MAYOR, WIFE, AND FORMER MAYOR SLAIN IN LIMERICK

Woman Fights Desperately to Save Husband Dragged from His Bed and Gets Bullet Intended for Him.

Dublin, Mar. 7.—George Clancy, mayor of Limerick, and Councillor Michael O'Callaghan, former mayor of Limerick, were both shot to death in their homes at Limerick early today. Clancy was attacked in his bed at 10:30 o'clock by a band of armed men who had broken into his home. His wife was badly wounded trying to defend him. She died later. Owing to the military curfew it was two hours before a physician could reach the Clancy home. Killings were similar to the murder of Lord Mayor Thomas MacCurtain at Cork a year ago. Both Clancy and O'Callaghan were Sinn Feiners as was MacCurtain. Both were dragged forcibly from their beds. As the attackers began firing at Clancy, Mrs. Clancy threw her own body before her husband. One of the bullets intended for the mayor struck her. Clancy was the fourth mayor to be murdered in office. Sinn Feiners both here and at Limerick attribute his death to the Black and Tans. O'Callaghan, a wealthy manufacturer. Mrs. O'Callaghan, his wife, fought desperately in an effort to save him and was badly hurt. The bodies of both Clancy and O'Callaghan were riddled with bullets. News of a third murder was reported from Limerick. The victim was a young man named O'Donovan. He was killed this morning.

RESUMPTION OF PANAMA AND COSTA RICA CLASH LIKELY

Offer of Mediation by the United States Probably Will Be Rejected by Panaman National Assembly.

Balboa, Panama Canal Zone, Mar. 7.—President Porras of Panama, announced that he would refer Secretary of State Hughes' warning note on the Panama-Costa Rica clash to the Panaman National Assembly this afternoon. The President said that he would abide by any decision reached by the National Assembly. He expressed regret that Secretary Hughes made Chief Justice White's territorial award the basis of mediation, pointing out that Panama had rejected the White decision seven years ago. It was understood that the National Assembly would reject the American offer of mediation on the ground that the constitution of the republic recognized only the Loubet award and not the award of Chief Justice White. Quantities of arms and ammunition are being received in Panama and the government will soon have about 500 well equipped soldiers at the Sixoala River, the scene of the disputed territory. There was no further word of hostilities but there were indications that the Panamans might attack when their forces were strengthened. President Porras said that Panama would accept any arbitration on the basis of the Loubet award, but would continue to reject mediation along the lines of the White award. He suggested that the League of Nations use its offices to end the dispute or that the United States and two South American powers join in bringing about an understanding between Panama and Costa Rica. A timepiece set in a finger ring is the latest innovation. It is so small that a glove can be put on over it easily.

FIRST CABINET MEETING TOMORROW

New Government at Washington Getting Into Its Stride—Coolidge Will Have Seat in Cabinet. Washington, Mar. 7.—The first cabinet meeting of the new administration will take place tomorrow morning. The White House today issued a call for the initial session to meet at 11 a. m. The promise given by President Harding during the campaign that if elected he would provide a place in the cabinet for the Vice President, will be fulfilled. Vice President Calvin Coolidge received his invitation along with the regular cabinet members. The new President undertook a strenuous day's activities today. Mr. Harding was at his desk in the executive office before 8:30 a. m., tackling a huge mass of correspondence. Secretary of State Hughes broke in on the President's early work and the two conferred for a short time on the Panama-Costa Rica situation. No reply has yet been received to the note which Secretary Hughes dispatched Saturday warning the belligerents that they must cease hostilities immediately. SPECIAL SESSION CALLED BY WEDNESDAY Washington, March 1.—Republican leader Mondell announced to the Republican committee on committee this afternoon that President Harding expects to announce the date of the special session of Congress by Wednesday.

Special Session Will be Called Soon

President Harding Will Decide Upon the Exact Date Today. Washington, March 7.—President Harding will decide upon the date of the special session of Congress before tomorrow, he today informed Senator Underwood, minority leader of the Senate. Senator Underwood told the President that he felt that the new Congress would make more rapid progress if given a few weeks rest.

Had Been Called a Pro-German

Chicago, March 7.—Brooding over the attitude assumed toward her and her husband by friends after charges of pro-Germanism had been made against them during the war is believed today to have been one of the motives that caused Mrs. Matholda Steindel, wife of Bruno Steindel, noted cellist, to drown herself in Lake Michigan. Steindel was formerly cellist for the Chicago Symphony Orchestra but was forced to resign. He is at present chief cellist for the Chicago Opera Company. Steindel was notified of his wife's death at Baltimore and is expected here late today.

HARDING RECEIVES NATIONAL COMMITTEE

Washington, March 7.—President and Mrs. Harding held a brief reception this afternoon in the east room of the White House for members of the Republican national committee. The President made no formal address but greeted each member of the committee individually. Members of the committee stated that no successor to Will H. Hays, chairman, will be selected until the committee meets in June.

SENATE FOREIGN RELATIONS COMMITTEE

Close Co-Operation Certain Between Important Body and the White House and State Department. Washington, Mar. 7.—New American diplomatic representatives who are to be the spokesmen overseas of the Harding administration and its foreign policy, may be passed upon today by the Senate and the Senate foreign relations committee. Sen. Lodge, Republican leader of the Senate, and chairman of the foreign relations committee, indicated that he expected a list of nominations for diplomatic and consular posts to be submitted by President Harding for immediate action. It is said to be the President's desire to have the reorganization of the American diplomatic corps effected as speedily as possible. A meeting of the foreign relations committee today will be the first under a Republican administration in 8 years. Close co-operation between Senator Lodge, as its chairman and the White House and State Department is planned, despite the narrow margin by which Lodge and his friends control the committee. Senator Lodge can command the unswerving support of four of the present Republican members of the committee — Senators Knox, Pa., Brandegee, Ct., New, Indiana and Moses, New Hampshire.—Three other Republican members of it are not always certain to agree with the chairman—Senators Borah of Idaho, Johnson, California and McCumber, N. D. On issues like the League of Nations, Senator Lodge commands a safe majority, including Senators Borah and Johnson; on others, his control of the committee, which now includes six Democrats, is at times uncertain. For instance Borah is opposed to the plan to have the Senate ratify the present standing Colombian treaty at the present special session. It is problematic as to whether the treaty can be disposed of before the extraordinary session of Congress is convened. Today's meeting of the foreign relations committee may decide this question, as well as those involved in several pending commercial treaties with China, Siam and other nations.

NEW GOVERNMENT GETS BUSY

President Confers With State Department on Panama-Costa Rica Situation and Island of Yap. Washington, March 7.—President Harding conferred with Secretary of State Hughes and Norman H. Davis, under Secretary of State this morning. It is understood that they discussed the Panama-Costa Rica situation and that Secretary Davis explained the status of the controversy over the Island of Yap.

ERIE RAILROAD VIOLATED LAW

Chicago, March 7.—The Erie Railroad violated the Cummins-Esch law under which the railroads were returned to private ownership when it announced a decrease in wages and an increase in the hours of labor of its employees, the United States Railway Labor Board held in a decision announced here today.

Seriously Burned in Automobile

Stamford, Conn., Mar. 7.—Mrs. Harry Essig, 103 Third street, Brooklyn, is in the Stamford hospital with serious burns. After a Ford touring car in which she and her husband were traveling toward Brooklyn yesterday had been replenished with gasoline at a local garage some of the gas was spilled on the floor and ignited from an oil burning tail lamp on the machine. Mrs. Essig was in the rear of the machine with the curtains fastened and before she could be extricated she was seriously burned.

GERMAN COMMUNISTS NERVOUS OVER RUSSIA

Mass Meetings Demand Action Against Government to Set Up Soviet to Aid Lenin. Berlin, Mar. 7.—Extreme nervousness was manifested in Communist circles today over the situation in Russia. Numerous mass meetings were held here at some of which speakers urged prompt action against the German government "so that a Soviet can be set up in Germany to help out Russia." A dictator has been appointed at Petrograd and martial law proclaimed. The Soviet has posted many proclamations addressed to the workmen urging patience until food ships can arrive. The workmen were promised additional supplies of meat and bread as soon as these ships make port. Leonid Krassin is said to be arranging for them from England. Restrictions on the sale of food at Petrograd were abolished. Russian laborers returning to Russia from the United States are impregnated with the American idea and are playing an important role in the uprisings at Petrograd. It was reported in the Baltic press that Foreign Minister Tchichterin had sent a message to Gen. Ganetliki advising that the Russian frontier be closed against immigrants from the United States.

SWEARS FELTS FIRED FIRST SHOTS

Witness in Matewan Testifies That Detective Chief Opened Battle by Shooting Mayor Testerman. Williamson, W. Va., March 7.—N. H. Atwood took the witness stand in the "trigger trial" today in behalf of the "boys." The witness was a policeman under Sid Hatfield, Matewan's chief of police. Atwood, who was in the thick of the gun fight, swore he saw Albert Felts fire the first two shots of the battle. "Felts," he testified, "apparently rose on his toes, looked at his men and gave a little nod, by the time he came back on his heels he shot Mayor C. C. Testerman of Matewan."

CLOSE CALL ON TRAIN NEAR DEVON

Half Ton Air Compressor on Waterbury-Bridgeport Locomotive Drops Off, Smashing Side of Steel Car. Devon, Conn., Mar. 7.—A bad accident was narrowly averted here yesterday afternoon when the half ton air compressor on a locomotive of a Waterbury-Bridgeport train dropped off while the train was speeding toward Bridgeport at a rapid clip. The accident automatically set the air breaks on the train hard and the passengers were severely jolted. Fortunately the compressor dropped clear of the rails but the locomotive running board was ripped off and the side of one of the steel passenger cars smashed. The train was able to proceed to Bridgeport soon after the mishap.

Used Girl as a Decoy

Bandits Hold Up Lynn Auto Dealer Near Andover and Take \$72. Andover, Mass., March 7.—Using a girl as a decoy, two auto bandits held up and robbed Joseph B. Donnelly, a Lynn auto dealer, of \$72 early today on the North Andover pike. "The girl rushed toward Donnelly shouting, 'Save me. Two men are following me.' As Donnelly looked around the bandits approached and with leveled revolvers held him up. The girl disappeared.

COLOMBIA TREATY NOT DEALT WITH

Washington, March 7.—The Senate this afternoon confirmed President Harding's nomination of Henry P. Fletcher to be under Secretary of State and other nominations sent to the Senate today. While in executive session the Senate ratified some minor commercial treaties but took no action on the Colombia treaty.

France and Great Britain Ready to Advance Further into German Territory

Heavy Casualty List in Fresh Italian Fighting at Florence

London, March 7.—A Central News dispatch from Florence today said 250 wounded in a new outbreak of fighting between extreme Socialists and non-Socialists.

Archbishop Dougherty of Philadelphia Made Cardinal

Rome, Mar. 7.—The most Rev. Archbishop Dougherty was the only American to be elevated to the cardinalate. The others were European. There were no Italians among them.

Russian Soviet Officials Flying From the Country

Paris, March 7.—Russian Soviet officials have begun to flee the country in the face of the revolution that is sweeping parts of the country, according to advices received this afternoon by the French Foreign Office. These dispatches said that the Krasnyagorka garrison had joined the revolt and was marching upon Petrograd. Pskov is in the hands of the rebels. Twenty-five Bolshevik commissaries have fled from Russia into Estonia. Others that were in flight were arrested at Esborg.

LOYALTY OF SOVIET TROOPS REPORTED TO BE WAVERING

Red Army Said to Be Weakening in Its Support of Bolshevik Against Insurgents.

London, March 7.—The bayonets of the Red Army still were upholding the authority of the Russian Soviet against the anti-Bolshevik insurgents but the loyalty of the troops was reported to be wavering, according to an Exchange Telegram dispatch from Helsinki today. This dispatch quoted a Finnish courier who had just arrived from Petrograd as saying: An exchange telegram dispatch from Copenhagen this afternoon said Premier Lenin had issued a proclamation at Moscow declaring Kostlovsky and his confederates at Petrograd outlaws. A state of seige has been declared at Petrograd. Paris, Mar. 7.—Ukrainian insurgents have occupied Kiev, capital of Ukraine, driving out the Bolshevik defenders, according to an announcement today by the financial agency. "Extensive fires have broken out in Petrograd. The loyalty of the Soviet troops is wavering; in Moscow reds in armored cars are patrolling the streets and are using artillery against the striking workmen." All the local Soviet officials in Pskoff were killed by the rebels. "Cossacks under Gen. Dutov are in the Orenberg district of the Ural mountains trying to cut off the Bolshevik communication with Turkestan," said a Riga dispatch to the Daily Express. "The last food train from Siberia came through two weeks ago. The Red garrison at Pskoff mutinied on Sunday. The Red guards and workmen defeated the special Communist troops that had been sent against them. They arrested and killed all the local commissaries and other Bolshevik officials. The fortress of Kronstadt undoubtedly had an important part in the counter revolution. The insurgents there were led by Captain Brugser formerly of the Imperial navy. The Bolsheviks are building trenches and mounting artillery on the coast. In the region of Orienbaum four battleships bombarded Bolshevik batteries silencing four of them."

Situation Declared Serious as London Indemnity Conference Threatens to Break Up.

Cologne, Mar. 7.—All great headquarters for the command of an advance into Germany to compel the Germans to meet the allied indemnity terms have been established here. It was understood today that British and French cavalry will be on the move at dawn tomorrow if the Germans balk at London.

London, March 7.—The German counter proposals on indemnity have been rejected by the allies, and Germany is being notified that the allied powers will enforce the Paris indemnity decisions at once, according to a Central News dispatch circulated here this afternoon.

Lord Riddell, official British press representative of the allied supreme council, left the conference room at 12:30, declaring that the "situation was serious" and that it looked as though the indemnity conference would break up."

Before their departure for Lancaster House from the Savoy Hotel the Germans received communication from Downing Street which, they declared, caused them to enter the meeting with more hope than otherwise would have been the case. The allied statesman session at Lancaster House at noon after a conference with Premier Lloyd George. The Germans had been playing for further delay and were hopeful during the morning that a final decision would be postponed until Germany could produce testimony from experts. There were persistent reports in the air on the eve of the meeting that the allies had agreed upon new terms to lessen the German burden. The Daily Telegraph made a forecast that the allies would demand 108,000,000,000 gold marks indemnity instead of 226,000,000,000 gold marks, but that the export tax would be increased to 30 per cent. The Times said that Premier Lloyd George after his display of solidarity towards France was again showing a disposition to favor Germany. The newspapers discussed the indemnity issue in a serious vein without any bombastic threats. They took the stand that the allies must show firmness and act quickly. "We Germans are prepared to do our utmost. We are of good will but naturally find a limit to our capacity and resources. We have only our labor and industrial products to offer. Therefore, careful consideration and collaboration on both sides are necessary."

London, March 7.—The indemnity conference has ended in a rupture and the negotiations have been discontinued, according to an official announcement by the French delegates this afternoon. The French declared that their counter indemnity proposals were not acceptable to the allies. The crowds around Lancaster House grew to such proportions that special squads of police had to be called out to handle them. The people cheered loudly when Premier Lloyd George and former Chancellor of the Exchequer A. Bonar Law appeared having walked from 10 Downing street. The crowds were silent as the Germans appeared. Marshal Foch was one of the first to depart. He hastened out and jumped into a waiting motor car. At 3 o'clock this afternoon the International News Service was informed officially that the verdict of the allied premiers upon the German proposals was "unqualified rejection."

The Central News this afternoon quoted Dr. Simons as saying that Germany would appeal to the League of Nations against the penalties which the allies have drawn up to compel obedience.

VON BERNSTORFF GETS INTO ITALY

Italian Press Demands Expulsion of Noted German Who Reaches Rome With \$1,000,000. Paris, March 7.—It is reported in Rome that Count Von Bernstorff former German ambassador to the United States, has arrived in Italy on a forged passport and that he has personal fortune of \$1,000,000 with him, said a Rome dispatch to the Echo De Paris today. The dispatch said that the demand is being voiced by the Italian press that Bernstorff be expelled.

Milford Garage Destroyed by Fire

Two Cars Burned in \$1,500 Blaze. Milford, Conn., Mar. 7.—Fire destroyed a garage on the place of Warren Ford on Seaside Avenue this forenoon burning also a touring car owned by William Smith and under rental to Harry Miller and another car owned by Mr. Ford. Miller had been using the burned car since his own machine was struck by a trolley car at Burwell's Beach and badly smashed a week ago. The loss is estimated at \$1,500.

Hundreds of Guests Awakened by Fire

Blaze on Roof of Fashionable San Francisco Hotel Does \$75,000 Damage. San Francisco, March 7.—Hundreds of guests at the fashionable St. Francis Hotel were awakened early today when fire in the soap factory and laundry on the roof of the hotel caused damage amounting to probably \$75,000 and brought all the city's fire apparatus to the scene. There was no panic, but the dull explosion which preceded the fire, awakened nearly all and the frightened guests swarmed from their rooms in various states of night attire. The fire was under control in about an hour.

50,000 Jobs in Washington

Army of Job Hunters Besieging the New Government.

Washington, March 7.—The small army of inaugural visitors to Washington was being replaced today by another army, one more persistent and harder to handle—the army of job hunters.—The offices are filled with them and the hotels where new departmental heads are getting hold are under siege.

It is estimated that 50,000 jobs of more or less magnitude will be filled by the new administration when it once gets settled into its stride.

The great majority of the patronage awards comes under Attorney General Harry M. Daugherty, Postmaster General Hays and Secretary of the Treasury Andrew W. Mellon.

27 Pickets Arrested in Boston

Garment Workers Patrolling Sidewalks Are Charged With Violating Traffic Rules.

Boston, March 7.—27 pickets patrolling the sidewalks in front of downtown garment making shops, were arrested today charged with violating traffic rules. Seven of them were women, who protested vigorously against their arrest. Thousands of pedestrians watched the arrest of the pickets.

AGES OF THREE

TOTAL 276 YEARS

Sistersville, W. Va.—Conway, this county, claims the record for having the oldest citizens. The ages of three citizens total 276 years.

VACANCIES IN WAR FINANCE CORPORATION

Washington, March 7.—Sen. Calder of New York, urged upon the President the need of immediately filling the two vacancies in the War Finance Corporation. For one of these vacancies, Calder recommended strongly that Eugene Myer, Jr., its former director, be appointed. The President gave no indication that he has made up his mind on the appointment, but it is believed that Myer will be appointed.

Democrats as well as Republicans saw and conferred with the new President today.

At noon the President and Mrs. Harding were hosts at luncheon to women members of the Republican executive committee. Late this afternoon the President will receive 15 members of the "Hobby day" show at a local theatre. Tonight the White House will see the first real dinner function in nearly two years, when the President and Mrs. Harding entertain a large group of Republican leaders in Congress.

MAIL THEFT INDICTMENTS AT CHICAGO

Chicago, March 7.—Indictments charging participation in the \$100,000 Pullman mail robbery last August were returned by the federal grand jury today against "Big Tim" Murphy, labor leader and Vincenzo Cosmano.

Thomas Shupe was indicted on charges of participating in the \$500,000 union depot mail robbery on Jan. 18.

The tree on which Daniel Webster hung his scythe after deciding to go to Dartmouth College has been given a place in the Hall of Fame for trees with a history.

SIX NEW CASES OF TYPHUS FOUND

Two Immigrant Liners at New York Ordered Into Indefinite Quarantine

New York, March 7.—Six new cases of typhus were discovered today among immigrants detained at quarantine. Five of the persons affected by the disease were from the steamer of the Italian steamship San Guisto, making 37 cases and two deaths developed from that vessel since she came here six weeks ago. The sixth case was an immigrant who arrived here aboard the liner Kronland.

CZARIST GRAND DUKE OUT FOR DEMOCRACY

Berlin, Mar. 7.—"No member of the Romanoff family in Russia will ever consent to take the throne unless elected by the constituent assembly as the choice of the people," declared former Grand Duke Dmitri Pavlovitch, cousin of the late Czar, in an address to a mass meeting of Russians here today. The youthful Grand Duke was credited with the killing of Rasputin, the notorious Russian monk who wielded such wide and bizarre influence over the former Russian emperor. He is on his way to Paris. Continuing his speech he said:

ALLEGED SWINDLER HELD AT BRIDGEPORT

Bridgeport, Mar. 7.—Adolph Manne, alias Frank Heald, of 144 North Main street, Waterbury, held as a swindler after being arrested in Chicago for the Bridgeport police was arraigned in the police court today charged with obtaining money under false pretenses.

Heald requested a continuance until tomorrow and this was granted, bonds being fixed at \$10,000.

The police say that Heald is wanted in Nevada for violating a prison parole and is also wanted by the police in several of the largest cities of the country. He is held for alleged securing \$2,500 from Benjamin Plotkin of Bridgeport and also on a charge of passing a worthless check for \$7,000 on Plotkin.

SUBS STILL WATCH WESTERN UNION CABLE

Washington, March 7.—There has been no change in the orders of the Navy department to vessels on the Florida coast to prevent the landing of the Western Union cable from the Barbadoes, it was stated at the Navy Department today.

The State Department, it was learned, has called upon the Navy Department for a report on the incident last Saturday when a submarine chaser fired upon a cable ship of the Western Union, which was reported to have been attempting to lay the prohibited cable.

No formal announcement was made at the State Department as to the policy of the new administration with regard to the matter. Newcomb Carlton, president of the Western Union, arrived here today and is expected to take up the matter with the State Department.

FOREIGN EXCHANGE

New York, March 7.—The foreign exchange market opened strong today with demand sterling 5-8 cents higher at \$3.98 3-4. franc cables were three centimes higher at 721 for cables and 720 for checks. Lire cables unchanged at 367 checks 366. Belgian cables five points higher at 755 for cables and 754 for checks. Guilders cables 3433; checks 3425. Sweden kronen 22 checks 22 Marks 3 points higher at 1.64.

SITUATION MOST SERIOUS SAYS BONAR LAW

London, March 7.—A. Bonar Law in a private speech at the Constitution Club said it was most unlikely that the allies would accept the provisionally indemnity terms proposed by Germany. "The situation is very unsatisfactory and most serious," said Mr. Bonar Law.

A special meeting of the cabinet was called in the House of Commons during the afternoon.

BIBLE CRUSADE OPENED AT CENTER CHURCH

Union Service Last Night Largely Attended—Howell Cheney Presides.

The union service at the Center Church last night to inaugurate a series of Bible study meetings to continue through the week under the direction of William H. Oliver, filled the auditorium. It was a community gathering, including representatives from practically all the Protestant religious bodies in town. Howell Cheney presided. Rev. Dr. E. A. Blake of the North Methodist church made the opening prayer and Rev. J. S. Neill of St. Mary's Episcopal church pronounced the benediction. The music was led by a quartet, including E. F. Taylor, Mrs. Hohenthal, Miss Bengs and Mr. Bendall.

Mr. Cheney in a brief address preceding that of the main speaker of the evening dwelt upon the value of the Bible as guide for community and individual morals. In its pages, he said, may be found parallels to the problems of modern life and lessons may be learned from their solution. Just as a common language is needed for the united and harmonious action of a community, so the Bible is needed as a stand of morality for community guidance.

Mr. Oliver took for his theme the names of God, showing how the imagery of the ancient world was used in forming the names of the patriarchs and prophets of the Old Testament and how the attributes of God were portrayed in the names which were given Him. It remained for Jesus to give Him the name by which he is best loved today, the name of God the Father. Mr. Oliver is a layman who has devoted most of his life to Y. M. C. A. work. He is an effective public speaker. Every night this week except Saturday he will give his bible talks at the Center church.

THE STOCK MARKET

New York, Mar. 7.—All the leading issues were in demand at the opening of the stock market today. Initial quotations were from fractions to two points above Saturday's close range.

Atlantic Gulf was actively taken, selling up two points to 42 3-4. Chandler Motors sold up 1 3-4 to 71 1-8 and Studebaker rose one point to 60 1-2. Steel Common rose 3-4 to above 82 and Baldwin gained nearly one point to 90 1-4. Mexican Petroleum was also in good demand, selling up 1 1-4 to 167 1-4. General Asphalt rose 1 joint to 57 1-2.

The new week started in with stocks in scant supply even in groups which apparently had been at the mercy of the bear raiders ever since the middle of February. There was a brisk demand for the motor stocks.

A new condition was shown in the stock market through the early trading today the quiet tone of Saturday being succeeded by urgent buying orders, but only a small part of these orders could be executed even at advances of 1 to 2 points.

U. S. Steel moved up one point to 82 1-2, Baldwin and Bethlehem Steel B. Both made gains of one point. The oil stocks generally swung over a wider range, Royal Dutch and Mexican Petroleum both making gains of over 2 points and Standard Oil of New Jersey advancing four points selling at 147. The motor stocks were directly influenced by the definite information that Chandler Motors would declare irregular its quarterly dividend at 2 per cent. Buying and this information carried Chandler up from 69 1-2 to 72 1-3. Studebaker followed with a gain of 1 1-2 points to 61. Atlantic Gulf was one of the strongest features and advancing 3 points to 44 1-4. The railroad stocks were fractionally higher.

COUNT KAROLYI IN BOLSHEVIK PLOTS

Former President of Hungary Ordered Expelled From Italy for Recent Communist Activities.

Milan, March 7.—Count Michael Karolyi, former president of Hungary, has been involved by letters in a plot to extend Bolshevism into America and Western Europe, according to declarations made by the police today. Karolyi has been ordered expelled from Italy as a result of his connection with the elements that have recently engaged in disorders in Northern Italy.

The police declare that documents were seized which had been written by Countess Andrassy to the wife of Count Karolyi. These were said to show that Karolyi was connected with Lenin in the Communist movement and was engaged in plans to spread the movement to Western Europe and the United States.

One document was written by General Von Boehm-Ermolli, former commander-in-chief of Bela Kun's Red Hungarian Army. This indicated that Karolyi was involved in a plot to overthrow Admiral Hortly, the Hungarian regent. Karolyi and his family are understood to be on their way to Czechoslovakia.

THE COTTON MARKET

New York, March 7.—In the face of considerable selling from spot houses and New Orleans the cotton market opened steady today at an advance of five to 20 points, due chiefly to buying from Liverpool. Further strength after the start here was attributed to a feeling that the German reparations questions would be settled, amicably. Prices rose rapidly and at the end of the first twenty minutes were about twenty points above Saturday's close.

PROBING FOREIGN LOANS

Washington, March 7.—Further investigation of the granting of foreign loans by the Wilson administration will be postponed by the Senate judiciary committee until Senator Reed returns from the funeral of former speaker of the House Champ Clark, it was announced today.

SUPREME COURT DECISION

Washington, March 7.—The Pierce Oil Co., successor to the Waters-Pierce Oil Co., and Clay Arthur Pierce must pay fines for having violated the Elkins Anti Rebate law of 1903, the United States Supreme Court decided today in sustaining decisions of the lower courts against which Clay Arthur Pierce had appealed.

LONDON CROWD ASSAILS GERMANS

London, March 7.—Gen. Von Seeckt, of the German delegation to the indemnity conference wore a full dress uniform with a sword while attending the session at noon today.

As the meeting broke up the crowd broke through the police cordon shouting:

"Make the Germans pay."

LEONARD WOOD AT WASHINGTON

Washington, March 7.—Maj. Gen. Leonard Wood, who has been offered the governor-generalship of the Philippines, came to Washington today. He will see President Harding at the White House this afternoon, and in all probability will tell the President at that time whether he can take the appointment.

AIREDALE IS WHITE HOUSE MASCOT

Washington, March 5.—There was one visitor at the White House today who had no trouble at all in getting into the chief executive's office. It was "Laddie boy" a year and a half old Airedale—the new mascot of the White House.

President Harding, a great lover of dogs, has planned the ownership of a White House dog ever since his election.

BLIND 28 YEARS RECOVERS HER SIGHT

London.—Pegham, South Wales, the scene of the restoration of a woman's sight after twenty-three years of blindness, has provided a new sensation.

A schoolgirl resident who had been ill with lung trouble was laid out for dead. When the coffin arrived on the third day a light was taken into the room. The girl immediately sat up in bed and asked: "Where is dad?" The father rushed into the room and carried the girl into another room so that the girl should not see she had been laid out for dead. She has since recovered.

HOBART BOSWORTH

"BELOW THE SURFACE"

SEE THE RESCUE OF A CREW FROM A SUNKEN SUBMARINE

A great love story of the sea. Of under-water heroes and underworld "sharks." Of a father's love for a willful son, a boy's love for an unworthy woman, a girl's love that waits and wins when the storm of passions ends. A story of fog and wreck and rescue, of city revel and small-town charm. And the most exciting sub-sea exploits ever shown in a motion picture. A story more human and far more appealing than even Bosworth's "Behind the Door."

THIS IS A PARAMOUNT-ARTCRAFT

PRICES 25 AND 35 CENTS. This includes tax. Children not allowed unless accompanied by adults.

 William Schmidt of East Glastonbury has returned to his home after recovering from pneumonia.
 Mrs. Herman Heres and infant daughter have returned to their home at 72 Fairfield street.
 Emma Henry has returned to her home at 46 Madison street after a week's treatment at the hospital.

AUTO FOR NURSES
 The Manchester Child Welfare committee is arranging for the purchase of a Ford car from a local agency for the use of the visiting nurse. The fund has been completed by some generous donations from friends who are interested in the work of the Child Welfare Public Health Nurse. Through the aid of this car the nurse will be able to make many more visits than theretofore and will be able to cover a much larger territory including the rural districts. The telephone number of the nurse, Miss Higgins, is 156-5 and her home is at 87 Main street.
 It has been arranged with the Red Cross Committee whereby the social service nurse Miss Reynolds may have the use of the car several afternoons per week. The Red Cross has agreed to pay so much per mile for the use of the car.

VICTOR BERGER LOSES HIS APPEAL
 Washington, March 7.—Victor L. Berger, editor of the Milwaukee United States Supreme Court to Compel the Postmaster-General to admit the Leader to the Mails under the second class privilege. Postmaster General Burleson denied mailing privileges to the newspaper on the ground that it embarrassed the enforcement of the selective draft law.

AMERICAN ATTITUDE TOWARD RUSSIA
 Washington, March 7.—Secretary of State Hughes today refused to discuss the possible attitude of the United States towards the insurgents who are fighting the Bolshevik in Russia.

CLEARING HOUSE
 New York, March 7.—Clearing House statement:
 Exchanges, \$416,574,905; balances, \$71,019,702; Federal reserve bank credit balance, \$69,926,061.

POLICE RAID THE STRATFORD INN
 Stratford, March 7.—The notorious Stratford Inn was raided by the Stratford police early Sunday and Mrs. Dudley Stafford and Gus Gerzente were taken for keeping a disorderly house. Mrs. Stafford today forfeited a \$250 bond and Gerzente forfeited his bond of \$50.

LIMOUSINE BURNS ON OLD COLONY ROAD
 Meriden, March 7.—A limousine owned by David Jacobs of Yonkers, N. Y. caught fire and burned just outside the city limits on the Old Colony road early today. Mr. Jacobs and a man with him escaped unhurt.
 Tommy Conran went into Hartford this afternoon to sign up for the State Duckpin Tournament. This means that all of the stars of the state will come to Manchester to play. The tournament starts March 18 and the games will be played in ten principal cities and towns of Connecticut.

TOWN MEETING TONIGHT
 Laying of Tax Rate to be the Most Important Subject Up.
 Many voters are planning to attend the adjourned and special town meetings this evening in the Town Hall. It is expected that there will be some difficulty in settling the tax rate for the coming year.
 It has been pointed out that a 12 mill tax will cover the current expenses for the year. According to figures, it will take at least 13 1-2 mills to conduct the town's business under the present appropriations. The town must, according to a state law, lay a tax rate adequate to carry on the town's business.
 Here are the questions the voters must decide tonight:
 1. To see if the Town will accept the Selectmen's layout of Russell Street Extension.
 2. To see if the Town will accept the Selectmen's Layout of Holl Street Extension.
 3. To see if the Town will accept the Selectmen's Layout of Florence Street.
 4. To see if the Town will appropriate the sum of \$5,000.00 for the erection of a barn and shed at the Alms House Property on Middle Turnpike.
 5. To see if the Town will accept the deed of E. E. Hilliard for land at the Center Spring Park to be used for park purposes.
 6. To see if the Town will adopt a by-law regulating and limiting the parking of vehicles on Elm street, between Hartford Road and Forest street.
 7. To see if the Town will adopt a by-law regulating and limiting the parking of vehicles on Main street, between the point which is the north termination on Main street of the trolley tracks of the Connecticut Company and one hundred feet south of said point.

HOCH PARTY
 Two Couples Attract Much Attention in the South End.
 The effects of "Hoch" were noticed last evening, when two young couples were noticed on Main street at the south end. The male members of the party were, to say the least, intoxicated. The young women, however, were perfectly sober.
 They were first noticed when they came down Main street and went into a restaurant for supper. After they had been inside for some time the heat began to work and the condition of the men became worse.
 The party was noisy. The kind of stuff which can be purchased nowadays does not have that effect. The men seemed to be drugged.
 After about an hour an auto came from Hartford and the party left town. One of the girls was heard to say as she climbed into the taxi, "Never again in a booze party."
 The glow worm is not a worm, but a beetle.

MORE NOMINATIONS OF PRESIDENT HARDING
 Washington, March 7.—President Harding today sent to the Senate the following nominations:
 To be Assistant Secretary of the Navy, Theodore Roosevelt.
 To be Under Secretary of State, Henry P. Fletcher.
 To be Assistant Secretary of Agriculture, E. D. Ball.
 To be Major General Commandant of the Marine Corps, John A. Lejeune.
 To be Major General in the Marine Corps, George Barnett.
 The President also sent to the Senate a long list of secretaries of legations which failed of confirmation in the last Congress.

RESOLUTION OF PEACE WITH GERMANY
 Washington, March 7.—Re-establishment by congressional resolution of peace with Germany was discussed at the Capitol today by Senator Lodge, chairman of the Senate foreign relations committee; Senator Knox, of Pennsylvania; Porter, of Pennsylvania, chairman of the House foreign affairs committee, and other Republican leaders.
 It was understood that the question of the early passage of the pending Knox peace resolution would be taken up with President Harding at tonight's White House dinner conference between the President and Republican leaders of Congress.

BRISTOL DOCTOR IS 101 TOMORROW
 Bristol, March 7.—Dr. Robert Kennedy will celebrate his 101st birthday tomorrow. He lives with his daughter, Mrs. James A. Dobson.
 He was born in Ireland and graduated from Dublin University, coming to this country and settling in Philadelphia, living there until a few months ago when he came here to take up his home with his daughter.
 Dr. Kennedy attributes his good health to correct living. He says he never has used tobacco or liquor in any form and always taken plenty of outdoor exercise.

IRISH WEEK-END DEATH TOLL WAS 16
 Dublin, Mar. 7.—16 persons were killed in Ireland over the week-end, according to a casualty list issued this evening. The list follows: soldiers 5; policemen 4; civilians 7.

CARUSO IS PROGRESSING FAVORABLY
 New York, Mar. 7.—Doctors in attendance on Enrico Caruso, world famous tenor, who is ill of pleurisy, today declared their patient was progressing favorably. "His condition is satisfactory" they stated.
 The names of the babies entered with the Child Welfare Committee will be published in The Evening Herald tomorrow. Press of news today prevented the publication today.
 The Chinese pen is a brush made of soft hair, which is best adapted for painting the curiously-formed letters of the Chinese alphabet.

MONDAY, MARCH 7, 1921.

FALLING EXPORTS.

Department of Commerce figures of exports compiled for the month of January and for the seven months ended with January show some surprising changes when compared with the figures for a year before. The exports of meat and dairy products for January, 1921, were much below the exports for January, 1920. For the seven months' period in each year the decline was from \$440,000,000 to \$264,000,000, a very substantial drop.

Taking the seven months' period throughout, cotton dropped from \$828,000,000 to \$449,000,000. The only really material expansion took place in breadstuffs which jumped from \$459,000,000 to \$762,000,000. This gain does not balance the loss on cotton. The expansion was mainly in wheat and rye, barley and oats showing a marked decline while corn showed little change.

The serious curtailment in exports has been one of the main causes of the big drop in prices of farm products that has got the farmer into difficulties. Europe, especially, has reduced her demand considerably partly because of exchange difficulties and partly because she is increasingly supplying her own wants. The new co-operative organization which western farmers have set up for the financing of exports will help to solve some of the obstacles now obstructing the flow of American commodities to Europe and restore a much needed stability to the prices of farm products.

THE QUARRELING CHILDREN.

That was really a sardonic touch of perfect irony the other day when the League of Nations Council called the attention of those two quarreling children, Costa Rica and Panama, with all due solemnity and weighty stuff, to the fact that they were both members of the League and they really mustn't, you know, it 'tisn't good form.

The babies have undertaken to subscribe to "the principles and obligations" of the league. There is no doubt of that. Still the fate of the little nations in the League of Nations Assembly at their last session is not at all reassuring to those under the hoofs. Argentina's extreme course has backers. We are outside the League of Nations, thank goodness. The final residence of authority does not suit us.

It is also pertinent to inquire whether the Council, in its latest exercise of a prerogative that does not remain unquestioned has carefully studied and pondered the exact meaning of the Monroe doctrine.

WORLD SAVINGS

According to the Savings Bank Association of the State of New York, all the money in the mutual stock and postal savings banks in the world, if equally distributed would give \$13.58 to every man, woman and child on the planet. There are over twenty-three billions of dollars on deposit, a sum greater than the combined wealth of all the powers that fought against the allies in the great war. The average deposit account the world over is \$158.

Of the total amount of world savings the people of the United States possess more than one-fourth and yet it is surprising to find that they come only fifth in the number of savings deposits. Germany comes first with forty per cent of its inhabitants having savings in corporate or public savings bank Japan is second, England third and Russia, strangely enough is fourth.

NO EXCUSE FOR IDLENESS

With the silk mills and most of the other factories on full time there should be no reason for unemployment in this town. If building workers are out of jobs it is their own fault. No less than 200 dwellings are needed here and the capital is ready to finance them as soon as labor costs are reduced from war prices to

a reasonable level. Practically all the shop and factory workers have accepted a cut in wages. The building trades should be willing to take a cut also. Living costs have fallen materially and are still going down. Individuals who have not bought and plans prepared are anxious to start building and will do so as soon as they see a disposition on the part of carpenters, masons, plumbers and painters to accept the same proportionate reductions that other workers have taken. Once the building boom is started there will be work for everybody.

DAYLIGHT SAVING

The adoption of daylight saving time will have to be considered locally in a few days. While there are a variety of interests to be considered, some of which will be affected favorably and some unfavorably by the adoption of the daylight schedule, the two most important local bodies to be affected are the workers in factories and in schools. Already the New Haven road has announced that on March 27 its train schedules would be altered to conform to the daylight saving law in New York city and in the state of Massachusetts. Hartford has adopted the daylight schedule by a city ordinance. With these nearby influences, both closely interwoven with Manchester's interests, it seems probable that the conveniences of the majority of our people will be best served by conforming to the practice of our neighbors. Up to this morning, however, neither Cheney Brothers nor the Ninth District school board had taken any action on the matter.

It seems hardly necessary that action by a town meeting should be required to make effective a traffic rule in regard to parking vehicles in congested parts of the highway. That power should rest with either the selectmen or the police commissioners. There are other places besides those mentioned in the call for the special town meeting tonight where parking rules are needed, and occasions will continue to arise calling for restrictive action. The selectmen or the police commission should have the power to meet these conditions from time to time without being compelled to await the action of a town meeting.

A MAINE WOMAN
(Kennebec Journal)

Snowstorms have no terror for Alice, wife of Raymond Downs of No. 4 Yannes street, Wentworth Park District, Sanford. No day this winter has been cold enough to prevent this young woman from going out, clothed only in a bathing suit, and enjoying a dip in the snow. It is believed that Mrs. Downs is the only woman in this section of Maine who accomplishes this feat every day that snow is on the ground. She said: "This is the only life. I just enjoy it and am in excellent health all the time." A few days ago Mrs. Downs, unaccompanied went to the New Dam, a few miles below Sanford, and through the ice caught a string of 42 perch. She is one of the few expert women hunters of Maine, and last fall shot a large deer.

MUSIC HATH CHARMS.

BUT NOT FOR HIM
Detroit.—Although Mrs. Ernest Benjamin, under the name of Alma M. Sanders, of No. 219 West Forty-sixth street, New York, is the author of more than thirty published love songs, she failed to hold the affections of her husband.

Benjamin, who has brought suit for divorce, told Judge Dingeman that "music broke up his home." He testified in court that Mrs. Benjamin kept late hours and often did not return home until three a. m. She refused to cook his breakfast, he charged. Mrs. Sanders wrote "Tumble Down Shack of Athlone," "Some Pet," and "Lavender and Lace" and many other popular songs.

WAR COST AMERICA

FORTY-FOUR BILLIONS
Washington, March 7.—The United States invested \$670,000,000 more in the World war than any other nation that took part in it, according to statistics submitted to the Senate today by Sen. Spencer, Rep., Mo., in a long formal statement.

This country's contribution to the enormous cost of the war reached the total of \$44,173,943,220, according to Spencer's figures which he explained he had assembled from official sources.

Of this amount \$8,760,000,000 is represented by loans to foreign governments.

Spencer estimated that total cost to the United States and the nations associated with her in the war was to \$139,702,269,225.

It is estimated that 5,000,000 of the better class of Germans are planning to depart for Brazil, Argentina, Mexico and the United States.

MYSTERIOUS ACCIDENT

STIRS TALCOTTVILLE

Car Hits Bridge and Topples Over Into a Pond.

PARTY STARTS FISHING

Driver Talks of Another Car Forcing Him Against Wall—Party Won't Tell What They Were Fishing For.

A spectacular and near-fatal accident occurred at the state highway bridge in Talcottville Saturday night at 9:35. A Buick speed car bearing the Connecticut marker 55,929, owned and driven by Joseph Jakobowski of 24 South Prospect street, Hartford, crashed through the fence between the Connecticut Company bridge and the state highway bridge and came to a stop in its mad dash, wedged between the stone wall on one side and the wooden trackway on the top of the Connecticut Company's steel girder bridge. The car hung perpendicularly, supported by the two rear wheels clinging precariously to the stone wall and the trolley bridge, with the front end of the car immersed in the pond.

Two Occupants of Car.
There were two other occupants of the car beside the driver, both Poles from the same vicinity in Hartford. The two men in the rear seat escaped without difficulty by cutting a hole in the back of the tonneau and crawling out onto the trolley bridge. The driver was less fortunate. He was thrown out of the car in the crash but in attempting to crawl out of the wreck he slipped and fell back into the water. It was very dark where the car was lodged and Jakobowski was nearly drowned before assistance could be given him or he was able to get out himself. He finally managed to get a hold on the fender of the car and pull himself up on the body of it. He then clambered up the side of the wreck and reached the top of the trolley bridge just as the Rockville trolley from Hartford arrived.

Car Hits Wreck.
The motorman did not see the wreck until his car was on the bridge. He applied the air but failed to stop until he got across the bridge. The steps of the car grazed the hub of the wheel that was resting on the trolley bridge but did not move the wreck in any way but served to wedge it in tighter if anything. This was the last car that passed across the bridge until the wreck was cleared. Passengers were forced to transfer around the wreck.

The Driver's Story.
Following is a resume of the story that the driver of the car told and was corroborated by his two partners: Jakobowski alleges that there was a high-powered, large car with very strong lights approaching him from the direction of Hartford and that it reached the bridge first. He says that he was blinded by the lights from this car as it crossed the bridge and that the approaching car was on the wrong side of the road and that he did not see how a crash could be avoided. Instead of swinging to his right Jakobowski turned to his left, to his wrong side of the road and kept there. The first he realized after that move was a crash and he saw that he was in the pond. He applied the emergency brake at once but that failed to arrest the speed of the car and it came to a stop in the position described above.

No One Saw Other Car.
Residents in the vicinity of the scene of the wreck say that they did not hear any other car nor was there one seen by them. The driver of the wrecked car claims that the car that forced him off the road did not stop but sped away at a high rate of speed. Jakobowski says that this was the first time that he had ever been out here and the first time over this state road. He said that he had been out to Rockville on business in the afternoon and that he was on his return when the accident happened. He is a building contractor. He spoke about the condition of the road and the fact that he had no chains on his car at the time.

Told Conflicting Stories.
After carefully reviewing the case it seems to appear that the driver of the wrecked car either lost his head when he was confronted by the car with the glaring lights or was so unacquainted with the road that he was following the trolley tracks so closely that he did not note the change in the direction of the road until it was too late. There is reason to believe that there may not have been any other car involved in the case because of the conflicting stories that he and his colleagues told later in the evening and Sunday noon when they returned with another car

Baby Carriages for the little Folks

The right way to care for baby—plenty of sleep and fresh air in a carriage. Some of the things you will want in a carriage for your baby will be an adjustable hood, reversible gear, a roomy carriage body, durable upholstery that will not soil, light flexible springs, and rubber tired wheels.

We are showing some very attractive new Spring models of the famous Whitney Strollers and Carriages.

Carriages From \$29.50. Strollers From \$13.50.

Also a special display of Cribs, High Chairs, Kiddie Koops, and a delightful assortment of Windsor Chairs.

Special for Baby Week

Child's Rocker in solid oak. Strong construction.

\$1.95

Baby Contest

Names of the babies entered in the contest will be found in this issue. The prize winners will be announced tomorrow.

Watkins Brothers, Inc.

and towed the wrecked car away. It is evident that he became confused for some reason or other and lost control of his car which resulted in its headlong dive towards the pond.

The Manchester offices of the Connecticut Company were notified in the meantime and they sent out the snow plow from the barns. They arrived about 10 o'clock and stayed until 10:30 p. m. when they returned to the barns as they said they could do nothing with the wreck and the crane was sent for in Hartford.

Crane in New Haven.
Upon the arrival of the snow plow at the Manchester barns again it was learned that the crane was in New Haven undergoing repairs. It immediately started on its return trip. Arriving at Depot Square it jumped the tracks at the switch there and that required a half hour's work to get that back on the rails. It arrived at the scene of the wreck again at 1:35 a. m. Sunday. In the meantime one of the interurban cars had passed the wreck going west as the steps did not interfere.

Fishing For—What?
The latest development in the accident is a fishing party that occurred last night between 10:30 and 11 o'clock. A light touring car arrived from the direction of Hartford last night turned and was parked facing towards Hartford and all lights were extinguished. Three men got out of the car and approached the vicinity of the scene of the accident very cautiously after visiting one of the houses nearby. It could not be seen what they had with them but it appeared to be some sort of a dragnet apparatus. They worked in the dark and worked quickly and quietly with the aid of flashlights. There are very few machines passing through the town at that time so they were unharmed in their operations. A young fellow who lives in the north end of the town passed them at their work and inquired what they were doing. They answered that they were neighbors of the man who had his machine wrecked at this point and that they were grappling for a spare tire that he had lost. The fellow did not stop and they continued their fishing.

Car is Raised.
The snow plow ran out on the west end of the bridge and approached as close to the wreck as possible. One of the windows in the front end was removed and a rail was passed from there to the top of three barrels built up as a support with other blocking. A five-ton capacity block and falls was attached to the center of the rail and a hitch was made on the front axle after much difficulty and the car was raised in record time and removed from the bridge. The track was cleared at 3:40 a. m. Sunday.

The wrecked car presented a battered appearance after it was removed from its precarious position. The two running boards were torn and crushed and the fenders were torn from the body of the car. The headlights were broken and the radiator jammed in. The owner said that he had just had this new body placed on the car. One rear tire was cut in two and the other was punctured.

The owner of the car and his companions started on their return to

Hartford on one of the cars that was stalled behind the snow plow. They rode on that as far as Love Lane and got a ride from there into Hartford.

A Dangerous Curve.
This accident is one more to add to a long list that have occurred at this very dangerous curve approaching this bridge. There have been several narrow escapes in previous accidents but this one came nearest in resulting in loss of life. The curves approaching the bridge at this place are very sharp and are opposite to each other. The bridgeheads of the State Highway bridge and the Connecticut Company trolley bridge are close together at the south end but at the north end there is a space of about 25 feet of a stone wall with a sheer drop of about 10 feet and the water at this point is about 14 feet deep.

COMMUNITY WELFARE
WORK PLANNED FOR ITALY BY K. OF C.

New York.—Organization of the American method of community welfare work throughout Italy is the task which Pope Benedict XV has asked the American Knights of Columbus to undertake. In a communication to the headquarters of the organization in this country European Commissioner Edward L. Hearn, of the K. of C. states that after numerous conferences with Vatican officials the proposition to be laid before the Knights is that they organize throughout Italy, with Rome as the seat of radiation, athletic clubs for the benefit of the Italian youth.

Pope Benedict believes that the K. of C. are the only force that can successfully introduce to Italy American welfare methods that will mean the social salvation of the youth of Columbus' own country.

Supreme Secretary William J. McGinley states that the Knights are making surveys in Italy, beginning with Rome, to form some estimate of the cost of introducing their welfare work into the country. The work, if undertaken, will be supported absolutely independent of the K. of C. war fund. The entire matter will be decided upon at the next meeting of the K. of C. board of directors in Washington April 3.

A Herald reporter started an investigation but before he got to the scene the men hurriedly gathered up their apparatus and made a get-away to their car before it could be ascertained what they had with them. Upon investigation of the pond around the bridgehead the water was seen to be very muddy where it had been stirred up and among other things that they had fished up was

an improvised grappling iron that had been used by the trolley men six years ago when the trolley company rebuilt their bridge.

Upon investigation it is known that there was only one spare tire and that it was carried in the tire-holder on the rear of the car and was intact when the wrecked car was removed from its position as the rear of the car was not injured in any way. It was evident that the persons in the fishing party did not wish to disclose their identity or their business. It seems improbable that they were grappling for a rear tire at that time of night as the owner of the car was on hand Sunday noon when it was taken away. It is not known whether the three men got what they were grappling for before they were scared away or not. It was evident from their appearance that they were very anxious to recover something.

WILSON MEANT WELL
BUT READ HIS RECORD

Washington, March 7.—With the retirement of Woodrow Wilson to private life many members of Congress are forestalling the historian by estimating his achievements. To his credit they declare that he Promised in 1912 to reduce the cost of living to the market basket of the common man and during his administration saw it more than double.

Promised to usher in the "new democracy" and became more autocratic and aristocratic than any former President.

Promised labor in the Clayton act not to use the injunction against it and then did so through the Lever act.

Promised to keep the country out of war after holding the belief, expressed to a Senate committee, that we could not keep out of it.

Promised to bring about freedom of the seas and then approved a disarmament plan which would leave England in control of it.

Promised open covenants openly arrived at and then secretly permitted Belgium to pay her debt to the United States in German bonds.

Promised self-determination for all peoples and then agreed to Japanese suzerainty over Shantung.

Put a ban on any higher price for wheat than \$2.26 and permitted cotton to soar to the limit.

Assisted Great Britain in putting over a league of nations scheme for the maintenance of the boundaries of empires in perpetuity.

Asked for the placing in his hands of a blanket appropriation of \$150,000,000 for war purposes and made no accounting of it.

Presided over an administration which during the war and afterwards washed more money than previously appropriated for the government since 1789.

Dismissed Secretary Lansing for telling the Senate Foreign Relations Committee that he had urged at Versailles that America be more fully protected.

To his credit they declare that he Meant well.

Sixty per cent. of the world's output of copper is controlled by the United States.

'The Stealers' Are Coming'

"Snooks" O'Dowd's Team To Play Co. G Tonight

What is confidently expected to be the fastest basketball game of the season in Manchester is to take place this evening in the Rec. gymnasium, when Company G meet the fast Springfield Inter-state league team lead by "Snooks" O'Dowd and composed of such fast men as "Dutch" Guenther, Andy Sears, Fitzgerald, Rummelle and Sheehan.

Never before in the history of athletics in Manchester have the local fans had an opportunity of witnessing on one team two players who have been picked as members of any All-American team.

Tonight, however, in presenting "Snooks" O'Dowd and "Dutch" Guenther together with the others this opportunity will be given to crowd into the "Rec" gymnasium as it is confidently expected that a crowd fully as large as any seen there before will be present tonight when Harry Schofield blows the game in.

O'Dowd, whose basketball career dates back only a few years is considered so fast that Johnnie Beckman, who is recognized as the fastest player in the world claims he is fit for the All-American basketball team together with "Dutch" Guenther, who will play center for the Springfield team.

O'Dowd's athletic renown is not confined to basketball entirely as he is a big league baseball player and has played with Cleveland and also in the American Association with Minneapolis.

Guenther is an old Pennsylvania and New York state leaguer, playing with the Gloversville N. Y. team on nights when he is not tied up in the Inter-state league.

"Andy" Sears is an old timer who is well known to followers of basketball as one who has been in the game a long while and seems to be getting better as he grows older.

Rummelle is a fast forward and Sheehan is a guard that few can get away from.

The local line-up tonight will be the same as in the past four games. "Yump" Johnson, Quish and Stillwell, forwards, Fay, center, Madden and Devers guards.

This combination is working fine now and although the odds against the locals tonight are high, nevertheless, it is the intention of Manager Pentland to give the fans their money's worth in basketball. He has received offers and requests for games from a number of teams around the state but the majority of them are not in a class with the Company G team as composed at present, and a contest with them would only prove a dull and uninteresting run-a-way for Company G.

So tonight is the BIG night in basketball circles and fans who want good seats should go to the hall early as it is expected that theORO sign will be hung out before 8:30.

An item in a Hartford paper recently stated that an attempt to stage a series between the Rec team and Company G team would prove popular if successful. The management of Company G team has been approached several times upon this matter and refuses to take it seriously. One reason was that the Rec. team is not in the same class, either as a team or man for man. In defeating the Springfield Irish-American team in Springfield last Tuesday night, the Company G team beat a combination that had trampled the Rec. team on the latter's own floor, and part of the game the Springfield team was forced to use four men. Another drawback would be the rules that the two teams play under. It is not felt that the Rec team would even attempt to play under professional rules, and whether the Company G team would play under the amateur rules or not is very doubtful.

The question of officials, if such a series were arranged would also be a one. The Rec. might insist upon Walter Crockett and the Company G team might insist upon Schofield. As to the relative merits of each of these men there can be no question except personal preference. Certain it is that "Dick" Dillon would be unacceptable to Company G and likewise would "Pod" Kelly of Willimantic be unacceptable to the Rec. So it seems that a clash between the Company G team and the Rec. team

is a very airy proposition and nothing but that.

The Emeralds of Willimantic will in all probability be seen here next Monday night and the Company G will win seems to be the consensus of opinion of those who have seen the locals in the last two games. The first game with the Emeralds was lost by two points and in the second game the locals were using a line-up that had never played together before. With Fay in at center the story will make quite a difference in the attendance.

"Yump" Johnson says that he may come east again next fall and wants to play with Manchester if possible. He has been assured that if he comes he will be given a position and no questions asked.

Madden, Quish and Fay will also be retained and with this nucleus it would seem that nothing in the state can stop Company G from coming in to its own again.

CIVIL FIGHTING CONTINUES IN ITALY

Nilan, March 5.—Tanks were employed to put down a violent outbreak at Florence on Friday, said a dispatch from that city today. The fighting was between extremists—Royalists and non-Socialists. Four persons were killed, 50 were wounded and 100 were arrested. Among the prisoners was former president Karolyi, of Hungary.

Another outbreak occurred at Sionna where fighting was precipitated when troops fired upon the anti-Socialist Fascists. A battle followed and raged furiously until troops intervened with artillery. Several were killed, 15 wounded and 200 were arrested.

COUNTER-REVOLT SPREADS

London, March 5.—The most dangerous counter revolutionary movement against the Russian Soviet government more than three years ago is under way and is spreading, according to advices received here today.

All railway traffic west of Moscow has been suspended, said a dispatch to The Daily Express.

The Russo-Rumanian frontier has been closed owing to an anti-Bolshevik uprising at Odessa.

OUR BASEBALL STARS. Lamprecht and Bronkie to Leave for South Next Week.

Herman Bronkie, who managed and coached the Manchester baseball club last year, will leave for Mobile, Ala., the 15th of March. Bronkie will manage the Mobile team this season.

"Punk" Lamprecht expects to leave a few days after Bronkie arrives at Mobile. Both men were favorites with the fans and they will leave with the best wishes of the fans for success in their new berths.

Both Bronkie and Lamprecht are local boys. Bronkie has been in the big leagues but this is Lamprecht's first attempt in fast company. Bronkie has played with Cleveland, the St. Louis Americans and Indianapolis during his career on the diamond.

Lamprecht, better known locally as "Punk", has confined his baseball experience to local fields. Last year he caught most of the games played by the Manchester team. His greatest feat was throwing out George Sisler of the St. Louis Americans when he attempted to steal second. A few innings later he caught the great Sisler asleep again on second after he had poled out a double. In the seventh, he caught Sisler off third but the umpire ruled him safe.

Lamprecht will be watched with interest by the local fans this year and all are anxious to have him make good.

JUROR GOT WREATH, BUT WASN'T DEAD

Detroit, Mich.—After receiving a beautiful floral wreath from his fellow members on the jury who believed him dead, A. E. French, of No. 73 Montcalm street, East, walked into court and thanked them, but assured them positively that he was alive and kicking.

He was serving on the jury in Circuit Court and when he did not report for duty it was announced that he had died. The jurors contributed for a beautiful wreath as a token of esteem for their departed member, and it was sent to his home. French explained that he had mixed up the dates on which he was ordered to report.

INVESTIGATING RAILROAD SMASH

Gary, Ind., March 5.—The Michigan Central and N. Y. Central railroads will face a joint investigation here next Tuesday for the Porter, Ind., wreck which cost 42 lives and injured nearly 100. The investigation will be conducted by the Interstate Commerce Commission and the Indiana public utilities commission and will determine the civil liability of the two roads and the extent to which they have been holding the lives of the public in jeopardy operation of the fatal diamond crossing at Porter.

LE JEUNE STILL HEAD OF THE MARINES.

Washington, March 5.—Secretary of the Navy Denby announced after a call at the White House today that he would appoint Major General John A. Le Jeune to be commandant of the Marine Corps.

Le Jeune has served in the capacity since his return from France.

Denby also said he would on Monday send to the Senate the nomination of Brig. Gen. George B. Barnett, former commandant to be a permanent major general in the Marine Corps.

BURGLARIZED ONE NIGHT, HELD UP THE NEXT

Chicago.—Just twenty-four hours after their home had been burglarized to the extent of \$2,000, two bandits held up Mr. and Mrs. Charles W. Ferguson and drove away in their new \$5,000 motor car. The machine was recovered along with \$8,000 in gems the two hold-up victims had hidden.

NEW JOURNALISM COURSE FOR WOMEN

Madison, Wis.—Newspaper and magazine departments of interest to women, the first course of the kind to be given in any school of journalism, has been introduced at the University of Wisconsin by Mrs. Genevieve Jackson Boughner, an experienced newspaper woman.

HAS LUNCH WITH KING

London, March 5.—John W. Davis, the retiring American Ambassador to Great Britain had lunch with King George today.

RUSSIA'S DESPERATE ECONOMIC SITUATION.

Washington, March 7.—While details of the reported revolt against the Soviet government and the declaration of martial law in widely scattered districts of Russia were lacking here today, reports to government officials left no doubt of the desperate economic situation in that country.

The fuel supply, these reports show, is totally inadequate. As a result food distribution has been brought almost to a standstill and the inhabitants of the cities and more populous centers are suffering severely.

Little coal is being mined. Great difficulty has been encountered in securing sufficient fuel to keep the water supply of the large cities open. Only two passenger trains a week run between Petrograd and Moscow.

Priority is being given food trains but the reports indicate that priority is also being given the soldiers in food distribution, and that this has aroused intense feeling among the civilians. Many of the idle mines have been allowed to fill with water.

MAN'S BODY FOUND.

Falls Village, Conn., March 5.—The body of Peter Zenda, East Haddam, drowned December 1 in the Housatonic river when he fell from a bridge on which he was working, was found in the raceway of the Connecticut Power Company today.

BRIDGES BLOWN UP.

Dublin, March 5.—The town of Tralee was completely isolated today when the bridges leading to the town were blown up in reprisal for similar violent measures by the Sinn Fein recently. A number of prisoners being taken from Tralee to Cork were released.

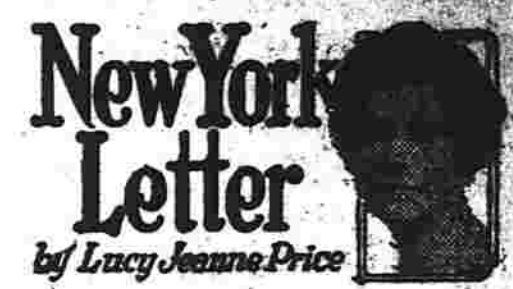

FRENCH FLEET READY

Paris, March 5.—A French squadron of warships from the Mediterranean fleet arrived at Toulon today and began coaling. It will be held in readiness for instant service.

FOCH LEAVES FOR RHINE.

London, March 7.—Marshal Foch has left for the Rhine, according to a report printed by the Evening Standard today.

A meeting of the supreme allied war council was called for this evening at Paris.

New York, March 6.—Even a man just about to die objects to having his property rights encroached upon. Martin Drath had his death nicely prepared for the other night, with illuminating gas as the medium. He had turned it on and gone comfortably to bed to die. But neighbors smelled gas and called in a policeman. When the officer forced his way into the room, Martin assumed it was a burglar and postponed dying long enough to get up to try to put him out. After he discovered his mistake, he apologized, went back to bed, and asked not to be disturbed further. "I thought you were a burglar," he gasped. "What's a burglar more or less if you're going to die?" demanded the policeman. "I want to die," was the answer, "and I'm going to, but that's no reason for letting a burglar get away with anything." Then he begged to be allowed to complete his original plans, but he was taken to the hospital instead.

Pretty nearly everybody forgets that there were ever any "original sextet" people in Florida, except beautiful girls who made wonderful marriages or achieved fame in one way or another. But there were. There are equally six "original" sextet men. They are going to have a reunion in New York and tell each other about their own careers since their sextetting days came to an end. The careers don't sound very flashy compared to what their partners accomplished. The men are in business, one producing musical comedies and vaudeville, with commercial business claiming the majority. One is a dignified banker in San Francisco.

And now the legislature of New York State is once more being prodded toward action against "the awful dances." The bill intended to regulate "ballroom dancing of today" is being introduced by a worried state senator who has been hearing about them—but probably hasn't made much personal investigation. Anyway, what most of us wonder is where do they dance these terrible things he talks about? Where, or when? "The bunny hug," he calls one; and "alligator glide" and "other disgraceful dances." He wouldn't be wrought up over a myth, of course, and so they must exist. But I occasionally spend a dinner or after-the-theater hour in what are at least the most crowded and most generally popular of the "danzants"—the Palais Royale, or the Century Roof, and never yet have I encountered these things. Truly, for the most part, whatever there may be to legislate against, Manhattan's dance restaurants, at least the well-known ones, are pretty decent and pretty conventional in their dancing.

Thrift seems to be in effect more strongly than most of us had expected. William Mohrmann, who owns three houses and lives in a barn to save expenses, told the judge the other day that if it was all the same to him, he'd take a term in jail instead of paying for a garage permit for a stable in which he lets space for autos. Upon learning that a fine might accompany the thirty days, he agreed to get a permit. Then he walked the eight miles back to the police station where they were keeping \$30 of his money.

The Carroll Club, made up of 6,000 Catholic business girls of New York, has volunteered to raise a considerable part of the \$100,000 with which American women are planning to buy one gramme of radium for Mme. Curie, its discoverer. When Mme. Curie was asked recently what she would rather have than anything in the world, she said, "One gramme of radium, so that I could carry on the experimenting I want to."

The Great White Way is in danger. A bill to tax all advertising signs has been introduced in the legislature, which it is said will make them so expensive that the myriads of brilliantly colored pieces of advice on everything from Boston garters to the best show in town will fade gloomily out. And Broadway without its electric ads would be dim, indeed.

LUCY JEANNE PRICE.

VANDERLIP IS AGAIN AT MOSCOW
Washington, March 7.—Washington D. Vanderlip, American financier who secured large concessions in Siberia, for an American syndicate has arrived here from the United States.

WISE, SMITH & COMPANY HARTFORD

Extremely Special Offerings in NEW SPRING APPAREL and Easter Only a Few Weeks Away

Stylish New Spring Tailored Suits of Men's Wear Serge in Misses and Junior Sizes

These swagger suits follow the newest silhouette and are in plain tailored models trimmed with silk stitching and buttons. **\$25.**

Smart New Spring Tailored Suits of Men's Wear Serge for Women

A new panel model is among those shown at this reasonable price. The panels are elaborately embroidered with soutache braid. Navy blue is the most favored color shown. **\$32.50**

Distinctive New Spring Suits of Wool Tricotine

Madam will appreciate the high quality tailoring which is one of the features of these garments, specially worthy of mention is a suit in a modified Eton model, trimmed with much tailor braid. **\$49**

New Spring Cape Wraps of Wool Velour Fully Lined With Silk

These new and stylish garments feature the cape effect and have deep circular shawl collars. The new shades of tan and blue in which they are shown are most appealing. **\$22.50**

New Spring Wraps for Women

Graceful wraps of fine quality velour fully lined with silk and trimmed with silk stitchery, offered in reindeer, tan and brown. **\$29.**

New Spring Dresses of Serge and Silk Taffeta

Dresses for afternoon and street which follow the newest style lines and are shown in navy blue, black and several shades of gray. **\$25**

New Frocks of Taffeta and Satin

Fashionable dresses in new spring models and colors embroidered in the newest way with contrasting colors and combinations. **\$30**

Attractive Gowns in the Newest Spring Modes

Unusually clever dresses of chiffon taffetas and satin which reflect the best of the present mode and are such high quality both in materials and workmanship that the ywill please the most exacting woman. **\$39**

Stylish New Wraps in the Much Wanted Very Full Models

The double pointed collar is a graceful feature of these smart wraps which have the half sleeves. One of the models has a new very narrow sash. **\$32.50**

Beautiful Spring Wraps and Wrappy Coats

Embroidered in a number of new effects these truly remarkable garments are offered at this price which will be found low by comparison with other stores. **\$45**

Another Remarkable Sale of New Spring Plaid Velour Sport Skirts **\$5.95**

In box and side pleated models, combinations of blues, browns and the more subdued colors. Sizes 25 to 32 waist bands. Regular values \$10.00.

Park Theater

There appears to be a popular misconception of vampires, or rather a very decided conception on the part of the public, that does not begin to cover nor classify the various species, said Miss Constance Talmadge in a recent interview.

fined to the ladies, but that men, as a rule, are far more adept in the gentle practice than the fair sex. Miss Talmadge said smilingly: "In writing the story of 'The Perfect Woman,' John Emerson and Anita Loos hit upon a big psychological truth. The story is built around a young girl who is madly in love with a woman hater. The girl practically throws herself at him, without as much as a how-do-you-do by way of recognition.

which was destroyed at the time of the San Francisco earthquake, has been reproduced in every detail for the Robertson-Cole production of 'The First Born,' starring Sessue Hayakawa, which will be shown at the Park theater Monday and Tuesday.

rescue of the crew of a navy submarine by means of a record dive brings him to the attention of an unscrupulous promoter, James Arnold who approaches the diver with a proposition to salvage the treasure in an old wreck. Martin denounces the enterprise as foolhardy, but Luther, lured on by Edna Gordon, an underworld character who accompanies Arnold, agrees to make the dive. As a reward, Edna marries Luther, despite Martin's objections.

Circle Theater

"The U. P. Trail," the Benj. B. Hampton production, released through W. W. Hodkinson, which opens at the Circle Theater tonight, tells a sweet, noble love story filled with the glamour of high adventure and the rush of breathless action.

and red-blooded action a powerful and appealing photoplay that will live forever in one's memory. This is in seven reels. Also on the same bill a two-reel comedy, a serial, and the Fox News.

TO EQUAL BRITISH IN CHINA

Washington—Representative Dyer of Missouri, has introduced favorably from the Committee on Judiciary a bill designed to place American business on a footing with British and Japanese interests in China. In his report he says:

"China occupies a stretch of territory one-sixth larger than continental United States. The population is four times as large as our population and her climatic condition and natural resources are quite similar to ours. For years through the work of our missionaries and educators and the operation of our 'open-door' policy we have been building up a great asset of good-will toward America on the part of the Chinese people. They know that America has no designs on their territory and that the close commercial relations to strengthen China and enable her to more successfully cope with aggressors who do have designs on her territory. The fact that the trade between the United States and China had quadrupled in the last fifteen years prove the possibilities if we can be placed on an equal footing with our competitors."

The bill exempts American corporations doing business in China from income and surplus taxes, in this respect placing them on a par with British and Japanese concerns.

PAINT SERVANT GIRLS JUST AS ACCEPTABLE AS PLAIN MAIDS

Joliet, Ill.—Rouge, lipstick and half-hose are no barriers to applicants for positions as housemaids, according to Mrs. Catherine Langdon, in charge of the woman's division of the Illinois employment bureau here.

"Maids who rouge their cheeks, paint their lips, roll their silk stockings and have their eyebrows plucked find places as rapidly as do the sombre gowned girls of yesterday," declared Mrs. Langdon.

"Although reports have reached us that the housewives have said they would rather get along without help than employ these dolled-up beauties we have no complaint from those we have placed.

"The girl who cannot only cook attractively but look attractive is a welcome addition to Joliet homes, and the good wages paid her are often an inducement to adorn herself, and make the most of her charms."

FEDERAL BUREAU OF PLANT INDUSTRY

Washington—The United States Weather Bureau will soon advise farmers how to protect their orchards from frosts. This is a new item contained in the agricultural appropriation bill for the next fiscal year. Fruit growers suffer enormous losses annually from frost damage which can be avoided through heating and other protective measures, if they have reliable frost predictions and information as to minimum temperatures which may be expected. The Weather Bureau is the only source from which such information can be obtained. So the enterprising Republicans on the agricultural committees have gotten together and put one over for the farmers.

Candles are used for lighting purposes in the gold, diamond and other mines of South Africa.

A bill has been introduced in the Senate to prohibit smoking in all government buildings in Washington.

MAVIS FACE POWDER

This delightful Face Powder contains no harmful ingredients. Women tell us that it 'agrees' with their complexion better than other powders. It is amazingly fine.

Have You Heard the Mavis Talks? Mailed to you for 6 cents in stamps. See it on the Emerson Record No. 1000. Also on Arts, Travel, Fashion Mail No. 6625.

Coffee May Harm You—POSTUM Cannot

And Postum is a fully satisfying meal-time beverage which all the family can drink with benefit—as many cups as desired.

"There's a Reason"

'The Stealers' Are Coming

From Grand-pa down to "Buster," these delicious meats are thoroughly enjoyed by the whole family and, like Oliver Twist, they ask for more.

Mother appreciates these meats most of all; because they are convenient to handle;—they are easily and quickly prepared;—there is no waste; and she can keep a quantity on hand for emergencies.

She knows too, that Uncle Sam's guarantee of purity is behind every can and that she pays less than pre-war prices for this nourishing canned corned beef and corned beef hash.

Insist on your dealer getting you a supply of this wholesome food. There's a legitimate profit in the sale for him (wholesale prices listed below) and a considerable saving for you.

THE WHOLESALE PRICES are printed below. They will give you some idea of what you will save on your purchases.

Table with 2 columns: CORNED BEEF HASH and CORNED BEEF. Lists prices for various can sizes.

TABLE OF DISCOUNTS. Lists discount percentages for purchase amounts from \$250 to \$1,000 and over.

AFTER A HOME== AN AUTOMOBILE

A home is the greatest of all investments because it represents constant intrinsic value, and best serves the personal requirements of the individual for comfort and contentment.

The automobile has the same stability of value, and its ownership gives the equally desirable personal satisfactions. It has the added worth of a business asset.

But, remember that while the intrinsic value is put into a car by its maker, the serviceability of the car depends on the dealer.

SILK MILL NEWS

OUR COMING SILK SHOW CREATES MUCH INTEREST

Same Display as in New York—Living Models—Private Exhibition for Buyers.

Many local residents recall with pleasure the silk exhibit given by Cheney Brothers in Cheney Hall some ten or twelve years ago. At that time the exhibit continued for several days and thousands of visitors from out of town came here to admire the gorgeous spectacle. But that exhibit, fine as it was, will be surpassed by the one which will open at Cheney Hall a week from today and continue for one week. The display will be as near as possible a duplicate of the one in New York last month at the silk exposition. This exposition attracted the largest crowds ever seen at the Grand Central Palace, notwithstanding the fact that the Palace has been the scene of many brilliant expositions.

Of all the displays at the New York exposition, that of Cheney Brothers was universally declared to be the largest and richest. Hundreds from this town went down to the metropolis to see it but thousands of the mill workers who had a part in producing the beautiful fabrics were unable to go to New York, and it is primarily for their benefit that the firm has decided to go to the expense of reproducing the exhibit here. The architectural setting here will be much like that in New York although some changes will have to be made to conform to the shape of Cheney Hall which is not as long as the space at the Grand Central Palace although it is wider. Carpenters will be busy between now and next Monday remodeling and setting up the framework which forms the setting for the exhibit.

Not only will the great variety of fabrics produced at the Cheney mills and shown in New York be on display here, but the part which Cheney silks played in the style show, which was

an important feature of the New York exposition, will also be re-enacted here. Of the 14 silken costumes shown on living models at New York, eight, including the beautiful bridal dress, were contributed by Cheney Brothers. These will all be seen here on the same beautiful models who wore them in the New York pageant.

The New York show proved a most valuable advertising medium for the Cheney silks and brought them many orders for their goods. With this fact in mind the firm will open their show here with a private exhibition to which buyers will be specially invited.

Mills Start Again on Full Week Work

Had Been Working on Part Time for the Last Four Months—Employees Happy.

Many departments opened this morning to work on full schedule for the first time in four months. The part time schedule took effect the week of November 1 and has continued until the present time. Very little time on the whole has been lost by the part time schedule. In almost all cases the departments have been called to work a full week some time during these months when there has been a demand for their products.

TEAPOT STILL MADE STRONG "TEA"

Los Angeles.—The "prize" moonshine still of Southern California has been seized, but its owner, who manufactured his "night cap" and his "morning's morning," or would it be termed an "eye opener," at his bedside, is at large. He went out of a window as Prohibition Agent Dan O'Leary entered the door. United States Marshal Walton has the "prize" still. It is a miniature affair, a teapot in size. Its owner, the occupant of a downtown rooming house, had it set up at the side of his bed.

Setting over a gas heater, the still worked while its owner slept, and morning, noon and night he always had a "jigger" of "hooch" close at hand.

TALCOTTVILLE

The home of Anne Hagador who lives in the north end of the town was destroyed by fire yesterday noon. The fire was discovered by passing autoists about ten minutes after noon. They saw the rear of the building in flames and notified the woman who lives there. She is very old and the fire had got such a headway, fanned by a south wind that there was barely time to get the woman out of the house and save a few of her personal effects. It was a one story wooden frame building, and it was quickly reduced to a pile of smoldering ruins. Miss Hagador said that she thought that the fire made a strange crackling noise in the stove, but she did not investigate. The fire caught from an overheated flue. If it had occurred at night, there is little probability that the woman would have been saved as she is very old. She was taken to the home of one of the neighbors.

Several of the men who live on nearby farms gathered at the Lyman farm as that was in the direct path of the sparks from the burning structure. They could do nothing to save the home of Miss Hagador, but could prevent the buildings on the Lyman farm from burning too.

Beatrice Talcott, youngest daughter of Mr. and Mrs. C. Denison Talcott met with a painful injury late Saturday afternoon while playing around the front steps of the local church. She jumped off from the wall at the side of the steps to the ground, a distance of about five feet and struck on her left wrist, fracturing two bones in her left wrist. She was taken to Dr. Sweet in Hartford at once, and he reduced the fracture.

She is resting comfortably and getting along as well as can be expected. Robert Smith has returned to Williston Seminary after spending a week with his parents here.

Mr. and Mrs. Joseph Robb joined the Talcottville Congregational Church at the communion services yesterday. Mrs. Robb was formerly Miss Elsie Smith of this place. S. B. Smith reports that he saw a robin on his place yesterday morning.

Miss Carrie Beebe has recovered from a severe attack of the grippe. Miss Mildred McCallum has returned to Springfield, Mass., after spending a week with her parents here.

The regular meeting of the local branch of the Y. M. C. A. will be held Wednesday evening. The Ladies' Auxiliary Society will meet next Friday afternoon.

SCHOOL CONTRACT AWARDED.
 It was announced yesterday at St. James' Church that the contract for the new parochial school for St. James' parish had been awarded. It was planned to give out the contract last fall but the figures submitted by contractors seemed very high so it was decided to wait. That this was a good move is proven by the fact that the parish saved about \$20,000 by waiting.

The foundation of the school on Park street has already been laid. Work will be started at once and the building will be completed by fall.

FARMERS NEED TARIFF
 Washington — Representative Tincher, of Kansas, is for a tariff on farm products, and is for it strong. He says:

"At the end of eight years in which the policies of the party to which belongs the gentleman who has just preceded me concerning tariff have been in vogue, we find the producing interests of the country in the most deplorable condition experienced in all time. If there ever was a necessity for a tariff to protect the producer, it is now. If there ever was a tariff bill offered to the country that had for its prime object the protection of the producers of the country, it is the emergency bill. I challenge any man to call attention to the time when any bill was ever pending in the American Congress pertaining to the tariff that gave to the producer the protection that this bill does or which had that purpose for its object. And I say that the industry in which the people who are feeding the world today are engaged is in the worst condition ever known in the history of this Republic.

"I am for protection, and have always been. I was for protection when the prime object of protection was to protect infant industries of East, to protect infant industries of this great country, in order that they might build up and become powerful industries; and I am consistent today, and I am for protection when that protection is needed by the producers of the West and Middle West."

The fly flies at the rate of five feet a second when leisurely sporting in the air, but if a bird gives chase, he can increase his speed to thirty-five feet a second.

LOCAL SPORT CHATTER

The Casino League rolls their first game this evening. Some of the best bowlers in town have entered and fast games are looked for.

Wilkie won the weekly prize which the management of the Casino alleys offers. This makes the fourth successive week he has turned the trick. His score Saturday evening was 134.

Bronkie and Lamprecht will leave next week for Mobile. The fans are wishing them the best of luck. Both men are popular players of the national pastime.

Bats and balls are making their appearance. Several youngsters were noticed yesterday afternoon with gloves tossing the horsehide around. It's a sure sign of spring.

Boxing fans will journey to Hartford this evening to the Auditorium where two local favorites will appear. Young Rector will face Johnny Shugrue, of Waterbury, in the main event of 12 rounds. "Bobby" Reimer, a former local man, will meet K. O. Sweeney in the semi-final. Reimer has been hitting on high for the last two months and has been on the big time circuits around Boston.

The Atlas Basketball team has issued a challenge to the "Rec" varsity. This game would attract much attention if the Atlas team had a little more experience. The Atlas team, however, contend that they will play the "Rec" team if given a chance.

Conran will enter the State Duck-pin league. "Tommy" will have the bowling fans of the town with him, regardless of sectional disputes. He is rated as one of the best bowlers in Manchester and should make a fine showing.

If the weather stays clear for the coming week, soccer teams will get into action. The Manchester Soccer club is tied for first place in the State League standing and expects to bring the pennant to Manchester. Ansonia is tied with the local club. The Olympic soccer team will enter the Spring Cup games and play their first game with the S. K. F. seconds in Charter Oak Park as soon as the field gets in condition.

A CHALLENGE.
 Atlas Team Challenges "Rec" Varsity — Games to be Played Any Monday or Friday.

Manager Stowe of the Atlas team has issued a challenge to Manager Clune in behalf of the "Rec" basketball team. Manager Stowe's challenge follows:

The Atlas basketball team challenges the "Rec" varsity basketball team. The Atlas team has made an excellent showing this season and are confident that they can give the "Rec" boys a hard battle. We are willing to play them any Monday or any Friday evening.

We have not the experience the "Rec" team has had, but many fans are of the opinion that we can furnish enough opposition to warrant our playing them.

The Atlas management does not want to play for money as it is against the rules of the club, although some players wish the rule had not been made.

Yours for clean sport,
 Manager Thomas Stowe,
 The Atlas A. C.

FIRST WOMAN JUROR IN MASSACHUSETTS
 Worcester, Mass.—Miss Ethel O. Knight has the honor of being the first woman juror to be drawn in the State of Massachusetts. She was selected to serve as traverse juror at the March term of the Superior Court. Miss Knight does not regard the duty as a joyful task, however, although admitting that if she were younger she might feel better about it. "I have had a couple of shocks, too," said Miss Knight, "and I may have to be taken to court in an ambulance. However, it is a duty which no man or woman should refuse."

Investigation has proved, it is asserted, that one in every dozen prohibition agents is open to bribe. The investigation was undertaken by the Federal prohibition agent for the division of the southeast which embraces several of the southern states.

MANY MANCHESTER GIRLS THEIR OWN DRESSMAKERS

More Girls Make Their Own Clothes Here Than in Any Town Our Size in New England.

Graduation night at the evening schools last week demonstrated how many girls in Manchester have taken up sewing. A study of conditions in this town for a number of years proves that there are more girls who make their own dresses here than in any town of its size in New England and New England is known for its home dressmakers.

And that is the reason why the J. W. Hale Co. announces today a Special Sewing Week of special interest to the home-sewer. There are displayed in wondrous profusion, silks, wool dress goods, gingham, percales, new summer wash goods, curtain materials, new scrim, draperies, figured cretonnes and other materials.

Also for the home dressmaker, the store tells today of the new Deltor Patterns, a new plan put out by the Butterick Co. By following the charts one can save from one-half to three-quarters of a yard in dress material. These new patterns show you how to cut, to make and to finish your dress. Authorities will tell you that even when the style is right and the material the best, the dress depends entirely on the skill and daintiness of the finish. For instance a dress of filmy material must be finished with delicate stitches, its lines soft and flowing. One of heavy cloth must be tailored with machine stitching, its lines straight and severe. In practical garments like kitchen aprons, children's rompers, pajamas, where durability, neatness and laundering qualities are paramount, the proper finish lengthen the life of the garment. Here is where the Deltor patterns are needed. The finish of each individual garment is considered. The finish will make or mar a garment. The charts tell you the correct time to baste, when to press and when not to press, when and how to finish seams, when embroidery should be done; how to finish a lining and when and where to attach it to a dress so that it can be readily removed. In short you have the value of the best dressmaker's art right at your finger tips as you make your clothes, with these simple charts.

BATTLESHIPS ARE BEST
 Washington—Confirmation of the wisdom of Republican policy in Congress of steadily fighting for the maintenance of the battleship strength of the Navy is contained in a report made by Admiral Coontz, chief of operations of the General Board of the navy. He says:

"Nothing that occurred during the World War has served to change the opinion of the General Board as to the vital importance in war of the battleship; the ship that can at once give and take heavy blows.

"Comment has been made from time to time in the press and elsewhere upon the comparatively little actual fighting done in the late war by the battleship fleets, and the conclusion has been drawn that because of their apparent inactivity they were of no use and could be dispensed with. The important service which they performed was neither generally understood nor appreciated. In reality it was upon the potential fighting power of these ships that the activities of all other naval craft was based. Throughout the war it was the Grand Fleet at Scapa Flow or thereabouts which controlled the movement of the enemy ships. It was the sea power latent in the battleships which exercised the pressure upon the enemy which kept the sea routes open to the Allies and sapped the morale of the German High Sea Fleet."

The greatest snuff-taking country in the world is France, though it shows a decline in the habit.

FOR LUMBAGO
 Try Musterole. See How Quickly It Relieves
 You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment made with oil of mustard. Use it instead of mustard plaster. Will not blister. Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest. Always dependable.

Comfortable Dependable Glasses

After a thorough and scientific examination of your eyes, glasses if necessary—are fitted in the best and most up to date styles at the lowest prices.

To Insure Good Vision

If you eyesight is defective, the sooner you find it out the better. You will then be in a position to take proper measures for the preservation of your sight.

Perhaps you are able to see fairly well now but it is important that you be able to see equally well, say two or three years hence.

If you wish to insure future good vision it is necessary to care for your eyes now—to alleviate present difficulties, and to remove injurious strain which may exist.

The real danger lies in the fact that your sight may deteriorate so gradually that you may never notice anything amiss until the seeing powers are seriously affected. Better have your eyes examined now by Mr. Hines, our optometrist.

Mezzanine Floor.

Women's and Misses' NEW SPRING COATS AND WRAPS

Introducing Spring's Smartest Styles

Torrington Vacuum Cleaners are in a class by themselves.

Call 243-3 or come to the store. E. Benson, Representative for Louis Herrup.—Adv.

EDWARD DOWD. Edward Dowd died at the Hartford Hospital yesterday morning from a complication of diseases.

Mr. Dowd was 73 years old and had lived in this town for upwards of half a century.

He is survived by two sons, Frank and William Dowd, and two daughters, Mrs. Fred Dux and Mrs. Louis Champlaine, all of this town.

The funeral will be held from the home of his son, Frank, of 31 Newman street, on Wednesday afternoon.

Prayers will be said at the house at 2 o'clock and the funeral services will take place from St. Mary's Episcopal Church at 2:30.

NO CHANCES TAKEN Moving of Deposits to New Bank Was Doubly Insured.

Even though all precautions were taken on Saturday to move the deposits from the old to the new home of the Manchester Trust Co., it developed today that if bandits had in some manner broken through the cordon of guards and stolen the money the people of Manchester would have lost nothing.

An insurance company had guaranteed to replace every cent that would have been lost.

Even today, two days after the removal of the funds, no one seems to know at just what hour they were moved or how they were moved.

All day yesterday the full force of clerks were at work in their cages so that when the doors were flung open this morning every pen was in its accustomed place.

VETERAN COACHMAN DIES AT MERIDEN Meriden, Mar. 7.—Dennie Keohane, 74, coachman at the Conn. school for boys here for 38 years, died today.

MRS. CLARENCE E. BISSELL. Mrs. Clarence E. Bissell died late last night at her home on Washington street, following a lingering illness.

She has been a resident of this town for about two years. Her husband is well known in this town although he has not resided here for some time.

Mrs. Bissell was born in Fall River, Mass. She was a graduate of Dana Hall. There will be private funeral services at her late home on Washington street.

The body will be taken to Vineyard Haven, Mass., for interment. The services here will be held on Tuesday morning.

BRIDGEPORT CONCERN LAYS OFF 100 MEN. Bridgeport, March 7.—The Crane Valve Company it was learned today, has laid off 100 employees.

A large Packard touring car was stalled on Depot Square yesterday afternoon.

Postmaster Fred H. Wall left today for the Hartford hospital where he will undergo an operation of a minor nature.

Deputy Collector Edward Lonergan of the Internal Revenue department has completed his stay in Manchester.

During his stay in Manchester Collector Lonergan helped 546 persons to make out their returns to the government.

It was estimated that the government was \$7,958.70 richer as a result of the collectors visit to Manchester.

The Recreation swimming pool will be open for the school girls from 2 to 3:30 o'clock on Tuesday, Wednesday, Thursday and Friday afternoons of this week.

The boxing and wrestling classes will meet in the junior gymnasium this evening from 7:30 to 10 o'clock.

The swimming pool will be open for the ladies tonight from 7:30 to 9 o'clock.

The first set of games in the newly organized Volley Ball League will be played at the "Rec" this evening.

The following teams will meet: At 6 o'clock, Robins vs. Goldman; at 6:45, Holloran vs. Brennan.

If you think your wages are cut, come to Louis Herrup's and see how much we have cut also.

Torrington Vacuum Cleaners are in a class by themselves.

Call 243-3 or come to the store. E. Benson, Representative for Louis Herrup.—Adv.

EDWARD DOWD. Edward Dowd died at the Hartford Hospital yesterday morning from a complication of diseases.

Mr. Dowd was 73 years old and had lived in this town for upwards of half a century.

He is survived by two sons, Frank and William Dowd, and two daughters, Mrs. Fred Dux and Mrs. Louis Champlaine, all of this town.

The funeral will be held from the home of his son, Frank, of 31 Newman street, on Wednesday afternoon.

Spring Sewing Week

SUGGESTS NEW IDEAS FOR ECONOMICAL HOME SEWING

The New Butterick Patterns with the Deltor Make Sewing Easy

Easter will soon be here and there are so many wearables for yourself and the children that must be made up before that occasion arrives that we are sure you will find our home sewing week displays timely and gratifyingly helpful.
