Killed in Committee The bill providing for all this was introduced in the last congress at Coxe's request, but was stilled in the House Committee on Bank and Currency. Coxe now plans to visit the home districts of each of the 11 congressmen who voted to kill his bill, and make speeches to their constituents.

It was 10 o'clock when all left for home, with many thanks to Mr. and Mrs. Redfield for their kind hospitality and much praise for Mrs. Kuhnly and her efficient committee.

CHINESE CONSUL FEARS EXECUTION

Washington, July 11.—Agitation on the part of an American branch of the Kuomintang in San Francisco for the return to China of the Chinese vice-consul, Ying Kao and his wife to face the death penalty under the laws of that country for trafficking in opium, is expected here to become a boom-erang.

There appeared little likelihood here today that the Federal authorities in San Francisco would prosecute the young and vivacious Chinese wife of the vice-consul for opium smuggling. Opium valued at about \$500,000 was found in Mrs. Ying Kao's trunks when she landed at San Francisco from China.

**WOMEN TO STUDY
CIVIC QUESTIONS**

Connecticut League Invited to Participate in New Hampshire School of Citizenship.

The Connecticut League of Women Voters has just received from the New Hampshire League the program of its annual school of citizenship to be held July 17 and 18 at New Hampshire University, Durham, New Hampshire. Members of the League of Women Voters from the New England region are invited to participate in a two day study of public utilities, taxation, town and city government.

The question of public utilities is a pertinent one especially in relation to the electric power situation. The power investigation which the Federal Trade Commission has been conducting for the past four months has brought the question very strongly to the public attention. The first day of the citizenship school will be devoted to this subject.

Ernest Gruening, Editor of the Portland Evening News will describe the power situation in New England, and Lewis Goldberg, of the Boston Public Utilities Commission, will discuss the responsibilities of the state in this connection. Two sides of the regulation of public utilities will be presented by Walter E. Wyman, President of the New England Public Service Company and John Baur of New York. The question of the ownership of public utilities is one upon which the League has never taken a stand, but is anxious to inform itself.

On the second day, the subject of public finance will be studied. This should prove of interest to Connecticut members at the conference, in view of the fact that the income and outgo of public money is to be the center of the Connecticut League's study program for the coming year. John F. Sizer, Harvard professor of government, will be the leading speaker on town and city government on the afternoon of the second day.

Special rates for rooms and meals are offered to those attending the citizenship school by New Hampshire University. Reservations can be made through Raymond C. McGrath, Durham, N. H. It is hoped that many Connecticut League members will take advantage of the opportunities offered to the New England region by the New Hampshire League.

GILEAD

At the church Sunday the morning worship with the sacrament of the Lord's supper was conducted by the Rev. Mr. Williams of Orange. The leader at the Christian Endeavor service in the evening was Miss Ruth Ellis. The topic for discussion was "What has made our nation great."

QUOTATIONS

"Young men should be taught the homely truth that they should make up their minds to do the job in hand the best they know how and—quite important—to derive a lot of fun and satisfaction from their work and their associations. If they do this, they will get just as much fun out of life as the president of the corporation does."

—James D. Mooney, president General Motors Export Company.

"People enjoy being shocked. The more easily shocked they are, the greater the pleasure. Shocked persons always feel superior to the shocker and quite rightly are hostile to any busybody who points

Minister, Run-down in Health, Gains 7 Lbs. in 3 Weeks

Rev. W. H. Taylor writes, "After a 7 weeks' revival campaign I was entirely run-down and losing flesh rapidly. I decided to give Ironized Yeast a 3 weeks' trial. After 2 weeks I found my strength returning and the tired feeling gone. In 3 weeks I had gained 7 lbs. and was myself again."

Imagine just 3 weeks to change from a "skinny", tired person to a strong, well-filled-out man or woman. Ugly hollows vanish. Broomstick limbs become round and chubby. Tired feeling disappears. Blemished skin clears.

Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant-tasting tablets. Safe for everybody. Never cause gas or bloating, no harmful drugs.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back from druggist or manufacturer.

convincingly that there is no valid reason for the shock."

—George H. Michener. (Plain Talk)

"The plain truth is we are blindly approaching a national petroleum crisis, and there has been to date little concerted effort to stem the tide."

—Mark L. Requa, former U. S. oil administrator.

"Young men, to be sure, still go into politics . . . They are hard-bolled fellows and under no illusions. They have learned the capital lesson that the government they live under, whether in the States or in the nation, is owned and operated by base and scurvy men, and that if they should have a hand in it they must learn to be base and scurvy, too."

—H. L. Mencken. (The American Mercury.)

"Good manners and good talk. Both of these priceless charms do exist in our United States, despite the cynics, but they exist in narrowly limited circles."

—Sarah Comstock. (Harper's Magazine.)

"If there is one thing above another that no senator can predict, it is how long a senator will speak. We were told here, today, for example, that a senator would occupy

only 30 minutes. He occupied within five minutes of two hours."

—Senator Glass of Virginia.

"If today, as some claim, the churches are empty and the golf links crowded, it is, I believe, largely because the churches of 1929 are rattling the dry bones of 1929 theology instead of demonstrating their practical utility for service. And the churches will never regain the members they have lost by intolerance. Neither can they scare them back with threats of hell."

—Rev. H. C. Ledyard, pastor First Universalist Church of Hutchinson, Kan.

HAMILTON SHOT IN DUEL

On July 11, 1804, Aaron Burr, vice-president of the United States, and Alexander Hamilton, the famous statesman, fought a duel in which Hamilton was mortally wounded.

Because Hamilton had prevented him from being made president, Burr challenged Hamilton. The latter feeling that by refusing to acknowledge the accepted code of which he strongly disapproved, he

would lose his influence, accepted. The duel took place at Weehawken, N. J., and Hamilton fell, mortally wounded, at the first fire—having, it is said, discharged his own weapon in the air. He died the following day.

Having failed to satisfy his political ambition in the east, Burr got together soldiers and adventurers from the western states and sailed down the Ohio and the Mississippi rivers to carry out some schemes not fully understood. It is thought that his plan was to establish a personal government in the southwest, possibly including the Spanish possessions in Mexico. In due time he was taken and tried for treason, but was acquitted for lack of evidence. He died in disgrace.

Why not own the best?

WHEN you can buy genuine first grade Kelly-Springfield tires it certainly doesn't pay to hunt around for tire "bargains." Aside from a Kelly's long, dependable mileage, there is a sense of satisfaction in owning the best.

KELLY SPRINGFIELD tires have long been regarded as a "rich man's tire," but this is merely because you see them on so many fine cars. Kellys cost no more than you would pay elsewhere for any one of a dozen other makes.

And they are Kelly-Springfields!

NATURE seldom gives the maximum of two good qualities to any animal, plant, mineral or any natural oil. Most motor oils are made from crude oil that has a paraffine base or another crude oil with a naphthene base. Both these crude oils have qualities peculiar to themselves. The chemists of the Gulf Refining Company chose the best paraffine and naphthene crude oils and after exhaustive research finally succeeded in perfecting a blend of the two, which is

THE TINIES

(READ THE STORY, THEN COLOR THE PICTURE)

The Tinies didn't even peep, but all stayed very sound asleep as through the sky the Sky Tots pushed the cloud that they were in. One of the Tots said, "They look sweet. I'd like to tickle Clowny's feet. I'm sure that it would startle him, and likely make him grin."

Just then the wind zipped, very cold, and made the Sky Tots lose their hold upon the Tinies floating cloud. It soon went out of sight. Wee Scouty then woke up and cried, "Oh, gee, this is a crazy ride. I cannot see the Sky Tots. My, I hope that they're all right."
