House Committee Rejects Wine and Beer Release

Washington, June 21.—President Wilson's recommendation that war time restrictions on the manufacture of alcoholic beverages be removed insofar as they apply to wines and beer again was rejected today by the House Judiciary Committee, by a vote of 12 to 5.

It is understood that those voting in favor of wine and beer were Gard, Ohio; Classen, Wisconsin; Igoe and Dyer, Missouri; and Steele, Pennsylvania.

A decision vote was forced by Gard, who presented an amendment to the prohibition enforcement bill now being framed by the commission excluding wines and beer.

GEN. LEONARD WOOD SPEAKS AT WESLEYAN

American Principals Upheld and Red Flag Condemned.

IT FLOATS ONLY WHERE COWARDS ARE IN POWER

Class Paraders Show Unique Costumes—Glee Club Concert Tonight.

Middletown, June 21.—With Major General Leonard Wood as the guest of honor Wesleyan's 89th annual commencement opened this morning with the class day exercises on the campus. All of the ten men on the class day program have been in the service, but returned in time to complete their course at Wesleyan.

This afternoon was given over entirely to the alumni, opening with the victory rally in Memorial Chapel, at which General Wood was the chief speaker. General Wood urged the building up of a sound national spirit, an intense spirit of Americanism. All must aid in completing the work of fusing into one homogenous mass of Americans the various elements which make up our population.

We want a spirit which will stand for international fair dealing and a willingness to help in world crisis, such as that through which we are now going. Friendly relations must be maintained between labor and capital. We do not wish an autocracy of either capital or labor. A spirit of co-operation and helpfulness will make it impossible for the forces of disorder to show themselves here.

Put down the red flag, he said. It is against the integrity of the family, the state, the nation. It floats only where cowards are in power and where Democracy has been replaced by mob rule.

These are times of dangerous world psychology and it is time now to keep our feet on the ground, our ideals high and our eyes on God. General Wood urged better pay and a more careful selection of the public school teachers and likewise urged the establishment of a sound system of national preparedness. Arbitration will be far more successful, he said, if we are not only right but also have strength.

Following the rally the twenty or more reunion classes including the veteran class of 1869 which is celebrating its sixtieth reunion, held the annual alumni parade. The younger classes were all attired in costumes, the members of 1913 being dressed as bartenders. Tonight's events include the reunion banquets and the glee club concert.

POSES AS HERO

WITH STOLEN MEDAL.

Boston, June 21.—The French Croix de Guerre worn by "Captain" George T. Murphy, second lieutenant in the army aviation corps, who was arrested charged with passing worthless checks, was stolen by the bogus captain from the mother of a Boston aviator who lost his life in the war, according to army intelligence officers who are investigating his activities.

Pending the arrival of officers from Long Beach California, where he is to face trial on a charge of passing worthless checks totaling \$1,500, Murphy is held at the Cambridge jail.

TO ENCOURAGE HOME BUILDING BY LOANS

Bills in Both Houses to Increase Lending Capacity of Building & Loan Associations.

Washington, June 21.—With the United States short nearly a million homes, bills were pending today in the Senate and House, having for their purpose a plan to make more liquid the assets of the building and loan associations of the country that their money may be loaned more freely to home builders. The department of labor, which is behind the plan has prepared a federal building loan bill which was presented to the House by Representative Nolan of California. This bill has the endorsement of the United States League of Building and Loan Associations. Under it the government is required to supervise, but not to supply any capital or to purchase any bonds. The President on the recommendation of the Secretary of Treasury, is to appoint a superintendent of federal building loan banks.

The United States would be divided into eleven districts. Ten or more building associations, with combined assets of at least \$5,000,000 may combine to organize the federal building loan bank of the district, each bank to have a minimum capital stock of \$100,000. The banks will be governed by a board of directors elected by the member associations. When a member building association has applications for loan in excess of its available funds it may obtain additional funds by filing with the district bank mortgages which cover it. Against these mortgages the bank may issue bonds up to 80 per cent of their value.

The borrowing association will repay the funds borrowed in annual payments, which may run as long as 20 years, paying interest at the rate of bonds, but not exceeding 4 1/2 per cent and a commission not exceeding half of one per cent per annum.

VILLA SNUBBED BY AMERICAN COMMANDER.

El Paso, Texas, June 21.—Venustiano Carranza, not Pascho Villa, is a president of Mexico, and General James B. Erwin, commanding the El Paso district, accordingly will have nothing further to do with any one in arms against the recognized Mexican government.

This is the key note of the answer which is on its way today to General Felipe Angeles, Villa commander, in a reply to Angeles' request for explanation as to why the United States troops drove Villistas out of Juarez last Monday.

The reply was handed to the Villista courier who brought General Angeles' note to General Erwin.

General Angeles' letter called General Erwin's attention to alleged precautions taken by the Villistas to avoid firing on American soil and asserted that the Villistas had so directed their fire that the bullets would fly parallel to the line rather than across it.

CAR DEMURRAGE.

Washington, June 21.—Reduction of existing demurrage charges, effective July 20 to \$2 per car per day for the first four days following the expiration of 48 hours free time, and to \$5 per day thereafter, was announced by Railway Director Hines today. The present rates are \$3 a day for the first four days, \$6 for the next three and \$10 thereafter.

In announcing the reduction Director Hines stated that unless there was a prompt loading and unloading of shipments under the new rates he would be compelled to increase them again.

BRASS CITY STRIKERS STILL AWAY FROM WORK

Ten Additions to Their Demands—Employers Will Not Consider Yielding.

Waterbury, June 21.—Although officials now believe the strike situation to be under control, nevertheless, martial vigilance is not being relaxed a bit here. This morning local companies of the State Guard were ordered out to relieve the police reserves and city guardsmen who have been on duty since Thursday night. The state guardsmen were equipped with machine and riot guns. One detachment was ordered on guard duty to the north end of the city, where the police are afraid additional trouble may develop unless armed means are taken to prevent it.

The Brooklyn district is still well policed and guns are in position for any emergency. Recognition of the union of "Waterbury workers," the discharge of employees who did not join the strike and compensation for time lost are now among the latest demands of the strikers. These were drawn up at a meeting which was held last night and attended by many strikers. There are ten additions to the original demands and they are of such a nature it is expected that the manufacturers will not consider yielding to them.

Policeman's Condition Critical. The condition of Patrolman John Moore, who was beaten over the head in Thursday night's riots, is still most critical at St. Mary's hospital.

NORThLAND WRECKED ON RHODE ISLAND COAST

Struck Rocks in Thick Fog—Passengers Rescued by New Bedford Tugs.

Buzzard's Bay, Mass., June 21.—Lives of several hundred passengers were in peril when the steamer Northland, bound from New York for Boston, ran ashore today on West Island about ten miles from the Buzzard's Bay entrance to the Cape Cod canal. Tugs were summoned and transferred the passengers from the stranded steamship to New Bedford.

The Northland, an Eastern Steamship Company boat, lay in a precarious position on the rocky shores of West Island. It was for Buzzard's Bay that the steamer was headed when she lost her way in the thick weather and crashed into the rocks.

Only the slow speed made necessary by the fog saved the steamer and passengers from disaster, for the point on which the Northland ran is particularly dangerous. The Northland carried freight as well as passengers. Five years ago this month the steamer went ashore with seventy-five passengers on Bartlett's Reef while on her way from Portland to New York.

The vessel's bottom was badly punctured and the two middle holds, Nos. 2 and No. 3, were flooded. According to officials, there is no immediate prospect of the steamship being floated.

Owing to the fog the Northland was proceeding with extreme caution with the aid of a lead line. The crash occurred while the line still showed ample depth, a fact which shows the precipitous nature of the shore at that point.

FLYERS GET THEIR REWARD.

Alcock and Brown Get \$10,000 and Decorations.

London, June 21.—Capt. John Alcock and Lieut. Arthur W. Brown, who made the first nonstop transatlantic flight, were entertained at a luncheon here by the Daily Mail, at which they were presented with the prize of \$10,000 offered by the newspaper. Harry G. Hawker and Lieut. Comdr. Grievs, who failed in their attempt at a nonstop flight across the Atlantic, and many government officials were present.

It was announced later that King George had conferred the order of knight of the British empire on both Capt. Alcock and Lieut. Brown.

TO BRING ICE FACTS BEFORE PEOPLE HERE AT MEETING TUESDAY

Public Hearing is Ordered by the Selectmen June 24.

TOWN EMPLOYEES GET ADVANCE IN SALARY

Week is Cut to 50 Hours—Board Takes No Action on Building Line Controversy.

The ice question and an increase in wages for town employees were the principal subjects of discussion at a special meeting of the town fathers held at the Hall of Records last evening.

On Tuesday evening, June 24th, a public hearing will be held at the Town Hall for the purpose of giving the voters of the town an opportunity to acquaint themselves with the data and other information obtained by the committee appointed for the purpose of investigating ice conditions in Manchester.

This meeting will not be confined to the voters alone but is open to all interested parties, men and women. The local ice men will be asked to come. Herbert McCormick, a Manchester man who has been working on the Hartford investigations, will also be invited to attend and give his view of the situation.

"Pretty rotten," says Rogers. "Revelations to be disclosed at this meeting on Tuesday evening," said Representative Willard B. Rogers at the meeting of the board last evening, "will be on a par with investigations disclosed at some of the sessions conducted in other cities and towns in Connecticut." Mr. Rogers characterized local conditions as being "pretty rotten."

"I object," continued the selectman, "to one man charging a price fixed on the basis of what he would pay if he had to import his ice." This means that the present price charged for this commodity was figured on an importation basis. "And this dealer has not started to import ice. In fact he still has 200 tons of ice in his ice house."

It was intimated that an agreement had been effected between two local dealers at the start of the summer season. There is, according to information disclosed last evening, a state law against profiteering on ice. This law is set forth in Section 6503 of the revised statutes of the state. The penalty is \$1,000 or 5 years imprisonment or both. It was stated that if an agreement could not be effected that the Town of Manchester could get all the ice it wanted. The latter statement was attributed to one of the biggest ice men in New England.

More Pay and Shorter Hours. At the conclusion of this discussion the Highway Committee presented a report in conjunction with a recommendation that highway employees be granted an increase in wages to meet the present high cost of living. They also recommended in addition that the employees of this department receive Saturday afternoon off and that the weekly schedule of 84 working hours be cut down to 80 hours per week. This recommendation was unanimously approved.

Teamsters who have been working 54 hours per week at the rate of 38 1/2 cents per hour will now receive 48 cents per hour. They have been receiving \$20.79 per week of 54 working hours. They will now get \$28 for working 50 hours. Laborers who have been receiving 37 1/2 cents per hour will now receive 43 cents per hour. They will work 50 hours per week instead of 54, receiving \$21.50 per week. This schedule of pay is retroactive from June 14th and the men received their first Saturday afternoon off today.

Other employees of the town were granted an increase of 25 per cent in their monthly weekly or hourly wages. Janitor Hettich's salary is increased from \$68 to \$72.50 per month. Town Treasurer Wadsworth's monthly salary is increased from \$125 to \$137.50. Engineer Bowen's monthly salary is increased from \$165 to \$175.50. S. S. Smith, who

(Continued on Page 3.)

PROMISE OF GERMANY'S SIGNING INCREASING AS BARRIERS FALL

REPUBLICAN SENATORS BEGINNING TO HEDGE ON LEAGUE OF NATIONS

Knox Resolution Said to Be Losing Supporters.

MEET AT LODGE'S OFFICE TO SMOOTH DIFFERENCES

If Treaty is Signed Knox Resolution May Never Be Called Up—Has Served Its Purpose is Claim.

Washington, June 21.—A conference of Republican Senators was to be held in Senator Lodge's office at the capitol today for the purpose, it was stated, of bringing about an agreement as to the future course to be pursued by the Republican side in the Senate with regard to the peace treaty and the league of nations covenant incorporated in it.

Senator Lodge, majority leader and chairman of the Foreign Relations Committee, was to preside over the gathering. Upon him would devolve largely, it was said, the task of smoothing out the differences of opinion which have arisen among the Republican Senators with respect to the Knox resolution providing for the conclusion of peace first and the consideration of the League afterward.

It was declared by some Republican Senators that if harmony was to be restored by further amending the Knox measure that would be done, although there was a marked disposition not to press the resolution to a test vote unless the Republican majority in the Senate was certain to be almost solidly arrayed in support of it. It was an open secret, it was added, that the number of Republican Senators in favor of the resolution had diminished during the past few days to an extent that had deterred Senator Knox from seeking to call the measure up. More than one Senator on the Republican side admitted that the resolution, except in a modified form, might not be called up at all, especially as the Germans had signified their intention of signing the peace treaty.

It was further stated that the Knox resolution had its desired purpose, that of serving notice on the peace commission that a large proportion of the Senate was opposed to the League covenant as "heavily caviar" with the peace treaty in its present form, and that the Republican leaders of the Senate would not agree to the ratification of the document without amendment.

Whether the resolution ever came to a vote or not, did not matter so much, it was added; it had virtually the same effect as though Republican anti-League Senators had signed another "round robin."

There was also talk among the Republican Senators today of concentrating their opposition to the League covenant on those provisions of the covenant which they described as more un-American than others; the disposition of the Monroe Doctrine, which Senator Knox recently described as a perversion and a monstrosity and as "signeless pacifism"; the widely discussed Article 10 of the covenant which has been repeatedly attacked by anti-League Senators; and such questions as immigration and the tariff which they regarded as essentially domestic ones with which the American people alone should deal.

ORLANDO'S SUCCESSOR

London, June 21.—Francisco Nitti, former minister of Finance, is expected to succeed Orlando as Italian Premier, according to a Rome dispatch to the Daily Express today. Premier Orlando's government is in office until the new ministry can be formed.

SPECIAL INVESTIGATOR TO DIG UP ICE FACTS

U. S. District Attorney Crosby Sends to Washington for Federal Agent—Work Will Take Time.

Hartford, June 21.—"Although there is apparently sufficient evidence to warrant indictments, I will make no formal announcement of the ice investigation until I am sure of my case," said United States District Attorney John F. Crosby today. Although the public has demanded a quick investigation of the case, it will be some time before the evidence can be collected, according to Mr. Crosby.

"However, you may state that I have written to the authorities in Washington requesting that a special investigator be sent to Hartford at once to take up the ice matter, and I will go to New Haven this afternoon to confer with Mayor Fitzgerald on the ice situation as it exists in New Haven," concluded Mr. Crosby.

BETTER THAN STRIKING.

Stamford, June 21.—Four thousand Yale and Towne company employees, by an overwhelming majority today ratified the constitution of a proposed industrial council which will give the employees equal representation with the management in settling matters that affect both. The plan becomes effective as soon as an election of council members is held.

SWIMMING MEET.

The inter-class swimming meet of the High School pupils at the "Red" swimming pool next Tuesday afternoon promises to be of much interest. There will be five events, including a four-man relay race of 120 yards, a 20 yards dash, a 60 yards swim and a 100 yard swim and a dive. Any high school pupils are eligible. The meet will begin at four o'clock. Messrs. Whiting, Olson and Weber will be the judges.

TRANSATLANTIC PLANES MAY CARRY FIFTY TONS.

Atlantic City, June 21.—Aeronautical experts here discussed the type of airplane necessary for passenger traffic between the United States and Europe. It was agreed that planes capable of a gross load of 100,000 pounds are possible. Such a machine would have to be three times as big as the navy's NC planes and four times as large as the Vickers Vimy which flew the ocean. Its gasoline consumption was estimated at a gallon to the mile. Capt. John Alcock's machine got four miles out of a gallon.

COMING MARRIAGE.

Mr. and Mrs. John McCabe of North Main street wish to announce the coming marriage of their daughter Elizabeth to Beverly Wright, son of Mr. and Mrs. W. H. Wright of East Center street. The ceremony will take place in St. Mary's Episcopal church and will be performed by the rector, Rev. James S. Neill, Tuesday, June 24th.

PARTY FOR MILLERS.

A very enjoyable party was held at home of Mrs. A. Hall on Madison street last evening. It was given in honor of Mr. and Mrs. Henry Miller who were recently married. They were presented with some valuable presents by their shop mates. Songs were sung by Miss Edith Dwyer and Joseph Durkin. After refreshments, games were played until a late hour.

NEW YORK TANKING UP BEFORE DRY SPELL COMES.

New York, June 20.—Never in the drinking history of New York which extends back to the 17th century did the city get so drunk as it did today. The city is tanning up before a dry spell comes. The city is tanning up before a dry spell comes. The city is tanning up before a dry spell comes.

Defiant Note of Scheidemann Recalled—Majority Socialists Vote to Sign—Forming New Cabinet—Bernstorff for Foreign Minister—Opposition to Treaty Gradually Ceasing.

Copenhagen, June 21.—The negotiations going on at Weimar in an effort to form a new cabinet that would sign the peace treaty were brought to a halt at two o'clock this morning, according to dispatches reaching here. It was learned at the hour that Philip Scheidemann, who had resigned as Chancellor, had sent a note to Versailles for delivery to allies, refusing to acknowledge Germany's responsibility for starting the war and refusing to accept the allies' settlement of Polish situation.

The majority socialists objected to this communication. Instructions were sent to the German delegation at Versailles to hold up Scheidemann's note and not to present it to the Allies. The majority socialists objected to this communication. Instructions were sent to the German delegation at Versailles to hold up Scheidemann's note and not to present it to the Allies.

MAJORITY SOCIALISTS VOTE TO SIGN TREATY.

Paris, June 21.—The Majority Socialists at Weimar have voted overwhelmingly in favor of signing the peace terms, according to advices reaching Paris today from Germany.

The party also went on record as favoring Dr. Mueller to head the new government and the retention of Noske as Minister of War.

The majority socialists control 164 votes out of a total of 421 in the National Assembly.

To Form New Cabinet.

Copenhagen, June 21.—President Ebert has requested Dr. Mueller, leader of the Majority Socialists, to form a new cabinet to succeed the Scheidemann Ministry, according to the Berlin Vossische Zeitung.

In addition to his party duties, Dr. Mueller is at present under secretary of the war food bureau and is known to be in favor with the independence.

Ask More Time.

The Politiken's war correspondent telegraphs today that it is considered certain there that the present governmental crisis cannot be straightened out before Monday. It is supposed that the Germans will ask the allies for an extension of the time allotted and if the allies agree the national assembly will decide the fate of the treaty on Tuesday.

Bernstorff Foreign Minister.

London, June 21.—While the makeup of the new German cabinet is uncertain, said a Reuters dispatch from Berlin today, it is considered likely that Dr. Eduard Bernstorff will be selected as Premier, succeeding Scheidemann. Count Bernstorff, former ambassador to the United States, is stated to be a minister and Dr. Bernstorff Minister of Justice.

Admission to League.

London, June 21.—Central News dispatch from Weimar today says the German Democratic party has voted almost unanimously to sign the peace treaty providing that Germany will be admitted to the League of Nations soon and that the allies will not extradite any Germans.

People's Party Oppose.

American, June 21.—The German people's party and the national people's party have issued a declaration that acceptance of the peace terms would be a national disgrace, according to the Berlin Vossische Zeitung. The Ministry at Berlin is reported to have issued a statement that it would not accept a government that would issue such a declaration.

DEMPSEY'S MANAGER THROWS SCORN IN BIG DOSES AT JESS WILLARD

Says Isn't and Never Was Real Fighter—Dempsey Will Have Him on the Run in First Round—Dempsey's Hitting Power Exceeds—His Tactics.

Toledo, O., June 20.—"The surest bet in the world is Jack Dempsey to whip the over-rated giant on July 4," declared Jack Kearns, manager of the Utah mauler today. "I look for a knockout, but if Jack doesn't turn the trick and the fight goes the limit, you'll find at the end the most crumpled-up, battered and smashed ex-champion in the entire history of pugilism."

"Willard isn't a real fighter—and he never was. He never whipped a good man in his whole life—and a lot of third rate performers gave him some awful pastings. Willard would have been in the pugilistic scrap heap long ago if fortune hadn't been kind to him and give him a crack at Jack Johnson, when the man was so far gone that a middleweight could have knocked his block off in a few rounds."

"This wonderful Willard has been accusing me of going over to his camp to watch him in his workouts to see what he's got. Say, I don't need to do that. I've seen him in four fights and of all the false alarms that ever happened he is it. Charlie Miller, a joke performer that Dempsey put to sleep with one punch, chased Willard all around the ring in Frisco—and at a time when Willard was a whole lot younger and was supposed to be a more aggressive fighter than now. "Can't hurt Willard, eh? Well, perhaps that's right. You can't hurt a man that you can't catch. I saw Gunboat Smith pop Willard on the chin out on the coast and Willard spun all the way around. Did that punch make him fight? Did it bring out his fighting spirit? Not so

you could notice it. All Willard did afterward was to use his leg to get out of the way of Smith. That's the sort of fighter that some writers are trying to bunk people into believing is going to whip Jack Dempsey. Oh fudge! I'll tell the world right now that before the first round is over Dempsey will have hit Willard so hard and so fast that if the great giant isn't stretched on the floor, he'll be doing the fastest marathon around the ring that anybody ever looked at. "Some folks who are espousing the cause of the Willard insist that Dempsey hasn't got a defense. They're wrong, dead wrong. Jack Dempsey's defense today is the greatest defense that was ever shown in a prize ring. His style of going in, at his man, his head down and bobbing from side to side and his ceaseless shifting makes him an almost un-hittable target. No man ever has been able to fathom that style—and certainly Willard won't prove the exception. It's a joke to say that Willard is too big for Dempsey to drop. Hitting power is carried in the hands, wrists and forearms. And Dempsey's forearm is bigger than Willard's leg. He's got the lower arms of a 300 pound giant and Willard will realize that the first time that Dempsey's punch lands. I've always contended that Jess Willard hasn't the gameness to take a beating and still fight on and this fight is going to prove it beyond a question of a doubt. "No secret plan of battle has been decided upon for Dempsey. To relieve Willard's mind, I'll tell him right now that Jack is going to fight him like he has fought every other man. He's going to tear into Willard with the bang of the first gong and he's going to continue to tear into him unless he has dropped him for a long, long count or until he has cut him into shreds. "And you can stake your life on it that Dempsey will win and that, when it's all over, the entire sporting world will agree with my sentiments now—that Willard is the poorest excuse for a champion in the ring game ever knew."

YALE WINS BIG RACE

Varsity Contest Rowed at Sandwich. Had Close Finish—Yale Had More Endurance.

After losing the freshman and junior boat races to Harvard yesterday the Yale Varsity crew turned the tables last night by defeating Harvard in the four-mile varsity event by a scant two lengths of open water after one of the bitterest aquatic struggles ever staged on this historic waterway. More than a mile and a half the two knife-like racing craft paced side by side under the propulsion of the powerful strokes of the oarsmen and so close were they aligned that the official timers couldn't detect a fraction of a second difference at the various half-mile flags. It was not until the two-mile posts were reached that the blue blades could drive the bow of their shell, even a few feet ahead of that of the crimson but once this advantage was gained the Harvard crew, rowing with dogged determination and gameness seldom seen in such four-mile races, was unable to creep back into a tie, let alone shove their bow into the lead. The Cambridge crew made a desperate attempt to turn defeat into victory half a mile from the finish and for a moment picked up a trifle of the distance but Yale answered with a spurt which slowly drew them away as the crimson oarsmen, exhausted by their efforts rolled on their slides and slowly lost headway with the finish posts almost within their reach. Start Was Late. It was close to 8 o'clock when the crews were ordered to the line by the referee and already the long shadows of the west bank of the Thames were being cast toward mid-river. At the flash of the starting pistol Harvard caught the water first and leaped into a slight lead, but before a quarter mile had been rowed the shells were aligned, not to be separated until near the two-mile mark. Yale started with a 34 stroke and Harvard was two beats lower. Setting down for the long grind, the rival crews stroked dropped their beats to the neighborhood of 30, and this was maintained until close to the finish, when both eights raised the strokes, Yale finishing at 34 and Harvard 32. At the three-mile flag, Yale had fully a half-shell length lead, but when Harvard spurred this was cut down temporarily to a few feet, but the rain coming at the end of such a driving race was too great for the crimson crew to sustain and in the final quarter-mile the signs of exhaustion were plainly visible from the observation trains. The Harvard stroke was rolling on his slide, and bow. Nos. 2, 3 and 4 were plainly in distress. In the Yale shell No. 6 was wabbling and went down as the craft drifted under the railroad bridge at the finish, but he as well as the wiled Harvard oarsmen were quickly revived when their stronger crew mates doused them with water. Within less than two minutes the victors and vanquished were lustily exchanging variety yells in customary fashion, while from shore and trains the sharp bark of the Yale cheering legions drowned out the more sedate and measured chorus of the Harvard cohorts, proud of the gameness and courage of their defeated but not disheartened oarsmen. The official time of the race was: Yale, 21.42 1-5; Harvard, 21.47 2-5.

Circle Theater

Have you forgotten how to laugh? How to cry? How to love? Then experience some of the emotions with whimsy from one who will be seen at the Circle this evening in a brilliant and happy Metro comedy-drama, "The Parisian Tigress."

Grizette! Apaches! Latin Quarter! Oh Gay Paris! Vivid words which breathe of romance and intrigue! Here is a screen play which will dip to you all the mystery of the underworld of Paris. It is a story which gives Miss Dana full scope for her winking personality and dramatic talents. It tells the story of Jeanne, a child of the gutter, who after a series of humorous and dramatic complications finds happiness. "The Parisian Tigress" combines a play of human appeal—gripping in its intensity, delightful in its romance—a vibrant story of untamed emotions, a star whose smile brings warmth and sunshine, and a delightful trip into the heart of Paris. On the same program will be presented, a Big V. Comedy that is just one laugh after another. The Pathe News with its animated scenes of events of world-wide importance and an episode of "The Tiger's Trail" that will furnish enough thrills for a seven reel feature. Tomorrow evening, the management will present a special Vitagraph production, "The Wishing Man" with Bessie Love! This picture was adapted from the widely read book of the same name by Margaret Widdemer. It tells the story of how a little girl's dreams of love at first sight are realized through her wishing ring man. Other high class screen attractions are also included in the Sunday evening bill. On Monday and Tuesday comes the screen's greatest delineator of Western characters, Tom Mix, in William Fox's super-picture of western frontier days, "Hell Roarin' Reform."

Park Theater

An extra-ordinary feature at an ordinary admission price. This is what the Park management says of "Fair Enough," the Pathe Blue Ribbon special which will be presented at this theater this evening in addition to a program of all star attractions. Margarita Fisher is the star of the play and her name alone is sufficient guarantee of excellence. "Fair Enough" is a screen play that abounds in extremely hilarious situations, says the critic of the Motion Picture Review in his comment on this film. Miss Fisher is at her best and admirers of the dainty comedienne will agree that she has never been seen to better advantage than in "Fair Enough," he concludes. Another episode of that smashing Universal melodramatic thriller, "The Red Glove," will also be shown this evening. Thrills galore characterize this particular installment and the old folks will revel with the younger ones in the mysteries that are unfolded as the story is told. Then we have another one of those Harry Seaman two reel laugh fests. These comedies are now a regular thing on the Saturday evening program and have gone over so big that Manager Sullivan has received innumerable requests for repeated showings. The latest animated pictorial of world wide events rounds out an evening of perfect entertainment. Tomorrow evening a specially picked program will be presented in conjunction with the sacred concert. This bill includes a five reel feature, a two reel comedy and other novelty films. On Monday afternoon and evening Kitty Gordon will be seen in a World masterpiece, "The Scar." Miss Gordon is supported in this production by Irving Cummings. On Tuesday and Wednesday comes Little Mary, the pride of the fans, in Arterraft's version of that famous Broadway success, "Captain Kidd, Jr."

UNLE SAM WILL CUT POSTAL RATES JULY 1

Three Cent Stamped Envelopes and Two Cent Post Cards to Be Redeemed at Post Office. Beginning July 1, the old postage rates of two cents for a letter and one cent for a post card will go into effect. Letters and other first class matter also will be transmitted to the Virgin Islands, formerly known as the Danish West Indies, as well as to Great Britain, Canada, Cuba and United States possessions in all parts of the world at domestic rates. Complete regulations covering the restoration of the old rates have been received at the post offices. Postmasters have been ordered to discontinue the sale of two-cent stamped postcards and of three-cent stamped envelopes at the close of business, on June 30. Instructions have been sent out for the redemption of all of these cards and envelopes, if presented by the purchaser, for the one-cent postals and the two-cent envelopes, which will be in use after that date. Postcards and envelopes will not be redeemed in cash, but an even exchange will be given of cards and envelopes on the basis of face value. For one month after July, the envelopes will be redeemed subject to these terms, and after that postage stamps will be given for all stamped envelopes turned in.

TO BRING ICE FACTS BEFORE PEOPLE HERE AT MEETING TUESDAY

(Continued from Page 1.) assists Mr. Bowen is increased from \$25 per week to \$27.50. Harry Shewry of the same department receives an increase of from 42 to 46 cents per hour. Town Foreman John Digney, because of his twenty years of service was granted a salary increase of from \$27 per week to \$35. John Linde's pay is increased from \$18 to \$19.80. The same applies to Mr. Linde's assistant, Hamilton Metcalf. John Shippee was also granted an increase of ten per cent in salary. The latter increases are effective June 15th. Building Line Controversy. The petition received from William S. Hyde et al, requesting that the selectmen abandon the proposed legal action in regard to the Holl-Sheridan controversy and, that the board call a special meeting to obtain the opinion of the voters of the town in reference to this matter, was tabled until the written opinion of Town Counsel Alexander Arnot had been presented to the board. In regard to the recent communication from John F. Sheridan, the selectmen decided that they would pay no attention to the north end resident's letter and decided to let the matter take its course. Engineer Bowen was instructed to furnish Building Inspector Emil Johnson with a list of the names of the streets having building lines. It is expected that hereafter the Building Inspector will confer with the town engineer before issuing a permit. It is said that a permit was issued to a local resident who desired to build on a street having a thirty foot building line, and that Town Engineer Bowen on investigating found that the building operations were encroaching five feet. The meeting adjourned at ten thirty. All the members with the exception of Selectman William C. Cheney were present.

Talcottville

Troop 1 of the local Boy Scouts will go on an over-night hike to Bolton next Friday night. The Talcottville Fife and Drum corps will hold a barn dance at W. McCarrison's tonight. The local grammar school closed Thursday afternoon for the long summer vacation. A son was born to Mr. and Mrs. Edward Koch, Thursday. "BIG BILL" DEVERE DEAD. New York, June 21.—William S. (Big Bill) Devere, New York's first titular chief of police, and a former power in Tammany Hall, is dead today at his summer home at Far Rockaway, following an apoplectic stroke. He was a candidate for mayor in 1902 and was defeated.

WIN PRIZE DANCE

At a dance given by the Odd Fellows of Glastonbury last evening the prize fox-trot was won by Miss Mary Gregory and Mr. John Fallon. The prize was \$10.

Let That Graduation Gift Be a Good Watch

It's a gift that gives pleasure not merely for a few days but for long months and years to come—a gift that is constantly in use by the recipient and, therefore, a constant reminder of the giver. You will find no better store than ours in which to buy a watch—our reputation for reliability insures you absolute value for every penny you spend because we carry only such makes as are guaranteed by the makers and can be backed by ourselves.

TELEPHONES
Main Office, Main and Hilliard Sts.
Branch Office, Ferris Block

SUBSTITUTES FOR TELEGRAPH.

The strike of the telegraphers is forcing the transmission of messages into new channels, some of which will no doubt be followed permanently. Of course with the telegraph lines tied up the majority of wire messages will be sent by telephone. The telephone has already supplanted the telegraph to a great extent and is even used by railroads in dispatching trains. When this strike is over, other uses will have been found for the telephone as a substitute for the telegraph which will continue to be followed after the strike is over.

They too, air mail is proving a competitor of the telegraph. The air service already established between New York and Washington and New York and Chicago is carrying thousands of urgent messages and this service is bound to be amplified as new routes are established.

Not only are these competitors of the telegraph reducing the demand for the services of the key operators, but automatic sending and receiving devices have been perfected by which messages may be transmitted by an ordinary typist. At the present time newspapers in Connecticut are receiving press service from New York by automatic typewriters. As the typist in New York sits at his machine and writes the news, reproducing machines in the newspaper offices simultaneously typewrite the matter letter by letter, without the intervention of human hands.

The longer the strike lasts the more firmly these substitutes will establish themselves. It is quite possible that when the strike is over, some of the keymen may for this reason find themselves permanently out of a job.

THE SPRINGFIELD WINS.

The rifle was America's particular weapon in the war. The traditions of the plainsmen and the woodmen of several generations ago were revived by the deadly work of our men of today along the battle line in France. The Germans soon learned that it was fatal to try to run away from American soldiers once they were discovered. In a general way they had found that British would pursue them with the bayonet and that the French would follow them up with hand grenades; but the Americans sat tight and sent a well aimed rifle ball to do the business. When discovered near a Yankee out-post there was nothing to do but surrender.

The man who has ever tried to draw a fine bead through the wide sights of the remodeled Enfield rifle will be pleased to know that the weapon has been out classed by the new Springfield in an extensive contest held in France and open to all members of the A. E. F. There were 150 prizes awarded and every one went to a man shooting with the Springfield. General March has announced that the lowest score made by a man with this rifle was higher than the highest made by a contestant with the Enfield.

Things are looking up. The American Federation of Labor, in convention at Atlantic City, has declared itself in favor of the League of Nations by the astounding vote of 28,750 to 420; the junkered Cabinet of Germany which was opposing the treaty has fallen; more than a score of the most eminent Republicans of New York state, among the number George W. Wickersham, Herbert Parsons, ex-Governor Whitman, Adolph Lewisohn, Charles D. Hilles, Oscar S. Straus and Henry W. Taft, have signed an urgent plea that the treaty be promptly ratified without alteration and perhaps the most hopeful of all these hopeful things—the Knox resolution seems to be sinking into the waters of oblivion without so much as a parting gurgle.

stirs and all else gives way. Today the signs are hopeful. Decidedly, things are looking up.

About the only people left who are fighting the prohibition law are those in the liquor business. It is natural that those who have made a good living out of the traffic should die hard.

Some one blundered in furnishing the builders of the new trolley cars with the copy for the sign. On the front end of the cars that were running on the cross town lines yesterday afternoon was a sign that read "North Manchester." When some of the people of the north end saw this they began to ask where "North Manchester" was. There is no such place in Connecticut. This comes about because there are two post offices in the town. Some day when the government builds the federal building at the Center the entire town will be united under one name and that will be Manchester.

REPUBLICANS MAKE PLEA TO SENATE FOR TREATY

Well Known Members of Party Ask That Covenant Go Through Promptly.

Well-known members of the Republican Party are the signers of a communication to the United States Senators from New York State urging that political partisanship has no place in the consideration of the Peace Treaty and the League of Nations and urging affirmative action by the Senate. The communication is as follows: To Hon. James W. Adamsworth, Jr., Hon. William M. Calder, United States Senators—Gentlemen—The undersigned, regularly enrolled Republicans of the State of New York, respectfully urge that political partisanship should have no place in the consideration of the proposed League of Nations. The Republican Party, which has done so much to promote the principle of the peaceful settlement of international disputes, cannot justly be placed in an attitude of hostility to the project adopted by the Conference at Paris for the extension of that principle to all the associated nations for the purpose of averting all preventable wars. The undersigned urge that the treaty containing the peace covenant be promptly ratified by the Senate without attempting to embarrass it by amendment, thus delaying the conclusion of peace and the establishment of a great agency for its future preservation. May 26, 1919.

WHITE HOUSE OPEN TO BRAZILIAN PRESIDENT

Wilson Depuizes Vice President Marshall to Do the Entertaining.

Washington, June 21.—The White House will be placed at the disposal of the State Department and Vice President Marshall for any entertainments in honor of President-elect Pessoa, of Brazil, who was scheduled to arrive in Washington this afternoon. President Wilson, in a cablegram to Secretary Tumulty today, directed him to extend this courtesy in honor of the distinguished visitor and to "please extend to the President-elect of Brazil my gratification that the Emperor was able to render assistance at sea which it did when the French cruiser broke down."

M. Pessoa and his party were transferred to the Emperor in mid-ocean when the engines of the Joan D'Arc, upon which they were passengers, became disabled.

INDUSTRIAL LEAGUE GAMES. Next week's schedule for the Industrial League has been revised. The new schedule is as follows: Monday, Velvet Mill vs. Main Office.

Wednesday, Machine Shop vs. Weaving Mill. Thursday, Spinning Mill vs. Ribbon Mill.

FIRED PRINCIPAL'S WIFE DEFIES SCHOOL BOARD

Soapbox Her Platform to Arrange March in Protest.

Greenwich, Conn., June 21.—Mrs. John J. Fry, who is fighting to have her husband reinstated as principal of the Hamilton Avenue School, has filed a petition signed by Cos Cob residents, asking the selectmen to call a special town meeting to thresh the matter out. She said that unless favorable action is taken at this meeting she will employ counsel and take the case to the highest courts.

When Mrs. Fry attempted to hold an open forum on the steps of the school last night Policeman Busch told her she could not use the grounds for that purpose. She addressed an audience of 300 persons from a soapbox in a vacant lot across the way. Her speech was an arraignment of School Supt. Andrews, alleging discrimination in the allotment of salaries by which poor girls are paid a much larger wage than teachers from wealthy families. She charged the School Board with disregarding public sentiment in refusing to recognize three different petitions signed by every taxpayer in the district, asking for Mr. Fry's retention as principal.

Forty pupils from the school marched to Greenwich this morning and invaded the grounds in front of the superintendent's office with jeers. They carried banners bearing inscriptions as "No Fry, No School," "Down With Andrews and Up With Fry," and "We Want a New School Head." The pupils paraded through the principal streets of the town.

Mr. Fry was dismissed by the School Board because of Mrs. Fry's constant interference with the board and teachers. She had been warned by the School Board and the superintendent to keep away from the building, but refused to comply. Mr. Fry contends it will work great hardship on him should he be obliged to go elsewhere.

STOCKS ADVANCE ON NEWS OF PEACE

New York, June 21.—There was a brisk buying movement at the opening of the stock market today as a result of the statements in the morning press indicating an acceptance of the peace terms by Germany. A good part of the buying was covering of shorts but there was also an increased investment demand in the dividend payers and a good deal of Western buying in many of the speculative issues.

Steel common was bid for in large blocks advancing 3-4 to 108 3/8 and there was an urgent demand for Baldwin Locomotive which rose to 194.

The railroad stocks showed pronounced strength with several issues including Missouri Pacific and Chesapeake and Ohio selling at the highest prices reached in a long period. Central Leather was in demand and rose 1-2 to 105. Oil stocks were strong and generally fractionally higher.

Stock Quotations. Reported for The Evening Herald by Richter & Co., 5 Central Row, Hartford. Closing prices.

Bullying Nation Will Be Opposed By Overwhelming Force of League

On this page The Herald is printing a series of letters touching every angle of the plan for a League of Nations proposed by the Paris Covenant, now awaiting ratification by the United States Senate. In accordance with the authors' wishes the individual letters are not identified with any one writer.

They are written by: William H. Taft, Ex-President of the United States. George W. Wickersham, formerly United States Attorney General. A. Lawrence Lowell, President of Harvard University. Henry W. Taft, of the New York Bar.

Chances of War Remote. There is a third answer to people who object that Article X is likely to involve us in wars all over the world.

Those who look to the successful operation of the League do not expect war at all. The obligation of the members of the League to impose in the first instance a universal boycott against a recalcitrant faithless member constitutes a most formidable threat against any member seeking to violate Article X of the covenants of the following Articles. Such a boycott will be a withering ostracism and isolation of a nation that few could endure. No single nation, unless it be the United States or some of the greater South American nations, could live if denied food and raw materials from the rest of the world, and if forbidden the use of a foreign market for the sale of their products.

"Minatory" Influence. Second, no nation would willingly face the overwhelming force of the world organized to punish it for violation of its covenants. The minatory influence of a world League, with its members obligated to unite in economic and military pressure, if need be, can hardly be exaggerated. Of course if a number of nations entered into a conspiracy to fight and subdue the rest of the world, then this minatory influence might not be controlling, but in that case all the members of the League would wish to join in the war, just as they did in this, and defeat such a conspiracy and vindicate the power of the League for its useful ends.

What we are now answering is the objection that there will be a lot of little wars all over the world, in which we will be engaged, which will claim our money and our men. It is in restraining of the smaller war in which a large nation attempts to bully a weaker one that the minatory effect of the League will be so controlling. The result will be that the League having the power completely to suppress the bullying nation will not need to exercise that power. Indeed it is hardly too much to say that the nations of the League will never need to go beyond the effective discipline of a universal boycott. But if such a war does break out in which we shall deem it our duty to intervene under Article X, or the other articles, one instance of suppression by the joint forces of the League will be a lesson for the world, not needing repetition. It will be worth all its costs in demonstrating that the way of the transgressor who breaks the Covenants of the League will be hard.

Lessons From History. This conclusion as to the minatory effect of the covenants of the League and the organization of its members to enforce them does not rest merely on a priori reasoning. We have in our own history a striking confirmation of it. In 1823, the Holy Alliance consisting of all the powerful nations of Europe, except Great Britain, gave indication of an intention to aid Spain in recovering her lost colonies in this Western Hemisphere. We had recognized the independence of these colonies, Canning, the British Minister for Foreign Affairs, urged upon President Monroe and John Quincy Adams, the Secretary of State, the wisdom of uniting with England in a League to resist the Holy Alliance in overthrowing the independence of these new American states. Thomas Jefferson was consulted, and he advised making a League with England, which he said would not be an entangling alliance against which he had warned his countrymen, but would be justified by its great public purpose. Monroe and Adams, however, thought it wiser to act alone. John C. Calhoun, the Secretary of War, advised strongly against sole action. Nevertheless, President Monroe, in his Message of that year, made the declaration which has since been known as the Monroe Doctrine, and notified the members of the Holy Alliance that the United States would regard any attempt on their part to overthrow an independ-

ent state in the Western Hemisphere as against the interest of the United States which we should resist. Calhoun and others thought that such a declaration and policy would certainly involve us in many wars.

What has been the result? For now nearly a century, the Monroe Doctrine has been maintained inviolate through a constant assertion of it by succeeding administrations and without firing a shot or the loss of a single soldier. During the Civil War, Napoleon III did attempt to violate it by setting up Maximilian in Mexico as an Emperor. As soon as our hands were free, however, and we were able to send Sheridan with an army to the Mexican border, Napoleon withdrew his French troops and Maximilian collapsed. If such a threat by the United States alone, not always so strong as she now is, maintained inviolate a declaration like the Monroe Doctrine for a century, it follows a fortiori that the declaration of the League uniting the power of the world in proposed maintenance of a similar doctrine will be equally effective, and that it will not involve the members of the League in any more wars than we have been involved in by reason of the Monroe Doctrine.

Will It Retard Progress? Finally, it is objected to Article X that it is too rigid, that progress of the world may need rearrangement of boundaries, an enlargement of one country and a reduction of another or the creation of new states. Article X does not forbid changes in boundaries or the enlargement or reduction of states or the establishment of new states. All that it forbids is the taking of territory by force from a member of the League, or overthrowing its government by violence. Article X does not protect any nation against internal disturbance, rebellion or revolution. It does not prevent the division of states by these means. The objection assumes that war by one existing nation upon another is necessary to the progress of the world to secure useful changes in boundary. We need not deny that a war of aggression may achieve a useful end, but the basis upon which the League rests is that such advantages are outweighed by the suffering in modern war and the possibility that a small war may lead to a general war and an enormous damage to civilization. The effort in the formulation of the present treaty is to make new boundaries and the effect of Article X will doubtless be to maintain those boundaries, in so far as to prevent foreign aggression from affecting them.

Ireland Not Affected. The suggestion that Article X was intended to bring to the aid of Great Britain the power of the United States to suppress a revolution in Ireland is of course wholly unfounded, because a revolution in Ireland would not be an attack upon the territorial integrity or political independence of Great Britain by external aggression.

The insinuation against Article X that Great Britain secured it in order to get the aid of the United States and other members of the League to defend and protect "her far-flung empire" is also without basis. No war in the last century has been begun against Great Britain to take away territory from her. Neither she nor the United States would feel called upon to invoke the defense of the League to protect their boundaries. They can defend themselves. No other state is likely to attack them, with the purpose of violating Article X. The reason for Article X is the protection of weaker nations against stronger ones. Great nations are seldom attacked except in case of a conspiracy like that of this present war, and when such a conspiracy exists, all of the members of the League will be anxious to join in its suppression. Article X is one of the great steps forward provided in the League for the securing of general peace.

NOTICE

Annual Meeting of the Seventh School District. The annual meeting of the legal voters of the Seventh School District of the Town of Manchester, will be held at the schoolhouse in Buckland, in the Town of Manchester, on Monday evening, June 23, 1919, at 7.45 o'clock, to elect officers of the district for the ensuing year, to authorize the treasurer to borrow money for the needs of the district, and to transact any other business proper to come before said meeting. Dated at Manchester, this 16th day of June, 1919. ANDREW J. HEALY, District Committee.

MAKING COMPLAINTS

Of course we are sorry to get complaints, but we would be sorrier yet not to get them if you felt like making them. Perhaps it never occurred to you that one of the greatest problems in running a big store, was not a question of merchandising, or of finance, but simply the question of how to know when things are being done wrong. We have keen eyes and an eager appetite for faults, and we hunt them as most men hunt for money. But with all our care and watchfulness there is no doubt that our customers see many things that we ought to know, but don't know.

Won't you tell us please?

COME OUT AND ENJOY A SPLENDID EVENING
Sing the Old Songs - - - Hear a Rattling Speech

ABOUT TOWN

Dr. and Mrs. T. G. Sloane left this morning for a few days' visit at Asbury Park, N. J.

Mr. and Mrs. Francis Smythe of Philadelphia are visiting relatives in town.

There will be a special meeting of Company F of the State Guard in their rooms at the Recreation Center on Monday evening.

Oak Lodge of paper-makers will hold an open meeting at Odd Fellows Hall tomorrow afternoon at 3 o'clock.

The storm of yesterday raised havoc in the vicinity of Stafford and caused a washout on this division of the trolley system.

There is no way to send a telegram from Manchester at present. The only sending office in town, that at the railroad station is refusing commercial messages on account of the strike.

Miss Tucker's Camp Fire Girls, the Manuka Camp, will hold a dance in the High School Assembly Hall, Monday night at 8 o'clock.

The Recreation Center Circus will be held in the gymnasium Wednesday evening, June 25. This is to be the June entertainment and also the last one for the summer so it is hoped that a large number of members will come.

Arrangements have been completed by the Royal Neighbors for their annual outing at Savin Rock next Thursday. The trip will be made in auto trucks, leaving the Center at seven o'clock sharp.

An auto owned by Archie Hayes and a Ford car driven by an unknown party collided near the Woodland Mills near Love Lane during the heavy storm of yesterday noon. The collision was head on and was caused, it is thought, by the heavy rain which blinded the driver of the Ford.

The Ponies defeated the Pioneers by the score 12 to 11 in a fast game on the mill lot last evening. The first four innings it looked as though the Pioneers were winning but the Ponies held them down.

AT A COURT OF PROBATE HELD at Manchester, within and for the district of Manchester, on the 20th day of June A. D. 1919. Present, WILLIAM S. HYDE, Esq., Judge.

IMPOSES HEAVY FINES ON MEN WHO INSULTED WOMEN AND HAD FIGHT

Row on Street Saturday Night is Settled in Court.

JUDGE ARNOTT REBUKES MEN—ACTION A DISGRACE

Appeal is Taken—Lawyer Says He Would Have Thrashed Accused as Husband's Aid.

David McCann and Rudolph Hope were heavily fined in the police court this morning as a result of the assault that took place on Park street last Saturday night.

According to the story as told by Mrs. Frank McGuire, the first witness for the state, she and Mrs. Frank Whalley were returning from a moving picture show at the Circle when the trouble started.

Attorney Hyde did not attempt to argue the case for his client. He thought that it was a street brawl in which there was blame on both sides.

All the witnesses told the same story and when they had finished Prosecuting Attorney Hathaway told the judge that the men were guilty of both assault and breach of the peace and he intimated that had he been in the place of McGuire or Whalley and had McCann and Hope insulted his wife as they had Mrs. McGuire and Mrs. Whalley, he certainly would have done just what the husbands of the women who were insulted did—attempts to chastise the men.

Judge Scores Men. Judge Arnott imposed a fine of \$50 with costs in each case and he said the fine was altogether too light for the offense committed.

Another case was heard in chambers. It was in regard to a boy who has failed to attend the Ninth District school regularly.

A good light lunch, chocolate and milk with eggs at Quinn's Popular Fountain.

ALL YOU MUSIC LOVERS COME TO THE S. A. RALLY

Community Singing at Center Park Tonight Under Army Song Leader—Parade to Precede Rally.

A special feature of the Salvation Army open air rally which is to be held in Center Park tonight will be the community singing under the leadership of Charles Bartlett, formerly army song leader at Camp McClellan.

The Home Service Fund of the Salvation Army had passed the \$2,000 mark on the second day of the drive. This sum is \$500 short of one-half the quota for Manchester.

Considerable interest is being manifested among the World War veterans in the parade for the benefit of the drive tonight. The sailors are planning to turn-out strong, and the boys in blue believe they can muster a larger number proportionately than can the boys in khaki.

Captain Butler requests that all his aide-report to him at Center Park at 7:15, as the parade will start promptly at 7:30. The soldiers will be lined up and divided into platoons and companies just before starting.

Immediatly following the parade the veterans will be dismissed and the public mass meeting will begin. The Center Flute Band has kindly consented to render a few selections during the meeting, as will also the Salvation Army band.

The Hebrew Ladies' Old People's Home of Hartford is giving a picnic at Laurel Park, Sunday, June 22nd from 2 to 10 p. m. Concert, Dancing, Moving Pictures and Refreshments. The proceeds of this affair to be used to provide a home for the OLD and HOMELESS. All are invited to come.

LITTLE MOTHERS CLUB SEES SCIENTIFIC BATH

Real Live Baby Used by Miss Moore in Demonstration Before Eighth District Women.

The second meeting of the Little Mothers' Club of the Eighth District met at the health center Friday afternoon. Miss Isabelle Moore, the school nurse, talked to the club about the bathing of babies.

Plans for the summer work were discussed. After the lesson a social time with refreshments was enjoyed by all. Twenty five girls have enrolled in the club. Lillian Spillane was elected president and Claire Hanon secretary. Meetings are held on Friday afternoons at two o'clock and all girls interested in learning to care for the health and happiness of babies are invited to join.

ORANGEMEN TO CELEBRATE

The Orangemen of Manchester will celebrate the 229th anniversary of the Battle of the Boyne Saturday, July 12, by holding an outing at Riverside park near Springfield. While the arrangements are being made by Washington lodge, the members of that lodge and also of Manchester lodge and their families are invited to attend. Cars will leave the south terminus at seven o'clock in the morning and a good full day of enjoyment is promised.

HONOR PRIVATE CONLON

A welcome home party was held at the home of Mrs. Howard Chapman on Summit street last evening in honor of Private John Conlon. Members of the Salvation Army furnished instrumental music and vocal solos were rendered by Robert Von Deck and Mr. J. Conlon, a cousin of the returned soldier.

SPECIAL TRIAL RUN WITH NEW TROLLEYS

Take Big Cars to Rockville for Demonstration Yesterday.

MOTORMEN GET LESSONS

Learning Kinks of Convertible Motors and How to Handle Fast Moves—Running Time May Be Cut.

The new pay as you enter trolley cars were given a good try-out on the Cross-town lines yesterday afternoon and evening. In the afternoon Superintendent Nettleton, ran one of the new cars to Rockville. He took on board a party of Manchester men including Selectman Aaron Johnson; Tax Collector G. H. Howe; G. H. Waddell, clerk of the board of Selectmen; Deputy Judge Carney, representing the Courant and Thos. Ferguson, of The Evening Herald.

As stated in yesterday's Herald the new cars have a seating capacity of 60. They are six feet longer than any of the other cars used on the Hartford division.

Motormen Try Them Out. Motormen of both the South Manchester and Rockville lines were on the Cross-town lines last night getting acquainted with the operation of the new cars.

Just as soon as the motormen get acquainted with the new operating features three of the cars will be placed on the Rockville line and six will be run on the South Manchester line. The passenger car assist the motormen and conductors greatly by having the exact change for the fare ready when they enter the cars.

READ—IT'S FOR YOU

Superintendent Nettleton is much pleased with the prospect of improved service on both the South Manchester and Rockville lines. With these new cars it is possible to cut the running time down between Rockville and Hartford as well as between Manchester and Hartford. The travelling public will surely appreciate the arrangement of the new cars and Rockville people in particular, are hoping for a faster trip between their city and Hartford.

THE SENIOR DANCE

The Senior class held their class dance in High School hall last evening. The hall was decorated in the class colors, blue and gold. There were about 120 couples present and a very enjoyable evening was spent.

POLICE RUIN PROFITABLE 'DIAMOND' INDUSTRY HERE

Cruel Blue-coats Quickly Stamp Out One of Town's Newest Enterprises.

The apprehension of two out-of-town street vendors by the police late Thursday evening, because of the suspicious actions of the strangers, caused a rumor to circulate around Manchester yesterday that two professional diamond thieves had been caught operating in town.

The two strangers were Italians and claimed New York as their home. They arrived in Manchester on Thursday and proceeded to exhibit the merits of a large number of unset 'diamonds' which they offered for sale at amazingly reasonable prices. It is said that a number of people purchased the glittering objects and it finally reached the ears of the police that there were two strangers in town selling diamonds.

BOARD OF HEALTH NOTICE. Section 3. Of the Plumbing Rules adopted by the Board of Selectmen of the Town of Manchester, May 25, 1915, reads as follows:

Section 3. All houses and other buildings on premises abutting on a street in which there is a sewer shall be connected with said sewer by the owner or agent of the premises. Each house must be separately connected with the sewer, and when possible the connection must be directly in front of the house or premises.

This section of the Plumbing Rules will be rigidly enforced by the Board of Health of the Town of Manchester. D. C. Y. MOORE, J. D. HENDERSON, GEORGE M. BARBER.

The City of GOODRICH Akron, Ohio. Active Age Proves Real Quality. Like warriors grown gray in harness, and white-haired employees still on the job, a scuffed and scarred set of Silvertown Cords on an ancient car tells the story of the matchless service of these patrician tires. The graceful, well-groomed elegance, with which they when new adorn, smart cars, may be shabby; their tough tread worn smooth; but their distinction remains. Once a Silvertown always a Silvertown. You know them, old or new, for aristocrats. In their age, you read the history of their wonderful endurance; their useful career of miles and miles of road roughing. You always get the long mileage of a ripe old age to round out the youthful beauty of the tires with the Twin Red Diamonds on the sidewall. Buy Goodrich Tires from a Dealer. SILVERTOWN CORD TIRES 'BEST IN THE LONG RUN'
