

## STIFF TERMS LAID DOWN FOR GERMANY MUST SIGN NOW; CONCESSIONS LATER

### YALE YIELDS CLASSICS TO DEMAND FOR MORE PRACTICAL EDUCATION

President Hadley Says Request Came Mainly from West and from High School Boys—Ball Game and Costume Parade at Yale Field.

New Haven, June 17.—Yale alumni in a riot of kaleidoscopic colorings in the line of commencement costumes, had their day at the old alma mater today. Never in the history of the institution have so many old graduates been back to visit the campus and the town. A total of 61 classes sent representatives back to whoop it up for a day or two of the victory commencement week.

While the commencement alumni meeting this morning was largely attended, the piece de resistance of the day's doings the baseball game with Harvard this afternoon at Yale Field, preceded by the costumed graduates and—whether Yale wins or not—to be followed by the usual jamboree at the Yale Field and Jollification afterward lasting far into the night or morning.

Reunions of various classes were held, some yesterday, some today with election of officers and other formalities. Polls opened early today for votes of alumni on the election of a member of the corporation to succeed Eli Whitney of this city, resigned. Thomas W. Farnam, of this city, Edwin M. Kerr, of Pittsburgh, Pa., President of the Westinghouse Electric Company and Arthur R. Kimball, of Waterbury, are the nominees to succeed him.

Thomas De Witt Cuyler, '74, of Philadelphia, presided at the commencement meeting in Battell Chapel this forenoon. In addition to the annual report of President Arthur T. Hadley the speakers were Prof. Dermott Perrin, '69 of New Haven; Irwin Rew, '89, of Chicago; George S. Chappell, '99, of New York and Major Morris Hadley, son of the President of this city.

In his annual address to the alumni President Hadley said in part:

"We welcome you to a Yale which is at once new and old; a Yale changing rapidly in externals, but essentially unchanged at heart. The new Yale is not going to lose the old Yale spirit. The changes in the course of studies do not mean abandonment of the things for which Yale has stood in the past. They mean doing them better and on a larger scale than ever before.

"Fears have been expressed that changes in the entrance requirements and the opportunity of obtaining a degree without Latin might mean surrender of the old fashioned idealism and thoroughness in education or that the obliteration of lines between college and scientific school might be accomplished by decay of class spirit. More than one letter from older graduates complained bitterly of abandonment of the classics at the demand of the idle rich. Wherever the demand comes from it certainly does not come from that quarter. The people who want to study other things than Latin are largely boys from public schools of the west or who have their own way to make. Shut out the western boys and Yale ceases to be national. Shut out the boys who make their own way and Yale becomes to some degree a rich man's college. I do not believe omission of classics will be accompanied by any lowering of intellectual standards. Nor shall we lose in idealism. A fault of the old college course was that it made but a slight appeal to the practical man. The new course makes a wider appeal, but not necessarily a less lofty one. Nor need we fear for student traditions more than we fear for student ideals."

President Hadley closed with an appreciation of the work of graduates and under graduates in the glorious part of Yale in the world war. Major Morris Hadley in his address referred to the recent riots and commended the Yale men for the restraint exercised throughout the trouble.

The procession to the baseball field this morning was directed by Colonel Louise E. Beard, of the Yale artillery R. O. T. C. In the baseball game Cox of Yale was picked to face Harvard, who designated Felton to do the pitching honors for the Crimson.

### MEXICAN COMPLICATIONS FEARED BY CONGRESSMEN

But Government Officials Declare There is No Danger.

Washington, June 17.—"The beginning of another long period of Mexican complications," This was what leaders in the House and Senate saw today in the latest border developments, which resulted in the pursuit into Mexico and severe chastisement of Villa's forces by American troops.

Government officials, particularly those of the State and War Departments, were positive that no complications would arise, but their view was not shared by those at the capitol.

The fear was expressed that the whole affair is likely to terminate in a resumption of the petty banditry on an extensive scale such as has kept the border aflame since the recognition of Carranza. Villa's hatred culminated once, it was recalled, in the massacre of American soldiers and civilians at Columbus, and so long as the bandit lives it is felt that the border will never be quiet.

### CAR JUMPS TRACK.

Stops at Right Angles to Rails on Main Street Near Flower.

George Tedford, motorman, is going to keep a pretty close watch on his trolley after the first of July. He says there is no telling what the thing will do then. Today everything was going well on the usual 11.45 trip to Depot Square but when George and his car reached Flower street the rear truck seemed to become tired of always following the lead of the front end and decided to take a course all its own. The result was that the car was neatly planted across the road with the track running through the clear space between both trucks.

The jolt was rather sudden when it left the rails but no one was injured and in remarkably short time the wrecking crew had the car again in running order.

### ALLEGED WHITE SLAVERS HELD AT NEW BRITAIN.

New Britain, June 17.—On charges of harboring a female for immoral purposes Modie Cantelera, 20 and Antonio Bomderillo, 35, were bound over to the superior court here today under bonds of \$2,500. The two men met the girl, Mary Jolitta, 20, while she was a waitress at the ship yards in New London where they were employed. It is charged they brought her to New Haven, Norwich and Bristol. They were arrested in the latter place yesterday and the girl sent to the House of the Good Shepherd.

### PROFITS OF ICE TRUST ARE NOBODY'S BUSINESS SAYS ICE KING WALKER

Could Sell Ice Cheaper and Still Make 25 Per Cent.

### HAS SURPLUS SUPPLY

But Raised Price in April This Year Because of Shortage He Tells New Haven Committee.

Harry W. Walker, president of the Berkshire Ice Co., and in virtual control of other concerns upon which Connecticut depends for its ice supply is satisfied if he can return 25 per cent dividends according to testimony before the Aldermanic committee which is conducting an investigation at New Haven. Whether ice could be sold any cheaper and still give Mr. Walker his 25 per cent was none of the committee's business he maintained.

According to Walker the situation is something like this—the people want ice; the Berkshire Co. has got it; all the people have to do is to pay for it.

"Not only has this Company got the ice but it has 15,000 tons more than the normal supply, outside of shrinkage. So testified Mr. Walker. And yet when asked why he raised the price in April this year he replied that it was because of the shortage.

### Price "Fixed" Here.

When asked by Mr. Crawford, who is conducting the investigation, why it was that ice cut on a Connecticut lake was sold cheaper in New York than it is in this state Mr. Walker replied, "Because the dealers have fixed the price in Connecticut."

### Plan for Future.

Mr. Crawford then read the plan of the committee to prevent a repetition of the present situation in the future.

In deciding upon the scope and plan of this investigation, the committee proposed a consideration of these questions as a future provision against the repetition of present conditions:

1. The advisability of a municipal ice plant.
2. The advisability of a municipal option on natural ice crops.
3. The advisability of municipal contracts with established ice concerns for the purpose of assuring supply and controlling prices.

In addition to these points, the advisability of the city's harvesting a natural ice crop from local waters has been urged upon the consideration of the committee.

Mr. Crawford said, referring to these last three subjects being considered by the committee, I want to propound these questions to you:

"Assuming that as a result of this investigation and present experience, the city of New Haven should decide as one of the measures of its future protection, to offer, after competitive bid, to any responsible ice dealer in this section, a contract embracing substantially the following provision:

(a) An option to take in any given season, upon reasonable notice, a quantity of natural ice equal in tonnage to the present or prospective amount supplied from sources outside of New Haven.

(b) The life of such contract to be for a long and definite term, for example, ten years.

(c) The price to be at a fixed rate per ton, either f. o. b. shipping point, or on platform in New Haven, and to be subject to a downward revision upon any threat of and to meet any serious competition designed to take advantage of the price fixed in the contract.

### FLIER TO GET

\$50,000 FRIDAY NOON.

London, June 17.—The \$50,000 prize awarded the crew of the Vickers-Vimy airplane by the London Daily Mail for being the first to cross the Atlantic without a stop, will be handed to Captain Alcock, pilot of the trans-Atlantic liner, at a luncheon at the Hotel Savoy Friday noon. Officials of the air ministry and men prominent in aviation will be present.

A great crowd will greet the two trans-Atlantic fliers on their arrival at the Euston station at 6.05 tonight from Ireland. An escort of airplanes will meet their train as it approaches the city from the northwest. There will be an official reception at the air ministry tonight.

(e) Contract to embrace necessary legal provisions to make it irrevocable during its life.

(f) Contracts to be so drawn as to offend neither in letter nor spirit any law, whether state or federal.

(g) Contracting firm to engage not to enter into competition with city in such years as city shall exercise its option under contract.

(h) City to be absolutely free to make whatever arrangements it sees fit in the sale and distribution of ice supplied under contract.

(i) Contract to embrace any other desirable provisions consistent with the spirit and purpose of the undertaking.

(j) Contracting firm to give the city a surety bond with a definite and liquidated penalty to insure faithful performance of contract.

Questions for Walker.

Q. Would your company be interested in any such contract, and to what extent?

Q. At what price would it be willing to furnish ice per ton, f. o. b. shipping point during such term?

Q. At what price would it be willing to furnish ice per ton on the platform in New Haven?

Q. When would your company be willing to undertake such a contract?

Q. When would it be willing that such contract go into effect, if so undertaken?

Mr. Walker was asked to answer the above questions.

His counsel objected and the committee decided the objection was a proper one, and agreed to give Mr. Walker time to study the questions before answering them.

Asked if he knew anything about the fate of the Hygieia Ice Co. of Hartford, Mr. Walker said he had never heard of the concern.

Walker was excused from further testimony in order that he might phone to Bridgeport and receive advice on the questions asked in the committee's plans.

### AMERICAN REFUGEES BEATEN BY BANDITS

Forced from Mexican Train and Compelled to Travel by Wagon.

Laredo, June 17.—American refugees who left Mexico City several days ago for Chihuahua were robbed of their clothing and valuables and beaten with rifle butts by Mexican bandits, according to the story told by Miss Isabel Maley, who arrived here today. Miss Maley was badly bruised and in need of medical assistance. Miss Maley declared that when their train reached Jimenez they found the track destroyed and were forced to continue their journey by wagon. They were held up and mistreated by bandits along the wagon road. Miss Maley was unable to say what became of other refugees who left Mexico City with her.

After being treated by physicians here Miss Maley went to her home at Nogales, Arizona.

### GERMAN LEADERS DECLARE TREATY IS UNSIGNABLE

Have Not Had Time to Examine It but Condemn It on General Principles.

Berlin, June 17.—"We won't sign!"

Stripped of all verbiage, those three words constitute, almost without exception today, the reply of Germany's leaders to the allied peace terms. While they have not yet been able to study the treaty after its final modifications, party leaders and those of the national assembly were emphatic that the treaty will be rejected unless the allied answer meets the German counter-proposals. It is among the national assembly, which will unquestionably determine Germany's final answer, that the loudest protests were made today.

Count von Brockdorff-Rantzau, head of the German delegates to Paris, reached Weimar this afternoon with the Entente answer.

The course which the government will take in its consideration of the treaty was not announced officially but it is understood that it will be turned over as quickly as possible to the National Assembly which will sit as a body in its consideration. Leaders interviewed today were members of the peace committee of the National Assembly, before whom the treaty probably will first come. Their statements reflected the sentiment of their respective parties.

All leaders declared flatly that they would not sign, with the exception of Dr. Hugo Haase, Independent Socialist leader, who said:

"The Independent Socialists are trusting the international proletariat to nullify the provisions of the treaty."

Herman Mueller, president of the Majority Socialists, declared:

"Unless the draft of the treaty has been subjected to sweeping modifications it is not likely that it can be carried out. Hence it is unsignable. However, it is to be hoped that the entente answer corresponds sufficiently to our counter-proposals to allow signing."

A note of pessimism was dominant in the views of practically all the leaders.

Signing is possible only if the entente answer is within the frame of the German counter proposals, said Dr. Gustav Stresemann, president of the German peoples' party.

The size of the indemnity and the territorial concessions that Germany will be called upon to make were the principal causes of bitterness of Dr. Stresemann's party.

"It is noteworthy," he continued, "that the German government did not dare submit to the peace committee of the National Assembly a draft of the counter terms. Had it been known that they contained an indemnity provision calling for one hundred billion marks gold it would have probably been rejected before. That part of it is the work of the German government and not of the German parliament nor any parliamentary committee."

"Germany can only accept a peace which will take the counter-terms as the maximum indemnity payable under any consideration; that will concede an immediate and unqualified plebiscite in the eastern districts and in the Saar region. Alsace and Lorraine must be allowed to determine themselves whether they will belong to any nation or become autonomous. Germany can sign no peace which will take away her merchant marine."

### Essential Interests Spared as Far as Possible but Wrongs Must Be Repaired—Equality of Trade Conditions Im- possible at Present—Claims for Ports and Waterways De- nied—Guarantees Required Because Promises Not Worthy of Faith.

Paris, June 17.—Since the resumption of German industry is a matter of world concern, the allies, in framing the peace treaty, took care not to withhold from Germany facilities which might interfere with that resumption. This statement was contained in the allied reply to the German counter proposals, further sections of which were made public here today.

"While Germany, as the author of the war must bear its consequences, her essential interests have been spared as far as possible," the reply states.

The sections of the allied reply made public today, follow:

"The German reply made no definite offer as to reparations but gave only vague expressions of willingness to do something undetermined. The sum of one hundred billion marks was indeed mentioned to give the impression of an extensive offer, which upon examination it proves not to be. No interest was to be paid and until 1928 there would be no substantial payment, after which would come a series of undefined installments running over nearly half a century."

"The allied and associated powers make the declaration, however, that as the resumption of German industry is an interest of theirs as well as of Germany, they will not withhold from Germany commercial facilities necessary to this resumption, but on the other hand will subject to conditions which cannot be laid down in advance due to the special economic situation, created for them by German aggression, afford to Germany facilities for food supplies, raw materials, and over-sea transport for the common good."

### Treaty Must Be Signed.

Meanwhile the treaty must be signed: The burdens of Germany undoubtedly are heavy but they are imposed under conditions of justice by peoples whose social well being and economic prosperity have been gravely impaired by wrongs, which it is beyond the utmost power of Germany to repair.

### Regarding Finances.

While Germany as author of the war must bear its just consequences, her essential interests have been spared as far as possible. Reparation must be prior to the settlement of all other German public debts with such exceptions as the commission may approve to protect German credit. Payment for food may also be a first charge and gold may be exported on approval. Military occupation as an essential guarantee of peace must be paid for by Germany in accordance with custom, notably that set by her in 1871. War material surrendered, after the armistice cannot be credited against reparations.

Liberated territories will bear their portion of the pre-war debts but cannot be asked to assume any part of the war debt itself. After the events of the war, the powers have the right to demand that Germany be no longer intimately involved in their financial or economic life or in that of Germany's former allies or Russia. As the greater part of Germany's foreign securities must be liquidated, protection of German holders will no longer justify German participation in international organizations. The German proposal that reparations payments be made in currency of the injured country cannot be accepted, as the choice may be left to the latter. In view of probable heavy purchases abroad to rebuild their ruins the right is reserved to demand of Germany also her credits in Austria, Hungary, Bulgaria and Turkey.

### Reciprocity Impossible at Present.

"Part ten, economic clauses. Principles announced by President Wilson and embodied in the covenant of the League of Nations as to equality of trade conditions will be brought into effect when the world returns to normal conditions, but in the meantime a transitory regime is essential to save certain allied states from a position of economic inferiority because of the ravaging of their territories and the contrasting conditions of German industries. Reciprocity is impossible at present, for with it Germany would reap the fruits of her criminal acts. A general indiscriminate reapplication of multilateral and bilateral treaties cannot be accepted, though as many have been restored as possible. Germany is required, not to accept the text of fiscal and telegraph arrangements but rather not to oppose their conclusion. Bilateral treaties will not be split up in such a way to place all the obligations on one side and the rights on the other.

### German Property Not Immune.

Consular relations are not reciprocally established owing to the war activity of German consuls. Private property of Germans abroad may justly be used to meet reparation charges, as Germany's resources are wholly inadequate and because in the war the allied powers themselves have had to take over foreign investments of their nationals to meet foreign obligations, giving their own domestic obligations in return. The property of German institutions for research and education cannot be immune in the light of their past activities. Questions of clearing houses, contracts, prescriptions, judgments, and the like are gone into in great detail.

### The German proposals regarding aerial navigation have not been accepted.

### Ports and Waterways.

Regarding ports and waterways, the German objections are too general to admit of detailed reply, but seen to rest on the principle that while the rules of transit and international control are wise and practical, they constitute an infringement of her sovereignty so long as they are not reciprocal. Until, however, the transitory period is passed and general conditions can be laid down as integral parts of the status of the League of Nations, it has appeared essential to provide that an enemy state may not by obstructive procedure prevent their being put into force. Provision is made formally for the extension of these provisions and for the ultimate grant of reciprocity but only after five years, unless the League of Nations decides to prolong the period.

No attempt has been made to prevent the legitimate use by Germany of her economic resources but rather to secure freedom of transit for young, landlocked states. The commissions established function not alone over German territory but over at least one allied country as well. Delegates of non-riparian states are included, both to represent the general interest and to act as a check on the predominant riparian state. As a guarantee of justice the allies agree to the strengthening of the clauses assuring freedom of transit across West Prussia to Germany, the increase of Germany's representation to establish a permanent status for the Danube, the submission of the future Rhine Danube Canal to the general regime of international waterways, and the suppression of the clauses as to constructing of railroads through Germany and of

MARRIED MEN VANQUISH MATELESS ONES 30 TO 8

But Those Single Men Never Know When They're Licked—That's the Difference.

The "mill lot" at the junction of Park and Chestnut streets was the scene of an interesting and friendly ball game last evening between the married men and single men of Cheney Brothers' electrical department. Home runs and three baggers were numerous and the right fielders had to chase after the ball down the bank into the coal pit by the weaving mill on several occasions.

The single men got a bad trimming. No one seems to know just what the score was, but one of the single men said he guessed it was something like 30 to 8. Superintendent L. N. Heebner, who played only six innings, distinguished himself by making one home run, a three bagger and a catch of a rather difficult fly in left field.

While the single men acknowledge they were beaten fairly enough last evening, they are not satisfied that they can't "come back" and it is planned to have another game on the same ground one week from last evening.

STIFF TERMS LAID DOWN FOR GERMANY

(Continued from Page 1.)

the Kiel canal commission.

Concerning Labor. The two notes already sent in reply to the German notes cover this subject. With reference to protection of labor in ceded territories, the treaty already makes provision for conventions between Germany and the states concerned. Further provisions have been made, however, for carrying out this intention by inserting a plan for reference to impartial technical commissions of all cases in which an early settlement is not reached by direct negotiation.

Guarantees. The German delegation states that only the return to the fundamental and immutable principles of morality and civilization can permit humanity to continue to live. After four and a half years of a war provided by Germany's repudiation of these principles, the powers can only repeat President Wilson's words that "the reason why peace must be guaranteed is that one of the parties to that peace has proved that his promises are not worthy of faith."

Military Occupation. Armed forces of the allies will continue in occupation of German territory as a guarantee for the execution of the treaty.

"There will be constituted a civilian body styled the inter-allied Rhineland high commission, consisting of four members, representing Belgium, France, Great Britain and the United States. It shall have executive powers and its members shall enjoy diplomatic privileges and immunities.

"The civilian administration shall remain in the hands of German authorities under German law, except insofar as it may be necessary for the high commission to modify this. The allies retain the right to requisition in kind and to demand services. Germany, will be responsible for the expenses of occupation, and of the high commission.

"Germany will undertake to place at the disposal of the allied troops such military establishments and accommodation as required. The transport, telegraphic and postal personnel will obey orders given on behalf of the commander in chief of the allied armies for military purposes, according to detailed provisions.

"The High Commission will have the power whenever they think it necessary to declare a state of siege in any part or all the territory concerned."

RUMORS OF CABINET CRISIS IN GERMANY

London, June 17.—A Copenhagen dispatch today reported rumors of a cabinet crisis in Germany, presumably over the peace terms. Here von Gerlach and Prof. Niewsky are being mentioned as possible Premier Scheidemann.

It had been reported from Paris that the present German government will be supplanted by another which will sign the peace treaty.

### JOHN TOURNAUD ELECTED SACHEM BY THE RED MEN

Miantonomoh Tribe Holds Semi-Annual Meeting—Speakers and Visitors From Other Towns.

At the semi-annual meeting of Miantonomoh Tribe of Red Men in Tinker hall last evening, the following officers were elected: Sachem, John Tournaud. Senior Sagamore, Joseph Ferguson, sr.

Junior Sagamore, Gottfred Keish. Prophet, Charles Sievert. There are a number of other officers in the tribe, but they are elected at the annual meeting.

The election last night was followed by speechmaking or "long talks", in Red Men's lore. Among the speakers were William Pond of Hartford, a past chief sachem of the Reservation of Connecticut and one of the oldest Red Men in the state, and Deputy Woodford, also of Hartford. Besides these officials, visitors were present from Bristol and Rockville. During the long talks, smoke weed was enjoyed by the Red Men.

### MOTORCYCLE FANS VISIT POCOTOPAUG FOR OUTING

Make Run to East Hampton Saturday and Spend Next Day in Sport on Lake.

The third annual Gypsy-Day-Tour of Manchester motorcycle enthusiasts was held last Saturday and Sunday when a run was made to Lake Pocotopaug at East Hampton where a stop was made over night. During Sunday the members of the party enjoyed themselves fishing, rowing and motorboating on the lake. People wondered what was going on as they saw the returning riders coming up Main street late in the evening, each rider having a number fastened on his arm. This is one of the rules of the run which was held all over the United States on the above days under the regulations of the Motorcycle and Allied Trades Association. The following men and their friends were members of the party:

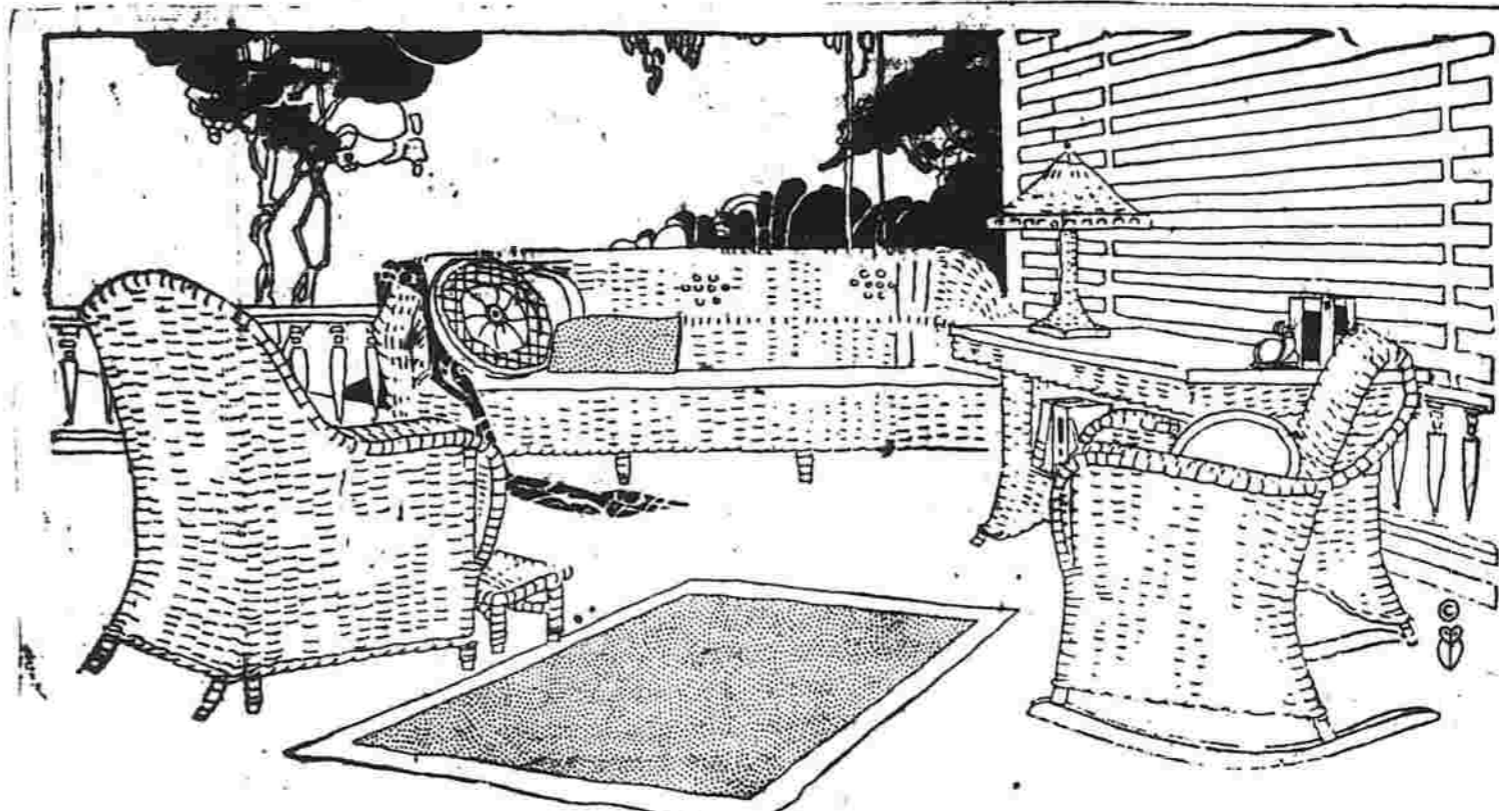

L. L. Williams, Captain and Pacemaker; T. R. Raby, Tour Master. F. D. Lewis, A. Becker, M. J. Donze, Julius Chagnot, R. Johnson, R. Williams, Joe McCann, A. Stavinsky, J. Matzko, S. Blanchard, J. Hilderbrand, G. Howard, J. Muldoon, George Schiller, W. Senkbiel, Max Lautenbach, Carl Hultgren, Sven Carlsson, James Hewitt, M. M. Wannson, Joe Sippe, E. Rampone, W. Wetherell, Jeff Blanchard, J. Hayden, Carl Anderson, R. Lewis, A. Reichart.

## WHEN THE TEACHER GRADUATES.

The commencement season is at hand. To many this annual June event is one long to be remembered, an anniversary to be observed in succeeding years. At such times as this the graduating students hold the center of the stage. The other part of the school or college body, the instructors and the professors, are for the time being in the background. Yet commencement means much to the teacher as well as to the pupil. It signifies the departure of groups of young people who have sat in his class rooms for four years and who have come to be in a measure his children. Upon them the instructor has endeavored to impress those facts and those habits of thought which will be of greatest value to them in later life. If the instruction has been given capably and in the right spirit it will be of inestimable value to the graduate and through him to the community in which he casts his lot.

From the class which graduates to those which follow the faithful instructor turns his attention year by year. But there always lingers in his memory the friendships he has formed with his old students and the hope he may have had for their future. When at commencement the old "grads" come back it must be interesting to see how his anticipations have been realized and to note the mature achievements of those who as boys and young men he fathered and instructed.

But for all teachers there must, alas, be an end to commencements. The time comes when they must pass along their task to stronger bodies and fresher minds. At almost every college the commencement season marks the final graduation of some instructor who has grown old and feeble in the harness. Such a one is Professor Winchester of Wesleyan who for fifty years has been the English teacher in that university. Always kindly, helpful, level headed and abundantly capable he now retires with the good will of thousands of men who have profited no less by his saintly example than by his efficient work in the class room. Such a leader gains no wealth from his toil but he graduates from his work with a heritage worth more than money, the love of a great body of successful and brainy men and the knowledge he has in large measure aided them to succeed, and through them has helped materially to uplift the world.

## ICE.

It is hard to keep cool over the ice question. As things stand now it looks as though a certain coterie of big dealers were, in effect, telling the people that if they do not like the present scheme of things they can go to a place where no amount of ice will do them any good.

The astonishing statement reported to have been made by Harry W. Walker, president of the Berkshire Ice Co., before the investigating committee in New Haven yesterday, that ice cut on Congamond Lake in this state brought a wholesale price in New York of \$4 but that within Connecticut it sold for \$6; the refusal of Walker to answer certain questions of the committee; his statement that he had been misrepresented by the papers and his later admission that they had stated only such facts as he had testified to himself—we shall look in vain for a counterpart of such bare-faced defiance of public right unless we consider the action of the ice dealers in the city of Hartford, in refusing to open the municipal ice stations at the request of the Aldermanic committee.

A report of the meeting between the Aldermen and the dealers says that the ice men declined to open the stations because they were not able to find men "honest" enough to handle the job. If this is the case we would suggest that they extend their search beyond the limits of the ice trust and offer the job to some high school student seeking employment for the summer.

But if the statement accredited to Alderman Raphael of Hartford is correct, namely that if the dealers would

consent to reduce the price of ice to seventy cents a pound the Aldermen would call off the investigation, it would seem that our neighbor had better do a little investigating of the Aldermen or, better still, get a new set.

Ice is not a luxury to be enjoyed only by those whose financial circumstances allow them to possess the things denied to men of more meager purses. Ice is a necessity. It should be reasonable in price, pure in quality and so plentiful as not to require undue economy. These conditions are not at all impossible and so far there has been nothing except the selfishness and greed of a few men in the way of their fulfillment.

## MEXICO.

Border raids and the killing of American men and women on their own soil are nothing new in the story of our tangled relations with Mexico but action such as has just been taken by our forces under command of Brigadier General Erwin will make such disgraces of less frequent occurrence.

The sharp and unhesitating pursuit of bandits who, in their fighting on the Mexican side of the line, occasioned the death of citizens on United States territory has everything to justify it in international law. The present government has tolerated such "punitive" expeditions before and former administrations there have had explicit understandings with the United States regarding such action. Furthermore, we have the statement of Secretary Baker that "there is no possibility of a misunderstanding between the republic of Mexico and the United States with regard to the protection of life on the American side." The question of an "invasion" is not likely to arise over this action of our troops and so long as Mexicans fire their bullets only at each other and keep stray shots from doing injury on this side of the boundary there is no likelihood of serious trouble.

But there is bad blood on the border and we expect to see many critical situations develop there in the next few years. Mexico is troublesome enough as a neighbor when left to her own devices but she has already proved to be an attractive field for foreign intrigue and mischief making and the situation has lost few of its possibilities. A cool head and a steady hand will be needed at Washington.

## HOTEL PRICES RISING.

The imminent closing of hotel bars has already had an effect upon the prices of rooms and board. In New York the price of rooms in most of the first class hotels has been advanced from 75 cents to \$1.50 a day and at the seashore resorts a corresponding or even greater advance has been made. The hotel men have evidently made these advances in the fear that their revenue from drinks will so shrink after the first of July as to wipe out their profits. But there may be compensating gains in other directions which do not yet appear. The increased cost of food, bed and table linen, crockery and labor warrants some increase in rates without taking the liquor question into consideration.

About the only way to reduce the cost of ice which has been worked out in unconnected cities is to establish centrally located ice stations at which the consumer can buy ice and take it away. This plan works very well in congested districts where the consumer buys in a small quantity and can carry his supply home in a dishpan or similar receptacle. It would not be practicable however in a place spread out as Manchester is, for in most cases it would cost the consumer as much to get the ice home as he would save by buying it at the station. One of the penalties we have to pay in this community for our large yards and detached dwellings is that of costly delivery.

The erection of frame buildings in the business section of Main street should be forbidden by the town's building code. They are a menace to neighboring property because of the danger of fire. It would be far better to prevent their erection now than later, after the town has suffered from a conflagration.

Money will buy just about half as much now as before the war. For that reason persons who have a fixed income from investments, or from savings bank interest, find they cannot live as well as they could before the war.

The next flying record sought will be from continent to continent, for as the Springfield Republican points out, Alcock's non-stop flight was only from one island to another. Newfoundland is an island and so is Ireland.

# League Would Cut Off Any Nation Which Tries to Break Covenant

On this page The Herald is printing a series of letters touching every angle of the plan for a League of Nations proposed by the Paris Covenant, now awaiting ratification by the United States Senate. In accordance with the authors' wishes the individual letters are not identified with any one writer.

They are written by: William H. Taft, Ex-President of the United States. George W. Wickersham, formerly United States Attorney General. Lawrence Lowell, President of Harvard University. Henry W. Taft, of the New York Bar.

## Voting Rules.

Procedure and the appointment of committees in the Assembly and the Council are to be decided by a majority vote, almost all other matters require unanimity. The functions of these bodies being mainly discussion the requirements of a unanimous vote on questions of procedure would enable one member to prevent any subject from being debated; and it is here required for the appointment of committees one member could prevent gathering the information needed for intelligent discussion.

The object of demanding unanimity for other matters was really to still the alarm of people who did not understand that the organs of the League are given no substantial power to direct the conduct of the members. But the provision is by no means inconsistent with the principle on which the League is based—that of automatic action by the members, specifically set forth in the Covenant itself, and beyond this conference with a view to voluntary concerted action by all the members. For the last purpose a unanimous vote is not inappropriate.

## The Automatic Principle.

It may be well to explain here more precisely what is meant by automatic action on the part of a member of the League. It denotes action that is automatic so far as the League or its organs are concerned, not in regard to the constitutional branches of its own government. Under Article XVI, for example, if one nation resorts to war against another in disregard of its covenants the other members of the League agree immediately to subject it to the severance of all trade and financial relations, and to prohibit an intercourse between their citizens and its citizens. This is automatic in the sense that it is a direct and immediate obligation, wholly independent of any action by any organ of the League. It is not automatic in the sense that the severance of relations takes place automatically without any action by the governments of the several members of the League. Nor does it determine what branch

of a national government has power to put it into effect. That depends upon the constitution of the nation. With us it would require legislation, and therefore action by Congress; but Congress is under a moral obligation, like that imposed by every treaty which pledges the good faith of the nation, to enact the legislation required.

## Permanent Secretariat.

The League will obviously need a considerable body of men to carry on a voluminous correspondence among the members, to record the proceedings of the different organs, to collect such information as they may require, and to assist the various committees and standing commissions. In fact the convenience of the representatives, and the ease of working the organization will be greatly promoted by the efficiency of such a secretariat and its chief. This is especially true because in popular governments—and no others expected to be members of the League—the men who hold the high offices of state change frequently, and hence the representatives in the Council and Assembly are not likely to remain long enough to be thoroughly familiar with the details of previous transactions, but must depend for much information upon the secretariat.

In order, therefore, to render efficient service the Secretary General and his subordinates should be permanent, fully conversant with the history and condition of international relations, but not themselves political persons. Their duty is to serve the League, not to direct it; and in view of the large influence that its permanent expert, with the details of a matter at his fingers' ends, can exert over a changing body of political superiors, it is of the utmost importance that the secretariat should be as free from bias and from political motives as possible; so that their object may be the success of the League as an institution, not the special interest of any particular member. If rightly administered the secretariat may well become one of the most important and beneficial organs of the League.

## Geneva Ideal Seat.

Article VII needs little comment. It confers upon the delegates to the Council and Assembly, to their commissions, to the secretaries and to the buildings they occupy, the freedom from interference by local laws and local officials conferred by universal custom upon ambassadors and embassies in foreign lands. In order to ensure for the League complete independence from influence and pressure by any great nation, and still more from any suspicion of such influence, it was wise to place the seat of the League in a small and traditionally neutral country. No better place could have been selected than Geneva.

## A SPLENDID FEAT IN AIR. (New York World.)

The flight of Alcock and Brown across the Atlantic was a splendid feat. In scientific skill and pure sportsmanship in physical endurance and indifference to danger, it has never been surpassed in the records of aviation. For all time they have won the honor of being the pioneers to bridge the ocean from Newfoundland to Ireland.

The conquest of the air takes on a new meaning by reason of this marvellous performance. While the world was asleep, Alcock and Brown accomplished the impossible. When it awoke expecting to read of their failure, it learned that over-night they had landed in Galway.

From St. John's to Clifden on the coast followed is well over 2,000 land miles, a distance many hundred miles greater than had ever before been covered by a heavier-than-air machine. The speed at which it was planned to fly was about ninety miles an hour; the time for the entire distance was set at twenty hours. The victors actually made the transatlantic flight in sixteen hours, an average hourly rate of 125 miles. Without signals or communication—their radio was out of order—and blinded most of the way by fogs, they laid their course with the accuracy almost of a bullet fired at short range. Where the fastest ocean liner takes more than five days, they were across the Atlantic and ashore in less than one-seventh the time, and no ship's navigator ever steered a true course in fog from port to port.

It was the misfortune of Hawker and Grieve to fall where Alcock and Brown succeeded. Others may follow where they blazed the way. Luck must still count; weather and engines are fickle aids, and in spite of all precautions some aviators will miss where others hit. The transatlantic voyage in air is a steady panacea. He—that's all right. The average stomach holds more than the average head.

perments will lead to greater things no one can question.

## SEAPLANE RACE TO BE HELD NEXT SEPTEMBER.

London, June 16.—The international seaplane race for the Jacques Schneider trophy, with a prize of \$5,000, will be held in September under auspices of the Royal Aero Club, present holders of the trophy. The race, of two hundred miles, will be over a sea circuit of not less than five miles. It is expected that entries will be made by British, French, American, Italian, Belgian and Spanish fliers. The last race, held at Monte Carlo in 1914, was won by G. Howard Pixton, of England, in a Sopwith seaplane.

The event probably will be held at some seacoast resort in the south of England.

## READ BIBLE, BUT CROSS.

Portland, Ore., June 16.—Because he read the Bible for days at a time and never had a kind word for her, she says, Mrs. Ella Norton is seeking a divorce from Frederick Norton. "He had religion too strong for me," she told the Court here.

## WON'T SIGN RUMOR.

London, June 16.—The Allgemeine Handelsblatt states that the best circles in Berlin are preparing for the news that Germany will refuse to sign the peace treaty, said an Amsterdam dispatch today.

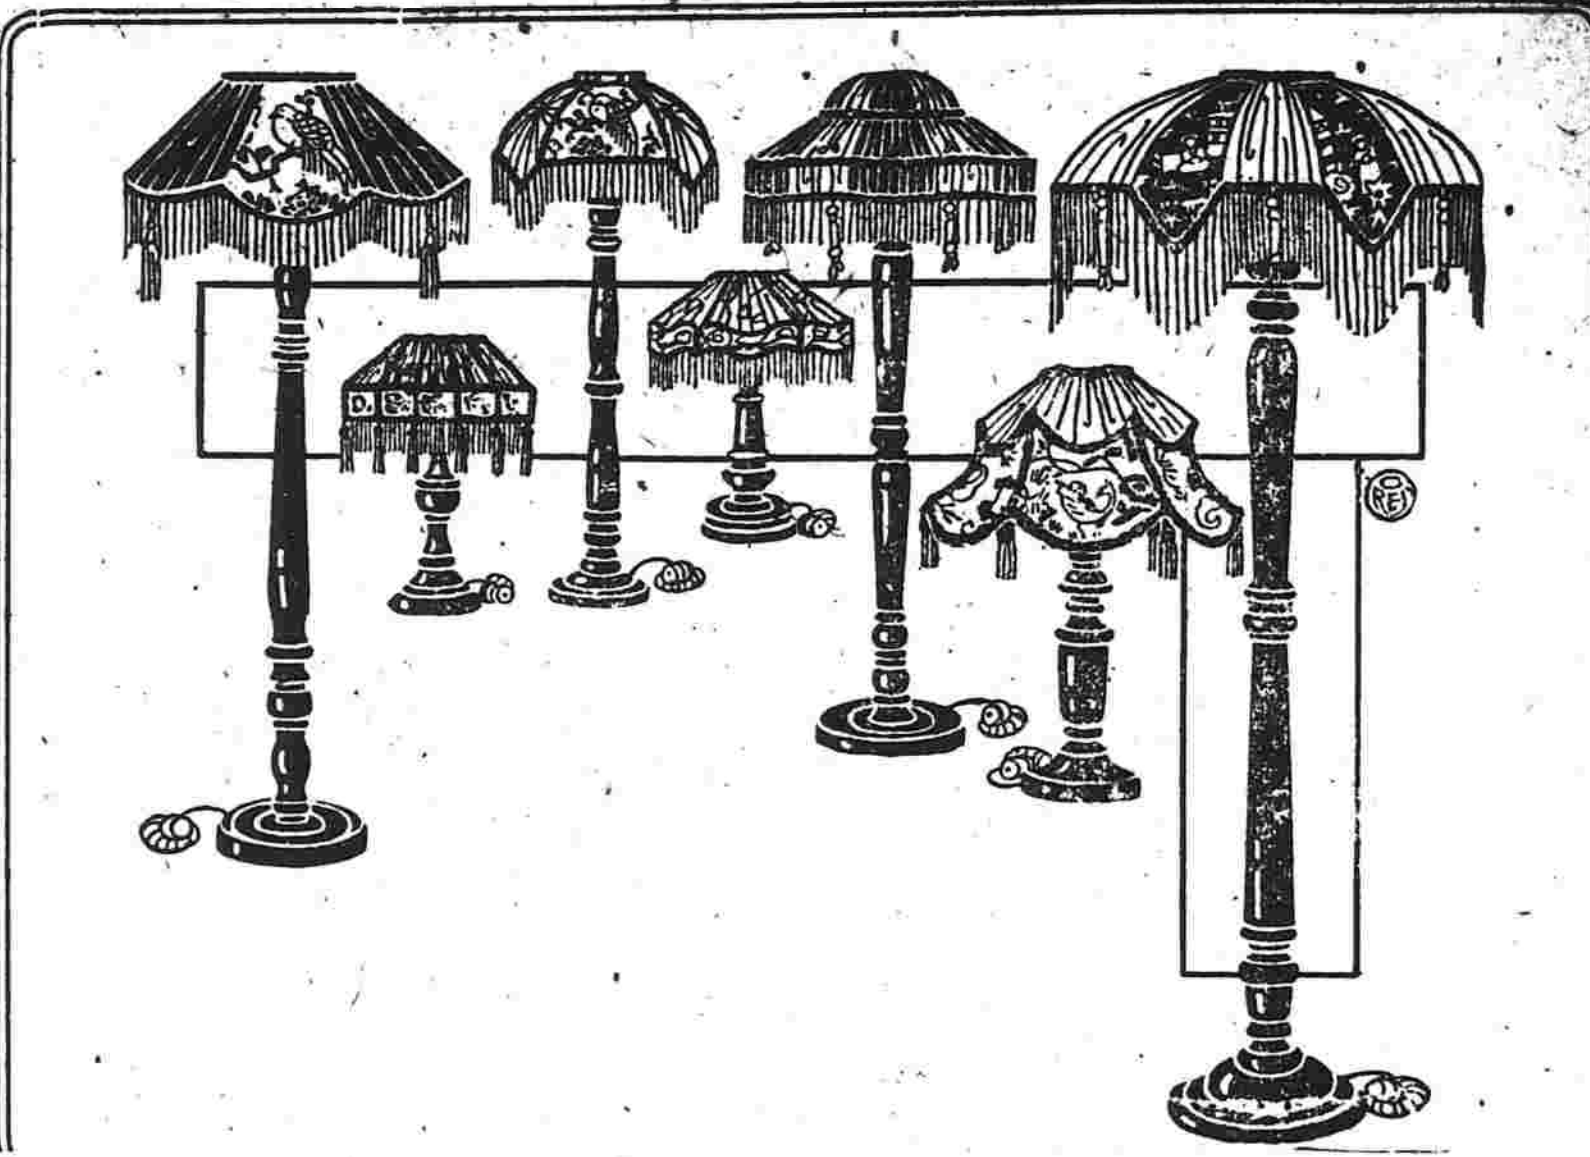

## CAPACITIES.

(From the New Haven Register.) She (with newspaper)—It says here that cooks are paid more than teachers.

He—That's all right. The average stomach holds more than the average head.

## STOLE FOR MOTHER'S SAKE.

Pittsburgh, Pa., June 16.—"I stole to buy medicine for mother," James Straub, sixteen told the court. The boy was given fatherly advice and paroled.

## Something New In Electric Lamps Just the Gift for a Young Bride

## HOSPITAL INCORPORATORS PLAN FOR ORGANIZATION

Adopt Bylaws and Fix Date for First Annual Meeting of Members—Gifts Still Coming In.

The incorporators of the memorial hospital met last evening and adopted such bylaws as will be necessary to complete the organization. It was voted to have a board of 12 trustees to be elected by the contributors to the hospital fund at the first annual meeting. All who gave five dollars or over will have a right to vote at this meeting. The meeting will be held in the assembly hall of the High school Monday evening, July 14. A notice of the meeting will be sent to each person eligible to vote and as the number is something like 3,000 the work of mailing notices to them will be no small task. Altogether there were between 5,000 and 6,000 contributors to the hospital fund and the work of classifying them is still in progress at the Manchester Trust Company.

The preliminary committee is anxious to start work on the building as soon as possible but cannot do so until the corporation is organized and permanent committees are chosen. Meantime the hospital plans are being subjected to close scrutiny by experts and amendments are being made in the way of improvements and conveniences.

The drive committee, of which C. Elmore Watkins is the head, is still receiving subscriptions and hopes to gather in several thousand dollars more before July 1. At the meeting last night the committee was authorized to receive gifts of not less than \$200 for furnishing a room and such other gifts as do not involve obligation for service. Several donors have asked to furnish rooms in memory of relatives and others have proposed to make gifts for special uses.

The work of grading and widening Haynes street, which is to be the main approach to the hospital, has been in progress for some time. This work is being done by the Eldridge estate from which the hospital site was bought and which owns the adjoining land.

## THOUGH YEAR ELAPSED, NEGRO ASKED THAT EGGS BE FREED.

San Francisco, June 16.—"A good memory is a great thing," said William R. Buckner, lecturing here before the California Home Industry League.

"Once there was a Southern plantation dealer," he said, "who was always boasting about the prowess of a certain darkey employed by him, who had the reputation of never forgetting anything. A certain commercial traveller, wishing to put this darkey to a test, wagered a case of the best Kentucky whiskey that he could take the negro unawares. The plantation owner consented and the

## "Mme. Lyra" Corsets

The Corset Without a Peer

AT YOUR BEST

Every woman is at her best when she feels well groomed. She has more enthusiasm for her work and her recreation—and most women find these days quite full with the daily activities. commercial traveller walked out to where the negro was plowing. Coming up behind him, he said: "What do you want?" "The negro didn't even turn around, but he laconically uttered a single word: 'Eggs.' The traveller went his way and returned a year later. He then determined to win his bet. Going out to the field where the darkey was plowing he came close up behind him and asked: "How do you want them?" The negro never turned around. He simply uttered: "Fried." TEAMSTER INSTANTLY KILLED. New Britain, June 17.—James Ulry, thirty, was instantly killed this morning at Black Rock dump when a large stone jarred the wagon he was driving, knocked him off to the ground and fractured his skull.

## GILBERT WRIGHT WILL CAPTAIN HIGH SCHOOL BALL TEAM NEXT YEAR

Has Played Three Years and  
Made Good Every  
Time.

### PLANS FOR GRADUATION

Chorus Hard at Work on Musical  
Program—Class Day Committee  
Has Work Well in Hand.

Yesterday afternoon Gilbert Wright class of '20 was elected captain of the High School baseball team for next year. Wright has had three years' experience, one year at second base and two behind the bat. The team's success this year was largely due to his work behind the bat and to his excellent hitting.

Wright will no doubt develop a team as fast as the teams of the past three years under Captain Glenney. Glenney was captain in his sophomore year and has held that position ever since. The high school has had one of the fastest teams in recent years under his good leadership.

#### Basketball Captain.

Robert Finnegan, class of '20, better known as "Rabbit" was elected captain of the basketball team for next year. Finnegan played in his Freshman year and has been one of the main supports of the team.

Robert ("Tucker") Crockett was captain for the past three years, making the team in his Freshman year and being made captain in his sophomore year.

The different committees for Class Day report that their arrangements are practically perfected.

#### Ata Boy, Tom!

The "Agony Quartette" promises to be the best that has been heard in several years. Tom Quish is training the quartet and anything Tom has a hand in is sure to be a success.

The seniors want to have a daisy chain and probably will go out in the fields, this week and secure the flowers.

#### The Ivy Oration.

The Ivy Oration will be delivered this year by Wesley Glenney, president of the senior class. Harold Turkington, president of the junior class, will respond and also receive the trowel.

#### Senior Dance.

The seniors will hold their dance Friday evening. It will be strictly by invitation. A senior is allowed to invite one couple besides his own partner. It promises to be a success both financially and socially. Those who are on the committee are: Sherwood Beecher, Wesley Glenney, Harry Sandine, Josephine Keith and Edith Weldon.

#### No Game With Hartford.

The baseball team did not go to Hartford last week to play the High school there. Hartford cancelled the game because of some other important school activities. This was to have been the last game of the season.

#### Good Work of the Chorus.

The graduation music is in charge of Miss Washburn and the interest that the chorus is showing will make this feature as great a success as was the high school concert.

#### SANFORD PALMER.

Another Civil War veteran has passed away. Sanford Palmer, a member of the G. A. R., died at the home of his son, Arthur D. Palmer, on Middle Turpike West at an early hour this morning.

Mr. Palmer has been living at his son's home for the past two years but previously he resided at the Soldiers' Home in Noroton. Besides his son he is survived by several grandchildren.

The funeral will be held tomorrow afternoon at Coventry. There will be no service at the home.

#### "VET" HAS WAGE RECORD.

Junction City, Kan., June 16.—A Junction City ex-soldier claims the record for high wages during the war. He was drafted and sent to Camp Funston, where, after a day's service, was discharged for physical disability. He was paid for the single day's service \$61. One dollar for the service and the \$60 bonus. This is at the rate of \$20,265 a year, more than General John J. Pershing received.

#### A SHREWED GIRL.

He—if you could have two wishes come true, what would you wish for? She (frankly)—Well, I'd wish for a husband.  
He—That's only one.  
She—I'd save the other wish until I saw how he turned out.

## ATHLETICS WILL HAVE NEW SHORT STOP SOON

Colgate Player Will Take Position  
With Them For Saturday Games.

Manager Dowd of the Athletics announced last evening that he had signed up a new man for the short stop position. This name of the latest acquisition to the Athletic forces is "Billy" Dwyer who at the present time is attending Colgate University where he is the star of the varsity team. Dwyer expects to complete his course at the end of the week and has signified his willingness to play with the local team on Saturdays. He will appear with the Poll aggregation on Sundays. Dwyer is an infield wizard and the appearance of "Jerry" Fay, former Eastern Leaguer; "Billy" Schields, late of Poll's; "Darby" O'Connell, star moundman of the American Chain of Bridgeport and the Remington Arms of New Haven and "Sammy" Massey of the old Trump organization in the same line-up with the Colgate star, is a sufficient guarantee that the local management is endeavoring to bring the Athletics up to the highest efficiency in semi-professional baseball. Manager Dowd also announces that he expects the co-operation of a prominent local body of business men and will receive word in regard to the same some time this week.

## CONNECTICUT FARMERS TO GATHER AT STORRS

Program of Agricultural Education  
Arranged for August 4-9—Farm-  
ers' Day August 6.

Storrs, Conn., June 17.—Several thousand Connecticut farmers are expected to spend the week of August 4 to 9 at Storrs, in attendance at the annual Summer Farmers' Week at Connecticut Agricultural College. The event is annually held the first full week in August and is recognized as the principal agricultural conference of the year.

The Connecticut Dairymen's Association, the Beekeepers' Association, and the Connecticut Poultry Association have accepted the invitation of the college to conduct the educational work of the week along their respective lines, and will hold their regular summer meetings at this time. The Pomological Society and the Vegetable Growers' Association have tentatively accepted similar invitations and members of other societies are invited to attend. All farmers of the state are invited by these societies and by the college to consider these meetings as their own.

The outstanding feature of the week will be Farmers' Day, August 6, on which date all specialized programs will give way to discussion of general farm problems. Prominent speakers will take part in the program and tractor demonstrations, field trips, and a cattle show will add to the interest of the day's events. A basket picnic lunch will add to the social pleasures of Farmers' Day.

Following up the work of Farmers' Week, a state-wide agricultural conference will be held at the Agricultural Experiment Station at New Haven, August 22.

### TEACHES A MILLION TO SING NATIONAL ANTHEM.

Boston, June 16.—Henry W. Rankin, of the naval training station, claims to have taught more persons to sing "The Star Spangled Banner" than any other individual in the entire country in the past two decades.

Up to a few months ago he was the musical director at the station. Ill health caused him to take up other work.

Mr. Rankin states that he does not feel that it is an overstatement in saying that he has taught or directed the national anthem to more than a million persons.

His largest chorus was in August, 1917, when he led nearly 14,000 voices in singing the national anthem accompanied by a band of 125 pieces.

### HOLD FIRE DRILL.

Hose and Ladder Company No. 1 of the South Manchester Fire Department held a drill last night at the tower near Cheney Brothers' carpentry shop on Hartford Road. After the drill the company went to Charter Oak street where a thorough testing of all hose was made.

The company will meet for another drill next Monday evening.

### FINDS FIFTY-GALLON STILL.

Tecumseh, Okla., June 16.—A fifty-gallon still, with two gallons of the product, was discovered by Revenue Agent J. T. Brown on the farm of Charles Woolridge, near here. It has been in operation for eight months, revenue men said. Woolridge is in jail on a federal charge. The still was destroyed.

## HARTFORD BOY SCOUTS SEEKING FUNDS HERE

Organization from Capitol City Goes  
Out of Bounds in Hunt for Money  
—Manchester Making Good.

The mail has recently brought to a number of Manchester citizens, applications from the Boy Scouts' organization requesting that they be filled out and returned with one dollar. None of these have been sent out by the Manchester Council and money thus contributed does not help in any way toward promoting Scout work in this town. These applications come from the Hartford organization which is exceeding its rights in soliciting funds outside of its legitimate territory.

L. P. Knapp, who is conducting the campaign here, has found that several persons have thus been misled into thinking that they were contributing to the work of the Manchester Council. Notwithstanding this defection of funds, Mr. Knapp states, the townspeople are making a satisfactory showing so far as the average amount of subscriptions goes. But the Scouts are anxious to have a larger number of associate members and an appeal is made to all to send in contributions.

Because men or women did not receive one of the circular letters sent out by the Scouts they should not feel in the least constrained about signing up as an associate member.

The number of individual subscriptions is now more than 45 and over \$245 has been received. The Manchester councils will subscribe, out of this, the sum of \$175 for the National Council and the rest will go to the boys of the town organizations.

Mr. Knapp explains that a two year budget of at least \$500 will be necessary to provide for the needs of the boys here. This is the least possible amount that will provide the things absolutely necessary to make the summer camp what it should be.

The Scouts have determined to double their membership and thus extend the field of activities to twice as many as are now enrolled.

Contributions, as large as possible or larger as Mr. Knapp says, should be sent to Raymond Johnson, Treasurer of Boy Scout Council, town.

There will be a council meeting Wednesday evening at Mr. Johnson's office to adopt plans for the camp this summer.

## TAGGING THE BASES

Urban Shocker put over another "revenge is mine" stunt against the Yanks. That's three out of four for Urban since he was traded by Miller Huggins to the Browns.

The White Sox remained inactive thereby walking into first place by virtue of the defeat of the Yanks.

Any time a twirler can set the Yankees down with five scattered hits, he's travelling some. Shocker did it.

"To err is human", quoth the Senators while being defeated by the Tigers. Therefore, they made six of 'em.

The "blushing violet" also scored three runs. Now for a raid on some additional fancy silk shirts.

Jack Quinn lost this game in the second when he winged Demmitt. Jacobson promptly tripled his home.

And the Dodgers had only lost ten straight before Myers sent over the winning scores.

### WAR NOT OVER.

London, June 6.—Speaking in support of the new British loan, Chancellor of the exchequer A. Bonar Law, declared today:

"The terms handed to the Germans today are final. Germany must sign or the armistice ends. We hope they do sign, but there is too much inclination to think that the war is over, whereas, it isn't yet over."

### MORE STREET FIGHTING.

Paris, June 16.—Street fighting is going on in Vienna and the communists are attempting to overthrow the Austrian government, the American peace mission was advised today.

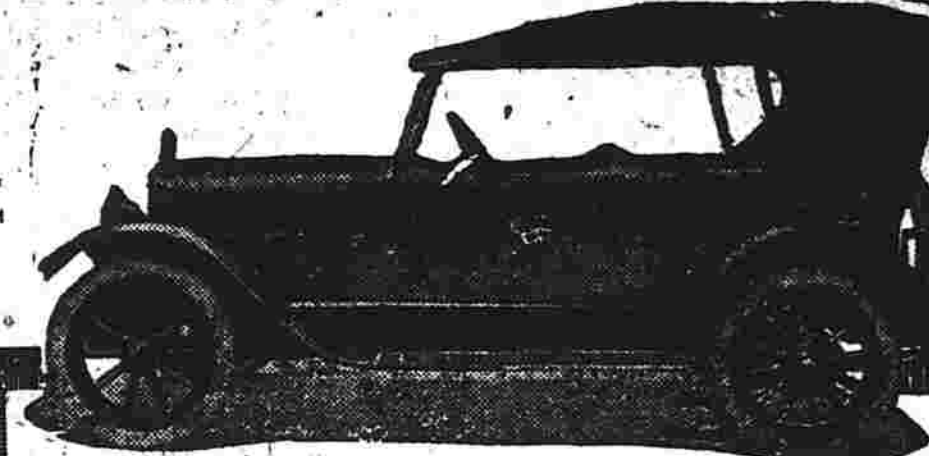

A Copenhagen dispatch reported that troops had broken up the communist attempt.

GARRISON IN MUTINY.  
London, June 16.—A Reuter dispatch from Helsinki today stated that the garrison at Krasnaya Gorka has mutinied.

White guards have bombarded Kronstadt.

### SOVIET REPUBLIC.

Copenhagen, June 16.—A Soviet republic has been formed in Bessarabia, according to Petrograd advices today.

## Let us drive this car around to your door

and take you for a spin. You'll be proud to ride in this stunning Elcar. You'll marvel at its roominess, easy-riding and absolute comfort. Every part is built 150% strong. Spring suspension and motor power are unequalled.

Years of experience building cars in the \$3,000 class only have enabled the manufacturers to put in this remarkable Elcar at so moderate a price.

Upkeep is amazingly low. Average 18 to 22 miles to a gallon of gasoline. Tires give maximum wear. Repair costs are minimized. Make an appointment with us to take you riding before our allotment is depleted.

Manufactured by the Elkhart Carriage & Motor Car Co., Elkhart, Ind. Builders of Good Vehicles since 1873.

Elcar Fours \$1175; Elcar Sixes \$1375; F. O. B. Factory

**Elcar Features:** The four-cylinder models have powerful 37½ horsepower at 2100 r. p. m. Six-cylinder models have Red Seal Continental 3½ x 5½ inch engine, developing 40 horsepower at 2100 r. p. m. Outside of the power plants the Elcars sizes and forms are practically the same. Two unit electrical system. Long wheel base, 116 in. Full floating rear axle with spiral level driving gears. Tumble roller bearings front and rear. Double universal drive; tubular propeller shaft; copper cellular radiator. Roomy and comfortable bodies of beautiful design and durable finish.

ELCAR Prices advance \$100 on June 7

### BOY SCOUTS OF TROOP 5 WILL GET HELPING HAND FROM FRIENDSHIP CLUB

### Men of South Methodist Church Vote to Boost Troop Membership.

### WILL HOLD LAWN PARTY

Boys Must Do the Work But Men Will Back Them Up and Give Proceeds to Them.

If Troop 5, connected with the South Methodist church, doesn't become one of the best troops among the Boys Scouts, it won't be the fault of the Men's Friendship club. The members of the club have pledged themselves as "big brothers" to the Boy Scouts and are going to back the Scout Movement in every way they possibly can.

Troop 5 has been organized less than a year and has only about 15 members at present, but it is desired to fill the troop to its required quota, which is 32 boys. An assistant scoutmaster is needed, or will be as soon as the troop has its quota. W. H. Whiting is the scoutmaster. He and 15 of the boys, ten of them members of the troop, and the others prospective members, met with the Friendship club at annual meeting last evening, when ways and means for backing the Scouts were discussed and definite action was taken in regard to the work.

Mr. Whiting gave a short talk on Scout work, explaining to the men the ideals and principles of the movement and telling his aims for his particular troop. The first thing necessary is to fill the ranks of the troop and this matter was left with the church Scout council, composed of G. E. Keith, P. C. Ferris and Samuel Crowell, all members of the Men's Friendship club.

**Scouts Lawn Party.**  
With this matter settled, the club voted to stand back of the Scouts in running a lawn party of some kind, for the purpose of raising money toward the Scouts' camping trip this summer and to have all the receipts turned over to the boys. In all the Scout activities, the boys are supposed to earn their own money, thus being taught thrift and saving, and with this idea in mind, the boys will be expected to do a big share of the work in connection with the lawn party. The men will assist them. The boys will have charge of some of the concessions and they will sell tickets in advance.

In connection with the lawn party, it is planned to have a moving picture entertainment, giving a reel on Boy Scout work and probably an additional reel of general interest. A committee of seven, composed of the Scout Council, and Archie Haugh, H. L. Carr, L. S. Burr and Thomas Humphries, was appointed to have charge of the arrangements and the club members pledged themselves to assist in any way they could help make the event a success.

Rev. G. G. Scrivener said the scene presented at the meeting last night, with the men and the boys assembled together, was one of the most pleasing sights he had seen since coming to Manchester. He expressed the hope that it was but the beginning of a closer fellowship between the boys and the men. Mr. Scrivener also suggested that a "Father and Son" banquet be held some time in the fall.

**Officers Elected.**  
The following officers, practically all re-elected were chosen for the ensuing year:

President, Rev. G. G. Scrivener.  
Vice President, George W. Ferris.  
Secretary, W. E. Keith.  
Treasurer, George McKinney.  
Chairman Membership Committee, Clarence L. Taylor.  
Chairman Civic Committee, Geo. E. Keith.  
Chairman Social Committee, W. L. Rogers.  
Chairman Religious Work, Geo. Davidson.

The officers and the chairman of the four committees constitute the executive committee of the club. Each of the four chairmen has the power of choosing his own associates.

George Davidson has been the teacher of the Bible class for a long time and seldom feels at liberty to leave the class. To make this possible and to have a teacher ready to fill his place any time that he might wish to be away, it was voted to elect Frank Mullen assistant teacher of the class.

The matter of club outing for the

summer was brought up by Clarence Taylor and at his suggestion it was voted to have one big time this summer instead of the monthly outings held in town during the past few years. A committee, consisting of Clarence Taylor, George W. Ferris and Thomas Humphries, was appointed to make all the arrangements for the outing.

### Circle Theater

"Let him who is without sin cast the first stone". This is the subject which William Fox has taken for his text in the visualization of "The Love Auction" with beautiful Virginia Pearson which was presented at the Circle theater last evening and which will also be shown for the last time this evening. Perfect productions at the Circle are such a usual occurrence that it is a rare occasion when one does take the patrons of the Oak street theater by storm. But such was the case last evening. The tense and powerful situations held the audience spell bound and their logical unravelling was visibly appreciated.

The production tells the story of a poor girl who married for money, dreaming a dream of happiness. She found her husband an inveterate drunkard and was heart-broken. Naturally she transferred her affections to another and was found with him by her husband who created a scene. He struck his wife. But they were drawn together by a force greater than they could combat. Then the husband learned the truth. But you must see the picture at the Circle for the end of this gripping romance. On the same bill will be shown an episode of that melodramatic thriller, "The Man of Might", two real Sunshine comedy and the Pathe News.

Tomorrow afternoon and evening comes Vivian Martin in a Paramount, "Mirandy Smiles". Mirandy did the laundry for the organist, and the organist being a nice fellow, played a bit of music to her—and then Mirandy smiled—say, it's queer how peaceful and romantic a church is when there's nobody but the organist "practicing."

### Park Theater

Dashing Anita Stewart, star of many notable Vitaphone productions, and whose name now appears on the roster of the First National Exhibitors' Circuit with a yearly salary of \$100,000 marked opposite her name, will be seen on the screen at the Park this evening and also tomorrow afternoon and evening in Lois Weber's photodramatic triumph, "A Midnight Romance". Miss Weber visualized this production from the story of the same name by Marion Orth who will be remembered as the author of "The Price of a Good Time", which smashed all attendance records at the Popular Playhouse last season.

A modern feminine Dr. Jekyll and Mr. Hyde, who substitutes the two famous characterizations of manliness and criminality with the livery and toil of a hotel maid by day, and by night with the beauty and lavish gowns of a regal presence, loved and sought by a handsome Romeo, is the mystery role played by Miss Stewart in this six reel out-of-the-ordinary celluloid story. It is a wonderful story of a strange and beautiful romance of midnight. A romance of love, mystery and adventure that introduces a new feature in modern presentation of the silent art.

This production created such a decided hit at its premier in New York's Rialto, that Irving Berlin composed a musical hit of the same title. In conjunction with the production, the management will present a first run two reel comedy. This evening's prices are ten and twenty cents with war tax.

**NO WINE FOR NEW BOAT.**  
Boothbay Harbor, Me., June 16.—Christened with spring water, the four-masted schooner Bradford E. Jones, the largest vessel ever built in Lincoln County, was launched here. The sponsor was Miss Katherine P. Jones, of Brockton, Mass., daughter of the man for whom the schooner is named.

**SHE'S SHERIFF NOW.**  
Lexington, Mo., June 16.—Mrs. Minnie Talbott, of this city, is the first woman sheriff elected to office in Missouri. She is the widow of Sheriff John Talbott, murdered May 4 by automobile thieves. She was elected at a special election by a large majority.

**MISSED THEIR A. M. TOOT.**  
Havana, Ill., June 16.—Closing down a large factory here and the subsequent discontinuance of the morning whistle calling the workmen to their labor interfered so much in the daily routine of the villagers they petitioned another concern to blow its whistle at the same time so that the citizens could get up in time in the morning.

### HOME SERVICE RALLY TO OPEN BIG DRIVE FOR SALVATION ARMY

In High School Assembly  
Hall at Eight o'clock  
Tomorrow.

### SEND OUT 6,000 LETTERS

Campaign Will Be Made Through  
Mails—Soldiers and Sailors to  
Join Parade Saturday.

Tomorrow at 8 p. m. the Salvation Army drive will open with a big Home Service Rally in the High School assembly hall. As the time draws near Manchester is showing evidence of intense interest in the success of this drive. Many manufacturing and business concerns have gladly donated space in the newspapers for the purpose of keeping the public informed as to the progress of the drive. The soldiers and sailors have voted to turn out in a body next Saturday evening and parade with the Salvation Army on Main street.

Over 6,000 letters will be mailed tomorrow morning calling upon the citizens of Manchester to contribute to this most worthy cause. The moneys received through the mail will enable the Salvation Army to carry on its Home Service work on a greater scale and with better results than ever before. They are efficient, economical, hard-working and practical, with nothing sectarian about their work. What they have been doing in their Home Service work in times of peace is right in line with what they did in France.

The Salvation Army worker knows only one terrific driving force—the force within, conscience; and only one law, the law of the helping hand. The Army has gained a reputation abroad for the sort of humanity that knows no danger and that recognizes no arbitrary dividing lines of creed, race or color.

The Salvation Army lassie with her sweet presence and her homely gift thrilled the soldier into a super-warrior, a man fighting for the women folk he loved and the simple things which for him spelled civilization. No wonder these men who have come back can not speak too highly of the Salvation Army and its workers. They have placed a new valuation on this army of unselfish workers and there can be no doubt but what this valuation of its work will be lasting.

The success of this drive will be a practical assertion of humanity's "Credo" that good must not perish from the earth.

### MAKE GOOD ON THIS PROMISE.

No truer statement than "all work and no play makes Jack a dull boy" ever was conceived. Conversely, all play and no work frequently makes Jack quite a bad boy and a poor citizen. The realization of a happy medium between the extremes of all work and all play, however, is very likely to make of Jack a fine boy who will work well and at the same time benefit by the proportion of play time that is his share.

Intensive study of the boy problem by leaders of the Boy Scout Movement has determined how much work and how much play is good for Jack; and also has shown how to make boy-work so attractive that it will seem like play. The result is all for good citizenship.

It is a safe prediction that the boys of the present generation who have had the benefit of boy scout training will, twenty years from now, as a result of this training, do their work with less effort than the present generation and with greater efficiency in the main.

There are in this country today, no doubt, millions of men who in their youth said that when they grew up they would do something to make it easier for boys to prepare themselves for earning a living and exercising the duties of citizenship. These men now have a great opportunity to make good on that promise. Help the Scouts of Manchester.

### 21 PAPER MILLS IN U. S.

At the present time there are 821 mills operated by 750 companies in the production of paper, employing over 100,000 men, with an annual payroll of \$125,000,000. Production equalled about 5,860,000 tons in 1917 with a market value around \$750,000,000. Capital invested in the paper industries of the United States approximates the value of the products, about \$709,000,000. The industry as a whole has a very promising outlook for large and profitable business.

### Wapping

A few members of the local Boy Scouts went on an overnight hike to Bolton Saturday afternoon where they had a very enjoyable time.

A lawn party was held at the former home of Mr. and Mrs. Albert Beebe Saturday evening and was largely attended by their many friends and relatives. Refreshments and ice cream were served and there were many odd but pretty dances held on the lawn.

Talcott Brothers are having a new floor laid in Talcott Hall. Work was begun Monday morning.

The Talcottville Fife and Drum Corps are giving a barn dance at William McCorrison's Saturday evening. Tickets will be for sale by members of the drum corps. Ice cream and soda will be for sale.

### BOLTON

Childrop's Day was observed in the Congregational Church last Sunday. The church was prettily trimmed with flowers, ferns and flags. There was special music by the choir, a solo by Miss Helen Jones and exercises by the children. Mr. and Mrs. R. Kneeland Jones' small son was baptized. The program by the children was as follows: Interpersed with music by the choir, recitation by Lizzie Belg; recitation "The Rock and the Rose" by Winifred Lee and Frank Abbott; recitation, Jeanette Sumner; recitation, Louis Phelps; solo and recitation by Ruth Jones; recitation "Who is Thy Neighbor"; Joseph Matheis and Donald Massey; recitation, Eleanor Hutchinson; solo, Winifred Lee.

The graduating exercises of the Bolton schools were held in the Bolton Hall last Friday evening, the hall was prettily trimmed with flowers and foliage. The class colors were red and white, the class flower was the rose, and the motto, "Perseverance". The program was as follows: "The Dance" combined chorus; prayer, Rev. F. K. Abbott; recitation, "Fall of D'Assas", Ernest Boero; essay, Edgar Allen Poe, Miss Charlotte Reichard; recitation, "Character of Napoleon", Miss Annette Muzzio; "All Thro' the Night", combined chorus; recitation, "A Leak in the Bike", Miss Josephine Sillano; essay, "Life of Roosevelt", Clifford C. Griswold; recitation, "The New Church Organ", Miss Ida Ponticelli; "Gypsy Birthdays", girls chorus; essay, "Roosevelt as a Bird Lover", Henry Massey; recitation, "Toussaint Louverture", Frank Bausola; recitation, "The Height of the Ridiculous", William Ruebin; "The Red Scare", combined chorus; essay, "National Songs", Miss Anna Saseili; presentation of diplomas by Supervisor L. C. Staples, "America", all. The ten graduates were the only ones who took part in the program aside from the singing. The pupils did themselves and the teachers much credit.

Misses Eva Jones and Helen Jones of Hartford spent Sunday with their brother and wife Mr. and Mrs. R. Kneeland Jones.

Mr. and Mrs. John Ward of Hartford were week end visitors of the latter's sister Mrs. John H. Massey. Mr. and Mrs. Dennison H. Loomis and son Donald of Westfield, Mass., were guests Sunday of Mr. Loomis' parents Mr. and Mrs. William H. Loomis.

H. Douglas Fryer who is in France with the American Red Cross expects to return home September 1st.

### WOMAN SUFFRAGE WINS IN N. Y. LEGISLATURE

Special Session Ratifies Measure  
Without Negative Vote—Sixth  
State to Do So.

Meeting at the call of Governor Smith the legislature of New York state has adopted a concurrent resolution ratifying the Federal woman suffrage amendment without a single negative vote. The action of both Assembly and Senate was unanimous.

### COMPLETING AUSTRIAN TREATY

Paris, June 17.—With the German treaty disposed of, the council of five met this afternoon to complete the economic clauses in the Austrian treaty. Baron Sonnino, Italian foreign minister, replaced Premier Orlando at this afternoon's sitting. The Big Five hopes to complete the missing sections of the Austrian treaty before President Wilson leaves for Brussels tomorrow night.

### Baby Strollers

We have just received our fall supply of **BABY STROLLERS**. They are built as strong and comfortable as the carriages but are much easier to push and of course much more reasonable in price. They come in all colors, with reed, or leather hoods, or without any hood. Adjustable back and dash so that when baby goes to sleep while out riding she will not be in danger of breaking her little neck.

**The Largest Assortment To Choose From In Manchester**

See our window display and then come in and see how reasonable they are priced.

**If It's For The Baby We Have It**

Bassinets, Cradles, Cribbs, High Chairs, Nursery Chairs, Baby Walkers, Rockers, Wagons, Safety Straps, etc.

**Our Sewing Machine Club is "Still Open"**

\$12.00 allowed for your old machine no matter what condition it is in or how old it is. \$1.00 down, balance weekly or monthly.

WE HELP MAKE HOMES ATTRACTIVE

#### LIGHTNING PLANE HAS 180-MILE-AN-HOUR SPEED.

London, June 16.—The first "lightning plane" has been delivered. These are the machines General Seely, the head of the air force, referred to when he announced a new type of plane as being "beyond imagination." In tabloid form this is the "lightning plane":

Three hundred and twenty horsepower A. B. C. radical engine, speed of 180 miles an hour near the ground. Can climb to 20,000 feet in twenty minutes and there maintain a speed of 130 miles an hour. Has fire-proof tank, two machine guns and racks for 20 one-pound bombs.

#### PAUL STRANGE BACK.

Word has been received of the arrival in this country of Private Paul Strange, who has been serving in France in the 215th Ammunition Train of the Field Ordnance Department.

#### GIRL SLEEPS 14 WEEKS.

Mobile, Ala., June 16.—Katie Rose, fourteen has been asleep at intervals for fourteen weeks in Mobile. Her physicians are puzzled, declaring the ailment is not the sleeping sickness prevalent last year. She has slept for one week at a time.

#### UNCLE SAM PLAYS ROLE OF FOSTER FATHER NOW

Through Federal Board for Vocational Education He is Helping Wounded Boys.

Washington, June 17.—Just by way of illustrating what the Federal Board for Vocational Education is doing for our wounded boys, take this case which is one of thousands who are being helped to overcome their handicaps.

Away back early in the war one of the boys got a frightful wound in the leg and was carried to the hospital half crazy with the pain. After the other effects had passed, he was told that his right leg had been taken off just five inches below the hip. "Were they to let his mother know, or his father?" He shook his head. You see he didn't happen to have any father or mother. In fact, it developed that there wasn't a single soul that that boy knew who would be interested to make life worth while for him, after he got back to his town with a wooden leg and a shattered future.

There were lots of complications too. He had been so anxious to get an education that he had borrowed the money to go through high school, because he had hopes of entering the banking business later on. With no right leg and no money, it looked for a while as though there wasn't any heart either to go on and fight it out. But it was there, and the only thing needed to discover it was the exercise of a little intuition on the part of a Special Agent of the Federal Board for Vocational Education. These special agents are endowed with a kind of super sense. They know when a man has some possibility hidden away that even he himself doesn't know about. The possibility they found here was a good enough bet to stake a pretty fair sum of money on, and that is what the Board did.

He was sent after his discharge to a commercial school, and completed a course in commercial subjects. And then the possibility didn't seem to be at an end, for he was found to have made such good progress that he was given a collegiate course in banking and economics so that his field of activity could be considerably widened.

Sometimes, he says, he stops and

thinks of that first day when he wished so hard for somebody to care, and then of today when he is doing the one thing that he has always wanted to do, and hardly dared to hope for. This is just one out of the thousands of cases on file with the Federal Board.

#### CANADIANS IN RIOT.

London, June 16.—More than 20,000 Canadian troops, angered at delay in their repatriation, spent a riotous week-end at Whitley Camp, putting the torch to over a dozen shops, the garrison theaters and a Salvation Army hut. Later advices from the camp today indicated that the authorities have the rioting in check.

Labor trouble among dock workers at Liverpool is assigned as the reason for delay in sending the Canadians home.

#### LOWELL WALKS TO WORK.

Lowell, Mass., June 16.—Trolley service in this city was tied up today by 325 motormen and conductors who refused to run open cars. Conductors claimed that in using a new hand cash register they were left with the freedom of only one hand on the running board and were exposed to needless danger. The big textile mills were handicapped by the tardiness of operatives. Residents of nearby towns working in this city were compelled to either walk or use automobile service. A big circus showing on the outskirts of the city was hard hit.

#### BRIDE SHIP IN.

New York, June 16.—Sixty-four army and navy war brides arrived here today aboard the transport Plattsburg, which brought 2,231 officers and enlisted men. Two New England prize fighters, Ed Shevlin, who claims the welterweight championship of New England and Terry Martin, who believes he holds the bantam title for New England, returned on the Plattsburg.

#### USED MACHINE GUNS.

Copenhagen, June 16.—Austrian troops with machine guns broke up an attempt by Communist supporters to overthrow the present Austrian government and set up a soviet regime, said a dispatch from Vienna today. The communists attempted to storm the Vienna prisons and release political prisoners. A number were killed and wounded.

#### POLISH TROOPS BLOW UP BRIDGES ON THE BORDER

German Paper Says Government Will Fight Poles If They Invade Country.

Copenhagen, June 16.—Polish troops have blown up several bridges along the Polish-German border, including the important one between Breslau and Oppeln, according to an official announcement made in Berlin today.

Berlin passed a Sunday filled with suspense over peace matters. There were no newspapers published, and no news of any kind was communicated to the crowds which swarmed the streets.

The papers in Koenigsberg publish what purports to be an official announcement as follows:

"The population can rest assured that it can trust to the governor to adopt a peace which will abandon our eastern frontier. The government prepares resolutely to repel the Polish invasion."

#### THOUSANDS SEE MIRAGE.

Boston, June 16.—Ships sailing along in the sky, light houses upside down, cliffs mirrored topsy turvey 100 feet up in the air and other sea-board headlands climbing to the heavens were some of the striking sights that folks along the New England coast were trying to solve today. From 4 p. m. to sundown yesterday the most remarkable mirages that have ever been witnessed off this coast were watched in awe by thousands of men, women and children.

#### TAGORE, PORT, PAINTER, WANTS NO HONORS.

London, June 16.—Abanindra Nath Tagore, the Hindu painter and writer, who was recently knighted, today asked that he be relieved of his knighthood as a protest against British methods of repression in the Punjab disturbances.

"The time has come when badges of honor make one's shame glaring," wrote Tagore. "I wish to stand shorn by the side of my countrymen."

Japan has recently completed several large fishing craft and has others under way which are to work along the coast of Siberia. Catches in these waters amount to about \$5,000,000 a year.

Madeira Linens at  
Sale Prices  
Would Make Nice  
Wedding Gifts  
Come Early for Best Choice

Semi-annually, we offer our patrons choice of our complete lines of beautiful hand embroidered linens, very much under their regular retail prices. In anticipation of this summer event we have kept a close watch on the market, and have been successful in picking up some extraordinary bargains. So despite the fact that Madeira linens have materially advanced in the past few months, you will find some better values than we have been able to offer for some years.

Look at Lot Number One which comprises round D'oyles as well as oval ones handsewingly hand embroidered in round ones, 4 inch for 10c each; 5 inch for 12 1-2c each; 6 inch for 17c each; Oval Bread Tray size 21c each.

You'll find in Lot Two just think of it hand embroidered all Linen Scarfs in different sizes to match. 18x36 inch, 18x45, 18x54 inch, 18x72 inch worth \$3.50, \$4, \$4.50 and \$5.50 priced for this sale at \$2.00, \$2.39, \$2.75 and \$3.50 each. A choice gift chosen from this lot of scarfs.

Now for Lot Three which also gives choice of Scarfs sized 18x36 inch, 18x45 inch, 18x54 inch, 18x72 inch worth 4.50, \$5, \$6 and \$7.50, sale prices \$2.75, \$3.25, \$4 and \$5 each.

Lot Four consists of wonderfully fine Italian Cut work and embroidered Fllet Insert D'oyles. 6 inch size worth \$1.50 for 85c. The 10 inch size worth \$2.50 for \$1.85.

Here is Lot Five with a showing of handsome odd Scarfs in all sizes 18x36 inch, 18x45 inch, 18x54 inch, 18x72 inch, priced for this sale at just about half present day prices.

Don't Pass Lot Six which is composed of about 50 thirteen piece Lunch Sets, hand embroidered on pure linen. Their real worth is \$5.50, our June sale price \$3.95 set.

Lot Seven comes last, but by no means least with six 45 inch round lunch cloths, one pattern only (rose and bouquet) guaranteed all linen, and hand embroidered worth \$15 for only \$10.

Take particular notice that every piece of Madeira Worked Linen in our immense stock will be reduced in price for this big June sale. Do not let this opportunity get by you.

ABOUT TOWN

Judge Robert E. Carney is driving a late model Velle touring car. Mr. and Mrs. John F. Sullivan arrived home yesterday from their wedding trip.

Contractor William Knofta has the new factory for Patrick O'Leary on Summit street ready for the roof. The building is being built of brick. The Salvation Army corps will hold a rally at Depot Square this evening as a part of the advance program for the big drive which starts on Thursday.

A party of young people are arranging for an outing at Coventry Lake this Saturday. The trip will be made in Fitzgerald Brothers' express van.

It is expected that a number of Manchester boys who arrived at Camp Devens last week from overseas will arrive in town the middle of this week.

G. H. Waddell, treasurer of the Salvation Army drive in town is now receiving checks by every mail. This morning he received a large bunch of replies to the letters mailed out yesterday.

Will Animus, telegraph editor of the Herald staff, left this morning for Calicoon, N. Y., where he was called by the death of his sister, Mrs. P. J. Cade, who died on Sunday evening.

It is expected that the local Salvationists will easily go over the top in their drive for funds which starts on Thursday. Many prominent lodges and social orders about town have already voted donations.

Mrs. Ralph Judd of Cambridge street underwent an operation for appendicitis at the Hartford hospital this morning. She has had several attacks of the trouble and it was decided that an operation was the only cure.

Henry Gess has begun the erection of a cottage house on Henry street on the lot just east of the new house that is being built by William Knofta. Mr. Gess will live in the house. Contractor William Knofta is doing the work.

A home service rally will be held in Assembly Hall tomorrow evening by the local Salvation Army corps. There will be no admission charged and an attractive program will be presented in conjunction with the rally.

Dr. George W. May expects to leave Thursday for St. Georges, Newfoundland, where he will spend the next few weeks fishing. While there he expects to meet Dr. Tinker, who is already at that place with a Hartford party.

The Athletic management is negotiating with the local White Sox club for a baseball game to be played at the Mount Nebo grounds on Saturday afternoon. The game, if arranged, will be played for the benefit of the Salvation Army drive.

Henry Campbell, brother of Captain of Police William R. Campbell has arrived from overseas service and is now stationed at Camp Devens awaiting his honorable discharge. Campbell was a member of the 21st Engineers and has been overseas for about 10 months.

Extensive preparations are being made for the big festival which will be held on the lawn in front of St. James R. C. church at the South End tomorrow evening. It is estimated that over 1,500 tickets have been sold for this event and a record breaking turn-out is anticipated. The proceeds will go toward the fund for the parochial school.

W. L. Buckland who bought the large sheds, garage, and office building of the Harry F. Hills Lumber Co., at the time the business was closed out, is now busy taking them down and plans to store the lumber for future use. Recently G. E. Willis, the coal man, bought the Loomis property on which the buildings were standing and Mr. Buckland had to move the buildings or take them down. He has a number of building lots in different parts of the town and he intends to erect several houses in the near future.

One argument in favor of centering the trolley tracks on Main street at the south end is that there is not enough curbstone to go around. The town by-law provides that autoists must back their machines against the curb. At the same time bicyclists use the curb as a resting place for their wheels. Between the two it is often hard to find a vacant place and not infrequently the automobile driver unwittingly backs his car against a bicycle and breaks it. With available curbstone on both sides of the street the congestion would be relieved.

June White Sales

Continues all this week. You should take advantage of this opportunity

White Materials For Summer Wear

In our large assortment of White Goods you are sure to find the particular material which you have in mind. The following are a few suggestions:

HOME FROM COLLEGE.

Students Returning From Many Educational Institutions This Month.

The middle of June begins to see the homecoming of the college students. Among those who have arrived home are: Elizabeth Norton, daughter of Mr. and Mrs. F. H. Norton, of Main street, who is a student of the Boston University. It is her third year at the college. Charles Strant, son of Mr. and Mrs. Walter A. Strant, also of Main street, is home from the Tufts Dental college at Boston. It is his first year there. The year at the Connecticut Agricultural college at Storrs, closes this week and a number of the students are expected home soon. Lincoln L. Crosby, son of Mr. and Mrs. E. H. Crosby, is the only Manchester student, who is a member of the graduating class. He finished his four year course in agriculture and plans to return to the college for the summer. Other students from Manchester who attend this college are Robert Hughes, Howard Carrier and Miss Merle Tuttle.

MEN'S CLUB MEETS TONIGHT.

The Men's Club of the North Methodist church will hold its monthly meeting in the church vestry this evening. Beside the regular business to be disposed of the club will listen to an address by Rev. H. V. Ross of Hartford who will speak on "The Last Epoch." Following the meeting the club will enjoy a social hour with refreshments. This will be the last meeting of the club until September.

READ—IT'S FOR YOU

Yes, we appreciate your business, and that is why we are giving you the special low prices on all glasses fitted in our South Manchester office. Some people wonder how we can do it. It is simple. We do not depend on this office alone. As we fit more glasses in our Hartford office in one week than is sold in the entire town of Manchester in a month. But we want to increase our business in Manchester, and we are doing it. Are you with us? Do you want to save money on your glasses and at the same time get the best at a reasonable price? If so see us any night.

Office Open Every Night Except Saturday from 6:30 to 8:30 P. M.

PHELPS-MILBURN. Announcement is made of the marriage of Miss Lucy M. Phelps daughter of Mr. and Mrs. John New Phelps of Westchester to Harry Milburn of Bolton. The wedding took place June 14.

Miss Phelps is well known in Bolton, having been a teacher at the Belknap school there. She resigned this position at the end of the winter term and at that time a shower was given in her honor by her many friends in Bolton.

Mr. Milburn is now a telegraph operator at Columbia station and makes his home in Williamsville and Mrs. Milburn will reside in that town.

Mrs. Fred W. Garryne and two children of Lilley street left yesterday for an extended visit with relatives in Sag Harbor, L. I.
