### THE SELF-SERVE GROCERY-

ir one of the show places of Manchester. It is the only Self-Serve Grocery in Connecticut and although it is only three years old it has been enlarged three times, it now being twice its original size. A year ago a modern cold storage plant-was installed with 96 feet of display cases for the proper handling of all perishable fruits, vegetables and provisions. These cases are the only ones of their kind that we know of, in the country, and have attracted country-wide attention.

The great pleasure of being able to select your own foodstuffs without any suggestion on our part, without having to explain to any clerk why you prefer one brand or another, is a source of satisfaction to all customers of the Self-Serve Grocery. We absolutely stand back of every article of food which we sell, and it is the high standard, not alone the low price, of foodstuffs which we sell that brings back our customers day after day and week after week with increasing regularity.

The stock in the Self-Serve is turned on the average of once every two weeks thus insuring fresh goods all the time, and if the number of sales is an indication the people of Manchester and the vicinity certainly believe that "It Pays to Wait on Yourself."

THE KITCHEN FURNISHINGS DEPT .-is another big basement department that is growing rapidly. Every home-loving woman will be delighted with the Kitchen Furnishings Department-the lovely glassware, rugs, lamps, the serviceable linoleums, aluminumware, the time-saving Hoover sweeper, and New Perfection oil stoves.
