

HALE'S ANNOUNCES A BIG MEAT SALE

Health Market Makes Bid for Greater Trade Through Unusual Specials

Two brothers, Camille and Louis Andisio, have complete charge of Hale's Health Market.

Camille Andisio specializes in meats while his brother Louis is an expert buyer of fruits and vegetables.

In connection with this sale Hale's is conducting a unique contest. For the best balance menu submitted by a housewife or any other party...

Quite in keeping with this idea of well balanced menus is the thought of cleanliness in the serving of meats in a market.

DEATH TO THE KING CRY SPANISH MOB

chez Guerra yesterday that there is a movement for a republic in Spain stronger than before.

Premier Berenguer apparently has been considerably upset by the loss of the support of the former premier and today said he deeply regrets Sanchez Guerra's attitude toward the monarch.

When several riots broke out immediately after Sanchez Guerra's sensational speech which was given last night and early this morning with red banners and rock-throwing demonstrations, the government announced it would ban all future political discourses because it believed the present policy of freedom of political speech unwise under present conditions.

Ten demonstrators were being held by the police this afternoon, but the disposition of their cases was not announced.

POLITICIANS INDICTED

Houston, Tex., Feb. 28.—(AP)—Eight Hidalgo county Democrats, headed by A. Y. Baker, Democratic political leader in the lower Rio Grande valley, stood indicted today by a Federal Grand jury for violation of the National Election Laws.

The indictments, returned yesterday after four days investigation into the Hidalgo county general election of 1928, charged a conspiracy to injure persons in the exercise of civil rights.

The characters for the all-woman cast are as follows: "Miss Margaret Henley," Miss Florence Scheldt; "Mrs. Eugenia Addison," her chaperone, Mrs. David McComb; "Miss Sarah Jane Lovejoy," from the lost nation, Mrs. Henry Lovd; "Katie O'Connor," the Henley servant, Miss Lillian G. Grant; guests of Miss Henley, "Miss Betty Cameron," Miss Emma Strickland; "Miss Barbara Livingstone," Miss Evelyn Johnson; "Miss Maria Reynolds," Mrs. Sidney Harrison; "Miss Alias and "James Redding," Miss Beatrice Dart and Mrs. George H. Wilcox; "Just Lizzie," the ghost, Mary Alice Andrews.

The cast will have a rehearsal at Cheney Hall this evening. Mrs. Theodore Bidwell has charge of the sale of tickets.

WATERBURY LAWYER SHOT IN DETROIT

Detroit, Mich., Feb. 28.—(AP)—The investigation of the shooting of Alfonso E. Sirica, an attorney, Wednesday night was at a standstill today while police awaited results of an interview between Inspector Robert A. MacPherson, head of the Bureau, and James Fernando, convicted kidnapper in the Michigan branch prison at Marquette.

MacPherson left last night for the prison after inquiry indicated a connection between the attack on Sirica and the slaying of two members of the city's Italian colony within the last two weeks.

All three shootings according to the latest theory grew out of the conviction of the criminals who was sentenced to from 35 to 60 years, Sirica was one of the attorneys during the trial.

THIEVES GET LIFE

Buffalo, N. Y., Feb. 28.—(AP)—Sentences of life imprisonment in Auburn prison were meted out today by Justice Hinkley in Supreme Court to Peter Bombkiewicz, companion of Sallie Joyce Richards "blond bandit" in a series of hold-ups here, and to Stanley Przybyl, the "millionaire kid" the fifth to be sentenced for participation in the \$300,000 gem robbery at the home of John L. Carson of this city.

The 20-year-old blonde girl was given 20 years to life in prison, and Eddie Izidorczak, who was arrested with her and Dombkiewicz in Montgomery, Ala., will spend 15 years to life at Auburn.

Besides Baker, who is known as the "millionaire sheriff" of Hidalgo county, those indicted were County Judge A. W. Cameron, William D. Chadwick and Sam M. Hargrove, county commissioners; Marvin Evans, former county commissioner; C. E. Hill, county clerk; Tom J. Bucklow, election judge and Edwin S. Williams, election clerk.

CRIMINAL ACTION IN MERIDEN CASE

Talcottville Woman Says She Was So Told—Her Son Was Former Inmate.

Hartford, Feb. 28.—(AP)—Mrs. Katherine Litz, of Talcottville, whose son, Jefferson, was a former inmate of the Meriden School for Boys, asserts that a representative of the State Department of Public Welfare told her that he would not be satisfied with dismissals in the cases of four officers of the school, but would endeavor to start criminal proceedings against them.

"The brutality in some sections of the school is something terrible," Mrs. Litz declared. "The boys who come out of the school, many of them, come out sullen and resentful, furtive in their attitude because of the treatment they received. Eyesight impaired. "My boy came home on parole several years ago with his eyesight badly impaired, and the doctor told me the cause was mal-nutrition."

His son, Mrs. Litz stated, was committed to the school when he was 11 years old, bright and in the best of health. Sixteen months later, he came home on parole, wizen-faced, hardened and sullen—a juvenile delinquent.

Mrs. Litz says that one of the supervisors of the school, whose treatment of the boys inflamed them to intense hatred, was set upon and severely beaten one night, through a pre-arranged plan. Litz was one of the assailants, and he was shortly afterwards transferred to Cheshire reformatory.

protests to the world, for after all, there is no harm done," he said. Vollmer pointed out that it was the agitators' wish to be disturbed by police "for then, he will be a martyr in the eyes of the protesting unemployed."

"We are in a period of readjustment," Prof. Merriam said. "It is only natural for those out of work to protest and the use of force in suppressing these meetings only creates sympathy for them. In citing a recent outbreak of what he termed 'so called young Communist' in Washington, Merriam said: "President Hoover had the proper idea in meeting such a disturbance. He urged, or practically ordered them to be released by the police."

KEITH FURNITURE CO. BUYS BENSON STOCK

To Offer Unusual Values to Manchester People—To Begin on Monday.

An event of unusual value to householders, and to those anticipating furnishing new homes was announced last night in the purchase by the George E. Keith Furniture Company of the bankrupt stock of the Benson Furniture Co., 687 Main street. The papers were passed late last night and the entire stock purchased at bankrupt sale figures was taken over by the Keith Company to be offered to the public early next week at prices that will enable householders to stretch their dollars to unusual limits.

The stock of the Benson store is composed of new and modern furniture, beds, bedding, stoves, ranges, lamps, rugs, nursery furniture and articles usually found in stock of a modern furniture establishment. The store will be closed for inventory and price adjustment today and tomorrow and it is the plan of the Keith management to open the store Monday morning for what will be a magnificent sale of the county during the sale of this clean, new stock.

SALTZMAN APPOINTED HEAD OF RADIO BOARD

Washington, Feb. 28.—(AP)—General Charles McKinley Saltzman, radio commissioner from Iowa today was unanimously selected chairman of the Federal radio commission succeeding Judge Ira E. Robinson of West Virginia, who has been chairman since March 28, 1928. Eugene O. Sykes of Mississippi was elected vice chairman. He previously held this position. The reorganization of the commission today follows the recent confirmation of the Senate of the commissioners' nominations for new terms. The commission also named C. B. Joffile, of the radio section of the bureau of standards, as chief engineer of the commission. His appointment was in keeping with the recent act of Congress which provides for the employment of a chief engineer at a salary of \$10,000 per year and two assistants at a salary of \$7,500. The assistant engineers were not named.

STATE TO FREE 1,500 PHEASANTS

Big Flock of Males to Be Released Between March 1 and 10—More Later.

One thousand five hundred cock pheasants are to be released in Connecticut coverts between March 1 and 10, the State Board of Fisheries and Game announced today. They will be systematically added to existing flocks of wild hen pheasants and with increase by natural reproduction plus 15,000 birds which will be distributed by the State in August, an abundance of this kind of game is anticipated for the next hunting season.

To make certain that the birds will be released at the most advantageous places, studies have been made of actual conditions and maps used to chart the places disclosing the most likely cover for pheasants. Land areas devoted to private clubs and "exclusive" shooting will be avoided so that the birds will be on land open to the public. One male pheasant will be released for about every five hens, to insure good reproduction, and consideration will be given to the size of coverts and available food before the birds are planted.

Reproduction of pheasants in the wild has been successful here for a number of years. In 1927, after the birds had been considerably depleted in the preceding season, state game wardens released 8,000 birds of both sexes. Although the law allows hunters to kill only cock pheasants, reports to the Board show that more than 20,000 pheasants were killed that year. From the results of that experience, and other successful years, the Board is optimistic that the plantings this year will mean abundance in the hunting preserves next fall.

The birds to be released next month include a consignment of English pheasants purchased last December. There are 488 of these foreign birds, twelve of the original lot having died during a rough passage from England. Other pheasants for the planting were bought mainly from Connecticut breeders, a few coming from points in nearby states. There are now 175 commercial pheasant breeders in Connecticut. The number has increased rapidly since the State abandoned its game farm several years ago and contracted annually for most of the output of professional breeders.

A considerable saving has resulted in buying from commercial sources. John W. Titcomb, superintendent of Fisheries and Game reports. When the farm was in operation, he says there was a cost to the State of about \$10 for each bird raised. The average purchase price from breeders is about \$3. Including transportation and the cost of distribution, he estimates that more than \$50,000 will be spent this year in restocking pheasant coverts. Most of the birds are last year's stock, but some are two years old.

The Board is also able to announce that quail, which were almost entirely decimated here several years ago by close shooting and disease epidemics, are noticeably increasing. Eighty-seven were trapped recently near Clinton from good sized flocks and will be released to proper quail coverts in other parts of the State where these birds are less numerous.

ROCKVILLE

Firemen's Fair

The thirty-fourth annual fair of the Rockville Fire Department was held in the Town Hall, Memorial building last evening, with the hall crowded to the doors. The hall was attractively decorated with the national colors by the local decorating company. There were many booths of candy, ice cream, soda and other articles were sold. One of the features of the evening was a set of dishes given away free to the holder of the lucky number.

The entertainment program was booked through Thomas Coffey, booking agent of Hartford and it was exceptionally good. The Novel Syncopators, consisting of six young ladies, who played various instruments and sang songs, was a pleasing feature, while Edith Doyle was very good in her dance numbers. The Mystery Man was introduced and he proved to be no other than "Jack Phillips, formerly of this city. Mr. Phillips played the ukulele and sang several selections, accompanied by Mr. Atwood at the piano. He was given the hearty applause of his home town audience. Go-Get-Em Rogers, a colored singer, dancer and comedian proved a real favorite and he was forced to respond to several encores. Mr. Coffey who announced the program was very entertaining with his witty jokes and stories.

Dancing followed the entertainment program and James Rhodes of Tolland acted as promoter and Carlton Buckenister and his orchestra furnished music for the dancing. William C. Pfunder, popular announcer, was in charge of the announcements during the evening. At the Firemen's Fair tonight, Mrs. Veronica Coffey of Hartford will appear in several dance numbers. On the same bill will be Bert Howe in a hick comedian act and Pareno Brothers in a piano-accompanied program. The music for dancing will be furnished by Stein's Orchestra.

Emblem Club Card Party There was a public card party at the Elks Home on Wednesday afternoon under the auspices of the Rockville Emblem Club, with bridge and whist being played. The winners were as follows: Bridge, first, Mrs. William Reeves of Windsor; second, Mrs. Alice Sullivan of Stafford Springs; third, Mrs. Charles Keeney, Rockville; whist, first, Mrs. Louise Morin, second, Mrs. Saenger. There was a large number in attendance, with Mrs. Ralph Morin, chairman of the committee in charge.

Next Wednesday there will be a members social with Mrs. Oscar Peterson in charge. Plans for a charity card party were discussed on Wednesday and it is expected this will be held sometime in March. C. O. C. To Hold Meetings The regular meeting of the Rockville Chamber of Commerce, has announced that the next meeting will be held on Tuesday night, March 4, at which time plans will be discussed for a series of meetings at which speakers from other cities will appear. It is the opinion of the president that the Chamber should have something practical and helpful for all members in addition to acting on business matters.

American Legion Auxiliary Active The regular meeting of the American Legion Auxiliary was held in G. A. R. Hall on Wednesday night. There were the regular reports of committees and a new committee of three was appointed to work with the Drum and Bugle Corps of the Legion to see in what way the auxiliary may aid them. Mrs. May Chapman, Mrs. Anna Trinks and Mrs. Bertha Backofen were the members named. Mrs. Phyllis Thatcher of East Hampton who was to speak on "National Defense" was unable to be present, but several representatives of other patriotic organizations were present.

Mrs. Margaret Marley gave a report on the 4H Club, Rockville's Busy Cut-Ups. The club held its regular meeting and afterward enjoyed a Valentine and Washington Birthday social combined. There are now one hundred and fifty-six paid members in the Auxiliary, of the one hundred and seventy-seven required. The teams are

Season for Paris to New York Flights is Near; Coste to Attempt Flight.

Le Bourget, France.—(AP.)—The trans-Atlantic flight season westward Paris to New York is due to open in a few weeks and mechanics, airport clerks and newspapermen, who have spent countless sleepless nights in past springs awaiting take-offs that never left the sheds, are storing in reserves of slumber.

Diudonne Coste and Captain Carrelier are the most prominent French fliers who have announced their intention of trying the big hop. Arno Lotti, Paoul Lefevre and Jean Assolant, who negotiated Old Orchard, Maine, to San Sebastian, Spain, will attempt to cross the Atlantic the other way, but it is said that their hopping-off point will be Seville, Spain.

Coste and Carrelier are having a race already to determine who shall be ready to start first. Both are thought to be bending their efforts toward taking-off at the end of May or the beginning of June. Others to Go Paul Coios, the air-mail pilot who recently assisted Coste in his two record-breaking flights with heavy loads, is likely to accompany the long distance record-holder, Maurice Bellonte, as mechanic and wireless operator.

The plane, which is now nearly completed at the Breguet shops, is a replica of the "Question Mark" with which Coste flew over four continents. It will be propelled by three 600 h. p. Hispano-Suiza motors, have a lifting capacity of twelve tons and average a speed of 125 miles an hour for the first ten hours, increasing gradually as the load decreases with the consumption of fuel and oil.

Carrelier's plane, work upon which was started by the Cousinet plant builders January 2, is a thick-winged monoplane with the gasoline and oil contained in the wings. It is similar to that in which the late Maurice Drouhin, former pilot for

STUDENTS DISCUSS PROHIBITION ISSUE

Cambridge, Mass., Feb. 28.—(AP.)—A campaign declared to be "an attempt to crystallize undergraduate opinion of the country behind a particular plan of prohibition reform" was launched in today's issue of the Harvard Crimson, undergraduate daily.

The Crimson said that a letter in which it was declared that the opinion of college men in a large majority of the universities of the country must be organized on one side or other of the question has been sent to more than 150 colleges. A copy of a plan proposed by the Harvard Debating Council was enclosed.

Plan Recommended. The plan recommended that all present Federal legislation for the enforcement of the 18th Amendment be repealed, that Congress should make unlawful the operation of all saloons and alehouses, that Federal aid should be provided all states enacting legislation to enforce the 18th Amendment and that there should be a program of Federal education to foster and encourage temperance and abstinence.

Robert S. Morrison of Peterboro, N. H., president of the Crimson, and Geoffrey Parsons, Jr., of New York City, editorial chairman, endorse the plan. The authors were Gerald W. Harrington of Mattapoisett, James S. Jenison of Cambridge and the debating team coach, Edward M. Rowe.

The debating team will discuss the subject in a debating tour next month to a dozen mid-western colleges.

LEAPS TO DEATH

New York, Feb. 28.—(AP.)—A young woman who had registered at the Tatham House, a branch of the Y. W. C. A., in East 58th street, as Marie Ruhl, of Metuchen, N. J., was found dead in the street this morning, beneath the window of the sixth floor room she had occupied. Police listed her death as suicide.

Identification was established by the police flashing a searchlight across the side of the 12-story building and in this manner locating all open windows from which it could have been possible for her to jump. In the room assigned yesterday to Miss Ruhl they found her baggage unpacked. There were no notes and no motive for suicide could be found. She was about 25 years old and attractively dressed.

DIGEST PROHIBITION BALLOTS MAILED

Town to Get Its Quota of Questionnaires Within a Few Days.

New York, Feb. 28.—Twenty million voters throughout the entire United States are now being polled for their opinions on Prohibition by the Literary Digest, which has accurately predicted the outcome of the last three Presidential campaigns through "straw" votes, according to Dr. William Seaver Woods, Editor-in-Chief of the magazine. Manchester's allotment of ballots has already been mailed from the Poll's Headquarters in New York City and should be distributed by the local post-office here within a few days, according to advice received today.

The first tabulated returns of the nation-wide balloting will be published about the middle of March, it is stated. Distribution of the postcard ballots which are used in this "straw" referendum have been mailed widely throughout the United States already.

Each ballot is said to be strictly secret and requires no signature and entails no obligation on the part of the voter. The ballot has three questions, of which the voter is asked to choose the one policy he favors:

1. Do you favor the continuance and strict enforcement of the Eighteenth Amendment and Volstead Law?
2. Do you favor a modification of the Volstead Law to permit light wines and beers?
3. Do you favor a repeal of the Prohibition Amendment?

There has been consistent demand voiced from all sections of the country, magazine officials state, to have the Literary Digest conduct an impartial poll upon this much discussed most subject.

"The Literary Digest polls have been uncanny in their accuracy of prediction, I think we can modestly

say," states Dr. Woods, under whose personal supervision the Poll is being taken. "Every 'straw' referendum that we have ever made which was later substantiated by an official vote of the national electorate has been proved over 95 percent correct.

"Many will remember the startling surprise in our 1928 Presidential Poll when our balloting showed that President Hoover would carry the Democratic strongholds of Florida, Virginia, North Carolina and Texas.

"To date, ten years after the advent of Prohibition, we have reviewed thousands of columns of newspaper comment on Prohibition, pro and con, not to mention more thousands of letters we have received. Yet not since we undertook our last Prohibition Poll in 1922 have any accurate figures as to the sentiment of the voters of the country on this growing problem been available.

"The ballots are now being mailed at the rate of more than 1,250,000 every working day. Each envelope mailed containing a ballot is individually addressed and dispatched by a trained staff of over 4,000 clerks, who are assigned to this task especially. The return postage is paid on every ballot, so that all the recipient need do is to mark his ballot and mail his vote.

"Inasmuch as the 1930 Prohibition Poll ballots will arrive at the homes in your community within a day or so, we hope every one will be on the watch for the arrival of their own ballot so that this referendum, though unofficial, may receive the most widespread attention.

"The 20,000,000 names to which the 'straw' votes are being sent is the most accurate mailing list available. It includes every State, city and county, class and occupation, in this country. The list of names has been compiled from the same sources sources that proved so successful in various Literary Digest polls.

"To guard against tampering, fraud and counterfeiting, a patented process cardboard, which cannot be imitated, is used for printing the ballots. All spurious votes can be detected immediately and destroyed.

"In keeping with its time-honored policy, the Literary Digest guarantees that this referendum of the nation will be thoroughly unbiased and non-partisan in every respect."

NATION DEPENDS UPON ITS COOKS

Mrs. Katherine Delaney Says Good Food Makes Good Citizens.

"On the nation's cooks depends the nation's future, for good food means good children and good children mean good citizens," is the terse warning issued today by Mrs. Katherine Delaney, one of the country's leading home economists who is directing the cooking school here.

How great a responsibility rests on the shoulders of the overseers of the household kitchen may be realized when doctors, scientists, teachers, welfare workers and domestic science experts agree that a child's conduct can be traced to its diet, asserts Mrs. Delaney. She adds that this condition has been tested and found true.

But the child cannot be blamed, for after all it is the parent who must be taught the importance of proper diet in every home, according to this home economic expert whose years of experience as a teacher, student and practical homemaker have given her the knowledge of proper feeding from childhood to old age. Mrs. Delaney called attention to the last national convention of America's physicians and the stress these leading doctors placed upon the diet.

"It was the assertion of some of these leading doctors that the span of life, even after 70, could be lengthened by proper rations. If this is true it readily can be realized how essential it is that a child be properly fed. Buoyant childhood, the rightful heritage of every youthful citizen in the country, can only be obtained to its fullest when each day is started with a wholesome and well balanced breakfast. Observant teachers can tell by their pupils' conduct and grades what

children are getting proper breakfast and which are not."

Research has disclosed, Mrs. Delaney pointed out, that one out of every three or four children is malnourished. These youngsters are not confined to any one group or class of children. The ratio is just as high among children of the wealthy as among those reared in homes of small means. Many physical defects are attributable to improper selection of food for children and it is to help mothers understand what is necessary in the diet of children as well as other members of the family that Mrs. Delaney stresses the necessity of knowing what a balanced ration means.

"The matter of proper food is not an economic question so much as a matter of parent education," she said. "Good foods are no more expensive than poor ones, experience has shown. Nor do good meals mean that the homemaker must spend more time in her kitchen. They mean only that the housewife should learn to cook by today's methods with today's goods."

In accordance with Mrs. Delaney's program outlined for the Cooking and Homemaking School, no member of the family is slighted. The school covers every phase of cooking from party planning to balanced oven dinners for the family.

The latest labor-saving devices are demonstrated and the newest methods of cookery are revealed. Under Mrs. Delaney's direction a cooking school resembles an intimate home party more than a class of instruction, so entertaining does she make the demonstrations. And the menus and dishes which are especially good for the children of the family usually are adapted for the good health of every member.

O. K. BRIDGE BILL
Washington, Feb. 28.—(AP)—The Brigham bill to extend the time limit for starting and completing construction of a bridge across Lake Champlain at Rouses Point, N. HONOR U. S. VOLUNTEERS
Paris, Feb. 28.—(AP)—The first American citizen who died fighting for France was remembered in a little ceremony today at the monument to American volunteers in the Place des Etatsunis, not far from the American Embassy.

A wreath was placed there by the Association of American Volunteer combatants in memory of Edward Mandell Stone who died 15 years ago and was awarded by France the Military Medal and the Croix de Guerre. He served in the Foreign Legion and was wounded February 17, 1915, in the trenches near Craonelle in the Aisne Department. Ten days later he died, aged 27.

Stone was living in Paris when war broke out. He volunteered immediately. He was the son of Henry Baldwin Stone, vice-president of the Burlington road.

JAPAN AND U. S. DISCUSSING SUBS

Senator Reed Visits Japanese Ambassador to Talk Over Situation.

London, Feb. 28.—(AP)—American and Japanese naval proposals with their attendant points of difference were again discussed between representatives of the two delegations, at resumption of the naval conference today.

Senator David A. Reed, who is the expert on Japanese matters for the American delegation, visited Ambassador Matsudaira and they spent some time over various problems. Later Senator Reed, Secretary Stimson and J. Theodore Marriner, chief of the Western European division of the State Department and diplomatic adviser, called on Prime Minister MacDonald at the House of Commons and conferred with him on the Japanese question.

Details Kept Secret. Details of the Reed-Matsudaira conversation were not disclosed but would be difficult for any discussion to go very far without encountering the Japanese demand for a 70 per cent cruiser ratio as against the American insistence on a 60 per cent ratio for Japan. This is the biggest issue between the two countries and is the one upon which thus far both sides have appeared adamant although there have been persistent rumors of a possible compromise.

Start Early. The American delegation went into action early this morning on the first day of resumption of the conference after the enforced week's recess caused by the French political crisis. Under Secretary Stimson's chairmanship, the delegation held a meeting at headquarters and among other things devoted further consideration to the proposed agreement for the humanization of submarine warfare.

Meantime there were signs of activity in other conference circles. The experts' committee was meeting again this afternoon at St. James's palace to continue consideration of technical problems.

The British spokesman again took occasion to throw down talk about a three-power pact. This was due to the publication of an article in a London newspaper to the effect that the conference was headed in that direction. The spokesman also announced that the French would be told of everything discussed by the other four delegations pending return of the French representatives.

Secretary Stimson is dining with the Archbishop of Canterbury at Lambeth palace tonight.

TODAY IS THE ANNIVERSARY

MARY LYON'S BIRTH

On Feb. 28, 1797, Mary Lyon, founder of Mount Holyoke College, and a leader in the movement for higher education of women, was born on a farm in Franklin County, Massachusetts.

While receiving her education at three different schools near her home, Miss Lyon observed that the courses of instruction were too intellectual and strenuous for "young ladies." Resolved to start an institution which would meet the needs of young women of moderate means, she secured the aid of Edward Hitchcock, the geologist, and Miss Zilpah P. Grant, a teacher.

Finally, in 1836, she incorporated a female seminary at South Hadley, Massachusetts, and served as its principal for 12 years at an annual salary of \$200. Her work at that institution, now known as Mount Holyoke College, was an important step in the higher education of women.

CHARGED OWN FIRMS FOR ENGINEERS WORK

Washington, Feb. 28.—(AP)—The Federal Trade Commission was told today that the American Gas and Electric Company in 1928 charged engineering supervision fees not only to its subsidiaries but to an engineering firm employed to draw plans for a new power plant.

John H. Jekely, utilities expert for the commission, testified today in the commission's hearing on utilities financing, that the engineering firm of Stevens and Woods, Inc., paid to the American Gas Company, \$123,337 for supervision on its work for the deep-water power plant opposite Wilmington, Del., which is owned jointly by the Atlantic City Electric Company, subsidiary of American Gas and a United Gas Improvement Company subsidiary.

Bickley said that in 13 years American Gas made a net profit of more than \$12,500,000 for supervising on a total of \$216,000,000 worth of construction by companies it owned outright.

Although he said he did not know how Stevens and Wood handled the charges made by American Gas, he said there was no doubt that this figure "became part of the cost of constructing the station."

He said this was true of all engineering charges paid by subsidiary companies and that the rates charged to customers of the power companies consequently would be affected.

SOVIETS SAY JEWS ARE HELPING POPE

Moscow, Feb. 28.—(Jewish Telegraphic Agency).—Soviet official circles are professing greatest indignation against American Jews who have "joined the Pope's crusade against Soviet Russia."

The Soviet leaders, it is said, feel that American Jews more than those of any other countries, know what the Communist regime has done for the Russian Jewry.

Izvestia, which has an official character, commented that the leader of the Roman Catholic and other Christian churches understand that the rabbinites are connected with the real world power, that is, the international banking dynasties.

The paper added it was glad "to establish that the so-called church persecutions in Soviet Russia have brought one remarkable result, namely, that after two thousand years they gave an opportunity of including the Jews too in the camp of Christianity."

POWER CO. LIBERAL IN THEIR SALARIES

Paid Publicity Man \$600 a Month and Expenses Paid; Got \$43,000.

Washington, Feb. 28.—(AP)—O. M. Kile, Washington publicity man, testified today before the Senate lobby committee that he had been employed to direct Muscle Shoals publicity for the American Cyanamid Company at \$600 a month from 1926 to March, 1929.

The Cyanamid company has proposed to lease the power and nitrate plant at Muscle Shoals and a bill is now before Congress which would accept the offer.

Kile testified that in addition to his regular salary he was allowed an expense account which included \$400 or \$500 a month for an assistant.

He said he was told to send bills to the advertising representative of the Union Carbide Company but added he did not know the relationship between it and the Cyanamid company.

Got \$43,000. Questioned about the total amount of money he received from both companies, he estimated it at \$43,292 of which he said about \$18,000 represented his salary.

Kile said he visited Senator Norris, Republican, Nebraska, several times. Norris has been a consistent opponent of private ownership of Muscle Shoals. The witness said under questioning that he did not tell Norris whom he represented.

Kile testified he had aided Senators Capper, Republican, Kansas, Thomas, Democrat, Oklahoma, and others in preparing speeches. He added he had given similar assistance to Representatives Jones, Democrat, Texas, Ketchum, Republican, Michigan and Dickinson, Republican, Iowa.

BUYS EXCHANGE SEAT

Chicago, Feb. 28.—(AP)—Membership on the Chicago Stock Exchange has been sold to E. H. Hamlin and Company of Boston, it was announced today. The price was not made public. The seat was the second sold to a Boston firm this year, the first having been acquired by F. S. Moseley and Company last month.

BOY SCOUT NEWS

Troop 3 of the Center Congregational church held its regular meeting on Wednesday evening at the Franklin school. About 20 Scouts were present.

The meeting opened with the flag exercises and the Scout Oath. Games were played and drilling was practiced for about a half an hour. Patrol meetings were held and dues and attendance were taken. For the rest of the evening instructions in signaling was given by Charley Lynn, and several tests were passed. Scoutmaster McComb gave to the First Class Scouts, instruction for the First Aid Merit Badge. The meeting ended with the Scout Oath about 9:15 o'clock.

Troop 3 will hold its meeting on Friday instead of Wednesday at the Franklin school. Scouts don't forget.

There is no school this week and different patrols have had hikes. On Monday a number of Scouts went for bicycle rides. On Tuesday the Stag Patrol held a hike and on Wednesday the Lions went on a hike to Hillstown to pick a site for a patrol camp.

The new Tenderfoot Scouts are advancing steadily and three second class Scouts are nearly first class.

There will be a troop hike to the cabin site in Hillstown on Saturday. Bring enough food for two meals and be at the Center at 9 o'clock sharp.

Scouts don't forget the Court of Honor at the Rec on Friday at 7:30 p. m.

Don't Go To Extremes To End Constipation

When bad breath, or a coated tongue, biliousness or headaches warn of constipation, don't take violent purgatives. There's no use when a candy Cascaret will stop the trouble in a jiffy; will cleanse your system pleasantly, and completely.

The relief you get so promptly from Cascarets is lasting. Cascarets are made from cascara, a substance which medical authorities agree actually strengthens the bowel muscles. So Cascarets are a blessing to old folks with weakened bowels; to children; to anyone in need of establishing regular bowel habits. Ten cents a box—all drug stores.—Adv.

Might As Well Have Bet That Money, Says Sparky

His intimates and all bowlers know him as "Sparky." Usually he is occupied with problems of the alley—how to get just the twist on the ball that makes the pins fly most inclusively. Just now, however, a quite different problem is annoying him.

Sparky knew he had a savings bank balance but didn't know how much it was. He sought his bank book but couldn't find it. At the bank they told him that he was a capitalist to the extent of \$22.33. Also that he must present the book in order to draw out the wealth.

CHICAGO TO PAY OFF

Chicago, Feb. 28—(AP)—Thousands who have worked for weeks without pay—policemen combatting crime, firemen fighting smoke and blazes in icy winter, nurses protecting public health—watched the first of the rescue millions trickle into the city, county and school board coffers today and formed into line for the payoff parade.

With the initial quota of \$50,000,000 pledged yesterday, every effort was put forward to transfer the cash so the first of the checks could be issued tomorrow. More of the employees will be paid Monday and on Tuesday, payoff of municipal debts will begin.

Phillip R. Clarke, head of the collectors turned \$54,857,000 in pledges over to the depository late yesterday. Following this, a call was issued for contributors to remit 30 per cent of their pledge.

Checks will then be issued as soon as the cash is in the depository to meet them.

Clarke said the drive would not halt until pledges total \$74,000,000, the amount necessary to operate the governments through the tax crisis.

LIME ROCK JOB WILL COMPLETE RIVER HIGHWAY

Spans 1231 Gap on Housatonic Road from Long Island Sound to the Berkshires.

With the awarding of contracts for the construction of the Lime Rock bridge over the Housatonic River and the superstructure for the approach roads, the work was completed on the last step in closing the gap between the Housatonic River and the Berkshires. The new bridge will affect a very marked improvement over existing conditions of travel. The present highway bridge is narrow, approached by sharp curves on the east and its use necessitates traveling a section of unimproved country road lying between the bridge and the end of the present improved state highway east of the river where a grade crossing with particularly bad sight lines adds to the difficulties of easy passage.

The work now in process of construction involves the building of a new bridge over the Housatonic River, a new bridge over the railroad tracks and about one-half mile of approach roads, all over entirely new locations. Starting at the junction of the Housatonic River with the road running from Lime Rock to the Hotchkiss School at Lakeville which is now under construction, the new project runs to the north of the present bridge and extends straight across the river, over the railroad, and, by an easy curve joins the present improved road leading to Canaan and the Berkshires.

The bridge over the river will consist of a three span deck steel truss on concrete piers and abutments. The three spans are respectively 72 feet, 96 feet, and 48 feet, the total length of the bridge is 222 feet, 6 inches.

Due to the fact that the roadway on this part of the work is on a 6 percent grade, the design of this bridge is rather unique, in that the

top chord of the trusses has been inclined to parallel the grade while the bottom chord is kept horizontal. This results in a span which is materially deeper at one end than the other, but the reason for this lack of symmetry will be quite apparent even to the casual eye when the work is completed.

The bridge over the railroad consists of three plate girder spans of the usual type. These spans are respectively 47 feet, 6 inches, 45 feet, 4 inches, and 47 feet, 6 inches, or a total length for two tracks as now planned, with an ultimate capacity of four tracks should they ultimately be required.

ELABORATE FUNERAL

Vienna, Feb. 28—(AP)—Frau Anna Sacher, who in her lifetime was proprietor of a widely known Vienna hotel, was buried today. For elaborateness and solemnity her funeral was comparable only to that of Konrad Hoetzendo, Austria's popular field marshal during the Great War. Numerous members of former royalty, scions of the most ancient nobility, thousands of members of society and prominent actors attended the last rites.

GAS BUGGIES—A Letter—

By FRANK BECK

ERRORGRAMS

DADACENTI Stands to run.

There are at least four mistakes in the above picture. They may pertain to grammar, history, etiquette, drawing or whatnot. See if you can find them. Then look at the scrambled word below—and unscramble it, by switching the letters around. Grade yourself 20 for each of the mistakes you find, and 20 for the word if you unscramble it.

- CORRECTIONS (1) Nine pounds weight would pull down the connection at the bottom of the dial. The picture shows it flush against the dial. (2) Vegetables, on the store sign, is spelled incorrectly. (3) Celery, at 12 cents a bunch, would be two bunches for 24 cents, instead of 25 cents. (4) Navel, on the orange box, is spelled incorrectly. (5) The scrambled word is Candidate.

SENSE and NONSENSE

Judge—What's the charge against this man, officer? Cop—Arson, your honor; burning up the road.

Traffic Clerk (examining applicant for auto license)—What is a one-way street? Applicant—It is a street on which a motorist is bumped from the rear only.

Wife (excitedly)—Oh, John, the car is running away! Hubby (worried)—Can't you stop it?

Wife—No. Hubby—Well, then, see if you can't hit something cheap.
