The quakets was possible," he said. "Under the Pennsylvania law there is a license for two people to marry themselves in the presence of witnesses by signing their names as evidence of marriage between them to a regular printed form."

NOTHING UNUSUAL

"We did not think it at all unusual, and the resulting publicity was due to the unfamiliarity of the officials to this procedure. As marriage is a state that exists only between two people, no one else has the right or the power to marry them. There is simply a question, then, of admitting one's marriage before God, the public, or the state. To us, there was only the necessity of admitting such a thing in a legal way."

The prospect of such a pact has waned somewhat during the past week but in circles close to the French delegation it is felt that a way out to the debated question of Franco-Italian parity. There was an expressed feeling in French quarters today that the "bad press" which the French memorandum received was based on false information not only as a great colonial empire with 100,000,000 inhabitants scattered all over the world but also as a continental power divided from her neighbors by much less potent barriers than the seas that separate for instance Great Britain and the United States.

Private Conversations It is in the private conversations that will follow the return of Premier Briand to London next Tuesday the French believe the actual basis for an accord at London will be laid. They express optimism that the spirit of compromise and cooperation will iron out the different viewpoints and enable the delegations of the five powers to agree on a workable treaty serving as a basis for another accord at Geneva to determine the reduction and regulation of all armaments, land, naval and in the air.

Everything That Sells Is A Valentine Today

Old Time Lace and Heart Bedecked Love Tokens Give Way to Modern Enterprise.

Today is St. Valentine's day. Long years ago it was a synonym for sentimental love mottoes and declarations of affection, painstakingly penned in verse, along the general lines of:

"I love thee as I love the first Young violets of the spring. Or the pale lily, April nurs'd To scented blossoming."

But with every passing year since the 17th and 18th centuries, Valentine's Day has become more of an antonym of the above; like all other special holidays or observances, it has been commercialized to such an extent that its original intent is lost.

As to comic valentines with their inference to a person's character, temper and lack of it, they are distinctly passe. They can only be bought at stores that make a business of novelties.

Jewelry novelties with the aforementioned three, for favor. Take a look. Here's a nice innocent valentine, heart shaped. But instead of the usual arrow, what have we? A wrist watch or maybe a diamond ring or maybe too, a nice pin or a string of pearls.

After a glance at this window the reporter took a step forward, then stopped. Ahead of him was the showroom of an automobile equipped with a heart shaped radiator with painted arrows along the hood. It was too much. He retraced his steps. Yes, today is Valentine's Day. What valentines will resemble these, in twenty years from today, well, imagination knows no bounds . . . go to it and

the tufted and ornately carved high chairs of that period. Outstanding in the trend of Valentines is the animal card with the wordings of the verse adapted to the animal. For instance, a lamb says: "Forget you? Ba-a-ah!" What was that? No, no donkey card was seen.

In increasing numbers are shown the Valentines in the bantering style of modern youth, without being keyed to the traditional comic valentine tone by any note of unfavorable criticism. In these, the influence of the newspaper columnist is also apparent as a card which asserts, under the heading: "Wise Cracks from Mr. Hinkey: 'Don't count on me for any Leap Year stuff—I believe in letting the man do his own job.'"

DELIVERED POTATOES INSTEAD OF LIQUOR

New Britain, Feb. 14.—(AP)—An additional charge of attempted fraud was written against the name of Henry Galliard, 30, of 225 West 137th street, New York, today, when the police learned that he had tried to deliver two boxes of potatoes at the office of Landers, Frary and Clark, representing that the cases contained liquor, which he said, had been ordered by Charles F. Smith, chairman of the board of directors. Galliard, a negro, was arrested at the office of Landers, Frary and Clark, 20, also a negro of New York after the police say, they had attempted to deliver two cases of "liquor" at the office of the Skinner Chuck Co., saying they had been ordered by E. J. Skinner, who is in the south.

Another Warrant Chief Hart received a warrant from the Bridgeport police today in which Galliard is accused of defrauding the secretary of a business man named Jones out of \$331.20. He delivered "whiskey and champagne" which proved to be potatoes. Galliard's police record, received here today, shows that he has been arrested in New York, Philadelphia and Brooklyn on nine occasions. He and Character will be given a hearing here next Tuesday.

NAVAL PARLEY BRIEFS

(By Associated Press) Efforts to persuade France to reduce her building program which would call for 240,000 tons in the next six years, making a total of 724,487 tons, were under way today by Great Britain and France.

French, British and American delegates had a long talk this morning but no announcement was made as to the outcome.

The French building program, even though most of it would be to replace obsolete vessels, met an unfavorable reaction in the other delegations.

On the other hand, France contended that the program represented her minimum needs and even a sacrifice from the position she held in pre-war days.

Premier Tardieu and Foreign Minister Briand returned to Paris to attend Parliament but will return next Tuesday when important discussions are to be held.

SAILFISH ELUDE PRESIDENT'S HOOK

include more than the seven foot member of the tribe that he landed the first day of his vacation trip. Since then, each day's trip has brought him either smaller varieties of fish or none at all. His decision to start the return trip to Washington tomorrow night instead Monday quickened his desires for more fishing today.

Good Fishing Ground. He decided to try the water in the neighborhood of Sombrero light when he learned yesterday from fishermen of the Keys that sailfish were in abundance in that neighborhood. The gamesters have been found in numbers off Long Key, and have been landed in three instances by members of his party, including Mrs. Hoover. Presence of sharks in the fishing grounds near here, however, has generally precluded the landing of the fish after they were hooked.

Return Late Tonight. The President hoped to eliminate this factor by going to Sombrero light waters today.

Attaches who remained at the Long Key base said Mr. Hoover would not return until late tonight, and that the trip from the light in all probability would be made by moonlight.

SEN. DILL ATTACKS THE SUPREME COURT

(Continued from Page 1.)

Vandenberg answers. Leaping to his feet, Senator Vandenberg said he could not let this challenge against the court go unanswered. He shouted "This is the same attack upon our system of divided powers that we had in the government for 140 years."

"It is simply the effort to force the judgment of the legislative branch upon the judiciary," asserted Vandenberg. "When we undertake to determine what type of economic or political mind shall go on the Supreme Court then we undertake to make the Constitution subservient to the transient issues of the day."

"When the Constitution takes on a transient character, it ceases to have that stability it must have. When the Constitution goes and its guarantees go with it then the masses will lose more when that happens than they can lose in any intervening crisis on economic or political issues."

In his speech, Dill asserted "there is no human power that can keep the Supreme Court from becoming a political issue in the future" if the court continues to exercise control over economic questions.

"When the people find that street car fares are up and being raised," he continued, "and find that it is because of the valuation system imposed by the Supreme Court they are going to find out more about the Supreme Court. When they find that telephone and gas rates can't be reduced, they are going to ask who these men are who are saddling upon them these rates."

"It is up to Chief Justice Hughes, Justice Van Devanter, Justice Sutherland, Justice Butler, Justice Sanford, and Justice McReynolds to say whether the Supreme Court in the future is going to be in politics."

QUESTIONS AND ANSWERS
(Alcohol and Camphor)
Question—Max asks: "Will you please tell me if alcohol and powdered camphor mixed will reduce the part of the body it is rubbed on,

and what proportions should one use? I hear it is a good reducing liquid."
Answer—The use of alcohol and powdered camphor will no doubt toughen the skin and the massage which is used may assist in removing some of the fat in the parts treated but the alcohol and camphor have no real effect upon this reduction. Any of the reducing creams owe their success to the vigorous rubbing which is recommended, and not to the ingredients of the preparation.

(Always Hungry)
Question—Mrs. J. E. K. asks:—"What causes one to be hungry at all times? I eat so much I am uncomfortable, and still feel hungry."
Answer: The feeling of hunger at all times is sometimes due to physiological reasons and to the fact that one is often being starved for certain kinds of food elements, principally those found in the non-starchy vegetables and in protein foods. One who uses a large amount of starch and sugar and small amounts of the vital foods will often get fat, feel uncomfortable all the time, and have a constant hunger which is simply a sign that the body is suffering for the right kind of nourishment.

(Bedbugs)
Question—Mrs. F. W. asks: "Will you please tell me what to use to get rid of bedbugs? I have cleaned till I have nothing left to clean and they are still around."
Answer: If your efforts have been unsuccessful, I would advise you to employ some fumigating organization which makes a specialty of getting rid of bugs and vermin. There are many companies that will guarantee to do this for you.

STARTS BOMB SCARE
New York, Feb. 14.—(AP)—What was thought at first to have been a bomb placed on the tracks of the New York Central railroad in the Bronx turned out today to be merely discarded loot.

A track walker caused the bomb scare when he reported the finding of a quantity of dynamite, percussion caps and wire near the railroad third rail. Police after an investigation declared the 34 sticks of dynamite, 50 percussion caps and the 12 feet of wire had been stolen in January from a sewer excavation in the Bronx and that an explosion could not have occurred as none of the caps had been attached to the wire.

MURDER TRIAL DATE.
Salem, Mass., Feb. 13.—(AP)—Trial of Paul Smith, Earl R. Baker and George A. Leet, charged with the slaying of William Fendell, Saugus storekeeper, January 2, today was set for March 17 by Judge Wilford Gray in Superior Court.

The date was set after a conference between counsel for the defense, the district attorney and the court at which it was arranged to open a special session of the court on that date.

NAVAL TRIAL SECRET

Boston, Feb. 13.—(AP)—Secrecy was maintained by the Coast Guard today at the trial of Frank Lepore, gunner's mate first class, of the Coast Guard Cutter Mojave, on charges of bootlegging to his shipmates.

Commander Hiram R. Searles, commandant of the eastern division of the Coast Guard, said the trial was completed at the Navy Yard today, but refused to make public the result, stating it was "nobody's business."

Charges against Lepore were that after he had suffered a gunshot

wound in his home he set himself in a Charlestown speakeasy and catered to the crew of the Mojave. He and his bride maintained that he was wounded when a pistol in her hands was accidentally discharged. Lepore was first arrested by civilian authorities, but later turned over to the military for court martial.

He was held in \$10,000 for a continued hearing on a charge of robbery while armed. The robbers took \$8 from the luncheon cash drawer after threatening two girls in charge.

TODAY IS THE ANNIVERSARY

ARIZONA'S STATEHOOD

On February 14, 1912, President Taft signed the proclamation formally admitting Arizona to the Union.

Although the people of that state adopted a constitution as early as 1891, in anticipation of admission to the Union as a state, Congress refused to grant the application. Bills were finally passed by Congress, however, in 1904-05, and again in 1905-06, providing for the admission of Arizona and New

Mexico. The voters of Arizona rejected this plan.

At a constitutional convention in 1910, Arizona prepared a constitution which was regarded as probably the most radical instrument ever formulated for the administration of a state. One provision sanctioned the recall of judges.

Congress then passed a joint resolution which provided for the admission of Arizona, but President Taft vetoed it on account of the clause dealing with the recall of judges. Congress thereupon passed a second resolution providing for the admission on condition the objectionable clause were removed. This was done, and the president signed the proclamation.

HIGH SCHOOL NOTES

Yesterday's assembly, a very interesting one, was devoted to a spirited rally for the basketball game between the local high school and Meriden High school. The game will take place in the Armory and promises to be well attended as it is the game which decides whether or not the team will participate in the Yale tournament. Coach Thomas Kelley acted as master of ceremonies and delivered an interesting speech in which he declared that the blame for Manchester's defeat by Bristol should not be laid on

Coach Clarke. He asserted that the defeat was caused by the superiority of Bristol's players, solely. Coach Clarke was then accorded an overwhelming cheer to which he responded with a short speech. Captain Ernie Dowd also delivered a short address in which he brought to light the fact that the record of Manchester High's basketball team this year is excellent in comparison with the records of other high schools of the league. Mr. Proctor, substituting for Mr. Quimby, announced several awards from the commercial department. The first regular meeting of the French Club was held on Monday evening. There was an excellent

program. Ermano Garaventa and Austin Johnson presented a very humorous French dialogue, and Elizabeth McGill delivered an exceedingly charming impersonation of Maurice Chevalier singing "Louise." New officers for the club were elected, Lucille Murphy, president; Charlotte Rubinow, secretary; and Hans Benche, treasurer. Refreshments were served and there followed a couple of hours of dancing. To meet the demand for leather, many foreign countries annually export to the United States raw hides and skins valued at more than \$150,000,000.

With The Local Poets

A SONNET
Like fallen leaves in Autumn's careless whirl,
My lonesome voyage is wrought
With restless strife;
Kike nature's gloss upon the precious pearl,
Without thy warm embrace there is no life;
Like silver tempered moonbeams
Through the trees,
Thine image sweetly haunts my working hours;
Like Jasmine in a summer gentle breeze,
Thy fragrance passes on to lesser flowers;
Like angels wings, caressing from above,
Thy prayers for me pervade the still of night;
Like thought, the silent messenger of love,
My dream of thee is, o'er my solemn rite
So bid, dear heart, 'til that eternal hour
When "thine" and "mine" shall be forever ours."
Helen Weir Rickert.

SODOM RUINS.
Jerusalem.—What is thought to be the ancient ruins of Sodom have been partly excavated by representatives of the Pontifical Biblical Institute here. Ruins which are well preserved show that the city was destroyed at least twice. Objects of art tend to indicate that the city was thriving during the bronze age.

Frederick Kuhnly To Give Concert

After five years of music study in New York City, Frederick Kuhnly, son of Mr. and Mrs. Fred Kuhnly of Rau street, will appear in concert in his home town, which has been interested in his progressive work during the years he has been away.

On Sunday evening, March 2, Mr. Kuhnly, with Wilbur Herbert organist at the Dutch Reformed church in Jersey City, N. J., will come to Union Congregational, of which the former has been a member for several years, where they will give a concert, and it is expected Union church auditorium will be filled to capacity.

At the age of 18 Mr. Kuhnly was tenor soloist at the Hartford Baptist church and is now tenor soloist at Richmond Hill Union Congregational church in New York. For a time he was soloist at the Fifth Avenue Presbyterian church, and the Temple, New York City, and synagogue at Brooklyn and the Dutch Reformed church in Orange, New Jersey. He has also appeared on many concert and radio programs.

The young man studied for several years with Professor Howard of Hartford and New York and is now studying with Professor Bristol of New York City.

Culvert Causing Trouble

The culvert that runs underneath the railroad tracks and through the property of the Rockville Coal and Grain Co., is receiving constant attention and the matter is in the hands of the Public Works Committee of the Common Council.

The culvert becomes blocked up and the Rockville Grain & Coal Company has been compelled to clean it out as it does considerable damage to its property.

It appears to be a case where residents living on the hill carelessly or intentionally throw tin cans into the culvert, blocking the culvert. An inspection has been made by Mayor A. E. Waite and Superintendent of the Public Works and they find that the culvert is on private property and have advised that before anything is done that advice from the corporation council be secured.

Claim Against City

Gottlieb C. Ritter of East Main street has filed a claim against the city of Rockville and has asked that they take into consideration bills contracted, when he was injured in a fall on an icy sidewalk on East Main street on the morning of December 30.

The matter was referred to the Claims Committee.

Fish and Game Banquet

The annual banquet of the Rockville Fish & Game Club was held at the Rockville House on Wednesday night, with about 140 members and guests present. A turkey dinner up to the usual high standard was served under the capable direction of Mr. and Mrs. A. L. Chapdelaine.

President Frederick W. Stenzel, president of the club, welcomed the members and guests and then presented Lawrence M. Dillon, local sportsman and woolen manufacturer, as master of ceremonies.

Mayor Albert E. Waite brought the official greetings of the city.

Governor John N. Trumbull who returned last week from Florida where he was on a fishing trip entertained with numerous stories on his experiences while fishing and hunting, which proved most interesting.

John A. Walthers, Mayor of Nichols, presented as a man of some importance, proved to be a professional entertainer, which made the boys sit up and take notice.

Superintendent of the State Fish & Game Commission John A. Titcomb gave a most interesting talk, telling how the state streams and woods were being stocked. Tolland County gets another state leased stream, it being the Willimantic river from Stafford Springs to Willington.

The banquet came to a close about midnight. The flowers on the different tables were donated by Staudt the florist. The following committee was in charge of the banquet, Leo Flaherty, chairman; Walter Murphy, Edward Collum,

Kenneth Little and J. Andrew Trail, Valentine Party

More than two hundred and fifty were present at the Valentine social given by the children of Mary Sodality of St. Bernard's church which was held on Wednesday night in Knights of Columbus hall. The members had as their guests their mothers and other friends. The decorations of the hall were all in keeping with Valentine Day.

The grand march was led by Miss Claire Edmonds and Malcolm Coleman, with many others following.

There was a delightful entertainment program in the form of a broadcast from Station BOLONEY, with Carlos Genovesi as the announcer, the program being given by the Fallen Arch Orchestra, the cast having appeared in a recent issue of the Herald. The following song hits featured "Turn on the Heat," "He's So Unusual," "If I Had a Talking Picture of You," "I'm a Dreamer," "Lovable and Sweet" and "Sunny Side Up."

One of the features of the evening was the balloon dance which was won by Miss Wilhelmina Driscoll and Elmer Leary. Old fashioned and the modern steps featured in the dance program, with Captain of Police Stephen Tobin acting as prompter. Ernie Rock and his orchestra furnished music for the evening. Refreshments were served.

George Arnold Again President

The Rockville Building and Loan Association at its annual meeting on Wednesday night elected officers for the ensuing year. George Arnold Jr. was re-elected president. Holt; secretary, Charles M. Squires; attorney, D. J. McCarthy; directors, F. T. Maxwell, D. A. Sykes, F. J. Cooley, S. C. Cummings, F. W. Bradley, Frederick H. Holt, J. Henry McCray, J. P. Cornelia Circle Meeting

At the meeting of the Cornelia Circle held at the home of Mrs. Ellen Young and Forrest Cohen of the Rockville High school, both of whom live in Ellington, and the Misses Bernice White, Bethesda Powers and Raymond Cahoon of the County Home.

Raymond Cahoon delivered George Curtis' "Nations and Humanity" in an excellent manner.

Miss Fitch and Miss Young appeared in costumes of the Civil War period and the latter sang songs, with Miss Fitch as accompanist.

During the afternoon there were readings on Lincoln under the direction of the hostess, Mrs. Fitch.

FIGHTING IN CHINA.

Shanghai, Feb. 14.—(AP)—Fighting between troops of the Nationalist government and rebels under General Shi-Yu-San was reported today in advices from foreign sources in Honan province.

The reports said the battle, in which General Shih was leading his rebels, was taking place in northern Honan along the railway from Haichow to Tungkwang.

General Shih is said to have 30,000 men and his advance against the central government has been anticipated. Shih formerly was a commander in the Nationalist army but broke away last December when he led his division in a mutiny at Yulow.

RUM SHIP DIRECTED BY PRIVATE RADIO

Inwood, N. Y., Feb. 14.—(AP)—Nassau county police today were in possession of a wireless station which they claim was used to direct rum-running ships along the Atlantic Coast.

Raiding a bungalow on Burnside avenue here last night the county police seized a portable radio station with sending and receiving apparatus, a six-page code book, a set of maps of the Atlantic seaboard and arrested Frank Krebs, 37, as the wireless operator.

Don't Go To Extremes To End Constipation

When bad breath, or a coated tongue, biliousness or headache warn of constipation, don't take violent purgatives. There's no use when a candy Cascaret will stop the trouble in a jiffy, will clean your system pleasantly, and come promptly.

The relief you get so promptly from Cascarets is lasting. Cascarets are made from cascara, a substance which medical authorities agree actually strengthens the bowel muscles.

So Cascarets are a blessing to old folks with weakened bowels; to children; to anyone in need of establishing regular bowel habits. Test cents a box—all drug stores—Adv.

How Ford Methods Cut Cost OF DISTRIBUTION

Lower profits in selling save you at least \$50 to \$75 in addition to the many savings in manufacturing

TWENTY-SEVEN years ago the Ford Motor Company was formed to provide reliable, economical transportation for all the people. That original purpose has never changed. The constant effort in every activity is to find ways to give you greater and greater value without extra cost—frequently at lowered cost. This applies to distribution and similar important factors, as well as manufacture.

For the Ford Motor Company believes that its full duty is not only to make a good automobile at the lowest possible price, but to see that there is no waste, extravagance, or undue profit in any transaction from the time the car leaves the factory until it is delivered to your home. It is obvious that hard-won savings in production will be of little value if they are sacrificed later through excessive selling costs.

EVERY purchaser of a motor car has the right to know how much of the money he pays is for the car itself and how much is taken up by dealer charges. If these charges are too high, one of two things must happen. Either the price of the car must be raised or the quality lowered. There is no other way. The money must come from somewhere.

In the case of the Ford, the low charges for distribution, selling, financing and accessories mean a direct saving of at least \$50 to \$75 to every purchaser in addition to the still greater savings made possible by economies in manufacturing. Ford charges are not marked up or increased to cover a high trade-in allowance on a used car.

The profit margin on the Ford car has always

been fair to both the dealer and the public. Within the past three months, it has been possible to effect still further economies. Today, the discount or commission of the Ford dealer is the lowest of any automobile dealer. The difference, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

THE business of the Ford dealer is good because he makes a small profit on a large number of sales instead of a large profit on fewer sales. He knows, too, that the extra dollar-for-dollar value of the car makes it easier to sell and more certain to give satisfactory service after purchase.

Consider also that the Ford car is delivered to the purchaser equipped with a Triplex shatter-proof glass windshield, an extra steel-spoke wheel, and bright, enduring Rustless Steel for many exterior metal parts, in addition to four Houdaille double-acting, hydraulic shock absorbers and fully enclosed four-wheel brakes.

If for any reason you wish to buy certain small accessories, you will find that these, too, are sold at the usual Ford low prices. Replacement parts are also available at low prices through Ford dealers in every section of the country.

THESE are important points to remember in considering the purchase of a motor car. They show why it is possible to put so much extra quality into the new Ford and still maintain the low price. They are also the reasons why more than 35% of all cars sold today are Model A Fords.

CARTHAGE IS SITE OF NEXT CONGRESS

Catholic Pilgrims from All Over the World to Attend the Eucharistic Congress.

Vatican City—(AP)—World-wide preparations are far under way for the Eucharistic Congress at Carthage in North Africa May 7-11. Tens of thousands of pilgrims, including several thousand from the United States in specially chartered ships, will take part in an invasion almost as strong numerically as that Carthage experienced in her wars with Rome. The harbor at Tunis will be crowded with hotels which would dwarf the galleries of the Caesars.

The work of promoting the Eucharistic Congress is being done in each country by national committees, but each has its eye on Vatican City, waiting for the Pope to appoint his papal delegate, who will be the presiding churchman. The legate will undoubtedly be a Frenchman. Since Carthage is in French territory, and will be a cardinal. There are seven candidates to choose from. The latest one is the Archbishop of Paris, Cardinal Verdier, appointed only a few months ago.

Pope Interested.

Pope Pius is taking a personal interest in the congress, and is following the work of the various delegations with keen attention. He told directors of the Italian delegation he expected a large number of Italians to attend it. He expects thousands of Italian clergy to make the brief crossing from Naples to Tunis and participate in the congress.

At the same time he is preparing to celebrate the 1500th anniversary of the death of the famous St. Augustine, bishop of Hippo, who was killed in 430 by the Vandals. Hippo is now the town of Bone, 160 miles from Carthage. A pilgrimage will be organized from Carthage and Tunis to Bone to observe the anniversary.

America's Part.

Information has reached here that two ships have already been chartered by American pilgrims. The Araguaya, sailing April 23, will carry the New York delegation, and the Rochambeau will carry the Baltimore delegation. They will anchor in the port of La Goulette, near Carthage, and will serve as floating hotels.

Land-hotel space will be at a premium. Carthage itself is mostly ruins and ecclesiastical buildings erected after Pope Leo XIII restored the sea to its archiepiscopal position in 1884. Most of the delegates who have no reservations aboard ship will be housed in Tunis only a few miles away.

The congress at Carthage is in furtherance of the efforts of Vatican City to restore Carthage to the exalted position it once occupied in the history of the church. In the early days of the church, councils

FIND STILL ON RANCH, MAY SEIZE PROPERTY

Los Angeles, Feb. 14.—(AP)—An attempt by the government to confiscate through a libel action a \$100,000 Riverside county ranch upon which a large still recently was seized was regarded here today by prohibition officials as possibly foreshadowing possible adoption of a policy of confiscation against owners of land harboring illicit liquor operations.

Assistant United States Attorney Harry Balter yesterday filed the action in Federal Court against the Bruno ranch, located between Elsinore and Perris in Riverside county, charging a liquor plant was taken on the property in a raid several weeks ago. The action seeks to confiscate not only the 30-acre ranch property, but all tools, equipment, motors and accessories attached to the place.

The still was discovered during a raid January 21. Nick Bruno, alleged owner of the place, Joe Verda, George Walker and Herman Quirin were arrested at the time.

Balter said the government was investigating rumors that the alleged distillery was being financed by a Chicago bootleg gang. He said the present libel action is in the nature of a test of whether the government has the right to seize property upon which liquor plants are found.

PIRATES SEIZE SHIPS

Canton, Feb. 14.—(AP)—A gang of pirates operating in the West river delta south of here today seized a fleet of 12 vessels chartered by the Standard Oil company of New York and are holding the ships for ransom. The vessels are Chinese junks and were carrying oil worth \$50,000 gold. The American Consul here sent a protest to the Canton military.

Seizure of the oil fleet climaxed an outbreak of lawlessness which has been worrying the authorities of Kwang Tung province for some time. The Nationalist government, aroused by the extensive depredations, sent an expedition of troops and ordered five gunboats to proceed against the lawless element in the province.

Bandit activities in this area comprise only a small part of the lawlessness.

England to return Waihaiwei to China

Shanghai, Feb. 14.—(AP)—C. T. Wang, foreign minister of the Chinese central government, today announced a draft agreement with Great Britain, providing for retrocession to China of the leasehold, Waihaiwei. The agreement has been initiated and upon being approved by the British government will be signed.

Wang said that the agreement had been reached in negotiations with the British Minister Lampson and that the retrocession of Waihaiwei would be the first step toward return of all leased territory in China presently held by foreigners.

Weihaiwei, in the Chinese province of Shantung, with adjacent waters, was leased to Great Britain July 1, 1898 by a convention of the Chinese government. The territory leased comprised besides the port and bay, the island of Liu Kung, all the islands in the bay, and a belt of land ten English miles wide along the entire coast of the bay.

The area of about 285 square miles contained in 1921 154,416 inhabitants including 600 on the island of Liu Kung. The native city of Weihaiwei is a walled town with about 2000 inhabitants. The territory has been administered by a commissioner.

Solve Kidnaping Case

Wooster, Ohio, Feb. 14.—(AP)—Two men were held in the Wayne county jail today as officials hoped they had at last reached an answer to the secret of the disappearance 14 months ago of Melvin Horst, four.

The prisoners were Charles Hanna, former neighbor of the Horsts in Orrville, near here; and Earl Conald, 42, discharged Orrville railroad brakeman. Hanna it was announced by special assistant prosecutor Walter J. Mougney, signed a statement declaring that Conald choked and beat the Horst boy to death.

The latest story of Junior, ten year old son of Hanna, recalled in the jailing of the two men, Junior involved his father who finally made a statement saying he accompanied Conald to a garage where Melvin was killed according to Mougney. Conald denied any part in the affair.

Mougney and Prosecutor Marion Graven were inclined to believe the report of the child's death but were admittedly baffled by the absence of a motive or any clue as to what disposal was made of the body.

Senator Robison of Kentucky says the sugar tariff question is of interest to people in "two or three hemispheres." We haven't had any reports from the fourth one yet, however.

Power Probe

Washington, Feb. 14.—(AP)—Reorganization of the Federal power commission, substituting three appointed civilians for their present membership of three Cabinet members, and allowing it free scope in employing assistant personnel, is proposed in a bill that Senator Couzens, Republican, Michigan, has prepared for introduction.

A searching inquiry into the conduct of the commission's affairs will begin on Monday, Senator Couzens presiding as chairman of the Senate interstate commerce committee. He has called Charles A. Russell, solicitor to the commission, as the first witness. The three members probably will testify in course of the investigation.

"We are going into things thoroughly," Senator Couzens said, "for an independent inquiry."

While connected with the reorganization bill, the inquiry looks toward another proposal by Senator Couzens, to establish Federal control

FRAULEIN OBJECTS TO FEAST PHOTOS

Says Officials Are Pictured As Always Eating While the Poor Starve.

Frankfort-On-Main. — (AP) — A violent protest against the heads of the government always being photographed during the act of eating was filed by a little German fraulein of 12 in a letter to Dr. Julius Curtius, the foreign minister, reproduced in the Frankfurter Zeitung.

Eldriede Sehring, as mouthpiece for her classmates, states in her letter that while she and her companions have the greatest respect for the country's leader, they cannot see why these gentlemen should invariably have their pictures taken while eating and drink the choicest wines.

Her Letter.

"For instance," she writes, "you did not go to the Hague conference to dine well and hold after-dinner speeches, did you? What do you suppose the poor people will think who always see pictures of you eating and eating, while they often have to go to bed hungry themselves? Of course, we don't expect you to give up all the good things offered you at these luncheons and dinners, but you might at least see to it that your pictures are not always taken when you are enjoying all these goodies. And if the photographers insist on doing it anyhow, you certainly have the authority to stop them."

"Perhaps you consider this letter pretty cheeky, but it is well meant and I beg your pardon. Best regards."

Insterburg, East Prussia, Feb. 14. — (AP) — Trial of Colonel Pietskaitis, leader of Lithuanian exiles in Poland, and five associates began today on charges of carrying arms and ammunition and contravention of passport regulations. Seventeen witnesses were called.

In a recent communication Pietskaitis said he intended to emigrate to the Argentine and carried arms only for personal protection.

He and his co-defendants were arrested September 5 at Eydtkuhnen. Pietskaitis was accused last May of having been head of a gang which attempted to kill the then premier of Lithuania Augustinas Waldemaras.

FRANCE INAUGURATES AN "OLD HOME WEEK"

Paris. — (AP) — France will try to bring back a million Frenchmen and their relatives for a visit to their home country in 1931 during

the international colonial exposition to be held here.

There are 100,000 of these in the United States, most of them in New York, San Francisco and New Orleans.

Marshal Lyautey, who subjugated and developed Morocco for France, and is the commissioner-general of the exposition, has approved the plan suggested by the

Union of Frenchmen in Foreign Lands. Gabriel Wernie, secretary of the organization, has the co-operation of the government through French consulates and of the many French Chambers of Commerce and societies abroad.

It is expected to be the biggest "Old Home Week" ever arranged, the greatest peace-time pilgrimage of modern times. The govern-

ment wants its sons and daughters abroad to see what the homeland and the eighteen foreign possessions are doing, as one means of spreading French prestige.

French steamship lines and railroads have promised low rates and the whole enterprise is modelled much on the American "home-coming" excursions, although it is expected the visitors, coming from

Pilgrims are coming from all over the United States, from Moscow and Tokyo, Melbourne and Buenos Aires, and nearly every other spot where French have settled.

A Mauritius stamp, printed "Post Office" instead of "Post Paid," commanded \$20,000 at a stamp sale.

LITTLE BUMP—ARGUMENT BIG BUMP—NO ARGUMENT

Scarcely a Scratch and Owners Make Rumpus—Regular Crash and They Settle Peacefully.

Last night was a tricky one for automobile drivers. At Main and Locust street about 8 o'clock one driver started to turn just as another car was approaching from the north. Through dripping windshields each driver sighted the other in the nick of time and each executed a quick turn into Locust street, stopping with bumpers touching. "Can't you drive?" demanded one as he alighted. "Can't who drive? Can't you see?" demanded the other, also alighting. "Where's your license?" "I got a license, all right." "Where'd you get it—five and ten?" "Who ever give you one—a blind cop?" "A-a-a-h!" "A-a-g-h!" Then, glaring, each got in and drove off.

Less lucky was the car driven by Joseph P. Walsh of Hartford, going west on East Center street and one owned by Lewis Cadwell of 9 Robert road, turning out of Spruce street onto East Center. They made quite a crash of it but nobody was hurt and the drivers agreed on a mutual settlement. No arrest.

CLEVER AMATEURS IN "BE AN OPTIMIST" CAST

The personnel of the cast of the play, "Be an Optimist," to be given by the Children of Mary of St. James's church, Wednesday evening, Feb. 19, in Cheney Hall, contains several well known amateur actors who have appeared before

Hartford and Manchester audiences during the past several seasons.

William Burns, leading man of the current play is considered one of the best amateur actors in the state and has had several offers to become a professional. George Balf was leading man in the Actna show, "Aetnaize." Ben Radding was also in the Actna show and has appeared in Sock and Buskin and Town Players productions.

William Lally is well known in Hartford and surrounding cities as a comedian and dancer. Frank Daly, a Holy Cross graduate and one of the leading dramatic and Glee Club members of that college, is also in the cast. Frank McCann, a veteran of several years experience with the Town Players and Sock and Buskin clubs, is likewise included.

Madeline Woodhouse, a member of the cast of "A Bill of Divorcement" and Arlyne Moriarty, a former Fox Player and Mount Saint Joseph graduate, proficient in dramatics and musical productions of that school, will be featured in the local play. Marie Filiere, comedian, well known for her parts in Cheney Girls Athletic Association entertainments, will be seen in a humorous part.

Other members of the cast are: Mary Tierney, Teresa McConville, Leokadia Gryk and Barbara Paikaski, McKays Sharps and Flats will play between acts and for dancing to follow.

U. S. Steel, Bethlehem, American and Foreign Power and International Telephone gained about 1 point each, and Air Reduction sold up 3. A block of 10,000 shares of Warner Bros. was taken 1-4 higher.

Radio, American Can and Corn Products, however, lost about 1 point, and Texas Corp. sagged 5-8.

President Ortiz Rubio was shot during his first day as president of Mexico. But isn't that part of the initiation ceremony?

TOLLAND

Mr. and Mrs. G. P. Charter entertained Mr. and Mrs. Everett Lyon of Waterford, Mr. and Mrs. William Weigold of Rockville and Mr. and Mrs. W. W. Smith of New London, recently.

The firemen were called out early Thursday morning to fight a chimney fire at the home of Steve Kur-anal on the old Skungamaug road. While it was quite a warm fire for a time no serious damage was done. The Tolland Grange will hold its regular meeting at the church parlors Tuesday evening. The lecturer has arranged for a poultry evening.

Although Thursday evening was very stormy a goodly number attended the Grange whist at the Town hall.

Charles Hurlbut of Tolland has bought the farm known as the Durand Holman place on the Tolland side of the Willimantic river from Mrs. Christine Bentley who recently foreclosed and obtained the place from Ed DeWoife of Willington.

Mrs. Mary Jewell Baldwin and daughter Marjorie have closed their house and Mrs. Baldwin has gone to New Jersey to be with relatives and Miss Marjorie will enjoy a cruise in southern waters for a time.

The Home Economics committee of Tolland Grange met with the chairman, Mrs. Melissa Aborn of Ellington, on Wednesday evening and planned the work for the coming year.

TRIED ALL KINDS OF LAXATIVES

Kellogg's ALL-BRAN Gave Only Permanent Relief

As everybody knows, the market is flooded with cathartics, pills and patent compounds for the relief of constipation. At best, whatever results are obtained are temporary. Besides, there is the danger in certain drugs and the habit-forming menace.

Mr. P. M. Fisher, 517 Olive Street, Scranton, Pa., has something to say on this subject which will be interesting to all constipation sufferers. He says: "For many years I suffered from constipation and used, for relief, all kinds of laxatives. After a few days' treatment, I would only find my condition the same as before and at times worse."

"Some time ago I started to use Kellogg's ALL-BRAN regularly, once a day as directed. Since doing this, I have found that I do not need any other medicine to procure the desired result, and it keeps me in a very healthful condition."

Kellogg's ALL-BRAN is positively guaranteed to relieve both temporary and recurring constipation or the purchase price will be refunded.

In addition, it adds needed iron to the diet. You will like its delicious flavor. There are many delightful ways to eat it. Your grocer has Kellogg's ALL-BRAN. Served everywhere. Made by Kellogg in Battle Creek.

AUTOMOBILE AS CLUE IN DOUBLE MURDER

New York, Feb. 14.—(AP)—A stolen automobile, which carried license plates stolen from still another machine, was today linked with the double killing of a dance hall hostess and her ex-convict com-

panion on a Bronx street early yesterday. The huge sedan, stolen on February 4 from a garage in West 77th street, bore license plates taken from an automobile owned by Henry Gundlach, of the Bronx, while it was stored in a gasoline station lot Wednesday night. Detectives of the homicide squad searched the car for fingerprints and clues in an effort to trace the identity of the gunmen.

SENSE and NONSENSE

VALENTINE.

But one light I know,
But one gleam I prize,
Tis the radiant glow
Shining from your eyes.
But one flower I'd find,
But one bloom I seek,
Tis the fair-enshrined
Rose upon your cheek.
But one boon I pray,
But one wish is mine—
Sweet, for eye and eye
Be my valentine.

WHO STARTED IT? It is estimated that two million a year is expended for Valentines. It might be said that here is a case of Art for Heart's Sake.

Household Hint

A fairly good quality of "jackass brandy" can be made by using the following ingredients: One wildcat, two Gatling guns, one pint muriatic acid, four rattlesnakes, three pounds of red pepper, seven railroad spikes, one skunk, four bullfrogs, two pounds of fish scrap, and three ounces of smokeless gunpowder. Stir well and set in shade to cool.

His Worry

Hubby: Another new dress! Where am I to get the money to pay for it?
Wife: "I don't know. I'm your wife, not your financial adviser."

"Sarah," called her mistress from upstairs, "I hope you turned the gas on in the kitchen as I told you."
"Yes, ma'am," answered the new servant, "can't you smell it?"

THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KING

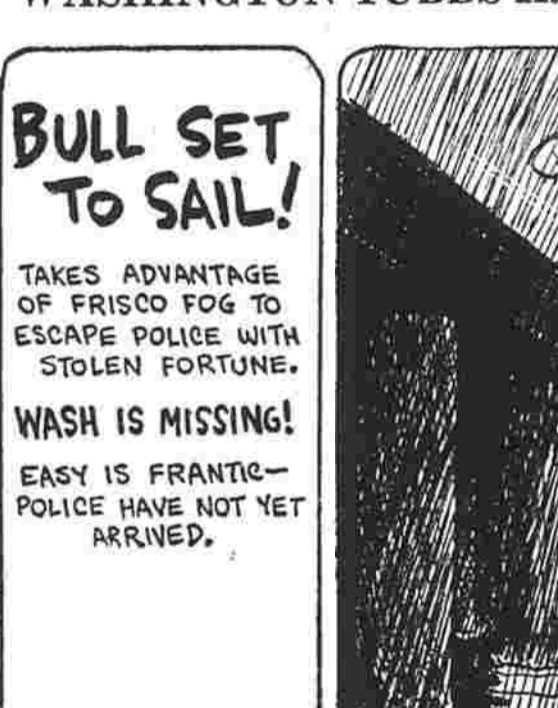

(READ THE STORY, THEN COLOR THE PICTURE)

The little folks who came in sight began to sing with all their might. The Tynmites stood and listened. Not a wee voice went amiss. It really was a pretty song and very smoothly rolled along. Perhaps you'd like to know the words. All right. They went like this:
"Real happy Valentines are we, as you will very shortly see. We come to see folks once a year and this is our big day. We make folks happy. That's our aim. If we did not, 'twould be a shame. Now, if you Tynmites like our song, just loudly shout, hurrah!"
The Tynmites promptly joined in cheers that almost seemed to crack their ears. "Hurrah! Hurrah!" they shouted. "Welcome here, you Valentines. We think your song was simply great. Please sing some more. Don't hesitate. We like the swinging tune real well and also like the lines."
So, once again the wee folks sang. Real sweetly all their

voices rang. The scarecrow, too, was very thrilled. He tried to join the song. His voice, however, was a real flat and Scouty shouted, "Don't do that! The song was fine till you joined in and now it sounds all wrong."
This made the Valentines laugh loud. The scarecrow very calmly bowed and said, "Oh, I'm so sorry. I will gladly take the blame." The Valentines then said, "Now we will move as quick as quick can be, and show you how each one of us can use a little frame."
Into the frames they promptly crawled while every little Tynmie watched them. It was quite a sight to see. When every one was in his place a smile spread on each Tynmie's face. And then they heard wee voices shout, "Now, Valentines are we!"
(The Scarecrow has some bad luck in the next story.)
