GOVERNMENT TO BLOCK GERMAN BOND SALE

Washington, Oct. 4.—The American government will never consent to the marketing of German railway bonds held by the Reparations Commission, in the United States until the Mellon-Berenger debt settlement with France is ratified, it was indicated in official circles today.

The position of the Washington government is understood to be that private investors would not be ready to purchase the bonds as a part of the reparations scheme with the debt situation unsettled, and it would be unwise for the government to permit them to be thrown on the market.

'VARIETY' IS TREMENDOUS HIT AT STATE THEATER

Mighty Drama of the Show World Scores Season's Biggest Hit at First Local Showing.

At its first local showing last evening, "Variety," the master UFA production, made a tremendous hit; in fact it scored the biggest hit any photoplay has enjoyed at the State this season. Truly have the advance notices acclaimed this wonderful production one of the few great pictures of all time.

Hundreds of people were turned away from the State last evening. Manchester theatre-goers literally "stormed the gates" in an effort to obtain seats. And after the show they one and all went trying to out-do one another in praising "Variety." Manchester people know real class when they see it, and last night they knew that they had seen a picture that comes "once in a lifetime."

QUEER QUIRKS OF NATURE

The Breakfast Room Which I Remember Best

"I HAVE traveled almost the world over. Have been the frequent guest in many beautiful homes in Europe and America. Have eaten countless breakfasts amid entrancing surroundings and prepared by exceptional cooks. But the occasions which I best remember are the breakfasts served in the sunny room here pictured. "Breakfast to me is the ceremonial meal of the day. I want it in cheerful surroundings, with congenial company. I want inviting outlooks, flowers arranged by an artist, sunlight on the glassware. Then simple food served in the daintiest way. "But, above all, a royal cup of coffee. I have studied coffee from tree to cup to become a connoisseur. Exquisite coffee is to me the glory of a breakfast. They serve it always in this room - LaTouraine (Extra), brewed in the perfect way. They send a thousand miles to get it every week. "I have often drunk coffee in the Ritz in Paris, whose coffee is famed the world over. I have drunk it in English coffee houses where good coffee had its birth. But I give to LaTouraine (Extra) the pinnacle place as they serve it in this room. No ordinary coffee will ever satisfy one who has tasted that supreme creation."

Interesting facts about LaTouraine (Extra) Coffee. It is the largest-selling coffee in New England, the birthplace of fine coffees in America. In this home of excellent coffee critics, it is considered the supreme result of 27 years of coffee development. The formula for this blend is a secret, carefully preserved. Coffee experts spent 20 years in perfecting it. No other blend has been made to resemble it. Those who find here their ideal flavor can find it nowhere else. Mr. E. J. Butler, the noted coffee expert, personally tests, tastes and selects all coffees used in this blend. His duty is to maintain without regard to cost, this premier coffee flavor. He pays any price necessary to combine in LaTouraine (Extra) the maximum delights. LaTouraine (Extra) is sold direct to retail grocers. This to save middle-men's profits. It is sold in double sealed cartons, not in cans. These and other economies - about 11 cents per pound - pay for the extra quality. Thus users get this matchless coffee without a fancy price. Three of the coffees combined in this blend cost 50% more than ordinary coffee, and 25% more than San Paulo, the price coffee of Brazil. One is so rare that only 30,000 bags are grown yearly. Friday, the day of the Hebron school and community fair brought the largest crowd ever attending this event. This was the tenth anniversary of the fair observance and there has been a steady increase in the interest and attendance. Many visitors from out of town were present. Announcement had been made the day before that Charles G. Morris, the Democratic nominee for governor, would be present and preside at the giving out of prize money offered by the New Haven Dairy Co. By that time most of the crowd had dispersed but a small but enthusiastic company greeted him. A list of prizes will be given out later.

ROB "GAS" STATION ALMOST WRECK PLACE

Marauders Use Crowbar to Smash Door and Windows; \$300 Worth of Goods Stolen.

Burglars, evidently amateur, from the manner in which they smashed the doors and windows to gain entry, robbed the Flat Filling Station at Oakland sometime during Friday night or early Saturday morning. As the manager put it "the station looked as if a cyclone had struck it."

When the manager arrived Saturday morning he found the doors and windows smashed. It seemed as if the marauders had used a crowbar in the door from the marks in the concrete. Money in the cash register but everything was topsy turvy. It was estimated that about \$300 worth of accessories had been stolen. The local police have been notified and are working on the case.

HARVEST FESTIVAL IS WELL ATTENDED

Products of Local Farms to Be Sold at Salvation Army Citadel Tonight.

Well-attended Harvest Thanksgiving services were conducted at the Salvation Army Citadel by Major and Mrs. Thomas Seaver of Hartford. The visiting officers had charge of all the services during the day.

In the evening Major Seaver and his wife said goodbye to Manchester as they leave on Tuesday for Birmingham, Ala., where they will take over the work of the Army in the Dixie division.

The hall was decorated with autumn leaves and the collection of fruit and vegetables occupied a place on the platform. These products of surrounding farms were collected by Commandant Abbott and Ensign Ralph Jones last week. They will be sold tonight at 7 o'clock at the annual harvest sale.

MOTORCYCLE AMUCK WITH YOUTH ON IT

As a Result John Gordon, Jr., Is in Hospital With a Broken Leg.

Riding a motorcycle for the first time in his life, John Gordon, Jr., 17, son of Mr. and Mrs. John Gordon of Winter street, crashed into an automobile on Center street yesterday afternoon and fractured his leg. The boy was taken to the Memorial hospital where the fracture was reduced.

The motorcycle, owned by Stanley Irwin of Church street, has been the source of amusement for a number of boys in that section for some time. Yesterday some of the boys near Bantley's filling station held the machine while Gordon mounted it. He threw in the clutch and the motorcycle started off.

Gordon could not stop the machine and it went across the street. The boy, instead of closing the throttle, opened it and the motorcycle gathered speed until it reached the other side of Center street where it crashed into a parked automobile and fell on the boy's leg.

rammed the rear of his truck. Martin was splattered with the fiery fluid. He was rushed to the Memorial hospital where his vitality amazed the physicians. The plucky youth succeeded in staying off death for a much longer time than was expected. He was game to the last and only a few days before he died, believed he would be able to return to his home the following week-end. The body was taken to the youth's late home. Martin is survived by his father and mother, and six sisters. London is the slowest moving city in the world. The speed of traffic on some streets has fallen to as low as three miles an hour.
