**Joseph Montit of Earl Street
Has Possible Fractured
Skull; His Companion
Also Injured.**

Joseph Montit, 32, of 5 Earl street, is in the Memorial hospital with a possible fractured skull, suffered in an accident in which his Ford sedan crashed head-on into a southbound Green trolley car near Lilley street last night. Frank Fuchetti, 26, his brother-in-law, who was riding with him, sustained cuts and bruises but is not seriously hurt.

Condition Critical. Both were taken to the hospital where it was said that Montit's condition is critical. Both were resting more comfortably today, however, Montit was unconscious when taken to the hospital but Fuchetti was able to walk in. The latter, on seeing his blood-covered face in a looking glass, it is said, fainted.

Rumors prevalent throughout the town last night and today were to the effect that both of the men were killed.

The Montit automobile was going north on Main street and was just past Lilley street when it swerved to the trolley tracks and struck the street car, which was going south, head on. The sedan was wrecked and part of it was lodged beneath the wheels of the trolley car.

Montit was picked up unconscious but his companion still had his senses. Both were rushed to the hospital.

Policeman on Car. Only a few passengers were on the trolley car, one of them being Supernumerary Policeman George Harrison, who was riding with Motorist Mohr in the vestibule. Officer Harrison's clothing was slightly cut up but none of the passengers were hurt. Motorist Mohr was relieved from duty immediately.

It was said by witnesses at the scene that there were no other automobiles in the immediate vicinity at the time of the accident.

Sergeant John Crockett and Officer Harrison investigated the crash.

**RICH MANUFACTURER
IS SUED FOR DIVORCE**

Bridgeport, Sept. 27.—Thomas W. Brander, wealthy manufacturer with a brush factory and summer home in Bethel, must pay his wife, Marie Irene, the sum of \$25 a week pending trial of her suit for divorce on the ground of intolerable cruelty. Judge Arthur F. Ellis so ruled in the Superior court here today.

Mrs. Brander recently brought the divorce suit, asking custody of her two minor children, and also sued to recover possession of Bethel real estate which she says Brander bought with her money. Mrs. Brander told Judge Ellis that her husband has an income of at least \$25,000 a year has two automobiles and keeps three servants. She also said that her husband's only occupation now "is playing bridge at the Lambs Club in New York."

The question of obtaining custody of the children has been decided temporarily by the Bethel Probate Court which last week ordered them in care of Mrs. Brander.

**LANDIS ANNOUNCES
WORLD SERIES RULES**

Chicago, Sept. 27.—The regulations for the 1926 World Series and the eligible players on Cardinals and Yankees were announced here today by Judge K. M. Landis, baseball commissioner.

The schedule calls for the playing of the first, second, sixth and seventh games at the Yankee stadium and the third, fourth and fifth games at Sportsman's Park, St. Louis.

Game time will be 1:30 standard time throughout the series except for the Sunday game at New York which will start at 2.

The regulation provides that in case of the postponement of a scheduled game or in the case of a game called before it becomes a regulation game, the game shall be played off on the grounds for which it was originally scheduled before the succeeding scheduled games for other grounds and that the dates assigned for subsequent games shall be moved forward as may be necessary.

The series will open at New York on Saturday, October 2.

HITS COAST OF ITALY.**

London, Sept. 27.—Cyclonic tempests which in the past week have wrought havoc in various parts of the world today struck the city of Brindisi on the eastern coast of Italy, according to a Central News dispatch from Rome.

The winds have caused tremendous damage, it was stated, and accompanying floods have isolated several sections. Many casualties are feared. Brindisi has a population of 26,000.

**RECTOR GUARDED

**Rev. Dr. Hall Had Sleuths
to "Protect Him from
Members of Family."**

Somerville, N. J., Sept. 27.—Governor Al Smith of New York was asked today by Special Prosecutor Simpson to direct the legal machinery of New York state to force Walter R. Burnley, a private detective, to reveal why the Rev. Edward W. Hall hired him as a guard.

Detective's Story. Burnley, who lives in New York City, told Prosecutor Simpson he was employed by Dr. Hall to "guard him from annoyance by members of his family." He said his employment began several weeks before the murder of the rector and Mrs. Eleanor R. Mills. The detective refused to reveal the motives that prompted Dr. Hall to take such an unusual step. He took refuge behind a provision of the New York state statutes which prohibits a private detective from divulging the nature of any work done for a client without the permission of the client and of the state comptroller.

Asks State to Probe. Simpson requested Governor Smith to cause State Comptroller Vincent Murphy, of New York state, to investigate Burnley's statements. Senator Simpson may call Burnley as a witness at the trial of Mrs. Frances Stevens Hall, her brothers, Willie and Henry Stevens, and Henry De La Bruyere Carpenter.

Burnley admitted to Senator Simpson that Dr. Hall had paid him large sums of money to watch his enemies. Three detectives, it was said, were hired to work eight-hour shifts to guard Dr. Hall. In view of this fact, it is believed, one of the guards may have been at the murder scene.

**Girl Leaps from Window
Crucifix Clashed to Breast**

New York, Sept. 27.—With a crucifix clasped to her breast, Dorothy Smith, 23, of Holden, Mass., a cloak model out of work, fled to the window of a fourth-floor apartment at 115 East 89th street today and leaped to the brick-paved yard. She was found dying.

She jumped, she said, when three men entered the room where she was sitting with a friend. It was the apartment of Francis Murphy, 22, a broker.

The shattered silver crucifix was found beside the slender form of the girl.

Both her legs were broken and physicians said she may have sustained a fracture of the skull. She was removed to Reception hospital where doctors said she may die.

Murphy was arrested. So was John J. Fitzpatrick, 24, also a broker, who was in the apartment with Murphy when the girl leaped. The three men who are said to have burst into the place were not found.

**Mrs. McPherson and Two
Others to Have a Preliminary Hearing.**

Los Angeles, Calif., Sept. 27.—Almee Semple McPherson, noted woman evangelist, Mrs. Minnie Kennedy, her mother, and Mrs. Lorraine Wiseman-Sellaiff will have their preliminary hearing today on charges of criminal conspiracy to defeat justice and preparing false evidence.

The Charge. Mrs. McPherson and her mother are accused of arranging with Mrs. Sellaiff to produce a "Miss X" as the companion of Kenneth G. Ormiston, former radio operator at Angelus Temple, at the Carmel cottage while District Attorney Keyes will attempt to show that it was Mrs. McPherson who occupied the cottage while her followers were mourning her as drowned. Mrs. Sellaiff has charged Mrs. McPherson with offering her money to find a "Miss X" Kennedy.

Story Doubted. Ever since Mrs. McPherson appeared out of the Mexican desert several months ago, claiming that she had been kidnapped by a man and woman her story has been under fire for days; it was thought she had been drowned while swimming at Ocean Park, but her sensational reappearance caused even more of a furore.

**That Is Opinion of Police;
All Avenues of Escape Being
Guarded Today; Expect
an Arrest Soon.**

Bridgeport, Conn., Sept. 27.—Albert Ferreria, wanted here for the murder of Mrs. Elizabeth Nichols, of Milford, is in hiding in this city waiting a chance to reach a steamer that would carry him to Italy, in the opinion of local police.

Until the man is caught the only step to be taken in the case is an inquest by Coroner John J. Phelan and that is set for tomorrow morning at 9:30.

Police have gathered evidence that indicates Ferreria was manager of one of an extensive chain of lunch rooms owned by Mrs. Nichols here, in Stratford, Devon and Milford, and she had given him two weeks' notice to quit his job. Her visit to the lunchroom in Stratford where the slaying occurred Saturday is believed to have been to pay the man his last salary from Mrs. Nichols.

Slayer Disappears. Ferreria rode into the east end of Bridgeport on a local coal truck as soon as Mrs. Nichols was stabbed, and disappeared. Fellow countrymen who are numerous in Bridgeport are believed to be hiding the man. Police say that every avenue of escape has been guarded day and night since the murder occurred and they believe the man's arrest is a matter of but a few hours.

**DEMOCRATS KICK
MECHANICS ARE
REPUBLICANS**

Stamford, Sept. 27.—John A. Walsh, chairman of the Democratic town and city committee here, has written the Stamford Board of Selectmen under the date of September 25, protesting against the appointment of Harry N. Smith and Walter C. Austin as mechanics to prepare the voting machines for the coming election. Mr. Walsh contended that both men were recommended by the Republican organization and that their appointment was unfair and "to the prejudice of the Democrats."

Mr. Walsh's letter served notice on the selectmen that the Democratic party will insist upon a recount of votes after the coming election because of the services rendered by Smith and Austin.

The Selectmen went into session today when the Walsh letter reached them and decided to pay no attention to the protest, sticking to their original appointments of the two men as voting machine mechanics.

**SMITH IN CONTROL
OF N. Y. CONVENTION**

Expect No Fight Among Delegates; State Issue Named; Dry Issue Up.

Syracuse, N. Y., Sept. 27.—With plans perfected to renominate Governor Al Smith, the Democratic state convention got under way here in the arena at 12:07 o'clock today.

The opening session was an hour late in getting started due to a meeting of the state committee of which Edwin Corning of Albany was re-elected state chairman. As the convention opened it was learned that fights over two plans on the state ticket had been promptly squelched by Gov. Smith.

The convention recessed until eight o'clock tonight after being in session less than three-quarters of an hour.

SMITH IN CONTROL

Syracuse, N. Y., Sept. 27.—Governor Al Smith was in complete control of the Democratic state convention which was to get underway in the arena today.

A pre-convention fight which cropped out over two places on the state ticket was promptly squelched by the governor.

Democratic leaders predicted the convention would be turned into a "love feast" for the governor.

Completely recovered from his recent illness, the governor sat in conferences with the leaders and the early hours of this morning discussing the ticket and the platform.

He declared for "law enforcement" and virtually pledged his party to adopt a state enforcement law if the wet-dry referendum in November reveals that the drys outnumber the wets in New York.

This was a distinct concession to the drys, who have been angry and insurgent over the pronounced wetness of Senator James W. Wadsworth, who is the undisputed Republican leader of the state.

It was the other speech, November referendum returns a majority in favor of prohibition. Representative Mills said "it will be the duty of our elected officials to obey the mandate of the people, and take all appropriate steps to present the views of our people to the nation and to the national government, and, if possible, persuade them to accept our solution."

To Follow Platform. Mills declared New York Republicans could do little better than to follow the Republican national platform of 1924 on the prohibition issue. He quoted: "We must have respect for law. We must have observance of law. The very existence of government depends on this. The substitution of private will is only another name for oppression, disorder, anarchy and mob rule."

Spencer Nominated. Hartford, Sept. 27.—Samuel R. Spencer of Suffield, was unanimously nominated as Republican candidate for state Senator from the Seventh District at a convention held this morning.

His name was presented by Hugh M. Alcorn, state's attorney, and on motion of James E. Connor, the secretary cast one ballot for Mr. Spencer. Former State Senator Howard A. Middleton of East Windsor, was elected chairman and Fred W. Morgan of Windsor, was clerk. Mr. Spencer is a member of a well-known Suffield family and has long been prominent in both town and state legislative affairs.

He was graduated from Yale University and has served as town treasurer and was twice in the lower House of the state legislature.

**Flyer of Jersey Central
Smashes Into Buffalo Ex-
press at Station Near
Bethlehem, Pa. — Only
Few Bodies Have Been
Identified.**

Bethlehem, Pa., Sept. 27.—Nine persons were killed and twenty-one injured when the "Binghamton Flyer" of the Central Railroad of New Jersey crashed into the Buffalo-to-New York express train at the Lehigh Valley road here today.

The accident occurred at 5:55 a. m. as the Lehigh train was pulling into the station here.

The tracks of both roads converge at a "Y" angle at this point. The "Binghamton Flyer" struck the second coach of the Lehigh Limited squarely, tossing it, three other Pullman cars and a diner of the track.

All of the dead and injured, with the exception of the engineer of the Flyer, were on the Lehigh train.

The dead. Hugh McGee, 60, Allentown, Pa., brakeman on the Lehigh train. Crushed beneath an overturned car. George Gevener, New Haven, Conn. David Baum, believed from Wilkesbarre, Pa.

D. J. Shovlin, address unknown. He carried in his pocket an Ingersoll Rand Company Club card.

Five unidentified dead. Identification of the dead proceeded slowly. The rescue crew rushed here from Easton, Pa., had to burn through the steel cars to reach the bodies, several of which were badly crushed.

Railroad men said the casualty list would undoubtedly have been much higher were it not for the fact that the cars were of steel construction.

Bethlehem, Pa., Sept. 27.—From nine to fifteen persons were killed and more than twenty injured when Central Railroad of New Jersey, Train Number 306, running from Scranton to Philadelphia, crashed into the Buffalo-New York express train Number 6 of the Lehigh Valley road 100 feet from the railroad station here today.

The accident occurred at 5:55 this morning. At 9 o'clock nine bodies had been removed and workers were seeking others in the wreckage, piled high on the tracks.

The Philadelphia-bound train smashed into the Lehigh Valley train with a terrific crash, overturning a day coach, a diner and three Pullmans.

The Buffalo-New York train was slowing down at the station for the stop when the other passenger train side-swiped it at an angle. The two roads come together here. It is at this point that the Central of New Jersey crosses over the four track system of the Lehigh road to connect with the main line of the Reading to Philadelphia.

Meet at Angle. The trains met from a "Y" angle. The Central railroad train came from behind and smashing in to the day coach of the express wrecking the diner and then hurling the three Pullman coaches from the track.

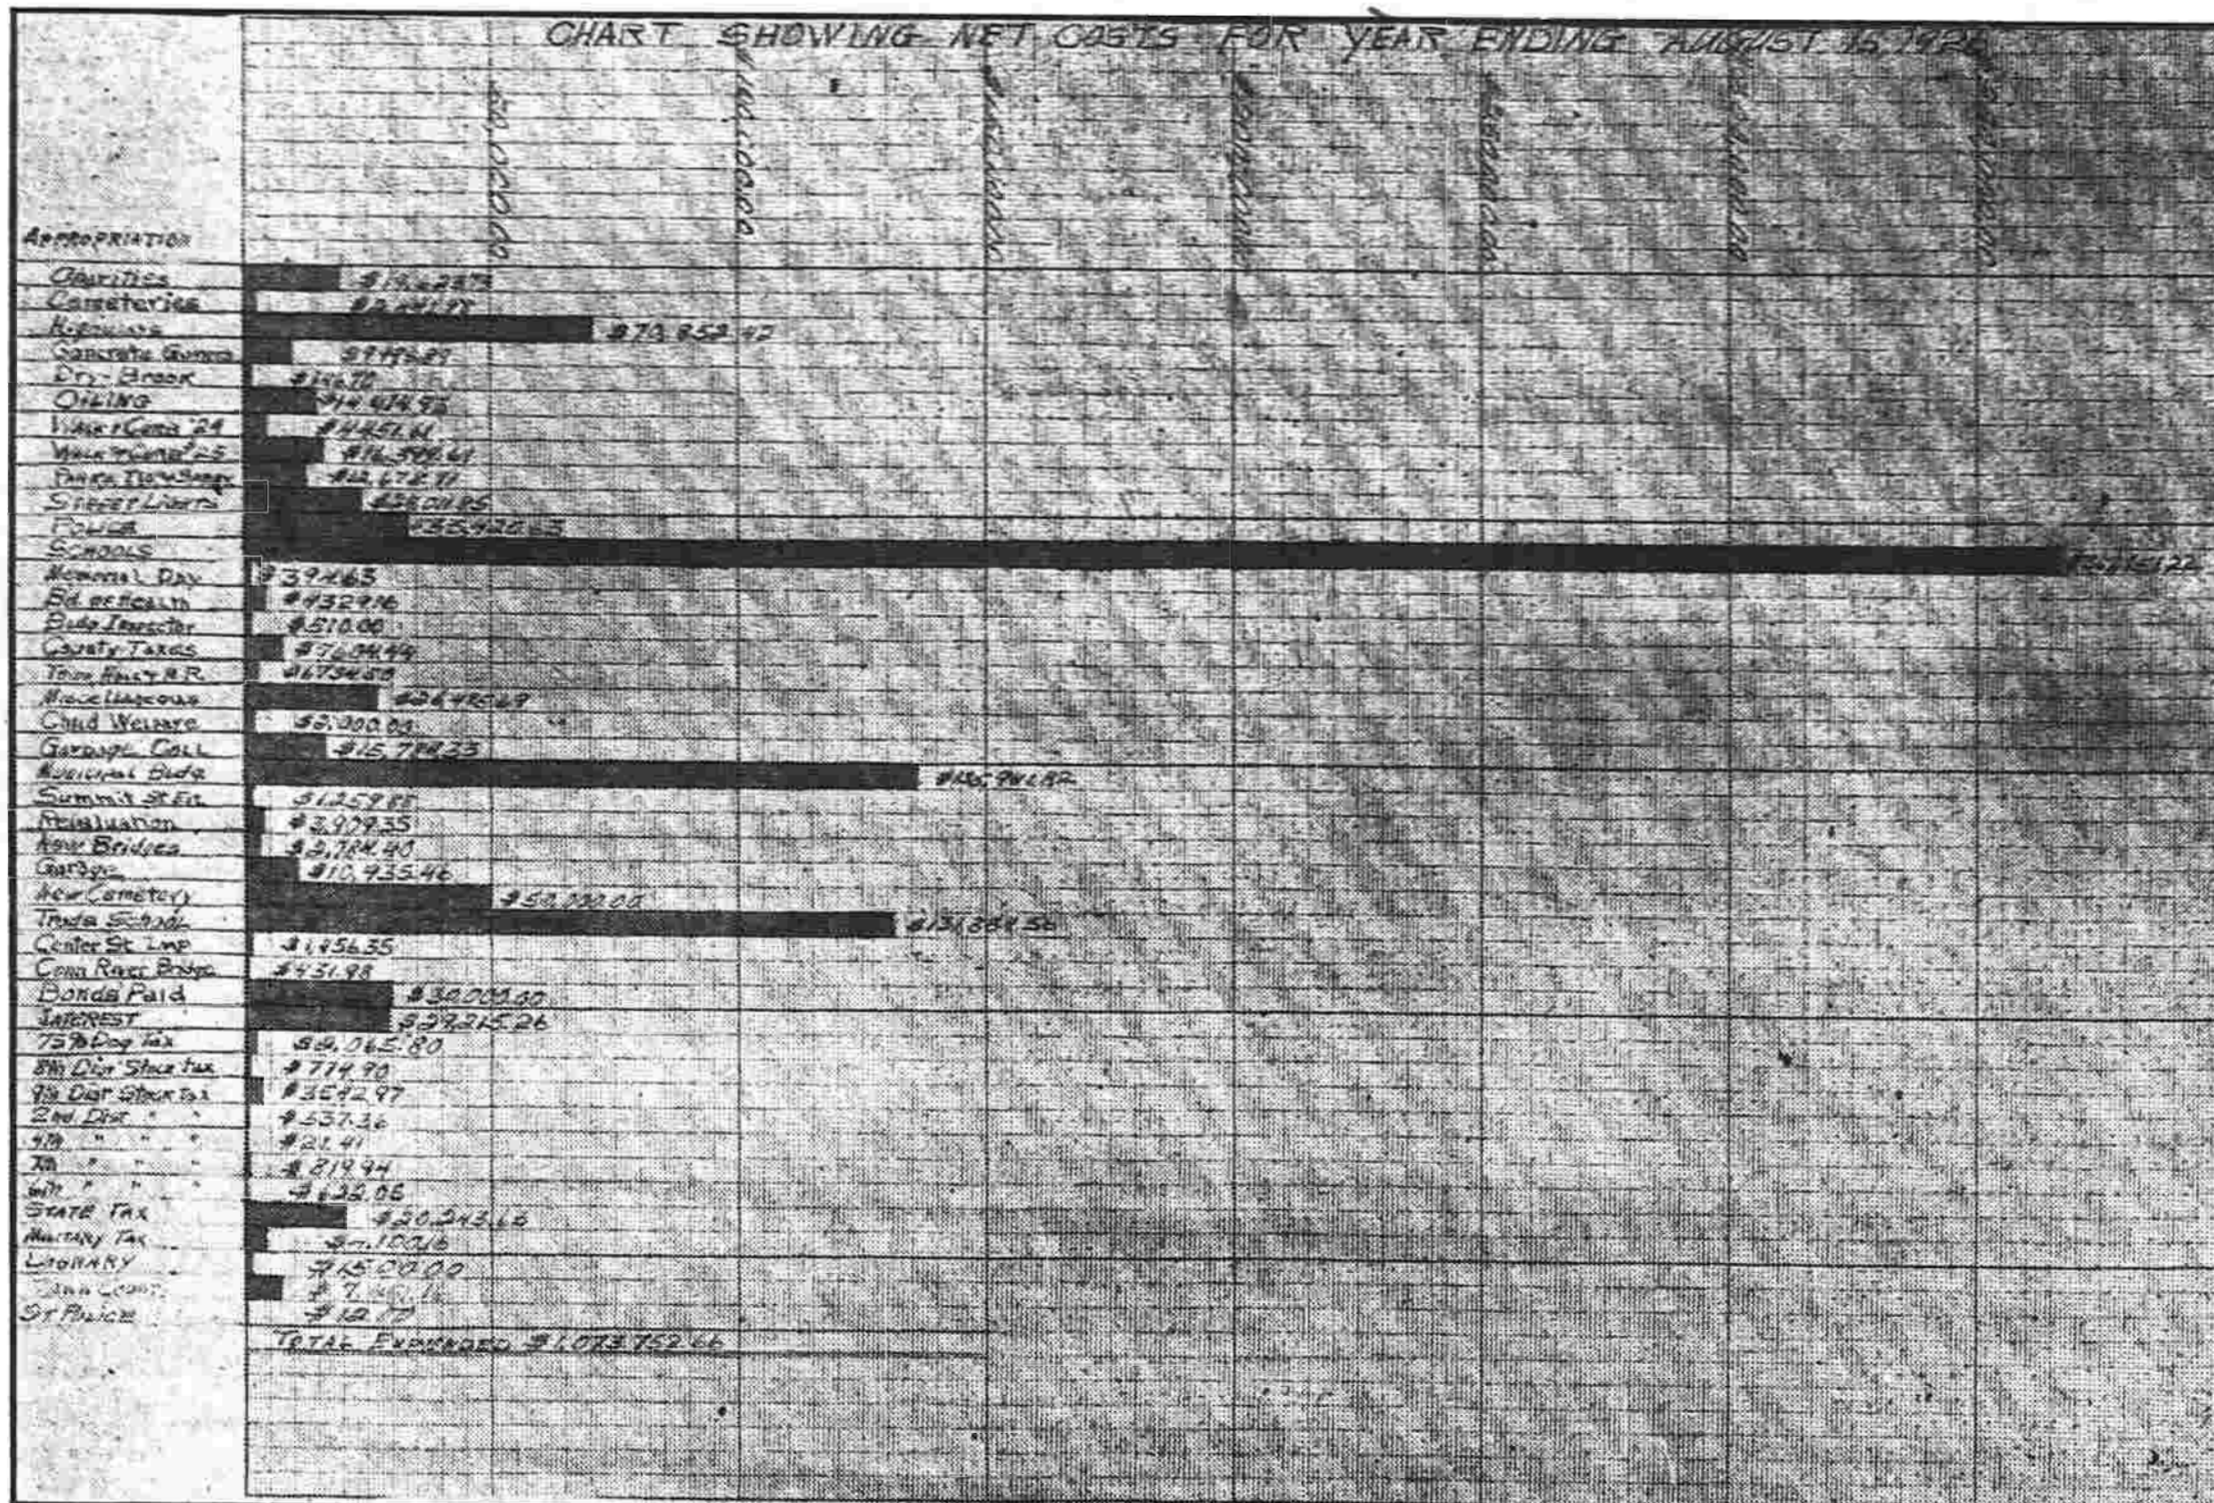

A huge hole was stove into the side of the diner and the day coach was badly wrecked. All of the coaches were steel. They turned over on their sides and buckled.

Many Asleep. All of the dead and injured were on the Buffalo-New York express. Most of the passengers were asleep at the time of the accident. After the impact there was a moment or two of silence, then groans from the victims pinned in the wreckage.

Calls for assistance were immediately sent out and wreckage crews were rushed here from Easton and Packerton.

At nine o'clock nine bodies had been recovered, none of which were identified. Rescue workers toiled feverishly with axes to remove the injured from the wreckage.

These Lines Show Taxpayers Where Town's Money Goes

For the convenience of Manchester's taxpayers, Town Treasurer George H. Waddell has prepared a large chart which shows in a most graphic manner just how the town's money is spent. The Herald today presents a photographic reproduction of the chart so that its readers may have a chance to see it before attending the annual town meeting on Monday night, October 4.

Budget appropriations will be approved at this next meeting, and since these appropriations govern the tax rate, the present Board of Selectmen is doing everything possible to induce voters and taxpayers to be present and voice their opinions on town expenses.

This chart shows the net costs of various items to the town in proportion. The longest line represents schools. This expense alone is three times that of any other annual cost. The two lines next in size to that of schools are Municipal Building and Trade School. Since these are temporary costs the next one to consider is the line, third from the top, marked Highways. At a glance taxpayers can see how difficult it is for the Board of Selectmen to whittle down the tax rate when the biggest item in the budget, that of schools, is practically beyond the board's control.

School costs for this coming year have been definitely determined and for that reason nothing can be taken from that item in the proposed budgets for next year.

MONEY IS NEEDED TO HELP HOMELESS

Chairman Anderson Asks Local Persons to Send in Their Contributions.

Even though the whole country is helping the homeless in storm-stricken Florida, there is still need of contributions, Chairman R. K. Anderson, of the local Red Cross Chapter, announced today.

Letters received from John Barton Payne, of the national body, says that the Chamber of Commerce of the United States, the Federal Council of Churches and the United Jewish organizations were working valiantly to aid the Red Cross to raise funds.

Mr. Payne says that a survey made in the storm area finds that 4,325 homes were totally destroyed and 9,250 damaged.

Largely attended funeral services for Mrs. Charles O. Wolcott, a long-time resident of Manchester, were held yesterday afternoon at the home of her son, Frank M. Wolcott of Middlebury, Vt.

Friends of Martin Boy Suffer Mishap in Rockville After Getting Lost on Road.

Misfortune seems to follow the Martin family of Waterbury. Last night two automobiles containing friends and relatives of the 19-year-old youth who was severely burned by sulphuric acid in an accident at Woodland, came to Manchester to visit the boy at the Memorial hospital.

At Love Lane one of the drivers took the wrong road and continued on toward Rockville. He reached Windermere before he realized he was on the wrong road.

It was stated today at the hospital that the condition of George Martin is practically the same. He is still in a critical condition but is making a plucky fight for his life.

POOR CHARITY.

Quick, generous, even lavish giving of money to communities suffering the effects of great disasters has become an outstanding American characteristic.

There are a great many thousand persons in Florida who are destitute. No matter what it costs to feed, clothe and temporarily shelter them and to provide such of them as need it with medical care, that money will be well and wisely spent.

Certainly yes, if they are people who by right belong in Florida, who have any definite place or tangible hopes in Florida.

A great deal of the destruction in the Florida cities, particularly in Miami and the lake towns, was among the flimsy makeshift homes of these people.

It is really a very serious question whether any good is to be served by trying to put these folk on their feet in Florida.

The very best way to re-establish many of the families evicted by the hurricane would be to pay their railroad fare back to the places whence they came, for their own good, for the good of Florida and of the places where they were of real usefulness.

IN ALL FAIRNESS. Major Gerald C. Brant was one of the chief witnesses for Brig. Gen. William Mitchell last year in his court-martial at Washington.

for the government at the Mitchell court-martial. "I have known him for twenty-five years and I like him. I know he would lose his right arm before he would tell a lie," Major Gullion said at that time.

BRANT STOOD WITH MITCHELL. Evidently it hasn't cost him anything. Brant undoubtedly deserves the promotion, in the opinion of all who know him. His advancement is a tribute to the fairness of the American air service.

CONTRAST. Jack Dempsey, in last week's fist fight, may be rated as a complete casualty. The fact that he failed to pass out of the picture in consequence of one of his antagonist's punches merely contributed to the mass of damage heaped upon him.

Yet the hazard of any of these callings is greater than that of the prize fighter. Falling girders, bursting shells, colliding motor vehicles wear no boxing gloves, conform to no rules against hitting below the belt or delivering rabbit punches.

Mr. Dempsey gets as much profit in forty minutes for being socked on the countenance as a hundred in a lifetime more useful persons, running ten times his risk, can accumulate in their hundred lifetimes.

JAZZ FOR THE FARMS. Senator Arthur Capper of Kansas in a recent speech, declared that the only way to keep young men on the farms is to make farming pay.

Along this line a very interesting experiment was tried out this fall at the southeast Missouri district fair, at Sikeston, Mo.

Perhaps this looks like heresy, considering the staid lines along which county fairs have been inevitably cast, but just think it over. The farmer spends 12 months of the year with his corn, his hay, his cattle and hogs.

THE SKYSCRAPER CHURCH. In New York they are building a skyscraper church. The structure will tower some 20—or is 30?—stories high. It will have apartments, offices, stores to rent.

That church will prosper. Little doubt about that. It will never have to give chicken pie suppers to make up a deficit in the pastor's salary.

can't escape it. We even apply business methods to our religion. And if we sometimes measure the success of a church by the size of its building and the state of its funds—well, that's only natural.

MR. PENN WAS RIGHT. William Penn advised the colonists to plant trees in one acre in every five. When he said it the country was woods, and not much else, and Penn's advice sounded foolish.

One of the first post-hurricane messages to be sent out by the mayor of Miami is that "magic city" will be able to take care of its tourist business as usual this winter.

DAILY POEM HELP WANTED Sure! Jimmy's takin' his 'tary, an' he likes it kinda well, except for questions teacher asks that Jimmy cannot tell.

There's a real relief, in recess time, when kids 'er runnin' loose, 'causin' Jimmy seems to know the proper way to raise the deuce.

Stewart's WASHINGTON LETTERS

BY CHARLES P. STEWART Washington, Sept. 27.—Just how much, if anything, the United States owes the American Indians for taking their continent away from them never will be settled, of course, but this much is certain:

It seems a modest sum for all of North America between the oceans, east and west, and from the Canadian line, in the north, to Mexico and the Gulf, in a southerly direction.

Wampum and Oil. Something has been paid on account to be sure, in wampum, in reservations and oil lands, in education and in civilizing influences.

The earliest claimants are the Creeks of Georgia, who accuse no less a personage than Andrew Jackson of robbing them of their lands in 1813, without just compensation.

Donation by Congress of millions of acres of land to railroads and other homesteaders, without regard for the original Indian owners' rights, is another ground of complaint.

When it comes to getting there persuasion beats inspiration. The time to keep cool over the coal situation is past. We must warm up to it before long.

Some people could say what they think and still be quiet. American jazz is invading Germany and she may demand that we pay her an indemnity.

All of them like to be fair and just, but just try telling one she is only just.

ETERNAL VIGILANCE OVERCOMES FRAUDS. Manchester Has Succeeded in Stamping Out the Fake Salesman's Products. This is the 30th article in a series prepared for The Herald by the Manchester Chamber of Commerce.

ETERNAL VIGILANCE OVERCOMES FRAUDS

Manchester Has Succeeded in Stamping Out the Fake Salesman's Products. This is the 30th article in a series prepared for The Herald by the Manchester Chamber of Commerce.

"Patience and perseverance will accomplish wonders." The truth of this ancient axiom had never a more striking illustration than in the present campaign of the Manchester Chamber of Commerce for the uncovering of fakes and frauds.

Nearly two years the Chamber has advertised their free investors' protective service to the Manchester public. For thirty weeks now, stories have appeared in The Manchester Herald covering all manner of fakes and frauds.

For months practically no response was received from the general public, but perseverance and patience have apparently triumphed over New England conservatism and individual secretiveness with the result that hearts and strong boxes are being opened and musty documents, long locked away, are being brought to light.

The purpose of the letter is to sell shoes at \$6.50 a pair. Varying reports as to the worth of these and if the coat is worth \$12.95 as they state, why should they throw off \$5.00 and give it to all alike for \$7.95?

There are many palpable fallacies and obvious inaccuracies in the letter which the authors would never have dared put into print if they had any intention of starting the manufacture of the patent. The following paragraph, an extract from the Boston Better Business Bureau's report, should be sufficient to convince anyone of the insincerity and absolute falsity of the claims put forth by the promoters of this project.

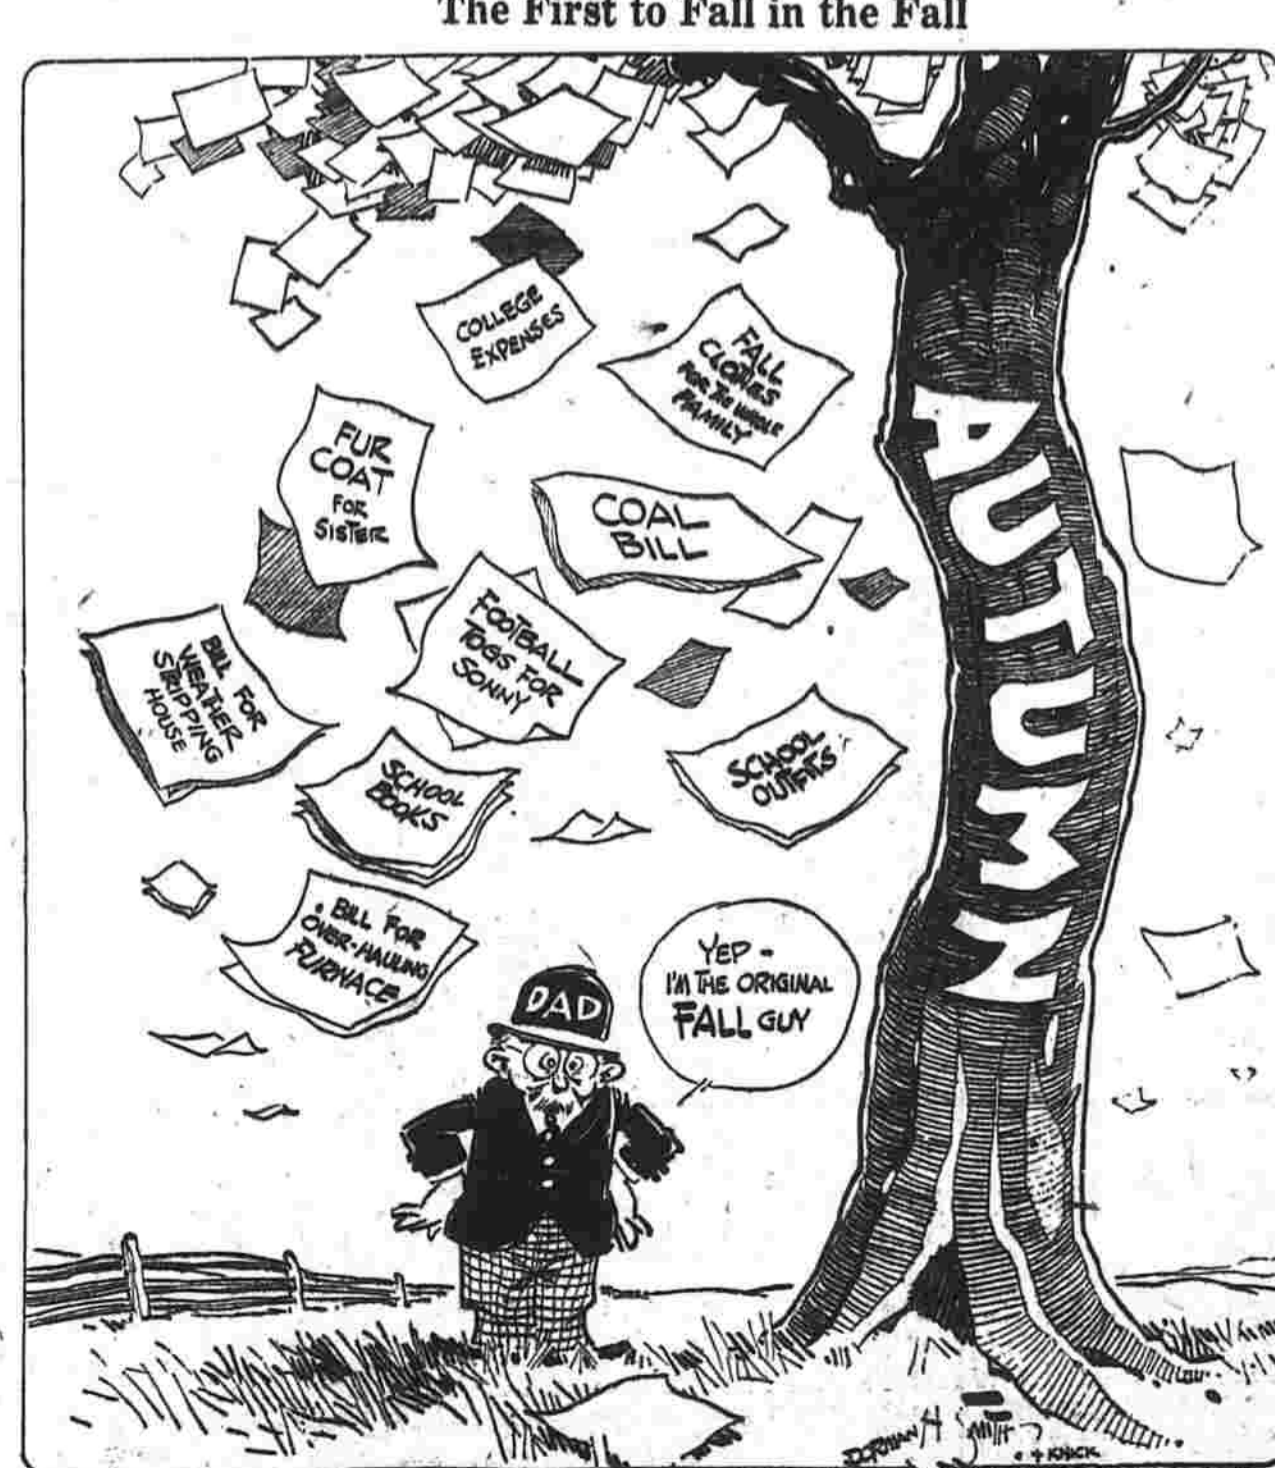

The offering involves a number of unusual features still under investigation. In the first place, the circular offers the opportunity to make \$20,000 within the next few months without investing a single penny.

Another place of literature has been received by many Manchester citizens in the form of a post card from the Clinton Towel Company, Clinton, Mass. This card is headed "Direct from manufacturer to YOU—at a saving, of 18 to 40%."

Anyone receiving these cards or similar advertisements are urged to justice to themselves and to the local merchants, to verify the prices before paying out their good money. Certainly the local merchant is entitled to an even break.

the abduction of a sixteen year old girl, and was convicted of a similar offense in New York City. Charles W. "Several years ago the Brooklyn branch of the organization was raided by the police, who arrested Duffin and held him under \$500 bail, charging that the "Rescue Home" maintained by Duffin was a fictitious charity, and that contributions of money, clothing and junk were sold for cash for the benefit of Duffin and the proceeds converted to his use.

Fokker Builds Big Plane With Sleeping Facilities

A giant airplane, multimotored, and providing sleeping accommodations for 35 to 40 passengers, is now under construction from designs of Anthony H. G. Fokker, well-known Dutch airplane designer and builder, who has recently taken out his first citizenship papers in this country.

A. H. G. Fokker.

This machine is designed primarily for flying in America, and may be used to inaugurate transcontinental passenger service between New York and San Francisco. In an interview given to NEA

Service by Mr. Fokker, at his American factory, Teterboro, Hageron Heights, N. J., he stated that he expected to bring the Pacific coast within 20 to 30 hours of New York for passengers.

"The fuselage of the giant airplane," said Fokker, "according to the present design, is being built in two sections, the upper section being made over into sleeping berths at night, very similar to the berths now used in Pullman cars. The lower section will be equipped with seats as in a railroad parlor car. The plane will be comparable in convenience to any first-class sleeping train."

The number of motors with which the plane will be engine has not been determined definitely, but there will be at least three, each of sufficient horsepower so that the plane can fly on one engine.

"It is possible that we may use more than three engines. I have found these multi-engine planes very successful for long distance flights. Lieutenant Byrd's epoch-making trip over the North Pole was made in one of my three Wright-engine Fokker planes which had been used for commercial demonstration work over 20,000 miles before it flew over the North Pole."

"Undoubtedly conditions in the United States are more favorable for the rapid development of the airplane as a means of transportation than anywhere else in the world."

"It is intended for use here, because I believe this is the only country in the world where it can be used properly and efficiently."

IN NEW YORK

New York, Sept. 27.—I've often wondered about those fellows who job it to sit in rubberneck wagons and thus give the impression to tourists that the seats are well filled.

The idea is this: the buses will not start without a proper crowd and a crowd seldom can be attracted to an empty bus. So "fake passengers" sit for hours and, encouraged by this sign, actual customers come up and fill the seats. Whereupon the "fakes" find reason for hurriedly leaving and walk over to another bus and sit down, repeating this hour upon hour, day upon day.

At times as I have passed them, sitting thus idly in the sun making pretended small talk with the new arrivals, it has seemed to me that perhaps this was the ideal job. Nothing to do but sit in a crowded section of the city and watch life go by. If, thought I, the time comes when my nerves begin to quaver or my health decline, I shall seek out this job and pass my time thus lazily in the open air.

All is not roses, however. The other day I found out something about them.

It came about because of a strike. The fake rubber-necks staged a walkout. They said they couldn't get enough to live on. They make \$2.50 a day for a 12-hour day.

That's always the way with those good jobs.

Prohibition, in addition to having started more arguments than any subject except religion, has spawned innumerable ramified businesses.

In addition to the main track of bootleggers, hi-jackers, rumrunners and such, more inventive minds have turned to cleverly contrived speakeasies, to secret stills and methods of extracting poison from wood alcohol.

Still there remained the danger of falling heir to poison or near-poison.

Broadway's latest sideline is the expert analyst. One big drug concern has privately gone into the analyzing business on a huge scale, so that tinkers may quit in perfect safety.

At first the business was limited to passing on bottles brought around by suspicious purchasers. Now it has spread to the night clubs and cafes where big spenders gather.

Analysts pass on the quality of the goods thus dispensed and it is now becoming the vogue to have an analyst on hand. Thus if a patron carries "his own" on the hip and sends the bottle to a side-room and await the verdict while pretending to sip his ginger-ale. Another place where drinks can be bought on the spot presents a purchaser with certificate of a reputable chemist, showing analysis has been made.

PROF. EINSTEIN MAY VISIT CALIFORNIA NEXT WINTER.

Pasadena, Cal. — Southern California scientific circles were greatly interested in the recent announcement that Dr. Albert Einstein, noted German scientist and the discoverer of the complex theory of relativity, may visit here next winter.

His visit here is contingent upon his health. Dean F. W. Hirth of the California Institute of Technology declared.

Einstein was invited to come to Pasadena and make use of the institute's facilities. Einstein planned to work with scholars at Mt. Wilson observatory, near here, and at the institute, who are conducting researches into Einstein's theory.

HE'S ALL AROUND. "How is it I never can find you when I want you?" asked the office manager. "First you're in the stock room, then in the factory, then down in the shipping department, and now here you are up on the roof. What's the big idea?"

"Well," answered the new office boy, "you advertised for an all-around boy—and that's me." Christian Science Monitor.

FREEZING POINT. "Perhaps it is best after all," remarked the rejected suitor. "A man of 25 would soon tire of a wife who hovered around the 32 mark."

"Why, Mr. Ardent," said the woman in the case, "how very un-gallant of you to insinuate I am 32."

"Well, perhaps you are not," he replied, "but it certainly struck me that you were somewhere around the freezing point." Scotsman, Edinburgh.

Dictator for Egyptian Women

Cleopatra never gained the fame with her people that Madame Charloni Pacha has won with her modernistic campaigns. She has brought about the legal equality of Egyptian women, put over a movement to discard the veil and designed the veil costume, which she is wearing and which now is the national head-dress of Egypt. She is coming to America soon to give a series of lectures on the Feminist Movement in the Orient.

USE VACUUM CLEANER ON CIRCUS ELEPHANTS

How Ringling Brothers' Circus uses over thirty Sweeper-Vac cleaners is a question that puzzles housewives who use a vacuum cleaner only on rugs, when they learn from the circus program that a large group of Sweeper-Vacs is part of the circus equipment.

But the Sweeper-Vac is an unusual cleaner and the circus people find plenty of use for it, cleaning not only cages and equipment, but also, according to the manager, cleaning even the elephants with Sweeper-Vacs.

Of course, the manufacturer's guarantee of lifetime service from every Sweeper-Vac means much to the circus management, for their cleaners get hard usage.

Many large office buildings and stores are also cleaned by Sweeper-Vacs because business men recognize the economy of buying a cleaner that never has to be replaced. When you purchase a Sweeper-Vac you receive the manufacturer's signed guarantee that you will never need to buy another cleaner.

It seems surprising that the Sweeper-Vac can be guaranteed for life, since it sells at a very moderate price, and does more house-cleaning than even the high-priced cleaners. It is the only vacuum cleaner that can wax floors. It alone has a vacuum dust mop. But the Sweeper-Vac is the oldest of all vacuum cleaners and naturally has the most improvements. And so many Sweeper-Vacs are sold that the price is kept low.

The Manchester Electric Company has a very interesting display of Sweeper-Vacs during their special sale this month. A great many people have stopped in to see it, and many are now using this cleaner in their homes.

"MANTRAP" AT STATE TODAY AND TOMORROW

Unusual Drama of Love in the Canadian Woods Adapted from Sinclair Lewis' Novel.

"Mantrap," which opened at the State theater last night brings to the screen both the dramatic power and the trenchant humor of Sinclair Lewis, author of "Main Street" and "Babbitt." The story, for the most part has an outdoor setting, the Canadian woods in summer, and is beautifully photographed.

Reversing the usual process from a flapper to a campfire girl is the step taken by Clara Bow in "Mantrap." Miss Bow begins as a typical jazzy flapper, working as a manicurist in a Minneapolis barber shop, whose job consists principally in kidding "butter and egg" men. Then along comes Joe Easter played by Ernest Torrence, the principal character at a Canadian trading post who has come to a "big city" for the first time in fifteen years.

He is so unusual that she suddenly, in a whim, "falls" for his outdoor ways and manly kindness. Before she knows it they are married and settled in the North Woods where campfires take the place of cabarets in furnishing an evening's entertainment.

Naturally a jazz flier can't be expected to entirely adjust herself to this environment—and Clara Bow doesn't. Percy Marmont, a young New York lawyer comes there because he wants to get away from women who are his principal clients in divorce cases.

But he finds himself enmeshed in a love intrigue with Miss Bow. How this brilliant story works itself out forms one of the most fascinating, most spectacular stories the screen has ever told.

Critics have hailed "Mantrap" as the most unusual love story in the history of the silver screen. It gets away from the beaten path of love stories. "It's different"—that's why it's good.

QUEER QUIRKS OF NATURE

Rare Ocean Specimens

By AUSTIN H. CLARK Smithsonian Institution

Even delirium tremens can scarcely conjure up anything more fantastic than these curious fishes.

They are found in all the oceans in deep water below the zone penetrated by the sunlight, where it is always darker than the darkest night we know and where it is always cold.

These strange fishes are all small, several kinds not even an inch in length. They are also very rare and very seldom caught. Many kinds are only known from a single individual.

Among these fishes the ladies rule with an iron hand. Those in the picture all are ladies. Their husbands have no rights at all; no freedom of any kind; they cannot live without their wives because they cannot eat.

The males are very small and live permanently attached to the sides of their burly mates. They have no mouth and no digestive system; they do not need them, as their blood supply is furnished by the female through an arterial connection.

They are known as parasitic animals, and among the backboned animals it is only in this type of fish that such are found.

KANSAS LEGIONAIRES ARE GETTING READY FOR PARIS. Ft. Scott, Kan.—With a large delegation already signed to take the trip to Paris to attend the American Legion convention there in 1927, Kansas legionaires consider the convention an established fact, despite the question that has arisen due to the recent anti-American feeling in France, according to Ralph T. O'Neill, state commander.

"So far from creating antagonism against Americans, I believe that the convention is apropos in point of time and in place. It will serve to better international feeling, and solve the bad impression that has been created by certain types of American tourists at a time when the French were sensitive to foreign feeling."

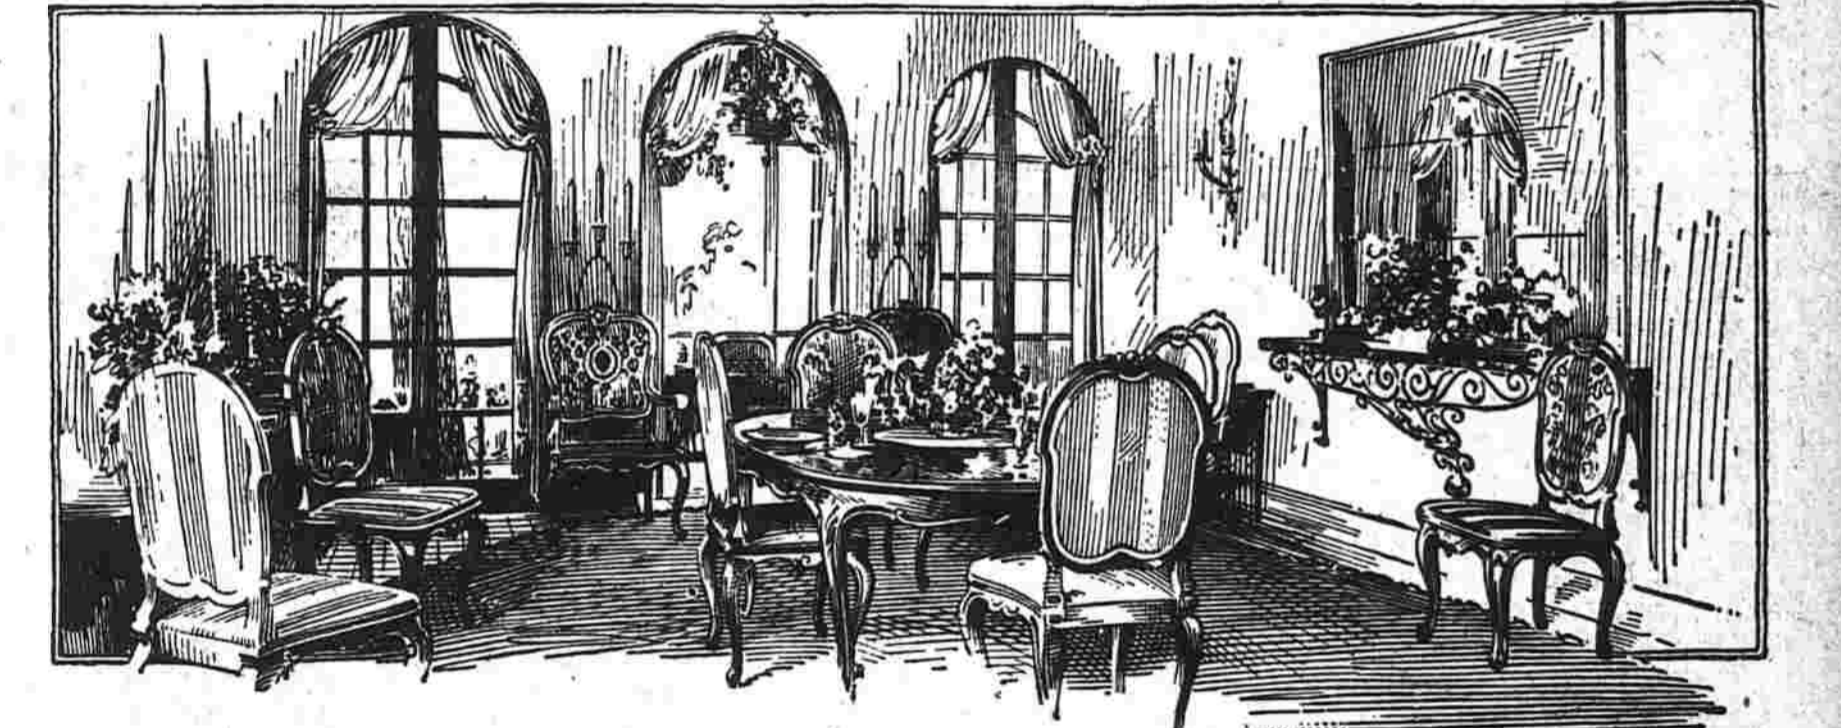

"The Kansas delegation will be heavily represented, and enthusiastically."

The Breakfast Room Which I Remember Best

"I HAVE traveled almost the world over. Have been the frequent guest in many beautiful homes in Europe and America. Have eaten countless breakfasts amid entrancing surroundings and prepared by exceptional cooks. But the occasions which I best remember are the breakfasts served in the sunny room here pictured. Breakfast to me is the ceremonial meal of the day. I want it in cheerful surroundings, with congenial company. I want inviting outlooks, flowers arranged by an artist, sunlight on the glassware. Then simple food served in the daintiest way. "But, above all, a royal cup of coffee. I have studied coffee from tree to cup to become a connoisseur. Exquisite coffee is to me the glory of a breakfast. They serve it always in this room—LaTouraine (Extra), brewed in the perfect way. They send a thousand miles to get it every week. "I have often drunk coffee in the Ritz in Paris, whose coffee is famed the world over. I have drunk it in English coffee houses where good coffee had its birth. But I give to La Touraine (Extra) the pinnacle place as they serve it in this room. No ordinary coffee will ever satisfy one who has tasted that supreme creation."—Extract from letter to the W. S. Quincy Company

Interesting facts about La Touraine (Extra) Coffee. The formula for this blend is a secret, carefully preserved. Coffee experts spent 20 years in perfecting it. No other blend has been made since the supreme result of 137 years of coffee development. It is the coffee served in many dining places famous for their coffee. In all Statler Hotels, for instance. In the magnificent Showland of Chicago. In countless country homes which study fine hospitality. The blend combines the four finest coffees that grow. Each comes from a different country, each is the pride of a nation. Each derives its excellent flavor from one of the rarest soils of the earth. Three of the coffees combined in this blend cost 50% more than ordinary coffee, and 25% more than San Paulo, the price coffee of Brazil. One is so rare that only 30,000 bags are grown yearly. La Touraine (Extra) is sold direct to retail grocers. This to save middlemen's profits. It is sold in double sealed cartons, not in cans. These and other economies—about 11 cents per pound—pay for the extra quality. Thus users get this matchless coffee without a fancy price. A gift to coffee lovers. Let us send you that coffee—La Touraine (Extra) to try. The coupon will bring a sample package free. Serve it two mornings as our treat. To you and yours it will bring a new conception of how good a coffee can be. Clip coupon now. Ten Cups Free. Mail this to W. S. Quincy Co., 291 Atlantic Avenue, Boston, for a 10-cup package of La Touraine (Extra) Coffee. Only one sample to a family.

THE ROMANCE OF AMERICA: Swamp Fox (5)

The rescued Continental prisoners were told by Marion of the defeat of Gates by the British at Camden. They were offered the choice of joining Marion's men or returning home.

The brazen deeds of the Swamp Fox so angered Cornwallis that he sent forces under Tarleton and Wemyss with orders to capture him.

Marion's scouts heard of the plan and told their leader. The Swamp Fox sent a bold band under Major James to reconnoiter.

Marion led his 200 men against the nearly 500 Tories. The Tories had an edge of the terrific struggle, but the little general, appearing suddenly in the thick of it, cried: "Advance cavalry and charge to the left!"

Afloat Again—After 7 Years

The dreadnaught Hindenburg, pride of the inactive Germany battle fleet during the World War, is afloat again after lying on the bottom for seven years—ever since it was scuttled with the rest of the surrendered fleet at Scapa Flow. This picture shows the ship just after British salvage workers had brought it to the surface.

MISS COLLETT LEADS THE WOMEN GOLFERS

Marion Cricket Club, Ardmore, Pa., Sept. 27.—Miss Glenna Collett, Providence, defending champion, took the lead today in the qualifying round for the national woman's golf championship with a card of 43-38-81.

Her card: In 45-345-544-33-81. There was a terrific upset when Miss Louise Fordyce of Youngstown, the north and south champion, took 101 strokes, too many for her to qualify. This is the first national tournament in which she has failed to qualify.

Scores: Mrs. Courtland Smith, Glen Ridge, 40-44-54. Miss Marion Turpie, New Orleans, 45-49-94. Miss Maureen Orcutt, Englewood, 46-46-81. Miss Dorothy C. Hurd, Philadelphia, 46-44-90. Miss Helen Payson, Portland, Me., 47-42-89. Mrs. George L. Austin, Hartford, 48-48-98. Mrs. E. E. Harwood, Chicago, 48-48-86. Miss Bernice Walls, Oakbrook, 47-42-89. Mrs. Wright D. Goss, Jr., Short Hills, N. J., 43-39-82.

GOVERNOR OF FLORIDA IGNORES REQUISITION

Stamford, Sept. 27.—Governor Martin of Florida, it was learned here today, has refused to honor requisition papers issued by Governor John H. Trumbull of this state for the return here of Herman Bayer, now in Orlando, Florida, charged with obtaining \$5,000 from Mrs. May Cohn of this city under false pretenses. Detective Daniel Hanrahan of the local police force returned here today without his man because the Florida executive refused to honor the requisition on the ground that Bayer is charged with a civil offense and not a criminal one. Bayer is alleged to have obtained the money from Mrs. Cohn, giving as security property in Florida. The woman discovered the security was worthless. Whether or not further action will be taken by the local authorities to have Bayer brought here for trial has not as yet been determined.

DETROIT, Sept. 27.—While refusing to be quoted, leaders agreed today that the industry will give the closest attention to the development and effect of the five-day week at six-day pay plan inaugurated by Henry Ford.

Many business leaders declared that the five-day week is purely an experiment and that no one can foretell the effect the plan will have. All agreed that the plan, if successful, would have a world-wide effect.

"It is certain," said William J. Gray, president of First National Bank, "that the five-day week will make for greater steadiness in employment."

BONDS ARE TRACED IN DAUGHERTY CASE

New York, Sept. 27.—Four Liberty Bonds, part of the \$391,000 which Richard Merton, German industrialist, claimed he gave the late John T. King, Connecticut politician, for putting through Merton's claim to \$7,000,000 seized alien property, were traced to the Midland National bank of Washington, D.C., at the Daugherty-Miller conspiracy trial in Federal court today.

Daugherty, former attorney-general, and Thomas W. Miller, former alien property custodian, are accused of having failed to give the government their best services in the transaction.

Mal S. Daugherty, brother of the defendant, is president of the Midland bank. The four Liberty Bonds were deposited to the account of Mal Daugherty. Subsequently a check was drawn on the bank by Daugherty by his brother, testimony showed.

NEW CORPORATIONS. Hartford, Sept. 27.—The Union State Realty Co., of New London, has incorporated in Connecticut, with an authorized capital of \$20,000 and will begin a general real estate business with \$5,000. The incorporators are Samuel J. Lefschutz and Albert Ritterman, of New York, and Thomas T. Westmore, Jr., of New London.

FRANCE DETERMINED TO PAY HER DEBTS

Barleduc, France, Sept. 27.—Premier Painleve, speaking today before the General Council of the Department of the Meuse, flatly denied that France had ever thought of renouncing her debts, or ever would entertain such a thought. "France has never renounced her foreign debts," he said. "In fact she already has made important interest payments, which would have been even larger if Germany's failure to pay up had not forced France first to restore her own devastated regions."

"For the future, France is nevertheless determined to liquidate her debts loyally up to the very limit of her capabilities."

PROBING ACCIDENT

Bridgeport, Conn., Sept. 27.—The New Haven railroad gas truck that on Friday crashed into a car north of Beardley Park and caused the death of Ernest De F. Wadham, a public utilities commission engineer, sat beside the coroner during the inquest today.

GRAIN CO. CITED

Washington, Sept. 27.—Charging that the Armour Grain Company attempted to manipulate the price of grain on the Chicago Board of Trade, Secretary of Agriculture Jardine today issued a citation under the Grain Futures Act calling upon the company to show cause why an order should not be issued directing all contracts markets to refuse their trading privileges to it.

Hearing will be held October 11, at Chicago, before Fred Lees, a referee designated by Jardine to conduct the investigation.

STEAMER IN DISTRESS

Mobile, Ala., Sept. 27.—The tropical Radio Company here today relayed an S. O. S. call from the Ward Liner "Mexico," reported to be stranded on Magascar reef, Yucatan peninsula. The tanker Republic of the American Petroleum Company, was reported rushing to her assistance.

The Mexico is said to be carrying a number of passengers from New York and Havana with a crew of about one hundred men.

EDITOR APPEALS

Washington, Sept. 27.—George R. Dale, editor of the Muncie, Indiana, Post-Democrat, today appealed to the Supreme Court for a reversal of his conviction of contempt of the Circuit Court of Delaware County. In 1923 Dale was found guilty of contempt, fined \$500 and sentenced to 90 days in jail by Judge C. W. Dearsh.

The Indiana Supreme Court refused to reverse the conviction. Dale charged that Judge Dearsh was a member of the Ku Klux Klan and declared that his conviction resulted from his attacks upon the secret order.

CONFERENCE TO SOLVE HEADLIGHT DIFFICULTY

Conferences with automobile manufacturers in an effort to get at the root of headlight troubles, including dangerous glare, have been decided upon by the Eastern Conference of Motor Vehicle Administrators.

At the last conference meeting in Burlington, Vt., Connecticut introduced a resolution for the appointment of a committee to confer with the manufacturers of cars, and Commissioner Robbins F. Stoeckel of the Connecticut Motor Vehicle Department, as president of the Conference, was authorized to appoint such a committee with broad powers. He accordingly appointed Commissioner Dill of New Jersey, Registrar Wellington of Rhode Island, Commissioner Harnett of New York, Secretary of State Grout of Vermont, in such conferences. Mr. Grout is secretary of the Motor Vehicle Administrators Conference and he and Mr. Stoeckel are ex-officio members of the committee.

There was a demonstration of headlights at the Burlington meeting of the Eastern Conference of Motor Vehicle Administrators, which seemed to show that a large proportion of glare is due to defective bulbs or of some part of the lamp or to cheap material. That such is the case is undoubtedly due to the severe competition between manufacturers of automobiles to secure cheap headlights. It is this feature which for the sake of safety the Conference of Motor Vehicle Administrators is attempting to meet by cooperation. It has already been possible to interest certain of the more prominent manufacturers and it is expected that such cooperation may eventually be secured with all.

NEW AIRPORT

Buffalo, N. Y., Sept. 27.—Seven airplanes left Buffalo's new airport at 11:30 a. m. today on a four-day pathfinding tour. Conferences will be held at Rochester, Albany, New York, Hartford, Conn., Westfield, Mass., and Boston, at which plans will be discussed for establishment and increase in use of passenger and freight lines between Buffalo, Boston, and New York.

CUBS OPEN GRID SEASON BY BLANKING ROCKVILLE

Windy City Now Use to Suffering Whitewash Defeats; Boroski Runs 75 Yards for Touchdown on First Play; Score 25-0.

Unleashing a powerful offense but exhibiting a rather weak defense, the Cub football eleven opened its season auspiciously yesterday afternoon by whitewashing the Rockville Ramblers at the West Side field 25 to 0. The Rockville team substituted for the All-Hartford eleven because of a late cancellation.

It is interesting to note that the football eleven representing the Windy City started right where its baseball eleven left off— that is, by keeping up the work of falling to score on Manchester teams. The last three baseball games between Rockville and Manchester have resulted in victories via the kaleidoscope route for the Silk City.

The Cubs, although they did not show the strength of last year's eleven on the defense, nevertheless disposed of the Ramblers in easy fashion. Rockville gained a great deal through the Cub's line but was unable to score. Meanwhile the Cubs launched an offensive attack that swept them to victory.

Joe Boroski gave the fans a thrill when he ran 75 yards around the left end for a touchdown on the first play of the game. He was aided by fine interference. It was the only sensational play of the game. Boroski looked especially good on end runs all through the game. Red Cervini's line bucking was also of the reliable call as last year. He scored the second touchdown for the Cubs in the second quarter. Charlie Minnicucci scored the third touchdown. The score at half time was 15-0.

In the second half, Rockville started a march down the field that ended in the shadow of the Cub's goal on an incomplete forward pass. Then the Cubs marched to a touchdown, Groman going over the line for the score and Moszer getting the extra point on a pretty catch of a forward pass.

About 300 fans watched the game. Among them were practically all the players on the Cleveland eleven which won the title from the Cubs last year. Already discussions were heard on the relative merits of the two teams as to how they will fare this season when they clash for the town championship.

DEMPSEY THROUGH, KEARNS DECLARES

Tunney Can Whip Him in Next Fight Easily, Ex-Manager Asserts.

By DAVIS WALSH

New York, Sept. 27.—Jack Dempsey may have popped off glibly about wanting another shot with Gene Tunney but today the untricked champion obviously wavering on the idea and his boy friend, Jack Kearns, was there to tell him that it was a bad one because he was all washed up as a fighter, anyhow. Kearns aired his views from a local hotel and they were to the general effect that Tunney could "take" the man who had been king in the next fight or in the next hundred.

As for Dempsey, he intimated in a long distance conversation with the writer that, after due consideration of Thursday's debacle, he may have had a great plenty.

Is Doubtful
"Do you still feel that you would like to come back?" he was asked.

"Well, I don't know," came the rather dubious reply. "I'll have to think it over before committing myself. I'll be back in New York on Tuesday and maybe I'll have a good story to give you then."

These remarks hardly indicate that the ex-champ is rather championing at the well-known bit as he has been pictured as doing. In fact, they indicate that he probably realizes that he can't fight a lick, or, at best, not more than one or two licks.

Mr. Kearns is with him there, although Mr. Kearns probably would prefer to have it otherwise. It seems, according to the latter's statement today, that he dallied long with the thought of leaping lightly and magnificently into Dempsey's corner along about the fifth round.

Kearns Talks
"But I realized that I couldn't do him any good," Mr. Kearns added. "Dempsey has shot his bolt and all the advice in the world can't make him the man he was. I thought he was poorly advised, at that, for I heard them tell him to go out and make Tunney come to him. What possible good could a man like Dempsey do himself that way?"

"However, one round convinced me that whatever they told him to do couldn't make that difference either one way or the other. He was a gone goose after the first round and his only job was to end everything in a punch."
Foolish Bobbing
"That Dempsey has been such a poor idea in the game about the right way. But he didn't. He spent a lot of time bobbing his head up and down, like a horse with a nosebag on, and nobody ever got anywhere that way. The bobbing business never meant anything, what Dempsey used to do was to faint his man, weaving from side to side until he was ready to set himself for a punch. He might have made his punch mean something that way."

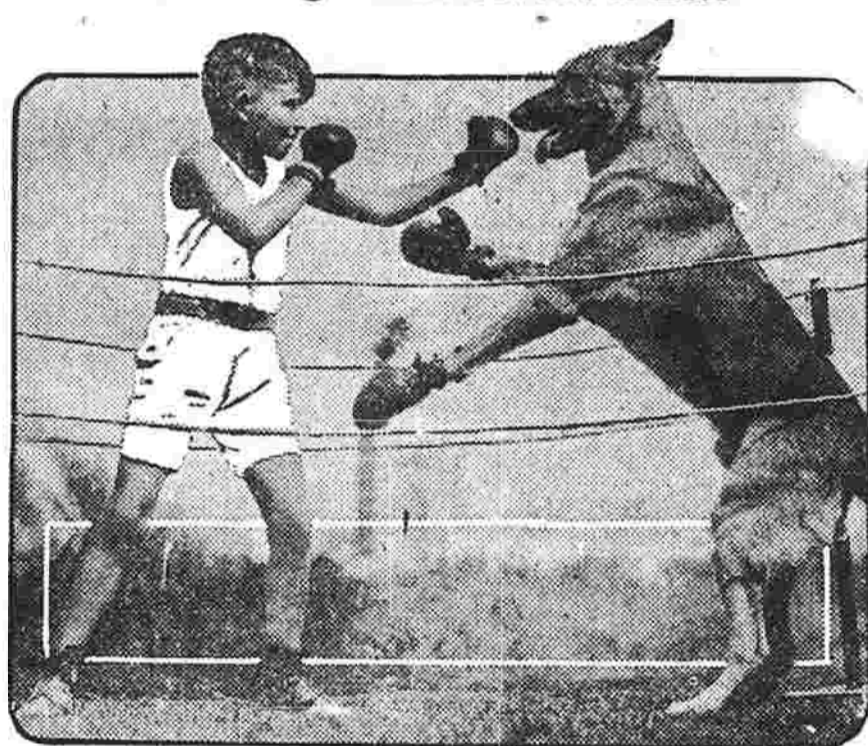

"But I don't know, at that. Dempsey's real punch has gone anyhow. So has his speed and combative instinct. If he fights Tunney, Tunney will beat him. If he fights him a hundred matches Tunney will win all of them. Once a fighter goes physically and morally, he never comes back."

WHO MADE IT RAIN?

Harbin, Manchuria. — Certain parts of Manchuria were threatened by drought recently, and the population turned to priests of three different faiths for relief. On an appointed day Chinese farmers prayed to Buddha, Russian priests of the Greek orthodox church prayed in their churches, and in the temples of the Chinese gods others offered their supplications. It rained the next day, and priests of all three faiths are claiming credit for it.

WED SECOND TIME.

London. — After 50 years of married life, Mr. and Mrs. Joseph Tyson, of the Home of the Variety Artists' Federation were married recently for the second time on their golden wedding day. This time they wanted to have a church wedding, as the first ceremony took place in the register office. The bride was 69 and the bridegroom was 75, 82 and 95 years old.

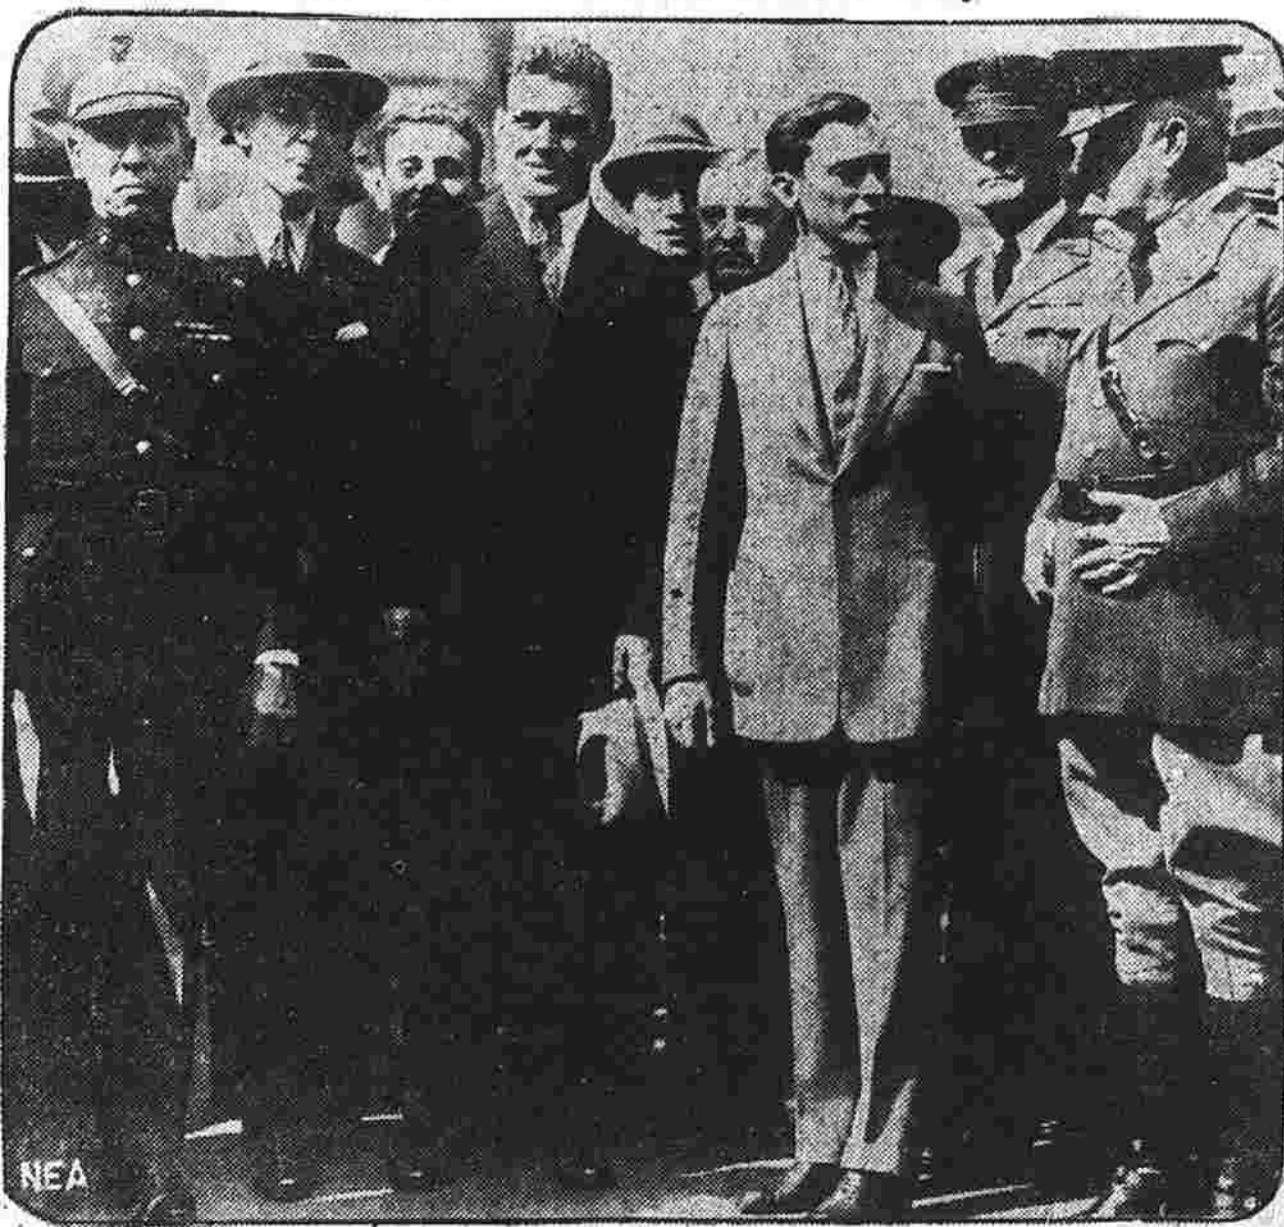

LARGEST TELESCOPE.

Paris. — A telescope that will increase the observable universe millions of times is being built here by Dr. George Willis Ritchie. The reflector of the instrument is 19 feet 8 inches in diameter and required two years alone to build. Objects will be so magnified that the moon, for instance, will appear as it would if it were but ten miles from the earth.

HEBRON

Mrs. Howard C. Champs went to South Willington on Thursday in response to an invitation to give a talk on the subject of Mexico. She spent the night in that place giving the talk on Thursday evening.

Clarence Porter and his son Howard went to the community fair in Brooklyn this state on Thursday. Howard played the cornet with the Columbia band of which he is a member. He also played with the band at the Nathan Hale celebration in Coventry being the youngest player with the band.

The Hebron School and Community Fair will take place on Friday, October first, at Hebron Green. There will be exhibits by school children and by others of the community. The exhibits will be along the line of livestock, poultry, vegetables and hand work of all descriptions.

Schools of the town were closed to allow pupils and teachers opportunity to attend the Nathan Hale celebration at Coventry on Wednesday. A number of our children were present and marched in the children's parade but were not placed with name of schools.

Mrs. Matilda Arvins Murray, died at the home of her daughter and son-in-law, Mr. and Mrs. Ames W. Sisson, at Hopevale, Thursday, September 24. Death was caused by the feebleness of old age, the deceased having just recently passed her 80th birthday. She was the widow of the late William M. Murray and was a native of Unacadville. She had been in feeble health for some years. The funeral was held at the Methodist church on Sunday, September 26th at 2 p. m., the Rev. W. K. Reimers of Durham officiating clergyman.

Mrs. E. T. Smith has received a call from Red Cross headquarters for contributions from this town for the sufferers from the Florida floods. The town will be districted and an effort will be made to give all an opportunity to assist in his pressing need.

Work on the Hebron Congregational church interior which has necessitated the closing of the church for services for several weeks is almost finished. It is expected that the church will be opened on Sunday the third of October at which time everything will be in readiness for use of pastor and people.

WAPPING

Wapping Grange will hold their regular meeting on next Tuesday evening, Sept. 28, it being Neighbors' Night. The following Granges are expected to visit this Grange: New Britain, Enfield and East Windsor. The committee for refreshments for the evening are Miss Edith E. Lane, Walden Collins and Miss Lena Chapman.

The Junior Y. M. C. A. or Friendly Indians, held a dog roast up on Flax Hill on Foster street Saturday afternoon.

The next meeting of East Central Pomona Grange, No. 3 will be held at Summit October 13th at 10.30 a. m. The discussion will be: "Why are farms being deserted in some localities and prospering in others?" Echoes from the recent fairs.

The Connecticut State Grange will hold five special meetings in October to confer the sixth degree preliminary to the annual session of the National Grange in Portland, Maine in November when it is expected 10,000 candidates will receive the seventh degree. These meetings will be held at central points so that subordinate Grange members may have an opportunity to receive the degree. The meetings will be held as follows:

Pachaug Grange Hall, Griswold, Oct. 6, 2 p. m.; Wolf Den Grange Hall, Pomfret, Oct. 7, 2 p. m.; Hope Grange Hall, Torrington, Oct. 13, 2 p. m.; Concordia Hall, Danbury, Oct. 14, 2 p. m.; Newington Grange Hall, Oct. 28, 7.30 p. m.

NOMINATES SHERIFF

Middletown, Conn., Sept. 27.— Bert G. M. Thompson of Haddam, was today nominated as Republican candidate for Sheriff of Middlesex county. His nomination came by acclamation after Mrs. Harriett Hubbard, of Middletown, presented his name to the convention. Calvin C. Fairbanks, of Old Saybrook, was chairman of the convention and George M. Smith, deputy sheriff of East Haddam, acted as clerk.

Forty-two or forty-four delegates from fifteen towns in the county were present for the nomination. After the convention Sheriff Thompson entertained the entire group at a lunch in a local hotel.

Mr. Thompson was first nominated as candidate for sheriff in 1910 and has been successful in every election for that office since.

A Democratic candidate to oppose Sheriff Thompson will be named some time during the coming month.

43 MINERS ENTOMBED.

Ironwood, Mich., Sept. 27.— The mining community here hoped today almost against hope for the 43 miners entombed in the Pabst mine of the Oliver Mining Company since Friday.

In spite of the optimism of the mining company officials, there are many here, some of them are old miners, who believed that the entombed men will never be brought to the surface alive.

Three bodies have already been recovered.

Thought the miners are known to be without food they have an ample supply of water, officials say. Excellent mineral water seeps through various places on the eighth level, it was said.

TOBACCO AUCTION.

Hartford, Sept. 27.—Tobacco valued at approximately \$1,000,000 will be offered at an inscription sale here next Friday by the Connecticut Valley Tobacco Association. The sale, a modification of the Holland auction plan, will begin at 9 a. m. Only Connecticut broadleaf of the 1923-1924-1925 crops will be offered. Samples of each of 74 lots are now on display and may be inspected by buyers during the next few days. Bids will be submitted Friday in sealed envelopes. At a previous inscription sale tobacco valued at \$200,000 was sold within a short time.

AFGHANISTAN HATS.

New York. — Turbans on the avenue this summer have borrowed their motif from the Afghanisthan headgear. They are of black velvet and silk tulle; fitting closely over the forehead and rising five or six inches at the back. They also resemble faintly the Hessian head dress plus a feature or two of the Alpine hat.

Stanford Wins Double-Header; Yale Opens Saturday Against Boston University

Among the major colleges that won their opening games on the gridiron Saturday were: Dartmouth, Holy Cross, Penn State, Brown, Tulane, Georgetown and Stanford.

Stanford won a double-header, trimming California Tech 13 to 7 after administering a 44 to 7 punishment to Fresno. Yale University will open Saturday at the bowl in New Haven against Boston University, a college which Yale has not met on the gridiron in over half a century. Several from Manchester are planning to see the opening struggle.

WORTH IN SPORT KNOWING

Dutch Reuther, recently obtained by the Yankees from Washington on waivers, has been in the big leagues since 1917.

Reuther started with the Chicago Cubs. Later he was with Cincinnati and Brooklyn. He came to Washington at the beginning of the 1925 campaign. Reuther and one of his best seasons last year, winning 18 games and losing seven. His stellar work played a big part in the copping of the gonfation for the Nats.

Reuther has been in two world series, the 1919 playoff with Cincinnati and last fall with Washington. He's 33.

No More Piles

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this—an internal remedy must be used. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds because it relieves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick, safe and lasting relief to pile sufferers. It will do the same for you or money back. Packard's or Murphy's Drug Stores—and druggists anywhere sell Hem-Roid with this guarantee.—Adv.

Diamond Disputes Decided

By BILLY EVANS
The runner starts to steal second, catches a short, passed ball that makes it easy. Does he receive credit for a stolen base?

If the runner is stealing second with the pitch, in other words has started on the way before the battery error has been committed, he receives credit for the stolen base.

In all such instances the battery error is also charged against either the pitcher or catcher, the player at fault. Should the runner be "flat-footed" until the battery error is committed, then starts and reaches the succeeding base in safety, he is not credited with a stolen base.

POLAND AND JUGO-SLAVIA SIGNING BORDER TREATY.

Belgrade. — A treaty securing the present frontiers of both countries and pledging mutual aid in case of attack will shortly be signed between Poland and Jugo-Slavia according to a statement by the Polish ambassador to Jugo-Slavia. The negotiations for the treaty have already been completed and the document will be signed shortly for Jugo-Slavia by the foreign minister, Nincic and by the Polish minister, M. Zaleski for Poland. Nincic will visit Warsaw after the signing of the document.

Hundred and Forty Ringers Made as Lange-Renn Defeat Nelson-Feeney

RENN'S RINGER IN FINAL GAME ENDS EXCITING SPECIAL MATCH

Lange's Superiority Over Feeney Instrumental in Victory; Nelson High Scorer; Large Crowd Watches Special Horseshoe Pitching Match.

Table with 3 columns: Player, Points, Ringers. Rows: Nelson (187, 49), Lange (139, 27), Feeney (105, 21).

Henry Lange's superiority over Charlie Feeney and Dan Renns ability to toss ringers in the final game netted this pair of horseshoe pitchers a much cherished victory over Sam Nelson and Charlie Feeney in a special 16-game match Saturday afternoon.

So well controlled were the throws of the four men that during the fifteen games which included 1,012 pips at the stakes, there were but three occasions when no score was registered.

Nelson High Scorer As the point tabulation will show, Nelson was the high scorer of the match both in points and ringers. Renn, who opposed him, was second, with 49 points and Feeney last, Nelson defeated Renn by 15 points but Lange came to Renns assistance by humiliating Feeney by 34 points.

Lange and Renn took the first two games and Nelson and Feeney the next three. Lange and Renn went into a 6 to 3 lead by winning the next four games. Then Nelson and Feeney won four straight giving them a one game lead. Lange and Renn won the next 23-19 when Lange got a ringer and a one-point in the final throw. This tied the match at 7 games apiece.

100 Watch Match The match had around it a great deal of interest about the mills during the past week. It was played on a special court in the rear of Renns home at 74 Cooper street. Well over 100 persons were seated about the rectangular field when play began. The contest was in perfect form and was kept so throughout the match by Billy Moore, official groundskeeper. After each set of shoes had been thrown, the ground about the stake was raked over smooth again and watered. In order that there might be no dispute, one set of the shoes was painted red and the other white. The stakes were also painted.

The "Officials" The scorers were Tom Smith and Fred Hanson. The referees were George Hubbig, "Punk" Lamprecht and Billy Shields. Through out the match the players were silent. The referees and scorers handled all matters. Not once did any of the contestants dispute a decision. It was one of the greatest matches seen in town in many years. Both sides were evenly balanced.

FAVORABLE TIES IN OPENING GAME Philadelphia, Sept. 27.—The initial National Professional League football fray between the Yellow Jackets and Akron eleven ended in a 6-6 deadlock before 6,000 fans. Akron, with the famous Erik Polard of Brown and a number of the western stars was the first to register. The try for the extra points placement kick by Rohleder, was blocked.

Local Sport Chatter

South Manchester High will open its football season here Saturday against Bulkeley High of New London. For the past few weeks, Coach Tom Kelley has been drilling his charges in the fundamentals of the game.

One of the reasons why football teams in the past few years have not made any alarming record at the local high school is because of lack of sufficient student backing. There has been one certain "gang" that has followed the games and the games and the rest of the crowds have been outsiders.

The present day school children in Manchester seem uninteresting in any athletic contests unless dancing is provided as an after-math. This is shown year in and year out by the attendance figures at baseball, football, tennis and track contests.

Basketball alone draws heavily, simply because dancing follows the games. It certainly would be a severe blow to the High school athletic association treasury if dancing should be cancelled from the evening programs. School children should take more interest in the backing of their teams than in wrestling together on the dance floor afterward.

Let's go students. Let's back that S. M. H. S. grid team this season for all you are worth and have a team the school can well be proud of.

Horseshoe pitching is a sport that is causing unlimited interest at the west side of the town these cool evenings. A tournament has been in progress for several weeks and now Nelson and Feeney are pitted in a tie with Bill Leggett and "Punk" Lamprecht for the "pennant." Both teams have won 39 games and lost 6. A play-off is expected shortly.

Backers of Lange and Renn are jubilant today over the 8 to 7 victory which their favorites won over Nelson and Feeney Saturday afternoon in a special match. Nelson and Feeney entered the fray the favorites but were outscored.

The Weather Man was queer over the week-end. Saturday was an ideal baseball day with the temperature well nigh to 90 degrees. Yesterday proved directly the opposite and was perfect weather for football.

Now that the Yankees and the Cards have won their respective pennants, local fans are making preparations to attend the first two games of the series in New York City next Saturday and Sunday. The Yankees will no doubt rule slight favorites over the Cards but after the Dempsey-Tunney prediction, probably made by sport writers amount to little or nothing.

And, speaking about the Dempsey-Tunney fracas, the sport writers should not be held entirely responsible for the upset. We doubt if there was one person in a hundred that didn't select King Jack. It was simply one of the greatest upsets in sport history and one that the experts were helpless to forecast.

One local town official who witnessed the championship bout, is under the impression that Jack Delaney can whip Tunney easily. He says Tunney has no punch and is simply a good boxer. He says Tunney would stand a mighty poor chance against a fighter with a real punch. And Jack Delaney has just that and then some.

'Twill not be long before bowling will be back into the limelight again on the local alleys. Bowlers are already limbering up their arms and getting their eyes gauged on the pins. Why not form an industrial league in Manchester this fall? A circuit composed of two or three teams from Cheney Brothers (well split up) and teams from manufacturing concerns in town would prove a big success, we believe. An eight-man league of five-man teams ought to go over big.

SONS OF ITALY CROWNED TOWN BASEBALL CHAMPS

BEST TEAM WON Sipples Pitches Sons to 10-2 Victory Over Shamrocks; Sons Get 18 Hits Off Prentice.

Table with columns: ab, r, h, po, a, e. Rows: Le Bell, Wright, Sipples, St. John, Kotsch, Hewitt, McKernan, Partons, Giraults, Stratton, Lamprecht.

Old King Baseball in Manchester was interrupted for the winter months here Saturday when the Sons of Italy club closed its way to the undisputed town championship over the Shamrocks of the North End.

There can be no stinging remarks passed against the reputation of the Sons of Italy team as might have been the case if they had "thrown" the Shamrocks a couple of games to lengthen the series. But this is precisely what the Sons did not do.

Sipples Stars Again Saturday the Sons' outfit the Shamrocks 18 to 2. Sipples and Stratton led the onslaught with three bingles apiece.

Table with columns: ab, r, h, po, a, e. Rows: Flaherty, Haggerty, A. Heiler, Kegler, Tew, Conroy, Rowlett, Harte, Melkie.

Playing with a makeshift lineup, the Sons of Italy baseball nine was nipped out 4 to 3 in their game in Williamstown yesterday afternoon with the West Ends. The Sons used two Williamstown players and two from the Shamrocks.

Sammy Kotsch got into the game again as a pinch hitter and grandly appeared in the game since he broke his ankle recently.
