

SEE HIDDEN AIM IN BATTLE OVER CONSOLIDATION

Advocates Say Opponents Are Laying Smoke Screen To Cover Control of Of- fices; 2 Hours' Discussion.

Opposition to school districts consolidation here was characterized last night in the open meeting for discussion of the subject as being a "smoke screen" to attempt to give a small group of voters elective offices without contest. Arguments on the propriety of schools consolidation were made subsidiary to discussion of the theory of minority representation as the session continued. Even when the opposition was told that the General Statutes of Connecticut made minority representation obligatory in school committees one group refused to accept this, insisting that the government in Manchester was so tyrannical that it would not obey the mandates of any Legislature.

Little Gained

Two hours of discussion pro and con continued and when it was all over little had been gained unless it was the knowledge that the same group of anti's would be out in force, when a vote is taken, to defeat the cause of consolidation. The 115 voters who attended heard figures read which gave indisputable proof that consolidation would be economical. They heard arguments that tended to show that the theory of district schools was all wrong. And in addition to all that they heard the town's present form of government condemned as absurd and praised as efficient in every department.

Much Information

The Selectmen's figures on schools consolidation were presented by George E. Keith. Selectman Keith had amassed a great deal of information on nearly every phase of the question imaginable. But most of it was unnecessary since but a few questions were asked on the financial side of the topic. If the proposed bill had definitely stated the educational board would be represented members of the minority there would have been no arguments.

Can Be Spread

Mr. Keith's figures on consolidation have been previously printed in The Herald and are not new to the voters. They show that consolidation

FEDERAL MEN PROBE MAIL ORDER BOOZE

New York Ring Shipped Its Wares C. O. D. To All Parts of Nation.

New York, Jan. 15.—(AP)—A mail order liquor ring that shipped its wares C. O. D. to all parts of the nation and an international narcotics syndicate that used the trans-Atlantic telephones to direct its smuggling were under investigation by Federal officials today. Federal agents arrested two men and a woman in a Times Square office building and seized records which they said showed the ring netted millions annually by supplying customers throughout the country, particularly in Texas, Washington and Maine and Illinois.

Had Many Customers

Under successive names of the E. and O. Novelty Company, Henry Miller Company and Southern Agency, the agents said, the principals have solicited trade for three years from a mailing list of more than a thousand customers. Daniel M. Lefkowitz, Benjamin Williams and Pauline Paris, alias Weiss, were held on charges of maintaining a nuisance.

First Lady and Senators' Wives Plan Red Cross Aid

The First Lady of the Land was the guest of honor, wives of United States Senators were the hostesses, and the formulation of plans to aid relief projects of the American Red Cross was the purpose of the luncheon pictured above in Washington. Here you see Mrs. Hiram Bingham, wife of the Senator from Connecticut, serving Mrs. Hoover. At the left is Mrs. David Reed of Pennsylvania. At the far right is Mrs. Charles Deneen of Illinois, and beside her, in a Red Cross uniform, Mrs. George Moses of New Hampshire. President Hoover has issued an appeal for the contribution of \$10,000,000 to the Red Cross for use in drought-stricken areas of the country.

HOW LONG IS A DAY? HERE IS THE ANSWER

It Runs From Our 24 Hours On Earth To a Mere 250,- 000,000 Years—Einstein Attends Lecture.

Pasadena, Cal., Jan. 15.—(AP)—When one studies a subject for nearly forty years his classes become quite advanced.

So finds Dr. Albert Einstein, who is attending the California Institute of Technology and seminars of the most advanced astronomical class at Mount Wilson Laboratory.

The question of how long is a day becomes quite a complex one when the principle of relativity is applied to it. For instance, Dr. Einstein watches the most accurate clock in the world, the mercury atom chronometer of Dr. Roy P. Kennedy here. It ticks off intervals of a million-billion-billionths of a second. That is the lifetime of a mercury atom, which is described as a complete little solar system of its own.

Einstein as Student

Then Dr. Gunstaf Stromberg of Mt. Wilson gives a class lecture with Einstein as one of the prominent students. He tells of the galactic day just a mere 250,000,000 years as we figure time on earth. This is another solar system, the galaxy.

Hence time is not constant, but merely a relative, it depends upon where you are going and how fast—velocity.

The solar system pales into atom-like insignificance when compared with the galaxy. The galaxy is the observable universe, consisting of a great nebulae system in which our solar system is a small part. Another name for it is the Milky Way.

FIVE CHILDREN LOST IN TRAVEL

Got On Train In Quebec Last Friday But Never Reached Syracuse, N. Y.

Syracuse, N. Y., Jan. 15.—(AP)—Search for five Syracuse children, missing since they left their grandmother in Nominique, Quebec, last Friday centered in Montreal today. The children, two girls and three boys, ranging in age from 3 years to 15, failed to reach the home of their father, Ozzias Delaney, here.

Unofficial information the father said he had received, led him to believe the children may have been held in Montreal by a constable. However, in response to a query from the Travelers' Aid Society yesterday, the commission of immigration and colonization at Ottawa, which has records of most such cases, wired back that no report has been filed regarding the children.

SENATOR IS FED IN BREAD LINE

Dressed in Usual Clothes No One Challenged His Right to Get Something to Eat.

Washington, Jan. 15.—(AP)—Aas far as Senator Thomas of Oklahoma is concerned, New York City is handling its unemployment just right.

He has checked up on the matter too, for during the Christmas holidays he stood in a soup line in Gotham and received his share of food.

"No one challenged my right to be there," he told the Senate. "I was handed two or three slices of old white bread and passed on to another place where I was given some thick yellow soup."

Coldest Place In U. S. Today; Almost the Entire Nation Reports Cold S. 11

(By Associated Press.)

Tupper Lake, N. Y., in the Adirondacks, was the coldest town on record in the United States today, but during the night reading of 21 below zero was merely the nadir of a fairly countrywide thermometric depression.

From St. Louis to Boston the sun came up to greet a frigid day, and it was below zero in many places, even in New Orleans, where the temperature was 30 degrees; Jacksonville, Fla., with 28 and Norfolk, Va., with 24.

EUROPEAN UNION TO BE SURVEYED

Diplomats To Discuss Bri- and's Scheme At Geneva Tomorrow; German Plea.

Geneva, Jan. 15.—(AP)—Aristide Briand's framework for a union of European nations will go under the microscope of diplomacy here tomorrow when the European commission for study of his plan begins its first session, with the French foreign minister presiding.

The Briand scheme is being examined within the structure of the League of Nations and the examining commission will be staffed by members of the League secretariat.

DISCOVER SODIUM BROMIDE To be a New Mental Food

Hamilton, N. Y., Jan. 15.—(AP)—Sodium bromide, which looks and tastes like table salt, is the newest mental food.

This is a surprise in the scientific world because sodium bromide long has been known for its mildly depressing or sedative effects. It generally was given in small amounts, three to five grains.

GENERAL ASSEMBLY ARRANGES RELIEF FOR THE UNEMPLOYED

Stock Crash Smashes Ex-Premier's Fortune

Birmingham, Eng., Jan. 15.—(AP)—Former Prime Minister Stanley Baldwin revealed here last night that a large part of his personal fortune had been dissipated because he had kept it in the British iron trade.

Shares which were worth £8 (about \$14.60) when he became premier in 1923, he said, were worth 20 pence (40 cents) now.

"It may have been bad business on my part," Mr. Baldwin said, "but when you have an old name in a business against which nothing ever has been said, and when you

One Bill Gives \$10,000 To Commission To Aid Jobless and Another Appropriates \$100,000 For Work In State Parks and Forests To Create Work For Idle In State—Judgeship Resolutions Introduced and Com- mittees Appointed In Both the House and Senate; Rural Roads Bill Goes Into House, As Well As Pro- posed Amendment To Strengthen Governor's Veto.

State Capitol, Hartford, Jan. 15.—(AP)—Unemployment in Connecticut which is the subject most in the mind of Governor Wilbur L. Cross, came to the attention of the General Assembly today when two measures were put in and adopted by both branches looking to relief.

One was a bill to give the unemployment commission, which has reported to Governor Cross \$10,000 to aid relief measures, with the limit of expenditure set at July 1, and none of the money to be used for personal expenses of the commission.

BELIEVE VOLCANO IS IN ERUPTION

Mt. Popocatepetl in Mexico Reported To Be Smoking By Villagers Near By.

Mexico City, Jan. 15.—(AP)—Reports that Mt. Popocatepetl was in eruption could not be verified here this morning although word from Amecameca, a town nesting just below the crater of that volcano, said the mountain was smoking when the peak was visible through a rift in the clouds for a few moments this morning.

NATION'S SWEET TOOTH IS GROWING SWEETER

Washington, Jan. 15.—(AP)—The national sweet tooth is growing tigger, or maybe one should say sweeter.

At any rate those who stuff themselves with candy bars, bonbons and what not, ate 12.98 pounds for each man, woman and child in the country. That was 96 hundredths of a pound more apiece than was eaten for each man, woman and child the year before.

RED CROSS RAISES OVER HALF MILLION

Quick Response On First Day To President's Ap- peal To Aid Victims.

Washington, Jan. 15.—(AP)—A Red Cross summary today showed 405,000 persons being cared for by drought relief to 383 counties in 21 states.

The total amount of cash grants up to noon yesterday was \$615,781. Total expenditures for all types of relief, food, clothing, medical supplies and feed for stock, was \$1,252,837.

RUSSIA DEMANDS NEW PARLEY SITE

Reds Say They Are Not Given a Square Deal In Switzerland On Arms Cut.

Moscow, Jan. 15.—(AP)—The Soviet Union has initiated a move to gain conditions in the forthcoming international disarmament conference more favorable to the union than was the case during the preparatory disarmament commission sessions just concluded at Geneva.

Identical oral statements have been made by the Russian diplomatic representatives to the foreign ministers of Great Britain, Germany, Italy, Norway, Persia, Poland, France and Japan asking that the conference be held in a city of some country which maintains relations with the U. S. R. F., this request excluding Switzerland, which has no such relations.

JUDGE IN HOSPITAL

Bridgeport, Jan. 15.—(AP)—Judge E. Earle Garlick, who underwent an operation yesterday shortly after dismissing court because of his illness, was today reported as recovering at Bridgeport hospital.

UNFAVORABLE CONDITIONS

It is felt in informed quarters here that the situation in Europe now is unfavorable to any project for intimate co-operation among the states, despite the urgent need for joint action in commercial and industrial fields.

Russia and Turkey are not members of this commission, although Germany has asserted that their participation is essential to success. Dr. Julius Curtius, the German foreign minister, is expected to ask both the Soviet and the Turkish governments be invited to join the study of the Briand proposal.

TREASURY BALANCE

Washington, Jan. 15.—(AP)—Treasury receipts for Jan. 13 were \$3,256,907.64; expenditures \$17,943,266.81; balance \$204,928,427.08.

**TRADERS OPPOSE
FUTURES MARKET
'DICTATOR' PLAN**

Washington.—(AP)—The secretary of agriculture would have the powers of an absolute monarch in the futures market under the Capper and Dickinson bills to regulate grain exchanges.

In the first place, no person in the United States could handle or execute orders for future delivery unless the secretary gave him that authority.

The bills require that all commission merchants, brokers and correspondents be licensed or not allowed to trade. Any license could be revoked for cause.

All Subject To Approval
Once licensed to trade, the individual would find every move he made subject to the secretary's approval.

In effect, the whole fabric of futures trading would be subjected to the personality, intelligence and private convictions of one man.

Traders have voiced objections to such control of their fortunes by a public official.

Peter B. Carey, a vice president of the Chicago Board of Trade, says additional Federal restrictions might result in the exchange closing.

Under the present system exchanges make their own rules.

Stabilization Criticized
Carey charges that because of the government's wheat stabilization policy the volume of futures trading has been greatly reduced.

In defense of stabilization, Chairman Legge of the farm board says that March and May wheat retain their value while July wheat and corn futures, both open to speculation, have suffered deflation.

Legge says he doesn't believe the exchanges are going to close if new restrictions are added, but that elimination of short selling probably will become necessary because of the "impossibility of regulating such sales satisfactorily to prevent market manipulation."

TEL. AND TEL. REPORT

New York, Jan. 15.—(AP)—The American Telephone & Telegraph Co. earned approximately \$10.40 a share in 1930, said Walter S. Tiford, president, in a statement today accompanying dividend checks to stockholders.

"While final figures in respect of the financial results of the company for 1930 are not yet available," the statement says, "preliminary summaries indicate earnings of approximately \$10.40 per share for the year."

"A net gain of 125,000 telephones added to the Bell system during the year was made in normal growth, but not unfavorable when compared with the level of general industrial activity."

"Construction expenditures for 1930 approximated \$900,000,000. The operating companies of the Bell system generally carried out their programs as planned at the beginning of the year, thus assisting in the stabilization of employment and at the same time constructing facilities available for prompt use as general business conditions improve."

BACK DRY DECISION

Washington, Jan. 15.—(AP)—Two New York lawyers have prepared a brief for presentation to the Supreme Court upholding the decision of Federal Judge Clark, of New Jersey, that the prohibition amendment is invalid because improperly ratified.

They are Henry W. Jessup and Austin G. Fox. They plan to seek the court's permission to file the brief when it hears argument on the government's appeal from the Clark decision next Wednesday.

They contend the Constitution and its framers contemplated two kinds of amendments, and supported Judge Clark's view that an amendment affecting individual rights must be passed upon by state conventions rather than by state legislatures.

NEED MORE BEDS

Hartford, Jan. 15.—(AP)—Congressman John Q. Tilson of Connecticut will seek funds from Congress to increase the capacity of the new veterans' hospital at Newington by 250 beds. It was reported today by officers of the American Legion.

Tilson's action is the outgrowth of a request of Major A. McCook of Hartford, chairman of the rehabilitation committee of the Connecticut Department of the Legion. Major McCook said it was probable the new hospital if its size is not increased in the near future will become overcrowded in a short time.

GETS SUSPENDED SENTENCE
Litchfield, Jan. 15.—(AP)—Emil J. Stewart of Lakeville today was under a one year suspended jail sentence as a result of his conviction on a charge of extortion.

Police charge that last July, Stewart threatened to report Karl Wothman as a violator of the prohibition law unless the latter paid him \$400. Judge Arthur F. Ellis found Stewart guilty in Superior court of the charge yesterday and in addition to imposing the suspended jail sentence fined him \$500.

COLD WAVE IN SPAIN

Madrid, Jan. 15.—(AP)—Spain's unusual cold wave continued unabated today and below zero temperatures were recorded in Andalusia. At San Ildefonso la Granja, the thermometer registered nine degrees below zero Fahrenheit. There is considerable suffering in the south where many people are without heavy clothing and heating apparatus in their homes.

**FILES MILLIONS SUIT
AGAINST CAMPBELL & CO.**

Camden, N. J., Jan. 15.—(AP)—The Campbell Soup Company and its officials, Dr. George M. Dorrance, chairman of the board, and Arthur C. Dorrance, president, have been named defendants in four damage suits aggregating \$8,000,000, filed by A. Ransaville Frome, former superintendent of the Campbell plant.

The suits charge slander, libel, alienation of affections of Frome's wife by means of the alleged slander and libel, and false imprisonment.

Frome alleges that the Dorrances accused him of drinking and using narcotics, and that by ruses they had him placed in a hospital for mental observation and then into an institution for the insane, and that by so doing they caused his wife to lose her affection for him.

Three of the suits were filed in the United States District Court at Trenton and the other in the New Jersey Supreme Court here. Two of those filed in Trenton charge Dr. Dorrance with slander, libel and alienation of the affections of Mrs. Frome.

Frome alleges the incidents on which the charges are based occurred between August 29, 1928, and January 21, 1929. The bills set forth that the statements alleged to have been made by the defendants caused Frome to lose his position with the soup company, where he said he was earning about \$40,000 a year as general superintendent, and also to lose the affections of his wife.

**SEA IS EATING AWAY
LAND ON THE RIVIERA**

San Remo, Italy.—(AP)—The Mediterranean is gradually encroaching on the western Genoese Riviera, particularly at San Remo. The advance of the water already has eaten out a good slice of earth, creeping up upon factories and over rich farm lands.

In 15 years, this advancement has netted the Mediterranean a gain of 1,500 feet. Since last year the shore between Albenga and Savona reveals a 32-foot loss given up to the sea.

Authorities along the Italian Riviera are considering a system of tree planting which may be effective in limiting the sea erosion.

It is believed here that the opening of the Suez canal disturbed the equilibrium of the Mediterranean and created new currents. However, it would not seem that the Suez canal would be of as much importance in the Mediterranean as a drain pipe in Lake Erie.

Theorists claim that in primordial times the sea covered the Riviera valleys and left signs of its presence on the mountains tops, that the waters fell back as the rivers formed by rain and snows of the summits gradually built up the plains with their alluvial deposits. Old prints of Albenga reveal an entirely different lay of the land from what today's maps show.

FIND MARBLE ANGELS

London.—(AP)—Westminster Abbey was having its face washed—and lo! there came angels! Quite substantial angels they were, in marble, fine examples of 13th Century work, exquisitely enameled in color, even to rosy cheeks.

The statues were in each corner of the window of the south transept and had for centuries been hidden beneath nearly an inch of grime.

What was most unexpected as the workmen proceed cannot be prophesied, but it is believed much beautiful work is now hidden. It is expected that the job of cleaning will take five years.

Workmen proceed slowly since there is a hidden danger in the unknown condition of the stone work. The grime contains acids which eat into the stone and some difficulties already have been encountered.

RUM SELLER FINED

Hartford, Jan. 15.—(AP)—In Federal Court here today, Judge Thomas imposed a sentence of ten days in the New Haven county jail on Alexander Sney, of Seymour who pleaded to the maintenance of a nuisance at his meat market in that town.

Eugene B. Havens, operator of the Commercial Club in Meriden and alleged purveyor of widely assorted liquors, entered a plea of nolo contendere and was fined \$500 and given a suspended sentence of one month in jail. Andrew Pochenock of Waterbury was fined \$100 on his plea of guilty to maintaining a nuisance.

CASE CONTINUED

Danielson, Jan. 15.—(AP)—Charges of robbery with violence against Frank S. Cardoza, of Providence, growing out of his alleged participation in the holdup of a truck loaded with silver bullion in South Killingly, October 8, were continued for a week when he was arraigned today in Killingly Town court.

Cardoza reached here last night in the custody of State Policemen who brought him from San Diego, Calif. Unable to give bond, set at \$10,000, he was taken to the county jail in Brooklyn after the hearing.

Murder at Bridge

by ANNE AUSTIN author of "THE BLACK PIGEON" "THE AVENGING PARROT" and "MURDER BACKSTAIRS" © 1930 BY NEA SERVICE, INC.

CHAPTER XLVIII "That would be impossible, Miles! Your wife is already dead." Then, silencing the hoarse oaths of the men and screams of the women, came slow, terrible words: "Tracey Arthur Miles, I arrest you for the murder of your wife, known as Juanita Leigh Selim, and for the murder of Dexter Sprague. And it is my duty to warn you that anything you say may be used against you!"

gun would be fired simultaneously. But if you will examine the jewel hole," he suggested, as he removed the gun, "you will see that Miles had to enlarge it considerably, using a reamer, which I found in the tool chest in the basement, along with all the apparatus which Sprague had bought for installing Nita's alarm bell. I could see no reason for Sprague's having needed a reamer, however, and this morning Miles himself had purchased it at a hardware store on Tuesday."

deep drawer. "First I must tell you that Miles got the gun out of the lamp Saturday night, sneaking in while I was talking with Lydia in the basement. A little later he came back noisily enough to offer Lydia a job as nurse in his home. Without question he assured himself that she knew nothing or she would have gone the way of Nita and Sprague. . . . Now as to Sprague. Despite my warnings Sprague attempted to carry on the blackmail scheme. Perhaps Miles put him off for a day or two, but on Wednesday afternoon he made an appointment with Sprague, telling him that, if he would come to his home that evening, and manage to leave the bridge game while he was dummy, he would find the money in a drawer of the cabinet that stood in the trophy room between the two windows. . . . This drawer."

Daily Health Service. Hints On How To Keep Well by World Famed Authority.

LACK OF KNOWLEDGE IS CAUSE OF MANY DIFFICULTIES IN CHILD-BEARING. By DR. MORRIS FISHBEN. Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine. No doubt, long before there were physicians or midwives, women gave birth successfully to children without the help of either. On the other hand they, no doubt, frequently suffered unnecessarily and sometimes became ill or died as a result of complications which today are perfectly controlled.

Before there were trained surgeons, barbers did much of the surgery. It was "barber" surgery and not "surgical" surgery. One of the great difficulties in securing better results in the matter of child-birth is the fact that the public itself is not well informed concerning the possibilities.

YOUR CHILDREN by Olive Roberts Barton © 1931 BY NEA SERVICE, INC.

What are these conflicts we hear, over a period of time that is most dangerous to mental stability and peace. Children who lack confidence and have an ingrained inferiority complex are fertile ground for mental conflicts, also the over-sensitive introvert type, and the overly-conscientious child. Occasionally these strains come out in peculiar or poor behavior, but as I said before, too often they are suppressed and the child gives no sign, at least not for a period of months, or even years. The child who is convinced that he is worthless, that he does nothing right, that he is a coward and a no-account usually has a most tremendous mental struggle. Shall he be himself and let people know him for what he is, or shall he camouflage his behavior, put up a game of bluff, even bully, to fool the public? Better to be anything almost, than what he is. At least he will get some sort of attention when otherwise he will be ignored.

GLORIFYING YOURSELF by Alicia Hart © 1931 BY NEA SERVICE, INC.

We have no record of what famous beauty of history invented the perfumed bath. But certainly she did not invent it in vain! There is nothing on earth that's so good a pick-me-up to a tired, discouraged woman as a fragrant, perfumed bath. Records have been uncovered of ancient Egyptian women of royal blood who bathed in perfumed water. A few centuries later, England records women of fashion taking to sweet-scented baths.

QUICK RELIEF FROM CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 20 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative safe and pleasant. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They help cause the bowels and liver to act normally. They never force them to unnatural action. "If you have a 'dark brown mouth'—had breath—a dull, tired feeling—sick headache—torpid liver—constipation, you should find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets. Thousands take them every night to keep right. Try them. 15c, 30c, 60c.

Connecticut Golfer Tops Agua Caliente

Johnny Golden Leads Field By One Stroke After First Round In Race For \$25,000 Stake.

Agua Caliente, Jan. 15.—(AP)—Contenders on the Agua Caliente fairways trailed the cool and composed person of Johnny Golden today as they dug into the second round of the second annual \$25,000 open golf tourney.

Out of the rain the Noroton, Conn., pro came yesterday with a card of 70, two strokes under par and one in the lead of the field.

Only one stroke in the rear followed a tall, dark Californian, Mortie Dultra, Long Beach, and a rugged easterner Ed Dudley. A quietist of golf's great stood next in line with par 72 cards.

The east took a good share of yesterday's ranking positions. The fourth-place tie included Leo-Diegel, Gene Sarazen, Horton Smith, Macdonald Smith and Harry Cooper.

Golden settled down to his game without hesitation. He matched par for the first four holes. For a moment he broke on the fifth and holed out for a bogie five but in the next three holes he recovered and they were clicked off in a succession of birdies. As a result he wound up at the ninth a two under par for a 34.

A bogie five started him out badly on the home round but again he recovered with a birdie three later, stumped a stroke below perfect on the 14th and then laid his second a brassie shot a foot from the pin on the eighteenth, to return in 36.

N. Y. COMMISSION AWAITS EVIDENCE

"No Action To Be Taken Until Matter Comes Officially Before Us," Farley.

New York, Jan. 15.—(AP)—The negotiations between the insurance, the Madison Square Garden Corporation of Illinois, the Hearst Milk Fund, Max Schmeling and Young Stribling regarding a bout involving the two boxers and the world's heavyweight championship can go ahead without interference from the New York State Athletic Commission until something happens to bring them within the jurisdiction of that body.

The New York commission, which recently withdrew its recognition of Schmeling as heavyweight champion, and suspended him, was expected yesterday to take steps to some sort to punish the various parties concerned for their action in arranging the "out-lawed" bout but there was only a warning to all boxing corporations and promoters of the commission rules forbidding negotiations with suspended boxers and managers.

"The case of Schmeling-Stribling and the Garden is not officially before us," said Chairman James A. Farley. "We will deal with them in our own way in our own time."

The Nut Cracker

What does Dr. Nicholas Murray Butler mean by suggesting the football game be abolished? Don't they have to have one of those things to give the coach?

When Joe Savoldi played his first game with the Chicago Bears, he broke the unwritten law of pro football, which is, "Don't get rough." It must be hard for Joe to forget, though, the days at Notre Dame.

With the new golf ball already in use, major league magnates announce that experiments with a new baseball are to be made in the spring training camps. Now, how about a medicine ball for pee-wee golf.

A university professor has discovered that the ball is in play during the average football game only seven minutes. Now perhaps some statistician can figure out how much fighting there is in a heavyweight prize fight these days.

HOOPER'S HOME USED AS GRID GOALPOST

Stanford University, Cal., Jan. 15.—(AP)—President Hoover's home on the Stanford Campus was turned into a goal post to settle a post-season football dispute yesterday.

Richard Bogue and George Gray, Stanford tackles, argued over their relative merits on the gridiron. Bogue boasted he could kick a football over the President's home and that Gray couldn't catch it. Gray wagged Bogue couldn't boot it over, but that if he did, Gray would catch it.

Neither exaggerated his own abilities. It was a perfect play from Mr. Hoover's back yard to his front yard. The presidential goal post was unharmed.

MAJORS LEAGUE

Jack Copeland bowled 354 for three strings at Conran's in the Majors League last night. All teams broke even. Copeland showed the young fellows that he could trim any of them when he toppled the wood for 354. Brunig Moske also showed the boys that he could bowl as well as play football by rolling 327. Benny Balon carried high single honors with 130. Tom Scott had three string low honors with 255.

due to the fact that he has been putting too much time in on his miniature golf course, so the boys say.

CONRAN-DEEP RIVER

Tom Conran's bowling teams split even with Deep River in a return match here last night. Last week in Deep River Manchester lost both the men's and the girls' matches. Last night the men won by 100 pins and the girls lost by 43.

Conran's men hit 619 and had a good chance of breaking the town record. Kebert pulled a double strike but filled them in with only two pins. He had high single of 180 while Conran took the high three string of 364.

Miss Carlson on the girls team had high single with 104 while Miss Shea took high three strings with 281. Flora Nelson was unable to bowl. She met with an accident at Center Springs where she tripped on a twig, fell and sprained her arm. R. Smith took her place.

IN QUEST OF WORLD'S AUTOMOBILE SPEED RECORD

Newest challenger for the world's speed record on land, Capt. Malcolm Campbell and the torpedo-shaped automobile which he hopes to drive faster than 231 miles an hour at Daytona Beach, Fla., are pictured above after the car had been assembled in England. Note the huge rubber designed to aid in keeping the machine on a straight course at high speeds, and the devices built to reduce air pressure against the wheels. At the front is a cooling apparatus, lower than the rest of the car. Captain Campbell, who will attempt to better the mark set by the late Sir Henry Segrave, is the only living person who has driven more than 200 miles an hour.

Psychology Big Thing In Football, Carideo

South Bend, Ind., Jan. 15.—(AP)—Psychology is the thing in football. Takes it from Frank Carideo, Notre Dame's mighty little dynamo. And if that isn't enough authority, ask the Southern California Trojans and a few others who fell victims of one of the shrewdest football players, the pigskin industry ever has known.

"There's no doubt we had a great team in 1929 and 1930" the square shouldered generalissimo of the Rockne raiders said in backtracking those memorable gridiron campaigns. "Yet I often wonder how many games we would have won and lost if old man psychology hadn't worked for us on an overtime basis through the insistence of that master psychologist, Knute Rockne."

"Probably we were just too good for Southern California but I give psychology the credit.

"Never in my football career was I more confident than of beating the Trojans last fall. When tales filtered into South Bend of Southern California's confidence of a one-sided victory we decided that to win we must get in the right psychological touch at the right second. So we, or I should say Coach Rockne, gave them the 'build up' while we worked to rip that mental construction down in a hurry.

"At the start of the game, we decided first of all to do the unexpected at all times. The boys, keyed to a fighting pitch got the ball and gave the Trojans the shock of their lives. We hammered with all our strength right at the start and amazed them by shoving them right back to their own goal. A few minutes later, they fumbled on their own 20 yard line and we realized the win or lose minute had come. Now a fumble always disorganizes a team for the instant and so I decided on a bold stroke. Instead of driving safely at the line I called for a pass. The ball was snapped, the Trojan lined up in that zone of greatest intensity, watched for a line smash or an end run, but Marchy Schwartz, dropped back and flipped an easy pass to me for a touchdown. The blow stunned Southern California and they were beaten.

"We beat Carnegie Tech about the same way. That's the way they beat us in 1928 knocking us groggy with a pass on the first play deep in their own territory.

"My advice to a quarterback is to watch the faces of your opponents. Watch their reaction to your plays and then cross 'em up with the same plays through a different spot."

Carideo learned the lesson of psychology in a manner when he was only 11 years old when he changed his given name of Francis to Frank.

"There was a girl in the same class by the name of Frances and I decided then and there I couldn't be a 'he man' and make good in football with such a name." He chuckled "so I changed it to Frank. The boys liked it and they let me play football with them.

Bill Coyle will referee the Manchester High-West Hartford game Friday night in West Hartford. Bill worked the Rec-Springfield affair here Tuesday night.

Harold Madden scored one field goal and four from the foul line as the Connecticut Aggie Freshmen were walloped 53 to 17 by Yale's Yearlings at New Haven Tuesday night.

Ty Holland and Ding Farr played with the Rockville A. A. at Norwich Sunday afternoon and helped their team nose out the Polish Citizens of that city in a professional rule game 39 to 38. Holland played guard and scored five times from the floor. Farr was used at center and made four field goals and one foul shot.

There is a possibility that the High school and Rec Five may engage on a post-season game for the town championship. The schoolboy quintet would have everything to gain and nothing to lose in such a contest and the profits would be heavy for all concerned.

Manchester Trade will entertain Hartford Trade in basketball at the Rec gym Friday afternoon. The local mechanics recently won from Hartford in Hartford.

There is some talk of trying to organize the old Atlas basketball team for a sort of a reunion game up in Baltic if possible. Sammy Smith and Johnny "Bridget" Mullen are both in town now, back from Flint, Mich., where they had been working for some time. Conroy, the Dietz, Paul Cervini, Tom Stows and two others would stand out on the combination. It might be necessary to waive the usual allotment three time outs, otherwise the Atlas might have to do considerable puffing without making much headway.

SENSE AND NONSENSE

Once there was a man who married one of twin sisters. One day he met a friend of his on the street and the friend being curious said: Roddy—John, what I would like to know is—how do you tell the two of them apart? John—Well, to tell you the truth, I don't try. The wrong twin just has to look out.

THE TINYMITES

Wee Scouty asked the native maid, "Where are you bound? Aren't you afraid to travel all around alone, or do you live near here? Gee, if you do, we'd like to roam around until we find your home. 'Twould be real fun to see it, if there's nothing we need fear." The maiden smiled and then replied, "Oh, I am just out for a ride. I love to travel on a stream, within my big canoe. My home is many miles from here, but rapid paddling brings it near. I drift around, exploring 'cause there's nothing else to do. "I really think you lads, today, should spend your time in sleep and play. Some other time come visit me. I'm sure 'twould be all right. I think I'd best be going now. I hope you get along somehow." She began to paddle and soon drifted out of sight. "Gee, she was nice," one Tiny cried. "I hope that she enjoys her ride. Her hunch that we should get some sleep strikes me as quite a plan. Let's get our canvas tent out quick and pitch it. It will look real slick." "Say, that's a good idea," snapped the kindly Travel Man. And so to work the Tines went. 'Twas easy to put up the tent. They dragged it from their truck and then picked out a level space. Each one sailed in and did his bit. They shortly had it looking fit. "Now for a snooze," cried Clowny, with a smile upon his face. The Travel Man cried, "Wait, my son; all of the work is not yet done. Help get some blankets from the truck. We must fix things up right. We'll spread out beds enough for all and then to sleep we'll quickly fall. We've surely picked a mighty pretty spot to spend the night." (The Tinymites find a lost baby elephant in the next story.)

HERALD COOKING SCHOOL PLANNED

Classes of Last Year To Be Repeated At Masonic Temple—Many Prizes.

The women of Manchester and vicinity will be interested to know that the Manchester Evening Herald will conduct another Cooking School this year in the Masonic Temple. The dates of the school will be the afternoons of Tuesday, Wednesday, Thursday and Friday, February 24, 25, 26 and 27. Last year's school met with unprecedented success and every session saw the seating capacity of the Masonic Temple taxed to the limit. Hundreds of women found the school of great value and were very enthusiastic over the things they learned there. One of the big fea-
