TOBACCO GROWERS' WAREHOUSE TO BE BUILT IN BUCKLAND

Site for New Structure Will Be in the Thresher Lot Just East of Cemetery Near Railroad Tracks — Contract to Be Awarded Within Next Ten Days.

The site for the new Buckland-Wapping tobacco growers' warehouse has been definitely chosen. It comprises one and five-eighths acres of the south end of Charles Thresher's property just east of the Buckland cemetery. A fill will be necessary, but a spur track from the railroad is not only possible but practically assured.

Contracts for the new building will be let within ten days and it is expected they will call for its completion by February 15th. The new building will measure 145 by 81 feet with a concrete basement up to the first floor. Of the two stories above the basement, the first will be all wares room and the second open. There will be a skylight 80 by 20 feet on the north side, and small growers lacking sorting room accommodations may turn their tobacco in to be sorted at the warehouse.

CONTRACTORS ARE NOW HOPING FOR PLEASANT WEATHER

While Most of People Would Welcome Rain — Manchester Construction Co. Rushing Work on Hand Before Winter Sets In.

The biggest job the concern has on hand is the erection of the large storehouse for the Orford Soap Company, which will be on the open lot just east of the main factory.

The new storehouse will be 160x144 feet and will be of brick and concrete construction. A side track will run from just west of the passenger station around to the storehouse and past the main factory to the spar mill. The new building will be a great advantage to the company, as it will be entirely for storage purposes.

A "MARDI GRAS" SUGGESTED AS AN ANNUAL EVENT

The Unlimited Success of Last Saturday Night's Affair Could Well Be Imitated Every Fall — Would Attract Thousands of Visitors.

"A Mardi Gras at least once a year," is the slogan with which a number of local people are working to have this event which was a part of the recent Centennial celebration become an annual affair. The unlimited success which attended the last affair is making these people work harder convincing others that an annual Mardi Gras is a thing that Manchester needs. There would be something to look forward to, they claim, and at the end of the summer season, the whole thing could end in a blaze of glory and a general good time for everybody.

Republican Leads Answers on the Tariff Bill

With a new tariff war looming in the next Congress, administration ranks are preparing to defend the existing law against attacks. This story presents a Republican answer to Democratic criticism of the law.

Washington, Oct. 11.—The publicans' protective tariff brought prosperity to America and saved agriculture from a hard time, John W. Aldrich, chairman of the Republican National Committee, declared today.

Answers on the Tariff Bill

Replying to Democratic attacks on the law, the tariff bill was defended by the administration. The bill was said to be a "Chinese Wall" around the United States, bringing distress to mid-western farmers.

Competition keen. World competition has never been so keen as it is today. The tariff bill is a necessary measure to protect our industry.

HERALD SERVICE PLEASES BIG CROWD.

The Herald's arrangements for handling the big series in New York worked perfectly yesterday. The radio set, a Radio Neutrodyne outfit, loaned by the Barstow Radio Shop on Pearl street was used for the first time during the telegraph service by a half an inning. The magnovox obtained from Kemp's Musical Shop allowed the fans to hear every play clearly.

8 SCHOOL CHILDREN WERE BEING TAKEN TO INSTITUTION FROM SUBURBS — DRIVER AND FOUR OTHER CHILDREN INJURED IN CROSSING ACCIDENT.

Ravenna, Ohio, Oct. 11.—Eight children, ranging in ages from eight to fourteen years, were killed today when a Pennsylvania train known as the "Cleveland" struck a school bus driven by horses at Atwater's Crossing in Ravenna near here. The driver of the wagon and four other children were seriously injured and it is expected the driver will die.

But in Same Frame Meusel Duplicates Feat — Joe Dugan Makes Sensational Stop of McQuillan's Drive in the Third — At the Beginning of the Fourth Babe Ruth Slams Pill Over Right Field Stands.

Polo Grounds, N. Y., Oct. 11.—Somebody subdued by the outcome of yesterday's game, the Yankees' appearance on the field today was greeted with apathetic interest by what might be termed a morbidly curious crowd of some 45,000. One run, two hits, no errors.

YANKS AHEAD IN THE 4th 3-1. The Yankees appeared on the field first coming through the concrete wall at 12:30 clad in travel attire. The Giants followed shortly afterward and proceeded to indulge in batting practice. Here McGraw juggled the cards a bit by sending Art Nehf, Jack Scott, Hugh McQuillan and Jack Bentley up to bat, thereby leaving the Yankees to speculate upon McGraw's pitching selection.

THE GAME.

First Inning. Strike one called. Ball one low. Ball two wide. Witt out Frisch to Kelly. Dugan up. Ball one low. Ball two low. Ball three high. Ball four wide. Dugan was out. Ball one called. Ball two low. Ball three low. Ball four wide. Ward out on a pop fly to Kelly. Pipp holding first. Schang up. Schang singles through first. Pipp making third. Young was given an error for the slow handling of the ball. Scott up. Ball one wide. Ball two wide. Strike one called. Pipp scores on Scott's single over short. Schang taking second. McQuillan was taken out of the box and Bentley was sent in to replace him. Pennock up. Pennock was hit by a pitched ball in the small of the back and dropped rolling to the ground while his teammates clustered around him; it was the first ball. Bentley had pitched for the Giants, the Yankees' players and Giants players came out of their dugouts and surrounded the fallen pitcher. After being rubbed several seconds he got up and walked around rubbing his back. Pennock on first base. Witt up. Strike one called. Ball one wide. Witt out on a fly to Cunningham. Two runs, four hits, one error, three left.

MANCHESTER RELIEF REACHES JAPANESE

First American Red Cross Cargoes Get to Kobe Just at Critical Time. Washington, Oct. 11.—Ambassador Woods has notified the American Red Cross of the arrival at the scene of disaster in Japan of the first American Red Cross relief ships from this country. His cable stated that the cargoes reached Kobe just in time to be of great assistance in succoring refugees whose sufferings had been intensified by the typhoon reported by Mr. Woods yesterday.

Manchester played a large part in the relief work and sent money and clothing to headquarters in New York to be sent to Japan. The Tyndareus, one of the ships, carried 200 tons of flour, 30 tons of condensed milk, 15 tons of canned salmon, 6 tons of hardtack, 5 tons of medicaments and 100 tarpaulins. The President Jackson's cargo comprised 100 tons of flour and 3,000 cases of evaporated milk. The arrival of the Somers, with a cargo of United States Army and medical supplies, was also reported. Greatly augmented cargoes of Red Cross supplies will begin shortly to arrive in Japan. Many vessels containing these cargoes are now at sea converging on the principal ports in the disaster zone. On the first of the big cargoes to arrive will be that of the "Vega" which is due to dock tomorrow. The Vega carried 5,000 tons of American Red Cross relief supplies.

COAL TRUCKS CAUSE EARTHQUAKE SHOCKS.

Foughkeepsie, N. Y., Oct. 11.—Severe earthquake shocks were registered today at Vassar college. So violent were the motions of the delicate seismograph that the girls and teachers feared nothing less than the end of the world was impending. No news of disaster came, although the instrument continued to gyrate ominously, an investigation was made. It was discovered that the seismograph indicates a heavy earthquake every time a coal truck passed the physics laboratory.

Case, R. H. Burnham, and Buck and Sheldon, architects.

THIEVES GET FURS.

New York, Oct. 11.—While one bandit held a gun at the head of a lone watchman early today, five other burglars leisurely looted the warehouse of Frederick Kuping in West 56th street, coupling with furs valued at \$125,000. The thieves occupied five hours with their job. They loaded the furs into an automobile truck and drove off into the dawn.

WANT TO LIVE IN 'SILK TOWN' OF THE GOOD OLD U. S. A.

Rush of Applicants for Work at Cheney Brothers Employment Bureau Show Effect of Centennial Celebration Advertising — Other Concerns Show Same Result. John P. Lamb of Cheney Brothers' Employment Department is authority for the statement that more persons have applied for employment immediately before and since the Centennial celebration than ever before in a like period, both skilled and unskilled labor. He believes that many people who came here were attracted to Manchester because of the advertising the town has received throughout New England.

However, there are other probable reasons for the unusually large number of applicants for positions. In Hartford, for instance, there has been less demand for labor than is usually the case. Then, too, a considerable number of immigrants from both Ireland and Sweden have arrived in Manchester recently. The increase in the number of applicants for work at Cheney Brothers began three or four weeks prior to the celebration and has continued ever since, which would indicate that the advantages of Manchester as a desirable town to live in have been heralded far and near because of the celebration.

FIVE IN MOTOR BUS ARE KILLED BY TRAIN

Williamsport, Pa., Oct. 11.—Five persons are dead and five others seriously injured as the result of a train on the Pennsylvania Railroad striking a motor bus at Heberstown station crossing about seven miles north of here this morning. The dead: Ault, South Williamsport; George D. Ault, South Williamsport; Mrs. Sarah Hall, Williamsport; Mrs. W. C. Adderson, Williamsport. A man named Shuck, Philadelphia. An unidentified man. Matthew Walks, driver of an automobile bus, with four other passengers who have not been identified are in a local hospital in a serious condition.

LLOYD GEORGE IN HIS SPEECH WARNS OF ANOTHER GREAT WAR

London, Oct. 11.—Disunionist newspapers are attacking what they call his "do nothing policy" leading to the aggressive stand taken by France upon European problems. Political opponents of the Tory premier accuse him of leading the country into difficulties by allowing the government to drift. An editorial in the Tory newspaper "Morning Post" today indicated that the movement to restore David Lloyd George to the Downing street is growing in strength. Lord Robert Cecil, chief exponent of the League of Nations in Great Britain, addressed the conference today upon the aims of the League. Foreign Secretary Lord Curzon will address the preamble of the League tomorrow upon foreign policy.

LLOYD GEORGE IN HIS SPEECH WARNS OF ANOTHER GREAT WAR

Toronto, Ont., Oct. 11.—Premier David Lloyd George's warning of another great war in Europe unless the European nations are halted in their military preparations, will be sounded in his speech in the United States. It was reported today by the British press that the former premier made it plain that he believes the League of Nations, as now constituted is useless as an agency for maintaining peace.

LAWYERS FOR WARD ASK FOR MINUTES

White Plains, N. Y., Oct. 11.—The law firm of Rabenold and Scribner, which represented Walter S. Ward in his fight for acquittal in the shooting of Clarence Peters, was today granted permission by Supreme Court Justice Seeger to inspect the minutes of the extraordinary Grand Jury during its deliberations from Sept. 5th to October 4th. The bodies of the victims terribly mangled, were taken to a morgue here and the injured to a hospital. As soon as the train could be stopped, members of the crew and passengers returned to the crossing to pick up the children and lay them out in rows, beside the tracks. The bodies of the "taken" were taken to the morgue. Others, who had been taken to the hospital, were taken to the morgue. UNNECESSARY CONTACTS.

A fleeting vision, a thirst for sensation and a relentless need for motion are the dominant characteristics of the America of today.

Few, not of the leisured class by inclination and fortuitous circumstance, will question the statement of Mr. Hughes that this ease of getting about leads to a vast waste of time by rendering easy countless intrusions on serious work.

Mr. Hughes recognized, however, that his description of the new handicaps and obstacles steadily increasing in a tumultuous world have a general application to the busy worker anywhere.

There is much to be said for the viewpoint of Mr. Hughes from the points of view of efficiency and of increased nervous strain. It is true that there is much greater waste of valuable time now than formerly, too overhastrating an inclination to step on the gas and go off miles away to pester an acquaintance on matters of trivial moment.

We are living in a period of transition, or as Mr. Hughes says "a tumultuous world," and its imperfections are only too obvious. Many of them will vanish with time and the efforts of the calm and serene.

LLOYD GEORGE ON REPARATIONS.

With his accustomed forcefulness of phrase Mr. Lloyd George put the reparations problem clearly before an Ottawa audience in his comment upon the report from Washington that the United States was prepared practically to repeat that it will stand by Secretary of State Hughes' suggestion at New Haven, last December, that an international commission of experts be assembled to determine Germany's capacity to pay.

"No one doubts that Germany ought to pay," said the former British premier. "The verdict of damages has been given but, he asked his audience, what is the next best thing to do if the defendant cannot pay the full assessment?"

The position of Great Britain, said Mr. Lloyd George, is that it should be determined what Germany can pay. "The suggestion of Secretary Hughes is plain common sense. It was an extremely sagacious, extremely wise proposal."

Reminded of France's hostility to the Hughes proposal, he declared that pressure should have been brought upon France. France is a democracy and Premier Poincare must do what his people want.

Lloyd George could not suggest offhand how the Allies could be brought to act at this late date on the Hughes plan but: "If I were in charge, though, I should do it." He agreed with the Washington government that no further initiative should proceed from the United States.

"TO THE FLAG."

President Cosgrave of the Irish Free State on his return from Geneva where the nations vied with each other in enthusiasm in welcoming Ireland into their company was given a banquet in Dublin. He was heckled in the resultant necessary speech to the dithers by an insistent demand from a woman in the crowd that he release the republican prisoners.

Plain commonsense and sound judgment are not the monopoly of any individual or of any one nation. Cosgrave's impromptu speech had an echo everywhere. He instanced the capture by the Turks in the World War of a flag of the French Foreign Legion.

Buildings at the Gothenburg Exposition were damaged. Diamond-edge tools are in common use in some factories.

When a motor knocks it may be firing too soon, but when an employee knocks he hasn't been fired soon enough.

THE WORLD SERIES.

It is to be supposed that those who were responsible for fixing the dates for the celebration of the Manchester Centennial had in mind, among other factors, the probable dates of the world series. Whether they had or not, it is fortunate that these two major events did not synchronize.

Manchester is intensely interested in the contest between the Yankees and the Giants and the interest is in no wise lessened by the fact that these two teams have been the protagonists in the struggle for world championship for three successive years. The issue is in doubt in spite of the success of the Giants on the last two occasions, and their spectacular victory yesterday.

In the minds of the great majority of fans, and almost everyone is a fan at this time, the present struggle has resolved itself into a battle royal between the slugging qualities of Babe Ruth and the generalship of John McGraw. And there will be about the same aggregate amount of satisfaction whether Babe Ruth brings home the bacon for the Yankees or Mr. McGraw makes a third consecutive homer for the Giants.

STRENUOUS DAYS.

The recent death of a Civil War veteran, James Price, of Warehouse Point, at the age of 85, recalled to the memory of many Manchester residents some strenuous political days in the Hartford of over thirty years ago. Mr. Price served as deputy sheriff for fourteen years and it was during his incumbency of that office that Morgan G. Bulkeley made history by holding over as governor in defiance of the political enemies who sought to oust him.

AUTOMOBILES.

Bridgeport has approximately one automobile for each five of its population, Hartford one for every ten, New London one for every ten and one-half, Meriden and New Haven one for every twelve, New Britain one for every fourteen and Waterbury one for every seventeen of its people.

STORMS ALONG COAST.

Copenhagen, Oct. 11.—Heavy damage was reported today from storms which have been raging along the coast. A number of ships have been wrecked, including the steamer Bretagne. On the Julian coast, dams gave way, allowing floods to sweep over unharvested crops, ruining them.

NEWS and VIEWS

OF TIMELY THINGS

'HOME AND ROAD

By MINOTT SAUNDERS, Int. N. S. Staff Correspondent.

Berlin, Oct. 11.—"White lies" and purple fraud are as common under the extenuating circumstances of economic abnormality in Europe as under prohibition in America.

To feel fully as well as you want to, eat only half as much as you want to.

If you are buying a car with your bonus, cross crossings cautiously.

Many a smart husband avoids a long howling out on the evils of gambling by slipping his wife a ten spot out of his "alleged" winnings after he gets back from a session at a poker or an evening at the lodge or club.

The company you keep away from often has a better effect on you than the company you "trot" with.

In countries where the currency is inflated there is a law stipulating the maximum amount of money that may be taken out of the country. This amount is always so ridiculously low that it leaves a

traveler penniless at his destination.

You are not to take from Hungary anywhere near as much money as your ticket costs you, no matter if you are only going to the greatest big city beyond the border.

Under these laws money means not only the currency of the country you are leaving, but dollars, pounds, francs, etc., also travelers' checks and negotiable securities.

It is simply cannot be done. If you are traveling for pleasure your entire tour will be ruined if you obey the law. If you have business to transact you must either cancel the business or be dishonest. Nationalistic feeling is so intensely guarded that the resultant system is a joke.

And so everybody treats it as a joke. It is a common sight at frontiers to see respectable men and women who live Christian lives look an official in the eyes and tell him they have only so much money. Of course it is impossible to search everybody, and so on most frontiers officials pick on one or two and make them "horrible" examples. The penalties are expensive, according to how much money is found.

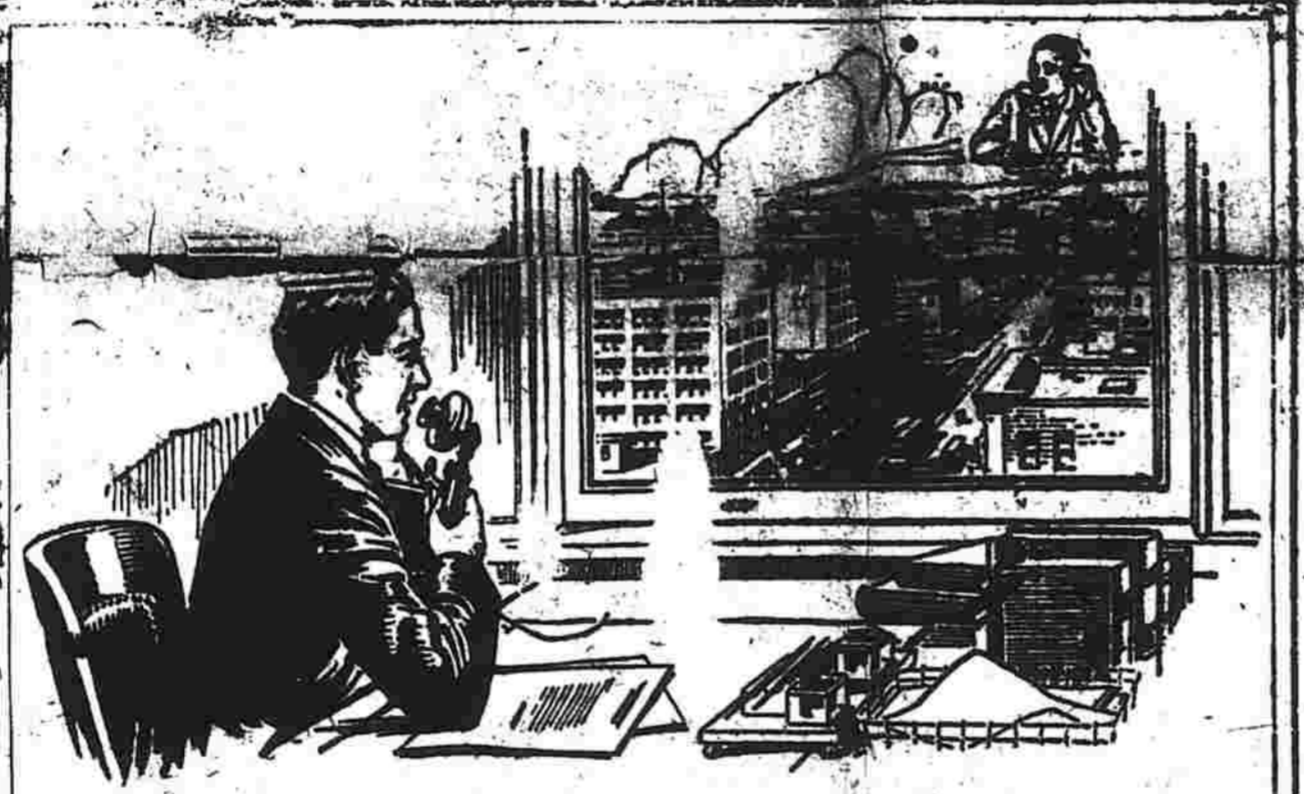

Frontier officials probably know very well that every time they ask the question they do not get the truth, so it is policy to be courteous to them and behave so that you may not arouse their distavor. Meekness and humbleness of the great come out at frontier inspections.

These inspectors also know all the old tricks of deception, so that brilliant ideas of concealing money in handbags and stockings do not work out if you are one of the proscribed. A prominent Englishman recently sewed several hundred pounds in notes inside his coat lining, but he was denounced when, at the frontier, his daughter crinkled, and the trunk went on without him. At Harcheg, on the Austrian frontier, an American salesman was questioned about his silk samples, and when he was not very "polite" in replying, he was taken into a private room and searched for money. His fellow-passengers did not see him again.

Ebriety and smuggling and tax evasion are other brands of deception universally indulged in.

All this fraud and dishonesty are so widely understood and indulged in by the "best" people that it is looked upon as a legitimate game. The individual assumes it is fair to trick the state if the state has imposed upon him legislation which he regards as absurd.

And the spirit of these practices is about the same that has brought upon America the accusation of corruption under prohibition.

NO DISAPPOINTMENTS IN APPOINTMENTS

If you are a Salesman or a Buyer, why gamble valuable time and the cost of railroad fares that the party you wish to see will be in when you call on him?

The high cost of personal interviews is materially reduced and many more calls can be made per day if you make definite appointments by TOLL LINE. You won't have to wait or make other trips to see your party.

Avoiding disappointments by making appointments by TOLL LINE is one of the most profitable uses a traveler can make of the telephone.

ROCKVILLE'S NEW PARK.

Work has been started on the development of the northern part of the E. Stevens Henry Memorial Park, comprising about thirty acres. The site of the new park is just south of the center of the city and includes Fox Hill.

The first steps in the work is to make roads and paths leading from the city to the summit of the hill. To do this it is necessary to make gentle grades on the very steep face of the hill. This was a very difficult engineering problem but has been solved and the maximum grade will be but eight per cent. At three places on the road it is planned to widen the road so that the automobilists may have room to park and tarry on the road, and enjoy the beautiful scenery. The first of these views is directly opposite the city, the second at the rear of the hill looking toward Bolton and the third outlook faces north-east with a view over Saugatuck Lake.

The road divides about half way from the Stone street entrance; one branch extending to the north and at present terminating at Thomas street but eventually leading to South street. This road leads to where the football and baseball fields and the playground and tennis courts will be located.

At the summit it is planned to build an observation tower along the paths outlooks for the pedestrians similar to the road outlooks for the automobilists. There will also be several other places that will add to making this park one of the most attractive in this section, such as a swimming and wading pool, a set of masonry steps at the Hill street entrance—Rockville Leader.

YANKS VS. GIANTS AT POLO GROUNDS

Yanks Invade Polo Grounds Today With Pennock or Jones Ready for Clan of McGraw and Second Scrap

Yanks Odds Favor National League Champs 5 to 3—McGraw May Strut His Stuff This Afternoon.

Bill Ryan

New York, Oct. 11.—Conducted by the hands of the second series of the world's series between the Yankees and the Giants, otherwise known as the non-thinkers, the day dawned dark and threatening, with a light mist hanging over Googon's Bluff and a threat of rain in the air. Cloudy to partly clear, is the official forecast, but it is to do justice to the early season. The morning was as dark as a soldier's arm pit.

Bill Ryan, manager of the Yankees, is expected to be in the dugout today. The game today will be played minus the hero of the premiere, Casey Stengel, who sooked Bush for a home run in the ninth yesterday. The score tied and the count three and two, is afflicted with the left handed complex and will not be permitted to dally with a bat as long as Pennock remains with us. In this case, Bill Cunningham will play centerfield and two other Giants, Bancroft and Frisch, will shift from the left to the right side of the plate.

MANCHESTER TEAM DID NOT FARE SO WELL DURING YEAR

Reports That Local Club Was Paying Big Salaries Scattered Throughout State—Team Faces Deficit—Amount Unknown.

(BY THE SPORTS EDITOR.) Now that the baseball season is over and the local semi-pro team has laid aside its care and worries for another season, the summary of the defunct season is not so good as that of former years. Bluntly speaking, the new park is not situated centrally enough to assure the officials of drawing capacity crowds. We were asked last evening if there were any causes that caused the attendance to fall away and what the remedy might be. That, my dear readers, is something just a little beyond our ken.

GERMANY LEADS EUROPE WITH GREATEST NUMBER OF SOCCER PLAYERS; SPORT IS POPULAR

Berlin's Famous Team Holds Glasgow Celtics to Tie Score in May—Other Soccer Notes of Interest.

Frank Pearson

(By Frank Pearson.) I have several times made the remark that although soccer was originated in England, its growth throughout the world has been tremendous. I have also stated that the greatest soccer country in the world is Germany. Exception was taken to this last remark by some of the local followers but it is true, nevertheless, as the following figures will show.

Torrington team. They even tried to get my goat. The Olympics are hitting their stride, holding Hartford Swedes to a tie. Next Sunday Manchester will meet the Swedes at Charter Oak park and will try to get revenge for the defeat earlier in the season. The Olympics will meet the Portuguese at Adams street.

Nine Big League Clubs Get Players by Draft

Fifteen minor league stars were drafted by National and American League clubs at the annual draft meeting held under the direction of Commissioner Landis at the Commodore yesterday. Players were obtained under the selective system by five American and four National League clubs. The draft took place under the new regulations which provided that it be made on the day before the opening of the world series, instead of after the championship, as heretofore. Club obtaining minor league players now are obliged to pay the full draft price at once, instead of in installments. The prices fixed ranged from \$1,000 to \$3,000, according to the classification.

Less importance than in former years, however, is attached to the draft process, as five of the minor leagues, including the American Association, have suspended their operations. By the Chicago Nationals, Churruy of London, Ont., and Gockliff of Danville, Va.; Cleveland, Luther York of Chattanooga, Tenn.; New York Americans, Pitcher Arguigo of Coahuila, Tex.; Chicago Americans, Crump of Greenfield, Tenn.; Boston Nationals, Sperber of Houston, Tex.; Fred Lucas of San Antonio, and Graham of Little Rock, Ark.; Philadelphia Americans, Gray of Fort Worth, Tex.; Brooklyn, Eimpon of Springfield, Mass.; Long of Mobile, Ala., and Lotua of Bridgeport, Conn.; St. Louis Nationals, Kane of Birmingham, Ala.; Washington, Joyce of New Haven, and Moore of Greensboro, N. C.

MAY SELECT STOWE AS CRESCENT PILOT

Tom Stowe, who will probably manage the team this season, has filled the same position for the past five or more seasons. He has been the manager for the fast Atlas aggregation for several seasons, and also filled the position for the Recreation Center team last winter. All the members of the team are in fine condition at present and the quintet is awaiting the official opening of the season.

The High school football team has been relieved from further scrimmaging previous to the first game Saturday afternoon with the East Hartford high team.

The players are all in excellent shape and feel highly confident that they will give team "over east" a real struggle.

"Pat" Carlson, acting captain of the team and Head Coach Clarke also share the feeling of optimism that prevails among the members of the team and the student body.

The lineup of the varsity squad has not yet been announced, but it was said that Coach Clarke will give out the names of the men who will start the game.

Micky Walker, king of the middleweight and welterweight division of box fighters has been suspended.

Another thing, Jack Hunt and Jack Straton will be around to practice tonight at the Gold/Loma. The team will meet at the entrance at 6.30 and members are asked to be present.

WALTON'S SPEECH TO LEGISLATURE

Chief Executive of Oklahoma Says Invisible Empire Must Fall or State Will Be Subjected to Turmoil and Strife.

State Capitol, Oklahoma City, Okla., Oct. 11.—Invisible government must fall, else the State of Oklahoma will be subjected to "indefinite turmoil and strife, the final results of which are bound to be disastrous," Governor J. C. (Iron Jack) Walton told the special session of the Oklahoma Legislature when it assembled here today.

He renewed his challenge to the K. K. K., with a demand that Oklahoma forever erase from her midst the hooded gatherings which he blamed for many outrages, resulting in military law and virtual rebellion of civic authority a week ago.

The text of the Governor's message follows: "Gentlemen: October sixth, 1923, I issued a proclamation convening the members of the Ninth Oklahoma Legislature into extraordinary session and you are now here in response to that call.

"The reason for calling you together are well known both to the members of this body and to the people at large. They grow out of the conflict in this state between the visible and the invisible governments, so-called. This conflict must now be brought to a close with a complete victory for the visible government, or Oklahoma will face indefinite turmoil and strife, the final results of which are bound to be disastrous.

"This is not a threat, but a mere statement of fact.

"It ought to be apparent now to all citizens that the people of this state will not cravenly submit to intolerance, prosecution and outrageous violence of a hooded organization which operates in the dark and under cover and whose membership is secret. Racial and religious bigotry and mob violence are unthinkable when preached and practiced in the open; they become traitorous and wickedly so when hidden behind a mask.

"I have no doubt that it is time to take a resolute stand in our midst against that good natured harmoniousness without which no progress can be made.

"Nothing less will have the effect to destroy this super invisible and asserted invincible government and nothing less will satisfy the people's demand; their will; I urge you to do your duty. Respectfully submitted, J. C. WALTON, Governor of Oklahoma."

BASKETBALL.
Industrial League basketball received its 1923-24 send-off last evening at a meeting of the Ribbon Mill Office at which the following were present: Mantell, L. Corvint and J. G. Fehland, representing the B. G. Weaving Mill and Throwing Dept. group. W. Stevenson representing the Mill Office, Old Mill and Lower Mill group. T. Stove representing the Velvet Mill and Yarn Dye group. A. Robinson and S. McAdams representing the Ribbon Mill, Electrical and Machine Shops, Spinning Mill and Dressing Mill groups.

Past history of basketball was talked over at some length and it was the opinion of the majority that the league affairs be conducted along the following lines:

1. The players to be picked from the same grouping of departments as last year.
2. All games to be played Thursday evenings at the School street Recreation Center, the first game to start at 7:30 and the second at 8:30.
3. The league to open Nov. 1, 1923.
4. Dancing after the games will be attempted, a small fee at the door being charged to cover this expense.

Other features not definitely decided will be brought up at the next meeting which is slated for Oct. 19 at 5 p. m. at the Ribbon Mill. Anyone interested enough to come in at these meetings is welcome to do so.

DELYSIA ADMIRES AMERICAN GIRLS FOR THEIR BRILLIANCE

Alice Delysia, the famous French actress who is appearing under the direction of the Messrs. Shubert in the musical *Follies Bergere* revue "The Courtisan" at Parsons Theatre, Hartford all next week, admires American girls for their beauty and brilliance, but declares that the French girls are far more home-loving than their American sisters. There are fifty American girls in the chorus of "The Courtisan" and more than a score of chic Parisian soubrettes whom Delysia brought to America with her to appear in this production. None of these Parisian girls can speak a word of English, but they are having a wonderful time familiarizing themselves with American customs.

"The Courtisan" is the work of Harry Wagstaff Gribble and Harold Atteridge with music by Sigmund Romberg and Jean Schwartz. The songs are by M. Francis Weiden and ballets by Alexander D'Amico. The entire production was staged under the personal direction of Mr. J. J. Shubert. Mail orders received now. Regular seat sale 9:30 a. m. Friday.

MODERN LIVING DRIVES PEOPLE MAD IS CHARGE

Hospitals Overflowing as Civilization Speeds Up, Asserts Physicians.

Massillon, O.—Civilization is "literally driving people mad," dodging street cars, sidestepping automobiles and eating rich foods are modern contributors to an increasing percentage of insanity, Dr. A. G. Hyde, for ten years superintendent of Massillon State Hospital, told International News Service.

"Each year there is a larger number of patients admitted to the hospital," Dr. Hyde said. "We are 400 over normal capacity now and more are being admitted daily. There is no doubt that the speed with which the world is living is responsible in part."

Infected teeth often cause insanity, he said, and bad teeth—due to eating rich foods—are more prevalent today than ever before. For that reason a dental clinic is maintained at the hospital. As soon as a patient is admitted his teeth are examined, and suspicious molars and bicusps are extracted. Tonsils are next examined. Bad tonsils cause insanity in many cases, Dr. Hyde said, and in all cases where the tonsils are found to be diseased they are removed.

Largely Physical
"The study of insanity is a matter of elimination," he asserted. "We correct all physical ills so far as possible, and in a majority of cases an improved mental condition results. In fact, mental disease is now viewed in the same light as physical disease."

"Many more cases of mental trouble are being cured now than formerly. This is due to the fact such diseases are better understood and treated."

YALE'S BODY GUARD
Lynchburg, Va., Oct. 11.—The body of Dr. Esteban Zabolos, former Argentine foreign minister and Argentine ambassador to the United States, was taken to Southampton today for removal home upon a warship. It was accompanied by two relatives and a committee of the international law association, of which Dr. Zabolos was president. The Argentine warship *Almanzora*, carrying the remains, will sail from Southampton tomorrow.

DEAD WOMAN FOUND

New York, Oct. 11.—Clad only in an elaborately embroidered kimono, which she had just finished making, the body of Mrs. Albert Eys, 50, of Brooklyn, was found today in the rear of the Sylvan-Baths, a fashionable sanitarium. Police said she had either fallen or jumped from the fourth story. She had been undergoing treatment at the place.

New Haven, Conn., Oct. 11.—Yale's large Freshman football squad will open its season next Saturday with two games, Cleveland University School playing here, and Exeter playing at Exeter, according to announcement made here today. The two Yale teams are rated as of equal strength, and the number of Freshmen out for football indicate the awakened interest in the game here.

CONTAGIOUS

With all a six-year-old's family with measles, chicken pox and mumps, Bobby charged from a whipping cough much the worse for wear. The first item of interesting news he received was his aunt was at a hospital and there was a new baby he would be allowed to go to see soon.

Just what happened to them the speaker left to the imagination, but the impression conveyed was that some of the scientific men had been on the losing side in a civil war, and had suffered the consequences.

New York, Oct. 11.—Dull and uninteresting price movements characterized the forenoon trading on the Stock Exchange today. Traders took little interest in the proposed co-operative dairy interests of Russia in an interview with Science Service.

CHAIRMAN RESIGNS

New York, Oct. 11.—Announcement was made here today that Robert S. Lovett has resigned as chairman of the executive committee of the Union Pacific railroad, the resignation to take effect January 1st, next. The action was taken upon advice of his physician.

COUNTRY RECOVERING SAYS RUSSIAN DAIRY DELEGATE

Washington.—Science in Russia, like other activities in that country, is coming back to pre-war standards, universities are filled with students, and scientists are pursuing important researches with the aid and approval of the Soviet government, said Alexis Serajnikoff, representative at the World's Dairy Congress of the associated co-operative dairy interests of Russia in an interview with Science Service.

"Of course," he said, "the government is not able to do all that it would like to do for science and for education because of lack of means but everything that can be done is done. Little pamphlets telling the people of the discoveries of science are being circulated as widely as possible. The government has founded not only free common school system, but co-operative universities and technical schools have been started in Petrograd, Moscow and Tomsk."

Mr. Serajnikoff was asked concerning reports that many scientists in Russia had been killed, imprisoned, or exiled, and that many others had starved to death. "Those reports were quite true," he said. "Such conditions existed during the civil war, but now the country is at peace and conditions similar to those in the other countries of Europe prevail. During the civil war many scientists took part in political affairs; they were as we say on the 'white' side."

PLEASANT ENTERTAINMENT AT EIGHTH DISTRICT ASSEMBLY HALL

The first of the series in the course of five entertainments to be given this fall under the auspices of the Manchester Community Club, will be presented tomorrow evening by the Griswold Duo in the eighth District Assembly hall.

The Manchester Community Club, which began its activities after the first of the present year, has been doing an important work for the uplift of the young people of the community. During the winter and spring many splendid entertainments and popular dances were enjoyed by all, winding up with a big lawn fete in June, which was considered one of the most successful affairs of its kind ever held in town.

The entertainment committee has been desirous of providing a series of entertainments somewhat different from those of last spring, and believe in the course now offering, a variety of programs that will appeal to all, and at a popular price. The membership of the club is now upwards of 500 and it is hoped that every member will patronize these entertainments, and if possible buy a ticket for the entire

course of five entertainments, of which is \$2.00 for adults, \$1.00 for children; single admissions will be 50 cents for adults and 25 cents for children. Courses tickets may be procured at Fagall Brothers or of the members of the entertainment committee.

The entertainment tomorrow evening by the Griswold Duo is sure to please all. These young women are both talented artists and their programs are not only entertaining but artistic and full of human interest, and have delighted audiences wherever they have appeared. Following the program by the Griswold Duo there will be dancing for all who care to remain for it.
