readjustment of prices that is now in force will prevail for many months. Lower prices will not come for a year or more and then the reduction will hardly be noticeable."

USES BLANK CARTRIDGES TO KILL FLEEING THIEF.

Cleveland, O., May 1.—Sam Cohen, a firm believer in safety first when burglars are a consideration, has always kept two revolvers in his house—one filled with lead bullets and the other with blank cartridges.

He was awakened by a prowler on the lower floor and, seizing his weapon, determined to help Police Chief Smith clear the town of burglars, started downstairs. He got down far enough to see the thief dragging himself through a window. He fired. The burglar got out in the yard and started running. Cohen in pursuit, unloading his gun into the thief's body. The man disappeared in the dark. Cohen felt he'd done the community a heap of good until he turned on the light in the room and found he'd used the wrong revolver.

### WISE MOTHER CAT GAVE KITTENS EXPENSIVE BED.

Robert Parade of 585 Center street is the owner of a cat that believes in preparedness. And because of her belief, a handsome litter of kittens 'of which she is the proud mother, can lay claim to a royal birth, for they were born on a bed of genuine Turkish towels.

Mr. Parade has for his neighbors a family by the name of Marcantonio and Tabby is a frequent and welcome visitor at the Marcantonio domicile. She paid the above family her accustomed visit a few days ago, just as Miss Mary Marcantonio was taking in the family wash.

Miss Mary placed the basketful of clothes in the kitchen and Tabby as usual walked in without knocking. Mary thinking that Tabby could do no harm, stepped out to a nearby grocery store for provisions. In the meanwhile Tabby had selected two of the Marcantonio family's best Turkish towels, dragged them through two rooms to the bedroom and on to the bed.

When Miss Mary returned home and went into the chamber a little later, a rather surprising sight greeted her gaze. There lay Tabby purring contentedly to a number of Tabby Jr.'s who were nestled among the folds of the priceless products of the Orient.

### HAS EYE REMOVED WITH ONLY LOCAL ANESTHETIC.

Philadelphia, Pa., May 1.—Some of the same kind of nerve that beat the Huns in the Argonne was displayed here recently by Jonas Krall, of this city, a veteran of the Argonne, when he submitted to the removal of his eye without ether, only a local anesthetic being used.

"No ether for mine," said Krall to a hospital physician. "I've had all the ether and all the hospitals I ever want in this life." The physician removed the eye, which had been injured by shrapnel, and a few hours later Krall went home.

## Watches

Americans should buy American Watches made by American tools and machines, by American skill and labor and at American wages. We offer you the best in Watches. Our stock is made up of the most reliable timepieces to be had, Hamilton, Waltham, Elgin, South Bend, Illinois and Howards. Our guarantee of these watches is given with every confidence. ## "A Cold Blooded Business Proposition"

YOU'VE heard people say it. "The American public are tired of patriotism now that the war is over. The only thing that will appeal to them is a cold-blooded business proposition."

Do you believe it? Do you think the American people are going to buy this Liberty Loan only because it's a belly good investment that shows sound business sense?

Sixty-five thousand Americans went to France and "invested" all they had in Liberty and were killed before their "dividends" came due.

THAT was a "cold-blooded business proposition."

Two million other Americans went to France, too, and tried to get in on the same "investment." And they knew they'd never "clip a coupon."

THAT was a "cold-blooded business proposition."

Thirty million other Americans here at home got in on that "investment"—saved and went without things for a year and a half to do it.

THAT was a "cold-blooded business proposition."

Well—we've still got a job to finish. And we're still Americans. Do you believe we're not going to do it in the old American way?

The only "cold blood" we care about is the American blood soaking in the battlefields, of France. We're going to see to it that that blood was not shed in vain.

And the only "business proposition" we're interested in just now is the proposition to see the job through right—to a finish—with whatever American dollars and whatever American energy it may take.

That may be a "cold-blooded business proposition."

Some people call it patriotism.

## CAUSE OF BACKSTOP MEYERS' RETIREMENT

Manager Irwin of Rochester Team Relates Story.

Couldn't Figure Out Play Where Visiting Player Bunted With Two Strikes, Three on Bases and Scored Four Runs.

Chief Meyers, the former Glant and Brooklyn catcher, is through with baseball. The chief is going to stick down on the farm.

Arthur Irwin, manager of the Rochester team of the International league, recently told the story of what he thinks was the direct cause of Meyers' retirement from the national game.

"The chief," said Irwin, "was catching last year for Buffalo in the International. He was not going too well when my Rochester team came to Buffalo in August to play a series. 'My players stole a lot of bases on the chief. In one game two of them stole home."

"The play that utterly disgusted Meyers with baseball, however, occurred in a game that Buffalo was winning until the eighth inning.

"We were three runs behind in that session, when we filled the bases with two out. Bobby Orr was at bat, and when he had two strikes on him the Buffalo infield moved back a bit.

"Orr then hit a swinging bunt toward second base. The second baseman was caught off balance, but dashed in and for some reason or other after picking up the ball elected to make a play at the plate.

"The throw came in low and Meyers missed it. It hit him on the shin and bounded toward the stand.

"The chief was after it quickly. He saw Orr tearing for second base as he

Chief Meyers.

picked up the ball. So he threw for that bag and the ball hit Orr on the shoulder as he slid.

"It bounced into the outfield this time. Before it could be recovered Orr had centered over the plate with the fourth run scored on his bunt. It was the winning run of the game.

"I saw Meyers afterward. 'I can't figure them in this league,' he said. 'Bunting with two strikes and three on and scoring four runs! That's more than enough for me.'"

## PREFERS TO PLAY IN MINORS

"Moon" Ducote, Famous Athlete of Auburn University, Signs Up With Mobile.

Here's one big league ball player who would rather pastime in the minors than in the "big show." His name is R. J. ("Moon") Ducote, the famous athlete of Auburn university, who won further fame last year by his great playing for the Great Lakes naval football team. Several big league scouts, hearing of Ducote's prowess, sought to sign him, but he always said no. Recently he affixed his signature to a document to play with Mobile in the Southern association.

## DIDN'T KNOW TY COBB

Many freak things have happened in the young life of Rube Schauer, formerly with the Giants and who was with the Athletics until drafted into military service. However, the best one on the Rube is the time he pitched five innings against Detroit in an exhibition game, thinking that Oscar Vitt was Ty Cobb. The Giants knew that if Schauer would pitch to Cobb not knowing it was Ty he would get by all right. They pointed out Vitt and said: "He's the boy you got to stop." Schauer used all his cunning on Vitt, a 280 hitter, and never gave Cobb a tumble. It wasn't until the sixth inning that Rube got wise.

## MUST HAVE HIS GAME

You cannot cheat an American soldier out of his baseball even if he has to make his own supplies.

A company of soldiers now on German soil suddenly discovered that their supply of baseballs had run out. For a while it appeared as if there would be no baseball until a new supply arrived.

However, one ingenious soldier got a cork from a wine bottle, unwound the worsted from one of his socks, twisted the worsted around the cork and then cut a cover from an officer's old glove. The harness maker completed the job by sewing the cover on.

A number of games were played before the home-made ball became physically unfit for further service.

## SAYS HAL CHASE IS INVALUABLE PLAYER

One of Greatest Hit and Run Men in Game, Says Rowland.

McGraw's Group of 300 Sluggers Will Make Life Miserable for Twirlers in National League During 1919 Season.

In acquiring Hal Chase, McGraw obtained one of the best hit-and-run players, and one who is able to hit back of a runner at all times. Chase will fit in with the Giant machine like a cog in a well made Swiss watch. He is McGraw's style of player.

It is predicted by Clarence Rowland that Chase will play the game of his

Hal Chase.

care for McGraw, because he believes the latter, a good judge of human nature, will handle the top-percentage star properly. And the shifty first baseman does on putting on the hit-and-run sign with a runner or runners on the sacks.

"Chase is one of the greatest hit and run men in the game," said Rowland recently. "He can hit back of a runner any time. That is where he will be invaluable to McGraw."

"That is McGraw's style of baseball and Chase, because of his almost uncanny talent in whacking the ball when a runner is going, will make it possible for the Giants to score many runs.

"I have not had much of a chance to study McGraw's method of playing the game, but I have heard enough from other smart baseball men to know what he does and also got a pretty good idea of his ways in the 1917 world's series.

"I know what Chase can do. Therefore I predict they will hitch well and the pitchers of the National league are going to be kept busy watching Hal when runners are on the bases.

"Then take Burns, Kniff, Young, Zimmermann, Doyle, and McCarty, and you have a group of 300 hitters that will make life miserable for the twirlers in the league. The Giants are the players the Cubs will have to beat for the pennant.

"I do not think Chase will run amuck under McGraw, as he has done on other clubs. His recent experience has, I think, taught him a lesson. I believe McGraw will have no difficulty in getting him to play the brand of ball of which he is capable.

"Chase is the type of player who has to be petted a little. He must be made to think he is a brainy player, that he knows when to do the right thing, and has to be permitted to use his own judgment considerably. McGraw may allow him to do that. If he does Chase will play as smart a game as he ever did in his life."

## TERRY TURNER NEAR RECORD

Signs Sixteenth Consecutive Contract to Play With Cleveland American League.

T. L. Turner has signed his sixteenth consecutive contract with the Cleveland Americans. Next to the record made by J. H. Wagner with the Pittsburgh Nationals, this is said to be the best record for any one major league club.

## MAX CAREY DECLARES FIRST GAME HARDEST

Roger Bresnahan Got Him Rattled by Continuous Chatter.

Was Injected Into Pastime in Eighth Inning With Score Tied, Two on Bases and Two Out—Made Good With Triple.

"I will always regard the first game I ever played in the National league as the one which brought me face to face with the tightest pinch of my baseball career," said Max Carey recently.

"I had just reported to the Pittsburgh club at St. Louis. It was during the fog end of the season of 1910 and I was getting my first major league trial.

"An outfield composed of Fred Clarke, Tommy Leach, Chief Wilson and Vince Campbell meant faint hope for a youngster of twenty who wanted to make good. But Clarke gave me a chance, sure enough, and the pinch into which I was injected came in the eighth inning with the score tied 2 and 2, two out and two on the bases.

"Roger Bresnahan, catching for the Cardinals, let out a line of chatter that made me think I was in a hotel lobby fanning bee. He signaled Benny Hearn, the pitcher, for a fast ball. Then he stopped the game, walked out

Max Carey.

and called the left fielder, Rebel Oakes, to come in several steps, and came back to the plate with:

"Let's see how you look on a curve."

"Well, I swung on the next pitched ball and swung hard.

"Bang went my bat against that leather, and it sure felt good. Zing went that ball over Rebel's head for three bases, and we won the game."

## STAR IN BRAVES' OUTFIELD

Joe Riggert, Drafted From St. Paul Club, Expected to Make Good This Season.

The Braves have evidently picked up a player who may be worth much to them this season. He is Joe Riggert, drafted from the St. Paul club of the American association.

Riggert, who is an outfielder, took part in all the games played by his team last season and finished with a batting average of .325. He made a total of 191 safe swats, and 29 of them were for extra bases. He was credited with making six home runs. He accepted 213 chances in the field out of a possible 230, giving him a fielding average of .991.

A few years ago Riggert received a try-out with the Red Sox, but he was unable to make the team. He came to the Red Sox as a left fielder, but was outclassed by Duffy Lewis.

## KID SCHALK WITH GUNTHERS

Brother of White Sox Star Backstop Signs to Play With Chicago League Team.

Ray Schalk's kid brother, whose baseball monicker is "Jersey," has agreed to play with the Gunthers of the Chicago league this season. Young Schalk is 20 years old. He is an infielder, and has had minor league experience in Oklahoma.

## CURVE BALL BY EXPRESS

Joe Benz and Paul Musser, while with the White Sox at Mineral Wells on one training trip, had a lot of fun talking about their curve ball. One afternoon Joe went up to the colored porter named Dee and asked if his curve ball had come in yet.

"You all expecting it?" asked Dee, in all seriousness.

"Yes, it's coming by express," replied Joe. "He slipped Dee a quarter." "Run down to the station now and see if it's in." Dee hustled away. Within 20 minutes he was back. "It's not come yet, sah," he said, "but dey all expects it'll be in in de mornin'."

## DEATH OF HIS WIFE'S DEATH BY ACCIDENT COMES TRUE

Hood River, Ore., May 1.—The tragic death of Mrs. P. J. Parks at the Herman Creek Fish Hatchery recently has brought to light the tale of a dream in which all the horrors of her death had been pictured to her husband weeks before.

The Parkses, in connection with the hatchery, operate a food grinding machine. Several weeks before he found her dead body lying beneath the flywheel of the machine the husband had a dream in which he saw his wife's mangled form on the floor of the engine house. So impressed was he with the dream that he warned his wife away from the machinery several times but she persisted in returning to it. Missing her again last Friday the husband went to the engine house in search of her. Lying under the flywheel, where evidently she had tried to replace a wide belt, he found her dead body. Her neck had been broken when she was thrown to the floor by the belt.

## WASHERWOMAN INVESTS LIFE'S SAVINGS IN BONDS

Altoona, Pa., April 30.—A woman who has made her living for years by washing visited the offices of a Victory Loan worker here and, handing him a roll of bills, asked the man to buy bonds for her. There

was \$2,500 in the roll, the savings of a lifetime.

(10%) ten per cent. Service Discount on Every Article in Every Department. A Special Line of Clever Clothes especially built to fit their physical military training.

# For the Benefit of Soldiers, Sailors, Marines

The Y. M. C. A. has given to you the figures in the Hartford Courant last week through the courtesy of some of the merchants the cost of civilian clothes, etc.

We are publishing below our figures for the benefit of all men who are and have been in service who are ready to change military dress for civilian clothes, etc.

We will duplicate the same garments (shoes excepted), the identical quality at lower figures and ten per cent. discount on every article to all men who are and have been in service.

Our lower prices are the result of low rent, cash buying and cash selling and other small overhead expenses.

## Y. M. C. A. Figures Title & Rich Figures

We noticed in the Y. M. C. A. solution they did not provide for any "eats." The boys may be accustomed to stew and beans—but eat they must. Our figures will provide a solution to keep the inner man going on the sixty dollar bonus. Another important feature. We have constructed a special line of clothing for military men. We know their physical training has developed broader chests, smaller waist lines, squarer shoulders, etc.; all in all, we have made this store Soldier Boys' Headquarters. "WELCOME HOME."

The following table shows what \$60 will buy—

|                                  |         |
|----------------------------------|---------|
| Suit of clothes                  | \$27.50 |
| Hat                              | 2.00    |
| Three suits of B. V. D.'s        | 4.05    |
| Six pairs of socks               | 2.24    |
| Three shirts                     | 3.75    |
| Six handkerchiefs                | .75     |
| Two ties                         | 1.30    |
| Collar buttons, links, belt      | 1.25    |
| Six Arrow collars, soft or stiff | 1.40    |
| <b>\$44.24</b>                   |         |
| 10% service discount             | 4.42    |
| <b>\$39.82</b>                   |         |
| Shoes                            | 6.50    |
| Room rent                        | 3.50    |
| <b>\$49.82</b>                   |         |
| Balance saved                    | \$10.18 |
| This will help some for "eats."  |         |

**ABOUT TOWN**

Fred Hayes, who has been in the service overseas for the last 15 months, arrived at his home on Main street last night.

Harry T. Goldman of the Metro Pictures Corporation, well known among local theatrical men, was a visitor in town last evening.

The regular weekly meeting of the D. Y. W. Y. K. club at the Recreation building will be postponed until Thursday evening, May 8th.

The Manchester Lumber company is planning to sell coal and is about to build a coal trestle at its yards at the south end. William A. Knofla has been awarded the contract.

South Manchester Division, Sons of Temperance, will meet tomorrow night in the Parish hall of the Center church when the installation of officers will take place. A large attendance is hoped for.

Leo W. McParland took moving pictures of yesterday's parade in the city. He snapped about five hundred feet of film and expects to have the pictures ready for a showing by the end of the week.

William A. Knofla has been awarded the general contract to build the ice cream factory for the P. J. O'Leary Company on Summit street. The ground was staked out this morning.

The local tramway officials are to be complimented on the service which they furnished yesterday for the Manchester residents. There were plenty of extra cars, the cars were on good running time both to and from Manchester. It was expected of course that there would be a general stampede for Hartford in the morning, but notwithstanding this the situation was handled admirably and no complaints were heard.

The Hartford Times reporter was so impressed with the ovation which was accorded the boys of the "26th" by the local Salvation Army corps, that he made special mention of the fact in his description of the big celebration in Hartford yesterday. The local Salvationists not only served doughnuts and coffee to the troops when they passed through Manchester, but went through to Hartford and continued the good work there.

The beats of the local patrolmen change this evening. Patrolman John Crockett goes from Main street to Spruce; Patrolman Glenny from the Center to Main street; Patrolman Michael Fitzgerald from days to the North end; Patrolman William Fitzgerald from Spruce street to days; Patrolman Sweeney from North end to the Center. Captain William Campbell remains on his own beat at the south end of the town.

The state highway department yesterday announced the awarding of the contract to build 3,270 feet of bituminous macadam on Deming street to A. E. Douglas of Glastonbury for \$8,400. This stretch of new road will start at the Oakland bridge, run through Deming street and join the macadam road at the South Windsor town line. When completed it will be possible to ride over macadam all the way from Rockville to Hartford without coming down to Depot square.

**WORK STARTED TODAY ON ARMY AND NAVY "HUT"**

Will Be Rushed to Completion by Large Gang of Workmen.

Work on the new "hut" for the soldiers and sailors, which is to be erected at the corner of Main and Forest streets, is to proceed with a rush. Last night at a meeting of local contractors E. L. G. Hohenthal, Jr., was chosen foreman for the job and will in connection with Raymond Gostee, the architect, have charge of the construction. It is proposed to have the building ready for occupancy two weeks from Saturday. The continuous work of 12 men will, it is estimated, bring about the completion of the structure in two weeks. These men will be provided by the several contractors. Work was begun on the foundation piers this morning. These and the chimney will be built by John Mahoney. Lumber is being hauled to the site today and the sills will be laid tomorrow.

**DEATH OF H. M. NORTON**

Well Known Business Man Succumbs to Pneumonia After Week's Illness.

H. Marshall Norton died at his home on Chestnut street last evening of pneumonia after an illness of little more than a week. Up to a week ago last Monday he had worked at his office, apparently in his usual health. He was taken with a chill Monday night. Pneumonia followed and despite the efforts of skilled physicians and trained nurses his condition steadily grew worse until his death. The news came as a shock to a large number of personal friends who did not even know that he was ill.

Mr. Norton was 43 years old and was the youngest of four sons of the late Gilbert B. Norton, for many years at the head of Cheney Brothers' machine shop. The brothers all followed the occupation of their father. Although Marshall never learned the machinist's trade, he, after taking a business college course, associated himself with his older brother, Charles E. Norton, in the establishment of the Norton Electrical Instrument Company, a corporation which has been uniformly successful and which has during the war, been crowded with orders. The firm was punctilious in delivering its goods on time and the members of the firm often worked long hours in order to do this. Mr. Norton had been secretary and treasurer of the company from its conception. It is thought that exhaustion following a long period of work under pressure made him an easy victim to disease.

Mr. Norton was married about 20 years ago to Miss Maude Bidwell. She survives him and also a son, Clifford, 18 years old, now a student in a technical school at Rensselaer, N. Y.

Mr. Norton was highly respected for his business integrity and was beloved by many friends for his loyalty and his companionable nature. He was made a Mason in Manchester Lodge and passed through the higher degrees to Washington Commandery, Knights Templar, and Sphinx Temple, Order of the Mystic Shrine. He was also a past grand of King David lodge, I. O. O. F.

The funeral will be held at the Norton residence Friday afternoon at 2:30.

**FIREMEN EXPECT CROWD AT TONIGHT'S FAIR**

Last Night's Patronage Felt Effect of Hartford Competition.

Hartford's celebration yesterday in honor of the 101st Machine Gun Battalion and the 102nd Infantry of the 26th Division kept many of Manchester's people in the city until late in the evening and as a result the attendance at the Firemen's fair was diminished. Those present were mostly young people, who wanted to dance. While they had a good time and, of course, paid for their dancing, they were not the kind who would patronize the various booths to so large an extent as the general crowd that was out the opening night. Still, some of the booths did a good business and their receipts nearly equalled those of the first night. At the flower booth, for instance, the receipts on the opening night amounted to \$41 and last night \$38 was realized at that booth. The candy booth made \$20 the opening night and about the same last night.

Besides flowers, the flower booth also is selling shrubs, which will be delivered to the purchasers.

With things back to normal again today, another large crowd is looked for at the fair tonight. The fair will continue through Saturday night, with a matinee Saturday afternoon.

**28TH ANNIVERSARY OF STAR OF THE EAST**

Celebration to Be Held in Orange Hall Next Friday Evening—Organized May 9, 1891.

The members of Star of the East R. B. P. 13, will celebrate the 28th anniversary of the Preceptory at the regular monthly meeting in the Orange Hall next Friday evening. The Preceptory was organized in the old academy May 9th, 1891, Henry Trotter being its first Preceptor. The members of No. 13 are not believers in the superstition about the so called unlucky number although in the first years of its existence No. 13 had a hard fight to keep going. But the faithful few held their ground and today No. 13 is one of the largest and wealthiest

Preceptorles holding a charter under the Grand Black Chapter of the United States.

About two months ago the Preceptory received a letter from the Grand Registrar congratulating them on the fact that they were one of the few Preceptorles in the United States, which had been able to keep up their membership during the war; yet No. 13 had done its part in the great war. Several of its members were in the service and one of them was wounded. Nearly all of No. 13's savings have been invested in Liberty Bonds.

It is to be regretted that but two of the Charter members are to take part in the exercises on Friday evening. These two are Past Preceptor, Henry Trotter and John Crockett. All the rest of the twelve charter members, except two who are no longer active in the order, have died. The Sir Knights of No. 13 hope to have the pleasure of welcoming these two faithful men and extending to them their hearty congratulations. At the close of the regular meeting there will be a social hour and refreshments will be served.

**PAISLEY-THRESHER WEDDING**

The marriage of Miss Ellen E. Paisley, daughter of Mr. and Mrs. Edward P. Paisley of North Main street, to William J. Thresher, of South Windsor took place at the home of the bride last evening at 7.30. The ceremony was performed, by Rev. E. F. Studley, pastor of the North Methodist church, beneath an arch of laurel and apple blossoms. Miss Mildred Johnson of the south end was bridesmaid and Roderick King of South Windsor was best man. Miss Olive Linten, a cousin of the bride, played the Wedding March from Lohengrin. The bride's dress was white georgette crepe trimmed with taffeta. The bridesmaid dress was of blue georgette crepe trimmed with taffeta.

The bride's present to the bridegroom was a French charm and the groom's present to the best man a pair of gold cuff links. The wedding was attended by the immediate relatives of the young couple. After a reception and refreshments the newly-weds left for a trip to New York city. The bride is well known at the north end and for the last five years has been a stenographer in the office of the Hartford Fire Insurance Company.

Among the many gifts which the young couple received was a serving set given by the employees in the offices where the bride worked. On their return they will live at Mr. Thresher's farm in South Windsor where their home is furnished and ready for their occupancy.

**BAD END TO CELEBRATION.**

John Woods of Cottage street went to Hartford to take in the parade yesterday and before he arrived home he became intoxicated. He did not reach his home until one o'clock this morning and his wife reproved him for being out so late. He resented her remarks and struck her in the eye and drove her out of their home. She went after a policeman and met Officer John Crockett on Main street.

In court this morning, Officer Crockett testified that the woman had a black eye and a bruise over the bridge of her nose. He also testified that Woods was drunk. It appeared in court that Woods and his wife had patched up their differences as Mrs. Woods did not appear in court against her husband. She was summoned by Officer Crockett.

Judge Arnot penalized Woods severely, making the fine \$10 for intoxication and \$25 and costs for assault. The entire amount figured \$43.20.
