ONLY TOOLS

Among the notable commencement addresses delivered within the past week, is one which stands out prominently. President Lowell of Harvard told the seniors of that institution that there is a tendency in America today to confuse legislation with the law. He said that the words to think that because we have forced a measure through Congress, the General Assembly or a town meeting that we have actually accomplished the end in view. It is this danger of confusing the means with the end that President Lowell warned against. We do not have to go far back to find examples of this kind of thing. He himself gave the example of the father who feels it his duty to provide for his family with a particular party of subscribers to a certain cause. It sometimes happens that such a man becomes so lauded by the community that he is actually led to believe that he has accomplished his end and that he grows into that class which is known as the "old man of the town."

The only hope is to constantly remind ourselves that legislation is only machinery with which we may successfully accomplish our ends. It is this machinery which government derives its utility from.

Within the past few weeks the dress reform system has come in for a good many knocks because of its seeming failure in the recent campaign for the Republican nomination. That it has failed is only too evident but the reason is that the laws themselves which are operating are still a sound one.

Other legislators are to better our country will also fail if they are regarded as ends in themselves. The amendment, and the woman suffrage law are examples of legislation which are likely to be put into political pastures because they are expected to operate automatically and without any human touch.

Such a hope is doomed to be shattered. Where democracy is near a system to operate would long ago have reached the millennium. Laws are made to be broken. They will accomplish nothing unless used and will work only harm unless operated by citizens with a well defined, watchful care and a well defined plan for constructive work.

Without education the settlement of nothing can preserve the Republic. Compulsory education legislation is of small consequence.

When some original legislator introduced Governor Coolidge as the "next vice-president" of the United States the assembled diners are expected to applaud all if the talk had not struck them and the speaker himself to look mildly started.

SCHOOL CONSOLIDATION

Best Interest of the Children Asked by "Talking Second and Third Districts."

To the Editor of the Evening Herald: A question of school consolidation, now being considered by the Second and Third districts of Manchester, is one that deserves the careful thought of all the forward-looking citizens of the town. For the moment, only the residents of the two districts already mentioned are directly concerned, but the question will soon have to be taken up by all the outlying districts, and beyond that lies the problem of welding the schools of the entire town into a unified system under the control of a board of education chosen

SILK MILLS NEWS

Girls Decide on Uniforms; Teams Get New Equipment

The girls baseball teams were formally organized last evening at a meeting of the managers held in the Service Department Office yesterday afternoon at five o'clock. Six teams ready to go into the field the girls league is on par with the men's league and after a few weeks practice they hope to be playing on a regular schedule.

Through the generosity of R. O. Cheney, the Girls' League has received more new equipment and uniforms than could be purchased. The girls are six teams and each one wants to practice one night a week. They will make each team one night later each week than the week before. The girls will have their first practice in the Weaving Mill lot this evening.

Several games have been postponed and the girls are taking on weight. Since Dick Johnson and Bill Moore were the winners in the first race, a number of new fish stories have been going the rounds. John Moore, the engineer department has decided not to own an automobile this year as there are already too many careless drivers on the road.

Miss Annie Zlaris of the weaving department is to be married this month. Action of this sort is, of course, not new, but as Annie is a favorite and is marrying a weaver, the bars are lowered and the Ribbon Mill wishes her joy and happiness.

Joseph Miller of the harness department is being congratulated on his success as a tomato grower. He specializes in the tomato variety and his product is known the country over. Joe's success came after months of hard work and his plants are just discovered that at night they seemed tired and when they were watered, they finally decided that they needed attention. He is now growing tomatoes of the latest make and also grows the "Pomato" plant which is a surprise.

MANILLA McCULLY NOW MRS. EUGENE LENAHA

Weaving Mill Baseball Players on Girls' Team Marries Member of Domestic Department.

Yesterday one of the girls from the weaving mill baseball team has her fellow players a surprise when she returned to work at the Ribbon Mill. She is now Mrs. Eugene Lenahan. On Saturday, June 12, Manilla M. Cully of the warp room and Eugene Lenahan of the domestic department were married in the Weaving Mill. The bride is a native of Manchester and the groom is a native of Boston. They were accompanied by their relatives and friends who were entertained at the Ribbon Mill. The bride is a member of the Weaving Mill baseball team and James Sharp, manager of the team, is the groom's brother-in-law.

On the following day the couple started on a boat trip up the Hudson river stopping at Albany, West Point and then visiting the Thousand Islands and crossing the border into Connecticut. Mr. and Mrs. Lenahan planned to keep the announcement of their wedding a secret for awhile but as soon as they returned to Manchester they found the congratulations and they discovered that the girls news had spread.

Miss Mary Mullon of the Weaving Mill is visiting at the home of her sister in Rochester, N. Y. Mrs. Eva Moran is staying with friends in New Britain for two weeks.

The Misses Flora Nelson, Mildred Benson, Hazel Davis and Irene Todd went to Swan Rock with the Hyland Park excursion.

Mrs. Mildred Brown is started to work in the Weaving Mill. Miss Helen Peterson has one of the newcomers to the Quilling Room.

August Peterson has moved from the corner of Laurel and Chestnut streets to his new home on Edgerton street.

Gustave Florin who has been ill for a number of weeks has returned to the factory of the Weaving Room with side car attachment.

Max Lautenbach was one of the party that went to East Hampton, Saturday on the Oxy Day Motor-cycle tour. Max went by the more comfortable means of transportation a touring car.

Joseph Daggart has left the broad goods preparation to take a position as freeman in a mill in Varna.

Miss Jenny Stratton of the Throwing Mill is spending two weeks with her parents in Manchester.

Miss Christine McCarthy, formerly of the room office of the Throwing Mill, has been transferred to Time Study in the same mill.

Roy Webster of the Electrical Department spent the week-end at Columbia Lake.

Frank Robinson and John Moore of the Electrical Department went to Williams Park in Lebanon over Saturday and Sunday and caught many fish that they could only bring back the story.

John Rehnart, the mill's great disciple of Marconi, started to overhaul the engine of his motorboat Sunday in the middle of Coventry Lake. John had taught on him but moved from the Fourscore to their new home on 20 Park street.

Mr. and Mrs. Joseph Chitwood and Mr. and Mrs. Fred Crotter have moved from the Fourscore to their new home on 20 Park street.

Frank Lomonaco has started to work in the Dry Room of the Dressing Mill.

Miss Helen Murray of the Ribbon Mill office has been appointed in the position in the Ribbon Mill office has resigned her position there.

Cut the Cost of Fuel

The New Perfection Oil Cook Stove is a real money-saver. It uses fuel only when you want a fire for cooking. The moment the match is applied, you can have intense heat for fast cooking and boiling, or a low flame for simmering.

Not a drop of oil is wasted. For the long blue chimney provides the necessary draft for perfect and complete combustion, and at the same time drives all the heat directly against the cooking utensil.

3,000,000 users of New Perfection Oil Cook Stoves are independent of coal, wood and ashes. They come in 1, 2, 3 and 4-burner sizes.

For your further convenience—the New Perfection Water Heater furnishes hot running water at a very moderate cost. Ask your dealer.

Never again on the movie stunts

I WATCHED a guy. IN A movie show. RIDE the same plug. NINE THOUSAND miles. AND FIRE his six-shooter. ALL AFTERNOON. WITHOUT RELOADING. AND THEN, a close-up. HE ROLLED a smoke. WITH JUST one hand. AND I tried it myself. FIRST WITH one hand. THEN WITH two. THEN WITH my mouth. AND THE forty-third trial. STAYED PUT long enough. FOR ME to light it. AND I thought I had it. AND THEN it spilled. LIKE A Roman candle. AND BURNED the rug. AND BURNED my clothes. AND EVERYTHING. SO I'M convinced. I'LL NEVER get THAT ACTOR'S job. AND I know now. THAT THE only thing I CAN roll with one hand. FORDS IN AUTO CRASH ON MAIN ST. THIS NOON

Miss Claire Hannon Thrown Out But Not Seriously Hurt—Car Owned by P. J. O'Leary and P. F. Hanson.

A Ford coupe, owned and driven by P. J. O'Leary of the Manchester Dairy Ice Cream Company, and a Ford delivery car, owned by P. F. Hanson of Main street and driven by Charles O'Dowd, figured in an auto crash on Main street, near Strant St., just before noon today.

Miss Claire Hannon, 15 year old daughter of Mr. and Mrs. P. F. Hanson of Main street, who was in the Ford delivery car, was thrown out and painfully injured. Following the accident, Miss Hannon was taken to her home on Main street, Dr. William R. Tinker was summoned and although his examination disclosed no serious injuries, he was forced to take three stitches in a cut over Miss Hannon's left eye and also a number of stitches in a cut on her left shoulder. Dr. Tinker said that he did not think Miss Hannon had sustained any internal injuries.

O'Dowd was proceeding north on Main street and the O'Leary car was coming out of Strant street. O'Dowd noticed the coupe coming out of Strant street as he neared that street and he swerved sharply to the left to avoid it. Mr. O'Leary also turned his car sharply to avoid the delivery car. Both cars met at an angle near the trolley tracks. The radiator and front mud guards on the Hannon car were badly damaged as was also the front axle. The impact forced off a front wheel on the coupe and also damaged the steering apparatus.

CAPT. THOMAS H. WARD MARRIED IN NEW YORK

Manchester Officer Who Served With General Pershing to Take His Bride to Paris.

Mrs. Charles W. Collins of Riverside Drive, New York city, has announced the marriage of her daughter, Madeline Regina, to Captain Thomas H. Ward, son of Mr. and Mrs. Daniel J. Ward of Marble street, this town, on April 7, 1920.

The wedding was celebrated in the Paulist Church, New York. The bride was attended by Miss Anna Ward, sister of the groom, and the groom was attended by Mr. John W. Collins, brother of the bride. Owing to the illness of the groom's mother, Mrs. Daniel J. Ward of Marble street, and the recent death of the bride's father, the wedding was very quiet.

The bride is a graduate of the Ursuline Academy, of Trinity College, and of the Art Students League of New York, and was a member of the New York Motor Corps during the war. Mrs. Ward has been very popular in society among the younger set of New York city, and made her debut two years ago.

Captain Ward is well and popularly known locally and will be graduated from Yale University this month. He has an enviable service record, having gone overseas as an officer in the Expeditionary Forces in June 1917. He saw much active service both in the infantry and as an aviator. While in the air service he was twice wounded and was recommended for distinguished service in several situations, and was later promoted to a captaincy. After the armistice was signed he was appointed assistant adjutant at the port of Brest. From thence he was sent to the Sorbonne University of Paris, where he spent six months of intensive study of French customs and international law. Returning to this country after almost three years of foreign service, Captain Ward re-entered Yale University where he has taken up special work in international law and will shortly be established with a large exporting company as foreign representative. After the Yale commencement, Captain and Mrs. Ward will leave on a honeymoon to the Pacific coast. Later they expect to establish their residence in Paris.

STRAWBERRY SHORTCAKE FOR C. OF C. MEMBERS

Will be served at Supper to be Held June 28—W. C. Cheney to Speak.

A strawberry shortcake supper and a talk by William C. Cheney on his recent trip to the Orient are to be the features of the regular monthly meeting of the Manchester Chamber of Commerce. This meeting will be held in Cheney hall on Monday evening, June 28. The supper will be served at 7 o'clock under the direction of George H. Miller. A nominal charge is to be made to defray the expenses.

Several important matters are to come up for discussion at the Business session and it is expected that the outing committee will make a report of the recent trip to Eastern Point.
