## REINFORCEMENTS BEING BROUGHT UP TO GUARD POINTS ALONG THE BORDER

### All American Army Posts Strengthened — Cavalrymen Have Not Yet Met Up With Bandits Who Kidnaped Fliers—Believed That Brigands Have Divided Into Groups of Two or Three.

Marfa, Texas, Aug. 23.—Reinforcements of American troops and machine guns have been brought up and stationed at strategic points along the Mexican border. All the American army posts in the Big Bend section have been strengthened. This move was explained today by army officers as merely a precautionary measure and in the nature of a practise maneuver for the men. No apprehension is felt of an attack at any point in this district either by the bandits or Carranzistas troops. Nor have the officers any fear of a clash between the Carranzistas and the troops of the Eighth Cavalry now pursuing the Mexican outlaws.

### Did Not Meet Bandits.

American cavalrymen rode hard all day Friday through the mountains without again coming into contact with any groups of the outlaw gang of Jesus Rentario that held two American airmen for ransom, according to reports reaching headquarters.

### Trying to Establish a Reasonable Price Above Selling Above This to Be Punished.

The Carranzistas troops in the region now being combed by the Americans are not in great numbers. Communications with them have been cut off and the American cavalrymen have shown no disposition to interfere.

### Aviator's Report.

An aviator brought word that a column of the Eighth Cavalry, under command of Major C. C. Smith, met a column of Mexican federals. The Mexican commander merely inquired if the Americans were on Mexican soil with the authority of the American government and then passed on.

### Brigands Divided.

It is pointed out that it is the custom of the bandits to split up into groups of two, three and four, when pursued, and to meet at some wild point in the mountains within from four to ten days. If this policy is followed in the present instance the trail of one group may lead to the place of rendezvous and render the capture of the whole band probable.

### Major General Joseph T. Dickman, commander of the Southern Department, U. S. A., left Marfa for San Antonio last night.

No report from bombers. No reports have been received from the two bombing planes which set out yesterday for the "front." According to a report current at the time cavalry scouts had located the headquarters of the outlaws and the machines were to be employed in wiping out the mountain stronghold with high explosives to save the lives of soldiers that otherwise might be lost in a direct attack.

### Other bombing planes are being held here and are engaging in aerial target practice.

There has been no confirmation of the rumor that eight suspected members of Jesus Rentario's bandit gang had been brought here and were being held incommunicado while the American authorities could check up their movements during the time. Lieutenant Davis and Lieutenant Peterson, of the air service, were being held for ransom.

### What Mexicans Say.

Washington, Aug. 23.—The attitude of the Mexican City press with reference to the presence of American troops in the Big Bend section of the border is one of indifference. The press is not interested in the movements of the American army.

## AWAIT HUSBAND'S RETURN TO PROBE STRANGE DEATH

### Wealthy Brockton Persons Now On Yachting Cruise—Mrs. Washburn's Death.

Brockton, Mass., Aug. 23.—Not until the return of Francis R. Washburn, Mrs. Lillian Waitt, of New York, his former wife and Albert H. Waitt, millionaire cigar manufacturer, will Assistant District Attorney Kane set a date for the inquest in the tragic death of Mrs. Hazel B. Washburn.

Mr. Kane has learned that the Waitt yacht left its moorings in Buzzard's Bay Wednesday, the day after the funeral of Mrs. Washburn. He believes that Mr. Washburn is a member of the yachting party. The police say the second Mrs. Washburn died as the result of an illegal operation. Later a story came up from Onset to the effect that Mrs. Washburn was injured while frolicking with Mrs. Waitt.

The friendship that existed between the Washburn and Waitt families is occasioning wide comment. Mrs. Waitt was the first wife of Mr. Washburn and divorced him several years ago later marrying Albert H. Waitt. During the past summer both families have been very intimate at Onset and were seen together frequently.

## SENATE WILL ATTEMPT TO FIX FOOD PRICES

### Trying to Establish a Reasonable Price Above Selling Above This to Be Punished.

Washington, Aug. 23.—An attempt will be made in the Senate to give the fair price committees established by the Attorney General legal authority to fix "reasonable" prices.

The sub-committee of the Senate Agriculture Committee today reached its decision in considering the amendments to the food control act asked by Attorney General Palmer to fix a penalty for charging "unjust or unreasonable prices."

Senator Smith, of Georgia, proposed an amendment which would give the United States District Attorneys authority to create fair price committees and to declare all prices above those fixed by the committees as unreasonable.

If the Attorney General will agree to this amendment it will probably be reported to the Senate. If the Attorney General fails to agree Senator McNary, of Oregon, a member of the sub-committee said that in all probability the amendments to the food control act passed by the House yesterday will be adopted by the Senate.

## PRISON GUARDS SHOOT TWO WHO BREAK JAIL

### Now in Hospital, One Seriously Injured—Two Others Escape to the Woods.

Cheshire, Aug. 23.—Patrick Mazzone of New York and George Conlon, of New Haven, two prisoners at the state reformatory here, who were shot by guards while attempting to escape from a gang clearing up land near the institution yesterday, were reported to be recovering at the reformatory hospital today. Guards and nearby police are hunting for Alexander Glinesky, 21, of New Haven, and Quinn Roderick, 19, of North Carolina, who effected their escape into the woods and disappeared. No trace of the escaped men had been found up to this forenoon the reformatory officials stated. Mazzone, one of the men shot by the guards, suffered the worst injury, a bullet puncturing his intestines. His condition is serious but the physicians believe he can recover. A bullet grazed Conlon's chin.

When a man is too proud to beg and too honest to steal he might try the experiment of going to work.

## POSSIBILITY OF COUP TO RESTORE MONARCHY IN RUSSIA, IS REPORT

### Adherents of Romanoff Family Active in Various European Cities.

## LENINISM TOTTERING; BRITISH AIDING ANTIS

### Former Dowager Empress in London—Grand Duke Nicholas in Stockholm—Generals of White Armies in Conference.

London, Aug. 23.—Now that Leninism is believed in government circles to be tottering under the ring of steel forged by the anti-Bolshevik armies, attention both in and out of official circles is entering upon the possibility of a coup to restore the monarchy in Russia.

Indications are piling up that the adherents of the Romanoff family, the former ruling dynasty of Russia, are active. They may be summarized briefly:

**Dowager Empress Alive.**  
1.—The former dowager empress of Russia is said to be living quietly in London and Russian officers who are being trained here for service in Admiral Kolchak's army have been invited to be presented to her to pay their respects.

**General Yermoloff, former military attaché to the Russian embassy in London and has been active in having Russian officers meet the former dowager empress.**

**Nicholas in Stockholm.**  
3.—Grand Duke Nicholas, uncle of the late Czar and former commander in chief of the Russian army has suddenly appeared in Stockholm to take part in a great council of war on the part of generals who are leading the Russian White Armies against the Reds.

Some outspoken British newspapers have already professed to see propaganda afoot in favor of the restoration of a monarchical government in Russia and the matter has been broached in the House of Commons.

## CAMPAIGN A SUCCESS.

The summer campaign against the Bolsheviks has been meeting with greater success than any offensive that has been undertaken against the forces of Lenin and Trotzky. With the British furnishing large stores of war materials and the Roumanians undertaking an offensive in conjunction with the South Russian army under General Deniken developments of high importance—both military and political—are already looming on the horizon in Russia.

## AGAIN HUB'S POLICEMEN THREATEN TO STOP WORK

### 5,000 Curmen Also Want to Quit—Strike Will Tie Up Ninety Cities and Towns.

Boston, Aug. 23.—Strikes of Boston's 1,400 policemen and 5,000 curmen of the Bay State Street Railway lines in surrounding cities and towns threatened today. It is now probable that the entire system of the Bay State Road, which serves ninety cities and towns will be entirely tied up either Tuesday or Wednesday of next week.

At special meetings of 15 local unions the men were asked by international officers, their counsel and the members of the joint conference board to postpone strike action and on Monday next take a referendum vote on five questions concerning acceptance of the recent wage award of the National War Labor Board.

Argued by the steps taken by Commissioner Curtis to disrupt the Boston police union and to fight a strike if one is called, organized members of the force may decide at a meeting here tonight to order to walk out immediately; it was learned today.

The greater part of the city of Amsterdam is built on piles; the famous town hall standing on no lower than 18,000.

## YANKS KEPT IN RUSSIA AS COLLECTION AGENCY

### Rep. Mason So Declares Before Foreign Affairs Committee Today.

## SHOULD BE WITHDRAWN

### Congressman From Illinois Says Soldiers Are kept in Siberia to Enforce Payment of Russian Bonds.

Washington, Aug. 23.—Opposition to the continued maintenance of American troops in Russia was crystallized in the House today and a demand for the immediate withdrawal of these forces was being planned by Republican leaders.

**Citizen Delegations.**  
Representatives Rhodes of Missouri, and Mason, of Illinois, Republicans, appeared before the House Foreign Affairs Committee today with citizen delegations from their respective states to ask why American soldiers were being kept in Siberia and for how long; the number of Japanese and Italian soldiers now in that country and why Great Britain and France have no soldiers there; and what is the policy of the Japanese government in connection with Siberia.

**Should Be Withdrawn.**  
Rhodes was insistent that all American troops should be withdrawn from Siberia. He demanded that there should be a public announcement by the Administration as to plans, purposes and objects in holding American troops to military duty in Siberia.

**A Serious Charge.**  
Mason charged that the American troops, ostensibly kept in Siberia to guard railroad property, were really being kept there as a collection agency to enforce payment on some ancient Russian bonds held in this country. He said that for thousands of these troops kept in Siberia were from Illinois and the parents of the men desired their return to this country and their release from war service.

## YANKS MAY BE SENT INTO UPPER SILESIA

### May Take Soldiers From the Rhine to Restore Order Before Peace is Declared.

Paris, Aug. 23.—American troops may be sent into Silesia before the peace treaty is ratified if the chaotic situation there does not clear up according to officials close to the American delegation today. In this event it has been said that the United States soldiers would be withdrawn from the American army of occupation on the Rhine.

How the American people would regard such a step appears to be the only hitch to immediate action as all reports from Upper Silesia indicate that the situation there demands urgent measures.

Herbert Hoover and others are understood to have expressed the opinion that a few Americans could do more than the combined army of the allies, because the people there have the utmost trust in the Americans.

## FORM NEW ACTORS' UNION.

New York, Aug. 23.—The war clouds which have been hovering over the Equity deepened today as the result of the formation of a new actors' organization by George M. Cohan to fight the striking Actors' Equity Association.

Leaders of the Equity Association and the allied organization of chorus girls declared they would remain out, charging that the "Cohan Alliance" is backed by the theatrical managers. The new alliance starts with a membership of about 470, including David Warfield, Blanche Bates, William Collier, William Gillette, Francis Starr, Amelia Bingham, and Marie Cahill.

## LOCAL WOMAN DIES FROM OVERDOSE OF HEADACHE POWDERS

### Mrs. Oscar Strong Had Been Dead Eight Hours When Found.

## DANGEROUS AMOUNT OF ACETANILID IN REMEDY

### Medical Examiner Tinker Thinks Death Due to Strain of Poison On Heart—Mrs. Strong Subject to Headaches.

Oscar Strong, of 35 Cottage street, employed at the Norman Hills tobacco plantation in Wapping, returned from his work last evening. Because his wife had gone to Hartford he prepared his evening meal and then dropped into a neighbor's for a chat.

He returned to his apartments about ten o'clock and going into one of the rooms saw his wife's hat lying on a table. He called her name but there was no answer. He walked into the sitting room. His wife lay on a couch. Thinking that she was sleeping he approached the couch and spoke to her again. Receiving no reply he lifted one of her hands. It was icy cold. Mrs. Strong was dead.

With the hope that there might be a spark of life left, Mr. Strong sent in a call for Medical Examiner Dr. William R. Tinker who rushed to the home on Cottage street. After an examination he pronounced Mrs. Strong dead. In his opinion death was due to heart failure caused by an overdose of headache powder, which perhaps contained a dangerous quantity of acetanilid. The body was turned over to Edward W. Post for burial arrangements.

The deceased was formerly Mrs. John Campbell, her husband having died during the last year. She was married on June 25, to Oscar Strong of Wapping. The couple has resided in that place until last Tuesday when they moved back to Cottage street to Mrs. Strong's former home.

Mr. Strong said that his wife had been subject to severe headaches and it was probably during one of these spells that she took an extra dose in order to obtain relief. In Dr. Tinker's opinion Mrs. Strong had been dead for at least eight hours.

Aside from her husband, Mrs. Strong leaves one brother, Edward McMahon of Brooklyn, N. Y. The funeral arrangements have not been completed.

## YOUNG MAN SAVES \$5,000 FROM WAGES AS RIVETER

### Worked Eight Seventeen Months But Received from \$140 to \$150 Per Week During War.

Hartford, Aug. 23.—Louis Friedman of this city, arrived here today after spending seventeen months as a riveter in a New London shipyard and showed Superintendent of the United States employment bureau a bank account of \$5,000 which he had saved in that time. Mr. Davenport sent the young Friedman, who is but 20 years of age to New London as a ship yard worker. He spent his first day as a heater boy but was soon put to work as a riveter. He worked from 90 to 102 hours a week while the war was on and his average weekly pay was from \$140 to \$150. He has invested \$2,000 of this in Liberty bonds and has given freely to war work organizations.

He left New London last Friday as he intends to work for a couple of years on the Pacific coast. He was born in England of Jewish parents and has been in this city less than nine years, six of which were spent in Hartford. He was employed at various occupations before becoming a riveter.

Miss Christine Fredericksen of Charter Oak street and Miss Erla Benson of Blissett street left Saturday for a ten days' stay at Myrtle Beach.

## SENATE COMMITTEE FAVORS GIVING SHANTUNG TO CHINA

## TWO OF STATE'S HEROES TO REMAIN IN FRANCE

### Bodies of Major Rau and Capt. Locke to Rest Where They Fell.

## WIDOWS HAVE DECIDED

### Photograph of Rau's Grave Received—Other Connecticut Men Who Made Supreme Sacrifice Buried Nearby.

Hartford, Aug. 23.—The bodies of Major George J. Rau and Captain Arthur F. Locke, 102nd Infantry of officers who made the supreme sacrifice on the battlefield of France fighting for the cause for which they died will rest forever in the national cemetery for A. E. F., dead in France, it was announced today by the widows of the dead heroes, Mrs. George J. Rau and Mrs. Arthur F. Locke, both of this city.

Both Mrs. Rau and Mrs. Locke had been deliberating for the past several months as to the best method to adopt—to leave the bodies rest in France or have them brought back to this country for burial in a national cemetery. After much communication with the war department in which they asked Mrs. Rau and Mrs. Locke to decide immediately it was thought best by them to adopt the former plan as they believed that their husbands were living glory they would have asked to have their bodies buried on the battle field of honor.

**Photo of Grave Received.**  
A picture of the grave of Major Rau which is located just north of Chateau Thierry was recently received by Mrs. Rau from Major John Wilmer, Surgical Ward, No. 4, Camp Devens, which he photographed on May 24, 1919. The grave of the major is only a few hundred yards from where he fell on the morning of June 25, 1918 when he was leading his men into the trenches. It is located on the side of a beautiful lake just north of Chateau Thierry and is one of several graves of Connecticut soldiers who made the supreme sacrifice in that locality during the Second Battle of the Marne.

**Locke Buried in Mandres.**  
The body of Captain Locke lies in rest in Mandres, Vosges, 6 kilometers from the place where he met death. He was killed in the battle of Selchprey, the first major engagement of A. E. F. troops in France after he had emerged from a dug-out with valuable papers and data which he attempted to save from the hands of the attacking Huns. During the time the Yankee Division was fighting in the Toul sector members of his command decorated his grave weekly.

Several thousand men are at present erecting large national cemeteries in France and as soon as each one is completed the bodies of those who died for the cause will be dug up and transported to the nearest cemetery for burial where full military honors will be paid.

## FLOUR RETURNED TO OWNERS.

Boston, Aug. 23.—The 16,338 bags of flour seized by federal agents last Saturday at the market warehouse company plant in South Boston was released by the government today and returned to the owners. The release followed a ruling by United States Judge Morton that the government had failed to produce evidence of hoarding. The big flour seizure was one of the two decisive moves made by Department of Justice officials in Boston against alleged profiteers. The other was the seizure of a store of sugar in Charlestown the sugar being released. Judge Morton found that the sugar was legally stored for export to France.

Everything now has an inflated value. The milk business is said to have reached high-water mark.

## Vote 9 to 8—Senator McCumber, of North Dakota, Votes With Democrats in Opposition to Motion—Senator Lodge Asks That "China" Be Substituted for "Japan" in Articles 156, 157 and 158.

Washington, Aug. 23.—The Foreign Relations Committee of the Senate today voted 9 to 8 in favor of the return of Shantung concession to China instead of Japan.

**Substitute "China."**  
The committee voted to strike out the word "Japan," wherever it occurs in Articles 156, 157 and 158 of the Treaty of Versailles and insert the word "China" the effect of which is that the committee favors the return of the concession in Shantung to China instead of Japan.

**Voted With Democrats.**  
Senator McCumber, Republican, of North Dakota, voted with the Democrats in opposition to the motion. Senators Shields, Hitchcock and Pittman, Democrats, were not present but by agreement their votes were recorded in the negative.

The motion to strike out the word "Japan" and insert "China" was made by Senator Lodge, Republican, chairman of the Committee.

**Denial by Lodge.**  
Senator Lodge denied that he had even intimated that it was the purpose of the committee to report the treaty to the Senate within a week or otherwise hastily to conclude the consideration it requires.

Lodge followed up his denial with the announcement that the committee still lacked official information essential to complete consideration of the treaty and that it had decided again to request of President Wilson official information which he had thus far denied it.

**Open Hearing Held.**  
Open hearings were to be continued, so as to allow those advocating the right of Ireland, Egypt, Persia, India, the former German colonies in Africa, Korea and even Scotland, to appear before the committee.

Senator Lodge also intimated that another month at least might elapse before the committee would be ready to report the treaty.

## WAPPING BOY INJURED IN FALL FROM SHED

### Herbert Strong Sustains Compound Fracture of Right Leg—Is Taken to St. Francis Hospital.

(Special to the Evening Herald.)  
Wapping, Aug. 23.—As a result of a fall from the roof of a tobacco shed in Wapping this morning, Herbert Strong, age twenty-one, the son of Mr. and Mrs. Charles Nevers, of Wapping, is in the St. Francis Hospital with a compound fracture of the right leg. An operation to reduce the fracture was necessary at two o'clock this afternoon and at two-thirty the injured boy was reported to be resting.

Herbert Strong was employed by Frederick Newcomb, the contractor who has been engaged in repairing some tobacco sheds in Wapping. The boy was on the roof working and in some way lost his footing and fell to the ground. He was hurried to the Depot Square at the north end and from there he was taken to the St. Francis Hospital in Holleran Brothers' ambulance.

Unless complications ensue, Strong will not be in any danger, the doctor at the hospital says, as the bones have been set.

Discharges from the Army now total 3,204,753. The war department announces, leaving a net strength of the 12th of 209,449 officers and men, of whom 109,928 still were in Europe.

## GARDEN HOSE QUENCHES GARAGE CHIMNEY FIRE

No Damage From Fire at Old Nelson Place—Third Call in Ten Days for North End Firemen.

A chimney fire in the old blacksmith shop on the Nelson place called out the firemen of the North end about half past ten this morning. No damage was caused as the fire was confined to its origin and quickly extinguished by the use of a garden hose. It was not necessary for the firemen to use the hydrants although Hose Company No. 2 had their apparatus on the scene in short time.

Had it not been for the quick work of men who happened to be in the vicinity of the fire, much damage might have been caused for the building is now being used as a garage.

This is the third call for the North end firemen in the last ten days.

## H. C. D. RUNNING RACE WITH H. C. L.

St. Louis, Mo., Aug. 23.—The high cost of living is almost equalled by the high cost of dying.

The hospitals here have advanced the price of rooms 30 per cent. A funeral that once cost \$100 now costs \$160. The hearse driver who once was willing to work for \$9 now charges \$12. The grave that could be secured for \$30 several years ago has gone up to \$40, and the grave digger will not touch a pick and shovel for less than \$3 a day, whereas he used to work for \$1.50. Mourners must pay \$2 for a ride in an automobile to the cemetery instead of the former charge of \$1.50. The tombstone that used to retail for \$100 now costs \$125. Flowers also cost more.

Undertakers, cemetery keepers and monument makers who furnished these facts say that still higher prices are likely.

Busses will leave Center for Willimantic Camp Grounds, Sunday, about 7 a. m. Book seats in advance. Call No. 7 for particulars.—adv.

## GOLF TOURNAMENT

North Against South at Oakmont Today.

Pittsburgh, Pa., Aug. 23.—It was the North against the South when S. Davidson Herron, of Pittsburgh and Robert Jones, of Atlanta, teed up at Oakmont today to give battle for the amateur gold championship of the United States.

Perhaps no other national tourney has reached the finals with two men placed as young as the contestants today. Their combined ages is less than 40.

Jones, 17, has had to play brilliant golf to remain in the contest. During the week he disposed of two former champions, Robert Gardner and W. C. Fownes, Jr. Jones' play yesterday was erratic at times, but he was strong in the latter part of the game.

Herron, 21, has played the most consistent golf of any of the contestants. He has disposed of all his opponents by large margins.

Ideal weather brought out a great crowd today.

## JEALOUSY LANDED GOLD TOOTH FOR SHAH OF PERSIA

BEAUTIES—S FOR HIMSELF. Toledo, Ohio, Aug. 23.—Trials of a toothpuller in a harem were described here by Dr. A. S. Hungerford, of Tehran, Persia, who visited Toledo on his way back to the Pacific Coast.

Fourteen years as the royal dentist for his majesty, the Shah of Persia, who has a nifty harem in his palace, has convinced the dentist that life with a surplus of beautiful spouses does not have all the traditional joys.

One of the doctor's first duties in the Shah's palace was to pull a tooth for a member of the harem. When the dentist finished her beauty had been enhanced by a brilliantly flashing gold bicuspid. Such jealousy did this addition to her beauty strike in the hearts of the harem that forthwith they all went slaughtering and sobbing to the Shah, charging his majesty with partiality. His majesty got out of the difficulty by ordering a gold tooth for each of them, but to even matters up ordered three United States molars for himself.

## FARMERS' CONGRESS HOLDS ITS ANNUAL CONVENTION

Stillwater, Okla., Aug. 23.—Oklahoma farmers today are gathering here for the opening of the seventh annual Oklahoma Farm Congress, conducted by the Oklahoma Agricultural and Mechanical College here.

## WOMEN'S CLUB CHARGES STORAGE ON WINES

New York, Aug. 23.—Even in women's clubs lockers might bear inspection these days.

In the Women's City Club here the following notice attracts more than passing attention: "Charge for storing wine for members in cellar, twenty-five cents for six bottles. Members may not store more than six bottles at one time."

When some members objected to the restriction clause the steward pointed out that the cellar was not large enough to accommodate more than six bottles per member.

## LINCOLN MEMORIAL TO BE COMPLETED THIS YEAR

Washington, Aug. 23.—The Lincoln Memorial in Potomac Park in this city will be completed this year, army engineer officials in charge of the construction stated today.

A grove of trees will be planted around the memorial in honor of soldiers, sailors and marines who lost their lives in action in the World War, it was announced also. Trees will be allotted in honor of individuals and communities.

## FIRE DESTROYS SEASLED.

Boston, Aug. 23.—A naval seasled on a trial trip in Dorchester Bay today caught fire, two occupants jumping into the sea. One hundred and fifty gallons of gasoline were thrown overboard and the life saving crew at City Point and the fire department were called out to rescue the pilot and assistant, and extinguish the fire. The boat was beached near the City Point Head House. Daniel Marra, a naval officer, was in charge.

Many a man stands in his own light and then wonders why he is being thrown in the shade.

## LOCAL MOOSE PLAN MEMORIAL SERVICE

Committee Will Decorate Graves of Dead Members Tomorrow.

Announcement has been made by Chairman Frank A. Montie of the committee appointed by the South end Lodge of Moose for the purpose of making plans for the annual memorial services which will be held in Forester's Hall on Wednesday evening, that Past Dictator James J. Callahan of Hartford had been engaged to deliver the memorial address. A short business session will precede the meeting.

Tomorrow a committee from the lodge led by Alexander Duncan will decorate the graves of the deceased members.

## Circle Theater

What is the hardest thing in a man's past to live down? And can a man's past ever be lived down? These questions are answered with great dramatic strength in "Beating the Odds", the Harry T. Morey Picture which will be seen at the Circle theater tonight. The big, virile Vitagraph star tries to go straight but after he has won riches and a beautiful girl, the woman of his past comes into his old life and he loses all that made life worth living.

His battle against the tremendous odds of his past and his final triumph are the theme of the story and Mr. Morey has one of the most forceful roles of his screen career in this picture, which is adapted from "The Money Maker", written by Irving R. Allen and considered one of the most faithful and fascinating pen pictures of graft in the underworld and its consequences ever published.

Paul Scardon directed "Beating the Odds" and in the supporting cast are Eulalie Jensen, Betty Blythe, Jean Paige, George Majeroni, Robert Gaillard, Robert Mowbray, and Frank Norcross.

On the same bill will be a Pathe comedy and another episode of "The Tiger's Trail."

Tomorrow evening a Metro feature will be shown. It is called "Almost Married" and May Allison is the star. The play tells the story of a young Swiss beauty who comes to New York and by her marvelous voice captures the big city. She becomes the most talked-of attraction of the famous show and it was for these scenes that the settings, familiar to all visitors to New York, were used. The young star created some elaborate and stunning gowns which she wears in the play.

## Park Theater

Taylor Holmes, the great actor, very popular in this town, will be the star in "Taxi," the big feature of tonight's bill at the Popular Playhouse. "The Red Glove" and a two reel comedy will be on the same bill.

Tomorrow evening there will be a six reel special on the bill. The play is based on William Hamilton Osborne's famous story, "The Troop Train," which appeared in the Saturday Evening Post, is considered by Edgar Lewis, the producer, to be one of the best picture dramas he ever turned out, which is saying a great deal for the producer of such pictures as "The Bondman," "The Nigger," "The Barrier" and "The Great Divide."

"Love and the Law," which is released through the William L. Sherry service, has a great human story, and it is replete with dramatic interest from end to end. Every part has its own separate climax and the final one is the greatest of all, as it ought to be.

The story involved a great decision made on the instant by a man who was called on either to kill a couple of conspirators at the imminent risk of his own life or let them escape and run the risk of an explosion that would have crushed the lives out of 1,000 men on a crowded troop train.

Curly Casterline, ex-New York policeman, did not hesitate an instant. He killed the plotters and then faced a jury trial for murder because he could not personally prove that the men he had killed were engaged in a murderous conspiracy. The policeman might have been hanged for murder but for the long arm of the American secret service which has been operating unknown to Curly and his friends and which furnished the information necessary to free him, while the diligent efforts of a sweet little country girl who had fallen in love with the Big New Yorker materially aided in securing his freedom. Of course he married her, and that is as it should have been too.

## WIFE OF JOE DILWORTH DECORATED WITH D. S. C.

Army Officer Pins Medal on Dress (of Hero's) Widow.

### RECOGNITION OF BRAVERY

Corporal Dilworth Asked for Dangerous Mission and Was Killed in Performing It.

That there was an error in the War Department's announcement that a Distinguished Service Cross had been awarded to James Dilworth of South Manchester was indicated yesterday when a United States Army officer arrived in town with a D. S. C. for Corporal Joseph Dilworth of this town who was killed in action.

An article in The Herald recently called attention to the War Department's announcement of the award to James Dilworth and pointed out that there might have been an error and that the medal had undoubtedly been intended for Joseph Dilworth. The army officer located Mrs. Joseph Dilworth, wife of the dead hero and pinned the D. S. C. on her dress.

According to the story told by comrades, Dilworth was assigned to a company whose duty it was to guard supplies in the rear. He asked the commanding officer to be allowed to go to the front with the advance guard and his request was granted.

The advance squad was sent out to surround a machine gun nest. The gun was captured and the squad started out to get the crew. Another Hun machine opened fire upon them killing five. Included in this number was Corporal Dilworth.

## BRITTON WON THE BOUT MOST CRITICS DECLARE

Only One Paper Said O'Dowd Won and One Declared it a Draw—A Wonderful Fight.

### NEWSPAPER DECISIONS.

New York, Aug. 23.—The morning newspapers gave decisions on last night's fight at Newark as follows:

- American—Draw.
- Herald—Britton easily outpointed O'Dowd.
- World—O'Dowd won decision.
- Tribune—Britton won.
- Times—Britton defeated O'Dowd on points.
- Sun—Britton beat O'Dowd easily.

Newark, N. J., Aug. 23.—The only reason that Jack Britton is not middleweight champion of the world today as welter-weight title holder is because decisions are not permitted by the referee here.

In eight rounds of tearing, slashing boxing last night the 37 year old welter-weight king gave Mike O'Dowd, middle weight welter, as pretty a licking as ever administered to a fighter under the Marquis of Queensberry rules.

O'Dowd carried off the honors in one round—the third. In every other session Britton led by such a wide margin that even the O'Dowd supporters were forced to admit it. Britton's left continually found a resting place in the middle-weight champion's face. In addition, Britton scored repeatedly with his right and several of his punches shook his heavier opponent severely.

O'Dowd's weight was announced as 155 and Britton's as 146.

## TAGGING THE BASES

The Giants beat the Cards again but it took Winters, Dubic and finally Toney to do it.

But the Reds lost no ground, drubbing the Braves again.

The Tigers punted the lowly Athletics again, but remained stationary, the White Sox beating the Senators.

The only excitement on the Indians' win from the Red Sox was Babe Ruth threatening to hit umpire "Erick" Quesenberry. The fans, remembering how hard Ruth hits the ball, crowded forward expectantly, but the big slugger only threatened.

Unable to beat "Injection" May, the Browns tried to get him ruled out of the game on the charge that he had secret devices for "putting something on the ball." They lost both the game and their effort to oust May.

## NEWSPRINT PAPER SUPPLY IS STEADILY DECREASING

Two-thirds of it is Imported—Recalculation Introduced to Provide for a Surplus.

Washington, Aug. 23.—In view of the decreasing supply of American pulpwood used in the manufacture of newsprint paper, Senator Watson, of Indiana, introduced a resolution in the Senate today authorizing the Secretary of Agriculture to make a survey and preliminary investigation of the approximate and possible available pulp wood timber supply, not only in the Northeastern part of the United States but also in the Central and Western sections. The Secretary of Agriculture, also under the resolution, is directed to make recommendations for pulp wood utilization. The sum of \$100,000 is asked to carry on the survey and investigation.

"Two-thirds of the newsprint paper used by American newspapers," said Senator Watson, in introducing the resolution, "is imported or is manufactured from wood or pulp imported from Canada. One-third is made in the United States from wood grown in the United States. The former proportion is steadily increasing, the latter is steadily decreasing."

### WELTERWEIGHTS MEET.

Lawrence, Mass., Aug. 23.—All roads led to O'Sullivan Park today where Young Kloby, champion of the 26th (Yankee) Division engages in a 12 round bout with Eddie Shevlin, pride of the Navy. The bout is for the welterweight championship of New England, a title which Shevlin has held since before the war. Also it is a battle between the army and navy. The day was fair and warm. Close to 20,000 seats have been sold, it was said. Kloby was made a 10 to 7 favorite in the early betting. Sooty Magee, of this city, will be the third man in the ring.

To add interest to the bout the winner is promised a match with Jack Britton for the national welterweight title.

### Peculiar Dog Case.

A rather peculiar dog case has arisen in the town of Columbia which is puzzling the selectmen and dog warden. Edward Phillips has been missing his hens and chickens lately until at least twelve have been taken. He suspected and has succeeded in locating a dog but an investigation has disclosed that the dog lives in Coventry, where his headquarters are in a tool house on land owned by the Willimantic man, located in the town of Coventry, about one mile east of Hop River. The dog slips over the line into Columbia and picks up a chicken or two and takes them to the tool house and eats them. Columbia authorities do not feel that their jurisdiction extends into the town of Coventry. It is probable that the state police will be called upon to aid in the matter.

A factory has been started in Sweden for extracting oil from shale, thus adding one more to the number of substitutes already on the market. Large quantities of alum, schist are found in the district, yielding benzene and crude oils.

## BIG FOUR MAY RULE DESTINIES OF TOWN FOR ANOTHER YEAR

Said to Have Reached Decision After Conference Today.

## WILL MEET WITH STRONG OPPOSITION IS OPINION

William C. Cheney Only One Yet Nominated—Howard I. Taylor Undecided—Monday is Final Day.

The Big Four will run again for election to the board of Selectmen. Such, at least, is the decision reported to have been reached at the conference that took place this morning between the Big Four at the St. Francis Hospital where Selectman Willard B. Rogers is recovering from injuries received recently in an automobile accident.

The members of the present board of selectmen have been withholding their names as candidates for re-nomination until today when they are beginning to reach decisions.

As a result of the Big Four conference this morning the names of Dr. Thomas H. Weldon, Willard B. Rogers, Aaron Johnson, and James H. Johnston will undoubtedly appear on the lists. That they will meet with a rather determined opposition is hinted at from different quarters. Their failure to receive a vote of confidence from Manchester voters some think will discount their chances at the polls.

Howard I. Taylor who has served on the board for many years has not reached a decision yet as to whether he will place his name for nomination Monday and when interviewed today said that he would not be certain until Monday. For a time he was firm in his decision not to run again, but influence has been brought to bear and there is a possibility that he may reconsider.

### STOCK MARKET

New York, Aug. 23.—The stock market was strong at the opening today with leading stocks fractionally higher. The motor stocks however, were in urgent demand and made advances of from two to over seven points.

General Motors was prominent and rose over four points to 236; Chandler Motors seven points to 232; Studebaker 1 3-4 to 103 3-4 and Keystone Tire 1 1-2 to 74.

Marine Preferred featured the shipping shares with an advance of 2 1-4 to 116 1-2 while the common rose nearly 1 point to 57.

The oil stocks also showed a strong tone, Mexican Petroleum advancing 1 1-2 to 170 1-2 while fractional advances were shown in Pan-American Petroleum and Sinclair Oil.

The market closed strong. Mexican Petroleum rose two points to 173 and gains of around one point were made in the other oil stocks. The steel issues were from one to two points higher, Steel Common closing at its high of 101 1-2. Inter paper was in good demand and rose nearly three points to 55 3-4.

The copper issues and rail stocks were quiet but steady. Marine Preferred advanced nearly three points to 117 1-4, reacting at the close to 116 1-4. Crucible Steel was finally 139 7/8; Keystone 75 1-4 and Inter Paper 55.

### Missed at Campground.

Many of the old timers at the Willimantic camp ground miss the presence of Professor W. O. Turner who is in feeble health at his home on Turner street, Willimantic. He is 83 years old and up to last summer had been at his post for over 48 years. Last summer he sang and played until the closing Sunday when he was taken sick.

### STRIKE THREATENS

New Haven, Aug. 23.—A threat to call a general strike on the New York, New Haven and Hartford line was made today by officials of the New York, Manchester and Boston Railway attempted to operate trains with non union employees. Employees of the Westchester railway, which is said to be controlled by the New Haven, recently went on strike for higher wages.

## REINFORCEMENTS RUSHED TO THE MEXICAN BORDER

(Continued from Page 1.)

can troops on soil of the southern republic is undergoing a change. A note of irritation was evident in translating of press comments reaching Washington today. During this first few days following the dispatch of the Eighth Cavalry in pursuit of the bandits who held two Americans aviators for ransom, Mexican editors referred in mild and conciliatory terms to the situation. It was evident from advices reaching Washington today that they have resorted to a different view of the situation.

### Press Translations.

According to the press translations reaching here the Mexican Chamber of Deputies in secret session, defeated a resolution to appoint a committee to cooperate with the executive senate and supreme court in forming a policy concerning inland petroleum questions and another resolution to interrogate President Carranza on Mexican-American relations. The Mexican Senate passed a resolution instructing the committee on foreign relations to investigate the cause and character of the international "crisis" and to make recommendations. Governors of Coahuila, Sinaloa and Mexico labor unions and federal deputies have tendered their support to President Carranza, it was stated.

### 90 DAYS' SUPPLIES.

Marfa, Texas, Aug. 23.—Twenty days' rations and supplies have been sent to the American troops across the border in the past three days, it was learned here this afternoon. This is taken here to indicate that the chase of the Mexican bandits is to be kept up for some time yet.

## SEE THE WAR THROUGH.

In an editorial, which would be historically amusing for its fantastic and reactionary conception of the issues of the war were it not for the fact that those issues are still before us and hanging in the balance of public opinion, the Hartford Courant smugly announces that, "Whether the present treaty is ever ratified is not a matter of superlative importance."

It is announced that two New England college professors have entered a shipyard as common laborers in order to get first-hand information of labor conditions.

Perhaps after the vacation season closes there will be fewer strikes. There is a double temptation to stop work in the desire for a vacation and the possibility that at its close one will return to increased pay.

The repeal of the daylight saving law will have no effect on this year's schedule. Perhaps before next spring Congress may reverse itself.

## JUVENILES IMPATIENT FOR PLAYGROUND DAY

Field Event Scheduled for August 26 Will Provide Attractions for Youthful Athletes—Prizes to Be Awarded.

Although one of the most important meets on the Recreation Center's program of athletic events is being held at the West side playgrounds today, the juvenile element is looking forward to what is in their estimation the greatest meet of the entire series.

The program for this meet is divided into three parts with a total of 14 events. Class 1 is for juveniles under 12 years of age.

Class 2 is for boys of 12 and over includes a 100 yard dash, 50 yard shuttle relay race, 8 pound shot put, inter-playground volley ball game and running high jump.

Ribbon prizes are to be awarded the winners in each event. Applications for entries may be made to the playground instructors or at the "Rec." building. The officials for the contest will be announced later.

## RUSSIAN REDS DEFEATED.

Geneva, Aug. 23.—Russian Bolshevik troops trying to advance across the mouth of the Dniester river were defeated and driven back with heavy loss of life by the Roumanians, the Roumanian Press Bureau announced today.

Seven guns, several hundred prisoners and a number of wagons filled with war supplies were captured from the Russians. The battle took place on Tuesday.

## CONNECTICUT COSTS JUMP.

Hartford, Conn.—Connecticut's cost of living in July jumped 5 per cent over that of the preceding month, according to figures announced by the State Department of Labor at the capitol.

In some of the principal cities the cost of living for the 12 months from June 30, 1913, to July 1, 1914, as compared with the same period ending June 30, 1913, increased 86 per cent.

## ROBBED OF \$250.

Boston, Aug. 23.—Four young bandits locked Frank H. Turgeon, proprietor of the Somerset Farm Creamery in the south end in the refrigerator of his store after forcing him to turn over \$250. He was released by the police within an hour.

# The Open Forum

Editor of the Evening Herald, Dear Sir,

I have just read a very interesting letter about a chap from South Manchester. He says that he is the youngest soldier in the B. E. F. I wish to contradict his statement.

Having been in the Canadian Army four years and three months, I joined February 25, 1915 and I have spent three years and nine and a half months overseas and because I enlisted when I was sixteen years of age and was in France before I was seventeen, I think I have just a little better claim. And I think I was the youngest soldier in the British or Canadian armies.

But I give him credit for he was game enough to volunteer just as I did, in fact as did many others.

I remain, Yours, sincerely, An Ex-soldier, Can. Exp. Forces.

## CONNECTICUT IS CHEATED BY SUSPENDED AUTOISTS

Drivers Fail to Send in Licenses and Continue Driving as Before—To Round Up Offenders.

Hartford, Aug. 23.—While investigating the number of "leaks" in the Motor Vehicle Department and the methods used in defrauding the state, Motor Vehicle Commissioner Robbins B. Stoekel found that the state has been cheated and the law evaded by a number of automobile drivers whose licenses have been suspended by the department.

To Round Up Offenders. The police departments of the various cities of the state have been notified of the evasion of the law and requests have been made for a roundup of the offenders.

The penalty for failure to turn in the license to the department is not less than a fine of \$50.

## Won't Send in Cards.

It has been the custom of the department to send out letters to those who have had their licenses suspended requesting them to send them in to the office of the motor vehicle commissioner. In some cases as many as four letters have been sent out to the drivers of the cars and sometimes the suspended licenses are returned to the department.

Commissioner Stoekel explained that he believed he could get around the situation by furnishing the police with the name of all persons who have had their licenses suspended as soon after the hearing as possible.

Failure on the part of the automobile driver to turn in his license promptly would result in his immediate arrest and prosecution.

## U. S. Army Scandal.

Paris, Aug. 23.—A number of American army officers, attached to the Romanian Camp, where vast army supplies were stored, are being held on this side of the Atlantic pending an investigation into charges that army stores were sold and destroyed.

It was reported today that several officers will soon be arraigned before a court martial at Brest to answer the charge of selling materials belonging to the American Expeditionary Force to French civilians without proper authority. The alleged offenses took place before the sale of American supplies to the French government.

## FRESHMEN SENATORS

Intimate Personal Sketch of the New Arrivals in Congress Will Pilot Nation Through Reconstruction Days.

Washington, Aug. 23.—In the freshman class of the United States Senate—those men who are beginning their first term—the most modest is Senator Arthur Capper, twice Governor of Kansas and a prosperous publisher. Quiet and unassuming, but deeply in earnest in his every move, Senator Capper is fast gaining prestige in the Senate as a man of strong convictions and the courage to follow those convictions to the end.

In personal appearance Senator Capper is but of medium stature, slight in build and not at all statesmanlike in his manner of attire. His smile, however, is sufficient to gain him wide respect and friendship because it is an honest smile.

Senator Capper rose to the Senate by way of newspaper offices. He learned typesetting when a schoolboy and upon his graduation from high school went to Topeka and became a compositor on the Morning Capital of that city. He was eager to learn the newspaper business, however, and sacrificed a weekly wage of \$20 to take a place as a reporter with a "salary" of \$10 a week.

Senator Capper rose rapidly in the reporterial staff of the Morning Capital, became city editor and then managing editor. Still unsatisfied with his newspaper experience he left the corn belt and went to New York, where he worked for several months on the metropolitan dailies. Then he became a Washington correspondent and served for several months in the press galleries of Congress.

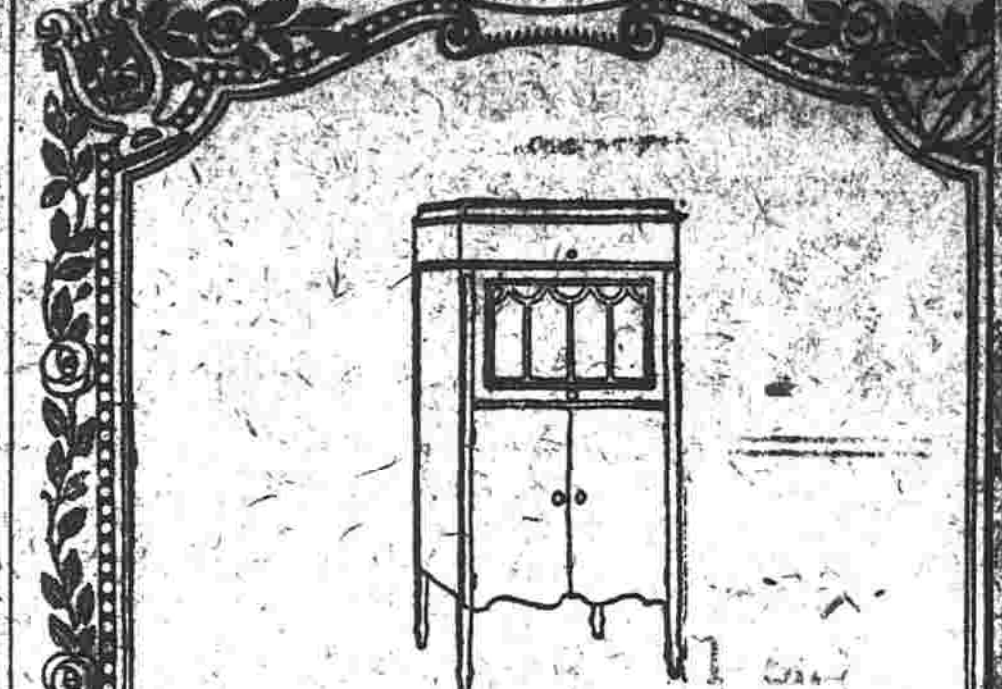

Returning to Topeka he purchased The Mail, a small weekly paper published in North Topeka. This venture gave him confidence and he soon acquired another small paper. When his old paper, The Morning Capital, was placed on the market and considered an undesirable purchase, Senator Capper bought it for \$1,000 in cash and \$54,000 in notes. Now he is the owner of eight newspapers with wide circulation throughout the Corp Belt States.

Senator Capper first entered politics as a party worker and his vigorous editorial policies appealed to the people of his State who prevailed upon him to be a candidate for Governor. He failed of election, but tried again and was elected and then re-elected.

Oratory is not one of Senator Capper's natural abilities, but he has forced himself to become a public speaker and a good one. During the war with Germany he sometimes made scores of speeches for war purposes in his State. There is none of the silver tongued oratory when Senator Capper speaks, but he is so earnest and convincing that he always holds his audiences.

In the Senate this Northcliffe of the Corp Belt is the representative of his constituents, who are chiefly farmers. He works constantly for the interests of the farmers and by his constancy he is making headway and bid fair to become a leader.

Plain in manner and habits Senator Capper is a man of the people—and it is not a pose.

## Books of Today

LIFE OF JOHN MCCORMICK. A book giving the important features of the career of John McCormack, the world famous tenor, is soon to be published by Small Maynard & Co. The work will abound in anecdotes of the singer and his intimate associations with many famous men and women. His early life and how he trained for his musical profession will form a feature of interest to all music lovers.

A COFFEE DRINKING NATION. Philip B. Hawk says if England can be called a "tea-drinking nation," then the United States ought to be known as a "coffee-drinking nation." In a book published by Harper, "What We Eat and What Happens to It," Mr. Hawk says that statistics show that the yearly coffee consumption in this country averages about twelve pounds of the dry coffee bean for each person. Coffee drinking has become a fixed habit, he says, with 90 per cent of the men and women in the United States.

TARKINGTON'S POPULARITY. Booth Tarkington's "Penrod" has proved so popular that the publishers (Doubleday, Page & Co.) announce the sale of more than 234,000 copies. They are now preparing a double printing of Mr. Tarkington's latest novel "Ramsey Millholland."

IRISH FREEDOM. We have not yet had the pleasure of reading Mr. George Creel's book on "Ireland's Fight for Freedom" but Mr. Frank P. Walsh, who is one of the leaders of that fight in this country says that "no clearer, finer presentation of the Irish cause was ever framed." He evidently believes that the pen is fully as mighty as the sword for he claims that this volume is "worth an army to Ireland."

ANOTHER WRIGHT NOVEL. Harold Bell Wright has returned to the Ozarks for the scenes and characters of his latest novel "The Re-Creation of Brian Kent." In several respects the book calls to mind "The Shepherd of the Hills."

APPEALS TO NEGROES TO ASSIST IN KEEPING DOWN RACE TROUBLES. Atlanta, Ga., Aug. 23.—An appeal to sane thinking negro citizens of Georgia to assist in keeping down race troubles in this state similar to those which have occurred recently in Washington and Chicago, was issued by Mayor Key when he delivered an address of welcome before the Grand Lodge of Negro Odd Fellows at Big Bethel Church.

Mayor Key said he had experienced a great deal of trouble in keeping down race trouble in Atlanta, and urged the negroes to help him in his efforts.

"We are not going to have race trouble if you people will show proper intelligence," Mayor Key declared. This statement on the part of the Mayor was received with cheers and applause on the part of the delegates which lasted for several minutes.

## GERMAN SOCIALISM, LOST PARADISE, DECLARES EX-MINISTER OF FINANCE

Berlin, Aug. 23.—To the mind of Dr. Helfferich, former German Minister of Finance, and Vice-Chancellor in the Bethmann-Hollweg Cabinet, the experiment of socialistic administration of Germany is a "Paradise Lost." Its days are counted.

"The next general elections which probably will take place in January, will return the so-called majority socialists as a small minority party," declared Dr. Helfferich when I interviewed him today.

"The Centre, or Christian People's party, as it is now called officially, probably will constitute the strongest group in the next legislative assembly and form a government in which the parties of the Right will be represented."

Assuming Dr. Helfferich's prediction to be correct, and assimilating it with personal knowledge of political precedence within the Centre party, we may next year see Dr. Adolf Groeber in Germany's Presidential chair with Dr. Maximilian Pfeiffer heading the Cabinet.

"Up to the time of the revolution the foremost political task of the socialists was to criticize all existing forms of government," continued Dr. Helfferich. "They promised to convert Germany into a paradise. They gained the power and gave us not a paradise, but misery. But a sound reawakening is rapidly backing them off the stage."

"The German majority socialists today stand without a platform. With Herr Wissell's resignation as Minister of Economics the beautiful socialist dream of public ownership of industries is blown away as a fata morgana that has no place in cold reality. That was the biggest plank in their platform. They avowed they would drive religion out of the public schools, but the Centrists, ever jealous of the interests of Catholicism, made them compromise and agree to local option in the matter of religious instruction. They would abolish nobility, but their proposition was overwhelmingly defeated. They did not succeed in abolishing the death sentence. In fact, when the National Assembly presents the new German constitution to the nation in its final form it will bear few traces of socialistic influence."

"The majority socialist party is, in fact, breaking up. The membership is scattering in various directions. The majority is joining the independent socialists, who endeavor to preserve a platform of pure socialism. Others are going over to the democrats, and some are even joining the two Right parties, the German National and German People's parties."

Dr. Helfferich, who is one of the main forces in the German National (conservative) party, looks for other political realignments in Germany for instance, amalgamation of his own party with the People's party,

## many is not in a position to pay anything like that amount. Even if England and France appointed a government of their own to administer Germany they never could squeeze such an indemnity out of our resources."

Asked to give an estimate of the amount of credits required immediately for the reconstruction of German industry and commerce, Dr. Helfferich corroborated the estimate furnished some time ago by Herr von Mendelssohn Bartholdy, president of the Berlin Chamber of Commerce and financial expert of the German peace delegation at Versailles, who placed the figure between \$10,000,000,000 and \$15,000,000,000.

DEATH OF F. A. LILLIE

Old Time School Master Who Left His Impress on Thousands of Pupils

Frederick A. Lillie, for 13 years a successful school teacher in Manchester, died suddenly Thursday evening at Pittsburgh, Pa., where he and his wife were making a visit. Mr. Lillie was 72 years old and had been on the inactive list for several years. But during the major part of his life he was an active and forceful character and as a schoolmaster of the old type made his impress upon thousands of boys and girls who came under his instruction. He was a firm believer in the "three Rs" and was a strict disciplinarian. While modern educators have discarded many of the methods of his time, the fact remains that his schools turned out well trained graduates who gave a good account of themselves in higher institutions of learning and in the later activities of life.

Mr. Lillie was born in Coventry. He took to school teaching early in life and after a varied experience in country schools taught and superintended grammar schools in East Hampton, Portland, Manchester and Hartford. He was principal of the Eighth district school in Manchester at a time when the Ninth district schools were being reorganized with the cooperation of the New Britain Normal school and taught by undergraduates from New Britain. There was a sharp clash of public sentiment between the parents who preferred the old fashioned methods and those who favored the new system.

Besides being a thoroughgoing schoolmaster, Mr. Lillie was a musician of some ability. He taught music in his schools, and in Portland and in Manchester played the pipe organ in churches. Mr. Lillie leaves one son, Charles A. Lillie, a graduate of his own school here in Manchester who went to the State bank, Hartford, as a boy and has now risen to the position of cashier of the State Bank & Trust Company. He is also survived by his second wife, Mrs. Susan Fanning Brown, and by one daughter, Mrs. Wallace L. Howard. The funeral will be held tomorrow afternoon at two o'clock at his late residence, 33 Deerfield avenue.

MODART CORSETS
Front Laced
Quality Lines
Workmanship
We ask you to compare MODART Corsets, front laced, with any other corsets. We ask you to compare for Quality, Lines, Workmanship.
And when you have given it a thorough impartial test by wearing it—we will leave it to your judgment whether or not there is any other front-laced corset in the MODART class.
We chose to specialize on the MODART front-laced corset—to feature it in our advertising, to recommend it to our customers—only after a thorough study and search of the corset field. And only after we were convinced that no other front-laced corsets compared with the MODART in quality and fine-fitting features, did we choose them.

Modern City Homes and Suburban Properties.
When I list your property I sell it, have been short of houses this past day or two, but am now getting in new properties every day, but still have a large list of customers waiting for singles, doubles and four tenements in different locations of the town. If you are thinking of selling, better list your property with me now. If you haven't had good luck selling your property, let me show you what I can do. People will buy if they know where a good property is. I know how to show it to them, as I have sold from cheap building lots in Maine to \$50,000 Orange Groves in Florida.
If you are thinking of buying come up and see me. I have pictures of every piece of property that I have to sell. Come up and take a look at the pictures. If you see something you like then let me take you to see it. You can get a better idea of property by seeing the picture first, and I have 90 of them on the walls and know we can satisfy you.
If you have a few hundred dollars and want a home, come up and see me. I can arrange your mortgages for you so that you can pay rent to yourself instead of someone else.
