

## BOY DROWNED IN TINY POND; MOTHER NEAR

### Six Year Old Alex Fatcher Dies in West Side Pond Without a Struggle; Bather Stumbles Over Body.

While a mother stood ten feet away enjoying the coolness of the waters of Case's pond on the West Side last night, her little six-year-old son, who was bathing there, was drowned. The boy had perished without a struggle and his death was not known until his body was found by Tom Treat another swimmer a half hour later.

#### The Dead Boy.

The dead boy is Alex Fatcher, son of Mr. and Mrs. Joseph Fatcher of 6 Avon street. This street is in the Colonial Gardens section of the town and Case's pond, which is used for ice purposes, is not very far away.

Yesterday was very hot and the family thought that a swim would be the thing to help cool off. Accordingly, Mr. and Mrs. Fatcher with their children went to Case's pond and the boy and his mother went bathing.

Nobody thought anything had happened until a little girl bather stumbled over his body. Treat picked the boy up and tried to revive him but his work was in vain.

#### Overcome by Heat.

It seems that the little boy must have been overcome with the heat and that the effect of the cold water brought on a convulsion which caused his death. That he perished without a struggle is seen from the fact that nobody was aware that he had gone down until his body was found.

#### First This Year.

It was the first swimming fatality in Manchester this year. The last occurred last year when a girl, Virginia Marcin, lost her life in the Union pond at the North End. The last before that happened about five years ago when two boys were drowned in the Marter Pond at Jarvis.

Manchester has been unusually fortunate in the matter of lives lost through bathing because most of the town goes now to Globe Hollow where two lifeguards are usually in attendance during the busy hours. This supervision has been so efficient that not one drowning has been reported at that pond since lifeguards were stationed there some 12 or 14 years ago.

## GUN GANG MURDERS A NEW YORK JEWELER

### Six Men Shoot Up Store, Kill Owner, Wound Clerk— May Have Been in Revenge.

New York, July 22.—A jeweler was shot and killed and his clerk wounded today when six gunmen standing in front of a Broadway jewelry store riddled the place with bullets. A. Rodack, owner of the store, died on the way to a hospital, and the clerk, Stephen Profeld, is in a serious condition. Revenge is believed to have been the motive for the shooting, for, as far as can be determined, there was no attempt to rob the store. According to neighbors, Rodack, in repelling a robbery last year, killed a burglar, and it is thought the gunmen may have been seeking revenge.

The gunmen, traveling in a big blue sedan, arrived at the store about ten o'clock, and two of their number entered the store. A moment later the two were seen to back from the place, their revolvers barking.

In a moment their companions had joined them and all six guns were spitting lead through the windows of the shop.

#### TREASURY BALANCE

Washington, July 22.—Treasury balance as of July 20: \$215,047,444.96.

## Stores Open All Day Saturday

Manchester's stores will be open for business all day Saturday and until 9 p. m. Saturday night.

Manchester's merchants would like to give the store clerks the benefit of a Saturday half holiday but cannot do so until the practice becomes general throughout Hartford County. Despite stories you may hear—

Manchester's Stores Will Be Open Saturdays As Usual.

## His Melting Smile

## STRANGE AUTO ACCIDENT KILLS 3 BY SHOCK

### Bumped Car at Worcester Uncovers Electric Cable and Is Enveloped in Wreath of Death.

Worcester, July 22.—Three persons are dead here today and several others are nursing injuries as a result of one of the strangest automobile accidents on record in Massachusetts.

Struck in the rear by another machine, an automobile containing Albert Vassar, 25; Sigfried Malm, 19 and two other girls, climbed the curb, sideswiped an electric light pole, snapping a heavy iron pipe leading out of the ground through which ran 13,000 volts of current in a heavily insulated cable, and crashed into a fence.

#### Tore Up Insulation

The crash ripped the insulation and encircled the metal body of the automobile with a heavy charge of electricity.

Reaching out and grasping one of the machine's metal uprights, Vassar was instantly electrocuted. Henry J. McDonough, 45 and Albert Gotha, 29, witnessed the accident and rushed over to the machine. McDonough, unaware of the danger, grasped a door of the car to help the girls out and was killed in the same minute that Gotha, on the other side of the car, was hurled a distance by the terrific current and fearfully burned, dying later in a hospital.

#### Six Others Prostrated

After six others had been knocked senseless by the current, the girls were taken from the machine with the aid of a plank used as a bridge.

## BEVERIDGE OUT AS REAL COOLIDGE MAN

### Ex-Senator "First, Last and Always" for the President for Re-election.

Wenham, Mass., July 22.—President Coolidge today had the wholehearted endorsement of former Senator Albert J. Beveridge of Indiana, noted progressive who frequently has clashed politically with national leaders of the Republican party.

In an address at the putting of the Essex Club here, Beveridge, declaring he was "first, last and always exclusively for Calvin Coolidge," said he looks for the President's nomination "by acclamation and his election by an overwhelming majority in the next national campaign."

## CHIPPS GRAND JURY IS WORKING RAPIDLY

### Examines Many Witnesses in Probe of Shooting by Fort Worth Pastor.

Fort Worth, Tex., July 22.—Swiftly, but without producing any sensational disclosures, or even indicating its trend, the Tarrant county grand jury today delved into the details surrounding the shooting of D. E. Chipps, friend of Mayor H. C. Meacham, by Rev. J. Frank Norris, widely known Baptist revivalist, here Saturday.

Eighteen witnesses were waiting when the investigation convened this morning. A total of 25 have testified.

Robert Young, assistant district attorney in charge of the grand jury investigation, announced this morning that the probe probably will consume the rest of the week.

## WOMAN LABORITE WINS SEAT IN BRITISH HOUSE.

London, July 22.—The female contingent in the House of Commons was increased today when Miss Margaret Bondfield, Laborite, was elected a member of Parliament in the Walsend-by-election. Miss Bondfield polled 18,866 votes, Sam Howard, conservative, 9,839 votes and Charlton Curry, Liberal, 4,000. The election was held to fill a vacancy caused by the resignation of Sir Patrick Hastings, Laborite.

## DINNER BELL KILLS TOT

Walworth, N. Y., July 22.—Four-year-old Thomas Norman was killed today when a dinner bell fell from its place in a tree in the yard of his home and hit him on the head.

## COAST GUARDS DEEP IN BOOZE GAME, CHARGE

### 21 Suspended from New Jersey Coast Stations; Cleanup Coming from Barnegat to Cape May.

Tom's River, N. J., July 22.—A bottle of liquor "planted" for revenge in the automobile of a game warden here last Spring has led to a sweeping investigation of charges of corruption and bribery among the Coast Guard forces on the New Jersey coast from Barnegat to Cape May and threatens to result in a general house cleaning in all those stations.

The investigation is being conducted by Commander William J. Wheeler. Accompanied by Superintendent M. W. Rasmussen of the Fifth Coast Guard District, Commander Wheeler has just completed a twenty-four hour tour of stations from Barnegat Light to Atlantic City.

#### 21 Are Suspended

Under Sheriff Walter Brower of Ocean County, who accompanied them on the trip, and twenty enlisted men and one officer of the Coast Guard already had been suspended on charges of receiving bribes from rum runners and of openly running and selling rum themselves, and further wholesale suspensions were expected.

The investigation was begun at the request of Sheriff John Grant of Ocean County. Last Spring Game Warden Hamilton Everingham of Tom's River arrested several men for illegal shooting. It was ascertained that the men were selling their prisoners before Justice of the Peace Potter in West Creek when a Coast Guardsman telephoned to Sheriff Grant and told him that if he would inspect the game warden's automobile he would find something interesting.

The sheriff drove to West Creek while the warden was still at the factory and found a bottle of whiskey in the car. Instead of arresting Everingham, however, Grant called on Superintendent Rasmussen and put before him evidence of rum running among the Coast Guards which had been brought to the sheriff's attention.

Superintendent Rasmussen started a quiet investigation immediately. A few weeks ago Sheriff Grant went to Tuckerton and obtained an affidavit, so he says, from a resident of that town, who swore he had delivered eight cases of liquor to a restaurant in that place. The maker of the affidavit, the sheriff said, swore that the liquor had been handed over to him by Coast Guards of the Shipbottom Station, who had landed it on the beach, and who paid him \$25 for delivering it.

Last Saturday Sheriff Grant made a raid in Waretown and arrested Eugene Danley who was charged with having eight gallons of liquor in his possession. According to the sheriff, Danley said the liquor had been sold and delivered to him by Coast Guards.

Neither Sheriff Grant nor Under Sheriff Brower would reveal the names of the suspended Coast Guards.

Neither Sheriff Grant nor Under Sheriff Brower would reveal the names of the suspended Coast Guards. Sheriff Grant said that the suspension that had been made thus far were as nothing, with what he meant by "as nothing" he virtually the entire force of Coast Guards from Barnegat "on down" would be removed and a new force sent to man these stations. Asked what he meant by "on down" the sheriff said "as far as Cape May."

Ten Coast Guardsmen have been placed under arrest charged with accepting bribes, running liquor and aiding rum runners. It was announced today by Supt. Rasmussen.

## WOMAN FIGHTS POLICE

### DOG, DEFENDING BOY

Westport, July 22.—Mrs. Harvey Allen, wife of a local policeman, and her son, Russell, aged ten, are under a doctor's care today following a wild battle with a "police" dog that was ended only when Allen himself returned home and quieted the animal, which he owned.

For fifteen minutes Mrs. Allen fought the dog, which seemed determined to bite the boy, although it made no effort to bite Mrs. Allen. The animal, which weighed eighty-five pounds, tore Mrs. Allen's clothes to shreds, upset chairs and a table, smashed much crockery and even knocked pictures from the walls.

The Allen boy was playing with the dog in the yard when the dog suddenly became affected in a strange way. The boy, sensing danger, fled to the house and fastened the screen door. Just as the boy screamed for his mother, the dog hurled itself through the screen and entered the kitchen just as Mrs. Allen did.

Examination of the dog today disclosed no sign of rabies and the animal seemed normal.

## 11 Canadian Youths Drown When War Canoe Capsizes

Peterboro, Ont., July 22.—Eleven of fifteen youths, camping at Balsam lake, near here, were drowned when their large "war" canoe capsized in a squall in Balsam lake. The remaining four clung to the overturned craft for four hours and were rescued in an exhausted condition.

## MANCHESTER MEN HONORED AT CAMP

### Capt. Bissell and Lieut. Quish Assigned to 43d Division Encampment.

(By Staff Correspondent)

Camp Trumbull, Niantic, July 22.—Two Manchester officers have been honored as a result of their military knowledge and ability, it was learned today. Captain Herbert H. Bissell and First Lieutenant Thomas J. Quish, both of Company G, Manchester, have been ordered by Governor John H. Trumbull through Adjutant General George M. Cole's office in Hartford to report to Major General Morris B. Paigne, commander of the 43rd Division for duty from July 25 to August 3 inclusive. The order was issued Monday.

The exact duty which the Manchester officers will be assigned to has not been made public but it has been learned upon authority that Lieutenant Quish will be connected with the 102nd Infantry of New Haven under Colonel Fields. Lieutenant Quish, a Fort Benning, Ga. graduate, has done commendable pieces of work here during the encampment of the 169th Infantry under Colonel D. Gordon Hunter. He had charge of the preliminary drilling of all the recruits in the regiment and was also assigned to teach the automatic riflemen of the regiment. His work has been so satisfactory and it is expected that he will conduct similar classes in the next encampment.

#### Bissell Recognized

The nature of Captain Bissell's duties are practically unknown. It is reported that he will be connected with the Divisional Headquarters at present headquarters. Captain Bissell has directed Company G in such an efficient manner during this encampment that the Manchester unit has gained recognition in several instances because of its fine work in drilling.

It is expected that both Captain Bissell and Lieutenant Quish will return to Manchester with Company G when the 169th Infantry breaks camp early Sunday morning but they will return here shortly.

#### Today in Camp

With the excitement of Governor's Day now a thing of the past, the 169th Infantry today settled down to strenuous work which will last until the order comes Sunday morning to muster and break camp. The official program for today called for callisthenics by battalion from 7:30 until 7:45 and field manoeuvres (battalion as exterior company in attack) from 8:00 until 9:00. The automatic riflemen of the third battalion had target practice on the 1000 inch range. This afternoon at 4 o'clock the First Battalion and Spare Parts Units were in parade. Lieutenant Colonel Orville C. Petty reviewed the parade. He was mounted on a motor car and the morning program and one platoon of the Howitzer Company was in the parade.

The other platoon went along with the Third Battalion which left for its overnight bivouac at Pleasure Beach late this afternoon.

Co. G, On Guard since the campment commenced, Company G, of South Manchester, under Captain Herbert H. Bissell has been assigned to guard duty. The Manchester unit went on duty at four o'clock this afternoon and will be relieved at the same time tomorrow. Lieutenant Quish is Officer of the Day and Lieutenant Thompson is Commander of the Guard.

The afternoon program on Governor's Day which happened too

(Continued on Page 5.)

## Col. Green, Famous Dry Chief, May Be Indicted in Rum Thefts

San Francisco, Cal., July 22.—Accused of protecting alleged bootlegging establishments and diverting seized liquor for consumption at "parties" at which he was the host, Col. Ned M. Green, San Francisco's federal prohibition director, today was facing indictment before the grand jury which will convene here Monday.

The charges against Col. Green, according to rumors prevalent in federal circles, will be: That Col. Green appropriated countless gallons of government seized liquor for his own personal use. That Col. Green used this liquor at "wild parties" at his hotel.

That large numbers of persons attending these affairs, among whom was a man known as the San Francisco agent for a Canadian rum-running combine.

That Col. Green was seen intoxicated in public places on numerous occasions, and that he openly boasted of his drinking.

That Col. Green "protected" certain suspected bootlegging establishments, and that he had even destroyed search warrants issued against these places.

Green is the official at whose urgent request President Coolidge issued the now famous order for dollar-a-day dry badges for city and county peace officers which was never put into effect.

## COME TO CONN. FOR CLUES TO CANTON CRIME

### With Five Akron Men Held Official Starts for New Haven to Check Bullets Fired at Mellett.

Canton, O., July 22.—Unrelenting in their efforts to unfold the cloak of mystery concerning the Don R. Mellett murder, investigators under Ora Slater, Cincinnati sleuth of Nesbit case fame, today began formulating new plans which are expected to bring results.

The police are holding five Akron men as suspicious persons and have given them a severe grilling concerning their whereabouts on the night of the murder, but Slater early today declared that "we are right back where we started from with the exception that we have eliminated one or two possible leads."

The five men arrested by Canton police in Akron are: Pete Magras, whose wife was classed as the queen of the Canton bootleggers in editorials written by the slain publisher; Charles Dely, Louis Moll, John Demos and Peter Cheukalas—all Greeks.

Police declared that they had sought these men after they had been informed that "at least three Greeks were seen in the vicinity of the Mellett home shortly before the murder."

Words that will give Slater and his aides something definite to work on was anxiously awaited today from Coroner T. C. McQuate, who has gone to New Haven, Conn., with three bullets that were fired in committing the crime.

One of these was taken from Mellett's head, one was found in the driveway and the third was taken from a window sill in the Mellett home by McQuate yesterday.

Identification of the type of bullets and subsequently the type of gun or guns used, by munition experts in Connecticut was looked upon as a definite step toward a tangible clue.

## JOHN TOOMEY DIES AGED NINETY-ONE

### One of Town's Oldest Inhabitants Passes Away at Memorial Hospital.

John Toomey, one of the town's oldest residents, died early today at the Manchester Memorial hospital after an illness of four years with paralysis. He was born in Ireland, November 20, 1835, and was in his ninety first year.

Coming to this country in the late fifties, he spent a period in New York City, and came to South Manchester in 1862. He entered the employ of Chase Bros. shortly after his coming to this town, and remained in the employ of that firm until retired on a pension some years ago.

Mr. Toomey saw the town grow from a tiny village to its present proportions, and to the last retained memories of its earlier days and inhabitants, and took keen interest in its present growth. Until three weeks ago he was able to read the Herald and did so with much enjoyment and occasional comment.

When in the mood his reminiscences of old time happenings and people were most interesting.

He leaves a daughter, Mrs. Timothy Keating and a sister, Miss Margaret Toomey, both of this town; three grandchildren, Dr. Thomas Keating of Detroit, Miss Maisie Keating of New York City, and Mrs. Edgar A. Martin of Creston, W. Va.; and a nephew, James Toomey of New Britain.

The funeral will take place from his late home at 2 Elizabeth Place at 8:30 a. m., Saturday, morning, and at 9:00 a. m. Burial will be in St. Bridget's cemetery.

## TO ASK EXTRADITION FOR AUTO NOT BROKER.

Stamford, July 22.—Extradition papers are being prepared here today for the return of Henry I. Rubin, now under arrest at Mason City, Iowa, and wanted here for failure to appear in the Superior Court last March to answer several charges of forgery. Rubin jumped bail of \$3,000 and the state sued to recover the money. Rubin was arrested yesterday. He is charged with having defrauded various New York corporations by selling fraudulent notes on automobiles. The sum involved totals many thousands of dollars.

## HAIL POINCARÉ WHEN HERRIOT IS DEFEATED

### French People Hopeful as Ex-President Takes Pre- mier's Job — Plan Vir- tual Dictatorship.

Paris, July 22.—The Herriot-De Monzie government fell late yesterday, being defeated immediately after it presented its program to the Chamber of Deputies.

Today with the franc stronger, M. Poincaré already has made considerable strides towards the formation of coalition cabinet which will rule with a strong hand in the present economic crisis.

M. Briand who has battled the present situation for nearly a year, has conferred with M. Poincaré and agreed to collaborate with him if requested to do so.

#### Plans Dictatorship

M. Poincaré plans a government which is a virtual dictatorship, for it is currently reported that he intends to ask Parliament for unlimited powers to deal with the situation by decree, the decrees being submitted to a special council which will represent business and industrial interests, during the summer recess of the Parliament.

Furthermore it was reported in the Senate corridors today, M. Poincaré is going to take the course which others have lacked courage to take—immediate and heavy increases in taxation. It is reported that he is prepared to deplete the treasury by more than 2,000,000,000 francs in new taxes, considering the 3,000,000,000 francs in new taxes provided for by the plan of the financial experts no longer sufficient to meet the existing conditions.

The treasury will have to meet payments totaling more than 2,000,000,000 francs before the end of August.

#### Franc Takes Brace

The definite entrance of Poincaré into the turmoil of French politics promptly bolstered the franc. Opening at 105 francs yesterday, shot up almost at once to 127.7.

Another factor that influenced the upward tendency of the franc was the approval early today by the Chamber of Deputies and the Senate of the project to turn over the remainder of the Morgan loan to the treasury.

This act immediately increased the credit balance of the treasury with the bank of France to more than 1,500,000,000 francs, sufficient to cover all current requirements.

## RUTH FIELDS .143 IN AIRPLANE BASEBALL

### Catches One Out of Seven Balls Dropped by Flier from Away, Way Up.

Mitchell Field, N. Y., July 22.—"Babe" Ruth, Yankee outfielder, caught one of the seven regulation league baseballs tossed from an airplane 100 miles away, more than 100 miles an hour at an altitude of 250 feet and more today.

On several occasions, the momentum of the ball park was so great that Ruth fell to the ground, narrowly escaping injury.

The first ball was thrown from a plane going 100 miles an hour at a height of 1,000 feet. The ball landed a block away from the babe, who was wearing his National Guard uniform. The second, from a height of 700 feet, was no nearer the slugger. The third was dropped from a plane skimming by only 300 feet above the babe. This one he got under, but the ball hit his chest and Ruth went down.

"Whew!" he said, as he got up. "It's like trying to catch a bullet. Was a kick that one had!"

The fourth attempt resulted in Babe taking one or the shoulder for another fall. He was plainly hot and annoyed when he got up. Babe got his hands on the ball on the fifth attempt, but the sphere slipped through and cracked him on the chest. He didn't go down that time, however. The sixth went out of reach.

On the seventh and last attempt the ball was tossed while the plane was about 250 feet in the air. The ball zig-zagged downward, picking up speed all the time. The Babe looked like a Charleston dancer as he hopped around trying to keep under it. He grabbed it just as it went into a vicious twist over his head. The impact jarred him but he held on grimly while the crowd cheered.

## HEAT RECORDS SMASHED BUT END IS NEAR

### To Cool Off Tonight Is the Weather Man's Pledge; 100 Degrees in Several Places; 98 Here Today.

This is the last day of the heat wave.

Cooler weather, and probably showers, must come tonight, if all the weather authorities from here to Halifax haven't gone wrong. At any rate everything points toward a comfortable change within twelve hours.

One death indirectly caused by the heat wave is the only fatality so far reported in Manchester. Little Alex Fatcher drowned in a west side pond here where he went with his father and mother seeking relief.

The first heat prostration reported at the local hospital was at two o'clock this afternoon when James Gardner of Rockville, an employee of the Connecticut company on its track gang, was overcome while at work.

The thermometer reached 98 (official temperature) at noon today in Manchester. Thermometers on the street ranged from 100 to 114. The Hartford Weather Bureau expects the temperature to reach 100 or over by 4 o'clock. Yesterday's reading at noon by the official thermometer was 92. It jumped to 99 at 4.30 p. m.

None of the Manchester factories had closed at noon. Although the temperature was higher today there seemed to be better air than yesterday, from an active breeze, and working inside was not as fatiguing.

#### Streets Deserted.

It was so hot yesterday afternoon that the streets were deserted in the afternoon, the residents choosing to stay at home. The youngsters flocked to the swimming pools. In the mills and factories the employees got through the day somehow. Men at work for the Manchester Water Co. knocked off for the day because of the heat.

While everyone sweated, the ice men and vendors of ice cream were joyful. L. T. Wood said that his force of 40 men were working daily to deliver the 60 tons of ice needed. Ordinarily the men deliver every other day.

The local ice cream plant was so busy filling orders that they could not estimate whether the business had doubled or tripled during the past few days.

Generally Main street in the south end is deserted after 11 o'clock but last night the street was crowded long after midnight. The parks were packed all through the day.

No heat prostration had been reported by the hospital up to noon today.

#### Globe Hollow Episode.

Yesterday's heat took the largest crowd of the season to Globe Hollow in the afternoon and evening. Lifeguard McCormick was kept busy during the day.

A woman was rescued by McCormick from deep water and turned out to be a person whom the guard had brought to safety after she had persisted in going beyond her depth. She was impressively warned at that time. Yesterday she repeated the performance though she cannot swim a stroke.

More than 3,000 people swam in the pool yesterday, the major part of them in the evening. At that time about 2,000 men, women and children donned bathing suits while the banks were lined with nearly a thousand more who did not swim but came over to the pond to enjoy the cool breeze.

An extra lifeguard assisted McCormick in his duties last night. It was after 9 o'clock before the last swimmer could be persuaded to leave the pool.

#### What Washington Says.

Washington government dispatches say that the heat wave is slowly moving eastward and will probably pass out to sea tonight. Showers have occurred during the last 24 hours from Michigan southward to the Gulf and from Kansas eastward to Indiana. Cloudy weather extends as far east as western Pennsylvania. An area of high pressure centers over Nebraska is producing pleasant weather with a decided fall in temperature between the Rocky Mountains and the Mississippi river.

Conditions favor for this vicinity fair weather followed by local showers and much cooler.

New Haven, July 22.—A near record-breaking heat wave now working havoc throughout the state is largely due to western forest fires, according to Leonard M. Tarr, head of the Federal Weather Bureau office here. Air charged with smoke particles caused by the fires is "both directly and indirectly" causing high temperatures across the country, and gave New Haven the hottest night in nine years as well as the hottest day in the same length of time.

ABOUT TOWN

The Manchester Fish and Game club will have a meeting in Tinker hall this evening.

Mr. and Mrs. Christopher Glenney and son Robert of Wadsworth street are guests of Mrs. Glenney's sister, Mrs. James Johnston of East Hartford at her Grove Beach cottage.

The regular meeting of Gibbons Assembly, Catholic Ladies of Columbus, which was to have been held tomorrow evening, has been postponed until the last Friday of the month.

The Manchester Construction Company employees will enjoy an outing tomorrow at the Knofla cottage at Crystal Lake. Chief Osano will serve a chicken dinner.

James McKay, Jr., an employee of the Manchester Trust Company is at Camp Woodstock for two weeks.

STREET FAKER AND HECKLER IN ARGUMENT

A faker who took up his stand at the Main street entrance to Keeney Court last night would have had one of his hearers arrested if, he said, a policeman were around.

The faker told the other man what he thought of him and his forebears. The other man didn't like this and invited the faker to come down the alley.

The faker told the other man what he thought of him and his forebears. The other man didn't like this and invited the faker to come down the alley.

Rich Man's Odd Formula For Making Big Fortune

BY ROY J. GIBBONS

Chicago—Success—that volatile, fleeting thing before whose altar all men worship—comes easiest to the man of God whose thoughts are stirred by the higher impulses of humanity and touched by the newer generosity which has entered the heart of really big business.

This statement comes not from any theologian or abstract theorist of utopian day dreams, but from one of industry's veriest giants—W. Straus, builder of cities, master of millions and nationally famous financier heading the great investment banking house which bears his name.

Beginning life some 60 years ago as a typical Hoosier lad in the small town of Ligonier, Ind., Straus was the son of the village banker and general store keeper. He was nurtured early in the philosophies of thrift and kindness, neither of which he ever forgot.

Doing Good for Others Today these qualities are the mainstays of his life, and they have, in fact, the real purpose of existence, which he says, is simply to do good for others.

Genial, and with a flair for the humorous side of things, Straus seldom lends himself to interviews. His hobby is thrift and his passion a humanitarianism which does its work away from the limelight.

"Success," he says, "is a purely relative thing. And as such it is possible for all men to be successful. But monumental success of the kind which amasses millions and leaves behind a record of progress for humanity is possible only to about five men out of 6000."

"The mother with her baby is tremendously successful and the good citizen going daily about his humdrum task, striving and trying, can be of as much importance in his own sphere as the greatest hero if he really tries to help his fellow."

"Gross materialists, whose only thought is for self and whose ambitions center upon getting as much for as little as possible, rarely achieve worthwhile attainment and if they seem to progress, it is only that they seem to do so."

"The world is advancing every day. It is becoming more beautiful and better to live in, because men are beginning to care for one another. They are beginning to understand and are learning to do good."

"There will not, there cannot be a retrogression. We cannot fall back. We are going on."

"High wages are here to stay and the doubts that look high to us will no longer look small to our children yet unborn or to our children when they grow up."

"This new generosity is manifested in big business in many ways. Employers are making efforts to understand the problem of their workers. They are opening the gates through many agencies of help heretofore never dreamed of, which eventually will bring about a perfect understanding."

"Here in America we have everything to be thankful for."

"Comparatively few worship false gods. We are a solid people with our feet firmly planted in the earth and our heads lifted high."

"Fortunes are being made and millions being invested. The right of function of all this money is for no other purpose than doing good—helping others."

"Unless a man learns early that only for such uses is money intended and unless his conduct is guided by a higher code, he cannot succeed in the real meaning of the word."

"The man of God and the man of good are synonymous. It makes but little difference whether a person's conduct is guided by the religion of the Bible or the religion of helpfulness, so long as he practices it, and remembers that to succeed he must give every man a chance to succeed also."

"For Quicker Progress "Bringing such spirit with him into the world of business, the man of judgment, courage and vision will progress infinitely faster than gross materialists and has not the human spark of kindness."

"Success after all is merely the rendering of a real service. It is not what you can get but what you can give. That is the new code."

"Success does not mean money. And money absolutely is not essential to happiness."

"Money's sole function is to do good. If it does not do good it is wasted because it cannot be carried beyond the grave."

HEAT RECORDS SMASH BUT END IS NEAR

(Continued from page 1)

The official thermometer here rose to 99 degrees yesterday afternoon and dropped to 78 degrees at 5 a. m., today. Turning immediately, the mercury began to rise and at nine o'clock today was 83.3 degrees as compared with 74 at the same hour yesterday morning.

The hottest July day recorded here previously occurred on the 31st, in 1917, when the temperature reached 99 degrees. The minimum temperature on that day was 78 degrees. Hourly temperatures then compared with those of yesterday and the hot wave continued for four days.

New Haven's hottest day came on September 7, 1881, when the mercury went to 100 degrees but the minimum temperature that day was 72 degrees.

New Haven has been surrounded with a haze since Saturday at noon but the reason was unexplained until today when Mr. Tarr declared it due to the western forest fires and connected the fires and the heat wave.

Along the Shore. With the thermometers soaring above the 100 degree mark on streets here at noon today, business generally was being suspended shoreward for relief. Large factories whose employees run into the thousands closed their doors at noon, and the department stores and some of the smaller business places shut up at one o'clock.

Shore roads were congested all night long with machines whose occupants sought relief only in the shade of trees. The shore resorts were jammed in a way that old-timers never recalled having seen. Every available parking place was occupied.

Beaches to the east of New Haven were also crowded, but not to the extent of those to the west.

While fire engine houses in congested districts rigged up shower baths for children, the green places, including the big Central Green, were occupied that night long by family groups that came equipped as if to stay indefinitely.

New York Quits At Noon. New York, July 22.—Relief from the heat wave which resulted yesterday in the death of six and the prostration of at least twenty can be expected tonight, the forecast was announced today.

There will be cooler weather on Friday, the announcement said. Yesterday's temperature of 96 degrees at 4:30 p. m., the hottest July 21 in 41 years, probably would be duplicated today, officials at the bureau predicted, but there was some hope of temporary relief through thundershowers, they said.

Another record-breaking day was on at the beaches today. Thousands spent the night sleeping on the sand at Coney island and other nearby resorts and a score of persons dismissed their employees at the noon hour.

Chicago Gets Relief. Chicago, July 22.—Chicago's record heat wave had moved eastward today, leaving in its wake more than a dozen cities and hundreds of cases of prostration.

The heavy blanket of heat, the most severe to envelop the middle west in a quarter of a century, was routed by cooling showers that fell during the night. With the mercury hovering about 90, rain fell at 10 o'clock and with a fall to 15 degrees. A mean temperature of 70 was predicted for today.

The torrid wave reached its peak here yesterday afternoon when the official reading registered 96 degrees.

100 Boston's Mark. Boston, July 22.—The torrid wave continues to hold Boston and New England in a vise-like grip, with four new deaths and a score of prostrations reported in the wake of yesterday's record temperature of 98.

The sweltering populace was made more uncomfortable by the pessimistic forecast of the Weather Bureau that the mercury probably would climb to still higher temperatures today, hitting the 100 mark, before the advent of cooling thundershowers.

Gov. Fuller ordered the state house here closed today to permit the employees to join the hugh throngs at the beaches and parks. Police ambulances were kept on the go here today and hospitals all day long were receiving heat prostration cases.

At 1:15 o'clock this afternoon the official thermometer in the government weather bureau here registered 100 1-2.

104 at Washington.

Washington, July 22.—Another scorching day settled down on the national capital today to match the record-breaker yesterday when the thermometer mounted to 104, causing two deaths, dozens of prostrations and the early closing of government departments. It was the hottest July day in the capital's history, and the second hottest of all time.

Save for the desert district of Arizona, Washington was the hottest place in the country yesterday, and started out today to retain the distinction.

Breeze Helps Hartford. Hartford, July 22.—Some slight relief from the heat wave was felt here during the morning, though temperatures were running about eight degrees above yesterday at the same hour. The government Weather Bureau station here reported 94 degrees at 11 a. m., as compared with 86 at the same time yesterday, but a breeze was blowing at twelve miles an hour today where yesterday it barely reached eight miles. No heat prostrations were reported during the morning.

The official thermometer at one o'clock this afternoon stood at 98 as compared with 92 yesterday at the same hour. Two manufacturing plants and offices closed at noon because of the heat and women employees generally were permitted to take the afternoon off if they desired.

New Britain Carriers QUIT. New Britain, July 22.—All industrial plants here closed at noon today because of the extreme heat. The closing order was issued in such large plants as the Stanley Works and Russell & Erwin, as well as in the small factories. A precedent was established when Postmaster H. E. Erwin ordered all mail deliveries cut out for this afternoon, holding that weather conditions created an emergency.

The thermometer at noon registered 96 degrees, climbing 20 degrees since 8 a. m. No heat prostrations were reported during the morning.

Washington Forecast. Washington, July 22.—The weather bureau today promised relief tonight and tomorrow from the terrific heat wave that has gripped the eastern half of the country. Cooling thundershowers tonight and tomorrow were forecast.

"The heat wave will be broken in the lower Lake region and the Ohio valley this afternoon or tonight," said the bureau, "and in Tennessee, the middle and north Atlantic states late tonight or Friday."

Fair weather, however, was forecast for Friday from northern New England to Kentucky and Tennessee.

Eastern Conn. Record. Oneco, Conn., July 22.—With thermometers here reaching 100 degrees at 11 a. m. today, the temperature was the highest known in Eastern Connecticut. Several large mills in neighboring towns were closed at ten to permit employees to seek relief from the hot weather.

QUIT COLD IN HEAT. Waterbury, July 22.—Temperatures ranging from 110 to 115 were reported at central Waterbury today as the heat wave continued unabated. Many large manufacturing plants shut down in mid-morning. Every employee of the city street department quit work and went home before noon without waiting for orders. No prostrations were reported.

FRIENDS OF GEN. WOOD FEAR HIS REMOVAL. Washington, July 22.—Friends of Gen. Leonard Wood in the capital are displaying a somewhat apprehensive interest in the effect on his future of the visit of Col. Carmel Thompson to the Philippines as the President's personal representative.

They fear that the official head of General Wood may become the price of Philippine politicians for American trade advantages, once the native politicians are convinced there is no hope for independence soon.

AFTER DINNER SWIM FATAL. Stamford, July 22.—Gabriel Obuschowski, 36, died on his way to Stamford hospital during the night from the effects of heat and a hearty meal, according to a report filed by the medical examiner here today.

HILLSIDE INN. On Bolton State Road. A ways a delightful eating place. Regular Dinners and a la carte service. Phone 891-12. W. Gesecke.

Did Thaw Propose?

Miss Forrest Walsh, 19, of Los Angeles—according to reports from Winchester, Va.—travelled 3000 miles with her mother and brother to marry Harry K. Thaw, eccentric millionaire, in answer to what she says was a proposal by mail. When she reached his home, she says, servant told her he was out of the country.

HAIL POINCARÉ WHEN HERRIOT IS DEFEATED

(Continued from page 1.)

ments. Yesterday the balance was barely 60,000,000 francs.

Change Pleases People. M. Poincaré, it is reported, plans to start his campaign of government economy by limiting the size of the cabinet.

The ministries of war, marine and aeronautics will all be incorporated in a ministry of national defense. The ministries of commerce, agriculture, public works and labor will all be incorporated in the ministry of national economy.

M. Poincaré, it is stated, intends to also immediately reduce the number of government employees to the pre-war basis.

President Doumergue invited Poincaré to take up the burden shortly after the short-lived Herriot government expired.

Poincaré's advent was hailed with great enthusiasm throughout France.

Less Baiting of Americans. Defeat of the Herriot government and recovery of the franc have brought some degree of calm. Anti-American incidents were less frequent. The police during the early hours of the morning rounded up a number of hoodlums who were parading the boulevards and evidently looking for Americans to give them argument.

Being too good a sport is being a bum sport by yourself.

3 PROBE TRUCK TROUBLE WITH LANTERN; BURNED

Bridgewater, July 22.—Using a lantern to discover why their truck did not function, three employees of Round Hill Dairy were so badly burned today that they are in hospital. They are Joseph Pizzo, John Burvin and John Gasse. Firemen saved the truck from destruction.

TOPPING LEADER IN GREENWICH GOLF TEST

Greenwich, July 22.—H. J. Topping of Greenwich turned in the low score this afternoon for the first round of the three-day annual invitation golf tournament of the Greenwich Country club here. His score was 74. Loren Upson, University of California star, was second with 77. The tournament opened with 159 players in action.

CANADIAN FORESTRY PLANE FALLS; 8 HURT

Sudbury, Ont., July 22.—With five persons aboard, an Ontario government forestry plane fell into Lake Ramsay near the Sudbury air base, severely injuring a Mrs. Clements, a summer visitor from Chicago, and Alexander McLeod and his daughter, Myrtle, of this city, the two aviators escaping unhurt.

DENIES NAMING "RED" GRANGE CORRESPONDENT

Los Angeles, Cal., July 22.—Charles A. Taylor, wealthy oil supply man of Beverly Hills, denied today that he had named "Red" Grange in a cross-complaint for divorce in answer to his wife's suit filed recently.

# Dodging Tank Town Tomatoes Trained Marxes For Broadway

Meet the Marx Brothers—reading from left to right are "Chico," "Zeppo," "Groucho," and the auburn-haired "Harpo."

BY HORTENSE SAUNDERS  
New York, July 22.—Add to your list of native New Yorkers the Four Marx Brothers—who are claimed by all the rest of the country.

These comedians were born just a few subway stops from Broadway, with its many theatres and its droves who must be entertained. But they had the good sense to remove themselves some 22 hours away by the Twentieth Century Limited from the theatrical capital.

"And so they learned to act," volunteers their mother.

To their years in the "styx" they attribute their present success. For they began at the very bottom, playing in tank towns in 10-20-30 houses, and finally came to the west and middle west before New York ever paid any attention. In the small houses the hook, the cabbage and the ripe egg were not unknown tributes to the popular performer.

In these lean days the Marxes never were left off anything.

But when they did arrive in a legitimate Broadway show, three years ago, they arrived with a bang. Twenty years of trouping had not been in vain. They are even a greater rage this year in "The Cocoanuts."

"They know their stuff," Mrs. Marx explains. "It is only by this hard work process that you develop a comedian. And the place to get your schooling, develop your individuality and your style, is in the provinces."

"There you don't get by on a lavish production, reputation, or any of the devices that are sometimes substituted for merit," Mrs. Marx has traveled all over

the country with her sons, and in Chicago she achieved success as a vaudeville producer.

There are really five Marx brothers, but Gummo, the senior member, went into business. Zeppo, the youngest, was there ready to take his place.

"But we carry Gummo along as a spare," volunteered Harpo. "That always gives us four out of five and makes our average as good as that of our best advertised case."

"We started out as singers," put in Groucho of the beetling brows. "But our voices got so funny we had to be comedians."

Harpo developed his dumb role as a defense. Several years ago Al Shean, of the Mr. Gallagher and Mr. Shean team, who happens to be a brother of Mrs. Marx, wrote a sketch for his nephews. Unfortunately, there was no part for Harpo. Having no lines, and being bound to appear, he had to find some way to justify his appearance. So he developed a pantomime act.

It was such a success that no one ever thought of asking him to do a speaking part after that.

Though he is not given to conversation on the stage, he keeps up a running fire when off, and is the most loquacious of the loquacious group. Constantly they play jokes on each other. They refuse to be serious about anything and feel an obligation to their public to be "nuts."

And yet the intelligentsia of New York, having discovered the Marx brothers is as strong for them as for Charlie Chaplin—discovering them as they did Chaplin after they had been known and acclaimed for years by the "tyrants."

Serious thinkers explain in an involved way the subtlety of their

humor. One doctor prescribes them as a remedy for overworked nerves. Definitely the Marx brothers came back home with the bacon.

And though their native city was last to recognize the attainments of her sons, once convinced, she is giving them the keys. It is probably a good thing for the rest of the country that it knew them then, for they seem to be on Broadway for an indefinite stay.

The Week on Broadway  
The silly season is upon us. "Honest Liars," a farce by Robert Weenolsen and Sherill Webb, that opened at the Sam H. Harris, with Robert Woolsey as chief farceur, never hesitates to detour for gags—quite like a musical comedy. It rings all the changes possible on two pretty girls, a hospital bedroom, a detective and a laughing gas machine. Moreover, it kept the audience laughing all during the second act—and the gas was only administered to the actors.

"Pyramids," at the George M. Cohan theatre has the misfortune to open in the theatrical dog days. Many a drama, which might scrape by in moderate weather, is shriveled up by nights that are "too hot for any use." This isn't a prophecy, but it points a moral. It is doubtful if "Pyramids" has the vitality to survive. It is a play of finance and sex, with the women yielding to the will of the man for her husband. Carroll McCormack does her best to keep it from expiring.

"The Blonde Sinner" at the Cort is a mixture of musical comedy, farce, burlesque, mystery and what have you. The principal reason for preferring this blonde appears to be the presence of Marjorie Gatenon and the song "Lips."

Montaville Flowers

He is an American in every faculty and fibre, both by heritage and profound conviction. His patriotism is a burning passion. He enjoys the platform and political forum his pamphlets and books have made for him a permanent place in the regard of the American people. He is a trustworthy leader of thought in matters of national welfare and international interest. He enjoys the personal acquaintance of many of America's leading men and women in varied fields of endeavor.

Montaville Flowers is a striking type of the constructive mind. He personifies action. He seeks results; his lecture is not an end in itself, but a burning passion for national aim, and stimulates united purpose to attain it. His subjects are of universal and popular interest.

During the War he organized and conducted at Washington, in relation to the Committee on Public Information, "The American Campaign of American Lecturers," which received the highest praise of the American press. He edited "What—Every American Should Know About the War," a book which has been bought by colleges and libraries in many countries and has brought him fine letters from European statesmen and governments.

Likewise his book, "The Japanese Conquest of American Opinion," is a highly constructive work, pronounced by the Philadelphia Ledger, "The most complete and calmly reasoned out statement which the Asiatic problem has yet received." Here Mr. Flowers was a pioneer both in his writing and addresses; the facts, arguments and solution of the problem which he presented in 1913 are now recognized as the only safe basis of American policy. He is a true statesman.

Montaville Flowers' addresses are like cathedrals—they have great plan, impressive structure, perfection of detail, intrinsic value and noble purpose. It has been said that they are not lectures but "institutions." They have style, unity, grasp and completeness. Their effect remains in the soul of the hearer long after both speaker and speech have become dim in the memory.

Specialists are common; many men can write well; a few can speak well; Mr. Flowers is pre-eminent because he combines in extraordinary degree all of these qualities; he is a specialist in knowledge of rare value to all; his expression is full, clear and compelling and, as a speaker, he stands in the forefront of American orators.

Mr. Flowers will give his lecture "Of One Mind" Friday, July 30, at Chautauqua.

## MANCHESTER MEN HONORED AT CAMP

(Continued from page 1)

late for publication in The Herald yesterday, was nothing short of marvelous. It was so successful it brought many words of praise from Governor John H. Trumbull and his staff, past which the regiment passed in official review.

Weather unusually hot.

The only hitch in the matters was the unusually hot weather and the early morning fog which preceded it. The latter caused the governor to arrive late and thus forced a few "short cuts" in the program in effort to get back on schedule. The afternoon sun beat down intensely. It was so strong that practically all of the male spectators were in shirt sleeves while the women, lightly dressed, sat under umbrellas with fans.

During the regimental review, one man fainted and had to be treated. He revived soon.

The Sham Battle.

The sham battle was main part of the program from a spectacular standpoint. It thrilled the huge gathering. The first the visitors saw was the dim outlines of scouts approaching from the east side of the field. Then they soon saw the forms of many soldiers advancing behind them. Suddenly a rifle shot split the air and the advancing army had been discovered by an army on the other side of the field and fired upon. Then came the slow but cautious advance of the army from the east. This was the Second Battalion which includes Company G, under Captain Herbert H. Bissell. The Manchester unit was in the main line of advance and on the right wing of the advancing army. Manchester visitors could plainly recognize the features of many of the Silk City soldiers.

Smoke Covers Field.

On came the advance. On the other side the roar of the Howitzer's one-pounders and the artillery fire added to the deafening noise. Then a smoke screen enveloped everything for a few moments. When it lifted, the attacking forces had gained considerable ground. Men lay wounded and dead in the rear as the first aid men rushed forward to care for them. Then came the final charge and the battle was over.

The next thing on the program was formal guard mount by Company E, of Hartford. This was also thrilling.

In the Regimental Review before the Governor a few minutes later, the two Manchester units received plenty of applause as they passed by the spectators.

Among the important military and civil life men here not mentioned in yesterday's Herald were Lieutenant Commander F. E. Bollman and Lieutenant A. E. Alexander of the U. S. S. Camden, the submarine tender, Colonel Harry B. Bissell,

## MANCHESTER MEN HONORED AT CAMP

Major Welch of the Cavalry, Colonel Ellery A. Allen, Major Edwin H. Judge of the Governor's Foot Guard, Lieutenant Governor Edwin J. Brainard, ex-Lieutenant Aubrey L. Maddock, Colonel John B. Lynch, finance officer of the 43rd Division, Major Bryden, Field Artillery, Fort Leavenworth. Mayor Norman C. Stevens of Hartford, Colonel Robert O. Eaton, collector of Internal Revenue, Mayor H. Wales De Bussy, of Meriden, Town Treasurer George H. Waddell, of South Manchester, Attorney John S. Hyde of South Manchester, Col. Henry S. Dorsey of New London, Lieutenant Colonel Percy H. Morgan of Mystic, Major L. B. Comstock of East Hartford, and several Grand Army veterans.

Among those here from Manchester yesterday were: Mr. and Mrs. Paul Hagedorn, Paul Hagedorn, Miss Gertrude Angell, Mrs. Carl Priess and daughter, Mrs. Louis Hennepin and daughter, Miss Elsie Hauschild, Mr. and Mrs. Jobert and son Corporal Jobert who left the Manchester Memorial hospital for the day to see the program here. Miss Ruth Hynes, daughter of First Sergeant James Hynes, Mr. and Mrs. Anthony Tournard, Mrs. Frank Valuzzi and Mrs. Catherine Benevento.

Brief Camp Notes.

In the Second Battalion bivouac at Pleasure Beach Tuesday night, Company G was unit which was the quickest in breaking camp at the sound of reveille in the morning. The battalion broke camp in twenty minutes. This included packing the ground thoroughly in addition to eating breakfast.

Captain McDonald, U. S. A. officer from Natic, Mass., was a visitor in camp yesterday to see Lieutenant Quish. Both are Fort Benning graduates.

Top Sergeant Jim Hynes always takes a cold shower before he goes to bed at night. Last night the water in the bath house was turned off so Sergeant Hynes conceived another idea. He had Sergeant Duke throw a couple of pails of water on him. But before this was done Hynes and Duke arranged for a little amusement. The word was spread about company G street that Sergeant Hynes was going to be initiated. The rookies stared at one another in amazement. They could not believe such a thing possible. However, they all lined up outside Sergeant Hynes' tent to see what happened. Sergeant Duke got two pails of water, and put them outside the tent and then went into the tent and demanded in a harsh voice to Hynes, "come on out here and take your medicine like the rest." Apparently struggling with all his strength to resist being taken from the tent, Hynes was finally pulled out into the company street. Of course he was rather lightly dressed and in an instant the two pails of water had been heaved on him. Hynes then dashed back into his tent, contented, and went to bed. Meanwhile, the rookies wandered back

## MANCHESTER MEN HONORED AT CAMP

into their tents bewildered as to how little Sergeant Duke could get away with a trick like that on big Sergeant Hynes.

Soldiers Tale Told.

First Sergeant Jim Hynes, of Company G, was the center of interest last evening in his tent when he told a group of eager listeners the pathetic story of how a whole regimental band and its guards were slaughtered in the Philippine insurrections, on Memorial Day, 1899, with the loss of about fifty lives.

The musicians met their death like real men, Sergeant Hynes said. They fought to the last. But the insurgents, outnumbered them at least 3 to 1, killed the entire little band.

This all happened between Iloilo and Selang in the Philippine islands. The band was the 46th Regimental Band under Leader Lundergan, of Boston. There were three battalions in the regiment and each was stationed several miles from the other. It had been the custom of the band to stay with one battalion a month and then go to the next, and so on.

Sergeant Hynes was then in the Second Battalion, and in May 30, 1899, the regimental band concluded its stay with this unit and left bright and early on its march to the next battalion. A guard detail of about 20 men under Sergeant Leonard, of Boston, accompanied it. At a midway point on the route, the little group was suddenly fired upon.

The guards returned the fire but it was soon conceived that the attacking forces greatly outnumbered the band and its guards. The insurgents kept up a rapid rifle fire until they had killed all but one man in the party and even the mules which drew the wagons. Then, after death had settled over the scene, the insurgents robbed the dead men of all valuables not to mention several parts of their uniform.

The lone man to escape succeeded in bringing the news back to the Second Battalion and instantly the major of that unit ordered the battalion to rush to the scene.

It was too late, however. The insurgents had made good their escape in the wooded hills. Several months later, however, a few of the Philippines were captured, identified by some of the stolen clothing they wore, tried, convicted and executed.

## MANCHESTER MEN HONORED AT CAMP

FATHER OF SEVEN  
DROWNS AT COS COB

Greenwich, July 22.—Long Island Sound added another victim to its already long list of summer drownings for the season when it claimed Genario Servidio, 36, of Riverside, last night. Servidio was seized with cramps while bathing near the Cos Cob drawbridge. He leaves a widow and seven children.

## MANCHESTER MEN HONORED AT CAMP

WALKING BAKER.

New York.—A woman recently wore a pedometer and discovered that while making a lemon pie she walked a quarter of a mile.

**Diamond Isputed**  
Decided

Seeing he will be unable to catch thrown ball, first baseman huris glove at it, deflecting it into right field. Batsman who hit ball reaches third base. What is proper ruling?

Until this year, contact of thrown glove at thrown ball entitled all runners to two bases. The ball becomes dead. The change in the rule makes it possible for the runner to advance more than two bases. While still entitled to two bases, if he chooses he can try to advance farther at his peril, the ball now being considered in play, not dead. The batsman in this case was entitled to third.

## CONCERT TONIGHT TO AID KIDDIES

### Baseball Game and Horse-shoe Pitching Contests Also on West Side.

The Salvation Army band will help to swell the Kiwanis camp fund with a band concert at the West Side tonight. A long program has been prepared by Bandmaster David Addy and the first number will be given at 8 o'clock. It is expected that a large crowd will attend.

The concert will follow a baseball game between the Saints and Cheney Brothers and a horsehoe pitching contest between employees of Cheney and the Rogers paper mill. The canteen will be open for the sale of refreshments and will be in charge of Kiwanians during the evening.

An unusually long concert will be given by the band. It will include instrumental numbers, solos, and choruses by the members of the band. The instrumental selections will be under the direction of Bandmaster Addy and Fred Clough will lead the singing of the band.

The Kiwanians expect to realize a considerable sum to help along the camp for poor children which they are conducting at Hebron.

Following is the program:

March—  
Across the Sea ..... Dockerill  
Overture—  
A Soul's Awakening ..... Ball  
Male Chorus—  
Carry Me Back ..... Lyons  
Trumpet Solo—  
I Love Him Better ..... Stevenson  
William Hall  
March—  
Kelshley Citadel ..... Jakway

## PLAYGROUND NOTES.

The north end playground will be the scene of an interesting incident tomorrow afternoon when the kiddies put on their Pet Show. Many proud contestants will exhibit their pets for prizes. Cats, dogs, rabbits, chickens, mice, turtles, birds and many other entries mark the interesting display to date. The rules committee have asked that each contestant wear the red tag which is the official entry badge and is procurable from either Mr. Washburn or Mrs. Cumins. The entry fee is one cent and will be used either for prizes or the playground picnic later in the season. In the case of those having dogs the committee has asked that they be held on a leash, chickens be either in a suitable cage or tethered by the leg. Cats will be covered by the same ruling. All contestants are asked to be on the playgrounds at 2 p. m. to be assigned to their proper places. There is yet time for children wishing to bring their pets. Entries close at 8 p. m. tonight. Parents and the public are cordially

- Male Chorus—

Star Spangled Banner.

**HOW TO BE COMFORTABLE  
DURING THE HOT SPELL**

A local physician was asked this morning to give some advice as to how to feel more comfortable during the hot spell.

"Use common sense. Don't wear tight collars. Wear as few clothes as possible. Keep in the shade as much as possible. Go to bed late and get up early. Keep off the meat as much as possible. Iced drinks will make you perspire the more. Bathe often. Don't worry. Greens and fruit should make up the principal meal."

invited to attend. The doll parade attendance of parents was very gratifying to the children and did much to create further co-operation.

**HARK! THE BROTHERS!**  
Washington, Mo.—New York will ring with the twang of the zither this fall, when the United Zither Players of America hold their tuncful convale. Washington is the home of one of the few zither factories in America. It was established 35 years ago by Franz Schwarzer, a native of Austria.

**SCOTS WILLING.**  
Glasgow.—The people from Scotland are so anxious to come to America because of the high wages that there is a waiting list of 22,000 which will take some two years to exhaust under the quota law.

An American woman taught 83 Canadian men how to fly during the war.

#### "OLD MAN'S DRUNK AGAIN."

For a long time scientists have been talking about "sunspots" being the cause of the series of weather freaks, earthquakes, floods and so forth which have been pestering mankind for the last two or three years. But they talk in a lingo of their own, most of the time, and the average individual can't guess what it is all about.

It has remained for an Argentinian savant to put the situation in a few brief words which, if they don't convey very much exact knowledge to the man in the street, at least give him an inkling as to what the other fellows are discussing on. This man says that the sun is undergoing a particularly violent spell of "irruptive fever."

"The sun is always feverish," he says, "but now is in the throes of a very severe attack. The sunspots show that a most titanic solar agitation is taking place. Scientists agree that these disturbances recur about every 250 years." The Argentinian calculates that the present disturbance will last until 1928.

In other words, there isn't so much to worry about. Old Sol is on a periodical, that's all. There is no more use trying to stop him from having his jamboree than there is in trying to stop any other old runder when the periodic date comes around. He must have his toot. Of course it disturbs the family, and there is a good deal of throwing about of furniture in the form of earthquakes and letting the bathtub run over, in the form of floods, and building of unnecessary fires in the summer time.

#### WET AGENTS.

Eighteen thousand persons have been forcibly bathed in Mexico during the last month, health department officials of that country frankly announce, and many of them protested wildly that bathing was something they had never done and that they knew perfectly well it would make them sick. Perhaps their fears were not altogether without justification, for a few months ago, when enforced bathing was first staged in the neighborly republic, one old beggar was given the first bath of his long and dusty existence and he died as promptly as though they had shot him instead of cleaning him.

Department agents have the power, under new Mexican law, to arrest any person obviously dirty and rush him off to the nearest public bath.

How much bootlegging of dirtiness there may be, beyond the Rio Grande; how many of these wet agents, like our dry agents, can be induced to wink at accumulated grime for a consideration, and whether the cleanliness regulation applies to all classes alike or only to the poor, like Volsteadism, we regret being able to state with any authority.

But we admire the courage and outspokenness of the Mexican officials who do not seek to disguise the facts of shameful dryness as some of ours do with relation to shameful wetness.

We will bet a cookie—an ice-cream cookie of the home-made sort at that—that if America had a bath law like Mexico's there would be plenty of subjects for its righteous operation; and that you couldn't get an American of any kind to admit for an instant that there is the slightest need of it.

Yet we suspect that infinitely more good could be accomplished by setting a swarm of salaried persons to wetting down the outsiders of citizens of this first class and superior nation than by employing them to dry up the insiders.

**"BUM" ROGERS.**  
 Elsewhere in this issue will be found a picture of a personage of increasing fame. With Gerald Chapman gone the just route, with Richard Reese Whittemore apparently as good as done for, the large and widely distributed Order of Criminal Worshippers is compelled to cast about for another romantic "master mind" crook at whose bloodstained feet to do its devotions. "Bum" Rogers is being widely touted for the distinguished honor, to which some thousands of semi-idiotic youths in this eastern country aspire.

"Bum" Rogers was a very ordinary New York Turk thief until about a year ago when he blew to celebrity through an escape while on his way to Sing Sing. A well intentioned but fat headed official, with Rogers in tow, boarded a train at the Grand Central station and permitted himself to be outgeneraled by two of "Bum's" own crowd, who took seats directly behind him. Before the train stopped at 125th street "Bum's" pals, of course, thumped the flatfe over the head with blackjacks and they and Sir Rogers walked off the train and away.

This being acclaimed as an extraordinarily clever and daring affair, "Bum" has been a hero among the nitwits and underworld ever since. Also he apparently attracted the attention of some first-class thievery contractor and has been given several good jobs to do. One of them was to take away \$100,000 in jewels from one of the several hundred places in New York which are always steadily on the job of waiting to be looted.

The reason we are printing "Bum's" picture is to give our readers a chance to see what a criminal "master mind" really looks like. You can tell at a glance that "Bum" is an intellectual. He has at least twice the intelligence of a wood-louse—and it shows in his countenance.

The muddly intelligence, the only partly human qualities of this wretched product of the slums, the cheap low cunning, the animal-like cruelty, the sly furtiveness, the appalling weakness of the creature, are as plainly stamped on that face as the trade mark on a box of matches.

The only "master minds" in Crookdom are those masters of the criminal law who take advantage of the astounding folly of our court procedure to keep their stupid clients out of prison and off the gallows.

#### SPORT!

What matters it now whether President Coolidge drowns in Osgood Lake, hauled overboard by a pike? What matters it if France blows up so high that the splinters land in Manchester? What matters it if silk suddenly goes completely out of style and is supplanted by hoola kilts? What matters it whether we get a post office or whether flivvers sell for one berry or a thousand, or who struck Billy Patterson? Nothing on earth is of any consequence any more—for Dempsey and Tunney are to fight at Chicago on September 11. So Richard says.

Sincerely it is to be hoped that these stern gladiators will sign as per Tex's promise. Sincerely it is to be hoped that no straw will stand in the way of the combat—that the Illinois Boxing Commission will approve, that all the needed money, will be forthcoming and that the health of both gallant knights of the squared circle will be preserved.

And sincerely it is to be hoped—though without much chance of realization, it must be admitted—that Jack and Gene and Tex and the seconds and bottle holders and referee will all be there when the fight begins—and not another human being but the cops.

If there ever in all this world was a so-called sporting event that calls for complete, absolute boycott it is this one.

#### OUT OF PLACE.

What are representatives of the United Mine Workers of America doing in London, working in connection with international unionists to bring about, if possible, cessation of shipment of coal into Britain from other countries? What kind of a figure are these American laborites cutting, plotting and in hand with the Third International and the Russian Soviet Union for the precipitation of industrial chaos in a country friendly to the United States?

The United Mine Workers of America have, in their national conventions in this country, repeatedly refused to submit to the domination of the red wing of their body and have employed strenuous methods to suppress any leanings toward communism. Yet here are the organization's delegates committing themselves to partnership with that enormously injurious influence, the Soviet government, in the deliberate undermining of British civilization. Surely the United

### Stewart's WASHINGTON LETTERS

By CHARLES F. STEWART.

Washington, July 22.—"Too much ammunition in too small a spot on the map," is, in general, the verdict of army men on the recent explosions which wrecked the navy's Lake Denmark (N. J.) munitions depot and threatened the army's neighboring Picatinny arsenal.

Naval officers, since it was their department's disaster, are not so ready to concede this, but unquestionably it is the consensus of opinion at the War Department.

All the precautions in the world, army experts assert, don't guarantee absolutely against an explosion where TNT, high power shells and ash cans are stored, but its proportions can be limited by limiting the amount of the explosives.

Enough of them to endanger a whole countryside, these authorities add, shouldn't be concentrated on a comparatively small reservation—at any rate, in peace time. The magazines should be widely scattered.

Structurally, the Lake Denmark magazines are described by military men who have seen them as having been the last word in design, for their purpose.

The walls were tremendously thick and strong and the roof was simply laid on, not fastened.

The theory was that an explosion, should one occur, would not exert its force laterally but in the direction of least resistance, upward, hurling the unattached roof high in air and shooting straight up after it, as a charge of shot is fired from a gun-barrel, the debris raining back upon the spot it started from.

This theory works out pretty well in practice when a single magazine blows up, the army experts say, and the Lake Denmark method of construction may have tended to minimize the extent of the damage even there, but the shattering effect of a prolonged series of such explosions, it's pointed out, is enough to upset almost any theory.

In support of their argument, army officers cite the fact that the estimated \$5,000,000 damage on the War Department's Picatinny reservation was due to no explosion there but to the collapse of the army's very substantial buildings from the force of succeeding concussions.

### A THOUGHT

Train up a child in the way he should go, and when he is old he will not depart from it.—Prov. 22:6.

If a boy is not trained to endure and bear trouble, he will grow up a girl; and a boy that is a girl has all a girl's weakness without any of her regal qualities. A woman made out of a woman is God's noblest work; a woman made out of a man is His meanest.—Beecher.

Until 1856, when Perkin discovered how to procure beautiful fast dyes from coal-tar products, all dyes were made from vegetable substance.

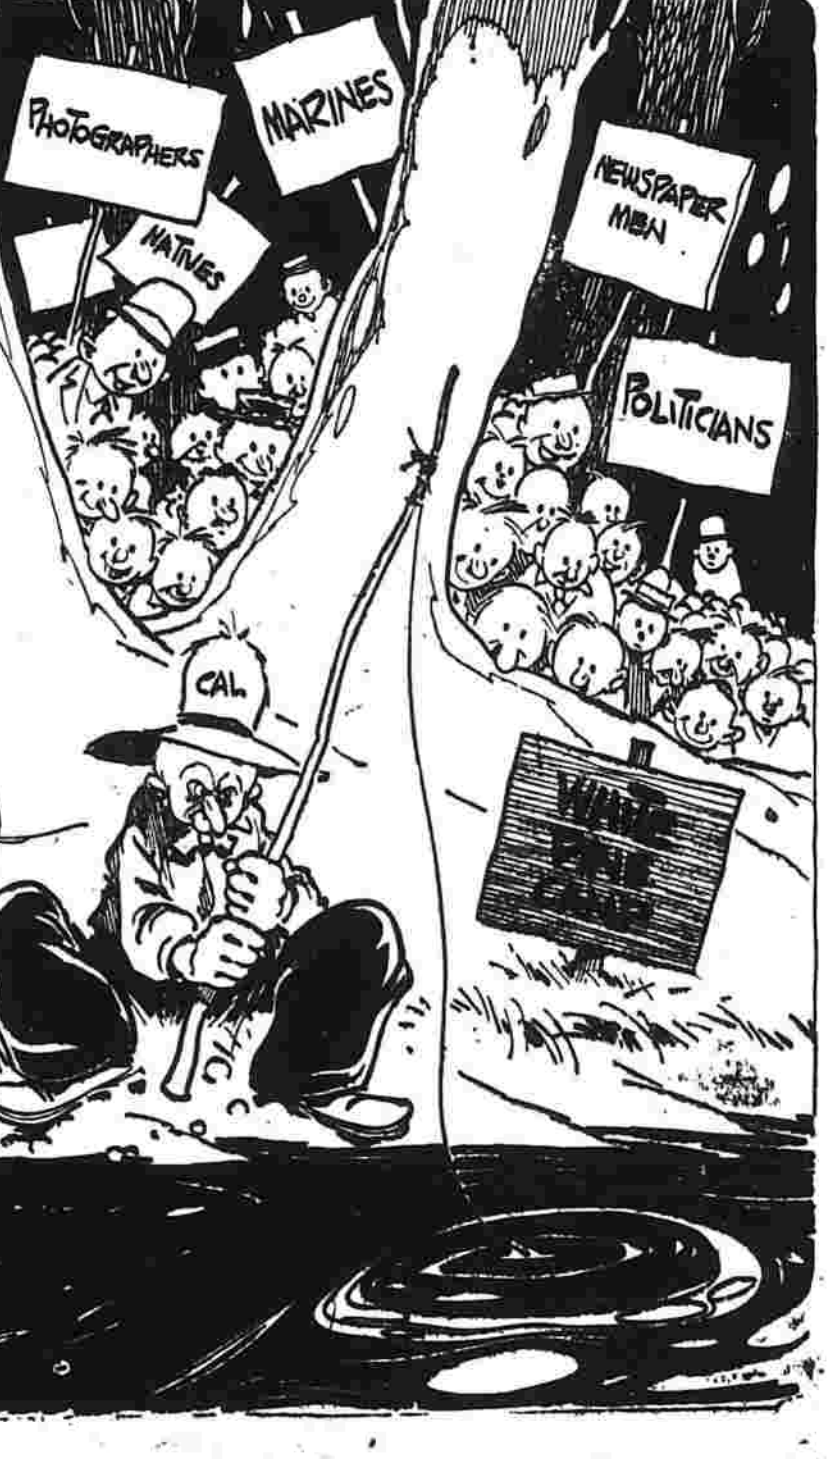

### POORCH SWING

Take any moonlight evening, with its bit of cooling breeze, when the heat of day has dwindled and there's rustle in the trees, people hear the porch swing calling, if with porch swing they are blest. Ah, the thought of it's enthralling. There's the place for wholesome rest.

Just to tip back on a pillow, and it's what such swings are for. If you've tried this touch of pleasure, then you surely ought to know that there's peace in fullest measure—swinging to and fro.

When you're comfortable and settled all the world can go on by. You should worry 'bout your troubles. You're a happy sort of guy. But the peace is never so lasting, and it always ends the same. Kidlets see you, then they join you, climbing all around your frame.

### QUEER QUIRKS OF NATURE

BY AUSTIN H. CLARK  
 Curator, U. S. National Museum

The food of peoples in different parts of the world varies very much. The most civilized men become the fewer different kinds of food they eat.

We in America have never even thought of eating caterpillars, yet they are considered choice morsels by the Australian natives, and those in certain parts of China and Africa.

Some of the African tribes are particularly fond of caterpillars, and they distinguish—refrily between the various edible kinds, having special names for each. In the past, certain kinds of caterpillars were very popular as food in western North America and southward, and they are still eaten more or less.

In the United States the most important caterpillar, from the dietetic point of view, is the Pandora moth, which is found from the foothills of the Rocky Mountains to the Cascades, and from Oregon to Mexico.

This caterpillar lives on pine trees, sometimes in such numbers as completely to devour all the leaves. It is long lived, as the moth takes two years to develop, instead of a single year or less as do most of the other moths and butterflies.

When fully grown, the caterpillars are over two inches long and very fat. The Indians in the regions where they are abundant used to prize them very highly, collecting great quantities and drying them for winter use. When dried they are shriveled, dark brown and oily, and it must be confessed, have an interesting odor.

The Pandora, an edible moth

Just two more days and the news will be out. Watch for Saturday's Herald.

**FISH FOR COYOTES.**  
 Cedar Rapids, Kas.—To go fishing and catch no fish, but capture a couple of wild coyotes with their hook and line was the experience of two Marion county men, J. W. Mader and Ross Volk. The men were returning empty-handed when they saw two coyotes, trailed them to their hiding place under a culvert and fished them both out.

**CAN WED PERSIANS.**  
 Constantinople.—By the abolition of a 50-year-old law, Turkish women now have the right to marry Persians. The former ban against intermarriage is said to have been due to a slight difference in religion and the system of trial marriages practiced by the Persians. Turkish women still may marry only Moslems, although the men may marry women of any faith.

**Quick Pile Relief**  
 Dr. Leonhardt's Hem-Roid is guaranteed to banish any form of Pile misery, or money back. It gives quick action even in old, stubborn cases. Hem-Roid is a harmless tablet that removes blood congestion in the lower bowel—the cause of piles. It brings joyful relief quickly and safely or costs nothing. Packard's or Murphy's Drug Stores—and druggists everywhere sell it with this guarantee.—Adv.

## "THE OIL QUEEN"

### Former Actress Laying Away a Million in the Panhandle.

Amarillo, Texas. — A few years ago Lela Mae Barnum was appearing in modest bits on the stage. Then she left the stage to become a housewife. A little later, divorced, she had to make and sell a beauty cream to support herself. And now, after these diverse ventures, she is about to become a millionaire. The answer?—Oil.

Two years ago, when she and her husband were divorced, they divided their holdings on certain tracts of land in northern Texas. The land was worth next to nothing then; but presently oil was found there and it went up in value. To hold her portion, Mrs. Barnum had to pay \$25 an acre. She made and sold a beauty cream, borrowed \$200 from her mother and steadfastly refused to sell her acreage. And now she's glad of it. Her wells are producing in quantity. She was recently offered \$250,000 for royalties on two wells, and says she has a million in sight. And she's called "The oil queen of the Panhandle."

## WAPPING

Mrs. Clarence W. Johnson was taken to the Manchester Memorial hospital last Tuesday morning with appendicitis and an operation was performed Wednesday morning. She is reported as being well.

Mr. and Mrs. Raymond Burnham and daughter Nellie returned from Coventry lake recently where they have been spending a few days at the Willis cottage.

Miss Marion E. Hills left Wednesday morning for Storrs' College where she will spend a week.

Mr. and Mrs. Joseph Elmore and children of Ellington road are at Grove Beach where they expect to stay until about the first of August.

Mrs. Wells Wetherell of Omaha, Neb., who is visiting at the home of her mother, Mrs. Thomas Shaw of Manchester, called on friends in town on Tuesday.

Miss Catherine Burgess of this place and Mrs. Bernard Garrity of South Windsor are spending a few weeks at Old Orchard, Maine.

Mrs. Ida Coop and her daughter of Hartford, spent the week-end as guests of Mrs. Thomas Austin of Pleasant Valley.

## AWAY, FAT LEGS

London.—By painting shadows in proper places, a stocking recently designed is guaranteed to make fat legs to have a graceful curve.

## WEIGHS 335 AT 101

Willows, Cal.—Mrs. Jane Hamilton celebrated her 101st birthday, recently and remarked to one of her callers that she didn't care much for bobbed hair. Mrs. Hamilton weighs 335 pounds and her tresses are four feet long.

## THAT'S EASY.

The Vicar (to unsatisfied parishioner): How is it that I haven't seen you in church lately?  
 U. P.: I ain't been.—Tit-Bits, London.

## This Great Healing Oil Must Banish Eczema and Skin Troubles Or Your Money Back

That's the Plan On Which Moore's Emerald Oil Is Sold by Local Druggists to All Who Buy It for Any Skin Trouble Whatever.

Make up your mind today that you are going to give your skin a real chance to get well. It is the very first thing that caused it—you've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of them are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same. Go to North End Pharmacy, So. Manchester agents Magnell Drug Co.—or any other good druggist today and get an original bottle of Moore's Emerald Oil. The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your skin troubles will be a thing of the past. Don't expect a single bottle to do it all at once but one bottle will show you beyond all question that you have at last discovered the one and only sure way to restore your skin to perfect health. Remember that Moore's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.—Adv.

## BATTLE ROYAL TONIGHT AS ORCHESTRAS MEET

State Theater Scene of Contest That Will Surely Be a Dandy Picture Program.

Years ago "The Battle of the Roses" made lovers of history think of plumed knights, coats of armor, tilting jousts and the like. To the modern, and that means Manchester today, it means probably nothing. But does it? Just wait and hear some modern history as the Manchester boys and girls and their elders, Mr. and Mrs. Manchester can appreciate it.

Tonight at the State Theater, Mr. and Mrs. Manchester, Tom and Mary Manchester and the Little Manchesters will see and hear "The Battle of Music." It will not be between nations on a foreign soil but between cities (and why Manchester is not in this class is beyond the average mind) but between cities in this state. There will be no dead and wounded except if the audience wants to throw vegetables and now adays vegetables are so expensive that one just can't throw them, but the battle will be between musicians.

Willimantic thinks it has the finest talent and musicians in the state. So does Manchester. There will be a contest on the first act which will be staged on the first act. Although the battle will be a warm one, it will not be a warm one for either the contestants or the audience for the typhoon cooling system in vogue at the State that literally can blow a person's hat off the curb on Main street, is working. So that means coolness to the nth power, or in other words, something like what Commander Byrd experienced at the North Pole.

Now here are some details of the contest:

The first contest will be staged in Manchester. "Willy" will be here with her orchestra and her Charleston dancers and her acts. Our town will be here with her orchestra and her novelty acts and Charleston dancers. The visitor will be allowed first chance as a courtesy. The audience, and the applause will be the sole judge. Manager Jack Sansone will act as a judge only as to judging the amount of applause. He will be impartial because the outcome will mean nothing in his young life. The next contest will be held in Willimantic and the next contest will be held—no one knows where, for it will depend on how the audiences decides.

Of course there will be a special setting for this novel "Battle of Music." Costumes, number of players in orchestras and the like are up to the orchestra leaders themselves. Manchester talks about a "Let Me Call You Sweetheart" number that may decide the contest. The Willimantic leader says nothing. Now see for yourselves the first part of the bill. There's more coming.

The second part of the bill will contain an all star cast in "Wandering Footsteps" just a secondary part of the movie bill. The big feature will be Tom Tyler in "The Cowboy Cop."

On Friday and Saturday there will be a song recital. Yousters up to 30 years of age do not know anything about this song nor do they know about songs they are singing now such as "Let Me Call You Sweetheart," "The Prisoners' Song" and a host of others including "Always" that were really stolen from the old composers. This song recital is "Ta-ra-ra boom de-ay" a rollicking refrain of 25 years ago. It beats all the latest "Ain't Goin' to Rain no More" things a mile and you don't have to be an old timer to realize this when you hear it.

For Friday and Saturday also the State will offer "His Supreme Moment" a tremendous production, parts in real colors, a love story and "The Lucky Lady" with Lionel Barrymore in the stellar role. This is what is called a "costume play" of Europe with romance galore.

## WOULD LET 16 YR. OLDS DRIVE AUTOS IN CONN.

Careful Examination of Applicants Would Be Made, However, Says State Bulletin.

The lowering of the minimum age limit for Connecticut operators of motor vehicles to admit carefully examined applicants 16 years old "would be more fair" than the present law which draws the line at 18 years and bars younger operators regularly licensed by other states, says the current issue of the state motor vehicle department bulletin.

"It has perhaps not been clear to the motor vehicles commissioner's necessary interpretation of this matter is that in cases where licensed operators of another state who are under 18 are in the state, they are without authorization either under the reciprocity agreement, tacit or stated, or under any present law," says the bulletin. "Any person operating under such circumstances is operating illegally."

A recent case apparently involving these principles and which may go to a high court as a test is cited. In the case, says the publication, a person under 18 years old authorized to drive by another state actually operated a Connecticut registered car in Connecticut, and relying on the authorization of the other state was arrested. The Connecticut department of motor vehicles called upon the department of the other state to suspend the operator's license of the person there, which was promptly done, and thereafter Connecticut suspended the right to operate.

"This particular phase of the law and of the situation gives the state authorities a lot of trouble," says the bulletin. "In adjoining states, the age limit at which one may qualify as an operator is almost uniformly 16 while in Connecticut it is 18. But Connecticut has an enabling clause in the law whereby anyone over 16 may operate while accompanied by a licensed operator so seated in the car as to be able to control it, and while under instruction.

"Under this enabling clause it has been the practice to have persons over 16 to operate indefinitely when accompanied. The matter of instruction has been lost sight of. Should it become necessary to interpret that law, it appears reasonable to expect that a high court would say that the term 'under instruction' means something. Probably if the case in which the interpretation is asked has a time element, the court may limit a reasonable time during which instruction might probably be more than a name. The law and its adaptation as it now exists is not entirely practical until such an interpretation is had, and should one be made its enforcement would probably be oppressive and in many cases work a hardship.

## BARBER IS TOWN HISTORIAN

Huntsville, Mo.—The barber shop of Bagby and Mayo is the home of the city's archives. Here in a huge diary, resting on a center-table, are chronicled each day's events. The "barber shop book" ends all disputes. When customers get to arguing about the coldest or hottest days the book is opened and there is found the truth in black and white. It's no use to try to sell your five-year-old used car as a two-year-old because the book will find you out.

 Cars in good condition.

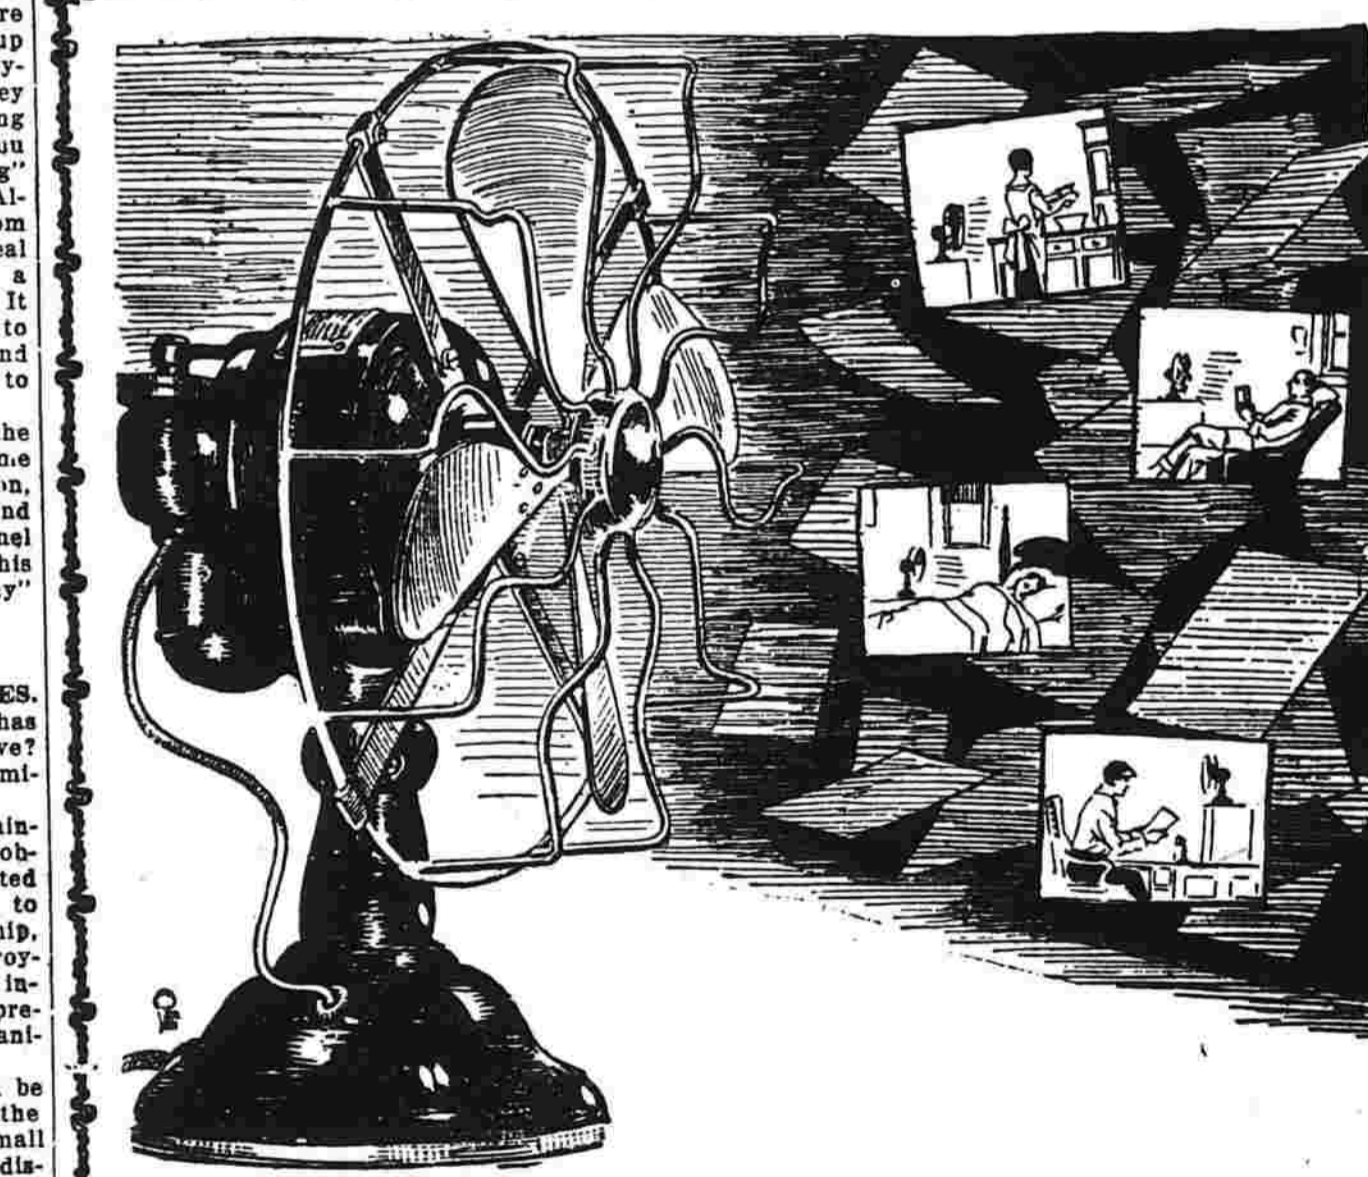

Manchester Hudson-Essex Co. 127 Spruce Street

## PROCRASTINATION

Isn't it peculiar why people will put off ordering coal until the last minute when they could just as well have their bins filled before the cold weather arrives? It's human nature to put off until tomorrow what can be done today, but every sudden cold snap keeps us busy writing orders, each order stating "must be delivered at once." All of which leads us to ask, have you ordered your winter supply of coal?

THE W. G. GLENNEY CO. Allen Place, Manchester.

## Away! Fly Troubles—

and Doctor Bills When Westinghouse Fan Gets Busy

The strain and exhaustion of those oppressive hot days flutter far and away like a house of cards when the cool spring breezes of a Westinghouse fan start blowing. And you'll find restful relaxation, for coolness relieves tension; there's a low cost and small upkeep—just what could be better than health, comfort and economy?

A Westinghouse Rotair Fan is the one you want for your office. It keeps the air circulating.

 FOR RENT—Beautiful three room flat, recently decorated, \$25.00 per month. Third floor, Bowers Block, over post office. Apply F. H. Anderson, in care of W. Hale's Co., or Robert Hathaway in care of Manchester Trust Co.

### THE STORY OF EDGAR ALLAN POE (9)

With the doors of polite society closed against him, there was one refuge where Poe was always welcome, the home of an aunt, Mrs. Maria Clemm, of Baltimore. She was poor, but willing to share whatever she had. In 1834 Mr. Allan died, leaving Poe nothing. Poe worked long days in his attic room at Mrs. Clemm's.

With the budding of the beautiful Virginia Clemm, Poe's affection for his cousin ripened into love.

Poe and Virginia were married in September, 1834, when Virginia was 13 years old.

Mrs. Clemm, who had objected to the marriage because of Virginia's youth, remained loyal to Poe. When Poe was offered a position as associate editor of the Southern Literary Messenger, the little family moved to Richmond. Poe's work during the next few years was most brilliant. (Continued)

#### LOST

LOST—Black and white shepherd dog. Strayed away Monday night, long chain on collar, license No. 3222. Anthony Zelinsky, 25 McNail street, nearest phone 645-4.

LOST—Strayed or stolen, small collie puppy. Reward if returned to 278 Hilliard street.

### DEMPSEY OPPONENT IS A LEGAL QUESTION

#### Two or Three or More Contracts to Fight Seem to Have Been Signed by Jack

Chicago, July 22.—Jack Dempsey's promised appearance in Chicago next September became a political football today. With Tex Rickard, New York promoter, announcing Dempsey would defend his heavyweight title here September 11 against Gene Tunney and the Chicago Coliseum Club claiming contracts for a Dempsey-Harry Willis fight late the same month, final decision in the matter appeared to rest with the Illinois Boxing Commission. Already pressure is being brought to bear on the members of the commission from all sides. Rickard, associated in the promotion of the Dempsey-Tunney bout with George E. Brennan and Edward Kelley, both prominent Illinois political leaders, looked to have the inside track. The New Yorker was so positive his fight will come off as scheduled he arranged for immediate appearance before the commission to obtain its approval on the bout and completed his plans for the formal signing of Dempsey when he arrives in Chicago August 4 or 5. Rickard already holds an option, he said on Dempsey's services. William Clements, president of the Coliseum Club, who obtained a license yesterday from the Illinois solons, said today he would immediately appear before the commission to ask approval of the Dempsey-Willis bout, claiming to hold contracts with both the champion and the negro. Into the Court. "Dempsey will fight Willis in Chicago and on one else even if he has to go into the courts to prove our contract is binding," Clements declared. Clements said he intended to bring both Dempsey and Willis to Chicago to start training. He said he prepared, as Rickard also announced, to stage the bout in the Stadium, Soldiers' Field, at Grant Park, seating more than 115,000. Rickard's plans call for a benefit fight staged for the widows and orphans of Chicago police and firemen. Rickard was said to figure the bout would draw more than \$2,000,000 and the widows' fund would receive \$1,000,000 or close to that amount. Neither Rickard nor Clements announced what terms had been made with the fighters. The Coliseum contract is the same obtained some months ago from Dempsey in Los Angeles by Floyd Fitzsimmons, Michigan City, Ind., promoter. Gene Normie, Dempsey's agent, now in Chicago, had ruled the Fitzsimmons contract void because he said, Dempsey was not paid \$100,000 last March, as had been agreed. Asked regarding that angle, Clements stated the contract was still binding and lawyers had so advised him. Chicago fans were inclined to string with Rickard in the battle for the Dempsey bout. They figured he was connected with strong political powers in the state, and would assure approval of the bout by the Illinois commission. Local fandom in the meantime did an Eva Tangany, being assured a Dempsey fight and not caring whether his opponent is black or white.

#### AUCTION

Pursuant to an order to me directed, I shall sell at public auction, Saturday, July 24, 1926, at 3 P. M. (D. S. T.) the Real Estate at 176 Bissell St., So. No mortgage now, but very easy terms arranged. Rents for \$35 per month. Fine home for little money.

#### R. E. MANLEY, Auctioneer.

Telephone: Hartford, Conn.

### What's in a Name? Millions---for Marys!

By Dan Thomas  
 Hollywood, July 21.—What's in a name? Millions—if your name happens to be Mary. Out here in the film colony they're superstitious about names. And especially about Marys. If a film aspirant is named Mary, they figure her battle is half won. Mary, as the song used to say, is a grand old name. Nothing fancy; just an every day, staple name, unpretentious and plain. But it has it all over the Gwendolyns and Lynettes and Vyvyns and Odettes. If Mary Smith comes to Hollywood to enter the movies, she'd better think twice before she changes her name to Dolores del Pippino. Few Marys ever fall in the movies. Perhaps the queen of them all is Mary Pickford. "America's sweetheart" made her bow as an actress in her native city of Toronto, Can., at the age of five. Her first appearance in motion pictures was with D. W. Griffith in 1912. Prosperous Ever Since. Since then Miss Pickford—or more properly, Mrs. Douglas Fairbanks—has tasted nothing but success. She has had the touch of Midas. She organized the Mary Pickford Company, of which she is the principal owner, in 1918. Today it is one of the best money-makers in the business and most of the profits go to Mary—in addition to the salary she pays herself. Mary Miles Minter migrated here from Dallas, Tex., when only 16 and entered the movies. Before retiring several years ago she amassed a fortune of more than a million dollars. Young Mary Brian, not yet out of her "teens" is another of the fair sex to prove the value of her name. She also hails from Texas, having spent most of her girlhood days riding the plains with neighboring cowboys. Mary had hardly arrived in Hollywood before she won a beauty contest that launched her on a celluloid career. She rose to fame almost over night in the role of "Wendy" in "Peter Pan."

#### From Chicks to Stardom.

From taking care of little chicks on an Illinois poultry farm, Mary Astor has risen to a place among filmland's notables. Success has met her at every turn in her motion picture career.

She made her debut in motion pictures in New York, playing in a series of one-reelers. With the signing of a contract with Famous Players-Lasky several years ago, Mary's future was assured. Her most recent appearance is with John Barrymore in "Don Juan," having been loaned to Warner Brothers by

the smoky city. Mary's first bit in pictures was a Universal in 1921 when she was only 15. Now she has a starring contract with the same studio. If you want to know what's in a name, ask any of those whom I have mentioned. None of them would give up "Mary" even for the proverbial "pot of gold."

First National, whose contract she now holds. "It was just in the stars that I was to get this part." That's what Mary McAllister thinks of her good luck charm.

She played opposite Harold "Red" Grange in "The Halfback" which has just been completed. Many of Hollywood's picture stars

sought this role with the famous grid hero but it was just another case of a "Mary" victory.

Started when only 15. Mary McAllister absorbed considerable quantities of soft coal soot while attending grade and high schools in Chicago. But Hollywood's sunshine—and the makeup box—have wiped out all traces of

the smoky city. Mary's first bit in pictures was a Universal in 1921 when she was only 15. Now she has a starring contract with the same studio. If you want to know what's in a name, ask any of those whom I have mentioned. None of them would give up "Mary" even for the proverbial "pot of gold."

### ENGLISH SPEAKING UNION HAS NEW HOME IN LONDON

London—After many months of effort, the English-Speaking Union has at last completed its project of acquiring a property in the West End of London to be the permanent home of the organization in the British Empire. Dartmouth House in Charles Street, Berkeley Square, has been purchased for this purpose. There will be commodious reading rooms, drawing rooms and writing rooms, while present plans are for remodeling the upper part of the house into thirty bedrooms for the use of members.

### DETROIT TO TAKE VOTE ON BUILDING SUBWAYS

Detroit—Detroit electors will vote in November on proposed subway routes running north, east and west from the center of the city. The proposed routes will number five in all. Only two tubes will be constructed at first on each route if approved. These tubes will run ten miles. A 15 mile radius will be cared for later. The plan to be submitted calls for stops every mile.

The police of Glasgow, Scotland recently had warrants for 800 runaway husbands.

### In Murder Mystery

Phillip A. Goodwin, who says he is a priest of the American Catholic Church and who is appearing in a clerical role on the vaudeville stage, has been arrested in New York. He denies any wrongdoing. The police say it is in connection with the murder of Goodwin's friend, Jose Patterson, near Los Angeles, Calif.

### Zounds! Sacre Bleu! Oh Dear! VALENTINO DONS BELLIGERENT MANNER AND GIVES NOTICE

New York, July 22.—The cauliflowering of a pink ear, the rumpaling of patent leather locks, the ballooning of a delicate nose—such calamities are as nothing when the warm blood of a sheik reaches the boiling point.

The sheik will risk all for the sake of honor. So he says, does Sheikh Rudolph Valentino, arriving in New York on urgent business, but ready to hasten back to Chicago with the speed of the wind if he can get his challenge accepted. His challenge—you know—to the editor who wrote a stinging editorial captioning him "Pink Powder Puffs."

"He blacks my manhood, my country, my family name. It is too much," snorts the flapper's idol, and clicks his silver slave bracelets ominously.

So here we have Signor Valentino in fighting mood, and in fighting trim, stripped for action, and cursed be he who first cries "Hold! Enough!"

So here we have Signor Valentino in fighting mood, and in fighting trim, stripped for action, and cursed be he who first cries "Hold! Enough!"

**MRS. C. M. CALDERWOOD  
FIGHTS WITH BURGLAR**

Wife of Former Manchester Pastor Has Struggle in California Home—Gets Away.

Friday's edition of the Glendale, Cal., Evening News has for its leading front page story the account of a desperate hand-to-hand encounter which Mrs. C. M. Calderwood, wife of a former Second Congregational church pastor here, had with a burglar in her home the night previous. The pastor's wife surprised the intruder in the act of robbing her home which had been closed for the day.

Returning earlier than her husband she found a light burning and in response to her call "Who's there?" the burglar bounded down the stairs and attempted to pass Mrs. Calderwood. She grabbed him by the throat and managed to wrap his tie around her wrist, knowing that in a few minutes Mr. Calderwood would be repairing an auto tire, would arrive.

For several minutes she held him thus until in the struggle the man used every ounce of his strength to break the grip and the tie parted. He bolted out through the front door while Mrs. Calderwood rushed to the phone to summon the police. When they arrived he was not in the vicinity.

Mrs. Calderwood regretted not having the presence of mind to call the neighbors when she first saw the light upstairs. With a little help he would have been trapped. She described him as a Mexican, young and slight of build, and believes she can identify him.

Articles missing from the home were of little value, indicating that the burglar was perhaps a novice at the business.

**POLICE COURT**

The case of Walter T. Mahoney which was continued from last Saturday until this morning was disposed of in the police court this morning. Mahoney was charged with driving while under the influence of liquor and had an additional count against him charging him with willful destruction of public property. He was defended by Attorney Shea. The witnesses in the case were Officer Aaron Radding who placed him under arrest, Captain Herman Schendel who was at the police station when he was brought in, and Dr. D. C. Y. Moore who examined him at the police station. All testified that Mahoney was under the influence of liquor. Judge Johnson found him guilty and imposed a fine of \$125 and costs. For destruction of property he was found guilty and a fine of \$15 and costs was imposed.

Ernest P. Sass paid a fine of \$5 without costs for driving a car without brakes. He was arrested by Officer John McGinn last evening after testing his brakes. The excuse Sass gave was that he could not afford to have the car repaired.

Wesley Morse of Hartford and A. H. Parrier of this town were arrested yesterday on the charge of speeding. Both men gave satisfactory reasons and showed the judge that they did not intend to break the laws; they had been drivers of long standing, without a blemish on their record. Judge Johnson decided to suspend judgment in each case. The men were arrested by Traffic Officer Wirtalla. While these two men were allowed to go on a suspended judgment, Judge Johnson made it very plain to the court that he wished to stand back of the police in enforcing the traffic laws, and his judgment in this case would be no criterion to speedy drivers in the future.

**EXPECTS HEGRIA  
OF WILD PIGEONS**

West Plains, Mo.—Millions of wild pigeons are assembling somewhere in Central America for another migration to the Missouri Ozarks, according to Lewis J. DePriest.

"Just a hunch," says DePriest. "Forty-two years ago in the fall of 1884, the great hegria of pigeons blotted out the sun. Trees were broken by their weight." DePriest thinks this will be another such year.

**"Super-Crook"**

John J. (Bum) Rogers is hailed by the morons as another Gerald Chapman and Richard Reese Whittemore, a "criminal master mind." A wide-spread man hunt is on for him. He is alleged to have committed numerous daring robberies around New York and is believed to head the gang from whom New Jersey police recently recovered \$100,000 in loot.

# Kiwanis Club Benefit Game at West Side Tonight

## CHENEY BROTHERS AND SAINTS TO PLAY FOR CHILDREN'S CAMP

### Hewitt and Boyce Will Oppose Each Other on the Mound — Both Teams Even in City Series.

St. Mary's Thornton, 2b  
Robb, 1b  
Wright, ss  
St. John, cf  
Stevenson, 2b  
Seelert, rf  
Kellar, lf  
W. Stevenson, c  
Boyce, p  
Umpires, Dwyer and Russell

Time of game, 6 o'clock at West Side tonight.

Two Manchester teams will take the diamond tonight in behalf of the 80 poor children whom the Kiwanis club is giving a two weeks' vacation at the Hebron game club. The Saints and the C. B. A., who have met twice before, will do the honors at the West Side in a game that will not count in the standing of the series between these two teams.

The opposing batteries this evening will be Boyce and Billy Stevenson for the Saints and Hewitt with Lewis as his backstop for the industrialists. From the looks of the batteries, it can be seen that it will be something in the line of a pitching duel.

The Kiwanis club needs money to carry out the job of giving Manchester underprivileged children a week or two in the country. Most of the children who are brought to camp are those who really need it and their cases have been fully investigated and found to be most needy.

During the last two weeks 20 boys went to the camp where they enjoyed the fresh country air, swimming in the private pond adjoining the land of the game club, and physical training under the direction of Lloyd Russell, a graduate of the Springfield Y. M. C. A. camp and had more than enough to eat and all had acquired a healthy tan when their two weeks were up.

Twenty girls will be accommodated at the camp in these present two weeks and following that 20 more boys will go. The second contingent will be at the camp during the last two weeks that it will be open.

It is up to Manchester baseball fans to attend the game tonight in order to help the worthy cause along. Besides the joy of giving they will also experience the thrill of seeing two teams who are bitter rivals fight it out.

## Billy Evans Says

**Crimson Comes Back.**  
After five years of failure in college baseball, Harvard is back on top again. The season of 1926 marked the winning of the "Big Three" championship from Yale and Princeton.

Incidentally, the success of Harvard has cured the itch the Crimson has had for an amateur baseball coach.

Fred Mitchell, former big league player and manager, directed the destinies of Harvard on the diamond this year and came through with flying colors. Unless he has already signed, he can write his own ticket for next season.

Harvard for several years has had a former member of the team act as baseball coach. It was a full year ago that Joe Wood in charge and Princeton, coached by Bill Clarke and Jack Coombs, have annually swamped Harvard.

This year Harvard returned to the professional coach in baseball and won the "Big Three" title.

**Three Golf Feats.**  
Within a space of ten days three remarkable records were made in important golf tournaments.

First, Bobby Jones shot a 66-68-134 at Sunningdale, where he qualified for the British open. He then went on to win that event with a score of 291, equaling the record.

A few days after Jones shot his 134, George Livingston, in the Southeastern Professional Golfers' Association tournament, broke Jones' record for two competitive rounds of golf by one stroke.

Playing over a Nashville (Tenn.) course he came through with a 67-66-133.

About the same time Eddie Heid, well-known St. Louis amateur, playing in the Trans-Mississippi championship, scored a 67-68-135, in the two starting rounds.

Some golf, I would say.

**The Greater Thrill.**  
Recently someone queried me as to which home run carried the greater thrill—the drive over the fence or one within the ball park. To my way of thinking there is no comparison for thrills. The home run that is made within the ball park wins easily.

The thrill that goes with a drive over the fence or into the stands is but fleeting, unless it happens to be

### CUYLER RUNS INTO REAL BATTING SLUMP

Hazen Cuyler, star Pittsburgher, has been in a slump during the past three weeks and his batting average has consequently taken an emphatic tumble. From the top position he has skidded severely. He will take plenty of bingles for the tot to get back where he was in the middle of June.

a Babe Ruth home run that clears the fence so far you wonder how any human being could do it.

On the other hand, a home run within the park is packed with excitement until the runner has crossed the plate in safety.

If it is a fly ball that finally carries over the fielder's head, it is a time, offers many a thrill as to whether or not the fielder will be able to reach the ball.

If it is a line drive that is driven between two outfielders, sliding both, the contest becomes a race between fielder and baserunner, to be climaxed by a long throw.

**Stengel's Two Homers.**  
In this connection I recall the home run drive by Casey Stengel of the Giants that won the first game of the 1923 world series.

It came in the ninth inning and I believe two were down at the time. I was calling balls and strikes in that game and Joe Bush was doing the pitching for the Yankees.

Stengel hit a line drive to left center. It eluded Bob Meusel and rolled to the extreme end of the field. The fleet Meusel gave chase. Getting the ball, he made a rifle-like throw to the plate.

Stengel, with a pair of spavined legs, was giving all he had. As he rounded third I could see that he was all in, staggering.

Would he beat the ball? It was a tense situation that had 70,000 fans on their feet. Stengel beat the ball a step, then collapsed. He couldn't have gone 10 feet farther.

**Drama and Farce.**  
That hit won the ball game and offered the most thrilling finish I have ever seen to a world series contest.

Stengel also won the third game of the series, which ended 1-0, scoring the only run of the game by hitting a slow ball delivered by the pitcher into the Yanks into the right field stands.

On a big playing field it would have been an easy out. Ruth backed up against the fence and watched the ball just clear the wire netting in front of the bleachers, as he made frantic clutches to catch it.

There was no comparison between the two home runs for thrills. One was real drama, the other bordered almost on farce.

**THE WAIVER ROUTE**  
Going the way of the walver route is a rather tough experience for a big league star.

Recently, within a week, two of the outstanding pitchers of the majors, Grover Cleveland Alexander and Joe Bush, have experienced that ignominy.

One club in the National League, the St. Louis Cardinals, claimed Alexander. All the American League clubs as well as the National, waived on Bush. Bush later signed with the Pittsburgh Pirates.

The former star of the Athletics, being a 10-year man in the majors, was entitled to his unconditional release when no longer claimed by a club in the big show. He got it. I am of the opinion that Bush will be helpful to the Pirates, who have been losing many games of late.

**Arrived Same Time**  
Alexander and Bush came to the majors at about the same time, in the same city, Philadelphia.

The great Alexander made his National League debut in 1911 with the Phillies, while Bush joined the Athletics the following season, but worked in only a few games.

**July 24 Saturday**

Just two more days and the news will be out. Watch for Saturday's Herald.

## Freak Hit Scores Two Men And Rockville Trims Sons

A freak hit by a Rockville player with two men on bases gave that team a 5 to 3 victory over the Manchester Sons of Italy in the first game of their series in that city last night. The score was tied and two men were out when the Rockville man ducked one of Sipples' fast ones.

The ball went around behind the batter and hit his bat, going over first base for a clean hit. Two men came in and the game was stopped soon after because it had become too dark to play.

Pospisil had started the game and Manchester was leading by 3 to nothing when Rockville started to bunch hits. In the sixth inning he hit to right field. Graf Schiener hit to first and the run was held. Burke hit to shortstop who threw to second and then to first. Both men were out a mile but the umpire ruled otherwise.

There were two men on when R. Burke bunted. Walliet threw him out at first and the runner walked away toward home plate. Sipples touched him the second time but the umpire again ruled that he was safe. There were three men on and the next man hit safely to right field, scoring two runners. Krause hit to second and was out. The next man singled, scoring a runner and the count was knotted. The next batter ducked to escape.

For years Alexander has occupied much the same position in the National League as Walter Johnson has in the American, the outstanding right-handers of their respective organizations.

The record of Alexander is more imposing than that of Bush, although Joe has done some great work during his 15 years of service.

On eight occasions Alexander has won 20 or more games during the season. His three best years were 1915-16-17, when he won 31, 33 and 30 games, respectively.

Discovered by Mack  
Joe Bush was discovered by Connie Mack out at Missoula, Mont., and made good from the start. He did fine work for Mack for five seasons.

When Connie started to clean house with his all-star ball club, Bush was one of the players he parted with.

At the close of the 1917 class he was traded to the Boston club with Am Strunk and Wally Schang for players Grege, Thomas, Kopp and cash reported at \$60,000.

After one season with Boston, in which he broke even with 15 victories and defeats, he suffered arm trouble that kept him out of the

We Have Always Advertised This Store As  
Sporting Goods Headquarters

## It Is Sporting Goods Headquarters

Because we have specialized in this line of merchandise and made it a point to stock the various lines of merchandise that are affiliated with golf, tennis, baseball, fishing and hunting.

<b>BASEBALL</b> The complete REACH line. Louisville Slugger Bats. Baseball Shoes. Masks, etc.	<b>TENNIS</b> California Rackets. E. Kent Rackets. Reach, Wright & Ditson and Penn. Tennis Balls. Special! Reach Tennis Balls, 40c ea. 3 for \$1.00.
<b>GOLF</b> Kroydon and Reach Clubs. Balls - Repaints. Reddy Tees.	<b>FISHING</b> A complete stock of fishermen's equipment. If we haven't got it—it will be hard to find.

Here are a few of the things we supply fishermen with: Fishing license, salt water tackle—everything for the bass fisherman—official baits of every description.

### A Real Live Bass Club

We now have approximately 50 members, which means that there will be over \$50 divided in prizes for the biggest fish brought in.

Walter Luettgens still holds the lead with his 8 lb. 4 oz. bass. Andrew Ferguson holds second place with a 2 lb. 12 oz. bass, and Roger Williams third place with a 2 lb. 9 oz. bass.

The only conditions are that the fish must be a small mouth bass caught in Connecticut waters and that one must be a member of the club for ten days before making an entry.

Sporting Goods Headquarters.

## EDDIE GETTERSLOH PITCHES HARTFORD RUBBER TO A WIN

Cheney Brothers Hit Only Eight Times and Are Defeated 11 to 4; Visiting Pitcher Makes Two Hits Himself.

Eddie Gettersloh proved too much for the C. B. A. last night in their game with the Hartford Rubber Works team and as a result the visitors took the game easily by the score of 11 to 4.

The Hartford pitcher allowed only eight hits, most of which were scattered. The visitors had one big inning, the sixth, in which they bunched hits and took advantage of errors to make 10 runs. Up to that time the locals had been leading by the score of 3 to 1.

Hartford's hits were spread out

among most of the players. Gettersloh making two of them himself. Others on his team who came through with two hits each were Soules and Warner. One of Warner's was a double while Lewis, another man, was responsible for a triple with men on bases.

Up to this inning McLaughlin had been having things his own way. His game until the sixth frame was all that could be wished for but it seemed that he weakened considerably as the game progressed.

The locals made five errors which helped Hartford to many of its runs.

Manchester scored three in the second inning and the Hartford team went scoreless until the fifth when it made one run. The sixth of the locals in the latter innings netting them only one tally.

McLaughlin allowed 10 hits.

Instead of being through, as supposed, he started the baseball world in 1921 by his sensational comeback, winning 16 and losing nine.

Traded to New York, he had the best year of his entire career in 1922, helping the Yankees to a second pennant by winning 26 games and losing only seven.

**Looked for Success**  
When Bush was traded to Washington, after spending a year at St. Louis, he expressed great delight, said it meant another world series for him and announced that with a ball club like Washington back of him he would contribute 20 vic-

practically the entire 1919 season. He appeared in three games, working nine innings.

The consensus of the ball players was that Bush was through.

**Bush's "Fork" Ball**  
During the 1919 campaign, while Bush was undergoing various treatments in an effort to bring back his arm, he began a series of experiments with freak deliveries.

At the close of the season he had developed what was generally called the "fork" ball. Bush held it between the fingers of his pitching hand and so released the ball that it broke not unlike a spitter.

Instead of being through, as supposed, he started the baseball world in 1921 by his sensational comeback, winning 16 and losing nine.

Traded to New York, he had the best year of his entire career in 1922, helping the Yankees to a second pennant by winning 26 games and losing only seven.

# HOW TO SWIM

by Lillian Cannon

Swimming Position for Beginner

Now get thoroughly used to the position of swimming. Place the hands on the bottom so that the nose and mouth are clear and kick your legs until the body is clear of the bottom.

Use the scissors kick. With each kick there are three movements. First, with the legs straight and heels touching, the feet are drawn quickly upward as the knees spread out. Heels touch all the way.

Second, the feet are thrown wide laterally.

Third, the feet are thrown down and in until the first position is resumed. The broad of the foot

should oppose the water in the last movement.

To gain perfect co-ordination of muscles, the sole of the right foot should be turned in and down and the instep of the left in and up until the heels meet.

While walking with hands on the bottom and feet kicking, it is an excellent idea to place some bright object on the bottom and look for it each time the head goes under the water.

After a certain degree of proficiency is attained in kicking, it is well to try to kick mechanically without thinking of it.

Looking for the bright object under water will take the attention

off kicking and one will find that with a littleless concentration the kick will become natural. It should be remembered that one must learn to swim so that the actual effort of swimming is a natural movement, like walking.

One doesn't think where's one's feet is going at each step. Swimming should be just as natural.

## Fish and Game

by Morris Ackerman

### ABOUT SPAWNING FISH.

The best way to restock a lake or stream is to permit the breeders the necessary time to spawn before they are caught.

The government and states are both trying hard to restock our fishing waters. But the right way is the natural way.

A large-mouth bass, for instance, will deposit from 2,000 to 10,000 eggs at spawning time. That would be quite a quantity of fry for the state to place in a small lake or stream. The small-mouth black bass will deposit approximately the same number.

The bass cannot be stripped and the eggs hatched artificially.

For this reason one can see the advantage of late open seasons for the large and small-mouth. This year it is quite possible that many billions of eggs will be destroyed due to the late spawning season.

The muskellunge will deposit from 200,000 to 300,000 eggs. You can see the terrific loss caused by taking a spawn-laden musky. These fish are frequently full of spawn in October, and for that reason I think the open fall season should be dispensed with.

The great northern pike deposits from 75,000 to 200,000 eggs. On the other hand, a female brook trout only deposits from 400 to 600 eggs, a rainbow trout from 3,000 eggs and a lake trout from 5,000 to 12,000 eggs. The wall-eyed pike carries a record-breaking number of eggs, size considered. She will deposit from 100,000 to 500,000 eggs.

The eastern pickerel, or chain pickerel deposits from 30,000 to

75,000 eggs, the little bluegill from 1,000 to 2,500, the yellow perch from 15,000 to 100,000 and the crappie from 3,000 to 10,000.

The rock bass deposits only from 1,000 to 2,000 eggs and the calico bass from 3,000 to 10,000.

From this information you will understand the reason for closed seasons on our game and panfish during the spawning seasons and see what a loss results from the taking of a spawning fish.

The Yankess, who seem to forge ahead whether they win or lose, stretched their lead to eight games by splitting a double header with the White Sox. The Hugen lost the opener four to three, although Ruth hit his 29th homer with two on base, but won the nightcap, five to four by scoring four runs in the eighth.

Ruth's homer was his second in two games, but he is still seven behind the record.

## DIAMOND DUST

Detroit's great winning spurt was checked when they lost to the Senators, ten to seven, after winning the opener, seven to six. Walter Johnson was the victor in the same game, in which Manush got a double, a triple and a homer.

The St. Louis Browns, growing to be big and healthy babies on a fattening diet of Boston beans, slaughtered the Red Sox, 11 to 1 and seven to four. Van Gilder yielded four hits in the opener.

Jess Petty and Dazzy Vance of the Dodgers allowed only four and six hits respectively in a twin bill with Pittsburgh, but Petty lost his game in a one to nothing duel with Senger. Vance won in a romp, six to two.

The fans in Cincinnati wished an automobile on Eddie Roush, and the Reds immediately stepped on the gas and trimmed the Braves, six to four, increasing their lead over the Pirates to two games.

### LAST NIGHT'S FIGHTS

At Los Angeles—Charley Weltert, Newark, N. J., heavyweight, won on a foul in the fourth round from "Chuck" Higgins, Los Angeles. Everett Strong, Iowa middleweight defeated Billy Atkinson, ten rounds.

At Oakland, Cal.—Ray Pelkey, Oakland light heavyweight, beat Jake Kilraine, Chicago, 6 rounds.

At Bayonne, N. J.—Johnny Leonard of Allentown, Pa. and Mike Ballerino of Bayonne, fought a ten round draw.

### LEADING LEAGUE HITTERS

American League	
Fothergill, Tigers	416
Ruth, Yankees	373
Falk, White Sox	371
Meusel, Yankees	365
Manush, Tigers	354
Leader a year ago today: Cobb, Tigers, 404.	
National League	
Bressler, Reds	371
Herman, Dodgers	355
Grantham, Pirates	349
Christensen, Reds	348
Bell, Cardinals	341
Leader a year ago today: Hornsby, Cardinals, 410.

## Local Sport Chatter

A. for the benefit of its camp in Hebron where 80 poor children will be given two weeks this summer. The camp has been fixed up at the Hebron Game club and the second consignment of 20 children is there for the present two weeks. Two more groups will go before the summer is over. All proceeds of the game tonight will be handed over to the Kiwanis club for use in its worthy project.

The Sons of Italy will stack up against the speedy Rockville nine on the West Side diamond tomorrow evening in the second game of their series. The first was played in Rockville last night.

Cleveland advanced to within half a point of second place by smashing the Athletics, six to nothing, scoring all their runs in the ninth when Ehmske blew up. Levens pitched grade A ball all the way for the winners.

This evening will show if Manchester baseball fans are charitably inclined. The Kiwanis club is sponsoring a baseball game between the Saints and the C. B. A.

## PENNANT INTERESTS THE ST. LOUIS FANS

### Hornsby's Cards Buzzing Around in Championship Style Just Now.

St. Louis, Mo., July 22.—The most harmless of all pennant bees is buzzing again. That is the St. Louis variety, which has buzzed for fifty summers stinging. It makes plenty of noise, however, enough to get this whole city stirred up.

Right now the old bee is humming louder than ever before. The fans out here admit that if the Cardinals don't win the National League pennant this year St. Louis will remain "a city without a flag" until the end of time. But, up here at the point, they insist the Cardinals are going to win. Let us see if their perennial hope is based on fact or fancy.

In Third Place The Hornsboys this morning were tied for third place with the Cubs with forty-eight games won and forty-one lost. The league leading Reds were only three and a half games in front of them. In short, as everybody who follows baseball knows, any one of a half dozen teams still has an excellent chance to capture the flag, the Cards being one of the half dozen. What are their strong points and their weaknesses?

First off, they can hit. Any team with a Hornsby, a Bottomley a Bell, and a Southworth in the line-up has plenty of potential batting strength. The two sluggers de luxe, Hornsby and Bottomley are just now coming out of protracted slumps. With the possible exception of the Pirates the mound city contingent does not have to step aside of any of its rivals in this department.

Good Pitching When his team was sweeping through the east carrying all before it, Hornsby was getting the best pitching in the league from Flint Rhem, Vic Keen and Bill Sherdel. This modern faith-hope-and-charity trio was turning in three victories out of every four games played. Had they been able to continue that pace the Cards would be so far in front by now that the other teams wouldn't even be bothered by their dust.

But faith, hope and charity all ceased in the sponge when they came home from the wars in the east. Where before they couldn't lose, now they can't win. Battered old Jess Haines stepped bravely into the breach for a time and won seven straight. That was a long string for him. It's six, two, and even that he won't win that many more all season.

The Puzzles The two question marks of the staff are that old fellow, Grover Alexander, and that young fellow, Herman Bell. If they can come through with an occasional triumph, Hornsby's team will be there or thereabouts when the number go up. But old Alex is growing more and more unreliable in every way with each passing year and there is grave doubt if he will help much.

One other thing will mitigate against the Cards who are not as wide awake as a potential pennant winner should be. Like all slugging outfits they have a tendency to rely too much on the base hit. On the bases they want to be driven around instead of taking advantage of the bases.

Thousands of fans would like to see St. Louis win the flag. After fifty years of waiting it would be nothing less than simple justice.

## THE REFEREE

How many times has Bill Tilden won the New England tennis title?—D. S. E. Three.

Where did Francis Ouimet finish in the 1925 national open golf tournament?—D. S. A.

Tied with Johnny Farrell for third with a card of 292, one stroke behind Macfarlane and Jones, the leader.

What has Heinie Manush of the Tygers batted during his major league career?—F. G. H. In 1923 Manush hit .884; 1924, .280 and in 1925, .803.

What was the score of the championship match between Bobby Jones and Watts Gunn in the national amateur golf tournament at Oakmont last year?—D. F. G. Jones won, 9 and 8.

## French & Volkert ARTESIAN WELLS

Test drilling for foundations, water systems, pumping machinery, blast hole drilling. P. O. Highland Park, Conn.

Twenty Trips to TREASURE ISLAND for 15 cents

When you light an OLD GOLD cigarette you're transported to a new world of cigarette enjoyment. A hitherto undiscovered treasure land of cool and fragrant tobacco satisfaction.

But the greater delight you get out of a superior product is neither an accident nor a mystery. Its every virtue has a bed rock basis.

OLD GOLD is a better cigarette because

[1] It's cooler  
Heavier, coarser leaf has been discarded for lighter and finer leaf.

[2] It's smoother  
A new-day method takes out all the harshness in the tobacco.

[3] It's more fragrant  
Only the pick of the choicest Turkish and domestic tobaccos.

Don't linger longer in the harbor of ordinary cigarettes. There's a treasure of new pleasure in every pack of OLD GOLDS. Set your sail for it today; a sale that at any counter will cost you only 15c.

**OLD GOLD**  
The Dawn of a Better Cigarette

FLAPPER FANNY says

When a girl's eyes get dreamy they need looking into.

SENSE AND NONSENSE

Automobile tires are higher in price and so are numerous other things, but talk is just as cheap as before.

When the tourists and pleasure seekers are all supplied with good roads it is supposed freight travel and pedestrians may be looked after.

Cranks are out of date. Self starters are in demand.

"Is the motor-car an asset to the church?" inquires a religious paper. Well, of course, it brings a good deal of business to the churchyard.

Caller: Won't you walk with me as far as the car, Tommy? Tommy: I can't. Caller: Why not? Tommy: 'Cause we're going to have dinner as soon as you go.

It won't be long before they'll be turning the Stop, Look and Listen signs so the engineers can see them first.

Here lies a boy Who was full of nerves Kept his arm round her waist When he went around curves.

In one of these new straight eight machines one can get away much faster, and with much more.

Why is it that a guy who obeys the traffic rules will never starve to death?

Shoot. Because every time he turns a corner he has a "hand out."

You can tell whether it's a new car or a paint job. A new car will miss you by two feet.

Still, it isn't at all glorious to die defending your right if the other driver is a road hog.

It was at the scene of an automobile accident. An elderly old lady in one of the first cars to be stopped by the debris of the smash-up leaned from her car as a very much battered man, with a hastily arranged bandage around his ankle hobbled by.

"Oh my," she said, "did you hurt your ankle?" "Naw," replied the man, "I lost both eyes. This bandage slipped down."

The highest compliment a man can give a girl is that he would miss her almost as much as he would his auto.

Try and Get Me Out. "Ashes to ashes, Dust to dust, Get out that parking space, I saw it fust."

If the Prince of Wales wants to do something new to get publicity he might try falling off a kiddie car.

"If you try to beat that train to the crossing," said Ella to Henry, "I'll not ride with you again."

And Ella did not ride with Henry again. A pessimist is one who looks both ways before crossing a one way street.

Doctor (examining unconscious engineer): Did that automobile hit this engine? Fireman: No, the driver slowed up to let the train go by and the engineer fainted.

The old toll gate has nearly passed, but the highways still take their toll.

THE CHANGING YEARS. "You saw that play? What did you think of it?" "Oh, I liked it, but really, it is hardly a play to which a girl could take her mother."—Answers, London.

GAS BUGGIES or HEM AND AMY—Gabble! Gabble! Gabble!

MRS. HATTIE HOOK, AMY'S POOR COUSIN FROM PUGET SOUND, IS SO CONSCIOUS OF HER POSITION THAT SHE IS CONSTANTLY TRYING TO STRENGTHEN IT BY THINKING OUT LOUD, AND ACCIDENTALLY TOUCHES UPON A SUBJECT ABOUT WHICH MRS. EDWARD PLOP HAS BECOME QUITE SENSITIVE RECENTLY.

BLANCHE, I'D LIKE YOU TO MEET MY COUSIN HATTIE HOOK WHO IS HERE VISITING US FROM THE CITY OF DESTINY ON PUGET SOUND! HATTIE, THIS IS MRS. PLOP!

HOW DO YOU DO, MRS. PLOP! I'M GLAD TO MEETCHA. MY HUSBAND IS HERE CONFERRING WITH HEM ABOUT OUR PACIFIC COAST AGENCY FOR PETRIFIED GAS.

A AGENCY?!—PACIFIC COAST?! MY GRACIOUS! I DIDN'T KNOW THEY WERE SO FAR ALONG IN THEIR PLANS. WE ARE STOCKHOLDERS IN THE COMPANY, YOU KNOW!

OH, WE HAVE STOCK IN THE COMPANY TOO! WE DIDN'T TAKE A GREAT DEAL, AS WE'RE USING OUR CAPITAL TO HANDLE THE AGENCY. OUR PROFITS FROM THE AGENCY WILL BE MUCH LARGER THAN THE STOCK PAYS, OF COURSE!

I HOPE SO, AS WE HAVEN'T RECEIVED ANY DIVIDENDS SO FAR! BUT I CAN SEE NOW WHERE EDWARD MADE HIS MISTAKE WELL! MUST BE GOING --LATE--

HERE ARE YOUR PURCHASES! THE HATS, GOWNS AND ALL--DO YOU WISH TO PAY BY CHECK OR--

YOU CAN CHARGE THEM TO MY COUSIN HERE, I'M FROM OUT OF TOWN AND DIDN'T BRING MY CHECK-BOOK WITH ME. WE'LL STRAIGHTEN IT OUT LATER ANY. WHEN HORACE SETTLES UP ABOUT THE AGENCY.

OH! --UN-ER-- WELL--ALL RIGHT!

SKIPPY

ASK WANDA IF SHE EVER READ THIS BOOK?

PEARL SAYS DID YOU EVER SEE THIS BOOK?

OH, THANK HER AND ASK HER IF SHE EVER CAME ACROSS THIS?

SHE'S GIVIN' YA THIS.

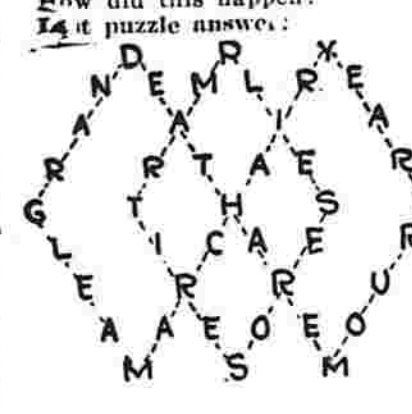

GENTLE-PIEN PREFER BLONDES

DARK LAUGHTER

by Swan

A PUZZLE A DAY

A big crowd was expected at the ball park, as Babe Ruth was scheduled to play. And Bob, who sold popcorn and peanuts to the fans in the bleachers, determined to have a plentiful stock of each. So he bought 150 bags of peanuts at four for a dime, and the same number of bags of popcorn at six for a dime. But the game was called off on account of rain. To save trouble, Bob decided to sell out at cost price. So he mixed the stock together, and sold it at the rate of 10 bags for 20 cents to another vender. But instead of coming out even as he anticipated, he lost money on the transaction.

Here is the completed word puzzle. The three interlocking diamonds are formed by 12 five-letter words, the central letter being part of four words, the corner letters part of two. The 12 three-letter words hidden in the middle of the five-letter words are as follows: ran, eat, sea, arc, ram, lie, ire, ore, air, ear, are, our.

WELL WELL!

Groom—Have you kissed the bride? Best Man (absently)—Oh, yes, hundreds of times.—Life.

WHICH WAS NO BULL.

"I wrote to the paper to find out how long cows should be milked." "And they said—" "Just like short cows."—Goblin, Toronto.

**ABOUT TOWN**

Fred Jackson of the Pinehurst Grocery is taking his vacation and with Richard Bell and Jerry McNamara of the Capitol Buick Company, is headed for Kansas City.

State Agent Harvey, who issues working certificates, will be at Superintendent Verplanck's office in the High school at 1 o'clock Tuesday, July 27, instead of Monday, July 26.

The local Red Men will observe the raising of the chiefs tonight in Tinker hall. Deputy John Leahr of Hartford will be present. Refreshments will be served after the degree work. The meeting will start promptly at 8 o'clock.

Mrs. John Rickert and daughter of Brooklyn, N. Y., and Mrs. Charles R. Wheeler of Oakland street are spending a short vacation in New Haven as guests of Mr. and Mrs. Joseph Garvey. Later in the week they will be joined by Mr. Rickert who has just returned from Michigan and will motor over the Mohawk Trail.

Mrs. Fina Anderson and daughter Esther and son Alfred of 29 Cooper street are spending two weeks at Grove Beach accompanied by Mrs. Fred Lave and children of Foster street.

Mrs. Catherine Palmer of Stamford is visiting her daughter Mrs. Earl Wheeler of Oakland street.

The Hartford District of the Southern New England Telephone Co., is giving its employees an outing at Crystal Lake today. Many of the local employees are with the party.

Miss Lillian F. Clifford, of 41 Foster street, is at the Memorial hospital where she will undergo a minor operation tomorrow.

Miss Bertha Stevenson of Cambridge, Mass. is the guest of her cousin, Mrs. Bertha Page of Ridge street.

Mrs. W. T. Morton of Hudson street is making an extended visit with her parents' home near Philadelphia.

Thomas F. Moriarty, clerk at the Manchester post office has been spending a portion of his vacation at the Sequel-Centennial.

Mr. and Mrs. William Bray of 13 Wadsworth street are entertaining Mr. and Mrs. E. Bennoway and the latter's sister, Miss Hubbard, all of London, England.

Alexander Hall of Apol place is visiting his daughter, Mrs. W. H. Bradley of Brattleboro, Vermont.

Mrs. John McCann of Ridge street is visiting relatives in Boston, Mass.

According to the weekly report sent out by the State Department of Health, Manchester has a clean bill, except for three cases of whooping cough.

The Rev. Chester F. Austin of the Church of the Nazarene has gone to Waterville, Vt. for his vacation. His place in the pulpit will be taken by Robert Bulla, class leader.

A setback party will be held at the West Side Rec tomorrow afternoon at 2-15. The Saturday evening whist parties have been discontinued for the summer.

A basketry class will be held at the West Side Rec tomorrow at 1:45 and tennis lessons will be given at the East Side at 8:30 tomorrow evening.

**DEATH OF MRS. HENRY ROLSTON**

Mrs. Jane Crawford, widow of the late Henry Rolston, died at the home of her daughter, Mrs. Thomas W. Tedford of 17 Hazel street about six o'clock last evening. Death was due to the infirmities of advancing years. Mrs. Rolston was able to be about until the last few weeks when she has been confined to her room. She was 77 years old.

She was born in Derryhubbard, Ireland and came to Quebec when a very young girl. Later she lived in St. Johnsbury, Vermont but has resided in Manchester for the past fifty-five years.

Her marriage to Henry Rolston was the first performed in the Episcopal church here. At that time the rector was the Rev. E. Knock Huntington and the place of worship was the old Masonic Temple that formerly stood at the Center.

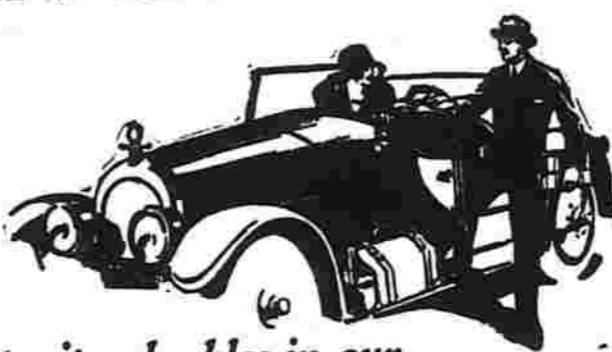

Mrs. Rolston was a member of St. Mary's Episcopal church since coming here and actively interested in its work while her health permitted. She was also a member of the Ladies' Guild.

She is survived by two daughters and one son, all of this town. They are Mrs. Tedford with whom she made her home, Mrs. Lillian Caverly and James H. Rolston, one grandchild, Howard C. Tedford and two great grandchildren, H. Carter and Donald C. Tedford, children of Mr. and Mrs. Howard C. Tedford of Springfield Gardens, Long Island, N. Y.

Mrs. Rolston was one of a large family of brothers and sisters of whom seven are still living: Mrs. Elizabeth Trotter, Mrs. William McCabe, Mrs. Thomas Dougan, William J. Crawford all of this town; and Mrs. Mary Whitworth, Mrs. Sarah Milroy and Andrew Crawford of Paterson, N. J.

Funeral services will be held at the home of Mrs. Tedford at two o'clock Saturday afternoon and from St. Mary's Episcopal church at 2:30. In the absence abroad of Rev. J. Stuart Neill, Rev. E. G. Reynolds of Glastonbury will officiate.

**REMNANTS**

**Ready Tomorrow**

Hundreds and Hundreds of Remnants at About 1-2 of Their Original Price

Try as we do to have as few Remnants as possible, (for Remnants to us means selling them in most cases less than cost), it is impossible for a Piece Goods Department of our size which is selling thousands and thousands of yards of yard goods every year not to have Remnants. Tomorrow morning we put on sale hundreds of Remnants which have been accumulated in the past spring season. This is the last big Remnant Sale we will have this summer.

Every thrifty housewife will find dozens of pieces in the lot which she can use at great savings. In the lot there are Remnants of smart spring and summer goods. Remnants of silks, woolen goods, practically all of the new wash goods including radio chiffon, rayon mixtures, voiles, broadcloths, suitings, percales, gingham and prints; as well as lingerie materials, cretonnes, curtain scrim, drapery materials, toweling and cottons.

Remnants—Main Floor.

**NURSERYMEN HERE ON ANNUAL OUTING**

Employees of the Burr Nurseries and affiliated companies of the Vanderbrook and C. E. Wilson nurseries, are enjoying an outing today. The annual get together of the Connecticut Nurserymen's Association is being held at Lake Compounce, Bristol, today. Practically all the local nurserymen attended.

Henry Gottschalk of Heath and Company, was chairman of the outing committee for the association. Clarence E. Wilson of this town is vice-president of the association.

OH, ALL RIGHT  
"It's all right, constable. I'm only filling my fountain pen." — S. Kasper, Stockholm.

**MRS. JACOB VENDRILLO.**

Mrs. Jacob Vendrillo, 85, a former resident of Manchester, who died in Kensington last night, leaves 50 survivors.

Mrs. Vendrillo was a resident of Manchester until little more than a month ago when she went to live with her daughter, Mrs. Elizabeth Lucoo of Kensington.

She was stricken with a paralytic shock two weeks ago and since that time had been unable to speak although she was conscious until the time of her death. Her husband died 39 years ago.

She is survived by two sons, Pasquale of this town, Camillo of New Britain, three daughters, Mrs. Lucia of Kensington, Mrs. Rose Mascola and Mrs. Gertrude Scola of New Britain. She also leaves 28 grandchildren and 17 great grandchildren.

Funeral arrangements had not been completed today.
