

“ANYTHING TO STOP HOOVER” ALLIES’ MOTTO

(Continued from Page 1)

ing the arrival in Kansas City of Senator Curtis of Kansas. They have talked with Curtis in Washington by long distance several times in the last 48 hours. Curtis, an astute politician and an adroit general, is said to have informed them that the outlook from the coalition's viewpoint "is not as dark in Washington as it may seem in Kansas City."

It might mean, one of the Allies' spokesmen said, that Curtis has not yet given up hope that Secretary of the Treasury Andrew W. Mellon may be prevailed upon not to throw Pennsylvania's powerful delegation of 79 votes to Hoover. It might mean, another ventured, that Curtis, who has been rather mysteriously remaining behind in Washington, has had some cheering word to the effect that "I don't choose" does not necessarily mean "I won't."

Whatever it meant probably will be made apparent within the next few days. Senator Curtis is due to arrive late tomorrow or Sunday to join his fellow allies in the grand offensive against Hoover.

The coalition met again today for further discussion, just as they met yesterday and will meet every day until the end. The conferring is continuous and unending.

Hoover Not Idle Meanwhile, the Hoover people are not idle. They, too, have been meeting and will continue to meet. They believe they have enough ballots. Their principal job, they believe, is to hold the lines fast, and they are supremely confident of their ability to do so.

There are about as many practical politicians and convention strategists in the Hoover camp as there are in the Allies' line up—men like Senator George H. Moss of New Hampshire, Senator Simeon Fess of Ohio, C. Bascom Simpson of Virginia, Ralph William, of Oregon, vice chairman of the Republican national committee, James W. Good of Iowa, ex-Gov. James P. Goodich of Indiana, and a number of other long skilled in the tactics and strategy of political conventions.

Good, in a statement resigned to renege any of his promises in the Hoover camp, declared today that the Hoover delegates now number "more than 500 net counting any of Pennsylvania's 79."

"To nominate requires 545," continued Good. "The nomination of Mr. Hoover is now a foregone conclusion."

"Good Republicans in this hour will not say or do anything that will impair the party's chances of victory in November."

Rap at Defeatists This last was a thrust at the defeatist talk which the Allies have been pursuing so energetically in Kansas City and in Washington that Hoover will lose the disgruntled grain belt in November and that he cannot defeat Al Smith in the East. The Hoover managers are complaining that this is "hitting be-

low the belt" and giving aid and comfort to the enemy. Both sides are shooting out "farm statements" with regularity and precision. The Allies issue one statement from a prominent farm organization leader asserting that the middle west will bolt the ticket in November if Hoover is nominated; the Hoover managers immediately counter with a statement from some other farm leader to the effect that "Hoover is the friend of the farmer and will really do something constructive for agriculture." The barrage of statements, pro and con, is seemingly endless. It must be admitted, however, that the Allies have produced more statements than the Hoover managers to attest the resentment against Hoover between the Ohio-Indiana line and the Rockies.

CONSTRUCTION CO. GETS BIG CONTRACT

Local Concern to Build Big Dormitory at Massachusetts Masonic Home.

The Manchester Construction Company was today awarded the contract for the erection of a new dormitory building at the Masonic Home in Charlton, Mass., just beyond Southbridge. The plans call for a three-story brick building of fireproof construction and having a slate roof.

The dormitory will have 80 rooms, a laundry, auditorium, social rooms, elevators and bath rooms. The job will total \$140,000. Albert Knofla will supervise the construction work for the local concern and the building will be started out on Monday.

FIFTH GRADE PUPILS GIVE FINE PROGRAM

The program for the Fifth grade as presented for Parents' day yesterday at the Washington school was as follows:

- 1. Song and Stories of Ireland. a. Story of the Sham-ock, by Marjorie Edwards. b. Wearing of the Green, by the class.

- c. Killarney, by the class. 2. Songs of Scotland. a. Blue Bells of Scotland, by the class. b. Auld Lang Syne, by the class. 3. Songs and stories of England. a. Story of King Arthur, by Roland Washington.

- b. Story of Robin Hood, by Veronica Zahalowski. c. God Save the King, by the class. 4. Wales. a. Song March of the Men of Harlech by the class.

- 5. France. a. In Flander Fields, by Milton Helwig. b. Marseillaise, by the class. 6. Holland. Poem, by Gertrude Wilson. 7. Germany. a. The Watch on the Rhine, by the class.

- b. The Lorelei, by the class. c. Something Unexpected Happens, (from the story of Heidi), by Florence Turkington. 8. Austria and Russia. a. Russian National Anthem. b. Austrian National Anthem. 9. Italy. a. Santa Lucia and Funiculi, Funicula by the class. 10. Norway and Sweden. a. Norwegian Mountain March, by the class. 11. America. a. America for Me, poem, recited by Elmore Keish. b. Love of Country, poem recited by Peter Ambrose. c. Dance of the Indian Braves, by the boys of the class. 12. Flag Drill members of the 5th grades.

Programs arranged by Miss Nyman and Miss McAdams.

ABOUT TOWN

Walter Sikowski, 12 years old, of 10 Broad street, was treated at the Memorial hospital at noon today for slight injuries he received when he fell. The youngster was running behind a bicycle when he tumbled.

Rev. and Mrs. Julian S. Wadsworth of Chateau Thierry, France, former local residents, will be guests at the reception to Rev. and Mrs. R. A. Colpitts at the South Methodist Episcopal church this evening.

The Manchester City club at its regular meeting last night voted to have President Burke name a committee of five to plan for a summer outing.

Rev. E. T. French, pastor of the Nazarene church in Wollaston, Mass., and will remain over Sunday, is attending the commencement exercises of the Eastern Nazarene College.

Two changes in train schedules were announced yesterday by the N. Y. & H. & R. R. which will be noticeable here. A new train will leave Boston on week days at one o'clock in the afternoon for Hartford. It is due at Manchester at 3:43 p. m. (standard time). Train Number 115 now leaving Manchester at 6:06 a. m. for Boston will leave at 6:16 a. m. daily (standard time).

The steering gear on an automobile driven by a woman broke just as she passed over the Woodland mill crossing at noon and the land mill crossing at noon and the machine smashed into the fence just west of the tracks. The car was damaged but the occupants were unhurt. The machine had been towed away before the East Hartford police investigated.

A butterfly's eye has been adapted as a photographic lens by an Austrian scientist.

REV. COLPITTS GIVEN BIG APPOINTMENT

Made a Member of World Service Commission—Is a High Compliment.

An announcement in a current issue of Zion's Herald contains the news that the Rev. Robert A. Colpitts, pastor of the South Methodist Episcopal church, who was a delegate to the recent general conference of the Methodist Episcopal church at Kansas City, was honored by that body by election to the World's Service Commission as representative from the Boston area. This practically means the whole of New England for the Southern New England, New Hampshire, Massachusetts and other conferences are included in the Boston area. This important appointment is for a four-year term and is generally recognized as a high compliment to the minister receiving it. The item in the Methodist publication is the first news the church here has had of the new honor to its pastor.

CHURCH TEAMS REPORT SUCCESS IN DRIVE

Teams from the Luther League of the Swedish Lutheran church engaged in the drive for funds for repairs on the church had a meeting last night in the basement of the church. There are 11 teams among the young people of the Luther League and 7 teams made up of members of the church board. Two persons compose a team in each organization. No report has yet been received from the board teams which are visiting the other members of the church. The Luther League teams, which are calling upon the younger people of the congregation, report visiting 104 prospects and receipts of \$1350. The next meeting will be held Tuesday evening at the church. After the 12th the drive will be open to all so that participating teams may call upon anyone they desire. The drive will close June 16 and all indications are that the necessary sum will be raised.

WESTERN FARMERS PLAN MARCH ON KANSAS CITY

(Continued from Page 1.)

by George N. Peek, Illinois economist, whose ideas were incorporated into the McNamara bill. Gov. Adam McMullen, of Nebraska, will collaborate with Peek when he reaches Kansas City. The third was prepared by heads of the American Farm Bureau Federation at Chicago, along the same lines.

The march will be led by supporters of former Gov. Frank O. Lowden of Illinois, Senator Charles Curtis of Kansas, Senator James E. Watson of Indiana, and Senator Guy F. Coffey of West Virginia, already engaged upon their course of action. Their first efforts will be concentrated on gaining control of the resolutions committee. If successful, they will write their plank into the platform and then they will keep it there.

Falling in this, the farm leaders will go into the convention and seek to have their plank inserted by a vote of the delegates.

Invasion Tomorrow The farmers' invasion of Kansas City, headed by Gov. McMullen of Nebraska, probably will begin tomorrow. Farm leaders here said that several hundred farmers from the Dakotas and Nebraska would arrive in the city tomorrow.

Hundreds of Kansas and Missouri farmers will drift into the city over the week-end, they added, while other motor caravans are expected Monday from as far west as Colorado and as far east as Ohio. Five caravans of Indiana farmers, it was said, will reach here Monday by special train.

Thus far, the farm fight has been a battle of words and statements. The country believes issued one statement, signed by four farm leaders, declaring: "A certain Wall street element, shrewdly working through and with certain farm leadership, is endeavoring to make the country believe some corn belt states will be lost to the Republican Party in November if Herbert Hoover is nominated. To that end, they have endeavored to kindle fires of discontent by a series of misstatements and misrepresentations. It is a defeatist policy, well organized and financed. It is a desperately conceived last stand of an already beaten opposition."

From the farm headquarters, though, came a different story. J. Tobin, of Vinton, Iowa, chairman of the executive committee of the farm movement, said: "We know Hoover won't give us a square deal, but we know he won't be elected. That is why we are in."

If President Coolidge and Mr. Hoover had carried out the 1924 plank and pledge of the Republican Party, there would be no need for a fight this year. We demand the resolutions committee story. Justice for the farmer and we intend to put the Republican party on record through its platform."

Amid all this uproar, Senator Snoot went on calmly drafting the administration's tentative platform. He will feature Coolidge, debt reduction and tax reduction as the principal issues. Then, he will submit the completed document to the resolutions committee story. Tuesday. When he does this, there will be plenty of fireworks.

Madame Georges Barbet, the last of the sixteen women died at the age of eighty-nine years.

When her husband was called to the colors in 1870 Madame Barbet followed him as a "cantiniere" and remained with the regiment until the armistice.

Forrunner of Y. M. C. A. girls and Salvation Army lassies, the canteen-woman served in the front lines and followed the charges in the battles, as they were fought before the days of trench warfare.

A real murder, as imagined for the climax of "My Sister and I" cast its shadow over the first performance of the play.

"I'll have the heroine called suddenly out of town because the caretaker of her chateau has been slain," reflected Monsieur Georges Berr when he wrote the lines for the piece.

Thus the play was written. Thus Monsieur Berr, in his box, heard it being given at the first performance when an usher called him to the telephone. There, Monsieur Berr learned that the caretaker of his own chateau at Chillon had been beaten to death with an iron bar.

The juice of the ink plant of New Granada can be used as ink without any preparation.

OBITUARY

FUNERALS

Mrs. Anne Heffron The funeral of Mrs. Anne Heffron was held this morning at 9 o'clock at St. James' church at 9 o'clock. Rev. James P. Timmins officiated. The choir sang, "Nearer My God to Thee" as the body was borne into the church. At the offertory, Mrs. Margaret Sullivan sang, "Some Sweet Day" for the elevation. Mrs. James Foley sang, "Ave Maria." At the recessional Mrs. Sullivan sang, "Some Sweet Day." The bearers were Lott Lahey, Michael Sullivan, Henry Murrie, James Mullen, Joseph Keefe and Andrew Dowen. Burial was in St. Bridget's cemetery.

Dana B. Taylor The funeral of Dana Boardman Taylor who died in Hartford Wednesday was held at Christ church in Hartford this afternoon at 3:30. Burial was in the old North cemetery. Rev. J. Stanley Light, officiated at the funeral.

The funeral of Dana Boardman Taylor who died in Hartford Wednesday was held at Christ church in Hartford this afternoon at 3:30. Burial was in the old North cemetery. Rev. J. Stanley Light, officiated at the funeral.

CHICAGO GANGS FEAR CO-EDS AT ELECTION BOOTH

(Continued from Page 1.)

Chicago, Unafraid of the wizz of rival bullets about their heads, undismayed by the bombs of other elections, "rats of police, or the threat of federal authority, Chicago gangsters yet shrink from conflict with the modern co-ed.

This revelation was made here by Prof. Jerome Kerwin of the political science school of the University of Chicago.

Here are the facts from which Prof. Kerwin makes his deduction: During four years U. of C. co-eds have stood guard at Chicago election polls.

Not a single casualty has resulted to any of the inbred young women during these watches, which are part of the prerequisites for credit in the school political science.

Safe At Polls. No co-ed has ever been thrown out of a polling place during these four years.

Election judges in Chicago, the professor pointed out, were not prone to accept criticism from any one as to taking of ballots, or their counting. Persons who found fault with the manner in which voters were accepted by the poll judges usually were at least ejected summarily.

During the recent election here, numerous cases were reported of terrorism at the polls, of sluggings, of kidnapings, and of killings of election workers, capped by the assassination of Octavio Granady, negro candidate for precinct committee.

But not a girl has been armed, Professor Kerwin said.

The young ladies have gone into the "tough precincts on the west side, and have watched the balloting elbow to elbow with the scions of gangland. They have investigated voting in wards that ran red with blood of clashing factions and challenged voters where they were accepted by the poll judges usually were at least ejected summarily.

Apparently, according to Professor Kerwin, the young ladies and their husbands or boyfriends were the gangsters and corruptionists' "bluffs."

Harriet Ray, pretty young student watcher, reported that during her vigil at the last election threats were made to lock her up in a polling place in the fourth ward. She stayed, despite the threats, and nothing was done about it, she said.

Pick Own Watches. The co-eds are permitted to choose polling places where they will watch, Kerwin said. If they so desire, they are permitted to stand in the "tough wards," notorious for their roughness during elections. The girls have been requested to take their parents with them, or friends, but few have done so, Kerwin added.

"Since none of the girls has had any trouble, we are willing to let them go almost any place.

"Some of the bravest have gone into places where the boys members of our classes have been thrown out. The girls members merely announce that they are there to stay, and to see that the voting is honest, and nobody has the temerity to touch them."

The college boys who watch the polls, however, have not fared so well. It was revealed, a few of them have been "beaten up" and many of them have made hurried departures from the vicinity of the polls.

IRISH WOMEN STARTLED BY DRESS REGULATIONS IN CATHOLIC CHURCHES

Limerick, Ireland.—Irish women have been startled by a sweeping set of dress regulations which have been posted in the Catholic churches at Ennis, County Clare.

The regulations prohibit any woman or girl from entering a church if her dress is more than four inches above the shoes if the neck line is lower than the collar-bone, and if the sleeves do not cover her arms as far as her wrists.

Further, no one wearing a frock of transparent material can enter the church unless she is wearing a non-transparent slip beneath it.

Standing upright in the witness stand she shouted "Mother—Mother—Don't let them take the boys. Don't let them take the boys. They can kill me but don't let them take the boys!"

Then she stepped squarely in front of the jury. "Take my life. Kill me if you want to but spare the boys!" she screamed.

Before her breakdown Miss Bumbaugh had been severely cross-examined by Bookwater. He attacked particularly her story that she had tried to sever relations with Cook.

He introduced another letter, part of which read: "Dear Hop, have only met one or two men who had your energy and ability." Another read "There isn't a business man in town as sharp and shrewd as my Cookie."

In her account of the shooting of Cook in his Niles factory Miss Bumbaugh said: "I remember I just had to shoot him. I remember he was attacking me."

She insisted Cook had struck her with a basket before the shooting.

The oldest national flag in the world is that of Denmark; it has been in use since 1219.

COUNTY LEAGUE OF WOMEN VOTERS HERE

Elect Officers and Hear Political Talk—Meet at Cheney Homestead.

At the annual convention of the Hartford County League of Women Voters held at the Cheney homestead here yesterday the following officers were elected: County chairman: Mrs. C. B. Collier. Vice-chairman of membership: Mrs. G. H. Glover Campbell. Vice-chairman of finance: Mrs. R. Dustin. Vice-chairman of program: Mrs. A. G. Dugan. Press chairman: Mrs. Charles H. Strong. Secretary: Mrs. Ernest W. Spaulding. Treasurer: Mrs. James M. Bugbee. County director: Mrs. A. H. Wightman.

Nominating committee: Chairman, Mrs. Stanley H. Warner; Mrs. Morant; Mrs. Gueses; Mrs. Valentine; Mrs. R. G. Rich of Manchester.

Following the election Maurice S. Sherman, editor of the Hartford Courant, addressed the league taking his topic, "The League and the Political Parties." Mr. Sherman brought out clearly the influence the league could have in the coming elections by forcing the parties to come out and state their platform and endorsing in party platforms pledges of legislation that would do away with slum conditions and unemployment.

BUCKING BAD WEATHER FLYERS NEAR BRISBANE

and timed at 10:15 (Greenwich meridian time) said: "Must expect one or two repetitions of storm experienced at 7 p. m. (Sydney time). Sharp squalls to the southwest and rain during next couple hours before wind settles down to steady southeast."

The steady stream of messages, which had been pouring out of the plane since its takeoff, became slightly weaker and less frequent about the hour of the night. Earlier in the afternoon, when the plane had been some four hours in the air, it reported that a radio generator had given out.

Trouble in transmitting had evidently increased aboard the craft, stations here reporting that it was necessary on several occasions to ask the Southern Cross to repeat several words in order to decipher its message.

At 10:15 p. m., a Sydney station message seemed difficult. To which the plane replied that signals from Sydney were also picked up with difficulty.

"Will see you later. Want to save batteries," concluded the message to Sydney from the plane, indicating that the crew were taking no chances with their transmitting apparatus in order to insure themselves that it would not fail in case of emergency.

The Southern Cross, if it maintains an average speed of approximately 95 miles an hour, is expected to arrive in Brisbane about 8:30 a. m. (Australia time) today.

AGAINST WIRE TAPPING

Washington, June 8.—Wire tapping will not be permitted on any of the lines of the Chesapeake & Potomac Telephone Co., operating in Washington, Maryland and Virginia, it was announced today by A. E. Berry, president.

The supreme Court recently held that evidence secured by tapping telephone wires was admissible in criminal prosecutions.

"In most states intercepting and divulging telephone conversations is prohibited by law," said Berry. "Tapping wires for such purposes is a trespass upon the property of the company which it will resist."

FIVE CLUBS AFTER YOUTH

Five major league clubs are interested in the 18-year-old shortstop, Stevens, with New Haven in the Eastern League. His work has featured for New Haven this season.

LAWN FETE OPENS WITH BIG THROG

(Continued from Page 1.)

tonight and tomorrow night, opening festivities the same as last night, with a selection at Depot Square. Under the supervision of Robert M. Reid, well known local auctioneer, who has had a wealth of experience in this business, twenty booths were put into operation within the enclosure. The work of arranging the lawn had been well cared for by Wells A. Strickland, who worked at the grounds from 7 o'clock in the morning until starting time at night.

The booths were occupied by young men and women, most of whom are connected with the Community Club in one way or another.

Those in charge of the booths were as follows: Hot dogs: Thomas Aiken, Merrill Balch, Marjorie McMenemy and Arlyne Moriarty.

Soda: Aldo Pagani, Margaret Zorkis and Stacia Zorkis. Flowers: Mrs. R. K. Anderson, Mrs. William Eels, Miss Florence Shaw, Miss Madeline Smith.

Home made candy: Mrs. Maude Shearer, Mrs. Wells A. Strickland, Mrs. Charles B. Loomis, Mrs. Walter Balch and Mrs. Vera Valentin.

Ring the bells: Vincent Moriarty and Cyrus Tyler. Fortune telling: Madame Victoria, grand-daughter of the late Prince Williams of Hartford, famous Egypt leader who owned much land in East Hartford. She was assisted by her daughter.

Blanket rack: Howard Keena, Mrs. Jay E. Rand, Harold Hanna, Monkey ball game: George Kelly.

Hot and candy wheel: Arthur Cosco and William Schoneski. Cat rack ball game: Jim McLaughlin.

Drive-the-nail contest: Francis McCarthy. Corn game: Joseph Handley, Mary Ann McFarlane, Annie Scrandon, Viola Shearer, Margaret McLaughlin. This game is located in the center of the grounds. Chairs are placed about it for the comfort of those who wish to sit down and hear the concert while playing.

Hoop-la game: Mark Holmes, Lillian Sheridan, Mabel Sheridan and Antonette Jarmoga. Country store wheel: Robert Chase.

Dinner set: Flora Thrall and Faith Falow. Grocery basket wheel: Richard Gates and Anthony Turinski. Bunnie rabbit and airplane wheel contest: Gordon Wheaton.

Dart game: Richard Brownell and Gordon Reid. Milk bottle game: Raymond Reid, Peter Goche and Raymond Merz.

Balloon booth: Douglas Robertson and two others.

MURDER SUSPECT TELLS ODD STORY

Says Unknown Man Killed His Sweetheart While With Him.

Boston Mass., June 8.—Claiming first that an unknown man who had ridden with himself and Miss Mary C. Mahan to the Blue Hills, had killed the body of the South Boston girl with bullets, John Tartar, alleged slayer, today changed his statement, police said.

The former boxer and taxicab driver then told the police that Miss Mahan had threatened to shoot him when he told her that he was going to Detroit. The implication was taken to be that he had killed the girl in self-defense, according to police.

Give Himself Up Tartar voluntarily gave himself up at the Boston police headquarters.

He suspected also told the officers that he was in Detroit on the day following the crime, and knew nothing of the murder until he read it in the papers. Questioning revealed, according to the police, that he knew little of the train schedules and they were doubtful if he had been in Detroit.

Tartar was up for arraignment in the Quincy court today on a charge of first degree murder. John O'Brien, taxi driver, who claims that he drove Miss Mahan and Tartar to the death spot and then drove Tartar alone back to Randaolph after hearing several shots, has been in Dedham jail, waiting a bail of \$10,000.

STATE NOT TO START NEW ROAD THIS YEAR

The road that the state is to build, starting at the Center and continuing on to the Bolton line, will not be built this year, unless it is taken up as a part of the fall construction work by the state.

While lines have been defined as to the highway there has been no decision reached in regard to eliminating the curves on the road between Manchester Green and the Bolton line. Four different lines have been surveyed, but in the laying out of the new road there always taken into consideration the cost of the work as related to the use of the highway for traffic.

BUILDING ACTIVITY IN TOWN INCREASES

There is an exceptionally noticeable pick up in building activities in downtown Manchester. William Wetherell reports that he has ready for finishing a six room English type of house in the Fairhurst section and a bungalow in South Windsor ready to plaster. He is also building a Dutch Colonial house of six rooms for Eldred J. McCabe on Russell street, and is also arranging for the erection of a house of six rooms for George McKinney on Foster street. A contract was awarded today to the Manchester Construction Company for the erection of a six room house to be built for Arthur Knofla by the owner of Summit and Washington streets.

W. Harry England reports that he has five houses that are now being started, six that are ready or being plastered and that four are now ready to finish.

CONDENSED MILK IS NEAR EAST LUXURY

And People There Can Do Wonders With Cans—Exhibit Here.

The exhibit of work done by people in the Near East opened today. The exhibition is being held in the store owned by House & Hale, the small vacant store between the House & Hale building and the Cheney block. Among the exhibits will be shown the uses to which the condensed milk cans are put in the Near East.

In this connection Capt. E. A. Yarrow, state supervisor of Near East Relief, has written as follows: To the ordinary individual there is nothing romantic about American condensed milk, but to those of us who have spent years in the Near East trying to re-establish the health and strength of countless hosts of boys and girls who were starving and dying under the deprivations caused by the Great War, condensed milk merits a crown of glory and our sincerest words of praise.

It is very difficult for us here in America to picture whole cities and communities starving for want of food and with no possibility of obtaining it by their own efforts. During recent years I have been through a number of situations like the above, but the most acute that I have ever seen was in Russia along the Volga River in 1922. As a member of an American investigating Commission, I was able to observe one of the strangest and most pathetic experiences that human beings have ever been subject to.

There had been the worst blight the country had witnessed in decades, and then came a deluge of locusts which even the ancient Egyptians would have considered excessive. The country was in the throes of a great revolution and railway transportation was practically at a standstill. Food became exhausted and the weakened people left their homes and lands and began to travel. Direction was no consideration. The only impulse was to get away from certain death and toward the hope of food. Our commission visited village after village in which not a single inhabitant was left. Doors were left ajar and the contents of the houses were undisturbed, but a deathlike silence prevailed the streets and dwellings.

Soon we began to overtake those who were fleeing death to a hope of life. The process of deterioration was very marked. A family would start with animals and wagons and some of their more valued possessions. Before they had gone far, they would have to throw away articles by the wayside; then they would have to eat their animals and struggle along on foot. Soon the weaker members would sicken and die. We met remnants of such groups hundreds of miles away from their points of departure. One case left an indelible impression on my mind. At a railroad station I got into conversation with an emaciated but intelligent man who had been a comfortably well off farmer. He was carrying a one year old baby in his arms and he had a rope over his shoulder which was attached to a little tin bathtub. A little three year old girl was crowded into the bathtub, too weak to walk.

The father said that on the way the mother and three children had died and he was trying to get the remaining two children to safety. I rushed back to our private car to get some condensed milk and bread for them, but before I could return to the window our train had pulled out of the station. It has ever since been a source of painful regret that I was not able to get these supplies to them. It might have meant the difference between life and death to this loyal father and his two little ones.

There are millions of people alive in the world today who owe their very lives to American sympathy and generosity, which was poured out to them in their hour of dire distress.

When the Near East Relief, after the war, went into the Caucasus area of which I had charge, hundreds of children were dying every day from starvation or sickness brought on by lack of food. American condensed milk and American flour will ever remain for me sacred words. There was no food to be obtained locally and the steady stream of American condensed products was literally a stream of life.

America today is no worse off on account of the many sacrifices she has made and through these sacrifices, whose names are never to be forgotten, the American flag is held in reverence and quite a portion of the world's inhabitants look to America as their friend and leader.

The Near East Relief has not quite finished its work among orphan children, as \$2,000 still remain to be trained for self-support. The end of this war enterprise is in sight, but it is imperative that with dignity and honor it is necessary to raise a stated fund during the coming year.

The school children of the Ninth District are being given the opportunity of contributing to condensed milk, which will be shipped directly to the children overseas. The value of this milk will be credited to the quota assigned to this district.

PSYCHOLOGICAL HOLDUP New York.—Psychology has been proved a failure in the holdup racket. George Hoffman had been studying the "A B C of Psychology." Armed with the book and a growler he attempted to rob a Bronx butcher. However, things failed to work out according to plan. The growler didn't put the butcher to sleep and when he started howling for help (contrary to psychological premeditation) George headed for the elevated stairway only to be caught in the arms of Patrolman Corcoran.

ABOUT TOWN

The regular monthly meeting of the Board of Selectmen will be held on Monday evening, when the question of the re-establishment of street lines on Keeney street will be taken up. It is the board's intention to provide for a fifty foot roadway.

Commandant J. P. Spohn requests all Boy Scouts of the Salvation Army and Girl Scouts to appear in uniforms Saturday night for the march and open air services.

Miss Nellie M. Bate, librarian at the University of Southern California is on a three weeks' visit at the home of Mr. and Mrs. M. Hartland of Maple street.

Dog Warden Frederick Kranz, has started looking around for dogs that have lost their friends and are not properly tagged or registered. Seventeen of these dogs were picked up during May and yesterday he took two more into camp, gathering one on Cedar street and another on North street. When he makes catches he reports them to the town clerk, stating the time, place and date of the investigation, or the picking up of a dog.

Myron Peckham who recently underwent an operation for appendicitis at the Memorial hospital, has made a rapid recovery and returned to his home on Lydall street today.

Clarence W. Wood moved yesterday from Center street to his new home at 29 Wellington road in the Hollywood tract. The house was built by Harry England and sold to Mr. Wood through the James J. Rohan agency.

Mrs. Martha Hooks and family and Mr. and Mrs. George Poots of Eldridge street have returned from Bridgeport where they attended the funeral of Mrs. Hook's brother-in-law, Edward Robert Barber. Mrs. Barber was the former Miss Elizabeth McRoberts of this town.

Noble Grand Mrs. Frances Chambers and Vice Grand Mrs. Minnie Smith will represent Sunset Rebekah lodge tomorrow, home day, at the Old Fellows home in Groton. They will be accompanied by the same officers from the Rebekah lodge at Rockville.

Grand Protector Mrs. Chambers, and past chief Mrs. Ada Peckham and Mrs. Gladys Clark attended a meeting of Harmony lodge of Torrington last night on the occasion of the grand chief's visit. More than 200 were present. The Pythian hall was unable to accommodate the gathering and the Masons kindly extended the use of their hall across the street.

Mrs. John McMenemy of Marble street who entered the Memorial hospital Tuesday, was operated upon this morning and latest reports are that she is comfortable as can be expected.

George H. Wilcox, secretary of the Manchester Kiwanis club, will leave this afternoon for a trip to Seattle, Wash., where he will attend the international convention of Kiwanis clubs. He expects to be absent from town about two weeks. The trip will take in many points of interest in the far west including a visit to Portland, Oregon.

Attorney William Hill who came here recently from Maine, has opened an office in the Balch & Brown building on Depot Square.

Judge Raymond A. Johnson will leave tomorrow night with the Connecticut delegation for Kansas City to attend the Republican national convention.

Sunday will be observed as "Children's Day" at nearly all of the churches. The children in many cases will provide both the program and the decorations, and infants will be presented for the sacrament of baptism.

The regular meeting of the Men's society of the Swedish Lutheran church will be held at eight o'clock tonight. Refreshments will be served by a committee consisting of John Benson, Alexander Berggren, Earl Brandt, and Carl Bolin. There will also be a meeting of the church board team in connection with the church drive for funds.

Howard M. Tingley and wife have sold their six room bungalow on Phelps Road to Charles H. and Fannie M. Beam of Hartford. The transfer was made through the Arthur A. Knofta agency.

Dr. Edward G. Dolan, delegate-at-large from this state to the Democratic national convention at Houston, Texas, will leave town next Friday for New York. He sails at noon a week from tomorrow for New Orleans and will go from there to Houston by train.

The Holy Name society of St. Bridget's church will meet in the basement of the church tonight at the call of the president, James Tierney, and will march in a body to the home of the late John E. Gleason, one of the oldest members of the society.

Monroe S. North, formerly of 211 South Main street, South Manchester, was a visitor in town today. Mr. North, who has been at a sanatorium at Stockbridge, Mass., for four months is much improved in health.

Rockville

4th Celebration No organized effort has as yet been made by the common council for a celebration in this city July 4th, despite the annual appropriation of \$500 for such a civic observance, which usually takes on the form of an early morning parade followed by sports in the afternoon and a band concert and fireworks in the evening. Local lodges and clubs as a rule present a fine showing in the parade and with the school children, Polish society, Elks, Red Men, K. of P., American Legion and other societies with the municipal organizations making up the first division of the parade it has not been difficult to make a five division parade nearly a mile in length. In the absence of any effort to close the city July 4th with a safe and sane observance it is not unlikely that sufficient interest and enthusiasm can be revived to perfect a very interesting program. Rockville now has three bands and a drum corp and with Talcottville within the town of Vernon there is available for parade purposes three bands and two drum corps.

At Sandy Beach Rainy weather has delayed work on the new Sandy Beach ballroom at Sandy Beach Park, but it is expected the building will be completed, lighted and decorated ready for the opening before the close of the month. A special opening program is now being arranged.

Coming Wedding Invitations have been issued for the wedding of Miss Ella Friedrich, daughter of Mr. and Mrs. Adolf Friedrich of Harlow street and John Carter of East Hartford. The ceremony will take place Saturday afternoon, June 15, at 2 o'clock at the home of the bride's parents and will be performed by the Rev. George S. Brooker, pastor of the Union Congregational church.

Summer Vacations With school closing two weeks from today many of the local school students are looking around for summer jobs and several have already signed up for the next following Labor Day in September. Jack Keeney, saxophonist, and Leonard Ludke, pianist, both of Max Kaibrick's orchestra of this city, are playing week-ends with the well-known Casino Grill orchestra of Saybrook, and on the 22nd will leave for a twelve week engagement at the popular Wright Club playing daily including Sunday until Sept. 3rd. The Casino Grill band will be heard at Sandy Beach Ballroom following the close of the season at Saybrook.

Miss Scanlon Injured in Accident Miss Gertrude Scanlon of Prospect street met with a painful auto accident on Wednesday morning. In some manner she fell from the automobile in which she rides to Hartford and was dragged along the street. She was removed to the Rockville City Hospital. As she entered the automobile her coat caught in the door as she opened the door to release the coat, she lost her balance and fell to the street.

Friendly Class Social The Friendly Class of the Union Congregational church held a meeting and social Wednesday evening at the Kiwanis club. The meeting was held at 8:00 o'clock by the president, Mrs. Lawrence Southwick. It was voted to appoint a committee to plan for an outing in July. A committee was also appointed to make arrangements for a bazaar in the fall.

Local solo, My Prayer, Miss Mary Tompkins. Violin and Piano selection, Dixieland, David and Edna Ballard. Song, Ramona, Girls' Quartet. Mexican Play, His Book, by a group of juvenile children. Song, Junonia, Girl's Quartet. Every number was well received. Coroner Finds Holota Guilty Coroner John E. Fahey issued the following finding in the death of Joseph Niemick on May 29. Michael Holota was guilty of negligence in not calling a physician and in neglecting to give said Niemick such aid as laid in his power. Holota will be before the City Court on Tuesday. He is out under \$100 bonds furnished by Stanislaus Vistus of Spring street.

The 4-H Canning Club to Meet The 4-H Canning Club, which is being sponsored by the American Legion Auxiliary with Mrs. Lawrence Southwick as leader, will meet Saturday afternoon at 2 o'clock, at which time there will be election of officers and committees appointed. Rhubarb will be the first article to be canned by the club. Vernon Grange to Lay Out Corners The Vernon Grange will lay out the corner stone of the new Grange Hall at Vernon on Saturday afternoon at 2 o'clock. The program will consist of remarks by George Arnold and Charter members. The presentation will be made by Mr. and Mrs. Luther Skinner. The following committee is in charge of activities: Mr. and Mrs. Charles Reed, Mr. and Mrs. Charles Pitkin, Mr. and Mrs. William Thrall and Mr. and Mrs. Edwin Baker.

Notes John Bonan, who has conducted the lunch cart in the center of the city for a number of years, has rented one of the vacant stores in the new block opposite Central Park. Mr. Bonan is planning to put in an up to date restaurant. He will do the cooking within sight of the customers. He plans to open the restaurant July 1st.

The Kumjounis Tennis Club of the Methodist Episcopal church will hold a benefit salad and cold meat supper on Wednesday evening, June 13, at 8 o'clock. The price will be fifty cents for adults and 35 cents for children.

The Every Mothers' Club will hold a regular meeting on Friday afternoon at 2:30 o'clock. The program will be given by Mrs. Louis Denley will entertain. The club will hold a public supper Saturday evening at 6:15 o'clock. The proceeds from the supper are used to give the County Home Children their annual picnic.

JUNE 25 OPENING PLAYGROUND DATE

Summer Season Begins Three Days After School Closes; Dowd Re-Engaged

The playgrounds operated by the Recreation Centers at the east and west sides of the south end will be officially opened for the summer season on Monday, June 25. It was stated today by Director Lewis Lloyd. School closes three days previous.

In addition to the regular staff of workers, it is necessary to employ three directors to supervise the playground work. Last year the work was cared for by James Dowd of this town, Thomas Pickett of Willimantic and Miss Mary Drew of Bridgeport.

It has not been fully decided who will look after this work this year. Mr. Dowd has been re-engaged, but just who the other two will be has not been decided. It is understood that both Miss Drew and Mr. Pickett will be unable to return here because of other engagements.

Frank E. Busch, well known boxing and swimming instructor at the School Street Recreation Center, has been appointed as life guard supervisor. Globe Hollow which will probably be opened either on June 23 or June 25. However, this will be governed to a great extent by the weather. In case of unusually warm weather before that time, an early opening would probably be made, and vice versa according to the circumstances.

CENTER CHURCH PICNIC AT HEBRON, JUNE 19

Edna Case Parker Heads Committee in Charge—Transportation to Be Furnished.

The Center Congregational church will hold its church picnic at the Hebron Game Club, Tuesday, June 19. A supper will be served at 8 o'clock by the members of the group on a nominal charge. The menu will be: beef loaf, potato salad, baked beans, strawberry shortcake, coffee, rolls and pickles.

Those desiring to attend and lacking transportation facilities will be taken care of if they will be at the church by 5:15 p. m. Tickets may be secured at the church or from Edna Case Parker who will also be glad to furnish any further information as to plans.

The committee in charge of the arrangements are Chairman Mrs. Edna Case Parker and the following: Mrs. Gertrude Furnell, Mrs. Frank Cottrell, Mrs. George House, Mrs. George Smith, Mrs. Bertha Mohr, Mrs. Fred Dart, Mrs. Wilbur Loveland, Mrs. Maude Norton, Mrs. Edward Fish, Mrs. Fred Verplanck, Mrs. D. C. Y. Moore, Mrs. Thomas Lewis, Mrs. Everett Goslee, Mrs. Eva White, Mrs. Carl Bengs, Mrs. Robert Carter, Mrs. George Lathrop, Mrs. Lucius Foster, Miss Mary Hutchison.

THREE HUNDRED HEAR GREEN SCHOOL PROGRAM

More than three hundred attended the "Parents Night" exercises at the Manchester Green school last evening. From 7 to 7:45 the pupils pursued their regular studies. The parents, friends and children then gathered in the assembly hall, and it was long after 8 o'clock before they left the building, there was so much of interest to hear and to see.

The small piano recently purchased for the school by funds left by the Parent-Teacher association, which no longer exists, was admired, also the magic lantern, the gift of the Manchester Green Community club. Slides were shown by the eighth graders last night. A number of the slides on hygienic subjects have been furnished by the state health commission and others have been purchased by the Community club for use with the machine.

Miss Jennie Cook, one of the school teachers, reviewed the activities of the school year in which the children are held out side the regular curriculum. Prizes had been won by them in a number of different contests such as vegetable and flower raising and poster making. In the thrift banking system this school stood 100 per cent for the year, and four rooms rated equally high in care of the teeth. Many of the posters painted by the children at the Green were exhibited by the Humane society in Hartford.

During the evening the school orchestra furnished musical numbers.

PARENTS NIGHT HELD AT BUCKLAND SCHOOL

A large number of the parents of the children who attend the Buckland school turned out in observance of Parents' night last night. From 7 to 8 classes were run according to their every day program, thus giving the parents a chance to observe the children at their routine work.

After the close of these classes there was an exhibit of the domestic science and manual training work. A number of the parents took advantage of this opportunity to become acquainted with the teachers and the teachers in turn showed some of the art and composition work done during the year by the different students.

POOR L'L FELLER

Wichita, Kas.—Sixteen years of married life proved too much for Amos E. Bryan. He recently sued for divorce on grounds of extreme cruelty, claiming that his wife, Annie L. Bryan, abused him. "She curses and abuses me, and threatens to kill me, as if she meant it," he said. "Twelve years ago she took a gun after me at Monroe, La., and in Burton she tried to kill me again."

ADVERTISE IN THE HERALD—IT PAYS

All Right, Fellers! This Is Gonna Be for Keeps!

HIGH SCHOOL NOTES

The following officers have been elected in the band for 1928-29: President, Warren Case; vice president, Reginald West; secretary, Jacob Rubnow; treasurer, Carl Cuberly.

There was but one award in the commercial department this week. Gladys Harrison was awarded a Sterling Silver Royal Pin for 42 net words.

The following men will make the trip to Buckley with the track team: Mgr. Olson, Foster, Glennie, Keeney, Kittle, Schoen, Tomlinson, Cheney, Eels, R. Glenn, Greenaway, Johnson, Mevier, Murphy, McCarr, McCluskey, Nicola, Robertson, Salmon, Scarlots, Taylor.

The following banners have been awarded in the Franklin Building: Attendance, Room 15; Scholarship, Room 25, Room 23.

The assembly yesterday was partly devoted to a baseball rally and to a short vaudeville skit. The first speaker for the rally was Elmo Mantell, and he bewailed the support that the students were giving their championship team. He urged every student to be present at the East Hartford game to give the team every possible bit of moral support in order to make possible the winning of this crucial game.

The other speakers, "Jimmy" Mistretta, "Jimmy" Foley and Coach Kelly all reiterated Mantell's sentiments and it is expected that a goodly crowd will be present at the game this afternoon. The band will lead the parade to the field. The vaudeville skit entitled "Safety Razors First" was presented by Stewart Lyan and Terrence Shannon. The entire performance was very cleverly put over and the actors deserve much credit for such a brilliant performance, that kept the entire audience in one successive convulsion of laughter.

An Italian earthquake expert predicted a quake the other day. But then Mussolini probably called it off.

ROYAL AERO CLUB

FETES EARLY FLIER; ONCE WAS BANISHED

London.—The Royal Aero Club has decided to give a banquet to A. V. Roe, famous British pilot and aircraft manufacturer, to commemorate the 21st anniversary of his first flight.

Roe was the first Englishman to fly, and his flight in 1907 was the first ever made in the British Isles. It took place at Brooklands, and his machine was a biplane driven by a 7 horsepower motorcycle engine. As a result of this feat, Roe was requested by the authorities to

leave Brooklands, as nothing but danger could be seen in his further experiments. Soon afterwards successful flights in foreign countries and the crossing of the Channel by Blériot convinced the world that there was something in aviation, and Roe returned to Brooklands, where he started one of the first and most successful flying schools in the country.

Since the war, the firm of A. V. Roe & Co., has been one of the leading aircraft concerns in the world, and among its successes have been the 1,000 h. p. Avro-Napier, the first machine in the world with a 1,000 horsepower engine.

ANGLO-AMERICAN RELATION UP AT PEACE MEETING

London.—Improvement of Anglo-American relations is to be the principal subject of discussion at this year's National Peace Congress convened by the National Council for the Prevention of War, in London, on July 5th next.

As a basis for consideration the Congress has selected the following three points upon which to inform public opinion:

1. The psychological reaction of the break-down of the Coolidge Naval Conference.
2. The Kellogg proposal for the renunciation of war as an instrument of national policy.
3. The vexed question of the freedom of the seas.

Arbitration Treaty  
During the next few months the Council is concentrating on the question of a renewal on a more favorable basis of the Anglo-Am-

erican Arbitration Treaty which is expiring.

Two ways in which it is proposed that Treaty relations between the two countries may be improved are: (1) To secure a more inclusive treaty to replace the so-called Arbitration Treaty and (2) To open up negotiations for a multilateral treaty on the basis of the recent Kellogg proposal.

It is clear, the council states, that the text of the present treaty is confined to disputes of a legal character, and excludes all disputes which can be deemed to affect the vital interest, or the independence or the honor of the two nations.

War Still Possible.  
The Council further points out that even under the Bryan Conciliation Treaty, which provides for use of conciliation methods and a cooling-off period of twelve months, during which investigation and report may be conducted by an International Peace Commission, recourse will still remain open if the process of conciliation does not lead to settlement.

The negotiations between the United States and France make it clear, the Council adds, that America is not prepared to enter into agreement with France alone for the outlawry of war. Presumably the same attitude would apply to

Great Britain alone, or to any other individual country. British public opinion in the views of the Council would welcome wholeheartedly any American proposal to participate in a really responsible partnership of nations.

**CHARLEY MURRAY AND GEORGE SIDNEY AT STATE**

Famous Funsters Starred in One of Two Features for Tomorrow. Emil Jannings Here Saturday.

Charles Murray and George Sidney, a pair of film comedians who need no introduction to local movie fans, will head the big double feature program at the State Theatre tomorrow. As usual, the performance will run continuously from 2:15 until 10:30.

Can you imagine Charley Murray and George Sidney and George Sidney as intrepid trans-oceanic fliers? Although not so intrepid, perhaps that's what these two famous funsters become in "Flying Romeos," their latest starring vehicle. Some thrilling airplane shots are interspersed between the hilarious comedy which combines to make a highly diverting picture. The story centers around two flying fools who take up aeronautics when the village vamp says, "Take the air." The way they lose a non-stop race to Europe will give you the biggest laugh in years. And all the while they are so intrepid, they run away with another fellow!

It's a sky-high comedy classic with the screen's greatest laugh team navigating the joy ship into a heaven of hilarity.

The second film feature for tomorrow will be "The Crimson City," a thrilling drama of the Orient starring Myrna Loy and John Milljan. Action, mystery and suspense are to be found in this rapidly-moving tale of love and sacrifice. "The Crimson City" is a thrilling yet tender love story. It has to

do with Nan Toy, slave in the "House of a Thousand Daggers," on the China coast, and with Gregory Kent, fugitive from justice. Nan Toy, like another "Madame Butterfly," rescues Kent, nurses him back to health, only to give him up at last, when his honesty has been proved and his white sweetheart has come from England to claim him as her own.

This is but a bare outline of the production. Myrna Loy in the role of the beautiful Chinese girl again gives her exotic, languorous beauty of interpretation. A pleasing variety of shorter subjects will be shown, in conjunction with the two features.

Tonight ushers in the final showings of Billie Dove in "The Yellow Lily," and "The Thief in the Dark," a thrilling mystery drama with an all star cast.

On Sunday and Monday the State

presents Emil Jannings, the greatest of all character actors, in "The Street of Sin," his newest starring vehicle. This picture is now being shown in New York to large crowds.

**LONDON RAISES FIGURE FOR POLICEMAN'S HEIGHT ONCE MORE TO SIX FEET.**

London.—The minimum height of the City of London Police has been raised to its former figure of 6 feet. During the war and just after, owing to a temporary difficulty of getting recruits, the standard was lowered to 5 feet 6 inches.

The City Corporation likes its policemen—96 per cent of whom are recruited from the countryside—look imposing, and also point out that shorter men would lack an air of dignity in the prescribed uniform.

**RADIO BEACONS DANGER TO AIR PILOTS SOLVED**

Washington.—Night time variations of signals from 'directive radio beacons, tending to throw airplane pilots off their course have been under intensive study at the United States Bureau of Standards, with the result that this serious aeronautical situation has been solved.

"This shifting of the radio course

is due to a distortion that is introduced in radio waves as they travel through the upper atmosphere," the Standards Bureau announced. "The nature of this distortion has been studied carefully and scientists have been able to analyze it satisfactorily. By using special antenna arrangement for receiving it has been found that these shifts can be practically eliminated."

**Long Experiments**  
The Bureau carried on experiments in directing airplanes in flights between Cleveland and New York, using the directive radio beacon at Bellfont, Pa. Shifts or variations in the course were found to exist during the night time which introduced such serious errors that the beacon indications were considered dependable for distances ex-

ceeding fifty miles at night in mountainous territory. This phenomenon was referred to the Bureau by the Aeronautical branch of the Commerce Department.

"Airplanes heretofore have found it necessary to use long trailing wires for radio antennas in order to collect enough power to operate receiving sets," the statement said. "Such antennas by reason of their hanging down at a slanting angle do not have the necessary characteristics to eliminate the effect of false radio course indications at night."

"A new type of antenna consisting of a vertical ten-foot metal pole has been developed by the Bureau of Standards. The use of so short of Standards. The use of so short of an antenna has been made possible

by the development of a new and specialized type of aircraft receiving set.

**Boon to Aviation**  
"This antenna is expected to be a great boon to aviation as recent flight tests have indicated that it practically eliminates all errors in the indications of the radio beacon, showing the course where it actually is at all times"

Bureau experts explained that it is probable that there will be special conditions on some of the airways requiring the radio beacons to be spaced closer together than at first contemplated, with corresponding reduction in the power used by each.

At short distances there is no distortion of the course indication. Thus it is expected that the com-

bination of the new antenna with this plan for closer beacon spacing will eliminate those night effects and make the radio beacon an accurate device for air navigation under all conditions.

**COLLEGE BOY MISSING**

Cambridge, Mass., June 8.—William Wayne Neff, assistant manager of the Harvard varsity crew and son of Nettleton Neff, Chicago millionaire, was reported mysteriously missing today.

Anxiety was expressed in Crimson athletic circles but it was thought possible that Neff had gone to New York to visit friends, failing to notify Harvard coaches, manager and crew who are at Red Top, Conn., practicing for the annual boat race with Yale.

### JUGOSLAV KING'S GRAVE ILLNESS WORRIES PEOPLE

Berlin.—At a moment when Jugoslavia and Italy stand glaring at each other across the Adriatic and when Jugoslavia feels that its very existence is being threatened by Mussolini's alleged ambition to restore the glory of ancient Rome, it is revealed that King Alexander of Jugoslavia is ill and that his illness has already precipitated a grave political and constitutional struggle in his kingdom.

Alexander is suffering from a stomach ulcer and is afraid that it may be cancer and that he may be facing the same fate that fettered his father-in-law, King Ferdinand of Rumania, the sickbed for a year and finally killed him.

The king's court physicians deny that it is cancer, but Ferdinand's physicians also denied the real nature of the king's illness for months.

Condition Improves

Though there has been an improvement in Alexander's condition recently, the illness has progressed so far the Belgrade political circles are already discussing the establishment of a regency in case the illness should grow worse, or in case the king should be forced to go outside of the country to restore his health.

The problem of a regency has precipitated a fight between the military leaders and the court camorilla on the one hand and the parliamentary leaders on the other. The military and court circles urge the king to establish a regency of his own accord, and to name General Jivcovic, commander of the royal guards, as its president, in order to assure their dominance over the regency.

The parliamentary leaders of almost all parties oppose this and threaten to boycott any regency established without their cooperation, and consent in an effort to subject the regency to parliamentary control.

While this domestic fight is proceeding practically unknown to the public, Jugoslavian fears of Italian aggression are growing.

Mussolini's establishment of a virtual protectorate over Albania, his alliance with Hungary and Italian shipments of arms to Hungary in violation of the peace treaties, his negotiations with Greece and his recent conferences with Premier Bethlen of Hungary, Foreign Minister Zaleski of Poland, and Foreign Minister Titulescu of Rumania—all these are interpreted in Belgrade as parts of an "encircling policy" comparable with that which the Germans felt England was using against them before the war.

Fear Mussolini

Many circles in Belgrade believe, in fact, that Mussolini will strike this year yet, and Jugoslavia is believed to be making preparations to meet an attack.

Belgrade military circles have already figured out the whole Italian campaign in case of war. They believe that Mussolini would strike from four directions—from the north through the Austrian province of Kaernten in the direction of Marburg; from the east through Albania, which Belgrade believes has become an Italian Military base; from the south by landing troops at Saloniki and with the consent of Greece; and finally, from the west by utilizing the Macedonian bands of western Bulgaria. The recent theft of Austrian defense plans would lend color to the first assumption.

Hungary, Belgrade holds, is a

certain ally of Mussolini, but Belgrade believes that few Jugoslavian troops will be necessary to check its armies because Czechoslovakia is expected to stop any Hungarian military movements.

Side With Italy

Bulgaria is expected to side with Mussolini but only by facilitating the guerilla warfare of the Macedonian band, which Belgrade believes, it can check by organizing a Bulgarian peasant revolt. The attitude of Rumania and Greece is still uncertain.

How far these fears are justified is, of course, impossible to tell. Belgrade's greatest hope for checking Mussolini rests on Paris and London.

Belgrade depends on France, with which it has a treaty of friendship, to support it not only diplomatically but, if necessary in a military way.

No active support is expected from London, but Belgrade believes that Mussolini's strength depends on England's backing and that this backing would be withdrawn in case of Italian aggression. But such a withdrawal of English backing, Belgrade believes, would mark the downfall of Mussolini.

### BRITISH AIR MEN MAKE ENGINE TO HAVE 1,000 H. P.

London.—British aeronautical experts have attained another achievement. They have constructed an aero engine capable of developing 1,000 horsepower.

Equipped with 12 cylinders and called the 490 h. p. Rolls-Royce F-12, this engine will add about thirty miles an hour to the speed of heavily loaded bombing planes. It uses in proportion to its power, less fuel, and has a smaller frontal area, than any other standard aero engine in the world.

This economy in fuel will enable bombing aircraft to be built for a greater radius of action, and the reduced frontal area will permit the fuselage to be so streamlined that a much higher speed will be obtainable. The frontal area is considerably less than that of the 900 horsepower engine used by the Italian "ace" Bernardi when he obtained the world's air speed record of 318 miles an hour.

The twelve cylinders are arranged in the shape of a V. The carburetors are between the cylinders and the magnetoes are tucked away at the rear of the engine, which has many novel technical features, the details of which are unavailable owing to the secrecy of the design.

The compression ratio is 6 to 1, and the fuel consumption at normal power and speed is 30 gallons an hour. Designed by Mr. Royce, the engine weighs 865 pounds. It has successfully passed the Air Ministry's 100 hours' test and is now being fitted into a fuselage of one of the Royal Air Force's giant bombers.

The city of Manitou, Colo., has legislated against needless honking of auto horns. Now how about the neighbors' chickens?

Let Us Make These Suggestions As Gifts for Graduates

For Her—

- Wrist Watches

### BLAME NIGHTLIFE FOR UNHAPPY HOUSEHOLDS AND GROWING DIVORCES.

Cleveland.—Gay night life in restaurants and road houses are the reasons many young couples become disappointed and seek divorces, Common Pleas Judge Frederick P. Walther declared, here, in discussing "Domestic Relations as viewed from the Bench."

Judge Walther stated that young married couples go in for "The gilded life" and at the same time complain they could not afford to have children or commence buying a home "little by little."

"While we have not adopted companionate marriage, the indifference with which many people view marriage amounts to the same thing" (the Judge asserted).

"There are too many divorces in the country. If people would turn the years back two scores and live as sensibly as we did then, we judges would not know how to hear a divorce case and would be mightily glad of it," Judge Walther concluded.

The right possessed by the British public to take gold to the Mint to be coined into sovereigns was withdrawn in 1925.

### WOOF! WOOF!

Cleveland.—Because a dog catcher needs and has "great diligence" and a "peculiar skill," he is entitled to more money, according to K. H. Ferry, superintendent of the Animal Protective League. His petition to county commissioners also recommended classification based on ability with sliding scale of pay. But the county fathers failed to agree. "What'll we do, get a bunch of dogs for 'em to practice on here in the court house?" one of them wanted to know.

Hemp, said to be the oldest cultivated fibre in the world, was grown in China as early as 2,800 B. C.

FRIDAY, JUNE 8, 1928

#### MR. HOOVER'S ORGANIZING ABILITY

Herbert Hoover's whole career has been marked by his brilliant accomplishments as an organizer. In college this was true. As a mining engineer in Australia, China, Russia and in his own Far West this ability was among his foremost attributes. He organized the necessary influences required to get 160,000 Americans out of Europe after the outbreak of the war.

Even the leaders of the anti have discovered it. To all who may be in the interests of this or that candidate each day sees a firmer grip on the Republican nomination for President in the hands of the Hoover forces.

#### THE WIND SHIFTS

Disclaiming any approach to the supernatural we are inclined to point to the fact that the prediction in this column some days ago that President Coolidge would certainly peremptorily stop the use of his name in the Republican convention has become the opinion of political prognosticators of all shades of belief.

What we cannot understand is the reason for this belated belief in the President's announcement, in public life at least, has not been given to equivocation. Because he saw fit to phrase his first renunciation of the office a little outside of the ordinary man's way of expressing himself has been, and is, no reason to believe that he was seeking the prestige of being the first man to be nominated for the office in spite of efforts to avoid such distinction.

When or by what agency President Coolidge will finally take himself out is his secret. That men, high in the ranks of the party, have professed to believe their leader has been merely a framer of phrases is the puzzle of the day.

#### PAY AND BUSINESS

When the President of the United States selects an out-of-the-way place for his summer vacation his decision affects every individual in the vicinity of his temporary home. Brule, Wisconsin, is to be the post-summer address of the President for several weeks. It's a fourth class post office, one of those on which the salary of the postmaster is based entirely upon the amount of business transacted through his office.

with the advent of the presidential party next week the Brule post office will begin to handle more mail in an hour than it has handled in a month. The Postmaster General has realized this and has rushed there an electric stamp-cancelling machine and arranged for extra help, but Mr. Webster will work for reduced pay in the busiest time of his official career. But next year, with pay increased on the basis of business done the previous year, Mr. Webster will have much more leisure and more money to enjoy it. And on top of that he will have had an opportunity to study the executive machinery of the nation at close quarters, an opportunity never before enjoyed by a postmaster of Brule.

#### RE-DISCOVERING TRUTHS

The best authorities disagree as to the nation which first invented the compass. It is admitted, however, that the Chinese had compasses of crude design back in the early days of the Christian era. And now it seems that the recent "discoveries" of medical men of the value of adrenin in heart disease and of liver in anaemia were known a thousand years ago to the Chinese and the American Indian.

For a thousand years, he said, the Chinese have prescribed the heads of powdered toad fish as a remedy for heart trouble and the modern scientists have discovered that adrenin, the most modern drug for treatment of heart disease, exists in the head glands of that fish. Evidently the Chinese were using a prescription we have only recently discovered to be of value.

The American Indian always chose the liver for his share of an animal killed when in company with white men, leaving to the invaders of his country their choice of the remainder of the carcass. The Indians were deemed ignorant. Today the price of liver has gone to unprecedented altitudes because modern medicine has just found that it is very valuable in cases of anaemia. Evidently the American Indian was not such a fool as trapper and hunters credited him with being. Perhaps it is true that any custom that has held its own for generations has something good about it.

#### CONTROLLING INSECTS

Why we allow mosquitoes and flies to pester us, especially when we try to sit out doors on piazza or steps in the long summer evenings when a clump or two of castor oil bean plants would have given us freedom from the pests is one of our unanswered riddles. All kinds of insects have a strong dislike for these plants. They will not go near them. In many southern sections a clump or two of this plant is to be found close to the houses whose occupants enjoy the evening air on uncrenated porches without discomfort from buzzing insects.

This has long been the custom in certain sections but it is only recently that the idea of planting a row of the plants to every five rows of cotton as a protection against the boll weevil has been tried, and with success. Castor oil beans are themselves a profitable crop and cotton is much more profitable where the boll weevil can be kept out. The combination seems ideal although general adoption of the plan might tend to an overproduction of the beans. Even then we wouldn't be compelled by law to consume the product of the bean and it would be several years at least before the cotton raisers of the South would try to incorporate a plank in the Republican platform assuring them relief from an overplus of castor oil.

Be that as it may and even though entirely ignorant of the beauty of the castor bean plant we have knowledge of one house near the piazza of which there is due to bloom—or don't they—a castor oil bean plant and determine personally the reaction of mosquitoes to it.

#### SPREADING GOSSIP

"Do you of your own knowledge know anything of this alleged proposition party?" was the question asked of some leading lights in the charge that Massachusetts legislators had enjoyed a "wild party" a year ago. They answered that they did not. Those who so answered included the state superintendent of the Anti-Saloon League and three Boston ministers. Yet they had signed a demand for an investigation of the acts of legislators upon someone's story or, possibly, on their assumption that such things must be. By their general charge they have, perforce, dragged in the entire membership of the legislature. Seeking to make a point in their over-zealousness to support prohibition they have resorted to the spreading of gossip of which they had no personal knowledge. It is such incidents as these that tend

### FACTS ABOUT CONNECTICUT

Compiled by the CONNECTICUT CHAMBER OF COMMERCE

#### (185) TWO INSTITUTIONS FOR THE DEAF

Connecticut's deaf are cared for at two institutions, one entirely state supported and the other partially supported by appropriations from the state. The latter institution, the American School for the Deaf, in West Hartford, is the oldest institution for the instruction of the deaf in the United States, having been opened in 1817. The second institution is the Mystic Oral School which was taken over by the state in 1919. It is more than 50 years old.

During 1927 there was an average of 211 inmates at the American School. The school staff consists of a liberal number of resident teachers, besides the teachers of drawing and gymnastics and instructors in the industrial department. All the New England states make provision through their legislatures for the education and support of deaf-mutes, and four states send pupils for instruction to the American School. Last year Connecticut paid a total of \$88,086 to the school for board and tuition.

Average daily attendance at the Mystic Oral School last year was 103, and there was an average of 41 officers and employes at the institution. Twenty years ago there were 38 inmates at the school and seven employes.

Maintenance costs last year totaled \$87,035, while \$20,124 was spent for a new dormitory and equipment and a barn at the school at Mystic. The average cost per inmate per week was \$16.00 last year and \$5.50 in 1908. The estimated value of the school property is \$198,987.

#### Monday—Provision for the Blind

to reduce the standing of supporters of the dry law in the minds of the general public. But it seems to be necessary that anyone in public life must expect to be subjected to injurious statements by those who believe the enforcement of the Volstead act takes precedence over all laws of God and man.

#### NO PERMITS

Assistant Secretary Lowman, in charge of Prohibition enforcement for the Treasury Department, assures the country that he will not permit his agents to resort to wire tapping to pick up conversations by law-abiding citizens. As we understand it Mr. Lowman does not permit his agents to accept bribes, either. But they have.

New York, June 8.—The Broadway that presents itself to the summer visitors this season is a bit more tawdry than ever before. Bit by bit, the section above 45th Street has been surrendering to the "rackets." In and about 50th street, it now resembles a combination of Coney Island and the street fairs. There is a fly-by-night cheapness about the catch-penny shops and the sidewalk tradesmen.

Even the "orange drink" stands have begun to decorate their emporiums with scenery reminiscent of the cheap grotto fronts of carnival Caves-of-the-Winds. In one store-room a mechanical baseball game operates. Next door a fake oriental manipulates trick cards and points to his array of puzzles and magician's wares. A song plugging shop makes the night hideous and two radio and phonograph record establishments seek to rival it from their tiny cubby-holes. The ballyhoo men of the automatic photograph galleries inform you that "there are plenty of cameras ready in the rear." So step right up! The gyp auction stores run night and day and cheap jewelry concerns flash their paste baubles from the windows.

The endless line of Chinese restaurants have strung loud speakers from their doorways, so that the strains of the orchestras upstairs overflow into the streets. Now that the evenings are warmer, the 10 cent dance halls have opened their windows and jazz mingles with a mad discordant symphony. The odors of sizzling hamburger sandwiches and hot dogs hang low over the corners. And each day sees some new racket springing to life to catch the summer trade.

Perhaps I am growing a bit old and feisty. But Broadway wasn't like this a few years back. There was an illusion of tinsel that seems to be fading. And, walking along about 9 o'clock in the evening, it seems just a little depressing.

There are millions in this city, however, who cling to the simple pastimes. The year's record shows that nearly three million persons visit the Bronx Park zoo each year—and these are attracted only in the warmer months. Almost as many go to visit the Aquarium. And hiking societies are quite the rage. Golfing is so popular that the nearby links are jammed from dawn to sunset and one must have a healthy purse to have any sense of freedom. The same goes for tennis. But, I am told, it's pretty much the same in most cities today.

GILBERT SWAN.

#### This date in AMERICAN HISTORY

- JUNE 8, 1709—Paper money first authorized and issued in New York.
  - 1844—Senate rejected treaty made with Texas.
  - 1845—Andrew Jackson, seventh president, died.
  - 1861—Tennessee seceded by popular vote and northern states announced a "war chest" of \$2,000,000.
- Science now has produced a mechanical man that talks. Fshaw! This is presidential year and we've seen a lot of 'em.

#### WASHINGTON LETTER

By RODNEY DUTCHER

Washington, June 8.—Senator J. Boonboom McWhorter will have of the homiest, coziest hotel bedrooms in all Kansas City.

Its attraction, he hopes, will be irresistible when the party plotters decide that it's finally time to nominate somebody. Senator McWhorter as most people know, is a candidate. And he suspects that after the convention has written in deadlock for two or three hundred ballots everybody will be yearning for a nice cool bedroom, with refreshments, where the real work can be done in comfort.

Hence, in the McWhorter bedroom headquarters, there will be electric fans, two or three seductive divans, cerise draperies, overstuffed morris chairs, a few baskets of roses and possibly a lovely cigarette girl in flowing robes.

Plenty of cigars, of course. Good cigars, too. Five-cent cigars may be good enough for ordinary delegates, but not for the type of heavy politicians the Senator hopes to lure into his web on that fateful night. Senator McWhorter watches his cigars closely, and on recent occasions when an enemy substituted a box of explosive perfectos on him just as he was about to receive a delegation of postmasters from his home state. He had a heck of a time transferring the wrath of his guests from himself to the enemy.

On each wall will be large pictures of the senator himself, with banners urging "McWhorter for President." McWhorter is a modest man, but the little group of powerful men he expects to entertain will realize that this is his headquarters and that no special attempt is being made to persuade them of anything like that.

Of course there may be some slight difficulty in drawing the meeting of the best minds into the McWhorter bedroom rather than some other bedroom, but the McWhorter board of strategy expects to have an active little group at work which will be weaving around and exclaiming to people every few moments:

"Migosh, have you seen the McWhorter bedroom?"

And after two or three hundred ballots have been taken, everybody will know all about it and the president-makers will know just where to come.

At this moment, however, political Washington is marveling at the sagacity of the McWhorter strategy. As far as any one can remember, no politician in history has ever carried on such a subtle, and yet brilliant pre-convention campaign.

Senator McWhorter, one learns, has established himself as the eleventh choice of an enormous number of delegates. He has reason to believe that the final fight on the floor will be between those leaders and delegates who will take him as their eleventh choice and those who will never take him under any circumstances.

"If Caleb Grunt had only had some eleventh-choice strength in 1876 he would have been nominated and elected," Senator McWhorter explains. "One by one, the first ten candidates were weeded out and anybody with foresight could have had it then. Today I'm the eleventh choice of more delegates than you can shake a stick at and look at my prospects!"

"Hoover will be stopped early because the middle west and east don't want him and he couldn't be elected."

"Coolidge can't take it after refusing it and neither can Hughes and neither of them would be elected."

"Lowden and Dawes can't win because they're against the administration and neither of them could be elected."

"Curtis won't get it because he's too old and he couldn't be elected."

"Borah and Norris are Bolshevik and couldn't be elected."

"Jim Watson won't be nominated because of the Indiana scandals. He couldn't be elected, anyway."

"Senator Goff is out of it, of course, and wouldn't stand a chance in November."

"Yes, sir, this party has got to have a man that can be elected!"

### Variety—the key to successful decorations in summer furniture

#### Three Willow Pieces \$79

These willow suites consist of a full length divan, arm chair and rocker, similar to the sketch above excepting with broad, comfortable arms. Loose seat cushions and upholstered backs make for comfort. Finishes: Natural or brown with cretonnes to harmonize.

#### Three Pieces of Fiber \$53

A full length divan, an arm chair and a rocker are the pieces included in these three piece Artfiber suites. The fiber is dyed clear through to the metal core in brown, green and natural colors. Removable, spring-filled cushions in cretonne, to harmonize.

#### Three Reed Pieces \$53.55

In these groups a full length divan, arm chair and rocker are included, finished in a pleasing putty enamel. Spring-filled cushions are used for the seats, upholstered in a cheerful cretonne that adds greatly to the beauty of the pieces.

#### Willow Barrel Chairs \$17.55

A unique chair of natural willow. Their backs are rounded like a barrel, ending in the front with small wings as sketched, making a high, comfortable back. Cretonne cushions \$1.50 extra.

#### Fiber Ferneries \$3.95

Choice of brown, red and natural fiber with metal liners, similar to the sketch to right. Diamond panel design in front as shown. Wooden legs.

#### The Secret of Good Linoleum Floors

Back in the days of hoop skirts and leg-of-mutton sleeves people tacked their linoleum down because there wasn't any better way to lay it. Nowadays your linoleum can be laid so it will be permanently smooth—warmer, more silent, more resilient—so it will wear a lifetime.

That's the way we do it. They won't buckle, wave or crack; and the seams stay tight. We cement it down, over a layer of heavy builder's felt, closing the seams so tightly that the linoleum becomes a practically one-piece, built-in permanent floor.

Come in and let us show you how it's done.

#### DECEPTIVE BLADDER PAINS

Many people, who think they are suffering from kidney disease, are really feeling the effects of a disorder of the bladder. The symptoms of this trouble are varied, but usually include pain in the back or groin, painful or frequent passing of urine, gravel-like sediment, blood, and sometimes pains that are mistaken for rheumatism. These disorders are found in both sexes, at any age, from the cradle to the wheel chair.

Some form of inflammation is practically always present in bladder trouble. This is usually slow in developing, but may form suddenly from an unusual irritant or infection. The bladder walls are adapted to contain a slightly acid fluid. A permanent tendency toward either excessive alkalinity or acidity will produce enough irritation to inflame the delicate lining. Some foods and medicines are particularly irritating to the bladder and kidneys. This is true of onions, garlic, turpentine, watercress, and wrong combinations of food. The pressure of abdominal organs upon the bladder itself is a cause of distress that is not often recognized. The intestines, and sometimes actually the stomach itself may slip down out of their natural position, and weight upon the bladder. Children often have mild cases of bladder inflammation that become acute at the age of puberty, from the pressure of developing organs. In women, there is often a pressure from the womb during pregnancy, and sometimes from an inversion (falling forward). A shyness or carelessness, causing one not to obey the natural calls, will often be the beginning of a bladder irritation.

Stones in the bladder, or renal calculi, produce the most distressing bladder, and severe, sharp pains upon passing water. There is a tendency to frequent urination, and usually only a small amount can be passed at a time, which may be tinged with blood. The calculi or gravel may vary in size from a dust speck to that of a fist sized marble.

Oxalic acid, found in many common foods, is the basis of most calculi. This acid should be oxidized and rendered entirely harmless just as are the citric acids, but in a

few individuals, suffering from acidosis, the oxalic acid is passed through without being consumed. As long as the individual has this tendency, he should avoid those foods containing oxalic acid. The commonly used foods that contain sufficient oxalic acid to be avoided are cocoa, tea, pepper, sorrell, spinach, and rhubarb. Contrary to the opinion of many, tomatoes do not contain enough of this acid to have any detrimental effect.

Growth inside the bladder usually do not produce any distress until they are well developed. Ulcers of the bladder sometimes form in cases of chronic inflammation or gonorrhoea, the latter disease being not uncommon, even among those who are entirely ignorant of the fact that they have contracted it.

I advise a urinalysis as soon as one notices any discomfort in this region; in fact, it is a good policy not to wait until the doctor has to operate simply as a means of being forewarned against the development of serious disease.

#### Questions and Answers

Question: Mrs. H. V. writes—"I have had stomach trouble for nearly 17 years and very often I have distressing pains below the stomach. The doctor thinks I will have to have an operation and have the gall bladder taken out before I shall be better. Do you think I shall be obliged to have this operation?"  
 Answer: It is unwise for me to attempt to diagnose your case through this column or to estimate whether or not you should have the gall bladder operation. I find only a small percentage of gall bladder cases require operation, as a diet treatment will usually effect a complete cure. The diet should be tried first and if this fails it is time enough to try surgery.

Question: J. G. R. writes—"I use two tablespoons of bran along with clabber every morning for my breakfast. This acts as a laxative. Is this combination all right?"  
 Answer: The combination of bran and clabbered milk is all right for you if you are getting results with it. I suggest that you use pulverized bran, and only the curd of the clabber, discarding the whey.

Question: Embarrassed writes—"I am a young girl and have a heavy growth of hair on limbs and arms. In fact, there is a visible hair in practically every pore on my entire body. Will you please tell me the cause and how to overcome this condition?"  
 Answer: It is perfectly natural for some persons more than others to have a growth of hair on their limbs. It is foolish to try to do anything to remove it as long as it covers such a large area, as in your particular case.

### PARACHUTE SCHOOLS FOR TRAVELERS TO BE NECESSITY SOON

Washington.—The American traveling public will have to go to parachute schools one of these days as a part of its general education. The expansion of commercial air-

ways throughout the United States and the constantly increased travel in the air by persons owning their own planes has brought about the necessity for a widespread knowledge of the use of the parachute, Army aviators declare.

The parachute, thus far the only known and tested safety device for those who are stranded high above the earth in a frail machine of whistling wires and struts, is as important as the airplane engine, aviators say. When the engine

fails, the parachute is the only resort left, as soon as the general run of aerial passengers realize the parachute makes their safety in the air practically certain. Army fliers say, commercial aviation will show a far greater expansion of passenger carrying air lines.

The most important advantage of parachute practice, say those who have made the leap, is that it instills confidence in the jumper. "When people tell you stories of chutes that don't open," declared

one officer, "take it with a grain of salt. There are ways and ways to get killed in a parachute, but it will always open for you if you pull the ring."

#### BRITISH TENNIS FANS SEE VERA MONTGOMERY AS A COMING LUMINARY.

London.—Lawn tennis enthusiasts might well look out for the deeds of Miss Vera H. Montgomery this season. A great many people

believe that she will prove the best English girl player of her generation.

Without doubt she is the "find" of recent years. Just nineteen years of age, she is a versatile player who possesses all the strokes. Her service is one of the best models in the country; in consequence, her delivery is very fast and unusually well-controlled. Her forehand drive is very similar to that of Miss Helen Wills in character. She hits a very early ball with

a vigorous punch, and her backhand drive is exceedingly good both in speed and placement.

The British Lawn Tennis Association is watching her very closely and it will be no surprise if she is included in the British Wightman Cup team.

A small cannon, fitted to a sundial, is still used as an alarm clock by the Sultan of Morocco. Just the thing for city council.

### OUR TREES

THE TREE OF LIFE  
 Sometimes called the "aboriginal" the western red cedar is truly the "tree of life" to the Alaska Indians.

The walls that inclose the Indian's house, the blankets that keep him warm, the ropes, indispensable in fishing and in harnessing his dog teams, all come from the inner bark of the tree. He makes his canoes from the western red cedar and cuts the biggest specimen he can find for the totem pole that he carves into his family tree.

Nearly nine-tenths of all the shingles manufactured in the United States are western red cedar.

Probably two-thirds of the cut of western red cedar goes into shingles, the remainder being used for lumber, poles, post, piling and other uses where durability is important. Western red cedar poles, on account of their form and size, are shipped to nearly all parts of the United States.

Incense cedar, which gets its name from its remarkably aromatic quality, grows in California and southern Oregon. The cut is comparatively small and is practically all used locally except some high grade lumber which is shipped to wood-using factories and made into fish, doors and pencil slats. For Oregon cedar, pole that for beauty and size, grows only in a narrow belt bordering the coast of southern Oregon and northern California. The wood is in demand for sash and door construction and boat building.

### A THOUGHT

A little one shall become a thousand and a small one a strong nation.—Isaiah 60:22.

Man seems the only growth that dwindles here.—Goldsmith.

### VISIONS BY GIRL DRAW PILGRIMS TO WITNESS EXPECTED MIRACLE.

Remirment, France.—Marcelle Georges, blonde peasant girl, age 13, goes every day to a roped-off spot in the fields to kneel and pray while awe-struck pilgrims, heads lowered, watch her. A week ago, Marcelle said, while praying in the same spot she saw the Virgin Mary appear on the crest of a cloud. A voice commanded the girl to return every day to pray and saying that a miracle would be performed. Marcelle asserts that every day at the same hour she again has a vision of the Virgin Mary. Pilgrims are arriving in ever-increasing numbers hoping to witness the miracle.

## When A Girl Loves

© 1928 by NEA Service by RUTH DEWEY GROVES

THIS HAS HAPPENED

VIRGINIA BREWSTER, after losing both father and wealth, consents to make her home with CLARISSA DEAN and her father. Her fiancé, NATHANIEL DEAN, objects to this for he mistrusts DEAN'S motives.

Meanwhile DEAN plots to get NIEL away from VIRGINIA but fails, and later is forced to pay blackmail to MRS. FARLEY to face a scandal. CLARISSA becomes jealous of VIRGINIA, and the latter resolves to leave, but DEAN insists that she marry him, saying that she cannot endure poverty.

When she refuses, he threatens to reveal the fact that her father cheated him out of \$100,000 in a stock deal. Recklessly, she promises to marry him, but later, when she has married him, she goes to NIEL and tells him of her plan to break with the DEANS, but her joy at seeing him is clouded because she has to appear in public with DEAN, and she knows that DEAN will never let her meet NIEL.

She goes to an employment agency where she is interviewed by one of the "newly-rich" impossibles. She returns to the agency to report and is surprised to find a man waiting for her. He is none other than NIEL, who has come to her hotel to see her. He has come to see her and to see her father's old home.

NOW GO ON WITH THE STORY

CHAPTER XXVII

"EST you forget what the world has to offer," Virginia read on Frederick Dean's card. It seemed to her, as she stared at the bit of pasteboard, that she could see his jeering smile behind the words, mocking her fight with him, taunting her with her misfortune.

She was tempted to throw the fragile blooms across the room with the same fury that she tore his card to bits but their beauty restrained her. Hastily she replaced them in the box and put on the lid.

"What a horrid thing to do," she considered, frightened a little that the ignoble gesture of flaunting a symbol of what she had lost could upset her so greatly. To be disturbed was to admit her enemy's power, she knew.

The thought so occupied her that she overlooked the astonishing fact that Dean had her address. When it did at last occur to her she puzzled over it in much annoyance until she solved the question. She assumed he had got it from someone at her former home.

"I should have left instructions not to give my address to anyone," she regretted, provoked with herself. "But who could have guessed that even Frederick Dean would be so contemptible as to mock me with things that I love?"

Her afternoon was now thoroughly saturated with gloom. There was nothing she could do but wait for a call from Nathaniel. She sat

huddled in a chair, her head on her arms and her eyes feverishly dry, trying to hold her courage to the end. Time dragged along in weary, heavy seconds and endless minutes until—it really so—Nathaniel telephoned.

"It must be! It must be! Oh, dear God, help me!"

But help seemed very far away and the orchids on the bed were so near. Time dragged along in weary, heavy seconds and endless minutes until—it really so—Nathaniel telephoned.

He noticed at once when he came for her that Virginia's spirits were very low and he set himself to cheer her up, but there was no flash of spontaneity in her mind or heart. The day's events had dulled her, robbed her of all semblance of gaiety.

She saw understanding and sympathy in Niel's eyes as he talked to her over a table in an East Side restaurant to which they had gone to appear interested in the menu of foreign dishes but gave it up and laid Nathaniel order for her.

The best soup with sour cream she ate because she knew he would be troubled if she refused all food. After that she finished her dinner with tea and lemon in tall glasses. Nathaniel spoke of the music, enjoyed it, but it seemed to Virginia that the plaintive notes of the balalaikas would break her heart.

"Virginia, dear, have you any plans?" Nathaniel asked quietly when the music crashed to silence.

She reached out and laid a hand on his, a gesture of gratitude for his patience. "Not exactly," she said, shaking her head; "but you know, Niel, I've got to prove to myself that I can stand on my own feet. It's everyone's right to have that chance."

"But you didn't seem to think about that when . . . when . . ."

"I know . . . when father was alive," she finished for him. "I just took everything for granted in those happy days, Niel. Perhaps if it had occurred to me to want to make my own living I might have tried it, but I doubt it," she added honestly.

"I don't want to upset you with arguments, dear, but I can't see why you should be so keen about it now."

"Because I'm forced to make a living or admit that someone else must do it for me," Virginia told him. "I never gave a thought to whether or not I was entitled to all the good things that dad's money bought for me, but it's all very different now. I want to make sure, Niel darling, that I won't be with a leech on you."

"Please don't say such silly things."

"It isn't silly, Niel, and you know it. If it were any other girl

you'd say she was quite right because, you know, it was just the other night that you expressed yourself very clearly on the subject of freedom."

Nathaniel gazed at her hard for a moment. "You're cleverer than I thought," he admitted reluctantly. "I see now how you led me into that just so you could use it the next time I brought up this subject."

She nodded and smiled at him wistfully. "I want you to see it my way so you won't doubt me," she said softly.

"Doubt you . . ."

"You might, you did when you said I didn't know enough about love."

"Virginia, forgive me, I know it isn't selfish love that's greatest, and I was, I am, selfish, for I want you to throw all your own wishes into the discard for me. But I'm trying to see it as you do, and if I can't it's because I love you with every breath I draw."

"I'd rather have you feel that way than not to care so much," Virginia replied; "but if I don't love you so . . . violently, it's not because I don't love you as much as you do me, Niel. I think women can love in more ways than one at the same time," she added enigmatically.

Nathaniel thought she meant that of her father's memory. "No, a day after I've proved that I can earn my right to love," Virginia's answer was fraught with a different meaning for each of them, but Nathaniel did not know that.

"Well, I suppose I would congratulate you if you weren't the girl I want to marry," he admitted, half reluctantly. "After all, you're right. One has a right to justify his existence as he sees fit. If you don't think it's doing enough for the world just to make one man idiotically happy I can't stand in your way."

"Thank you, Niel. Now let's talk about you. When are you going to begin work on the murals?"

"Just as soon as I have those illustrations out of the way. Oh, I got a temperamental today and walked out."

Virginia started to ask why he didn't use another model, but checked herself abruptly. Honesty compelled her to admit to

herself that it wasn't Niel's best interest that had prompted the question so much as a wish of her own that he replace Chrl. And she was determined not to let her ridiculous feeling toward Miss Mond color her remarks.

Perhaps Niel might discover how she felt, and even though he laughed at her, as Virginia knew he would, she'd be terribly humiliated. She felt humiliated enough as it was to have to acknowledge to herself that Chrl disturbed her, but she couldn't help how she felt. "I can help making an open fool of myself, though," she warned herself solemnly.

"I suppose you must finish with her," she said conversationally.

"Yes, I'd rather. Soon reach the stage where I won't need a model to finish the things."

They talked for a while of his work and then Nathaniel took Virginia unawares by a direct question regarding her circumstances. "Have you all the money you need?" He intentionally put it abruptly, hoping to surprise the truth.

"Why, I . . . of course, Niel."

"Virginia, you haven't!"

"Yes, really I have plenty for the present, and you know I have an uncle in England."

"But I thought your father wasn't on good terms with that branch of the family," Nathaniel said, troubled.

"That's true, but I'm sure he would help me."

What she did not add was, "If I ask him." She wouldn't have asked him for words. He and her father had quarreled bitterly when her uncle had expatriated himself, damning the United States as unfit for a gentleman to live in. And at best, if she humbled herself to appeal to him, she could benefit only in easing her struggle for a livelihood.

It was unthinkable that she should tell him of Frederick Dean's charges against her father. Virginia could hear him sneering that she man could remain respectable in America. Oh, yes, he would believe her father guilty, and even if he were willing to part with \$10,000, and Virginia doubted it, she could not think of subjecting her father's memory to his contempt.

She succeeded, however, in satisfying Nathaniel that she would not be in want, and he dropped his intention of trying to force money upon her.

Presently they left the restaurant and stopped outside to wait until a cruising taxicab should happen along. Just as Nathaniel signaled to one down the block Virginia chanced to glance across the street. A man was emerging from the shadows of a doorway, but as Virginia's face turned toward him he stepped quickly back, though not in time to prevent her from seeing him.

(To Be Continued)

## BRIDGE MADE EASY

by W.W. Wentworth

(Abbreviations: A—ace; K—king; Q—queen; J—jack; X—any card lower than 10.)

←Initial No Trump Bids

At times difficulty is experienced in determining whether to bid a no trump or a suit. The best distribution of cards for a no trump is 4-3-3-3. We have determined that if the hand contains a blank suit, a singleton or a worthless doubton, it is inadvisable to bid a no trump. A major suit (spades or hearts) always should be given preference to a no trump when holding a sound bid in the major suit. A no trump should be given preference to a minor suit.

In the light of the foregoing, let us examine the following illustrations with a view of determining whether to bid a suit or a no trump:

Spades—X X X; hearts—A K X; diamonds—X X X; clubs—X. Only two suits are stopped. Bid one heart.

Spades—K J X; hearts—A X X; diamonds—K Q X; clubs—X. Three suits stopped. Bid one trump.

Count 20 points. Bid one no trump.

Spades—A K J X; hearts—A X X; diamonds—K Q X; clubs—X. Three suits stopped. Count 31 points. Singleton in clubs. Bid one spade.

Spades—A K J 10 X; hearts—A K J 10; diamonds—A K X; clubs—X. Three suits stopped. Count 37 points. Blank in clubs. Bid one spade.

Spades—X X X; hearts—A K X; diamonds—A K; clubs—A K Q X X. Three suits stopped. Strong club suit. Count 25 points. Bid no trump instead of minor suit.

Spades—A K J 10 X; hearts—A Q J; diamonds—A; clubs—A X X. All suits stopped. On account of singleton A, give preference to major suit (with 9 honours). Bid one spade.

In bridge, the word "never" is taboo. The proper expression to be used is "hardly ever." The exception to the rule that to bid a no trump only when you have three suits stopped is found in the hands containing four quick tricks massed in two suits, but offering no sound suit bid.

Styles by ANNETTE Paris—New York.

ENCHANTINGLY LOVELY

You'll be ready for any daytime occasion if you choose Style No. 992 and select novelty silk crepe, crepe satin, sheer woolen, faille crepe or georgette crepe for its development. The bodice closes in most unusual manner with buttons at right side, with inverted tucks at shoulders for decorative effect. The narrow turn-back collar is caught at center-front with jeweled ornament. The attached two-piece draped skirt, under back extends to center-front from underneath the right side of front, and is decidedly smart. Pattern for the charming slip-on dress can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. And only requires 3 1/4 yards of 40 inch material with 1/2 yard of 32-inch contrasting for the 36-inch size. Pattern price 15 cents in stamps or coin (coin preferred).

## The WOMAN'S DAY

by ALLENE SCIMNER

An old and a young mother gave the lives for their children the other day. Mrs. Verious Allen of Fairmount, Ind., hurried herself upon the knives of a disc harrow on her farm in order to keep it from passing over the body of her little 5-year-old-son who had fallen before it.

Mrs. Elizabeth A. Freeman, 80, of Bradford, Pa., died in saving the life of her middle-aged daughter, Mrs. Gertrude Cook. Mother and daughter were cleaning house when the daughter broke through the railing of the second floor porch. The aged mother held her as long as she could, but was unable to pull her back, and was dragged with her daughter to the sidewalks b-l-w rather than give up her grasp. The mother died 15 minutes later. The daughter will live.

And such is the power of the maternal instinct that it is more merciful for each mother to die than to see her child die. Much is said about the price of motherhood, its bonds and responsibilities. The biggest price is the constant fear engendered by too much mother love.

More Of It

Another maternal love story. Nearly 23 years ago Mrs. Grace Wilson saw her baby Ethel for the last time when the child's father took it away from her. The mother now has begun wandering over the whole earth searching like crazed Demeter for her Persephone. Her trail takes her from one city to another, wherever she heard of her husband's presence.

How rarely we hear of a child dedicating its whole life to finding a missing parent—probably because parents don't often get misplaced as children do. Probably, too, because Nature means the race to go on and not back and makes each generation more concerned with the one ahead than the one behind!

Mama-In-Law His Bride

Here's another mother-in-law story that is no joke. George Furber, 27, will wed his former mother-in-law as soon as she gets her divorce from her erstwhile son-in-law's erstwhile para-in-law. The groom is 27, the bride 45. They say that their mutual affection utterly disproves the old mother-in-law joke. They may learn that it's the same old joke in another guise.

No Funnier 'N Us

In China the bridegroom shoots three arrows at the bride chair in which the bride will sit during the ceremony. The arrows are supposed to ward away the evil spirits. That may get a smile from us Occidentals. But is it any funnier than our pre-nuptial round of teas and dinners and dances and gifts to the bridesmaids and cuff links to the ushers, to say nothing of white ribbons where the family sits and the wedding presents displayed on tables, and a ring and thimble and money hidden in the bride's cake, and a tossing of the bridal bouquet? Folde-rols and traditions are no funnier on one geographical spot than another.

Maria's Peavee

Blonde Marie Jeritza's peavee because France did not give her the decoration of the Legion of Honor

Russian Pajamas.

A new pajama suit has its full trousers of lipstick red flat crepe and its Russian blouse of hand-painted chertreuse, with figures in red, orange and black.

Summer Cleaning.

Getting ready for summer need not be so hard, if one is systematic. Wash all blankets, curtains, rugs and other furnishings for storing, then pack all at once.

Cute in a Baby-Awful at Three—and it's Dangerous

by Ruth Brittain

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Flannel the sleeve over the hand; attaching mittens, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is on the wrapper. Physicians have prescribed it for over 30 years. With each package, you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine—Adv.

HERE is a two-strap shoe that strikes a happy compromise—it is tailored enough for walking, because of its Cuban heel, formal enough to wear with one's little silk frocks, because a cut-out between the straps gives an effect of lightness.

Every Cantilever Shoe is made with a flexible shank, so that the important foot muscles can gain strength through exercise, thus correcting or preventing weak arches and kindred ills. By keeping the foot well-balanced and permitting it to function naturally, Cantilever Shoes enable you to go gaily through a busy day.

These new models fit perfectly at the heel; they hug the ankle; they fit the arch; and they provide room for the toes.

They give you a beautiful fit—and a beautiful foot. Come and see them.

HINTS ON HOW TO KEEP WELL by World Famed Authority

NO GERM ISOLATED AS CAUSE OF COLDS

By DR. MORRIS FISHBREIN  
Editor, Journal of the American Medical Association and of Hygiene, the Health Magazine

When the average person talks about having a cold he uses the term to describe many conditions which are distinguished by physicians as different disorders.

For instance, any irritation of the nose and throat with discharge of some fluid is called by the layman a common cold, but the physician may distinguish it as an infection of the sinuses, a symptom of grip or influenza, the first manifestation of hay fever, or merely a general infection of the nose and throat.

Today the common cold is likely to be considered an infection in itself in addition to being related to the various diseases that have been mentioned.

No Definite Germ

Unfortunately no single germ has been isolated as the actual cause of all colds, but dozens of germs have been found in association with colds at various times in various places by different investigators.

Indeed, not only are the ordinary germs known to medical science found occasionally, but even those very small organisms that will pass through a porous clay filter and that are called filtrable viruses.

For this reason most bacteriologists are convinced that it is not a single germ but the presence of many germs that may be responsible for different individual cases.

Many people are convinced that changes in the weather are associated with catching cold. Exposed to inclement weather, dampness, or sudden change, particularly sudden changes from very warm to very cold, seem to be definitely related to rapid spread of the common cold in the community. Colds are more frequent

## MARYE and MOM Their Letters

Dearest child:

I'm very glad you have had a chance to see Julia again, but I hope she has not made you dissatisfied and discontented just because you can't buy all your clothes in Paris and gad all over the continent.

And I do wish you could consider your marriage a career enough, without wanting to be an interior decorator or a chorus girl on the side.

Sometimes I think it would have been a very good plan for you had you really been obliged to earn your living—or attempt to—for a few years. Then you would probably know that it is not all as exciting and fine as you think.

You really have had it about as easy as any girl in town, and you made a better marriage than most of your friends—to say nothing of going to the city to live. And yet, you still feel as if you were "taking other people's dust."

When your father and I were first married, I did all the housework, and we did not have the conveniences everyone has today, and I made all your clothes—and made my own. I had a life-sized job and there was no need for my thinking of any career.

I used to think that if I were not so busy, I would love to read more, and study more, and make more of myself. After my marriage, I did not have time to keep up my music, which had always been such a pleasure to me.

It seems to me so foolish on your part, not to cultivate yourself more when you have all the opportunities a large city affords. You have a very sweet voice, I can't understand why you don't take vocal lessons—you would have so much time to practice. Or why not join some good study classes?

Why don't you study French or some modern language? Then if you have a chance to go to Europe you can enjoy yourself so much more.

I am sure you will look lovely for the party, whether you have a

## One-Minute Interviews

VEGETABLES, RARE, BEST FOR HEALTH

"Vegetables, rare, please!" That, says Dr. Ruth Okey, will be as common a dinner order of the future, when food values really mean something to us, as "Steak, rare," is today.

Dr. Ruth, as Associate Professor of Household Science at the University, is "Okey" on her vitamins. "Private homes are learning to cook vegetables as little as possible, thereby conserving more of the food values," she said.

"But restaurants, institutions and hotels that cook in large quantities steam, boil or bake vegetables until you have to look at them to see what species they are—for their taste has disappeared along with the vitamins."

"Vitamins are destroyed by overcooking. Vitamin B, for instance, can have 65 per cent of its value cooked out of foods. The lack of this vitamin causes loss of appetite, failure of young animals to grow, loss of weight, lack of vigor, and intestinal difficulties."

The loss of Vitamin C, which overcooking reduces about 50 per cent, causes irritability, certain types of decay, itching, pains in the limbs and joints. Vitamin A, also destroyed by overheat, protects one from susceptibility to infection, so is all important.

TURNING BELTS

To turn a belt right side out that you have stitched on the wrong side, pin a safety pin on one end and use it as a bodkin.

### If Half the World Knew How Other Half Works

By Olive Roberts Barton

You can talk as you like about men having it all their own way in the world, but maybe they do and maybe they don't.

At any rate, I believe it would be a good thing if young husbands with dissatisfied wives could take said wives to the office with them about one day out of every month and make them sit there, from 11 until five, with a piece of pie and a cup of coffee around the corner for lunch, and let them get an idea of what it means to hustle for a living.

Most wives answering to the above descriptions may see the inside of the world. All they see is the mind picture of John, an immaculate island in a sea of plush and mahogany entirely surrounded by pretty office girls to do his work.

I was amused the other day at a young girl who had slipped into a very busy newspaper office to get her John to take him home in the little car. She stopped in the doorway, confused and uncertain. Surely she couldn't be in the right place! This enormous room, with its floor, its desks, its typewriter, behind which sat a man in shirt sleeves clacking away for dear life—this couldn't be John's office.

Why nobody had a coat on even, and such a glare of light! What they needed, there was a woman or two to put up some shades and curtains, and teach those men some manners! I could see that in her eyes. No coats! And not a soul to greet her and ask her what she wanted! Nobody paid any more attention to her than if she'd been a chair. And that noise and clang from the street, and the dirt and dust! Horrible! How could they think?

Then she saw John, over in a hot corner, tired and disheveled, running his hand through his hair and reading over some copy. I saw the startled look in her eyes, and then came pity. Her John, whom she wasn't always nice to when he came home.

Why not organize a society to take young wives to the places where their husbands work all day long? Then perhaps if John forgets the meat, or says he has a headache and can't play bridge, she will understand why, and not add to his already crowded day by having him to coax her out of a temper.

Cute in a Baby-Awful at Three—and it's Dangerous

by Ruth Brittain

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Flannel the sleeve over the hand; attaching mittens, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is on the wrapper. Physicians have prescribed it for over 30 years. With each package, you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine—Adv.

### Inscription For Louvain Library Starts "Peace" Rumpus In Europe

Brussels.—July Fourth this year will mark the end of a great battle for "peace" in Europe. On that day will be inaugurated the Louvain Library, rebuilt by funds from the Carnegie Foundation of America.

With the inauguration of the library's cornerstone probably will have been decided.

Belgium is awaiting the outcome of the controversy with intense interest because of the persons involved and because of the question at issue.

"Destroyed by German fury—Restored by American generosity"—these two lines written for the inscription by the late Cardinal Mercier, war hero, have provoked the storm. Do they engender hatred? Will they, graven in marble be the cause of everlasting hostility between Belgium and Germany?

Views Differ

"No," says Waltney Warren, New York architect who planned the new Louvain Library that stands on the site where the old one was burned by German soldiers.

"Yes," asserts Dr. Nicholas Murray Butler, president of the Louvain Library Committee.

"Dr. Butler would substitute the following lines for the inscription: 'Destroyed during the war—Restored in days of peace.'"

Cardinal Gasparri, Papal secretary of state, one a query from Monsieigneur Ladeuze, accepted the Butler version, but authorities at the University of Louvain and numerous Catholic dignitaries of Belgium are not in accord with Rome.

Monsieigneur Ladeuze wrote to Mr. Carol Greenough, member of the American committee to say he personally would admit the revised inscription.

Belgium is naturally grateful for

the American work and money which is giving the country an imposing structure to replace the historic library. For this reason the country in no diplomatic sense is being drawn into the controversy waged between the American donors.

But the Press is outspoken. Little sympathy is found in Dr. Butler's contention that the carefully nurtured spirit of Locarno would be ruffled. Newspapers believe with Mr. Warren that if Cardinal Mercier were alive today he would refuse to change the original inscription.

Dr. Butler's Effort

Dr. Butler is said to have tried unsuccessfully to sound out diplomatic circles as to the official Belgian attitude in view of the protest his proposed modified text caused. It is pointed out in the Press that this attitude would be in favor of Cardinal Mercier because the principle at stake is the same as that in the showing of a film of the life and execution of the British nurse Edith Cavell.

England banned the motion picture as one likely to awaken war hatred, but Belgium, despite representations from Germany, allowed the film to be shown in Brussels where it was acclaimed. Critics said: "Why bury the past. The picture does not excite hate and breed war consciousness. On the contrary, it so graphically depicts the horrors of battle that no one will ever want another war."

Today, the principals in the controversy refuse to yield yet some concession must be made. There is one man who could settle the dispute with a single word. He is Albert, King of the Belgians but his silence in such matters has always been traditional.

### Electric Furnace To Convert Steel Into Vapor, Made By Colorado Man

Denver.—Porter H. Brace, a graduate of Manual Training High School here, and of the University of Colorado Engineering Department, has invented a furnace on "still" that will melt and then turn to a vapor solid steel.

The device is called "High Frequency Vacuum Induction Furnace." It is operated by an electric current that oscillates at the rate of 30,000 times per second. Heat, in the ordinary meaning, is not produced, in fact the machine will not scorch a bit of paper. Nevertheless, when a piece of steel is placed inside and the current turned on, the body of metal takes on a glistering surface. Suddenly it begins to take on the properties of a liquid, and finally evaporates like water in the tea kettle.

The fumes from this evaporation are pumped out and analyzed to find what impurities are contained in the metal. This is the practical purpose of the invention.

The principle upon which the invention is based is the fact that the rapidly oscillating current in the machines induces an equally strong and rapid sympathetic current in the metal. This induced current causes the molecules of the steel to repel one another with a force equal to 15 times their own weight. The pieces of the metal charged in this manner have repulsion powers of great magnitude. One piece lying on the table will keep a second piece of metal suspended in the air above it.

Steel, thus magnetized by focusing an alloy of combat, namely Chorium and Tungsten, has been put to many practical uses, among them the automatic switch in an electric iron. The current is shut off when a certain temperature is reached. It is also used in a machine that teaches the dumb to talk and locates oil underneath the surface of the ground.

Brace has been associated with the Westinghouse Research laboratories since his graduation from college. His mother lives in Boulder, Colo., and his father was a former leading mining man of Colorado.

'TIS A CROOL WOLD

Oakland, Cal.—It's tough when you make up your mind that you want to die, and then can't. Eva Frances, tired of the mortal afflictions that beset her constantly, sat herself upon the tracks of the Southern Pacific and waited patiently for the electric to come along and assist her to another world. But the motorman stopped the car and Eva fainted. She gave no reason for her desire to die.

### TOLLAND

The iron fence on the south side of Skungamug cemetery is being improved by an attractive new fence being put in by Charles Holman of Manchester and his sister Mrs. Alice Holman Hall of South Willington.

The All Day sewing meeting of the Union Mission society will be held Thursday with Mrs. Howard Crandall. It is expected a large number will be present as this is the last sewing meeting until September.

Tolland Grange has received an invitation from Echo Grange, Mansfield, to attend its regular meeting on Tuesday evening, June 19, and furnish a part of the evening's program.

Mr. and Mrs. George Brooks of Daytona Beach and Coventry, former residents in Tolland have been visiting friends here.

The entertainment given under the auspices of the officers and members of the Tolland Fire department in the Town Hall on Friday evening was a great success. The hall was filled to its capacity and all who were present enjoyed the program which consisted of numbers rendered on a harmonica by children from Frog Hollow school in Ellington. Salvation Army orchestra, members of the Salvation Army band of Manchester, rendered a program that was highly enjoyed by all present.

Mr. and Mrs. George P. Charter attended the funeral of their nephew Bert Arion in Waterbury, Monday.

Eddie Rudolph who is attending college in New York City was a week-end guest at the home of his mother Mrs. Henry Wilkins. Miss Ruth Ayers who is in training at the Hartford hospital, made a short visit at the home of her parents Mr. and Mrs. William Ayers of Merrow road.

Mr. and Mrs. Robelski of Manchester, called on several acquaintances here recently.

Mrs. Marion Agard Baker is visiting relatives in Hyannis, Mass. Emil Ewald who has spent the winter in New York City employed as a baker, has returned to his home here for the summer.

Mrs. Aaron Pratt and children, Aaron, Jr. and Mary Agnes Pratt, of Windsor, Conn., made a short visit at the home of Mrs. Pratt's mother, Mrs. Charles H. Daniels. Auditors of the Savings Bank of

Tolland, Hon. Edward E. Fuller of Tolland and Hartford, John N. Keeney of Rockville, have completed the audit of the books at the bank. The annual meeting of the corporators will be held Monday, June 25. At that time the treasurer I. Tilden Jewett will present his report.

The graduation exercises for the eighth grade pupils of the town of Tolland will be held in Hick's Memorial school assembly hall, Thursday evening, June 4, at eight o'clock (D.S.T.). The following program has been arranged:

Proclamation. Invocation, Rev. William C. Darby. Song, "Amaryllis" . . . . . Chorus

Essay, "America The Beautiful, Florence Ludwig. Recitation of the poem, Alex But-

Song "America The Beautiful" . . . . . Chorus. Recitation, "The American's Creed" . . . . . Susie Hanks. Song, "Lord of the Sea and Land" . . . . . River School Pupils. "Spring Song" . . . . . Buff School Pupils. Essay, "Our Schools" . . . . . Lawrence Labots.

Song, "Happy Song" . . . . . Chorus. Essay, "Opportunity" . . . . . Anita Frishman. Songs, "The Garden by the Sea," Grants Hill pupils. "O Tunesful Hosts" . . . . . Hicks Memorial School.

Award of diplomas. Award of prizes. . . . . A. L. Young. Song, "Shout Loud in Triumph" . . . . . Chorus.

Reception to Graduates. Class colors—Blue and Gold. Motto—Rest is rust. Mr. and Mrs. Claud Jones and

son Edward, Mr. and Mrs. Augustus Mueller of Willimantic were callers Sunday guests of Mr. and Mrs. George P. Charter.

The regular meeting of Tolland Grange was held Tuesday evening in the Federated church vestry. The roll call of members was responded to by "What has the Grange done for you" with many interesting ways it had been of benefit. A discussion on the part of different members in regard to preparedness, Music by the Grange. The evening was full of interest and the social hour was given over to refreshments by the following committee, Mrs. Madge Wilcox and Henry Hill.

Mrs. Bombetta left Thursday for East Brantford, Mass., where she will spend several months at the home of her daughter and family.

# Fugazy, Great Muddler In Signing Up Bouts

## Leo Lomski Contracted to Fight Two Topnotchers and Chances Are He Will Not Meeting Either Man.

New York, June 8.—If those in the rear will kindly be quiet and watch the birdie very closely, Humbert J. Fugazy, the man with a fountain pen for a forfinger, will show you today how he can sign the leading challenger for the light heavyweight title two bouts with the champion in that class and the one immediately below it and end up by getting him neither fight. And the fault need not be of the challenger's making.

The saps were startled to learn yesterday that the New York commission had sanctioned a match between Leo Lomski, chronic challenger in the light heavyweight division, and Mickey Walker, middleweight champion, for July 4. It is a good match but it may never take place. Lomski also is signed with Fugazy to get a title shot at Loughran or Slattery before the end of the current outdoor season. Lomski may lose that spot, too.

Has Three Fights

In fact, with three contracted fights before him, the only one he is certain of is his meeting with Pete Latzo next week. A mirror image of himself below in boxing has made it possible for Lomski to beat Latzo from here to there and still stand disqualified from any chance of meeting Walker on July 4 or of getting his chance at the light heavyweight title later in the season.

The situation in question can be brought about in this manner: Ace Hudkins and Walker are to meet for the middleweight title in Chicago on June 21. If Hudkins wins, Walker is out as Lomski's opponent. And so is Hudkins, since Lomski and the Nebraska are handled by the same management. Mr. Fugazy's active mind has conceived several alternatives, including the possibility of Latzo winning from Lomski and then meeting either Walker or Hudkins, according to the way the Chicago fight goes. But when I left his presence today, he still was struggling manfully with the problem of removing the bag from Lomski's hands in the event that Hudkins wins that heat in Chicago.

Next Trick

Mr. Fugazy's next trick will be to demonstrate just how it will be possible for Lomski to beat both Latzo and Walker to a pulp and still fall to get his fling at the light heavyweight title, the inducement which attracted him to Mr. Fugazy's front parlor in the first place. He can lose this chance without the slightest degree of come back, provided Jimmy Slattery beats Tommy Loughran out of his championship on June 28. For, according to the official views of local commission, Loughran is the only fighter who is obligated to fight Lomski for the title. If Slattery doesn't want the spot—and reports have him refusing to fight Lomski last winter—he may gaze pensively at the distant skyline and

### DID YOU KNOW THAT—

Another Glendon, young Hubert, is teaching rowing at Columbia. . . . Brother Dick is varsity tutor at Columbia and Papa Dick teaches the navy how to row. . . . The Braves had to give \$10,000 for Sisler instead of the waiver price. . . . And his salary will run him up to about twenty grand. . . . Hornsby says he has three trades heating. . . . One is for a swell outfielder. . . . Red Grange is quitting football and going back to the movies. . . . Four thou a week is four, thou whether Pyle likes it or not. . . . The swell Vanderbilt Hotel where Pyle lives was burnt up about the bunions hanging around the lobby waiting for their dough. . . . The house dicks strained at the leash. . . . Reigt. Count won't race Victorian in the Belmont on account of bad leg. . . . The Swipes whisper it is only a skin bruise. . . . But Victorian crawled out of the Derby engagement. . . . So the score is tied. . . . Luque's won't race Victorian in the Belmont on account of bad leg. . . . And he'll carve you for calling him something that Cubans ain't.

## Giorgetti Wins Race With Ease

Leading the way unmolested from eight miles to the finish, Franco Giorgetti, Italian cyclist and winner of the American championship last year, got away to a good start in the 1928 series last night when he captured the forty-mile motor-paced race at the Hartford Velodrome, completing the course in exactly 58 minutes while over 5,000 persons looked on. The Italian rider was pushed hard once or twice when Vincent Madonna, his countryman, from whom he took the lead early in the race, but the latter was unable to regain the lead.

The only rider to pass Giorgetti during the night was Victor Hopkins of Iowa, former U. S. champion, who did so in making up a lap after losing a pedal. He climbed back into third place only to fall back again. Here is how the riders finished: Franco Giorgetti, Italy, first; Vincent Madonna, Italy, second; Sammy Gastman, Newark, third; Frank Keenan, Boston, fourth; Victor Hopkins, Iowa, fifth and Rene Boogman, Holland, left the track when something went wrong with his pacer's motor on the thirty-fifth mile. However, he had no chance of winning.

### WHO CHALLENGES HIM?

William Wimsatt, a track athlete at the Georgetown University, is seven feet tall and believed to be the tallest college athlete in the country.

If Lomski comes around to headquarters seeking redress, he will find the noble commissioners looking out the window, too.

As matters stand, our busy promoter has made so many contradictory bets that possibly he stands to cash exactly none of them.

## Twilight Baseball Game Called Off

The twilight game between Manchester and Torrington set for Hickey's Grove this evening has been postponed. The Torrington team reported late yesterday that it would be unable to come here tonight. Sunday, the locals go to Bristol, but there will be no game tonight.

## ORCHARD'S OUTFIT VICTIM OF A JINX

### Trade School Drops Second Overtime Game in Succession by 4-3 Score at Hartford.

Coach Tom Orchard's State Trade school baseball team is evidently the victim of a jinx. Again yesterday, it dropped an overtime game by the margin of a single run. This heart-breaking decision was lost at Hartford, La Salle College being the winner by a 4 to 3 score in twelve innings.

Only a few days ago, Springfield Vocational beat the Trade school by the same score in a fourteen-inning struggle played in the Home City. And once again yesterday, Manchester had a chance to win the game in the closing innings, but the breaks were against it.

The Trade scored two runs in the seventh to take a one-run lead but Hartford knotted the count in the eighth. Landeen pitched a strong game whiffing ten batsmen and allowing seven hits. His rival, Kustosz, was touched up for only four hits and fanned fifteen. Errors paved the way for most of the runs.

New Britain Trade plays here next Friday afternoon. Yesterday's box score follows:

MANCHESTER TRADE				
	AB	R	H	PO
Bauer, If	3	0	0	0
Peltier, rf	5	0	2	0

## OLYMPIC HOPES

CHARLES E. BORAH

A nephew of Senator Borah of Idaho, Charles E. Borah of Southern California, is probably the greatest sprinter in this country today and naturally an almost certainty to grace the United States Olympic squad at Amsterdam this summer.

Borah was forced out of the recent I. C. 4-A meet at Harvard because of an injured leg and the muddy track, but his sprint performances in the past few years are deserving of a place on the team provided his leg heals.

Borah has twice run the 100 in 9.5 seconds and has been clocked for the 220 in 20.9 seconds. He won the national A. A. U. championship in 1926 at Philadelphia and again in 1927 at Lincoln. He also won the 220 at Lincoln. At the I. C. 4-A meet in Philadelphia last year, he won the 100 in 9.8 seconds and the 220 in 21.9 seconds. In his career, he has defeated practically every important sprinter in the country.

Borah is 22 years old and a junior in the dental college at Southern College where he has averaged better than 96 in his studies. He weighs 148 pounds. His training for the Olympics has been carried on under the direction of Dean Cromwell, Southern California's famous track coach.

## Mrs. J. P. Cheney, Mrs. F. J. Bendall Win Blind Bogey Events Ladies' Day

A good-sized number of women golfers turned out yesterday for the Ladies' Day program at the Manchester Country Club and some very interesting matches resulted during the blind bogey events played over both the nine and eighteen hole distance.

Mrs. John P. Cheney, Sr., was the winner of the competition over the complete course, shooting an 109, which with her chosen handicap of nine strokes, made her net exactly the same as the blind bogey—100.

Others competing in the 18-hole event were Mrs. Allen, Mrs. Cox, Mrs. Dexter, Mrs. Blish, Mrs. Baker and Miss Alice Cheney.

Mrs. Fred J. Bendall was the winner of the nine hole event, her net being four strokes above the 47 drawn for the blind bogey. She had a gross of 59 with a eight handicap for a 51 net. Others in the event were Mrs. Carpenter, Mrs. Austin Cheney and Miss Ruth Cheney.

Players in both events were allowed to choose their own handicaps and the result was very satisfactory to all concerned. In fact, Ladies' Day was highly successful.

Mrs. J. Clarke Baker, chairman of the tournament committee, stated today that another tournament will be held next Thursday. Play will be on a basis of selected scores for the best six holes over the course, three on each nine. In the nine hole event, the scores of the three best holes will be selected. Prizes will be awarded for each event and a light luncheon will be served.

Wimbledon. The duke is a terrible tennis player and he's a southpaw with it. He trips and falls almost as often and ungracefully as his elder brother, Dave, but like the prince he refuses to give up.

The duke gets into the doubles because he can swing the royal wand over his subjects for a partner and twice the royal wand has socked poor old Norman Brookes, the Australian wiz, who knows he could go farther without the duke.

It's a long way for Brookes to travel from Australia to Wimbledon and he's knocked off in the second round, but when one of the king's little boys says, "Come on," it's a "come On Game."

They wouldn't dare keep the duke away from Wimbledon, but they did succeed in persuading him not to play singles and the draw for courts strangely has kept him pretty far away from the main courts.

Would That I a Tracker Wuz

The hard-working college athletes in the east are asking "How come about the nice thing the Stanford track team fell into. It seems that when Dink Templeton gathered his little band of athletes and started them east to win their second championship the professors kissed them goodbye, the president blessed them good, and they left them ten grand to keep them in groceries.

They, according to the complaint in the east, were excused from a month of classroom work, relieved of the terrors of final exams and authorized to stay in the east until the Olympic trials in July. A lot of them will start then for Amsterdam.

Tain't right, the eastern boys weep, and they quote the slap one of the good Yale boys got from his profs. He got a leave to go home and stand up with a brother who was being married. He was a day late getting back and was fined enough credits to make him ineligible for the intercollegiate.

But Think of the Honor!

The Duke of York was permitted again this year to enter the British national tennis championships at

DOUBLE-HEADER AS OPENER

Indiana will open the 1928 football season on September 29 with a double-header at Bloomington, Wabash to be played in the first game and Indiana State Normal in the second.

## GIBSON'S GARAGE, NORTH ENDS WIN TWILIGHT LEAGUE CONTESTS

### Bon Ami and Heights Each Wait on Own Field for Other to Show Up; Hence No Game; Green-Depot Square Postponed.

Two games were played and two postponed in the Community Club twilight baseball league last night. Gibson's Garage triumphed over Talcottville at Hickey's Grove and the North Ends were returned a 10 to 3 winner over Highland Park.

The Depot Square-Manchester Green contest was put off until a later date because of the Lawn Fete. Both the Bon Ami and Heights players were in uniform for their game, each waiting on its own field for the other team to show up, due to a misunderstanding as to where the game was to have been played. As a result the game was not played. It was supposed to have been on the Bon Ami's field, it is understood.

Charlie Varrick struck out thirteen batters in leading the North Ends to their triumph. He allowed but five hits. Highland Park fielded poorly. Varrick and Nichols were the best hitters.

The much-improved Gibson's Garage outfit looked impressive in beating Talcottville. Jerry Holmes and Hanna, new men, played well. The former fanned eight men during the time he was on the mound.

### ALL BUT ONE CREW READY FOR REGATTA

Poughkeepsle, N. Y., June 8.—With Syracuse on deck today the contenders in the intercollegiate regatta, June 19, are all here with the sole exception of Cornell. The Ithacans are slated to arrive here on Sunday.

The garage nine is pointing for its games with the Bon Ami and Manchester Green.

POLICE COURT

Steve Burke of Union Street appears to be playing in hard luck. He was released from jail yesterday after serving a term for assault on his wife and was immediately re-arrested on the charge of non-support of his wife and two children.

His wife was the principal witness and from her testimony it was gleaned that he had given her very little support since last Christmas time. There is friction among the members of the family. Judge Johnson found him guilty and sentenced him to jail for 30 days and then suspended the execution of the jail sentence in order to give him a chance to get to work and contribute \$15 a week for the support of his family.

Edward Garland, an old offender, was before the court this morning on the charge of intoxication. He was arrested by Officer Edwin Donaldson last evening. Garland has not been in the local court for more than three years and for this reason Judge Johnson gave him a chance to make good by a suspended judgment.

REAL AFFECTION London.—George Wilson, 40, is a real affectionate—especially when his eyes vision officers of the law. A demonstration of his love for the stalwart guardians of justice was given recently when he tore one of their trousers in an attempt to bite him and then delivered a lusty kick at another. For that offense, and for being intoxicated, he was fined approximately \$8. Living's cheap in the old country.

Refreshments consisted of strawberry shortcake and coffee. The faculty presented Miss Treadwell with six goblets and six lunch plates of rose glassware and Miss Hunniford with an electric yellow white fox. The place cards were plus loud speakers with the names reversed so that Miss appeared on the card as SSIM thus causing those attending some minutes of diligent search before they found their right places.

Miss Lillian Treadwell will be married on June 23, the day after the school closes to Stuart Segar of Main street, Manchester. Miss Marie Hunniford will be married on June 30 to Verde Dookum, building contractor, of Waterbury.

Howard M. Tingley and wife to Charles H. Beam and Fannie Beam land and buildings located on Phelps road.

Robert Wetherell to William Wetherell, land and buildings there on located on Alton street in the Pinehurst section.

Intentions of Marriage Joseph Levrio and Margaret Vesco, both of Manchester.

Edward A. Fitch and Leora F. Yorkitis, both of Manchester.

Theodore Wagner of Rockville and Freda Langer of Manchester.

Size for size, a thread of spider silk is tougher than a bar of steel.

PARTY FOR TEACHERS

A party was given at the Barnard school last night in honor of Miss Lillian Treadwell and Miss Marie Hunniford by the teachers of the Nathan Hale school. Miss Hulda Butler was in charge of the arrangements and the Boys Lunch Room was transformed for the time being into Radio Broadcasting station W.E.D. The color scheme of the decorations was orange and yellow with floral bouquets of daisies and white fox. The place cards were plus loud speakers with the names reversed so that Miss appeared on the card as SSIM thus causing those attending some minutes of diligent search before they found their right places.

HAY, HAY, FARMER! HOW'S THE GAS CROCK?

Inch by inch the farmer is being driven to the wall and now all that is left for him is to grow—gasoline.

Fred H. Norton, of Main street near Henry street, has a splendid stand of hay next to his home. For years it has been admired by farmers and others as a case of submitting sealed bids when the matter of selling the hay came up. There was a great demand for it.

This morning Mr. Norton was heard asking a man if he would kindly cut it and take it away. "Sorry but I have no horse."

That Czechoslovakia has never forgotten America is evidenced by the word just arrived from Rev. John S. Porter of this town and since 1891 a worker under the American Board of Commissioners for Foreign Mission in Prague. "On July 4," writes Mr. Porter, "a monument to Woodrow Wilson will be unveiled in front of the principal railway station of Prague, which has borne the name of Wilson Station for the past ten years. This year we are celebrating the tenth anniversary of the Czechoslovak Republic. Many Czechs are coming from America and elsewhere to participate."

Mr. Porter, who is a native of Gilead, and who married a local woman, occupies a class all by himself as he is the only representative of the American Board in Czechoslovakia. He adds the interesting information that the street on which Wilson Station is located is called Hoover street, named as Mr. Porter writes, "After our American Mission is a wide one, containing as it does, 31 organized churches and more than 150 places where regular Christian services are held. He is ably assisted by a large number of Czechoslovak pastors. Mr. Porter speaks both the German and Bulgarian languages fluently.

A necklace of beetles' legs is used as a love-token by natives of the Solomon Islands.

Warrantee Deeds James A. Hall to William Rading a small tract of land having a frontage of seven feet on Summit street, adjoining the land of Rading.

CUMMINGS A JUDGE OF FLOWER SHOW

Will Act With Mrs. Louise Kellogg on Garden Club Exhibits Here.

The committee on judges for the Manchester Garden club's flower show at Center church Thursday and Friday of next week, in addition to securing Mrs. Louise Kellogg, the West Hartford iris grower to act in this capacity, have arranged with Alexander Cummings, Jr., of the Bristol nurseries, who is well versed on shrubs and plants to judge the exhibits. Mr. Cummings gave a comprehensive talk on roses and perennials at a mid-win-fall.

ter meeting of the local club. Plans are rapidly taking shape for the coming event. The awards committee, since the vote of the meeting not to award money prizes, have had red, white and blue ribbons printed with the name of the club and other data. Several committees have had meetings this week and report progress and much enthusiasm.

A number of the members, particularly those in charge of the wild flower exhibit, are planning to take in a similar show at Glastonbury tomorrow under auspices of the Garden Club there.

HOPE FOR ALL-AMERICAN The Washington Huskies expressed belief recently that they would have an All-American football star on their team next fall in Chuck Carroll, high point scorer in the Pacific Coast Conference last year.

PUBLIC IMPROVING TASTE IN MUSIC

Watkins Men Report General Optimism at Music Convention.

C. Elmore Watkins and William Rush of Watkins Brothers returned Wednesday night from the annual convention of the Allied Music Industries of America, held at the Hotel Commodore, New York City, this week. Optimism was the prevailing note of the great convention. Despite the admitted fact that the sale of pianos has declined during the past year, statements were made by eminent authorities in various lines that the public taste for better music was increasing.

During the Tuesday morning session, Roy (S. L. Rothapel) came over and talked to the piano men about his experiences with the public. No one who has not seen Roy personally can describe the charm of the man. Although his talk was mostly about his work, his bearing was so modest and so far from seeming egotistical it endeared him to his audience in a very unusual way. He stated that he had received over three million letters from admirers and made hundreds of visits to towns small and great to find out how his programs were being received and what the public really wanted. The letters and the visits convinced him that only the best things would hold the public's interest permanently.

On Sunday afternoons, he now plays the Symphonies of Beethoven and Schubert and some of the more modern things of Debussy and Richard Strauss and they are much more popular with the public than the Monday evening concerts which are given up to light programs. Someone asked him if he wouldn't mind in his Monday evening talks that people ought to take more interest in learning to perform themselves. He laughed and said that would take care of itself. He was sure that with the evidence he had of the love of most people for really good music it would follow inevitably that more and more would want to play.

Many new short cuts to learning piano playing were presented. One of the most interesting was the Visiola. This is an electric device which requires the use of two pianos. The keys played by the teacher on one piano are picked out on a second piano by light signals in red and green above corresponding notes. Children from five to seven who had only three weeks' lessons on the Visiola played with astonishing correctness. Delightful little melodies with accompaniment. Two little brothers played a duet and when called upon from the audience changed to different keys. These two not only changed the key correctly five times but alternated parts, the younger playing first the bass and then the treble.

The whole Visiola device is soon to be offered in a single duo-art piano. With this new instruction, an adult unfamiliar with music is able to execute a fairly difficult musical composition with very little practice. Other devices for the better understanding of music and musical terms were offered in the audio-graphic roll and the musical dictionary. The audiographic roll is a device by which the composer's life and accompanies the music with a running explanation of what the music is attempting to say. With more leisure, people who have missed the advantages of early training in music are now taking up these helps toward musical appreciation.

On Tuesday night, Mr. Watkins and Mr. Rush attended the annual dinner and meeting of the Steinway representative of the United States. This annual affair is most unique. It is believed that nothing like the relation between the members of the Steinway family and their dealers exists elsewhere in modern industry. In the whole country there are forty-eight major representatives. These men are chosen for certain qualities of integrity and financial responsibility, and once chosen are almost always members of the Steinway family for life. In other piano agencies and other lines of industry the rule is for the manufacturer to set their dealer a quota and see to it that he fails to live up to it. A great many times this results in a constant nervous tension if not in the utter ruin of the dealer who tries to get rid of the merchandise forced upon him.

No tenseness charges the air of a Steinway dinner, but the whole family of manufacturers and dealers sits down around the tables to discuss frankly the problems of interesting people in better music and making America truly musical. Theodore Steinway, who it will be remembered spoke in Manchester at the opening of Watkins Brothers' new store, is now president of Steinway & Sons and presided at the meeting. Mr. Steinway joined in the general optimism that prevailed during the convention.

Electric power and light, sufficient for a town of 70,000 inhabitants, is produced by the machinery of the largest size ocean liners.

DANDELION DOOMED

Guthrie, Okla.—The lowly dandelion has run its course. This evening, in addition to being used as a food, or something for the home-loving man to weed out of his lawn,

is secretly brewed into a glorifying and edifying concoction, must go, according to an edict by Mayor Ralph Davis. Davis has sent out a proclamation urging citizens, as part of their "Clean Up Week", to rid the community of "this obnoxious flower."

## WASHINGTON SCHOOL HAS PARENTS' NIGHT

Interesting Program Given Yesterday; Dramatizations and Songs Given.

Parents Day was observed at the Washington street school yesterday. Grade 6 under Miss Grace E. Corcoran presented the following program: a dramatization of the King of the Golden River by the 6th grade boys in correlation with the literature class. In the first scene the class showed how the agricultural system of the Black Brothers was interfered with by the South West Wind. The second scene showed how after the Treasure Land was destroyed when the Black Brothers became goldsmiths. The third and fourth scenes showed how both Mr. Hains and Mr. Schwartz set off on expeditions in search of the Golden River and failed. The last scene showed how little Gluck set off on an expedition and succeeds because of his honesty.

Dance.—The May Procession with the 6th grade girls. Dance composed by Janice Remig and Edith Brown of the 6th grade.

Songs.—Groups of songs by member of the entire class.

"My Farm"—farmers: Joseph Sartor, Ernest Taggart, Charles Smith.

The Spinning Jenny, colonial maidens—Edna Modean, Emily Palmer, Grace Proctor, Janice Remig, Edith Brown and Jennie Kose.

To My Mother.—An aged mother, Evelyn Bach.

Somebody's Mother.—poem recited by Edith Taggart.

The Street Band.—drummer Ernest Taggart.

"Allegiance: Girl Scout, Bertha McNeill; sailor, Janice Remig; Boy Scout, Gordon Fraser.

"Nightfall" and "Stars of the Summer Night" by all the pupils concluded the program.

### SEEK COP ADONIS

Utica, N. Y.—Lawbreakers of this city haven't half the chance they used to have. Talk among old-time criminals is that crime isn't what it used to be. It's all because the city policemen who are over weight are forced to use the new reducing machine recently installed in the police station and must get down to a perfect "36." Officials contend that with less weight, the cops can run faster, and thus catch crooks where previously they had failed.

## MURPHEY TO GRADUATE FROM C. A. C. TOMORROW

Horace F. Murphey, son of Mr. and Mrs. Charles M. Murphey of 19 Hamlin street is president of the senior class of the Connecticut Agricultural college at Storrs, which graduates tomorrow forenoon. A number of local people attended the class day exercises today and will remain for the comedy to be given this evening by the dramatic club. Graduation activities com-

menced last Sunday with the baccalaureate services in the new community church at the college.

Mr. Murphey was graduated with the 1924 class from the Manchester High school. During the summers he has devoted his entire time to the extensive Murphey Gladiol gardens at Coventry. Flower exhibits by these growers have received many first prizes at Connecticut state fair shows and also in Boston and other places.

The young man is a candidate for the position of superintendent of Manchester's parks which has not been filled, awaiting the re-

turn from the Orient of William C. Cheney of the Park Commission.

### MUSIC PERILS TOWN

Maplewood, N. J.—Too much music on this town's police force is not good for the safety of the community, according to Police Commissioner Runyon. Out of 28 members of the force, 24 of them are on the Police Department Band and when the band is playing an out-of-town engagement it leaves only four men to guard the town.

UNUSUAL EXHIBITS FOR PARENTS NIGHT

Hollister Street Pupils Show Their Ability in Special Session. Parents' Night was observed at the Hollister street school last night and the majority of the parents of the pupils took advantage of the opportunity to observe the work being accomplished by their children in the school classes.

MORE ONE-MAN CARS MAKE FEWER JOBS

Bids were completed last night for the summer runs on the electric lines of the local division of the Connecticut Company. As far as the Manchester people are concerned there will be few noticeable changes. During the day the run on the 'cross town and Manchester Green will be divided between Guz Walter, who has the Manchester Green Line and Fred Dart, who has the 'cross town with Al Gilman as the third man.

ABOUT TOWN

Gibbons Assembly Catholic Ladies of Columbus will hold their regular meeting this evening at 8 o'clock. The business will be followed by a rehearsal of the degree team. Office employees of the Orford Soap Company motored out to Somers yesterday at 5 o'clock and enjoyed a good dinner and social get-together.

Manchester Evening Herald Classified Advertisements

Count six average words to a line. Initials, numbers and abbreviations, each count as a word and compound words as two words. Minimum cost is price of three lines. Line rates per day for transient ads. Effective March 19, 1927.

Help Wanted—Male

YOUNG MAN experienced in clerical work and the use of calculating machine. Apply Employment Office, Cheney Bros.

AIR-TAXI STARTED

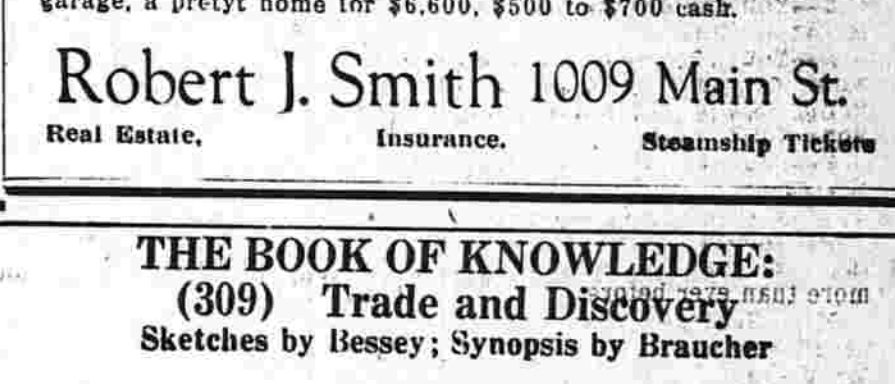

Alliance, O.—With an appropriate slogan, "Anywhere in the United States by Air," the Alliance Aviation School has started business here.

NEW OWNER FOR AKRON

J. Walter Morris, for the past ten years an important figure in Texas League baseball, recently bought controlling interest in the Akron club of the Infant Central League.

By Frank Beck

MERCY, WHAT A JEALOUS MAN. I NEVER DREAMED ALEC HAD SUCH DEPTHS... A REGULAR GAVE MAN. MUST BE CAREFUL NOT TO AROUSE HIM TOO MUCH, BUT DON'T WORRY, VIOLA, YOU KNOW HOW TO USE YOUR POWER.

Here is sketched the ship that discovered a new world, the Santa Maria, in which Christopher Columbus crossed the Atlantic in 1492.

The Elizabethan Age was a period of great activity in shipbuilding. The galleon became one of the important styles in ships.

Spain was the last of the maritime nations to take the galleon as a model; but when she did she made the galleons higher and of heavier material than had yet been tried. But they were hard to manage in any kind of a wind, and that fact went generally against the Spaniards in 1588 when the Spanish Armada was destroyed. (To Be Continued)

FLAPPER FANNY SAYS:

With men and women dressing so much alike, friend wife sometimes presses hubby's trousers into service.

SENSE and NONSENSE

PA'S FULL NAME Census Taker—"Your husband's name, please." Mrs. Grogan—"Pat." Census Taker—"I want his name in full."

RETROSPECTION My dreams recall a shady lane Where you and I were wont to roam; But I grabbed off another Jane. And you got married for a home.

I had a mop of tousled hair. You were so fair I was appalled. And now you've freckled every-where.

That freckles show, and I am bald. Houston, Texas, Post-Dispatch And you were just my age, I know, When we were sweet on one another.

I saw you yesterday, and oh! You're old enough to be my mother! During the extremely cold spell in the Puget Sound country, something gumbled the works of the thermometer hung outside the Chamber of Commerce building and the worst it could do was seventy-two above.

"Alas, for my vanished youth!" exclaimed a man yesterday. "The girls all used to smile at me, and now they laugh at me!"

A father took his son of four years to the incubator in the cellar to see the eggs hatch. Said dad impressively: "Isn't it queer how the little chicks get out of the shell?"

"Hi-hu," said the youngster, "what gets me is how they get in there."

"If I had your telephone number I would call you up sometimes," said he.

"It's in the book," she replied. "Fine—but what's your name?" "That's in the book, too."

Since home became merely a place for changing one's clothes, prospective buyers are mainly interested in knowing the number of baths and wardrobe closets.

TAKING THE INTEREST OUT OF LIFE "I hope that I shall not be here," remarked old Mr. Brumback.

"Should these long skirts of yesterday attempt to stage a come back?"

"Why does McTavish look so tired and sleepy today?"

"He bought an all-day sucker after dinner and it kept him up until 3 a. m."

Put an "s" in front of the day's "mile"—it will shorten it.

LETTER GOLF

FOR SUMMER TOURISTS.

Come pitch your TENT in a tourist CAMP, the weather and today's letter golf puzzle call. Par on the weather is "fair and warmer" and on today's puzzle, five. One solution is on another page.

Letter golf puzzle grid with letters T, E, N, T, C, A, M, P.

THE RULES

1—The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW to HEN, in three strokes, COW, HOW, HEW, HEN.

2—You can change only one letter at a time.

3—You must have a complete word, of common usage, for each trip. Slang words and abbreviations don't count.

4—The order of letters cannot be changed.

Mr. Goofus—I see by the papers that the chain stores are selling more than ever before.

Mrs. Goofus—I don't see what people want to buy so many chains for, do you?

When they're sick even the toughest old bachelors like to have a woman looking after them.

THE ANYMITES

READ THE STORY, THEN COLOR THE PICTURE

The donkey galloped down the shore. The Tinies wondered what for. And then it stopped just opposite to where their houseboat stood. The donkey man yelled, "If you're stuck out in that boat, you're now in luck. I have a plan that I am sure will do you lots of good."

(The Tinimites ride the rapids in the next story.)

**ABOUT TOWN**

Considerable local interest centers on the auction of the stock of Fred Hughes' Old Wood Shop on Pitkin street tomorrow, starting at 10 o'clock. Should it be stormy tomorrow the auction will be held Monday. Everything is to be sold, including antiques, bric-a-brac, books, pictures, old and modern art objects, old glass and china.

At a whist given at the home of Mrs. George M. Williams on Oxford street last night seven tables of women played. Mrs. Felix McEvitt was winner of the first prize and Mrs. R. E. Carney second. Mrs. Raymond Fogarty was awarded the consolation prize, all of which were attractive and useful.

Walter Bradley has returned to his home on Middle Turnpike East after recovering from an operation for appendicitis. He was at the Memorial hospital.

**Sacred Church Vernon**

Entertainment and Dance  
TUESDAY, JUNE 12  
8 O'Clock, D. S. T.  
Modern and Old Fashioned  
Music, Buckminster's Orchestra  
Admission 25c.

Sunday will be the memorial day observance of the Hartford Firemen Veterans Association and on that day graves of deceased members are to be decorated. But one grave will be decorated in Manchester. That is the grave of the late Colonel Frank W. Cheney, who was an honorary member of the organization. On Sunday morning the wreath will be placed on his grave by Walter Mahoney.

Workmen, who have been busy for several weeks in the State Theater building installing a fire extinguishing system, have about completed the job. The test will be made next week when the air and the water pressure will both be given a try-out. All of the work has been carried on in such a way that there has been no necessity for the postponement of any shows nor has there been any inconvenience to the occupants of the building.

**NOTICE!**

The Home Bank and Trust Company, executors of the Estate of the late Frederick E. Hughes, proprietor of the Old Wood Shop, Manchester Green, Connecticut, requests that anyone having property at the Old Wood Shop, call for the same before Saturday, June 9th, as all goods will be sold at Public Auction on that date.
