## "INSURGENT" TICKET GETS BAD BEATING

### Jensen-Manning Candidates Are All Defeated by Over- whelming Votes—Duffy Wins Nomination.

The Jensen-Manning "insurgent" ticket in yesterday's Republican Primary here might have been a myth for all the strength it corralled in the comparatively light vote polled. Both John Jensen for assessor and Frederick R. Manning for school visitor made a score that would have been a big success on a golf course. Of the candidates injected into the fight by the so-called "insurgent" group only one was given a lower vote than Attorney Manning and only three were lower than the vote accorded John Jensen. The five Selectmen seeking re-election were named, Jarle Johnson and Arvid Gustafson being voted into the two vacant places on the board; Thomas J. Lewis was nominated for assessor by an overwhelming vote; Albert R. Roberts, James W. Foley, James Stevenson, and Gerald R. Risley were named for constables; and Harold C. Alvord whipped F. R. Manning nearly four to one in the visitor chair in the four contests in the Republican Primary.

### Democratic Primary.

In the Democratic Primary James Duffy, William R. Campbell, Frank J. Quish and John Spillane were named for constables in the only contest that amounted to anything. Of the Democratic nominees put up for Selectman Arthur Manning was low man and was eliminated.

### Keith High.

George E. Keith present Selectman and a candidate for re-election was given the highest vote in the Republican Primary. His total was 1074. Thomas J. Rogers, of the Selectmen was second with 1029, W. W. Robertson third with 944 and the rest of the Selectmen nominees were as follows: Jarle Johnson, 883; Albert I. Jackson, 852; and Arvid Gustafson, 729.

### Lewis' Big Vote.

For assessor Thomas J. Lewis got almost twice as many votes as his two opponents put together. His vote was 775, that of Robert Chambers was 229 and John Jensen was low of the three seeking the nomination, with 209.

### Trounced.

The most decisive defeat handed any one of the Jensen-Manning group was that given Attorney Fred R. Manning running for school visitor. Manning got only 128 while Harold C. Alvord present incumbent ran up a total of 822.

### Constable Nominees.

The constable contest was characterized by the return to the office of James W. Foley who lost in the Primary last year. Willis A. Williams, Shields who has been a nominee for several years was defeated yesterday. Gerald R. Risley edging him out by 11 votes. James Stevenson who made a strong fight for the nomination ran third and Policeman Albert R. Roberts proved as popular.

## CHEMIST TO RESCUE OF BIG RUM SELLERS

### Says Stuff Can Be Drunk But Only Perverted Lot Is Able to Drink It.

Des Moines, Iowa, Sept. 11.—Bay rum can be drunk, but it is the drinker "is a perverted lot." This opinion of Dr. J. S. Weingart, pathologist, is the chief topic under discussion here today. Dr. Weingart testified in Municipal Court here in a suit to condemn 3,000 cases of bay rum seized from the W. W. Wool- worth Company and the Vim store, member of a chain of sporting goods houses.

The seizure was made a couple of months ago, when it was bruited about that Des Moines' enthusiastic but impoverished tipplers were drinking bay rum, at ten cents a bottle, for their alcoholic stimulus.

Dr. Weingart was one of several experts called in to determine the potability of the liquid.

Armed with swabs, bottles and lotions, he took the stand and testified that he had gingerly sampled the stuff and that in his opinion it was not drinkable and that "nine out of ten persons would become deathly sick if they drank it."

Consumption of bay rum, Dr. Weingart testified, will probably lead to brucine poisoning and that, according to his testimony, is about as pleasant as inhaling a load of strychnine.

## WORLD'S SERIES ODDS

New York, Sept. 11.—The first betting odds on the impending World's Series were quoted today by W. L. Darnay & Co., Broadway setting commission.

They quoted the Philadelphia Athletics as 11 to 10 favorites over the Chicago Cubs for the series. Even money is quoted on the opening game.

## Vexes Hoover

Suit filed by William B. Shearer, above, seeking to collect \$250,000 from shipbuilding interests in this country for services tending to prevent world limitation of armament, caused President Hoover to denounce these activities. President Hoover promises to investigate propaganda activities of shipbuilding interests.

## SENATE FAVORS SHEARER PROBE

### Without a Dissenting Voice, Senators Authorize Work to Start at Once.

Washington, Sept. 11.—Without a dissenting voice, the Senate this afternoon authorized a thorough investigation into the anti-disarmament activities of William B. Shearer, who was employed by American shipbuilding concerns to act as their "observer" at the unsuccessful Geneva conference of 1927.

There was no record vote, and the investigation is expected to get under way in a few days.

Adoption of the resolution was marked by brief repartee between Senator Norris (R) of Nebraska, and Senator Watson (R) of Indiana. Republican leader Watson, who yesterday objected to consideration of Norris' resolution denying a seat in the Senate to William S. Vare (R) of Pennsylvania, on grounds that the special session of Congress should be devoted to consideration of the tariff.

Today Norris asked Watson ironically if he would permit adoption of the Shearer resolution "in a special session."

Watson said he would because it would take so much time.

"We mustn't fritter away our time in a special session on a thing like this," Norris retorted.

### Purpose of Probe

Sponsors of the inquiry denied there was any intent to investigate "propaganda" for or against a "big navy." Senator McKellar (D) of Tennessee asked whether it was planned to inquire only into "propaganda" for a "big navy."

"The inquiry will be confined to the specific matter mentioned (Shearer's employment)," said Senator Borah (R) of Idaho.

"Well there has been all kinds of propaganda on both sides and it may be found necessary to enlarge the investigation later on to ascertain the propaganda on the other side (against a big navy)," said McKellar.

### Senator Robinson (D) of Ark.

told the Senate that it was not the committee's intention to investigate any propaganda.

"This resolution is to investigate the facts as to whether an individual was employed by shipbuilders to represent them at an international conference respecting naval arms limitations," said Robinson.

"There is no question raised here as to the right of any one to carry on propaganda."

"This involves the question of interference in what is essentially the foreign relations of the United States. There is no purpose underlying this investigation to confuse it with the long continuous controversy over our having a large or small navy. Nothing we can do is going to end that controversy."

### "It is hoped as a result of this investigation that such transactions, as the one referred to in the resolution, never again will happen. The subject is one of very grave importance. No citizen and no corporation, under the most liberal interpretation of the guarantee of freedom of speech has the right for mercenary considerations, secretly, to interfere with the President's relations with foreign governments. That is the subject of this inquiry and it is important not to confuse it with the question of propaganda."

### TRIGO WINS RACE

Doncaster, Eng., Sept. 11.—Trigo, at odds of five to one, won the St. Ledger, one of Britain's turf classics, here today. Bosworth, nine to one, finished second, and Horus, 25 to 1 ran third.

### TREASURY BALANCE.

Washington, Sept. 11.—Treasury balance Sept. 9: \$33,618,732.30.

## NAB WAGGONER AFTER NATION WIDE SEARCH

### Banker Accused of Swindling N. Y. Banks Out of \$500,000 Takes His Arrest Calmly.

Denver, Colo., Sept. 11.—C. D. Waggoner, small town banker accused of swindling six of New York's largest financial institutions out of \$500,000 is in jail at Newcastle, Wyo., today. Identified by the license on his automobile, the Telluride bank president, who eluded a nationwide search for more than a week, was arrested at a tourist camp eight miles north of the town last night.

"Shortly before 7 o'clock last night," Sheriff Howell of Newcastle, said, "Waggoner readily admitted his identity but calmly declined to discuss alleged fraudulent bank transactions."

"He would neither admit nor deny them," the sheriff said.

"Shortly before 7 o'clock last night," Sheriff Howell said, "Deputy Sheriff Spurgeon, who operates the camp at the tourist resort in the Black Hills country of Wyoming, telephoned me he thought he had recognized a man at the camp as Waggoner."

### Is Not Worried.

"I immediately went out to the camp and found Waggoner eating his evening meal. He has been here in the same automobile in traveling in the same automobile in which he left Denver. He submitted without protest to arrest and asked that a niece in Cheyenne be notified, so she could inform his wife."

Waggoner indicated the sheriff said, "he would fight extradition and seemed to be not at all worried over his predicament."

Denver and New York financial institutions were started last week when it was learned that \$500,000 had been deposited to the credit of the Bank of Telluride (Colorado) in the Chase National bank of New York on fake telegraphic instructions from six Denver banks.

Yank banks to the Chase in amounts ranging from \$75,000 to \$100,000.

On August 31, a man representing himself as C. D. Waggoner, president of the Telluride bank, appeared at the Chase National, secured drafts on the \$500,000, and left \$5,000 credit.

### Pays Off Debts.

With these drafts Waggoner is alleged to have paid off a \$270,000 indebtedness of his bank and himself at the Central Finance bank in New York. He sent \$195,000 to a Pueblo, Colo., bank, to be deposited to the credit of the Telluride bank, and gave similar instructions on a \$30,000 draft forwarded to a bank in Salt Lake City.

A tangled legal battle is already under way in Telluride in an effort

(Continued on Page 3.)

## STATE BUS SYSTEM IMPROVED 50 P. C.

### Public Utilities Commission Reports Elimination of Hundreds of Defects.

Hartford, Sept. 11.—The Public Utilities Commission has issued nearly as the little kinks out of the greasy bus system that operates throughout the state, according to a report of a survey of the bus situation made public here today.

The report, made by Joseph F. Wadsworth, the commission's engineer, and Arthur S. Gates, the bus department superintendent, shows that the bus managements have improved their equipment more than fifty per cent in the past two years.

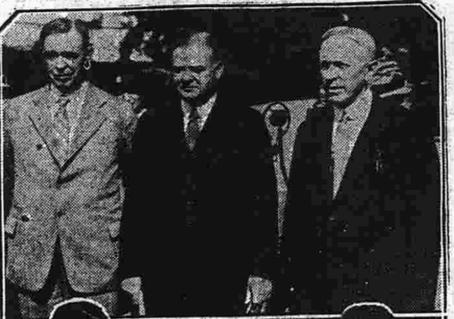

"The so-called 'bugs' in the bus system, such as width beyond the improper seating capacity, combination stop and tail lights, improper locks on emergency doors, and such, have been practically eliminated," says the report.

### Many Defects.

Back in 1927 the buses operating in Connecticut had 1,763 defective articles of equipment. In the next year, 1928, the number was 1,171, and in the present year it is 781. And in 1927 there were only 78 buses without defective safety equipment, while last year the number was 132, and this year it is 240. The number of buses found with defects of all sorts was 434 in 1927, while in 1929 it was 323. Meanwhile the number of buses in use has increased but 61 in two years, making the total now 563.

The situation was improved, the report says, by ordering the company owner to put equipment in proper condition immediately. Then, proper condition immediately. Then, the report: "Realizing the importance of improving the maintenance of bus equipment there has been consistent work throughout the year with this end in view, standardizing as far as possible, and while the field of endeavor still is large a decided improvement has been shown."

## WHEN A SOUTHERNER TOOK CHAIRMANSHIP OF G. O. P.

The Republican party was set upon a program of "unflinching activity" as the Republican National Committee met for reorganization at Washington. The committee chairmanship was given for the first time to a Southerner—Claudius H. Huston of Tennessee—who is pictured above, right, with President Hoover, center, and Dr. Hubert Work, resigned chairman. Three women newly elected to the committee are shown below, left to right: Congresswoman Ruth Pratt of New York, Mrs. Margaret Tucker of Vermont and Mrs. Harry Thomas of Wisconsin.

Washington, Sept. 11.—The new tariff bill was shelved temporarily in the Senate today while that body debated the question of acting immediately on the three-year-old battle to bar Senator-elect William S. Vare, (R) of Pennsylvania.

The fate of the tariff bill conceivably may hinge on the Senate's decision. Administration leaders were hopeful of postponing consideration of the Vare case until December 3rd in the next regular session. If the Senate however votes for immediate action on the tariff bill it will be sidetracked for several weeks and its enactment at the special session will assume the proportions of a hopeless task. Carried over into the next regular session, the bill may never become a law.

## BINGHAM TO PUT TEETH IN THE AVIATION LAWS

### Recent Tragedy in New Mexico Moves Conn. Senator to Sponsor Amendment to Existing Act.

Washington, Sept. 11.—A legislative memorial is to be erected in Congress to the eight persons who paid with their lives the price of progress in the air, when the giant Transcontinental air liner crashed into the side of New Mexico mountain.

As a direct result of that tragedy new "teeth" are to be put into the Air Commerce Act.

Senator Hiram Bingham (R) of Connecticut, himself a flyer, announced that he will sponsor an amendment to existing law, which will virtually create an Interstate Commerce Commission of the Air, giving to a governmental body the power to draw up additional safety regulations, and power to investigate and fix responsibility for fatal accidents.

As the law now stands the aeronautics division is charged with the duty of looking into all such accidents, but is not empowered to subpoena experts and other witnesses to testify, or to hold hearings. Bingham plans to draw up a measure empowering officials to hold hearings, administer oaths, and issue subpoenas requiring the attendance of witnesses, as well as to require production of any logs, books or other data believed necessary.

Addition of this amendment to

(Continued on Page 3.)

## M'DONALD VISIT HERE DEPENDS ON NAVAL BOARD

### If Present Impasse on Naval Cut Can Be Bridged in Two Weeks, Premier Will Make Trip.

Washington, Sept. 11.—Premier Ramsay MacDonald's proposed visit to Washington next month apparently hinged today upon the amount of progress that can be attained in the next two weeks in the negotiations for an Anglo-American naval agreement.

If the present impasse can be bridged the British premier probably will come—if not he will remain at home. Meanwhile the precaution has been taken to make tentative reservations for him on the Berengaria, which arrives in New York on October 4.

Administration officials feel that it would be a mistake for MacDonald to come to the United States without a naval accord being in sight, or unless by so doing he could materially advance the negotiations for such an accord. MacDonald himself is understood to hold a similar opinion. Such being the case, his coming is contingent upon development.

## Flappers Will Be Bald In Year Four Thousand

London, Sept. 11.—When flappers will be bald and proud of it, when co-togenesis has given women complete equality with men; when life, rest and education are injected with an electric needle; and, when the prolongation of life by artificial means will be compulsory—this is the dream of the future put forward by Prof. A. M. Low, brilliant young British scientist and inventor, in an article on what the world will be like in the year 4,000, written for "Armchair Science" magazine.

"Few of us imagine," says Low, "that this world is so relative that the whole force of nature will be changed in a comparatively few years' time."

Pictures the Future.

"The magic of perpetual change can perhaps be brought home by the statement that in 2,000 years the most advanced flapper of the day may wear thick glasses, false teeth and a wig. She will be so intelligent that the wig will not be considered for a moment."

"The men of this far off tomorrow

(Continued on Page Three.)

## CIVILIANS ON BORDER FLEE BEFORE TROOPS

### Escaped Convict Shot In Duel With Police

Buffalo, N. Y., Sept. 11.—Steve Pawlak, Buffalo convict who escaped from Auburn prison during the July riot, was shot and probably fatally wounded in a running gun battle with police here today.

Pawlak, with two other men in an automobile, opened fire on a police car which drew abreast them. After several shots were exchanged both cars were abandoned and the battle continued on foot.

Pawlak and one of his companions were captured. The third man, although apparently wounded, made his escape.

At the time of his escape, Pawlak was serving a life term in Auburn under the Baumes law. The charge for which he was sentenced was the holdup and robbery of a gasoline station.

### Cities and Towns in Manchuria Being Evacuated; Casualties on Both Sides Heavy During Recent Fighting; Chinese Strangely Silent on Details of Soviet Offensive.

Shanghai, Sept. 11.—Considerable mystery surrounds the attitude of the Chinese government toward the reported Soviet offensive along the Manchurian border.

While new reports filtered through from frontier points today giving additional details of the concerted advance of Russian troops into Chinese territory, officials of the Nationalist government continued to maintain an attitude of silence.

With the exception of dispatches broadcast by the official Kuomintang News Agency, no indications have been given that the Nationalist government is even aware of the bloody conflict now being waged on the border. All government officials are at Nanking, but as yet no statement has come from that city.

It had been anticipated that Nanking would make a sharp reply to the accusation of Soviet Russia that the present advance was precipitated by sporadic attacks by Chinese soldiers upon Russian towns along the border.

But blank silence is all that has followed this accusation.

Civilians Leave Towns.

Latest reports from the front state that the civil population of Pogranichnaya, the border town which has borne the brunt of the fighting thus far, has been ordered to evacuate. It is believed that Soviet troops are reported to have advanced, aiding considerably in the evacuation.

No check-up has as yet been possible of the casualties, but they are reported to be heavy. The Soviet troops are reported to have the advantage because of a large fleet of airplanes, which have successfully bombed Pogranichnaya, Tung-Kiang, Mullin and other border towns.

According to official advices, more than sixty Chinese were killed in the first assault upon Pogranichnaya. Twenty of these are reported to have been victims of bombs hurled from airplanes.

The Sungari river has been mined by Chinese troops to ward off an attack from that source. The Nationalist troops are believed to be holding their positions by means of heavy machine-gun and trench mortar fire.

Soviet gunboats are reported active near the junction of the Sungari and Amur rivers.

Soviet land forces on the northern frontier are accused of shelling Manchurian positions without warning, according to dispatches from Chinese sources.

## INSURGENTS PLAN TO DELAY TARIFF

### Inject Vare Case Into Senate to Act as Filibuster—Re- publicans Oppose Move.

Washington, Sept. 11.—The new tariff bill was shelved temporarily in the Senate today while that body debated the question of acting immediately on the three-year-old battle to bar Senator-elect William S. Vare, (R) of Pennsylvania.

The fate of the tariff bill conceivably may hinge on the Senate's decision. Administration leaders were hopeful of postponing consideration of the Vare case until December 3rd in the next regular session. If the Senate however votes for immediate action on the tariff bill it will be sidetracked for several weeks and its enactment at the special session will assume the proportions of a hopeless task. Carried over into the next regular session, the bill may never become a law.

## LOUIS MARSHALL, LAWYER, IS DEAD

### Noted New York Attorney Passes Away in Zurich; Born in Syracuse, N. Y.

Zurich, Sept. 11.—Louis Marshall, noted New York lawyer, died today following an operation for pancreatic ulcer and a later blood transfusion.

The original operation was performed about a fortnight ago, after the attending specialists decided it was absolutely imperative.

Mr. Marshall's life ebbed out slowly from an inexorable weakening of the heart. He was in his 73rd year.

At the bedside were his son, James; his sister, Mrs. Abram Rosenberg, of Philadelphia; an attending physician; Mrs. Judah Magnus, of Jerusalem, another sister, and the Rev. H. G. Enlow, of Temple Emanuel, New York City, who arrived this morning.

The body will be shipped to the United States for burial.

### STUEER SHOCKED

Los Angeles, Cal., Sept. 11.—"I am terribly shocked and distressed," Max Steuer, noted New York trial lawyer, today exclaimed when shown the dispatch telling of the death at Zurich, Switzerland, of Louis Marshall, 71-year-old New York attorney.

Steuer is aiding in the defense of Mrs. Alexander Fantages in a murder trial here.

"One of the world's greatest lawyers has passed away," Steuer said. "He was a friend of humanity. I had been associated with him only in charitable and civic work."

## BRITISH RUM STEAMER NOW PROHIBITION BOAT

### Treasury Department Takes Over Big Oil Burning Steamer Seized Last December.

New York, Sept. 11.—A decree of forfeiture was entered today in the office of the clerk of the Federal District Court in Brooklyn, forfeiting to the United States the British steamer Harbour Trader and a cargo of intoxicating liquor.

The ship, together with 1,543 cases of Scotch and rye whiskey seized by a Coast Guard cutter near East Rockaway inlet December 12, 1928. The captain and crew pleaded guilty to charges of possession and transportation of liquor and were fined \$500 each.

The Treasury Department has requested that the oil burning steamer be turned over to them for use.

## RED'S OBJECTIVE

London, Sept. 11.—The objective of the Soviet advance into Manchuria territory is believed to be the rich coal fields surrounding Mullin, on which the Chinese depend for railway fuel, according to a dispatch from Mukden to the Daily Mail today.

The Bolshevik attack has now shifted from the western to the eastern front, the dispatch continues, owing to the apparent success of the Chinese defenders on the western battle line in spite of the strong force of advancing Soviet troops.

## PARLIAMENT DISSOLVED

London, Sept. 11.—Stanley Bruce, Australian prime minister who went down to defeat on a vote on the arbitration abolition bill yesterday, has requested the governor general to dissolve parliament, according to Sydney dispatches to the evening newspapers here today.

MRS. ADDY TELLS OF IRELAND TRIP

Sees Great Improvement in the Cities and Says Business Conditions Are Good

Mrs. John Addy, who has just returned to her home on Garden street after spending the summer with relatives in Ireland and Scotland, dropped her routine household tasks today long enough to tell a Herald writer a few of her experiences in the little green island, so dear to many Manchester people, and which she herself had not seen for fifteen years.

Mrs. Addy made her headquarters at the home of her brother in Portadown, the particular place where perhaps more local people formerly lived than any other over there. She said the weather was ideal for traveling around. July was free from the rains and damp days of other summers; August was more moist. To the natives it seemed an unusually warm summer, but Mrs. Addy said it was cool compared with the weather here and she rarely went out without a wrap.

Asked about the linen industries, she replied that business in all lines seemed to be prospering, and the middle class people are in the main happy and contented, and apparently not so anxious to emigrate to this country as in years gone by. Foodstuffs and wearing apparel are high and it was puzzling to her that, with the comparatively low wages, housewives were able to provide the table and clothing as well as they did.

The interviewer inquired about the use of the modern household helps, such as gas, electricity and appliances, to which Mrs. Addy replied that gas had been used for illuminating purposes as long as she could remember. The incandescent lights were not in use in any of the homes she visited, therefore the appliances and household helps depending on the use of electric current were not available to the average housewife. She stated that the cooking was accomplished on coal-burning ranges, similar to those in use here, only that they are built into the houses and many of them have an open grate for burning coal. In the country houses the old-time open fireplaces with kettles suspended from a crane are still in general use.

REASON FOR IT, SHE BELIEVED, WAS THE EXTREME HIGH PRICES AT WHICH ALL SPIRITS WERE SOLD. SHE SAID THE WORKING PEOPLE COULD NOT AFFORD TO BUY ENOUGH TO INTOXICATE THEM.

Mrs. Addy noted a great improvement in her home town and other places. Old houses had given way to modern, up-to-date structures of brick and stone. They do not build houses of frame as they do in this country. Another thing that impressed her was the fact that the rank and file of the people are buying and building their own homes, as they do here, where formerly they rented. The old castles occupied by landlords of other days are many of them going to ruin and the estates have been sold and the tenants have acquired their houses and garden plots in many instances.

LITTLE "LOST" AD HITS ANOTHER HOME RUN

Once more the little classified advertisement in the Herald has hit another home run. This time it was the "Lost" ad which was published in the Herald of August 27.

LOST—1929 FORD marker No. 8683 and tail light, between Manchester and Rockville. Notify Joe McCann, 295 Main street, Apartment 14.

Sunday night George Saddock of 159 Oakland street picked up the marker and, as all Manchester people who have lost or find something, he looked over the classified advertisements. George has the marker and the owner can just drive up and get it.

PUBLIC RECORDS

An increasingly large number of papers are coming into the town clerk's office for record, indicating greater business activity.

"INSURGENT" TICKET GETS BAD BEATING

(Continued from Page 1) lar at the polls as on his "at getting the high constable vote. The results of the Primary nominations were as follows: (Those marked x were nominated.)

Attachment Chester H. Mills as attorney has brought suit for Frank Jeneseid for \$200 against John Slender and property has been attached in the amount of \$400. The writ was served by Constable James Duffy and is returnable to the court of common pleas of this county in the October term.

Marriage Intention Application for a marriage license has been filed with the town clerk by John J. Henderson and Miss Margaret Feeley, both of this place.

ISSUE OVERSUBSCRIBED

Washington, Sept. 11.—An over-subscription of nearly \$1,000,000, 000 for the Treasury's offering of 4 7-8 per cent certificates of indebtedness was announced by Secretary of the Treasury Mellon today.

"PYRO-RACKETEERS"

New York, Sept. 11.—The latest victim of "pyro-racketeers" in the Bronx is William Flynn, commissioner of public works in the Bronx. It was learned today that District Attorney John McGehean, of the Bronx, said Commissioner Flynn had been indirectly victimized when a contractor erecting a building for him on River Avenue had extorted \$5,000 from him on threat of putting the torch to the building.

TO ELECT GREEN

Denver, Colo., Sept. 11.—With the apparent collapse of all opposition, it appeared virtually certain that Gov. Fred W. Green of Michigan would be chosen commander-in-chief of the United Spanish-American war veterans before the close of their convention here today.

OBITUARY

DEATHS Mrs. Agnes Morrow, widow of Richard Morrow, died last evening at her home, 220 Center street, following a lingering illness. She had been a resident of Manchester for 43 years. Mrs. Morrow leaves two daughters, Mrs. Charles H. Bronkie and Miss Sadie E. Morrow and one grandchild, all of Manchester. There are also two sisters, Mrs. William McKinney, of Center street and Miss Isabel Sturgeon of Boston.

ABOUT TOWN There will be a meeting of Manchester Grange No. 31, P. of H., at 7:30 tonight, (standard time), in Odd Fellows Hall.

DEATHS Mrs. Agnes Morrow, widow of Richard Morrow, died last evening at her home, 220 Center street, following a lingering illness. She had been a resident of Manchester for 43 years. Mrs. Morrow leaves two daughters, Mrs. Charles H. Bronkie and Miss Sadie E. Morrow and one grandchild, all of Manchester. There are also two sisters, Mrs. William McKinney, of Center street and Miss Isabel Sturgeon of Boston.

NOT A KIDNAPING Philadelphia, Pa., Sept. 11.—The "kidnaping" of Josephine Lawrence, 9-year-old daughter of a New York woman, was revealed here today as a legal process by a woman representative of the Welfare Bureau and two deputy sheriffs acting on a court order several months ago.

NEW POLICE NET New York, Sept. 11.—A telegraphic hook-up of police departments of five states was being discussed today by police chiefs of three score cities near New York.

PICKING CANDIDATES Greenwich, Sept. 11.—Republican voters went to caucuses here this afternoon to select candidates for the approaching town election. Republican leaders have dropped Mrs. W. A. Stevens, associate grand matron of the Eastern Star in Connecticut, as their candidate for charity commissioner and have put Miss Georgiana Davis, representative in the State Legislature, in her place.

PROBE WHEAT PRICES Washington, Sept. 11.—The disparity between Canadian wheat prices and those prevailing in the northwest states will be thoroughly investigated, the Federal Farm Board announced today. At the same time an intensive study of the whole subject of grain storage facilities will be made by the Bureau of Agricultural Economics.

SUPT. SELLEW BURIED Middletown, Sept. 11.—Middletown today paid tribute to Edward B. Sellow, superintendent of schools, who died while at lunch at home Monday noon. All schools were closed during the day, a school of honor made up of school children stood beside his casket in South Congregational church, and Masonic committal services were used at the grave in Pine Grove cemetery.

TOMORROW NIGHT Circle Theater OAK STREET Direct from New York. COMM. CLEMENTE GIGLIO AND HIS COMPANY In the Greatest Musical Drama Ever Before Produced. "LA MONACA BIANCA" (The White Sister) Featuring Stella Bruno, Soprano, and Sandrino Giglio, Juvenile. Popular Prices \$1.00, 75c, 50c. Children 25c.

WARRANT IS ISSUED FOR C. D. WAGGONER

Banker Who Swindled Financiers Out of Fortune May Be Brought to New York. New York, Sept. 11.—A warrant for the removal of C. D. Waggoner, western financial Machiavelli, who outwitted leading New York banking institutions of \$500,000, was obtained today by United States Attorney Charles H. Tuttle.

ABOUT TOWN There will be a meeting of Manchester Grange No. 31, P. of H., at 7:30 tonight, (standard time), in Odd Fellows Hall.

DEATHS Mrs. Agnes Morrow, widow of Richard Morrow, died last evening at her home, 220 Center street, following a lingering illness. She had been a resident of Manchester for 43 years. Mrs. Morrow leaves two daughters, Mrs. Charles H. Bronkie and Miss Sadie E. Morrow and one grandchild, all of Manchester. There are also two sisters, Mrs. William McKinney, of Center street and Miss Isabel Sturgeon of Boston.

NOT A KIDNAPING Philadelphia, Pa., Sept. 11.—The "kidnaping" of Josephine Lawrence, 9-year-old daughter of a New York woman, was revealed here today as a legal process by a woman representative of the Welfare Bureau and two deputy sheriffs acting on a court order several months ago.

DEMANDING PROBE OF CHURCH LOBBY

Letters Flood Senate Asking That Small Navy Propaganda Be Investigated.

Washington, Sept. 11.—With a sweeping investigation already assured in charges that American shipbuilding concerns have lobbied in Washington and Geneva to defeat the disarmament aims of the government, the Senate was confronted today with numerous demands that the probe be extended to take in also the other side of the picture—the counter-lobbying of church and pacifist organizations against a bigger navy.

Third-Class Power "There is today," he said, "not even an approach to naval parity with Great Britain. Our naval defense is hopelessly second or third class."

When the Senate is called upon to pass the resolution authorizing the investigation of shipyard propaganda, an effort probably will be made to widen the scope along the lines suggested by Child. Ever since the war, and even before, he pointed out, church and peace organizations have literally bombarded Congress with propaganda for reduced national defense.

Meanwhile, the Senate naval committee proceeded with plans for calling a great number of witnesses in its effort to "get to the bottom" of the charges that the shipyard concerns employed Wm. B. Shearer, naval conference two years ago, as demanded by President Hoover.

Officials of the various shipbuilding concerns, Shearer himself, admirals of the Navy and many others will be called. The authorizing resolution also empowers the committee to call for books and ledgers.

MCDONALD VISIT HERE DEPENDS ON NAVAL BOARD

(Continued from Page 1.)

ments in the next two or three weeks.

No Accord Yet The much-discussed agreement on the cruiser strength distinctly is not yet in sight. The "irreducible minimum" of British cruiser strength suggested in the last British memorandum is considered by the American Navy as a minimum, but not one to be exceeded. The British demand is understood to be for 350,000 tons of cruisers, which, if partly is achieved, will leave Mr. Hoover no alternative but to not only complete the present building program of 15 cruisers in the next three years, but go beyond that program.

Find No Yardstick There the situation rested today, as it has rested for a week while the American experts pore over the figures and try to find a magical yardstick which will equalize the combatant power of the two navies without more building. They haven't found it yet.

A new American note is expected to go forward to London this week, probably after President Hoover has held another meeting with the Admirals of the General Board. It is likely to contain a counter-proposal on the tonnage limitation of 350,000, although along what lines cannot be forecast.

In his conversations with Ambassador Dawes, Premier MacDonald is understood to have taken the position that he has gone as far as it is possible for him to go without imperiling the political safety of his government. The British Admiralty already is kicking strenuously at the concessions thus far made, and to try to go further, MacDonald has said, would be only to invite political disaster. The Labor government does not have a majority in Commons and must steer a middle course to remain in power.

STORE ATTACHED

The Workingman's Store, owned by Harry Gans of Hartford and located at 893 Main street, South End, was closed yesterday afternoon by Constable Joseph J. Paniel, a deputy sheriff of Hartford, who placed the business under attachment. No papers, however, have been filed in the town clerk's office, which may be an indication of an effort to make a settlement with creditors.

G CLEF AFTER MEMBERS

Because nearly ten members have dropped during the summer season, some by reason of removal from town, the G Clef Glee club of the Swedish Lutheran church last night began a two weeks drive to boost its membership from 33 to 50 young women.

EAST SIDERS TO HAVE BAND CONCERT, DANCE

Post-Season Outdoor Affair Planned for Friday Night on Cottage Street Ground.

East Side residents are going to have a band concert and dance all their own Friday night with free eats 'n everything. Hitherto, most of the public concerts have been held at the West Side playgrounds but through the efforts of the East Side Boosters' Club one has been arranged for the Cottage street playgrounds, back of the Nathan Hale school.

The Recreation Centers have obtained the services of Col's Army Band, which will give a two-hour concert. The Manchester Dairy Ice Cream Company will give free ice cream. Soda water and novelties, the latter from the Thom McLean shoe store, will also be given away. There will be entertainers also. One of them will be "Dodger" Dowd with some of the boys from the Berkshire Industrial Farm in Canada, N. Y.

Lewis Lloyd will act as master of ceremonies. Expectations are that a crowd of several hundred persons will turn out.

BINGHAM TO PUT TEETH IN THE AVIATION LAWS

(Continued from Page 1.)

the Commerce Act, in the opinion of Bingham, will greatly aid in the work of preventing air accidents in the future. Learn by Mistakes "We learn by our mistakes," he said. "In no industry is this so true as in aviation. A thorough investigation of all air crashes will aid greatly in determining the things we must avoid in future construction and flying. I will introduce at the opening of the regular session of Congress in December an amendment giving the Secretary of Commerce and the assistant secretary in charge of aeronautics full power to investigate crashes.

Investigation Department Similar to that in use by the Interstate Commerce Commission with regard to inquiries into railway accidents. Such an organized, thorough method is necessary if we expect to accomplish anything.

Helped Make Law Bingham was instrumental in having placed in the present Air Commerce Act the provision directing the commerce air secretary to "investigate, record and make public the causes of accidents in civil air navigation, and the new legislation he proposes is merely "equipment" for the carrying out of this provision.

"Suppose, of course," he went on, "this provision would enable officials to subpoena witnesses and to hold hearings. I shall introduce an amendment to make this certain as soon as the regular session opens."

The Connecticut Senator deplored the T. A. T. accident, but pointed out the path of all progress was marked with some dark spots, and declared aerial development would not allow itself to be retarded by the tragedy. "An accident of the kind which destroyed the 'City of San Francisco' may not occur again in many, many years," he hazarded.

The amendment Bingham will introduce next session will read as follows: "The Secretary of Commerce shall, in the event of an accident in civil air navigation in the United States: "Arrange for a public hearing to be held within 20 days after such accident in such place as the secretary deems most practicable and convenient.

"Give all witnesses at least ten days notice of the hearing, unless an earlier hearing is consented to by all concerned. Notice under this subdivision may be served personally upon those required to be present, or sent by registered mail. "The secretary or any officer or employee of the Department of Commerce designated by him in writing for the purpose, may hold any such hearing and for the purposes thereof, administer oaths, examine witnesses, and issue subpoenas for the attendance and testimony of witnesses, or the production of books, papers, documents, or records, before any designated individual competent to administer oaths.

INSURGENTS PLAN TO DELAY TARIFF

(Continued From Page One)

him that privilege. Subsequently, William E. Wilson, the defeated Democrat, contested Vare's election and that contest still is pending before the Senate committee on privileges and elections. While the latter committee probably will report that Vare won and not be involved in the efforts to oust him because of his primary expenditures.

SPITS ON WINDOW

Albert Klotzer, who conducts a malt-and-hops business on Main street, South End, declares that for a year somebody has been making a regular practice of spitting on his show window at least once a week. He thinks it must be somebody who doesn't like the business. Klotzer is in. He says he has watched and has had friends watch and that the police have also tried to find out who is thus affronting his dignity and violating the health laws, but nobody has yet spotted the expectorator.

NAB WAGGONER AFTER NATION WIDE SEARCH

(Continued from Page 1.)

to establish prior rights to securities released by the Central Hanover bank, New York upon receipt of the Waggoner draft, and to \$50,000 in cash that the Pueblo bank sent to the Telluride institution.

The Telluride bank is in the hands of the Colorado state banking examiner, as is the Norwood bank, New York bank, of which Waggoner was also president. The arrest of Waggoner climaxed a week's man hunt that extended in a half dozen states and into Canada. Officials here today were still at a loss as to what formal charges would be filed against the banker. The case they say is one of the most involved not only in the history of financial institutions but also in the annals of jurisprudence.

BANKER TALKS

Newcastle, Wyo., Sept. 11.—C. D. Waggoner, banker and leading citizen of Telluride, Colo., who founded the financial world by his alleged fraudulent coup in which he built up credit for himself and his bank to the extent of half a million dollars in New York banks, was "glad it was over" today.

Appearing calm as he sat in a small cell in the local jail, Waggoner declared: "I'm C. D. Waggoner, and I'm glad to be here. My nerves are all shattered and I had just about decided to surrender, anyway."

Waggoner, "sleazy western banker," looked the part. His clothes were baggy and he had an unkempt appearance as the result of traveling by automobile for more than a week over rough, muddy roads of Nebraska, Minnesota, North and South Dakota and Wyoming.

He would not admit that he was headed for Canada, and would not say how much money or valuables he had on his person. Takes Entire Blame Waggoner took the entire blame for the astounding transaction by which he secured a credit of \$500,000.

"I wanted to save my friends and depositors in the Telluride bank," he said. "Conditions in that former prosperous mining community were getting very bad and I was anxious that the good people of Telluride should not lose their life's savings in the impending crash of the only bank in town—my bank."

"I sent the fake telegrams; my family or no officer of the bank had any connection or knowledge of what I was doing. I had worked out the whole scheme myself. I suppose I'll go to jail for the rest of my life, but the way I feel now I don't care, and I don't even feel like hiring a lawyer."

Shaved off Moustache. With the exception of shaving off his moustache Waggoner had made no effort to disguise himself. He traveled in the same automobile he was known to have left Nebraska in last week.

"The bottom had dropped out of things in Telluride," Waggoner said. "I was confronted with many difficulties. A desperate move of some kind was all I could think of, and I conceived the idea of getting money for the Telluride bank from the New York banks. The New York banks, I thought, would not miss it."

"I had been doing business with New York banks for many years; was well known there, and I felt certain the banks would accept the drafts. "After sending the telegrams from Denver, I hurried to New York and presented the drafts, which I had already made out and signed. "I have gained nothing personally from the deal."

BASEBALL POOL HEADS ARE NOW UNDER ARREST

Chicago, Sept. 11.—Federal investigators today sought the arrest of two alleged operators of the largest so-called baseball pools in Chicago, following the issuing of warrants by a U. S. commissioner.

The warrants named H. D. Langenbacher, said to operate the "Lucky pool" and Edward C. Hansen, alleged operator of the "Flyer" lottery. By offering large prices for small investments, operators of baseball pools mulct the small wage earner of millions yearly. A survey has revealed the buyer of a ticket is likely calling for \$1,000 if his two baseball teams have scored the highest number of runs during the week and \$500 if his two teams have the least number of runs. Other prizes are given for daily high and daily low.

UNION WINS FIGHT

Philadelphia, Pa., Sept. 11.—Musicians Protective Association No. 77 of Philadelphia and Camden, N. J., with 500 members, today announced acceptance of an agreement with Warner Brothers Motion Picture Corporation, which labor leaders hailed as a victory in the battle between the "talike interests" and the musicians. Labor unions throughout the country awaited decision of the dispute here and it was believed the decision averted a nation-wide strike of musicians. The musicians will receive the same salary as before under the agreement and Warner Brothers agreed to employ 200 musicians in the Philadelphia-Camden district, a cut of 66.

ONE LOCAL YOUNG MAN IN HOP RIVER WRECK

At least one Manchester person was on board the passenger train derailed at the Hop River station a few miles east of Andover yesterday morning. He is Harold Knoha of Middle Turnpike who was on his way to Boston where he has entered Bentley School of Accountancy. Knoha, although severely shaken up, hastened to a telephone to inform his parents here that he was not injured. He then completed the trip to Boston by bus.

A number of Manchester persons motored to the scene of the wreck late yesterday and were amazed at the escape from death which the 64 passengers experienced. The mass of wreckage mangled it seem almost incredible that no one had been killed. The cars were strewn all over the double track, with trucks lying many feet from the cars to which they belonged. The tender was separated from the engine and deeply embedded in the earth. The impact of the baggage car had reduced the small freight depot to kindling wood.

CIVIL WAR VETERANS IN COLORFUL PARADE

Portland, Me., Sept. 11.—Wearers of the Union blue participate in a colorful parade today, the feature of the day's program arranged for the Grand Army of the Republic at its 63rd National Encampment here. Of the 3,000 veterans from all parts of the country attending the sessions, only about 1,000 march in line, while the remainder go over the route in automobiles.

Meanwhile, two major problems today were the subject of conference. One was the proposal that the Grand Army of the Republic and the United Confederate veterans hold joint sessions. The other proposal dealt with the perpetuation of Grand Army posts throughout the country until the last member passes on.

The proposal for a re-union of Northern and Southern veterans was made in a resolution introduced at the session of the Sons of Veterans, and referred to the committee on resolutions. It was to be acted upon this afternoon. A telegram endorsing the plan was received from the commander-in-chief of the United Confederate veterans by E. J. Pritchard, commander of the Maryland Department.

ABOUT TOWN

The Woman's Christian Temperance Union at its annual meeting held yesterday afternoon at the South Methodist church, re-elected all of last year's officers, as follows: Mrs. George Keith, president; Miss Ella Stanley, first vice president; Miss Nellie Keith, second vice president; Mrs. Clarence L. Taylor, secretary and Mrs. Robert Richmond, treasurer.

Walter T. Shea of 25 Strant street left last evening for his second year at the Bentley School of Accounting and Finance at Boston.

The Edward Balf Company started laying concrete grouting below Middle Turnpike yesterday. Troop 5, Boy Scouts, will meet in the Swedish Lutheran church at 7:15 o'clock tonight. Troop 3 will meet at the Center church at 7:30 o'clock.

Mrs. Irving Palmer of Keeney street, who it was announced two months ago had become heir to a large amount of money through the death of a relative in New York, has not as yet shared in the estate, due to a suit brought by contending parties propounding to be nearer kin than she. "I have gained nothing personally from the deal."

The old frame structure, owned by Michael Coughlin, on Depot Square just opposite Main street is to be razed. It was planned at first to remodel it and extend it to the street line. Mr. Coughlin has decided to pull it down and will later erect a brick building on the site.

Mrs. Lillian Smith of 554 Center street was surprised at her home Saturday evening by about 35 of her friends from this town, Hartford and Saybrook. The party was in recognition of her birthday. The evening was spent with music and games. A feature of the lunch was a birthday cake decorated in pink and white. Mrs. Smith received many gifts.

Mr. and Mrs. Walter Hobby of Henry street motored to Northfield, Mass., today, taking with them their daughter Eleanor, who returns for her third year at Northfield Seminary. Miss Margaret Korgiebel, daughter of Mr. and Mrs. David Korgiebel of Henry street, also enrolled at Northfield Seminary today.

American exports and imports in July attained the greatest volume since 1920, exports amounting to \$401,000,000, as against \$378,984 in 1928, according to Department of Commerce figures.

### MOOSE CARNIVAL OPENS MONDAY

New Rides, Booths and Outdoor Exhibition Acts Among Features.

Heralded as the biggest event of its kind ever seen in Manchester, the second annual Moose Carnival is scheduled to get under way at the Dougherty lot on Center street next Monday evening, September 16. This year's venture promises to be a most attractive and alluring affair and should draw capacity crowds during the entire week of September 16. A glamorous and spectacular display of gaily decorated booths and rides will be ready to serve everyone.

One of the big highlights of the Moose Carnival for this year will be the two open air vaudeville acts, brought here from New York City at a big expense. However, all of this has been given less consideration by the committee in charge of the carnival, for it is their strong belief that Manchester should be given the best that can be afforded. The first act will play here for three days beginning Monday. This novelty features Olivette, the girl wonder, in a series of death-defying and hair-raising stunts on a high wire strung hundreds of feet above the ground. Olivette has earned the undisputed reputation of being the greatest woman aerial performer in America. Her work in Manchester should prove this to local people.

The second act, which features the Flying Russels, daring exponents of acrobatic trapeze work, will play here Thursday, Friday and Saturday. This sensational group of entertainers come direct from a successful engagement in the vaudeville, where they proved to be one of the biggest hits on that circuit. Another big feature of the Moose carnival will be the brilliantly lighted electric signboard in which the merchants of Manchester have co-operated. The bit of construction is a most unusual stunt and should attract the attention of everybody.

### WAPPING

Miss Etta Nevers returned to her work Monday morning in Hartford, after a two weeks' vacation. The first meeting of the Wapping Parent-Teachers Association, will be held at the Center school hall, on Monday afternoon, September 16th at 3 o'clock. It will take the form of a reception to the teachers and parents and friends of the children are cordially invited to be present.

The Evergreen Lodge of Masons, A. F. & A. M. No. 714, held their first full meeting at their temple at East Windsor Hill, last Monday evening.

The wedding of Miss Helena Welles daughter of Mr. and Mrs. Franklin G. Welles, Sr. of Averet street, this town, and William Foster, son of Mrs. Gertrude A. Foster of Manchester, will take place at the Talcootville Congregational church, next Saturday afternoon at three o'clock. Their many friends in this place have all been cordially invited to attend.

Mr. and Mrs. Karl Reichenbach of Deming street, have had as their guests recently Mr. and Mrs. A. Gerlat and daughter, Miss Elsie Gerlat of Jersey City, N. J. Judson G. Files, who has been spending a few weeks in Michigan, returned to his home here last Saturday. He left Monday morning for Boston.

### MORE WEATHER BUREAUS

Los Angeles, Sept. 11.—Convicted that more complete weather bureau reports along air routes of the southwest will prevent a recurrence of the air tragedy which last week took eight lives when the T. A. T. plane "City of San Francisco" crashed, Department of Commerce officials today were conducting thorough study of meteorological reporting conditions.

Following a survey of climatic conditions and the weather reports which were available to Pilot J. B. Stowe when he took off from Albuquerque, N. M., last Tuesday, a complete report on the disaster will be made public, according to Major Clarence Young, commissioner of aviation on the Department of Commerce.

A weather forecast issued last Tuesday warned of danger, but did not show the local thunderstorms which dashed the air liner against Mt. Taylor, it was revealed by Col. B. Hersey, in charge of the United States Weather Bureau here. It was also disclosed that officials of the T. A. T. in Albuquerque knew nothing of a heavy storm which struck Grants, N. M., and Mt. Taylor until Tuesday afternoon after the storm had passed and the transport plane dashed against the mountain side.

Plans are being considered by government officials and aeronautics leaders to make it possible for the weather bureau to install a sufficient number of weather observing stations along the air routes of the west to keep the planes closely informed as to approaching local storms.

During the season of 1927-1928 more than 6,450,000 hunting licenses for the taking of wild game were issued throughout the United States to sportsmen. Revenue from these licenses amount to more than \$9,300,000.

### When 1800 Cases of Ale Were Dumped in River

Many a good "wet" will weep over this picture showing coast guard officers at Detroit dumping 1800 cases of Canadian ale into the Detroit river. The liquor was confiscated from two rum runners on Lake Erie, the catch being one of the largest ever made around Detroit.

### HOOVER IS 15TH PRESIDENT WITH WELSH BLOOD

Washington—President Herbert Hoover is claimed by Welsh historians and genealogists as the 15th president of the United States whose ancestry can be traced back to the noted little country in the southern part of the British Isles, long ago merged into the government of Great Britain.

The statement is being proclaimed with pride by Welsh organizations in the country, who enlisted the aid of genealogists as well as that of Secretary of Labor Davis, a native of Wales, in establishing the ancestry of Mr. Hoover.

From Mother's Family The Welsh blood of the president comes from the maternal side of his family, according to the Druid, a Welsh publication in Pittsburgh, says that a few years ago President Hoover stated that he was related to General Nelson A. Miles, famous Indian fighter, on his maternal side. Gen. Miles was known as of Welsh descent.

The first Hoover, according to the American Heraldry Society came to the United States in 1740 and settled in Maryland. He was Andrew Hoover, born in Baden, Germany. He married Margaret Fount.

A son, John Hoover, went to North Carolina and thence to Ohio and married Sarah Burket. Their son, Jesse Hoover, settled at West Branch, Iowa which became the Hoover home for many years.

Hoover's mother's name was Hulda Randall Minthorn. Family names of other women in the Hoover clan were Rebecca Yount and Mary Davis.

The name Hoover is given by Harry M. Hoover, author of the "Huber-Hoover Family History," as essentially Dutch or German in its origin. The original spelling was "Huber," this being derived from the old German word, "Hube," pronounced Huhay.

Land Owners The word "Hube" was said to mean possessor of a tract of land. In German the name is pronounced "Huer" which is said to have led to the variation of Hoover in the English tongue. The name is also found as Huber, Hoyer, and Hooper in the United States.

All of the coats-of-arms of the various branches of the Hoover family it is said, indicate land-ownership and industry.

The Welsh claimants of a part of the ancestry of the president also declare that the last three presidents, including the late President Harding and ex-President Coolidge, had Welsh blood in their veins.

### ANDOVER

Rev. John H. and Mrs. Fitzgerald spent Wednesday with the former's sister Mrs. Louis Phelps in honor of Mrs. Phelps' birthday. Afterwards Mr. and Mrs. Fitzgerald motored to Hebron and spent two days at their summer cottage leaving for their home in Bay Ridge, L. I., Saturday.

H. Everett Frink of Boston spent Friday night with his parents, Mr. and Mrs. A. E. Frink. Clarence Katchem spent several days last week in New York on a business trip. Marshall J. Frink of Brooklyn was a recent caller on relatives in town.

Mr. and Mrs. Wallace Hilliard spent the weekend with the former's parents Mr. and Mrs. Clayton Hilliard of Westminster, Vt., and attended a family reunion Sunday. Mrs. Charles Faulkner and grand-children, Duane, have returned home after spending several days with her son and wife, Lionel Faulkner of New Jersey and other relatives in New York.

John Fowler of Hartford and Mr. and Mrs. Raymond Hensley of Portland were recent visitors at Mr. and Mrs. George Merritt's. Mr. and Mrs. Lewis Phelps and son attended a corn roast at George Rose's home in Bolton, Saturday afternoon.

Miss Mary Merritt is attending the New London business College and staying with her aunt and uncle, Mr. and Mrs. Walter Hewitt. Edward Merritt who lives with Mr. and Mrs. Hewitt for the home of his parents, Mr. and Mrs. Edward Merritt. Mr. and Mrs. Eugene W. Platt and son Douglas, spent Saturday night with Mr. and Mrs. A. E. Frink.

Miss Amy Randall, 114 Hamilton and Charles Backer returned Saturday from their vacation in the White mountains and other places of interest. Mrs. Kittle Mittens returned from New York, Friday, after visiting friends in New York and New Jersey.

Mr. Thomas Lewis was a caller in Willimantic, Saturday. Mr. and Mrs. George Merritt spent Sunday with Mrs. Merritt's parents, Mr. and Mrs. Charles Bailey of West street, Columbia. Tryon Smith of Hartford was a recent visitor at his mother's, Mrs. Janet Smith.

C. W. Williams arrived at the home of his father-in-law, Ward Talbot, Sunday, from Madison, Wisconsin, where they have lived for the past two years, while Mr. Williams finished his studies. His wife and son, Gresham, have been here for some time. Mr. Williams will be here for a short time before leaving for New Haven where he has a position at Yale College.

Mr. and Mrs. Frank Bailey and four children, Francis, Rosaline, Josephine, and Lillian, of Danielson, were guests of Mr. and Mrs. Frank Hamilton, Sunday. Miss Mildred Hamilton spent the week-end with cousins in East Hartford and attended the wedding and reception of Miss Mildred Stoddard and Harold Goodwin, in Hartford, Saturday afternoon.

Crabs' ears are on the first joint of their smaller pair of "feelers." They resemble tiny swellings.

### DOUMERGUE HAS NO CHANCE FOR FISHING TRIPS

Paris.—Gaston Doumergue, president of the French Republic, cannot go far away from his White House in the French capital to go fishing or hunting during his summer vacation. Prisoner of his greatness, he is obliged to spend his holidays during the seven long years of his term, at the Chateau Rambouillet, a few miles from Paris.

It is set in the heart of a magnificent forest, once the playground of kings and queens, which Mr. Doumergue knows from one end to the other. Up at six in the morning; for the President is an early riser even on his holiday, he reads the papers for an hour and then takes a brisk walk throughout his domain, wearing a sport cap, and unattended except by his two guards who walk at a safe distance behind. "Gastoumet" really prefers to be alone, but the government won't let him.

Let's Them Live. There are many pheasants, rabbits and other game in the forest, but the Chief is not a great hunter and prefers to let them live. Nine o'clock always finds him back at the Chateau, refreshed by a bath and change of clothes and his early breakfast, which is the usual French one, with "cafe au lait," petits pains and butter.

Then comes the big ball-gala from the Elysee Palace in Paris and the President retires to his little office, which was once the boudoir of Marie-Antoinette when she had the good fortune to live at Rambouillet. Twelve-thirty and "Monsieur le President est servi." Under a handsome crystal chandelier, luncheon is served to the head of the nation, his general secretary, Jules Michel and the officer on duty. It is always a good lunch and a gay one, for the President likes to eat and makes no bones about it. There is also good wine on the table and he drinks it intelligently.

After luncheon, he retires to his private salons for the afternoon. He is an insatiable reader. On the table in the library lined with books of every description, is his favorite paper-cutter, two pairs of horn-rimmed glasses and the loud-speaker of his T. S. F., for Doumergue is one of the best radio-fans France can claim. He has another set in the dining room and always has music with his evening meal. The more complicated and delicate the sets are the better he likes them. He has not yet heard New York because he says that three a.m. when America tunes in, is just a wee bit too early for him.

"I shall get you soon though," he told an American recently, "because we French are beginning to concentrate on short wave reception."

American film fans are already tired of the talkies, according to Emile Natan, French film producer who has recently returned from the other side where he found that a reaction had set in against all-talkie pictures.

Writing in "La Semaine Cinematographique" he says that Hollywood is no longer making talkies that are directly inspired by the legitimate theater and that instead, the present films now being brought out are only part-talkies, the talking part being used only when it is most effective and logical.

He particularly liked the sentimental "soft music" which is well-played throughout the United States during the movie performances.

A car saves time if you can find parking space as near the office as your home.

### Can You Afford to "Experiment" in Canning Foods?

Cooking a meal and canning a jar of fruit preserves are two different matters. To the woman who is accustomed to preparing three meals a day, the regulation of heating temperatures for each food is guided by past experience. But have you the "knack" of canning reduced to a simple formula? Or must you experiment?

Now is the time to install a MODERN Gas Range with an OVEN HEAT REGULATOR so that you will have dependable temperature control for the canning season. A new Range will not only insure success in canning according to recipe (shelves full of wholesome preserves!) but also eliminate the possibility of cooking failure in preparing cakes, pies, puddings and roasts—henceforth!

DON'T DELAY! COME IN—See Our Display Of Gas Ranges with OVEN HEAT REGULATORS

### Did Somebody Rise to Say "Poor Fish"?

It takes all the ingredients of a perfect day to make this possible: A fishing pole, a warm day on the beach at Catalina Island, near Los Angeles, a real "fish hound" like Scotty, and such a girl as Hermine Sherks, above, and this is the result. And then there's no excuse for one rising to remark, "poor fish!"

### EXTRA GIRL IS BETTER OFF IN MODERN MOVIE

Hollywood.—The way of the extra girl isn't so hard as it used to be, when Silence reigned in Hollywood. The talkative films have opened up new opportunities for her to advance, and the chorus girl extra especially has won a definite place in the film industry.

Millard Webb, the director, spoke in this wise in an exclusive interview with International News Service.

"This talk about the hard life the extra leads, with no assured status in the industry and little chance for advancement is nonsense," Webb declared. The day of the old time extra is past. The talking pictures have developed a new type of extra girl, as well as new actors and actresses. The modern extra has a definite place in the films.

"She can dance better perhaps, than the New York show girls. She can sing. She has personality. She is as accomplished in her profession as the stars.

"The opportunities for the extra girl to attract the attention of producers are greater than ever. Today the girls in the chorus have a chance to catch the eye by clever steps, appearance and voice, and by their personalities, such as they never had in the old days of silent films.

Some of the old time extras have dropped out, having failed to keep pace with the new demands of the industry, but most of them have increased their abilities and progressed with the industry. Webb stated.

"In the chorus I am directing now with Billy Dove, I recognize many girls that were with Miss Dove two years ago, as plain extras. Now, they are highly trained chorus girls, dancing and singing as well as stage actors."

"Voice testing" with talkie apparatus is to be extended to motor cars, to check on the quietness of their power plants, it was indicated when Paramount yielded to the request of an eastern manufacturer to put a "mike" on the hood of one of his latest creations and see how it sounded. Nancy Carroll spoke some lines while the motor was running, and the sound technicians said she could be heard clearly above the purring of the power plant.

"If Hal's going to lean on that counter, you'll have to fix it so it doesn't squeak." That interesting little incident, which occurred out at Paramount the other day during filming of a picture features Fay Wray and Hal Skelly, illustrates the job of the "mike" who sits in out from the wall of the sound stage, pu near the ceiling, and shouts down to the director his comments in the sound part of the filming. The "mike" listens in on the apparatus to the scene that is being enacted on the set below him.

An airplane sentinel who sits on top of a hill near Universal City and signals the film makers down below by means of a buzzer when he spies an airplane approaching, so that filming of sound sequences may not be spoiled by the roar of the sky motor, is the latest addition to the Universal staff.

Almost everybody has been able to survive the talkie revolution at Hollywood but the flower dealers who relied on the studios for patronage.

They don't use fresh flowers in the movies anymore, although it is not strictly the fault of the talkies. The added heat resulting from the 40 to 50 per cent more lights now used in picture making has made it impossible to keep flowers fresh on the set.

In a recent picture starring Norma Talmadge, eight dozen American beauty roses were placed on the stage, only to wither and die within an hour. Confronted with a week's work using the same setting, Director Lewis Milestone ordered artificial flowers as an economy measure. Although at first they cost two or three times as much, it was discovered that in the long run fifteen dollars was saved on each blossom by buying artificial flowers.

From one shop, the artificial flower industry has jumped to six during the past year. Eighty workers now are employed to supply the studios.

#### STRANGE, IF TRUE

Jacksonville, Fla.—When H. Rados Smith was brought before the judge on a charge of intoxication he offered the excuse that two men stood over him with a gun and forced him to drink a pint of liquor without stopping. Unfortunately for Smith the judge didn't believe the story and he was fined \$10.

#### GETTING HIS OWN.

Father: I think you're very foolish to become engaged. I was 32 before I thought of taking a wife.  
Son: But father, this is different. I'm not thinking of taking anybody's wife.—Answers.

#### REPUBLICAN CAUCUS!

The Republican Electors of the town of Bolton are requested to meet in Caucus at the Basement of the Church Monday, Sept. 16, 1929 at 7 o'clock (Standard Time) for the purpose of nominating Town officers for the ensuing year and to transact any other business proper to come before said meeting.

By Order of Town Committee,  
SAMUEL R. WOODWARD,  
Chairman.

### ROCKVILLE

**Police Court News**  
Judge John E. Fisk presided at the court which was held Tuesday morning when the following bum weavers travelling through the states were charged with intoxication and breach of the peace: Peter Desley, Joseph Flood, Stanley Woods, Walter Elliott, Lee Cullen, James Farrell, Thomas Clayton, Rich Spencer, George Kelley. They were arrested early Tuesday morning in the rear of the Springfield Mill where they were making a disturbance. Judge Fisk imposed fines of various amounts from \$4 to \$20 and costs. As they were unable to pay they were taken to Tolland Jail.

**Buys Insurance Business**  
Edward H. Dowling who conducts a real estate and insurance agency has purchased the insurance business conducted by Carl Merk of Village street. Mr. Merk who is in ill health is to retire from the insurance business.

**Leaves Old Home**  
Mr. and Mrs. John Flaherty have moved from their home at 58 Hammond street where they have resided for the past forty years and have moved to the tenement recently vacated by Peter Baker.

**Officers Elected**  
At the meeting of the Rockville Fish and Game Club held Monday evening, officers were elected for the year. A. Andrew Trail, secretary of the committee arranging for the fourth annual field trials on Sept. 20 and 21, reported that entries have been received from most of the New England states and that the number of dogs entered being the largest in the club's history.

Fred Keune, who has served the club as president for the past two years, was presented with a mahogany smoking set and a box of cigars. Mr. Keune responded most appreciatively.

The officers elected follow: President, William Flaherty; Vice-Presidents, F. W. Stengel, Edward Tomlinson; Secretary, J. Andrew Trail; Treasurer, Arthur Hewitt; Trustees, Neal Benton, Dr. John T. Flaherty and E. G. Wright; Auditors, Geo. N. Brigham and Walter Murphy.

**Well Baby Conference**  
There will be a Well-Baby conference at the rooms of the Visiting Nurse Association on Thursday afternoon from 3 to 4 o'clock. All mothers are invited to bring their babies.

**Notes**  
Harry C. Dowling has returned from Glen Falls, N. Y., where he attended an insurance gathering. The American Legion Auxiliary will hold a meeting this evening in G. A. R. Hall. Charter represents Rockville at the 63rd encampment of the G. A. R. at Portland, Maine. The Jolly Whist Club will meet this evening at the home of Mrs. Jesse Mitchell of Ward street.

India is practically a soapless country.

### An Old-Fashioned Baptizing Down in Alabama

When they baptize in rural Alabama it is often an all-day affair, with preaching, hymn singing and basket lunches served on the grounds. This picture shows the baptism of 65 candidates when three Baptist churches held joint services at a creek near Clanton, Ala., with between 1200 and 1500 present in the combined congregations. Rev. A. L. Nichols was the minister in charge.

### CANNIBALISM IN CHINA CHARGED TO LOW CROPS

Boston.—Appalling conditions in China, where natives turned in a number of authenticated cases to cannibalism because of the failure of crops, were reported in information from Chinese missionaries by the American Board of Commissioners for Foreign Missions.

Although mission hospitals and schools have been doing their utmost to meet the emergency, Chinese, too proud to beg, die of starvation or become victims of disease.

The failure of the Spring crop and the extreme dryness which prevents planting of crops for the Fall in Southern Shensi means, according to Dr. Percy T. Watson, of Northfield, Minn., head of the American Board of Hospitals in Fenchow, that there will be no new food grown in that area until the spring of 1930. Conditions are tragic, he reported.

**Appalling Conditions**  
Rev. Phillip D. Dutton, of Ashland, Mass., wrote that conditions were appalling in Shensi, Suiduan, Kansu, and Honan.

"The people are dying by the hundreds and thousands now, and situation will grow worse until crops are harvested. The foreign countries are doing less, but the

Chinese are doing more than in 1921," Rev. Dutton reported.

"Money is coming in small dribbles from the United States, but there is no money for labor projects such as irrigation schemes, road building, which would give employment to the starving people, and at the same time aid in the prevention of future famines."

Rev. Earle H. Ballou of Saxton's River, Vt., reported that only a few hundred miles to the west of Fientsin where he works the famine is so great that parents dare not let the children out on the streets for fear that they will be stolen and sold, and even, in some well authenticated cases, actually eaten.

**Snatching at Food**  
The American Board also announced that Rev. Stephen C. Peabody, of Appleton, Wis. (Harvard 1917) a missionary of the Board since 1924 in Peking, China, has been transferred to Yulinfu, Northern Shensi, to relieve Elmer W. Galt, of Shenandoah, Iowa, who has been in charge of that whole area.

Both Galt and Peabody, who was a captain during the Great War have been temporarily released by the American Board to meet the need for missionaries in that region.

According to Mr. Galt, the starving Chinese in desperation snatch the tiniest scraps of food. Dead bodies of hunger victims lie by the roadside while emaciated forms stagger along until unable to move another step. Vaccination of the natives has prevented much spread of disease in that district, it was reported.

### QUOTATIONS

"The American theater today suggests to my mind the picture of a once smart and prosperous couple spending their last few thousands on lavish entertainments—with the sheriff sitting in the kitchen, writ in hand."—Jane Cowl. (Pictorial Review.)

"There's no doubt but what I have done more than my share of swearing. It seems to go with life at sea. But I also have prayed . . ."—Count Felix Von Luckner.

"Whoever just drinks ice water, and thinks himself superior for that to the wine-drinker, errs most lamentably."—Hermann Keyserling. (Atlantic Monthly.)

"Every age has praised its mothers and criticized its daughters."—Chancellor Lindley, University of Kansas.

"History is almost bare of soldiers who had anything really sensible to say, and knew how to put [in into plausible phrases]."—H. L. Mencken. (The American Mercury.)

"The issue of national prohibition . . . is a question of proper allocation of powers between state and Federal sovereignties."—Dudley Cammett Lunt. (World's Work.)

### COLUMBIA

Miss Geneva Dye of Washington, D. C., was a recent guest at the parsonage. Mrs. Dye was a classmate of Mrs. Howell at the Newton Theological Seminary.

F. W. Godring of Buffalo, N. Y., is the guest of William Bertach. Miss Helen J. Baum recently celebrated her 7th birthday at Columbia lake at the summer cottage of her mother, Mrs. E. M. Baum of West street, Hartford. She had as her guests the Misses Eleanor Lutz, Lucille Frecher, Elenora Frecher and Maróckka Lavue. Games were played and refreshments served.

About 20 young people of the church surprised Mr. and Mrs. Howell at the parsonage Thursday evening. They presented Mr. and Mrs. Howell with a silver meat platter. Games were played and ice cream and cake which were furnished by the young people, were served.

Joseph Hutchins of Washington, D. C., is visiting his parents, Mr. and Mrs. Lester Hutchins at their home on Chestnut Hill. Mr. Hutchins came in his Lincoln-Page plane, landing in Tennenbaum's meadow, Saturday afternoon, later moving the plane to one of his father's fields.

Miss Doris Pinckney and Irving Anderson of New Haven spent the week-end at the home of Mrs. Howard Rice. Sunday they were joined by Mrs. George Pinckney, George Pinckney, Jr. and Mr. and Mrs. Duxbury, all of New Haven, the whole party returning to New Haven late Sunday afternoon.

Mrs. Ruth Jacobs has bought another lot of land and Luther Esuel and Donald Woodward are to build a cottage on it this fall.

Fifteen from Columbia went to Marlborough Saturday afternoon and evening to attend the picnic and entertainment of the League of Christian Endeavor. The picnic was at Marlborough lake, where bathing and boating were enjoyed, and a picnic supper served, including a plentiful supply of "hot dogs." The party then adjourned to the Marlborough church where an entertainment was given, each society taking part. The Columbia society put on a series of shadow pictures, illustrating a story read by Mrs. Howell, "The Three Sillies."

The roof of the church, which is of corrugated steel, is being painted, as are also the blinds.

The lake is receding at a rate of 12 inches a week, but as most of the cottagers have gone they are spared that distress. The drought is beginning to be serious, inasmuch as wells and springs are going dry, and unless plentiful rains come soon the situation will go from bad to worse.

#### THE ANSWER.

Here is the answer to the Letter Golf puzzle on the comic page: FOUR, FOUL, FOOL, FOOD, FOND, FIND, FINE, NINE.

### HELEN HICKS SEEMS ASSURED OF VICTORY

Chicago, Sept. 11.—With her lead of four strokes extended to ten, Helen Hicks of Inwood, L. I., today started the third day play in the 72-hole western women's championship, practically assured of victory.

Yesterday she played the Flossmoor course in 78, making a total of 156 for the 36 holes played thus far. Mrs. Lee W. Mida, Chicago, defending champion, also duplicated her first score with an 83, which put her in second place with 166. Mrs. Mida, although behind Miss Hicks by ten strokes, was leading the rest of the field by five shots.

#### OR BETTER, EITHER

A chorus girl who had been ill returned at length to the cast. To one of her "friends" she said, "Well, how do you think I'm looking after the 'fu'?" The other replied, sweetly, "No worse than usual, darling."—Tit-Bits.

WEDNESDAY, SEPT. 11, 1929

**EUROPEAN UNION**  
 M. Briand's vision of a United States of Europe, while on the surface likely to encounter enormous difficulties in fulfillment, may perhaps turn out to be far more easily realized than many a diplomatic conception of the past that did not possess one-hundredth part of its importance.

Over against the intense nationalist prejudices and jealousies that have run rampant for centuries on the continent of Europe and which in many instances have experienced a peculiarly potent revival since the World war, there is set the utterly obvious example of the United States of America and also the utterly obvious necessity of modernizing methods to conform to the requirements of a modern world.

Foreign Minister Gustave Stresemann of Germany hit the idea squarely in the center when he declared at the Briand luncheon that Europe was floundering with mediocrity in the maintenance of its innumerable frontiers and tariff barriers in an age in which mediocrity could have no possible part.

It is highly significant that at the Briand luncheon at which the proposal was formally launched not a single voice was raised in disapproval or in pessimism. Soberly and thoughtfully every one of the twenty-seven national representatives present agreed in the view that somehow and somewhere Europe could find a way to unite in a political and economic confederation, though nobody at all pretended to be able yet to closely outline the precise character of the union.

There could be no better starting point than this. In a year the nations are to come together for the mutual consideration of plans which in the meantime shall have been evolved by the parties to the proposed confederation. That there will then be long and perhaps wearisome discussions is highly probable. Perhaps there will not be early agreement. It may take yet other years before a compact, a federation constitution or whatever, is agreed upon. But the advantage to every European country, great or small, to be derived from a common continental union is so apparent—and has such conclusive exemplification in the union of American states—that, now that this start has been made in this understanding spirit, its successful formation and operation seems to us to be almost as certain as if it were already in force.

**NEW BLOOD**  
 The outcome of the Republican primary assures to the town of Manchester for the next year a Board of Selectmen possessing, on the whole, not only a high degree of ability and character but that experience which the board, as a body, must possess if the business of the town is to be carried on to the best effect.

If there is any justice at all to the complaint sometimes heard that there is not enough of rotation in office in Manchester's governing body, the fact is no doubt attributable to the charter provision calling for the election of the whole seven selectmen each year. It requires no very lively imagination to appreciate the mess into which town affairs might easily fall if, as is entirely possible under the charter, each election should see an entirely new board put into office. It would be as rational to make, each year, a complete shift of executive personnel in a great business or industrial concern. Realizing this, there is very natural precautionary tendency to retain the same membership through successive years. And this, of course, it is possible to carry too far. A charter provision for a majority hold-over each term would make it possible for aspir-

ants for political service to get a chance to demonstrate their usefulness without the voters taking the risk of too great a change in the make-up of the board. Under the present system it all depends on the voters at the primary and general elections, whether we keep at all times an experienced majority of members on the Board of Selectmen. For a long time the voters have exercised excellent judgment in doing this, but sometimes, so great has been their caution, it has been at the expense of possibly excellent new material.

This year two new members are to have a shot at the job of serving the town on the board of selectmen. If they measure up to their predecessors in the performance of their public duties they will not only prove themselves valuable public servants but will lend force to the idea that the change of a couple of members on the board each year would make for a larger general interest in town affairs and lend to the activities of the board that stimulus which, in most governing bodies, is produced by occasional injections of new blood.

**THE ALCORN CASE**  
 A number of Connecticut newspapers continue to be deeply concerned over what they call the blocking of the appointment of State Attorney Hugh M. Alcorn of Hartford County to be Assistant Attorney-General of the United States in place of Mabel Walker Willebrandt, holding J. Henry Roraback and Senator Bingham to be co-partners in the obstruction of the appointment.

It might be worth while to remember that, so far, the appointment of Mr. Alcorn has not been blocked. It cannot be so regarded until another and different appointment to the office is made. Even then it cannot be at all certain that the Roraback-Bingham opposition has prevented Mr. Alcorn from becoming the head of prohibition enforcement in the Department of Justice.

In our belief, if Mr. Hoover very much wants Mr. Alcorn for the job and if Mr. Alcorn in turn wants the job the appointment will be made, without any special consideration as to whether Mr. Roraback favors it or not or whether Senator Bingham favors it or not. What we don't know, and what we take the liberty of guessing nobody knows, is just how much Mr. Hoover is interested in the Alcorn appointment and how much Mr. Alcorn is interested in it.

Really, we think our neighbors are giving Mr. Roraback and Senator Bingham credit for rather more bonyolence in the arrangement of affairs in Mr. Hoover's Department of Justice than either of them or both of them together possess. President Hoover is giving frequent evidences of being a new sort of President. Any President who will tackle such a matter as this one of Big Navy propaganda in the smashing way that Mr. Hoover has tackled it, overriding ruthlessly influences much greater than that of Mr. Roraback, is not likely to permit an appointment, if he considers it at all vital, to be vetoed by a national committee man who fought against the President's nomination.

**THE SCHOOLS**  
 When the voters of the town of Manchester gather in town meeting on the evening of September 24 to pass upon the question of the purchase of the Franklin school, the Recreation Center and the central heating plant of Educational Square, it will be the worst of mistakes if they do so in any other mood than that in which sensible people approach any straight business proposition.

There should be no room, in the consideration of this important matter, for factional differences or jealousies, for ungrounded suspicions, for littleness or pettiness. The town of Manchester is faced by the unescapable necessity of providing certain physical plant for the carrying on of its educational duties. In the proffer of these properties by the Cheney Brothers an eminently fair valuation has been fixed. The land and buildings are purchasable at a figure certainly not higher than the town would have to pay to get the equivalent of the facilities offered. The town should own, not lease, its school properties, because those properties should be, at all times, absolutely under its own control.

To our mind there is no question at all but that the meeting of September 24 should vote the purchase at the revised price obtained by the special committee. Nothing can be gained by postponement. Considerable might be lost.

**THANKS TO MR. JENSEN**  
 The result of last night's Republican primaries ought to bring conviction to former Assessor John Jensen that his ambition to return to the particular activity of the Board of Assessors is not shared, in his behalf, by any overwhelming

proportion of the Republican party in this town; also that if there is, within the party, any feeling that a leadership different from that of the town committee would be acceptable to some important part of the Republican voters, Mr. Jensen's aspirations to that leadership stir up no mad enthusiasm. The majority by which Mr. Jensen was squealed was impressive, especially when it is noted that one of the candidates for selectmen whom Mr. Jensen entered, and who neither wanted the nomination nor took the remotest interest in the contest, polled more than twice as many votes as Jensen himself did as a candidate for the assessorship, after a busy campaign.

Primary contests are a symptom of political health in any community or party. The more general the interest in local politics, anywhere, the better the municipal government. Even when the contest is engineered as this one was, almost exclusively with a view to a job on the part of a single citizen, it is better than no contest at all.

For an interesting evening and a livelier concern than usual in the political affairs of the town, the people of Manchester are indebted to Mr. Jensen. For enlightenment on the subject of whether or not he is desired by the voters as a member of the Board of Assessors, Mr. Jensen is indebted to the people of Manchester. He asked a fair question and he received a most thunderingly convincing answer.

**IN NEW YORK**

New York, Sept. 11.—At the first blush of the new theatrical season, the picturesque Provincetown Playhouse of Greenwich Village; brave pioneer of the "little theater" movement in America, made it known that it would move during the winter to a spot within target distance of the Broadway jazz belt.

And that, if you please, writes "finis" to an old stable which lived to know the glory of truly regal drama, dying at last of a prevalent malady known as "art." The first sturdy Vikings who found America were so impressed with the abundance of wild grapes that they named this country "Vineland." There is plenty of evidence to believe that the grape is one of the earliest fruits the grapevine probably being one of the numerous creeping vines to grow out of the mud of the Paleozoic jungle. The records of grape cultivation go back for over five thousand years, but the Phoenicians were the first to cultivate the grape extensively. As far back as we have any recorded history we know that grapevines have been found growing wild in every temperate and torrid zone of both hemispheres.

In America the largest amount of grapes come from the Pacific coast, where about 80 per cent of the grapes in the American market are raised. It is interesting to note that many of the grapes raised on the Pacific coast are from the same varieties mentioned in the Bible and those famous in ancient history. The eastern sections of the country raise the Concord, which is a black grape and used a great deal for table purposes, although also made into grapejuice. These eastern and temperate zone grapes do not keep very well in storage, but the Muscats, Tokays and other grapes from California are packed in sawdust or cork and shipped to all parts of the world, as they keep quite well through the winter season if properly refrigerated. These grapes are carefully packed so that each grape is separated from its neighbor by the sawdust, keeping them in perfect form.

The "grape cure" known in Europe is employed by placing the patient exclusively on grapes which he eats for from four to six weeks, taking up to six pounds a day. Those who wish to try this diet while the grapes are not in season can get excellent results through a fast on the bottled grapejuice. I especially recommend that kind which is pasteurized and no sugar added. This is preferable to the bottled grapejuices which are under-ripe grapes and additional sugar added.

Raisins are made from drying grapes in bunches. The best looking bunches are sold as table raisins, and the smaller grapes are separated from their stems and put up in packages. The Muscats are the ones most commonly used for table grapes, while the Sultanas and Thompsons are put up in packages and used for cooking and for making candies.

Both raisins and grapes contain a large amount of sugar, the sugar content of raisins being about 74 per cent, but, of course, slightly less in grapes because of the high water content at the Inn" was seen; and at the Bramhall that "The Playboy of the Western World" drifted in from Ireland and at the Cherry Lane that an obscure group gave "The Waltz of the Dogs."

**DOUGHNUT'S BIRTHDAY**  
 Paris.—Bakers of France and England are celebrating the 400th birthday of the doughnut. Some dispute has arisen as to the origin of the doughnut, the Germans claiming it came from Vienna and the French claiming it for themselves. It was planned for the quadricentennial in France to erect huge doughnuts on floats and parade them down city streets.

"Home-made" weather may be possible in the future, as several plants are being designed in London. These include a refrigerator unit, a spray chamber for cooling and cleaning the air, a fan and a metal duct for distributing it.

**HEALTH DIET ADVICE**  
 Dr. Frank McCoy  
 "The Just Way to Health"  
 QUESTIONS IN REGARD TO HEALTH DIET WILL BE ANSWERED BY DR. McCOY WHO CAN BE ADDRESSED IN CARE OF THIS PAPER. ENCLOSE STAMPED ADDRESS FOR REPLY. QUOTE McCOY HEALTH SERVICE LAST NUMBER ONLY.

**GRAPES FROM "VINELAND"**

The principal acid of the grape is tartaric acid which, when extracted, is used in the making of baking powder. Because of the tartaric acid of grapes, they should never be used with starchy foods. During season, it is the best plan to use grapes for an entire meal or, in addition to a meal containing only non-starchy vegetables. Another good combination is to drink a glass or two of milk for lunch and use with this about a half pound of grapes. If grapes are ever used with a regular meal, only a small amount should be used after a meal containing only proteins and non-starchy vegetables.

**QUESTIONS AND ANSWERS**

(Baby's Legs Cramp)  
 Question: J. L. asks:—"What causes a baby's legs to cramp and draw back at the knee?"  
 Answer:—As time a baby's legs cramp or begin to draw back, it is liable to be a symptom of some dangerous irritation, such as infantile paralysis or cerebrospinal meningitis. Such symptoms in a baby should be immediately reported to your doctor, who can best tell what to do.

(Iodine)  
 Question: J. G. S. asks:—"Will you please tell what foods, if any, contain iodine?"  
 Answer:—The following foods contain the largest amounts of iodine: Asparagus, pineapple, cabbage, kidney beans, mushrooms, carrots, strawberries, shrimp and other shellfish.

(Gaining Weight)  
 Question: Hopeless writes:—"I am a young woman 25 years of age, 5 feet 3 inches tall, and weigh only 91 pounds. Any time a baby's legs cramp or begin to draw back, it is liable to be a symptom of some dangerous irritation, such as infantile paralysis or cerebrospinal meningitis. Such symptoms in a baby should be immediately reported to your doctor, who can best tell what to do."

Answer:—You may be perfectly healthy and yet only weigh as much as you do. However, the average thin woman of your type is usually unable to put on weight because of a systemic poisoning which she gets from a sluggish colon. One of this type usually has a complete prostration of the stomach and intestines, and usually has adhesions holding these organs down. When the adhesions are broken loose by manipulative treatment, the organs may be brought back to normal position through exercising. The patient will then soon begin to gain weight without any stuffing diet.

**CRIME BOARD MEETS**

New York, Sept. 11.—Five of the eleven members of President Hoover's crime commission were scheduled to continue their secret meeting at the Bar Association here today. At the first session, which lasted from 9:30 a. m. to 6 p. m., yesterday, police "third degree" methods, illegal search and seizure, unnecessary killings of offenders or suspects and other acts of law enforcement officers were discussed in detail.

Federal Judge William S. Kenyon of Iowa presided. Seven witnesses, including United States Attorney Charles T. Tuttle, gave testimony.

**HEALTH WARNING**

New York, Sept. 11.—Never eat anything between meals and beware of candy, ice cream and sodas unless you take them at meal time. Dr. Shirley W. Wynne, health commissioner, today warned the world by radio.

**DUO DOLLAR PLAN**

**TALK OF THE TOWN**

**News of Scheme Spreading to Outlying Districts; How to Make Your Bids.**

The Duo Dollar plan, now in its second week, and now well-known by folks in town, is spreading to the outskirts and the sole topic of conversation in field and home is when they can plan to come to town on a shopping tour.

Manchester is unique in one respect. It has parking room galore so there is little to worry about for the suburbanite in that respect. There are spaces in back of scores of stores along the Main street where parking is free. Strangers to town will be astonished at the conveniences found here. Our Main street is something to boast about and our convenience in distance to all the surrounding territory is also to be praised.

The local merchants know this and take special pains to accommodate out of town patrons. It is an interesting sight these days to see the way the Duo Dollar plan is taking its place in community life. Whenever two or more housewives gather they display their accumulation of dollars and cents about the coming auction when over \$5,000 worth of merchandise will be "sold." Sold is not the proper word for the articles will be given away because the Duo cost nothing.

It might be well to again explain the plan for those who came in late. For every cent of a cash purchase made in the thirty odd local stores so-operating in the scheme, an equivalent in Duo is given. In each store there is an exhibit of articles to be auctioned off at the State theater each month. The retail prices of these articles are marked on them. Pick out the articles you wish to bid for. The store will provide you with bidding slips. Fill out these slips and place them in the box which has been placed in the lobby of the State theater. On September 27, an auction will be held at the theater. There the sealed bids will be opened. You should not place your Duo in the envelope with your bid. If you win, then is the time to pay. If you do not win, there are other auctions at which to bid, for this plan will continue to operate for four months. There will be three more auctions besides the first one on Sept. 27th.

Here is an example of how you bid. Pick out a pair of women's shoes which may be marked at a retail price of \$5. You bid \$10 for them. Remember you are not bidding with real money. You are bidding with pieces of paper that cost you nothing. If your bid is the highest you get the pair of shoes.

There are over 100 of these articles, a list of which is displayed at the store.

You can also tell where to get the Duo for each of the stores has the Duo Dollar sign prominently displayed.

**AGED EXPLORER**

London.—Many are the men in the field of science and exploration who are well past their prime, but Sir Aurel Stein is one of the oldest explorers on the continent. At 67, he is attempting to secure finances to equip an expedition into the heart of unknown Central Asia. Once he journeyed 10,000 miles across the Roof of the World in two and a half years.

**COOL BOOTHS**

London, Sept. 11.—An enterprising London hotel announced today that it had equipped the receivers of its trans-Atlantic telephones with special cooling devices for the comfort of American visitors who spend long periods in the phone booths talking to folks at home.

**Made for a King—yet modestly priced!**

ALTHOUGH this stroller was designed especially for his majesty, the Baby, it is not at all high priced! The "Whitney" trade-mark it bears immediately identifies it as being "fit for a king." Soft springs, long handle, adjustable footrest, backrest and top, removable wooden artillery wheels are features. In forest green, or soft tan \$13.50

**WOMEN OF U. S.**

**MOST CHARMING AMONG TOURISTS**

Paris.—Among all the different women globe-trotters, the French and the American are the most charming, says Herve Lauwick writing in "L'Intransigeant."

"But the Americans are the best-dressed," he adds, "because elegance on route is merely a question of dollars and cents. The French are the most charming, says Herve Lauwick writing in 'L'Intransigeant.'"

Under the French law which permits sixty pounds of baggage, an Englishwoman will travel with sixty pounds, according to Mr. Lauwick; a Frenchwoman will take seventy-six, plus fifty pounds of her husband's share, and an American two hundred which she makes light matter of because her high tips.

In Malaga, an American woman will exhibit five pullovers and sweaters and her French sister only two. From a distance, it is difficult to distinguish which is which because the former buys all of her pretty things in Paris.

"The American is the only woman who can wear a pretty blouse like a 'Parisienne,'" affirms the French writer. "When they are shown the tomb of Dan Juan, they look shyly at their neighbors. One wonders about what they are thinking? They show no emotion whatsoever."

It is the French globe-trotter, however, which Monsieur Lauwick prefers. "She is so simple, so gay," he concludes, "seeming to travel to amuse herself and never taking an air of parcel post package which one dares not open without permission. They are so courageous, these French girls, and so charming."

"Travelling about as I have done, I have never heard a Frenchwoman it, and very often making some little remark about me which of course they believe was not understood."

The English woman globe-trotter does not receive such high praise from the mouth of the French writer who finds their clothes quite audacious. The Spaniards, what few of them who are allowed to travel, pure, fat, dark and elegant, strongly scented with a heavy rose perfume which they all seem to love, are gracious enough until they open their mouths.

Victor Delerre embezzled \$4,000 from his employers, an electrical supply house, and they were content to merely discharge him. Only

when he went ahead to forge the name of his former boss to a \$20 check did they decide to arrest him. Clever salesman with an engaging manner, Delerre was quick in gaining the confidence of his firm. He was selected, over the heads of older men, to manage the company's exhibit at the Paris Trade Fair. He did a land office business, and gained an important salary raise.

Eventually, the fair customers presented themselves to redeem their purchases by granting a 50 per cent reduction all along the line, pocketing unauthorized deposits in excess of \$4,000. M. Delerre's personality is such that he was let off with a mere discharge. Unabashed, he forged a \$20 check in the name of the firm some time later. Personality did not save him that time. Behind iron bars, he is now wondering about the racehorses who carried the bulk of the electrical company's money.

The latest apparatus on display at the French Firemen's Convention shows that water is unnecessary. A practical demonstration was given with a centrifugal pump that emitted a chemically produced carbonic foam. Firemen with ordinary apparatus tried for two hours to extinguish the flames in a five thousand gallon oil tank. The foamy mixture from the new pump put out the fire in a few minutes.

When the colored couple were being married by the clergyman and the words "Love, honor and obey" were spoken, the bridegroom interrupted: "Read that again, huh! Read it once more, so's de lady kin keep de full solemnity ob de meaning. I've been married before."

TAIL REFLECTORS OR ARRESTS SOON Police Warn Truck Owners That New Law Will Have to Be Obeyed.

Relatively very few owners of commercial motor vehicles in this state have complied with the law, which went into effect on the first day of this month, requiring all trucks and commercial vehicles to carry, attached to the rear, reflectors of a high degree of visibility.

The Manchester police have been reluctant to prosecute owners or drivers under the new law because there seems to be a lack of general knowledge of its requirements. The Herald is asked to reprint the specifications of the law, which appeared in this newspaper some weeks ago, for the benefit of commercial vehicle owners who do not know exactly where they are at.

Seven Approved Types The Motor Vehicle Department has approved seven different types of reflectors, any one of which, if attached to the vehicle in a proper manner, will meet the requirements of the law. They are, by trade names, as follows: Ks Safety Reflectors No. 33; Niteryday; Persons Sunbeam; Persons Vehicle Reflector; Rayreflector, either tile or button type; Sunstone; A. G. A. button type.

The reflector must be attached securely to the rear of the vehicle, not more than 48 inches nor less than 24 inches from the ground, and to the left of the center of the vehicle, in such a way as to reflect the rays from the headlights of a following car. The visibility must not be impaired at any time by any accessory, by the tailgate, either fastened or lowered, by van doors or by any part of the load.

Commercial motor vehicle operators are warned by the Manchester police that they must at once comply with the provisions of this law, which, like all other laws, was made to be enforced. Arrests will follow upon neglect to obey the statute.

EVER READY CIRCLE IN FIRST MEETING

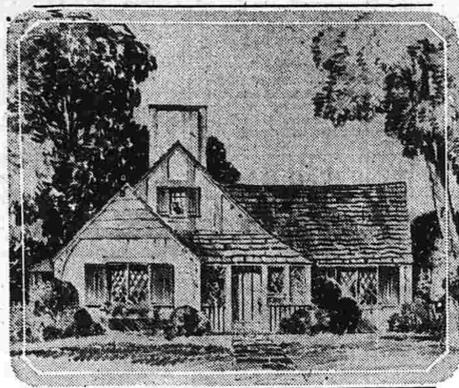

Church Workers Divided in Groups - Plan to Raise Money Individually for Treasury. Ever Ready Circle Kings Daughters met last evening with Mrs. E. E. Segar of Main street for the first business session of the fall. It was voted to change plans for the Japanese bazaar to avoid conflict with the Japanese Tea Garden of Second Congregational Church Ladies Aid society. It was also voted to divide the circle in ten groups of five members each. It is hoped that by January 1 each group will have earned \$10 in some way to replenish the treasury. These same groups are to continue subscribing to the Silver Cross magazine and to take charge of bible study periods at the meetings. The members were reminded to turn in their holiday dime calendars this fall.

GRANT CO. PREDICTS LARGE FALL SALES

W. T. Grant company sales continue to show splendid increases for the month of August and for the first eight months of the year. All store sales in August, 1929, were \$5,065,831.02 against \$3,998,029.82 in August 1928; a gain of \$1,067,801.20 or 26.76 per cent. For the first eight months of 1929 Grant sales reached a total of \$36,480,394.98 against \$28,017,789.24 in the first eight months of 1928; a gain of \$8,462,605.74 or 30.21 per cent. There were 252 stores in operation on August 31.

"Some stores" sales in August 1929 were \$3,737,319.34 against \$3,363,669.60 for August 1928; a gain of \$373,649.74 or 11.10 per cent. For the first eight months of 1929 these "same stores" had sales of \$27,963,826.89 against \$26,226,394.57 in the first eight months of 1928; a gain of \$1,737,432.32 or 6.62 per cent. "Having five Saturdays this August against four last year helped materially in making the large increases in the same stores in August," said C. E. Freeman, president. Without this advantage our percentage of increase would have been approximately the same as for the first eight months. The momentum with which business is moving is greater in general throughout the sections in which we have stores than a year ago. A noticeable fact is that almost all of our stores in New England showed decided increases over a year ago and that increases in sales were general throughout the stores in our other districts. We, therefore, are looking for large sales increases to continue during the fall period.

An English Bungalow For Any Family

By CORA W. WILSON

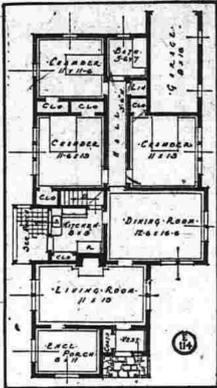

There is rooted deep in the heart of every man and woman the desire for a home. It may be a cozy vine-covered cottage or a stately mansion. It may face on a bustling city street or hide beside a drowsy country lane. In any event, it is the place in all the world that is one's own—even to the very earth beneath it, the wood and the mortar that cement it together.

In many cases it takes year to find the right plan, save for, build or buy these cherished homes. It perhaps means long months of sacrifice. Very often the nest-egg of a life-time is invested in them.

And yet, after they are built, three, four and even five years often go by without a cent being spent on repairs. Don't let the inviting charm vanish from your home. Keep it! One wouldn't neglect his golf sticks or automobile or furnace as he sometimes does his home.

The average American home, if well built and properly maintained, instead of depreciating and becoming an expense, increases in value.

The English bungalow pictured here is a beautiful home for any family. It is a house of stucco, half timber, shingled roof and casement windows. The house contains six rooms, a bath and garage. All the rooms are convenient to one another and all are on one floor.

For additional information and cost estimate write to Mrs. Cora W. Wilson, 420 Madison Avenue, New York City and be sure to enclose the clipping from this newspaper.

Mixture Of Old And New Stressed In Decoration Of American Home

By Margaret Ann Poole

The first and all-important point in American home decoration is "mixture." And in no place is this more true than in our treatment of the New England Colonial house, whether it be the large, stately "mansion" of New Hampshire or Maine or the simple farm house of rural New England.

Each type must be treated in a different way, but the background is the same—"America in the making"—ships bringing things from distant parts, some simple and crude, some very beautiful, but all of them helping to make our American background. Travel has always been a passion of this New World.

Where there is travel there is no possibility of a colorless "early American home," with only hooked rugs and pine and maple pieces that "match." For we have continued to bring things from other lands, and they must be fitted into our American homes to make them real. Of course, the kind of "foreign things" we put in a farmhouse are not the same things we put in a dignified Portsmouth home. The crude pine and lovely maple suit the farmhouse and the federal type of mahogany is at home in the large "mansion." Both should be interspersed with the new different pieces of furniture—French, Italian, etc., and Persian rugs and unusual things—to give interesting character to the rooms.

Our houses must never lay themselves open to the criticism made by a friend of mine, a very fine "period" house had just been finished near her in the country. I asked how she liked it, and she said: "It is very beautiful, but I have a strange feeling that all Mrs. B's ancestors were born at the same moment." This seems to me a good summing up of the effect of a "period" house.

We are not made that way, so why should our houses be that way. Our lives are a combination of old and new, and the same thing should be true in our surroundings. I have just seen an enchanting boudoir with extreme modern and contemporary furniture and beautiful old pieces combined. I have also seen this combination in an early American room without its losing the quaint note of the farmhouse background. This is difficult to do, and I do not advise any one to try it without much study or a gift of the gods.

I have been interested in hooked rugs for many years. In studying them one is impressed by the significant change of patterns and the creeping in of French influence after the time of President Jefferson. It is this was true in the rugs it was also true in much of the furniture and minor decoration. French charm was added to the Anglo-Saxon austerity and the rooms became more friendly and gay.

Nothing is more delightful than an old New England house beautifully remodeled. It takes years for a new house to gain the "atmosphere" of the old. A friend of mine has just bought an old house in Connecticut, and has paneled the living room with wood collected from various parts of the country and cunningly fitted into this present home. Windows and doors have come from east and west, but they have been so cleverly assembled that the new old house is a perfect unit. This sort of remodeling takes much time and infinite care. Most of us have not the patience for it. We are glad some people have.

In furnishing small houses there are several important and simple rules. First, keep furnishings in scale with your rooms. So many places are ruined by furniture too large or heavy, and window curtaining too thick. Farmhouse windows admit of little heavy curtaining. The larger type Colonial house, like those in Portsmouth and in Maine, have high ceilings, high windows and large rooms. These houses must have entirely different treatment from the farmhouse

type. Heavy overcurtains may be used, lustrous satins have great charm; and the furniture may be on a large scale—with high secretaries, big four-posters, large French vases, velle and flowered chintz.

In these houses the floor coverings must be different from those used in the farmhouse. Hooked rugs must be finer in texture and design. The all-over flowered carpet is delightful even though often considered quite Victorian. Wallpapers should be freely used in both types of houses, though plain walls are entirely possible, but often less interesting. Paneling is always delightful; also a combination of paneling and wallpaper.

Mirrors are a tremendous asset to any decoration. In the American Colonial the over-mantels, the round eagle mirrors, etc., are particularly valuable. We naturally keep our houses more livable and comfortable than those of our forefathers. Electricity is part of our daily life. We can't have old lamps and good reproductions and soft shades. Comfortable sofas and chairs around the fire are a necessity, but these can be covered in quaint fabrics or copies of the original. The addition of these things need change the character of the house. They merely make it a home to be lived in, not a "period" house to be looked at.

Mirrors are a tremendous asset to any decoration. In the American Colonial the over-mantels, the round eagle mirrors, etc., are particularly valuable. We naturally keep our houses more livable and comfortable than those of our forefathers. Electricity is part of our daily life. We can't have old lamps and good reproductions and soft shades. The addition of these things need change the character of the house. They merely make it a home to be lived in, not a "period" house to be looked at.

STATE INVESTIGATING GASTONIA FLOGGINGS

Charlotte, N. C., Sept. 11.—Unruffled by the flogging of three of its star organizers by a Gastonia mob which warned them to keep out of Gastonia county, the National Textile Workers Union announced here today that it will hold a month organization meeting in South Gastonia Saturday.

The all-day gathering, it was asserted is designed to draw more recruits to the organization in this section and to solicit moral and financial aid for Fred Erwin Best, Communist labor leader, and his fifteen aids who face re-trial September 30 on murder and conspiracy charges growing out of the recent Gastonia strike.

Meantime, Solicitor John G. Carpenter, who has launched an investigation into the kidnaping and flogging of Ben Wells, C. D. Saylor, and C. M. Lell, Left Wing labor workers, said there was no possibility of a special Grand Jury being summoned to probe Tuesday's mob action.

However, the solicitor stated that the whole affair would be presented to the regular Grand Jury which meets in October. He said he was co-operating with the police in amassing evidence to present to the inquisitors. Thus far no arrests have been made. The floggings came less than 24 hours after a mistrial was directed in the trial of Best and his co-defendants charged with killing Police Chief C. F. Adersholt when he led a raid on N. T. W. U. headquarters June 7.

MARLBOROUGH

The Misses Rebecca and Doris Bell, Lois Ford and John B. Lord are spending this week in the White Mountains. The selectmen held their monthly business meeting on Saturday. Miss Fanny A. Blish opened her school in Glastonbury on Monday for the fall term.

Miss Mildred Hought, who teaches in the North District spent the week end at her home in Hebron. Leon L. Buell and Mr. and Mrs. Howard E. Lord and son Robert were recent callers in Middletown. A school board meeting was held at the Center Friday evening.

Mrs. George W. Buell, Miss Hattie J. Buell and Mrs. Elmer E. Hall were callers in Middletown the first of the week. Ralph W. Strong of East Hampton was a caller in town Monday.

Coal miners work on an average of 215 days out of a possible 308 days.

GILEAD

Several local folks attended the Tri-Coventry Christian Endeavor picnic at the lake in Marlboro, Saturday afternoon. At the church Sunday morning Rev. J. W. Deeter preached from Ecclesiastes 9:10 whatsoever thy hand findeth to do, do it with thy might also, verse 18. Wisdom is better than strength. Sunday morning the 15th Rev. Deeter will talk on Prohibition and in the evening there will be moving pictures on prohibition. All are invited to attend. A son Roland J. was born to Mr. and Mrs. Romolo Saglio Saturday at their home. Hazel Porter has returned to her home after spending the summer with her grandparents in Vermont. At the Republican caucus held in Hebron Monday the following candidates were nominated for town officers: Assessor for 3 years, Robert E. Foote, Board of Relief to fill vacancy for 2 years, Mark Hills, Board of Relief for 3 years, E. H. Horton, 1st Selectman, Clarkson Bailey, 2d Selectman, Winthrop S. Porter, Town clerk, Mrs. Merton W. Hills, Treasurer, Mrs. Merton W. Hills, Agent town deposit fund, Mrs. Merton W. Hills, Auditor, R. W. Hubbard, Grand jurors, Chauncey Kinney, E. A. Raymond, R. W. Hubbard and E. H. Horton, Tax collector, Edward A. Smith, Constables, J. B. Jones, Karl Links and E. Buell Porter, Town school committee for 3 years, E. A. Smith and Clifford R. Perry, Registrar of voters, J. R. Hewitt. Louise Owen and Norton Warner are attending business college in Hartford. Miss Elena Burr of Manchester spent the week end with Miss Lovina Foote at the home of her parents, Mr. and Mrs. E. Foote. The regular meeting of the Young

Womens club was held last week with Mrs. Martin Visney. Harlow and Louis Tracy of Willimantic were callers Sunday at D. H. Hodges' and at C. F. Burt's. The Misses Bertha and Mary Martindale of Springfield, Mass., were Sunday visitors at Mr. and Mrs. D. H. Hodges'. Mr. and Mrs. A. C. Foote and children were Sunday visitors at Miss Jennie Stephens in Lyme. Mr. and Mrs. E. E. Foote visited her mother, Mrs. Elizabeth Hills at the Willimantic Camp Ground. Mrs. W. J. Warner returned to her Hartford home Sunday, after passing several weeks at the home of her son, N. J. Warner.

The water buffalo of Java is known as the slowest beast of burden in the world.

Just when your mind is a maze of question marks regarding plans for redecorating, the arrival of the new wall papers will solve many problems. We invite you to see them and note how perfectly they match your desires for charm, smartness and distinctiveness.

ARTHUR H. STEIN Violin Instruction

MAC DONALD MAY VISIT AMERICA AFTER ALL

London, Sept. 11.—In spite of earlier reports that Premier J. Ramsay MacDonald had abandoned his intention of visiting Washington this year, there is still a possibility that the trip may be made. It was ascertained today that the prime minister's booking aboard the Berengaria for September 28 is still being held, in the event that MacDonald decides to make the voyage after all. The Prince of Wales' suite aboard the huge liner was booked for the prime minister and his daughter, Isabel, three weeks ago, and has not been cancelled. The prime minister is expected to make a definite decision in the near future.

Womens club was held last week with Mrs. Martin Visney. Harlow and Louis Tracy of Willimantic were callers Sunday at D. H. Hodges' and at C. F. Burt's. The Misses Bertha and Mary Martindale of Springfield, Mass., were Sunday visitors at Mr. and Mrs. D. H. Hodges'. Mr. and Mrs. A. C. Foote and children were Sunday visitors at Miss Jennie Stephens in Lyme. Mr. and Mrs. E. E. Foote visited her mother, Mrs. Elizabeth Hills at the Willimantic Camp Ground. Mrs. W. J. Warner returned to her Hartford home Sunday, after passing several weeks at the home of her son, N. J. Warner.

The water buffalo of Java is known as the slowest beast of burden in the world.

PROBE JUDGE'S DEATH

New York, Sept. 11.—A district attorney's investigation was reported being planned today into the death of the late City Magistrate Andrew Macrery, who died on August 21 supposedly of a heart attack. Edward V. Broderick, lawyer and friend of the dead man, charged at a political meeting last night that Macrery had been severely beaten the day of his death for refusing to pay \$50,000 as the price of his resignation to the bench. Macrery's brother, Wallace, is understood to have requested District Attorney Joseph H. Banton to investigate the circumstances of his brother's death. Examination of the body is understood to be contemplated.

Womens club was held last week with Mrs. Martin Visney. Harlow and Louis Tracy of Willimantic were callers Sunday at D. H. Hodges' and at C. F. Burt's. The Misses Bertha and Mary Martindale of Springfield, Mass., were Sunday visitors at Mr. and Mrs. D. H. Hodges'. Mr. and Mrs. A. C. Has the laxative in your home a family doctor's approval?

MOST of us value our health too much to purposely neglect ourselves when we are warned of constipation by bad breath, feverishness, biliousness, a headache, lack of appetite, or that weak, helpless feeling. The continuation of our trouble is more often due to the things we do rather than the things we leave undone. Some things people do to help the bowels really weaken these organs. Only a doctor knows what things will cleanse the system without harm. That's why the laxative in your home should have a family doctor's approval. A wonderful product now known to millions of people as Dr. Caldwell's Syrup Pepsin is a family doctor's prescription for sluggish bowels. It never varies from the original prescription which Dr. Caldwell wrote thousands of times in his many years of practice at Monticello, Illinois. He proved it safe and reliable for women and children; thoroughly effective for the most robust men. He showed it actually corrects constipation. It is made from fresh herbs and other pure ingredients. Since Dr. Caldwell first permitted his prescription to be put up in bottles and sold through drug stores, it has increased steadily in popularity until today it is the largest selling laxative in the world!

Womens club was held last week with Mrs. Martin Visney. Harlow and Louis Tracy of Willimantic were callers Sunday at D. H. Hodges' and at C. F. Burt's. The Misses Bertha and Mary Martindale of Springfield, Mass., were Sunday visitors at Mr. and Mrs. D. H. Hodges'. Mr. and Mrs. A. C. # Lott Loses To Allison Tilden Has Close Call

### Bell Also Eliminated; Tilden Objects to Gallery's Attitude and Crowd Is Silenced.

Forest Hills, L. I., Sept. 11.—By all the laws of the Medes and the Persians to say nothing of the rules and regulations of the U. S. L. T. A., Big Bill Tilden should have succumbed violently at the hands of Frank Shields here yesterday in the third round but he is on "top ag'in today bright end chippin' as ever, and seemingly ready for tomorrow's quarter final for his opposition today will not test him to the limit as he meets Henry Cully, a Harvard youngster and should romp home an easy winner.

The elimination of George M. Lott of Chicago by Wilmer Allison of Fort Worth, Texas, and the Davis Cup doubles team, wrecks the dream of a Tilden-Lott final. The other upset was the defeat of Berkeley Bell by E. F. Fehleman.

Julius Seligson defeated Melvin Partridge, 6-2, 6-0, 6-3. Fehleman defeated Berkeley Bell, 2-6, 6-1, 6-4, 4-6, 6-2. H. W. Austin defeated Harold MacGuffin, 6-2, 6-3, 2-6, 6-3. Wilmer Allison defeated Lott, 6-3, 6-3, 3-6, 7-5.

Elmer Griffin defeated E. K. Avory, 2-6, 8-6, 6-1, 6-4. Fritz Mercur defeated David Jones, 6-0, 5-7, 6-2, 6-1. John Miller defeated J. S. Olliver, 6-0, 9-7, 6-3. Francis T. Hunter defeated Leroy M. Weir, 6-3, 6-3, 6-1. Junior Coen defeated Fred Rover, 6-1, 6-1, 6-3.

Arnold W. Jones and Dr. Carl Fischer were tied at 3-all in the fifth set when the match was called on account of rain. R. Norris Williams 2d defeated Edgar F. Dawson, 6-2, 6-4, 6-4.

The famous Bayeux Tapestry, which depicts a conflict between William of Normandy and Harold of England, has a scene showing cooking and baking about 1100 A. D.

Use of chemicals in the next war is certain, says a German scientist. The soldiers used quite a lot of them in the last war, too, but mostly for drinking purposes.

A Belgian woman told police the other day she had been married 50 times and engaged to 642 men, and none of the jilted 602 seems to have sued her for breach of promise.

Tilden Makes Declaration. It was at this point that Tilden addressed himself to President Coolidge with the declaration that if the gallery was not satisfied with his sportsmanship he was ready to leave the court.

The appeal of the former champion struck a responsive chord in many of the spectators, who felt that he was justified in not taking service, and the applause that followed his declaration served to relieve the tension.

As if there had not already been excitement enough, in the ninth game of the fourth set Shields, rushing to the net in the face of one of Tilden's cannonball drives, went crashing to the ground as he lost his balance in trying to volley the ball and was seized with a violent cramp in his leg.

After his leg had been vigorously rubbed for several minutes, Shields was able to regain his feet and take his place to serve again. The point that Tilden had won when Shields crashed to the ground gave him advantage and the New York youth double-faulted as he resumed play, giving Tilden the game. A minute later Tilden had won the match, 2-6, 6-1, 14-12, 6-4.

Lott, after losing the first two sets to Allison by the margins of 6-3, 6-3, a period during which the played sloppy tennis while the Texan was going at a beautiful clip, steadied down in the next two sessions of play and finally drew level at two sets all, taking the third and fourth sets at 6-3, 6-3. In the fifth session Lott established leads of 4-2 and 5-3 as the result of brilliant play. Allison appeared to be wobbling down pretty close to the breaking point and was falling frequently on his staccato volleys.

# The Innocent Cheat

©1929 BY NEA SERVICE INC.

By Ruth Dewey Groves.  
AUTHOR OF "RICH GIRL—POOR GIRL," ETC.

### THIS HAS HAPPENED

HELEN PAGE feels unhappy when the girls at the boarding school tease her about giving up dancing and parties and being Miss Simplicity just to please her handsome fiancé, LEONARD BRENT, with whom they accuse her of being in love. And her roommate calls her a fool after she sees him at the Ritz one day with another woman.

Realizing her school-girl infatuation for him, Brent exacts her promise to do anything he asks her to, and says he will tell her about her parentage after she graduates.

One day Brent spies a gold locket on a beggar who has fallen in an alley. He bends over to take the locket and hears mumbled words about "Evangeline—disinherited" and decides to help the old man and learn his story.

The beggar is too far gone to reveal much except that his name is CHARLES OWENS NELLIN; that his wife is dead; and that there was a baby EVANGELINE whom he has hidden from her wealthy grandfather, CYRIL K. CUNNINGHAM. The old man dies before Brent can verify any dates or facts. However, he finds that an eccentric millionaire of that name lives in Yonkers and endeavors to learn more about him from the corner store gossip.

NOW GO ON WITH THE STORY

### CHAPTER VII

"Old man Cunningham is a stubborn old fool!"

The statement was made with heat while the speaker glared at his listner as though he challenged him to contradict it. But Brent seemed in no way inclined to do so. He merely nodded with interest and Brute went on.

"There wasn't a prettier girl in these parts than Evangeline Cunningham," he said. "Proud too, but sweet and friendly. Not like the old man, who's always been a bit better'n anybody else. Sort of a swell."

"Evangeline marrying anyone of less importance than a Cunningham. Her falling in love had nothing to do with it in Cyril's opinion. There wasn't any room in his mind for understanding a thing like that."

"She ran away. And why wouldn't she? Locked up in her room and forbidden to send word to her lover? You couldn't do things like that to a high-spirited girl in those days anymore than you can do it now."

Brute paused for breath and Brent said quickly, sympathetically: "That's right; you can't."

"But she never left her husband and came back home to resent it. I like so many girls do when they marry a poor man. Evangeline stuck to her choice but I guess she'd have been better off if she'd had a little less of the old man's stubbornness herself. I've heard that she had a hard time with Nellin."

Again Brute paused, and he seemed to have lost some of his fire. Brent prompted him with a crafty question. "Perhaps," he said, "she didn't have any children to worry about."

Brute rose to the bait. "She had one child," he responded and hurried on to explain how he knew that much was certain. "I saw the letter she wrote her father, telling him about the little girl and asking for help for her. The letter threw old Cunningham into a rage and I was sent for to bring something to quiet his nerves. He never mentioned Evangeline's name or the letter either, but the old man, who had been with the family for years, had saved the torn up pieces. He told me about it—said he recognized the handwriting and wanted to know how the young lady was getting along."

"Naturally," Brent agreed. "And I suppose Cunningham never answered the letter."

"I don't know about that," Brute admitted. "Maybe he did and maybe Evangeline wrote again, but I'm sure she never came back."

"She might have come secretly," Brent suggested but Brute shook his head.

"The servants would have known and I'd have heard about it," he said. "I was sure they'd have let me know if she'd returned."

"What became of the child. Does anyone know that?"

"I never heard," Brute told him. "But I'd think," Brent began, taking a new tract, "that if Nellin was the sort of a man to make his wife unhappy he'd have been after Cunningham for money."

Brute grunted. "H'm, well, maybe he was, but it's my guess that he had a kind of eccentric pride of his own. I knew him slightly. Never thought much of him but I wouldn't have said anything worse of him than that he was irresponsible."

Brent held out his cigarette case, "Smoke," he invited. Brute accepted and Brent put the case back in his pocket before saying anything more.

"Then the story ends there?" he inquired smoothly.

"So far as I know," Brute amended. "We haven't seen him nor heard of the Nellin's since she went away with him. That's a long time ago, about 20 years, I should say. The old man's had plenty of time to regret his harshness."

"So he has regretted it?"

"Brent shook his head. "If he has no one around here seems to know it. He keeps pretty much to himself, never going out, and having little company. Mr. Greaves, his attorney, pays him a call now and then, and Dr. Halston is his fairly regular attendant. Aside from that he sees practically no one."

"I see," Brent mused. "Mr. Greaves, an attorney, and his physician. Is the old gentleman falling?"

He went to look for Charles Nellin at the little coffee house on the side street.

happens he is making a belated search for his daughter.

"He'll die unrelenting is my opinion," Brute predicted.

Brent closed his note-book with a sudden finality. "Well," he said brightly, "I'm much obliged to you indeed, Mr. Brute, for the information you've given me. It will make a great story."

"Now you be careful what you write," Brute cautioned him unceremoniously. "And perhaps you'd best not quote me directly," he added, his apprehension that he had said too much growing upon him.

"If the story is accepted, and I'm certain it will be," Brute assured him, "I'll let you see a copy of it before it is published."

"That's fine," Brute said with genuine relief. "When can I expect it?"

"I'm afraid I can't promise, unless it is turned down. In the event that you do not receive a copy you will know that happened. So long and thanks very much."

Brent left, congratulating himself upon his success. So far Nellin's story had been very good.

"A damned good thing I took care to make myself hard to recognize if that babbling Brute should see me again," he told himself, thinking of his careless, rainy day attire and the forefinger that had prompted him to leave his car out of sight from the drugstore.

It would be rather difficult, he fancied, for anyone to see the slouchy newspaper man in the well-dressed Leonard Brent, who looked for all the world a bone-fide manner about him. After only one meeting, at any rate.

He drove back to New York with a feeling of immense satisfaction. His work pleased him well. A few more questions put to Charles Nellin, an interest in the old ruin that would lead to finding a place for him, where he would be out of the way—and the rest will be easy," Brent gloated.

At his hotel he found a message from Carmel and he telephoned her to say briefly that he could not accept her dinner invitation. Carmel hung up in a rage. She knew that Brent was breaking off with her, but she was not so desperately in love with him that she let herself be driven to reckless measures to hold him.

Brent smiled and called up Helen immediately. This he did but rarely. It delighted the girl, whose voice came to him throbbing with her stirred-up emotions while she asked when he was coming up to school again.

Brent replied that it would be soon, and showed an eagerness on his own account to see her that Helen found a trifle puzzling but exceedingly thrilling.

Brent cautioned himself not to show too sudden a change toward her and cut short their conversation while Helen was still hoping that it had only begun.

Then he went to look for Charles Nellin at the cheap little coffee house on the side street. He entered the place with the conviction that he would find his man. But he looked around in vain. Finally the waiter who had served him the night before saw him near the door and came quickly over to him.

"Are you looking for the old fellow sir?" he asked.

Brent nodded. "Has he been about this evening?" he inquired.

"No sir, he hasn't. He didn't come back."

Brent frowned. "I might have expected it," he said lightly. "People who need help have generally made themselves so by being impossible to help," he generalized loftily. "But I'm generalizing to know what's become of him?" he added more definitely.

"I can't say, sir. But I don't think it would be far wrong to look for him at the nearest flop house, seen as how he had money for a bed."

"Thank you," Brent returned briefly and handed over a goodly tip.

## Sister Mary's Kitchen

BY SISTER MARY.

Tomatoes, green or ripe, form the basis of many piquant sauces. These sauces often aid in glorifying the cheapest cut of meat and lift it out of the realm of every day.

Many sauces can be made quite economically if the vegetables must be purchased.

Chili sauce is made with ripe tomatoes, and it is easier to make than catsup and quite as good.

Chili Sauce. Twelve ripe tomatoes, 4 onions, 2 sweet green peppers, 2 blades of celery, 1 cup sugar, cups vinegar, 1 tablespoon salt, 2 teaspoons cinnamon, 1 teaspoon all-spice, 1 teaspoon cloves, ¼ teaspoon black pepper.

Scald and peel tomatoes. Cut in small pieces and put into preserving kettle. Remove seeds and pits from peppers and chop. Peel onions and chop with celery. Add to tomatoes and bring to the boiling point. Boil 15 minutes. Add remaining ingredients and cook until thick, about two hours. Pour into sterilized jars and seal.

Green Tomato Relish. Four quarts green tomatoes, 4 medium sized onions, 4 large sweet red peppers, 2 cups shredded cabbage, 2 cups diced celery, 1 cup salt, 6 cups vinegar, 2½ cups brown sugar, ¼ teaspoon cayenne pepper, 2 teaspoons whole cloves, 1 tablespoon mustard seed, 1 tablespoon finely broken stick cinnamon, 1 teaspoon paprika-corns.

Wash and remove stem end of tomatoes. Peel and chop onions. Remove seeds and ribs from peppers and chop. Put all the vegetables except the celery in a crock with layers of salt sprinkled through. Let stand overnight. In the morning drain. Tie spices in a small muslin bag. Put vinegar, sugar, spices and prepared vegetables into preserving kettle and bring to the boiling point. Boil 40 minutes. Put into sterilized jars and seal.

One of the hottest places on earth is at Greenland Ranch, Death Valley, Calif. On July 10, 1927, 154.1 degrees were registered.

## Daily Health Service

by World Famed Authority Hints On How To Keep Well

NO DIET IS SUITABLE UNLESS IT HAS PLENTY OF VEGETABLES.

This is another of Dr. Fishbein's series of articles entitled "Know Your Food Values."

By DR. MORRIS FISHBEIN, Editor Journal of the American Medical Association and of Hygiene, the Health Magazine.

Almost everyone now realizes how important it is to have vegetables in a well-balanced diet. They provide many of the constituents that are necessary to health and to growth. They vary greatly in their food values, both as to calories, salt and vitamin content.

Five stalks of asparagus yield 25 calories, a fair amount of protein and carbohydrates, some calcium and a fair amount of iron and phosphorus, and a good deal of vitamin B. For this reason asparagus is a common ingredient of reducing diets.

By comparison, three-fourth of a cup of canned peas will yield 100 calories, three times as much protein and about the same amount of carbohydrate as the asparagus, about the same mineral salts and a good deal of vitamin A as well as B.

The potato is a common constituent of most American diets. One-half cup of mashed potatoes yields 100 calories, the same protein and carbohydrate as the asparagus but about 50 times as much fat, lots of calcium and phosphorus but little iron, and vitamins A, B and C.

A whole cup of spinach yields 40 calories, a good deal of protein but very little carbohydrate and fat, great amounts of calcium, phosphorus and iron by comparison with other vegetables, and great amounts of vitamins A, B and C. Two fresh tomatoes yield 100 calories, twice as much protein as asparagus but about the same carbohydrate, more phosphorus but some calcium and iron, some vitamin A but a great deal of B and C.

The vegetables yield very little vitamin D. Lettuce has appreciable amounts of it. Asparagus, cabbage, lettuce, celery, spinach, squash and turnip are the low-calorie vegetables, a usual portion of these containing about one-fourth of the daily requirement. The same portion of beets, corn or potatoes and about one-sixth to one-fifth as much as the same portion of peas, lentils and succotash.

The high protein vegetables are kidney beans, lentils and peas. The high carbohydrate vegetables are beets, corn, parsnips, potatoes, cauliflower and squash. Vegetables especially valuable for calcium are cauliflower, celery, lettuce onions, peas, potatoes, spinach and turnips.

The same vegetables do very well for phosphorus, but when it comes to iron, cabbage, lettuce, peas and spinach lead the field.

"We had a guy here last night that answers the description of the man you're looking for," he said, "but the name was Owens."

"Does he come here often?" Brent inquired.

"He did," the other replied, "but he won't come again."

(To Be Continued)

## BUCKINGHAM

A boss of the state road construction gang was looking for a rent to be occupied for about four months so he could be near his work. The road will be extended out to Roaring Brook, by the George Goslee Farm, now owned by Chas. E. Broome of South Manchester. The distance covered will depend on the weather. The workman have plenty of trouble with broken drills on the ledge by the cemetery. They say the stone is very hard. Mrs. Horvath has a 15 pound piece of stone which descended through the roof of the grocery store, from a dynamite blast of the ledge near the store. Broken plastering, dishes and a hole in the roof was the damage resulting.

The White Grubs have caused much damage to the cemetery so one half or two thirds of the ground will have to be reseeded. Some of the cemetery lots could be saved by the use of arsenate of lead in water to saturate the turf. The robbers, crows and skunks are busy getting the grubs out of the ground. Harry Chapman intends to use a wheel harrow on an infested field near his home to help the poultry get at the pests. The hens will greedily devour all grubs in sight.

UNFAIR FINE Fort Worth.—Glenn Bavousett, ambulance driver, was fined \$2 and costs for driving an injured man through a red traffic light. He picked up an injured negro and was taking him to a hospital when he crashed the signal. The negro died 20 minutes after reaching the hospital.

ROAD OF FALSE TEETH New York.—One of the oddest driveways in the country has been constructed outside the city. A dentist, in building his driveway, was able to get false teeth through business connections cheaper than he could buy gravel. So he strewed the teeth on his driveway. No punctures have been reported from the teeth biting into automobile tires.

Chanel Glove A white kid glove has a very long gauntlet cut of bands of black, grey and blue kid separated by narrow strips of white.

## Styles by ANETTE Paris—New York

POPULAR COAT FROCK

The tweed in feather weight in wood violet tones so popular in coat styling for general daytime wear. The vestee that terminates in scarf collar is of plain violet wool crepe.

The skirt shows wrapped movement and adds length to the silhouette through its one-sidedness with buttoned hipline. Surplice closing bodice narrows the effect through the bust and waistline. Style No. 666 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

It's an opportunity! It's a clever sports type that all the younger fashionables are including in their Fall wardrobe. Printed wool jersey, plain wool jersey, wool and silk crepe, plain silk crepe, crepe satin, canton crepe, crepe de chine and crepe Maroccan appropriate and smart.

The skirt is attached to long-waisted bodice to simulate two-piece mode, and assure slenderness through the hips. Sleeves are fitted with darts below the elbows. Net inset pockets at either hip which gives tailored aspect. You'll enjoy making it, and the saving is worthwhile.

Pattern price 15 cents in stamps or coin (coin is preferred), wrap coin carefully. We suggest that when you send for pattern, you enclose 10 cents additional for a copy of our new Fall and Winter Fashion Magazine.

## YOUR CHILDREN

by Olive Roberts Barton

I'd start pretty young to get the baby accustomed to strangers. One good reason is that the longer you put it off, the harder it's going to be.

The new idea of keeping a baby quiet and alone is all right, but there are two good reasons against taking it too literally. The first is that a lonely baby will undoubtedly be slower in mental development, the other is that very likely he will grow a shell of unhappy shyness that he can't break when he is older.

But those things take care of themselves in the long run. As far as that goes, it's good for a baby to be alone a great deal of the time at least.

Wisdom Is Required. However, it takes wisdom to avoid letting a baby get so fond of his own company and that of his parents and sisters and brothers that he is miserable when anyone else is around.

A very little baby will probably cry if a stranger suddenly takes him in his arms. He'll scream and strain to get away. Don't laugh and force him to stay. Don't make an occasion of it, and laugh and coax and try to convince the tiny rebel by patting his captor and calling him "a nice man who wouldn't hurt him for anything." Watch that he doesn't get hysterical.

Take him away and set him down somewhere. Then talk of other things and pretend to forget him.

If the stranger really is interested in holding the baby, he might try getting him interested in a toy. The second time he picks him up the baby may not mind at all. Patience will do a great deal. A few such occasions may overcome his fear altogether.

The Resulting Misery. Sometimes a mother is ill, or has to go away. If she hasn't accustomed her baby to strangers she's laying up a lot of misery for the little soul.

I'd be very, very careful whom I left the baby with. Just anyone won't do. If you're engaging a maid to help you, her first qualifications would have to be, "Is she all right to leave the baby with once in a while? Is she kind? Is she intelligent? Will she lose her head in an emergency? Will she know never to frighten him?" That and more.

To go back to strangers. A baby who isn't taught to like having new people around will never learn to be really friendly as long as he lives. Shyness is a form of selfishness.

## The WOMAN'S DAY

The housing problem for wage-earning women is becoming acute. The room registry director of a certain large city women's welfare organization says that she has hundreds of calls for housekeeping rooms or small apartments by working girls which she is utterly unable to fill.

There are a few one-room with in-a-door beds, combination kitchen and dinette and bath apartments," she says, "but the price is out of reach for the average working girl."

"Some house owners, realizing that living rooms with kitchenets can rent 10 times as easily as plain bedrooms, are converting their homes into this arrangement with a community bath, on each floor. But the big money interests, the apartment builders seem to have no idea that there are thousands of unmarried working women looking for the right sort of housing."

The dean of women of a certain college who keeps much in touch with girls after they leave the campus for the working world, and who has learned that their housing problem is their big bugaboo, takes her shot, too, at the obtuseness of architect and builder who are common living room and dining room, but with a private combination living and bedroom for each girl.

"The house mother" should have her private living room, too. She would not only keep house for the girls, but would attend to their personal needs, get special dinners for them for guests, and so on. The

house mother would solve the problem of so much wasted middle-aged woman power," she says. "Women in the 40's or 50's whose own children are grown, who have had no training for the working world outside the home, but who aren't yet ready to be laid on the shelf would find this a pleasant occupation."

Three or four business girls could afford one "house mother." The apartment should be arranged so that there can be a common living room and dining room, but with a private combination living and bedroom for each girl.

## ADDISON

Sunday morning the Herald's Addison correspondent was walking along a cart path when he became aware of a swarm of yellow hornets flying so close overhead that he felt the sudden need of speed and distance. From a strategic point he located the home, about four feet from the path. It had a door-way three inches in diameter and the traffic through that doorway was heavy. Hornets passed in at the door-way in groups of twelve to twenty at a time. A near neighbor, E. J. Bell, was summoned to view the unusual sight. He remarked, after several minutes, that the hornets all went in and none came out. Stepping around to the rear the observers learned why. There was a back door with hornets coming out and only for the old-time family.

ABOUT TOWN

A child welfare conference will be held at the hospital annex at 8 o'clock tomorrow afternoon.

Mr. and Mrs. Raymond T. Schaller of Florence street and Mr. and Mrs. Louis T. Schaller of East Hartford have just returned after spending the past ten days touring through the White Mountains and Canada.

Miss Doris MacPherson of 27 Florence street, and Francis J. Keefe of 65 Park street will be married tomorrow morning at 8 o'clock at St. James's church.

Miss Frances Knapp, daughter of former Principal Knapp of the Manchester High school and Mrs. Knapp, who has been spending the summer in town, has left for the Tallahassee Women's college, Florida.

Mr. and Mrs. Jerome Cook will occupy the home of Mr. and Mrs. F. H. Jones on Woodbridge street during the months that they will spend in Greensboro, N. C., where their daughter is in college. Mr. Cook is a son of Mr. and Mrs. H. A. Cook of Phelps Road.

The junior girls' swimming class which has been conducted Tuesdays during the summer months will resume its winter schedule this week with sessions every Friday afternoon from 4 to 4:45. Mrs. Harry Russell will be in charge temporarily.

Miss Marie McKinney and Miss Gerda Swanson of Laurel street have returned from a two weeks' stay at Oak Bluffs, Mass.

Ward Cheney Camp, United Spanish War Veterans, will hold its regular meeting at the State Armory tomorrow evening at eight o'clock sharp.

Women of the Nazarene church will hold their afternoon prayer meeting tomorrow afternoon at 2 o'clock with Mrs. John Muldoon, 119 Bissell street.

The Ladies Aid society of the North Methodist church met this afternoon with Mrs. A. P. Lydall for the first fall meeting. Assisting her were Mrs. P. McLagan, Mrs. Margaret Kellner and Mrs. Nellie Marks.

Mystic Review, Woman's Benefit association will serve a supper in Odd Fellows hall Tuesday evening at 6:30, preceding the regular business session. The committee of arrangements is composed of Mrs. P. McLagan, Mrs. Nora Curtis, Mrs. Alice Hunter, Mrs. Ruth Waddell and Mrs. Julia Rawson. Mrs. Cyrus Tyler will be in charge of the entertainment. A rummage sale is planned for the 20th of the month at the Buckland building on Depot Square.

Mr. and Mrs. Carl W. Tyler and children have moved from North Elm street to Dobsonville.

Harold Maher of Manchester Green left this morning for a trip to Baltimore, Md., in his new Ford roadster. Mr. Maher will spend two weeks there in the interest of the Remington-Rand Adding Machine company, and will combine business and pleasure. He is in the employ of the Hartford branch of the company.

Mrs. Charles B. Warren and son Roy of Cooper Hill street are enjoying a week's automobile trip through the scenic portions of New York state to Niagara Falls. Miss Mary Wilcox of Greenhill street accompanied them and they are expected home on Saturday.

Mrs. Annie E. Trouton of 149 East Middle Turnpike announces the coming marriage of her daughter, Miss Elizabeth Frances Trouton and T. Walter Reichard, son of Mrs. Theodore Reichard of Bolton. The ceremony will take place at St. Mary's Episcopal church, Saturday, September 21.

The Ladies Sewing society of the Swedish Lutheran church will hold a business meeting tomorrow at 2:30 p. m.

Miss Christine McKinney of 91 Laurel street is touring the southern states with Dr. Margaret Loder of Rye, N. Y.

Work of cleaning up the Rialto theater was started this morning by James Foley but officials of the State theater maintain that Warner Brothers, recent purchasers of the Hoffman chain, will not reopen the Rialto.

SHOE REPAIRING Ladies' Flexible Soles and Rubber Heels a Specialty. SAM YULYES 701 Main St., So. Manchester

POLICE COURT

Frank Kristoff of Porter street was before the Manchester town court this morning on the charge of assault on his wife. He was given a jail sentence of 60 days, the execution of which was suspended on condition that he go to work immediately and support his wife and family. Mrs. Kristoff was present and stated that her husband had abused her very badly, all because he was drunk. When he is sober he is all right, she said. The Kristoffs have six children and she did not want her husband sent to jail for her, however, want him to be forced to stop drinking and work steadily. Judge Johnson placed Kristoff on probation for one year. He tried to impress upon him the seriousness of the case and told him if he did not stop drinking the jail sentence would be put into effect.
