PRICE TWO CENTS

EXPLOSION BLOWS UP SHIP; FOUR MISSING

City of Biloxi Burns to Water's Edge off Florida Coast.

TWENTY MEN ARE SAVED

Captain's Brother Among Missing— Vessel Was Lumber Laden and Bound for Genoa.

Pensacola, Florida, Sept. 19.—Captain Angelo Francisco and 19 men of the Italian barkentine City of Biloxi arrived late last night reporting their ship blown up and burned to the water's edge twenty two miles off Mobile Bar at 10 o'clock Thursday morning.

The men were picked up by the American Steamship Knight Island, brought to Pensacola and turned over to the pilot boat at the point and the steamer continued on her way.

Explosion in Engine Room.

Captain Francisco reports an explosion in the engine room of his ship was followed by flames which forced the crew to abandon the ship hurriedly in small boats. Four members of the crew, including the captain's brother, are missing.

The City of Biloxi was lumber-laden, bound from Gulfport to Genoa on her first trip.

HURRICANE'S DEATH TOLL WILL REACH OVER 500

Situation Still Acute—Five Million Dollars Needed to Check the Suffering.

San Antonio, Texas, Sept. 19.—Revised figures today on the death list in the Gulf hurricane made little substantial change in previous lists. The toll will reach over 500. Army forces were beginning to get large supplies to the stricken towns today. The situation is still acute. At least \$5,000,000 is needed, authorities say, to check the suffering.

The body of Bishop Jaul J. Nussbaum, a distinguished prelate of Corpus Christi has been recovered and identified. He served in South America and held several posts in the United States including Hoboken, N. J., and at St. Mary's Dunkirk, New York.

Rescuers have found several families which retreated before the advancing water to the sandhills. They were without food for three days when found.

PRESIDENT WILL SPEAK IN PLATE GLASS CAGE

New Electrical Apparatus to be Tried Out So His Voice Can Be Heard.

San Diego, Cal., Sept. 19.—Standing in a plate glass cage and speaking into an electrical apparatus that will throw his voice so that it may be heard for a mile, President Wilson, who arrived here this afternoon will probably have the largest audience of his country-wide tour when he makes his address at the great city stadium at Balboa Park.

The stadium has a seating capacity of 40,000 and it is fully expected that the crowd gathering to hear the President's address will equal, if not exceed that number.

The cage is made of plate glass and is a little larger than a telephone booth. The front side will remain open and those who have experimented with the apparatus say that the faintest whisper can be carried to all parts of the huge stadium.

SHIP LOST IN HURRICANE.

New York, Sept. 19.—Owners of the Munson line today gave up hope for the safety of the freighter Munisla, which is nine days overdue at Havana. She carried a crew of 47 men.

The Munisla sailed from Mobile on September 10, and no word has been received of her since. She was listed as missing in the terrific gulf storm.

"War Made Me a Mystic" ---D'Annunzio At Fiume

London, Sept. 19.—Admiral Cassanova, of the Italian Navy, who arrived at Fiume to take back the ships which had joined Gabriele D'Annunzio's forces of occupation, has been seized by D'Annunzio, said a Paris dispatch to the Daily Express today.

A great crowd gathered on the jetty and watched while the machine guns on the water front were

EMPLOYEES OF N. Y. CITY TO FORM ONE BIG UNION

To Include Policemen and Firemen and Later Join A. F. of L., is the Plan Suggested.

New York, Sept. 19.—A move to form "one big union" of municipal employees in this city, including the policemen and firemen, and later affiliate with the American Federation of Labor, is in full swing today, following a closed meeting of thirty representatives of 15 organizations of city workers here last night.

Burt L. Schneider, who was described as the president of the union of Technical Men, who presided, issued a statement on behalf of the thirty representatives calling attention to the reluctance of New York City officials to "adjust wage scales, although other unionized workers have received wage increases amounting to 100 per cent."

News of the move to form a union of municipal employees came as a surprise for the plans had been kept secret. The men present at the initial meeting claimed to represent 80,000 persons on the city payroll and said that a drive would be undertaken at once to enlist those workers who are not now members of any organized body.

U. S. MUST AID BRITAIN TO KEEP DOWN IRELAND

That is, if There is a Rebellion and America Joins League, Says Dunne.

Chicago, Sept. 19.—Former Governor Dunne, of Illinois, a leader in the Irish freedom movement, in a formal statement today, takes exception to President Wilson's interpretation of the League of Nations covenant as regards the Irish situation.

Replying to President Wilson's statement that the United States, under the League covenant, does not obligate itself to assist any member of the League in putting down a rebellion of its subjects or conquered peoples, Mr. Dunne's statement says in part:

"It is unlikely Ireland, with an unarméd population of 4,300,000 can succeed in rebellion without external assistance.
"If any other country should come to the assistance of Ireland or Egypt, or India, as France did in the case of America in 1778, and as France attempted to aid Ireland in 1798, it would then become the duty of this country, under article ten, to preserve the territorial and political integrity of Great Britain over Ireland, Egypt or India."

ROLLING COMMISSARIES.

New York, Sept. 19.—Rolling commissaries, similar to those in vogue in welfare work among the soldiers in France, will shortly be inaugurated here to combat the high cost of living. The trucks will move about the city selling bacon, groceries and canned goods at from 12 to 27 per cent cheaper than the retail merchants.

Fifty trucks have been secured for the enterprise, which is under the direction of a corporation and is sanctioned by the municipal department of markets.

LAWSON PLANE ARRIVES.

Washington, Sept. 19.—The Lawson "airplane" with 14 passengers, arrived at Bolling Field, Anacostia, D. C., at 12.57 o'clock this afternoon. The liner which is on a trans continental flight, left Mineola, L. I., at 8.39 this morning.

being turned against the ships. The Admiral was taken to the palace and led before D'Annunzio.
"All goes well," declared D'Annunzio in a statement to the Gazette Popolo. "For a week I have suffered from fever, but I received a call from a superior hidden force and, though the fever burns, I was consoled because war had made me a mystic. I feel inspired from on high in this mission."

GERMAN METAL WORKERS ALSO THINK OF STRIKE

Employers Want to Force Labor Back to the Pre-War Piece Work System.

Berlin, Sept. 19.—The fate of German labor is today hanging in the balance with the crisis in the metal industries which is expected to reach its decisive stage before the end of the week.

The employers claim that high wages are contributing to the decline of the German mark on the international money exchange market are said to be willing to risk a "show down" in the fight to force labor back to the pre-war piece work system, whereby Germany was able to undersell the rest of the world.

The government, in seeking a solution of the financial problems, is siding with the employers, hoping also to reduce the cost of living while adjusting the exchange rate. Aware of the antagonism of the government, leaders of the workmen declare they are determined to fight to the bitter end. If a strike is precipitated it is believed inevitable that it will take a political trend.

BOSTON STARTS A DRIVE TO RECRUIT NEW FORCE

Newspaper Advertisements All Over State Invites War Veterans to Become Policemen.

Boston, Sept. 19.—Launching of a vigorous campaign to recruit a new police force to be composed entirely of veterans of the world war, decision against an appeal to the courts by attorneys for the strikers, announcement of a meeting tonight of the "committee of 17" of the Boston Central Labor Union to discuss plans for a general strike and trial of 28 more members of the Metropolitan Park police on charges of insubordination in failing to take the places of striking Boston officers were the chief developments today, the eleventh day of the Boston police strike.

Newspapers all over the state today carried advertisements inviting war veterans to take an examination for the Boston police force. Candidates must be residents of the state, not less than five feet eight inches in height, not less than 140 pounds in weight and must be not less than 25 nor more than 33 years of age.

Free Uniforms.
All must have honorable discharges from the army, navy or marine corps. Pay for the first year will be \$1,400. First uniforms will be furnished free. Applicants must apply in person to a board of examiners here September 22 to 27 inclusive. Approved applicants who pass the non-competitive civil service examination can be appointed at once.

That Boston's striking policemen have practically given up all active measures in their attempts to secure reinstatement, and if the men are returned to their old jobs it will be through the efforts of other labor bodies, was the interpretation placed in most quarters today in the definite statement of counsel for the union that the status of the patrolmen on strike will not be taken to the courts.

LENOIR CONFESSES.

Paris, Sept. 19.—Important revelations made by Pierre Lenoir, who was sentenced to die this morning for treason to France, caused officials to postpone his execution today at the last hour. Official announcement was made of the postponement of the execution, but officials were silent concerning Lenoir's revelations.

"AULD LANG SYNE" THE NATIONAL ANTHEM.

New York, Sept. 19.—During the official reception of Admiral Conz, of the Italian navy, at City Hall, the band struck up "Auld Lang Syne," and one patriotic citizen, thinking it was "The Star Spangled Banner," took off his hat. Nearly every one else in the crowd followed his example. Now the leader of the band is mystified; was it the playing or the ignorance of the people?

BULGARIAN ENVOYS GET TEXT OF PEACE TREATY

Ceremony Brief and Formal. But Thirty Official Spec- tators Present.

Document Seals the Future of All
the Balkans—Little Interest Dis-
played in Paris.

Paris, Sept. 19.—The Bulgarian envoys received the text of the peace treaty today at the Quai D'Orsay (French Foreign Office). The ceremony was brief and formal. This leaves only the Turkish treaty to be presented.

Only thirty official spectators and ten newspaper correspondents were present at the Quai D'Orsay. The 30 represented the governments of the various allied and associated powers.

Premier Clemenceau opened the ceremonies which were even briefer than those attending the overhauling of the German treaty at Versailles and the Austrian treaty at St. Germain.

In a brief address, M. Clemenceau told the Bulgars that time would be given them to examine the terms and make observations.

Little Interest Displayed.
Unlike the formidable gatherings of soldiers at Versailles and St. Germain the streets about the foreign office were comparatively empty as if nothing of any importance was transpiring within the huge, gray walled building. Yet, within the pages of the voluminous document handed to the Bulgars by Premier Clemenceau is sealed the fate of a whole nation and maybe the future of all the Balkans as well.

Bulgars Now Harmless.
While the military clauses are calculated to reduce the Bulgars to a harmless state, several minor changes were made at the last minute in the reparations provisions to appease the Greeks and Roumanians. It is generally admitted that the most important decisions involving rival claims for Balkan territory, are left for a later date and perhaps may not be treated by the peace conference at all, but by the League of Nations.

The fact is that, but for the American attitude towards Thrace, which has finally resulted in that question being definitely upheld, the Bulgars might have gotten the treaty several weeks ago.

YOUTH IS DRUGGED BY TWO MEN IN AN AUTO

Found in a Coma On Porch of House in Burlington, Vt.—Her Story.

Burlington, Vt., Sept. 19.—Police investigating the story of a young girl found in a coma on the porch of a St. Paul street house in circumstances indicating that she had been drugged and roughly treated, were informed today by the police of Island Pond, Vt., that no girl answering her description was missing from that village.

The girl, who is sixteen, gave the name of Helen Pickford and said her home was in Island Pond, when she recovered consciousness in the Mary Fletcher Hospital here. She said that she had been drugged by two men who had invited her to an automobile ride upon her arrival in Burlington. The torn condition of her clothing and bruises about her arms as well as unmistakable effects of drugs seems to bear out her story, according to the police.

Steel Union Leaders Scatter To Perfect Plans for Tie-up; Blame Gary for the Strike

PRESIDENT TRIED HARD TO STAVE OFF STRIKE

Did Everything in His Power to Have Gary Meet Committee.

MEANT TO SEND BARUCH

But Head of Steel Corporation Re- mained Firm in His Refusal to Meet the Men.

Washington, Sept. 19.—President Wilson did everything in his power to prevail upon Judge E. H. Gary head of the United States Steel Corporation to meet the committee of steel workers and thus prevent the strike of the industry called for Monday, it was learned here today. It was reported on excellent authority that the President went so far as to send Bernard M. Baruch, former head of the War Industries Board, as his personal emissary to the steel magnate, but that the latter remained firm in his refusal to treat with the men as a union.

No Strike Benefits.
The international unions involved in the strike have decided not to pay the regular strike benefits during the proposed walkout, it was announced today by William H. Johnson, President of the International Machinists Union. Instead, a system will be devised whereby all of the members of the various unions will receive financial aid instead of only those who have been members for at least three months.

To Get Financial Aid.
"It is our understanding," said Johnson, "that the international organizations will endeavor to give financial aid to all of the men involved, in lieu of regular strike benefits. This will be done in order that all of those participating will receive the same consideration. Under the laws of the international organizations only those who are members for three months in good standing would receive regular strike pay and the national committee deemed it advisable to overcome this condition by handing all moneys to a central committee so that all men, regardless of membership, might receive aid."

YOUTH IS FOUND SLAIN IN BASEMENT OF STORE

Was Employed in Drug Store and Had Quit Work—Police Investi- gating.

Washington, Sept. 19.—Emmet E. Wood, 20 years old, was found murdered today in the basement of the Liggett Drug Store at 14th and F streets. The boy was employed as a soda fountain attendant, and quit yesterday at noon. He was not seen from that time until his body was found today, lying in a pool of blood, with a deep wound in the head.

Wood was a friend of Henry A. Starr, former policeman, who is under indictment for killing Leroy McLeod, who failed to halt his speeding auto at a signal from the policeman. Starr, since his suspension from the police force was employed at another Liggett Drug store here and yesterday disappeared. He had \$532 entrusted to him to deposit in a bank, the manager of the store declared.

NEW RECIPROCAL PLAN.

Ottawa, Ont., Sept. 19.—The Canadian and American governments have adopted a reciprocal plan by which Canada will care for sick and disabled American soldiers in the Dominion and the United States will do the same for Canadian soldiers in the states, it was announced today.

Send Letter to Wilson Denying His Request to Defer Strike Until After October 6—Several Mills Already Closed— Independents Appeal to Employees to Remain at Work— Police in Pennsylvania and Ohio Taking Extraordinary Precautions to Prevent Trouble.

Pittsburgh, Sept. 19.—Preparations for the nation wide strike of all the organized workers in the steel industry next Monday were being speeded today.

After dispatching a letter to President Wilson denying his request to defer the strike until after the industrial conference on October 6, several members of the national committee composed of representatives of 24 international unions left the city. At the last session a formal vote to defer the strike was considered. This was defeated. Then a motion reaffirming the decision to strike on September 22 was unanimously adopted.

Agreed On Strike.
President Wilson was told in the letter that "after a thorough calm and deliberate review and study of the entire situation more than 2,000,000 organized men endorsed the strike and set September 22 as the date thereof."

Blame Judge Gary.
The whole blame for the strike was placed on the head of Judge Gary, chairman of the steel corporation, who refused to receive the leaders in conference.

"Win or lose, the strike is inevitable and will continue until industrial despotism will recede from the untenable position now occupied by Mr. Gary," the President was told.

One Mill Closed.
Anticipating the strike, the McKeesport Tin Plate Company, an independent concern, today closed down its hot mill at Port Vue, throwing 1,800 men out of work. The finishing department, where 1,200 are employed, was kept going because of congested business. Unsettled conditions was given as the cause of the shut down. This was the first instance in this district of any of the steel plants closing.

Swear in Deputies.
Reports from the many steel communities around Pittsburgh today told of increased efforts to prevent any trouble next week. Employees of the big plants in McKeesport were being sworn in as deputies. A barricade was being thrown around the Duquesne Plant and it was said that electrically charged electric wires would be placed on top of the high fence. At the Newcastle works of the Carnegie Steel Company, where 2,000 men are employed, a set of

ions saying that they are satisfied with working conditions and deprecating the efforts of paid agitators and foreigners to create dissensions there was passed among the employees. It pledges that the men will remain at work and those who circulated it claim that approximately 85 per cent of the men signed.

Police Force Ready.
At Martins Ferry, Ohio, the entire police force was on duty at the Whitaker-Glossner and Laughlin Steel Plants today as a result of a strike of foreign laborers there for increased pay. The strike caused the plants to close down and 3,600 men are idle. The strike is independent of the nation wide walkout next week.

Plants Won't Close.
Plants of the United States Corporation in the Monongahela Valley will not shut down if the strike is called, officials of the various plants indicated today.

Thirty to forty thousand men are employed in the corporation's plants and subsidiaries in the valley but, according to officials, only a few are affiliated with the iron and steel workers' union. In some plants, the officials stated, the number of men affiliated with the union, amounts to about one per cent, while in others the number reaches as high as fifty

per cent. In no plant, however, does the number reach 98 per cent, as claimed by officials of the union, according to the plant officials.

Only Foreigners Organized.
Officials in Braddock district said the Union organizers have made very little progress towards lining the men up there. The few who are organized, it was said, are foreign laborers. The plants were expected to operate.

Guarded Against Trouble.
Claiming 85 per cent of the employees of the Cambria Steel Company, of Johnstown, are unionized, T. J. Conboy, organizer for that district, today issued the official call for the strike Monday, affecting also employees of the Lorain Steel Company, subsidiary of the United States Steel Corporation. The two plants employ more than 15,000 men. The Cambria workmen were unanimous for a walkout last Monday, but were persuaded to await the general strike. Local plants have been fitted to guard against trouble. That several independent steel companies are looking with favor upon the complete organization of their already partially organized shops by union organizers, was the statement given out by David J. Davis, assistant president of the Amalgamated Association of Iron, Steel and Tin Workers today.

"Probably the reason for this," Mr. Davis said, "is the fact that those independents, which include, besides small plants employing about 200 men, all those mills not connected with the United States Steel Corporation, hope in this way to remain open and obtain orders that normally would be given to the corporation."

The twenty-four presidents of the brotherhoods co-operating in the strike, and the executive council of the American Federation of Labor, which includes Samuel Gompers, will meet in Pittsburgh some time within the next two weeks, Mr. Davis said, to discuss all phases arising out of the strike.

200,000 to Strike.
In the Pittsburgh district, comprising territory west to Youngstown, Ohio, and east to Johnstown, Pa., it was estimated today by labor leaders that approximately 200,000 men will fail to report to work Monday.

Five thousand employees of the Pittsburgh Steel Company in Monessen were striking today because one of the employees had been discharged.

To Meet Gompers.
John Fitzpatrick, chairman of the National Steel Workers' committee conferred today with Frank Morrison, Secretary of the American Federation of Labor after which he was to meet President Gompers. Following his meeting with Gompers he characterized as "pure propaganda" rumors that the workmen would not receive financial support during the strike.

"The international organizations affiliated with the American Federation are in back of this strike to the last ditch," he asserted.

Neither he nor Mr. Morrison would discuss their conference.

IN CHICAGO DISTRICT.

Chicago, Sept. 19.—Arrangements for directing the strike of the steel workers in the Chicago district have been completed, union leaders here declared today. Strike headquarters have been established for this district in the federation building in Chicago with branches in South Chicago, Gary, Indiana Harbor and Joliet.

In the meantime members of the

AUTO CO. PURCHASES
McLACHLAN PROPERTY

Williams-Stephens Concern Buys Tract on East Center Street—Plans Business Block in Future.

A realty deal which is said to involve \$30,000 took place last night when the Williams and Stephens Auto Company purchased a large tract of East Center street property from Campbell McLachlan of Center street.

The property has a frontage of eighty feet on East Center street and runs back 301 feet to Forth street. A four family dwelling house, with a frontage on Forth street, is included in the deal.

The new owners stated this morning that there would be no immediate changes. The property was purchased to enable them to continue their automobile business which is now situated on West Center street. A three year lease which they hold on the present quarters is now being contested.

The intentions of the firm, according to a statement made by Mr. Williams, are to erect a modern business block which will be used as a display and sales room.

WANTS TO SHOW MOVIES
OF TRADE SCHOOL HERE

Man Who Spoke Before C. of C. On Business System Tries to Get Pictures to Show in Ohio.

Shorland Fannon who spoke before the Manchester Chamber of Commerce at the High School Hall last Monday evening on the "Troubles of a Merchant and How to Overcome Them" tried while in town to procure the motion picture films taken at the trade school for use in Ohio.

The film desired by Mr. Fannon is made up of reels taken of all of the trade schools in the state and present the most advanced methods used in the country. One of the films is being used in Massachusetts where the popularity of trade schools is increasing. Another has been sent to India at the special request of the British Government. The third is preserved at the state library in Hartford.

The idea of trade schools is just beginning to take root in the middle west and no schools can now be found there that compare with the industrial schools to be found in Connecticut. Ohio is beginning to discuss the subject and Mr. Fannon wants the pictures of the trade schools of this state to show Ohio what has been done in Connecticut.

STEEL UNION LEADERS
SCATTER TO PERFECT
PLANS FOR TIE-UP

(Continued from Page 1.)

Lake Seamen's Union are taking a strike vote to be completed Sunday. The members of this union are employed on the Pittsburgh Steamship Company's ore boats. This company is owned by the steel corporation and operates hundreds of ore boats on the lakes.

Basing their figures on a canvass taken today of millmen at work, mill owners estimated that 85 per cent of the men will remain at work during the strike.

The Owners' Claims.
The mill owners say that in Gary, Indiana, alone 8,302 out of 10,125 workers voted against the strike. Theodore Vind, international organizer and president of the South Chicago labor and Trades Assembly today appealed to the men to "keep away from the mills and the police" during the strike.

"There should be no bloodshed here," Vind said. "You can prevent it. The only chance for bloodshed is in Pittsburgh, where the men are not well organized. Their meetings have been broken up and there is likely to be trouble. But we should avoid violence here."

Financial experts here, reviewing the financial strength of the mill owners declare that the mills could pay dividends for two years "without turning a wheel."

WIPPER ON TRIAL.
Prosecution of Famous "Blood Ritual" Charged With Inspiring Case.

London, Sept. 19.—M. Wipper, as public prosecutor at Kiev, conducted the world famous "blood ritual" murder trial against Mendel Beiliss, a Russian Jew in the autumn of 1913 will be placed on trial at Moscow tomorrow charged with inspiring the whole case, said a Russian wireless dispatch from Moscow today.

(Beiliss was accused of murdering a Christian boy in order to get his blood for sacrificial purposes, but was acquitted after a long and sensational trial. It was alleged by the defense that the government was making the case a part of its general campaign against Jews in Russia.)

LIEUT. NEIGHBORS EXONERATED
Boston, Sept. 19.—Acquittal of Lieut. Sydney Webster Neighbors, member of a prominent California family, charged before a court martial with embezzlement from the government became known today when Neighbors was ordered to report for duty here again with the aircraft production division, United States Air Service. The young Californian was also exonerated on a charge of having furnished unauthorized information in reference to the sale of government property, enabling certain purchasers to buy more advantageously. Lieutenant Neighbors declared that his accusers did not face him at any time during the 17 days of the general court martial trial at Governor's Island, N. Y.

X-rays are now used to show the minutest flaw in a four-inch thickness of steel.

The Proposed Hose House.

HOW THE PROPOSED EIGHTH DISTRICT HOSE HOUSE WILL LOOK WHEN BUILT

Building Will Stand on Lot at Corner of Main and Hilliard Street--Will Be Two Stories High--To Have Room for Three Fire Fighting Machines.

The plans and specifications of the proposed hose house for the Eighth School and Utilities District have been completed by Architect Arthur E. Fiske and submitted to the committee for approval. These plans will be open to competitive construction bids until Friday, September 26th. On Monday evening, September 29th, a special meeting of the eighth district will be called. At that time the committee will submit a report of their work to the voters and it is very probable that a decision will be reached as to whether or not the work will be started before the cold weather. According to the plans submitted by Mr. Fiske, the building will be

two stories high and of brick construction. The dimensions are 32 by 60 feet with a frontage on Main street of 32 feet and a depth of 60 feet on Hilliard street. The lower portion of the building will be utilized for housing apparatus and will contain room enough for three machines; hook and ladder, chemical machine and a fire chief's run-about. A concrete driveway will be constructed in front of the building and also a sidewalk will extend the length of the building on the Hilliard street side. The upper portion of the building will contain two sleeping chambers, kitchen, shower room, toilet rooms, a ladies' room and a large assembly hall. The size of the assembly hall is 30 by 36 feet. A fire escape will be constructed on the south side of the building. A new feature of the hose house is the proposed installation of hose drying racks. These will extend along the north side of the building. Combination gas and electric light fixtures are also to be installed. The apparatus entrances will face Main street with a rear entrance for members on Hilliard street. The estimated cost of the hose house is \$15,000.

KID GLEASON GROOMING TEAM FOR WORLD SERIES

Scrappy Little Pilot of White Sox Get His Boys Ready Now.

New York, Sept. 19.—"Kid" Gleason, scrappy little pilot of the White Sox, is already grooming his soon to be American league champions for the world's series.

The Sox are still two games removed from a mathematical clinch on the 1919 pennant today, but they are not worrying, and Gleason has issued orders to his players to guard against accidents to arms, legs and hands from now on. With eight games remaining Chicago must win only two providing the Indians go through without another defeat.

For the last ten days the Sox have been plugging along with their second strong pitchers doing ninety per cent of the slab work. Eddie Cicotte has not pitched a game in two weeks and Gleason has used Williams and Kerr at five-day intervals.

This trio will be depended on to turn back the heavy hitters of the Reds when the big series gets underway. Cicotte, Williams and Kerr will very probably be used against the Reds in the order named, and Gleason figures these three pitchers, working every second day, will be enough to effectually block the ambitions of the Moranman.

The pitching ability of Cicotte and Williams has been good all season, but of the trio Gleason has in mind for the big series Dickie Kerr may prove the surprise. The stocky little southpaw, who shut the hit-hungry Yanks out on Wednesday, has been given the stamp of approval by New York fans and critics. Kerr's size is altogether out of proportion to his pitching ability, for he has good speed, fine control for a left-hander and an assortment of benders that would win games against any body. What's more he is just about the best "infielder" on the club, with due respect to Collins, Weaver and the rest.

Kerr is a product of the Texas League and the American Association, having come up to the Sox from Louisville. He is the surprise pitcher of the season.

TROOPS LEAVING RUSSIA.

London, Sept. 19.—Evacuation of northern Russia is proceeding although there is insufficient ships to carry the troops and the war supplies, says a News Agency dispatch from Archangel today. Many of the ships are filled with civilian refugees who fear to remain behind.

Neat, Fall designs, in Eaton Crane Pike Stationery, displayed in our show windows. Balch & Brown Pharmacy.—adv.

"TRUST ITALY."

London, Sept. 19.—"I am sure that the allies' trust to the good faith and loyalty of the Italian government to arrive at a satisfactory solution (of the Fiume problem)," declared Premier Nitti, of Italy, in addressing the chamber of deputies at Rome, said a Central News dispatch from that city today. The Premier declared that the trouble will be settled from a patriotic standpoint and in a manner to remove from the mind of the allies all doubt that it is the correct solution.

MISLABELED UNDERWEAR.

Washington, Sept. 19.—Mislabeling of men's part wool underwear as "natural wool" is charged against the H. E. Bradford Company, Inc., Bennington, Vt., in a complaint issued today by the Federal Trade Commission.

STUPID AND CRIMINAL.

Definitely refusing to halt for counsel or hesitate for fair consideration the steel workers have announced to the President, and through him to the nation, that there can be no postponement of the strike which they have called for next Monday. Their statement comes but a day after the naming of twenty-two representative citizens by the President to meet in Washington early next month in a national labor conference. At this conference there will be twenty-two other men appointed by organizations of capital and labor. Those the President has named include men of many economic faiths, ranging from John Spargo and Charles E. Russell to John D. Rockefeller, Jr. Geographically they represent practically every section of the country and they will appear at the conference as spokesmen for the general public. The case of the steel men could come before no fairer court, could be heard by no more disinterested tribunal than that which will gather at Washington in three weeks time. It was until then that the President asked the steel men to refrain from the calamitous act which they now say they are determined to commit.

The avowed purpose of the strike is to force a recognized amalgamation between the steel workers and the American Federation of Labor. Whatever there is to be said for or against this coalition can be said at the Washington conference. Whatever injustices the workers feel they are suffering can be set forth at that meeting. Whatever advantages the workers will derive from union with the A. F. L. can be presented with all the conviction that in them lies at the October council. The verdict of this council would be final and would be of such a character that even a great and powerful corporation like the Steel Corporation would feel impelled to yield if the judgment was contrary to their contentions.

But the steel workers turn from an unprecedented opportunity to set their case before the country and win the irresistible support of public opinion. They forsake this advantage and announce that they are determined to argue with brickbats and resolve the pleas which might more than win them what they seek into the hoarse unintelligible roar of a mob.

They have presented eleven reasons (printed elsewhere today) why they feel that postponement is impossible, but there is not a complaint made there against the Corporation which will not be made more grievous if the threatened strike is called. There is not an injustice cited there that can not be corrected without resort to violence. There is not a claim advanced that will ever reach a settlement through the strike.

Granting that every statement made by the committee of the workers is gospel truth, the fact remains that there is no justification for the suffering, the destruction and economic loss which the steel workers say they are determined to bring about.

NO MORE CHEAP LIQUOR.

What will become of the 60,000,000 gallons of liquor now in the bonded warehouse of the United States? If the wartime prohibition law is suspended before the prohibition amendment takes effect it will probably all be withdrawn. The government will receive a tax of \$6.40 a gallon on all that is taken out of bond. But do not run away with the idea that when this liquor is withdrawn from bond the owners will make haste to dispose of it at bargain prices. On the contrary they will be more likely to hold it for a further rise. For remember, no more liquor is to be distilled or imported after Jan. 15; yet liquor will be needed and may be legally sold for medicinal and sacramental purposes. As the supply decreases the price will advance, therefore liquor will be a good investment. No doubt some liquor will continue to be sold illegally; but at that the seller will

want a handsome profit to pay him for his carrying charges and risk. In spite of the 60,000,000 gallons of liquor now in bond there is going to be a decided scarcity of the stuff by the end of another year and the owners of the present supply are not worrying over a probable loss.

The newspaper profession has turned out some noted men. Journalists have won fame in politics, diplomacy and in war. But we have never before heard of one who, graduating from a daily newspaper desk into the ministry, won such signal success as Charles Sumner Burch who 13 years ago was managing editor of the Grand Rapids, Mich., Evening Press and has this week been elected bishop of the Protestant Episcopal diocese of New York, the wealthiest and most powerful branch of the denomination in America.

DRYS WANT PRESIDENT WHO'LL ENFORCE DRY LAW

"We Are Now in the Field of National Politics," Says Prohibition Leader.

Chicago, Sept. 19.—Prohibition leaders, delegates to the convention of the anti-saloon league of America are today enroute to their various states to put into operation plans for the raising of a \$5,000,000 fund with which to carry the fight for prohibition to all corners of the earth.

At the same time these leaders will carry out plans for active participation in national politics by the prohibitionists.

The anti-saloon league leaders mapped out plans for these campaigns at their convention here which closed last night.

Howard H. Russell, of Ohio, founder of the anti-saloon league, and chairman of the conference declared the prohibitionists "will demand the nomination of candidates for President who can and will publicly pledge themselves to 100 per cent. enforcement of the constitutional law of the nation."

"Ratification of the prohibition amendments puts us into the field of national politics," said Mr. Russell.

SUGGEST THAT EX-KAISER BE TRIED AT HELIGOLAND.

London, Sept. 19.—Heligoland, the rocky islet in the North Sea which was once known as Germany's Gibraltar, has been suggested as the scene of the trial of the ex-Kaiser, according to the Daily Mirror today. While the Attorney General of England has completed his case for the prosecution of the one time war lord the question of venue has not yet been settled, the Daily Mirror states. Among the places suggested for the trial, in addition to London and Heligoland are Scapa Flow, where the German fleet was interned, Dover and Margate.

POET'S ARMY INCREASED.

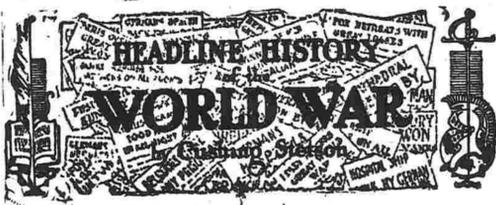

Geneva, Sept. 19.—Gabriele D'Annunzio's army in Fiume has been increased to 11,000 men, including 1,600 volunteers from Trieste, it was reported from Laibach today.

WIFE KILLED, HUSBAND KILLED

Greenfield, Mass., Sept. 19.—Mrs. Elinor Austin, of Barberton, Ohio, was killed and her husband, A. O. Austin was injured when their automobile, proceeding over the Mohawk Trail, on Shelburne Mountain, struck a low hanging wire. Mrs. Austin's neck was broken and her husband was thrown from the machine. They were both taken to the Franklin County Hospital. Mr. Austin will recover. They were touring across country in their car.

MANCHESTER GROWING.

During the month of August there were four times as many births as deaths in Manchester and there were half as many marriages as births. Seven was the number. There were seven deaths, fourteen marriages and twenty-eight births. It is expected that September will break all records for marriages. It seems to have already eclipsed June as the traditionally popular month.

(Clip and paste this in your scrap-book) Copyright 1919, New Era Features.

What Happened Sept. 19

SEPT. 19. 1914. Allied flanks advance on Aisne, but German center still holds; French advance toward Noyon, Germans capture Beaumont near Nancy. 1915. Lloyd George, in letter to a constituent, entreats people to face conscription calmly—Terms of Allied credit agreed on; 500,000,000 to 800,000,000 at 5 per cent; Senator La Follette assails it—Russian army near Vilna almost surrounded. 1916. Bulgarians evacuating Monastir as Serb cavalry approaches—Germans pierce new Rumanian line in Dobrudja—U. S. War Department announces intention to equip regiment of Field Artillery with Caterpillar Tractors. 1917. Striking Longshoremen number 6,500; new piers in New York Harbor tied up—First of second quota of National Army, drafted men, report to Army camps—Argentine Senate votes to break with Germany. 1918. British and Greeks join pursuit of Bulgars; French and Serbians take 44 villages—General Allenby resumes Palestine drive; Anglo-French troops advance 12 miles taking 3,000 prisoners—Germans fear Rumanian uprising; Field Marshall von Mackensen ordered back to Rumania—Labor endorses President Wilson's war aims; Inter-Allied conference in London unanimous in accepting 14 points laid down by President—Germany replies to Austrian peace note; consents to conference.

Once Beautiful Queen Toils With Starving Seamstresses

Paris, Sept. 19.—Queen Natalie of Serbia, whom her friends claim to be the most truly charitable woman in the world, has just opened an "ouvroir" for the poor of Montmartre. The former queen now sits among the poorest seamstresses of this section of the city supervising their needlework and paying them a living wage for their output.

Aged women on the verge of starvation look in on ex-Queen Natalie in her workshop and never go away empty-handed. Unfortunate "wild women" have her practical sympathy, and widows and orphans of the war are her especial care. The Queen works in the most simple attire, wearing a plain black costume and a widow's cap with veil. At the end of the day's work she returns by subway or autobus to the convent near the Luxembourg Gardens, which she made her home after the slaughter of the Obrenovitchs in Belgrade.

It is recalled that the present "Lady Bountiful of Montmartre" worked as a domestic servant at the Bordeaux hospital in the early days of the war. No one knew her identity, least of all did the hospital staff suspect that the stout, kindly-looking woman who swept and scrubbed corridors had once occupied a throne. When at length she was recognized and the story of her abnegation reached the newspapers, the ex-Queen disappeared as silently as she

Taxes Most Unpopular Thing in U. S., Congress Discovers

Washington, Sept. 19.—The most unpopular things in the United States are taxes, if the protests which are reaching Congress can be depended upon as a fair indication.

Study of the petitions to Congress discloses that there have been more protests against taxes lodged than any other form of protest in the present Congress.

Whether prohibition is responsible or not, it is very evident that soda water and soft drinks are prime favorites with the American people now. Most of the tax protests are launched against the taxes upon soda water and ice cream. These protests even went so far that the House agreed to repeal the taxes upon fruit juices, but the repeal came to a standstill in the Senate.

Next to the soda water protests come the trades against the "movies" being subjected to taxes. These petitions for the most part declare that "movies" are the "poor man's theater" and that it is unjust to place a war tax upon them.

Protests against the taxes upon costly clothing have not come in any great numbers from the people, but have been lodged chiefly by those

PIPPA.

I knew her name was "Pippa" because she precisely looked the part, and was for ever "passing." Every day in the great rambling hospital she passed—flitting through dim corridors, or across sun-splashed courtyards, or up and down endless stairs. True, she did not sing, like Browning's Pippa, a silver indictment of dark doings and darker hearts, but the swing of her lithe body as she sped on silent feet was like a melody tender and gay—a wordless song of the sunburnt South.

She was a small, oval-faced, olive-skinned Maltese maid, and she lived in a tiny house high up on one of the building's many roofs. Her mother did washing for the hospitals. The maternal wash-tub failed to rob Pippa of romance—rather it enhanced it; for the deadly blot on southern picturesqueness is dirt. But Pippa—graceful, gravely-sweet Pippa—would be above suspension though her mother were soapless and the family 'scutcheon' in want of a scrubbing. She fitted exquisitely into her environment of walled and spacious cleanliness and ran mysterious errands all day long.

What these errands were I never tried to discover. Approach romance too closely and it shrivels. Instead I wove fancies round the little maid, inventing episodes wherein she moved against a background of medieval splendour and barbaric chivalry. I saw the fanatic Turk fiercely invading and Christendom, sword-girt, grimly at bay. I saw Pippa, fair daughter of some Sicilian knight of St. John, dutifully tend her sire before the battle, bringing him food and wine on a silver salver. I felt the tragedy in her eyes when he returned sorely wounded, and grieved with the abandonment of her grief at the final parting.

Once only I spoke with Pippa. It was the day I left Malta. She had been hovering outside my window, and I was thrilled to think she desired something of me. I sought the balcony. She stood wistfully waiting, her face in shadow, one slim arm embracing a baluster. Her delicate feet, bare and brown, were

CONGOLEUM RUGS

HOUSEWIVES everywhere say that Congoleum Rugs are the ideal, waterproof floor covering for kitchens for they can be freely mopped or washed. Water getting underneath will not rot the fabric.

The pleasing, harmonious colors make as strong an appeal as do the extremely low prices. Congoleum Rugs need no fastening and won't curl or kick up at the edges. They are unusually durable, and never fade.

When may we have the pleasure of showing you these wonderful Congoleum Rugs?

WATKINS BROTHERS, INC.

bathed in a golden pool of sunlight. In her dark eyes was a beseeching look, a timid appeal for aid.

"What is it, Pippa?" I said gently—tenderly mayhap.

She gazed shyly appraising, then in perfect English Pippa spoke. "My name," said she, "is not Pippa. And if you please, could you lend my mother a match?"

I gave her three, though they were precious as rubies. She smiled her gratitude, and vanished. Thus for the last time Pippa passed.—J. A. N. in the Glasgow News.

ALL WILL HAVE SAME CHANCE. Usually the democracy of the school-room is inequality in the home. One father buys a fifty-dollar set of books; another can scarcely afford a speller.

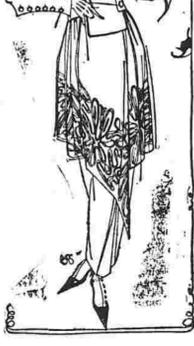

But all can have the helps to be published by Herald. They are written by experts. Watch for them.

Watch what the big business men do when they want help. They use a little ad. in THE EVENING HERALD. Do likewise.

Saturday Suit and Dress Specials

Suit Day Tomorrow at RUBINOW'S

Black Satin Dresses In Exclusive Models

These New Fall Suits have right of way here tomorrow. Many exceptionally pretty styles which are exclusive with us will be on display. In most instances these models will not be duplicated. Amongst them is 1 suit, size 18 of brown velour with genuine nutria collar. Materials, fur and tailoring of the very finest—to duplicate it would cost \$100. Our price tomorrow, including tax . . . \$75.50

As every woman in touch with the fashions knows, black satin dresses bid fair to be most worn of the season's new costumes, and we are showing several exceptionally striking styles which are exclusive with us.

Sizes 16 to 44. Special values at the following prices

Prices \$19.95 \$22.50 and \$27.50

TAD'S TID-BITS

Charley Thorley, the florist, had a hot argument with Tex Rickard at the banquet given by the National Sporting Club at the Biltmore Thursday night. It was all about fighters—nothing else. Everyone was talking about naturally Rickard and Thorley stepped in and had it hot and heavy.

Thorley insisted that the greatest man that ever sat in a ring corner was John Morrissey, the Irish wonder.

"That fellow was born in Templemore, Tipperary, Ireland," said Thorley, "and no rougher man with his fists ever lived. He was the greatest rough and tumble fighter the world ever saw, and as for courage, he'd make a lion look like a sick cat."

"They didn't fight with gloves in Morrissey's day," he continued. "John fought with bare hands out where the bull had his breakfast, and I want to tell you that he was a terror. I saw him lick Yank Sullivan down on the old Casey street dock, and it was some scrap. He beat John C. Heenan for the American title later, and was one of the most popular fighters that America ever saw. He was later elected to Congress and after that to the Senate."

"I saw a note that you had the other day about Billy Gibson's father. He said that Morrissey could beat both Coffey and Jeannette in one round. I want to tell you that Gibson's father said something, I've been watching fighters for forty years. I've seen them all, big and little, black and white, but there never was but one John Morrissey."

"Say, continued Thorley, just getting a new idea. 'There was a little Irishman around in those days by the name of Larry O'Brien. Old timers will remember him well. That fellow O'Brien could lick a tiger and give the tiger the first bite. He only weighed 140 pounds, never fought in the ring, but used to lick all the fighters around New York just for the fun of it. He could take them up to 250 pounds and knock them silly. I'm just putting him in my story for dessert. It only goes to show that many a great fighter never fought professionally.'"

LOOK OUT FOR WILLARD.

Tex Rickard met a friend of his from Kansas the other day and said friend slipped the big promoter an earful of stuff that almost knocked him flat.

"This fellow had just left Jess

Willard," said Tex, smiling at the news, "and says that Jess is as black as a Mexican. He's working on his farm and is harder than a slate pencil. He told me that Willard is lighter now than he was at Toledo. Jess didn't lay off after the fight and fatten up as most of the fighters do, but pitched right in to work the day he landed in Kansas and hasn't stopped yet."

"Willard thinks right now that he's the best fighter in the world. He still believes that he was unlucky with Dempsey, and I wouldn't be surprised to hear any day now that he'd be willing to back himself for \$25,000 against Dempsey."

"You know, there are a lot of people who thought more of Willard after that Toledo fight than they did before it. I've met a lot of people who thought that fellow was a quitter. They're convinced now, that not one inch of him has the tang of cowardice. He fought until nature quit him. I don't think that I ever saw a grander display of gameness. He showed the same brand of courage that Lavigne did against Walcott. I think he outdid Lavigne. Willard was down seven times and never refused to get up. He might have quit on any of those knockdowns and gotten away with it."

"He never really thought of defeat at all. The day before the fight Jess took me in his machine over to the arena and we sat there for two hours. He wanted me to go into the moving picture business with him and told me of all the money we'd have after the bout."

"Why, I was in his dressing room the day of the fight and he was all smiles. We sat there kidding for half an hour or so and finally, getting up and grabbing his robe, Willard said: 'Well, let's go and have the damned thing over with.'"

"Willard really thought that he'd win in a round. He didn't think that it was possible for a man to knock him down."

HOW COME, BOY, HOW COME?

The limit has been reached: "Sacramento, California. — Although he has twice fought colored boys, Frankie Lee, local Chinese boxer, has raised the ire and mirth of local fans by drawing the color line against Baby Blue, of Marysville. Lee, some time ago, refused to enter the ring at the last moment with an antagonist with whom he had been matched because he was colored."

Circle Theater Park Theater

"Beyond the Law" the big feature shown for the first time at the Circle last evening made a big hit and will be shown again tonight.

On the same bill will be an educational film and a Pathe comedy.

Tomorrow the performances at the Circle will be at 2 and 7.30 because of the long program. There will be thirteen reels shown. The last chapter of "The Tiger's Trail" and the first chapters of "The Gamblers" will be shown. There will also be a comedy, the Pathe News and Viola Dana in a five reel feature "Some Bride."

AA-1 IN OFFICIAL TESTS

EXCEEDS 20 KNOTS; IS FASTEST SUBMERSIBLE. Boston, Sept. 19.—Official tests of the first American fleet submarine, the AA-1, formerly known as the Schley, conducted off Provincetown, indicate that the vessel is the fastest and most efficient craft of her kind ever constructed.

Over a measured course the big submersible made a surface speed of 20.92 knots and a submerged speed of 12.65 knots, exceeding contract requirements in both respects. With the exception of British freak submersibles, steam driven on the surface, which attained a speed of 23 knots, the American craft is said to be the fastest submarine afloat.

The boat was designed and built by the Electric Boat Company of New London, Conn., the hull being built by the Fore River Shipbuilding Company of Quincy, as subcontractor.

The boat will carry a crew of sixty men and four-inch guns, mounted "wet" on her decks. She will have a cruising radius on the surface greater than any but the latest battleships probably 12,000 miles, and in reality forms a new weapon of naval warfare, as no German or British submarine equals her military characteristics.

Spanish railroads are conducting campaigns on education along their lines to improve agricultural conditions.

MEMORIAL TABLET MARKS BIRTHPLACE OF INVENTOR

South Spencer, Mass., Sept. 19.—A memorial tablet to mark the birthplace of three noted inventors has just been placed on the site of the old homestead, Howes Village.

There were born Elias Howe, Jr., inventor of the sewing machine; Tyler Howe, inventor of the truss bridge, and William Howe, who invented the first spring bed. Elias Howe, Jr., was nephew of the other two.

but Wednesday and Saturday—adv.

STEEL WORKERS GIVE WILSON ELEVEN REASONS FOR STRIKE

Reject President's Request for Postponement of Strike —Make Charges Against Company — Say Delay Means the "Surrender of All Hope"—Claim Workers Can Not Cope With Company Unless Organized—Set Sept. 22 as Date for Strike.

Pittsburgh, Sept. 19.—Late last night the steel workers committee gave the press a copy of a letter which has been sent to President Wilson setting forth eleven reasons why the workers feel that they can not comply with the President's request for a postponement of their threatened strike. The date set for the strike is Monday, Sept. 22.

"We regret that for the first time your call upon organized labor cannot meet with favorable response," the letter states. "If delay were no more than delay, even at the cost of loss of membership in our organizations, we would urge the same to the fullest of our ability notwithstanding the men are firmly set for an immediate strike. But delay means the surrender of all hope."

The letter goes on to express faith in the President's desire for a conference but declares that nothing but a strike will bring the results desired by the steel workers.

The Eleven Reasons. The letter says the request for postponement would be granted, but for the following facts:

"1.—Mr. Gary has asserted that his men need no trained representation in their behalf in presenting their grievances, notwithstanding that they can neither economically, by lack of schooling, cope with him or his representatives."

"2.—That, ever since the men started to organize, a systematic persecution was instituted, beginning with discharge and ending with murder, recalling to us vividly the days of Homestead and the reign of despotism in Russia."

"3.—Through the efforts of the representatives of the steel industry, officials in various localities have denied the men free assembly and free speech. Instances are too numerous where meetings have been suppressed, men arrested, tried on various unfounded charges, excessive bail required and cruel punishment imposed, all without warrant in law and justice."

"4.—As one of many examples— in the city of McKeesport, a meeting held by the men within their constitutional rights was broken up and men arrested and thrown into jail, charged with riot and held to the excessive bail of \$3,000 each, while one of the hirings of the steel industry arrested for the murder of a woman speaker at Brackenridge, Pa., is being held under bail of but \$2,500. Another patent example is Hammond, Ind., where four defenseless union men were charged upon and killed by hired detectives of the steel industry, and witnesses in behalf of their survivors have been so intimidated and maltreated that the truth of the killing was suppressed."

"5.—Guns and cannon have been planted in mills, highly charged electric wires have been strung around their premises.

"6.—Armed men in large numbers are going about intimidating not only the workers, but everybody in many communities who show the slightest indication of sympathy with the men.

"7.—Men have been discharged in increasingly large numbers day by day. Threats and intimidation are resorted to for the purpose of putting the men in fear and prevent them from the exercise of their own free will, coerced into signing statements that they are not members, nor will become members of any labor organization, and threatened with eviction, blacklist, denial of credit, and starvation.

"8.—That a forced decline of the market would be imposed, so as to wipe out their holdings in stock which they were induced to purchase in years past. Threats to move the mills and to close them up indefinitely.

"9.—That an organized propaganda for vilification of the American Federation of Labor, spreading rumors that the strike will be delayed and that such delay is only a sell-out.

"10.—Showing no opposition to the men joining dual organizations. As a result of this propaganda, the I. W. W. is making rapid headway in some of the districts.

"11.—That the real reason for opposition to organized labor representation on behalf of the men who have grievances is that the steel industry is preparing to cut wages and to lower the standards of operation times and to return to a condition that encouraged the padrone system, so prevalent in that particular industry."

"6.—Armed men in large numbers are going about intimidating not only the workers, but everybody in many communities who show the slightest indication of sympathy with the men.

"7.—Men have been discharged in increasingly large numbers day by day. Threats and intimidation are resorted to for the purpose of putting the men in fear and prevent them from the exercise of their own free will, coerced into signing statements that they are not members, nor will become members of any labor organization, and threatened with eviction, blacklist, denial of credit, and starvation.

"8.—That a forced decline of the market would be imposed, so as to wipe out their holdings in stock which they were induced to purchase in years past. Threats to move the mills and to close them up indefinitely.

"9.—That an organized propaganda for vilification of the American Federation of Labor, spreading rumors that the strike will be delayed and that such delay is only a sell-out.

"10.—Showing no opposition to the men joining dual organizations. As a result of this propaganda, the I. W. W. is making rapid headway in some of the districts.

"11.—That the real reason for opposition to organized labor representation on behalf of the men who have grievances is that the steel industry is preparing to cut wages and to lower the standards of operation times and to return to a condition that encouraged the padrone system, so prevalent in that particular industry."

TAGGING THE BASES

Mays stopped the White Sox. Ayers, relieving Ehmke, of the Tigers, held up the Red Sox to five hits and easily shut them out. Connie Mack's rookies took another lacing at the hands of the Cleveland Indians.

Heavy hitting by Bigbee, Southworth, Grimm and Barbara of the Pirates behind Babe Adams, resulted in a shut out victory over the Giants.

Eller pretended the Dodgers were the White Sox yesterday and shut them out.

DIVORCES ON INCREASE.

London, Sept. 19.—Divorces have increased 100 per cent. since the war and the number of cases on the Divorce Court docket today sets a new high record for England. There are 1,600 cases to be tried during the present term in London alone.

At the divorce court judges will have no extra help the "divorce mill" must grind at top speed to get them all out of the way before the next term of court opens.

One solicitor alone filed 100 divorce cases for a single legal firm, this being the largest number of marital suits ever entered by one firm of barristers in London.

An English inventor's camera resembles a short telescope and takes pictures at right angles to its user's line of vision without their subjects' knowledge.

MR. MERCHANT. Do you realize that THE EVENING HERALD covers Manchester like the dew? Think of this when you think of advertising?

Watch the business of the man who does not advertise. Then go around to the man who does. There must be something in advertising after all.

PILE SUFFERERS! CLEVER OHIO CHEMIST SAYS THIS GREAT PRESCRIPTION TAKEN INTERNALLY HAS NEVER FAILED

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recently discovered fact that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as Miro Pile Remedy.

It has been proved that so called external remedies applied or inserted into the rectum cannot cure piles and at the best only give temporary relief. This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly passed on unchanged to the intestines in a short time, reaching the exact place where by its soothing, healing action, it first allays all inflammation and then by direct contact with all ulcers and piles, causes them to heal and disappear forever.

It's positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases which profuse bleedings that have resisted all known treatments and operation, really wonderful results have been accomplished.

The author of this amazing discovery desires all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively conquers even in the worst cases and he has instructed Magnell Drug Co. and druggists all over the country to guarantee it in every case of blind, bleeding or protruding piles.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Remedy has been prepared as in such cases it is not necessary to take the internal prescription.

By J. H. Millar, Director

Boys' and Girls' Newspaper Service. It is a wise boy who, when seeking to earn money outside of school, thinks about what he is learning as well as what he is earning.

Often the job that pays the least teaches the most. A print shop is no mint, but it is a good, rough, thorough school-room.

Which is easier to remember; a "hawling out" from a gruff old printer because you misspell an important word in setting type, or the gentle warning of the teacher who takes five points from your daily grade? Printing teaches spelling.

Leo, the butcher says: "Print me an ad; fix it up; you know how." You write one that Leo doesn't like. He gets so mad that his face looks like one of his own round-steaks. Don't you remember this better than the neat blue pencil mark on your weekly theme? Printing teaches English.

In this column is the possibility of at least 10,000 different mistakes in printing. If a printer makes two

of the 10,000 he is "poor;" if he makes five he is "no good." Little mistakes mean much. Printing teaches accuracy.

It is a wise boy who, when seeking to earn money outside of school, hunts work that will help him prepare for the greater work that he is to do when his school days are past.

Horace Greeley, great editor of the "New York Tribune," started as a boy printer.

E. W. Howe, who made the Atchison (Kansas) Globe famous, began by "sticking" type and "beating" the press.

Many an editor has wished for the training that Greeley and Howe had. Inexperience is costly. It pays to start young.

You think you would like a job where you can learn printing! All right, why don't you move? You don't need an employment agency. Think for a minute. "What am I going to do about it?" Then do it. (Next week: "Apple-Pickers, Incorporated.")

PAYS \$5,500 FOR 110 CASES OF RIVER WATER, THOUGHT HE HAD WHISKEY.

Pittsburgh, Sept. 19.—For 110 cases of dirty river water, \$5,500.

That's what Lewis Petrusi paid to sharp witted individuals here and for whom the law officers are now looking.

Petrussi, who lives in a neighboring city, came to Pittsburgh to buy contraband liquor. He was taken in hand by the sharpers and led to an abandoned wholesale shop. Here he was given a sample of some of the very best brand of whiskey and was told all the cases he saw contained more of the same. Unsuspecting, Petrusi paid over the cash. After hauling the load home in a truck Petrusi discovered his "watered" stock.

ESPECIALLY FOR SEVENTH GRADERS.

"How to Study Skillfully," will answer many puzzling questions. "Native Study" and "Woodcraft" will help a whole lot. Boys with home work-shops will want "For Boys to Make"; girls will want "For Girls to Make."

Clip out "Adventures that Made an American" each Wednesday and take them to the civics classroom.

Before wearing black stockings or black cotton gloves, scald them in salt and water and they will not snook.

WHY DOES DAD CLEAN THE AUTO'S SPARK PLUG?

By Grant M. Hyde, Instructor in Journalism, The University of Wisconsin.

"Dad, why do you take the spark plugs out so often and scrape them?" "They get fouled and won't fire. You see these two metal points (A and B) about 1-16 inch apart? When the spark plug fires, a spark jumps from one point to the other. If the plug is covered with soot the current 'shorts' through the soot and doesn't make any spark."

"What is the spark for?" "To explode the 'mixture' of gasoline and air in the cylinder. That kicks the piston down and makes the motor run."

"Does it keep exploding all the time?" "It's like this, sonny: The motor is run by a series of explosions. The spark plug's work is to explode the gas just when the cylinder is full and ready. You see this cylinder here? Inside (see the drawing) there is a piston connected with the crank shaft. Here on the side are two valves that are opened and shut by these push rods. The intake valve

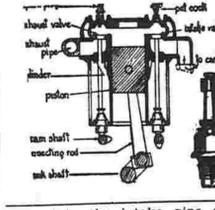

opens into the intake pipe which comes from the carburetor; the exhaust valve opens into the exhaust pipe leading to the muffler.

"It's called a four-cycle motor because the piston takes four trips—two up and two down—for each explosion. The cycle starts with the piston at the top of the cylinder. As the crank shaft pulls the piston down, the intake valve opens and the cylinder sucks full of the gas and air that has been mixed by the carburetor. As the piston comes up again, the valve closes and the returning piston compresses the gas. Just when the piston reaches the top and the gas is very tightly compressed, a spark from the plug explodes it and the explosion blows the piston down. Then, as the piston comes up again, the exhaust valve opens and the burned gas is forced out through the exhaust pipe into the muffler.

"This one explosion must give power to drive the piston on all four trips. That's why the motor hasn't much power when it runs slowly."

(Next Friday: "Why is That Line of Print Upside Down?")

FAST SOCCER GAME IS PROMISED NEXT SUNDAY

Manchester Team Will Meet S. K. F. Club of Hartford—Both Teams Have Star Players.

The Manchester soccer football players will open the season at the Pleasant Hill grounds on Sunday afternoon when they will meet the fast S. K. F. club of Hartford. These two teams battled to a tie at the Charter Oak grounds in Hartford last Sunday. The score was 2-2.

Sunday's contest should prove an interesting one as both teams have strengthened their line-up. The locals will have such stars as Billy Dowdall and Hall. These two men gave a wonderful exhibition at Bridgeport last year in the finals for the state cup. McConkey and Molincaux will also appear in the line-up. The altar has just returned from France. Sammy Pratt, who recently returned from four years' service with the Ulster Volunteers, is another local star.

The S. K. F. team will use such stars as Shields and Cruikshanks. These two men have played for two years with the Scotch team and were in the line-up when this famous club played the American, English and Swedish teams. Hanlon, late of the Fall River Rovers, is also a member of the Hartford team. Play will be called at 3.15 o'clock.

RENSELAER TO OPEN ITS FOOTBALL SEASON

Veterans Return From Military Service—Last Season's Players Seek Places—Opening Game With Williams.

Troy, N. Y., September 19.—Football practice commenced at Rensselaer Polytechnic Institute this week in preparation for the opening game of the season with the Williams College varsity team here Saturday, September 27. With last season's line-up practically unbroken, many students returning from military service and the largest entering class in the history of the famous old engineering school, Coach "Jack" Reed has the largest squad ever out on the gridiron here.

HIGH SCHOOL NOTES

The election of officers for the coming year were held Tuesday in the assembly hall.

Gilbert Wright, last year's vice-president, took charge of the meeting.

There were no two candidates for the same office with the exception of vice-president. Here there was a close race between George Dougherty and Clifford Gustavson and when the votes were counted Gustavson had won 152-125.

The association postponed the election of managers and assistant managers for the track and tennis teams.

Talk of Swimming Team. There was considerable discussion about a swimming team. This new branch of sport is now possible because of the large swimming pool at the recreation building.

The dues of the Athletic Association will be as in following years, 25 cents, payable to Miss Spafard at Room 27.

Officers of A. A. The officers of the Athletic Association are as follows: President, Gilbert Wright. Vice-President, Clifford Gustavson. Treasurer, Miss C. Spafard. Secretary, Miss Lolita Aitken. Manager of Basketball, Harold Turkington. Assistant Manager, Ernest Benson. Manager of Baseball, Kenneth Ringrose. Assistant Manager, John Wallet.

CANNIBALISM PREVAILS IN ARMENIA, SAYS NURSE.

Uhrichsville, Ohio, Sept. 19.—"It would rot and we're starving," is what some Armenian children told Miss Blanche Knox, a Urichville nurse, when she saw them eating the heart of their dead mother. Miss Knox is doing work in the Russian Caucasus. In her letter Miss Knox said the acts of cannibalism caused by starvation are indescribable. In many shallow graves, she said, she saw bodies from which the trunks had been removed for meat.

COPPERHEADS INVADE CITY.

Clarkburg, W. Va., Sept. 19.—Copperhead snakes have invaded this city. One snake was killed in a music store, where it lay in front of a talking machine that was playing. Another was killed on a sidewalk of one of the main streets.

BRINGING \$35,000,000 FROM DEPTHS OF SEA

Divers Recovering Vast Treasure From Liner Sunk by Germans.

120 FEET UNDER WATER

Divers Consider Two Gold Bars a Day Good Work—Each Worth \$6,000—Impossible to Work in Winter.

The good ship Laurentic of the White Star Line that was mined by the Germans in 1917, lies off the coast of Ireland and will never be raised, but the greater part of the \$35,000,000, in gold ingots and specie which went down with the ship is being brought to the surface a little at a time by divers.

This is the ship that previous to the war made special trips to Panama, South America and the West India Islands. Senator A. E. Bowlers and the late George H. Hall took this strip on the Laurentic a few years ago.

Of the money and bullion recovered, about half was salvaged a year ago, before operations had to be suspended owing to German submarine activity.

120 Feet Down. The work of recovery, now resumed, is extremely difficult. The wreck lies twenty fathoms (120 feet) down, and at this depth divers can work only half an hour at a time; even then they require to be suspended three-fourths of an hour nearer the surface in order that the shock of taking off their helmets after the prolonged pressure may not be too great.

With all the precautions taken, sometimes the men are required to go into the special tank on board the salving vessel gradually to recover. Two spells are all a man can stand a day.

2 Gold Bars Day's Work. It is not so much the actual hooking up of the bars of gold that is difficult as dealing with the hundreds of tons of metal plates of the wreck. These have to be blown up with gelignite and shifted before the bullion can be reached. Each bar of gold is worth about \$6,000, and the recovery of two bars is reckoned a good day's work.

When a sufficient consignment is gotten together it is sent in charge of a naval paymaster under strong guard to London, and "at various points of the journey the officer is met by Government officials, to whom he reports, "All safe."

The general view on board the Admiralty salving steamer Racer, from which the divers work, is that all the bullion will not be recovered before the next two or three years, seeing that not only is fine weather necessary, but that no diving is possible at twenty fathoms when the temperature falls below a certain point. Work will shortly have to cease for the present season, but the wreck will be carefully buoyed.

CHARGED WITH MANSLAUGHTER

New Haven, Sept. 18.—The case of Thomas J. O'Connell, the New Haven chauffeur, who drove the car in which Bernard S. Maguire, the clerk of the police department of this city, was killed on the Snake Hill Road at Short Beach about a month ago has been set for trial in the East Haven town court on next Monday night. O'Connell is charged with manslaughter, having been held criminally responsible by the Coroner for Maguire's death. He has retained Attorney Benedict M. Holden, of Hartford, to defend him. The case was set for trial last night but was postponed at the request of Mr. Holden. O'Connell is out on \$2,000 bonds, awaiting trial.

SHERIFF'S STAR FASHIONED FROM TOMATO CAN GETS JOHN IN TROUBLE.

Vincennes, Ind., Sept. 19.—A bright and shining star brought John Savage to grief. John and nineteen others were employed to maintain the peace and dignity of the Knox County Fair at all hazards. As an emblem of his authority John displayed upon his lapel a star. So noticeable was the star that arrest was speedy. Mayor McDowell said \$5 and costs would square the matter. The charge was impersonating an officer. John admitted that the star, a large one, was cut from a tomato can.

United With Mother After Twenty Years Separation

Reading, Pa., Sept. 19.—Twenty years of separation—years of sorrow and longing—were ended when Private Joseph F. Amen, marine veteran of Chateau-Thierry, was reunited with his mother, Mrs. Francis Amoroso, at her home in this city. The reunion of mother and son after the long separation was made possible through the efforts of the Red Cross, while Amen was with the Army of Occupation in Germany.

Stolen from his home by his father in a fit of anger when only three years old, Amen was hidden among strangers in the South. He grew to boyhood among these strangers not knowing whether his mother was alive or dead. His father had disappeared.

The lad later learned that his grandparents lived in Italy. While serving with the marines in France he wrote to them. They informed him that his mother was still alive and was living "somewhere in America." He appealed to the Red Cross and was rewarded shortly before he left France when he was informed that his mother resided in Reading.

After reaching New York Amen was sent to Camp Mills. He received a twenty-four-hour leave and immediately paid his mother the first visit in twenty years.

Amen had no recollections of his mother and she had to be pointed out to him before he recognized her. A touching scene followed when the mother and son embraced. The lad was forced to return to the army camp, but as soon as he is discharged he will return to his city to take up his home with his parent.

Since Amen was split away by his father, his mother was remarried and on his return Amen met for the first time a half-sister, who is eighteen years of age.

"The best news I ever received," said Amen, "was a letter from my mother on January 1, 1919, while I was stationed at Melsbach, Germany, with the Army of Occupation."

Until the Red Cross authorities communicated with Mrs. Amoroso she believed her son dead. "I did not know he lived," said the mother between sobs of joy, "until I received the letter from the Red Cross."

Amen is a veteran of the Fifth Regular Army Division. He saw service in practically every campaign and battle in which the American troops participated in France and served with the Army of Occupation in Germany. Despite his extensive service, Amen came through without a wound.

Do you need a job? Why wear out shoe leather and waste time walking all over town. Use a little ad. in THE EVENING HERALD. If there is a job in town you'll get it and quickly.

ABOUT TOWN

The Athletics will hold a practice at Mount Nebo this evening. The White Sox will meet the Annex of New Britain in the latter city on Sunday afternoon.

Dispatcher Edward Ludke of the Connecticut Company is enjoying a two weeks' vacation.

John F. Sullivan of the Park theatre was a business caller in New Haven yesterday.

George Carter of the U. S. S. Calamaris is spending a 30 day furlough at his home in town.

Russell Pitkin left today for New York city to take in the big auto classic at Sheephead Bay track.

George Ferris of the Robert J. Smith agency has been confined to his home for two weeks with illness.

James Robinson is driving a new Ford delivery car. The sale was made through the local Ford agency.

August Gillette of Charter Oak street will leave tomorrow for New York city for a week end visit with friends.

Troop 6 Boy Scouts held their regular meeting last evening, in the parlors of the Swedish Lutheran Church.

Mr. and Mrs. Andrew Dunn of Main street are spending a few days at the Eastern States Exposition at Springfield.

The Inner Mission society of the German Concordia church will hold a concert in the church parlors next Thursday evening.

Miss Hazel Saunders of Ridge street underwent an operation for appendicitis at St. Francis' hospital a few days ago.

There will be a meeting of the officers of the Industrial Bowling league at the Recreation Center on Monday evening.

In the case of John Brozauske against Tammany Farrance for a grocery bill amounting to \$21.50, judgment has been awarded to Brozauske.

Justice Robert E. Carney has awarded judgment for Peter Gosche in the case of Peter Gosche against Ward Jacobs for a board bill amounting to \$12.

Many local people are attending the Eastern States Exposition in Springfield. It is said that this fair is the best of its kind in the New England states.

The members of Company, F of the State Guard are to hold a special meeting in the Company room next Monday night at which time an outing is to be planned.

Judge Robert E. Carney has been appointed by the fire commissioners to make up the grand list and rate book for the district tax. Judge Carney made this list two years ago.

Building Mover Street, who is now engaged in moving the Ferris building, is seventy five years old. He has been engaged in structural moving since he was fifteen years old.

Sherwood Bowers, son of Mr. and Mrs. H. O. Bowers, who has been at Dartmouth for the last year, has entered Storrs. His brother, Raymond Bowers, has entered the Loomis Institute at Windsor.

Howard Carrier of Cambridge street, Robert Howes of Hudson street and Robert Hughes of Doane street, left this week to begin their sophomore year at Connecticut Agricultural College, Storrs.

At the Superior Court in Hartford yesterday, the appealed case of Rudolph Haupt who was fined \$25 and costs by Judge Alexander Arnott in June, as a result of a mixup on Main street, was nolleed by State's Attorney Hugh Alcorn.

Mr. and Mrs. Robert M. Reid of Main street with Mr. and Mrs. Alfred E. Pinney of Talcottville have been touring Massachusetts for the past few days. The last day of their trip was spent at the Eastern States Exposition at Springfield.

Judgment for \$30 has been entered for Charles Frago in his case against Dudley Gleason of Suffield for damages incurred in an accident at Twin Hill on April 20. Attorney Raymond Johnson appeared for Frago, and Attorney Joseph Barr of Suffield for Gleason.

COURT WAITS IN VAIN FOR ANDREW MITCHELL

Wapping Man Fails to Answer Summons After Auto Accident.

HIT CAR, MADE FOR HOME

Crashed Into Dr. Sharpe's Machine But Did Not Wait to See What Damage Was—Warrant for Arrest Made Out.

Andrew Mitchell who lives on the Wolcott Green farm in Wapping came to town last evening in his automobile and in making a swift turn on Depot Square crashed into Dr. Sharpe's car that was standing in front of his office. Instead of stopping to inquire the amount of damage he had done, Mitchell started for home by way of Oakland. Officer McSweeney learned of the affair shortly after the accident and obtained the use of an automobile he started in pursuit. The officer caught up with Mitchell near Oakland and told him to appear in court this morning. McSweeney had witnesses on hand and the judge and prosecutor were at the court room prepared to try the case but Mitchell did not appear. The court officials waited until nine o'clock and then a warrant was made out for Mitchell's arrest and no doubt he will learn that it pays to show up when he is summoned by an officer of the law.

ASK WOULD BE VOTERS TO COME IN FORENOON

Men and Women Who Come Early Will Assist Town Officials in Big Day's Work.

The selectmen with the town clerk and registrars will be in session tomorrow, from nine o'clock in the morning until eight o'clock in the evening for the purpose of making voters. There are over three hundred names on the "To Be Made" list and this means a busy day. All who can are urged to appear at the Hall of Records in the forenoon. It requires but a few minutes to administer the oath and secure the necessary data but it is advisable, if time is to be saved, to appear in the forenoon.

ANOTHER DELAY.

Proctor-Williams Case Still Hesitates On Threshold of Court Room.

By agreement of counsel on both sides the Proctor-Williams case has been put over from Tuesday to Wednesday of next week. Judge Arnott has a case in the Supreme court on Tuesday and for this reason the local case had to be postponed for one day. Deputy Sheriff John F. Sheridan was busy today securing the jury of six men who will listen to the arguments and bring in the verdict.

The stock is now open for subscription. It will be sold in shares of \$1,000 each. P. J. O'Leary, president of the company, presided at last evening's meeting.

A NEW GROCERY.

P. R. Brannick, who with Walter P. Gorman purchased the interests of John Rowan in the grocery store at Middle Turnpike a few days ago, will assume active charge of the store on Monday morning. Mr. Brannick has had twenty years experience in the wholesale and retail grocery and meat business. For the past two years he has been a salesman for the Armour Packing Company.

It is the intention of the new owners to make numerous changes in the business. A meat department will be opened in connection with the grocery end and a delivery system

will also be started. An up-to-date refrigerating system has already been ordered. The store will be known as the Pinehurst Grocery.

Ideal weather for picture taking. Kodaks and fresh film, printing and developing, at Balch & Brown Pharmacy.—adv.
