CHILI'S GOVERNMENT AGAIN OVERTHROWN

Army and Navy Groups Under Carlos Davila Force Socialist Junta To Relinquish Power.

Santiago, Chile, June 17.—(AP)—Chile's Socialist Junta, which went into power by overthrowing the government of President Juan Esteban Montero less than two weeks ago, was overthrown in a brief but dramatic counter revolt early today.

Colonel Marmaduke Grove, military leader of the revolt of June 4 and head of the Junta since the resignation of Carlos Davila last Sunday, was made prisoner by the counter-revolutionary forces, together with his associate, Eugenio Matte.

The counter revolutionaries comprised army and navy air force groups, apparently supporters of Senator Davila, who resigned the Junta had gone over to Communism.

Later today they turned the government over to a new Junta composed of Senator Davila, Senator Alberto Cabero, member of former President Montero's Radical party and former Deputy, Nuncio Cordova. The new Junta was sworn to outlaw Communism but to continue the Socialist republic established after the June 4 revolt along moderate lines, friendly to foreign interest.

Colonel Grove had announced he would die before he would surrender to the army group who besieged the palace with 18 field guns, but he finally was captured alive and taken to a regimental barracks, with Senator Matte, to await the new government's decision regarding their fate.

Started Last Night
The revolt began last night when a group of army officers, invaded the presidential palace seeking Colonel Grove.

Meanwhile, socialist troops marched on the city to besiege the palace, machineguns began to rattle and great crowds of people, many of them Communists, set up a barricade in the streets.

Airplanes of the attacking forces flew over the city and the sky was lit up by bursting star shells and rocket flares, while from the north the troops entered the city.

Forces loyal to Colonel Grove mounted machineguns on the palace. But as the counter-revolutionary hosts gathered in the streets, massed their artillery around the building and set up headquarters in the ministry of war building across the

BANDIT IS KILLED IN GANGSTERS' WAR

"Red" Barker, Associated With Capones, Is Mowed Down By Machine Gun.

Chicago, June 17.—(AP)—A torrent of machinegun bullets has drummed Public Enemy George (Red) Barker, associate of the Capones, out of the ranks of underworld leaders.

A heavy sedan, as police reconstructed the assassination, swept past him as he stood in front of the Norfolk Hotel in Crawford avenue on the northwest side of the city last night.

Its occupants pumped at least 16 machinegun bullets into the body of "Barker, the Immune" whom—until last night—nearly all the fans of gangland revered as the boss of Cook county. Barker had been able to check in the career of crime which he began in 1916.

Hold Two Suspects
Two men were held today for investigation—Larry Evans, a writer and George Erickford, hotel clerk, who helped three others pick the gangster's lifeless body off the street and rush it to Keystone hospital.

These physicians said death had been almost instantaneous.

Barker had never been convicted in Cook county through years of persistent harassment by police of a charge more serious than larceny—though murders and all forms of labor war violence had been laid at his door.

Had Big Income
He "muscled in" on one union after another till at the height of his charmed career he was reported to have had an income of \$500,000 a year.

Officials of the Pontiac, Ill., reformatory considered Barker even "too bad" to permit him to remain there when he was returned for violation of parole. He was paroled in 1927 after serving a year for his last Cook county conviction, for larceny, the year before.

"Barker," complained Pontiac, "is a bad influence on the younger prisoners." And the state treasury had to pay \$100,000 for his support.

23 MEN KILLED, 63 ARE INJURED BY TANK BLAST

Montreal Fire Chief and Four Firemen Are Among Victims—Ten Bodies Have Been Recovered Thus Far.

Montreal, Que., June 17.—(AP)—A series of terrific explosions tore the oil tanker Cymbeline wide open in Montreal harbor today and brought death to an estimated total of 23 men and injuries to 63.

Ten bodies had been recovered at noon, nine hours after the first blast, and 13 others were believed to be in the wrecked tanker's hold.

Fifteen of the injured were firemen called out to combat the flames that followed the first explosion.

Flaming oil shot 100 feet in the air when the first blast occurred as 100 workmen were rushing repairs on the Cymbeline in the great Vickers drydock, which was built in England and towed across the Atlantic to Montreal.

Minor Explosions
A number of minor explosions occurred and an hour later, while firemen were fighting the flames and searching for victims of the blasts, another detonation, more severe than any of the others, shook the damaged ship.

In this final blast Fire Chief Raoul Gauthier, former president of the Dominion Fire Chiefs' Association and known throughout the Dominion for his courage, was killed with four of his men.

The bodies recovered were those of Fire Chief Gauthier, Paul Hanrington, J. D'Amboise, J. Havelin and J. P. East, the four firemen who perished with him; and James Wilson, John Robson, James Corbett, Donald Gunn and William Atherton, all employees of the Vickers company.

RASKOB INVOLVED IN MARKET POOL

Senate Counsel Says Democratic Leader Took Part In Short Selling Deals.

Washington, June 17.—(AP)—Testimony that John J. Raskob participated in a short-selling pool in the Theatre stock, which made a profit of nearly \$2,000,000, was given the Senate banking committee today by William A. Gray, committee counsel.

The chairman of the Democratic National committee was named as a participant along with William Fox, former head of Fox Film and Fox Theatre corporations, in the committee's investigation of the New York Stock Exchange.

William F. Renny, Mrs. Elizabeth Mathews Joseph, E. Higgins, Bradford Ellsworth, Walter F. Chrysler, and Nicholas F. Brady were others named.

Operated In 1929
Raskob, Chrysler, Brady and Fox were described as the largest participants in the pool, which was operated in 1929.

The participants in the pool were named by Gray after Senator Walcott (R., Conn.) asked him directly who they were.

This was testified after the committee had been informed for the second day that Fox was unable to appear on account of illness. It sent physicians to examine him at his hotel here.

Meanwhile, Gray testified that Fox had bought and sold his own stock to manipulate the market.

Cripple Starved to Death By His Mother, Brother

Baltimore, June 17.—(AP)—Police today pieced together a story of the starving to death of a 26-year-old cripple by his mother and brother "to drive out devils that possessed him." The body, kept on a couch in their home, was found yesterday.

A diary kept by the brother revealed that death occurred April 4 and predicted that "the will arise from the dead" June 24.

The cripple, Grant Aibel, was found by officers investigating his disappearance, reported by neighbors.

The mother, Mrs. Anna Aibel, 355, who a few days before had turned a health officer away from the house saying, "God won't let you in," was arrested with her son.

"God knows all about this," the brother, Paul Aibel, 30, a college graduate, said. The mother and brother said they had given Grant only three meals a day, "because the Lord told us to starve him to drive out the devils."

Paul said that on April 3, "the Lord told me to bind him hand and foot and cast him into outer darkness. I tied his hands and feet but he drew the covers and I tied him.

STORM FORCES H.S. CLASS DAY PARTY INDOORS

Assembly Hall Cannot Accommodate Visitors; Honor Deceased Squatrito Through Senior Exercises.

Old Man Weather turned "thumbs down" on the High School Seniors' bid for fair weather for their Class Day exercises today and the program went indoors by unanimous consent. As a result a large number of visitors were unable to witness the festivities since the student body occupies most of the school assembly hall. The grey-gowned Seniors were led to their seats by Edwinna Elliott, class vice-president and James O'Leary, class president.

The student body sang one verse of "America the Beautiful" and followed by President O'Leary in the psalmist's prayer.

The flags were then put in position, the national colors carried by President Thomas McPartland of the class of 1932 and the State flag carried by President Thomas Johnston of the class of 1934. The green and white class banner of 1932 was placed directly to the rear of the stage.

James O'Leary opened the program with a brief address of welcome. He mentioned that it was the last assembly for the seniors and paid a tribute to the school and his

SENATE COUNSEL SAYS DEMOCRATIC LEADER TOOK PART IN SHORT SELLING DEALS

Washington, June 17.—(AP)—A meeting with the Cabinet, receipt of congratulations and posing for the cameras were the order of the day for President Hoover and his running mate, Vice President Curtis.

It was a depleted Cabinet the President faced but there was no falling off in the ranks of the campaign, though the order of the day was "Education" and "Mr. Curtis around the south lawn of the White House grounds."

Returning from the Chicago battleground where he was one of the administrative commanders, Secretary Mills called immediately on his chief, Mills, in a light summer suit and smoking a big black cigar, conferred only a few minutes before the picture taking started. As he came from the Chief Executive's office he ran into his Cabinet group and a shower of congratulations from his colleagues.

He met Secretaries Lamont and Wilbur and Attorney General Mitchell as he emerged.

"Congratulations on the fine job, Mr. Secretary," Lamont said.

"It was just about a 99.9 percent job," added Wilbur, who took part in the convention also but not as a delegate.

The President met smiling Vice President Curtis with a hearty handshake in the hall outside his private office. Chattering volubly but in low tones, they walked side by side to the south lawn of the White House where they faced a veritable barrage of clicking cameras.

Sen. Bingham's Part In Controversy Over Wet Plank Focused Eyes of the Nation On Conn. Delegation.

By THOMAS FERGUSON
Chicago, June 17.—(AP)—Its work at the Republican National Convention completed and hospitality of the city enjoyed, the Connecticut delegation left here this morning. It will arrive at Hartford about noon tomorrow. Senator Hiram Bingham and Congressman John Q. Tilson left with the party to return to Washington for the winding up of congressional duties at the close of the week-end.

STATE DELEGATION STARTS BACK TODAY

Will Arrive In Hartford Tomorrow Noon—Wind-Up Visit By Sightseeing.

By THOMAS FERGUSON
Chicago, June 17.—Special—The Connecticut delegation left here for home at 11 o'clock, central time, after concluding the week's visit with the Republican National convention in a busy eight-day trip that included stops in the Loop, ball parks, theaters and Nut House Square. Mayor Cermak had issued passes to the delegates for about every interesting place Chicago affords.

At Nuthouse Square a self-appointed Mayor addressed groups of delegates. Speaking of the flags draped about the Chicago Stadium, scene of the convention, one soapbox orator said that they had too much blue and white in them and not enough red.

Among the places the Connecticut delegates visited were the Chinese Temple and the Chinese City court. They also saw the Negro district and the double-decked boulevard, the lower level of which is occupied nights by the unemployed who sleep on the concrete sidewalks and road using newspapers for bedding. They also visited the Jane Addams Hull House and saw Gold Coast Road.

NATIONS IN ACCORD ON A DEBT HOLIDAY

Lausanne, Switzerland, June 17.—(AP)—A "stopgap" agreement to suspend reparation payments, from the end of the Hoover moratorium holiday June 30 to the end of the present conference here was signed today by representatives of Great Britain, France, Italy, Japan and Belgium.

The agreement also was submitted to other nations. It specifically provided that it in no way prejudiced any ulterior agreements to be made at the end of the conference.

The agreement was the result of a move by Great Britain and was generally considered an effort to force the conference to continue to sit until a permanent settlement is reached.

It sidetracked the proposal for a six months renewal of the Hoover moratorium and forebodings that the conference will extend into next July.

CURTIS IS NOMINATED AS CONVENTION ENDS

SANDERS TO HEAD REPUBLICAN BOARD

To Manage Coming Campaign; Appointment Comes As Surprise To Delegates.

Chicago, June 17.—(AP)—It's just as well perhaps, that sergeants at arms at political conventions do not have to work overtime.

As it was, the 20th Republican party adjourned sine die just in time for Everett Sanders, the ser-

gent at arms, to rush down town to be elected chairman of the National Committee on the spot.

From sergeant at arms of the National convention to chairman of the national committee and manager of his party's campaign is no mean promotion.

His new office carries with it the privilege of calling the convention to order while temporary and permanent chairmen are exercising their vocal cords.

His record as sergeant at arms had nothing to do with the choice for promotion but he did have one bit of sergeant at arms to do in

Senate Cleaning Its Decks To Discuss Big Relief Bill Tomorrow.

Washington, June 17.—(AP)—Aggressively clearing away the mass of legislation awaiting enactment Congress pushed on today toward disposal of its final big issue—relief for the unemployed.

Indications pointed to action on this troubled question in the Senate tomorrow, with a major struggle in sight on whether to authorize an issue of bonds for further public works. The Senate bill, sponsored by Democrats, calls for \$500,000,000 of such bonds. President Hoover is flatly opposed to any. The House, by adoption of the Garner bill is recorded for an outlay of \$1,300,000,000. Senator La Follette, the Wis-

Plotters Against Life Of Mussolini Executed

Rome, June 17.—(AP)—The repression of Premier Mussolini's Fascist government was visited at dawn this morning upon two Italian terrorists convicted of having plotted against Il Duce's life.

The two were Domenico Bovone and his assistant, Angelo Sbardelotto. Both were sentenced to death by hanging at Fort Bravetta, on the outskirts of Rome.

Five hundred Black Shirt Militiamen with daggers upraised, shouted the Fascist war cry of "A noi!" (To us!) as the execution squad fired and each bullet-riddled body became motionless in the chair.

During the night in the prison, Bovone made his confession to the prison chaplain and received Holy Communion. Sbardelotto emphatically rejected the priest's offer of consolation. He said he was not concerned with life now or hereafter.

Twenty-four of the militiamen made up the firing squad.

For a Time In the Voting It Seemed That Hoover's Running Mate Was On Verge of Defeat But Administration Forces Swung the Tide—Delegates Leaving Chicago Today In Drove For Home Towns—Vanguard of Democrats Already Reaching City To Prepare For Their Convention.

Chicago, June 17.—(AP)—The big Republican show is over but the Democrats are moving in with an even more imposing array of political stage trimmings and the pause will be only temporary.

Having renominated Hoover and Curtis, chosen Everett Sanders of Indiana their campaign manager and melted down the great variety of prohibition views into a plank promising substitution of plan for modification, the host of the G. O. P. evacuated their Chicago haunts during the night with no lost motion.

Today nearly all of the Michigan avenue hotels which had housed them during the three convention days were back to the normal ways of life.

Within a week, the Democrats will be in Chicago in the same hotels, preparing for the opening of their own convention, in the same overgrown stadium on the West Side on Monday June 27.

Vanguard Already There
The vanguard was here before the Republicans were beyond the city limits.

The Republicans left behind them the memory of at least two days which have been political history. One, of course, was the sudden upward surge of sentiment for prohibition repeal, curbed only after a real convention battle. The other was the final victory yesterday of Vice President Curtis in his candidacy for renomination.

By 4 o'clock, even toward the end, it seemed that Curtis was on the verge of defeat, despite the fact that every key man in the convention understood President Hoover wanted his runningmate of 1928 kept on the ticket. There was wet opposition to him. There was a movement for a younger and more spectacular figure. And there was an important under-current of opposition growing out of the social war which had been waged in Washington over the campaign between Mr. Curtis' sister, Mrs. Dolly Gann, and Alice Longworth.

Administration Aid
Against this combined opposition, the Curtis people played an interesting game. At their head was Mrs. Gann herself. When the Curtis camp found it was losing, she needed the help of the administration. It got it. Not openly, which might have defeated the purpose, but genuinely and effectively.

It is not yet apparent exactly what strategy was behind the decision to elect Everett Sanders to be secretary of the convention. The choice of President Hoover and his adviser surprised almost everyone.

Sanders, a former member of Congress, has practiced law in Washington since he retired as secretary to President Coolidge. He had maintained a very active contact with politics.

Many persons were speculating today whether any suggestion from Mr. Coolidge figured in the selection of the new chairman. It was known that up to a few days ago, Mr. Hoover was considering William M. Butler of Massachusetts, the former President's close friend and manager eight years ago.

Chicago, June 17.—(AP)—The Republican Party was grinding its battle-axe today for the great 1932 political war with the Democrats, having wound up its National convention with a complete victory for

the administration forces of Herbert Hoover.

Wary of three days of sessions the delegates brought their convention to a quick windup at 3:45 p. m. yesterday shortly after supporters of Vice-President Charles Curtis, choice of President Hoover for renomination, had smothered the political storm which had threatened to engulf him.

Mr. Curtis won, as incipient booms for former Vice President Charles G. Dawes and others fell by the wayside in the waning minutes of the session.

Having nominated President Hoover with a tremendous sweep of 1,126 1-2 of the 1,154 votes of the convention, the delegates turned to the business of picking his running mate, and an air of expectancy hung over the huge flag-bedecked Stadium.

Snell Proposed
National Committeeman R. B. Cressler of Texas, prime mover in the recent boom for General Dawes, took the platform. The name he proposed, however, was not Dawes, but Representative Bertrand H. Snell, of New York. Chairman Snell declined in a joking manner.

Ralph Williams, of Oregon, vice-chairman of the National committee, hurried to the Illinois delegates from the platform to say it was time to put Dawes forward, despite his announcement he would not accept even if nominated.

Two Illinois delegates, Richard F. Nelson and Alderman "Doc" F. Nelson of Chicago, moved toward the platform, apparently to move and second the nomination of Dawes.

Boom Collapses
Chairman Snell hurriedly advised Postmaster General Walter Dill of the situation and Brown rushed to Nelson's side. He pointed out to the chairman that Dawes would not take the job. The Illinoisan withdrew and the boom collapsed.

Hardly had the thunderous roll of the Stadium's mighty organ signalled a history-making session was at end, the Republicans, intent on hitting the Hoover-Curtis iron at its hottest, met at the Congress hotel headquarters and elected Everett Sanders of Indiana chairman of the National committee.

Reason For Move
It was a swift rise for the former secretary of Calvin Coolidge—from sergeant at arms of the convention to director of the campaign and the move was to swing the forces of Coolidge faction solidly behind Hoover.

Not many minutes had elapsed to the time Sanders was elevated to the field marshal's station from the moment he was called upon as sergeant at arms to eject former Senator Joseph France of Maryland from the speaker's platform when the lone opponent for the presidential nomination sought and was refused recognition. His plan was to place Coolidge in nomination and stampede the convention. Police helped escort him from the platform.

Feared a Bolt
It was the vice-presidential nomination, however, that precipitated the surging apprehensions in the breasts of all administration supporters. They feared injection of a magnetic name like that of Dawes into the rank and file of the delegates might cause a bolt that would get Curtis. But the administration machinery was too well greased.

The vice-presidential fireworks, or what turned out to be a lack of them, started when New York's candidate, General James G. Thompson was presented by Charles Tuttle, former United States district attorney of New York.

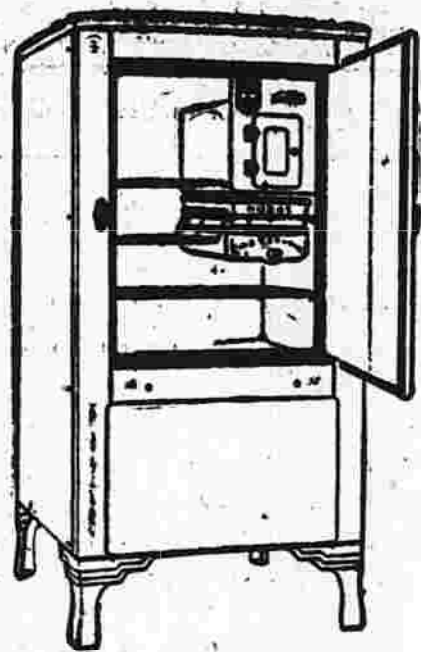

Meanwhile, Mrs. Dolly Gann, sister of Vice President Curtis, and her husband, remained in a box beside the speaker's stand and sought for the administration went about the floor with the word all was safe for Curtis.

MacNider Nominated
Hanford MacNider, American minister to Canada, was placed in nomination by J. N. Darling, the cartoonist, St. Des Moines, the Pennsylvania and Florida steel man, and former Governor A. T. Fuller, of Massachusetts, were also presented and when the roll was called, Vice President Curtis, whose name was previously offered by Charles W. Scott, of Iowa, Kan., was just about of victory. But the Pennsylvania

had Connecticut taken such an active part or stood so determinedly on the fighting line of a National question. Their opinion was that the issue of repeal of the Eighteenth Amendment lifted the convention out of the routine in which category they believed it might have been had there been no controversy over the declaration of party principles and no Hiram Bingham to lead it. Connecticut never having ratified the amendment delegates said the state was rightfully placed in leading the fight for repeal although at no time previously had the Republican Party in the state, in convention or through a body of delegates, taken an official stand on the subject.

Bingham's Future Senator Bingham expects a re-nomination next fall and delegates thought that in his campaigning he need not spend much time talking of his attitude towards National prohibition after his labors here to put a repeal plank in the platform. His work also may lead to a declaration in the state platform at the September convention which will go beyond that in the National platform. The delegation agreed among themselves to follow Bingham to the end and it did so. On nominations there had been no position taken but the vote for President Hoover was expected. The ballot for vice president with seventeen votes for General Harbord showed personal preference and a desire to stand with former Governor John H. Trumbull who is a close friend. The votes of Bingham and Tilson for Curtis reflected their opinion that he deserved re-nomination. On the homeward journey the delegation may talk over the fall state ticket. State Senator Anson

Still Deadlocked The economy bill was still deadlocked in conference, with no indication how the issue would finally be solved, at there was no present disposition to worry about it. Hastening the adjournment expected some time next week, the Senate sought to end the bonus payment question by voting down the bill today. It had passed yesterday the Navy's appropriation measure, one of the last. It received from the House a bill to give the Red Cross an additional 40,000,000 bushels of wheat and 500,000 bales of cotton for relief purposes.

Trans-Oceanic Lines The House also passed a bill to make possible, by mail subvention contracts, the establishment of trans-oceanic commercial airship lines, and adopted a measure to prevent evasion of the new import tax on gasoline and oil in storage on June 21, when the levy goes into effect.

In addition that branch of Congress took an important step towards eventual reduction of the American tax burden, appointing a committee to study the question of overlap in Federal and state taxation. A report is to be made by December after hearings during the summer and fall. The idea is to find ways of assigning different fields of taxation to the different governments.

BANDITS IDENTIFIED

Webster, Mass., June 17.—(AP)—Three of the four bandits who held up a bank messenger here yesterday and robbed him of \$10,000 were reported identified today from Rogues Gallery pictures. Police did not disclose their identity. Meanwhile other clues were being followed in Providence and Hartford.

A large number of photographs of convicts were examined by prisoners who witnessed the holdup. Railroad Detective Charles Sattl was reported to have identified three of the pictures.

SANDERS TO HEAD REPUBLICAN BOARD

the closing session of the convention and almost had a much more formidable one a few hours earlier.

That France Incident When former Senator France yesterday was ruled ineligible to enter the lineup of nominating speakers, the sergeant at arms was ordered to show the Marylander how to walk or run to the nearest exit. Mr. Sanders delegated the task of getting Dr. France out of the game to a portion of the Chicago constabulary who was in command.

For the peace of mind of the new chairman of the National committee, it may be just as well that he did not have to obey a previous tentative order.

When the galleries booted James R. Garfield's speech in defense of the platform plank dealing with the 18th Amendment Chairman Snell placed the name of the sergeant at arms as a threat. The chairman told the cash customers if the demonstration continued the sergeant at arms would clear them out.

At the upper tiers at the time contained some 15,000 persons this seemed like a large order. One assistant unpinched his impressive badge as soon as Chairman Snell mentioned the possibility of cleaning up the outlying districts, placed it in his pocket, and went away from there. Snell gave his badge to a friend. There was on the whole a noticeable lack of enthusiasm among the other assistants.

G. O. P. CONVENTION ENDS WITH CURTIS NOMINATION

delegation switched its 75 votes from Gen. Edward Martin of Pennsylvania to Curtis and the battle was all over. The final official computation gave the vice-president a total of 633 votes. MacNider was second with 178. Harbord polled 161.

One of the last acts of the session was to receive from President Hoover a message of thanks in which he predicted Republican policies would conquer present economic conditions. It was addressed to Permanent Chairman Bertrand Snell. Vice President Curtis likewise wired Mr. Snell his thanks and expressed confidence of victory for the G. O. P. when the battle of ballots is held in November.

MANY TELEGRAMS

Washington, June 17.—(AP)—Several hundred telegrams, most of them congratulating President Hoover upon his re-nomination and wishing him well in the hard campaign to come, had been received today at the White House.

While the President still was engaged in perusing them, Secretary Mills, who carried much of the administration fight in the Chicago convention, called. Mills and the President talked over convention affairs and future plans for some minutes before being interrupted by the arrival of Vice President Curtis, who went with Mr. Hoover to the south lawn of the executive mansion where they posed together for photographers and motion picture men.

White House aides said "most of the telegrams" received by the President were of a congratulatory nature. Some of them, however, contained objections to the prohibition plank adopted by the convention. None was made public at the White House. Mrs. Ruth Pratt, Republican Representative from New York, was one of the earliest White House callers this morning. She said she came directly from the trap in order to be "the first to congratulate Mr. Hoover upon his victory in Chicago."

GARNER BETTER

Washington, June 17.—(AP)—Improvement was reported today in the condition of Speaker Garner, who is ill at his hotel with bronchitis. Dr. George Calver, the Capitol physician, issued this bulletin: "Speaker Garner is feeling more comfortable today. His temperature is not quite so high as yesterday."

SENATE VOTE NEAR ON VETERANS' BILL

But Leaders Predict Bonus Will Be Defeated — Proponents State Their Case.

Washington, June 17.—(AP)—Hundreds of ragged—but orderly—war veterans looked down from grand galleries today while the Senate neared a vote expected by leaders to kill all chances of immediate payment of the \$2,400,000,000 soldiers' bonus.

Outside, several thousand former service men who had tracked to Washington from all parts of the country, whiffed away the time pending a roll-call by listening to their leader's counsel against any disturbance. Proponents of the legislation, for the most part, occupied the Senate floor. Most of those opposed, content of enough votes to kill legislation, remained quietly in their seats.

One of the speakers, Blaine (R., Wis.), said he was no new convert to the proposal to pay the bonus immediately. An Obligation "There is no one who denies the obligation. The Congress of the United States has determined that there was an obligation. I need not discuss the validity of that obligation."

"The only question before Congress is whether we will pay now or wait until 1945?"

Blaine contended that the \$1,500,000,000 in debentures which Congress authorized the Reconstruction Corporation to issue were of "identically the same character," as the obligations proposed in the bonus bill. "There is only one difference," he said. "They were designed for the railroads and the banks and the House of Morgan, while under this bill they are designed for relief of human misery."

TO BUY MORE THEATERS

New Haven, June 17.—(AP)—Harry Arthur, who recently leased the Fox Theater in New England said today he is negotiating to buy over Paramount-Public theaters in New Haven, Hartford, Springfield and Worcester. If he acquires the four playhouses, he said, a corresponding number of his present theaters would not be closed. Plans are still in the formative stage, he pointed out.

DOLLY DIRECTED CURTIS CAMPAIGN

Vice President's Sister Had Been Working At Task For a Solid Year.

Chicago, June 17.—(AP)—There is no question about who will be chief woman campaigner in an effort to win again in 1932 for Herbert Hoover that feminine vote triumphant in 1928—it will be Dolly Gann.

Doughty, strategy-wise Dolly will at the same time be fighting for her brother, Charles Curtis, to win at the November polls as she fought for and helped win the vice-presidential nomination for him in Chicago.

Looking astutely forward, she started her campaign a year ahead of yesterday's showdown, traveling from city to city, talking from the platform Herbert Hoover and the Republican Party, chatting on the side about brother Charles.

And how it did count for her here! The men strategists couldn't think up counter candidate moves fast enough to balk her.

Acted as Magnet
All the twitting and the fun-making about that Gann-Longworth controversy turned to her advantage.

That was what brought the women, by thousands, to hear Dolly Gann wherever a speech was announced. They came and she won them, and the men knew it.

The old chatter of Alice Longworth's silent feud against her followed her here and continued to the last convention moment, with tails still going the rounds that Alice in the gallery across was playing her pawns to frustrate Dolly.

It may have been just talk, but it sharpened interest.

After that a tense moment came when the Pennsylvania delegation switched and Curtis was nominated. Dolly got the ovation.

For many of the social worshippers Dolly Gann was the convention.

Dolly Gann stands today the probable 1932 successor to the 1928 Mabel Walker Willebrandt, as most talked-of and one of the most talked women, in the Republican campaign.

RIOTS IN SWITZERLAND

Paris, June 17.—(AP)—Special dispatches from Zurich, Switzerland, today said one person had been killed and fifty injured in Communist riots there.

Barricades were erected on the streets, the dispatches said, but many shops were looted. The police seized a quantity of arms and arrested fifty persons.

SENATORS COMMENT ON THE DRY PLANK

Democrats Ridicule It—Senator Moses Declares It Is Constructive.

Washington, June 17.—(AP)—Criticism and ridicule of the prohibition plank adopted last night by the Republican National convention came today from the Democratic side and the ranks of the independent Republicans as the Senate convened.

Meanwhile, Republican leaders generally expressed approval of the prohibition plank in conversations with newspapermen.

"A parliamentary inquiry" Mr. President, said Senator Norris (R., Neb.), as soon as a Senate quorum was present.

"I wish the chair would explain the meaning of the prohibition plank adopted at Chicago last night," he added.

Vice President Curtis smiled in reply.

"It is so indefinite and uncertain that no one who does not believe in prohibition I can not accept it at all," Senator Blaine (R., Wis.) told the Senate.

"Whoever wrote that wet-dry plank," said Senator Gore (D., Okla.), "was an ambidextrous amphibian."

"It takes off on dry land," said Tydings (D., Md.), "flies through a dry atmosphere, plunges 20 feet into the ocean and then lands in the middle of the Sahara desert."

Tydings said "it isn't a plank—it's a group of splinters," containing some "southern pine and western spruce and with 'even the sidewalks of New York' represented."

Other Comments—This is what some of the leading Republicans had to say of the plank:

Watson of Indiana, the Senate leader:

"I am very well satisfied. It was a protracted debate but was presented very well and the vote undoubtedly expressed the sentiment of the convention. I trust it will meet the general approval of the country and I believe it will."

Senator Moses (R., N. H.):

"The plank which the Republican National convention has adopted with reference to the 18th Amendment may be subject to the criticism of carrying an undue weight of verbiage; but it cannot be criticised for any lack of constructive assertions."

"It provides the essential upon which the wet-dry degree of emphasis and the more reasonable dries have been in accord for many months; namely, a resubmission of the 18th Amendment in a manner which would permit the people to pass upon the whole question of prohibition under constitutional forms. No reasonable voter could ask for more and no reasonable political party could be expected to grant less."

Representative Austin (R., Vermont): "My reaction to a first reading of the platform is that it contains the essential objective of such temperance legislation as we need at this time x x x Any nationwide action regarding a fundamental principle will involve diverse views regarding details and it becomes the necessary patriotic duty of sections and states to yield something in the interests of unity, harmony and an effective political action."

Goldborough of Maryland: "It was a question of revision or repeal and the former won. I believe it will be entirely satisfactory."

Senator Robinson, Democratic leader of the Senate: "Reports from the Republican convention at Chicago indicate that the principal, if not the sole subject intently considered by the convention is the liquor question."

"The rallying cry by the delegates seems to be:

"Give us liquor but also give us dry votes." The Republican platform plank on prohibition is a marvel of profligacy. More than five hundred words are employed in the declaration favoring a proposal that the repeal of the Eighteenth Amendment be submitted in the manner provided in the Constitution, and that if repeal results, efforts will be made to prevent the states from authorizing saloons.

"The plank includes contradictory implications of viewpoint designed to attract the support of both the wets and the dries. It is a jumble of ambiguities and inconsistencies."

Senator Robinson (R., Ind.): "I think it was a mistake to mention resubmission in any form whatever."

Electric Ear* Listens in on 17 gasolines ... and gives the New TYDOL first place for best anti-knock quality

Electric Ear* GIVES VERDICT With amazing new sound-recording equipment, engineers triple-check true knock-rating of 17 gasolines on the road... New Anti-Knock TYDOL wins.

* DECIBEL KNOCK CHART

Increase in motor noise caused by detonating fuels. From road-tests conducted and computed by ELECTRICAL RESEARCH PRODUCTS, INC. Subsidiary of WESTERN ELECTRIC COMPANY.

Table with 2 columns: Gasoline Name and Decibel Knock Rating. NEW TYDOL is at 2.0, GASOLINE J at 2.5, GASOLINE O at 3.5, GASOLINE L at 3.7, GASOLINE R at 3.7, GASOLINE X at 4.5, GASOLINE P at 4.5, GASOLINE I at 4.5, GASOLINE M at 4.7, GASOLINE D at 4.9, GASOLINE G at 5.0, GASOLINE Q at 6.0, GASOLINE C at 6.4, GASOLINE F at 6.9, GASOLINE A at 7.1, GASOLINE K at 7.2, GASOLINE N at 7.7.

* NOTE: A decibel is an engineering unit denoting volume and intensity of sound. In these tests, lowest decibel rating (New Tydol) indicates best anti-knock gasoline.

KNOCK-TESTING has left the laboratory! It is out on the road at last—where it belongs. Tide Water has found an accurate way to test anti-knock quality in the open. On the hills. In a hot motor. Made with the new Sound Meter—using an "Electric Ear" that records "knocks" long before you can hear them. An instrument so sensitive that it can pick up a whisper and so accurate that it can easily register the differences between the "knocking" of different gasolines.

Same speed... checked and triple-checked. And when the figures were all in, the records of the decibel dial gave the New TYDOL first place for real, road-tested anti-knock quality... First place, because millions of dollars in new equipment builds anti-knock quality into TYDOL every step of its way through the refinery. Speed and pick-up, super-power and instant starting, purity and uniformity—the New Anti-Knock TYDOL has everything a gasoline needs to give it premium performance—at no extra cost!

17 non-ethyl gasolines were bought in the open market from road-side stations... Tested for 3 days... Same car. Same hill. Same load.

CHANGES IN FOREST STUDIED BY STATION

New Haven, June 17.—A small camp where forest growth will be studied has been established by the Connecticut Agricultural Experiment Station near Haddam in the Cockaponset State Forest.

Trees within certain plots laid out by the Station in 1926 will be re-measured and detailed observation will be made of young trees that have come in since the previous observation, those that have died, and other changes in the forest. The purpose is to learn the changes that are taking place in the forest.

Because of the slow growth of trees, the entire study, of which this summer's work is a part, will continue many years. When the notes are taken at Cockaponset, the camp will be set up at the Meshomasic State Forest. The areas selected are believed to have been once cleared, but they have since reverted to forest growth.

Dr. Raymond Klenholz, ecologist, is in charge of the studies this summer.

HOOVER IS MAPPING CAMPAIGN PROGRAM

Not Likely That He Will Do Much Traveling—To Use the Radio.

Washington, June 17.—(AP)—Heartened by the overwhelming support conferred on him and his administration by the Republican convention President Hoover today began preparations for the stirring campaign he must wage between now and the fateful November election day.

He will launch his bid for return to the White House from the south portico of the presidential mansion, unless plans now being made have to be altered. This first battle cry will be spoken a few weeks hence, after the Democratic party has chosen its opponent and announced the issues upon which it will contest Republican domination of the government.

Then Mr. Hoover will receive formal notification of the nomination granted him yesterday and amid acclaim and enthusiastic uproar in Chicago.

He and Mrs. Hoover heard it all by radio, and directly he dispatched to the convention chairman, Representative Bertrand Snell, his message of appreciation and of his promise "to labor as I have labored" to meet the trials and difficulties now besetting the nation.

The President will confer shortly and make definite arrangements with Everett Sanders, the new Republican party chairman, who is to direct the party's election fight from central headquarters in Chicago.

Vice-President Curtis still was too deep in the troubled affairs of Congress to set out on his campaign course. Four years ago Mr. Hoover received his nomination and delivered his acceptance at his home in Palo Alto, Calif. There was today still a bare chance he would travel westward for a repetition of that occasion, but it was deemed unlikely.

It is a certainty that whatever else the President plans, his Rapidan camp little more than 100 miles from the White House, will play a significant part.

The camp has been equipped for broadcasting and additional wire facilities already have been installed in the little village of Grigiersville, Va., about five miles from the camp. Mr. Hoover intends to hold many of his political conferences there and at least one campaign address probably will be broadcast from there.

SIX HURT IN CRASH

Southington, June 17.—(AP)—Six persons were injured when a Connecticut Company bus skidded 150 feet on a slippery pavement and crashed into an electric light pole and two trees on North Main street here this morning shortly after 7 o'clock.

The injured are Stanley Gladki, Miss Barbara Johnson, Miss Margaret Maynard, Miss Ruth Broom, Mrs. Mary Gannon of Southington, and George Heafac of Plantsville. All suffered bruises and abrasions about the face, head and body.

After leaving the highway, the bus struck a tree, then veered into a pole, snapping it off at its base, and finally came to a halt after uprooting another tree a short distance from the pole. Edward Hummell of New Britain was driver of the bus. All of the victims were on their way to work when the accident occurred.

GET LITTLE RELIEF

Harrisburg, Pa., June 17.—(AP)—Governor Pinchot in a statement today said unemployed families in almost half of the counties of Pennsylvania are being forced to live on relief grants of three dollars a week or less for food.

Asserting that in one county one dollar a week per family was allotted for food, he said that in almost no section of the state is provision made for such essentials as clothing, fuel, shelter, and care—"things we have come to think of as almost as necessary to life as food itself."

HIGH SCHOOL NEWS

Thirty boys spent the afternoon and part of the evening yesterday at Covantay Lake at Robert McCormick's cottage. In addition to the boys were Dwight Perry, Principal Quimby, and Charles Wigren. Much of the time before supper was spent in swimming, horse shoes, rowing and canoeing.

When they finally came up for supper they were served one of those fruit cocktails known as roll-your-own varieties. Beefsteak sandwiches, strawberry shortcake, coffee, and doughnuts were on the bill of fare. The steak was cooked over an out-of-door charcoal fire.

After eating a hearty supper balloons were quietly taken in order to select a captain of the track team for next year. The results of the voting were not made public until this afternoon during the class day exercises. Robert McCormick was the successful candidate and will lead the team during next year.

McCormick was awarded a gold medal for setting a new school record in the pole-vault 11 feet 2 1/2 inches. He has previously won 3rd in the state meet and 2nd in the C. I. L. He is a hard worker and popular among the boys.

The boys were divided into groups and all pitched in together and helped in short-hand. Ramoide Haponik, Bernice Harrison, Florence Herter, Anna Wilkie, Erna Hess, Anna Sibirnas, and Dorothy Hansen.

Miss Betty Harvey of the Franklin building who has recently been bestowed several honors was awarded the prize for winning the freshmen spelling match in assembly yesterday afternoon. There had been previous matches held in the home rooms and the two best were chosen to take part in the assembly program. A few of the others who took part were as follows: Marjorie Edwards, Joseph Donohue, Richard Black, Betty Durke, Jack Reilly, Paul Bonard, Teresa Britton, Hazel Johnson, Rosana Lunde, Alma Hills, John Vojtk, John Rich, T. Knapp, Marjorie Taylor, Gladys McKinney, Alice Nevus and Katherine Winder.

Miss Harvey finally missed on the word "handpiece" spelling it with an "h" instead of an "a". She is to be given an autographed book of poems.

The "Floating Herald," the Freshman newspaper which has been issued quite regularly throughout the school year printed in its last copy for this year very recently. One item especially has been commented upon and is worth being printed. It reads as follows:

"We have reached the end of the road; the last few sad or glad days of our Freshman year have come and it is time for us to advance to upperclass life. Some of us will have a chance to remain another year in Franklin, as the present Sophomores have done; others will spend the coming year in the Main Building. Regardless of the location of our home-rooms, we are members of the great organization, Manchester High School, and are free to take part in all of its activities, to the best of our abilities. In many ways we feel regret that one-fourth of our High School days are over; again, we are glad to know that our passing to a higher class is a sign to the world, especially to our parents, teachers, and most of all, to ourselves, that we have achieved what we started to accomplish. Therefore, we go forward with confidence and enthusiasm to the work that awaits us, with the hope of still greater accomplishments in the

Kentucky Ball Team Plays Gems Here Tonight

Small Crowd To See World's Title Fight

High Prices Keeping Many By Radio; Gate of About \$300,000 Likely From 40,000 Spectators; Boxers Not Concerned.

New York, June 17.—(AP)—Max Schmeling and Jack Sharkey may put one of the greatest fights of modern times in Madison Square Garden's new outdoor bowl on Long Island next Tuesday night. And if they do, one of the smallest crowds in modern heavyweight championship history may be there to see it. All indications now point to an unprecedented lack of interest among the customers. Those well-known dyed-in-the-wool fanatics who formerly would have thought no more of remaining absent from a heavyweight title fight than of passing up their daily dinner are doing both these things.

MANCHESTER BOY LEADING HARVARD AGAINST TRINITY

Al Lupien, one of Manchester's six college captains who were honored here Tuesday, will lead his Harvard varsity baseball team into Hartford tomorrow for a battle with Trinity. It will be the first appearance of a Harvard team in the Capitol City.

Harvard is playing Trinity as a feature of the "Commencement Day" program. The game will be played on Trinity field and many Manchester baseball lovers are planning to attend the game as a tribute to Lupien. Gil Wright, another former Manchester High athlete of note, is coach of the Trinity team. He will use Ray Adams, his pitching ace. Harvard will save its ace, Charlie Devens for the Yale game. Barry Wood will be in the Harvard lineup.

Lupien is one of the leading batters on the Harvard team. He plays rightfield and bats near the cleanup position. He has hit several home runs this season.

HAINES PITCHES CARDS TO WIN

Veteran Moundsman Regains Arm Power and Mows Down Phillies 2 To 0.

By Associated Press
The St. Louis Cards may be expected to come right along now that the veteran Jess Haines appears to have recovered his form of the last two seasons. Haines was a big help to the world champions last year winning 12 and losing only three but injured his arm about a month before the campaign closed and didn't get a chance in the big series. It looked like the 38-year-old right-hander had lost his effectiveness for good when he dropped three of his first four engagements this season but he seems to have got "right" again.

He signalled his return to form by holding the Boston Braves to five hits a week ago and yesterday gave a convincing demonstration in blanking the slugging Phillies 2 to 0. In addition to holding the Falls scoreless, Jess clinched his victory with a home run in the third inning off Ray Benge.

The Cards castoff, bristly Burleigh Grimes, pitched the league leading Chicago Cubs to a 2 to 1 win over the Giants and broke their six game winning streak. Grimes was deprived of a shutout when Sam Leslie hit a pinch homer in the eighth.

Ray Kolp's great relief pitching after he relieved Larry Benton in the second game Cincinnati a checkered record. He pitched and beat Brooklyn 8 to 6. Pittsburgh was rained out at Boston. The St. Louis Browns of the American League succumbed to Big George Barnshaw of the Athletics 5 to 1. Fred Schulte's home run in the first inning gave the Browns their only score.

Lloyd Brown, Washington southpaw, turned back the Detroit Tigers 4 to 0 with only five hits. Bill Dickie's 11th home run with two outs on base featured the Yanks 8 to 1 victory over Chicago. Rain stopped Boston and Cleveland.

ECHOES, CRESCENTS BATTLE TO 5-5 TIE

Darkness Halts West Side League Contest; Echoes Even Score in Seventh.

The Echoes and Crescents battled for seven innings last night at the West Side ball park and neither team was able to win. Herb Wright and "Hokey" Gustafson engaged in a pitching duel and kept the few hits well scattered. The Crescents nicked Gustafson for six hits while the Echoes gathered seven off Wright. Cole and Gustafson were the only players fortunate enough to get more than one hit. Sully Squatrito caught the entire seven innings for the Crescents and did creditable job. The game was called on account of darkness. Capt. Boggin of the Echoes and Billy Dowd of the Crescents are requested to get together and set a date for the game to be played.

Jack Curtis Pitching For Manchester Outfit

Former Hartford Eastern Leaguers In Lineup of Visitors; Colonels Beat Rockville 6-2 But Lost 7-6 At Waterbury Last Night.

Jack Curtis, Willimantic speed ball artist, will pitch for the Manchester Gems against the Kentucky Colonials this evening at the West Side playgrounds providing the storm clouds do not make it impossible. The game is slated to start at 8 o'clock.

The Kentucky team is said to be composed of high class ball players. Catcher "Woody" Walllett of the Gems watched them beat All-Rockville Wednesday night 6 to 2 and was impressed with the brand of ball they display. Last night the southerners lost a close decision to the Brooklyn A. C. in Waterbury by a score of 7 to 6.

Included in their lineup are several former Eastern League players as well as players from other circuits. Hoeliman and Stamey were formerly with Hartford in the Eastern League. Stamey is slated to pitch here tonight. One of their stars is Howard Derringer, brother of Fast Derringer, pitcher for the St. Louis Cardinals.

The lads from "Ole Kaintauck" wear blue overalls with a large horseshoe design on the front of their jumpers. During practice they wear straw hats but when the game starts change to baseball caps. Walllett said he believes the Colonels a faster team than the House of David. The Gems, undefeated in seven contests, will be as full strength for the occasion and Walter Berg will be on hand as reserve pitcher.

Curtis, when right, comes pretty close to being unbeatable. He has an unusually fast ball with plenty of fast breaking curves to deceive the opposition. Walllett considers him to be one of the most promising pitchers he has ever caught. The rest of the Gems' lineup tonight will

include Sippl, Stratton, Short, Dixon, Dowd, St. John and Fuchs. Ralph Russell will umpire and if possible, nine innings will be played. However, the weather this morning was against one, let alone nine innings.

The Southern Conference record of 9.8 seconds for the 100-yard dash set by Foster of Virginia Military Institute in 1925 has not been broken.

RUBE MARQUARD WINS ON MOUND

Atlanta, Ga., June 17.—(AP)—Old Rube Marquard has returned to his pitching labors in his 41st year. The venerable master who was a sensation 20 years ago, took up a twirling job for the Atlanta Crackers last night and beat Little Rock 4 to 3. It was the first game he had pitched since he was with Jacksonville, Fla., in 1910 and he held the heavy-hitting Arkansans to five hits.

STORM FORCES H. S. CLASS DAY PARTY INDOORS

one upon whom to bestow the Banner of Merit, in recognition of worthy service rendered in the interest of Mankind. Each day there came from the far corners of the Earth, groups both small and large, claiming her recognition, protesting that they are agencies of present or future world betterment. Many indeed are the worthy projects which she has reviewed; many the praises she has bestowed upon their sponsors—doctors, lawyers, men of letters, men of science, inventors, scholars—but no one yet has she found to whom she can say,

"Well done. Within your efforts lies the answer to all problems; upon your shoulders rests the welfare of the world."

But lo, who are these approaching with scholarly aims and eyes alight with the glow of deeds accomplished and dreams to be fulfilled? Your pleasure, Sir?

Enter two travelers. The first traveler speaks: "We are come from a great way off—from the halls of Manchester High School—journeying both day and night since first we set out upon our pilgrimage, four long years ago. We come to make our offering to Civilization through its fair queen, Education, and we beg that it be accepted, humble though she may deem it, as a token of our earnest desire to further the cause of mankind. My Queen, our respects. (Turning to the Queen, all bow.)"

Queen Education: "Spectemur agendo... By our deeds shall we be seen." "What have you to offer as your contribution to the progress of Humanity, to the welfare of the World?"

First Traveler: "Oh Queen. From our earliest days within the halls of M. H. S., we have been guided by the ideal that the good citizen is one who not only has knowledge concerning many things but who uses his learning to the end that his life is fuller, richer, happier because of it and that society is improved by his having had a place in its organization. Knowing the benefits to be derived from good leadership, we selected first from our midst, a quiet, gentle lad, unobtrusive, unknown as yet, but who, to our eyes, presented the embodiment of leadership: a strong body, a keen mind, an attitude of cooperation, a sense of duty, a vision of the full life. James O'Leary started us on our pilgrimage to your shrine, Education, and he presents our final offering to you, still counselling us, still inspiring us, still adding the fruits of his skill and his wisdom to the undertakings of his band. Not only in the start and in the ending, but in the wise in our choice of chairman—through the years of weathering the storms of adjustment and new responsibilities, our course has been kept straight and safe under the guidance of Sylvester McCann and Leonard Bjorkman, worthy men, both, as in our records may be seen. And yet, Fair Queen, this worthy band would not have you think that their task of leadership has been executed entirely through their own efforts—through the aid of the History since time immemorial, they did teach us in M. H. S. and we did find for ourselves, behind governments, behind inventions, behind all deeds of valor and acts of worth, it is to be found the gentle influence of woman. We recall with gratitude and appreciation the assistance of Edwina Elliott, twice-chosen chieftain-aid, Mary Sommerville, Barbara Badmington.

Within the volumes of our faithful scribes, may be found tales of awards received, all in the name of Education, all for the cause of Civilization: to John Lloyd, the "American Boy" prize; to George Marlowe and John Lloyd debating medals; to Barbara Badmington, a National Scholastic award for literary merit; to James O'Leary, the Harvard Book prize and the Olin Scholarship; to members of the commercial department, countless medals for skill and achievement.

Second Traveler: "But you must not think that we have grown haggard and bent from constant toiling with the elusive equation and subjunctive mood, Oh Queen, whose approval we seek. As you search the annals of our growth, you will find recorded there, a development of plans and grace of ability to meet people and to make ourselves agreeable to those with whom we come in social contact. You will smile as you see pictured our assembly hall, lined on one side with sweet, awkward boy-children, on the other side with smiling, hopeful girls, each a radiant flame on the star-bright night of June."

Queen Education: "Spectemur agendo... By our deeds shall we be seen." "What have you to offer as your contribution to the progress of Humanity, to the welfare of the World?"

reading, an increased sense of social obligation as we "Tip-Toe through the Tulips" and our opponents pay to the "Tip-Toe" and our junior school, seeing all the while how our standards of enjoyment are elevating, making us realize the joy of companionship with friends whose interests and ideals are keeping pace with our own. But not even the senior class party could compare with the Junior Prom in the sense of joy and wholesome pride we felt as we watched President Bjorkman and Inga Nielsen lead the march of perfectly groomed, perfectly poised, perfectly happy youths and maidens to their first "formal" dance. The cheap dance hall, and the common cabaret hold no attraction for us, for we have learned the pleasure attainable in worthy entertainment.

Queen Education: "Do I hear no mention of music? Have you no achievement in that field to offer? No life that does not realize the universal appeal of music can be said to satisfy my terms."

First Traveler: "Fair Queen, many indeed are those among us whose lives are made richer through the discovery of musical talent awaiting expression. Who of the participants in our productions—audience or performer—did not find the joy of harmony as they shared together the delightful music of 'The Mikado,' 'Pirates of Penzance,' 'Finlandia'? We have not been selfish with our musical talents for we have been most willing and happy to coordinate our efforts with the community projects, helping many times to execute programs of community planning.

Dramatics, too, have given us an outlet for self-expression, have afforded us the joy of dramatic action between the cheap vaudeville and the wholesome play, have helped us to cultivate a means of worthy use of leisure time.

Second Traveler: "We have been reading, Fair Queen, how important it is the use to which we put our leisure time as economic and social change add to the amount of free time at our disposal. With this thought in mind, have we wisely studied our interests and become identified with organizations which hold out as inducements, 'Fun, Recreation, Companionship.' Many of us have felt our interests widen and deepen through participation in the activities of the H-Y, the Girl Reserve, the French Club and the others of which you read in the records of Somnathis, the mouth-piece of our school.

We have been striving to offer to Civilization, not only mental but physical prowess as well, feeling that a sound mind and so much of our activity has been centered upon physical developments—but without our realizing it, many times, along with physical development, came, through athletic achievement, knowledge of how to work with other boys, to subordinate one's personal desires for the good of the group, how to be a good leader and a good follower. Many of our group have made immortal places for their school on the records of achievement of the O'Leary who holds the high jump and broad jump record in Track; Franz Wittman who, in his junior year, won the individual honors trophy at the Interscholastic meet; Squatrito who was selected as the best high school football player in Connecticut, and who played the game nobly, whether it was football in a thunderstorm or basketball at the Yale tournament or track events at home or abroad.

We laugh and are merry today, Fair Queen, for we have reached the goal—but we are ever mindful of our classmates who were called, one each year, of our pilgrimages, to serve in the Master's Court—Alice Fredericks, Frederick Soranont, Lois Wilcox, Dominic Squatrito. They are gone but their spirits are with us for in each of our activities, we find something of worth they have contributed, something of merit they have given to make our final presentation pleasing to you.

Thus, Fair Queen, we stand before you, offering to Civilization the results of our four years' efforts, hoping that you may find within them elements of the qualities needed to further the betterment of Mankind.

Queen Education: "For many a month, long lines of pilgrims have appeared before me, offering their life work, seeking the Banner of Merit, but from all have I withheld it, confident that, before me, one day, should stand a greater than all that had come before—the Hope of Mankind. And here you stand, your life before you, your journey well begun, your minds and your hearts answering as your eyes catch the gleam of Service. Follow it to the ends of the Earth, carry on as you have begun and in the life of Service, you will find happiness and benediction.

Queen Education awards the Banner of Merit upon which is emblazoned "Spectemur Agendo." The travelers lift again and proudly bear it on with them.

Class Will. The class will was prepared by Edward Fischer, Ida Anderson and Inga Nielsen. They conducted it in the form of a dialogue and proceeded to distribute a lot of clever acerbic comments and a few of the underclassmen, mainly juniors. Various characteristics and peculiarities of the seniors were solemnly requested to the next year's seniors all of which caused much laughter from the students who understood the references. The teachers were not neglected, one of them being asked to leave his ties to a fellow teacher. Antiques, including a couple of shawls, were left for the junior boys. The ability of the class was passed on to 1933 and C. P. Q. was made executor of the testament.

Planting of Ivy. The next act was a solemn one beginning with the planting of the ivy on the base of the main building. O'Leary, Miss Elliott and John Lloyd each deposited a trowel full of earth after which John Lloyd gave the Ivy Oration.

ful in upholding the honor of the school, sadness because we are about to leave the institution that we have learned to love. We shall have only the precious memory and symbolism of the ivy to bind us to our Alma Mater.

We have endeavored for four short years to uphold the high standards of Manchester High School, not only in its academic, debating and social functions as well. We may point with pride to "Somnathis Events", which won the national contest for High School publications in our class, and we may truthfully say that this year's "Somnathis Events" was the best magazine ever published at Manchester High School.

Although our football and basketball teams were not victorious in C. C. I. L. competition, we may look with pride upon their splendid records of sportsmanship. Our track, swimming, and tennis teams which captured C. C. I. L. titles, as well as our baseball team, have established enviable records. The Sock & Buskin Club has proven its worth by its fine performances of many short plays as well as its major production, "Bab". The Glee club, with its presentation of the "Pirates of Penzance", and its several Assemblies, has also shown itself worthy of praise.

Truly, we can be proud of our class in its leadership in academic, athletic and social fields, and we can look back upon our efforts here at Manchester High with sincere pride.

Freshmen: You have shown us that you have the right spirit, we hope that you will carry on until you become worthy Seniors of Manchester High School.

Sophomores: Next year you will be upper-classmen. You have made a fine beginning both in athletics and social fields, and we feel sure that M. H. S. will be proud of the class of 1934.

Juniors: Next year you will have the joy and honor of being Seniors. Yours will be a responsible position. "Somnathis" will be your product. Subordinate to it, work for it, and work for it, so that you may be just as proud of it as we have been. The dramatic and debating teams will look to you for their support. So, also, will the various athletic teams, and the social activities of the school. Remember that it is your job to uphold the standards of our school and to carry on with the fighting spirit of Manchester High School.

Seniors: In a few more days we shall no longer have the honor of being the Senior Class of Manchester High School. We must take leave of our school and of each other to start a new life; but wherever we are and whatever we do, may our memories bring us back to our happy days together. With the presentation of this trowel to the Junior Class, we now resign our position as seniors, the even greater responsibilities of life.

I say, F. E. Smith, Buckland. The response was given by President Thomas McParland of the junior class as follows:

JUNIOR RESPONSE. By Thomas McParland, President O'Leary, Seniors, undergraduates, and friends: In the name of the Junior Class, I accept this trowel and with it the obligations to you Seniors and to Manchester High school of doing our utmost to uphold the honor of our school as the class of 1933 has done.

We hope that next year's athletic teams will do as well as those of this year have done. We will do our best to keep present league championships in the school and will fight for new ones.

Many of our clubs have been successful through the efforts of the Seniors. The Dramatic and Glee clubs presented many admirable performances and the school orchestra and band has provided much entertainment throughout the year. Last year the class of 1932 made several promises to keep up the activities of the school and these promises have been faithfully executed.

Today, these duties and the responsibilities of the Senior Class become ours. We will try our hardest to be worthy upper classmen; worthy of the name you have made before us and worthy of the pace you have set for us.

In bidding you farewell, I wish to extend my sincere congratulations to the Senior Class upon the close of a happy and successful year.

Principal Quimby then gave out the following awards:

Book Prize. The Harvard Club book prize awarded to that boy in the junior class who has the best record for scholarship and achievement for the season with eleven victories and three defeats, taking second place in the C. C. I. L. gold letter "M" class, was given to his name, principal, was sent from the principal, was sent to Captain: Otis "Buddie" Kerr and letters were given to the following players: Otis Kerr, James O'Leary, Raymond Berger, Dominick

Squadrito. When the letter and medal were held up for Dominic Squadrito, Mr. Quimby quoted the tribute given by President O'Leary on behalf of the State Athletic Conference when he dedicated the State Track meet at Yale to our deceased athlete: "Entry 198 is absent from the lists today, but he is remembered as a pay tribute to the memory of Dominic Squadrito, a sterling athlete of Manchester High School. He will long be remembered as an outstanding boy, not only in sportsmanship, but character and he will be remembered thus not only in the hearts of his fellow students but all who knew him."

Captain Franz Wittman then stepped forward and gave a short but splendid address to the members of the track team. He spoke of "Squats" ability as a performer and his inspired leadership as a teammate. Wittman was particularly fitted to give this tribute as he and Squats had run many races together and each knew the worth of the other.

Present Photo. At the conclusion of his remarks he then presented to the school, as a gift from the members of the team, an enlarged framed photograph of Squadrito. Mr. Quimby accepted the gift for the school with a few words of added praise for the sterling young man whose face we shall be glad to look at as we go about our school duties in the hope that we may catch and carry on the spirit of buoyancy and cheerfulness which he always spread around him. He then directed the team to go in a body and hang the photograph on the wall at the bottom landing of the stairs at the north

entrance, on their sad but inspiring mission.

Previously Captain Wittman had presented to Coach Wigren a gold plaque as a token of esteem, who has been so successful in training and directing the fortunes of the track teams of the school for the past 10 years. Coach Wigren responded with a few words of praise to the boys who had worked so faithfully to make their victories possible.

After the presentation of awards, Mr. Quimby congratulated the class on the completion of their high school work and turned the program back to President O'Leary. He raised his green and white ribboned baton and the class rose to give cheers to the under classes which were promptly shouted back to the seniors by the classes themselves.

New "Somnathis" Issued. The last issue of "Somnathis" was circulated today around school and appeared with a green cover, green and white being '32's colors, with the words Somnathis and the letters M. H. S. in black ink. The book was dedicated to Dominic Squadrito whose picture appeared in the front of the book. The following piece appeared in memoriam of Squadrito and was written by James Toman '32.

In Memoriam. DOMINIC SQUATRITO. A comet came from out the eastern sky, Leaving behind a dazzling trail of light That pierced the inky blackness of the night With scarlet splendor, dazzling the eye. He was a human meteor, keen of mind, Swift as the lightning flash, powerful of frame, Till cruel Disaster's heavy gauntlet And crushed him, leaving only dust behind. Can he be gone? It was not long ago He stood triumphant on the battlefield Amid the mighty roaring of the crowd. The sky is dark again, but still we know His soul is free although his lips are sealed. He is not dead. He lives beyond the cloud. James Toman.

Another item which always appears in the year book is the "Who's Who" which reads as follows: Best actor, Roger Cheney; best actress, Freda Clegg; best athlete, boy, Dominic Squatrito; best athletic girl, Ida Reichenbach; class belle, Gerald Chappell; cutest boy, Gunnar Johnson; cutest girl, Freda Clegg; class clown, George Marlowe; class snob, Ruth Lusk; most original girl, Anne Tivnan; most popular boy, James O'Leary; most popular girl, Beatrice Perrett; greatest quantity of line, Roger Cheney; most successful line, Anne Tivnan; class snob, Ruth Lusk; most original boy, Raymond Pratt; most original girl, Anne Tivnan; most artistic boy, Raymond Pratt; most artistic girl, Eunice Brown; most personality, boy, Foster Levitt; most personality, girl, Barbara Badmington; class shiek, Chester Goving.

The last issue of "Somnathis" was circulated today around school and appeared with a green cover, green and white being '32's colors, with the words Somnathis and the letters M. H. S. in black ink. The book was dedicated to Dominic Squadrito whose picture appeared in the front of the book. The following piece appeared in memoriam of Squadrito and was written by James Toman '32.

In Memoriam. DOMINIC SQUATRITO. A comet came from out the eastern sky, Leaving behind a dazzling trail of light That pierced the inky blackness of the night With scarlet splendor, dazzling the eye. He was a human meteor, keen of mind, Swift as the lightning flash, powerful of frame, Till cruel Disaster's heavy gauntlet And crushed him, leaving only dust behind. Can he be gone? It was not long ago He stood triumphant on the battlefield Amid the mighty roaring of the crowd. The sky is dark again, but still we know His soul is free although his lips are sealed. He is not dead. He lives beyond the cloud. James Toman.

Another item which always appears in the year book is the "Who's Who" which reads as follows: Best actor, Roger Cheney; best actress, Freda Clegg; best athlete, boy, Dominic Squatrito; best athletic girl, Ida Reichenbach; class belle, Gerald Chappell; cutest boy, Gunnar Johnson; cutest girl, Freda Clegg; class clown, George Marlowe; class snob, Ruth Lusk; most original girl, Anne Tivnan; most popular boy, James O'Leary; most popular girl, Beatrice Perrett; greatest quantity of line, Roger Cheney; most successful line, Anne Tivnan; class snob, Ruth Lusk; most original boy, Raymond Pratt; most original girl, Anne Tivnan; most artistic boy, Raymond Pratt; most artistic girl, Eunice Brown; most personality, boy, Foster Levitt; most personality, girl, Barbara Badmington; class shiek, Chester Goving.

When the letter and medal were held up for Dominic Squadrito, Mr. Quimby quoted the tribute given by President O'Leary on behalf of the State Athletic Conference when he dedicated the State Track meet at Yale to our deceased athlete: "Entry 198 is absent from the lists today, but he is remembered as a pay tribute to the memory of Dominic Squadrito, a sterling athlete of Manchester High School. He will long be remembered as an outstanding boy, not only in sportsmanship, but character and he will be remembered thus not only in the hearts of his fellow students but all who knew him."

Captain Franz Wittman then stepped forward and gave a short but splendid address to the members of the track team. He spoke of "Squats" ability as a performer and his inspired leadership as a teammate. Wittman was particularly fitted to give this tribute as he and Squats had run many races together and each knew the worth of the other.

Present Photo. At the conclusion of his remarks he then presented to the school, as a gift from the members of the team, an enlarged framed photograph of Squadrito. Mr. Quimby accepted the gift for the school with a few words of added praise for the sterling young man whose face we shall be glad to look at as we go about our school duties in the hope that we may catch and carry on the spirit of buoyancy and cheerfulness which he always spread around him. He then directed the team to go in a body and hang the photograph on the wall at the bottom landing of the stairs at the north

entrance, on their sad but inspiring mission.

Previously Captain Wittman had presented to Coach Wigren a gold plaque as a token of esteem, who has been so successful in training and directing the fortunes of the track teams of the school for the past 10 years. Coach Wigren responded with a few words of praise to the boys who had worked so faithfully to make their victories possible.

23 MEN KILLED, 63 ARE INJURED BY TANK BLAST

The sleeping quarters of the crew of 34. Several of the sailors were thrown into the water and rescued by rowboats. Others stumbled about until they found a way out. All the crew were saved, although many of them were injured.

Stream of Flames. The final blast sent streams of flaming oil along the decks of the vessel. Its force threw men away from fire hose. The blasts threw several injured men into the water, their clothing aflame.

Tears streamed down the faces of the firemen when they learned their chief was dead. He had been noted for his courage and was always in the thickest of the battle in his many fights with flames. His body, missing for several hours, was found between the vessel and the dock.

The work of rescue was seriously impaired by the effect of the heat. The steel plates of the Cymbeline were so hot that the interior of the ship could not be penetrated until nearly noon.

Seek Relatives. As the dead and injured were carried away, women and children sought to break through police lines to determine whether their relatives were still alive, and searched the faces of each of the victims.

Several hours after the series of explosions there was some apprehension that another detonation might occur and the vicinity of the docks was cleared. Firemen, however, continued their fight with the flames until the fire finally was under control.

Within eleven months now Chile has been governed by four presidents and two juntas and has experienced a naval revolt and a dozen attempted revolutions, but it has not seen as exciting a few hours as last night when the armed forces stormed into the city and trained artillery upon the palace, and airplane escort, in the moonlight and the glare of rocket lights.

New Haven, June 17.—(AP)—A request by the State banking department for appointment of James E. Wheeler as temporary receiver of the closed Mechanics Bank was opposed in Superior Court today by David M. Reilly, city corporation counsel.

Reilly contended George J. Bassett, state banking commissioner, had no right to suggest a receiver, but said the city had such a right because it was the largest depositor. He offered the name of David E. Fitzgerald, former mayor.

Judge John Richards Booth held over the receivership action until next Tuesday. Attorneys for the State said the action would be necessary to conserve the bank's assets.

street, the loyal troops and carabinieri began a general desertion and Grove and Matte were left virtually without defense.

The attackers gave them until one-thirty a. m. to come down. From the palace came the colonel's defiance that he would die before he was taken or before he would surrender. Bursts of firing followed this announcement. At 2 a. m. the besieging forces moved into the palace and seized him and Matte.

The first designations for the new ministry today showed an amalgamation of old and new elements, apparently an attempt to consolidate all moderate forces.

General Arturo Puga, a member of the old junta, was named minister of defense. Puga, who like Davila, furnished the Socialist inspiration for the revolt which overthrew President Montero, was a member of the Socialist Junta until he was forced out by Colonel Grove June 12.

He had resented Colonel Grove's unfriendly attitude toward foreign interests and his friendliness with extreme radical groups.

Senator Enrique Zamarano was named minister of finance and Juan Antonio Rios minister of interior. Davila the Leader.

The new government, it was announced, will follow the policies of Davila, as the former junta intended to do until Colonel Grove began to dominate it.

Other members of the Cabinet chosen, subject to final approval, were: Foreign Affairs, Luis Barrios; Justice, Ramon Perez Pena; Labor, Santiago Wilson; Agriculture, Arturo Riveros, and Development, Victor Vazquez.

The education and health ministries were not filled.

PRESIDENT POSES FOR CAMERA MEN

elk hound, "Wesje," insisted upon inserting himself into the scores of pictures, and Mr. Hoover obliged by having him sit up on his haunches. At other times he held him in various positions, while the veteran vice-president contributed a playful pat or two to the friendly dog.

Afterward Mr. Hoover and Curtis posed for an unusual picture, moving willingly to stand in the midst of nearly a score of cameramen, while one of their colleagues took the picture.

All this occurred just before the start of the regular Cabinet meeting. That gathering did not sit down in the Cabinet room until long after the usual time.

Hoover's sales tax plan may be all right, but from the way the Senate acted, his sales talk wasn't strong enough.

LATEST STOCKS

New York, June 17.—(AP)—A slow downward drift developed in the Stock Market today, as buying power appeared to have exhausted itself.
German bonds parked up in both the London and New York markets, as the Lausanne conference appeared to have opened auspiciously, and sugar remained a firm spot in the commodities, but traders in stocks seemed dispirited at the list's apparent inability to push through the resistance level encountered in the rally of a fortnight ago.

MUSSOLINI SCORES U. S. IN INTERVIEW "America Has No Policy," He Says, and "Democracy Is Nothing."

London, June 17.—(AP)—Premier Mussolini was quoted in an interview published today by the Daily Express as caustically criticizing the United States and Democracy generally and predicting a long series of "political, economic and military wars" for the world. "America has no policy," the report quoted him as saying, bitterly and with "sardonic contempt." This was in reply to a suggestion that the United States was "one of the life belts to which idealists are clinging for salvation in the world crisis." He summed up his impression of America, the correspondent said in two words—prohibition and Lindbergh. (evidently referring to the kidnaping of Charles A. Lindbergh, Jr.)

Must Go Wet "Dry America will never find herself," he was reported as saying. "She must go wet to find herself. In the meantime Europe is drifting to disaster and revolution." Smiling derisively, the correspondent said, Mussolini then turned his guns on democracy. "Democracy is nothing," he said. "The people are nothing. In every country they are weary of talk. They need men of action. They cannot save themselves. They need saviors." And he added: "There are no saviors." For the future, he was quoted as saying he foresaw a long series of wars. "There is war now," he added. "The era of reparations is ended" and he added "if Germany says 'no' Italy also will say 'no'."

URGES WHIPPING POST FOR GASTON B. MEANS

Washington, June 17.—(AP)—Two days of whipping and then hanging was urged in the House today by Representative Blanton (D, Tex.) for Gaston B. Means. As discussion of a Federal kidnaping bill began, Blanton said: "This bill should be amended to cover cases such as that of Gaston Means. His crime was one of the most despicable and heinous ever committed. They ought to put a whipping post outside this Capitol, tie him to it and whip him for 48 hours. And then they ought to hang him." Means has been sentenced to fifteen years imprisonment for obtaining \$104,000 from Mrs. Evelyn Walsh McLenn in a plan supposedly to recover the kidnaped Lindbergh baby.

Dickson, making a three stop flight with three passengers yesterday, computed his flying time for the 2,490 mile trip from Newark to Santa Monica as 14 hours, 49 minutes. He said the elapsed time was two hours more. Stops for food and fuel were made at Indianapolis, Wichita, Kansas, and Albuquerque. On February 28, 1931, Allen Van De Mark flew from east to west coasts with three passengers in 15 hours 45 minutes flying time, landing at Los Angeles, 16 miles east of here.

**COUNTRY CLUB PLANS
REVERSIDE PARK DAY**

Soda Company's Annual Program To Include New Features This Year - Cash Prizes Offered.

The fourth annual Country Club Day at Riverside Park, an annual highlight in the outing calendar for the youngsters of Western Massachusetts and the Connecticut Valley, has been set for Wednesday, July 25, by the officials of the Country Club Soda Company. The outing program for this year will include numerous new features. Cash prizes totaling \$100 in gold for the winners of athletic events, also \$500 in other cash prizes for boys and girls under 16 will bring the greatest number of Country Club bottle caps to the park on that day, are expected to make the attendance this year exceed former records.

In discussing plans yesterday, Herman A. White, secretary of the soda company, said the popularity of the annual outing which thousands of youngsters in this vicinity have come to look forward to led to the decision to continue it this year, despite the depression which has caused a "weather eye" to be cast toward the expense of such affairs by their sponsors.

Approximately 30,000 persons expected. Preparations are being made by the soda company's executives to handle a crowd of at least 30,000 persons, principally youngsters. Many of the park's amusement concessions, including the swimming pool, the ferris wheel, roller coaster and other sources of fun and frolic, will be reserved exclusively for the young Country Club guests. The outing will be open to grown-ups as well as children.

A treasure hunt, in which merchandise prizes will be awarded for finding a mysterious "X" Country Club"; a vaudeville show, clown bands and the Country Club "Ginger Boys" radio-broadcasting orchestra are some of the highlights of the tentative program. Announcement of additional amusements and entertainment features will be made later.

Boy Scouts and special police officers will assist in preserving order and guarding against accidents. An emergency hospital will be established on the day and Dr. Alfred M. Glickman, well-known Springfield physician will be in charge.

Caps from Country Club bottles will serve in lieu of tickets for admission to the park, parking and for the many amusement concessions being provided by the Country Club company for the entertainment of its outing guests.

A system is being arranged for speedily handling the bottle caps which youngsters will bring to the park in the 200 cash prize contest. The judges' committee will consist of Roy C. Chapin of the Union Trust Company, Sheriff David J. Manning and Chief of Police F. J. Hovey of Agawan.

Recent callers on Mrs. Mary E. Toffi and Mrs. Rosella Waldo at the Waldo home where Mrs. Howard Hart and daughter, Miss Myrtle Hart, of Cromwell, also Mrs. Hart's sister, Miss Eva Jones, a Hartford teacher, formerly of this place, Mrs. Waldo's son-in-law, Asa W. Toffi of Gilead was also a caller.

Mr. and Mrs. Grinton I. Will spent the week-end in New York City. Mr. Will graduates this week from Wesleyan University, Middletown.

Graduation exercises for those completing the eighth grade in the public schools of the town take place Friday evening, June 17, at the Hebron Center Congregational church, at 8 o'clock, daylight time. There will be ten graduates. The unit of work as planned for the graduation will be "How George Washington Influenced the Life of Today." The story to be told in four acts; first, the portraying of the conditions of the country in Washington's time through the medium of a quilling party. Second, influences in Washington's childhood through games and negroes on the plantation. Third, his private industry, surveying and farming. Fourth, the climax of his political career comes with his inauguration, followed by the inauguration ball. The epilogue bears the message of "Universal Peace Extended to all Mankind Through the Ages."

The graduating class of the Hebron schools planted a Washington tree, an evergreen, on the Soldiers' park, Tuesday afternoon, with appropriate ceremonies. A carved wooden marker, made by John Gonci, a member of the class, is to be placed at the base of the tree as a permanent memorial.

Nine acres of land, the location of which had been lost sight of by the town has finally been located after several years. It was transferred in 1922 from Agnes and Stephen Polson to Joseph Erimbile. The tract is mostly in Bolton, the nine acres being all the Hebron acreage. Accumulated taxes amount to about \$40, and the land will be sold. The land is practically surrounded by the property of the Misses Foster in Gilead.

Albert W. Hilding is having a vacation from his duties as mail carrier this week. J. Banks Jones is taking his place on the mail route.

Mrs. Charles Hilding was winner of first honors at a two table bridge party held at the home of Mrs. Edmund H. Horton Tuesday afternoon.

My Platform is a full cereal bowl

IF SOME ONE could canvass the youngsters of the land for their favorite breakfast dish, he'd find a landslide vote for Kellogg's Corn Flakes. Every morning of the week, these crisp, toasted flakes start the day in millions of homes.

And what's better than a bowl of crunchy Kellogg's, served with cool milk or cream and fruit? Flavor that appetites can't resist. So easy to digest it furnishes rich energy for work, play—or just for feeling fit!

Mothers also appreciate the convenience and economy of Kellogg's. No cooking or trouble. Many servings from a package costing but a few cents.

Serve Kellogg's Corn Flakes for the children's evening meal. Kellogg's encourage restful sleep—how much better than heavy, hard-to-digest foods.

You'll prefer genuine Kellogg's. No other corn flakes have such flavor and freshness. For Kellogg's always reach you oven-fresh—because the flakes are completely sealed in an inside WAXTITE bag. It's a patented Kellogg feature. Look for the red-and-green package. Made by Kellogg in Battle Creek. Quality guaranteed.

wich and four other Grand Army men from Bridgeport, Waterbury and Danbury were present. After receiving the guest of honor, the committee from Mary C. Keeney tent put on a program of entertainment. RAIN BIG HELP TO GARDENS HERE

Steady Downpour Welcomed By Farmers—Has Rained Now Two Days.

Whatever temporary discomfort the heavy rain of the last few days has brought to travelers has more than been offset by the world of good which the rain has done for all kinds of fruits, gardens and flowers. The present storm, which began Wednesday night, has continued off and on and at noon today the rain was still coming down hard. While there was a possibility of a sudden clearing, it seemed more or less of a certainty early this afternoon that the rain would force a postponement of the baseball game between the Manchester Cubs and Kentucky Colonels slated for the West Side playgrounds this evening. Rain also interfered with the Class Day plays at Manchester High school forcing them indoors. Farmers were delighted over the steady, heavy rain as it will give their crops an advantage over any drought which may come later in the summer. There was some lightning and thunder last night but no damage here. It was reported that the Traveler's Tower in Hartford was struck but if so the damage was so slight that it was not possible to detect it.

going a hernia and if so, you should be wearing the proper kind of support to keep the lump in place while you develop your abdominal muscles through exercising. As soon as the muscles are strong enough to hold the peritoneum in place, the trouble will be cured. Cut down on the quantity of food you are using so the abdomen does not protrude, and avoid all gassy foods.

(Spots Before Eyes)

Question: Mrs. Valerie Q. asks: "Will you tell me the cause of flying cobwebs in front of the eyes? Some days I think I will go wild with them, they make me so nervous. I have glasses but they do no good. I am 46 years old."

Answer: The condition you complain of is due to some derangement of your system, probably caused by a sluggish liver. A fasting and diet treatment to correct such sluggishness will bring about a quick temporary relief, but it will take a long

(Artificial Tension)

Question: L. asks: "What is artificial tension? How do we know when we have it?"

Answer: The amount of arterial tension which you have is determined by an examination with a blood pressure meter which every doctor uses in his office. Such artificial tension may come from hardening of the arteries or from nervousness which causes the arteries to become contracted most of the time.

HONORS FOR AMELIA

HIS HEALTH IMPROVED 40%

After Use of Kellogg's ALL-BRAN

If you are constipated, read this letter which Mr. Murray had attested by Notary Public:

"Two months ago I commenced using Kellogg's ALL-BRAN to relieve constipation. I am in better health today than I have been in years. The use of your wonderful bran. My bowels move regularly, and my general health has improved 40%." — George A. Murray, 288 K Street, South Boston, Mass.

Laboratory tests show ALL-BRAN brings two things needed to correct common constipation: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. ALL-BRAN also furnishes iron for the blood.

The "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body, it forms a soft mass. Gently it clears the intestines of wastes.

How much better to use ALL-BRAN than to abuse your system with pills and drugs—often harmful.

Two tablespoonfuls daily will overcome most types of constipation—in serious cases, with every meal, if your intestinal trouble is not relieved this way, see your doctor.

Use as a cereal with milk or cream, or in cooking. At all grocers in the red-and-green package. Made by Kellogg in Battle Creek.

GAS BUGGIES—Poor Papa Hem

By FRANK BECK

"One seal, that played the big bass horn, made notes come out that were forlorn. 'It sounds just like a fog horn,' said Duncy, with a grin. 'Each note that's played sounds just the same, but that poor seal is not to blame. Why, look! The seal has puffed so hard, I think he's getting thin.'"

SENSE AND NONSENSE

"No man should make a bigger garden than his wife can hoe."

Cheer up! Summer time is here. So long as you have the old bus and ten gallons of gasoline, the world is before you.

SPLINTERS: A man can never be a true gentleman in manner until he becomes a true gentleman at heart. Too many people think they are broadminded when they merely are too lazy to form an opinion. . . . Doctors agree that by the time a fellow gets so he can handle a crutch, he's well enough to walk with a cane. . . . It is possible, too, that the assets might not have frozen so hard had there been less water in them to begin with. . . . The safest way on earth to keep out of trouble is at once the simplest and the hardest. It's keeping one's mouth shut. . . . A movie star has to worry about many things, including the following—some girls expect a man to bring enough sunshine into their lives to give them a coat of tan. . . . An amateur never knows how bad he is until he tries to turn professional. . . . Reports note an increase in the production of boloney. Well, isn't this presidential year?

A passenger on a street car noticed that the conductor was behaving strangely. At each stop he ran to the front of the car and dangled a piece of string in front of the motorman, who swore roundly. Finally, the passenger asked: "Conductor—What's the idea of this little game you're playing with the motorman?" "Conductor—Well, it's like this. My motorman has no sense of humor. His brother was hung this morning."

AUSTRIANS CHECKED

On June 17, 1918, a strong force of British and Italian allies massed in the regions of Asiago and Monte Grappa and succeeded in checking a determined Austrian advance on this front. Many Austrian prisoners were taken.

West of the Po river, however, opposite San Dona di Piave, Austrians extended their positions and captured Capo Sile.

French troops between the Oise and Aisne, near Hautebraye, on the western front, improved their positions. American troops were subjected to one of the heaviest gas attacks they had received during the war.
