Confines His Remarks To Prohibition On His Arrival In Chicago—Silent On Plans To Stop Roosevelt Or On Platform.

Chicago, June 22.—(AP)—A call for repeal of the 18th Amendment and immediate modification of the Volstead Act came from Alfred E. Smith today shortly after the campaign of 1928 had arrived to dispute the nomination of his former political friend, Governor Franklin D. Roosevelt.

His first statement on the convention scene, however, was restricted entirely to prohibition. It gave no hint of the intensity of the party dispute that was stirring leaders, made no mention of Roosevelt or of the coming contest over permanent chairmanship of the convention which will bring the first test of the strength of the Roosevelt forces.

AMELIA EARHART AGAIN DECORATED

Receives Medal From Geographic Society—Praised By the President.

Washington, June 22.—(AP)—Small modesty protesting that it was "too great an honor," Amelia Earhart Futnam found herself today officially enrolled in the small but gallant band of geographic pioneers. The tousel-headed, slightly freckled young woman who flew the Atlantic solo to make good her distinction as the first woman transoceanic airplane passenger, last night received from President Hoover the 14th gold medal of the National Geographic Society, the only such medal ever given to one of her sex.

With it, she received as well a commendation for her courage, her modesty and good humor, plus "ability to accomplish the most difficult tasks that she set herself to do."

President's Tribute

The President went even further: "All these things combine to place her in spirit with the great pioneering women to whom every generation of Americans has looked up, with admiration for their firmness of will, their strength of character and their cheerful spirit of comradeship in the work of the world."

But Mrs. Futnam who refused to admit this high merit, insisted she had really done nothing for aviation and that her feat was a "gesture of personal satisfaction."

The medal presentation climaxed a day of high honors. She had stood on the floor of the Senate—rare privilege for man or woman—and shaken hands with members who were lavish in congratulations. From a gallery she received the cheers and applause of the House. She lunched with the officers of the Geographic Society and dined with the President and Mrs. Hoover.

Today she set off again, back to New York for more honors, beginning with a luncheon at the Explorers' Club.

ROCKVILLE

MUST PAY DAMAGES CAUSED BY BRUSH FIRE

Columbia Man Assessed \$160 and Costs of Court in Suit Brought by Neighboring Land Owner.

The Tolland County Superior Court was in session on Tuesday with Judge Foster on the bench. A case which took up most of the day was that of Stephen Eisler vs. Nick Naumec of Columbia. It is alleged that the latter set fire to some brush on his place in that town on April 30, 1930, starting a blaze which burned over seven acres of land. The fire warden of Columbia helped to put out the fire and left. The blaze again started in the afternoon and spread over 80 acres of woodland belonging to Eisler. Naumec was tried in a justice court in Columbia and found guilty of burning brush without a permit. Eisler's suit was brought in the Superior court last fall and was put over until this month. Judge Foster awarded the plaintiff judgment for \$160 damages and costs of the court. Naumec is employed at the paper mill in Andover and is the father of twelve children.

In the case of Kenneth B. Noble of Hebron vs. Clara B. Lyman et al the foreclosure of a mortgage was granted. Judgment in foreclosure was granted in the case of Myron Kemp vs. Albert E. Tuttle. The estate of Mrs. George T. Stafford Springs was granted a divorce from her husband, Emilio Manfredi, on grounds of desertion. The couple have two children who are with the mother.

Several cases were stricken off the docket.

County Home Graduation

Graduation exercises took place at the grounds of the Tolland County Temporary Home for children at Vernon Center on Monday afternoon. A colonial pageant "The Old Picture Book" was presented by a large group of children. The costumes were made by the pupils. The picture book was made by Enrico Lusa and Alton Maine. The book was supposed to come to life and as the numbers were announced the children walked out of its pages.

Rev. George T. Sinnott, pastor of St. Bernard's Catholic Church, gave the invocation. The program included songs of Washington's day, negro spirituals, war dances, colonial dances and maypole dance.

Following the pageant County Commissioner Harry C. Smith presented the two pupils of the graduating class with diplomas. They were Robert Newell and Henry Vanasse. The teachers are Miss Sylvia E. Nearman and Miss Helen Hunter.

After presenting the diplomas, County Commissioner Smith presented to Mary Rodvan an honor pin for attaining the highest rank in conduct and deportment during the school year. The pin is the gift of Edwin Gould, New York philanthropist and head of the Gould Foundation for Children, who is a personal friend of Superintendent Albert S. McClain.

Refreshments of punch and cookies was served the people present at the graduation following the program. The people then enjoyed inspection of the home, grounds and new gymnasium.

CONVICT RECAPTURED

New London, June 22.—(AP)—James Butler, 27-year-old negro who escaped yesterday morning from the State Insane Asylum at Preston was captured by guards from the institution at Gales Ferry this morning at 7 o'clock. The negro was recently transferred to the asylum from the Wethersfield State Prison where he was serving a 15-year sentence for assault with intent to kill a New Haven negress.

Butler slept last night in a coal pocket at Ally's Point on the Thames River, several miles south of Preston. He was seen leaving the pocket shortly before seven o'clock by a watchman who notified the State police and the asylum officials that the negro was walking down the New Haven railroad tracks toward Gales Ferry. Guards and troopers rushed to Gales Ferry but the guards reached there first and apprehended the fugitive. He offered no resistance.

While the Democrats are debating about various convention officials, they might do well to choose a competent referee.

QUEER TWISTS IN DAY'S NEWS

Chicago—A big fly kept lighting on Paul Bunyan, a racehorse. Driven frantic by the itch, Paul decided to get that fly. He hid his time until it landed on his chest and then he took a quick bite at it. The fly flew away and Paul took such a sizeable bite of his own chest that he had to be excused from the race at Washington park.

Fort Scott, Kas.—Hollie Dennis, schoolmarm, who was always a sticler for promptness, decided to become a candidate for county clerk. When she arrived to file her papers she found she was three hours too late.

Acton, Cal.—J. R. Riley's hired man will sleep indoors in future, no matter how hot it is. One warm night recently he made his bed beneath the stars and in the morning Riley found him snoring with a diamond back rattlesnake curled up on his chest. Riley got his gun and snipped the reptile's head off with a bullet.

Athens—Allos Diplarakou, "Miss Europe of 1930," dressed as a ship's boy, sailed holy Mount Athos and entered a monastery where nothing female is allowed—not even a cow or chicken. The Greek Patriarch of Constantinople is understood to have pronounced "public anathema" on her head for the stunt.

Bahia Blanca, Argentina.—The march of progress was something Senora Silva Paula knew nothing about. She lived all of her reputed 120 years in the territory of Pamper but never, until she was brought to a sanitarium here, did she see a train, telephone, street car or electric light.

Washington—The "wuxtree" lads are feeling better. Uncle Sam has ruled that when they are admitted to baseball parks to sell papers they don't have to pay admission taxes.

El Paso, Tex.—Thomas F. De la, 79, is settlin' down. After a lifetime of fighting Indians, rebels, outlaws and bandits on the western frontier, the Arizona deserts, Texas plains and Mexican mountains, this old U. S. Army officer is retiring. His first post was in New Mexico, and since that assignment he has done a great deal to settle the southwestern part of the United States.

JAPANESE MURDER GERMAN MISSIONER

Was On Way To Deathbed of Friend When Attacked by Jap Soldiers.

Peiping, China, June 22.—(AP)—British Nationals were advised today to evacuate the territory around Chientao, on the Korean border in Kirin province, Manchuria, following the alleged slaying of a German Catholic missionary, Father Conrad Rapp, by Japanese soldiers. The British Nationals were advised to leave because of fear of anti-foreign uprising. It was believed here no Americans were in the region.

Missionary reports received here said Father Rapp was hurrying on horseback to the deathbed of a colleague stricken with typhus when he was halted at night by a Japanese military picket.

When he produced his identity card, the report said, the Japanese pulled him from the saddle, declaring he insulted the Imperial Japanese Army by falling to dismount. The soldiers then beat him until he was unconscious, the reports said, dragged him to a deserted stream bed and shot him, burying the body in the sand.

Photographs of the body showed the priest was shot through the heart and abdomen and bayoneted in thirty places. It also was reported his skull was crushed, his nose broken and both arms smashed. The German Legation here instructed the German consul-general at Mukden to proceed to Chientao to investigate the case.

The Manchester chapter will have a delegation to represent them in the parade on Saturday and as the convention is being held under their auspices a number of the members will have to be on the grounds early and therefore cannot march to show the full membership of the chapter. The members have been busy during the past few months making their uniforms for the parade. Benson & Son, local sign painters.

DEFENDS HAWAIIANS

Chicago, June 22.—(AP)—Clarence Darrow says he regards as "unfair and unjust" any movement to deprive the Hawaiian islands of the right of local government because of the implications of the Masie case.

"From my investigation there during my stay," he told the City Club yesterday, "I made up my mind the Hawaiian people were as good as the Americans—and some of 'em better; that a woman was just as safe in Honolulu as she was in Chicago or New York."

"I think this movement to deprive the islanders of their right of self-government is terribly unjust and so far as I could take any part in it, I have defended them."

He added that the people of this

country "have their second wind on the question and no longer can be stampeded by sensational papers and politicians."

COW RETURNS, FOUND STRAYING IN THE WOODS

That which was lost is found—namely, the cow owned by Arthur R. Woodbridge, Manchester Green farmer, which deserted its first calf last Sunday evening and disappeared into the wildwood. The animal was discovered by Reuben Britton, as it strayed through the woods in the vicinity of Manchester Green. It is the age-old story of the prodigal son, only in reverse—this time it's the prodigal mother returned to her son.

RECEPTION OF FIGHT BROADCAST IS POOR

Local Listeners Say Static Was Terrible and At Times Announcer Could Not Be Heard.

Radio reception for the Sharkey-Schmeling world's heavyweight championship boxing contest in New York last night was very poor, judging from general about-town comment here this morning. Static was particularly noisy and at times listeners could not hear the ring-side broadcast. Comment also was to the effect that the Sharkey decision came as a big surprise. The radio description indicated that Schmeling had a clear and convincing ad-

vantage in the closing five rounds of the fight. It was reported that the title he won on a foul from Sharkey. Listeners could scarcely believe their ears when Sharkey was announced as the winner.

So poor and unsatisfactory was the radio broadcast that newspaper reports were in great demand for more reliable information on the fight.

If husbands had to do the housework—there would be more ALL-ELECTRIC HOMES

Does FRIEND HUSBAND use the quill pen of the nineties, write his letters in longhand, and use his brain for an adding machine? Does he use the same tools in the shop his father used before him? He does not!

What a boon it would be to all womankind if a wand could be waved and men set to work at women's tasks for six months. There would be more electric ranges, refrigerators, and hot water heaters installed than at any time in history.

The Lady of the House deserves the same consideration in her job as the man in his—that is, the most modern equipment available. It's good economy and good judgement on your part, Mr. Husband, to see that she gets it, for the benefits are innumerable.

Efficiency, like many other virtues, should begin at home!

Husbands. Electricity is cheap. Figure it out on dollars and cents basis.

How much are you now paying for cooking, refrigeration, hot water heating, and miscellaneous services? Compare this total with the one bill for electricity you would have in the all-electric home. (We will give you an estimate.)

We will furnish an estimate with no obligation to you.

The estimate implies not the slightest obligation to you and you get it simply by asking for it, either by personal call or letter.

CUT ARMS ONE THIRD, HOOVER TELLS WORLD

(Continued from Page One) Italian strength in cruisers and destroyers has been calculated as though they had joined in the Treaty of London on a basis approximating the so-called accord of March 1, 1931. There are various technical considerations connected with these naval discussions which will be presented by the delegation. General Effect: "General. The effect of this plan would be to effect an enormous saving in cost of new construction and replacements of naval vessels. It would also save large amounts in the operating expense in all nations of land, sea and air forces. It would greatly reduce offensive strength compared to defense strength in all nations."

Creager, of the Conoco Golf Club, Okla., enclosing a card closing the card of a four-ball match which, for low scoring by the quartet, rather lays in the shade any similar round I ever saw, or heard of.

ABOUT TOWN

Color bearers of Anderson-Shea Post may secure flags for the convention from Mrs. Elizabeth Phelan at New Britain instead of at the Armory as previously arranged.

Miss Mary E. Quish, daughter of Mr. and Mrs. John J. Quish of 69 North School street, who had been invited by a friend to spend the evening with her, was completely surprised when summoned to her home a short time later to find fourteen of her classmates who will graduate with her this week from the Hollister street school, already assembled there to help her celebrate her fourteenth birthday. The evening was pleasantly spent with games and dancing. A buffet lunch was served. Mary was remembered with many pretty gifts by her schoolmates.

Mrs. Gertrude Lund Quish, teacher in the Buckland school, is planning to spend the summer at Trevett, Maine.

Temple Chapter, Order of the Eastern Star, will hold its final meeting until September, tonight at 8 o'clock at the Masonic Temple.

John Tivnan of 100 Porter street will leave this week for Southwick, Mass., where he will be employed by the Berkshire Ice Company for the next few months.

Several from this town are attending the 32d annual convention of the Connecticut Congress of Parents and Teachers at Connecticut Agricultural College, Storrs, today and tomorrow.

Miss Elizabeth Carlson, daughter of Mr. and Mrs. Axel Carlson of Pleasant street, and Miss Adele Yuskis, daughter of Mr. and Mrs. Zalmir Yuskis of Irving street, were members of the graduating class from the New Britain State Normal School. Miss Carlson has prepared for kindergarten teaching.

Mrs. Charles Cheney of Hartford Road has left for Fisher's Island where she will spend the greater part of the summer.

All members of the Women of the Moose who plan to march in the parade Saturday afternoon, are requested to be present at the Home club tonight at 8 o'clock when final arrangements will be made.

Miss Fannie Clark, Miss Mildred Philbrick and Mr. and Mrs. H. A. Shapiro of this town were registered yesterday at the Hotel Piccadilly, New York City.

Mrs. Harold E. Gates of 14 1-2 Hackmatack street is visiting her brother at Nantucket, Mass.

Carroll Chartier on June 14 picked from his home garden the first pea. Yesterday he picked a peck more. He thinks he holds the record for early picking of peas locally.

A final meeting of the joint field day and state convention committees of Manchester Lodge, Loyal Order of Moose, and the Women's Auxiliary, will be held at the Home Club on Brainerd Place at 8 o'clock tonight. Reports will be heard on the arrangements that have been made for the convention, which opens Friday afternoon at 2 o'clock.
