MILLS BUSY AS VELVETS COME BACK

Demand For Velvets and Cheney Cravats As Well As Firm Changes Causes of Increase in Business.

Cheney Brothers are enjoying a marked increase in business which was described today by Charles Cheney, president of the firm, as a "healthy condition." The velvet and cravat departments are unusually busy due to a greatly increased demand for those products.

Speaking of the increase in business, Mr. Cheney told The Herald that he has great faith in the future of the local concern. Market conditions have been very uncertain and for a period the outlook for silk was gloomy. However, several things have happened to materially change that outlook. The trend of fashion is toward silks, more especially velvets, and toward the Cheney style of cravat.

Overtime in Mills
Certain changes in management within the local firm have borne fruit, Mr. Cheney said, and as a result business has increased very materially. Several departments in the mills are working overtime and in some cases two shifts of workers are being employed. It has been necessary to seek out-of-town labor in order to meet the demand for some of the products.

It would be unwise to predict a continuation of such abnormal conditions since the silk market is dependent upon many uncertain factors, said Mr. Cheney. Working conditions will be "healthy" and that the future prosperity of Cheney Brothers is assured is a "safe bet," according to the firm's president.

HOME OF SENATOR BOMBED BY RIVAL

Judge's Residence Also Dynamited in Chicago; Work of Political Enemies.

Chicago, March 27.—Federal investigation of the bombing which last night wrecked the homes of U. S. Senator Charles S. Deneen and Judge John A. Swanson were promised today by United States District Attorney George F. G. Johnson.

The front porch and a large section of the front of Senator Deneen's two-story residence were demolished by a powerful dynamite bomb, exploded shortly before midnight.

Twenty minutes later a similar blast damaged the home of Judge Swanson, a candidate under the Deneen Republican banner for state's attorney of Cook County. The second blast was believed aimed at Judge Swanson in an effort to assassinate him.

No member of either household sustained injuries, but several in the bombed buildings collapsed from shock and were reported today in critical condition.

Senator Deneen was not at home, having departed for Washington after attending the funeral here of "Diamond Joe" Esposito, Deneen's 25th ward leader who was killed last Wednesday night by 58 slugs from gangsters' guns.

Senator Deneen's sister, Miss Florence Deneen, and a maid were alone in the house when the bomb exploded.

Judge Swanson had just parked his car in front of his home and had started toward the entrance when the second blast went off. The bomb was hurled by men who spast the house in an automobile. Judge Swanson declared he is convinced the bomb was intended for him. It struck the house and bounded back into the yard where it exploded. Damage to his house was estimated at \$4,000.

Wife in House

In the home at the time were his wife and two small children and their son-in-law and daughter, Mr. and Mrs. L. H. Klaas.

The bomb outrages are attributed to the bitter political feud between Illinois Republican factions headed on one side by Senator Deneen and on the other by Gov. Len Small, Mayor William Hale Thompson of Chicago, and State's Attorney Robert E. Crowe.

As soon as he learned of the bombing State's Attorney Crowe announced a reward of \$10,000 would be paid for information leading to the arrest and conviction of those responsible.

In a formal statement, Crowe declared:

(Continued on Page 2)

HARD LUCK STRIKES DOCTOR AND FAMILY

Greenwich, Conn., March 27.—Dr. William B. Griswold, a prominent physician, is in critical condition at Greenwich hospital today suffering from the effects of a hemorrhage of the stomach. His mother, Mrs. Ralph B. Griswold, died at her home in Stanwich during the morning, and his wife is ill at her home. Meanwhile Dr. Griswold's daughter Virginia is in Greenwich hospital with scarlet fever.

TOWN DECIDES UPON AUTOS IN HORSES' STEAD

Selectmen Vote to Sell Present Equipment and Purchase Truck—Hold Public Hearings.

The Town of Manchester took another step toward city government last night when the Board of Selectmen voted to dispose of the horses and wagon equipment now owned by the town and purchase a two to three ton Federal truck. The proposition has been under consideration a long time, and Town Treasurer George H. Wadell has made an extensive study of the comparative costs of horse maintenance as compared with automobile upkeep. His figures favored the automobile.

Dobbins Loses Out
As pointed out last night it is becoming more and more difficult to secure competent drivers of teams. As the town grows hauling distances are increasing and this gradually decreases the amount of work a team of horses can accomplish. Horses are costly even to keep, and it is not as costly when work is slack. After considering all arguments the board voted to accept an offer made by the A. C. Fine Company for the horses and equipment as part payment on a Federal truck at a cost of \$3,280.

At a hearing on the construction of sidewalks and curbing on Bond street made by the A. C. Fine Company for the horses and equipment as part payment on a Federal truck at a cost of \$3,280.

The front porch and a large section of the front of Senator Deneen's two-story residence were demolished by a powerful dynamite bomb, exploded shortly before midnight.

Eldridge Street Hearing

But two properties were represented at the hearing on the change of building lines on Eldridge street. Oscar Anderson, the petitioner, was represented by Miss Esther Anderson, his daughter. The Andersons favored the change so that their greenhouse may be extended and so that a store may be built out to within 10 feet of the street line. John Adams, the other property owner present, favored anything the Andersons asked for. The Selectmen, however, do not like to

THREAT OF ARREST FORCED GIRL TO WED

Strange Story Told Court by Danbury Miss Who Wants Marriage Annulled.

Norwalk, Conn., March 27.—Property of Edward B. Dowling, a local druggist was attached today in a suit brought by Elsie L. Krompinger, a Danbury telephone operator, who asks an annulment of her marriage to Dowling at South Salem, N. Y., on January 7, last.

The writ charges that Dowling forced the marriage by threatening to have the girl arrested for theft charges that Henry Webb, a Norwalk policeman, confirmed Dowling's statement that she could be arrested and might be sent to prison for three to ten years. The writ says that Dowling and the girl were married, and that Dowling then took his wife to her home in Danbury and left her there, and that they haven't seen each other since.

The writ declares that in November Dowling took the girl to a southerly ride and became intoxicated, she had to drive him home. Then the girl drove Dowling's car to Danbury and later returned the car to him.

Dowling, through his counsel, denies the charges and says that the girl is merely seeking an annulment.

The Dowling property was attached in the sum of \$5,000. No damages are asked in the suit.

German Fliers Trying It Again

Hermann Koehl (left), German ace whose westward trans-Atlantic flight attempt failed last summer, has set out again toward New York from Berlin with Baldonnel Aldrome, Ireland, his first stop. With him in his big all-metal Junkers monoplane "Bremen" are Baron von Huenefeld (right) and Arthur Spindler.

FIRST A WARNING, THEN THE SHERIFF THIS PLAN ADOPTED FOR COLLECTION OF UNPAID TAXES; NOTICES OUT SOON.

Delinquent personal taxpayers will get a letter of warning within a few days from Tax Collector George H. Howe, and then if the bill remains unpaid, the sheriff will call. This was the first step recommended in the Board of Selectmen's plan to clean up all unpaid taxes in an effort to keep the tax rolls down. Tax Collector Howe sat in conference with the Selectmen last night and agreed to accept the Selectmen's suggestion.

A list of 500 personal taxpayers who have not paid bills due in 1927 on the list of 1928 was presented to the Board last night. Notices will go out within a few days ordering the delinquents to pay up by April 15. If the taxes remain unpaid by that time warrants will be issued and it will be much more costly to pay the sheriff.

BLOOD CLOT CAUSED YOUNG BOXER'S DEATH

Medical Examiner Exonerates Doctor Who Examined Boy Before Match.

Bridgeport, Conn., March 27.—Horace Ailiff, seventeen-year-old Meriden boxer, died from a clotted blood vessel which stopped circulation in his left cerebral artery, according to testimony given Coroner John J. Phelan today by Dr. H. R. De Luca, medical examiner. Dr. De Luca exonerated Dr. E. J. Burns, who examined Ailiff before the fight, of any responsibility for the boxer's death.

RIVERS IN VERMONT ARE AGAIN RISING

Burlington Isolated Almost as Much as by Floods of Last November.

Montpelier, Vt., March 27.—Flood torn roads and bridges in New England were again threatened today by the rising of streams and brooks, swollen by the melting snows and ice.

Because of the high water on the Winooski river, Burlington was almost isolated as completely as during the great floods of last November. The pontoon bridge between the city and Winooski was removed, the other bridge being closed because of the deep mud on both approaches.

While the water was not reported very high in Montpelier, the city brook, terrific little stream that caused the death of Lieut. Gov. Hollis Jackson in November flooded the Main street, including the business section.

Conditions in the Connecticut valley below the Massachusetts state line were not expected to be serious, due to the lack of snow.

ELID STANTICH HELD

Los Angeles, March 27.—Police authorities here today awaited word from Chicago officials concerning arrangements for the transfer of Elid Stantich, who came into the international limelight by entertaining Queen Marie in Seattle during the Bumanian queen's American tour. He was taken into custody here on a Chicago warrant charging him with irregularities in his dealings with an Illinois film production concern.

FLOODS MAKE 400 HOMELESS IN CALIFORNIA

Peak Has Not Yet Been Reached at Sacramento; Property Damage is Estimated at Over \$200,000.

Sacramento, Calif., March 27.—Raging mountain streams, swirling over their banks with the peak load of yesterday's torrential rains, roared down into the Sacramento valley today, isolating Oroville, inundating the town of Biggs and creating a widespread flood zone in that vicinity.

Still mounting as the crest of the flood approached, a surging overflow from the Feather river swelled into Biggs, a community of 1,000 people, during the night and had reached a depth of one foot in the business district early this morning.

Surrounding lowlands, including hundreds of acres of fine orchards near Gridley, were flooded, the water reaching a depth of several feet in some sections.

At Yuba City and Marysville water broke through the levees in spots and crews of workmen fought to keep back the torrent. Scores of families were forced to quit their homes, it was reported.

The final flood crest was expected to take levees of the Sacramento river at Knight's Landing, where it was estimated the water would come within three feet of flood stage.

Bulwarked behind towering dikes and with the flood gates of its giant by-pass flung wide, Sacramento was declared by N. R. Taylor, government observer to be in no danger. The great diversion canal, though, is expected to carry more water than the river when the peak reaches this city.

MRS. COOLIDGE AT MOTHER'S BEDSIDE

Mrs. Goodhue Is Very Sick Woman, Her Physician Declares Today.

Northampton, Mass., March 27.—Mrs. Calvin Coolidge, wife of the president, was at the bedside of her mother, Mrs. Lemira Goodhue, today.

The stricken mother at Dickinson-Coolidge hospital seemed cheered by the early morning visit of her daughter, who hastened here from Washington by fast express.

Mrs. Goodhue recognized Mrs. Coolidge and the two conversed for a few moments. The rest of the time Mrs. Coolidge sat by her mother's bedside with her friend Mrs. Rufus B. Hill, who accompanied her from Washington.

Mrs. Goodhue's physician, Dr. Justin E. Hayes, said after Mrs. Coolidge's visit:

"Mrs. Goodhue's condition can be considered fair but she still is a very sick woman. Her condition is somewhat improved from what it was when Mrs. Coolidge was notified to come here."

EAST HARTFORD BOYS SUSPECTED IN MURDER

State's Attorney Alcorn Asks That They Be Held in Heavy Bail.

Hartford, Conn., March 27.—State's Attorney Hugh M. Alcorn believes that Frederick Raffino and Orlando Thomas, two East Hartford boys each 17 years old and under arrest for an alleged hold-up of Frederick Yach in East Hartford yesterday, may have been implicated in the murder of Gustave E. Tautenhahn, of the same town, on January 29th, last.

The state's attorney went to the Superior Court today to ask a bench warrant for the two boys so they could have them held in heavy bail. Both were being held in default of \$10,000 bail each and relatives expected to be able to produce the necessary security before the day was out.

Tautenhahn was walking home from a trolley car in East Hartford when last seen alive. His body was dragged into his dooryard by two persons who disappeared without leaving a trace though a tenant in the Tautenhahn home saw a part of the episode. A heavy snowstorm was prevailing at the time and obscured the scene.

State's Attorney Alcorn declared that the circumstances surrounding the Yach hold-up were so similar to those connected with the Tautenhahn affair that he desired to have the two youthful prisoners held for a further examination.

FOUR JURORS PICKED FOR FLORIAN'S TRIAL

Southington Man Charged With Participating in Plantville Bank Robbery.

Hartford, Conn., March 27.—Four jurors of the twelve who were to try Stuart R. Florian, of Southington, on a charge of participating in the robbery of the Plantville National Bank of Southington, last June, had been selected at noon today in a Superior Court session under Judge L. P. Waldo Marston here.

Sixteen talesmen had been examined at noon. Six were challenged by the defense, and one by the state while Judge Marvin excused five others who either had sickness in their families or were unwell themselves.

The four selected for trial work were Frederick M. Hollister, a retired farmer of Glastonbury; Ernest M. Hodge, an Avon butcher; Fred M. Hills, an East Hartford tobacco grower; and Winslow W. Barnes, a Canton garage owner and coffee merchant.

Florian faced trial on the same charge in December but his jury disagreed and was discharged.

TREASURY BALANCE

Washington, March 27.—Treasury balance March 24: \$445,042,794.46.

GERMAN PLANE POISED FOR HOP OVER OCEAN

Nothing Supernatural In Miss Ferron's Case

Woonsocket, R. I., March 27.—Investigation here today lifted the mystery surrounding the strange case of Miss Rose Ferron, 23, who had been said to bear the marks of the wounds of Christ's passion and crucifixion.

Investigators were of the belief that Miss Ferron's condition was in no way supernatural.

They revealed that the girl has been suffering for eleven years with what is known to medical men as blanches on the skin.

The skin blotches, appearing as they frequently have on the hands, feet and head, have given the impression that the girl supernaturally bore the wounds of the Saviour. These blotches have been intensified in the Lenten season by the meditation and absorption of the stricken girl's mind upon the passion and sufferings of Christ, it was stated by those in a position to know.

The investigation disclosed that the girl had not partaken of substantial food in three years. Her only food has been liquid and much of that has been only water—with some stimulant added.

Many persons, some as far away as Canada, have come to Woonsocket to pray with the girl who is strapped to her bed.

Plan to Start at Dawn Tomorrow But May Start Earlier if Weather Conditions Improve—Flies Carry No Radio and No Parachutes; Plane Guarded on Irish Flying Field.

Dublin, March 27.—The Junkers monoplane Bremen, in which three German airmen will challenge the perils of a westbound trans-Atlantic flight, was overhauled, fueled and provisioned today, and made ready for the hop-off for America.

A strong westerly wind was blowing, making flying conditions unfavorable.

Captain Herman Koehl, who will pilot the Bremen, planned to hop off at Baldonnel field tomorrow, but it was rumored that the start might be made earlier if weather conditions improved. However, the likelihood of an earlier departure seemed slim this afternoon.

Captain Koehl and his two companions, Baron von Huenefeld and Aviator Fritz Loose, went to Baldonnel Airfield where a special under-carriage, designed by Prof. Junkers of the Junkers works, was fitted to the plane.

Plane Guarded
The Bremen has been kept throughout the night under guard in a sealed hangar so no one could tamper with it.

The machine was fueled with a special German petrol, brought from Templehof Field by two German engineers.

When fully loaded and ready for flight the plane will weigh five tons. Keen interest has been aroused in the flight and a number of visitors went to the airfield during the day to get a glimpse of the plane. Every inch of available space atop the machine is being used for petrol. It carries neither radio nor life saving apparatus for emergency in event of mishap at sea.

"The plane functioned perfectly during the flight from Berlin and we have every reason to hope for success," said Koehl through an interpreter. "It is true we are taking chances flying so early in the year, but we are pitting our ambition to be the first to make the westward flight against the perils of sea and air."

Loose will act as relief pilot on the flight.

MRS. COOLIDGE AT MOTHER'S BEDSIDE

Mrs. Goodhue Is Very Sick Woman, Her Physician Declares Today.

Northampton, Mass., March 27.—Mrs. Calvin Coolidge, wife of the president, was at the bedside of her mother, Mrs. Lemira Goodhue, today.

The stricken mother at Dickinson-Coolidge hospital seemed cheered by the early morning visit of her daughter, who hastened here from Washington by fast express.

Mrs. Goodhue recognized Mrs. Coolidge and the two conversed for a few moments. The rest of the time Mrs. Coolidge sat by her mother's bedside with her friend Mrs. Rufus B. Hill, who accompanied her from Washington.

Mrs. Goodhue's physician, Dr. Justin E. Hayes, said after Mrs. Coolidge's visit:

"Mrs. Goodhue's condition can be considered fair but she still is a very sick woman. Her condition is somewhat improved from what it was when Mrs. Coolidge was notified to come here."

PLUNGING STOCKS EXCITE EXCHANGE

Pandemonium Breaks Loose When General Motors Drops 19 Points.

New York, March 27.—Pandemonium broke loose on the floor of the New York exchange today when, in a wild flurry of trading, General Motors plunged downward nineteen points to 180. This stock had been making a dizzy upward climb for days and had closed yesterday at 198.4 after having reached 199, the highest point in its history.

An avalanche of selling orders descended upon the market from all over the country, sending prices of many stocks other than General Motors downward. Declines ranged all the way from five to twelve points in other issues. General Motors taking the longest, shoot down the toboggan.

Montgomery Ward stock, after opening at 149 slipped back to 141; Chrysler declined from 72.3/4 to 68; Studebaker started at 69.1/2 and moved down to 67; U. S. Steel, after opening at 150 fell off to 147 and Sears Roebuck dropped from 119 to 101.

The ticker ran 31 minutes behind in recording sales made on the floor. "Bulls" and "Bears" gesticulated wildly at the various trading posts, the market was swamped with stop-loss orders—that is, instructions to sell if certain stocks dropped to below a certain point. Excitement was intense, even more so than yesterday when the greatest volume of trading in the history of the exchange was recorded—more than 4,000,000 shares.

REASON FOR DROP

A psychological factor was attributed as one of the main reasons for the nineteen-point decline in General Motors. It had been confidently predicted that General Motors would reach 200 today and, with only a point to go to reach that mark, a panicky feeling developed when the stock failed to reach that price on opening sales. Almost immediately there came a flood of selling orders and the slump was in full swing. Many of those who had bought the stock while it was on the upward swing began to figure it was time to get out and realize profits.

Meanwhile, weakness continued in other issues, General Electric dropping nine points to 140 and Sears Roebuck slipping back for the day. U. S. Steel, generally unresponsive to sudden changes, eased off a shade more, to 146.3/4, a 3/4 point decline.

Today's relapse was the first "break" in the big bull markets which have prevailed since March 3rd.

FORGER BOUND OVER

Greenwich, Conn., March 27.—Cyrus F. Turner was today bound over for trial in the Superior Court on four counts of forgery and was taken to Bridgeport jail in default of \$10,000 bail. Turner was extradited from Albany and was brought to town late last night. Helen Eichler, 19, involved in the affairs of Turner, was bound over to Bridgeport jail ever since.

Turner and Miss Eichler used the name of Mrs. Kathryn V. W. Bassett, a wealthy local resident, to obtain money on checks from the Putnam Trust Company and from local merchants. Turner's wife is Mrs. Bassett's cook. The Eichler girl was caught just after she had cashed some checks and Turner, who was waiting for her in a car, speeded away when he realized what had happened. He refused to plead today and Judge W. Stanley Finney found probable cause.

TOWN DECIDES UPON AUTOS IN HORSES' STEAD

(Continued from page 1)

change building lines unless the property owners are fully represented. Last night in executive session the board named George E. Keith and Robert J. Smith a committee to investigate further.

Earl Marks was the only property owner interested in a change of building line on McKee street at the Summer street corner. A ten foot line was voted. The second hearing on building lines on Jensen street was held last night and those represented were John Jensen, John Bausola, Charles F. Howard, William Thornton, Joseph Kayan and Arthur Clark. The present lines are 25 feet veranda, 35 feet building.

All but Mr. Jensen wanted the lines unchanged. Mr. Jensen had presented a plan for dropping the line from 35 to 25 feet for buildings whose the interest in a turner. The Selectmen could see no reason for making the change and the lines remain as they are. The same applies to Jordt street in which Mr. Jensen is also interested. The only other property represented on Jordt street was J. Frank Bowen, who preferred that the lines remain unchanged.

Edward J. Holl asked that sidewalk be constructed on McKee street and Hartford road. The highway committee reported favorable on this matter. Mr. Holl also asked that a bad storm water condition on Hollister street be remedied. The highway committee will investigate.

A quitclaim deed which imposed a building line on the Connecticut Company property recently purchased by the town was received from James Trotter a former owner of the property. The board was informed that the Connecticut Company has a quitclaim deed to the property ready for the town when "the necessary wherewithal" is produced. However, Town Engineer Bowen has been checking the description of the property and finds some slight errors in it. The board also requests a warranty deed to the property and will so inform the Connecticut Company.

The Selectmen devoted considerable time to a study of the town's budget and the present standing of appropriations. Most of the departments are in good financial condition, but the Selectmen believe that it will be necessary to economize on highways. Contrary to general belief the past winter has left the roads in bad shape. The highway appropriation has been used to a considerable extent and it will be necessary to shave it in order to keep within budget.

A bad cesspool condition on Summit street was discussed and the Board of Health and Town Counsel will be asked to take action to force the owners to either connect with a sewer or build a cesspool. The owners have been asked for a building permit planning to move the house in question nearer the street. The permit will be held up until the cesspool condition is remedied.

The lighting committee recommended two lights and one change in light position on Birch street.

GOVERNOR WAS IGNORANT OF K. K. K. ENLISTMENTS

Providence, R. I., March 27.—Cross questioned today by Attorney General Charles P. Sisson at the opening of the House militia committee's probe of the alleged double enlistment of 225 members of the Ku Klux Klan into three companies of the First Light Infantry of Rhode Island and their equipment of rifles and a machine gun, Adjutant General Arthur C. Cole testified that:

1. Governor Norman S. Case had been kept in ignorance of the situation prior to the public exposure; 2. Captain William A. Greenleaf was active in stimulating enlistments; 3. Col. Harold A. Braham, commanding officer, cared little who was enlisted as long as the numerical strength of the three companies was rebuilt; 4. The secret had been simmering some time before the exposure broke.

Gov. Case suspended the adjutant general and commanding colonel as investigators, turning the whole matter over to the House committee.

SYRIAN PEOPLE GIVE UP FIRE ARMS AS FRENCH CEASE ALL HOSTILITIES

Beirut.—Syria is gradually being disarmed about 40,000 firearms having been collected from the people since the suppression of the rebellion in Syria and the Lebanon. A condition of the cessation of hostilities on the part of the French troops was the voluntary surrender of all arms by the non-combatants at the time the active rebels were forced to lay down their arms. The response to the appeal was far from general and the authorities have taken to conducting searches in houses where there was suspicion of weapons being concealed, resulted in the confiscation of 21,755 rifles and 2,822 other firearms in Syria and of 7,200 rifles and 5,433 revolvers in the Lebanon.

COURT PAYS TRIBUTE

Bridgeport, Conn., March 27.—Judge John E. Booth, of New Haven, recessed the Superior Court from one to three this afternoon in memory of Sheriff John W. French, of Trumbull, whose funeral was held this afternoon. Sheriff French had presided over Judge Booth's court for some weeks.

LAW IN BRITAIN TO END FRAUDS IN STOCK SALES

(Continued from page 1)

London.—Under the terms of a Bill introduced in the House of Commons by the British Government, the white collar bandit of the future will find it much harder to unload his worthless "shares" upon the British public.

The Bill has been introduced as the result of a rising wave of protest against the activities of American and British crook shareholders, who are estimated to have fleeced an unsuspecting public out of millions of dollars in the past few years.

Heretofore there has been little white collar bandit operating in this country, but with the passing of the present measure the public will be afforded full protection. House to house hawking of shares—the favorite method of the share peddler—will be prohibited, and written offers of shares will have to be accompanied by full particulars.

Drawing The Net "Comparatively few of these sharks will get through the net which we are so closely drawing around them," said Sir Philip Cunliffe-Lister, the President of the Board of Trade, in speaking upon the Bill. "Parliament cannot really do anything to protect a fool from his folly, but what it can do is to make sure that even a fool is given a chance not to be foolish."

The Bill is an enormous affair of 109 pages. As a whole it will not immediately be passed, but the clause dealing with the white collar bandit will come into effect immediately by the Royal Assent is given.

It begins: "It shall not be lawful for any person or group from house to house offering shares for subscription or purchase to the public or any member of the public. It shall not be lawful to make an effort in writing to any member of the public other than a share dealer or share broker, unless the offer is accompanied by a statement in writing containing full particulars."

Written Particulars "Among the written particulars so supplied must be: Whether the vendor is principal or agent. The amount of the capital. Rights of shareholders. Whether or not the shares are fully paid. What dividends have been paid in the past. Whether the shares are quoted on any recognized Stock Exchange and, if so, where."

Putting an end to the share evil is a reform advocated for some years by the leading brokerage houses and financial newspapers. On a recent estimate, unskilled investors in Britain have lost \$5,000,000 during the past five years in various oil, land and mining swindles, the majority of which had their origin in the United States.

SEIZE LARGE STILL

Kingston, N. Y., March 27.—Federal prohibition agents declare that Daniel J. Murphy, former dry agent, arrested here in a charge of conspiracy against the Volstead act, operated one of the largest stills in the state. Raising the plant on a farm near here, the agents uncovered and seized a 10,000-gallon still, two fifteen-thousand gallon mash storage tanks, a 75-horsepower boiler, pumps and other materials, including a large quantity of molasses and corn sugar.

Murphy furnished \$5,000 bail pending a hearing on May 2. In January he was an accredited agent of the federal government, according to credentials he produced. At that time the large brewery establishment of the Hancock Brewing Company in this city was the effect of a raid, in which Murphy took a prominent part.

LINDY NOT TO RETIRE

Washington, March 27.—Governmental officials who conferred here today with Col. Charles A. Lindbergh emphatically denied reports that he plans to return to private life in the near future. On the other hand, it was intimated at the State Department, after Lindbergh had been in conference for two hours with Under Secretary Olds, that another flight project of major importance had been discussed. Neither Olds nor Lindbergh would comment after the conference.

The project apparently is still in the nebulous stage. Definite announcement, should the undertaking be decided upon, may come from the headquarters of the Guggenheim Fund for the promotion of Aviation in New York, it was intimated.

SANDINO DISAPPEARS

Managua, March 27.—Augustino Sandino, leader of the Nicaraguan rebels, has disappeared completely and United States marine scouts reported today they could get no trace of him. Small detachments of guerrillas are operating in Segovia, some groups containing only two men.

Sergeant Edward F. Rowe, of Malden, Mass., who was wounded in the arm while inspecting a marine outpost at Condega is resting easily and his speedy recovery is expected.

FLOUR MILL BURNS

Buffalo, N. Y., March 27.—With an estimated loss of \$200,000 fire destroyed the Buffalo Flour Milling Company five-story building today. Three tugs moored near the structure were also destroyed. Fireman William Britzle was injured by falling timbers and was taken to the hospital.

Several workmen in the building escaped. A high wind hindered the efforts of the firemen. The cause of the fire was unknown.

COAL MEN QUESTION SENATE'S AUTHORITY

(Continued from page 1)

Washington, March 27.—The Senate coal investigation struck a snag today. The West Virginia Coal Operators Association challenged the committee's authority to examine the private books and records of companies. The contention was advanced that production of coal is not interstate commerce and therefore the Senate has not the power to pry into the company's private affairs.

The committee was advised of the challenge in an executive session and decided to permit the operators to argue their stand at an open hearing. It will be brought up as soon as the committee concludes examination of Percy Teltow, of Charleston, W. Va., president of District No. 17 of the United Mine Workers.

The association represents the southern field operators of West Virginia. They are requesting to furnish labor costs, selling prices and production costs of their coal. To prevent this information going to the record, they decided to test the committee's powers.

Ex-Senator Stanley, Democrat of Kentucky and A. M. Belcher have been retained to present the association's argument to the committee. "We will hear the argument in open session and then decide what action to take," said Senator Watson, Republican of Indiana, chairman.

Operators' representatives indicated they would not carry their fight to the courts if overruled by the committee but, under protest, will submit the requested information.

BERLIN RADIO FANS OUTNUMBER THOSE OF ANY OTHER CAPITAL

Berlin.—Berlin has more radio fans than any other capital in the world, compared with number of population.

Writers more than 12 subscribed "listeners" to every hundred of inhabitants Berlin easily leads the way before London with 8 and New York with only 6 per cent participating in broadcasting.

Of the more than two million officially registered listeners all over Germany, 28 per cent belong to the upper middle classes, 18 per cent are public officials, and 45 per cent employees and workers while the rest of 9 per cent couldn't be classified, according to the latest statistics issued by the Reich's Radio Corporation.

During 1927 no less than 24,000 artists and other radio performers were employed, with a total of about nine million marks paid for wages.

The rapid growth of the wireless movement with hundreds of amateur radio clubs scattered all over Germany. It is estimated that now more than 7,000 are employed in the manufacturing of complete radio sets alone, while many times that number earn their living by selling radio tubes, antenna wire, etc.

The high standard of radio sets "made in Germany" is shown by the fact that, while the imports of radio sets alone into Germany has remained practically negligible, German radio apparatus are exported to all parts of the world in constantly increasing numbers.

NOW HERE IS A TOAD—BUT READ IT YOURSELF

Denver, March 27.—City Park Museum here was a popular place for curiosity seekers today because of the arrival of a toad estimated to be three-fourths of a million years old.

When a mud ball was received yesterday from A. H. Holloman of Fredrick, Okla., Harold J. Cook, honorary curator, opened it to find what was inside. To his great surprise, out hopped a toad, apparently in normal physical condition.

Officials of the museum said they have no reason to believe the incident is a hoax on the part of the Oklahoma quarry owner, but they declined to hazard any statement as to how old the toad might be. Cook, however, was willing to explain his reason for placing the estimate on the age of the mud ball and toad.

"The mud ball bears unmistakable evidences of belonging to the pre-glacial, or afloatian period," said Cook. That would make it about three-quarters of a million years old."

BLACKMAILER ARRESTED

Middletown, Conn., March 27.—Police today announced the arrest of George E. Lewandowski, nineteen, of 3 Factory street, on a charge of sending a blackmail letter to Townsend Palmer, secretary and treasurer of the I. E. Palmer Co., demanding \$10,000 on penalty of injury, and sending a six-inch dagger as an extra threat.

According to the police Lewandowski has admitted mailing the letter and dagger. His father was grand master of order of the Knights of Malta, today announced the appointment of Cardinal Hayes of New York, as grand protector of the American Chapter of the Knights of Malta. James Phelan, of Boston, master of the American Chapter of the Knights of Malta, was decorated with the grand cross of the order and Mrs. Phelan and Mrs. John Roskopf were made dames of the order.

HORACE B. CHENEY EXPLAINS 'RAYON' TELLS KIWANIAN'S ITS RELATION TO SILK—HIS ADDRESS IN FULL.

(Continued from page 1)

"The Development of Rayon and its Relationship to Silk" was the subject discussed this noon by Horace B. Cheney of the firm of Cheney Brothers before the Manchester Kiwanian club. Mr. Cheney has had much to do with this particular branch of the business. His talk was listened to with more than ordinary interest by the Kiwanians, and at its close Mr. Cheney gave an opportunity for those who cared to ask questions. Many of the members did so. His discourse is one of particular interest to all the people of the town of Manchester and its immediate vicinity and we give it in full below.

Principal Clarence P. Quimby today gave an outline of the program for the minstrel show which is to take place in the State theater Wednesday evening, April 18. Those in charge of the minstrel are confident that the program will be more successful than that of a year ago when the theater was filled at two performances. Each Kiwanian was given 20 tickets to dispose of.

The attendance prize was won by Frank Cheney, Jr., and was donated by George H. Washburn. It was a fight to the stage setting of the minstrel show of a year ago appropriately framed. The attendance today was 44, 23 of the "Nuts" being present and 21 "Pests". This cuts down the lead of the Pests so that they are only 10 to the food.

Directors Meeting It was announced that the directors will hold a meeting Monday, April 2 at noon at the Franklin school. Luncheon will be served by the students in home economics in the Ninth District.

N. B. Richards, it was stated to will chaperone the party which will attend the meeting of the Willimantic Rotary club this evening. Clarence Quimby is to be the speaker. The local Kiwanian club has been invited to attend and it is expected that more than 30 will go to the third city to back up their president. They will leave here at 5:30.

Following is Mr. Cheney's address on "Rayon": "For generations, the people of the world have sought their clothing from a few well known fibers, and woven into fabrics, which have supplanted for the use of mankind, the fig leaves of the Garden of Eden, and the skins of beasts which were used after they were driven out."

"The first of these sources of warmth were probably the hair of animals, particularly those of sheep and goats which we know as wool. As far back as the times of King David, cotton, linen, and silk were successfully used for the making of cloth. The primitive methods of twisting such threads are still in use in some parts of the world. I have myself seen in Italy women twisting woolen threads with their fingers from a list of beasts which are found in the mountains of the Alps. The largest part of the Rayon production, however, is consumed in making underwear, stockings, knit goods, sweaters, and in producing cotton mixtures in the form of mill and old market. So cleavage between silk mills and cotton mills are being broken down. The Northern cotton mills pressed for outlets in competition with the South have turned to the use of silk and Rayon, either straight or mixed with cotton. Some of the most difficult competition today is with cotton mills. It is probable that in the future this competition will become closer and more clearly defined. I do not think that Rayon is going to displace silk and drive it out of the market. So long as it is grown up without producing any decrease in the use of silk. It has displaced if anything cotton and linen, particularly linen, rather than silk."

"One thing and one only is certain. Rayon is here to stay. It is a worthy, valuable product which adds to the wealth of the world, and one of the best illustrations of the ingenuity of man."

MUST ACCEPT CHALLENGES

New York, March 27.—The New York Boxing Commission today issued another ultimatum to Gene Tunney, heavyweight boxing champion, threatening him "with some action" if he does not reply by next Tuesday to the challenges on file by Jack Sharkey, Johnny Risko and Tom Heeney.

The commission said that Tunney must either accept or decline these challenges by Tuesday. In the event that the three challenges are declined by Tunney, said the commission, then the champion must put others on file which include Phil Scott, British battler, George Godfrey, negro, Paulino, the Basque, and Jack Delaney.

SEN. NYE SILENT

Washington, March 27.—Senator Gerald P. Nye, Republican of North Dakota, declined to comment today on Governor Al Smith's second "robbing letter."

"I'll have something to say probably when I receive the letter, but not before."

FIND AETHERON A SPEED MARVEL IN ETHER WAVES

(Continued from page 1)

Vallejo, Cal.—A new entry in the "atmospheric handicap" was hatched today for the chariot of science today. Capt. T. J. See, navy astronomer and noted scientist at Mare Island, offers the Aetheron, about 1000 million times smaller than the electron, and said by Captain See to travel at an average speed of 294,000 miles per second, 57 per cent faster than light.

Announcement from New York that Dr. W. D. Coolidge of the General Electric company had obtained experimental proof that electrons can be forced to travel at 175,000 miles per second under an electric charge of 900,000 volts prompted Captain See to further discussion of the ether wave theory which he recently promulgated as supplanting the now scientifically passe "ray" theory.

New Experiments Dr. Coolidge admittedly is uncertain just what his new discoveries, made through experiments with the cathode tube, will lead to. "We will experiment further with these high speed particles," Dr. Coolidge is quoted in New York dispatches. "They should eventually help us to further knowledge of radiation laws and the atomic nucleus."

Captain See, however, observes in Dr. Coolidge's experiments complete confirmation of the wave theory he champions. "The result, in fact, is forecast in my discussion of the new theory of the ether," Captain See asserts. "On account of their considerable mass electrons have in quiescence an average speed of only 60 miles per second. But I have shown that electrons, with a speed of one-third that of light, when caught up and carried along by electric ether waves attain a speed only 1 per cent less than that of light."

Dr. Coolidge has in effect substituted a tremendous voltage of electricity for the ether waves and the electrons responded by traveling with it at 175,000 miles per second.

"This confirms my statement that higher velocities of small corpuscles may be obtained by decreasing their mass or increasing the voltage, which latter Dr. Coolidge has done."

Electron A Laggard Even so the electron is a laggard as compared to the Aetheron, which outstrips light in the bewildering race through the universe, Captain See pointed out. It is the little speed-demon that now intrigues him he says, as part of his study of the new Kinetic theory of the ether showing that waves are the cause of universal gravitation. Underlying magnetism, electro-dynamic action, the molecular atom and even the explosive forces of nature.

"It is the wave theory that will lead us to the complete knowledge of radiation laws and the atomic nucleus referred to by Dr. Coolidge," Captain See maintains. He agrees with the eastern seerant that important therapeutic, chemical, bactericidal and other practical uses will develop from the discovery that electrons and small corpuscular masses may be controlled and projected at terrific speeds.

PROBE PLANE CRASH

San Francisco, Calif., March 27.—A specially appointed board of three Army officers, stationed at the U. S. Presidio here, opened an inquiry today into the cause of the fatal airplane plunge that cost the life of Lieut. Theodore Munchoff, World War ace yesterday.

Piloting an Army De Haviland plane, Lieut. Munchoff was drowned when the craft fell into San Francisco bay from an altitude of 200 feet. His flying companion, Sergeant William L. Klatz, whose home is in Concord, N. C., was thrown clear of the observer's seat just before the plane hit the water. He was rescued.

MAY CALL FORD

Washington, March 27.—Henry Ford may be called to testify at the Senate's coal investigation, committee members indicated today.

Information has been presented to the committee that Ford, who operates mines in West Virginia and Kentucky, pays his men eight dollars a day, while nearly open shop companies pay a top of four dollars daily.

The reported Ford scale is above the Jacksonville wage for which the union is striking to maintain.

AVIATOR MISSING

(Continued from page 1)

Beaver, Penn., March 27.—Authorities here today searched for Arnold F. Sullivan, pilot of the American Eagle biplane believed to have been forced down in the Allegheny Mountains ten days ago in an attempted flight to Boston, Mass., across the mountains.

The search was made following receipt of a telegram to local officials from Sullivan's parents in Beverly, Mass., saying that the pilot has not appeared in either Boston or Beverly and is feared lost.

After leaving Beaver, where his plane was forced down by engine trouble, Sullivan was said to have declared he would fly directly across the mountains thus saving 100 miles.

KILLED BY MAN'S BITE

Montreal, Quebec, March 27.—With one victim lying on a marble slab in the morgue and another at the point of death, Albert Shute, the "fang killer," is being held by police today as the result of a St. Patrick's Day party during which he became crazed by drink and buried his teeth in four persons who sought to calm him.

Mrs. Sarah Marcoux is dead, and Adelard Brabant is lying delirious on the point of death in Alexandria hospital. Walter Davis and Elsie Martin the other victims, will recover. All four were poisoned by the teeth of the madman.

TO TRY OCEAN HOP

New York, March 27.—Miss Mable Boll, who cherishes the ambition to be the first woman to cross the Atlantic, will make the attempt in May, she said today, after announcing that she has engaged Wilmer Stultz as pilot. It is reported that he will receive \$25,000.

Miss Boll, so-called "Queen of Diamonds," declared she will act as co-pilot. She is now negotiating for the plane that will be used on the flight.

PATROLMAN SENTENCED

Cambridge, Mass., 27.—Charged with threatening to shoot a married woman if she did not elope with him immediately, Patrolman William S. Rae of the Boston Police force in District Court today was sentenced to one month in the House of Correction in the District Court here. He appealed.

Rae was accused of having drawn a revolver and threatened to shoot Mrs. Mary Mager of Arlington, at her home. She complained to the Arlington police and Rae was arrested as he reported for duty at a Boston division.

MEATS

Pork to Roast, 20c lb. Legs of Lamb, 30c lb. Pot Roast, 30c lb. Rib Roast Beef, 35c lb. Native Poultry, 42c lb. Sausage Meat, 25c lb. Honey Comb Tripe, 22c lb. Small Link Sausage, 35c lb. Baked Ham, Right From the Oven, 75c lb. Corned Beef, 18c lb. Oysters Every Day.

BUNYON DERRY

(Continued from page 1)

Aboard Motor Cruiser America, with Los Angeles-New York Racers Nearing Los Lunas, N. M., March 27.—"Down by the Rio Grande" is not a recitation of the well known poem, but it is the objective of C. Fries Bunyon Derbyists today.

Pushing eastward from Old Laguna Pueblo this morning, 98 runners and walkers forged ahead to the town on the banks of the river which forms the boundary between the United States and Mexico. Today's trek was 48 miles.

Under a revised schedule Wednesday the runners and walkers will make thirty miles after crossing the Rio Grande and starting through Albuquerque for another night halt on the desert.

TUESDAY, MARCH 27, 1928

FAVORITES IN TAXES

There are some things in connection with local politics and government—and the word "local" is used here without the slightest reference to Manchester—which just simply are not mentioned.

Hard boiled as many of our citizens are, this is probably the first time that some of them ever heard even an intimation that there might be such a thing as laxity in tax collecting through fear that collection measures provided by law might, if enforced on certain individuals, might bring retribution in the form of emitties politically expressed.

What on earth possessed Attorney Persky to talk right out in meeting this way, on a subject which is never mentioned in polite political circles, we can't imagine.

However, now that a start has been made in the matter of revelation, perhaps some other official will go a step farther and inform tax collectors that, since the people have been tipped off to the existence of a system of political favoritism in tax collection, it may turn out extremely inexpedient politically not to collect.

FIVE-DAY WEEK

Those ready riddle readers who find in the five-day week a solution of the employment situation are not inclined, we suspect, to remember the existence of a sizeable slice of this world outside the boundaries of the United States.

If the United States were a completely separate economic unit from the rest of the world this might work, after a fashion, though there are elements of great uncertainty about it even in such a case.

There is something rather magnificent about the nerve of the Reds, in all seriousness proposing that the nations lie down and permit Bolshevism to step on their necks in the name of peace.

BIRDS' VERDICT

Perhaps the robin, in many individual instances, never does go away at all but winters among the cedar bushes in back pastures; perhaps occasional glimpses of his rotund symmetry, early in March, constitute but tricky and unreliable evidence that spring has come.

To shorten the hours or days of labor as a panacea for economic ills in the prescription of every kindergarten socialist and uninformed reformer. It is an attractive cure-all and prettily labeled. The only trouble with it is that it would only make the patient sicker.

POLICE MURDERS

Indictment of seven members of the Miami police force for homicides resulting from the beating up of prisoners suggests again the often evidenced truth that the quality of any military or semi-military body of men almost invariably reflects the quality of its commander.

There is something very like comedy in the Nicaragua situation. We entered that situation at the invitation of the Conservatives and bitterly assailed by the Liberals.

RED GALL

The complete skepticism with which the Geneva conferees received the Russians' proposal, first for complete disarmament by all nations and then for a 50 per cent cut in armaments all around, is understandable to even the most ingenuous mind.

WHAT'S IN A NAME?

Miss Josephine Fish of Chicago has been married to Count Anthony de Bosdari of Italy. We should say that if there were any American girls pre-destined to wed Italian counts they are such young ladies as bear the name of Fish—and we don't mean Fisher, either.

A THOUGHT

They reel to and fro, and stagger like a drunken man, and are at their wit's end.—Psalm 107:27. A sensual and intemperate youth hands over a worn-out body to old age.—Cicero.

THE ENEMY

Our actions in Nicaragua and Panama to protect the canal are simply scandalous, says our neighbor, the British press. But, if memory serves us right, hasn't Britain priority rights on some canal down there between the Mediterranean and the Red Sea?

FACTS ABOUT CONNECTICUT

(101) Savings Banks' Assets Increase. The assets of Connecticut savings banks have more than doubled during the last twenty years. In 1907 there were 87 savings banks with total assets of \$270,935,819.

The total number of depositors increased from 539,873 to 873,148 during the same period, and the total amount of savings deposits from \$256,372,061 to \$576,609,549. During 1907, 76 banks paid interest of 4%, the highest rate at that time, two paid 3 1/2%, eight, 3 1/4%, and one paid no interest.

Earlier than usual, if we mistake not, the robins are singing, blithely, joyously, with all the worshipful eagerness of May mornings.

There is something very like comedy in the Nicaragua situation. We entered that situation at the invitation of the Conservatives and bitterly assailed by the Liberals.

Time was when the "hurdy gurdy garage" was one of Manhattan's unique industries. It was a warehouse grinders, at the end of the day, hundreds of weary-footed street grinders came and left their stook in trade.

They tell me that at the present moment there are not more than 100 organ grinders left in the business, whereas there were at least a thousand wandering the streets a few years ago.

There's a fellow who appears each day on the Broadway highway wearing a uniform that closely duplicates that of a ship's steward. To a "select few" he gives the information that he's just off a boat and can fix you up with ship-Scotch, or what-will-you. In the gets away with it! A rouser, who claims to know the young man, says his boat must be the Weehawken ferry.

Unable to maintain in Russia alone anything but a ragged skeleton of the communism in which it professes to believe, the Soviet Union is staking its all on an effort to wheedle or trick the other nations into an international communism which it guesses might be made to work.

WASHINGTON LETTER

By RODNEY DUTCHER. So around and congratulate all the Democrats on any made-to-order victory, there is room to congratulate the Republicans.

Washington, March 27.—When the fast sprinter in a race slips in a mud puddle the next fastest runner often has a chance.

Thus, a school of thought has been growing up which holds that Democratic party has a chance to elect a president next fall as a result of recent exposures of Republican methods of campaign financing, piled on top of the previous exposures of the iniquities of certain Republicans in high office.

Some of the most prominent Democrats in the party were once fully as pessimistic about their November prospects as the most optimistic Republicans. Today, many Democrats are more optimistic, and many Republicans less so.

This supposes a purity of mind and a shockability on the part of the electorate which some of the more cynical fellows believe simply doesn't exist. For all the things that have been proved about ex-members and the other party of the Harding-Coolidge cabinet, it may be difficult to convince the required millions of voters to believe that the Republican party deserves to be flung across the feed box.

And the same goes for the Democrats. It has a fair chance add in the next breath that the Democrats are likely to leave away this chance in favor of a good old party fracas like that of 1924.

Governor Al Smith, who has much the best chance of being nominated, is the only one of the three principal candidates for nomination in his party who has not had a large part in exposure of Republican corruption of one sort or another.

It may be that Smith, if he is nominated, will be able to grab this issue of large scale corruption and use it for all it is worth, but he hasn't made the barest attempt to do so in the past.

But although it is too early to say in the Fourteenth street subway station there appeared the other day a ragged urchin who held out a bagged pump where a right arm should have been.

One eyed the lad suspiciously. "I'll bet that he's really got an arm under his coat," "I'll bet he's got," said the man. The other accepted his challenge. As the doubter started to pull back the youngster's coat, the boy broke away and ran up the stairway, revealing a perfectly good arm as he went.

Later, I was told, some Fagin has a half dozen lads of 10 or 12 playing the roles of crippled beggars about town. Each day he carefully arranges a cloth-covered stump which projects from under a coat. Weeks of training are given, with veteran fakers giving the lessons.

And so the girls went to the matinee without her. It isn't the first good time she has missed, simply because her home isn't within speaking distance of her friends.

Today everyone recognizes the convenience and protection of a telephone in the home. People who "get along" without one perhaps don't see the other half of the picture—that if their names aren't in the telephone directory, if their friends can't "call them up," they are cut off from a whole world of people who rely almost entirely on the telephone to make arrangements.

Now-a-days, a telephone is part of the equipment of every modern home. For its value lies not only in the calls you can make, but also in the calls you can receive.

And it costs so little! For as little as \$2.00 a month you can enjoy the benefits of a telephone in your home.

The above rate applies in the local base rate area. Service Connection Charge, \$3.50

Our local business office will gladly give you further particulars.

TO CONFER DEGREE IN FULLEST FORM King David Lodge of Odd Fellows Planning Big Time Friday Night.

King David Lodge of Odd Fellows is planning to close up the month's work next Friday evening when the lodge will confer the third degree in full form. This will be the first time that this degree has been conferred in such a manner in several years.

KNIT GOODS MAKERS PLAN TO ORGANIZE

Boston, Mass., March 27.—The research committee of the New England Council announced today that knit goods manufacturers of New England will organize a New England Knit Goods Association for the purpose of actively undertaking the solution of problems peculiar to the industry in New England.

Besides Mr. Sulloway, those on the committee on organization are Horace A. Carter, of Needham Heights, Mass.; E. B. Gaylord, of Winsted, Conn.; I. R. Hyatt, of New Britain, Conn.; George H. Lumb, of Pawtucket, R. I.; George B. McCallum, of Northampton, Mass.; Howard E. Page, of Cambridge, Mass.; Charles Pitman, of Lacombe, N. H.; Agusta Richard of Ipswich, Mass.; Charles G. Squibb, of Boston; C. Brooks Stevens, of Lowell, Mass.; W. B. Weisblatt, of Hillsboro, N. H.; and Walter B. Winship, of Wakefield, Mass.

It was pointed out today that the annual value of the product of the New England knit goods industry is \$5,000,000, that it employs 20,000 persons. Fifty-five per cent of the New England product is made in Massachusetts.

BOLTON

Mrs. Maud Woodward and Andrew Manegga were chosen delegates at the recent Republican caucus. They have attended the convention at Rockville.

Samuel Woodward was chosen chairman of the Republican Town Committee, Mrs. Maude Woodward assistant chairman and Charles Pinney secretary.

Peter Massolini is employed at Cheney's velvet mill in South Manchester.

Miss Elizabeth Rose who attends Mt. Holyoke college is spending her spring vacation at her home here. Fred Coleman is at the Manchester Memorial hospital suffering from a shock.

Charles Loomis of Pawtucket spent the week-end at his home here.

Miss Jeanette Sumner who attends the Howard Seminary is spending her Easter vacation with her parents Mr. and Mrs. Charles Sumner.

The Ladies' Aid society will meet at the basement Thursday afternoon.

At the recent Community whist held at Mrs. Charles Pinney's over \$10 was realized.

Dirt roads are impassible for autos, due to the annual spring mud. Rural Carrier George Nelson is making his rounds with a horse.

Twenty-one members were present at the last Grange in spite of the traveling. The Lecture hour was a surprise feature. The Lecturer called on different members which was a surprise to them. Roll call—What has the Grange done for me? recitation, Alice Lee; music by Alice Lee, Elsie Jones and Myron Lee. How can the Grange do more to interest the young people, responded by the young folks.

What part of the Grange I enjoy by Master David Toomey. A sum of \$10 was realized from the box lunches.

Miss Rose Niewiedzial spent the week-end at her home in Thompson.

Russell Merrill spent the week-end with his parents, Mr. and Mrs. Arthur Merrill.

Mrs. M. E. Capshaw spent the week-end at her home in Franklin. Northern Loomis of Manchester spent the week-end at his home.

Miss Lillian Ducker who is employed in Hartford spent the week-end at her home.

FEAR 70 DROWNED. Moscow, March 27.—Seventy Norwegian seamen today were believed to have been lost when ten small vessels used for sealing were sunk during a terrific storm in the White sea.

The crews of four of the craft were rescued by other vessels but those of the other six are believed lost. All ten vessels were of Norwegian registry.

TOLLAND

Mrs. John H. Steele was appointed lay delegate to the Lay Electoral Conference which will be held in Fall River, Mass., this week in connection with the New England Southern Conference.

Mrs. Charles Bachelor of Bridgeport, Conn., is a guest of her daughter, Mrs. Emma Crandall at Grant Hill District.

Mrs. Frank Babcock is reported gaining slowly at the Johnson Memorial hospital at Stafford Springs, where she is ill with pneumonia.

Dr. W. B. Bean of Stafford Springs was at his place at Inspiration Point, Chapman Hill, Monday, where he is making several improvements.

First Selectman Frank A. Newman and Mrs. Newman had as Sunday guests, Mr. and Mrs. George C. Hibbard and daughter, Althea of Rockville, Mrs. Gertrude Gaffney and daughter, Shirley of Hartford and Mrs. Harry Morganson and son, Frank of Buff Cap.

Mrs. Walter Havens of North Coventry was a recent guest of Mr. and Mrs. John H. Steele.

Miss Alice E. Hall a student at the Connecticut College at Storrs, Miss Bernice A. Hall of the Springfield Public Library of Springfield, Mass., were week-end guests of their parents, Mr. and Mrs. L. Ernest Hall.

Miss Ruth Ayers of the Hartford hospital training school for nurses, was at the home of her parents, Mr. and Mrs. William Ayers of Merrow road for a short time Friday.

Dr. Aaron Pratt, Mrs. Pratt and children, Aaron and Mary Agnes, Pratt of Windsor, were at the home of Mrs. Pratt's mother, Mrs. Charles H. Daniels, Saturday.

Miss Priscilla Matthews of Moosup, Conn., is a guest of Mrs. Nettie Darby.

Rev. William C. Darby left Tuesday for Fall River, Mass., where he will attend the New England Southern Conference, which is being held there this week.

The Ladies' Aid Society of the Federated church will serve their regular monthly supper in the church dining room Friday night, March 30. Mrs. James Rhodes, Mrs. C. Hibbard and Mrs. Howard Crandall are the supper committee.

Hon. Edward E. Fuller of Hartford and Tolland was a Sunday guest of friends.

Mrs. L. R. Ladd and son Raymond Ladd of Rockville called on friends in town Sunday.

The Study Club met at the home of Mr. and Mrs. John Steele Monday evening. Mrs. Charles H. Daniels gave an interesting travlogue on Mexico and Miss Bertha Place gave a reading. The social hour was spent in playing games and serving of refreshments which consisted of ice cream, cakes and confectonery.

There are between 100 and 150 knit goods manufacturers in the New England states, all of whom are eligible to become members.

It was pointed out today that the annual value of the product of the New England knit goods industry is \$5,000,000, that it employs 20,000 persons. Fifty-five per cent of the New England product is made in Massachusetts.

OSAGE INDIANS SELL RICH OIL LANDS TO FILL TRIBAL COFFERS

Pawhuska, Okla.—On March 28 and 29 the annual sale of oil leases is scheduled to be held here and there will be placed before oil men big tracts of great richness in oil.

Before the entry of the United States in the World War, nations were mustering their resources and taking stock especially of oil reserves. There was much talk of oil reserves for the navy. When the war was declared the Osage Indians, to show their patriotism, gave to the United States what government geologists reported to be the largest undeveloped tract of oil land in Oklahoma. The gift was for the duration of war. Recently the leases were returned unused to the Indians by the government.

Now the oil lease plus the gushing oil well is on the market. Uncle Sam's funds will sell them at auction in a pocket the proceeds in the tribal fund. The sale will attract captains of the oil industry from far and near. Millions will flow into the coffers of the tribe.

Drama always occurs when the big interest bid for prize locations.

PRINCESS MARY HAPPY OVER JOURNEY TO EGYPT DURING COMING SPRING

London.—Princess Mary is looking forward with considerable pleasure to the sightseeing trip she is to take to Egypt in the Spring. The Princess has never been out of Europe, and has had only three trips outside of the kingdom.

Before her marriage she was abroad twice—once with her mother to visit the Queen's aunt, the Grand Duchess of Mecklenburg-Strelitz, in Germany; and again during the war with the King and Queen to visit the British troops in France.

Her last acquaintance with the Continent was during her honeymoon in 1922 when she and her husband, Viscount Lascelles, visited Lady Sybil Scott, Lord Lascelles' cousin, at her villa at Florence.

COLORADO TO ASK U. S. TO GET RID OF I. W. W.

Denver.—Deportation from the United States of members of the Industrial Workers of the world will be asked of Congress by Chas. M. White, member of the Denver district attorney's office and a captain in the Colorado National Guard.

Captain White will appear before the house committee on immigration early as a representative of the Colorado National Guard to tell members of the committee of this state's costly experience with alleged I. W. W. agitators during the coal strike, called by leaders of the Wobly organization, which has been in progress since October 18 last.

THE ENEMY ONE OF YEAR'S BEST

Famous Play in Film Form at State Tomorrow—High School Benefit Today.

One of the biggest successes on the legitimate stage in recent years was "The Enemy," a story of the hatred caused by war and a cross-section of a country torn by conflict with other nations. The film which has been made from this story is just as good as the theater and is the feature at the State theater tomorrow and Thursday. With it is "On to Reno," a story of the divorce courts. Tonight the High School seniors are presenting "The Road to Romance," starring Ramon Navarro.

"The Enemy," Metro-Goldwyn-Mayer's spectacular filmization of the Pollock stage drama, as directed by Fred Niblo, is a graphic and powerful story; one that grips the heart in its intensity. As "Faith," the Austrian heroine, torn from the arms of her husband by the call of war, watching her family and friends divided in the heat of war hysteria and hatreds bred of war propaganda, Miss Gish has a role strikingly suitable for her own heights in some of the powerful dramatic sequences, such as the death of the child, where she, as its mother, forgets her grief to exult in the fact that "my baby is safe from the new war!"

Fred Niblo, director of "Ben Hur," "The Temptress" and other notable productions, directed the new picture with a mastery skill in bringing out the human elements and the cast is extremely well balanced.

Ralph Forbes, the noted hero of "Beau Geste," plays Carl, the husband, in an artistic manner, and Ralph Emerson, late of the stage, is convincing as the English lover, George Fawcett and Frank Currier, as fathers of Faith and Carl, have two great character roles, and Polly Moran adds comedy as the servant Petrouska. Fritz Ridgway, Karl Dane and John S. Peters are extremely well cast, and little Billy Kent Schaefer is interesting in the role of the child.

Philate seeing He could not prevail He washed his hands in innocence But the mob were not upon His trail Being determined to crucify Jesus.

They stripped Him of His garments And put on Him a scarlet robe The thorns which they had platted They then did place upon His head.

Then mocking and spitting upon Him He cried, Hail, King of the Jews They were satisfied and rejoicing Now they could do as they chose.

They led Him away to Calvary Where the ransom must be paid That poor sinners might go free Through the sacrifice He made.

There to the cross they nailed Him Being much to His enemies' delight But soon were hot upon His trail When he had finished the bitter fight.

As they sat down and watched Him And were parting His garments There upon the cross chimed in By offering his penitent prayer.

Then as there did come darkness Spreading over the whole land They said He was crying for Elias But they did not understand.

It was for His Heavenly Father For whom He was crying aloud He felt He could go no further Without His succor and aid.

At last He cried "It is finished" And He yielded up His soul. For He had gone the limit In seeking to save the lost.

The veil of the temple was rent All barriers were broken down And all who do truly repent Are welcome right up to the throne.

Therefore let us come boldly By faith into the presence of God Believing and trusting Him firmly For we are redeemed by the blood.

F. CLOUGH, Oak Street

WHALE OF A FISH. Norfolk.—A giant mammal of the sea, a whale weighing 156 tons and 36 feet long, has been reported captured by Captain J. H. Hansen of the Swedish whaling steamer Peter Bogen. The whale's heart weighed three and a half tons, its tongue one and a half tons and its liver two tons.

THE ENEMY HEALED HIS VARICOSE VEINS NO OPERATION

"For many years I suffered from varicose veins, and to such an extent that in order to keep on my feet at all I had to have my legs continually bandaged. Doctors advised an operation as the only relief. About a year ago I heard of RABALIN. Although without faith in it at that time or any hope of help from any such source, I tried it, and had used it only a short time when I was relieved of the intense pain, and the bunches of knotted veins were almost entirely reduced. Today, one year after use of RABALIN, there has been no recurrence of varicose veins, although I am on my feet continually about my store. I am pleased to offer this testimonial that others who are suffering from varicose veins may know of this wonderful RABALIN." Mr. Henry A. Mayer, Cooper, 274 Washington Street, Gloucester, Mass.

Two sizes, 50-cents and \$1.00 containing 3 times as much RABALIN is for sale by all druggists.

"OTHER NEW MODEL" Chicago.—"Oh, Marjorie, come on over! We've the darriestest ice-cream. And he plays bridge; he uses the sweetest perfume and has the nicest hair." Just a suggested line of chatter over the back fence this summer, when the 1928 model ice-cream aper, as heralded by Leslie C. Smith, secretary of the National Association of Ice Industries. "We are going to insist that our men be as neat and handsome as possible," says Smith. "They will be dressed in appropriate uniforms. White brawn will be essential; beauty will be paramount. They have got to have it."

With The Local Poets

FROM THE CRADLE TO THE CROSS

The world's Redeemer on His way From the cradle to the cross Met with those who heard Him say I am come to seek and save the lost.

King Herod sought His life to take When He was but an infant babe His Heavenly Father He did make Escape for Him with timely aid.

He sent His angel in the night His parents of the danger to warn And being obedient to the light They all escaped without any harm.

And as the child grew up in years He was quick of understanding Astonishing doctors as they hear His wonderful wisdom and learning.

And when to manhood He had grown He was filled with the spirit of God And as He went about among His people They ever thirsted for His blood.

The devil in the wilderness tried His utmost the Redeemer to overthrow But His temptations were all denied For to Him He would not bow.

And as he left Him the angels did come Sent for to minister unto Him Giving Him strength He needed some After the battle He had been in.

His Heavenly Father He had sent Down into this world below His only Son who knew it meant That to the cross He sure must go.

The soldiers in the night went out With lanterns torches and weapons Judas guiding to His whereabouts That they might arrest and take Him.

They brought Him first to Annas And then to Caiaphas the priest Some cried His blood be upon us While Philate sought His release.

Philate seeing He could not prevail He washed his hands in innocence But the mob were not upon His trail Being determined to crucify Jesus.

They stripped Him of His garments And put on Him a scarlet robe The thorns which they had platted They then did place upon His head.

Then mocking and spitting upon Him He cried, Hail, King of the Jews They were satisfied and rejoicing Now they could do as they chose.

They led Him away to Calvary Where the ransom must be paid That poor sinners might go free Through the sacrifice He made.

There to the cross they nailed Him Being much to His enemies' delight But soon were hot upon His trail When he had finished the bitter fight.

As they sat down and watched Him And were parting His garments There upon the cross chimed in By offering his penitent prayer.

Then as there did come darkness Spreading over the whole land They said He was crying for Elias But they did not understand.

It was for His Heavenly Father For whom He was crying aloud He felt He could go no further Without His succor and aid.

At last He cried "It is finished" And He yielded up His soul. For He had gone the limit In seeking to save the lost.

The veil of the temple was rent All barriers were broken down And all who do truly repent Are welcome right up to the throne.

Therefore let us come boldly By faith into the presence of God Believing and trusting Him firmly For we are redeemed by the blood.

WALLFLOWERS IS THRILLING STORY

Temple Bailey's Novel on Circle Screen Tomorrow and Thursday—Other Features.

Temple Bailey, the famous novelist, is a woman, as most of her readers know, and "Wallflowers" is her best novel. This great story has been transferred to the films under its own name and is one of two features at the Circle theater today and tomorrow. The second feature is "Finger Prints," starring Louise Fazenda.

"Wallflowers" comes to the Circle with a strong reputation behind it, for it leaped into the "best seller" class in book form while the presses were still hot from turning out the first edition of 50,000 copies. Its author is known for more than half a dozen other literary successes.

The story deals with the tribulations of a young man whose fortune is so tied up with the will of his father that he is forced to live on the mercy of a designing and unscrupulous stepmother who wants to marry him. The love and faith of a beautiful girl and the young man's own strength of character are seen in a titanic struggle with the will intrigues of the stepmother.

One of the screen's most promising young actors, Hugh Trevor, is cast in the leading male role, with Mabel Julienne Scott as the female "heavy." Others of the cast include Joan Arthur, Loina Todd, Charles Stevenson, Mrs. Temple Pigott, Craufurd Kent and Reginald Simpson.

"Finger Prints" concerns a detective's effort to trace \$5,000,000, which has been stolen from a bank. The thieves are captured and are serving life in prison, since the money has not been recovered. Its recovery leads to a series of hair-raising thrills and side-splitting comedy.

In this picture, Louise Fazenda returns to the type of role in which she has gained the most laughs of her career. It is the role of an apparently dim-witted servant, who, however, knows, a thing or two that turns out to be useful.

TALCOTTVILLE

Dr. John X. Miller of Pasumalai, India, an American Board Missionary occupied the pulpit in Church on Sunday morning. He spoke very interestingly of the different religions and castes of India.

The Christian Endeavor Society met at 7 o'clock on Sunday evening, the subject of the meeting was "What is Our Share in the Missionary Work?" The leader of the meeting was Miss Dorothy Wood.

The leader of the Junior meeting was Miss Beatrice Truman. Dr. Miller again spoke at this meeting telling of the conditions and life in India and also telling what has been accomplished during the twenty-four years he has spent there as a missionary.

The Misses Ellen Ressler, Florence Ressler, Julia Whitman and Roy and Ralph Ressler, Rudolph Paulsen, and William Hensicke of Bridgeport were Sunday guests of Mr. and Mrs. Sumner B. Smith.

WAPPING

Mr. and Mrs. David Burnham and son Luther, and two daughters Inez and Virginia, have all been sick at their home with the grip. They run the gas station at Pleasant Valley which was necessarily closed for a few days.

Rev. Truman H. Woodward who has been confined to his home with a grip cold for several days, is better, his father Rev. William D. Woodward of Manchester, preached for him at the Federated church last Sunday morning, and in the evening Mr. Woodward presented the lecture of "Land of the Lotus-Flower," illustrated by lantern slides.

The following town committee were re-elected for two years Mrs. Robert A. Boardman, chairman, Raymond Belcher, vice-chairman; Mrs. Frank E. Bidwell, C. Vinton Benjamin, Harry Farnham, William Thresher and Harry Stoughton.

Wapping Grange will hold their regular meeting at the Center school hall this evening, it being Neighbor Night. Bloomfield, Coventry and Windsor Granges will be Wapping Grange's guests, and will furnish the entertainment and Wapping Grange will furnish the refreshments.

Mrs. Helen Tripp's sons are ill with the grip.

Mr. and Mrs. Markus Tuttle's two daughters have been ill at their homes with the measles.

EMPEROR'S FUR COAT IS OFFERED AT AUCTION IN VIENNA CIGAR STORE

Vienna.—"The Fur" of a killing coat of Emperor Francis Joseph, made of Siberian volves' hair, is to be sold at a very low price."

This advertisement in the show window of a Viennese cigar store is a startling reminder of the changes wrought in the former Austro-Hungarian capital since the war.

The coat of the Kaiser, which, like all his clothing, retained a flavor of the respect which was paid to the person of His Majesty himself, was once only to be touched by persons of the highest rank. Later the Emperor bestowed it as a reward for merit on his Adjutant Count Paar.

It is now offered to anybody who can pay 1200 Schillings, about \$170.

HIGH SCHOOL NOTES

The Weaver High school debating club has accepted a challenge issued by the local debating club and an informal debate will be held in the near future; the date not having been definitely decided as yet.

Plans are now under way for a series of inter-class debates to be given at forthcoming assemblies. The various English departments will select the speakers to represent their respective classes. The teams will be coached by members of the varsity debating team, who will not be eligible for any of the class teams. The purpose of these debates is to help uncover material, especially in the lower classes, that will be of value in shaping future triangular teams.

The first round of inter-class basketball was played yesterday. In the first game the Freshman five ran away from the sophomores to the tune of 34-12 and in the second game the Junior quintet showed surprising strength in eliminating the seniors 37-5. The Juniors and the freshmen will fight it out in the finals tomorrow afternoon and the winners will get the class numerals placed on the large red and white banner that was won by the class of 1927 last year.

The Lincoln medal awarded each year by the Illinois Watch Co. to the freshman writing the best essay on Lincoln, has been awarded to Francis Harrington, Harrington and Austin Johnson both received an equal number of votes from the judges and the final decision was left to a grammar school principal who gave Harrington's composition the deciding vote.

Through the courtesy of members of the debating club, speakers will be sent to grammar schools of surrounding towns to tell the pupils something about high school life. Through this measure it is hoped that a greater number of pupils will be influenced to continue their education, instead of dropping it after graduating from grammar school.

Both the Somanhis Events staff and the debating club are soon to have their annual social. For the Somanhis social the committee in charge is L. Buckland, J. Wilson and H. Alton. For the debating social is G. Flavel, M. Stevens and E. Dwyer.

FLIGHTY CAGERS. Wichita, Kan.—Getting the jump on the other center often wins basketball games. The university of Wichita's basketball team has taken to airplanes to get the jump. A squad of five airplanes recently flew the basketball players to Hays, Kan., cutting the train time of two days to four hours.

FARM RELIEF BILL IS CERTAIN TO PASS

Washington, March 27.—President Coolidge's veto power appeared today to be the only stumbling block in the path of the drive of the Congressional Farm Bloc for the new McNary-Haugen Farm Relief Bill.

Despite indications from the White House that a veto awaits the measure, Farm Bloc leaders in both Senate and House were getting a campaign under way to pass the bill by the middle of April.

A new appeal will be made to Mr. Coolidge to yield to farm organizations in the fight. Spokesmen for the farm bodies will go before the President with the declaration that they have met nine of the ten objections he raised in his veto message last year and are seeking a compromise on the tenth—the equalization fee.

Backers of a movement to write a bill that the administration is known to favor virtually abandoned hope of stemming the Farm Bloc drive. They were ridden over rough shod in the House agricultural committee, which late yesterday voted to report the McNary-Haugen bill.

Senator McNary, Republican of Oregon, and Rep. Haugen, Republican, Iowa, authors and pilots of the new Farm Bill, are also said to have flatly refused to consider any compromise measure after Mr. Coolidge writes a new veto message.

Wichita, Kan.—Getting the jump on the other center often wins basketball games. The university of Wichita's basketball team has taken to airplanes to get the jump. A squad of five airplanes recently flew the basketball players to Hays, Kan., cutting the train time of two days to four hours.

Community Five Better Than Many Fans Think

Should Give Rec Warm Opposition in Town Series, But South is Favorites to Win Championship.

Although the Rec Five will enter the town basketball series a favorite to cop the championship, many are taking the Community Club too lightly. Some even venture to say that the Rec will win in a walk, but this seems to be pure bunk. However, if the Rec can down the Community by one-sided scores, it will have accomplished a feat deserving of much praise.

The point is, the Community Club is much stronger than the average basketball fan realizes. True, their record isn't nearly as impressive as that compiled by the Rec, but this means nothing. The fact still remains that the Community Club's best team has not been in the last game against the New Haven Collegians.

The Community Club is composed of unusually rangy players. Three of them, Captain George Stavitsky, "Babe" Hurley and Coach Jerry Fay, will be the backbone of the team in the series. This trio can be counted upon to give the Rec plenty of opposition while it is in the game. Of course, there is the possibility that Stavitsky's injured knee will handicap him and that Fay will not be able to get into proper condition.

But, if both of these men are right, the north should have a good chance of stopping the south. At least, this is the first time in a great many years if ever, that the north has been somewhere near on a par with the south in the basketball sport. It's their biggest chance.

The Community Club's biggest handicap may be its tendency to commit personal fouls. To a great extent, this has been caused by having to play on such a small court as the one at the Harding school. This makes certain amount of personal contact and fouling almost impossible to avoid. However, on a bigger floor, the Community may show much better. This point remains to be seen.

The Rec's big advantage is the fact that it has played together longer and has better teamwork and puts more spirit into its games. But this may be overcome by the Community's acknowledged strong defense. The Community Club will also have plenty of pep in the series. The Rec players are not a bit more experienced than those who will start for the Community.

Jerry Fay has played college basketball at Grove City where he was elected captain and honored by being named the best all-around athlete in the state district. That was two years ago, and of course, Fay is not in the same condition he was then. However, he didn't look bad by any means in the game against the New Haven Collegians. Hurley has been playing considerable basketball with the Hartford Dixies and the Hartford Yankees. Stavitsky's activity is too well known to elaborate on. He is considered the best player in Manchester today, and that is saying something when one stops to think of such crack performers as Elmo Mantelli and Harold Madden, both of whom pastime with the Rec.

Stavitsky injured his right knee recently and hasn't been as good since. This may have a big bearing on the outcome of the series, but "Stuffy" says the injury has healed enough to warrant his playing.

The Rec's starting lineup is easy to guess. Mantelli and Faulkner will be at the forward positions, Norris at center with Bissell and Madden at guard. The Community lineup isn't as easy to make for George Kelly. The forwards, otherwise will be Herb Kerr, Frank Gallagher, or Jim McLaughlin. But then there is Joe Pentland. He may be given a chance, too.

But, whoever gets the call, the Community should give the Rec warm opposition in both the game at the Rec Friday and at the armory the following Friday. The Rec, however, will nevertheless be a warm favorite to win.

LAST NIGHT'S FIGHTS.

At New York—Toney Marullo, New Orleans light-heavyweight, outpointed Mike McTigue, former world's champion, 10; Henry Goldberg, Brooklyn, won from De Vos, Belgian, on foul, 1.

At Boston—Sammy Fuller, Boston, won New England featherweight championship by outpointing Chick Suggs, New Bedford, Mass., Negro, 10.

At Pittsburgh—Mike Dundee, Rock Island, Ill., featherweight, outpointed U. S. Carpenter, Pittsburgh, 8.

At Philadelphia—Johnny Jadick, Philadelphia, won decision over Al Winkler, also of Philadelphia, 8.

At Rochester, N. Y.—Eddie (Kid) Wagner, outpointed Joe Trabon, Kansas City, 10; Canada Lee, New York Negro welterweight, won decision over Canastota Bob, of Syracuse, 6.

At Buffalo—Freddie Mueller, Buffalo lightweight, scored technical knockout over Armando Schakel, of Belgium, 10.

LEAGUE EXCHANGES ARE SATISFACTORY

Managers Seem to Be Happy Over the Off-Season Deals Already Made.

BY DAVID J. WALSH

New York, March 27.—It is noted today with sincere regret that nobody sees any reason to disapprove of himself over the series of off-season deals perpetrated by the Major Leagues this year. This will leave some of us absolutely at our wits' end and maybe we didn't have far to go in the first place but after all, there is nothing like a good cry for real enjoyment, and it is painful to admit that pessimism can't be enjoyed at this time on anything like a large scale.

No sooner, for example, did the Chicago Cubs sponsor statistics to prove that Hazen Cuyler was running wild as a hitter and outfielder in their California camp than the Pittsburgh Pirates countered with some data on "Sparky" Adams, who is exhibit "B" in this transaction.

Adams' Record

Adams, according to available figures, hit .556 through the first two weeks of Pittsburgh's exhibition games, accepted, forty-one chances without an error and altogether looked the part of the best second baseman the Pirates have had since Maranville's departure. Their story is that somebody may have made a big mistake on this deal, but it wasn't Pittsburgh.

That's John McGraw's story, too, about the Hornsby matter. Hogan and Welsh are beginning to impersonate ball players, Cohen seems to be acceptable as a second baseman, John says everything is just dandy and maybe it is. At that, the Giants impressed rival clubs they have faced in the south. Hornsby hasn't been hitting for the Braves but the latter are worrying like a man with nothing on his mind except a freshman cap.

Too Early Yet

It is a bit early for anyone to pass judgment on the recent Bell-High trade and, therefore, all concerned naturally are tickled inarticulate. The Grimes-Aldridge matter, however, is something else, since to date the Giants have obtained nothing beyond a claim who will start for the Community.

John probably would like to claim a break here somewhere but just doesn't know where to begin. This really is the only enjoyable factor in the entire situation as the Dodgers declare that Dave Bancroft has made their infield and Stanley Harris wishes to announce that he has an unlimited number of \$15,000 commissions to hand over for a few more Sislers. The latter is hitting well and has added speed to the Senators' base running game.

Dan Howley also states that he would have no specific objection to making any number of trades like the one that got him Blue and Manush. The latter injured himself last winter and is not in the lineup at the moment, so maybe that Daniel really likes about him is the way he is. At that, the Washington, likewise is hailed as a satisfactory addition and, I trust, for a slightly more satisfactory reason.

The Detroit end of the Manush-Blue deal also is cheering heavily about Harry Rice, who seems to be going to the very well for the Tigers. Quite so, Arbutnot; there is simply no chance right now to look on the dark side of things.

SHORTS-MULDOON WIN AT SETBACK

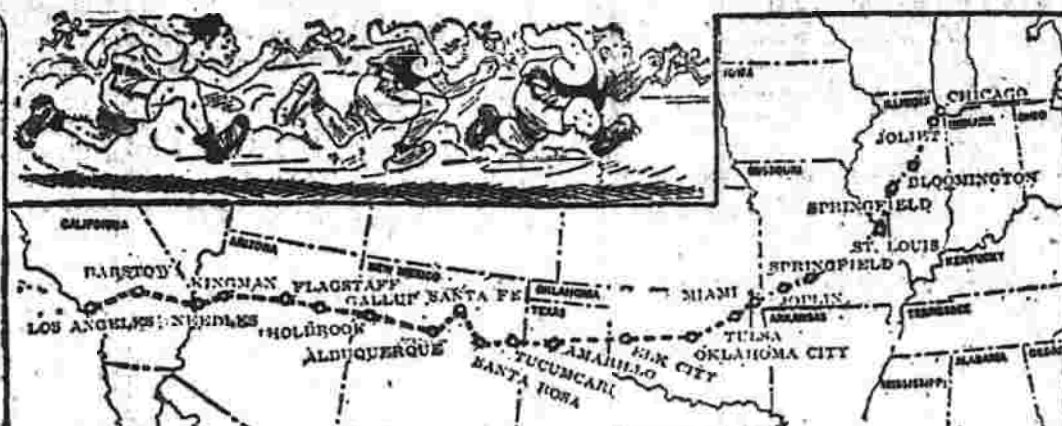

Cop Public Tourney at Rec With 803 Points in Six Sittings; Full List of Scores.

The team of Shorts and Muldoon won the public setback tournament which concluded with the sixth sitting last night at the Rec. They had 803 points. Robinson and McCollough were second with 782 points.

The winners received five dollar gold pieces and the usual gold pieces for half that amount were also given to the high scorers for the night. Refreshments were also served. Much interest was taken in the tournament.

The complete scores of all eleven teams follows: Shorts and Muldoon, 116, 142, 147, 135, 124, 139—803; Robinson and McCollough, 158, 117, 106, 139, 132, 130—782; Custer, 127, 127, 111, 137, 126, 109—736; Saunders and Boyd, 151, 92, 131, 114, 128, 124—740; Custer and Kotsch, 113, 167, 93, 121, 117, 94—705; Cervini and Campbell, 128, 151, 133, 120, 78, 138—748; MacDonald and Canade, 137, 127, 96, 133, 116, 106—715; Woerdig and Gustafson, 158, 114, 134, 95, 108, 154—761; Wiganowski and Wilson, 120, 143, 126, 95, 120—664; Olds, 111, 123, 121, 124, 124, 126—749; Hunt and Brennan, 132, 141, 110, 111, 107, 133—734; Thayer and Brock, 147, 117, 118, 105, 113, 93—682.

FOLLOW PYLE'S RUNNERS HERE.

Here's the route to be followed as far as Chicago by entrants in the Los Angeles to New York marathon run being staged by C. C. Pyle. Starting at Los Angeles, the several hundred runners from all parts of the globe pass through Barstow, Needles, Kingman (Ariz.), Flagstaff, Colbrook, Gallup (N. Mex.), Albuquerque, Santa Fe, Santa Rosa, Tucum-

carl, Amarillo (Tex.), Elk City (Okla.), Oklahoma City, Tulsa, Miami, Joplin (Mo.), Springfield, St. Louis, Springfield (Ill.), Bloomington and Joliet before arriving at the Windy City. The route from Chicago to New York will be announced later by Pyle, pictured here at the left. It's a lot of space to be covered on foot, but the bait of \$25,000 to the winner makes it very tempting to the marathon lads.

Local Sport Chatter

Judd Gallup and Bill Cotter will start their 500 point exhibition pocket billiards match a week from tonight at Joe Coughlin's pool room over north. The final pool will either be played at the Park Billiards or at the School street Rec.

Pete McLagan and Bobby Brennan want to arrange a bowling match with Jack Saldella and "Chappie" Chappell, according to information "Chip" Chartler furnishes. Howard Murphy says he wonders where the north end is going to scrape up any money to bet on their pair when a south end man had to do most of the betting on Brennan in the recent match.

Speaking of bowling, Joe Prentice and Edwin Donaldson are quite elated these days over their six game decisive victory the other night at the expense of Dave Galligan and Jack Cavagnaro. All four are members of the police force and the former pair now lay claim to the title. They wish matches with any two men who think they can at least give them fair opposition.

The Sons of Lithuania will play the Independents tomorrow night at the Harding gym. This will be the second game of their series to decide the Senior Community Club League championship. The Sons won the first.

There is a report about town that Nino Bogigni, scoring ace of the High School team will play with the Community Club against the Rec Five Friday night, but so far, this lacks confirmation. It is reported that Bogigni reported for practice with the north end team last night. Nino doesn't deny the fact that he would like to get a shot at the Rec team.

In the lineups last night for the town series, the name of Joe Pentland was accidentally left off the Community list.

The High School baseball team will probably hold its first practice session of the 1928 season next week Monday, Coach Tommy Kelly said today.

Don't forget the swimming meet at the Rec tomorrow night between Manchester High and Suffield Prep. It starts at quarter of eight.

Division Two of the Community Club junior basketball league will swing into action again tomorrow night at the K. of C. hall. If the Libertes beat Highland Park, they will win the championship and the right to meet the Warriors, winners of Division One pennant. In the other game the Olympics will tackle the Phantoms.

At the Herald banquet last night, Bill Whalen of the Advertising Department, showed Tony Slove of the Sports Department, that the latter knows as little as ever about pool playing, winning 50 to 20 without much exertion. There's only one man in town whom the writer claims he can beat and his name is Bill Brennan. But Bill disputes that point, so a 500 point match is in progress for the "honor" of being the worst player in town. Bill's ahead 200 to 169.

FOXY PHANN

Aviators are seldom worried by the cost—its the upkeep

Newsy Notes From The Training Camps

Tampa, Fla., March 27.—The Senators take on the Cardinals today. The National League teams generally have been found easy picking for the Nats this year. Manager Bucky Harris has a sprained foot.

St. Petersburg, Fla., March 27.—Adolfo Luque, Cincinnati's Cuban perfect, will throw a few choice curves at the New York Yankees here today. Manager Huggins announced that Waite Hoyt would pitch the opening game of the season against the Athletics. Hoyt, Pennock and Moore were given a terrific lacing by the St. Louis Cardinals here yesterday, nine to three. Ruth and Gehrig got two hits apiece.

Augusta, Ga., March 27.—Eddie Roush, who reported to the New York Giants early this year for a change, has found his batting eye. The veteran collected three doubles in as many times at bat as the Giants handed the Red Sox a 7 to 1 beating here yesterday. Cantwell and Barnes pitched for the winners.

Shreveport, La., March 27.—The Chicago White Sox bumped out 14 safe hits here against the Sports and still led the verdict, 11 to 10. As on one previous occasion recently the Sox had a seven run lead, but couldn't hold it.

SHOULD HELP DETROIT

Harry Rice, fleet outfielder, who was acquired from St. Louis during the winter, should make the Detroit outfield one of the best in the majors this season.

RISKO OR HEENEY TO MEET TUNNEY

Contenders to Meet on June 17 and Winner Will Fight the Champion.

New York, March 27.—Folks who have been worrying about the opponent for Gene Tunney this fall can now cease wringing their brows. For the champion's rival this September, barring accidents, will be either Johnny Risko, the Cleveland baker boy, or Honest Tom Heeneey, the blacksmith from down under.

Today Jess McMahon, Tex Rickard's matchmaker, will go before the New York State Boxing Commission and tell them that he has the consent of both Risko's and Heeneey's managers to the battle, and that the winner will be given the Tunney shot.

Risko and Heeneey will meet at the Yankee Stadium on June 17, Charlie Harvey, manager of Heeneey, finally consented to the Risko match and the last obstacle to the battle was removed.

Danny Dunn, manager of Risko, hopped off a train from Cleveland early this morning and hot-footed it for the Garden. Dunn has already agreed to a Heeneey battle for his man, and he will put his signature on the documents at once.

While all this was going on, the Jack Sharkey-Jack Delaney battle came into being in the wee hours of the morning, when Joe Jacobs, manager of Delaney, called McMahon and told him that everything was agreeable to him for the scuffle, which will take place at the Garden on April 30, the opening show after the circus leaves.

GRADE SCHOOL BASKETBALL LEAGUE

Manchester Green 6	2	.750	
Eighth Grade	6	2	.750
Buckland	6	2	.750
Sixth Grade	3	5	.375
Hollister	2	6	.250
Seventh Grade	1	7	.125

Scores of Week:
Buckland 13, Seventh Grade 10.
Eighth Grade 21, Hollister 15.
Manchester Green 14, Sixth Grade 10.

He battled along in small-town fights and preliminaries until a fighter injured his hand, and he went in on two days' notice to fight Young Jack Thompson, negro flash, and hold him to a draw in ten rounds. The both grew to welterweights, with Thompson, the coast champion, due to his marvelous boxing ability.

In a recent match, Corbett met

Welterweight Sensation Looms On Western Coasts

Italian Lad, Fighting Under Name of Young Corbett 3rd, Kayoes Roberts; Faces Promising Future.

BY PHILIP J. SINNOTT

San Francisco, March 27.—A new welterweight sensation has come out of the California preliminary rings.

He's an Italian-born lad of 22, christened Raffaele Giordano, but whose ring moniker is Young Corbett III. Furthermore, he's a southpaw with an awkward style, plus ability to box and punch with brains enough to know how to mix the two styles and keep an opponent baffled.

For his last step into the ranks of bona fide stardom, Corbett set the boxing world on its ears by stopping Eddie Kayo Roberts with a terrible left, to the solar plexus in the ninth round. And Roberts once stopped Joe Dundee in one round of fighting.

"Ace" Hudkins, Nebraska Wildcat, was a decidedly interested spectator at the fight. Corbett insists he's going to tangle with Hudkins soon.

"Now that I've taken Roberts, I am demanding a match with Hudkins," Corbett announces. "After that, I'll beat Dundee for the title."

Oh, he's nothing if not sure of himself, this kid from the raisin fields of Fresno. But so far, he's backed up his words by performances.

He battled along in small-town fights and preliminaries until a fighter injured his hand, and he went in on two days' notice to fight Young Jack Thompson, negro flash, and hold him to a draw in ten rounds. The both grew to welterweights, with Thompson, the coast champion, due to his marvelous boxing ability.

In a recent match, Corbett met

Thompson, with the money on likely not to bother him. He's 5 feet 5 1/2 inches tall, and built on speedy lines. He's proven that he can assimilate punishment as well as dispense punches, and he has shown knockouts with each hand. Also, he has the ability to smother an opponent with stiff punches, then completely tie up the other fellow's hands in the clinches.

The Pacific coast expects great things from Raffaele Giordano in the welter class back east, the same as fans out here bet their rolls that Jimmy McLarin would thrill the most blasé critics.

RE-ELECT SAME CAPTAIN

Carnegie Tech pulled the unusual in electing captains at the end of the basketball season when they chose Harvey Write to lead them again next year.

LED BIG TEN SCORERS

Benny Oosterjann, thrice All-America football end, was high scorer in the Big Ten basketball games this year. He totaled 129 points.

PURDUE GETS TWO PLACES

Purdue was the only Big Ten team to place two men on the mythical conference five this season, with Murphy at center and Kemmer at guard.

Oliver Wolcott was one of the signers of the Declaration of Independence for the state of Connecticut.

MICHAEL COLLINS STILL IS HERO TO FREE STATE

Dublin.—Although it is five years since he met his death at the hands of the assassin, Michael Collins, the famous figure of the Irish civil and "Black and Tan" wars and later one of the heads of the first Free State Government, is still held in affectionate memory by his countrymen.

Dividing Effects. After his murder all his small belongings were distributed among his friends and comrades, by whom the majority are still jealously held.

Miraculous Escape. The owner of the carpet in the room from which house Collins made his most miraculous escape, the house still contains his famous rusty old revolver.

RADIATOR FOR MA-IN-LAW

Detroit.—Automobile salesmen, recently returned from Japan, have started another mother-in-law story here. They say that rumble seats are taboo there so far as mother-in-law is concerned.

HOTEL ST. JAMES. THREE TO FIVE MINUTES TO FORTY THEATRES AND ALL SHOPS.

CHRISTIAN GRAVES UNDER SYNAGOGUE CAUSE OF DISPUTE

Hull, England.—The congregation of the Copan Street synagogue here are divided over the action of Rabbi Schwartz in banning the holding of services in the temple on the ground that the bodies of Christians were buried in the vaults underneath the building, which was formerly a Congregational Church.

As the building was consecrated as a synagogue in 1913, by three rabbis, laymen contend that it will remain a holy place in spite of Rabbi Schwartz's ban.

BRITAIN WILL URSE \$500,000 GIFT UNTIL IT REACHES \$65,000,000.

London.—In a hundred years from now the British Government will receive \$65,000,000 as a gift to relieve the British taxpayer in his payment of the National Debt.

Motor cars are now being used in Los Angeles to take bees out to districts full of flowers.

VIOLIN CLASS FORMING FREE VIOLIN! A limited number of violins to be given free.

ENGLAND LISTS 562 FORTUNES OF OVER MILLION

London.—The general impression that there is a shortage of money in England has received a severe setback by the publication of a Blue Book on inland revenue, which shows that there are 562 persons in Great Britain and Northern Ireland with fortunes estimated at \$5,000,000 or more.

Interesting evidence of how the wealthy person is taxed in England is provided by the Book. A man with an income of \$750,000 a year has to spend nearly half on income and super taxes, while a person dying worth \$10,000,000 has 40 per cent taken away in death duties before the sum passes to his heirs.

THE LAST WORD ON TIME

By ISRAEL KLEIN
Science Editor, NEA Service

Every evening a scientist at the U. C. Naval Observatory at Washington sits down to a transit instrument, which is really a small telescope, and gazes steadfastly into the sky.

Patience he waits until a faint light appears. Then there's a click, a signal is set and the exact time is recorded.

This time record is the ultimate authority. The master clocks at the naval observatory, from which we get our broadcast time signals, are thereby set.

The time is the time of the stars. That is the basis of all time recording. It is based on the daily rotation of the earth.

From "Fixed" Stars
Since we can't see the earth rotate, we do not see the stars above apparently move from east to west, as the earth turns the other way. It is this movement of certain so-called "fixed" stars on which we rely for our exact time.

The scientist sets his transit toward a fixed point on what is called the meridian. This is the line that divides the sky directly overhead from north to south.

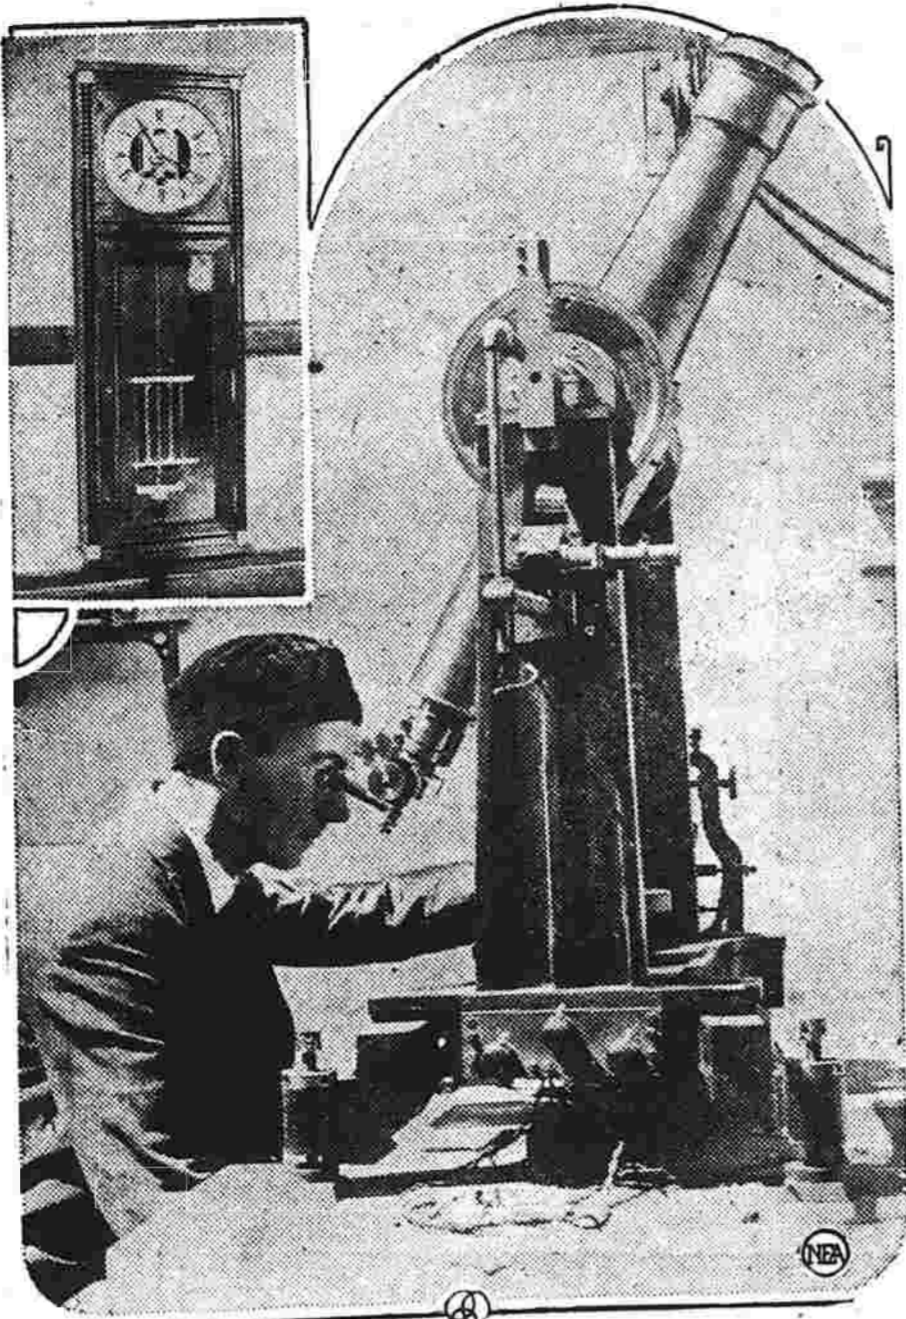

Here he waits for a certain star to cross the meridian at this point, in its westerly course. He knows beforehand exactly what time it will be when the light from this star shines through the transit.

He's waiting for a certain star to cross the meridian at this point, in its westerly course. He knows beforehand exactly what time it will be when the light from this star shines through the transit.

Down in an underground vault of the observatory are three delicate clocks, the most exact clocks that human hands could devise. Their pendulums swing evenly under a constant state of temperature and pressure.

Corrected Daily
Here the signals from the stars are checked with the time shown by the clocks. If there's the least difference, the clocks are set right. It is usually only a fraction of a second that these clocks wander off the correct time.

These clocks are connected electrically with transmitter clocks in Arlington. The signals from the "time room" upstairs, and are then broadcast from Arlington from here the signals are transmitted to the naval broadcasting set right.

An observer at the U. S. Naval Observatory is watching for the star that fixes the nation's time. Above is the transmitter clock that flashes the signals to Arlington to be broadcast.

Electrically with transmitter clocks in Arlington. The signals from the "time room" upstairs, and are then broadcast from Arlington from here the signals are transmitted to the naval broadcasting set right.

Man Is Supreme Life, a Mighty Monster-- And Only a Germ, Lost Amid Worlds

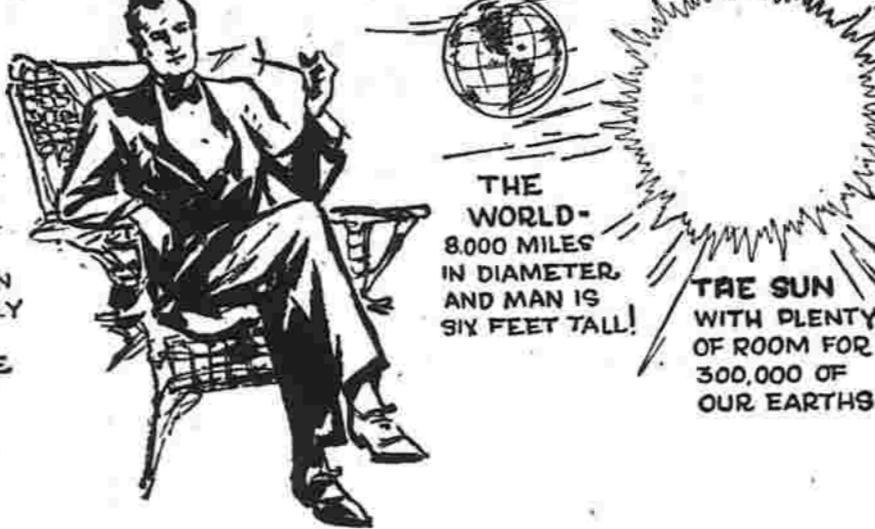

MAN IS MIGHTY

50 BILLION ELECTRONS COULD SIT ON THE POINT OF THIS PIN.

THIS LIVING THING IS SO SMALL IT CAN BE SEEN ONLY WITH A MICROSCOPE.

MAN IS TINY THING

THE WORLD—8000 MILES IN DIAMETER, AND MAN IS SIX FEET TALL!

THE SUN WITH PLENTY OF ROOM FOR 300,000 OF OUR EARTHS

By ISRAEL KLEIN
Science Editor, NEA Service

Man is the last word in the manifestation of life, ruler of the universe and all that, and— Man is an infinitesimal midget, a mere germ in a mighty conclave of tremendous worlds.

Well, let's first look the one way. The smallest thing in the world is the electron—perhaps the foundation of everything, including ourselves. We're monstroities against them.

So small is an electron that fifty billion of them could sit comfortably on the point of a pin. It would take 50 with enough zeros after it to fill a column of this page to make up the number of electrons in our bodies—that's how great we are!

Four Billion in An Inch
And there are still smaller units than the electrons, although we can't say they're matter. The Angstrom unit, the smallest unit of measurement, is less than four billionths of an inch long. And the cosmic ray, which Prof. E. A. Millikan has discovered, is less than four ten-thousandths of an Angstrom unit—wiew!

Let's move upward. There's the atom, which is made up of various electrons, according to the material it forms.

It would take about 300,000,000 average atoms, formed in a straight line, to cover an inch.

The tiniest living organism is made up of millions of these atoms. Yet, this is so tiny that we can see it only through a fine microscope. There are bacteria, for instance, which are only a few hundredths of an inch. There's the single cell amoeba that still must be seen through a microscope, and there are many insects and insect parasites that are too tiny to be observed by the unaided eye.

Now, however, we come closer to our own measurements, but we find we're not so much—only less than two billion of us in this world, and not many more animals of our size.

Bigger Than Man?
Let's turn the other way, and we'll realize that we're not so big. There's our own earth. Imagine man, only six feet tall, standing on a ball 8000 miles in diameter.

Our earth great? The sun from which we get our light is so big, make a star as it is, that it makes the sun look like a tiny speck in the distance. It looks so small to us because it's 93,000,000 miles away.

Yet that sun, 865,000 miles in diameter, is only one seven-hundredth the size of the entire system of planets, including our earth, which revolves about it. The outermost planet in Neptune, somewhat less than three billion miles from the sun.

That makes our entire solar system almost six billion miles in diameter. But is that large? Not yet!

Dot In the Universe
This solar system of ours is only a dot in our universe, the greatest part of which you see above you on a clear night in the form of the Milky Way. There are 30 billion stars like our own little sun in this universe about us, and these stretch over so great a space that astronomers have to figure their extent in "light years"—and one light year, being the distance it takes light to travel in one year at its rate of 186,000 miles a second, is nearly 6,000,000,000,000 miles long.

Our universe, therefore, is a long oval of stars 30,000 light years wide by 170,000 light years long. Multiply these figures by six million million, and you'll get them in miles. And it takes 15 minutes to walk one mile!

Is that the end? Not at all, for there are millions and millions of other universes in the still greater universe that Einstein and other scientists picture.

Here's a Figure for You
There's a star cluster a million light years away from us, and it is estimated that the farthest star out in this great universe is four million light years off. If you want to know what this is in miles, multiply this figure by six million million.

If you still believe we're some pumpkins, take this for a last knockout blow— The circumference of the entire universe, as estimated by Einstein, is—885,000,000,000,000,000,000 miles!

Bones of prehistoric men discovered in East Africa covered 41 different types, but none of them was of what is known as the Negro type.

Rogers to Star in Four Special Films In 1928

By DAN THOMAS

Hollywood, Calif.—A year ago Charles Rogers might have been a ping pong champion as far as Mr. and Mrs. Public were concerned. But today he is one of screenland's most popular actors. He received 10,000 "fan" letters last month.

The stars in Hollywood who receive that much mail would be counted on the fingers of a one-armed man.

Kansas School Boy
If Charles—Buddy his friends call him—keeps his head, he is destined to reach the very top. He has everything necessary to screen success—good looks, youthful freshness and enthusiasm and ability.

Even if you tried, you couldn't dislike Charles. He's so carefree and so willing to do things for everybody. In many ways he is still no different from the Kansas school boy who joined the Paramount movie school a couple of years ago.

Four Good Pictures
Rogers was catapulted into almost overnight fame when he was given one of the two leading roles in "Wings." Since then he has made only three other films, "Get Your Man," with Clara Bow, "Get Girls" with Mary Pickford, and "Abe's Irish Rose," in which he is Abe and Nancy Carroll is the Irish rose.

During 1928 he is to be starred in four pictures, made from stories written especially for him.

Charles Rogers

VETS OF NATION

PAY TRIBUTE TO BRIG. GEN. HALE

Kansas City, Kansas.—Veterans of Foreign Wars throughout the nation are preparing to pay tribute April 21, to Brigadier-General Irving Hale, retired, one of the leading militarists of the United States, who founded the organization. General Hale who is sixty-seven years old, is at present a resident of Denver, Colo.

Orders have been issued through the National headquarters of the order here, by Commander Frank T. Strayer, of Indianapolis, calling on each post to make an extensive roundup of eligible service men, to become members of the organization on the night of April 21.

Special Mass
These men will be taken in as members of the General Irving Hale class, a special class in honor of the famous general.

General Hale organized the first chapter of the National Society Army of the Philippines in Denver, December 12, 1899. This society was changed to the Veterans of Foreign Wars, following the close of the war, so that it might serve a wider scope.

General Hale is one of the few of that rank in history that have been cited for actual gallantry in action. He received such citation for personally leading his men in the assault on Manila, August 13, 1898.

In The Philippines
Later he received a similar citation for his leadership against insurgent forces near Calumpit, Luzon, in the Philippines, April 25, 1899.

As a student at the United States Military Academy, from 1880 to 1884, General Hale gained a record for scholarship that has never since been touched. He was graduated at the head of his class as honor man of the institution. His grade of 2,070.4, out of a possible 2,075 for the four years, still stands as the highest grade ever attained by a student at West Point.

PROFIT IN FOX FUR
New York.—With fur prices averaging about 20 per cent higher than last year, 8,500 silver fox pelts sold for \$1,530,000 at the opening of the annual winter fur auction. Nearly 6,500 of these skins came from a single fox farm in Wisconsin.

WILL SALLY WIN ACHIEVEMENT CUP DOLORES NOW HOLDS?

By DAN THOMAS

Hollywood, Calif.—"You're lucky, Dolores!" "You will be just as lucky next year, Sally."

The conversation was at the home of Dolores Del Rio. The Mexican screen star had just received a beautiful silver trophy, starting an annual custom of giving an achievement award to the previous year's Wampus Baby Star making the greatest progress.

Sally Eilers, who at the present writing looks like the outstanding contender for the trophy next year, was the first speaker.

Dolores, in slightly more than a year, has made "What Price Glory," "Resurrection," "The Trail of '88," "Ramona," "The Loves of Carmen," and is just finishing "The Red Dancer of Moscow."

Miss Eilers, gorgeous and just 19, is a "discovery" of Mack Sennett. She has played a small "bit" before Sennett found her. He immediately gave her the starring role in his first personally directed special feature in eight years.

Dolores Del Rio is holding the Wampus prize cup . . . Sally Eilers (left) may win it next year.

DAD'S LAMENT

"What is a bachelor, daddie?" "A bachelor my boy, is a man who looks before he leaps—and then doesn't leap."—Answers.

Herbert Hoover says an angler should be allowed to catch a black yonder's angling for a good many more than that in Kansas City in June.

PERTUSSIN
clears the throat and relieves coughs quickly!

Don't Let People Say "He Lost His Nerve"

New Discovery Makes Weak, Uncontrollable Nerves Strong and Steady in Two Weeks or Money Back Says Local Druggist.

The mighty energizing power of Lifetone Tablets shows so quickly that often one package is all that is needed to turn rundown nerve shattered men and women who lack confidence and ambition into strong, vigorous people.

Men who possess buoyant vitality never lose their nerve in emergencies, but on the other hand are always full of confidence and the joy of living.

Start to get rid of nervousness and increase your vitality today; take two Lifetone Tablets after each meal and at bedtime for two weeks.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not much steadier than before; if you do not feel more ambitious, more vigorous and keen minded Maxwell Drug Co., South Manchester or the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them. 72 tablets for \$1.00—Adv. 9

SEE AUTO AS CAUSE OF CANCER INCREASE; GAS FUMES BLAMED

London.—That the increasing use of the automobile is probably one of the contributory causes of the large increase in cancer mortality during recent years is the belief of Sir William Arbuthnot Lane, the distinguished English surgeon.

Ten per cent of those who die from cancer die from cancer of the lungs, according to Sir William, who believes that the inhalation of gasoline, tar and other fumes from the roads of today make it all the more important that precautions should be taken to guard bodily health.

"According to figures which have been supplied to me from Vienna," Sir Arbuthnot told International News Service, "the percentage of cancer of lungs to all cancer cases dealt with in the post-mortem examinations during 1924 was 10.30, against 5.4 in the year 1895."

"These same figures show that cancer mortality in several large towns in America has doubled during the past ten years.

"It is obvious that the conditions are coincident with the appearance of the automobile and the use of tar and other constituents in the roads, and I believe we are faced with a new element which makes it all the more important that we should keep our bodies in perfect health."

"I am convinced that cancer is a disease of civilization as we know it, and its comparative absence among the natives of certain parts of India, for instance, is due to their more natural form of living.

"Proper bodily sanitation is essential, and that can only be achieved by natural modes of living. Observation over a long period made by medical men in the Punjab, for instance, show that cancer is rare, whereas, when natives acquire the habits and foods of the white man, their incidence of cancer is equal to ours."

CONNECTICUT HAS ONLY THREE INDIANS ON ONE RESERVATION

New Milford, Conn.—Connecticut, named by the Indians, spatter-ed with towns, lakes, and rivers of Indian names and containing monuments commemorating Indian events, has three Indians on its single Indian reservation today. It lies north of this town among the rocky slopes that pile westward from the banks of the Housatonic river in Kent, and bears the name of Schaghticoke.

Schaghticoke Reservation, a few years ago was noted in the East for being the scene of a famous mid-summer hunt for rattlesnakes which used to curl and coil in the rocks that pile into the young mountains along the New York state border. Nothing more exciting than a popular boys' school, noted for sending athletes to England and later to Yale, Harvard, or Princeton, is in the neighborhood now.

When the reservation was set aside, 270 years ago, there were enough Indians to require use of 2,000 acres of land. A Pequot chief, survivor of a bitter war that broke his tribe to bits, formed the Schaghticoke tribe from scattered remnants of former tribes, and the descendants carry on today, though reduced to three individuals.

The state park and forest commission runs the reservation and the dwellers thereon receive the best of care in their own homes. When the last Indian has departed, a state park will be located there, bearing the reservation name, as a mute memorial to the "first citizens" of the region.

The crack of a whip is a miniature thunderclap. The lash passing through the air at speed, leaves a vacuum into which other air rushes and makes the cracking noise. Lightning makes thunder in the same way.

THRILLS OUST GOOD FOOD FOR BANQUET BOARD

San Francisco—Fair famine figures that gambol about dining tables of business men are more important to the success of an evening than the food spread on the banquet board, Adolph Bach, maitre d'hotel at the Palace Hotel declared today.

Bach, who supervises the preparation and serving of approximately 5,000 meals daily, mourns that the American food connoisseur is now an almost extinct species, whereas the "dessert eating thrill seeker" has taken his place.

"Ten years ago a man attended a banquet or dinner party to spend two or three hours in meditating over food," Bach said. "Today he attends with the hope of seeing something novel in entertainment. Courses today grow cold on their service plates or are untouched."

Entertainers Needed
"At one recent luncheon for 500 'tired business men' it took 80 entertainers to make the affair a success. The sliken seatfast dining units with their bare limbs cost far more than the food that was consumed. Most of those men stood in line an hour or more waiting admission to the banquet room where the meal lasted 20 minutes."

As a result of the combination of liquor drinking at exclusive cafes is a greatly exaggerated notion Bach pointed out but in place of the "top that cheers" there is an added demand for "desserts" to be nibbled seen or heard.

"Dessert in modern usage covers many things. Ice cream at banquets now would be shunned unless it was frilled up as an elaborate centerpiece. Diners forget that the quality of the product may be minimized to make it ornate.

"A dancer who will trip down a dimly lighted runway and perhaps sing a few jazzy tunes appears far more satisfying than any eaten dessert."

Desserts Thrill
"The gaudy sweetened dessert that chills as it thrills is remembered only a passing moment, while our chefs track their brains for hours to develop a new novelty. It is the only thing that we here have to satisfy in their food demands are seldom found, the maitre d'hotel added.

"We have one guest who calls occasionally and spends \$18 for his own dinner. That includes a good portion of a 120 tin of caviar, mushrooms, four legs and chicken breasts together with a tip for his waiter."

Present day diners have struck a stabilized medium of tipping," Bach explained. "In the old days an intoxicated guest would throw out a five dollar bill recklessly. Today that gesture is unknown. Ten per cent is the usual scale of the tip, based upon the meal charge."

EGYPT SPENDS \$150,000 TO EQUIP ABDIN PALACE FOR ROYAL VISITORS

Cairo.—It will cost about \$150,000 to furnish the special wing of the Royal Cabinet of the Abdin Palace set aside for the reception of foreign kings visiting Egypt.

This item together with \$165,000 approval for the late Zaghlul Pasha, the great nationalist leader, at Cairo, as well as two houses adjoining it, and the late Pasha's house at Ebbana, were approved by the Senate.

As royal households go, \$150,000 does not seem excessive for the furnishing of one wing. It is estimated that it will cost \$5,000,000 to refurbish Harborough House to be occupied by the Prince of Wales, who is said to have owned no furniture until now except a few sticks purchased for his writing room when he went to Oxford at a cost of about \$500, and which he has used at York House.

The three golden balls, former pawnbrokers' signs, are derived from the armorial bearings of the Medici family, earliest purchasers of the money lenders of Lombardy.

OIL COMPANIES BUILD BIG PORT AT TEXAS TOWN

Port Aransas, Texas.—The largest oil port in the world in point of tonnage exported, is being developed here by the Humble Pipeline Co. and Humble Oil and Refining Co., subsidiaries of the Standard Oil Co. of Texas, whose \$15,000,000 pipeline systems serving the prolific West Texas oil fields terminate at this point.

With its pipeline and ship-loading facilities inadequate to handle the 200,000 barrels per day out of West Texas, for which it is under contract, the Humble has shipped across the bar at Port Aransas in the last 16 months, ended Jan. 31, 1928, 1,363,257.66 tons of crude petroleum. In the month of February, 1928, the Humble shipped 187,126.99 tons.

Dredging to Gulf
Because of the unusually deep draught of vessels employed as oil tankers the Humble has been able to load only 50 per cent capacity at its wharves at Port Aransas, near here, afterward topping off at some other Texas port where deeper water was available.

As a result construction of an emergency line, to terminate on the gulf coast of Mustang Island was begun some weeks ago. Fearing pollution of the gulf waters from spillage and consequent danger to marine life herabouts, state officials obtained an injunction and halted this work.

As a result the Humble has abandoned the sea-line and is concentrating on Harbor Island, just inside the government jetties at Port Aransas, where maximum deep water will be available by dredging a short distance to the deep gulf waters.

System of Loops
The Humble also has nearly completed a system of "loops" on that sector of its oil pipeline system from Lytle, near San Antonio, to this point, which will boost the capacity of this line 40 per cent. The Illinois pipeline from West Texas, also has been tied in at this point, entailing the combination of the designation of "trunk line."

A refinery, which when completed, will have a capacity of 50,000 barrels of crude per day is now under construction by Humble Oil and Refining Co. at Ingleside Station, on the government channel, near here.

TWO DENVER STUDENTS MAKE OWN TELESCOPE WITH CRUDE INSTRUMENTS

Denver.—Richard Haberl and Cedric Kaub, two Denver youths and graduates of local high schools have found a hobby in making and using telescopes.

The boys have completed an instrument of surprising precision. They have no instruments with which to measure the curvature of the lens, but it is perfect to one millionth of an inch.

Their entire equipment is composed of a tin can with a hole in it, a razor blade and a kerosene lamp. Powdered carborundum was used to grind the mirror to approximately the right curvature, then a finer grinding material, rouge, was used. The piece of glass would be placed on the top of a barrel, and the youth doing the grinding would walk around and around the barrel, to insure even grinding. It took seven months of diligent labor in odd hours for the boys to complete their mirror reflector.

Their present telescope is powerful enough to separate the two stars that compose the north star as seen by the naked eye.

The tuna fish was not originally hunted for food, but as a means of protecting the sardine interests of the Mediterranean.

Mother!

Child Gets Sick, Cross, Feverish if Constipated

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once. Nothing equals California Fig Syrup for children's ills; give teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious, "fruity laxative," and it never fails to effect a good "inside cleansing." Directions for babies, children of all ages and grown-ups are plainly on the bottle. Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine.

Ask your druggist for a bottle of "California Fig Syrup" then see that it is made by "The California Fig Syrup Company."—Adv.

GIRL ALONE BY ANNE AUSTIN AUTHOR OF 'SAINT AND SINNER'

The summer she is 16, SALLY FORD leaves the state orphanage to be adopted by Mrs. CARSON, a farmer. Sally knows no other home than the orphanage from the time she is four...

Sally, sinking to one knee, heard the big body sliding down the roof.

CHAPTER XI AS the afternoon wore on, and still Carson did not appear, Sally's gratitude for Mrs. Carson's inarticulate kindness sent her on a flying trip to the orchard to gather enough hard, sour apples to make pies for supper.

The boy was seated at a small pine table, covered with books and papers, but as she advanced hesitatingly into the room he rose. "Come on in," he invited hospitably. "Would you like to see my books? Some of them are fascinating—full of pictures of prize stock and model chicken farms and champion egg-laying hens and things like that. Look."

crashed to the ground. David's hazel eyes were as wide as hers, and almost as frightened. "You did—that—for me?" Sally whispered. "Oh, David, what are we going to do?" She began to cry then, in little, frightened whimpers, but her blue eyes, swimming in tears, never left his face.

15 TABLES AT WHIST AT BUCKLAND PARTY

Fifteen tables were filled with whist players last night at the card party given by teachers of the Buckland school. The winners of the first prizes were Mrs. Dart and Bert Mitchell, second, Mrs. Irving Keeney and Edward Stein and consolation Flora Brindle and Alonzo Foreman. Light refreshments and a social time followed the games.

NORTH END CHURCHES GET-TOGETHER TONIGHT

The final get-together of the attendants of the Second Congregational and North Methodist churches will be held at the latter church this evening. The joint leaders will be the superintendents of both church schools, L. J. Tuttle for the Second Congregational and C. L. Taylor for the Methodist Sunday school. W. J. Taylor will lead the chorus singing and there will be two numbers sung by the vested Junior choir of the North Methodist church. The meeting will begin at 7:30 and a period of sociability with light refreshments will follow.

GANGSTER KILLED

Chicago, March 27.—Joseph Pargoni, 24-year-old brother of "Pat" Pargoni, leader of the notorious "42" gang, was shot and killed today in a gun battle with Oak Park police.

Highways Hereabout Badly "Rolled" By Rains. Oiling to Begin Soon.

Despite a report that the road between Manchester Green and Bolton would be reconstructed, State Highway department workmen are still engaged in repairing the highway and filling holes that developed during the winter. Don C. Hattin and his force of workmen expect to start oiling and sanding these nearby roads in a short time.

Mr. Hattin said a few days ago

that the roads in this vicinity are in poor condition due to the heavy rains which have been common all winter. The water seeped into the roadbed and caused the paved surface to "roll" and crack. This condition, Mr. Hattin says, would not exist if there had been the usual amount of snow this winter.

The Bolton road particularly, he

says, is in bad condition, as well as the road from Bolton Notch to Andover.

FLAPPER FANNY SAYS:

Nowadays expenses are easy to meet; you meet them everywhere.

LETTER GOLF

Polo is merely cavalry golf, so there, there isn't much difference, even in letter golf, between GOLF and POLO. In fact, it's a par four. One solution is on another page.

Letter golf grid with letters G, O, L, F and P, O, L, O.

THE RULES
1-The idea of letter golf is to change one word to another and do it in par a given number of strokes. Thus to change COW to HEN, in three strokes, COW, HOW, HEV, HEN.

Drive right and more pedestrians will be left. Watch your step on it. Taking the other fellow's dust is better than "to dust returneth."

THE ENEMY

THE TINYMITES

"Hello there, lady-fingers. Say, why do you run and jump that way?" asked Clowny, as the little cakes sat down within the pan.

SENSE and NONSENSE

The king of Arabia has 24 wives and has two specially constructed automobiles to haul them around with when he goes on a trip. He has quite a few back seat drivers, all right.

Getting a Driver's License
Real answers made by ladies to list of questions in examinations for automobile driver's license:

Q-If your engine stalls going up hill, what do you do?
A-Try and start it.
Q-In letting the car stand, which side should be next to the curb?

Why doesn't the young go-getter go get 'er instead of using his auto horn for a door bell.

When You Lose You Win
If you race the train for the crossing and it's a tie, You Lose.

Giving his car a vicious twist to avoid running over a pedestrian, the angry motorist exclaimed, "Some of you guys walk along as though you owned the streets."

The Indians used to be as dangerous as automobiles are now.

If all the back-seat drivers in the world were laid end for end the motorists would gladly run over them.

Irate Motorist: "The police force of this town handles traffic like a bunch of fools!"

Policeman: "I'm sorry, sir; but we have to act so the motorists can understand us!"

"Never do that again, John."
"Beh?"
"Never honk for me to come out of church."

GIVES SURPRISE PARTY

FOR MISS SPILLANE

Mrs. James D. Burke of 80 Benton street gave a surprise personal shower at her home last evening in honor of Miss Veronica Spillane. About twenty of Miss Spillane's girl friends from Hartford and Manchester were present. Mrs. Burke's home was tastefully decorated in a color scheme of pink and yellow. In the center of the living room, which was also trimmed in the prevailing colors, was suspended an umbrella from the spokes of which pink ribbons extended to various parts of the room, and the bride-to-be found all sorts of lovely gifts tied to the ribbon ends.

Bridge and other games occupied much of the evening. Mrs. A. Kemp of Hartford won first prize and Mrs. William Mack second. The hostess served a dainty luncheon, the dining table and favors were in the prevailing color scheme. Miss Spillane and Paul R. Ball-selper will be married in April.

MARRIAGE INTENTIONS

Marriage intentions were filed yesterday with the Town Clerk by Martin J. Reister, machinist, and Mary Schaub, both of Manchester.

THE ENEMY

At home or "abroad"

Well dressed women are not necessarily expensive dressed women. Charming appearance is more often the reflection of good taste.

The new spring models of WALK-OVERS, with their ankle clinging fit, attractive patterns and wonderful new color tones, will impart that feeling of well-being that comes from the knowledge that you are fashionably and correctly dressed, whether at home or "abroad".

W. H. GARDNER

THE WALK-OVER STORE
847 Main Street, South Manchester

EMERGENCY DOCTORS

Doctors Howard Boyd and N. A. Burr will be on emergency duty tomorrow afternoon and may be reached at their home telephones.

POLICE COURT

Warren Thompson of South Windsor, who was arrested last evening and charged with driving an automobile while under the influence of liquor appeared in the Manchester town court this morning. A continuance of his hearing was granted until Saturday morning. Thompson wished to secure counsel and Judge Raymond A. Johnson allowed him to go under a bond of \$200.

"GOOD THINGS TO EAT"
CALL 2000
FRIENDS

What price scowls, sour looks, averted eyes? Who wants to be greeted by them? Just the same they are what you get if you play the game of life by the wrong rules—false old rules like, "Look out for No. 1"; "Do others or they'll do you"; "There's no sentiment in business," etc. And to our notion they're what you deserve, in such event. Business should not be full of suspicion and conflict. It is not war, it is, when you analyze it, co-operation. Business can be friendly—ought to be friendly. It brings about most of the contacts of life. It is going on all the time, everywhere. It is really the most intimate of all general relationships. If it can't be made friendly this is going to be a mighty cross and crabbed old world pretty soon, because business contacts are spreading all the time. Pinehurst business is first of all friendly—not snitky, make-believe friendly but friendly at the core. It thinks of its customers and friends, to be treated as friend treats friend. Anybody who is worth a hang will do a lot for a friend. Pinehurst feels that way about its customers.

500 Cans California Yellow Free Peaches (halves). Special 4 cans for 49c (tall 16 oz. cans) or one dozen cans for \$1.38
You will find 7 half peaches in each can, and a good heavy syrup. Guaranteed by Pinehurst to be good peaches and good value.

Granulated Sugar 5 lbs. 29c
Confectionery Sugar 8 1/2 c lb.

701 Main St. Johnson Block South Manchester

Some of the wasps introduced to combat the corn-borer have been found in the vicinity a year after their release, which shows their ability to resist winter conditions. Nebraska's rivers and lakes have a surface area of 712 square miles, slightly less than one per cent of the state's area.
