

GOVERNOR DEMANDS VALERA APOLOGIZE

McNeill Says He Will Resign If Apology Is Not Made For Snubs By Free State Officials.

Dublin, Irish Free State, July 11.—(AP)—Governor General James McNeill and President Eamon de Valera, who have not spoken to each other for months, met this afternoon for a conference which generally was expected to be a prelude to Mr. McNeill's resignation.

Describes Snubs The snubs, he said, began when Seán Kelly, vice president of the Free State executive council and Frank Alken, minister of defense walked out of a ball at the French Embassy last April as soon as the governor general entered and the British National anthem was struck up.

Papers Kept Out Belfast, Northern Ireland, July 11.—(AP)—Belfast newspapers were warned early this morning by Free State civil guard headquarters that copies of papers containing the correspondence of Governor General McNeill of the Free State and President Eamon De Valera concerning alleged snubs received by the governor general would not be allowed to cross the Free State border.

McNeill to Quit London, July 11.—(AP)—The Evening Standard said tonight Governor-General James McNeill of the Irish Free State had asked to be relieved of his office.

MCFADDEN DEMANDS PROBE OF TREASURY Pennsy Congressman Would Also Investigate the Federal Reserve Board.

Washington, July 11.—(AP)—Representative McFadden (R., Pa.), today charged before the House rules committee that the administration was using its influence to block the proposed investigation of the Treasury and Federal Reserve Board.

Listening as he testified were Arthur A. Ballantine, under secretary of the treasury, and Eugene Meyer, governor of the Reserve Board.

McFadden caused a furore near the beginning of last session by asserting that President Hoover had "sold out" to international bankers.

The rules committee had before it the O'Connor resolution, approved by Garner, calling for an inquiry into the government's fiscal affairs.

ROOSEVELT STARTS ON BOAT CRUISE

To Spend a Week Along New England Coast—Sons Make Up Crew.

Port Jefferson, July 11.—(AP)—Governor Roosevelt became skipper Roosevelt of the Myth II today with a crew of Roosevelts to command.

On the eve of his departure on a small sail boat for a week's vacation with three of his sons the Democratic presidential nominee learned the trip would not be interrupted by an invitation from President Hoover to come to Washington.

The President in firm terms advised his political rival last night there was no need for a personal conference to speed up negotiations for a St. Lawrence waterway treaty with Canada.

Roosevelt had suggested such a conference and informed Hoover he would abandon the excursion to the New England coast to talk over the waterway question.

In laying aside his political responsibilities for the week, the governor also laid aside the garments of a landman for canvas pants and flannel shirt.

The first port An anchorage off New Haven, Conn., is the goal of the first day. Each stage of the journey however depends on the wind. The boat will.

NURSE WINS SUIT AGAINST HUTTON Aimee Faints When She Hears News—To Stick By Husband.

Lake Elsinore, Calif., June 11.—(AP)—David Hutton, husband of Aimee Hutton, was sued today with many troubles. A jury decided in favor of Myrtle St. Ferris, attractive, twice married nurse, in her breach of promise case against Hutton.

"Let them try to oust me" Hutton told reporters. "My wife is the head of this temple. So far as this St. Ferris woman is concerned, she can't get a cent because I haven't any money."

The evangelist took note of the reported revolt among her followers by issuing a brief statement which read:

"I certainly am going to stand by my husband."

When Mrs. Hutton was told Saturday night of the verdict against her husband, she fainted, fell backward on the porch on her Lake Elsinore lodge and struck her head on the cement floor of the veranda. For a time she was unconscious.

She fell rigidly after rising from her chair, and before a nurse could reach her.

Replacements Arrive as Some of Bonusers Go Home

While scattered groups of veterans continued to join the Bonus Expeditionary Forces in Washington, hundreds of those who have become discouraged by the fruitless siege fund appropriated by Congress for railroad fares to their homes. At left you see how newly arrived bonusers are building huts almost in the shadow of the Capitol. On the right are departing veterans applying for tickets.

WORLD BANK IN FAVOR OF A GOLD STANDARD

Asks All Nations To Adopt It As "Best Suited To Make Possible Free Flow of Trade."

Basel, Switzerland, July 11.—(AP)—Directors of the Bank for International Settlements today adopted unanimously a resolution calling for a return to the gold standard as the "best available monetary mechanism and best suited to make possible a free flow of the world's trade."

The action was regarded as highly important, particularly as it followed so closely upon adoption of the Treaty of Lausanne.

Sweden and Japan, both of which are off the gold standard, also endorsed the resolution. These votes were regarded in informed quarters as an indication that those countries will return to the gold standard in the very near future.

To Act as Agent The resolution asserted it is desirable to re-establishment of the gold standard and that the World Bank will act as a common agency in the task of monetary reconstruction which will begin at the projected world economic conference to be held either at London or Geneva.

Without that it is beyond the power of the central banks.

To enable the mechanism of the international balance of payments to work again satisfactorily, the resolution said, "it will be necessary to restore to a reasonable degree the freedom of movement of goods, services and capital; to complete the solution of reparations reached at Lausanne by a satisfactory solution of the war debts, and to take the necessary steps in each country to restore and maintain the equilibrium of international economy, not only as regards the public revenue and expenditure, but also as regards production and costs and the organization of the internal money and capital market."

HOOPER APPOINTMENT Washington, July 11.—(AP)—President Hoover today appointed Harry S. New, former postmaster general, a commissioner of the Chicago World's Fair.

Burglar Is Knocked Out By His Pal by Mistake

Falmouth, Mass., July 11.—(AP)—Would-be robbers are getting rather careless with their blackjacks this way.

A blackjack whizzed by his head and struck him on the shoulder. He closed in with his assailant and in the scuffle that followed a second man attempted to blackjack him, striking his "pal" instead and knocking him out.

HOOVER VETOES GARNER'S BILL TO AID NEEDY

President Carries Out Threat Made When Measure Was First Discussed—Is Against Loan Provision.

Washington, July 11.—(AP)—Carrying out his threat, President Hoover today vetoed the \$2,122,000 Wagner-Garner relief measure.

The President's veto message running more than 2,000 words in length was placed in the hands of newspapermen at the White House within 15 minutes after the measure reached the Chief Executive.

In it, the President launched another bitter attack against the provisions insisted upon by Speaker Garner to make loans to individuals.

Dangerous Suggestion "This proposal," the President asserted, "violates every sound principle of public finance and of government. Never before has so dangerous a suggestion been seriously made to our country. Never before has so much power for evil been placed at the unlimited discretion of seven individuals."

Having in mind the wish for early adjournment, the President in his message recommended that a compromise should be reached upon terms suggested by members of both houses and both parties, and that Congress should not adjourn until this is accomplished."

The President's veto said: To the House of Representatives: I am returning herewith, without my approval, H. R. 12445, "Emergency Relief and Construction Act of 1932."

On the 21st of May last I addressed the Senate recommending further definite and large scale measures to aid in relief of distress and unemployment imposed upon us by the continued depression in the world economic situation.

Authorization to loan up to \$500,000,000 to state governments which are unable to finance them.

MATTER, GRIFFIN, PLAN SECOND HOP

Globe Girdlers Say They Will Attempt Flight Again This Year.

Moscow, July 11.—(AP)—James Mattern and Bennett Griffin, world fliers who were forced down at Boriscov, Russia last Thursday, plan another try, perhaps later this summer.

The two fliers, grimy, weary and disappointed stepped off the train yesterday on which they came from Boriscov.

"We got a tough break, that's all!" they said. "We're going home as soon as we can, but we'll tackle it again this year if it's not too late, so we'll try again next summer if we can get a plane."

Mattern was piloting when the controls of the ship went wrong.

FIVE IN PARTY WHEN REYNOLDS MET HIS DEATH

Police Discover That Another Woman Never Mentioned Before Was Guest In Rich Youth's Residence

Winston-Salem, N. C., July 11.—(AP)—The Twin City Sentinel today says it has learned on good authority the number of persons in Smith Reynolds' home at the time the young heir to tobacco millions was fatally shot last Wednesday, was five instead of four.

The paper said Mrs. William Vaughn, whose husband accidentally burned to death in Greensboro a few months ago, was the fifth person. Previously it was reported only four persons were in the mansion.

The Sentinel says, however, Mrs. Vaughn apparently knew nothing of the tragedy until she was awakened at 6 a. m., five hours after the shooting.

The paper also says Blanche Yurka, New York actress and friend of Libby Holman Reynolds—Reynolds' bride of only a few months—gave testimony at a coroner's inquest Saturday to substantiate the claim of Albert Walker that he was on the first floor when the 20-year-old Reynolds heir fell dead with a pistol wound in his head.

Walker, a close friend of young Reynolds, was held in jail as a material witness while Mrs. Reynolds was under guard at Reynolds' home. They were in brief.

Walker was said by jail attendants to have shown a great deal of strain since his arrest on Friday night. He was described as "restless and nervous."

Mrs. Reynolds held as a material witness since Saturday, was expected to testify at today's session of the inquest.

Miss Yurka was understood to have told the coroner's jury she saw Walker downstairs in the reception room shortly before the shot was heard. She reported he told her he was waiting for Smith, who was found dead a short while later in the sleeping porch of the home.

Upon hearing the shot, she said, she ran out on the balcony, inside the house, and saw Walker run upstairs from the reception room.

Saw Mrs. Reynolds Unofficial reports said Walker (Continued on Page Two)

PRESIDENT PRAISES SMALL INDUSTRIES Says They Employ Half of the Workers of the United States.

Silver Bay, N. Y., July 11.—(AP)—President Hoover, in a message today to the second annual conference on smaller industries held here, declared these little units of the economic system were "vitally important in the human sense," employing half of the workers of the nation.

The president's message was read at the opening of the conference, a meeting of leaders or representatives of the smaller industries of the nation. The conference is intended to provide an opportunity for executives of the smaller units to hold round-table talks on the problems of the industrial unit their companies represent.

His Message Mr. Hoover's message follows: "I am glad to learn that the high-

Defense in Asking For Mercy Claims That Norfolk Man Never Had Any Contact With the Kidnappers; Statement Comes As Surprise.

Flemington, N. J., July 11.—(AP)—John Hughes Curtis, convicted of hindering capture of the kidnapers of the Lindbergh baby, was sentenced today to one year in jail and a fine of \$1,000.

The maximum sentence which could have been imposed under the indictment on which Curtis was found guilty was three years' im-

John H. Curtis

prisonment and \$1,000 fine. The sentence followed a fervent attempt on the part of the defense to halt action against Curtis before sentence was imposed.

Defense counsel moved for arrest of judgment on the same grounds that three separate attempts were made during the trial to halt the action before it reached the jury.

After a heated argument, during which counsel already backed and forth, Judge Adam O. Robbins ruled that these points should have been passed on and denied the motion.

Lloyd C. Fisher, chief counsel for Curtis, shouted that Curtis had never had any contact with the kidnapers.

Had Wild Dreams "He was just a man with wild dreams about boats and things," he said.

This statement came as a complete surprise, because the defense stand during the trial seemed to be that Curtis had been in touch with the real kidnapers and had done everything possible to help obtain return of the baby and capture of the kidnapers.

Curtis was arrested after he signed a confession that all his negotiations were with the kidnapers. He repudiated this confession during the trial and the state accepted the repudiation and based its charges on the allegation that Curtis had been in touch with the kidnapers and then had prevented their capture by the hoax confession.

In arguing for arrest of judgment, Fisher said Curtis had been made the "goat" because he was "honest enough to come within the state's jurisdiction."

"Prejudice is the only reason John Hughes Curtis sits there convicted," he said. "We plead for mercy. The jury urged mercy. Only John Hughes Curtis, the goat, is tried. Thousands of clues and letters were received, but none were charged with obstructing justice. He is charged because he was honest enough to come within the state's jurisdiction."

After the motion for arrest of judgment was denied, Prosecutor Anthony Hank recommended, in view of the jury's plea for mercy, that Curtis be sentenced to two years in state prison and a fine of \$1,000.

Impassioned Plea In an impassioned plea to the court before sentence was imposed, Fisher dwelt at length upon his assertion that prejudice had caused Curtis' conviction.

MONDAY, JULY 11.

A WORD TO BOYS

These times are pretty tough on a good many people but it seems clear to us that the worst sufferers from the events of the last decade, culminating in the present economic middle and fog-blanking of the future, are the adolescent boys, the lads of high school age and just beyond. It is very doubtful that there is any other group in our population certain to be required to make such comprehensive readjustment of the ideas that have been instilled into them and which they have quite naturally acquired during the period of their boyhood.

The memories of your can't, as you phrase it "buy" a job, this may sound like futile advice. But this middle isn't going to last forever. By and by there will be jobs. They won't be, most likely, the kind of jobs you've been brought up to expect—easy jobs at great big pay—but they will provide opportunity for work, hard work, work that will enable you to hold up your chin. The thing to do is to be ready to jump at one of them—and show the world that even if you didn't have a fair chance to prepare for it, you've got the guts and the sense to do your job and do it the very best that in you lies.

Boys, there isn't any other way. No other way that will leave you with any self respect or any seat for the mysterious, wonderful thing we call life. You were raised on foolish fairy tales. Forget them, and be men.

PLAYING BOTH ENDS

There are a good many farmers, we have no doubt, who are going to be quite curious as to where Franklin D. Roosevelt stands with relation to the boll weevil; and the Northwest grasshopper; and the quarantine system for the keeping out of agricultural pests; and the various federal activities under the Agricultural Extension act which keep 4,000 extension workers busy among the farmers showing them how to produce more and better commodities; and all those other services whereby the United States government has contributed to making the American acre and the American farm worker more fruitful than the acre or farmer elsewhere in the world—or at least which make those brags for themselves.

It might be assumed, of course, that Mr. Roosevelt will be strong for all these things, since he is so strong for the plain people and the "forgotten man." But, unhappily, Mr. Roosevelt himself has declared that a fundamental error of the times is that the farmer is producing too much—that one of his great hopes is that the husbandman may be brought to realize that his chance of prosperity lies in producing less.

If this is his great economic aim with relation to the farmer, how could it be expected that Mr. Roosevelt could reconcile with his purpose the continuation of these farm services which cost a great many million of dollars, when all they result in is a surplus of products?

Really, if the Democratic leader has the right idea—if he is not, in fact, utterly at sea in his economics—it is obvious that we ought to stop immediately the boll-weevil war, the grasshopper enemy, the everlasting campaign against rusts and Mediterranean fruit flies and the thousand and one natural enemies and human blunders that the government has been helping the farmers to fight—at great expense. We ought to do something, instead, to promote the weevils and the potato bug and all the other little beetles and worms and bovers that attack the crops. Because the more of these things there are and the less they are interfered with, the more

thing it could do to spoil you for the business of life. But you'll have to bear very closely in mind two things. First, society didn't intend it to be a rotten egg—it really thought it was doing something fine for you; your plight is the result of elders' ignorance and fool ambitions for you, not by a long way the fruit of malice. Second, that it is never in the world going to do to let a terribly bad start throw you. You've had the worst possible training for the life that lies ahead and you've got to pick up a heavy handicap. But if you've got the right stuff in you—and nine out of ten of you have—you're going to pick up that load, grit your teeth and carry it till it trickles away into nothing, which it surely will do eventually, if you keep plugging away, putting one foot in front of the other.

Boys, the very first step to be taken in getting away from the follies that have been heaped on you lies in realization that there is no such thing as an easy road to honorable happiness—that there cannot be and ought not to be; that the promises on which you have been fed of a life passed in drifting from one pleasure to another and one stage of luxury to another with scarcely an effort are infinitely better broken than kept. That's the way the bears and the tigers live. Mankind was given its brains and its hands for a better purpose. Work after all, with just enough fun to give it savor, is the most satisfying activity of the human race; idleness the least satisfying condition. Get into your head the great truth that work is not only the best thing but the most honorable, and you'll have the world kicked even if you never in your life get away from a bench, a loom or a plough.

At the moment when you can't, as you phrase it "buy" a job, this may sound like futile advice. But this middle isn't going to last forever. By and by there will be jobs. They won't be, most likely, the kind of jobs you've been brought up to expect—easy jobs at great big pay—but they will provide opportunity for work, hard work, work that will enable you to hold up your chin. The thing to do is to be ready to jump at one of them—and show the world that even if you didn't have a fair chance to prepare for it, you've got the guts and the sense to do your job and do it the very best that in you lies.

Boys, there isn't any other way. No other way that will leave you with any self respect or any seat for the mysterious, wonderful thing we call life. You were raised on foolish fairy tales. Forget them, and be men.

EMBARRASSING MOMENTS

Our recent investigations into embarrassing stage incidents, many of which all but wrecked some theatrical performance . . . are aided and abetted by notes from the scrapbooks of several contributors.

There was that fateful evening, for instance, during the recent winter when Milton Aborn was re-creating "Robin Hood." A trained horse, rented for the production, appeared to get his cues mixed; perhaps he beheld himself in some previous show. At any rate, he all but removed the riding coat from Charlotte Launing. No well-planned comedy bit could have been given a more uproarious reception.

Simple Stunt

In the days before "spirit gum" was invented, numerously funny complications resulted, writes an "old timer." During a Shakespearean revival a performer carefully glued on his heavy whiskers and a mustache. Striding majestically on stage, the performer was horror-stricken to discover that he couldn't utter a single line.

The glue had run down and hardened. He couldn't open his mouth. For a moment he stood petrified-stricken and then fled backstage.

Something like the "pay-off," however, goes to Lionel Braham, who played the Senator in "Lysistrata." He had been lounging on his sofa when the stage call came, and hurried on. Part of the immediate stage business called for a rush by the Spartan woman, who began tearing at his toga.

There was little rough-house this, however, glances the average this woman of your type is usually unable to put on weight because of a systemic poisoning which she gets from a single onion. One of this type usually has a complete prostration of the stomach and intestines, and usually has a headache holding these organs down. When the obstruction is broken down by manipulative treatment, the organs may be brought back to normal.

certain we are to get rid of the great problem of the "surplus." The insects and the noxious bacteria seem to be squarely on the same side of the agricultural problem with Mr. Roosevelt. Are we to be asked to believe that he would fight to keep down crops and fight to keep down crop diminishers at the same time—and use the public's money for both purposes?

It will be interesting when some delegation of farmers asks Mr. Roosevelt about this.

FOREIGN-BORN

Old-stock American of this period are much given to secret sighing over the extent to which the foreign-born have come to be a considerable proportion of the population of this country in the years of the present century. It may reassure such as have been attacked by fears that the "foreigners are taking the country away from the natives" to learn that the proportion of foreign-born residents in the United States is smaller now than it was before the Civil War. Yet between 1860 and 1880 the foreign-born constituted from one-eighth to one-seventh of the population; by the census of 1890 only about one-ninth.

IN NEW YORK

Going Home

New York, July 11.—The land of grapes has slipped up on a few illusions! . . . A certain hardy ally has found its way into the faded gold of this new world; . . . And the children of Europe are drifting home; by the tens, by the hundreds and even by the thousands.

In the consular quarters in the steamship offices and one the pier where liners strain, at least, the suddenly reversed. The tide, for the first time, swings away from these shores. There is little need these days for anyone to worry about the quota. Foreigners are leaving faster than they are trying to get in.

A check shows, oddly enough, that the food is not from the cities but from the countryside. Most of the sugar, starch and fruit acids which make it a bad combination from the standpoint of food chemistry, causing much fermentation and digestive trouble. Many people realizing that rich desserts are not the best foods for them are in the habit of leaving the dessert off after a heavy meal, but they would not have to do this if they used desserts which are healthful and wholesome. Here are some of the desserts which can be used without harm.

DESSERTS

More harm is done by the average dessert than by any other food on the menu, for it is usually a mixture of sugar, starch and fruit acids which make it a bad combination from the standpoint of food chemistry, causing much fermentation and digestive trouble. Many people realizing that rich desserts are not the best foods for them are in the habit of leaving the dessert off after a heavy meal, but they would not have to do this if they used desserts which are healthful and wholesome. Here are some of the desserts which can be used without harm.

Increasing Growth of Hair

Question: Mr. Walter DeL. writes: "Is there anything which can be done to increase the thickness of the growth of hair, which is commencing to thin?"

Answer: The application of ice to the scalp, if used twice daily over a period of time, has a tendency to make the hair grow in thicker. Hold the ice in a thick towel and move it from one part of the scalp to the other, giving about a five-minute treatment. It might be advisable to rub the hair short in order to make the treatment effective. The cold brings the blood to the hair roots and the hair shafts become stronger and thicker because of the increased blood supply. Rub in a little coconut or olive oil after the treatment.

That Repeat Pleak

It is now contended that if it had not been for the southern federal machine's virtual unanimity in voting for the administration re-nomination plank, the plank demanding repeal would have been passed by the Republican national convention. A change of 105 votes would have carried the minority amendment.

Thirty-two southern states voted 238 for re-nomination and Mississippi politicians declared later they had voted for repeal by a majority of thirty-five states and the territories cast a majority for repeal, even though the administration influence was predominant in many of their delegations.

CONSIDERATE OF THEM

Pittsburgh, Pa.—Wives of 17 "Alimony Club" husbands were exceedingly kind and, consequently, the 17 husbands are no longer carrying jail sentences for failure to pay alimony. They are now out looking for jobs. The wives took the gamble that their husbands, if they were forced to start making alimony payments regularly, would be able to do so.

QUESTIONS AND ANSWERS

(Gaining Weight)
 Question: Lynn writes: "I am a young woman 25 years of age, 5 feet 3 inches tall, and weigh only 91 pounds. Have tried everything on earth to put on weight. Was on a milk diet for three months and put on two pounds. I have consulted several doctors and they all claim I am perfectly well. One doctor advised me to remove my appendix and that would sharpen my appetite. I've done so, and no success. Walk from three to four miles a day and very seldom do I feel hungry, and then, if I take a drink of water, my appetite is gone. Please advise me what to do."

Answer: You may be perfectly healthy, and yet only weigh as much as you do. However, the average this woman of your type is usually unable to put on weight because of a systemic poisoning which she gets from a single onion. One of this type usually has a complete prostration of the stomach and intestines, and usually has a headache holding these organs down. When the obstruction is broken down by manipulative treatment, the organs may be brought back to normal.

THE POLITICAL FOLLIES OF '32

SOUTH SOUTH HOLDS VETO POWER AT BOTH PARTY CONVENTIONS
 By RODNEY DUTCHER
 NEA Service Writer

Chicago—There is a solid Democratic south and a solid Republican south.

The Republican solid south functions in June and the Democratic south functions in both June and November, which is to say that the Democrats of the south are the ones who win all the elections whereas the Republicans of the south get the most offices and their federal jobs and show up every four years at the Republican convention with 250 or 300 delegate votes which invariably give the Republican administration full control.

The southern Democrats, black and white, vote solidly because their branch of the party subsists on patronage and they know what will happen to them if they disobey the men behind the pie counter.

South's Veto Power

The south, in both parties, appears to hold something of a potential veto power over the north. The Democrats can always be sure of getting all the south's electoral votes unless they nominate Al Smith and the Republicans can always be sure of not getting any southern electoral votes unless the Democrats nominate Al Smith.

The southern Democrats can usually block a candidate for the Democratic nomination if they try hard enough, thanks to the two-thirds rule, and the southern Republicans can be used by the administration to block things that are demanded by a majority of delegates from the northern states where the party either always wins or always has a good chance.

TODAY IS THE WORLD WAR ANNIVERSARY

Belgium as Pawn

On July 11, 1918, Count von Hertling, German chancellor, in an impassioned speech before the Reichstag Main Committee, denied that the intentions of Germany were to annex and keep Belgium. He said German intentions were to hold that country for a time as a pawn for future negotiations with allies.

Progress on the Balkan front was reported. Allies had formed a solid front along a 300-mile line from the Adriatic to Salonika. Italian troops had advanced to occupy Berat, and French troops rolled on in an advance between the Dardanelles and the Osmun, west of Koflik.

British troops, following the example of French forces to the south, mustered reinforcements and began a determined push against the Germans on a mile front on the Lyra. Protected by a heavy artillery barrage, they succeeded in pushing forward about half a mile in hand-to-hand fighting.

The most sensational development since the superheterodyne!

RCA Victor Bi-Acoustic Circuit

* APPROVED Let this seal guide you to better radio entertainment.

Here it is . . . the biggest thing in radio since the Superheterodyne. Eight major developments in addition to all the great advancements of this year's earlier RCA Victor sets!

"B" Amplification to give you power, realism, tone without distortion at any volume. Automatic Tone Compensation to take out "tinnyness" and lack of audibility at low volume levels. Tone equalizers to eliminate cabinet boom and resonance. Dual automatic volume control to end blasting, fading and interstation noises. A whole additional octave at each end of the musical scale. Twelve entirely new tubes, designed for maximum efficiency. A new improved dynamic speaker to handle all frequencies at all volume. An acoustically-tuned cabinet, executed in genuine quilted maple and hutt. walnut.

See this newest development in radio. Learn about our easy terms.

A BOOK A DAY
 BY BRUCE CATTON

SEARS FOLDED HIS LEOPARD'S LEAF FOR LIFE

Frank Buck is at it again. The genial wild animal collector who told such enthralling tales in "Bring 'Em Back Alive," has produced another book (in collaboration with Edward Anthony) called "Wild Cargo," and if you like animal stories and general all-around excitement, I nominate it to you as a best-seller.

Once again, Mr. Buck tells how he catches wild animals and brings them across the ocean for show and circus in the United States. Specifically, it's one of the jobs where, even if you don't make much money, you have lots of fun.

Mr. Buck also tells how he passed up a tiger in the Malay peninsula on a movie man could get some good pictures of it, and how he had to wade into the bank to save the tiger. He says, too, about the time he was up a river in the Malay peninsula on a movie man could get some good pictures of it, and how he had to wade into the bank to save the tiger. He says, too, about the time he was up a river in the Malay peninsula on a movie man could get some good pictures of it, and how he had to wade into the bank to save the tiger.

MAYBE HE'S RIGHT

Montreal—William Furness Curry, English educationalist, is firmly convinced that the act of making a cow is a more important part of the education of a child than learning to memorize Greek compositions by English Dr. Curry's curriculum for children from 8 to 18 includes the care of animals. Neither Greek nor Latin are included in any of his courses.

DOCTORS CONTINUE CHARITY SERVICES

Vote To Extend Present Plan To April 1, 1933 — Their Aid Worth \$4,837 In Fees.

At a recent meeting of the Manchester Medical Association the following officers were chosen for the ensuing year: For president, Dr. Edwin C. Higgins; for vice-president, Dr. David M. Caldwell; for secretary and treasurer, Dr. LeVerne Holmes. This meeting was held at the Manchester Country Club, dinner being served by the regular club caterer. The program was very informal. As this was the 21st birthday of the local medical association several members spoke in a reminiscent vein.

The chief topic of discussion was the unemployment situation which became acute last fall. Reference was made to the special meeting Nov. 2 when it was voted to offer to the Manchester Emergency Employment Association to give medical care, without charge, to those registered with their bureau. In addition it was voted to refer to the town dependents, free, for the year and to ask the Board of Selectmen to turn over to the unemployment committee the \$700 which had been annually appropriated for the purpose. Both offers were accepted.

PLEADS FOR SUPPORT OF ANTI-WAR PROGRAM

Hazardville Pastor In Evening Service Here Discusses the Horrors of War.

The lawn service held at the South Methodist church last night was attended by 150 people, and the speaker was Rev. Oliver W. Bell, Hazardville, who was formerly assistant pastor with Rev. E. A. Coppitts at Fall River. Bell, who served in the World War and in the artillery of the U. S. Army and was in action in France.

Taking as his topic, "A Warless World," he gave a talk that held the attention of his audience in a manner that was most impressive. In part he pleaded for a more Christian-like understanding among the nations of the world, so that the extreme horrors of war with the incidental sufferings entailed to both combatants and non-combatants might be eliminated. Surely," he said, "the true brotherhood of man can find a more equitable method of settling international disputes than by the horrors which are caused by going to war, and the ensuing destruction of the best and noblest of their youth."

WIND DOES DAMAGE

Ridgeway, Ont., July 11.—(AP)—Buildings, crops and telephone poles crumpled up before the force of a cyclone which swept for about six miles through the townships of Howard and Orford near here yesterday.

Muriel Bowden, 11, narrowly escaped death when the solid brick farmhouse in which she was lying ill collapsed. She was struck in the face by a falling brick and is suffering from shock and exposure.

The fragments of buildings were strewn over half a mile. On the Cadmore farm a grove of 80 maple trees were destroyed.

COUNTRY CLUB SODA CO. OUTING PROGRAM

Expect 30,000 Boys and Girls To Attend Big Party At Riverside Park Wednesday.

From 8 a. m. to 5 p. m. Wednesday, the 18th of July, some 30,000 boys and girls will take over Riverside Park, lock, stock and barrel. They, with their parents, will be all-day guests of the Country Club Soda Company at its 4th annual outing. A big feature will be an exhibition by "Pewee" Schrade, fresh from winning the championship of the Atlantic Division in the National Championship at Atlantic City. "Pewee" will demonstrate his shots for the benefit of aspiring marble players.

It is announced that "Mysterious Mr. Country Club" will enter the grounds at 10 a. m. and will remain present till some bright boy or girl penetrates the mystery. "Mr. Country Club" is a real mystery. No one knows who he is, where he will be, or anything about him. Paul Noftke, probably the best known magician in Western New England, will be on the grounds all day, and will give at least one formal demonstration of his art.

There will be plenty of music. The famous Polish Falcon Fife and Drum Band will play at intervals, and there will be swimming pools on the job all day. The swimming pool will be open to everyone (they must, however, bring their own suits) and the three biggest features of the park—The Greyhound Racer, the Aeroplanes Swing and the Ferris Wheel, have been taken over for the day by the Country Club Soda Company for the benefit of their guests.

An elaborate series of athletic events with \$100 in gold for prizes has been arranged. There will be events for those of all ages and abilities. The biggest event of the day will take place at 3 p. m., when the winners of the Country Club Bottle Cap contest are announced. The 65 winners will divide \$200 in prizes, plus 28 cases of Country Club Beverages. First prize is \$25, second \$20, etc.

BOY RUNS INTO TRAFFIC, IS HIT BY AUTOMOBILE

Five Year-Old John Struff Escapes Serious Injury In Mishap Saturday Night.

John Struff, five-year-old son of Mr. and Mrs. John L. Struff of 155 McKee street was hit by an automobile driven by August Bronowski of 72 Birch street near the intersection of Main and McKee street at 6 o'clock Saturday night. The Struff boy, walking with Mrs. George Wilson of 155 McKee street, for a trolley, was reported to have run across the street in back of the trolley and was struck by Bronowski before he could stop his automobile. He was taken to the hospital by Bronowski where he was treated for a small cut on his chin. He was later taken home by his parents.

ST. MARGARET'S CIRCLE PICNIC TOMORROW

St. Margaret's Circle, Daughters of Isabella, will have a picnic tomorrow evening at the home of Mrs. William Fogarty of Buckland, which is the former Cooper property. The supper at 6 o'clock will consist of salads, baked beans, relishes, frankfurters, home made cakes and coffee. Following the meal the dedication of a new flag pole and a flag raising ceremony will be held in honor of the Washington Bicentennial. Address of the Washington Bicentennial. Address of the Washington Bicentennial. Address of the Washington Bicentennial.

Judge and Mrs. Ralph M. Grant of West Windsor Hill are spending two weeks at Clinton Beach.

The South Windsor Garden Club met with Mrs. Marshall Bidwell this week instead of last week as scheduled on the program, owing to the Japanese iris being in full bloom and that being the subject of discussion for the afternoon.

ODD FELLOWS HONOR AUGUST H. SIMONSEN

Named Junior Delegate To Sovereign Grand Lodge Session In Denver. As a reward for his long and faithful service in the interest of Odd Fellowship, August H. Simonsen, veteran local carrier, has been honored by being named as a junior delegate to the Grand Encampment of Connecticut to the Sovereign Grand Lodge's annual session to be held in Denver, Col., the third week in September.

BAPTIST CONVENTION

San Francisco, July 11.—(AP)—Delegates expected here for the opening tomorrow of the six-day National convention of the Northern Baptist included a Brooklyn, Mass., minister whose "sky pilot" status was more than figurative. He is Rev. V. E. Broderick, flying person, who is crossing the continent by airplane.

STORM INJURES FIVE

Akron, O., July 11.—(AP)—Tornadoic winds which struck in this vicinity late yesterday injured five persons and did damage estimated between \$50,000 and \$100,000.

Queer Twists In Day's News

Chicago—Giving away fortunes one hasn't got is a popular sport, says the clerk of the Probate Court. Delving into 5,000 old wills that never got probated he says you'd be surprised at the number of those who write joking wills. One convict willed a large sum of money to relatives and it was hard to convince them that he did not have any.

ELKS' CONVENTION

Birmingham, Ala., July 11.—(AP)—The Grand Lodge of Elks was called to order today after a Sunday spent in memorializing the organization's dead.

HORSE RACING

Chicago, July 11.—(AP)—This is classic week at Arlington Park and 24 thoroughbreds were ready today for the richest three-year-old race in the world. The \$70,000 added event will be run next Saturday over a mile and quarter and will probably gross more than \$80,000.

Teeth \$10 and \$15.50 A Set

Special Red Rubber Plate \$10.00 PER SET. A Splendid Set of Teeth \$15.50 PER SET. "Waterweight" Plate—made of Solid Gold with gold pins. \$19.50. Other offices in Bridgeport and Waterbury.

REV. J. STUART NEILL SAYS Plain Gospel of Christ Is Orangeman's Ideal.

Members of the local Orange Lodges and their auxiliaries, Loyal Orange Lodge No. 117 and Manchester Lodge No. 99 and the Daughters of Liberty were in attendance in a body yesterday morning at a union meeting of Manchester's South Methodist, Center Congregational and St. Mary's Episcopal churches in the latter church. Rev. J. Stuart Neill preached the morning sermon commemorating

the Battle of the Boyne which occurred July 12, 1690. Rev. Neill welcomed the visiting lodges and their auxiliaries and spoke of the fine fellowship existing among the three participating churches upon the common platform of fellowship in the Lord Jesus.

His Address. Rev. Neill said in part: "It is a pleasure to welcome the lodges of Orangemen and the Daughters of Liberty to this union service of the South Methodist, Center Congregational and St. Mary's Episcopal churches. It is significant that these Protestant churches upon a common platform of fellowship in the Lord Jesus try to bring you with them in hope and prayer and worship to the presence of God."

"You bring to them your contribution of that same earnest desire of Christ that can only be one in Him. But you bring also a splendid memory of the heroic deeds of the great William of Orange and his loyal followers. You bring a cloud of witnesses who were martyrs to high ideals. You bring what you also find here; an open Bible to be read and understood by the people in their own tongue. You bring also the buried treasure of opportunity for free education for the children of our land. When we remember that our free education meant in the early colonial days only the education in the Bible, we realize the close connection between the two ideals. For the man who is truly educated, is the man who truly knows his Bible. We can follow Abraham across the desert of Canaan, then to Goshen; who dwells there with the Hebrews till he finds them slaves in Egypt; who comes with Moses in flight across the Red Sea; to the desert of Sinai; who sees the entrance into Canaan a second and successful time; who is with Gideon in triumph; who comes with Esekiel in exile; who returns with the valiant but narrow and bigoted Ezra to rebuild a nation; who fights with Judas Maccabeus against invincible odds against the villain Antiochus Epiphanes and his abomination of desolation."

"All these thousand and a half years are but as yesterday when viewed as the fulfillment and preparation of God's purpose in the world through Jesus Christ our Lord. St. Patrick's Ideals. "Such an ideal came to Saint Patrick whose 1500th anniversary of landing at Saul, in County Down, Ireland, we observe this year. The high qualities of his manhood and character; his devotion to God and Jesus Christ stand out through all these centuries, making him one of the greatest saints of God. When we also remember that the site of the present Church of Ireland edifice in the same place was first erected by Saint Patrick himself; when we also remember that the bones of Saint Patrick repose in the crypt of the Protestant Cathedral of Downpatrick, we realize how fitting it is that reference to these facts be made upon an occasion such as this and upon a remembrance of this great and good man in our prayers and devotions; truly 'This man shall be blessed in his deed.'"

"The lessons of his deeds apply to us today; those ideals have not been outgrown; they are still vital and vivid to us here today. The observance of the anniversary of the landing of the Boyne on the 12th of July is not an adventure of a Don Quixote against the windmills, but a modern and contemporaneous conviction for principles and guidance of God in the affairs of our lives. "The first thing to remember about Saint Patrick is that he was a man of GOOD BLOOD. He came from a good family of Christian people; his father and grandfather were clergy of the church in Britain. By good blood we do not mean just aristocrats, but aristocrats in the best and real sense of that word. In an address made recently, a speaker urged that what we need most in America is to be 'true.' That is what the English said the day the British up and took the throne from the French."

43 BOYS ARE TAKEN TO KIWANIS CAMP

Happy, Eager Lot Open Hebron Vacation Camp This Morning.

The Kiwanis Kiddles camp opened today with the arrival of 43 boys, chosen from a list of 103 applicants and being most in need of fresh air, exercise and regulation food and sleep. Six automobiles furnished by Kiwanians took the boys to the camp at eight o'clock this morning.

It was an eager, enthusiastic and happy-go-lucky lot of boys who made the trip out. There were some among them who had been on a vacation trip there previously but those who were newcomers seemed amazed at the features the camp offered for their comfort and enjoyment.

Carefully Chosen

Of the 43 boys who went to camp today 24 were from the South Manchester area, the other 9 coming from the north end. As is customary the names of the boys being given the vacation is not published but all have been carefully selected by local charity and health authorities so that those in greatest need of such a vacation have been chosen. The cars which took the youngsters to Hebron were owned by Dr. D. C. Y. Moore, James Nichols, Clifton R. Burr, Dr. LeVerne Holmes, W. George Gienney and Thomas Ferguson.

No one of the 43 scheduled to make the trip failed to appear at the appointed place. All the south end boys met at the High school and the nine north enders were at Depot Square. As their names were called the boys filed into the different cars. It was noticeable that where there were brothers going to camp they preferred to remain together. On the return trip two weeks hence they won't be so anxious to stick together as camp life makes them all brothers.

First Duties

Upon arrival at the camp the boys were immediately assigned to their various bunks. The new dormitory built for the camp by the owners of the Hebron Game club was inspected and soon the boys were ready for weighing in. This was done by Camp Director Hays Pearson so that an accurate account of the gains made can be had. Mrs. Erickson, the camp's popular cook, was preparing a big order of beef stew as the first meal for the boys. She planned to have plenty of it since the boys are always hungry the first meal.

BICYCLE MEANT A JOB, SO CHIEF SUPPLIES BIKE

North School Street Man Given Means of Transportation To Job In South Windsor.

Paul Kucienski, of 140 North School street, has a job today and will be able to support his family once more, chiefly due to his own initiative and the helping hand of Chief of Police Samuel G. Gordon.

Offered work cutting hay in South Windsor, Kucienski wondered how he could get back and forth from work. After looking around and inquiring a bit, he learned that there were two bicycles at the police headquarters.

Kucienski went to Chief Gordon and told him of the situation. The chief readily supplied the transportation through the use of one of the bicycles standing idle at the station.

McFADDEN DEMANDS PROBE OF TREASURY

(Continued from Page One)

Investigation now "will do much to tie up the Bureau of Internal Revenue at the very time when its resources and energy are demanded for putting into effect the new revenue law" is commenting on the burden it put upon the department.

Up Employees

He pointed out that an investigation would tie up many employees at a time when they were badly needed.

Bellantine said "since 1927 the standing joint committee on internal revenue taxation, composed of five members of the House and five members of the Senate, . . . has continuously investigated the administration and development of the tax law."

In the case of every refund or credit of \$75,000 or more a statement of facts and reasons has been submitted to the joint committee not less than thirty days before action was taken, he said, adding that the committee had approved all refunds, abatement and credits recommended by the Treasury. A resolution by McFadden proposing an inquiry directed particular attention to refunds to taxpayers, Bellantine said.

The undersecretary said if the investigation was made those responsible must account to "the already harassed taxpayer."

REDS PROTEST

Paris, July 11.—(AP)—Communists noisily shouted objections to tax increases today when debate was opened on the government's finance bill, which includes measures expected to save the country approximately \$15,400,000 this year.

Maurice Falmade, budget reporter, said the condition of the treasury was not good and it was necessary to retrench. Louis Germain-Martin, minister of finance, had estimated that the 1932 budget deficit will be between six billion and seven billion francs.

Senator Edouard Herriot was tax law of today's session.

POSTMASTERS CONFER ON FURLOUGHS HERE

Bulletin Not Clear So Two Local Men Try To Find Out What Must Be Done.

Postmaster Frank B. Crocker of the South Manchester postoffice and Postmaster Ernest F. Brown of the Manchester postoffice were in conference this morning concerning the new ruling that goes into effect this week in all postoffices of the United States known as a furlough. The notice concerning the exact conditions is somewhat misunderstood as printed in the Postal Bulletin of July 8.

It was in an effort to get together on this that both postmasters held their conferences at the Manchester postoffice. That the furlough system means a saving in the operation of offices is clearly understood and it also shows that the wages of the clerks and all others excepting rural free delivery men and supervisors are to be cut in the number of days that they work in the office and are not to receive pay for the days that they are off duty.

Consideration is now being given to the bulletin that is causing the misunderstanding reads as follows: "Postmasters must immediately arrange the work of their offices so as to furlough without pay for not exceeding five days during July, all classes of employees except supervisors and rural carriers. These furloughs must be granted with a minimum expenditure for substitute service."

"This is the lightest period of the year and every effort must be exerted to grant the furloughs made mandatory under the law during the summer months. No furloughs will be granted in December."

The section from the bulletin which is causing the misunderstanding reads as follows: "Postmasters must immediately arrange the work of their offices so as to furlough without pay for not exceeding five days during July, all classes of employees except supervisors and rural carriers. These furloughs must be granted with a minimum expenditure for substitute service."

ROOSEVELT STARTS ON BOAT CRUISE

(Continued from Page One)

make about eight knots under good conditions. The course was charted by the governor will take him along the coast of Connecticut and Rhode Island to Buzzard's Bay through the Cape Cod Canal and along the coast of Massachusetts to Portsmouth, N. H.

Skipper Roosevelt's crew is made up of his sons, James, Franklin and John. The latter two are school boys. James is a beginner at law in Boston. The fourth Roosevelt boy Elliott is unable to make the trip. All have had experience as sailors. The governor since childhood has navigated sailing craft. During his days as assistant secretary of the Navy he often cruised New England waters. In addition to operating the yacht, the Roosevelts will do the cooking, scrub the decks and wash their clothes.

A hostess of news writers and camera men and another of Roosevelt political leaders will follow the governor's ship. James A. Farley, Democratic National chairman will be on one of the two accompanying yachts.

GOVERNOR AWAITS SURVEY OF STATE

(Continued from Page One.)

also will give him information which will enable him to determine whether the "idea" he now fosters should be developed into a working plan.

If the governor does see fit to call a special session of the Legislature it is believed in some circles at the State Capital that it will be well into the fall before such session is held. The governor has not committed himself on this point.

QUITS PASTORATE TO SAVE CHURCH

Polish Priest Realizes Congregation Here Cannot Support Him.

Rev. Peter Latas, who has been pastor of the Polish National church for the past two years and two months is to leave Manchester next week, although he has not as yet been assigned to any other church. He made this announcement to the members of his congregation yesterday and informed them he has decided to leave Manchester. The day of his departure, he said, is not as yet known, but it will probably be Wednesday or Thursday of next week.

Rev. Peter Latas

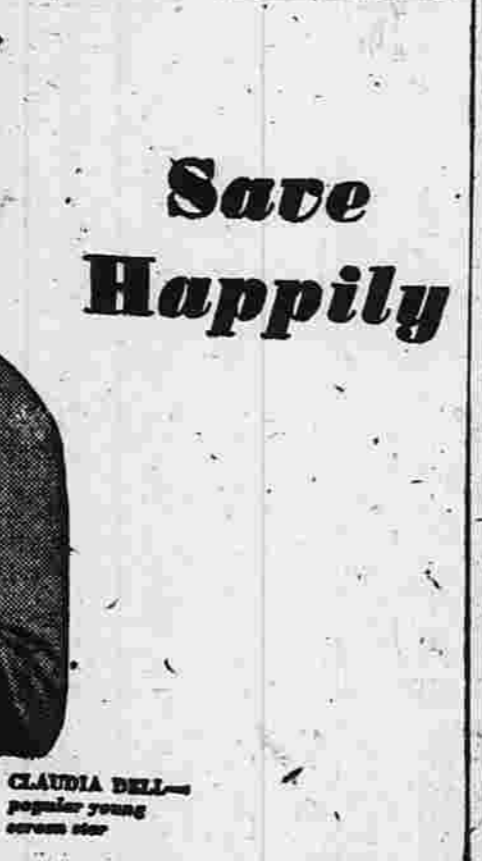

as pastor of his church as he was to confer with the Bishop in Chicago, Mass., and seek the transfer to some other church.

Rev. Latas has accomplished much work in the two years that he has been in Manchester. Under his direction and from plans drawn by him there was erected the church on Galloway street. The lot on which the church is located had been purchased previous to his arrival in Manchester and had cost \$800. The church cost \$7,777.85 and the interior work and altar ran the amount to about \$2,000, all of which was completed with a mortgage of only \$3,000 remaining upon the property.

There was every indication that this would be cleared within a short period until the industrial conditions changed resulting in a large number of the congregation leaving without work and the income fell off. The removal of three families from the vicinity of North street took fifteen supporting members of the church and the conditions have not improved. The salary of the pastor has been \$100 a month, plus house rent. The conditions, Rev. Latas said this morning, have become such that it seems that there is no longer hope of continuing the services of a pastor full time.

He proposes to ask for a change to some larger parish and it is likely that instead of having a priest located in Manchester, he said, that the church would have a visiting priest come to the church at least once a month or probably twice a month. Rev. Latas has been in the priesthood of the Polish National church for the past eighteen years. He was born in Poland, but was educated in Hungary, coming to the United States thirty years ago, when twenty-eight years of age. He located in the west and lived among Polish people where the entire settlement was Polish and for a period of two years was the judge of that section.

Eighteen years ago he moved to Scranton, Pa., where he allied himself with the Polish National church and was again assigned to work in the west, but was assigned to Connecticut when the church started to grow in this section. He had his first pastorate in New England in Wallingford, from Wallingford he was transferred to Manchester, N.

NEW RELIEF BILL

Washington, July 11.—(AP)—Senator Reed (R., Pa.), said today after a call at the White House that it was his opinion Congress would pass a new relief bill "easily within the week."

The Pennsylvania Senator spoke in anticipation of President Hoover's veto of the \$2,122,000,000 relief measure passed by Congress last week.

Reed said the rejection message had been completed and awaited only arrival of the bill from Congress. The measure is expected to go to the White House sometime today.

SECOND CONCERT HERE TOMORROW

Salvationists To Present Famous Nicol Family Ensemble On Program.

The second of a series of nine band concerts to be rendered by the Salvation Army Band at Center Park during the summer season will be held tomorrow evening. The full band of 80 pieces will take part and will be assisted by Adjutant Alex Nicol, Mrs. Nicol and Alex Nicol, Jr., of Burnside who will shortly join the local army.

While living in New York this trio was known as the Metropolitan Musical Marvels. The three took part in the concert which the Salvation Army band gave in Waterbury Saturday afternoon. As an ensemble they use two trumpets and a piano accordion and Mrs. Nichols is also an artist on the piano accordion and the chimes. They will insert their items at will during the program tomorrow evening.

The official program was announced today as follows:

1. March "Yellow, Red and Blue."
2. Staff Captain Stranwell Cole. (These colors are those in the S. A. Flag.)
2. Meditation "Harlan"
3. Cornet solo with variations "Silver Threads."
- Bandmaster Bert Twitchee Played by Deputy-bandmaster Harold Turkington.
4. Popular tune "Danny Boy" or "Londonderry Air" (approx. of July 12, rendered without acrimony).
5. March "Auld Lang Syne." This tune is known in Ireland as "Derry Walls." (All Irish are requested to leave their shillelaghs home.)
6. Overture "Rejoice"
7. March, "Soldiers of the King"
8. Two tunes "Trish" and "Deep Harmony."
- "Star Spangled Banner."
- Francis Scott Key.

The Salvation band played both in the afternoon and evening at Waterbury. The matinee program was given in Waterbury Square.

In the evening they gave a more elaborate one to fifteen hundred

9 VIOLENT DEATHS OVER THE WEEKEND

(Continued from Page One)

turned Carl LeComche about 29, Hartford, drowned as he attempted to reach shore. Three companions clung to the craft and were rescued. Henry Holliday of Hartford, driver of a speed boat whose crash allegedly upset the canoe, was held in \$1,000 on a charge of reckless operation of a motorboat. Two of the automobile victims were from out of the state.

Woman Is Killed

Mrs. Rose Sanacore, 29 of Rockaway Beach, N. Y., was fatally injured when an automobile driven by her husband Salvatore crashed into a telephone pole near Middletown. He blamed the accident on the bright headlights of an approaching car. She died shortly after reaching Middlesex hospital. Sanacore is in the hospital suffering serious injuries. Miss Rose Monzillo, 21, was fatally hurt and her companion, Charles Fisher, 23, both of Brooklyn

STRIKERS RETURN

Hillsboro, N. H., July 11.—(AP)—One hundred thirty employees of the Hillsboro woolen mills on strike for a week voted today to accept a wage decrease of 50 per cent.

MILLS THREE AND SELF

Mishawaka, Indiana, July 11.—(AP)—A trivial argument about a broken wagon led Joseph Hanack, 45-year-old farmer to slay three relatives with a shotgun and kill himself, police learned today.

Hanack, said to have served with the Austrian army in the war, shot his wife, his brother and his nephew from behind as they sought frantically to escape yesterday. Then he turned his single-barreled shot-gun on himself.

PEACEFUL WEEK-END, NO ACCIDENTS, NO COURT

One Mishap As Youth Is Hit By Car But Not Seriously—Court Docket Clear.

Manchester had a peaceful week-end with no arrests or serious accidents. There was no court session this morning and the town court docket is free of continued cases. One slight accident occurred Saturday night at 6 o'clock near the intersection of Maple and Main street when John Struff, five-year-old son of Mr. and Mrs. John Struff of 155 McKee street ran in front of an automobile driven by August Bronowski of 72 Birch street and was slightly injured.

Through traffic declined over the week-end. Truck traffic was heavy early this morning bringing supplies to local stores and heavier trucks turned through to the larger cities increase the traffic after midnight. Gasoline stations reported a light business over Sunday.

SALE OF ELECTRIC IRONING MACHINES

LEAP YEAR BRIDE

By Laura Lee BROOKMAN

BEGIN HERE TODAY
 CHEERY DIXON, pretty 29-year-old daughter of wealthy parents, marries DAN PHILLIPS, newspaper reporter, after a quarrel with her parents. It is a Leap Year marriage and Cherry does the proposing.

She might have moved into a cheap apartment and Cherry's first struggles with housework are discouraging. DIXIE SHANNON, movie critic of the News, is friendly. Cherry needs handsome MAX PEARSON, also of the News, who tries to make love to her. His persistent wooing Cherry's mother becomes seriously ill. The girl goes home and there is a reconciliation with her parents. Pride will not allow her to accept financial aid from them however. MR. and MRS. SKRON discuss arranging another climate to improve the mother's health.

BRENDA VAIL, magazine writer, comes to Wellington and Dan meets her. She asks him to collaborate in writing a play. Dan begins to spend most of his evenings at Miss Vail's apartment. Dixie tries to warn Cherry that there is gossip about Dan and Brenda but Cherry will not listen.

After a day of housecleaning when Cherry is tired and nervous she and Dan quarrel. He goes to see Brenda who leads him to believe she is in love with him.

That was the surprise she had in store. The anniversary was exactly what was needed to end this foolish misunderstanding. After that Dan could speak without fear of sacrificing his pride. They would recall memories together. He would tell her how happy he had been during those six months and what a wonderful wife she had been. Oh, yes, everything would be as Cherry had planned! They could spend the afternoon and evening together. They could forget the rest of the world. There would only be she and Dan! Reconciliation would be all the sweeter after the bitter loneliness. Cherry's thoughts drifted. The important thing was to let Dan know she wasn't angry with him, to give him a chance to tell her he had been miserable these last few days as she had been.

She bathed and patted on the delicately scented bath powder that was her dearest luxury. She got into brief, lacy undergarments, new hose and her best pumps. She touched her cheeks with the pink pad from her rouge box Cherry was so careful as she had ever been when dressing for an engagement with Dan before their marriage. She made her mouth into a vivid rosebud with lipstick.

She put on a brown frock, adjusted the little hat smartly and slipped into her polo coat. A bright scarf relieved the somber monotone. Cherry took a last glance into the mirror. Her eyes glowed with anticipation. Yes, she was satisfied with her appearance. If she met anyone she knew at Stanley's she need not feel ashamed.

The ride down town on the trolley required only 15 minutes but Cherry allowed herself more than that. She left the house promptly at 12 o'clock and 20 minutes later had reached the library. Naturally Dan was not in sight. He would probably be late. Cherry walked leisurely along the block. The day was colder than she had realized and she pulled the collar of her coat snugly about her throat. A woman wearing a handsome mink wrap passed and Cherry thought ruefully of the beaver coat that had been a gift on her last birthday. The coat was in storage and if Mrs. Dixon had been at home she would probably have insisted on Cherry wearing it. Cherry promptly forgot about the fur coat.

Two young men were crossing the street at that moment and she thought one of them was Dan. He wasn't. The youth turned his head and she saw he was a stranger.

A glance at her wrist told Cherry that it was still too early to expect her husband. Not yet 12:30. She took another turn to the end of the block and back again. The street was filling gradually with the noon day crowd. Business men hurrying from offices. Tall girls, slim girls, fat girls. A crowd of them appeared to be wearing new fall fashions. On their way no doubt to meet "dates." Youths who would presently meet these girls or others like them joined the procession. There were older women, errand boys, men with faces worn dull by years of routine. Yet all of these faces showed relief. The half-holiday had brought an air of bustle and festivity to the street.

Still Dan Phillips was nowhere in sight.

Cherry sat in the window seat and looked out at the only tree blown to the ground but those that remained were bright yellow. They danced in the sunlight, the very emblem of carefree gaiety.

Cherry did not even see the dancing leaves though she was staring at them. There were tiny vertical lines between Cherry's brown eyes. The eyes were brooding and serious now. Cherry's lips pressed together in an anxious line. She was struggling with the most difficult problem she had ever faced.

She bathed and patted on the delicately scented bath powder that was her dearest luxury. She got into brief, lacy undergarments, new hose and her best pumps. She touched her cheeks with the pink pad from her rouge box Cherry was so careful as she had ever been when dressing for an engagement with Dan before their marriage. She made her mouth into a vivid rosebud with lipstick.

She put on a brown frock, adjusted the little hat smartly and slipped into her polo coat. A bright scarf relieved the somber monotone. Cherry took a last glance into the mirror. Her eyes glowed with anticipation. Yes, she was satisfied with her appearance. If she met anyone she knew at Stanley's she need not feel ashamed.

The situation was terrifying. She had felt it daily for the past week. The thing that frightened her was nothing you could put your finger on and say this is wrong. We'll correct it. It was something intangible. Something Cherry was powerless to combat because she could not even name it.

In some way a barrier had risen between herself and Dan. She could not see over this barrier and it Dan was on one side and she on the other. There had been no more quarrelling between them. Ever since the night of the argument about the house cleaning Dan had been meticulously polite. He left the house early each morning and usually arrived late at night. When he came home for dinner he departed almost immediately. Cherry was too proud to inquire how he was spending his time.

She went about the housework, cooked the food he liked, made herself attractive for the hour when he arrived—and would have died rather than let him know how she was suffering.

It had been five days now since that dreadful night.

"It was my fault," partly, Cherry told herself for the thousandth time. "I shouldn't have let myself get so tired and nervous and I shouldn't have complained about the work."

But there was the matter of pride, too. If Dan had made the slightest move toward reconciliation Cherry would have met the venture halfway. He hadn't—and therefore affairs were as they stood.

Suddenly Cherry got to her feet. "This won't do," she scolded. "There's no use in being worrying. I'm a little fool to imagine a lot of things that aren't true. Probably that's the whole trouble. I've been letting my imagination get the best of me. Now I'm going to quit it!"

Cherry searched eagerly from left to right. The crowd swirled past and new faces came into view constantly. It was after 10:30. Cherry took her post directly beside the library entrance and decided to wait there. The alarming possibility came to mind that in this crowd she might miss Dan. She had never failed to meet him before. Today of all days that would be a calamity!

She stood on tiptoe peering over the crowd. Nobody seemed to notice her and she felt as though she were at the center of a merry-go-round. The men and women hurrying past might have been carried by some mechanical force.

Twelve thirty-five, 12:40, 1 o'clock. There were fewer pedestrians now. Cherry's eyes were dark with alarm. "I should have reminded him!" she told herself. "I should have telephoned."

Still she would not give up hope that Dan would come.

It was 30 minutes after 1—almost an hour past the time she and Dan

Cherry raised one hand and brushed the mist from her eyes. No use to wait longer. No use to hope against hope that the next moment would bring him. He wasn't coming. He had forgotten about her!

Suddenly Cherry felt a hand on her arm. She whirled, her face lighting with happiness. "Oh—I!" she exclaimed and her lips moved to form Dan's name. He wasn't. But it wasn't Dan Phillips who smiled down at her. Max Pearson stood there. He said easily, "Hallo, stranger. Where've you been keeping yourself?"

Cherry's reply was a confused murmur. She heard Pearson speak again, without knowing what the words were. She heard him say something about lunch and was surprised to find herself walking down the street beside him, entering the dining room of the Hotel Wellington.

They sat at a small table. Cherry turned her head and suddenly her eyes focused on a figure across the room. For a moment the figure blurred and the room swam before her. Then the outlines steadied themselves. It was—oh, it WAS! Dan was sitting at a table not a dozen yards away, leaning forward in earnest conversation, and the woman facing him was Brenda Vail. (To Be Continued)

Cherry searched eagerly from left to right. The crowd swirled past and new faces came into view constantly. It was after 10:30. Cherry took her post directly beside the library entrance and decided to wait there. The alarming possibility came to mind that in this crowd she might miss Dan. She had never failed to meet him before. Today of all days that would be a calamity!

She stood on tiptoe peering over the crowd. Nobody seemed to notice her and she felt as though she were at the center of a merry-go-round. The men and women hurrying past might have been carried by some mechanical force.

Twelve thirty-five, 12:40, 1 o'clock. There were fewer pedestrians now. Cherry's eyes were dark with alarm. "I should have reminded him!" she told herself. "I should have telephoned."

Still she would not give up hope that Dan would come.

It was 30 minutes after 1—almost an hour past the time she and Dan

For the rest of that day she was determinedly cheerful. It was not easy but when doubts arose Cherry closed her mind to them. Moreover she outlined a course of action. Something was to happen within two days that she felt sure would restore her happiness.

"I won't tell Dan!" she thought. "I'll surprise him."

Cherry said usually at dinner that evening, "I've some shopping to do Saturday. Suppose I come down about 12:30 and have lunch with you. Will that be all right?"

Dan did not glance up from the newspaper beside his plate. He said, "Yes, I guess so."

"I'll meet you in front of the library," Cherry promised. "I'll be there at 12:30."

The young man nodded agreement. He did not leave the apartment, as usual after dinner but fuming himself down on theavenport with a new book. Cherry felt this was encouraging. She was happy as she went about clearing the dishes from the table. She washed them and put them away, taking care to be quiet so as not to disturb Dan.

"Everything's going to be all right," she assured herself. "I'm sure of it!"

But there was disappointment ahead. Dan did not come home for dinner the following evening. Cherry would not let this make her downcast, however. She was planning her faith on her plans for Saturday.

She intended to remind Dan in the morning that she was to meet him at noon. She meant to speak of it the last thing before he left the apartment but somehow he was gone before she realized it.

At 11 o'clock she telephoned the office but Dan was not there.

"It doesn't matter," Cherry assured herself. "Dan never forgets anything." It was true that his memory was unusual.

While she dressed she planned how to break the news. They were to go to Stanley's for lunch. It wasn't terrifically expensive and besides this was a special occasion. While Dan was reading the menu she would say, "I'd like that special for cream for dessert. Stanley's people call it. It's appreciative." Dan would be sure to ask what she meant and then Cherry would say, "Why, dear, have you forgotten

SISTER MARY'S KITCHEN

BEETS ARE IDEAL FOR CANNING PURPOSES

By SISTER MARY

Beets are one of the few vegetables that do not lose their flavor and natural sweetness if more than an hour's time elapses between the gathering and use. They are less perishable than almost any summer vegetable, and for that reason the woman who buys her vegetables for canning runs less risk of spoilage after canning.

Although winter beets are available, many homemakers find them inconvenient and expensive to use on account of the long cooking required. The housekeeper who buys her fuel by foot or units discovers that several hours spent in cooking of a vegetable is quite an item.

The oven method of canning is particularly easy for beets. If you have a thermostatic controlled oven, the regulator is set to 250 degrees F. and the oven heated while packing the vegetables. A portable oven, however, of course is used, but frequent checking is necessary to insure satisfactory results.

Slice Larger Beets
 Small beets known as "baby beets" (they're about the size of a walnut) require no dicing or slicing and are most attractive for serving. Larger ones should be cut in quarters, diced, or sliced ready for serving.

Wash beets thoroughly, using a vegetable brush. Cut off tops, leaving about two inches of stem. Take care not to break the skin nor cut the long, straight "tap" root. Drop into a kettle of boiling water and boil fifteen or twenty minutes. Dip into cold water and slip off skins. Pack in hot sterilized jars, adding 1-2 teaspoon salt, teaspoon sugar and 1 teaspoon lemon juice to each pint jar. Add enough boiling water to fill jars to within an inch of the top, half seal and place in reheated oven. Leave two hours, remove from oven and completely seal. Invert for a few minutes to be sure the seal is perfect, then place upright and let stand until cool.

As soon as a jar is filled, place it in the oven and keep jars about two inches apart to allow for circulation of heat around each jar. Two racks may be used, one above the other, if the oven is large enough.

Work fast and dip beets in cold water only long enough to chill them.

GLORIFYING YOURSELF

OUT-DOOR MAKE-UP

A washed-out merrmaid won't swim very far when she enters the summer water. If she wants to make an effective splash she has to see that she has a complexion that won't fade when the waves tumble over her head. Permanent help hair to preserve its waviness, and how there are new rouges that will make lips and cheeks as rose-flushed as anybody could want them to be.

If you are the bathing type who prefers to lounge on the beach in gray pajamas, or slacks and sweaters, you won't want the sun to fade your complexion, either. The same rouge will help you.

In preparing for your out-of-door conquest, first of all, cleanse your face thoroughly the usual way. Then use the powder base that you have found serves you best. Maybe you need a lotion that will tone up your skin. When you are through, powder should be applied. There is a sun-proof powder that provides a healthy outdoor color. It has a peach glow that is as effective for blondes as for brunets. It contains certain ingredients that make it a protection against freckles, too.

The water-proof rouge, which is a luscious red that is creamy enough to be applied without any caking or smearing, is equally suitable for cheeks and lips. Make up your lips first. Your fingers will contain enough surplus, as a rule, to start the color scheme of your cheeks. If you have a dimple in your chin, a small dab of rouge, carefully blended, will emphasize it. If you haven't, and your chin is too long or too square, you may obtain an attractive slant by attempting various effects.

This rouge will cling to you, through water or sun-bright paths across a meadow or around a golf course.

Half of the game, whether you are sitting on a beach or knocking tennis balls over a net, comes in knowing that you are well groomed. You derive self-confidence from it, and self-confidence is an all-important quality in any summer program.

If you wish sometimes that you lived in a dusky harem in an Eastern land, so you could pull a veil over your face, and hope people would think you were beguiling, it is high time that you did something about your skin. Skin is the background for beauty. It is possible for every woman to have a face, that she can show proudly, even if her nose is too

DID YOU KNOW THAT

One of the great mysteries of the year is how Dave Hutton ever escaped the Mojave.

If King Pradjahopok just has to go, we certainly hope he will eventually be replaced by a fellow named Jones or Johnson.

Hoover's disarmament plan seems to have been approved by all nations except the ones with arms.

After all the governmental scandals of the past year, we have about reached the conclusion that politicians use cold decks in their deals.

After all, it makes little difference to the taxpayer whether his money is squandered or stolen.

CARBON DIOXIDE ON VENUS

The Carnegie Institution of Washington reports the presence of carbon dioxide on the planet Venus. The presence of this gas is practically proof that some form of life is on that planet, it is said.

QUOTATIONS

Charities and almost every other form of philanthropy have been taken over by the government. It is time that a similar step was made in the medical field.

—Dr. A. S. Munro, Vancouver, B. C., retiring president, Canadian Medical Association.

The government, instead of trying to drive the bonus army at Washington back to their cities, should stake them to a modest layout of food and tools and let them prospect the valleys and hills of the west again for gold. It's life in the open; it will pay its way and it will bring more and more gold into our treasury.

—James Randolph Walker, movie executive.

It looks like the Senate wants to destroy the economy at this session. The House conference are not going to yield. If the Senate wants to take the responsibility of preventing economy at this session, let it do so.

—Congressman John McDuffie, chairman of the House economy committee.

Confidence is all that America needs to restore it to 90 per cent prosperity, and the newspapers, which reversed the panic when the country's banks were threatened last January, can meet the situation.

—Colonel Frank Knox, publisher.

Hints on How to Keep Well by World Famed Authority

WHY A BED BUG BITES

By DR. MORRIS FISHEEN
 Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

In science there is recognized a condition called "tropism," which means the tendency of an organism to act in a definite manner in response to certain stimuli coming from outside. It is tropism that makes a plant seek the light. It is perhaps tropism that makes the male animal seek the female at the mating season.

It occurred to Dr. Eschke Rivnay to concern himself with the tropism of the bed bug or what it is that makes a bed bug look for a human being and bite.

He tries to answer the questions as to what stimuli attract the bed bug and how it locates its prey, why the bed bug discriminates between individual persons, why it will sometimes bite other animals than man, and in general just what factors underlie the bed bug's habits.

Scientifically this little animal is known as *Cimex lectularius*, which classifies it as a bug that is found around beds. Under some circumstances certain insects always move toward a source of heat; under other circumstances, insects move away from heat.

It has been found, for instance, that insects are not stimulated to bite by the odor of blood or the odor of perspiration, but by the heat coming from the body.

Therefore, Doctor Rivnay tested the bed bug with particular reference to such stimulation, trying it out on the odor of blood, the odor of various liquids, of bile, of skin, of perspiration and of various other substances.

The experts have, not been able to find organs of taste in the mouth cavity of the insect. The insects refuse to drink pure water, chicken broth or sugar solutions; in fact, they shun water. Bugs love darkness rather than light and prefer to be in contact with a rough surface.

Finally experiments were made with heat, and it was found that heat is the important factor in stimulating the bug to obtain food. It detects heat slowly and begins to go in that direction in about one or half minutes. Extreme heat, however, repels the animal.

The bug has a sense of smell, but reacts only when very close to the odoriferous substance. The bug apparently discriminates between different foods by its taste. The reason the bug group together is because they like to be in contact with some rough object and in general away from the light.

One entire bed of patients could

Evening Herald Pattern

Delicate dusty pink crepe silk print, so entirely flattering, made this stunning day dress.

Don't you like the surplice tailored effect of the bodice? The skirt is tricky and gives the figure elegant height. The leather belt is brilliant blue.

You can make it at an unbelievably small sum.

Style No. 2940 is designed for sizes 14, 16, 18, 20 years, 26, 28 and 40 inches bust. Size 16 requires 3 1/2 yards of 39-inch material.

Figure voile in pale blue, white tub silk and linen in lime green shade are stunning suggestions.

YOUR CHILDREN

by Olive Roberts Barlow
 BY NEA SERVICE, INC.

WHEN JULY 4, 1932, COMES AROUND— and children potential death is a more terrible fact.

This is a deliberately posthumous article. The Fourth is dead and gone—but its tragedies live, or die, after it.

Each year I have written a warning to parents. It has done little or no good. One cannot make oneself heard in the excitement of an anticipation.

Fathers, for I don't blame mothers, have remarked very probably when told of the dangers that confront their children, "Oh, go on! When I was a kid I liked the Fourth—of July, better than Christmas and boys haven't changed. I wouldn't cheat my youngsters out of the time of their lives for anything on earth."

So they brought home packages of dynamite crackers, and pistols, and rockets, and pinwheels, and let them go to it. And their wives put in iodine and mercurchrome and vaseline and cotton and hoped for the best.

The figures today are 200 or more reported dead over the country. This does not include the unreported, for some do not die at once. Nor does it include the thousands of lost eyes, fingers, and burns that amount to a casualty list commensurate with a hard fought battle in the war.

We learn our lessons after an experience, not before it. Now let this lesson be learned and retained. It is not only ignorant but criminal to hand children with no knowledge or judgment about explosives the means of self-destruction.

Fireworks Are Imperfect

Fireworks are seldom safe. They are not even perfectly made. Several years ago I was lighting a large pinwheel at a home exhibition for the children to admire when before I could get back from the lighted fuse the whole thing blew up in my face. I thought I had lost my eyes. I merely lost my eyebrows, a third of my hair, and about half the epidermis on my face.

Every year crackers are more innocent looking and more deadly than the year before. They are smaller but more wicked. All sorts of trick explosives are employed to make them crack louder. I saw a tiny cracker not larger than a child's finger blow two holes in a galvanized can and lift the lid clear up to the roof. What would that do to a child's eyes? Or his hand?

If fireworks are to be sold they should be sold to people with permits for clubs, or for general demonstrations.

Paste this article in your scrapbook, I plead, and remember to read it several times this year with your eyes on the next Fourth. And if you are in a position to do so, please try to introduce some sort of legislation against promiscuous sale.

We are queer people. A whole city will turn out to pump oxygen swing around and hand ten thousand

big, and her eyes aren't big enough, if she will take care of her skin and play up her good points.

If you have coarse pores, perhaps you have too much oil in your skin. An astringent will correct this fault. But don't use an astringent that is so powerful that it will carry away all of the oil. Faces that are too dry grow parched.

When you notice that your pores are increasing in size start to wash carefully with a mild, pure soap and introduce a scrub brush about once a week. A complexion brush does much toward stirring up circulation. Close the pores by rinsing with cold water. Not just once or twice, but over and over again. Then apply the astringent, pressing it on, softly and lightly, with the fingers.

Blackheads are due to enlarged pores that have become filled with stationary dirt. They must be cleaned. A cloth that has been wrung out in warm water, which has been reached the point which would be called a comedo, is held against the face for a few minutes. Now the skin is softened. Massage your face with cream. Remove with cleansing tissues. Now cover the tips of two fingers with cotton that has been steril-

Tormenting Piles

Relieve yourself of those sore, itching, bleeding piles the RIGHT way. The powerfully healing, soothing, medicated oil of Peterson's Ointment immediately ends itching, removes soreness, heals the affected parts, makes those painful, embarrassing spots completely vanish. A big box costs only 35 cents at any drug store.—Adv.

Quality Tells

It doesn't take an expert to recognize the quality of Dougan Cleaning... the individual, sanitary care that your garments receive is obvious in their new appearance and feeling.

The Cleaners That Clean

GIPSY SALE

By Dixie Waldman

TODAY I met a gypsy lad
 Whistling down the trail,
 He had a bag of two-pines,
 And he'd made a sale.

I TOLD him that I'd like to buy
 A pair of shoes with you,
 Last summer's shoes, a pair of shoes right,
 One pair, in maybe two.

A LONG walk on a rainy day,
 A couple of miles,
 He wanted me to take a short,
 And related other fun.

BUT he said that my customers
 Were not so good as yours,
 And he'd like to see you go,
 And he'd like to see you go.

A Thought

And he said unto her, Daughter, thy faith hath made thee whole; go in peace, and be whole of thy plague.—Mt. Mark 5:34.

Athletics Close In On Yankees In Pennant Race

Sturgeon Just Misses A No Hit, No Run Game

Meriden Team Gets Its Only Two Hits In Ninth Inning, Aces Winning Handily By 11 To 1 Score.

The Aces defeated the Meriden Knights yesterday afternoon at the West Side ball diamond 11 to 1. Sturgeon, local pitcher, with good support was able to hold the Meriden team hitless until the last inning when, with one out Korbin singled and Moore connected for a triple, scoring Korbin, making the only hits of the game.

In the fifth inning the Aces turned three doubles and four singles into six runs and in the eighth managed to get three runs on two walks and three hits.

Varrick was the best hitter for the local team, connecting four out of five times. Dave McConkey handled six chances without an error.

TRACK ATHLETES READY FOR FINALS

McCluskey and Others In Final Pre-Olympic Showing Friday and Saturday.

Palo Alto, Calif., July 11—(AP)—The gates of Stanford Stadium, arena for final Olympic games trials Friday and Saturday were scheduled to swing open here today so the athletes may practice on the actual field of battle.

The expected arrival of the New York Athletic Club squad tomorrow will throw a new group of United States Olympic team contenders onto the field.

Bill Carr of Pennsylvania, conqueror of Stanford's great middle distance runner, Ben Eastman, in the 440-yard event at the I. C. 4-A, and Karl Warner of Yale, another quarter miler, were busy practicing starts.

MANCHESTER HORSES IN MIDDLETOWN RACE

Steve Pearl's Red Chief, Archie Hayes' Lex C, and Seaman's Donna Henley In First of Season.

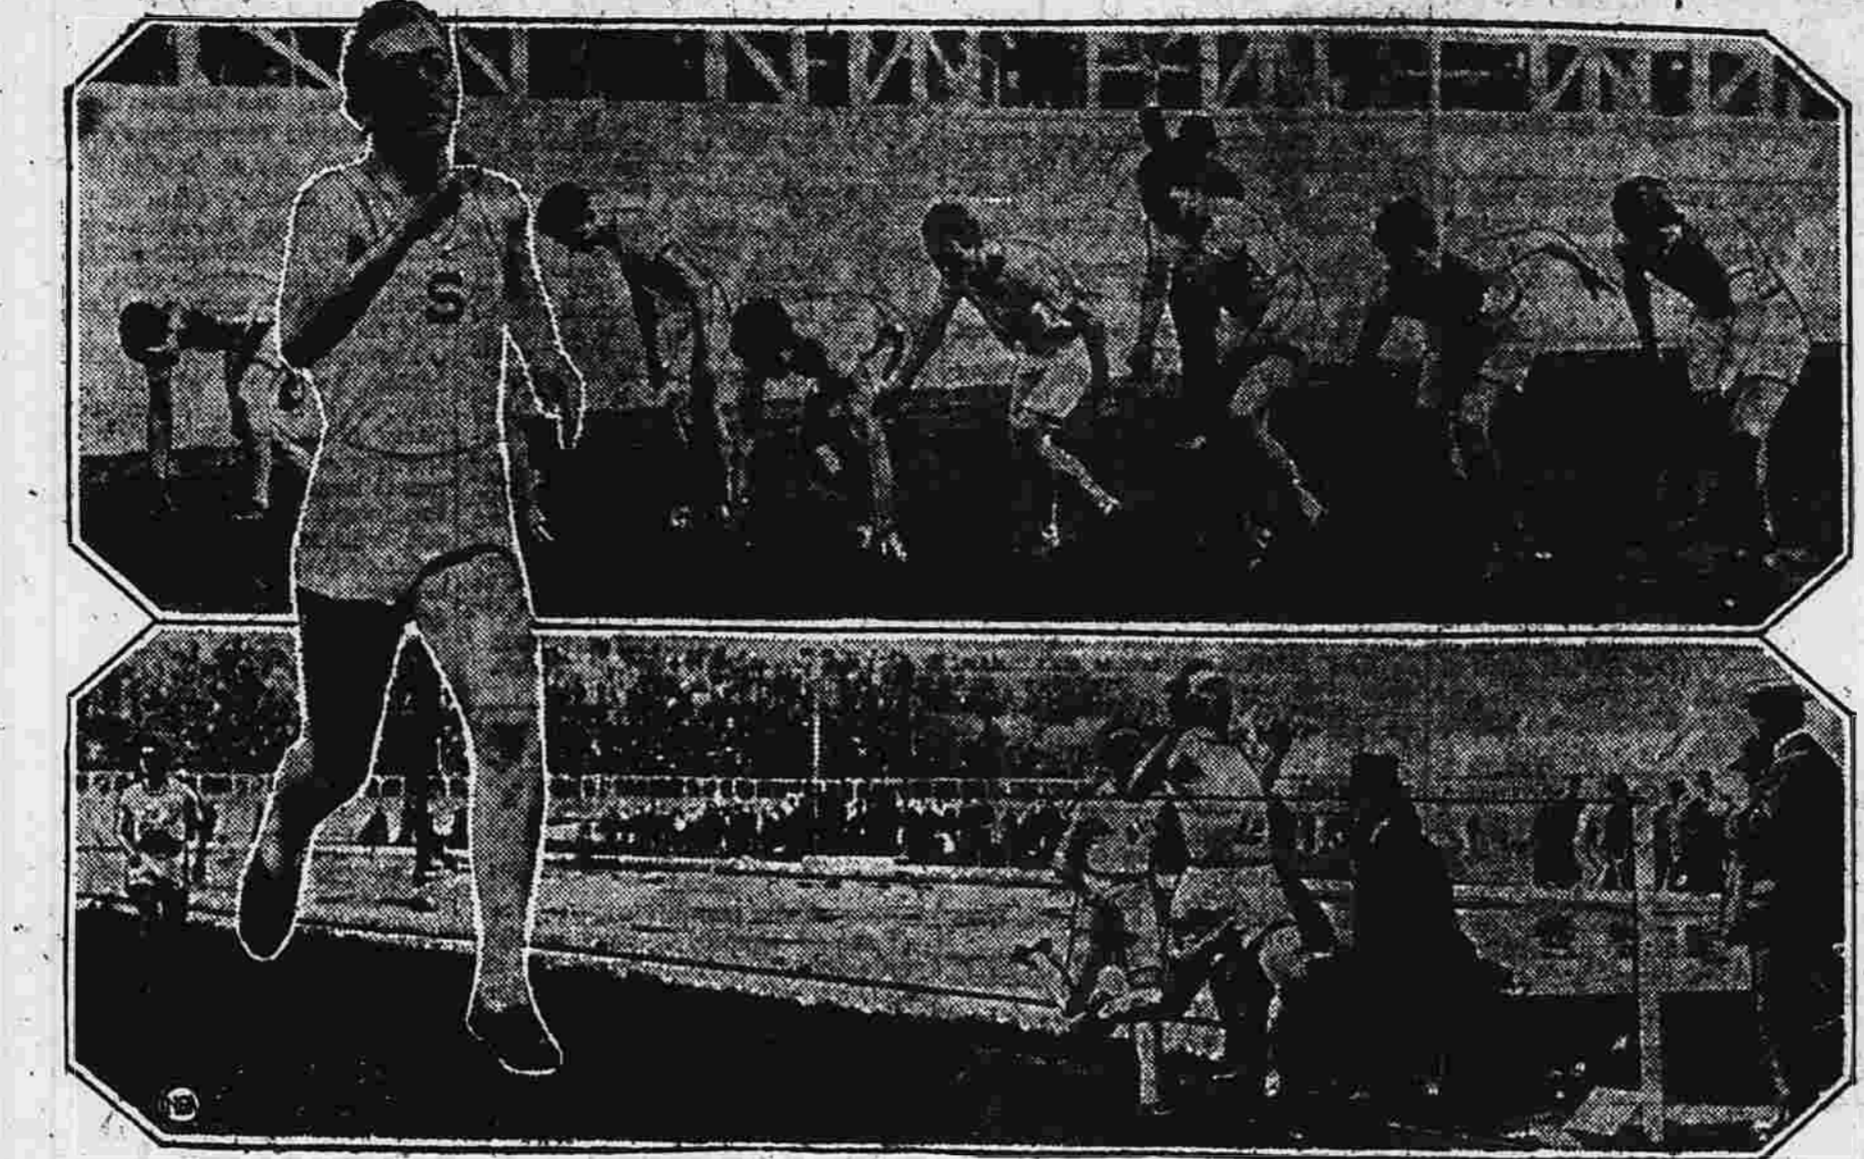

Race horses owned by Manchester man took part in the first Middletown race of the season Saturday afternoon at Crystal Park.

White noise of the local entries won a first place they nevertheless did well considering the fact that it was the first test of the season for them.

A large number of Manchester horse-race fans witnessed the program the results of which follow:

Eastman Has Bright Chances For 'Double'

EDITOR'S NOTE: This is the fifth of a series of articles by Mel Sheppard, track star of other Olympics, in which the noted coach discusses heroes of yesterday and the great athletes of today.

By MELVIN W. SHEPPARD Former Middle Distance Star and Olympic Winner (Copyright, 1932, by NEA Service) I have been asked many times how I view the chances of Ben Eastman, Stanford's blond, long-striding star, to win an Olympic "double" in the 400 and 800-meter runs at Los Angeles. My answer is that if "Dink" Tompleton's charge can hold the form he has showed thus far, he can bring to the United States its first double triumph in those events since Paul Pilgrim's day at Athens in 1906.

I recall my experience in the 1500 meters in 1908 at London, the most grueling race I ever ran. I had trained for the "900". I had not done a lick of work for the longer distance.

"I was entered in the "1500" as a matter of form—also because of the possibility that I might want to work out in one of the heats or pace one of the American milers part of the distance. Down at Brighton on the night before the games, I was seized with the crazy idea that I ought to run in the 1500-meter heats the next day.

I could not stop thinking about it. I went to bed calling myself crazy for thinking I would have a chance with the finest milers in the world when I hadn't done any training above the "half."

But the next morning I awoke with the firm determination to start, though I said nothing about it. After breakfast I went to my room and put my track suit and shoes into a small bag.

WILLIMANTIC EASY FOR LOCAL TOSSERS

Manchester Horsehoe Pitchers Triumph 10 To 2 At Thread City Sunday.

The Manchester horsehoe pitching team defeated Willimantic Sunday in the Thread City 10 to 2. The match set for Munson, Mass., Saturday was postponed until a later date.

Tonight a series will start with the undefeated McLaughlin-Suhle combination opposing the West Side's two crack tossers, Billy Goss and Billy Neubauser, both young boys. The first of this series will start at Hose House No. 3 at Spruce street, 6 o'clock.

Ringers in the match with Willimantic were scored as follows: Giorgio-Thomson beat Crane-Martell 50-15, Nichols-Legary 51-36 and Clark-Squires 50-5.

SARTOR CLOUTS TWO HOMERS, TEAM WINS

The Avon Hilltoppers in camp Sunday by the tune of 9 to 5. Only two of Avon's runs were earned, the other three being scored on errors. Joe Sartor led the assault against Avon with two homers, both to deep center. Al Smith allowed four hits, striking out 17 batters during the course of the game, eight of them in a row.

BLUEFIELDS TRIUMPH OVER CHARTER OAKS

In a game which proved a tight battle until the sixth the Bluefields defeated the Charter Oaks 16 to 0 on the Charter Oak grounds yesterday.

John Lovett and Kiebbish hit safely and scored on an out and a walk. The Charter Oaks had men on first and second by errors in the first but these died there. In the sixth the Charter Oaks took possession by getting a hit on an error. Kiebbish carried along by clever base running, scored and Fohl turned a walk into another tally.

Johnny Burnett Makes Nine Hits Out of Eleven Trips To Plate; Browns Top Yankees Twice, 10-9 and 8-7.

(By Associated Press) The Philadelphia Athletics were only six games out of first place in the American League today having written into the records one of the most spectacular long distance victories in baseball's history.

Eighteen innings they traveled yesterday to beat out the Cleveland Indians 16 to 17. Jimmy Fox scored the deciding run in the fifth.

Johnny Burnett of the Indians collected nine hits in 11 times at bat and his teammates Averil and Morgan each cracked five. Fox with six hits including three homers knocked in 8 runs for the A's. Simmons had five. There were a total of 58 hits.

Burnett's feature, for all the records disclose might have established a major league record. The accepted mark of seven hits set by Wilbert Robinson before the turn of the century. The veteran Ed Rommel went the last 17 innings for the A's and gained the nod over Wes Ferrell who was in there the last 11 frames for the Indians.

What made the victory doubly sweet for the A's is that the Yankees were beaten twice by St. Louis, 10-9 and 8-7. The Browns knocked Gones from the hill in the first game to hand him his third straight defeat. Irving Brown, Brown's first baseman, made seven hits in the two games.

Detroit divided a pair with the Red Sox winning the first 7 to 5 and dropping the second 13 to 2. While Alvin Crowder pitched steady ball, Washington belted three White Sox sippers for 19 hits and a 13 to 3 victory.

Pittsburgh and Chicago were a standoff in their race for National League honors as both captured Sabbath encounters. The leading Pirates made a flying rail to 7 win over and picked up an 8 to 7 win over Brooklyn when Hack Wilson led a drive away from him in the 9th. The Noble Bill Dwyer was credited with his fifth straight win. Chicago beat the Braves 4 to 0 behind Warneke's great pitching. It was his 12th win.

The Cincinnati Reds receiving two well pitched games didn't do a thing but halve the Giants twice, 6 to 4 and 4 to 2. Bill Hallahan and Dickey Dean hurled the Cards to a double win over the Phils, 7-5 and 3-1, Dean yielding only 5 hits.

The Bolton Times had no trouble giving Vernon a double yesterday at the Mountain View Park diamond. The score was 15 to 4. Elmo Mantelli made a home run.

Dickey's Case Comes Up For Hearing Today

Cleveland, July 11—(AP)—The possibility of a new trial was in the air today as club owners and President Harridge of the American League assembled in Cleveland to thrash out the protested suspension of Bill Dickey, mainstay catcher of the New York Yankees.

Dickey was suspended for 30 days by Harridge, for slugging and breaking the jaw of Carl Reynolds, star outfielder of the Washington Senators. He also was fined \$1,000.

Col. Jacob Ruppert, owner of the Yankees, filed a vigorous protest and demanded a hearing at today's meeting.

The seven other clubs of the league will probably admit unanimously that the loss of Dickey will do the

OPEN FORUM

Editor of the Herald:
 I would appreciate very much if you would publish in your paper the following letter. Being a young man and a lover of sports and especially swimming and being in the fashion of the thousands of other young people by "ditching" my swim cap naturally quite broke. I make this appeal for the benefit of others in the same predicament as myself. To the officials who are responsible for running Globe Hollow I take this opportunity to ask those gentlemen how they Acute young fellows like myself can get a 15 cent for admission to Globe Hollow; 15 cents in bygone days to some of us was a mere atom, but now it has assumed gigantic proportions and as a result we have to stay away and get our swim caps from the store at a price of 25 cents. The alternative is to like out into the country and waddle in some mudhole. And so for myself and others I make this appeal to reduce the price of admission from 15 cents to 5 cents. This may sound like a big proposition to some, but I think it is a very reasonable one. I am sure that the officials will be glad to do it. I can assure you that I would be more than welcome and thoroughly appreciated and there is no doubt that the Globe Hollow would benefit by the reduction. I am sure that the officials will be glad to do it. I am sure that the officials will be glad to do it. I am sure that the officials will be glad to do it.

WILLIAM S. HYDE, Judge.

WOMEN NOT TO AID GOVERNOR ROOSEVELT

New York, July 11.—(AP)—Mrs. Charles A. Sabin, National chairman of the Women's Organization for National Prohibition Reform, today said "no no comfort" today in the petition of Mrs. August Belmont and 61 other members dissenting from the executive committee's endorsement of Franklin D. Roosevelt for president.

Mrs. Sabin added that comfort probably could be found in it by the Women's Christian Temperance Union, the Anti-Saloon League, the Methodist Board of Prohibition, Temperance and Public Morals and Bishop Cannon.

The 61 dissenting women issued a statement yesterday in which they said that "to make the attitude of the candidate toward control of the liquor traffic the sole test of his fitness for the presidency would be negation of our responsibilities as citizens."

"I am told was drafted with the help of the distinguished Secretary of the Treasury, Ogden Mills," said Mrs. Sabin. "That is his prerogative. But when these ladies state that both parties declare in favor of submitting to the people an amendment eliminating National prohibition they are reading into the Republican plank an interpretation not justified by its wording."

BEER MAYOR DIES

Johnstown, Pa., July 11.—(AP)—Joseph Cauffiel, 62, former "beer mayor" of Johnstown, is dead.

The price chief executive of this city became nationally known when prohibition went into effect. Although he was a dry, Cauffiel urged brewers to manufacture "good beer" in defiance of the 18th amendment during a local arid spell.

"Beer was sold for one night. Federal agents stopped the flood of the 'foamy stuff'."

Cauffiel, who died Saturday night, called to rally from an illness that attacked him while serving time in the county jail following his conviction of extortion, perjury and misdemeanor near the end of his last administration.

The mayor, once a candidate for governor as an independent was a friend of Col. Theodore Roosevelt and took a prominent part in the Bull Moose campaign.

SUMS SHIPPING BOARD

New York, July 11.—(AP)—Henry P. Talmadge, 95-year-old former head of the private shipping house of Henry Talmadge and Company, testified today in his suit for \$479,800 with interest from 1918 against the United States Shipping Board.

He testified that during the war he advanced \$1,250,000 to the American Ship Building Company of Brunswick, Ga., and took an assignment of all claims against the Shipping Board for payment in connection with work being done.

He said the Shipping Board paid him back all the money he had advanced, except the amount he is suing for, and that amount it paid to the American Ship Building Company. As that concern is bankrupt he said his only recourse was to sue the Shipping Board.

HAROLD C. ALVORD, subscribed and sworn to before me this 9th day of July, A. D. 1932.
RUSSELL B. HATHAWAY, Notary Public.

DENOUNCE WET PLANK

Lake Junaluska, N. C., July 11.—(AP)—The Democratic Party's plank for repeal of the Eighteenth Amendment has drawn the fire of the Board of Temperance and Social Service of the Methodist Episcopal Church, South, and of Bishop James Cannon, Jr., who was the mainstay of the anti-smith movement which swept part of the "Solid South" into the Republican fold in 1928.

Denouncing it, the board's annual report, prepared at its meeting here, asserts "any attempt by any party platform declaration to bind the members of that party on a moral issue is a distinct invasion of the moral reason and is, therefore, not only an indefensible infringement of the rights of conscience, but a gross insult to independent citizenship."

Bishop Cannon, president of the board, read the report here yesterday and then discussed his views of the respective attitudes of Franklin D. Roosevelt and President Hoover toward repeal. He said he was speaking as a citizen.

OVERNIGHT A. P. NEWS

Washington.—President Hoover declines suggestion of Governor Roosevelt for a conference on St. Lawrence waterway development.

Nanking.—Ammunition depot blows up; scores reported killed.

Dublin.—Gov. General James McNeill demands apology from President De Valera for alleged snub by the Free State ministers.

Seattle.—Progressive Republican organization of Washington calls convention for July 28 to consider endorsement of Roosevelt.

Lake Junaluska, N. C.—Bishop Cannon indicates he will oppose Roosevelt.

Omaha.—Executive committee of Farmer-Labor party picks Jacob Coxey as presidential candidate.

Ayer, Mass.—Two National Guardsmen receive minor injuries when struck by ambulance while walking from Ayer Center to Camp Devens.

Rutland, Vt.—Socialist Party of Vermont nominates Fred W. Sutor, Barre, for governor and Norman E. Griswold, Bennington, for lieutenant-governor.

Boston.—Frank H. Foy, Quincy, vice-commander of the Massachusetts Department, American Legion, announces his candidacy for the department commandership.

Rockland, Mass.—Four young men armed with shotguns admit they were in a local gambling resort after their arrest by state police.

Boston.—William Cardinal O'Connell, Roman Catholic archbishop of Boston, expresses hope that England will not be "vindictive toward Ireland on the 20th anniversary of the arrival from the Eucharistic Congress."

Boston.—Seventeen persons killed in automobile accidents in Massachusetts last week.

Avon, Conn.—Mrs. Joseph W. Allogg, a cousin of Governor Roosevelt, announces her resignation as a member of the state executive committee of the women's association for National prohibition reform because the organization endorsed the Democratic nominee.

Stetson, Mass.—Beddington M. Soule, 30, Westville, drowns while swimming in Pleasant lake.

Clinton, Mass.—Gordon Whitney, 14, drowns in Kennebec river while swimming.

BOY SCOUT NEWS

In accordance with our summer outdoor program the troop will meet in a body in the rear of the church Tuesday at 1:15. Every member will be asked to bring his bathing suit to engage in the swimming activities. The swimming will be supervised by leaders who are Red Cross Junior Life Guards. After a vigorous swim light refreshments will be served.

Notes
 The troop is proud to announce that at least one of our number Frank Sheldon, has signed his intention of attending Camp Pioneer this summer. Can't we have more?
 Guests and recruits will be asked to pay the small sum of five cents to defray refreshment expense at our Tuesday evening meetings. Members please take advantage of our outdoor meetings to pass tests, inconspicuous to indoor meetings.

CHARGE AGAINST CLERK

New Britain, July 11.—(AP)—Emil J. Danberg, 43, clerk of City and Police courts, pleaded not guilty to conversion of funds from the court when he was arraigned in Court this morning.

Auditors who have been examining reports of City departments reported to William H. Judd, chairman of the board of Finance and Auditors, Saturday, that Danberg was short \$7,645.63 in his accounts and Judd has a warrant issued for his arrest. He was taken into custody several hours later at the home of a brother.

OPERA STAR IS SUED

Vienna, July 11.—(AP)—The newspaper "Morgenpost" issued today a health hint which led to the issue of Maria Jettika last night trying to serve an attachment issued in connection with a suit by a jeweler who charges the singer failed to pay for jewels purchased from him in 1931

SENSE AND NONSENSE

THE HAND-ME-DOWNS

In days of old—so I am told—
A girl oft wore a hand-me-down
From mother's skirt, a dress quite
part:
It made her quite a pretty gown.

But changed are times, as well as
rhymes,
Girls buy new dresses by the score,
While mother's gowns, in many
towns,
Are cast-off frocks the daughters
wore.

Smith got married. The evening of
his first payday he gave his bride
\$14 of the \$15 salary and kept only
a dollar for himself. But the second
payday, Smith gave his wife \$1 and
kept \$14 for himself.

The wife (injured tones)—Why,
John, how on earth do you think I
can manage a whole week on one
measly dollar?
Hubby Smith—Darned if I know.
I had a rotten time myself last
week. It's your turn now.

A lot of farmers are learning that
it is easier to raise cotton than it is
to make women wear it.

A pedestrian had fallen into a
manhole and called for help.
Gentleman (who happened along)
—Dear me! Have you fallen in that
manhole?
Pedestrian—Not at all. As you
seem interested, I will say that I
just happened to be down here and
they built the pavement around me.

Doctor—What you need is a little
sun.
Sweet Young Thing—Oh—Doc-
tor!

WE CAN'T ANSWER
Dear Office Cat Colyum: Why
should it be considered a reflection
upon a man to say he drinks like a
fish? What beverage does a fish
drink, anyway?
—R. A. S.

Pause and reflect. It is a very sad
thought, gentle reader, that your
children, twenty years from now,
will be reading these same jokes.

Mrs. Aldrich (to her new cook)—
Mary, I wonder if the pudding is
done. Stick a knife in it and see if
it comes out clean.
Mary The Cook (a few minutes
later)—It comes out wonderful,
m'am. So I've stuck all the other
knives in it.

Gerald—I can't see why you should
refuse to marry me because I asked
for just one kiss!
Geraldine—Well, any modern fel-
low who would ask for a kiss isn't
aggressive enough to make a good
living.

THE OFFICE CAT SAYS:
Live men are dead in earnest.
Real merit, like cream, comes to the
top.
Fight fear, it is the main cause of
failure.
The greatest discovery a man can
make is to find himself.
The chief task in life for each of us
should be helping other folks.
Do not waste your time dreaming of
green pastures elsewhere, but be a
success where you are.

McTavish—That's a brutal blade
on your safety razor, Sandy.
Sandy—It was good enough for
my father, and it's good enough for
me.

The modern flapper's idea of a hot
time does not consist in standing
over the kitchen stove.
Miriam—I'm afraid you can't
wait very well, Edward!
Edward—No, darling, but I surely
can intermission.

Powdered and lip-sticked she was,
and entirely worthy of attention.
He touched her on the shoulder—
moral crusader that he was—and
with that winning, condescending
smile, he said:
The Good Man—My dear, do you
realize the doors of Paradise are
closing to you?
The Painted Doll (with a smile
equally winning)—Well, then, let's
try some other case.

Many a man has married a woman
when he never had any intention
of doing so the idea being exclusiv-
ly hers.

TOONERVILLE FOLKS

My father, and it's good enough for
me.

The modern flapper's idea of a hot
time does not consist in standing
over the kitchen stove.

Miriam—I'm afraid you can't

try some other case.

Many a man has married a woman
when he never had any intention
of doing so the idea being exclusiv-
ly hers.

Two Too Late
"Give up drink, my man, and you
will live to over eighty."
"Too late, m'am."
"It's never too late."
"Yes it is—I'm eighty-two now."
—Tit-Bits.

A Bad Case
"Did you have measles worse
than Bobby Jones?"
"Much worse, grandma. I had
em during school vacation."
—Tit-Bits.

The Professor Again
"Hello," said the absent-minded
professor. "How's your wife?"
"Oh," replied the man, "I'm not
married yet, you know."
"To be sure," nodded the profes-
sor. "Then your wife is still sin-
gle, too."—Country Gentleman.

ABOUT TOWN

The Men's Friendship club of the South Methodist church will have an outing at Coventry, Saturday, July 16. A chicken dinner will be served at Grange hall at 1:30. The ticket committee is getting in contact with each member with a view to having every one of the men at the picnic. A program of sports such as volleyball, baseball, horse shoe pitching and other games will be run off. Considerable enthusiasm has been aroused among the members and it is expected this will be one of the most enjoyable outings the club has ever held.

That there had been a man drowned in Crystal Lake last evening became known in Manchester by 9:45 through people who were at the lake and had driven home from there. Knowing that the body had not been recovered several started to the lake to watch the efforts that were being made to locate the body. An account of the drowning is in today's Rockville news.

Frank Mullen, who recently left Manchester for a visit to Ireland, will attend the triennial council of the Orange organization which is to be held in Belfast, Northern Ireland, Wednesday. Delegates from Orange lodges in all parts of the world attend these meetings, at which matters of great importance relating to the order are dealt with.

The Manchester Garden club members will meet this evening at 7 o'clock at the Y. M. C. A. From there they will tour seven or eight of the gardens of members, or as many as there is time for until darkness falls. If it should rain this evening, the tour will take place the first pleasant night, starting from the same point, the Y. M. C. A.
