

ORFORD SOAP COMPANY BUYS SEGAR PROPERTY FOR \$40,000 EXPANSION

Plan to Erect New Building on Land Now Occupied by Electric Street.

BUSINESS HAS OUTGROWN PRESENT FACTORY OF CO.

J. T. Robertson Says Firm Intends to Build in Near Future—Will Ask Town to Shift Street.

The Orford Soap Company is planning to build another large addition to its factory here this fall. The building will be 50 by 150 and will house the new grinding plant that the concern is to install.

J. T. Robertson, the manager of the plant, told a Herald man this morning that the concern would surely start the new building at an early date. He said that the business was expanding all the time and the company could not keep up with its orders. The greatest trouble during the war was to get help and material. Now that the war is over, the concern is able to obtain a better class of help and also get material in better shape. It was necessary to increase the facilities of the plant in order to keep up with the demand and it is expected that with a new grinding plant this can be accomplished.

Buy E. E. Segar Place.

Yesterday afternoon the Orford Soap Company bought the E. E. Segar place which is just west of the plant on Hilliard street. The concern thought it advisable to build the new addition on the west side of the plant and in order to do this more land was necessary. The company will ask the town to move Electric street further west and will of course give the land for this purpose. The street when moved over will come on the E. E. Segar land. Electric street runs from Hilliard street to the Manchester freight station and there are no buildings on the street so that the change will make little or no difference to the general public but will give the Orford Soap Company a chance to develop its plant in that direction. The matter of making a change in the street is to come up at the special town meeting to be held next Thursday evening.

New Plant to Cost \$40,000.

It is estimated that the new building and its equipment will cost over \$40,000. The Orford Soap Company has increased its output every year since it was established. During the war, however, this increase did not amount to much because it was impossible to get help and stock.

Mr. Segar will continue to live in the house he has sold to the concern. He built it at the time the Mather factory was here and prospering and it is one of the best homes on the street.

WAR DEPT. ANNOUNCES DILSWORTH CITATION

Gives Name James Which is Not On War Bureau Rolls—Joseph Prob- ably Meant.

An announcement from the War Department at Washington makes mention of the fact that Corporal James Dilsworth of South Manchester, Conn., has been awarded the Distinguished Service Cross. The above name cannot be found in local War Bureau records and in all probability there is an error in the first name, which if corrected should read, Corporal Joseph Dilsworth. The latter was killed in action in October, 1918.

THIEVES AT WATCH HILL.

Watch Hill, R. I., Aug. 1.—Diamonds, pearls sapphires and other jewels valued at \$15,000 were stolen in a midnight raid by thieves on palatial "Norman Hall", the summer home of C. B. Lihme, of New York, it became known today. The police have no clue.

Wilson Is Responsible For Secrecy, Says Matin

Paris, Aug. 1.—President Wilson was responsible for the failure of the French government to make known the minutes of the peace conference to the Chamber of Deputies, according to the Matin today.

The paper added that it knew no reason for the American President to take this course.

Premier Clemenceau is said to have produced a cablegram from President Wilson asking that publication of the notes of the conference be suspended.

The French Peace Commission will recommend the ratification of the treaty with reservations, the Matin said, as some of the parts of the pact seem "feeble" to the members.

HAYS REFUSES TO RUN FOR GOV. OF INDIANA

Chairman of Republican National Committee Declines Offer to Be- come Candidate.

Brookville, Ind., Aug. 1.—Will R. Hays, chairman of the Republican National Committee, today declined definitely to become a candidate for the Republican nomination for governor of Indiana.

In an address before the mid-summer meeting of the Indiana Republican Editorial Association at Magnesia Springs this afternoon in which he declined to enter the race, Hays declared that his work in connection with the National Chairmanship "is daily becoming so all absorbing and the importance of the successful outcome so vital that I must do that which it is given me to do and must do it to the hilt."

He predicted a complete national Republican victory.

NINE OFFICERS, 317 MEN LEFT OF 9TH INFANTRY

Remnants of Famous Fighting Corps Arrive On Transport Princess Matoika—Suffered Most in War.

New York, Aug. 1.—The remnants of the famous Ninth Infantry of the Second Division that helped plug the gap in the French line when the Germans rushed down upon Paris a year ago last June came home today aboard the Princess Matoika.

Only 9 Officers Left.

The regiment complete, of 121 officers and 3,079 men, was aboard the transport, but of this number there were only nine officers and 317 men who had survived the terrible fighting at Chateau Thierry, Soissons, St. Mihiel and the Argonne. A large per cent of the other 2,700 who went to France with the Ninth in the fall of 1917 lie buried on French soil and many badly wounded had been previously sent home. The regiment is the first unit of the Second Division, comprising infantry and marines, which suffered the heaviest casualties and took more prisoners than any American division in France.

Five Transports In.

A total of five transports arrived today, bringing 12,457 men, mostly veterans, of America's early participation in the war. The last detachment of the Fourth Division came aboard the Mt. Vernon, which also brought Major General Mark L. Hershey, the divisional commander and Brigadier General Frank C. Marshall, Benjamin A. Poore, Marcelles G. Spinks and Mallin Craig.

Several famous air service units came home on the Pocahontas, including the First Aero Squadron, the first American unit to fly on the front.

The Cadmus and Vivalta brought casualties.

JAPS FOR LEAGUE.

Paris, Aug. 1.—"The League of Nations offers a solid basis for world peace," said Baron Makino, head of the Japanese peace delegation, before leaving for Tokyo.

"Nevertheless, the outstanding world problems require the most careful and faithful handling," he added.

Makino refused to comment on the Shantung situation.

LONDON COPS' STRIKE PROVES A FAILURE

London, August 1.—The strike of London policemen called for today proved a failure. Only 228 out of the five thousand men on duty had left their posts this morning. Not a single man in the west end went out.

The strike, however, promises to bring serious consequences and the home secretary conferred with Premier Lloyd George.

The city electricians and the railway engineers are threatening to go out in sympathy. The strike threatens to spread to the provinces.

LEAGUE POWERLESS IF JAPAN, GERMANY AND BOLSHEVISTS COMBINE

Head of Russian-Antis Asks Allies Not to Withdraw Troops.

BREAK LENINE'S POWER OR COUNTRY WILL BE RUINED

Petrograd Must Be Occupied by Al- lied Forces, Says M. Tchaikovsky, or Civilization Will Be Plunged Into Utter Darkness.

Paris, Aug. 1.—M. Tchaikovsky, head of the anti-Bolshevik government in Northern Russia, left for London today to attempt to persuade the British government not to withdraw its troops from the Archangel and Mumanak fronts. M. Tchaikovsky's departure followed a conference with Sergius Sazonoff, former Russian foreign minister, and Prince Georg Lvoff, representative of the Omsk government, as well as other agents of anti-Bolshevik agencies in Russia.

Want Petrograd Occupied.

Occupation of Petrograd by allied forces is being urged by M. Tohaikovsky. He branded the announcement by Colonel Winston Churchill, British War Secretary, that British forces would be withdrawn from Northern Russia in a few months as a calamity.

Punishing the Guilty.

In the wake of the riots also has come the matter of punishment for those who participated. Several men, both white and black, who the police believe to be guilty of slaying victims of the riots are in custody and the hangman's noose is being dangled before them by the state authorities. Vigorous prosecution and stern punishment is promised by the authorities of all those involved in the rioting.

Governor Frank O. Lowden, Adjutant General Dickson and Chief of Police Garrity relaxed today for the first time since the outbreaks began and expressed themselves as confident that the state troops and the police would be able to hold the rioting in check. No announcement of when the troops will be recalled from the riot zone has been made but it is thought likely they will be held though every vestige of disorder has been stamped out.

There has been no serious outbreaks since early yesterday afternoon when white rioters and the troops clashed in a battle at the stock yards. During the past 24 hours but one slaying has been reported. That came when a 12 year old white boy was dragged from a truck and beaten to death by negro youths. Deaths of several who were wounded in the fighting, however, has brought the death list up to 32.

150 Under Arrest.

No tabulation of the number wounded has been made but most reliable estimates place it at 300. About 150 rioters, according to police estimates, are under arrest.

Riot calls continue to come into the police and to troop headquarters but the disturbances are sporadic and of a minor character. In most instances the arrival of officers or soldiers in response to calls, has found the locality quiet and the rioters dispersed.

500 Under Arrest.

Francis Moon, 73, a farmhand of Brimfield, died early yesterday morning in Hampden hospital after an illness of several weeks.

Wilson Submits to Senate Protocol to Peace Treaty

Kaiser's Trial Bothers Officials; Everybody is Dodging the Question

London, Aug. 1.—The Kaiser's trial is a hot brick that is being quickly passed from hand to hand in British official circles. Seemingly because of the agitation against the trial of the former German war lord, all officials are wary of recording their stand.

Inquirers are told at the foreign office that nothing is known about the trial there, but that Premier Lloyd George's office or the publicity section of the British peace delegation, or the law offices of the Crown may know. The latter two profess to have no knowledge, but the Down-

ing street offices of the Premier express the opinion that maybe the foreign office knows.

But the foreign office says this is the place to come to, suggests an inquirer.

"Well, then I'm afraid we can't say anything", is the reply from Downing street.

The Premier's office only ventures the information that it has heard of no change in plans for the trial since Lloyd George told Parliament, that the ex-Kaiser would answer before an international tribunal sitting in London.

Is Arrangement Reduced to Writing Concerning the Methods of Executing Terms of Pact—Just Re- ceived by Department of State—Document Forms Definite and Binding Mem- orandum.

Washington, Aug. 1.—President Wilson this afternoon submitted to the Senate a protocol to the treaty with Germany.

Wilson's Message.

President Wilson sent the following message with the protocol:

"To the Senate:

"I have the honor to transmit to the Senate herewith, accompanied by a letter from the Secretary of State, a brief protocol to the treaty of the peace with Germany. The certified copy which I transmit has just been received by the Department of State and I am transmitting it without delay.

"The protocol originated in a written interchange of views between the representatives of the allied and associated powers and the representatives of Germany, as a result of which representatives of Germany requested that certain explanations of methods and facilities which it was proposed should be accorded the German government in the execution of the treaty should be reduced to writing and signed by the powers signatory to the treaty so as to form definite and binding memorandum.

(Signed)
"Woodrow Wilson."

Text of Protocol.

The protocol was merely an arrangement reduced to writing, concerning the methods of executing the treaty. The text follows:

"With a view to indicating precisely the conditions in which certain provisions of the treaty of even date are to be carried out, it is agreed by the high contracting parties that:

To Destroy Heligoland.

"(1)—A commission will be appointed by the principal allies and associated powers to supervise the destruction of the fortifications of Heligoland in accordance with the treaty. This commission will be authorized to decide what portion of the works protecting the coast from sea erosion are to be maintained and what portion must be destroyed.

List of War Criminals.

"(3)—The list of persons to be handed over to the allied and Associated governments by Germany under the second paragraph of article 228 shall be communicated to the German government within a month from the coming into force of the treaty.

"(4)—The reparations commission referred to in article 240 and paragraphs 2, 3 and 4 of annex 4 cannot require trade secrets or other confidential information to be divulged.

"(5)—From the signature of the treaty and within the ensuing four months Germany will be entitled to submit it for examination by the allied and associated powers documents and proposals in order to expedite the work connected with reparations and thus to shorten the investigation and to accelerate the decisions.

"(6)—Proceedings will be taken against persons who have committed punishable offenses in the liquidation of German property and the allied and associated powers will welcome any information which the German government can furnish on this subject.

"Done at Versailles the twenty-eighth day of June, one thousand nine hundred and nineteen."

We Want No Food Probe; Lower Prices, Say Women

New York, Aug. 1.—The housewives of the nation came into the fight against the high cost of living today, and through the National Housewives' League, made an appeal direct to the White House for relief.

Mrs. Julian Heath, president of the League, in a letter to President Wilson described living conditions as they exist today "a menace to the American home, to the health of the people and to the stability of the nation."

Prices of Wheat and Corn.

"You will, of course, in your deliberations," continued the letter, "take into consideration the price of wheat and corn and our organization desires to emphasize the position it has taken in regard to the prices of these fundamental products. In our deliberations we have been led to believe that the maximum price of wheat now being received by the farmer, and the sympathetic price of corn, are fundamentally the reason for the high price of many other commodities.

"The farmer must receive his guarantee, but I ask whether the billion dollar subsidy cannot be used in some way to benefit the consumer?"

Mrs. Heath declared that the abnormally high prices for wheat and corn are almost entirely responsible for the cost of foodstuffs.

"Bread and meat are American food fundamentals, she said. "Cash wheat is today \$2.75 and \$2.80 a bushel. That makes high flour. Meat is high because the commodity

which makes meat—corn—has reached an unheard of figure. Once bringing down the price of these two grains and the cost of foodstuffs will tumble.

Probing Will Not Help.

"Investigations will do no good. Since 1910 we have seen investigation follow investigation with monotonous regularity. And every blamed one of them cost us money and brought down the price of things not one penny. We don't want investigation; we want action.

"For every loaf of bread we eat today we are taxed three times. First we are taxed on high flour, then to provide this billion dollar subsidy and then for foreign credits.

Let Us Buy Wheat.

"Why can't this billion dollar subsidy be used to benefit the consumer, if there is no other way out. Let the government buy wheat at the guaranteed price of \$2.25 a bushel and sell it to the consumer at a dollar less—at \$1.25. That would be playing square with the farmer and at the same time be of some real benefit to the poor consumer. We are taxed for the subsidy anyway. Entire blame for the high cost of living can be directly traced to wheat. Corn is sympathetically high with wheat which makes livestock high and follows through every other food product. Relief must come."

Headquarters of the League has directed every state organization to systematically bombard its Congressional representatives with demands for action until something is done.

LODGE READS POLISH TREATY INTO RECORD

Says England Has Already Had It Presented to Parliament While U. S. Waits for Wilson.

Washington, Aug. 1.—Senator Lodge this afternoon had inserted into the Congressional Record a copy of the treaty signed by the "Big Five" with Poland, which Lodge stated had been presented to the British Parliament two weeks ago. The Senate was still waiting, he said, for the President to submit it to the ratifying branch of the United States government.

KILLED HIS CHANCE.

London, Aug. 1.—Political circles believe that Lord Rothmere, brother of Lord Northcliffe, has killed his chances for appointment to the post of Ambassador to the United States by an attack of the government which will be printed in the Sunday Pictorial and which was widely advertised today.

FISHING FOR BOOZE.

Clarksburg, W. Va., Aug. 1.—There are no fish in Glen Elk River, but fishing is a popular sport, nevertheless. Pursued by policemen, a stranger hurled two suitcases filled with whiskey from the bridge. Scores of men with hooks and nets have dragged the bottom of the stream.

LIGHTS FOR BICYCLES.
St. Louis, Mo., Aug. 1.—Chief of Police O'Brien, of this city, has issued orders that every bicycle rider must carry lights or be arrested. The lights must be carried from one hour after sunset to an hour before sunrise in the summer and a half hour after sunset and a half hour before sunrise in the winter.

JITNEY MEN BOOST RATES BECAUSE OF SHORE LINE STRIKE
Willimantic Finds It Hard to Go Visiting Now Days.
FIFTEEN CENT TROLLEY RIDE NOW COSTS \$2.50
Strikers Show No Inclination to Resume Work for Company—None Respond to Offer of Old Jobs.

Willimantic has been hard hit by the Shore Line strike. The cars have not been running for three weeks and there appears to be no prospect of their doing so in the immediate future. Meanwhile, persons in the Thread City find it difficult and exceedingly expensive to visit such places as Norwich, New London, Tatville, Baltic or South Coventry. It is impossible to reach the latter place directly by train. There is a mile walk from the station in Coventry or an auto hire to pay.
To add to the general tie up the jitney men are boosting their prices and instituting all sorts of rules and regulations which result in just one thing—increased fares.
Between Willimantic and Norwich there are about twenty autos now operating as jitneys and the fare is fixed at \$1 a person. Even at that rate, the drivers refuse to start until they have a car full. If one lands in a five passenger machine and is in a hurry there is sometimes nothing to do but pay for the seats which might have been filled and get what satisfaction there is in riding as though you owned the car and had a chauffeur.
There are a few drivers who have been known to take a load to Norwich for \$4 but they are looked upon as Bolsheviks by their brother jitneys.
It used to be possible for Willimantic citizens to go over to Lake Wangumbaug (Coventry lake) for the modest sum of fifteen cents but that was when the Shore Line and its employees were on reasonably good terms. To ride there in a jitney costs \$2.50. One of the mysteries of the jitney service is that this price is the same whether one simply goes to the lake or makes the round trip. The obliging jitney drivers, always striving to please, will even wait a short time for a passenger to look about and see if the lake is still there, though of course this privilege has its limits.
Willimantic merchants are also finding the strike a great inconvenience as the electric express which used to reach Thread Mill square each week-day afternoon has ceased to function. Perishable foodstuffs and other merchandise has now to be shipped by auto express at greatly advanced rates.
There seems to be no chance that the cars will resume their schedule in spite of an announcement by President Perkins that an effort would be made to open traffic. The company has offered to take back all of its employees at the old rates and set 6 p. m. on Tuesday as the hour they were to report. But when that time came not a single man showed up. This was as true on the New London branch as at the Norwich office.
Officials of the road have intimated that outside help would be secured to operate the lines but so far all that has been done is to make the statement.

NEW YORK AND NEWARK CUT DOWN FOOD PRICES
Selling Army Surplus at Engine Houses and Police Stations—100 Per Cent Less.
New York, Aug. 1.—Further steps were taken today by the city governments of Newark, N. J., and New York City to aid the laboring population to get food at reasonable prices.
In Newark the sale of army bacon at almost 100 per cent less than prevailing prices was continued. Tomorrow 30,000 pounds of ham will be put on the market to be followed by canned peas, tomatoes, corn, beans and cereal products.
In New York, authorities were rushing to completion plans to distribute an enormous quantity of food through parcel post.
Investigation has shown that retail butchers have refused to buy meat products at six cents a pound less than they have to pay wholesalers. They gave as excuse that if they did so their credit would be cut off by packing representatives.
Rigorous steps have been taken to prevent the municipally sold food from falling into speculators' hands. "If we discover any one attempting to profiteer on this food," said Mayor Hylan, "we will see that they get adequate justice in conformity with prosecution."
Mayor Charles P. Gillett of Newark, gave similar warning.

WON'T DISCUSS PROTOCOL
Washington, Aug. 1.—The document submitted to the Senate by President Wilson yesterday and which arrived too late to be received by that body, is a protocol to the treaty with Germany. It was stated at the White House today.
White House officials, however, refused to discuss the provisions of the protocol, although it was generally understood to provide for a resumption of trade relations with Germany, pending the formal ratification of the treaty.

GIANTS TO STRUGGLE WITH REDS FOR LEAD
Great Excitement Prevails When Johnny McGraw Arrives With His Team for Triple Diamond Battle.
Cincinnati, O., Aug. 1.—Interest in the struggle between the Reds and Giants for the leadership in the National League reached a fever heat here today with the arrival of John McGraw and his players from Pittsburgh. Never before in the history of modern baseball here have the fans worked themselves into such a frenzy of excitement. The fact that the diamond at Redland Field was soggy and threatening clouds lowered overhead did not dampen the ardor of the fans.
Entrenched on their own grounds the Reds were prepared to fight tooth and nail to wrest the lead from New York. There is a scant half game separating the teams and they will play three games.
Tony, Barnes and Benton will be depended on to hold the Reds in check by Manager McGraw. Pat Moran has Reuther, Eller, Salles and Ring ready for mound duty.

MANCHESTER BANDS WILL PLAY IN STATE CONTEST
Go to Middletown Tomorrow for Annual Field Day of Fifers' and Drummers' Association.
With the exception of the Salvation Army band every band in the city will go to Middletown tomorrow to take part in the annual field day of the Fifers' and Drummers' Association of Connecticut. They will all go in automobile trucks. The Talcottville fife and drum corps will be with the Manchester contingent. Organizations going from town include the Center Flute band, the Silk City band and the Buckland drum corps. Each organization has been putting in extra practice for the event and each hopes to bring back one or more cups to add to the glories of Manchester musical organizations. The Center Flute band has been very successful in winning honors wherever it has appeared and no doubt it will bring home one of the honors tomorrow night.
The Talcottville fife and drum corps is another organization that has made good in its line. It can almost be called a Manchester organization as it has a Manchester leader, Joseph Ferguson, who has been at its head ever since the first corps was organized in the village over 26 years ago. This corps won the honors at Meriden last year and the year before at Worcester it carried off three cups in competition with some of the best corps in this state and Massachusetts.

30 HURT IN ACCIDENT
Washington, Aug. 1.—Thirty persons are expected to have been injured, some of them seriously, when a trolley car toppled over while rounding a curve at Second and R streets, northeast today. According to the register, there were 95 passengers in the car at the time of the accident. More than a score were taken to city hospitals while some who suffered minor hurts were able to go to their homes unassisted.

Boston, Aug. 1.—Four automobilists were killed and several were injured in two accidents in New England early today.
Mr. and Mrs. James Ransbottom and Mrs. Carrie Nash were killed when their car was struck by a Willimantic-Providence train in Rhode Island.
Lewis B. Goodwin, one of a party of three men met death when his car left the Concord-Manchester boulevard in New Hampshire and crashed against a telegraph pole.

WILLIMANTIC SEES AIRPLANES
Aeroplane traveling over Willimantic are very frequent this summer and for the most part are "birdmen" of the United States army making trips between Mineola, L. I., and Camp Devens, Ayer, Mass. Last night at 6 o'clock one passed over the city headed towards Putnam making the third for the week. So far this summer eighteen planes have passed over Willimantic.—Yesterday's Willimantic Chronicle.

TEN-YEAR-OLD FIREBUG.
Franklin, Pa., Aug. 1.—Franklin claims the youngest firebug. He is a boy ten years old, but his name is kept secret. The police say that the child is responsible for five disastrous fires in the business section of this place in one month. "Just to see things burn" is the explanation he offers.

The lizard was found lodged in the cow's lung. The animal had swallowed it while drinking water.

Manufacturers Association Urges Increased Production

That is Their Solution for Present High Prices and Labor Unrest—They Disparage Doctrine of "Making Work" by Doing as Little of It as Possible.

As an immediate means for correcting present abnormal commodity prices and reducing the period of excessive war debt taxation, resolutions unanimously adopted by the Board of Directors of the National Association of Manufacturers at a meeting in the general offices in New York City July 18, 1919, urge public support of an effort to greatly increase the industrial production of the country, pointing out the growing tendency to restrict production on the theory that the less work a man does the more work he provides for others to do.

The resolutions declare that much of the industrial antagonism which exists between employers and employees is based on the unjustifiable and systematically fostered belief among the people that the manufacturers of the country are mainly responsible for the levels which prices generally have attained. Attention is also called to the fact that heavy war debt taxation has contributed heavily to present high prices and increased productiveness is described as an effective means of shortening the duration of war tax burdens now imposed on our industries and the individual citizen.

Factory workers are called upon to lend their aid to the manufacturers to the end that factory production may be immediately increased, as a way of restoring reasonable and more normal price conditions. Legislative authorities, the press, the churches and educational institutions are also urged to give their cooperation to the movement for increased production as a means of relieving oppressive and economically unjustified present living conditions.

The Resolutions.

The resolutions, as adopted, are as follows:

(1) Whereas the question of high prices on many commodities of life has continued, since the cessation of military hostilities in France, to be of paramount importance to the people and industries of the United States, and

(2) Whereas, there exists a well defined effort among certain classes of our citizens wrongly and unjustifiably to disseminate the belief that the manufacturers and business men

of the country are the principal and most reprehensible violators of the normal operations of the laws of supply and demand, and

Whereas, the burdens of taxation due to the war and other causes and levied on our citizens and industrial enterprises by the Federal, State and local authorities have become oppressively heavy and contribute in no small degree to the present high price levels, and

Whereas, high prices are largely due to the growth of tendencies among our labor elements to restrict and curtail individual and collective industrial production, a policy based largely on the false, pernicious and widely preached doctrine that "the less work a man does the more work he provides for others to do," which, together with other unsound and un-economic present labor tendencies, threaten to result in a lessening of the productive effectiveness of our American industrial machinery, and

Whereas, it is to the true welfare and interest of the people of the United States that our national industrial production be continuously increased so that our war debt taxation may be eliminated in as short a time as possible, more normal price conditions prevail and our industrial development and prosperity be stimulated: Now, therefore be it

Resolved: (1) That we deny the truth of and deprecate the tendency of the teaching that the manufacturers of the United States are the principal or deliberate authors of the present era of higher price levels.

(2) That we urge and call upon the people of the United States, and our factory workers in particular, to refute and discourage the un-American and dangerously unsound "make work" doctrine, which if pursued to any extent, will result in complete industrial demoralization.

(3) That we urge and call upon the people of the United States, and our factory workers in particular, to do everything in their power to encourage, stimulate and increase our industrial production, as the direct means toward restoring more normal price conditions.

(4) That we urge and call upon every duly constituted, Federal, State and local agency of government in the United States to lend its aid to an effort to foster and in-

crease our industrial production, promotion of harmony and discouragement of agencies and causes of discord and bad feeling between employers and employees, and relieve from every possible handicap the legitimate manufacturing interests of the country.

(5) That we urge upon the public press, the churches, educational institutions, and every other factor in moulding public opinion, to give all possible assistance in directing public attention to the urgent need for increasing industrial production.

THE AMERICAN LEGION AND LEGION OF HONOR

While the Soldiers Are Forming One the Employers of the Country Are Creating the Other.

While the American Legion is being formed, into a great democratic body by the soldiers, sailors and marines of the American army and navy, the men who used to employ them when they were plain citizens are also organizing what is known as the Legion of Honor.

These employers couldn't go and fight themselves, but they emptied their offices, stores and factories of their best employees, so that the war might be speeded up and won gloriously. While the youngsters were away, these employers strained every nerve to keep up their standards of efficiency with the aid of women workers, older men, and redoubled efforts on their own part. And now, as the young fighters are coming back, they are finishing the job gallantly by opening the doors to the old jobs, often with increased pay, always with a handicap and a "Welcome Home" that is the real thing.

It is not always easy for business organizations to do this. Increased cost of operations and the rather sluggish condition of commerce just at present are a serious drain on the books. But the Legion of Honor knows no compromise and whether the firm suffers or not, soldiers must not, and every one who comes back to the "old stand" is received cordially.

To every business house that pledges itself to take back all its former employees who have been serving their country, the War Department issues an official, citation, through Col. Arthur Woods, assistant to the Secretary of War, and head of the government's great employment system for the benefit of discharged service men.

Between 70 and 80 per cent of returned men have offers of their pre-war jobs, and the large majority of American employers are qualifying for the Legion of Honor.

HIGH COST OF LIVING GOING HIGHER HERE

Ice Takes a Jump Today—Milk Rising—Too Expensive to Be Ill—Too Costly to Die.

"Going up," is a good slogan for today. Local housewives this morning threw aside the carefully estimated sheet of weekly household expenses and prepared to draft a new one. The new schedule of prices on ice went into effect this morning. The price was formerly eighty cents per hundred for household use. It is now \$1.00 per hundred.

A number of milk dealers advanced the price of milk from 15 to 17 cents per quart, while one dealer with a choice assortment of cattle is charging 22 cents per quart. It will cost more to be sick, for the increased prices announced a few weeks ago by the doctors, also goes into effect today. And in keeping with the slogan, it is said that a number of the landlords have boosted their rents.

Local housewives however will find consolation in the fact that the wage increase recently granted by Cheney Brothers to their employees will go into effect on Monday. Although the nature of the increase has not as yet been announced, it is very probable that it will be a substantial one.

TO DISPUTE ACTION OF SUSPENDING MAYS

Col. Ruppert Addresses Protest to American League Head—Voices Yank's Disfavor.

New York, Aug. 1.—All signs point toward a life-sized row in the American League today, following the action of President Ban Johnson in suspending Carl Mays.

Reports from Boston quote President Harry Frazee, of the Red Sox, as saying that Johnson's action was aimed at him. He takes the stand, however, that the deal is closed and that the Yankees will have to deal with President Johnson.

Colonel Jacob Ruppert of the Yankees, has addressed a protest to the American League head, asking that the suspension of Mays be lifted at once. He pointed out that the request of the New York club is made in the friendliest spirit but called attention to the fact that the Yankees are not inclined to waive their legal or property rights.

Baseball men here believe that unless Johnson lifts the suspension Colonel Ruppert will seek an injunction to prevent him from interfering.

Colonel Ruppert pointed out today that the chances of the Yankees in the pennant hunt probably will be determined within the next two weeks and said the club went to the expense of making a big outlay for the player in order to keep New York in the running.

REGATTA POSTPONED.

Fans From All Over Country Gather Near Worcester.

Worcester, Mass., August 1.—Rowing enthusiasts from all sections of the country, gathered here today, for the opening of the 45th annual rowing regatta of the National Association of Amateur Oarsmen, were greeted with a heavy rainstorm that swept down the Lake Quinsigamund course. The canoe regatta, scheduled for the forenoon, was postponed.

Fifty five shells were on the racks of club houses along the lake ready to carry the pick of the country's scullers and sweep oarsmen in the various events of the regatta. Duluth, St. Louis, New York, Philadelphia, Washington and a score of New England cities were represented.

HUNTS FOR GROUNDHOGS BUT DIGS UP WHISKEY.

New Castle, Pa., Aug. 1.—Groundhog hunting will be a favorite sport for some time. Antonio Bellini got a big bag recently. He shot no groundhogs, but he brought home six quarts of whiskey. Antonio spied one of the animals, which immediately ducked into its hole. The hunter then proceeded to dig it out, when he came upon the whiskey cache. Antonio doesn't know what became of the groundhog.

HEAVY MAIL TO GERMANY.

Chicago, Aug. 1.—By noon on the first day the ban on mail to Germany was lifted 10,000 letters had been received at the Chicago post office for delivery in Germany. An extra staff of men had to be put in the foreign mail division to handle the rush.

Circle Theater

Through the years since Eve inhabited the Garden of Eden, the tears of women have ascended to God and He has looked down upon her great sorrow. Vast armies of women have fulfilled the great purpose. Only for love have women lived, in suffering and sacrifice, bearing the generations of men.

By man-made laws of tradition, covering centuries, there have been sex-bound women enmeshed in a slavery of sex. The bond by which man in his natural desire for a mate, has held her, cheating himself of the super-woman.

But out of the chaos of modern times the voice of woman has spoken, for in the crisis of civilization women's opportunity has come. And to man's world of suffering and need, she is rendering her all in service.

So in "The Other Man's Wife," a photodramatic expose of the happiness that was thrown away, the husband that was rebuffed for being a loving husband and a kind father—all because the wife and mother was enslaved to another whom she admired because he was socially inclined. With all that money could buy, with every luxury, with a loving husband and a beautiful home, Mrs. Hartley (Ellen Cassidy) is willing to sacrifice all this for one who calls himself a man, until—the brain that had been clouded by the artificiality of the social whirl, cleared away by a real man—her husband.

This, in brief, is the story that will be told on the screen of the Circle Theatre when "The Other Man's Wife" is shown again tonight.

It is the greatest drama of marital life ever screened.

A Pathe comedy and a News Weekly will be on the same bill.

"The Yankee Princess" will be the feature of tomorrow night's show.

Park Theater

Mae Marsh insists that everyone is held in some sort of bondage. It may be happy bondage, as occurs in her new Goldwyn Picture, "The Bondage of Barbara," but it is bondage nevertheless. This great feature will be the headliner at the Popular Playhouse tonight.

Everyone who works for a living is usually working for some one else as well, she says. And she points to any number of her friends among the stars who have a mother to support and often brothers and sisters. So it is with other people who are not stars. Girls in shops, waitresses and practically wherever a girl is found employed, she is devoting a portion of her earnings to the support of some one who, in most cases, should be self-supporting.

It is the protecting instinct in the feminine sex, Miss Marsh goes on to say, that is responsible for this. They simply must look after someone, and if it is necessary to earn money to do it rather than merely keep house for them—why, girls seem only too glad to do that.

"The Bondage of Barbara" is typical for this reason. The heroine supports a younger brother, who is more interested in idling than in making a place for himself. The fact that Barbara does not rebel, but goes on working for enough money to suffice for both, is true life, according to the slim star. It happens every day.

Happily, in the play the youth comes to his senses, and we are led to suppose that he settles down and begins to pay back all that he has accepted from his sister. In conclusion, Miss Marsh says that more and more photoplays are coming to reflect real life, not the jumble of highly colored incidents that served to entertain some years ago.

A News Weekly and a comedy will also be shown on tonight's bill. Tomorrow Bryant Washburn will be the star in a Pathe called "All Wrong."

And don't forget that "The Heart of Humanity" is coming to the Park soon.

SOCCER CLUB ELECTS.

Olympics Vote to Hold Dinner Aug. 9th to Raise Funds—Plan to Enter Hartford League.

At a meeting of the Manchester Olympic Soccer Club held at the Recreation Center last evening, the following officers were elected for the season: Manager, W. Stratton, captain, F. Dickson; vice captain, J. McCavanaugh; secretary and treasurer, W. Flavell. It was voted to hold a benefit dance in Orange Hall on Saturday, August 9th, the proceeds to go toward the purchase of uniforms and equipment. It is planned to enter the Hartford District League as soon as the season opens.

THOUGHTFUL OVER PRICES.

Although any intelligent person could see that the process of increasing the cost of living and then increasing wages to cover it could not go on forever, it remained for W. G. Lee, president of the railway trainmen's organizations, to impress this fact upon President Wilson and his advisers. As a result of Mr. Lee's interview with the President, it is given out at the White House that the President is giving "deep and very thoughtful consideration" to problems presented to him, and the railroad administration members of the railroad brotherhoods, who represented that wages would have to come down or wages go up if social unrest was not to develop into upheaval.

It is strange that the administration had not grown thoughtful on this subject before. It looks now as if something would be done to stop the profiteering both of producers and of some branches of organized labor. The railroad man states the truth when he says that an increase in wages is not the proper solution of the present economic hardships under which workmen are laboring, because they would be followed by new increases in the cost of everything which would more than absorb the additional pay. Until all classes get together to stop "profiteering", he said, the only thing for everyone to do is to get all the wages he can, a course which he declared would result eventually in precipitating the "upheaval" now staring the country in the face.

There are many ways in which the government can reduce the cost of living. One of the most effective and quickest ways would be to reduce the war-fixed price of \$2.26 a bushel for wheat, a rate which more than anything else keeps up the prices of food in this country.

THE REAL MR. LODGE.

Nations must unite as men unite in order to preserve peace and order. The great nations must so unite so as to be able to say to any single country, "You must not go to war," and they can only say that effectively when the country desiring war knows that the force which the united nations place behind peace is irresistible.

We are not quoting William Howard Taft, or George W. Wickersham, or Oscar S. Straus, or Talcott Williams, or Senator Colt, or Senator McCumber, or Charles Evans Hughes or Elihu Root, or any of the other prominent Republican statesmen and publicists who have declared themselves in favor of a league of nations. These are the words of a man who is more active in the party management than any of the gentlemen we have just mentioned. They are from an address delivered by Senator Lodge at Schenectady, N. Y., in June, 1915. We believe they not only represent the sound sentiment of the rank and file of the great party which he leads in Washington but that they also reveal the Senator himself in his true character of profound student, eminent historian, sagacious statesman and loyal American.

INVADING ENGLAND.

What German submarines failed utterly to do; what German air craft failed partially to do and what German warships never had a chance of doing is being accomplished by America without the loss of a single life or the firing of a single gun. We refer to nothing less than the invasion of England. Britain is becoming Americanized in a fashion that is causing consternation among the more exclusive inhabitants of the tight little Isle.

No sooner was the big job finished over in France, and the Armistice signed, than all England joined in a joyous round of dancing. There were parties everywhere and young and old danced in their victory jubilation to the tune of American jazz music. Through the winter season London was jazz crazy.

But now that novelty has slightly worn off and the Britishers are turning to negro plantation songs in their new enthusiasm for strictly American melody. The syncopated harmony of the cotton fields sets the

phlegmatic Briton to swaying and beating time in a manner that must make the retention of a monocle something of a feat for even his practiced eye.

American candy is also crowding out the British product in its native land according to a dispatch in the New York World. It is reported that an American candy maker has purchased a Piccadilly store and is dispensing Yankee sweets to the eager Londoners who appreciate the better quality of our confection.

It is also reported that ice cream cones form a regular entree with the traditional roast beef and potatoes of the English dinner table.

TREASURE HUNTING SUB GIVEN TRY OUT TODAY

Simon Lake's New Invention Operated for the Benefit of New York Newspapermen.

Bridgeport, Aug. 1.—Several newspaper writers from New York were members of a party of city officials and others that were invited guests today aboard Simon Lake's new treasure hunting submarine Argosy and Argonaut III on the first demonstration trip of the latest kind of under water craft. They left the harbor here at 11 a. m. and were to be taken for a trip under the surface of Long Island Sound, where the working of the two chambers between the twin hulls of the queer craft would be explained and demonstrated, and where they could see the divers go into the bottom chamber, open the doors and walk on the bottom of the sound. It was expected that the trip would consume several hours.

ANOTHER STRIKE THREATENS.

Chicago, Aug. 1.—A strike of railroad shophmen of whom there are more than 100,000 in Chicago and vicinity, was in prospect today through the failure of the United States Railroad Administration to complete negotiations with representatives of the men. Increased wages for machinists and helpers is the big issue in the negotiations which have been in progress since January 1.

W. K. Kerin, member of the executive committee of the Federated Shopmen's Union, said today that unless the men hear from Director General Hines today a strike call will be issued. He added that the men and the Railway Administration have understood for some time that a strike would be called August 1, unless the wage scale was granted.

FEDERAL JUDGE SCORES CRIMINAL WHO FAINTED.

Indianapolis, Ind., Aug. 1.—When Peter Welmer, former patrolman at Evansville, Ind., was fined \$100 and sentenced to six months in jail in Federal Court for "winking" at the transportation of liquor from Kentucky, he "fainted" in the approved film way.

"Don't pick him up," said Judge A. B. Anderson to a deputy marshal. "He's just acting; others have done it before. This man is a good play actor. His name is German, too. Great play actors, these Germans. The Hohenzollern boys, the Bethmann-Hollwegs, the Hindenburgs and Mr. Welmer here, are all great play actors. Greatest in the world." Welmer soon recovered.

FEWER DRUNKS IN N. Y.

New York, Aug. 1.—Crimes of all kinds showed a decrease of 15 per cent and arrests for drunkenness fell from an average of 24 daily to 14 daily during the first month of war time prohibition which became effective July 1, it was learned at police headquarters today.

The police records for the entire month of July are not yet available, but for the first 24 days of prohibition there were 343 arrests for drunkenness, with an approximate total of 440 for the month, compared with a total of 585 for the same month in 1918.

RECORD OF DODGING DEATH.

London, Aug. 1.—Lieutenant D. Ramsdale, British navy, holds the world's record for dodging sudden death in submarines. He has served in five different submarines all of which were sunk with all hands within four days after he left them. The last submarine he left was the L-56, sent down in the Baltic by a Bolshevik shell. Previously he was rowing away from the E-49 when she was torpedoed.

JAMAICA GINGER "JAGS."

Denver, Col., Aug. 1.—Jamaica ginger "jags" are the latest in Denver. Members of the police bootleg squad have arrested a number of persons recently on charges of being intoxicated from drinking Jamaica ginger purchased at drug stores.

GREAT WEALTH COMES TO LOCAL TAILOR WHO WAS GRAND OPERA STAR

A Legacy of \$100,000 From Rich Uncle Brightens Little Tailor Shop.

FEVER FLATS VOICE FORCED TO THE FLAT

Lawyer Investigating Value of Missing Stock Left to John Martini—Has Had Varied Career.

Romance lurks in lowly places as well as in story books. When the junk man, raucous of voice, inquires if you've got bottles to sell treat him politely. Who knows, he may be a king's son. When your janitor tells you that you'll have to sweep the halls yourself, be not angry, for next day you may see him passing the house in an imported limousine.

In Manchester's north end, in a little tailor shop, one John Martini suavely takes your suit, bows with pleasure that you allow him to clean and press it and yet—

John Martini, once sang before the royalty of Europe, and before the wealthy of North and South America in grand opera.

John Martini married the niece of Phil Dwyer, known to every man who ever heard of a race horse, a man who died recently worth millions.

John Martini just received the copy of a will made by his uncle in which he is left 600 shares of Queen mining stock in Bakersfield, Arizona, worth over \$100,000.

But let the story unfold itself naturally.

Grand Opera Singer.

Years ago Martini came to this country with an Italian Opera company called the Lombardi Co. The members travelled through this country. At Hot Springs, Arkansas, the troupe sang. In a box was Phil Dwyer and his niece, Martini was singing the leading part in Il Trovatore. His is a baritone voice and in those days, critics raved over it. A bouquet fell on the stage. It had been thrown from the box in which Miss Moore, Dwyer's niece, was seated. A note was attached complimenting the singer on his voice. After the performance they were introduced. Miss Moore said she lived in Brooklyn, N. Y. and that she was studying music.

Fever Ruins Voice.

The note started a correspondence which went all over North and South America. In Brazil, Martini contracted yellow fever. The doctor told him the climate of California would benefit him. He went there. The disease had spoiled his voice. From doctor to doctor, the singer journeyed, but none could help him. His case was hopeless, they said. One day he went into a Chinese laundry. The Chinaman said "You got yellow fever?" "Yes," answered Martini. "Take this note to a Chinese doctor, he will cure you." To the doctor Martini went.

"Two hundred and fifty dollars for a cure," said the doctor. "Put the money in a bank. If you're not well in three weeks, take out the money."

The bargain was made and Martini drank all sorts of concoctions made of bugs and herbs and snakes. But at the end of three weeks he was cured.

Home and Heart Broken.

Then the singer came East and he and Miss Moore were wed. All was happiness until their baby died some years afterwards. The couple loved this child so much that it broke their hearts. At this time Martini sang at churches and at concerts. His wife became ill and for a long time was an invalid. Then she also died. Heartbroken, Martini went West again to California just about the time of the earthquake. The crash came and he lost all of his savings. Then remembering an uncle, Louis Martini, a bachelor, who was the Italian vice consul at Bakersfield, Arizona, he went there and lived with him several years. And between the men there sprang up a close friendship.

Martini left his uncle and came East, eventually, to find employment in Cheney Brothers as a presser of silk ties, as he had picked up the tailor's trade in his wanderings. That brought him to Manchester and some time ago he left Cheney Brothers to go into business for himself.

mail a thick, legal looking envelope. It was from a legal firm in Arizona and contained a copy of the will of Louis Martini, the tailor's uncle. The will said that 600 shares of Queen mining stock, bought nearly 30 years ago, had been left to the Manchester tailor. Inquiry developed that the stock is worth over \$100,000.

A local lawyer is handling the case, Martini says that he will remain here until the affair is settled. Then maybe he will go back again to his beloved California for he wants to end his days there.

So the next time you hand a suit to John Martini to be cleaned in his little shop on North Main street, remember you are in the presence of a former grand opera star and a man who will some time be whirling through town pointing out to his chauffeur the little shop on North Main street, saying: "There's where I used to press the pants."

ENDORSE TAFT'S STAND ON LEAGUE OF NATIONS

League to Enforce Peace Would Ratify Pact Without Change of Any Kind.

The League to Enforce Peace through a resolution unanimously adopted yesterday at a meeting of its Executive Committee, declared for "unconditional ratification" of the Covenant of the League of Nations. The following statement was given out following the meeting:

"The League to Enforce Peace is in favor of unconditional ratification of the Covenant of the League of Nations as embodied in the pending treaty with Germany and is, therefore, opposed to any amendments or reservations thereto, since, in the opinion of the League to Enforce Peace, any amendments or reservations will jeopardize the treaty."

"The Executive Committee, in adopting the foregoing resolution, is in accord with the position of its President, the Hon. William Howard Taft, who declared in his letter to Chairman Hays that he favors unconditional ratification of the Treaty and Covenant and would vote therefor were he a member of the United States Senate."

Mr. Taft, President of the League, was unable to be present, being on his way from Murray Bay, Canada, to Chicago, to attend a hearing of the War Labor Board there Friday morning.

Mrs. Carrie Chapman Catt, President of the National American Woman Suffrage Association, was elected a member of the League's Executive Committee to succeed the late Dr. Anna Howard Shaw.

PROHIBITION PREVENTS CARRYING OUT OF WILL

Portland, Ore., Aug. 1.—Now that July 1 has come and gone one provision of the will of the late Gustave Glasser cannot be complied with. He willed: "I do give and bequeath unto the Germans Veterans (Verband Deutscher Veteran der Nord Pacific Staaten) the sum of \$50,000 to enable them to participate at my funeral with their flags and to have after the funeral a solemn draught in the true German fashion." The estate was valued at \$10,000.

Freedom Of Press Is Decried By Lenine, Who Says Red Army Grows Stronger Day By Day

London, Aug. 1.—The Norwegian politician Pantervold, gives an account of an interview with Lenine in the columns of the Berner Tagwacht, says the Manchester Guardian, in which, referring to Allied intervention, Lenine said that it would become increasingly difficult owing to the ever-growing sympathy with the Soviet movement in Entente countries. Moreover, the Red Army was becoming stronger every day.

Pantervold asked Lenine what he thought of the agrarian question. The answer was:

"We are divided into three groups the Half-Peasants, or the Country Proletariat (who now, as formerly, sell their labor and are our best supporters), the Little Peasants, and the Big Peasants. The last are naturally our opponents because we have taken the land from them, but their resistance has been broken. The Little Peasants, as contrasted with the wealthier classes, are wavering. They are naturally opposed to grain monopolies and desire free trade for their produce. In the country there is a great lack of material,

and in the town of food. Our economic position is also very uncertain. The shortage of fuel is not the least serious factor. But as we have reconquered the coal-mining region there is hope for the immediate future. Without this our position would have been untenable.

"We believe that the so-called freedom of the press is the right of the bourgeoisie to cheat and deceive the proletariat. The bourgeoisie possesses all newspaper capital, printing material, machinery and the papers themselves. With the press in its hands the bourgeoisie has unlimited power over public opinion. The freedom of the press is the same as freedom for capital. And we suppress capital.

"Our motto is: 'The press for the proletariat, not for capital.' As soon as the war against the bourgeoisie is over, it is possible that we may place printing of a political party that desires to have a paper. But at present we are in the middle of a civil war.

"We have already legalized the Menshevik party that publishes its

official paper, the Ever Forward, in Moscow. I think that in the near future we shall be able to legalize the Social Revolutionary party. We shall also soon remove the muzzle from the opposition press according as the different parties are ready to work with us loyally and willingly. "Civil war is civil war, and it has its own laws. It is like this—either capital or the proletariat dominates. There is no other alternative. There are people who are not satisfied with our dictatorship. I tell them, 'Go to Siberia and see if the dictatorship there is any better.' We shall be glad to provide them with the necessary transport!"

UNEARTH INDIAN VILLAGE.

Keota, Colo., Aug. 1.—What remains of a once large Indian village has been found near this place in the Pawnee Breaks district by men prospecting for talcum deposits. Human bones have been found in the limestone formations in this district, and more than two dozen chimneys and ovens of rock have been uncovered and are in almost a perfect state of preservation.

British Eyes Opened at Magnitude Of Our Schools; Get Many Pointers

London, July 19 (by mail).—The two-months' tour of American colleges and universities by the British Educational Mission was an eye-opener for the British. That is the statement of Sir Arthur Acland, former Minister of Education, who was a member of the British delegation.

The value to the world of a good understanding between America and ourselves may be definitely helped by a steady and systematic interchange of some of the best minds of the two nations, said Sir Arthur.

BENEDICTS AGAIN PULL IT OVER ON SINGLES

Married Men Seem to Have More in Back of Them—At Least in Tug of War.

Before a large crowd at the West side playgrounds last evening, the Benedicts again triumphed over their brethren in the tug of war. The married men won both straight pulls in two and one half, and three and one half minutes respectively. The single men however came back strong in the other contests winning the ball game by a score of 9 to 8, and the two volley ball games by scores of 21 to 0, and 21 to 19. Each team now stands on even terms, being credited with 12 1-2 points each. The officials last evening were as follows: Sanderson, umpire, baseball; Leggett, umpire, volley ball; tug of war judges, Mr. Jolley, Mr. Russell, Mr. Leggett and referee McCarthy.

THRUST BLAZING RAGS INTO BED ASSERTS WIFE

Woman Accuses Husband of Trying to Burn Bed in Which She and Daughter Slept.

New York, Aug. 1.—Accused of having attempted to set afire the bed in which his wife and child were sleeping, Lario Bombardere, aged 52, of 6,412 New Utrecht Avenue, Brooklyn, was arrested yesterday on a charge of arson. Mrs. Elizabeth Bombardere, who lives at 1,401 Sixty-third Street, Brooklyn, said she was in bed with her daughter, Margaret, aged 12, early Wednesday morning when she was awakened by falling glass.

A man thrust a rake with blazing, oil-soaked rags on the end through the broken window and touched it to the bedclothing, which caught fire. The mother and daughter escaped. They jumped from bed when they saw the flaming rags, and as they ran out, they declare, they recognized Bombardere, with whom they have not been living. Bombardere was held in the Coney Island Court in \$5,000 bail for examination on August 6.

U. S. TO ESTABLISH MORE STATE BUREAUS

Four New Employment Bureaus to Be Started in This State—Total Eleven.

Hartford, Aug. 1.—The United States employment bureau for this State with headquarters in this city will open branch offices in Waterbury, Torrington, Bristol and New Britain in the near future. The bureaus are intended to serve returned soldiers and sailors but civilians will also be cared for as much as possible. Other branch bureaus have already been established in Stamford, Bridgeport, New Haven, New London, Norwich, Wallingford and Willimantic.

BULLDOG ENJOYS PLAY AT WEST SIDE GROUNDS

Does Stunts On Apparatus—East and West Meet On Diamond—Pick Glass for Ice Cream.

A bulldog owned by Alex Leggett of Center street is robbing the College street playgrounds of their popularity. For "Frisco"—this is the name of the canine—is a daily visitor at the West side playgrounds, and is attracting a great deal of attention and incidentally a large number of children, by his antics.

"Frisco" introduced himself to Director Weber at the start of the season. He eyed the recreational paraphernalia, which was then being constructed with an air of inquisitiveness. His apparent loneliness soon attracted the sympathy of the kids, who taught him how to enjoy the various features on the ground. "Frisco" proved to be a ready and apt pupil and thoroughly enjoys a swing. His greatest feature is climbing up the ladder to the shute and then sliding down.

The first of the inter-ballgame series between the East and West side grounds was staged at the latter tract last evening. The game, which was hotly contested, culminated in a victory for the West side aggregation by a score of 4 to 3. The visitor's pitching honors were divided between Martley, Gustafson and McDonald, while Cervini held the mound for the vanquished. The West side team also won both the volley ball games played, the scores being 21 to 12, and 21 to 19.

A glass picking contest was the feature of yesterday afternoon's activities, six boys competing. The winner was awarded a pint of ice cream, the second man one-half a pint. There was a tie for third place, consequently both boys were presented with an ice cream cone. This evening's feature will be a tug of war between the married and single men.

SEN. KING DEMANDS EVACUATION OF TURKS

Insists That Turks Be Immediately Expelled from Armenia—Fears Further Massacres.

Washington, Aug. 1.—Immediate evacuation of Armenian territory by Turkish troops is demanded by a resolution introduced in the Senate this afternoon by Senator King of Utah.

The resolution sets forth threatened massacres of Armenians by Turks and calls upon the peace conference and the supreme war council to take immediate steps for Turkish evacuation of Armenia and for arming the Armenians and supplying them with food.

LIVE LIZARD IN COW'S LUNG FATAL TO BOVINE

FIVE PER CENT MORE FOR PUNCTUALITY

In Addition to Substantial Wage Increases Cheney Brothers Give Bonus for Regular Attendance.

In addition to the announcement of a substantial increase in wages beginning August 4, which was made several days ago, Cheney Brothers today posted the following notice:

In accordance with notice of July 22, 1919 readjustments of wages will be put into effect dating from August 4.

In addition to all other wage and bonus increases, all employees who are paid by the day or week or on piece work, either with or without bonus, will be granted an additional wage each week of five per cent of the total amount of their compensation for the week when they have a perfect record for the week for attendance and punctuality, without any absence or tardiness. Time lost by being laid off by the Company shall not be considered as affecting attendance record.

(Signed)
Cheney Brothers
August 1, 1919.

STOCK MARKET

New York, Aug. 1.—Advances were recorded in many issues at the opening of the stock market today but were lost in the next few minutes. The tangle in money made outsiders regard the financial situation as acutely unsettled and it was effective in bringing in a fair volume of outside selling orders, but the supply was quickly absorbed and the tone of the general list was steady the end of the first fifteen minutes.

U. S. Steel yielded 1-2 to 108 5-8. Baldwin advanced 5-8 to 111 and then reacted to 110 1-2. Crucible after rising 1-8 to 134 5-8, reacted to 134. Similar movements were noted in the Petroleum stocks.

Irregularly continued throughout the forenoon. U. S. Steel Common, after falling from 109 1-4 rallied to 109 5-8. Most of the other industrial issues moved in about the same manner. Marine Common yielded over one point to 59 3-8. Pan American Petroleum after dropping to 112 rose to 113 1-2.
