

FAMILY ROW BREAKS OUT IN ROUMANIA

Queen Marie, Prince Carol and Princess Helen Battle For Power—Baby King Is the Prize.

Berlin, Oct. 11.—A new royal family row in which the six-year-old baby monarch of Rumania, King Michael, is the center and his royal heritage is the prize, has broken out at Bucharest, according to information received here today from the Rumanian capital.

This new dispute, which marks the end of a truce enforced by the death of King Ferdinand two months ago, involves Queen Marie and her son, Carol, the former crown prince, while Princess Helen, former wife of Carol and mother of the child-king, is finding herself drawn into it whether she wills it or not.

It is a fight for power and the wealth which goes with power. Queen Marie, the king's grandmother, is ambitious to become the dominant member of the Rumanian regency and thus control the affairs of state; Carol wants to be king in name and fact. Princess Helen wants to save the throne for her boy and to keep both Marie and Carol out of power so that they cannot wrest any of the royal rights away from Michael.

Michael is too young to realize what is going on around him. He is interested in his English governess and the caresses of his mother, but he knows nothing of the quarrel of his near relatives.

Carol files suit.
Carol, who would be king of Rumania, if he had not preferred to be a prince, has filed suit in the Rumanian courts attacking Ferdinand's will and has obtained the appointment of a trustee to conserve his interests. This is regarded in some circles as the opening gun in Carol's fight to get the throne which he considers rightly his despite his abdication of the right of royal succession.

Helen pins her hopes not on politics, of which she knows little, but on mother love. She is fighting her husband that her son may remain king and she is fighting her mother-in-law that the king shall remain her son. There is another motive to inspire her—the anger of a deserted wife.

Although King Boris, of Bulgaria, is reported to have gone hunting in Italy, Marie has not given up hope of marrying her daughter, Princess Ileana to him, thus effecting a matrimonial alliance between the two former enemy states—Rumania and Bulgaria.

Marie's matrimonial plans for Ileana are said to be part of an extensive plan to extend her power throughout the Balkans. One of her daughters is queen of Yugoslavia and another was former Queen of Greece.

ALCORN ASKS DELAY IN MANCHESTER CASE

Is Fighting Against the Release of Principal Witness in Chinese Murder.

Hartford, Conn., Oct. 11.—Another delay of at least two weeks was indicated by the United States Court here today in the proceedings to secure the release of Sam Ong Ing, Manchester laundryman, held as a witness in the appeal case of two of his countrymen who are convicted of murder and are in the state prison at Wethersfield. State Attorney Hugh M. Alcorn, who has been ordered to show cause why the witness should not be released, asked for two weeks in which to prepare a brief on the constitutional questions involved.

It was considered possible that decision by the State Supreme Court which now has the appeal of the convicted men before it may be handed down before the Federal Court passes upon the case of the witness. While making no direct statement Mr. Alcorn indicated that in view of the possible decision by the State Supreme Court the release of the witness may solve itself. He explained that under the statutes he may release a witness at any time.

The convicted men are Su Hu Wing and Chung Ling. They are alleged to have killed Ong Ing, Hem, Manchester laundryman and nephew of Sam Ong Ing last spring. They are under sentence to die on November first.

TREASURY BALANCE

Washington, Oct. 11.—Treasury balance Oct. 8: \$478,914,004.86.

ARMY IN FIGHT WITH 2 CALVES

300 Men With Armored Cars and Machine Guns Battle Valiantly All Night.

Berlin, Oct. 11.—The story of how an Italian garrison of 300 men at Kiana, on the Jugo-Slav frontier, bombarded two calves to death when they thought they were being attacked by Comitadjis, was told today in dispatches from Fiume.

A sentry hearing a noise suspected a raid by Comitadjis, Terrorists of the Balkans. The garrison supported by two armored cars and twelve machine guns, turned out and opened a furious fire. A bayonet charge followed, but no Comitadjis could be found.

The next day two calves, shot to pieces, were found nearby. It was noise made by the animals that alarmed the sentry.

"DAWN" AWAITING BETTER WEATHER

Mrs. Grayson in Maine, Ready For Her Flight to Copenhagen.

Old Orchard Beach, Maine, Oct. 11.—Mrs. Frances W. Grayson, New York to Copenhagen flyer, made it plain today that there would be no race across the Atlantic with Mrs. Ruth Elder. The Florida aviatrix in her "American Girl" was expected here today from New York.

Mrs. Grayson spent the forenoon arranging for the refueling of her plane "Dawn." Several test flights will be made. On these depends whether "Dawn" will take off this week or be further delayed. The weather charts too were being watched but showed a forecast of bad weather over the Atlantic.

"Dawn" will be christened. An invitation to christen the "ship" was made to Mrs. Ralph O. Brewster, wife of Maine's governor. Special petrol sent here from New York while Mrs. Grayson was bringing her way up the coast from Curtis Field was stored in Harry Jones' hangar prior to being put aboard "Dawn."

Mrs. Grayson was confident that the motor of "Dawn" would prove her mother-in-law and that the hop to Copenhagen would be made this fall. With her will go Pilot Wilmer Stultz and Navigator Brice Goldborough.

COASTGUARD CAPTAIN WORKED WITH RUNNERS

Boards Smugglers' Yacht and Lands Big Cargo of Liquor.

Providence, R. I., Oct. 11.—Trial of Captain Dewey Manila Parker, former skipper of a coastguard patrolboat, who was alleged to have unfolded a plan to his crew whereby a few runners were to be captured and then conspire with the smugglers, was continued in Federal Court today.

A specific case in question was the landing of a big liquor cargo from the Hornet, a yacht, in the service of Sigmund Rand, known to federal officers as "The Rhode Island Rum King," according to Assistant United States Attorney Fred S. Perkins. Captain Parker, John J. Donnelly, former Boston police officer and Frank Gould, of Portland, Maine, coastguardsman, boarded the Hornet, Captain Parker, according to Perkins, offered to allow Rand to land the cargo on payment of \$5,000 and a compromise of \$2,500 was reached.

KLAN IN NEW YORK FIGHTS WALKER ACT

Appeals to Supreme Court to Change Law Leveled Against Their Organization.

Washington, Oct. 11.—Attorneys for the Ku Klux Klan today prepared to go before the Supreme Court to attack the constitutionality of the Walker Act of New York state requiring local Klan chapters to file a roster of members and a copy of the oath and by-laws with the secretary of state.

TRIES TO KILL SELF AFTER BOOZE PARTY

Milford Man Hangs Himself With Reins But is Discovered in Time.

Milford, Conn., Oct. 11.—Liquor had such a bad effect on Julius Pronizky, 40, of Naugatuck Gardens, Devon, father of five children, that he hanged himself to a tree today, went into the back yard and hanged himself to an apple tree. One of his young sons discovered the situation and screamed.

Mrs. Pronizky took the reins and gave first aid while neighbors sent for the police who took the man to the hospital. He will recover. Pronizky had attended a party on Sunday and drank deeply, according to his wife.

SHE'S BOUND TO MAKE TRIP

Pretty Ruth Elder is going to take wing across the Atlantic or something's goin' to bust! Such was the substance of her determined remarks today before she started. She is pictured here with Capt. George Haldeman, her navigator. You see them beside their orange monoplane, "American Girl."

POTATO PROSPECTS SHOW A DECLINE

Blight Hits Crop Hard In New England, Government Officials Announce.

Boston, Mass., Oct. 11.—New England potato prospects show a decline, announced C. D. Stevens and K. D. Blood, government statisticians today.

"The New England crop, with an October 1 condition of 67.9 is forecast as 53,358,000 bushels compared with 46,380,000 bushels harvested in 1926 and 45,297,000 bushels the average production during the last five years," said the announcement, which added: "Potato prospects in Maine, as well as other New England states, show a decline since September first. The full effect of late blight during the latter part of August and the first of September now being felt."

IT'S AN OUTRAGE —MRS. LILLIENDAHL

Widow of Slain Doctor, Accuses Authorities of Taking the Easiest Path.

Mays Landing, N. J., Oct. 11.—Mrs. Margaret Lilliendaahl, held without bail in the Atlantic county jail here pending her trial with Willis Beach on November 23 for the murder of Dr. William Lilliendaahl, paced her cell furiously today as she asserted her innocence.

Beach, who with Mrs. Lilliendaahl pleaded not guilty, was quiet—still smiling but not joking.

"It's an outrage," screamed Mrs. Lilliendaahl. "The authorities haven't made any real effort to get the murderers. Instead they've taken the easiest path and tried to hang it all on two innocent persons."

KLAN IN NEW YORK FIGHTS WALKER ACT

Appeals to Supreme Court to Change Law Leveled Against Their Organization.

Washington, Oct. 11.—Attorneys for the Ku Klux Klan today prepared to go before the Supreme Court to attack the constitutionality of the Walker Act of New York state requiring local Klan chapters to file a roster of members and a copy of the oath and by-laws with the secretary of state.

The case, appealed by George W. Bryant, who was convicted of violation of the act in Buffalo, N. Y., was on the court's call for oral argument and was expected to be reached late today or tomorrow.

Klan attorneys alleged that the law violates the constitution "by depriving him of life, liberty and property without due process of law, and denying him the equal protection of the law guaranteed there-by." The act was expected to be defended by Attorney-General Ottinger as a valid exercise of the state's police power.

It is the second Klan case to reach the Supreme Court. The court, at its last term, dismissed for lack of jurisdiction an attack by the Ku Klux Klan of Georgia on a Kansas law, under which the Klan was forced to obtain permission of the state to solicit members.

FINAL CHAPTERS IN OIL SCANDAL BEING WRITTEN

Following Supreme Court's Decision Officials Take Steps to Try Fall and Harry Sinclair.

Washington, Oct. 11.—With the great oil reserves finally restored to the Navy by the Supreme Court's decision in the Teapot Dome case, government counsel and officials today set in motion a half dozen actions designed to write the final chapters in the famous "oil scandals" of the Harding administration.

These steps include:

1. Government counsel made final preparations for criminal trial of ex-Secretary of the Interior Albert B. Fall and Harry F. Sinclair, on charges of defrauding the government in the Teapot Dome lease, in District Supreme Court on October 17.
2. The government prepared to move the end of the Teapot Dome receivership in the Federal Court counting from Sinclair's Mammoth Oil company for oil taken from Teapot Dome before a receiver was named.

3. Final steps were expected to be taken in district supreme court for the appeal of Harry F. Sinclair waiting until legal formalities accompanying the Supreme Court's decision are complied with. Secretary Wilbur reiterated the Navy's policy of conserving oil in the ground.
4. Navy Department may ask Federal Court in Wyoming to close down Teapot Dome wells without waiting until legal formalities accompanying the Supreme Court's decision are complied with. Secretary Wilbur reiterated the Navy's policy of conserving oil in the ground.

5. In conformity with the Supreme Court decision, President Coolidge is expected to cancel the executive order of the late President Harding transferring Teapot Dome to ex-Secretary Fall's jurisdiction.
6. Atlee Pomerene, government special counsel, announced that an early trial of Fall and Edward L. Doherty, oil magnate, on bribery charges growing out of the Elk Hills, Calif., lease would be sought.
7. Navy Department officials announced that they were considering a request to Congress for authority to trade part of the Elk Hills recovery to private oil companies in order to make the government reserve a solid block and prevent possibility of drainage.

ARREST YOUNG WOMAN IN BIG P. O. ROBBERY

Suspected of Complicity in Largest Robbery in the History of Nation.

Providence, R. I., Oct. 11.—A young woman known as Miss Mae Gallagher but the wife of John Chatter of Pawtucket was arrested today charged with conspiracy in connection with the \$25,000 robbery of the postoffice of that city in February 1925—the largest postoffice robbery in the history of the country.

A few weeks ago "Pawtucket Johnny" Conley, wanted in connection with postoffice robberies in New York state, North Carolina, Maine, Vermont and Massachusetts was taken into custody.

PRIZE BEAUTY WEDS PORTLAND SALESMAN

Refuses Theatrical Offers to Marry For Love—Young Couple Elope.

Lynn, Mass., Oct. 11.—Refusing contracts from theatrical producers, artists and sculptors, that would have brought her world-fame and a big fortune, Miss Muriel E. H. Bowers, 19, of Cliftondale, "Miss Lynn" at the last Atlantic City beauty carnival, chose love and marriage with Douglas Dalton, 24, of Wallesey Farms, a salesman at Portland, Me., for a Wisconsin firm, it became known today.

The young couple eloped on September 19th to Atlantic City where they have been "keeping house" at Portland since.

NEW TARIFF NOTE

Paris, Oct. 11.—A new American tariff note, which is described as "conciliatory," was presented to the French government today. American Charge D'Affaires Sheldon Whitehouse took the communication to the foreign office, where he handed it to M. Beaumarchais, director of political and commercial affairs in the foreign ministry.

It is understood that the note contains proposals for a compromise by which America would eventually remove restrictions upon French imports on conditions France cease discriminating against American imports. It is proposed that, in the meantime, a new commercial treaty be negotiated.

RUTH ELDER IS READY FOR PARIS HOP TODAY

Solomon Isle Natives Murdering Missionaries

Sydney, Australia, Oct. 11.—The Australian cruiser Adelaide was ordered to leave here today for the Solomon Islands in response to an appeal for immediate assistance from the white residents of the islands, who fear a general native uprising.

Wireless advices reported the natives had already massacred two white missionaries and the entire crew of a native missionary ship.

Whites in the outlying points of the islands have been armed with rifles.

Officials here believed the outbreak to be due to religious fanaticism on the part of the natives.

In War Point.

According to the wireless dispatches from the Solomons, the natives, in war canoes and full war

MUSSOLINI'S PLAN WORRIES EXPERTS

Italian Premier Would Force Radio Fans to Stop Their Machines at 10 O'Clock.

Washington, Oct. 11.—Premier Mussolini's plan to give Italian radio listeners bed-time stories of cat calls after ten o'clock nightly may result in real international complications, it was learned today at the world Radio-Telegraph convention.

For the protection of their morals Italian radio listeners should be in bed at ten o'clock, instead of listening to "contaminating jazz music from the dens of gaiety, according to Mussolini.

To meet the situation the premier has announced that he will close Italian stations at the self-censoring bedtime hour. By broadcast of powerful electric waves at ten o'clock, he proposed to blot out reception from French and other European stations, forcing the Italian listeners to go to bed in disgust.

BOY'S CONFESSION USED AS EVIDENCE

Winsted Youth Was Sent to Reform School For Assaulting Girl.

Litchfield, Oct. 11.—Tales of assaults on girls in other years were presented in Superior court here today as a part of the defense of Jack Billadella, nineteen, on trial before three judges for murder of Rose Bordini, ten-year-old Winsted girl. Counsel for the boy had insisted, when the trial started last week, that the youngster is insane and related instances of assault to prove the case. His plea was set aside by the judges and the trial started.

After preliminary witnesses had been examined as the defense opened today, Frank W. Dunn, of New Hartford, counsel for Billadella, put Harold S. Case, juvenile officer of the Winsted town court, on the stand. Case told the court how, three years ago, Billadella and a friend had handcuffed a five-year-old girl and assaulted her. Billadella and his friend were sent to a reformatory school at the time for that affair.

DAUGHTER IS BORN TO PRINCESS ASTRID

General Rejoicing in Belgium Over Visit of the Stork To Day.

Brussels, Oct. 11.—A daughter was born today to Princess Astrid, wife of Crown Prince Leopold of Belgium. The princess is a niece of King Gustav of Sweden. Albert, King of the Belgians, will be her godfather.

Although the royal child was born at eight o'clock, the shanclor of the royal palace did not announce the event until an hour and three quarters later.

The date of the christening ceremonies was not definitely set today. Since the day she came from her native Sweden to marry the Belgian prince, Astrid has endeavored herself to become Belgian. Her adopted country, her marriage to Leopold was looked upon as a real love match and caused rejoicing in both countries.

FEDERALS SEARCHING FOR REBEL GENERALS

If They Are Caught They Will Be Executed and Mexican Revolt Will End.

Laerd, Texas, Oct. 11.—Mexican Federal troops today were scouring the country in the vicinity of the State of Vera Cruz searching for Generals Arnulfo Gomez and Hector Almada, anti-Re-electionists, who fled after their forces were routed in a battle with Loyal troops.

According to advices from Mexico City, the two generals and a handful of supporters were believed to be hiding in the mountains awaiting an opportunity to slip into the United States. Mexican officials declared the capture of Gomez and Almada was only a matter of hours and that their execution probably would follow immediately.

More than a thousand men who formed the Gomez force have scattered in the hills but are surrounded by the Federals, who number approximately 10,000 with 5,000 reserves coming up.

The battle which ended in the rout of the Gomez forces took place Sunday afternoon near Perote, according to word from Mexico City. The Gomez forces were surrounded by Federal troops led by General Escobar and during the fighting the Gomez faction was reported to have lost about 200 men.

At 1:30 "American Girl" Was Poised on Runway Awaiting Favorable Wind; "We Will Start This After- noon" Fair Flyer Tells Crowd—"I'm Not Ner- vous, Just a Little Excit- ed."

Roosevelt Field, N. Y.—Perched on the historic runway that started half a dozen men on trans-Atlantic flights—some to glory and some to death—the flaming orange monoplane "American girl," which was to carry the daintiest Ruth Elder and her pilot Captain George Haldeman to Paris, was poised for the take-off here this afternoon.

At 1:30 the ship had been provisioned, final radio tests had been completed, and the two fliers were standing by for a favorable breeze.

To Start Today.

"We will go this afternoon," Miss Elder said. She was obviously impatient and anxious to start. She had lunched at noon with her pilot and returned immediately to the field, garbed in a multibued sweater and gray knickers.

"No, I'm not nervous, just a little excited," she said. Some distance away from the runway, radio experts had raised a huge kite, equipped with the "American Girl's" emergency radio set. From the kite were sent signals which receivers readily picked up in Garden City. The radio was then stored conveniently aboard the plane. The high test gasoline aboard the "American girl" is a special grade refined exclusively for this trip, Miss Elder said.

She walked about the plane nervously and occasionally made a suggestion to workmen and mechanics.

At 2:15 the last touches had been applied, including a dab of powder on Miss Elder's nose. A mechanic was vigorously polishing the red nose of the monoplane and the take off was expected momentarily.

MUSSOLINI'S PLAN WORRIES EXPERTS

Italian Premier Would Force Radio Fans to Stop Their Machines at 10 O'Clock.

Washington, Oct. 11.—Premier Mussolini's plan to give Italian radio listeners bed-time stories of cat calls after ten o'clock nightly may result in real international complications, it was learned today at the world Radio-Telegraph convention.

For the protection of their morals Italian radio listeners should be in bed at ten o'clock, instead of listening to "contaminating jazz music from the dens of gaiety, according to Mussolini.

To meet the situation the premier has announced that he will close Italian stations at the self-censoring bedtime hour. By broadcast of powerful electric waves at ten o'clock, he proposed to blot out reception from French and other European stations, forcing the Italian listeners to go to bed in disgust.

Although the royal child was born at eight o'clock, the shanclor of the royal palace did not announce the event until an hour and three quarters later.

The date of the christening ceremonies was not definitely set today. Since the day she came from her native Sweden to marry the Belgian prince, Astrid has endeavored herself to become Belgian. Her adopted country, her marriage to Leopold was looked upon as a real love match and caused rejoicing in both countries.

SNYDER-GRAY LAWYERS WATCHING DORAN TRIAL

If Appeal is Granted in That Case, Slayers Will Get Sepa- rate Hearings.

Albany, N. Y., Oct. 11.—A case which counsel for Mrs. Ruth Snyder and Judd Gray hope may help them win a new trial for their clients, is to be argued in the Court of Appeals today.

It is the appeal of Charles J. Doran, of Albany, convicted with Theodore Harrington, also of that city, for the murder of a gas station proprietor.

Counsel for Doran and Harrington were denied separate trials under the Baumes anti-vice laws. Mrs. Snyder and Gray were refused separate trials on the same grounds.

If the contention of Doran's lawyers is upheld, counsel for Mrs. Snyder and Gray hope to win a new trial on the same argument.

BIRD'S FUNERAL TODAY

Walpole, Mass., Oct. 11.—Final tribute was paid by men and women in all walks of life to the memory of Charles Sumner Bird today following funeral services for the multi-millionaire manufacturer and progressive leader, the body goes to Forest Hills for cremation.

GARDEN CLUB ELECTS ALL ITS OLD OFFICERS

Blue Ribbon Won at Horticultural Show Exhibited Along With Many Fall Flowers.

The Manchester Garden club held its October meeting last evening at the School Street Recreation Center. It was the annual meeting with election of officers and reports. The officers who had done so much for the club during its first year of existence were unanimously re-elected. They were all present last evening and are as follows: President, Miss Mary O. Chapman; vice president, J. W. Galavin of Rockville; secretary, Mrs. R. K. Anderson; treasurer, Miss Madeline M. Smith.

Various matters of routine business and reports in connection with the recent September flower show, which was most successful, were transacted. The prize winners present at last night's meeting received their awards in the shape of roots of various perennials, donated by Lafayette Robertson, Jr., and other large flower growers among the club members. The president appointed as a program committee for the next three months Mrs. W. J. Taylor, Lafayette Robertson, Jr., and Mrs. C. R. Burr.

Trophy on Exhibition. On exhibit at the officers' table was the blue ribbon won by the club at the September show of the Hartford Horticultural society, which entitles the club to a valuable work for its library. Mr. Robertson at last night's meeting donated four books on botany and horticulture and was tendered a hearty vote of thanks. Also on display was a large basket of beautiful snapdragons from the garden of Mrs. Albert Hemingway, a basket of colorful pansies from Vice President Galavin's Rockville garden, a vase of datura from Fred Anderson, from Giles Vickerman, a vase of late-blooming oriental poppies from Miss Florence Shaw, white and pink double cosmos from Mrs. R. K. Anderson and a vase of splendid specimens of the California Giant aster from the garden of Mrs. Fred Robinson of Porter street.

ENGLISH WOMAN BREAKS MISS EDERLE'S RECORD

Swims Channel in 11 Hours and 20 Minutes—Collapses on Beach at Finish. Fokestone, Eng., Oct. 11.—Mona McClellan, whose real name is Dorothy Cochran Logan, a London doctor, today completed swimming the English channel. She arrived at the beach here at nine A. M. She is the second English woman in five days to swim the channel.

Upon landing on the beach, Miss McClellan collapsed and had to be lifted into the boat which accompanied her across the channel. The swimmer declared that she had broken the record set by Gertrude Ederle, American girl, by three hours and nineteen minutes. She said she had accomplished the swim in eleven hours and twenty minutes.

ABOUT TOWN

Tomorrow at 7 p. m. in line with the rally week activities, the intermediate and senior departments will come together at the South Methodist church. It will be in the nature of a party with plenty of fun and activity in the various games and studies, every member of both sections is urged to be present.

Mr. and Mrs. David Korgiebel of Henry street and daughter Margaret are in Danbury for the wedding of Mrs. Korgiebel's nephew.

Memorial Lodge No. 38 Knights of Pythias will have its regular meeting in the Balch & Brown hall tomorrow evening at 8 o'clock.

WILL MEET AT ELKS' HOME IN ROCKVILLE. The Emblem club will have its regular meeting tomorrow afternoon at the Elks' home in Rockville and it is especially urged that every member make an effort to be present. Rockville lodge has the honor of bringing back a supreme officer, who will make a report of the proceedings of the national convention in Providence yesterday.

The delegates from the Emblem club were Mrs. Roberts of Stafford, president; Mrs. George H. Williams, Manchester, vice president and Mrs. Raymond Hunt of Rockville, secretary.

The committee in charge of the last whist will make a report and other items of business and social pastime will be on the program.

CAMP FIRE GIRLS HAVE SUPPER AND RALLY. More than 30 of the Camp Fire girls gathered at the South Methodist church last night for a supper and rally. The tables were set in the Boy Scout room and the decorations were autumn leaves and flowers. The supper was served about 6 o'clock the committee of arrangements being headed by Miss Eleanor Metcalf. The menu included meat loaf, scalloped potatoes, cocoa, rolls and pie. A period of games followed in the gymnasium, Marjorie Little was in charge. The whole affair proved thoroughly enjoyable.

The Camp Fire girls are arranging for an outdoor hike on Saturday, October 22.

LOCAL WOMEN BACK FROM CHICAGO TRIP

Demonstrated Ancient and Modern Weaving Methods in Department Store.

Mrs. Laura Gallinat Loomis and Miss Minnie Poots returned yesterday from a two-weeks' trip to Chicago, taken in the interest of Cheney Brothers, and sent by them to demonstrate the old-time and modern methods of weaving Cheney silks.

The local women report a most delightful time. The occasion for their visit to Chicago was the 75th anniversary of the founding of the store of Marshall Field & Company, the largest department store in the world, being thirteen stories high. Loomis and Miss Poots were accorded every courtesy by the management. They made their headquarters at the Palmer house, the largest hotel in Chicago, and as the exhibition lasted only last week, they were able to do some sightseeing before the combined fall opening and anniversary celebration of the great store. They made the trip to Chicago and return on the Wolverine train.

The old woman which Mrs. Myra Gallinat demonstrated at the time of Manchester's Centennial, together with a modern machine were operated in turn by both Mrs. Loomis and Miss Poots. The firm of Cheney Brothers had a magnificent display of their latest chiffon velvets and silk dress fabrics, also those in the most fashionable color combinations as shown in Paris openings.

The store of Marshall Field was artistically decorated for the event and the local exhibit was one of the most attractive features of the celebration.

TO PURGE THE MOVIES OF FILTH, INDECENCY

Will H. Hayes Tells of His Plans For the Future at Conference. New York, Oct. 11.—Wholehearted approval of the resolution of film producers to purge the cinema of "filth and indecency" was expressed today at the National News Service by Will H. Hayes, czar of moviedom, and president of the Motion Picture Producers & Distributors of America.

The resolution, which contained eleven edicts constituting a new code of ethics for the screen, out-casting profanity, nudity and "sex accentuation," was presented before the trade practice conference of the motion picture industry yesterday. The resolution was signed by the principal motion picture producers and distributors of the country.

Hayes stressed the fact that the move was not censorial, but rather a sincere attempt to cleanse the cinema, to leave no room for charges that the morals of children might be in the least impaired.

"This method," the movie "czar" declared, "which is thoroughly legal and which has proved efficient, is not censorship in any sense of the word."

MODERN GIRL BLAMED FOR BIRTH RATE DROP

BRITISH EXPERTS SAY. London.—The disinclination of the modern girl to undertake domestic responsibilities is given by social workers as one of the reasons—perhaps the main reason—for the decline in the British birth rate. Last year the number of births in Britain was the lowest since the present system of registration came into force.

More and more girls who embark on the sea of matrimony seem to have no thought of undertaking domestic duties, according to the head of London's biggest professional women's hotel.

"Those of my girl boarders who leave to get married go into a small flat after a very short honeymoon, put in a charwoman to do the work, carry on with their job, and now dream of home-making or children," said this authority. "I have heard it discussed in here our common room, quite openly, and it is no unusual thing for a girl to say, 'Of course, we're not going to have any children.' There are some of my boarders who have definitely passed over any idea of marriage, preferring a career to a husband and children."

Some authorities believe that the tendency of the majority of house and apartment owners in the English large cities and towns to bar children from their property is having an effect on the attitude of newly married persons towards the child raising question, while others believe that the various birth control campaigns and financial stringency are major reasons for the decline.

"The Dawn" at Old Orchard, Me., Ready for Hop.

Mrs. Frances W. Grayson (inset) with her big plane "Dawn" now at Old Orchard, Me., waiting for favorable weather to start her hop across the Atlantic. Destination of the plane is Copenhagen.

BOLTON

Mr. and Mrs. B. L. McGurk and family of Hartford spent the week at their cottage. Miss Ella Sumner of Hartford spent the week end at the home of her parents.

Mrs. W. Howe and Mrs. J. W. Phelps have returned after spending several days in Worcester. Miss Rose Nivendahl spent the week end at her home in Thompson, Conn.

Northam Loomis has entered the employ of Cheney Brothers in South Manchester. The North school has reopened after being closed for a week due to the epidemic of a skin disease.

Miss Ruth Jones of New Britain Normal spent the week end at her home.

The School Board met at the basement Saturday evening and the following officers were elected—Chairman, Mrs. Edna Sumner; Secretary, Elsie N. Jones; caretakers in the different districts, North, Mrs. Margaret Halling; Birch Mt., William French; Center and South, Elsie M. Jones. Mr. Garrison gave a talk on Better Schools for Bolton Children. He advised the moving of the Birch Mt. school to a new site purchased by the town. He advised a two room school at the center, one room to be used for 7 and 8 grades and the transporting of the 7th and 8th grades from the South and North to the North.

Other districts a greater advantage as only the first six grades would be taught there.

Charles Loomis of Pawtucket spent the week at his home here. Mrs. Margaret Rose of Mt. Holyoke college spent the week end at her home.

Mr. and Mrs. Roger Rose and son, Miss Elizabeth Rose and George Rose spent Sunday in New York state visiting the grave of their mother, Mrs. Cora Rose.

A cooking lesson was given at the hall Friday by Mrs. Dakin of Storrs college. Another one will be given in November.

The Ladies' Aid society will meet at the hall Thursday afternoon. The hostesses are Mrs. John Toomey, Mrs. John Massey and Mrs. Oscar Anderson.

Fred Berry and daughter, Helen Berry of Hartford spent the week-end at their bungalow. James Fanning of East Hartford spent the week end with his aunt, Mrs. Milton Talling.

BEST BACK IN DIXIE

Quarterback Spears of Vanderbilt is generally considered the best back in Dixie.

WON 25 GAMES

Al Mamaux, former big leaguer, won 25 games for Newark in the International League this year.

HAVE YOU MET ANY CIGARETTE BOOTLEGGERS?

They Deal In Old Golds In Cifies Makers Can't Supply. Within the past few months, a new type of "bootlegger" has made his appearance in several of the principal cities of the country. The strange things about him is that he does not deal in whiskey, gin or other alcoholic liquors forbidden by the 18th amendment, but sells instead a strictly legal commodity—cigarettes.

Consequently, he has violated no laws other than the law of fair trade as it applies to the business in which thousands of other men are engaged—the retailing of cigars, cigarettes and tobacco.

He has simply taken advantage of a condition in the cigarette industry, now being rapidly remedied, and turned it to his profit.

"Yes, there are cigarette 'bootleggers,'" said an official of the P. Lorillard Company. "They are the dealers who are selling Old Gold cigarettes in cities that have not been opened up as yet by our company. They have had repeated calls for Old Golds and being unable to secure them from us, they have gone into open territories and purchased a supply from dealers there. Probably they have made little, if any, money by such transactions, yet they have gained a slight advantage over less-shrewd competitors who have been content to supply their orders."

"The days of the 'cigarette bootlegger' are numbered, however, as the recent acquisition of a new factory in New Jersey, capable of producing 12,000,000 cigarettes annually, will enable us to secure complete national distribution within a very short time. Before this factory was purchased and put into operation, we were able to supply only about 50 per cent. of our normal market with the result that our shipments were automatically limited to old territories previously developed—namely New England States, New York City, New York State, Chicago, and parts of the South and California."

"At the present time, however, we are opening up new territory daily, and we are sending every effort to have Old Golds on sale in every city in the country by the first of the new year."

When the new Old Gold factory is working to normal capacity, it will manufacture between 30,000,000 and 40,000,000 cigarettes daily. Even the smaller figure—30,000,000 cigarettes—is a lot of fire and smoke. It represents a carload and a half of Old Golds, or twenty cartloads of each, enough cigarettes to keep one man supplied for almost 4,110 years provided he limited his smoking rations to one package daily.

Methuselah, who holds the all-time longevity record with 969 years to his credit, would have had to call on reinforcements in order to consume such a day's output of Old Golds during his lifetime. And had he been skeptical about the claim that there's "no cough in a cartload" of Old Golds, he obviously would have had to prolong his life by many, many years to satisfy himself of its truth.

ANDOVER

There were twelve members present at the Ladies' Benevolent Society meeting at Mrs. Cobb's, Thursday afternoon. Ice cream and fancy cakes were served by the hostesses, Mrs. Harry Milburn.

Mrs. Edward Merritt has returned home from the Hartford hospital where she has been under treatment.

Burton Lewis who works in Hartford spent the week-end at the home of his parents. Charles Phelps was home from the Sheffield Scientific School at Yale for the week-end.

Mr. and Mrs. Samuel Coppoll of New Haven and Mr. and Mrs. Edward Nicolini of Hartford were Sunday visitors with Mrs. Ellen Jones.

Mr. and Mrs. Claud Griggs of Danielson were visitors with Mr. and Mrs. Frank Hamilton Saturday.

Mr. and Mrs. Eugene Platt of Wapping entertained Mr. and Mrs. Herbert Porter of Gilead, at the home of Miss Platt's parents Saturday evening.

Lewis Phelps and sons and Mrs. Helen Fitzgerald visited Mrs. Lewis Phelps in the Hartford hospital Sunday. Mrs. Phelps is resting very comfortably.

The Christian Endeavor meeting Sunday evening will be in charge of the colored members of the Christian Endeavor society of the Calvary Baptist church of Willimantic.

Clayton Root of Leonard's Bridge spent the week-end with his aunt, Mrs. Ella Curtis. Byron Strong of Rose Bud, Oregon, was a luncheon guest of Mrs. Helen Fitzgerald and Mrs. Charlotte Phelps, Monday.

Mr. and Mrs. Eugene Platt and Mrs. A. E. Frink visited Mrs. Frink's sister Mrs. Harrison Foot in Colchester Sunday afternoon. The Rev. Mr. O'Brien of Hartford gave a very interesting sermon Sunday morning and told a splendid story to the children. Mr. O'Brien will be here again next Sunday and we hope there will be a large number of children as well as adults to hear him.

Mrs. Thomas Lewis and Burton Lewis attended the football game between the college and a Maine team at Storrs, Saturday afternoon.

POLICE SEEK FIREBUG

Boston, Mass., Oct. 11.—A red-headed firebug who launched Fire Prevention Week by setting three fires in the Back Bay, one in the north end and one in the leather district, was sought by police today.

Description of the pyromaniac was given police by Dr. Louis Gordon of Hotel Canterbury, Charles-gate west, one of the three Back Bay hotels and apartment houses fired. He chased the man, grappled with him on a railroad bridge and, while passing automobiles watched, was forced to relinquish his grip.

All fires were started in the same manner—in rubbish piles. All were extinguished before serious damage was done.

TRY THE STATE TAVERN

Business Men's Luncheon for a real tasty meal. Served from 11:30 a. m. to 2 p. m. Also A La Carte Service Cold Drinks and Near Beer on Draught. Mr. and Mrs. Gus Ulrich, Prop.

GILEAD

Mr. and Mrs. Elton W. Buell spent the week end with their son, Deems L. Buell and Mrs. Buell at their home in Berlin, N. Y. Miss Mildred Stone of Hartford spent the week end with her sister Mrs. Clifford R. Perry and family. Elmer Finley of New York passed Saturday with Alex White hunting.

William Brainerd of Hartford passed Saturday hunting with Charles Fish. The leaves are rather thick to bag much game.

Mrs. Bertha Hubbard entertained over the week end her brother, William Pressy of Chicago, Ill and her sons, Shelton and Philip of New York.

The hill school opened Monday morning after being closed about two weeks on account of the quarantine on all public gatherings.

Mr. and Mrs. Holcomb and family of Hartford who have been spending the summer at their house in Marlboro were callers at Mr. and Mrs. Hart E. Buell's Sunday.

Mrs. Margaret Dingwell, formerly of this town, died at the Manchester Memorial hospital Saturday. Funeral will be held in South Manchester. Burial will be in Hebron.

The Misses Josephine and Bertha Avery of Rocky Ford, Col., are visiting their local relatives, Mrs. Alfred Hutchinson, Mrs. J. B. Jones and Mrs. Robert Foote. Mrs. Bertha Hubbard is passing this week with her son, Shelton Hubbard and family at their home in New Rochelle, N. Y.

Mr. and Mrs. Charles Fish visited his parents in Manchester Sunday. They also visited the new Masonic Temple which was open to the public.

Mr. and Mrs. Joseph Barrasso entertained relatives from New York over the week end.

Rockville

NOT LIKING JUDGE STAVES OFF TRIAL

Sudden End of Rockville Court Term Explained By Neighborly Dislike.

(Special to The Herald.) Rockville, Oct. 11.—The sudden ending of the September term of the Superior Court of this county is being explained as being at the instance of a litigant who was defendant in two cases that were down for trial as the closing ones and which suddenly went over to the December term.

It will be recalled that Judge Edward Yeomans of Andover was on the bench and that the two cases that were to be given consideration, and were likely to take up a day or two of the court's time, were against Allison Frank, former deputy sheriff of Andover.

It is claimed that Mr. Frank is at odds with the Yeomans family and when he found that his two cases were to be tried before Judge Yeomans he decided that he did not want to have Judge Yeomans hear his cases. Judge Yeomans made no objection to having the terms continued until December.

In the December term Judge Yeomans will not preside, but Judge Allyn Brown will sit here, and he lives in Norwich, instead of in the same town as the defendant.

Notes Miss Sylvan Cushman of Ellsworth, Maine, was the guest of the Misses Vera and Constance Brookes of Union street over the week end.

The Misses Lucille Liebe, Catherine Dickinson, Peggy Williams, Vera Brookes, Constance Brookes and Sylvan Cushman attended the football game at Storrs on Saturday.

Mr. and Mrs. Louis Wanegar of Montague City spent the week end as the guests of Mr. and Mrs. Robert Liebe of Prospect street.

Emerson Liebe of Hartford spent the week end at his home on Prospect street.

Mr. and Mrs. Arthur Dickinson of Milford are the guests of Mr. and Mrs. G. B. Milne of Union street.

Mr. and Mrs. Frank Schlopp have returned to their home in Philadelphia after spending a week with relatives.

Hope Sewing Society of the Eastern Star are spending the day at the cottage of Mrs. Claude Eilston at Crystal lake. The members will sew for the O. E. S. hospital.

The Luther League of the First Evangelical Church will hold a meeting on Thursday evening and plans for the Halloween social will be discussed.

Carlton Schultz of Union street attended the World Series game in New York last week.

A Harvest Supper will be served in the parish rooms of the St. John's Church on Wednesday, Oct. 12th at 6 o'clock.

There will be a special meeting of the Ever Ready Club in the club room at the Union Congregational church on Friday evening, Oct. 15, at 7:45 o'clock.

Mrs. Emma Scribner of Prospect street announces the coming marriage of her daughter, Gertrude to Sandino Genovesi, son of Mr. and Mrs. Louis M. Genovesi of Pine street. The wedding will take place Wednesday, Oct. 26th.

James W. Milns Camp, United Spanish War Veterans will hold a meeting tonight in G. A. R. hall. A class of candidates will be initiated and District Inspector Charles Warren of South Manchester will inspect the Camp. After the meeting there will be a smoker and refreshments will be served.

MARRIAGE APPLICATIONS

Marriage license applications were made at the Town Clerk's office today and yesterday as follows: William F. Johnston, Jr., telephone operator of Vernon, and Mary Shea, nurse, daughter of Michael Tracy of Ansonia; Charles Parker Eddy, newspaper man of Hartford, and Marian D. Richmond of this town; George N. Proctor, engineer, of Passaic, N. J., son of Mr. and Mrs. Isaac Proctor of Walnut street, Manchester, and Miss Florence N. Fox, teacher, daughter of Mrs. Dinah Fox of Garden street.

CELEBRATED SIXTEENTH ANNIVERSARY

Loyal Circle of King's Daughters held its regular monthly meeting at Center Congregational church last evening, and incidentally celebrated the 16th anniversary of their organization. Otto Viertel of the Blue Ribbon bakery presented the circle with a beautifully decorated birthday cake, bearing the emblems of the order. In addition to the business a season of games was enjoyed under the direction of Miss Helen Carrier. The hostesses served sandwiches, cake and coffee.

Delegates appointed to the state convention at Danbury, November 1 and 2 were Mrs. James E. Johnston, Mrs. Rollin Hitt; alternates, Mrs. Otto Viertel and Miss Alice Runde.

TRICKS NO GOOD. "Bit" Hoffman and Dick Hyland, two of the best backs on the Pacific coast, found their ability on a fall when Stanford lost to St. Mary's a few days ago.

SOUTH METHODIST CHOIR TO SING GULMANT MASS

Chorus of 30 Voices to Present Famous Group of Masses Sunday Night.

On next Sunday night, October 16, the choir of the South Methodist church, under the direction of Archibald Sessions, will offer their first Sunday evening musical of the season. The entire program will be devoted to the works of the French composer, Alexandre Gullmant. The choir will sing the Mass in E flat, consisting of the Kyrie, Credo, Sanctus, Benedictus, Agnus Dei, and the Gloria in Excelsis. The organ symphony in D minor, originally written for organ and orchestra will be played.

These two works, the Mass and the Organ Symphony, show the great French composer at his best, and are among the most widely known of his writings. Gullmant was born in Boulogne-sur-Mer in 1837, and as an early age became a pupil of the famous Belgian organist, Lemmens. In 1871 he was appointed organist at La Trinite in Paris and it was here, and at the Paris Exhibition of 1878 that he played the famous organ. He died in 1904, giving 40 programs without repeating a number. He toured all of Europe, being decorated by most of the Royalties and by the Emperor of Russia. He was the author of His yearly historical recitals at the palace of the Trocadero in Paris were attended by many tourists and music lovers, and the majority of prominent American organists of today may be listed among his pupils. Many improvements in modern organ building can be traced to his constant and loving devotion to his instrument. He died at Meudon, his home near Paris in 1911.

PHILIP CHENEY, ALVORD PLAY 21 HOLE GOLF

Former Wins Spectacular Game in Tournament; Nauman, Clark "Overtime" Also.

Three matches in the first round of the annual golf championship tournament being conducted at the Manchester Country Club have not been completed, although scheduled for last Sunday. They may be played off this week together with the second round matches or may be defaulted.

The feature of the first round was two extra hole matches. Philip Cheney defeated Harold C. Alvord one up when he made a birdie on the 21st hole after halving the previous two. He will meet Fred Nauman, who won from Tom Clarke by default. The other "overtime" match resulted in a victory for Charles Feiber over L. V. Joslin.

The margin, one up, was gained on the nineteenth hole. Feiber meets the winner of the unplayed Carl Walker-Frank H. Anderson match. Fred T. Blush, Jr., beat H. A. Hyde two up and will meet Frank Burke or Fred J. Bendit. John Gleason and Austin Cheney have not yet played but the winner meets Charles Johnson, who won from Paul Balleseper, 3 and 2. Rain caused the postponements last Sunday.

The results of Saturday's sweepstake handicap tournament in which only eight completed, was won by Charlie Johnson. The results:

Table with 3 columns: Name, Score, and another column. Includes names like C. Johnson, P. Balleseper, J. Hyde, F. Bendall, T. Clarke, R. O. Cheney, F. Nauman.

WARRANTEE DEEDS

The following warrantee deeds have been filed at the office of the Town Clerk:

George L. Fish to Carrol McGuire and wife, property on Starkweather street.

Camillo Gambolati to Adolph Abrahamson, land on Eldridge street, 60 by 124 feet.

Albert Abrahamson to Camillo Gambolati, property on Clinton street, 194 by 60 feet. This same property has been in turn deeded to Giuseppe Ponticelli and wife by Mr. Gambolati.

Thomas Moore to Grace E. Moore, half interest in Hudson street property, 8 by 9 rods.

Herman Muske to Camillo Gambolati, Lots No. 46 and 47 in South Manchester Heights, having frontage on Norman street. These lots together measure 150 by 100 feet.

TALKS OF BURMAH AND ITS PEOPLE

Dr. Vere Abbey of Hartford was the speaker at the meeting of the Men's Friendship club at the South Methodist church last evening. His talk was on Kipling's "On the Road to Mandalay" and centered around the land of Burmah. Its people, their religion and habits of life. He gave a brief description of the country, its beauties and the existing economic conditions, all of which held the close attention of the members. Dr. Abbey brought with him a number of curios including a typical Burmese bible, a tinkling bell from one of the pagodas or temples. They are hung up on the towers and ring by the action of the wind. He exhibited other interesting curios all of which were very much appreciated.

PLAYS INFIELD WELL

Waddy Holm, St. Louis outfielder, was formed to play third base several days just prior to the close of the season and performed satisfactorily.

Herald Advs. Bring Results

"Bit" Hoffman and Dick Hyland, two of the best backs on the Pacific coast, found their ability on a fall when Stanford lost to St. Mary's a few days ago.

TO MAKE EVENT OF THURSDAY OPENING

Merchants to Usher in the 'Change With "Community Night" on October 24.

A revised schedule of store opening and closing hours, adopted by the Merchants' Division of the Chamber of Commerce, will shortly be submitted to the membership for approval. The new schedule has been made necessary by the decision of the merchants last week to close their stores on Wednesday afternoons and open them on Thursday afternoons and evenings.

The committee of the division, which has drawn up the schedule, plans to acquaint the public with the new arrangements through a series of advertisements, which will be paid for out of the funds of the organization. This committee is composed of Charles J. McCann, R. K. Anderson and Warren Keith.

The merchants realize that it will take some time to get their customers from the outlying sections to become accustomed to the new opening night. To help this matter out a circular letter will be sent out in a short time, telling suburban buyers that stores will no longer be open on Tuesday evenings.

Community Night

It is planned to usher in the new arrangement on Thursday, October 24, when the change in opening nights will go into effect. This will be known as a Community Night.

These changes were made imperative by the new paying system of Cheney Brothers, the largest manufacturing concern in Manchester. Formerly the payroll at that plant was distributed on Monday, Tuesday and Wednesday. Now the days of paying are later in the week and the merchants have said that the Tuesday night business has dropped off considerably.

At a meeting of the merchants last week it was decided to change the closed afternoon from Thursday to Wednesday and to open stores on Thursday evening instead of on Tuesday.

Following is the new schedule which will be submitted to the division:

All day closing: New Years, Memorial Day, July 4, Labor Day, Thanksgiving, Christmas and Merchants' Day, the latter on the third Thursday in July.

Wednesday afternoons: Close throughout the year with the exception of December, which will be decided at a conference of merchants in November.

HILLIARD MILL WORKER, STRICKEN ON JOB, DIES

Joseph Ridings, Who Came From Lowell Last March, Victim of Heart Attack.

Joseph Ridings dropped from an acute heart attack this morning while working in the finishing department at the E. E. Hilliard Company's plant in Buckland. He was removed to Memorial hospital in Holliston Brothers' ambulance but was pronounced dead upon arrival.

Mr. Ridings and his wife came to Manchester last March from Lowell, Mass., and have lived at the Hotel Sheridan.

Mr. Ridings, who was in his 57th year, was subject to heart attacks. Funeral arrangements are incomplete.

MOTHER'S CLUB WILL MEET NEXT FRIDAY EVENING

The October meeting of the Manchester Mothers' Club will be held Friday evening of this week at 8 o'clock. The speaker of the evening will be Miss Viola Erickson of the Connecticut Dairy and Food Council, whose subject will be "Food for Health and Growth."

Miss Erickson's lecture will be illustrated with fine stereopticon slides and it is believed will be of unusual interest to the mothers. There will also be vocal solos by Mrs. Fred Woodhouse.

The hostesses will be as follows: Mrs. Theodore Brown, Mrs. Samuel Bohlin, Mrs. R. C. Alton, Mrs. Edward Dolan, Mrs. Joseph Dean, Mrs. J. C. Cary, Mrs. C. E. Watkins, Mrs. Stuart Corder, Mrs. E. F. Balleseper, Mrs. U. J. Lupton, Mrs. Millard Park, Mrs. Norman Thrall, Mrs. W. R. Mitchell, Mrs. C. P. Allen, Mrs. George Harris.

ANDREW FERGUSON TOP HOOK OF THE BASS CLUB

Turns in Season's Whopper With Town Clerk Second; Eight Win Prizes.

Announcement of the winners of the Manchester Bass Club for the season of 1927, made at the sporting goods establishment of Barrett & Robbins today, discloses that Andrew Ferguson, indefatigable angler of Bolton lake, brought in the largest fish of the club's year, taken at Bolton—as usual—and weighing four pounds twelve ounces. There was no room for quibbling over the circumstance that Mr. Ferguson himself happened to be one of the judges elected from the club membership under the rules, because his bass was in a class by itself, exceeding by more than a pound weight the next largest, taken by Town Clerk S. J. Turkington and weighing three pounds nine ounces. Besides, there were two other judges, R. J. McKinney and W. E. Lutgens.

The entire amount of the club's entrance fees were divided among eight winners. Of the amount Mr. Ferguson receives \$23 and Mr. Turkington \$12. Other winners with the weights of their fish and amounts of their prizes, are as follows: Conrad Dwire, \$8, three pounds three ounces; T. R. Gleney, \$6, three pounds two ounces; Robert McKinney, \$5, three pounds one ounce; William J. Douglas, \$4, three pounds; John Douglas, \$3, two pounds thirteen ounces; John Bausola, \$3, two pounds thirteen ounces.

The winners have the option of taking their prizes either in cash or in merchandise, and can receive them at Barrett & Robbins' store.

While the legal bass season continues through October there is very little fishing done in the latter weeks and the club ends its season October 1.

ABOUT TOWN

Rev. Joseph Cooper is one of the speakers at tonight's session of the Epworth League of the North District Methodist Association in the Epworth church.

An application for a marriage license has been made in Hartford by Gordon H. Merrill of Charter Oak Park, Hartford, and Sarah E. Hewitt, slk winder of this town.

A son was born at the Memorial hospital yesterday to Mr. and Mrs. Howard Flavell of 87 Main street.

Mrs. William Scheldge of Spruce street entertained her bridge club at her home last evening with a spaghetti dinner. After dinner bridge was played and an enjoyable evening was spent.

Mrs. Robert Doner of Haynes street spent yesterday with relatives in Hartford.

A Halloween Frolic will be given by the Epworth League of the South Methodist church on Monday evening, Oct. 17, at 8 p. m. The regular monthly business meeting at 7:30 p. m. will precede the party. All leaguers and their friends, young and older, who desire to join the league are cordially invited.

The Buckland Parent-Teacher association held a very successful whist last evening at the school, assembly hall. The two first prizes, \$2.50 in gold, were won by Mrs. John Barstow and Andrew Foley, holders of the highest scores for ladies and gentlemen. The committee in charge served gingerbread with whipped cream and coffee.

Leo S. Gillis, a graduate nurse of the Memorial hospital, was talking by telephone with his sister at San Diego, Cal., Sunday evening. The length of the conversation was eight minutes, and the connection was made in 42 minutes. The hearing over the telephone from both ends was exceptionally good. Mr. Gillis is a native of San Diego.

Earl Rogers and Richard McLagan of this town were visitors yesterday at Kennel Gardens, at St. Clairsville, Ohio, to see the thoroughbred dogs and pups representing all popular breeds.

Mrs. Hugh May and two daughters of Elro street leave this week for their old home in Scotland. During their absence Mr. May will spend much of the time in New York.

The Manchester Water company is giving the hydrants on its system a coat of brilliant red paint today.

DRAFTING COURSE AT NIGHT SCHOOL

Mechanical and Free Hand Drawing Figure in Opportunities For Ambitious.

Following is the next to the last series of articles dealing with the various courses of study offered at the State Trade school here for evening school students:

There are a number of men with good mechanical ability who find it impossible to express their thoughts on paper, and during the winter months the State Trade school is offering to these men a course in mechanical and free-hand drawing.

The course is so arranged that individual instruction is given to the student. Those having an elementary knowledge of mechanical drawing will be advanced to more complicated work, while those other hand students having no preparation will be taken through the elementary steps before advancing to a higher stage. The outline of the course is as follows:

Use of drawing instruments, T square and triangles.

Free-hand sketching from actual machine parts with its necessary dimensions and views.

Simple and complex projections. Detail drawing from free-hand sketches.

Assembly drawing from details. Details from assembly drawings. Tracing in ink on tracing cloth and tracing paper.

Making of blue prints. Layout of cams and motions. Designing of tools, jigs and fixtures.

The above course should interest two classes of men, those who are engaged in mechanical work as machinists, toolmakers, patternmakers and foundry men, and also those with some mechanical instinct desirous of learning a trade.

The mechanic who is unable to comprehend such an complex drawing of mechanical parts and who is unable to estimate time and cost on different types of work has little chance to advance to a position of responsibility in his trade. Furthermore, the mechanic who expects to advance in his trade will observe that men holding positions more important than mere machine operators are constantly being required to make free-hand drawings.

Free-hand sketching of mechanical parts is emphasized through the entire drawing course.

CRAP SHOOTERS TOOK COPS FOR STICK-UPS

That's Why They Sat Still and Yielded to Capture, One Explains.

"We thought sure it was a hold-up, else they wouldn't have got nowhere so many of us or so much money. We wasn't going to take any chance of getting plugged. How did we know they were state police when they came in dressed in civies with their guns out?"

That was the way one of the Manchester men who was caught in the raid on a gambling joint at Bolton Notch early Sunday morning described the situation today. He said there were about twenty of them shooting crap for big stakes when the five state policemen in plain clothes walked in and commanded them to "throw up your hands." For some unexplained reason, no guard had been left at the door and the officers walked in unnoticed.

Believing that they were being held in the raid on a gambling joint in Middletown gambling joint recently the men quickly obeyed the order. One man threw a roll of about \$150 into a corner so that the "thieves" would not find it when they searched the place. The cops did, however, when they searched the place.

When the gamblers finally realized that the unwelcome visitors were really state policemen, some of them bolted past the officer on guard and escaped. Sixteen were caught in the raid but only two of them appeared in the Bolton town court last night. They paid a small fine and costs of court. The others forfeited bonds of \$25 because they were under the impression that their cases, like that of the proprietor in charge, had been adjourned a week.

SHORT REEL BLAZE AT SHERIDAN HOTEL

All Over So Quickly That Firemen's Fast Runs Are Merely Spectacular.

Firemen who answered an alarm from Box 46 at 11:30 this morning, found the kitchen of the Hotel Sheridan filled with smoke, the result of a fire-up into the chimney of the big gas range there. The fire was trivial and no damage was done. Chemical lines were run into the kitchen by the firemen but were not turned on.

Before the alarm whistle had finished its second round, the truck of Hose Company No. 1 had arrived at the scene of the fire. Trucks from Hose Company No. 3 and No. 4 followed closely and the three companies had assembled just as the last sound of the whistle died away.

Chief Albert Foy of the fire department, who investigated the blaze, said that it was caused by the presence of soot in the gas range. Food which had been cooking on the range had flared up and ignited the soot, producing a slight blaze and considerable smoke.

This was the second alarm for the department in two days, a "stull" being turned in at the headquarters of Hose Company No. 1 yesterday afternoon. Some clothes had caught fire in the home of Leon Schaller of 427 Center street. This blaze was extinguished quickly.

THREE SCHOOLS PERFECT IN THRIFT AVERAGES

Have No Pupils Who Are Not Savings Depositors—South End Less Canny.

Every one of the 257 pupils in the Manchester Green school deposits money weekly through the school savings system instituted by the Educational Thrift Service, it was revealed today in a summary for the week ending October 4.

The South school on South Main street also showed 100 per cent, all ninety pupils making deposits as was the case at the Open Air school, which has twenty pupils. The Hollister street school, North School street school and the Porter street school, while not 100 per cent, are all close up.

Their respective depositors are 301 out of 304 children at the Hollister, 577 out of 588 at the North and 95 out of 97 at the Porter.

Four schools in the south end made lesser showings, the Washington, Nathan Hale, Lincoln and Barnard, each having only about half of its enrollment making deposits. The summary:

Table with 3 columns: School Name, Enrollment, Depositors. Includes schools like Green, South, Open Air, Hollister, North, Porter, Buckland, Oakland, Keeney, Bunce, Washington, Nathan Hale, Lincoln, Barnard.

Better Coffee Better Golf

MANY a man has found that there is a very definite connection between his golf and the cup of coffee he had for breakfast. Good coffee invigorates him and helps his game. Perhaps no one appreciates a cup of real, deliciously flavored coffee more than an active, outdoor man.

Wise wives do not reserve YUBAN for their special dinners, but serve it every day—to the delight of their families. It costs little more per pound—but it goes further and it has more flavor than ordinary coffees. Try it.

Coffee Making Pointers

Never use a tin coffee pot or an enameled pot in which the surface has been worn off in spots exposing the iron. Coffee is bound to result.

NORTH END FIREMEN TO TEST ON SUNDAY

No. 1's Also Decide to Put Team in Community Club Setback Tourney.

Hose Company No. 1, M. F. D., will enter a team in the Manchester Community club setback tournament, it was decided at the regular meeting last night. It was also announced that the final fall test of the equipment of the company will be made on Sunday morning. The test will take place in front of William Hibbard's store on North Main street, and will determine the condition of the trucks, the hose lines and the water pressure.

NEW AUTO RECORD Salem, N. H., Oct. 11.—Automobile racers of the country gathered here for the Columbus Day races today were congratulating Frank Lockhart, youthful Californian, on the new world's record he had hung up. He swept around the mile and a quarter board sander here in the amazing time of 31.1 seconds, or at the rate of 144.2 miles per hour, smashing the old record of Cliff Woodbury made here on July when he did 141.5 miles per hour.

The Right Sort Of Start In The Morning

If you get started right in the morning everything is set for a good day. If the very first thing you put on is comfortable, correctly fitted underwear, you're going to avoid a lot of life's little irritations.

Munsingwear and Duofold

underwear fit so well that you will never give them a thought the live long day.

Men's Munsingwear Union Suits \$1.50 to \$4.50

Men's Duofold Union Suits without a scratch \$3.00 to \$5.50

Men's Duo Ribs Union Suits \$2.50

Men's 2 Piece Garment's

Duofold Shirts and Drawers \$3.00

Glastenbury Shirts and Drawers \$1.65 to \$2.50

Amho Shirts and Drawers \$2.50

Cotton Ribbed Shirts and Drawers \$1.00

Boys' Union Suits

Heavy Weight Cotton \$1.25 to \$1.75

Boys' Munsingwear \$1.75 to \$2.75

Boys' Duofold \$2.25 to \$2.75

Fall Weight Union Suits At Special Prices

Men's 14 pound, part wool Union Suits \$1.79

Men's 14 pound Cotton Union Suits \$1.48

Men's 12 pound Cotton Union Suits \$1.25

C. E. HOUSE & SON, Inc.

THE BOOK OF KNOWLEDGE: (105) Beating the Clock

Wonderful machines for the swift transmission of news and pictures for newspaper usage have been invented in the last few years. One pictured above is commonly called a "printer machine." The man sending a message to a distant city writes it on this teletype, and as he strikes the keys holes are punched in certain places on the tape as it passes through.

The tape passes into this automatic transmitter and the same impressions are recorded on a typewriter in the receiving city.

Here is the typewriter set at the receiving end. Electricity types out the messages as they come in.

You see long lists of prices of stocks and bonds in the paper every day. To get these, many wires connect cities having stock exchanges with newspapers, brokers and private offices throughout the country. The girl is shown sending stock messages, while the inset is a ticker tape which prints them in different cities.

SKETCHES BY BESSET SYNOPSIS BY BRANCHER

Manchester Evening Herald

Entered at the Post Office at Manchester as Second Class Mail Matter. SUBSCRIPTION RATES: By Mail six dollars a year, sixty cents a month for shorter periods.

TUESDAY, OCT. 11, 1927.

MASONIC TEMPLE

Now that the Freemasons of Manchester have beheld the realization of their dream in the dedication of the splendid new Temple at the Center, it is perhaps the right of the whole town of Manchester, non-Masonic as well as Masonic, to assert its claim to a share of the gratification that arises in this significant and desirable addition to the evidences of Manchester's importance.

It is no light index to the character and quality of a community of less than twenty-five thousand persons that it contains a single group numbering so many persons and commanding so much of both means and the spirit to employ them that they can finance and complete, without noise or commotion, so great a work as the erection and equipment of this new home of Masonry.

Dignified without austerity, competent without ostentation, the new Temple in a peculiar sense represents this town and will continue to represent it in the view of the untold thousands of strangers who are destined to pass its door in the years to come.

Intimately an object of love and devotion to its builders, the Masonic Temple is only less intimately a subject of pride and felicitation on the part of all the people of Manchester.

TEAPOT DOME

Nobody anticipated any other decision in the Teapot Dome lease case by the United States supreme court than the one which has now been handed down—the cancellation of the lease.

Since, however, the Supreme Court goes to the length of declaring that the whole leasing transaction between Sinclair's Mammoth Oil Company and former Secretary of the Interior Albert B. Fall was "shot through with fraud" it would seem as if the position of Judge Blake Kennedy of the United States District Court of Wyoming was a most uncomfortable if not an untenable one.

It is perhaps no more than is to be expected of financial adventurers like Doheny and Sinclair, obsessed with the lust of acquisition and bred to contempt for the niceties of law and ethics, that they should engage in such crooked enterprises as these oil leases.

SMART DOG

Before a psychology class at Columbia University Jacob Herbert of Detroit, owner of a police dog named "Fellow" gave a demonstration of the comprehension of words on the part of the dog which not only convinced the psychologists that the animal understood his master's orders but will probably precipitate anew the never ending discussion as to whether animals are governed by intellect or "instinct."

attention," says a news story. "Herbert put the animal through its paces. He walked here and there at Herbert's command, picked up any article the master told him to, and placed it at any designated spot. Then Herbert hid himself behind a screen, and spoke his orders unseen by the animal. Again the dog responded with unfailing precision, and a rare lack of hesitation.

"Herbert jumbled his commands, accepted suggestions from the class and proved conclusively that he had not merely taught his dog a certain routine performance that could not be varied. He placed three objects on the floor—a chain, a collar and silver dollar. He told the dog to pick up the collar, place it on a table, and then do the same thing with a dollar. The phonetic difference between these two words is very little, yet 'Fellow' found little difficulty in choosing the right object at the proper time.

"He knows what I say," Herbert declared, "and he does what I want him to willingly. He knows between 300 and 400 words, or at least he associates these words with different objects I have taught him. My method of teaching has been forbearance and common sense. I do not have to punish him, nor reward him with food when he acts as I wish."

There are a great many persons, usually those who had the most to do with pet animals, whose reaction to this kind of a story is nearly akin to exasperation—not because of its improbability but, on the contrary, because it should be regarded as a strange thing that the animals appear to understand language. "Why, of course they do," the dog owner will declare—and tell you a hundred things to prove it.

For our part we are delighted that a class in Columbia should be devoting itself to such a worth while problem as whether or not a clever dog may be the intellectual equal of an eight-year-old child. They could be spending their time on a great many things included in college curricula that are not nearly so worth while. And we are offering no odds that the decision would be against the dog.

NO HATRED

Somebody has been getting the Bishop of London on a string. That worthy churchman, who is much admired in this country, on Sunday begged a congregation of visiting Legionnaires to aid in preventing hatred of Great Britain from being instilled into the minds of boys and girls in public schools of the United States.

This will be the first time that most of us have ever heard of any such thing. If there are localities where hatred of England has survived the hundred and fifty years since we took a separate path they must be few and remote. If there is anybody who nowadays makes a business of twisting the British lion's tail he is, if we except Big Bill Thompson, entirely negligible; and Thompson is of consequence only to the degree in which he is funny.

We believe it to be true that whatever hatred of England may exist in the United States owes its origin not to any teachings in the schools but to the continuation and handing down of imported animosities through the influence of elders in families.

It may be admitted that our school histories contain much that is untrue with relation to the revolutionary war and the war of 1812, but it is mostly along the line of flamboyant hokum with relation to American patriotism rather than in the direction of unjust attacks on the parent country. As a matter of fact, most of our school histories are so busy portraying the patriots as an impossibly sanctified lot of supermen that there is no time left for the roasting of King George the Third. Our national outlook on those troublesome times is, really, strangely impersonal and detached from even indignation, let alone hatred for anybody.

If there is plenty of room for improvement in the quality of instruction in our schools concerning the periods over which hatreds conceivably might have been engendered, the need of reform is rather in the elimination of a rather ridiculous mass of self-glorification than in the elimination of unjust accusations against England.

Really, so smugly complacent are most of our school histories that the average American school boy comes out of his history courses with a feeling more of commiseration than of enmity for even the England of 1775, having been made to believe that Britain was a very foolish and deluded country indeed to have entertained the hope of defeating the demigods who made up the entire population of the colonies.

No American school boy learns to hate England. He learns to condescend to her.

ITALIAN WHEAT

Under the spur of Mussolini, who is actuated by a laudable determi-

nation to make Italy self-supporting in the matter of food, the farmers of that country have succeeded in tremendously increasing the production of wheat. Now they are distressed to find that the price of that commodity has fallen. They are being assured that the fall in the market price of their wheat crop is caused by the revaluation of the lira.

Just what effect the revaluation of the lira has had upon wheat prices is problematical, but since the revaluation has been for the purpose of making the money unit dearer it is, of course, inevitable that general prices, as measured by lira, must tend downward.

A New Yorker in Paris

Paris—I just knew it would happen. Something like six years ago, while stranded in the wilds of Bisbee, Arizona, I stopped to gaze in the window of a haberdashery and there displayed were a couple of suits and a hat labeled "Latest Paris mode."

Moving on to Los Angeles, I gazed in the windows and found that the show-cards read: "Latest New York model." As I moved eastward the windows informed me that this style and that were variously the "latest from Chicago, New York and Paris." And then I arrived in New York and found the placards proudly announcing the "latest arrival from Paris."

Not so many days ago I arrived in Paris and, turning at the Rue de la Paix into the Boulevard des Capucines, I stopped to see what the latest Paris fashions might be and there, in the first haberdashery I came to, was a wax model wearing a familiar looking suit of clothes and, just below, was a sign reading: "La mode a New York."

Now I ask you, is there any sense in this world? Which reminds me . . . advise the boys from Maine to California to look out for hats of herringbone shade. I counted fifty around the Cafe de la Paix today and they're being shown in every other shop window.

And if that doesn't awaken their sartorial interest, it might be added that real snakeskin neckties are as common as chestnut trees on the Champs Elysees.

The Champs, it seems to me, is the greatest street for children in all the world. At intervals of each block, and even more frequently, little catch-penny stands pop out of lovely parkways like mushrooms. Each is equipped with a French and Judy show which functions hour upon hour while the good shopkeeper calls attention to the hoops and tops and dolls and other wares that colorfully bedeck his counter.

Five o'clock is rendezvous hour at the Cafe de la Paix which, in spite of the Paramount Theater on Broadway, is the real crossroads of the world. At five o'clock the American bars empty as by magic and from the four corners of the city everyone sits down to watch the rest of Paris walk by.

Within half an hour I saw: Three Turks with gaily colored rugs thrown over their shoulders; two slender, olive-skinned Indian women wearing jewels in their nostrils; half a dozen women in the native costume of Brittany; a Spanish lady show which functions hour upon hour while the good shopkeeper calls attention to the hoops and tops and dolls and other wares that colorfully bedeck his counter.

What a place!

GILBERT SWAN.

Old Master's

Mowers, weary and brown, and blithe.

What is the word methinks ye know.

Endless over-word that the Scythe Sings to the blades of grass below?

Sythes that swing in the grass and clover

Something, still, they say as they pass!

What is the word that, over and over,

Sings the Scythe to the flowers and the grass?

"Hush, ah hush," the Sythes are saying.

"Hush and heed not and fall asleep!"

"Hush," they say to the grasses

"Hush," they say to the grasses

"Hush"—'tis the lullaby time is singing—

"Hush and heed not for all things pass."

"Hush, ah hush!" and the Sythes are swinging

Over the clover, over the grass!

—Andrew Lang: Scythe Song.

WASHINGTON LETTER

This is the first of a series of four articles on the appointment of Dwight P. Morrow as ambassador to Mexico. The stories give interesting glimpses behind the scenes in our relations with Mexico.

By RODNEY DUTCHER

Washington, Oct. 11.—After buzzing around for several days to discover the real meaning of the appointment of Dwight Morrow as ambassador to Mexico, your correspondent is able to report that:

1.—The appointment signifies a new method of dealing with Mexico, which aims to supplant conservative

twiggling with conservative intelligence. 2.—The appointment is decried by one group in the Department of State and by those American oil interests which have worked behind the scenes to foment trouble between the two governments.

3.—The appointment is gratifying to the government of Mexico. Although there are few things to be said against President Coahuila's choice, it should be understood that the details that the United States and the Morgan banking firm are sending a joint representative to Mexico may be swallowed in a saline solution. There may be loud protests and whoops in the next Congress over his phase of the matter.

The Morgan firm's chief interest in Mexico lies in the fact that it is the collection agent for more than half a billion dollars in Mexican bonds held in this country and abroad. Under the Paul-Lamont agreement, Mexico is paying nearly \$15,000,000 a year in interest and it presumably will be part of Morrow's job to see that this interest keeps coming. He also will be interested in laying any possible groundwork for Mexico's eventual paying of the enormous principal.

It will be recalled that quotations on Mexican bonds shot upward when the Morrow selection was announced. In attempting to analyze our Mexican policy, past and present, it must be remembered that there are two great classes of foreign investment in Mexico—the financial and industrial. Their interests do not always run parallel.

First, there are the owners of oil wells, mines, lumber and land. It is not necessarily to the advantage of these investors to operate in a strong, prosperous Mexico. Naturally, they do not relish factoring restrictive laws enforced in the national interest and a prosperous

debt, something more than \$500,000,000 owed to foreign investors. Then her approximately \$200,000,000 in railroad bonds, perhaps half of which are backed by the government.

Then that annual \$15,000,000 interest payment which Morrow's partner, Thomas W. Lamont, hatched and has since nurtured so carefully.

Second, there is the sort of interest in Mexico which Morrow represents. There is Mexico's public

debt, something more than \$500,000,000 owed to foreign investors. Then her approximately \$200,000,000 in railroad bonds, perhaps half of which are backed by the government.

Then that annual \$15,000,000 interest payment which Morrow's partner, Thomas W. Lamont, hatched and has since nurtured so carefully.

Second, there is the sort of interest in Mexico which Morrow represents. There is Mexico's public

Lot Number 4: Includes your choice of any of these Fringed Velvet and Wilton rugs: (3) 8 1/4 x 10 1/2 ft., reg. \$60.00 (3) 9x12 ft., reg. \$70.00 (2) 8 1/4 x 10 1/2 Wilton, reg. \$79.00. Lot Number 5: Your choice of these high grade Wiltons: (2) 8 1/4 x 10 1/2 ft., reg. \$83.00 (2) 8 1/4 x 10 1/2 ft., reg. \$85.00 (2) 9x12 ft., reg. \$85.50 (2) 8 1/4 x 10 1/2 ft., reg. \$89.00 (4) 9x12 ft., reg. \$90.00 (1) 9x12 ft., reg. \$95.00 (1) 9x12 ft., reg. \$105.00. WATKINS BROTHERS, Inc. EXCLUSIVE REPRESENTATIVES FOR CRAWFORD AND CHAMBERS RANGES.

Mexico means an end of miserably cheap labor to work in the oil fields, the mines, the timberland and on the soil. The oil, mining and lumber men disembody the earth and shave the surface. Everything goes out and nothing comes in. Mexican resentment is directed against these interests. Then, finally, more than \$150,000,000 in scrip which represents interest on bonds which went unpaid from 1913 to 1926, during Mexico's revolutionary and early reconstruction period. Everyone who is interested in these various sums presumably want Mexico to be prosperous and her government stable in order that she may pay. These facts and knowledge of Morrow's past attitude lead one to believe that the new ambassador's attitude toward Mexico will be sympathetic and conservative. Morrow, whose intimacy with President Coolidge is well known, has often advised the president on the Mexican situation.

A THOUGHT

For the fashion of this world passeth away.—1 Cor. 7:31. Fashionability is a kind of elevated vulgarity.—George Darley.

HIGHWAY DEP'T WARNS AGAINST ROAD BONFIRES

**Cautions That Burning
Leaves or Tossing Light-
ed Cigarettes into Brush
May Start Forest Fire.**

Sustaining its drive to lessen the forest fire hazard to Connecticut woodlands, the Connecticut State Highway Department today issued a warning to motorists using the highways of this state against throwing lighted cigarettes and cigars into the underbrush and dead leaves along the shoulders of the highways.

The highway department also issued a caution to property owners along the highways against destroying dead leaves by building bonfires on the shoulders of the road. Sparks from these fires are blown into the woods and develop into forest fires. Due to the hot, dry weather of the past month and due to the rapid fall of the leaves, most of the woodland along the highways in Connecticut is now so dry that the smallest spark might start a conflagration.

Property owners are requested by the department to rake dead leaves into a protected spot on their own land before burning them and to carefully guard all bonfires while they are burning. It is essential to the safety of the woodland that all fires of this nature be carefully extinguished before they are left unguarded.

During the past summer the highway department has made a special effort to clear from the shoulders of the highway all dry brush and other inflammable materials. Despite this precaution, however, no amount of work can keep the shoulders of the highways free from the accumulation of dead leaves. These leaves are excellent tinder, and only a glowing match, cigarette, or cigar is necessary to turn them into a roaring fire which may destroy thousands of acres of valuable woodland before it can be extinguished.

START EXCAVATING FOR RUBINOW ADDITION

Work on the excavation for the new Rubinow addition was started yesterday by Joseph Hublard, who has been given the concrete cellar contract by Allan Hayes, general contractor on the job. Mr. Hublard advertised filling for sale in The Herald yesterday.

The addition, which will adjoin the Rubinow store in the Park building, will be 50 feet long and 23-2 feet wide. It will increase the floor space of the place to three times its present space, all of which would be available for showroom purposes.

The grade of the addition is such that the basement floor of the present store will be the first floor of the new structure, while the first floor of the main store will correspond to the second floor of the addition.

INGROWN NAIL. Turns Right Out Itself

A few drops of "Outgro" in the crevice of the ingrowing nail reduces inflammation and pain and softens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost overnight.

"Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—adv.

WAPPING

Willson-Congdon.
Miss Josephine Holt Congdon, daughter of Mr. and Mrs. Frank W. Congdon of Laurel Hill, Wapping, and George Theron Willson, son of Mr. and Mrs. Charles T. Willson of America, New York, were married at the home of Mrs. Congdon's parents Saturday afternoon at four o'clock. Rev. Truman H. Woodward performed the ceremony, using the double ring service.

The bride, who was given in marriage by her father, wore a bouffant gown of white bridal satin and carried a shower bouquet of bridal roses and baby's breath. Her veil was caught with orange blossoms and pearls to a cap of lace. Mrs. Truman H. Woodward, the bride's sister, was the matron of honor. She wore a dress of cream colored lace and georgette with a green sash and carried yellow roses. The bride's niece, Miss Josephine Ann Woodward was the flower girl. Her dress was of pink voile over yellow satin and she carried an old-fashioned bouquet. Alfred Willson, brother of the groom was best man. The house was very prettily decorated with ferns, cosmos, roses and chrysanthemums. Music was furnished by an instrumental quartet from Hartford. About sixty guests were present from Hartford, New York, Willimantic, Manchester, Hampton, South Windsor and East Hartford.

After the reception Mr. and Mrs. Willson left on an unannounced wedding trip.

Mr. and Mrs. Charles Hevenor of this town and Mr. and Mrs. Edward Bancroft of East Windsor Hill have returned from a trip to Cape Cod.

Waldo F. Grant is convalescing from an operation which was performed at the Hartford hospital last Saturday.

The High school class of girls of the Federated Sunday school met at the home of Miss Harriet Sharp last Saturday evening.

Miss Lillian Durley, who has been staying at the home of Mr. and Mrs. Levi T. Dewey went to Warehouse Point last Saturday where she will visit with relatives and friends.

East Central Pomona Grange No. 2 will hold its next regular meeting with Coventry Grange No. 75 at Grange hall at North Coventry, next Wednesday, Oct. 12. At the morning session, which begins at 10:30 o'clock, the fifth degree will be conferred on a class of candidates, with a dinner at noon. There will be a literary program at the afternoon meeting which opens at 2 o'clock.

There were eighteen ladies present at the meeting of the Federated Workers which was held at the home of Mrs. Paul Sheldick of Pleasant Valley last Friday afternoon. The supper and sale at the Center school hall on Friday evening October 28. Mrs. Henry Baker was the assistant hostess.

At the regular meeting of Wapping Grange which will be held at the school hall this evening, a class of candidates will be initiated in the first and second degrees of the order. The regular Grange officers will put on the degrees.

Charles J. Dewey, motored to Florence, Mass., last Saturday and returned early Sunday morning. He visited his son and his family Mr. and Mrs. Charlie W. Dewey.

"METROPOLIS" THRILLS BIG CIRCLE AUDIENCE

**Wonder Picture Like Nothing
Else Seen Here—Remains
For Tonight Only.**

Astounded! That word and that word alone describes the feelings of Circle theater fans who saw the first showing of "Metropolis," the great German UFA film, at that theater last night. Different from anything ever before produced for the screen, the picture is a fantastic picture of life thousands of years from now.

We are introduced to Eric Masterman, son of the master mind of Metropolis. Tired of his own empty life, he goes down to see how his father's men exist. There he falls in love with Mary, the magnetic daughter of a workman. John Masterman sends a soulless automaton, made in the form and figure of Mary, down to a meeting of the workers. He tells the image to preach contentment but she plays false, advising them to strike. Then comes the most amazing spectacle ever seen. When the men forget their chains, the wheels stop turning and a terrible flood ensues. The workers dancing around the deserted machines, suddenly remember that their children have been left in the city below. Then the flood waters start rising and—well, those who saw "Metropolis" last night burst into repeated avalanches of applause.

Fritz Lang, maker of "Siegfried" directed Channing Pollock, author of "The Fool" adapted "Metropolis" for Paramount. It is one of those films which should be encouraged by your attendance!

RUGS at Wholesale Prices

In order that you may see our new and up to date line of new furniture we are going to make it an object for you to buy rugs at the lowest possible prices.

For instance a 9x12 heavy Seamless Axminster Rug for \$41.50
Regular \$55.00.

A \$49.50 Rug for
\$39.50
Extra heavy 9x12
Velvet Seamless
\$33.50
These prices are for
cash only.

CONGOLEUM RUGS

9x12 Congoleum Rugs \$9.50
Regular \$13.95.
Blankets and Quilts are now in order
from \$3.25 up

THESE PRICES ARE FOR CASH ONLY

We have received a new shipment of table, floor and bridge lamps at reasonable prices.
We can save you 20% on every dollar's worth of merchandise you buy here.

We Are Authorized Agents for the
Celebrated Quaker Ranges
\$69.50 up

Benson's Furniture Co.

"The Home of Good Bedding"

TALCOTTVILLE

Miss Jean Koch, little daughter of Mr. and Mrs. Clarence Koch, who has been quite ill is somewhat improved.

Mr. and Mrs. Paul Carlson of New Haven have been visiting Mrs. Carlson's grandparents, Mr. and Mrs. William J. Prentice.

The Christian Endeavor Society met at 7 o'clock on Sunday evening. The leader of the meeting was Miss Frances Bachelor and the subject "How Can We Help Younger Boys and Girls?" During the meeting Mrs. Franklin Welles, Jr., favored with a vocal solo. The Misses Emily Rice and Sara McNally sang a duet and Master Fred Wood played a violin solo. Miss Dorothy Wood accompanied the soloists in her usual efficient manner.

On Monday morning about 7:45 o'clock a large deer ambled down from the church lawn as far as the mill canal, he then turned back over the lawn of Mrs. C. O. Britton where he was spied by "Hogan," Mrs. Britton's terrier who immediately gave chase. Hogan's present avocation, however, prevented a long chase and the deer escaped.

Mr. and Mrs. Felix McCue of Millers Falls, Mass., have been visiting for several days at the home of Mrs. McCue's parents, Mr. and Mrs. J. Edmund Bradley.

A daughter was born to Mr. and Mrs. Albert Beebe of this place on Sunday evening.

Robert Smith has secured a position in the Hart and Hageman Higemana Company at Hartford.

Edward Koch, who has been confined to his home for several weeks by illness has returned to his work.

THE YEARS HAVE IT

AGES of four golfers in Cincinnati, who play together all the time total 311 years in age.

Mrs. Frank Ives of Westerly Staten Island, N. Y., called on many of her former acquaintances Monday.

Mrs. Clara Keeney of Rockville was in town Monday and made several calls on her friends.

Emil Ewald who was suddenly called to New York on account of the serious accident of Mrs. Pauline Ewald made a hurried business trip here Saturday.

Mr. Bochman of Hartford supplied the pulpit of the Federal church at the Sunday morning service and gave a most helpful and interesting talk on Americas greatest need.

Mrs. L. Ernest Hall and Miss Bernice A. Hall attended the football game between Maine University and Connecticut Agricultural College last Saturday at Storrs, Conn.

Mrs. Alice Clark of Springfield, Mass., is the guest of Mrs. Nettie Darby.

Miss Anna Cogswell is the guest

Slowing Up?

Waste Poisons in the Blood Make One Tired and Inefficient.

Do you rise lame and stiff? Drag through the day, listless and depressed? Evening find you all worn out? Have you given any thought to your kidneys?

Sluggish kidneys allow waste poisons to remain in the blood and make one tired and languid with often nagging headache, drowsy headaches and dizziness. A common warning of sluggish kidney action is scanty or burning secretions. Assist the kidneys with Doan's Pills. Doan's have been used since 1885. Are recommended the country over. Ask your neighbor!

DOAN'S PILLS 60c

The Chemist is King

Hardly a Science or Industry
but Depends on his Research

OVER the tumult and chaos of our daily interests a new king is arising. He is a king, not of nations, but of sciences and industries, of the professions and trades.

He is the chemist—a term that still sounds lowly and submissive, reeking of the fumes of the laboratory, but one that is beginning to assert its predominance in every phase of our life.

The chemist has only recently begun to feel his oats. For a long time he has felt his importance in the progress of mankind, in industrial development and scientific advancement.

But he was known to us only as one of those lean, keen-nosed individuals wearing an acid-stained smock and delving mysteriously among test tubes and retorts in the chemical laboratory.

Last year, however, he crept out of his veritable cocoon which has confined him throughout the past, and began to show himself to the people. He got his first voice at the Institute of Politics at Williamstown, Mass., and, as representative of the American Chemical Society, opened the eyes of his listeners to his achievements.

HE BEGINS TO TELL THE WORLD

This year, however, feeling even mightier he has inaugurated his own Institute of Chemistry, under the auspices of the same society, and has revealed his immense power to the world.

He is no longer the quiet, plodding mixer of chemicals the illusioned world has pictured him. He is the research scientist on whom depends practically every industry, practically every profession and even some of the pure sciences that long before his rise have asserted their own importance in this world.

The chemist is king, for to him we go to enhance our progress, our health and our very lives. The chemist is called in today to unravel the problems of the steel manufacturer, the automobile maker, and practically every other type of manufacturing industry. He is called upon to study the mysteries of medicine and guide the physician in his care of the sick.

He is who has discovered the important elements in our foods, so that today our diet is prepared on a more scientific plane and our health and age are advanced. He has taken to the X-ray and the microscope, besides the test tube, and has gone as far as the ultimate particle of matter to learn how it affects us in our daily affairs.

Look over the list of famous chemists, from all parts of the world, at the recent Institute of Chemistry at the Pennsylvania State College. It is a review of practically every important industry, profession and pure science that affects our existence.

EUROPE SENDS ITS LEADERS

From across the Atlantic there is Dr. E. K. Rideal, lecturer in physical chemistry at Cambridge and an outstanding authority on catalysis, that revolutionary science still a mystery even to the chemist himself, by which a substance can hasten a chemical reaction without itself undergoing a change. It is a science that has already saved millions of dollars for industry and that promises to save many billions more.

With Prof. Rideal at the Institute was Prof. J. C.

PROF. HENRY C. SHERMAN, GREAT FOOD CHEMIST, TYPIFIES THE RISING SCIENCE.

Drummond of University College at London, an authority on nutrition, on vitamins and deficiency diseases. Jean Piccard of the University of Lausanne was there to reveal his research and remarkable progress in dyes. And Hans Tropsch, associate to the great Franz Fischer of Germany, told of his progress in motor fuels, alcohols and organic solvents.

All this may mean little to the lay reader, who isn't used to thinking in terms other than those connected with his immediate interests. But these researches, extending from the simplest atom to the most complex and mysterious of compounds, affect his progress in every way he turns.

Take the manufacturing industries, for instance, and hear what Dr. John E. Teeple of New York, one of the leading consulting chemists in the country, has to say.

"Chemistry industry is absorbing the other manufacturing industries," is his pronouncement. "It will eventually take charge of all manufacture excepting such operation as cutting and fitting, weaving and knitting, shaping and molding, and assembling and distributing to the millions of people.

NOTHING FREE OF CHEMISTRY

"Twenty years ago the manufacture of steel was scarcely thought of as a chemical operation, but today the U. S. Steel Corporation is one of the largest manufacturers of by-product chemicals, and it has just announced the organization of a research department in charge of a chemist to study the chemistry of steel and its alloys.

"The manufacture of aluminum is decidedly a

chemical industry. The latest advances in copper production are largely chemical. The whole field of metallurgy is definitely becoming an integral part of the chemical industry.

"Tanning, glass, synthetic textiles, petroleum refining, rubber may be added to the list. Look over your automobile piece by piece and see whether you can find anything, except possibly wood, from the tires to the top and from the lenses to the tail light, that hasn't undergone chemical transformation.

"Try the same experiment with your radio, your airplane, telephone, office floors and kitchen floor coverings."

That's only in the field of manufacture, where materials are being synthesized to take the place of waning supplies of natural products, and where new processes are being devised to enhance production.

OUR FOOD IS CHEMICAL

But the same is true of medicine, of the various engineering professions, and of such distantly related sciences as electricity and even astronomy. For the

study of the stars includes the study of the gases and chemicals within them, and the lighting of our homes depends on the progress of research in metals and gases that are used for lamp manufacture.

Food is believed to be within the scope of the physician, or dietician, if any one. But perhaps the greatest food expert in the country, Prof. Henry C. Sherman of Columbia University, is primarily a chemist.

He is who delves into the mysteries of the vitamins, those new elements in our foods that are believed to be so highly effective as body builders and disease deterrents. His is the field of proteins, carbohydrates and such things with which the lean and the stout are so painfully familiar these days.

X-rays have been associated somehow with hospitals and broken bones. But they are the means of ascertaining the construction of metals and other chemical elements, and have become above all the tool of the chemist. So have the microscope and the spectroscope, for the analysis of the minute and the difficult.

The test tube and retort are still important in chemical research, but they have had to make room for other appliances.

Altogether, these methods and conveniences have placed the chemist in the role of the king of the sciences and industries, and ruler of our destinies. He still remains hidden in the odorous chemical laboratory, but his achievements are known and felt as are those of no other scientist.

A MILLION A WEEK FOR NOTHING

IF WE were to search high and low for the costliest thing in the universe, we couldn't find anything as costly as nothing!

That sounds more like an attempt to be clever than a pure statement of fact, but it is more fact than it is cleverness. For it is nothing, the actual lack of anything at all, for which this country is paying more than a million dollars a week.

What is more astounding, there are great institutions in the United States that would be glad to double, even triple, this payment if they could be assured of getting nothing else but nothing for their money. Unfortunately, science hasn't achieved the ideal of obtaining absolutely nothing at no matter what price.

To science, nothing has a distinct name. That's "vacuum." It is contained—as well as nothing can be contained—in the millions of glass bulbs that are in use for electric lighting and for radio transmission and reception.

LIGHT DEPENDS ON NOTHING

It is this vacuum, this lack of the gases of the air within these tubes, that makes it possible for these strange units to give us light or to bring us music from afar. It isn't put into these tubes, of course. You can't put nothing into something. But the vacuum is left, when the air or gas that was formerly in the tubes is pumped out.

That's exactly what is done by the ingenious vacuum

DRS. WHITNEY AND LANGMUIR, MAKERS OF NOTHING.

pump invented by Dr. Irving Langmuir at the research laboratories of the General Electric Company in Schenectady. The pump draws out all the air or gas it possibly can withdraw, to leave this vacuum.

Yet as efficient as this pump is, it hasn't succeeded in leaving absolutely nothing in each tube, by extracting every particle of gas out of it. Dr. W. R. Whitney, director of the General Electric laboratory, describes the

operation of this pump in his report to the Engineering Foundation. But he's mighty finicky over his scientific demands for an absolute vacuum when it is learned that the Langmuir pump has succeeded in removing all but

only one-ten-billionth of the gas that was originally in the tube!

THESE SCIENTISTS ARE PARTICULAR

From the scientist's point of view, however, that's still far from a vacuum. Dr. Whitney explains:

"Strive as they may, scientists have been unable to attain a vacuum wherein a cubic inch includes fewer molecules than there are people in the world. Even so they have succeeded in removing 99,999,999 per cent of the gas.

"In other words, only one out of ever 10,000,000,000 molecules remains. Yet there are 40,000,000,000 molecules in every cubic inch. Compare that with the population of the entire earth, estimated at less than 2,000,000,000.

"Across the broad girth of America, 3000 miles across, imagine a great belt of fine sand nearly a fifth of a mile wide and ten feet deep. Then imagine it suddenly reduced to an almost invisible line just two grains broad and one grain deep.

"That is a graphic illustration of how a modern Coolidge X-ray tube is exhausted of air by the high efficiency Langmuir pump. No vacuum known to science is absolutely complete.

"The swiftness with which the air is drawn out is equally marvelous. If from a vessel holding a quart there are removed a million molecules a second, it would take 750,000,000 years to remove practically all of its air.

"The Langmuir pump accomplishes this in just two seconds!"

The Chemist is King

*Hardly a Science or Industry
but Depends on his Research*

OVER the common and usual of our daily interests a new king is arising. He is a king, not of nations, but of sciences and industries, of the professions and trades.

"BEAU GESTE" IS HEROIC PICTURE

Famous Film Classic Booked For State For Four Days Beginning Sunday; Wonderful Cast.

One of the greatest exhibitions of human bravery ever depicted on the screen is a part of the thrilling mystery story of the French Foreign Legion, "Beau Geste," which makes its first appearance at the State theater on Sunday.

One episode graphically shows the fearless defense by 40 legionnaires of a fort in the Sahara, a desert outpost, against hundreds of Toureg, nomadic desert bandits who are among the best warriors and finest riders in the world.

A Starfish Pin

A starfish ornament trims this beige velvet hat with a novelty brim. Groups of tucks cross on the crown.

BEERY AND HATTON BETTER THAN EVER

Appear in "Firemen, Save My Child" at State Today; "Beau Geste" on Sunday.

If Wallace Beery and Raymond Hatton were good in "Behind the Front" and "We're in the Navy Now," they are regular screams in "Firemen, Save My Child," in which they start a two day engagement at the State theater today.

Not a single shot of their super-comedy was taken within the confines of the Paramount Studio. They started out on a wandering location each morning that didn't permit them to return to their dressing rooms until late evening.

ILLINOIS FEUDS TO HAVE ECHO IN HIGH COURT

Springfield, Ill.—Echoes of Southern Illinois gang feuds, fostered to the staccato roar of the machine gun and bathed in the blood of many a murdered gunman and innocent bystander, are to be heard in the quiet, dignified halls of the Illinois supreme court to its October session.

And Charlie Birger, arch gangster of the mail, who slew without mercy, it is charged, turning a deaf ear to the plea of his victims, now pleads for his own life.

Under Death Sentence Birger, leader of the faction which waged relentless warfare on the gang led by the three Shelton brothers, Carl, Earl and Bernie, now is under death sentence in Benton county jail following his conviction for plotting the killing of Jay Adams, mayor of West City, Ill.

Birger, the lower court found, sent Adams to his death at the hands of two young members of his gang. Adams, it was proved, was called to the door of his home and shot down.

Woman Chooses Gallows Rado Millich, also a Southern Illinois terrorist, faces the gibbet for the slaying of one Ward Jones. Birger is doomed to die October 15.

Gangsters Under Sentence of Death In Appeal to Save Necks.

COLUMBIA

A bronze tablet has been placed at the front entrance to the Parsonage, by Howard Yeomans of Hartford. It is worded as follows:

In Loving Memory of Mary Babcock Yeomans This house, her home, is dedicated by her son to the Columbia Congregational Church as a Parsonage October 1926

Mr. and Mrs. Raymond Clarke, Mrs. Raymond Lyman, Miss Eva Collins and Miss Myrtle Collins left Friday morning for a motor trip to Niagara Falls. They expect to be gone about a week.

Miss Anne Dix has gone to New York to do some research work in bacteriology at Columbia University. She expects to be there about two months.

George Champin is spending a few days at his home on the Green. He is through with his work at Stamford, and is now finishing another job at Plymouth.

Postmaster H. W. Porter has received word that his son Randall, who has been at the Cedars Rapids, Iowa, office of the Travelers Ins. Co., has been transferred to Omaha, Neb.

Mrs. Julia Little had as dinner guests Thursday her four nieces, Mrs. Charles Stoltenfeldt of Manchester, Mrs. Wilbur Smith of Taicottville, Mrs. Lyndon Little of Wilimantic, and Mrs. Philip Isham of Columbia.

Hubert Little of Meriden spent the week end at the home of his brother, Alonzo Little.

Mrs. Oscar Erickson and two daughters of New Britain spent Sunday at the home of Mrs. Erickson's sister, Mrs. Lester Hutchins.

Miss Perkins and Miss Wrigglesworth of New York spent the week end at the home of Mrs. R. G. Proctor.

Last Tuesday evening a birthday party in honor of the 15th birthday of Marie Fisher of Wells Woods, held at the home of her parents. The guests were Rev. and Mrs. Wain, Mrs. Cummings, teacher of the Pine street school, which Marie attends, and her classmates. Games were played and refreshments served. The Fishers live on the place recently owned by Weitraub, better known as the Fries place. They moved here from Boston in August. The day after the party Mr. Fisher fell from a scaffold and was severely injured himself quite severely.

There being no services at the Hebron church Sunday, several of their members were present at the morning service of the Columbia church. They were Mr. and Mrs. Edward Smith and family, Mr. and Mrs. Lucius Robinson, and family, Miss Edna Latham, Mr. and Mrs. Herbert Porter, Mr. Hills, and Mr. Jesse Hills.

Charles Fox spent the week end in Hartford. The Christian Endeavor meeting Sunday evening was held by Mrs. F. W. Wain. Her subject was "How can we help younger boys and girls." The 1st Sunday in November will

be observed as Rally Day for both the church and Sunday school. There will be special features and it is hoped everyone will keep this in mind, and make it a success.

It is perhaps interesting to note that the temperature this Sunday was 40 degrees lower than last week. In fact, both Saturday and Sunday's weather combined to make it a very disagreeable week end for those who visited friends here.

Mrs. Conrad Venberg, formerly Evelyn Lyman, returned to Hartford Sunday evening, and will resume her work at the Pratt street Savings Bank for another six months. She was married three weeks ago.

"IMMORAL ISABELLA" COMING TO PARSONS

Frances Starr in New Vehicle Produced by Chamberlain Brown Last Half of Week.

Following a long list of triumphant successes, including "The Rose of the Rancho," "The Eastest Way," "The Case of Becky," "The Secret," "Marie-Galle," "Tiger, Tiger," "The Little Lady in Blue," "One," and "The Shelf," Frances Starr comes to Parsons' theater on October 13, 14 and 15, in her latest vehicle, "Immoral Isabella," a satire by Lawton Campbell.

Chamberlain Brown who will present Miss Starr in "Immoral Isabella" has engaged an excellent supporting cast which includes Reginald Mason, Jules McVicker, Joseph Kilgour, Edward Ross, Patricia Barclay, Dorothy Paule, Cliff Odette and Sam Hesson.

Directly following its presentation here, the new play will open in New York, where it is being awaited with keen expectation.

Joseph Graham who has staged such plays as "Old Man Out," "Said Id Ivory," and "Sam Abramovitch" is staging "Immoral Isabella."

The BENSON MURDER CASE

S. S. VAN DINE CHARLES SCRIBNER'S SONS

THIS HAS HAPPENED Suspicion falls on Miss St. Clair...

CHAPTER XXIV

Pfytfe made a mildly deprecating movement with his carefully manouevred fingers...

He looked at Markham with a self-congratulatory air, and his eyebrows quivered...

"I'm sure it would have been a comfort to his other friends," remarked Vance...

Pfytfe blinked regretfully. "Ah, but I shall never forgive myself—though I cannot hold myself altogether blameless..."

Pfytfe shook his head as if in mentioning the inconceivable irony of fate...

"You were gone a very short time," commented Markham, interrupting what promised to be a homily on personal hygiene...

"True," Pfytfe indulgently admitted. "But I met with a most unfortunate accident..."

Pfytfe delicately adjusted his eye-glass, and regarded the sergeant with an intimation of boredom...

"My advice, Mr.—ah—Sergeant—Heath," the other corrected him surlily...

"Ah, yes—Heath. . . My advice, Mr. Heath, is that if you are contemplating a motor trip to the Catskills, you apply to the Automobile Club of America for a road-map...

CHARACTERS OF THE STORY

- PHILO VANCE JOHN F.-X. MARKHAM. District Attorney of New York County ALVIN H. BENSON. vice, Mr. Heath, is that if you are contemplating a motor trip to the Catskills, you apply to the Automobile Club of America for a road-map. My choice of itinerary might very possibly not suit you.

myself who heard it.

"That, of course, relieves you from any technical breach of confidence," Markham observed. Pfytfe acknowledged the other's understanding with a slight bow. "It happened at a little party of which I was the unfortunate host," he confessed modestly.

"You understand," he continued, in answer to the other's sympathetic nod. "Alvin was not a man who possessed the personal characteristics that women hold attractive."

This And That In Feminine Lore

AN OCTOBER VACATION TRIP

Once again in October it has been the writer's privilege to enjoy an extended motor trip through parts of New England, New York and Canada, and I believe an account of some of the scenes our party visited, and the customs of the people living in the Dominion near Quebec will be as interesting at least as fashions, cooking recipes or sundry helpful hints.

McGill University

This institution of learning with a student body of some 4,000 was founded by Hon. James McGill, a public-spirited merchant who died in 1813. As we passed the campus to the buildings the football teams wearing red and blue sweaters and white trunks and many paused to watch them.

Lake George

We were enthralled with the beauty of the scenery at Lake George. The town by the same name is situated at the lower end of the lake which is over thirty miles long.

Lake Placid

Leaving the International highway at Elizabethtown we crossed through the Adirondacks to the town of Lake Placid, which is really on Mirror Lake, a beautiful sheet of water on the shores of which are the fine buildings of the Lake Placid club.

Assemble Farms

When we reached Assemble Chasm, another of the natural wonders of the world, it was too late in the day to make the trip through the chasm. We contented ourselves with the best view we could obtain of it and motored on to Plattsburgh for the night.

the beauty of its architecture is dimmed by the storms of a century.

Although 1,000 miles from the sea Montreal is an ocean port, which perhaps accounts for its rapid growth. It has 72 public parks, and in Mount Royal it has the finest natural mountain park of any city in the world.

While in the cities of Montreal and Quebec, the women for the most part are dressed about as we are here, in the rural districts one sees so many garbed all in black, with long skirts, and it was not an uncommon sight to see many of the farmer's wives in carriages and buggies wearing face veils.

Everybody enjoys a visit to this unique home of the world, which is a mint for the occupants. The Philpotts were married in Lowell, Massachusetts, and now have their first baby, an infant in care of a trained nurse.

The bus whisked us around to St. Joseph's, the shrine of Brother Andre where we found many ascending the steps to the beautiful Basilica on their knees.

I do not believe we were prejudiced but it seemed to us that the farms and villages we passed through on both sides of the St. Lawrence were nowhere near so prosperous looking as those on the Vermont hillside or other parts of New England.

Canadian Farms

I do not believe we were prejudiced but it seemed to us that the farms and villages we passed through on both sides of the St. Lawrence were nowhere near so prosperous looking as those on the Vermont hillside or other parts of New England.

TEX RICKARD IS NOW PLANNING HEAVYWEIGHT ELIMINATION BOUTS

Dempsey Not Matched For Indoor Season—To Fight Winner of Madison Square Garden Contests.

BY SID MERCER (I. N. S. Special Correspondent)

New York, Oct. 11.—The second series of heavyweight eliminations conducted by Tex Rickard to provide profitable employment for Gene Tunney next fall will not feature Jack Dempsey until the indoor arguments at Madison Square Garden are settled and the open air season of 1928 well under way.

Jess McMahon, Garden matchmaker, admitted today that Dempsey's terms for his next fight are too high to be met by the indoor circuit and that he probably will not go into action until he meets the winner of the winter series.

This is the same program followed by Dempsey this year. If the next tournament produces a winner as certain as Jack Sharkey, there is little doubt that Dempsey will step out with him for another \$10,000-000 gate. Perhaps Sharkey will win it again. In that event his return match with the old champion will revive all that "fair or foul" argument for a natural bally-hoo.

Dempsey has abandoned the idea of returning east early next year for a couple of bouts. He will not risk the loss of his present rating by entering the winter lists, and he will not be permitted to knock over any set-ups. Rickard could pack the Garden with Dempsey and an unknown but the boxing commission will not permit Jack to pick them that way.

Rickard's Plan Rickard is well satisfied to continue Dempsey in the role of a perennial heavyweight challenger until Jack succumbs to senile debility. If Dempsey were champion he might not fight for a couple of years. Tunney is willing to defend the title once a year, and until some other contender thoroughly eliminates Dempsey, the old Manassa mauler will be maneuvered adroitly into spots where his box-office value can be cashed in once or twice a year.

Dempsey's net income this year will be practically the same as it was last year when he was drawing a champion's pay. He had to fight twice to get it, however.

The new heavyweight tournament is beginning to take definite form. Phil Scott, British champion, and Paulino Uzcudun, who claims the European title, have been matched for two rounds in the Garden on the night of November fourth.

Paulino is credited with a six-round knockout at Scott in Barcelona, Spain, in 1925, but Scott contends that he was deliberately fouled in this contest. Scott holds two decisions over Tom Heeney.

Other Contenders Scott, Tom Heeney, the New Zealander; Jack Renault, and possibly Johnny Risko are the only entries in the tournament. Jack Delaney and Renault will battle for a spot this week. Sharkey comes back with Heeney at the Garden on Nov. 18. Meanwhile Heeney tackles Risko in Detroit. Should Risko win this one decisively, he may replace Heeney against Sharkey.

Harry Persson, the ponderous Swede, is said to be headed in this direction. Persson was eliminated by Jimmy Maloney last winter but Maloney has since been thoroughly eliminated himself so Harry may get further than the first round in the second tournament.

George Godfrey, the new black menace, is not going anywhere in this merry whirl. He plays too rough.

The plight of Godfrey is a reminder of the sad case of that other black menace, Harry Wills, who remained in the ring until he was too old to fight. Harry isn't satisfied, however, with the verdicts nature gave him in his bouts with Sherkey and Paulino. He may accept an offer to battle Godfrey for the black menace championship in Brooklyn on October 18.

Promoter Humbert Fugazy proposes to stage the bout.

During the three or four years of Dempsey-Wills palavering, Godfrey repeatedly challenged Uncle Harry in vain. Now that Godfrey is going well and Wills fading out, the social barriers between them are not so high.

Bass Club Winners

The following have been adjudged winners in the all-season bass contest closing October 1: Andrew Ferguson, \$23, with bass weighing 4 pounds, 12 ounces.

- S. J. Turkington, \$12, 3 pounds, 9 ounces. Conrad Dwire, \$8, 3 pounds, 3 ounces. T. R. Glenney, \$6, 3 pounds, 2 ounces. Robert McKinney, \$5, 3 pounds, 1 ounce. William J. Douglas, \$4, 3 pounds. Joseph Douglas, \$3, 2 pounds, 13 ounces. John Bausola, \$3, 2 pounds, 1 ounce.

Winners may receive their prizes either in merchandise or cash at this store.

BARRETT & ROBBINS

SPORTING GOODS, Automobile Supplies, Radio Equipment, 913 Main Street

Week-End Local Grid Schedule

Manager Bill Griffin announced this morning that he had completed arrangements with the Eagles of Wallingford to play the Clover-leaves next Sunday at Hickey's Grove. The locals have won their initial two games 6 to 0.

The Bethlehem Steel soccer club which plays at the stadium next Sunday against Hartford won the championship of the American League last season and is considered one of the best, if not the best team in America. All indications point to a record-breaking crowd.

Manchester High plays Buckley High in New London Saturday afternoon. The much cherished victory over Bristol has given the Kellyites confidence in their ability.

Billy Evans Says

HE'S NOT A HERO

Winning a major league pennant is just about the last word in the managerial line.

Such a happening, as a rule, makes the pilot of the champions the outstanding figure in the community, for the time being at least. Donnie Bush, who led the Pittsburgh Pirates to a glorious triumph in the National League, under adverse conditions and after one of the toughest races in the history of baseball, is not experiencing the conditions that confront most managers.

With the pennant tucked safely away, there are a lot of "wolves," ball players' name for the fans, on Bush's back, literally speaking.

Bush's extraordinary situation has been created by his difference with "Kiki" Cuyler, star outfielder of the Pirates.

A Man of Courage.

Shortly prior to the start of the opening game of the world series, I sat on the Pittsburgh bench, chatting with the great little manager of the Pirates.

When the game had the greatest admiration for Bush, a former American League star. I implored the first game he played in the American League, when he joined the Detroit Tigers late in the fall of 1908 and saved the pennant for them by his remarkable play at short.

Always aggressive, with oodles of courage, Bush was ever a man of strong opinions. An umpire might have a rumpus with him today but tomorrow the affair would be entirely forgotten, the slate wiped clean and a new day started.

Not knowing all the details, I have no desire to take sides in the matter, but an acquaintance of 20 years has convinced me that Bush is a square shooter.

Feels It Keenly. While not overly sensitive, Bush feels keenly the adverse attitude a great many Pittsburgh fans have taken in the Cuyler situation.

"Look out there in left field, Bill, and read that banner," said Bush, as he pointed in that direction. Spread from one end of the bleachers to the other was a sign which read:

"We Want Cuyler."

"I doubt if they get him," said Bush. "Each club can have only one manager. Just as long as I am working for Mr. Dreyfuss I am going to be the pilot of the Pittsburgh club.

"I am going to make mistakes, but I am willing to ride along with my judgment and accept the verdict."

Bush's position is a most unusual one. He burned his bridges when he removed Cuyler from the lineup in August, but the winning of the pennant had nothing to do with that. After that, however, it would have taken world championship to silence Cuyler's admirers.

MILDRED WRIGHT HAS HIGH SCORE

Mildred Wright won the weekly prize for high single in the opening night of the first round of the Girls' A. A. bowling league at Cheney Brothers with a score of 108. Miss Edna McCourt was second with 101. The scores:

Table with 2 columns: Name and Score. Includes J. Jackmore, E. Armstrong, M. Hughes, A. Ponticelli, H. Gustafson.

Von Elm's Nephew, Age 2, Takes His Golf Seriously

Practices on Lawn to Shoot Like Uncle 'Gix' and Bobby Jones.

IT'S in the blood of Paul Von Elm, two-year-old son of Mr. and Mrs. Leonard Von Elm of Salt Lake City, to be a champion golfer.

His uncle is George Von Elm, former national amateur champion, his daddy has held several titles and another uncle is now junior champion of Utah.

Paul takes his golf game seriously even now. Our photographer shows him practicing on the front lawn. He wants to play like Uncle "Gix" and Bobby Jones and he thinks he is good enough now to beat all comers his age!

If there's anything in blood you'll hear of this Von Elm about in 1942.

PAUL VON ELM

Hartford vs. Providence Tomorrow At Worcester

AMERICAN LEAGUE STANDING

Table with 5 columns: Club, W, L, D, Pts. Includes Boston, New Bedford, Brooklyn, Bethlehem, Providence, N.Y. Giants, Fall River, Philadelphia, Newark, N.Y. Nationals.

TOMORROW'S GAMES

Brooklyn vs. N. Y. Giants at Ebbett's Field, Brooklyn. Referee, James Walden; linesmen, G. Ferrer and E. McCabe.

N. Y. Nationals vs. Newark at Polo Grounds, New York. Referee, W. Fraser; linesmen, J. Hume and J. Conachin.

New Bedford vs. Fall River at New Bedford, Referee, M. Bloom; linesmen, T. Boyce and W. Norse.

Boston vs. J. & P. Coats at Boston. Referee, George Lambie; linesmen, A. Catto and A. Hart.

Hartford vs. Providence at Worcester, Mass. Referee, James Terzacer; linesmen, J. Johnstone and T. Ritchie.

Five American Soccer League games are carded for Columbus Day, tomorrow, all of the clubs with the exception of Bethlehem and Philadelphia being scheduled for important engagements on the coming holiday.

Columbus Day, not being a legal holiday in New Jersey, the Newark-N. Y. Nationals game, originally scheduled for Newark, will be played at the Polo Grounds, home of the Nationals. The return game between these teams, carded for October 30th, will be staged on the Newark grounds instead of New York.

Hartford has been granted permission to play its holiday fixture with Providence at Worcester, Mass., in the new stadium of the Morgan Construction Company. Bethlehem Steel plays here Sunday. They have three stars who have just come from across.

The Metropolitan Derby, Brooklyn vs. N. Y. Giants, will be played at Ebbett's Field.

Rowing Revival Is In Sight for Yale; 354 Men Respond

BY R. T. BUIRELEY

New Haven, Conn., Oct. 11.—Rowing appears to be in for a revival at Yale. When Coach Ed Leader, now in his sixth year at New Haven, issued his call for crew material to report at a mass meeting in Woosley Hall after college opened, no fewer than 354 men were on hand, and all of them declared a chance to tug at the sweeps. "A successful year is likely," Yale rowing heads declared after that.

Though the rowing season is still far ahead Coach Leader put four heavy crews, two 150-pound crews, and two light crews onto the Housatonic river at Derby the day after the mass meeting. Don Grant, handling the minor crews, took to the tank in the gym with freshmen candidates, and Coach Shaw went to work with the class oarsmen.

Leaders had won four rowing championships and Olympic since coming here from the Pacific coast in 1922, and then his men were rowed down by both Princeton and Harvard in 1927. Lack of material is held responsible for the sudden change in Yale rowing. The class of 1929 has almost no oarsmen and now Yale is turning to the freshmen class for stars.

Pl. T. Stewart, of New Orleans, will captain the Yale varsity crew next spring. "He is the first coxswain ever to lead a Yale crew."

It seems there was once a Scottish gentleman who went up to a bookie and said, "I want to bet \$10 on the winner of the next race."

"Gambling Rife at Big Fight," complained reformers. Well, what with his gunnens and munitions, what more could you expect of Chicago than a shell game?

They said Dempsey had dumb sparring partners. "Did you tip the walter?" Jack asked a nosebuster. "Yeah," he says, "and he ain't got up yet!"

The trouble with the average ball player is he seldom increases his average.

"Ruth Now Umpires' Ideal." The Babe is getting so polite he apologizes when he cuts his chin with a razor.

He who cheers last—has a bleacher seat.

NO FLUKE HOMERS HERE

Forbes field at Pittsburgh is said to be one baseball plant where trick homers are not often clouted.

MOLESKIN WARRIORS PRACTISING FOR THE BIG WEEK-END GAMES

Navy Plays Notre Dame; Yale vs. Brown; Fordham Against New York U.; Harvard vs. Holy Cross.

BY LES CONKLIN, Staff Correspondent.

New York, Oct. 11.—Willful slaves are toiling in a hundred gridiron vineyards today so that king fan may enjoy wines of the finest vintage at next Saturday's football feast.

Following light workouts yesterday, the week's labor of practice began in earnest for the moleskin warriors of twenty college eleven who will clash in important games on the first "all-star" card of the season.

What may be the best battle of the season will be waged at Baltimore, when Uncle Sam's maritime nephews are preparing for the onslaught of the hordes of Notre Dame. The first Navy-Notre Dame game in history finds the Navy sending an inexperienced eleven against a Notre Dame fast-improving Rockne aggregation.

Yale vs. Brown Aside from this intersectional standstill, the Yale Brown game looms as the piece de resistance of Saturday's eastern football menu. Both are smarting under the sting of defeat and both will be in there fighting. The Yale coaches are grooming Bruce Caldwell, their backfield ace, for the purpose of ripping the line of the iron men to shreds.

The Fordham-New York University game in New York city will make up in action what it lacks in tradition. The Fordham line showed have become bitter rivals in their comparatively few meetings. As many as seven ambulances have been summoned during one of these melées. The Fordham line showed so much improvement today following a two-hour scrimmage that Major Frank Cavanaugh was confident his team would stop New York's four centaurs—Briante, Connor, Roberts and Strong.

Colgate has an unusually weak team—for Colgate—and may be beaten by Columbia for the first time in history. After whipping a backfield into shape, Coach Crowley of Columbia discovered that his supposedly strong forward wall was not functioning. A wholesale shake-up in the line was imminent today.

Fear Holy Cross Radical changes also were expected at Harvard, where another beating by Holy Cross is feared. The Crimson coaches yanked the Back Bay players away from their theses on higher football today and quizzed them on the A. B. C.'s of the game.

Princeton's improved eleven, which faces Washington & Lee Saturday, is still undergoing changes. Sheldricks and French are being tried out in the line.

Syracuse is holding long and secret practice in frenzied preparation for Georgetown, which anticipates a walkover at the expense of the Orange.

Penn also expects to trim Penn State, which has been unable to decide on quarterback Cy Lunsger, last year's pilot, is now being given a crack at his old job.

Carnegie, another strong Pennsylvania outfit, is set for a hard battle with Washington & Jefferson. Six of West Virginia's regulars have been benched, and the mountaineers have but a forlorn hope of stopping their ancient and powerful rival on Saturday.

The Army eleven will enjoy a breather as Davis-Ellings, very tough last year, is not giving rival coaches heart failure this season.

Howard-Lariviere Massasoit Feature

The Massasoit A. C., which went to the sidelines last year because of the world's series, will resume its weekly amateur boxing shows with a card at the Foot Guard armory, in Hartford, Thursday night.

In the feature bout, Joe Howard of Hartford, former state middleweight champion, will clash with Lucien Lariviere of Waterbury.

Howard has had a lay-off of six weeks, getting a much-needed rest and reports himself in the best shape he has enjoyed in more than a year. Joe sees the Lariviere bout as the first step in a real comeback with another state championship his goal.

Lariviere is a good boxer and a hard hitter. He stepped into the ring at the last Foot Guard show as a substitute for Jack Kelly, state titleholder, and proceeded to knock Eddie Provost of Holyoke about the ears. Lariviere, former state middleweight champion, would not down but couldn't finish him.

Herman Flig, who is now living here, will meet Joe Bard, of Hartford. This should be a rough encounter with Flig granted at least an even chance to win.

There will be teams from Windsor Locks, Rockville, Waterbury, Middletown and Hartford. The entries assure two and one-half hours of milling.

BROUGHT HIM OUT. His knockout of Jim Maloney brought George Godfrey to the front rank of heavyweight fighters.

LIKES THE OLD-TIMERS. Gabby Street thinks that the hitters of many years ago were better than the hitters of today.

HAD THREE PUNTS BLOCKED. Southwestern of Memphis gave Alabama an unusual thrill in their game this year by blocking three of the Dixie champions' punts.

EXPERTS FAVOR MINNESOTA. Grid experts in the mid-west favor Minnesota to win the Big Ten championship this year.

Large advertisement for Chesterfield smokers. Features a large illustration of a hand holding a lit cigarette. Text includes: 'Chesterfield smokers don't change with the winds!...but watch how other smokers are changing to Chesterfield! FOR THE BEST OF GOOD REASONS better taste!' and 'ENJOY THE COMFORT OF GLASTENBURY HEALTH UNDERWEAR FOR MEN'.

By Percy L. Crosby

FLAPPER FANNY SAYS:

It's easy to tell when a girl is wild about dancing.

SENSE and NONSENSE SKIPPY

The road hog is usually the first to squeal. An odd simile was recently used by a young motorist in speaking of a very plain girl: "She looks like seven miles of bad road."

Copyright, P. L. Crosby, 1927, Central Press Association, Inc.

LETTER GOLF

To go from HATE TO LOVE isn't so hard, after all. At any rate it's a par three here. The solution is printed on another page:

THE RULES

- 1-The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW TO HEN, in three strokes, COW, HOW, HEW, HEN.

An honest man is a tire repairer who conscientiously picks up every nail, bit of wire or piece of glass he sees in front of his place of business.

Asphalt Arab trying to pick up pretty little flapper—Hello, dearie. Flapper—Oh, sir, I don't know you. A.—S'll right, girly. What you don't know won't hurt you!

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

Along the streets the Tinies went. They surely all were pleasure bent. The Jap, it seemed, could run real fast. He must have been real strong. 'Tis true most everyone delights in seeing very pretty sights. The Tinies more than liked it as they jostled right along.

I'd like to have a bit of food. We ought to stop some place," said Coppy. "Oh, don't start a row. We haven't any money now." The Japanese man heard him, and a smile spread on his face.

The evening dusk was gathering. Out of that dimness came still more cries. The voice seemed to be that of a girl who was frantic with fear.

"What do you think you're doing?" cried Lockwill, clutching the deformed gum-digger by the neck.

McNally had followed Jack after a moment of hesitation. As Tom came up, the boyish unknown, who had been released by the vicious hunchback, ran straight into his arms.

The moment he caught that slender figure in his arms McNally knew, astonishing though it was, that it was indeed a girl in boyish togs.

ANNUAL BAZAAR
Benefit of Church Fund
Sacred Heart Church Hall,
Vernon
TUESDAY EVE. OCT. 11
An Entertaining Evening Promised

ABOUT TOWN
East Central Pomona Grange will have an all-day meeting at Coventry tomorrow and it is expected many local Grangers will attend.

ATTEND THE PUBLIC WHIST
TOMORROW NIGHT
At
Manchester Community Club
4 Prizes! Refreshments! 35 Cents.

Judge Raymond A. Johnson and Mrs. Johnson left this morning for a motor trip through the White Mountains and Canada. They expect to be in Montreal tomorrow and will be absent from town the remainder of the week.

Furniture Night at the State will be held as usual on Thursday evening of this week, with the picture, "Bitter Apples", starring Monte Blue.

The Junior choir of the North Methodist church will have a rehearsal this evening at the home of the Misses Lydall on Hudson street.

Rev. Joseph Cooper of the South Methodist church, and Miss Helen L. Haviland, director of religious education, are in attendance today at the sessions of the Norwich District Ministerial Association at Burnside.

HALE DECORATOR WINS \$50 PRIZE
Eric Crawshaw's Display
Second Best in Country
Says Letter.

Eric Crawshaw, window display artist with the J. W. Hale Company, was presented with a \$50 check this morning from the Davenport Hosiery Mills, Inc., as second prize in a window display contest conducted throughout the country. Mr. Crawshaw's display was in the Hale's store windows the week of August 23.

IMPROVEMENT CLUB TO CONSIDER AIRPORT
Will be Subject of Open Meeting Thursday Night at the Community Club.

The entire club house of the Manchester Community Club will be taken over by the Manchester Improvement Club on Thursday evening of this week. The club will hold its regular meeting at 7:30 in the assembly hall of the club and at 8 p. m. Frank Anderson will address the members on the subject of "Aviation." No doubt the local problem will be taken up and the possibilities for an emergency landing field be discussed with the thought in mind that such fields, in the direct route of the U. S. Air Mail routes, as is our town are distinctive assets, more especially should an emergency cause the air pilot to make a forced landing.

PLAINVILLE MAN OPENS INSURANCE OFFICE HERE
Clarence H. Anderson of Plainville, formerly in charge of the Sales Tax Division at the Internal Revenue Office in Hartford for five years, has opened an insurance office in the Farr Block at 647 Main street. He represents the Century Indemnity Company, a subsidiary of the Aetna Fire Insurance Company of Hartford and also conducts a branch office of the Hartford L. A. W. Acceptance Corporation.

Mr. Anderson is well known in Manchester and has many friends here, and it was this fact that largely induced him to start business here. Following the termination of his services at the Revenue office, Mr. Anderson took a four months course in insurance given by the Aetna Company.

Selling of

Mr. and Mrs. E. C. Packard of Henry street left today for a visit with their daughter, Miss Marion Packard, at Turner's Falls, Mass.

Group 4 of Center church women will have a meeting this evening at 7:30 at the home of Mrs. Grace Beadle, Park street.

Chapman Court, Order of Amaranth members will conduct a rummage sale on Friday of this week in the vacant store in the Hotel Sheridan building. The sale will open at 9 o'clock in the morning and will continue throughout the day. Mrs. Wallace Robb is chairman of the committee of arrangements.

The Ladies' Aid Society of the North Methodist church will meet tomorrow afternoon in the church parlors. The hostesses will be Mrs. A. P. Lydall, Mrs. E. F. Paisley and Mrs. Peter McLagan.

The Ladies Sewing Circle will have the first meeting of the season at the Highland Park Community clubhouse tomorrow afternoon at two o'clock.

Mr. and Mrs. Harold E. Wilcox of Ithaca, N. Y., renewed acquaintances with friends in town yesterday while on their honeymoon motor trip. Mrs. Wilcox prior to her marriage last week was Miss Antoinette Read formerly of Manchester.

Mrs. Mark Holmes and Miss Helen Fitzgerald will be hostesses for the first public whist of the season to be held at the Manchester Community clubhouse tomorrow evening.

Temple Chapter, O. E. S. will have its regular meeting in the Masonic Temple tomorrow evening at 8 o'clock. There will be an initiation of candidates.

POLICE COURT
William J. Norton of Pomfret, arrested by Traffic Officer R. H. Wirtalla on September 28 on the charge of speeding, and who at the time of his arrest posted a bond of \$20 for his appearance in court a few days later, failed to keep his agreement and this morning the bond was called. Norton is a traveling salesman and drives all over the state.

Joseph Zeppa of Highland Park was brought into court this morning by Dog Warden Fred Kraff for keeping an unlicensed dog. He pleaded guilty and a fine of \$1.00 and costs was imposed.

Frank Sokolisky of Congress street, charged with keeping liquor with intent to sell, will be given a hearing in the police court tomorrow morning.

ORANGEMEN TO MEET SUPREME GRAND SECY.
Rev. George P. Lemmon of Chester, N. J., to be Guest of Washington Lodge Wednesday.

Supreme Grand Secretary Rev. George P. Lemmon of the Loyal Orange lodges will be a guest of Washington L. O. L. of this town Wednesday evening at eight o'clock. This is the first visit of Lemmon to Manchester. The Rev. Lemmon, of Chester, N. J., and it is expected that a large number of local Orangemen will be present to hear him.

The meeting will be held in the banquet hall, but there will be no supper or entertainment other than the presence of the supreme secretary.

The Ko-Ko song reel to be presented at the State theater Friday and Saturday will be "Old Black Joe." There will be a children's singing contest Saturday afternoon. The winner will be given \$2.50 in gold.

Miss Florence Metcalf of Pleasant street is spending her vacation with friends in New Haven.

Kolster Radio
Come and Hear It!

GIBSON'S GARAGE
14-18 MAIN STREET, TEL. 701-2, MANCHESTER

Washable Crepe Kimonas
\$2.98 to \$4.98

THESE kimonas are as practical as they are good looking. Plain tailored or lace trimmed models in pastel shades of rose, blue, orchid, pink and pale blue. Some are fashioned of plain crepe while others come in beautiful floral patterns.

Smart Silk Negligees
\$6.98 to \$25

BEFORE going away on your next week-end trip we suggest coming and buying one of these smart, new silk negligees. Our assortment includes large floral patterns—quilted kimonas, tailored striped silk robes, fluffy plain silks, and Chinese models. Too, these would make a welcomed Christmas gift.

FLORSHEIM SHOES
Do Duty Longer

It is a source of satisfaction to have shoes wear as long as you think they should. But it's a grand old feeling when they do duty longer than you expect—and Florsheims do!

Most Styles \$10

GLENNEY'S
Tinker Building

Knit-tex Coat
If Somebody Says "IT'S THE SAME AS KNIT-TEX"

Why buy a thing that's "the same as Knit-tex"? Why not buy the genuine Knit-tex? The genuine costs only \$30 and looks more like \$60.

There is no cloth "the same as Knit-tex." There isn't even anything near it. Knit-tex is 100% pure virgin wool. Doesn't stretch or get out of shape, doesn't wrinkle, seldom needs pressing, outwears the average topcoat 3 to 1, looks smart the first day you wear it—and just as smart a year later.

If genuine Knit-tex cost \$75 it might pay to get something cheaper. But at \$30 it's a waste of money to buy something that's "the same as Knit-tex." So look for the Knit-tex label. It is your only protection.

\$30
Arthur L. Hultman

Kolster Radio
Come and Hear It!

We could tell you that Kolster Radio sets are extra selective and super-sensitive. But we prefer to make no claims.

We say, "Come and hear a Kolster Radio, or let us give you a demonstration at home if you prefer."

Kolster Radio appeals to the eye but its main appeal is to the ear.

Musical experts while they seek beautiful cabinets and advanced engineering, choose their radios chiefly by comparison. Their critical ears demand the utmost in reproduction.

That is why Kolster Radio has become known as the "musician's radio." It is preferred by famous orchestral conductors, singers, composers and musicians.

Accept our offer

Without obligating you, without costing you one cent, let us give you a demonstration. We abide by your decision.
