HOOVER HAS GOOD LUCK AS A FISHERMAN

Hooks Monster in 3,000 Feet of Water—Crew Pleased With Catch; First Speech Sunday.

Aboard U. S. S. Maryland, (via Arlington, Va., Radio Station), Nov. 22.—While the Maryland plowed southward today at 17 knots an hour, 150 miles off the Mexican coast, President-Elect Herbert Hoover, wearing a yeoman's cap pushed far back on his head, spent some time at his desk weaving the genial mood of a successful fisherman into the first speech of his good will tour which will be delivered at Amalpa, Honduras on Sunday.

The president-elect, who is an ardent angler, had full cause to feel happy over his fishing exploits of Wednesday.

Even before the launch bearing the fishing party returned to the Maryland, Mr. Hoover, who had been watching through glasses at the rail of the warship, noted with jubilation that the expedition was a success. The launch was two miles away, but clouds of fighting spray could be seen where a flying dolphin was churning up the water.

"They have caught something that is beating up a tremendous fuss," remarked Mrs. Hoover.

In Deep Water
The fishing was done in 500 fathoms (3,000 feet) of water and it was twilight before the Hoover fishing party returned. A searchlight played on the starboard gangway while the president-elect and his fellow anglers bo-ried the ship, their catch was carried in canvas bags.

A canvas sheet was spread upon the quarterdeck as the finny victims of the anglers' skill were spread out to view.

Mrs. Hoover was enthusiastic as the big fellows were tumbled upon the canvas and even some of the ship's officers said they had never seen finer fish.

"Fine, Daddy," exclaimed Mrs. Hoover.

The president-elect beamed, but whispered softly aside: "I took me fifteen minutes to land that big fellow."

He pointed to a lionster.

Others Lucky
George Akerson, secretary to Mr. Hoover, hooked 20 pounds of bonitas and three newspaper correspondents added 50 additional pounds to the fine frying pan goods.

Some of the fish were not yet dead and they flopped upon the canvas as though they found it no honor to be hooked even by a presidential party.

"We will all have a fine break-

PRESIDENT SILENT ON FUTURE PLANS

Hints That He May Go Back to Northampton After Leaving Office.

Washington, Nov. 22.—Interest continues to grow apace in official Washington—to say nothing of the arena of high finance—over the personal plans of President Coolidge after March 4.

Into what line of activity the retiring chief executive will go has become an all-absorbing topic of conversation and speculation in the capital.

Today, just thirteen and a half weeks from the finish tape of his official career, Mr. Coolidge was maintaining the same Springfield silence on this score with which he treated the politicians, and the nation in general, in connection with his "I do not choose to run" statement.

Many Offers
Offers galore have come to the retiring president. His name and his prestige alone are worth many thousands of dollars yearly to an almost infinite number of concerns. He can, by the slightest indication of assent, become chairman of the board of the United States Steel Corporation, the president of Amersat college, the head of several great life insurance companies or a lawyer unexcelled in magnitude of practice.

From the only hint Mr. Coolidge himself has given, however, it would appear he is planning to go back to Northampton, Mass., for a while at least. He is on record as having praised the type of people that make up the population of the town from which he made his entrance into national politics, and he is quoted as having said, in effect: "It is my hope that I may return to live among these folks."

ONLY THIN LAYER OF GAS KEEPS LIFE ON EARTH

Is But the Thickness of Card-board But It Masks Death Rays From the Sun, Scientist Says.

Washington, Nov. 22.—Life's fascinating insecurity and its absolute dependence on a filmy layer of gas—cardboard in thickness—masking the earth from death rays of the sun, were described today by C. G. Abbot, of Smithsonian Institution, internationally known astronomer.

After contemplating the possibilities of life out in the limitless swarms of suns and worlds and the endless march "of the celestial hosts" through the trillions of years that matter has existed, Abbot concluded that conceivably there is life in some form on Venus and Mars. But he added:

"The earth still remains the only abode of life and her life depends absolutely on the sun's radiation."

"The upper atmosphere," he said, "contains so minute a quantity of ozone as would make, if brought to the earth, a gaseous layer only as thick as a card-board."

Cuts Off Rays
Yet this minute, and almost fortuitous atmospheric constituent cuts off entirely the spectrum of the sun and stars beyond the wave length 2,900 angstroms. The solar rays thus cut off, if they reached the earth, would destroy human skin and tissues by their powerful chemical activity.

Planetary temperatures about as high as the earth's appear to be requisite to the higher forms of life. Referring to the spring-like day and frigid night temperatures of Mars, Abbot said:

"Marsian life, if it exists, must be adapted to atmospheric composition approximating that high above the summit of Mount Everest."

Frigid temperature, he explained, "would seem to exclude from Mars the higher types of life, such as we know, but might permit certain Arctic types to exist."

In Venus, on the other hand, tropical temperatures exist with solar radiation somewhat more intense than reaches the earth.

"We may conclude," Abbot said, "that Venus is probably approximately provided with temperature, humidity and atmospheric conditions, and is in a state suited for luxurious life. Being wholly cloudy, however, it is doubtful if we can ever demonstrate it."

PLANT DENIES REPORT

Paris, Nov. 22.—Philip M. Plant, young American millionaire and well known figure on Broadway, today scoffed at a report that he and his beautiful young actress-wife, Constance Bennett have established a residence here for purposes of divorce.

"I think the report is just a rumor," said Plant. "Anyhow, it is all news to me."

Asked where Constance is living the husband gave the vague answer: "I think she is stopping at Hotel Diana."

At the Hotel Diana it was stated that Miss Bennett had departed without revealing her destination. Plant is 27 years old. His mother is now the wife of Col. William Hayward.

ABOUT 60 CENTS POUND FOR MELEAGRIS GALLOPAVO

Chicago, Nov. 22.—The great question confronting the common people this time of the year is the price of the wandering meleagris gallopavo.

If it rains between now and Thanksgiving the aforementioned meleagris gallopavo will cost about 75 cents a pound and if the weather turns cold and dry the price will be cheaper. So announced merchants here today when discussing the price of turkey which is the vulgar and exceedingly low-brow name for the wandering melawot-ya-call-it.

Turkeys are of better quality this year than last year, according to L. R. Oates, head of a large commission house here. Oats said merchants were uniting in an effort to hold the price of turkey between 50 and 60 cents a pound.

RED CROSS DRIVE OVER \$1,000 MARK

More Than 40 P. C. of the Quota Obtained; One Team Has Finished Its Job.

The Red Cross drive for annual membership shows, by this morning's reports, that the teams are stepping on the gas. Chairman Charles W. Galney announced early today that the canvassers have reported the receipt of \$986.90, with two teams not reporting as yet. So that in all probability the fund has already passed the \$1,000 mark, or 40 per cent of the \$2,500 quota.

Included in the returns made yesterday was a check for \$100 donated by J. J. Strickland just before his recent sudden death. Another substantial contribution was made by Case Brothers, its amount being \$50.

Long Drive Ahead
Though the drive has been lively and has had fine results in the last two or three days, there still remains a large sum to be raised and since by far the greater part of the contributions, according to the plan, in the form of single membership dollars, there are still a great many persons whose memberships are relied on to make the campaign a success.

It is again urged that response to the canvassers' calls be prompt and the teams given every possible assistance in their work. The team shipwreck in the legislative jam that marks every short session.

The measure would authorize the construction of fifteen new fast cruisers and one airplane carrier. It carries a total authorization of \$274,000,000 but the actual cost of the new warships may reach \$400,000,000.

King to Oppose.
Senator William H. King (D) of Utah, fought a similar bill two years ago, forcing considerable modification. King announced today that he expected to oppose the new measure.

"I shall seek modification of the bill to reduce the amount of new construction," said King. "I feel the psychology of the bill is bad. Here we are making a gesture of world peace to the other nations of the world, through the Kellogg anti-war pact and other treaties. Our first step should be to reduce armament."

King will receive help from the insurgent bloc in fighting the cruiser bill. Senator Balline (R) of Wisconsin, announced last spring he would fight enactment, while other insurgent Senators have declared the construction of new cruisers was unnecessary and a blow to world peace.

FENN BILL TO START FIGHT IN CONGRESS

Would Add Three to Six Electoral Votes to Republican Strength—Is Backed by the Constitution.

Washington, Nov. 22.—Extraordinary demand among returning Congressmen for reappointment of the House membership as provided by the Constitution today presaged a bitter struggle immediately after Congress convenes.

So insistent is the pressure from states now denied their full representation in Congress that a powerful bloc is threatening to inaugurate a filibuster until the reappointment question is settled.

Tentative plans of the bloc call for introduction of a resolution in the House on the opening day of the session declaring that reappointment shall remain the unfinished business until a bill is enacted.

Floor Battle
This in itself would start a floor battle which might upset all plans of House leaders to rush the consideration of appropriation bills.

Several members of the bloc, members of the bloc, it is understood, also are considering a proposal to filibuster all legislation until their bill is acted upon, on the ground that the House as now constituted is an illegal body.

Several months of activity has resulted in the enactment of bills, pledges to pass a bill introduced last session by Rep. Fenn (R) of Michigan, a state which probably would gain four House members in a reappointment, led a mail campaign designed to secure the backing necessary to overcome stiff opposition to the Fenn bill.

Rep. Rankin (D) of Mississippi, who led the fight last year which resulted in the Fenn bill being re-committed to committee, is also engaged in a campaign to halt a renewal of the battle.

Since electoral votes for president are based upon membership in Congress, some Democrats see in the Fenn bill a blow at their future prospects. Reappointment, it is estimated, would likely add three to six electoral votes to normal Republican strength. Representatives of California, Connecticut, Florida, Michigan, New Jersey, North Carolina, Ohio, Oklahoma, Texas and Washington are expected to line up solidly in the "reappointment

STORY OF BLONDE WOMAN MAY CLEAR UP MYSTERY

Mrs. Ruth Keyes Picks Out Man In Rogues Gallery and Detectives Scurry for Points West.

New York, Nov. 22.—The arrow pointed westward today as the law stalked the known slayer of Arnold Rothstein.

The nod of a pretty head by blonde Mrs. Ruth Keyes before the Rogues Gallery shot the slickest of New York's detectives to Cleveland, Chicago, Detroit and St. Louis. Police of these cities immediately went to work on this latest tip expected to spring the inside story of an irrefutable empire of crime.

As District Attorney Jacob Banton promised within a few days a bombshell development on the basis of Mrs. Keyes' information, it became known that Jack "Legs" Diamond, former Rothstein bodyguard, was wanted for questioning by authorities.

They do not say that Diamond had anything to do with the Rothstein murder—but police are intensely interested in chatting with him.

Diamond's name is inscribed high in the blue book of the racketeer world. He has been arrested frequently but never convicted.

When somebody's "mob" pulled a Rothstein on "Little Angle" Granger Norton, east side gang king, killing the east side gang king with a bullet six months ago, his companion, Jack Diamond, was wounded.

Again, when the slug-filled corpse of Mike Carocelo was found floating in the Harlem river, Diamond was questioned and released by police.

Police also mentioned Diamond during the investigation of the Tony Marlowe assassination, where, whose trade was being run by the Marlowe, was gunned down, was bulleted in front of the Hotel Harding.

The hotel lies in West 54th street where Diamond made his headquarters. It is only a few blocks from "Lindy's" restaurant, where Rothstein was lured to his death.

Numerous recent shootings in this section have caused Broadwayites to call it the "Bloody Fifties."

The woman angle has featured the post-humous life of Rothstein. Granger Norton, ex-fallen girl, sweetheart of the late plutocrat, was named an important beneficiary in his will. The former show girl and Carolyn Rothstein, widow of the

Worked in Water to Fire One Remaining Boiler on Doomed Vestris, Fireman Tells Court—Water Had Been Seeping Through Porthold for Hours; Sailors Could Not Lower Lifeboat Filled With Women and Children—Graphic Story of Tragedy Told by Negro Fireman.

New York, Nov. 22.—How the "Black Gang" of the ill-fated liner Vestris had to work chained together in the stokehold, with water sloshing about them, while they passed buckets of coal into the only boiler in operation, was described today by Joseph Boxill, negro fireman, testifying at the federal investigation into the disaster before Commissioner Francis A. O'Neill.

"I became exhausted and sick—so sick that I had to go on deck and lie down," Boxill declared. "This was Monday morning and I hadn't had any food since 5 o'clock Saturday night."

"For hours we had been working like slaves. When the water was flooding the ship eight firemen and four coal passers were ordered to form a bucket brigade to help bail out the ship. We worked hard and long but it didn't do any good. The while he was lying sick on deck, Boxill testified the first officer came along and shouted: "All firemen below!"

Other firemen had come up on the deck because the water-laden conditions below and because they were exhausted. "Sick as I was I had to go down again," said the witness. The firemen toiled hard trying to keep up steam by passing coal into the remaining boiler—the others having gone out of commission—but finally gave it up as a hopeless task and they nearly all came up. This was shortly before the Vestris went down with a loss of 110 lives.

Q.—(By U. S. Attorney Charles H. Tuttle)—Did the stokers and other orders as long as they could?

A.—Yes, they did.

Water Seeping In
Boxill testified he had been a fireman for ten years. When he started out on this fatal voyage he noticed when he went on duty at midnight that "a lot of water" was seeping into the ship and that it was listing.

Q.—Had you ever noticed a list on previous trips?

A.—Yes.

When he resumed duty at noon Sunday the list was more pronounced, Boxill said, and considerably more water was rushing in through the ash dump. Some of the crew "went to work on the leak."

The storm was at its height at this stage. The aft stateroom was flooded. The women had to stand in water.

Had to Carry Coal
"Things were bad Sunday midnight," he testified. "The trimmers couldn't trim. We couldn't use wheelbarrows. We had to carry the coal bags and buckets the list was so heavy."

"At 4 a. m. Monday the steam was falling off. Later two boilers went out of commission. At 8:30 a. m. firemen in the stokehold were chained to stanchions so they could stand to fire the last boiler."

Boxill testified he went on deck about noon, when the situation was grave, and got in lifeboat Number 4, containing mostly women and children. It was lowered to about five feet from the water and stayed there for over half an hour. Then the Vestris lurched, went over on its starboard side and the lifeboat was hurled into the sea.

When he struck the water Boxill said he swam toward a piece of wreckage and clung to it with another man named "Slim."

"I saw dead women and children floating around and I decided not to stay near there any more so I swam to a raft," the witness testified. "I climbed on. I was so exhausted I fell asleep and knew nothing until I was picked up by the U. S. S. Wyoming Tuesday noon."

Q.—(By Captain E. F. Jessup, American nautical adviser at the hearing)—Did any officer of the Vestris after it was found that lifeboat No. 4 could not be lowered?

OLD VETERAN DEAD

New York, Nov. 22.—Arnold Reif, who fought against the Seminoles Indians in Florida, saw John Brown hanged at Harper's Ferry and served in the Union Army in the Civil War, is dead today at his Brooklyn home, aged 90.

Unkissed Swimming Champ Will Not Wed After All

London, Nov. 22.—The first kiss of Miss Mercedes Gleitze, beautiful English swimmer and conqueror of English Channel, who is living up to a girlhood vow to allow no man to kiss her until he is her husband, is not for Private William Farrance, her "small order fiancé."

The postal courtship and betrothal of Miss Gleitze, formerly a London typist, and Private Farrance, of His Majesty's forces in India, whom she had never seen, appears to have broken upon the shoals of disenchantment, according to their friends today.

This long-distance romance began after Miss Gleitze swam the channel and Private Farrance, then attached to the East Lancashire regiment at Quetta, India, wrote her a letter. He had been attracted by her picture in a newspaper. Far-

BANDITS GET \$75,000 BELOW THE DEADLINE

Rob Jewelers in Very Heart of Gem District—Tie Them to Bench.

New York, Nov. 22.—Police were without clues today in their search for three bandits who "crossed the deadline" late yesterday and robbed jewelers Max Hoffman and Jack Edlitz of \$75,000 worth of gems in the heart of Manhattan's jewelry district. The partners could give detectives only a vague description of the robbers.

The story of the jewelers' was that the bandits held them up with what "apparently was a revolver," sealed their lips with adhesive tape and manacled them to their benches with handcuffs and twice. "Thous-

ands of home-going office workers passed the building without detecting the hold-up, but a negro janitor finally heard the jewelers rolling along the floor.

Crooks are forbidden to travel below the Fulton street deadline, even on honest missions. It is the boast of police that this district, protected by a network of "urglar alarms, is immune from crime.

ABOUT TOWN

The regular weekly session of the Masonic setback tournament at the Temple here will be held tomorrow night instead of Saturday as is usual. The playing will take place tomorrow so that the tournament will not interfere with the Masonic service in the Temple Saturday night.

The Woodland A. C. basketball team will open its season this coming Wednesday in New Britain where they will play the New Britain Reserves. All players of the Woodland team are requested to be at practice on the three practice nights between now and Wednesday as the team would like to start the season with a victory.

Clarence Mikoleit, of 21 Woodland street, who was injured while coming home from work on Lavitt's plantation when the truck in which he was riding skidded and turned over, is now back on his feet after a period of about three months and on crutches for six weeks. Mikoleit injured his ankle and heel and underwent an operation.

HIGHLAND PARK

The annual Father and Son banquet of the Highland Park Community club will be held Saturday evening at the clubhouse. The social and entertainment committees of the club have preparations under way for the event. The supper will be served at 6 o'clock, and every man in the community is expected to be present. If he hasn't a son of his own, one will be provided for him. The supper and program to come after is free to all and the ladies are preparing to cater to at least 125.

Elmer T. Thienes will be toastmaster and will bring with him George Goss, a Y. M. C. A. worker at present in Hartford. There will be additional speakers and community singing. The usual Saturday evening dance will follow with music by an orchestra and Cornelius Foley to prompt for the old-fashioned dances.

CORRECTION

In Nelles' advertisement in yesterday's Herald through error the price of scarfs was printed \$1.25. This should have been \$1.00.

SHIP'S COAL STOKERS WERE CHAINED TOGETHER

order the passengers to return to the deck? A. No. There was no order at all. Tuttle then praised the negro members of the crew for standing by the ship and the witness was excused.

Other Witnesses. Mr. and Mrs. Henry Tilford were the next two witnesses. Tilford said he went to the offices of Lamport & Holt, owners of the Vestris, on Monday night inquiring concerning the fate of a friend who was on board. He said he was told there was "no news" except that all on the Vestris were safe in lifeboats and that aquiplanes had been sent to the rescue. Mrs. Tilford gave similar testimony.

Charles Gery, an employe of Lamport & Holt, who Tilford had identified as one of the men who had talked to, was called to the stand. He could not, however, recall any conversation with Tilford although he vaguely recalled that the Tilfords had been there.

Gery said that the first he had learned of the sinking of the Vestris was when he was telephoned by the press. He promised to bring to Tuttle tomorrow a complete list of saved and lost.

TO RESUME TRIP

New York, Nov. 22.—Dressed in deep mourning and looking crushed by his experiences of last week, Frederick W. Fugge Galt entrusted his fortunes to the sea today. He sailed again for South America, trying to complete the voyage he began on the doomed Vestris, one of whose allegedly leaky lifeboats dragged his wife and the seven months old baby down to death.

U. S. OFFICIAL KILLED

Washington, Nov. 22.—An inquest was held today into the death of Preston Kumler, 50, an official of the State Department. He died at Emergency hospital last night a few hours after being in an auto collision.

FINE NEW STORES ARE OPENED TODAY

Hale's Park Street Market and New A & P Store Formally Opened Today.

Two new meat and grocery stores opened their doors to traders in Manchester today. Hale's new Park Street Market and the A & P meat and grocery store in the south end were formally opened this morning.

The Hale market occupies the corner store and the A & P store is located just north of Hale's. Both places of business were filled all day today. They were expecting a huge crowd of visitors and purchasers this evening.

The Hale grocery department is of the self-service type. The Health market and sea food departments are similar to their first Health market on Oak street. The A & P grocery and meat store is very similar to their new market on Depot Square.

Both are equal to if not superior to anything of the kind to be found anywhere in the East. Most favorable comments are heard from all who have visited the stores today and congratulations were extended to the heads of all the departments.

WOMEN FIGHT FOR BODY OF CHARLES MASTERSON

Sister First Takes It and Then Estranged Wife Carries It Away.

Providence, R. I., Nov. 22.—A legal tussle opened here today over the body of Charles A. Masterson, head of the Canadian branch of an internationally known drug company.

Mr. Lillian Bostrom, a sister, took the body to a local undertaking parlor and arranged a funeral which she said was in accordance with the last wishes of the deceased.

HOLD SUSPECTS

UNUSUALLY FINE GLEE PROGRAM BY G CLEFS

Out of Town Artists to Assist Club in Its First Formal Appearance Tuesday.

Miss Helen Berggren, president of the G. Clef Glee club, which is to give its initial concert at High School hall Tuesday evening, believes that the program to be presented is one of unusual interest, and will appeal to the musical people of Manchester.

The club has been fortunate in securing as assisting artists, Miss Gertrude Berggren, a former local girl who is now pursuing her vocal studies under the best New York teachers, and the Miller trio, composed of such well known musicians as Mrs. Emma Spieske Miller, pianist; Mrs. Flora Spieske Jones, violinist; and Mrs. Katherine Halliday Howard, cellist.

This trio is frequently heard in Hartford musical events, and both Mrs. Miller and Mrs. Howard have entertained at church and club programs in this town. Mrs. Howard has been a resident of Manchester for a number of years and is a 'cellist of wide experience in both solo and ensemble work. She has studied in this country and abroad and has toured with the "Boston Octette" under Boston management.

The G. Clef Glee club makes its bow with the confidence that a year and a half of training under the direction of Helge Pearson, experienced director and organizer, will enable it to present a program of artistic merit. The accompanist is Miss Eva M. Johnson.

WEATHER TOO COLD, CIDER MAKING ENDS

Farr's Closes at Noon Today; Big Supply of Apples and Grapes This Season.

With the closing of the Farr Cider Mill at noon today the making of cider in any great quantity is ended for the season. Some of the other mills will continue to grind apples into cider, but the volume will be small. The practice of closing down the cider mill just as soon as the weather becomes too cold was one that was for years followed by Arthur Cook, who built the mill to the south of Main street near the Walter Strant property. When it was sold to Joseph Farr he continued to follow the same plan.

There has been an ample supply of apples this year but the mill owners themselves have not made up the quantity for their own storage, this year as in other years because of the inability to sell it in stores after it starts to get hard.

MRS. MERRIFIED GIVES PLEASING RECITAL

Mrs. A. N. Merrified's plectra orchestra composed of her pupils in this town, with the assistance of one of her advanced pupils from the Hollister street school before a gathering of parents and friends that comfortably filled the auditorium. The selection of popular and classical numbers gave variety to the program by group players and individual pupils. Practically every number received a hearty encore.

Miss Velma Brown, one of the youngest of Mrs. Merrified's Williams class, appeared in a costume dance as well as in several mandolin solos. Miss Lillian Grant added to the entertainment by three humorous readings. Each was given with good expression and the double number brought forth such hearty applause, Miss Grant responded with another in Italian dialect. John Johnston, one of the banjo players, sang the Gypsy love song and played the mandolin and the guitar. Mrs. Merrified and Miss Have'beké, Mrs. Merrified played the accompaniment for the stinger and is equally skilled in playing that instrument as the others.

FENN BILL TO START FIGHT IN CONGRESS

(Continued from Page 1.) bloc." All of these states would gain members in Congress at the expense of agricultural mid-west and southern states.

Failure of Congress to reappropriate the House since 1911 despite the constitutional provision for a new division after every ten-year census is the weapon with which backers of the Fenn bill hope to win. At present, they claim, congress stands out as the most flagrant violator of the Constitution in the nation.

Against this claim is not only the natural desire of many members to retain their seats, but fear that a new membership would result in an increase in the influence of city population upon legislation at the expense of the agricultural states.

fast tomorrow," remarked Mrs. Hoover.

The Maryland has passed the line of Mexico and Guadalupe and should reach the northern line of Guatemala Friday evening, the fifth day out from San Pedro.

Mr. Hoover was much interested in the ship's newspaper, "The Evening Hurricane," which printed a radio dispatch from New Orleans saying that Gov. Brewster, of Maine, had presented to the governor's conference a program of \$3,000,000,000 in public works construction to give employment in dull times.

The weather was again warm and bright today and the top deck of the warship took on an ocean liner with deck golf, quoits, shuffleboard, tennis, medicine ball and even basketball.

There are only two deck chairs on the men of war. The president-elect occupied one for some time and Mrs. Hoover, the other. They sat in the warm sun and the balmy breeze amused at the waggish antics of the deck golfers who were compelled to take from five to ten strokes to "hole" as the motion of the ship sent the ball from its course.

H. P. Fletcher, American Ambassador to Italy and an authority on Latin America, who is accompanying the president-elect, has fully recovered from his eye trouble which developed before he left San Pedro. He has been under care of Dr. Beare, the ship's surgeon but has not been confined to his quarters.

There has not been a single case of sea sickness so far.

MUTINY IN FORD SCHOOL OVER, OFFICIAL REPORTS

Three Teachers Quit, Four Boys Return and All is Serene Again.

South Sudbury, Mass., Nov. 22.—Henry Ford's model trade school was running smoothly again today.

Joe Zekutinsky, 17-year-old state ward of Marlboro, alleged "school bully," was still at his bench, four or five boys who staged a "mutiny" had returned, and three instructors were out of a job, their resignations having been accepted.

"Joe is aggressive, too much for some instructors," said Eri Boyer, the Ford Wayside Inn Representative. "But he is a forceful character, has never had the opportunity of other boys and as a result does not know what to do when he is with them. I am afraid if we let Joe go now he would simply go to the dogs and his desire to work and forge ahead would be stifled. Rather than take any chances, with the boy's future at stake, we cleaned house instead and the instructors remaining count Joe among their friends."

WAPPING

The Pleasant Valley Club will hold a public whist party at the school house on Friday evening, November 23.
Mr. and Mrs. Edward P. Collins returned to their home here, last Sunday evening, from Washington, D. C., where they have spent five days attending the sessions of the National Grange meetings. They report a fine time.
The Pleasant Valley Club held their regular afternoon meeting at the home of Mrs. Lillian Skinner, with Mrs. Dora Skinner as assistant hostess on last Wednesday.

Mr. and Mrs. T. G. Tucker of Columbia, were guests at the home of Mr. and Mrs. Walter N. Battey last Sunday.
The Federated Workers are to go to Marlborough next Friday evening, Nov. 23, where they will present their play "Diamonds and Detectives."

Last Thursday evening was observed as Parents Night, at the Union school, of South Windsor. All the parents were cordially invited to go and observe the regular lessons of the children.
Mr. and Mrs. Herbert Keeseb and Mr. and Mrs. Charles Burgess and children, left last Monday morning for Florida, where they expect to spend the winter.

Miss Emma Meacham sister of Mrs. Anna (Meacham) Ristey, formerly of this place, had the misfortune to slip on a polished floor and break her leg just above the ankle, and before that was well, she was overcome by gas in her home and is now quite ill at her home in Hartford.
The Wapping Y. M. C. A. basketball team will motor to Broad Brook next Saturday evening, Nov. 24, where they will play their first league game of this season. In last Saturday's game they were beaten by the Battey's fast team of Hartford. The Junior Y. M. C. A. boys beat the boys from Highland Park the same evening at the parish house here.

Miss Anna Kupchunos daughter of Mr. and Mrs. Peter Kupchunos of Wapping, and Peter Goldrich also of Wapping, were married at 8 o'clock, at Holy Trinity church, by Rev. John Abbot, last Monday. The bride wore a white satin dress trimmed with lace, and a veil to match and carried a bouquet of white roses and lilies of the valley. The maid of honor was Miss Mary Kupchunos, sister of the bride. She wore an old rose dress and carried a bouquet of roses. The best man was Joseph Gilson of Windsorville. The bridesmaids were Miss Sophie J. Kupchunos, a cousin of the bride, Anna Pitkus of New Britain, and Constance Vassar of Broad Brook. The couple received many beautiful gifts and for the present they will live at the home of the bride's parents. The bridesmaids dresses were: Miss Sophie Kupchunos' was of white georgette trimmed with ribbon; Miss Mary Kupchunos, old

rose silk and satin trimmed with lace; Anna Pitkus, pale green silk and satin, trimmed with lace; Constance Vassar of orange georgette. Miss Elizabeth Crossin was the week-end guest at the home of Mr. and Mrs. George A. Frink.

Mr. and Mrs. Frank W. Congdon of Laurel Hill left last Saturday by automobile for New Hampshire where they spent the week-end.
Mr. and Mrs. Clarence E. Loomis and daughter, Miss Prudence Loomis, motored from Brooklyn, New York, last Tuesday, to the Henry Loomis homestead, and returned to their home on Wednesday afternoon.

The committee of six of the Federated church, met at the home of Mr. and Mrs. Albert E. Stiles, at Pleasant Valley, on Tuesday evening to plan for providing candidates for the Federated church, during the month of December.

Mr. and Mrs. Arthur H. Sudd left last Friday, Nov. 16, for California, where they expect to make it their permanent home.
The final rehearsal of the Hartford Choral society will be held on Thursday evening in Hartford. Several from this place are to sing the "Rose Madeln," next Friday evening, under the leadership of Mr. Munson.
The Federated Workers have had to postpone giving their play, "Diamonds and Detectives" at Marlborough next Friday evening on account of Mrs. Ruth Smith's husband's G. Walter Smith serious illness, and Mrs. Smith has one of the leading parts in the play.
The seven members who are attending the School of Religious education at Hartford, motored in there last Tuesday evening.

Mrs. Frank Stoughton and her three children, Russell, Fern, and Richard, moved from his place to Hartford on Monday of this week, where they are to spend the winter. The Friendly Indians, or Junior Y. M. C. A. boys met with their leader Rev. Truman H. Woodwafd at their new club rooms on Tuesday afternoon.

FARM BUREAU MEETINGS REACH 500 FARMERS

Past Two Weeks Devoted to Acquainting Agriculturalists With Bureau's Work.

Over 500 farmers and their families attended the seven district meetings held by the Hartford County Farm Bureau throughout Hartford County during the past two weeks for the purpose of explaining the services available through the Farm Bureau and how to make use of them.

The local directors arranged these meetings and secured some of the best speakers in New England on agricultural subjects, including: S. McLean Buckingham, Commissioner of Agriculture, Connecticut; Agent J. H. Putnam, Franklin County, Mass.; A. W. Gilbert, Commissioner of Agriculture in Mass.; George Farley, State Club Leader in Mass.; George Story, County Agent, Worcester County, Mass.; F. J. Siewers, director of the Mass. Experiment Station and A. W. Manchester, Ass't Director and Farm Management Demonstrator of the Connecticut Agricultural college.

A member of the bureau explained the uses they had made of the bureau from the standpoint of a man, woman and child at each of these meetings and community singing played an important part on each program.

The people of the county were told that the Farm Bureau has a staff of five workers, well qualified to advise with them in their problems concerning tobacco, dairy, poultry, fruit, vegetables, farm management, food, clothing, kitchen equipment, room furnishing, home budget and other minor subjects: that this staff in turn has the services of a larger staff of experts in various lines at the Connecticut Agricultural College whom they can call in for advice and meetings where the problem seems to justify.

The underlying thought of all these meetings might be expressed by saying that farming like any other business depends more on the individual ability of the man than the job; that the "problem of efficient production, that is producing a quart of milk cheaper than the other fellow or a bushel of potatoes at less cost than your neighbor; and orderly marketing which means, attractively packed, high quality produce, sold before it leaves the farm if possible rather than dumped are

the important factors in the Farm Bureau program.
Through the courtesy of E. M. Mills, in charge of rodent control in New England, the American Farm Bureau Federation, the United States Department of Agriculture and the Connecticut State police, it was possible to show motion pictures at all but one of these meetings and selections were made with a view to further stimulate among the audience a realization of what they may get from the Farm Bureau by merely asking for it.

SUES FOR \$75,000

Hackensack, N. J., Nov. 22.—An echo of New Jersey's famous "poison pen" case was heard here today with the filing of a suit by Miss Sarah Mowell against Mrs. F. A. Von Moschizker for \$75,000 damages. Last February Miss Mowell was acquitted of charges made by Mrs. Von Moschizker that she wrote "poison pen" letters concerning one Frank Burnet, a friend of both women.
The husband of Mrs. Von Moschizker is in charge of the real estate department of the Pennsylvania railroad.

DROVE ALL THE PAINS RIGHT OUT OF MY SYSTEM

Mrs. M. O'Brien of No. 51 Badcock Street, Hartford, Conn., Says ERBJUS Seemed to Drive the Pain Right Out of Her System.

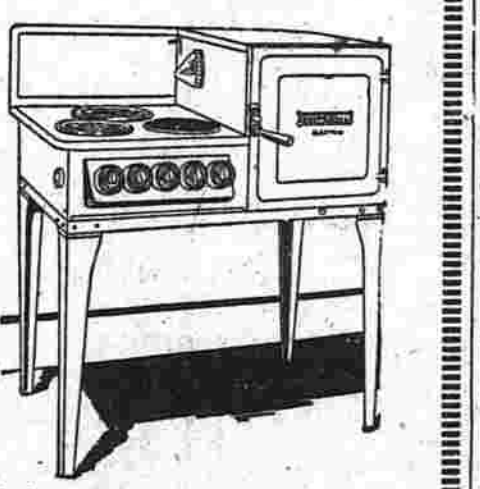

"A year ago I began to have pains and they got so bad that I consulted a physician and he told me that I had rheumatism," said Mrs. O'Brien.
"I began to have such terrible pains in my thumbs and arms that I could scarcely stand it, and they almost made me cry out with pain."
"I was told that ERBJUS was a fine remedy for rheumatism and I decided to give it a trial."
"I began taking it. From that day on I began to improve and get better. I have now taken 9 bottles and the results have been excellent."
"I am glad to endorse it to the public and I certainly would not if my experience hadn't justified me to do this."

"An earthquake would never hit our town"

EARTHQUAKES have shaken New England and other regions popularly supposed to be immune from them. A tornado killed 76 people in St. Louis last year, despite the legend that cyclones can't do much damage in large cities. Disaster usually comes without warning—

Supposing it comes to this town? Supposing a fearful fire, flood, or epidemic should suddenly turn this peaceful community into a scene of horror? To whom could you look for help—for food, clothing, shelter and medical aid? Who would rush to the rescue with trained workers, tents, medicines, blankets, nurses, doctors, foodstuffs?

The American Red Cross would come to your aid as quickly and administer relief as effectively as it did during the past year to the 1,200,000 victims of 67 domestic disasters.

For the Red Cross makes no distinctions, asks no questions, never delays. Wherever suffering calls, the Red Cross responds. During the West Indies Hurricane relief work the Red Cross cared for more than 500,000 homeless people in Porto Rico alone. About 1,500 tons of food were distributed weekly. Doctors, sanitary engineers and nurses were sent by the Red Cross to superintend the care of the sick.

If calamity struck at this community it might be too late to show your gratitude to the Red Cross—your savings, your home, your hopes for the future might be all swept away. So act now to help the Red Cross help all humanity. Act now to help the Red Cross prepare for the needs of the coming year. Put your name on the membership roll now. That roll numbers 4,058,000 today! The Red Cross needs a membership of at least 5,000,000. Let's make it nearer 6,000,000!

For fundamental economy drive a Hupmobile.

A MOTOR-WISE public looks today to Hupmobile for the identical principles that have made this name synonymous for 20 years with basic mechanical excellence and fundamental economy. They see in the trim and dashing new Century models unquestioned style leadership. But they note further a steadfast adherence to quality in every detail of design and manufacture. Hupmobile, for example, employs more than 1,000 heat treated parts in engine and chassis. Connecting rods are rifle-bored their full length for oil passage. Costly Lancaster vibration dampers insure a new smoothness to perfected Hupmobile high compression motors. In a score of ways Hupmobile engineering represents the Century's greatest advance in qualities making for long life and service. Know what is beneath the new outward beauty of the new Century Six and Eight before you reach a final decision on any new car.

THIS HAS HAPPENED
Fate introduced JERRY RAY, a show girl, to ALESTER CARSTAIRS when he crashes his airplane into the camp she is sharing with her roommate, MYRTLE. She likes his pilot, DAN HARVEY, but Alester is struck by her beauty and shows her attention.

Unable to buy a gown for a party he has invited her to, Jerry yields to the temptation to slip one from the store for the evening. When they taut her for being "dressed" at the party, Jerry drinks too much. A rowdy dancing partner throws her into the pool to revive her.

Dan appears to help her, but Alester takes her home. She is discharged from the party when she confesses about the dress. Jerry seeks another job, and is surprised one evening when Dan calls. He proposes and she tells him she does not believe in love, but hopes to marry for money. He leaves after warning her that Alester drives Jerry out to the deserted camp, where he makes advances, which she repulses. Dan happens by and Jerry makes Alester take her home. When he learns that she has lost her job on his account he uses his influence to get her a place in a chorus.

Rehearsals are hard for her, but she is befriended by EVELYN STARR, who is in love with JAELE TRINE. Evelyn gives a party and when Alester says he cannot take her, Jerry invites Dan. Jaele takes exception to Jerry's presence in Evelyn's home and an unpleasant scene ensues. Then Alester arrives.

NOW GO ON WITH THE STORY
CHAPTER XXX

Jerry leaped from her chair beside Mrs. Starr's bed and stood poised in an uncertain attitude. Of course, she thought, Alester had assumed that she would come here without him. No, he had discovered that she'd asked Dan! Now there would be another scene possibly. She shrank from the thought of it.

"Where is he?" she asked Evelyn.

"I told him to join the other guests and I'd let you know that he was here," Evelyn replied. "I suppose he's in the living room. It wasn't very polite of me to let him like that, but I'm upset and . . ."

"Was he . . . excited?" Jerry inquired, moving toward the door.

"I didn't notice . . . yes, I think he was. Remember, I've only met him a few times. I can't say if it was my imagination or not but I rather think he looked different tonight."

"I believe I'd better get my things and go," Jerry said uneasily. "Good night, Mrs. Starr. I hope you will be feeling all right tomorrow."

She smiled back from the open door and then hurried out into the long narrow hall that led to the reception foyer. She could see Alester standing there before she reached it. He saw her, too, and came forward to meet her.

"Is Dan Harvey here?" he asked pointblank.

Jerry gasped.

"What's the matter?" she countered in alarm.

"I went to his room and found your note on his dresser," Alester replied angrily.

"You read it?" Jerry could not restrain herself from saying in surprise.

"Certainly," Alester admitted readily, "when I recognized your handwriting. It was laying face upward. Will you tell me what you wanted with him at seven o'clock?"

"There's no reason why I shouldn't," Jerry reminded him, "except that I don't like the way you ask me to."

"Well, you needn't bother," Alester retorted. "You wanted to hear from him after I telephoned you."

"That's right," Jerry agreed.

"Evelyn had asked me to bring someone else if you couldn't come. There's nothing for you to get mad about over that, is there?"

"I won't have Dan Harvey taking you out," Alester declared warmly. "You could have come up here alone. And one thing is certain. I'm going to take you home."

Just then Dan appeared down the hall, at the kitchen door. He saw Jerry and Alester and came toward them.

"Hello," he said. "I thought you were at . . . there he paused . . . home," he added, and the anxious expression on Alester's face gave way to one of relief.

"I've come to take Miss Ray home," he said curtly.

Dan turned to Jerry. She looked at Alester.

"I'm going home with Dan," she said determinedly.

"Very well," Alester answered coldly. "Then I will not see you tomorrow. Please say good night to Miss Starr for me," he added, after turning on his heels, and was gone.

Jerry watched him go with a sinking heart. Surely he would not come back this time. And he'd been acting differently lately; she'd thought at times that his infatuation was ripening into real love.

She smiled bitterly. It wasn't the men who trapped themselves that way. It was the women.

"I've been talking with Mr. Thane," Dan said, breaking into her thoughts. "Miss Starr seems to have convinced him that you're not the sort of girl he hates so. If you like he will apologize to you, but I think we'd better dispense with that. Jerry, and be getting along. Someone told me that you're driving with Alester to Atlantic City tomorrow and suppose you will want to make an early start."

"Why," Jerry said, "you heard what he said. He isn't going to take me."

"Yes, I heard it," Dan replied, "but I know that Alester often says things in a temper that he does not mean. I'd advise you to prepare for the trip just the same."

"I'll not," Jerry delighted him by saying. "No one can dictate to me."

"I'm glad to hear you say that," Dan assured her, "because I don't want Alester to take you to Leonie Lebaudy's again, and he is the type to try to dictate his own wishes in the matter."

Jerry wondered why he brought up Leonie's name. But Dan could not say any more. He hoped she would guess that Alester's mother had not figured in his plans for the evening as he had said and that it was Leonie who had enticed him into an engagement.

Dan was puzzled to know why Alester had not kept his appointment with Leonie and why he had come to Miss Starr's home, until he remembered that he had left Jerry's note on his dresser.

Alester often came into his room at Carmoor. Until they met Jerry they had been on fairly good terms. Dan knew too much of Alester's past to feel any warm friendship for him, but he was too sensible to set himself up as monitor of a man with whom his business brought him in contact.

The realization that Alester was jealous of Jerry added nothing to Dan's happiness. He hadn't believed that Alester would spend much time with a nice girl of the "lower middle class," but now he wondered if he might not have misjudged him in another way.

Suppose he should want to marry Jerry! The idea of Jerry embracing marriage with a philanthropist such as Alester made him shudder; not merely because he loved her himself but because he knew how a man like Alester could make a proud woman suffer.

"I told him I won't go there any more," Jerry said in answer to his reference to Leonie's inn. "These people who think that every girl of today is crazy for gin and jazz make me tired," she added irreverently.

At least it seemed irrelevant to Dan, but Jerry had suddenly thought of a letter she'd had from home that day. Her mother had told her neighbors about Jerry's going on the stage and their comments had been a sermon on the evils of theatrical life.

Dan's reference to the Lebaudy place had reminded her that Alester, too, had imputed a taste for wild life to the modern girl, even to one who was not of the stage. It was continually trying to break down her opposition to night clubs and roadhouses. He seemed to think it was a pose.

"He's been playing around with the live ones so long he thinks everybody else ought to be buried," Dan said crisply. "But let's not stand here talking, if you're ready to leave."

Jerry went into Evelyn's room and got her hat and wrap.

"We already said good night," she told Dan when she rejoined him. He found his hat in the hall and they left quietly.

Someone had drawn the curtains in the door connecting the foyer and the living room. No one saw them depart. Jerry breathed a sigh of relief when they were outside and had found a taxi.

She had lived a year in New York and nothing of any particular interest had happened to her until that night. Alester's silver plane had dropped out of a clear sky upon her camp. Since that event life had become hectic.

How much simpler it would have been for her if only one flyer had come down with the ship! But which one? Jerry did not want to answer that question.

Dan had little to say to her as they drove down Broadway to Columbus Circle. He knew that they stood at a crossroads and that Jerry was headed one way and he another.

He could feel the warmth of her slender, dance-hardened body as she leaned wearily against him in the cab. He made no effort to put an arm around her though his restraining hand happened to be touching her from going so was taxing his self-control to the utmost.

He thought of a longing, of the days of the cave-man. Jerry would

belong to him if only physical strength were needed to take her. He could crush her in one arm, and fight a dozen Alesters for her with the other.

Dan had always been rather proud of his strength . . . tonight he would have traded it for a gypsy love charm.

Jerry's eyelids drooped. She leaned a little more heavily on Dan without being conscious that she did so. The blessed safety she felt with him was so very blessed, so natural, that she was not even aware of it.

Dan was asking himself where and when he would see her again. He knew that before her show returned for its New York premiere he would have completed the job for which Alester had hired him.

Perhaps he would go west, and join the air mail service or take up stunt flying with country town carnivals. There wasn't much kick in safe flying with nothing to live for, he told himself gloomily.

He knew, as Jerry did, that Alester would drive her to Atlantic City.

THE WAY TO GROW GRACEFUL
Introducing the Newest Herald Writer

Graceful? Yes, and pretty too, is Doris Niles, the youngest dancer in America to head her own organization. She began to study dancing at the age of 8 and made her professional debut at 12. Since then she has appeared in several American tours, as well as in France and Spain. Three times last summer she danced by royal command before King Alfonso, Queen Victoria and the Spanish court. Miss Niles now has written, for The Herald and NEA Service, a series of articles called "The Way to Grow Graceful." The series deals with grace and charm in everyday life, which every woman wants and which, this celebrated dancer says, the American woman possesses to a great extent. Every installment is strikingly illustrated with specially posed photographs. Watch for them on the home page.

GOOD LIGHT IS VALUABLE FACTORY INVESTMENT
By DR. MORRIS FISHEIN
Few people realize how much we are dependent on our vision for all of our daily activities. A competent engineer who was attempting to trace the relationship between bad lighting and accidents found that under normal conditions 95 per cent of our physical effort is devoted to seeing things. Furthermore, 70 per cent of all the movements of the body are in response to impressions gained through the sense of vision. As a result of one manufacturing establishment two-thirds of the workers were found to have defective vision to such an extent that more than 25 per cent of their energy was devoted to getting normal vision under good lighting conditions. He inspected many manufacturing plants and there are practically no shops illuminated according to our present knowledge and standards of light and vision. As a result of this millions of workers with defective vision are constantly partially incapacitated; furthermore, innumerable accidents result both to the person with bad vision and to other employees associated with him.

When a careful study of lighting conditions is made and proper lighting put into effect, the results relation to the number of accidents in the plant. One company employed a thousand workers and had an annual payroll of \$1,750,000. The annual number of accidents was approximately 425, and payments under the workmen's compensation for such accidents was approximately \$15,000 a year.

A reorganization of the lighting system was made which involved an increase in electrical consumption from 40 watts per employe to 100 watts. The electrical work cost \$5000 and the light bill was increased from \$1900 to \$4700, but the accidents were reduced from 425 to 170 per year, with a resultant decrease in money paid out under the compensation act to approximately \$6000 a year.

Obviously if such reorganization in lighting were applied uniformly in manufacturing establishments through-out the country the amount saved in accidents and in compensation would be a tremendous figure.

The WOMAN'S DAY
By ALLENE SUMNER

Now it's the church which rises up to remark that wage-earning wives who labor for hire outside the home are a menace. Two religious journals broke out with articles to this effect within the last week or so. The Nashville "Christian Advocate" observes that of the great horde of working wives very few of them are working from necessity. It merely means a too-high standard of living when both husband and wife draw wages with a corresponding loss in the home of those things which cannot be bought with money but the dearth of which means misery, it declares.

"Often the proceeds of two pay checks are spent as quickly as where only the husband works," the article continues. "Frequently no money is laid aside; no home is purchased. Luxury and pleasure rule their desires."

The "Herald of Gospel Liberty" says: "Literally thousands of husbands are being kept out of work today, and hence their homes out of financial support, or these husbands are receiving far lower wages than they should receive, simply because an equal number of wives who do not need the work, and use it only for luxuries, are holding the jobs which otherwise they might have."

And with all the tumult and shouting I continue to say that it is necessary and an outer situation that has called women out of the home and into the wage-earning world—not women who have created the situation for themselves.

And yet all the poor souls who are trying to run homes and children and jobs are assailed on every hand as if they were doing something criminal—taking bread out of poor men's mouths, neglect-

The twenty-pound turkeys were strutting their stuff the other day near the corner where I was waiting for a bus. Some city holder skeptical of getting something extra good in turkey meat near Thanksgiving had bought these two fat birds in the country somewhere, no doubt, and had them parked on the vacant lot next to his house, awaiting the zero hour.

A mother with her little boy also were waiting for the bus. Of course, the little chap was all worked up over the turkeys.

"Look, Mama. What are they?" "Turkeys!" answered Mama. "They're what you eat on Thanksgiving."

"Will we have turkey?" "Why, I hope so. Maybe Daddy will buy us one."

"No. A dressed one."

He wanted to know what "dressed" meant.

"Dead. Ready to eat," she told him.

"Will those be dead?" "Yes."

"When?" "Next week. On Thanksgiving."

"How? How will they be dead, Mama?" "They'll have their heads cut off," she answered patiently. "Someone will cut their heads off and take off their feathers and cook them."

The little boy stared and stared. "I don't like turkey. Tell Daddy not to bring a turkey," he said suddenly.

His mother didn't quite understand. "You would if you tasted it. It's very good. Don't you remember? Last Christmas we had turkey."

The boy didn't answer. He was thinking hard.

I was glad she didn't joke about the contemplated murder, as so many of us do before children. We love to chortle about the poor being neglected gobbler getting it in the neck.

Of course there is such a thing as being too squeamish. There is no reason why children should not know the facts. And yet I have always had a repugnance about allowing my children to see certain things.

I have never forgotten how I found one of them crying in the kitchen over two rabbits a friend had shot and sent us. As their pathetic little carcasses lay soft and mute on the kitchen table she was trying to reconcile this murder with the stories I read her every night about Peter Rabbit and his immortal relative, Uncle Wiggily.

It seems to me that we ought to keep our food murders, so to speak, in the background as much as possible.

This And That In Feminine Lore

Why bother to make aprons when you can buy them 3 for \$1 at Mrs. Manning's Pleating and Hemstitching shop upstairs in the House & Hale building—or large overall aprons for 98¢?

Mme. Mengarini, recently arrived in America, has an exhibition of note at the Art Center. She is the official sculptress of Italy and has won the highest art honors a woman ever won in her country. Her bust of Mussolini was done by official orders, and her war memorial was unveiled by the king himself.

She says "I have come to America because I know it to be the land of women's opportunities. I know I shall enjoy working here, but even more I shall enjoy living where women are encouraged to develop their talents, where work is an honor alike for both sexes."

Read Allene Sumner's comments today on wage-earning wives. She always takes sides with them regardless of who the denunciations are. True, many young women continue with their jobs simply to buy more luxurious clothes. Her furniture, more gayety and entertainment, than the young husband who has to make his way up in business or professions can afford without their help. We all know any number of young girls, here and in other places, earning good salaries and willing to keep on after marriage because they realize it would be years before the man of their choice would be in a position to give them a good home and maintain their position in society. Many of these girls are college graduates, doing highly specialized work, and if they want to continue to hold their positions, very often at their employer's request, who should criticize? Again, when mothers of young children, and we call to mind quite a number of them, go outside the home to earn the wherewithal to buy not luxuries but necessities, it is a safe bet they do not do so from choice, there is some urge or objective.

That last word calls to mind that Mrs. Jackson in her talk to the women at the W. B. A. rally Thursday, urged them to have an objective to work for, and illustrated it by telling the story of a friend of hers who when married to a young lawyer, just beginning to practice, was criticized because of the large, beautiful home she set her heart upon having and actually did build. It was something to work for—an objective. They saved and worked for that home they prospered and were also able to send their children to college. Compulsory payments on a home, endowment insurance, furniture, autos or radios help us to enjoy those things while we pay for them, whereas if we waited to save enough to buy them outright most people would never have them.

Caramel Cornstarch Pudding
Two cups scalded milk, 4-1/2 tablespoons cornstarch, 2 cup sugar, 1/4 teaspoon salt, 3 tablespoons cold milk, 1-2 teaspoon vanilla, 2 eggs.

Melt sugar slowly in an iron frying pan, stirring constantly until liquified. Add slowly to scalded milk, keeping the fire low and taking care mixture does not boil over. Stir cornstarch and salt to a smooth paste and stir into scalded hot milk and sugar mixture. Let caramel and milk become perfectly blended before adding cornstarch. Stir constantly until mixture thickens and then cook over hot water, stirring occasionally for thirty minutes. Remove from heat and stir in yolks of eggs well beaten. Beat hard and add whites of eggs beaten until stiff and dry. Add vanilla and stir just enough to make smooth. Turn into a mold and chill. Serve with sugar and cream. Keep in mind that whenever cornstarch is used it must be thoroughly cooked.

Boxing Is Coming Back After Summer's Slump

Gates of Recent Bouts Have Been Bigger Than Ever With No Special Attractions, Walsh Notes.

BY DAVIS J. WALSH

New York, Nov. 22.—Among the prominent institutions today that apparently are not going to die just yet are your rich bidden aunt and that gift to mankind known as professional boxing. Aunt Agatha, of course, may mistake an elevator shaft for the front door step almost any day but boxing, have given undeniable evidence that it has lived down one of the most depressive intervals of its history, now looks as though it will die with the crack of doom itself.

Only a few months ago, its life was d-spasired. The patient was described as being very low but that wouldn't be because of the ambiguity involved. Nobody ever had thought it was very high in the first place. The diagnosticians, therefore, gathered about the bed of pain—it was the type known as a four-poster with canvas for a counterpane—and decided to describe the patient's condition as comatose. This was a master stroke. A lot of the patient's nearest and dearest relatives naturally thought the doctors were striking an optimistic note.

Anyhow, the patient all but died on that hot July evening while Mr. Tunney was buffeting Mr. Heene about. About what? Well, offhand, I'd say about everywhere. The fight drew approximately many gentlemen of the press and the ushers. It paid off the promoter, Mr. Rickard, in civil war coupons.

Having pitched bottom on this one, the patient was unfortunate enough almost immediately thereafter to go into a slump. Promoters made no money all the time, regardless of the attraction they sponsored. They tried good shows, they tried bad shows. Both showed an equal profit and I mean none. It looked like the end. And it was—the end of the dough.

I don't mean to say that the election either did or did not have something to do with it. All that dependant knoweth or voucheth or both is that a marked change for the better has come in during recent weeks. I, for instance, didn't think Paulino and Vol Porat constituted any particular attraction at \$7.70. They played to more than 14,000 mugs, not meaning the kind that holds the beer: I'm referring to the kind that usually holds the bag.

Another shock was brought about at Murphy's and Farr's alleys tonight. The Herald League has some mighty good bowlers. Billy Wiganowski's 160 and 300 are the high single and three string records the boys have to shoot at.

Walter Mosk, fullback, is the proud father of a bouncing baby boy born yesterday. The birth of another Mosk is hailed as further indication that the Cloverleaves will win Sunday.

There will be another large delegation of Manchester fans in Foot Guard Hall tonight to watch Frankie O'Brien and Eddie Adonis clash and to watch the return battle between Brownie Tucker and Mickey Roberts. Tucker beat him before but Roberts was given the decision.

The battle between the Cubs and Cloverleaves was the first football game that Eddie Zimmerman, popular south end barber, ever watched. He says he does not like the sport.

If you are betting on the Cloverleaves series don't forget that the score next Sunday automatically crowns the Cubs champions. The Cloverleaves must win.

Speaking about football, "Gib" Willis says "Gib" may be all right, but he would much rather watch one of the famous Battle Royals they have in the South. He says they put five colored gents into the boxing ring and let them go at it till one of them is dead.

What happens in this "survival of the fittest" is comedy beyond description. There are no rules. One may hit at his discretion. The one standing up at the finish is declared the winner.

Twenty members of the High School football team will see the Harvard-Yale classic Saturday for the simple task of being ushers. They recently saw the Army-Yale game.

"Naturally, I will see Tex Rickard in Florida. It's possible future in the ring depends upon Rickard's plans."

Los Angeles, Cal., Nov. 22.—Jack Dempsey, former world's heavyweight refused to deny that he is contemplating a return to the ring.

"I won't say 'no,' and I won't say 'yes' either," he declared upon his return here yesterday from the East.

"The fact is, I'd rather not

FOUGHT TUNNEY DRAW

The fighters around this country who can boast of having gained at least a draw decision with Gene Tunney, the retired heavyweight champion, can be counted on the fingers of one's hands. And Bill Schraudenbach is one of them. He's an ice man and amateur fighter at Cincinnati. And Schraudenbach likes to tell of the time when he fought Gene in Pershing open arena in Paris in 1919 and gave Tunney a bloody nose and a black eye. He admits Gene did the same for him. The bout was ten rounds and a draw.

FOUR MEN DIE WHILE HUNTING

Stautan, Ill., Nov. 22.—Rolle Davis and George Arnold, both 50 years of age, missing since Monday afternoon when they started on a hunting trip, were found yesterday on a farm southeast of this city, shot to death. Officials, after a hasty investigation, were convinced that Arnold had accidentally shot and killed his companion, then, overcome with remorse had killed himself. The men had been lifelong friends.

Henry, Ill., Nov. 22.—Searchers were dragging the Illinois river near here yesterday hoping to recover the bodies of two unidentified hunters, drowned when their boat capsized.

CLOVERLEAVES GET OFF WORK TO PRACTICE FOR CUBS' SCALP

Determined to Even Series at All Costs; List of 20 Possibilities on Next Game.

Additional proof that the Cloverleaves are determined to beat the Cubs Sunday at Hickey's Grove and thus even the town championship series, is seen in the fact that practically the entire team took the afternoon off yesterday for a secret practice session.

Although the workout was of a secret nature, it was said that 18 out of the 23 members of the squad reported. Some were not working yesterday afternoon anyway and others got out of work special for the occasion. Coach Jerry Fay put the squad through a strenuous practice for more than two hours during which he corrected the faults of last Sunday's game and perfecting the team's play for the next game.

Neither the Cubs nor the Cloverleaves had any signal drill when they reported for practice Tuesday night. Both coaches used up the time lecturing the men on their faults in the first game and giving them instructions about what they should and shouldn't do Sunday. The Cubs will workout again tomorrow night and again Saturday night but probably will not practice again on the morning of the game as they did last week.

If expectations come true, the second game of this title series will be a decided contrast from the first. There are several reasons for this statement. Accordingly here are several possibilities which MAY come true:

1. The Cubs will not win again on breaks.
2. The Cloverleaves' aerial attack will be watched better and therefore will not be as successful again.
3. The Cubs will be much more successful in the air than they were in the first game.
4. The Cloverleaves will gain more through the line from scrimmage and the Cubs less than they did in the first game.
5. Jack Stratton will outkick Brung Mosk, although he did not in the first battle.
6. Punts of ineffectual length are again liable to put the Cloverleaves in bad holes.
7. Brung Mosk will again gain the most ground of anybody in the game from scrimmage.
8. Captain Lefty St. John is again liable to break loose with long punt runbacks and big gains from scrimmage as he did last year after being a flop in the first game.
9. Jack Stratton will at least try a field goal for the Cubs, something he didn't do in the first.
10. The Cubs' defense as a whole will be much better than it was in the first game, for the players re-

But Naugatuck is Favored to Win; Is Undefeated; Big Crowd Expected; Johnson at Quarterback.

At Newark, N. J.—Ernie Schaaf, former heavyweight champion of the Navy, scored technical knockout over James J. Lawless, of Harrison, N. J., 7.

alize that even a tie game gives them the championship.

11. South end money will be much less conspicuous than it was in the first game for two reasons. First, quite a few Cubs' backers aren't sure they will win again after watching the first game. Second, some are foolish enough to believe that there is the possibility of a frame-up for financial reasons when such a conclusion is absolutely ridiculous considering the rivalry between the two teams and the personal feelings between the players.

12. Interest in the second game is larger and if the day is ideal for football, a larger crowd will see the second game than witnessed the first.

13. That, all in all, the brand of football displayed by both teams will be much better than shown at Mt. Nebo.

14. That "Whitey" Mullen won't play the backfield any length of time if at all for the Cloverleaves.

15. That Billy Skonaski, despite the fact that he is handicapped by being a former member of the Cloverleaves, will again be a big star for the Cubs defensively.

16. That both teams will attempt far more trick plays than they did Sunday and that in this respect the Cubs will take first honors.

17. That the Cloverleaves will have more confidence Sunday than the Cubs.

18. That the Cloverleaves' chances of winning are at least fully as good as those of the Cubs.

19. That the even money is a fair bet for the second game and 6 to 5 on the Cubs no more than right for the series in view of the fact that the Cubs are one game up.

20. That the "I told you so" and the "If" boys will be out in even stronger force than they were after the first game.

Billy Evans Says

Two of baseball's most colorful figures will soon pass from the major league picture. I have reference to Ty Cobb and Tris Speaker. Connie Mack of the Philadelphia Athletics announced he had asked for waivers on these two most famous diamond athletes. Cobb and Speaker were members of the Mackmen last season.

Any major league club that believes either Cobb or Speaker has some real baseball stored away can purchase either player for the waiver price in the majors. There is hardly a chance that any of the 15 clubs other than the Athletics will claim either of the two stars. It isn't the initial outlay of \$7,500 that would cause any of the clubs to hesitate but rather the difficulty that would certainly be met in attempting to sign Cobb or Speaker. For perhaps 10 years these two players have been receiving salaries from \$25,000 up and each has received as high as \$60,000, according to report. This sum includes salary as well as a commission on the profits, as contained in a special clause in their contracts.

If no club claims either Cobb or Speaker, then Connie Mack will tender each an unconditional release. Since both have spent more than 10 years in the majors, neither can be sent to the minors but must be made free agents. Of course, Connie Mack wouldn't for a minute think of sending either of them to the minors, even if he could. There is too much sentiment in Connie for that. In addition, neither Cobb or Speaker would go, since both are very wealthy—Cobb is generally regarded as a millionaire.

When I read the news that Mack had asked waivers on Cobb and Speaker, I experienced a tinge of regret that both didn't pass out of the picture of their own free will. It is too bad that after playing for one reason, thereby vindicating the unfounded and unfortunate charges made against them, that the two great players didn't elect to retire from the game with the fans still singing their praises because of their remarkable play.

Both Cobb and Speaker started the 1923 season as regulars but before it was half over had been removed from the lineup. Cobb's batting eye seemed as good as ever but his legs wouldn't respond. Speaker, always a great batsman and one of the outstanding players of all time, slumped at the plate. He finished the season with a mark of only .265, a matter of 50 or more points below the figure one was accustomed to seeing after Speaker's name.

Having been connected with baseball through the same period in which Cobb and Speaker achieved their greatness, and having been an eyewitness of many of their most remarkable feats, I hated to see the old boys sent to the bench, thereby dimming some of the luster that should have clung forever to their greatness.

HERO OR GOAT WILTON'S LUCK

Stanford Halfback May Yet Prove Undoing of California or Army.

By BOB MATHERNE
In glancing over the statistics of the Stanford eleven, one finds little room for name of Frank Wilton to indicate that he is any more interesting than any of the rest of the young men playing for Pop Warner.

The cold figures state that Wilton plays left halfback, and has been doing so for three seasons now, that he is 23 years old and weighs 157 pounds and that he lives in Huntington Park near Los Angeles.

But from none of this does one gather that Mr. Wilton is one of those colorful young men who does deeds in a big game always give room for praise due a hero—or raps due the goat—after the game is over.

Wilton is closing out his football career at Stanford and there remain two big chances for him to make up for some of the costly blunders that he has made. The Warner eleven plays California on Nov. 24 and then tramps across the continent to meet the West Point outfit on December 1.

What will he be—a hero or a goat? You never can tell from hearing what he has done in other big games of his career.

Frank Wilton first pulled a costly blunder in the Stanford-Alabama game at Pasadena on January 1, 1927. One error of his gave Alabama a chance to tie the score and the southerners did. And yet, in the same game, it was Wilton's alertness that saved the Cardinals from defeat.

Mr. Wilton, late in the game, was calling signals for Stanford. The team was ahead, 7-0, with about two minutes to play, and Stanford had possession of the ball. Wilton ran two plays against the line and they failed. He might have played safe and kicked the punt, but he didn't. He tried another play. It failed. Then he decided to kick, but stood so close to the line in doing so that his kick was blocked and bounced back to about 15 yards from his own goal post and Alabama rushed over a touchdown and kicked goal to tie the score.

On the last play of the game, an Alabama back was carrying the ball when the whistle shot. Most of the Alabama players and Stanford, too, stopped. Not the man carrying the ball nor Wilton. The Alabamian kept going towards that goal and had Wilton not been awake and stopped him—well, Mr. Wilton was awake.

When Southern California was playing Stanford in 1927, Wilton made a mechanical error early in the game. He fumbled the ball—and a Trojan end picked it up and ran for a touchdown. Later in the game Wilton made a heroic play when he caught a pass from "Bill" Hoffman and scored a touchdown. The game ended, 13-13.

O'Brien Predicts Kayo Victory Over Adonis

Hartford Middleweight Said to Be Punching Harder in Daily Workouts

Frankie O'Brien of Hartford, claimant of the New England middleweight title, sees himself winner on a kayo over Eddie Adonis of Athol, Mass., in the star bout of the weekly boxing show at Foot Guard tonight. He makes this prediction despite the fact that Adonis has scored sixteen kayos in his last 24 bouts.

O'Brien is in superb condition and is punching harder than ever in his daily workouts according to Dinny McMahon who has the Hartford boy under his wing. Adonis has fought in Hartford but once.

But Naugatuck is Favored to Win; Is Undefeated; Big Crowd Expected; Johnson at Quarterback.

At Newark, N. J.—Ernie Schaaf, former heavyweight champion of the Navy, scored technical knockout over James J. Lawless, of Harrison, N. J., 7.

At New York.—Eddie Guida, New York lightweight, outpointed Harry Scott, New York negro, 6; George Hoffman, former national amateur heavyweight champion, won decision over George Nero, New York, 6.

alize that even a tie game gives them the championship.

11. South end money will be much less conspicuous than it was in the first game for two reasons. First, quite a few Cubs' backers aren't sure they will win again after watching the first game. Second, some are foolish enough to believe that there is the possibility of a frame-up for financial reasons when such a conclusion is absolutely ridiculous considering the rivalry between the two teams and the personal feelings between the players.

12. Interest in the second game is larger and if the day is ideal for football, a larger crowd will see the second game than witnessed the first.

13. That, all in all, the brand of football displayed by both teams will be much better than shown at Mt. Nebo.

14. That "Whitey" Mullen won't play the backfield any length of time if at all for the Cloverleaves.

15. That Billy Skonaski, despite the fact that he is handicapped by being a former member of the Cloverleaves, will again be a big star for the Cubs defensively.

16. That both teams will attempt far more trick plays than they did Sunday and that in this respect the Cubs will take first honors.

17. That the Cloverleaves will have more confidence Sunday than the Cubs.

18. That the Cloverleaves' chances of winning are at least fully as good as those of the Cubs.

19. That the even money is a fair bet for the second game and 6 to 5 on the Cubs no more than right for the series in view of the fact that the Cubs are one game up.

20. That the "I told you so" and the "If" boys will be out in even stronger force than they were after the first game.

POLICE COURT

As a result of an automobile accident on Main street, near Pearl, about 11 o'clock last night in which cars driven by James F. Moriarty and R. J. Farrell were involved, Farrell was brought before the town court this morning charged with reckless driving. He was found not guilty.

The Moriarty car was parked on the west side of Main street while he had gone into the lunch cart. He was back in and turned around as the Farrell car came from the north, down the hill. In an attempt to prevent hitting the Moriarty car the driver of the Farrell car pulled over to his left, resulting in both cars coming together near the trolley rails in the center of the road. The contact resulted in the Farrell car overturning. Judge Johnson could not see that there was reckless driving proved and found Farrell not guilty.

Improperly Marked Traps

Because George Metcalf and Carl Johnson, two local hunters had set traps on land not owned by them and also had failed to have properly marked their names, they were brought before the town court this morning by Deputy Game Warden Walter E. Luettgens. They pleaded guilty. Judge Johnson suspended judgment on the first count and imposed a fine of \$5 on the second count for not properly marking their traps, which fine he remitted. They paid costs, which amounted to \$9.72 in each case. The high costs were due to the officer's fee which amounted to \$3.57 in each case and \$2.30 for witness fees.

HEBRON HILL NEEDS MORE URGENT SIGNS

Two Auto Accidents, Motorcycle Ditched, Within a Few Days.

(Special to The Herald)

Hebron, Nov. 22.—Two more reports of trouble with motor cars on the Post Hill road have come in during the last few days. One car turned completely around while the driver was coasting down hill, and another was reported as turning turtle later. Many accidents of this kind have been reported from this section of road, though so far no serious results have followed. Motorists are not prepared for the steep hill, and the sharp turn at the foot, though the usual signs would indicate that care should be taken. It would seem as though special warning signs should be placed at the top of the hill, urging extra caution. On Monday, Leslie Coates while going up this hill on his motorcycle was thrown thirty or forty feet, landing in the ditch. He did not fully recover his senses until night. Neighbors telephoned for help and he was carried home. He suffered no injuries beyond the shock and bruises. The motorcycle was not injured.

NORWICH WOMEN GIVE FINE MINSTREL SHOW

Second Evening of St. James's Bazaar Draws Attendance of Nearly 400.

Almost 400 persons attended the second evening of the bazaar of St. James's church in St. James's last night. The entertainment was furnished by a women's minstrel troupe from Norwich. Miss Nonie Nagle, Miss Marie Desmond, Miss Loretta Gagle and Miss Elizabeth Sullivan were "ends" and Miss Helen Toomey was the "middle-man." Solos were by Miss Margaret Driscoll, Mrs. Leonard Desmond, Miss Eleanor Ludwig and Mrs. Rossana Hussey. The "ring" was made up of sixteen entertainers.

The show opened with the singing of "Good Bye Broadway, Hello Manchester." There was snap and humor all through the hour that it took to present the entertainment, the entertainers never hesitating in any part of the show, which abounded in local hits by the ends and in good singing.

There is a matinee this afternoon for the children and the bazaar closes tonight with an award of presents.

GOOD WILL CLUB TO GIVE TURKEYS

Whist Players to Be Given Fine Awards at Party Tomorrow Evening.

Turkeys for first prizes will attract a crowd of whist players to the whist and dance of the Good Will club, the Parent-Teacher Association in the Fifth District, tomorrow evening. Only the man and woman making the highest scores will receive the Thanksgiving birds, and the players with the lowest scores will be consoled with gifts, four prizes in all in view of the value of the first prizes.

William Hagrow and George Stampler will have charge of the floor arrangements and will provide a three-piece orchestra. The Ladies who will supervise the serving of refreshments will be Mrs. William Monte, Mrs. Jelma Smith and Mrs. Wallace Palmer.

COVENTRY

Mr. and Mrs. Benjamin Hitchcock and daughter Edith of Newington Junction visited Mrs. Hitchcock's sister, Mrs. William Blackburn, recently.

Mrs. Blackburn's mother, Mrs. Elizabeth Haynes, and the former's sister, Mrs. Etta Powers and son William, of Hartford were Sunday guests.

Mr. and Mrs. H. B. Elliott and family of Manchester were Sunday guests at the latter's brother, John E. Kingsbury.

Mr. and Mrs. Rufus Reed are receiving congratulations upon the birth of an 8½ pound daughter, born at the Rockville hospital Tuesday morning.

The annual Farm Bureau meeting held in Rockville was well attended by the ladies. The recent dampness prevented many of the men from coming from the Ellington section as all got busy stripping tobacco.

The Ladies Fragment Society met Wednesday for work at the parsonage, getting ready for their annual Xmas Sale early in December. A play is in the works for this night also.

Mrs. Fred Geisicke and two daughters are visiting with Mrs. Geisicke's sister in Mt. Vernon, N. Y.

Mrs. A. J. Vinton, Miss C. Irving Loomis and Mrs. Henry Barnes, started Wednesday morning to attend the Sunday school convention to be held at Norwich, Conn., Wednesday, Thursday and Friday. They will stay through the entire convention.

On Tuesday, Nov. 20, the day after Thanksgiving the 4-H boys and girls of Coventry will put on an achievement program with an exhibit of some of the work accomplished the past year. This is the first program of this kind to be put on in the state and the state leaders are all expecting to be there. The program will consist of musical numbers by the Symphony orchestra of the Silver street school, a short play by the Birch school, a violin solo by the Boys Canning club, song pantomimes "Home Sweet Home," by North School Health club, with singing of club songs by the entire club members.

Drafting of a simple dress by the Sewing club, some interesting facts about Tolland county and Coventry in regards to club work, short talk by A. J. Brundage, state club leader followed by the motion picture entitled "The Modern Cinderella." There is no charge for this program but a collection will be taken which will be divided among the clubs to ward sending some members to Short Course next summer. From 5:30 to 7:30. The 4-H Sunshine Scissor club will serve an oyster supper, also baked beans for those who don't eat oysters, at a very low price. This work isn't to raise money but to show the public what the boys and girls can do.

BENDALL TO CONTINUE AS CHORAL PRESIDENT

Watkins Finally Persuades Former Head of Club to Go On With Promise to Aid.

C. Elmore Watkins informed the Herald today that after much persuasion Fred Bendall has agreed to remain as president providing a voluntary committee would help him with the work of getting out notices and the other routine work connected with the office. This the choral club was more than willing to do in order to keep the club under so capable a leader.

This contradicts the story in last night's paper that stated that Mr. Watkins would be the president this year. The Herald's information came from the club's publicity representative who had not been informed of the change.

Mr. Watkins said: "Mr. Bendall is the ideal man for holding that office he needs the co-operation not only of the members but of the people of Manchester as well." He added: "If all true music lovers will voluntarily aid themselves to the committee appointed to help Mr. Bendall, it will insure the continuation of the Choral Club in Manchester. That it ought to continue no one doubts. The standard of music given is excelled by no one club in the country.

"This week bills are being sent out to former honorary members and it is asked that the response come in promptly. Right now Mr. Bendall and the men need this assurance of the interest of the people of Manchester."

THE BOOK OF KNOWLEDGE: "Famous First Ladies"

Sketches by Hessey; Synopsis by Braucher

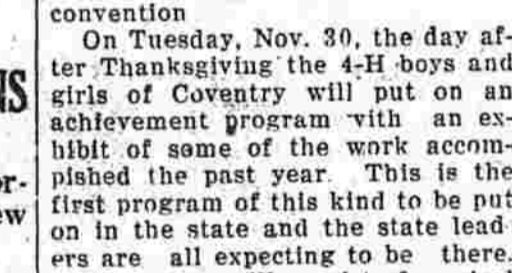

Mourning marked the last few months of Benjamin Harrison's administration. Mrs. Harrison became hopelessly ill in the summer of 1892. She died Oct. 24. The coffin was placed in the center of the vast East Room. The body was removed after funeral services and conveyed in a private car to Indianapolis.

By NEA. Through Special Permission of the Publishers of The Book of Knowledge, Copyright, 1923-26.

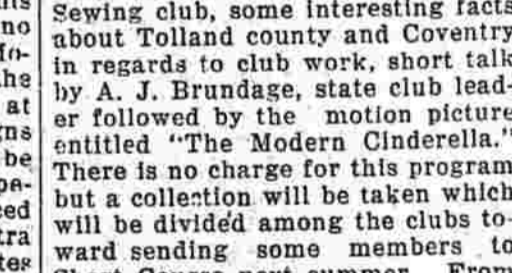

When Grover Cleveland began his second term there was talk of the Cleverlands not returning to the White House.

The President purchased a home in Woodley Lane, near Washington, and lived there mostly, but still kept a residence in the White House.

One of the interesting events of Cleveland's second administration was the birth of Esther Cleveland. This was the first instance of a child born to a President in the White House. Some criticism was aroused over the alleged melting up of the "Dolly Madison spoons," but it was said only valueless old pieces had been remodelled. (To Be Continued)

FLAPPER FANNY SAYS

Nobody knows why a wrong number is never busy.

LETTER GOLF

GET THE WHIP HAND. The whip hand is a nice thing to have in any kind of sport...

Handwritten word puzzle grid with the words 'HAND' and 'WHIP' filled in.

THE RULES. 1-The idea of letter golf is to change one word to another and do it in par, a given number of strokes...

"The wings of a hummingbird move six times as fast as the propeller of an airplane..."

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

While all the Tynmites sailed along the wind began to blow real strong. Of course it made their little boat go hopping 'cross the waves...

SENSE and NONSENSE

AN UMBRELLA. Solomon might have written this. Anyway, the truth of it is old enough and strong enough to be credited to the ancient age.

I Held a Hand. Last night I held a little hand, So dainty and so neat; I thought my heart would surely burst...

No other hand e'er held so tight. Could greater gladness bring Than the one I held last night— which was Four aces and a king.

The little son of a minister had been very naughty, and as punishment he was not allowed to eat with the rest of the family.

Heard tell of a Scotchman who was so tight that he always refused to laugh when the joke was at his expense.

Poem. (Apologies to Guest.) Women's faults are many, Men have only two— Everything they say And everything they do

"Let the Egyptians have their mummies, I'll take my sweet daddy," says the flapper.

The most satisfactory reply to the question, "How may chewing gum be removed from clothing?" is, let the second hand clothing man do it.

And the Miller Trio.

ABOUT TOWN
The sophomore class party will be held at the High school assembly hall tomorrow evening at 7:30.

The marking period for October and November at the High school will close December 7 and the report cards will be out December 14.

The November meeting of the Hartford County Association, American Legion Auxiliary will be held at the Williams Memorial building, Station 38, Glastonbury, Sunday at 3 o'clock.

Mr. and Mrs. George W. Kuhney and son Kingsley have moved from Hudson street to their recently completed home on Henry street.

The regular meeting of the Cosmopolitan club will be held in Center Congregational church parlors at 3 o'clock Friday. Mrs. Lewis N. Heebner will be the hostess. Miss Marion Dorward, supervisor of music in the Ninth District, will speak on "The History of Music, Illustrating her talk with instrumental selections. Tea will be served.

An automobile with New York markers was left on Walnut street last night parked on the north side of the street. The car evidently had developed trouble, as in addition to it being parked directly under a street light the doors were all locked and a card giving the name of the owner was on the windshield.

The Woman's Home Missionary society of the North Methodist church will meet tomorrow afternoon at 3 o'clock with Mrs. Fayette B. Clarke.

The Friendly Bridge Club will meet tomorrow with Mrs. Fred Dart of Flower street.

The speaker at next Sunday's meeting of the Men's League of the Center Congregational church and on the two Sundays following will be Professor H. B. Goodrich of Wesleyan University. Professor Goodrich will give a series of lectures on "Evolution." The subjects for the consecutive Sundays will be: "What is Taught About Evolution by the Schools," "Evolution and Religion" and "The Effect of Evolution on the Social Outlook." Professor Goodrich has made a deep study of evolution and an extremely interesting series of talks is anticipated. The men of the church are cordially invited to attend these meetings. The speaker last Sunday was Dr. Howard W. Steigler, who spoke on "The Universe and Man."

A rushing business was done in alcohol yesterday. The cold snap of last week brought about a heavy demand for fluid for automobiles kept in "fresh air garages." This was followed by the unduly warm spell that caused the alcohol to boil out. Yesterday the weather took such a decided change that again gasoline stations were doing a big business in alk.

THIS WONDROUS AGE OF QUICK COMMUNICATION

Muldoon Have an Experience With Wireless and Wire, But They Read the Papers.

Sometimes a wireless message or even an ordinary telegraphic dispatch is wonderful and then again it is—wonderful.

Mrs. John Muldoon of 13 Cottage street has a sister-in-law, Mrs. John Fitzpatrick, of Chicago, who recently made a visit to Ireland. Returning on the steamship Caledonia, she sent, while at sea, a wireless message to Mrs. Muldoon, stating that the Caledonia would dock at New York on Monday, Nov. 12. The message was sent the Friday previous.

On the Saturday before the ship's arrival Mr. Fitzpatrick, who had come on from Chicago to New York to meet his wife, wired Mrs. Muldoon, his sister that Mrs. Fitzpatrick was to arrive Monday.

Neither message reached the Muldoon home. However, Mrs. Muldoon knew that her sister-in-law had planned to sail on the Caledonia and by watching the shipping news in the New York papers she learned when the ship was to dock and went to New York, meeting Mrs. Fitzpatrick. The Chicago woman came to Manchester and remained until the following Thursday, when she started for home.

On Saturday afternoon of last week the wireless message from Mrs. Fitzpatrick and the telegraphic message from her husband were delivered at the Muldoon home—by mail.

"GOOD THINGS TO EAT"

QUALITY IN MEATS.

There are three distinct ways of doing business in meats. One way is to cut prime, high quality stuff—which of course costs the dealer plenty more than the medium and cheap grades—charge high prices and cater to the few who can and will pay fancy prices for select foods. Another way is to cut cheap stuff, sell it at low prices—usually taking care to have the customer pay for the trim-off—and depend on the customer being easily satisfied so long as the pound-price is attractive. Another way—and this is the Pinehurst theory—is to handle only the best of meats, service them in the best possible manner, and fix prices as low as possible, quality considered, so that first-class foods may come within the reach of the utmost possible number of customers.

The servicing of such Quality Meats includes the giving of absolutely honest weights—something well worth considering—delivery system as nearly perfect as equipment and system can make it, and keen personal interest in seeing that every customer on every occasion gets precisely what is desired and exactly on time.

A factor of this kind of service in diligence and extreme care in the filling of phone orders. Pinehurst feels that it has attained to a unique success in this respect. An error made in a phone order is regarded in this store as a sort of calamity—a black mark—and we hasten to correct it at no matter what pains to ourselves.

Pinehurst believes in the phone order business. But it maintains "open house" for its customers at all times. There isn't a hole or corner in this establishment hidden from their eyes—we're just tickled to have our friends see the whole works, including our perfect pure white ice refrigerating system. Come often. And, when you can't the phone number is two thousand.

Depend on the

Tuner

he knows!

HIS advice and service are invaluable to you in keeping your piano the same fine instrument that left the maker's gifted hands.

The Piano Tuner is a skilled craftsman—a representative of a profession, a graduate of National Association Standards. He knows pianos and piano tuning—you can depend on him.

And you can depend upon the fact that your piano needs his services, regularly. The piano is a highly-sensitive instrument, and seasonal or sudden atmospheric changes are bound to affect its tone.

The Tuner's visit will bring back its crystal clarity, its sparkling brilliance, its perfect harmony, to delight your visitors, and to cultivate correctly your children's musical sense.

We have a yearly tuning contract offer that many people are taking advantage of. It is inexpensive and relieves you of all worry and bother. Call us on the phone—right now!

To Top Off the Turkey
A Mellow Pumpkin Pie

The harvest again brings its offering of golden yellow pumpkins to crown the Thanksgiving feast. And housewifely thoughts are turning to delicious spiced pumpkin pies and tarts, baked to a deep, rich brown and topped with swirls of whipped cream.

To save time and work during the busy Thanksgiving season, try this tested recipe for pumpkin pie. It can be baked without "watching" in the oven of a modern gas range equipped with a heat regulator.

Spiced Pumpkin Pie.

2 cups steamed pumpkin	1 tablespoon cinnamon
3-4 cup sugar	1 teaspoon ginger
1-2 teaspoon salt	1 pint scalded milk
1 egg	2 tablespoons flour

After running the pumpkin through a sieve, add sugar, flour, salt, spices, milk and well-beaten egg. Line pie pan with crust and add filling. Set the oven heat regulator at 350 degrees and bake one hour.
