

BIG REPUBLICAN RALLY PLANNED IN MANCHESTER

Town Committee Names Three To Conduct Great Party Here; Hope To Have Prominent Candidates.

A great Republican rally, one of the biggest ever held here, is planned by the Republican town committee, which held a preparation meeting in the Judge of Probate's office in the Municipal building last night.

The Republican committee last night named Harry Russell, Ernest Kjellson and Victor Bronke a committee to plan and conduct the rally. Although their plans are as yet in the rough they hope to bring U. S. Senator Hiram Bingham and other prominent Republicans here.

Notice was given last night of a big district Republican caucus to be held at the Sunset Ridge Country club Saturday afternoon, September 10. Republican leaders from all over Hartford county will attend and an unusually fine turnout is to be expected.

Last night's committee decided to district the town for convenience in enrolling new voters and in getting out the vote.

ROOSEVELT BARS MOTIVE EVIDENCE

Refuses To Hear Witnesses For Walker Presented To Show a Political Plot.

Executive Chamber, Albany, N. Y., Aug. 25.—(AP)—Governor Franklin D. Roosevelt last night conducting his first evening session of the hearing on removal charges against Mayor James J. Walker of New York, but a dull affair: proved to be, except for a brief argument over Walker's second attempt of the day to introduce testimony indicating the motives behind the legislative investigation of his administration.

In yesterday's session John J. Curtin, the mayor's counsel, placed on the stand Walter W. Westall, Republican state senator from West Chester county, as the first of eight of the State's outstanding Republican leaders whom he wished to question concerning the contention of the mayor's friends that the investigation was a Republican plot to embarrass the Democrats.

Last night Curtin called Walter Hams, representative of a news-

FAT OPS IN FLOUR TOWN MUST REDUCE OR RESIGN

Minneapolis, Aug. 25.—(AP)—It's reduce or resign for Minneapolis policemen who are over-size. City officials have decided too many policemen are too fat so the word was sent out they would either have to remove their "big windows" or their ears.

"It looks as if they want a bunch of blinikin' gigolos," a desk sergeant grumbled, visioning tedious days of setting up exercises and 18 day diets.

LEE'S PLANE IS OFF FOR OSLO; 'FAMILY' READY

Thor Solberg To Dismantle Plane That Plunged Into Sea In Fog; Lee Hopes To Make Hop In 30 Hours.

Some units in aviation's big parade were zipping along today, while others got set to go.

The plane Green Mountain Boy from Barre, Vt., hopped off from Harbor Grace, N. F., bearing Clyde Lee and John Bochkon toward Oslo, Norway.

George Hutchinson and seven others in his "flying family" prepared their ship on Anticosti Island, Gulf of St. Lawrence, for the hop to Labrador. They plan to proceed in easy stages to London.

Thor Solberg and Carl Petersen, "vikings" from New York who hoped to beat the Green Mountain Boy to Oslo, waited at Darby's Harbor, N. F., to dismantle their wrecked plane. It plunged into the water during a fog Tuesday night.

Capt. J. A. Mollison in New York got ready to fly back to England to know if weather reports are to his liking.

William Ubrich, Dr. Leon M. Piccilli and Miss Emda Newcomer said they would leave New York for

EARHART SMASHES WOMAN'S RECORDS

Makes First Trans-U. S. Non-Stop Flight, Flying World's Longest Distance For Sex.

Newark, N. J., Aug. 25.—(AP)—Mrs. Amelia Earhart Putnam landed at New Airport at 10:28 a. m., Eastern Standard Time, today, completing the first trans-continental non-stop flight made by a woman.

By coming non-stop from Los Angeles to Newark Mrs. Putnam also won the distance flight record for women, which she barely missed taking from Ruth Nichols in her recent solo flight across the Atlantic.

Mrs. Putnam dropped her Lockheed Vega high wing monoplane in a perfect three-point landing, and was greeted by Lieut. Richard Aldworth, airport manager. The criminal gold-plated plane came over the airport from the west and after circling once around the field, lastly came down to land.

Mrs. Earhart, looking tired but happy, could be seen smiling in the ship.

The unofficial time for her flight was 19 hours and two minutes. The west-east non-stop record for men is held by Frank Hawks at 17 hours, 38 minutes and 59 seconds.

FARM STRIKERS BATTLE POLICE, WOUNDING FOUR

Iowans Hurl Bricks and Clubs At Tear Gas Car; Sixty-three Arrested, Machine Guns Guard Against Rescue.

Council Bluffs, Ia., Aug. 25.—(AP)—A tense situation prevailed today on the Council Bluffs sector of the striking farmers' war for higher prices, after hostilities in which four men were injured. All of the injured were officers who sought to break the picket lines of farmers seeking to prevent the movement of farm produce into the important market center of Omaha, just across the Missouri river from Council Bluffs.

Bricks, clubs and pieces of railroad ties flew through the air last night when five officers in a police car with tear gas drove through a crowd of picketing farm folk, some of them women and children. Shots were fired into the air by one of the officers as the car passed through the crowd.

Despite the efforts of the officers to break up the picket formation the farmers were back on the highways and reinforcements were reported arriving from other strike centers.

There was talk of asking Governor Dan Turner for intervention in the National Guard, now encamped at Camp Dodge for annual maneuvers, but Sheriff P. A. Lainsen, leading the law enforcement officers, expressed confidence the situation could be kept under control by local authorities.

The sheriff was planning a renewed assault on the picket lines, unless concentration of strikers appeared too great for his men to handle.

The officers drove through the crowd of strikers with cans of compressed tear gas fastened on the running boards of their car. Strikers ran away from the gasping and choking. The police car was placed a run-through the crowd and back to the street.

Strikers then massed about the machine throwing bricks and clubs; one of which crashed through the window of a car, hitting one man who suffered severe glass wounds.

Sixty-three farm strikers were arrested in connection with the clash with Sheriff Percy Lainsen's posse of 100, but today the picketers still held Highway 34, the main object of contention today. Only 13 of the group were seized on the battlefield. The others were apprehended in towns near here.

During the night Sheriff Lainsen threw up a special guard around the jail, fearing a rumored m. b. attack. Three men with sub-machine guns were posted, and an armed guard patrolled the front of the jail. Numerous small groups approached, but there was no attempt at attack.

ARTHUR GETS COURT AID IN THEATER WAR

Injunction Issued in Connecticut Strike Conflict in Which Flare Bombs Figure.

New Haven, Aug. 25.—(AP)—Refusal of strikers of an arbitration proposal and two court actions furnished new complications today in the strike involving the Hartford chain of theaters operated by the Arthur Theaters Corporation.

Under a temporary injunction, issued in Superior Court by Judge Patrick E. O'Sullivan, striking operators and stage hands were restrained from unlawful picketing in front of the three Arthur theaters in New Haven.

Meanwhile in New York Harry Arthur, head of the theater chain, announced receipt of a letter from Charles Wood, United States commissioner of conciliation, saying the strikers had rejected a recommendation to arbitrate. Wood said he had been informed of this decision by William Dillon, international representative for the strikers.

In issuing the injunction, Judge O'Sullivan set a penalty of \$10,000 for any violation of the order. He did not define unlawful picketing.

Strike leaders said they planned to petition immediately for a dissolution of the injunction. As a result of a series of flare bomb explosions in its theaters since the strike, the Arthur corporation faces two suits for damages totaling \$40,000. These were filed in the Superior Court at Bridgeport by Anthony Castaldo and Anthony Spertino who charged they suffered burns in an explosion at the Globe Theater in Bridgeport. Each asks \$20,000 damages.

JAPAN FORMALLY SEES MANCHUKUO

Ignores U. S. Refusal To Recognize and Defends Her "Stabilization" Course.

Tokyo, Aug. 25.—(AP)—Outlining her foreign policy, Japan today declared the world's peace machinery offered no remedy for the chaotic condition of China and announced formally her intention to recognize in the near the new Manchukuo state, Manchukuo.

The declaration was made by Baron Uchida, the foreign minister, before an extraordinary session of the House of Peers.

Former recognition of Manchukuo, the foreign minister said, was "the only means of stabilizing conditions in Manchuria" and establishing permanent peace in the Far East.

Uchida said that the "international relations have been principally responsible for the unfortunate turn that international relations have taken of recent years in the Far East." Uchida said: "It is admitted by those conversant with actual conditions in China that no remedy can be effected by having recourse either to the covenant of the League of Nations or any other organ of what may be termed the 'machinery of peace.' In fact it has been the practice of the powers, as has been demonstrated on several

DEATH IS DECREED FOR GEN. SANJURJO

Famous Spanish Commander Sentenced For Rebellion; Son's Estate Seized.

Madrid, Aug. 25.—(AP)—Jose Sanjurjo, one of the most famous Spanish soldiers of modern times and commanding general of the army, was sentenced to death today for leading a rebellion against the Republic.

A mixed civil and military tribunal of the Supreme Court, reached the verdict after twenty hours of deliberation, while the nation waited and demonstrations for and against the "Hero of Morocco" were restrained with difficulty by government forces.

General Sanjurjo's lifelong friend and companion-at-arms, General Herreras, was given a sentence of 12 to 20 years in prison as an aide, Lieutenant-Colonel Infante, General Sanjurjo's son, Justo, a captain, was given life imprisonment.

Efforts for clemency. General Sanjurjo's attorney immediately started efforts for clemency. He appealed to the president against a sentence he called "a disgrace against the government and the country." Francis was asked to intervene because Sanjurjo was decorated with the Legion of Honor in the presence of Spanish and French army detachments for heroic work in Morocco against the Rifis.

There was no recommendation of clemency in any of the sentences. The government alone has the

In Winchester and Cornwall "Independent" Tickets Are Expected To Be Beaten.

Hartford, Aug. 25.—(AP)—The status of petitioners for the independent Republican Party, opponents of the renomination of U. S. Senator Hiram Bingham, provided the only basis for possible dispute today as preparations went forward for state-wide Republican caucuses.

Harmony is expected to prevail nearly everywhere tonight as party members gather to name delegates to the state convention in New Haven September 6 and 7. With the personnel of the state ticket still highly conjectural, generally unstructured delegations were expected except where a "favorite son" is already an avowed candidate.

May Be Some Disputes. Coming on the heels of a decision by Deputy Attorney General Ernest L. Averill, that signers of the Independent Republican Party petitions may be removed from the caucus lists, several caucuses may prove the scene of dispute over the status of the so-called independent voters.

Averill's decision was handed down in reply to a query from F. C. Neville, Republican Registrar in Avon. In reply, George W. Hull of Burlington, acting chairman of the Progressive Republican State Committee, reiterated his threat to institute court action in the case of a Republican elector whose name appears on the independent petitions.

He branded the Averill opinion as "intensely partisan." In a similar case, also, Republican town chairman in Avon said the decision and any action to be taken in that town would be considered at a meeting of the town committee this afternoon.

Independents Protest. Citing statutes and a decision of the Supreme Court of Errors, Averill said: "The registrar of voters would be legally justified in erasing from the caucus list those persons who have signed the petition requesting that the Independent Republican Party be placed upon the ballot in November, both upon the claim that such signature constitutes an intention to enroll in another political party or organization and also shows an active affiliation with another political party or organization."

Proponents of the Independent party, organized to fight the renomination of U. S. Senator Hiram Bingham and supported by the prohibition organizations, claimed their supporters were not violating the statute in signing the independent petitions inasmuch as they favored the candidacy of President Hoover and the Republican presidential electors. Albert Levitt of Redding has declared himself the independent candidate for the Senate to run against Bingham.

Two Possible Contests. The opposition to Bingham has brought possible caucus contests in Winchester and Cornwall, where opposing states of delegates have been drawn up, but supporters of the independent party in each town are confident the insurgents will be defeated. No contests on any other issues appear imminent.

RAIL WORKERS URGE U. S. GO ON A WAR BASIS

Seek All Labor's Support For Control of Industries During Crisis; Disavow Permanent Socialization.

Cleveland, Aug. 25.—(AP)—Emergency government control of industry was proposed today in a political-economic platform adopted by the executives of 21 railroad brotherhoods with the possibility of support from a united battle-front of organized labor.

"In co-operation with all other industrial and agricultural organizations of workers," the railroad labor executives said, "we propose before the election in November to put on record every aspirant to public office either for or against a labor prosperity program."

Taking the view that present reduced wage levels cause reduced consumption, which in turn forces reduced production, the program advocates a "labor prosperity program" to halt the vicious circle.

The "labor prosperity program" was summarized by the executives as follows: "Wage cutting must stop. Competition in wage cutting and price cutting is simply competitive suicide. Adequate wages, adequate prices and adequate employment must be restored."

"Our national resources and national credit should be mobilized and employed as they would be in a time of war, for the purpose of coordinating and compelling the use of the industrial facilities of the nation for the employment of all those capable of employment."

"Adequate compensation thus insured to the workers will provide the purchasing power necessary to support the agricultural and industrial production of the nation."

"We are opposed to any permanent nationalization of business or property. But to meet the dangerous failure of the manager of private industry to maintain their operations and to exchange their products through voluntary co-operative methods, we believe that an emergency nationalization is warranted."

Wage cutting must stop. Competition in wage cutting and price cutting is simply competitive suicide. Adequate wages, adequate prices and adequate employment must be restored.

Unarmed Invaders of Franklin County, Ill., Met By Attack At Border; Beaten and Cut By Windshield Glass, Their Automobiles Ditched and Congested, Their Excursion Is Broken Up; No Deaths Reported But Miners Allege Serious Injuries.

Benton, Ill., Aug. 25.—(AP)—Bedraggled clusters of defeated men and women were all that remained today of the confident throng of approximately 15,000 striking miners and members of their families who attempted to invade Franklin county late yesterday to picket coal mines as a protest against lowered wages.

Fifteen minutes of gunfire and wounding of clubs by a force of approximately 600 deputy sheriffs ended the attempted invasion, which leaders of the strikers had termed the "greatest labor march ever undertaken in the United States."

Nearly a hundred miners suffered battered heads. Six persons were injured seriously enough to require medical treatment, including two who suffered minor bullet wounds.

Left 300 Automobiles. Fleeing pell-mell when the firing began, the strikers deserted approximately 300 of their automobiles and trucks at the scene of the onslaught. In the hurry to escape, automobiles were driven into ditches or plunged into cornfields along the highway where the clash occurred.

On second every aspirant to public office either for or against a labor prosperity program. Taking the view that present reduced wage levels cause reduced consumption, which in turn forces reduced production, the program advocates a "labor prosperity program" to halt the vicious circle.

WAR OVER SONS IN FILMS

Chaplin and Lita Grey War Over Sons in Films

Los Angeles, Aug. 25.—(AP)—Lita Grey Chaplin, divorced wife of Charles Chaplin, film comedian, said today she would oppose efforts of her former husband to prevent their two sons from entering films.

"I don't believe any parent has the right to take away the chance of their children entering any profession and particularly when it is one which they will follow in the footsteps of their father," said Mrs. Chaplin.

The screen comedian was in possession of a temporary order restraining Mrs. Chaplin from allowing the boys, Charles, Jr., 7 and Sidney, 6, to enter film work. A hearing on the order will be held Saturday.

The petition of Chaplin set forth the claim that film careers for two boys would be "a detriment to their future welfare." Chaplin recalled that a trust fund of \$200,000 had been created for each son, and in addition the sum of \$1,000 a month for their education, maintenance and support was provided.

CAUCUS TONIGHT OCCUPIES VOTERS

Republicans To Pick Their Delegates To Three Different Conventions.

Tonight's Republican caucus, to be held in the high school hall at eight o'clock, leads political interest here today. Delegates to the State, Senatorial and Congressional conventions will be named tonight and before the caucus, Judge William S. Hyde, chairman of the Republican town committee, is anxious for a large turnout of registered Republicans to show the opposition that interest in this year's election is at a high pitch.

Not Favorite Sons Manchester is interested in the three conventions only in an abstract way since it has no local sons seeking the support of either of the three conventions. At first it was expected that Professor Albert Levitt would take a strong personal interest in the conventions but now that he has organized an Independent Progressive Republican party he has automatically removed himself from an active part in Republican affairs. Unless those who support him wish to jeopardize their membership in either of the major parties they will not take any prominent part in the caucuses of the major parties. A ruling was made yesterday which makes signers of the Levitt party petition without rank in whatever party the voter was registered with previously.

Few proposals for nomination have been filed with Town Clerk Samuel J. Turkington to date. A contest is assured for constable with the following in the race: James W. Foley, Gerald R. Riley, Clarence Anderson, Charles Sweet, John E. Anderson, William J. Shields, Charles Crockett and John Longdike. Only four can be named.

WANTS TO BE SELECTED

Yesterday afternoon Clifford C. Squires of Bristol street filed his proposal for selection in the Republican primary. The Squires papers were filed out in James W. Foley's taxi-cab office it was stated today as a joke after the owner of the former Princess theater had asserted himself vigorously on a question of local, state and national importance. With the filing of his proposal Squires immediately sought a copy of the town charter to study up for the job. Those who signed his paper were James W. Foley, Philip Carrara, Elmer Ryan, Walter Anderson, Noble, Michael J. Boland, Joseph J. Hadden, Jr., Richard E. Gates, Frank C. Mallon, John E. Anderson, Charles Crockett and Richard Martin. Edward Fitzgerald had signed the Squires proposal but his name is not on the Republican caucus list so another name was substituted.

Three proposals for nomination for town officers were filed in the town clerk's office today. George H. Howe, Republican, filed papers for Tax Collector; Thomas A. Brennan, Republican for Justice of the Peace and Robert N. Veitch, Republican, for Registrar of Voters.

BELIEVE WHITMAN TENDS TO SENATE, NOT ALBANY

New York, Aug. 25.—(AP)—William H. Hill, assistant eastern campaign manager of the Republican National Committee, had a luncheon conference today with former Gov. Charles S. Whitman, who has been mentioned as a possible candidate for the United States Senate.

Former Governor Whitman has also been mentioned as a possible nominee for the Republican nomination for governor but it is more generally believed he has his eye on Washington rather than Albany.

No statement was made today concerning the subjects discussed by the former governor and Hill.

SCENT KIDNAPING PLOT IN DEATH OF CHICAGOAN

Head of Optical Company Is Found Dying In Hotel Room, His Companion Gons.

New Orleans, Aug. 25.—(AP)—A man, tentatively identified by police as Dave R. Ettinger, president of the Riggs Optical Company of Chicago, was found dying in a hotel room here today. He succumbed before first aid could be administered. Another guest who had occupied the room with him was not located.

Police said they were investigating a report Ettinger had been kidnaped.

Hotel officials said the two men arrived late yesterday and registered as A. N. Sanderson of St. Louis and A. J. Blair of Cleveland, Ohio. The man was found dying after hotel attendants had heard groans coming from the room.

Papers on the body were marked "Dave R. Ettinger of Chicago," and included correspondence bearing the name of the optical company. A bank book on the Eborary Bank of New York showed a withdrawal of \$1,000 three days ago with a considerable balance remaining.

Police instituted a search for the second man.

LEFT WITH TWO MEN

Chicago, Aug. 25.—(AP)—David L. Ettinger, reported found dead today in a New Orleans hotel, was president of the Riggs Optical Company in Chicago, and had been missing since last Monday.

CHIEF OF DETECTIVES WILLAM SCHOEMAKER SAID HE HAD BEEN INVESTIGATING A POSSIBILITY THAT ETTINGER MIGHT HAVE BEEN KIDNAPPED.

Ettinger left his offices in the Merchants building here Monday, Schoemaker said, and has not been seen since.

Witnesses reported, Schoemaker said, that Ettinger left the building in the company of two men.

HOOVER CONFERS FORM BUSINESS CROSS SECTION

Washington, Aug. 25.—(AP)—A wide cross section of American business activities was represented today at the gathering of business leaders with government officials preparatory for tomorrow's general business conference.

The chairman of the 12 banking and industrial committees of the federal reserve districts meeting at the Treasury spoke for almost every phase of business activity. The chairman and their jobs are: Carl P. Bennett, Boston, vice president chamber of commerce; Owen D. Young, New York, chairman General Electric company; George H. Houston, Philadelphia, president Baldwin Locomotive Works; L. B. Williams, Cleveland, member, Dayton, Miller and Company; Edwin C. Grant, Richmond, District, president National Electric Supply Company; George S. Harris, Atlanta, cotton industry; Sewell L. Avery, Chicago, president Montgomery Ward and Company; J. W. WRITING PAPER TRADE SHOWS A LARGE GAIN

New York, Aug. 25.—(AP)—Dow Jones & Co. today that orders booked by the American writing paper co. in the first 30 days of August showed a 50 per cent increase over those in the like period of July, amounting to 7,000,000 pounds against 4,600,000 pounds. This big gain in August business, it was said, prompted to put the company's operations on a profitable basis after operating at a loss for a year or more.

NO TRACE FOUND OF MISSING MAN

Relatives Think New Robert Cooney May Have Gone Somewhere After Work.

The fact that Robert Cooney, the aged man who disappeared from the home of his grand-daughter, Mrs. John Ewald Johnson, of 100 Summer street, early yesterday morning, had considered taking his life and had commented on the different methods used by recent suicides in this vic-

inity, lent weight to the theory entertained by police that he had committed suicide. No trace of Cooney had been found at noon today, the missing man last being seen shortly after 5 o'clock Tuesday evening.

Search in Plainfield Searchers have scoured all sections of the south and without success and activities today are being centered in the vicinity of Plainfield, as it is thought possible that Cooney may have decided to visit his son, who lives in Central Village. The police further learned yesterday that Cooney was the father of Mrs. Johnson's mother and not Mrs. Johnson's father as at first reported.

Following the death of William Roemer, who fell or jumped off of Park street bridge, Cooney talked more and more of suicide, saying that if a person wished to die by his own hand he should go into some secluded place and commit the deed, in order to save relatives trouble.

Fearful For Him Because of his continual talk of suicide, his grand-daughter has been much concerned over his condition and when he did not return from a walk Tuesday evening she asked her husband to locate him. This he did, finding Cooney on South Main street, but the latter declined to ride back, saying he would walk home later.

Photographs of the missing man were obtained yesterday and by means of these pictures, Cooney was identified as the man who went into Buck's store on South Main street shortly after 5 o'clock and purchased a bottle of soda. He was later seen near Fern street. It was later reported from Kelsey's farm in Glastonbury that a man answering Cooney's description had passed along the road toward Buckingham.

This information was offset by the statement of Robert Richmond, who said that he was driving to his home, just north of the Glastonbury town line, and met no one walking along the road.

Description Possessed of photographs of Cooney, Captain Herman Schendel began another search today, visiting various sections of the south and the description of Cooney reported to police is as follows: Height, five feet, three inches; weight, 140 pounds; light complexion, blue eyes; wearing a soft light felt hat, gray hair and mustache; blue coat and gray trousers; between 50 and 52 years old.

Relatives are holding to the belief that Cooney may have gone off in search of work, as he considered himself a burden. To reach his home in Central Village, it would not be far out of the way to go by way of Colchester, turning toward Norwich and from Norwich to the Village. His son was in Manchester yesterday and said he would begin the search near Plainfield.

Suicide Theory However, the theory of suicide remains strong, at the note left by Cooney and his general talk about self-inflicted death seems to overcome the idea that he will be found alive. Should he follow his plan of going into a secluded spot, it is thought that he will be no easy task to discover the body.

New Angle A new angle on the Cooney case was given to Lieut. Barron of the Manchester police department this morning by Russell N. Tryon of South Main street in the town of Glastonbury. At about 8 o'clock Tuesday night Mr. Tryon saw a man walking in the road headed in the direction of Glastonbury who answered the description of the wanted man.

Mr. Tryon told Lieut. Barron that the man kept to the middle of the road, making motorists blow their horns to warn him of their approach. He stopped for a few moments to look over the Tryon place and then kept on in the direction of Buckingham and Addison.

G. O. P. Changes Its Tactics As Hoover Starts Offensive

Those who expected the Republican Party to continue on a defensive attitude during the campaign, have found several surprises in President Hoover's speech of acceptance.

In conspicuous fashion, that speech marked a wide departure from Mr. Hoover's campaign strategy of four years ago. It is true that long passages were devoted to the glorification of Republican doctrine, after a manner reminiscent of 1928. But on the two most-discussed issues, the Republican nominee attacked the Democrats both directly and indirectly.

On the score of prohibition, he charged that the Democratic proposal would bring back the saloon, attended by rum, and asked the country to put its faith instead in a "dime solution."

In other words, Mr. Hoover clearly set out to brand the opposition as thoroughly unrepentant in a crisis and thoroughly wit.

A Change From 1928 This all sounds very different from the Hoover campaign speeches of 1928, in which the very existence of the Democratic party and candidate were left largely unmentioned. The change is readily understandable when changed political conditions are taken into account.

Four years ago, the Republican leaders were content to wait a somewhat colorless campaign. It is now that they are striking the Republican conviction that it is not nor Smith, the Democratic nominee,

lively identify him but was sure that he had a soft hat on, which Cooney was said to have had on when he left Buck's store at about 5 o'clock.

LEUT. BARRON CALLED AT SEVERAL HOUSES BEYOND THE TRYON FARM BUT COULD FIND NO ONE WHO HAD SEEN THE MAN BEYOND THAT POINT.

SELF LIQUIDATION AN R. F. C. PROBLEM

Washington, Aug. 25.—(AP)—The Reconstruction Corporation is proceeding carefully with its work of organizing the new activities assigned to it by Congress, particularly with regard to the self liquidating projects. The \$1,500,000,000 fund allotted to stimulate employment.

The agricultural credit corporations being formed in ten land bank districts will be ready to function in about a month. The sites for two corporations have not yet been selected but Finance Corporation officials expect to make the selections soon.

Difficult Questions The problem of dividing whether projects are self liquidating is causing the corporation board and its engineer advisory committee considerable difficulty.

Among the prospects suggested to the board for financing are two bridges at San Francisco and several over the Missouri and Mississippi rivers, including one between Omaha, Neb., and Council Bluffs, Iowa.

Loans in Near Future The destitution relief section of the corporation's work is gradually taking form and a number of new projects are expected to be made within the next few days. Some of these states, particularly in the west, are asked for comparatively small sums.

A request by Governor Pinchot of Pennsylvania for the full \$45,000,000 the corporation is permitted to loan to any one state for destitution relief is expected to come before the board soon. The Board three weeks ago declined to make a loan to Pennsylvania, saying it could not help until the legislature acted and the state did more to help its own people.

ROOSEVELT MAN DROPPED BY TAMMANY MAY RUN

L. W. Post, Assemblyman, is Considering Independent Candidacy, He Says.

New York, Aug. 25.—(AP)—Langdon W. Post, the Assemblyman Tammany Hall failed to reelect, returned today from a trip in the middle west in behalf of Governor Roosevelt's campaign for the presidency and acknowledged the possibility that he may run independently in an effort to retain his seat.

"It is an unfortunate situation," Post said, "because the Republicans are sure of carrying the district (Tenth Assembly District in New York City) whether I run as an independent or not."

Post cut short his tour yesterday. The night before his plane, piloted by James E. Hines, was a loan to the Coast Mountains, but neither Post nor Hines was hurt. Post said today his return to New York was occasioned by the failure of Tammany to reelect him, and not by the fact that he had been in a loan to the Coast Mountains, but neither Post nor Hines was hurt. Post said today his return to New York was occasioned by the failure of Tammany to reelect him, and not by the fact that he had been in a loan to the Coast Mountains, but neither Post nor Hines was hurt.

On his trip Post visited Michigan, Illinois, Wisconsin, Minnesota and Iowa. He said he had a general tour toward Rochester, N. Y., but there are reports that he will carry the west, he said.

ACT TO REMOVE PARTY DESERTERS

Registrars Veitch and Moriarty To Get Names of Petition Signers.

Both Robert N. Veitch, Republican Registrar of Voters and Edward Moriarty, Democratic Registrar of Voters, plan to secure from the Secretary of State the names of the Manchester people who have signed petitions asking that the Independent Progressive Republican ticket be placed on the voting machines or printed ballots to be voted on at the November election and also the names of those who have signed in favor of the Socialist party.

Their object in doing this is to carry out the law relating to the duties of the registrars. In Section 700 of the general laws of Connecticut the duties of the registrars are so defined that it is their duty to keep a list of such persons and if it is found that there is reason and proof to back such actions they must notify the person who has signed such application; and they must appear before the chairman of the town committee of the party in which they have been registered.

In Section 700 of the general laws of Connecticut the duties of the registrars are so defined that it is their duty to keep a list of such persons and if it is found that there is reason and proof to back such actions they must notify the person who has signed such application; and they must appear before the chairman of the town committee of the party in which they have been registered.

The registrars present their side of the question and the chairman of the town committee must pass judgment. In cases where persons registered as Republicans have signed such petitions they will be present before Judge William S. Hyde, chairman of the Republican town committee and in the case of a person who is registered as a Democrat, the hearing will be before John Limerick, chairman of the Democratic town committee. There has already been a ruling by the Assistant Attorney General, Ernest Averil, that persons having signed such petitions are not allowed to take part in the primaries of the parties with which they were formerly registered.

How far it will change the Democratic plans does not yet appear. The Roosevelt leaders will not be diverted easily from their desire to keep the Republicans on the defensive, although, of course, they will take advantage of lesser Republican lights from now on.

However, it comes out, the line of strategy indicated in Mr. Hoover's speech is sure to heighten public interest in the campaign, because the public will not like to see all of the blows struck by one side.

FIND SLAIN PRINCE WAS AN IMPOSTER

"Hapsburg" Scion, Who Wedded An American, Turns Out To Be Thief.

Rome, Aug. 25.—(AP)—The newspaper Il Piccolo said today it had evidence that a man identified as Edgard de Bourbon, a Hapsburg Prince, who was slain by a woman in Paris recently, was an imposter.

The real name, said the newspaper, was Carlo Loroli. He was born in Milan in 1882. Il Piccolo said the man's lawyer had records showing Loroli received a three year prison sentence in Italy during the war upon his conviction on a charge of espionage.

Marrried American The newspaper's evidence showed he was married to an Italian woman from Cleveland, Ohio, who, the article said, signed letters to the authorities at Milan as "Clara de Bourbon-Parma." Il Piccolo said the man had a son by each marriage, one of them named Rudolf.

In 1901, the newspaper said, he was imprisoned at Zurich and in 1916 was in jail at Pireus on a charge of theft.

The attorney said Loroli was married in Cleveland in 1903 to the daughter of a colonel in the American army. While her husband was in prison, he said, the American wife sent him generous sums of money. Loroli told him, said the attorney, that he had divorced his Italian wife and married the American woman, but there were no records of the divorce.

HANKOW BOYCOTTERS BOMB CHINESE STORE

Merchant Was Accused of Selling Japanese Goods; Violence Follows Exhortation.

Hankow, China, Aug. 25.—(AP)—The "Blood and Iron" society's anti-Japanese boycott campaign took a violent turn today when a group of them hurled four bombs into a Chinese store accused of handling Japanese goods. The store was wrecked and two clerks injured.

The incident served to increase the tension here with residents fearing further violence, but authorities appeared to be carrying on the routine investigation.

The Chinese Chamber of Commerce, meanwhile, started exhorting merchants to cease handling Japanese goods as a means of stopping the outbreak.

The anti-Japanese boycott agitation has been increasing within recent weeks, further sequel to many Sino-Japanese difficulties since last September, when the Japanese first invaded Mukden, Manchuria.

ITALY'S 2 BATTLESHIPS IN PORT FOR RETIREMENT

Rome, Aug. 25.—(AP)—Italy's only battleships, the Andrea Doria and the Duilio, turned their backs upon the sea today and put into port where they will be stripped of their crews and retired from service.

This is by the order of the government for retirement of 180,000 tons of naval vessels, including three heavy cruisers and a number of lighter craft.

A few caretakers will remain aboard to keep the machinery ship shape so that the units, even though they are out of active service, can be used for bargaining purposes when the disarmament conference resumes.

STUMBLING, FALLS UNDER HIS OWN TRUCK; KILLED

Cheshire, Aug. 25.—(AP)—Fred Northam, 40, of 408 Perry street, New Haven, was crushed to death under the wheel of a heavy truck on which he was helper, shortly before noon today, when he stumbled under the wheel while running alongside the machine up a steep grade. The wheel passed over his head.

Charles Halter, 37, of 140 Foster street, New Haven, driver, left Phillip Quinn of 17 Vincent street, New Haven, brother-in-law of the dead man, in charge of the body and the truck and went to police headquarters at Waterbury to give himself up for questioning.

Halter was ordered held for an inquest this afternoon by the coroner.

YOUNG TO SUPERVISE SO. WINDSOR SCHOOLS

Town Accepts State Aid Plan and Former Ellington-Tolland Man is Engaged.

Arthur L. Young, who has been superintendent of the Ellington schools and Tolland schools under state supervision, has been named as superintendent for the schools of South Windsor, which will give him but one town to supervise. He succeeds Miss Nellie McLaughlin, who was the superintendent of schools in South Windsor up to the close of the school year this past June.

The town of South Windsor by this change will save quite a bit of expense of supervision which was not the case last year and which resulted in several stormy sessions between the voters of South Windsor and the town school board when the change was proposed. By the engaging of Mr. Young the town of South Windsor accepts state aid in supervision.

ABBAY, REBUILT BY 25 YEARS LABOR, DEDICATED

First Ceremony of Kind in England Since Reformation is Attended by Papal Legate.

London, Aug. 25.—(AP)—In the presence of the papal legate, Francis Cardinal Bourne, and many foreign bishops and abbots, the rebuilt Buckfast Abbey was consecrated today, after 25 years of labor by the Benedictine monks.

This was the first consecration of its kind in England since the reformation, 400 years ago. Cardinal Bourne's sermon was broadcast.

Brother Paul Langa, B.M., expelled from Burgundy with many others 48 years ago, bought the land and discovered the foundations of the ancient abbey. It had been intended to build only a small Gothic church, but the discovery of the ruins impelled the monks to restore the abbey to its twelfth century proportions.

COVENTRY AFTER FUNDS TO BUY FIRE APPARATUS

Will Conduct Dances and Entertainments To Get Some Portable Equipment.

The town of Coventry and the more thickly settled section, South Coventry, is to have a fire department. There have been many fires in Coventry during the past year and there has been a strong feeling of need for the formation of a fire department. Since the state has adopted an equipment that can respond quickly and can take water from brooks, wells or small ponds, there has been a feeling that, something of the kind could be used to good advantage in South Coventry.

The plan has been given aid by the interest shown by the women of the hamlet and in order to assist in raising funds to purchase such apparatus they are arranging to hold dances and entertainments for the purpose. The first of the dances is to be held soon.

GET FUNDS FALL ON COLLEGE

Two Youths Gather Quite a Sum Saying They Are Working Way To School.

By means of falsely identifying themselves as graduates of Manchester High school, two young men who claim their names to be "Spoto" and "Lescumb," have been obtaining money in Manchester for the alleged purpose of helping them obtain a college education.

Not Known Here The matter was called to the attention of the school authorities after more than half a dozen persons had donated sums of five and ten dollars. One prominent Manchester person gave almost twenty dollars. Supp. F. A. Varbank informed the local police after his investigation revealed that neither man was a graduate of the local schools and that neither was registered in the town directory.

The chances that the pair will be apprehended is relatively small inasmuch as it is believed both have fled town and are many miles away, probably working the same scheme in some other town or city. They "worked" Manchester Tuesday, claiming they were working through an American magazine which published a magazine for which they had contributed articles from time to time.

"Both Out of Town" They sought donations of five or ten dollars and said part would go to the magazine and a portion toward their college education. They claimed to be seeking aid for a \$500 scholarship which would admit them to the Yale medical school. Authorities would prefer their identity to be kept quiet with the added information that "both are out of town today," showing they had looked over the ground carefully before soliciting funds in Manchester.

BARLOW NOW HEADS LOS ANGELES DEPT. Is in Charge of Records and Identification Bureau; Former Manchester Man.

Few have made more rapid advancement in any field of work than has Captain Howard L. Barlow, former Manchester man who is now head of the records and identification division of the Los Angeles police department. It was almost 15 years ago that Capt. Barlow left Manchester for the west coast. His wife was formerly Miss Hilda Holmes, daughter of Mr. and Mrs. Nicholas H. Holmes of 341 Center street. They have two children, Dorothy and Allan. The former will graduate from high school next year.

Several Promotions The last time that Capt. Barlow's name appeared in The Herald he held the rank of lieutenant. About a year ago he was promoted again, this time to the captaincy of the records and identification division which embraces, among other departments, the fingerprint office. It was in this work that Capt. Barlow first attracted national attention through his work in the Hickman and Eberle cases. Both were convicted principally through Capt. Barlow's fingerprint investigation and subsequent testimony.

Capt. Barlow has made a very thorough study of crime, especially in regard to fingerprinting. He has what is said to be the largest privately-owned crime-book library in the world in his home. Few public libraries have anywhere near as many books on this subject as the former Manchester man who has spent considerable time and money in making his collection. This determination to learn more and more about his profession, has been instrumental in the five promotions which moved him from street patrolman to his present high office.

Efficient Dept. The Los Angeles police department is admitted as annual reports to be the most complete of its kind in the United States, even exceeding New York City and Chicago. Complete records are kept of every crime whether of minor or major nature. Often many cases are cleared up in later years through fingerprint prints which have been kept under lock and key for a long time, being taken out now and then for periodic check-ups. The records and identification division has been removed from the old city jail building to the City Hall, Los Angeles' tallest building. Incidentally this is the only structure in the city more than 14 stories all, as it is against the city ordinance to build higher. A special permit was issued for City Hall.

Service in the records and identification department is maintained 24 hours a day, every day in the year. More than 100 men and women comprise its personnel. In addition to the fingerprint department, an elaborate and indexed record of all stolen property is kept which results in the recovery of thousands of dollars worth of stolen goods each year. Too, this often provided clues which lead to the apprehension of the guilty party.

Traffic Analysis All traffic accidents are analyzed and a record kept. This leads to street traffic changes at points where it is apparent that some deficiency in the layout is a contributory cause to the accident. Photographs are kept of all homicide cases and serious traffic accidents. The fingerprint unit of course is one of the most important of the department. Many crimes are solved simply through identification made by tell-tale fingerprint prints.

During the year ending June 30, 1931, for example, 51 out of 136 cases in which there were no suspects, were solved solely by fingerprint identification. These included burglary, robbery, murder, grand theft, theft from auto, rape, hit and run, sodomy, possession of still, theft from U. S. mail and Wright Act possession.

93 PHONES LOST HERE IN MONTH

Business Good, Say Officials, Despite Drop — 4,483 Subscribers Here.

The Manchester exchange lost 93 telephones during the month of July, according to the Telephone Bulletin just issued by the Southern New England Telephone Company. The loss in the local exchange since January 1 of this year totals 571 telephones and there are now 4,483 subscribers under the Manchester exchange.

Losses of telephones include removals from town as well as those patrons who have ordered the telephones out for economical reasons. The survey shows that the largest loss has been in Hartford where 4,202 phones have been removed since the beginning of the year.

Hartford, however, is the biggest exchange in the state and in proportion its loss is no greater than the other large cities in Connecticut. A decrease in the number of telephones does not necessarily mean that business is poor, officials of the company say. They maintain that the company's service was never better and that the employee list has been maintained through adoption of the shorter week. The entire plant of the company is in good repair and is being kept that way. Employees of the company have actually learned how to sell telephones instead of being just order-takers, they insist.

The telephone company's policy during these trying times, said one official, is to sit tight and run the job as economically as possible and at the same time sell additional telephones whenever possible.

occasion, to repair or prevent injuries to their important rights and interests in China by direct application of force without relying upon those instruments of peace.

Great significance was attached to the baron's address in view of recent pronouncements from the Washington administration that the United States would not recognize territorial changes wrought through violations of the Kellogg-Briand and other peace treaties.

Denies Breaking Treaties Uchida denied any treaties had been broken. His assertions were considered replies to Secretary Stimson and to President Hoover, who have made statements on the point.

The minister went on to say that Manchukuo had come into being as a result of a separatist movement within China herself, and denied Japan was seeking to annex Manchuria or "otherwise satisfy her thirst for land."

He took note of a plan "in certain quarters" to "patch up matters for the moment" by investing China with some form of authority over Manchuria, and declared the people of Japan would never consent to the idea.

MRS. McCORMICK RALLIES FROM BRINK OF DEATH

Chicago, Aug. 25—(AP)—Another amazing rally brought Mrs. Edith Rockefeller McCormick back from the brink of death today.

At dawn her family had been called to the bedside, expecting an end momentarily. Stimulants were administered, however, and Mrs. McCormick's heart and pulse became stronger. Her children then retired to their adjoining apartments in the Drake Hotel.

Encouraged a little by her astonishing ability to rally, Mrs. McCormick's physicians emphasized that nevertheless she could not survive long.

OLDEST S. N. E. WORKER DIES

Branford, Conn., Aug. 25—(AP)—George S. Pond, 78, who was the oldest living employee of the Southern New England Telephone Company when he retired two years ago, died early today. He had worked for the telephone company 47 years and was vice-president of the Branford Savings Bank. His widow, a daughter, and two sons, Harry J. Pond, of West Haven, and Walter Pond of West Hartford, survive.

NAME CENTRAL DEFICIT

Portland, Maine, Aug. 25—(AP)—The Maine Central Railroad today reported a deficit of \$108,466 for July, compared with a surplus of \$9,945 for the same month a year ago. The figure brought the deficit for the first seven months of this year to \$305,893. For the same period in 1931 the road had a surplus of \$48,592.

SCOUTS VOTE TO PARADE TO HONOR McCUSKEY

All Troops in Town To Take Part in Tuesday Night's Procession For Young Athlete.

At a meeting of the Scoutmasters' Association of Manchester District, Boy Scouts of America, at the Center Congregational church last night, officials unanimously voted to donate the services of all local Scout troops for the parade in honor of Joe McCuskey, who arrives from the Olympia next Tuesday.

McCuskey is a former member of Troop 2 of St. James' church. The scoutmasters also voted to make an effort to obtain a Boy Scout band from Hartford to lead the local troops in the parade.

REYNOLDS BELIEVES BROTHER WAS SLAIN

Winston Salem, N. C., Aug. 25—(AP)—R. J. Reynolds, Jr., heir to the tobacco fortune founded by his father, believes his brother, Smith, was murdered but he wants to "see justice done" and is going to leave investigation of the case to "regularly constituted authorities."

Reynolds expressed himself in an interview here yesterday. He arrived in Winston Salem last Tuesday after a 12,000-mile trip by land, sea and air from off the Canary Isles where he was cruising when advised of his brother's death.

ESKIMOS WHO SOUGHT GHOST SHIP ARE MISSING

Point Barrow, Alaska, Aug. 25—(AP)—Twenty-five Eskimos who went out to board the "ghost ship" Baychimo early in the week were still missing today, and the shifting ice has again carried the vessel out of sight. Two other searching parties sent back word they had found the ship.

Last seen Monday morning, the Baychimo was fifteen miles west of here and drifting to the southwest at about three miles an hour. A strong southerly wind sprang up, pushing the ice inshore and making search difficult.

MANCHUKUO MAKES IT EASY FOR ANDREWS

Reiping, China, Aug. 25—(AP)—Roy Chapman Andrews, the American explorer, announced today that the Manchukuo government had offered him every facility to complete the work of his central Asiatic expedition for the American Museum of Natural History. The expedition will proceed at any time now, he said.

BOURBON PRINCE HELD FOR DISPLAY OF CROWN

Barcelona, Spain, Aug. 25—(AP)—Carlos of Hapsburg de Bourbon, Archduke of Austria and brother of Archduke Anton, was arrested today for driving an automobile bearing the Bourbon royal crown on the door. The appearance of the car caused a demonstration when he parked it in a downtown street. The archduke has lived here since the World War.

TENNIS TOURNAMENT MATCH RESULTS

Women's Singles Being Played Off Rapidly — Upsets Among the Men.

The women's singles tennis tournament is proceeding rapidly and only one match remains to be played in the opening round, as the favorites advance into the quarter-finals. The one remaining match brings together Francesca Oswald and Mary Antonio.

Muriel Tomlinson defeated Anna Willis in straight sets on the High School courts yesterday afternoon, 6-1 and 6-3 and will meet Mrs. Robert Houghton. Eleanor Heubner will meet the winner of the Oswald-Antonio match in the other match in the lower bracket.

Olga Weber trounced Grace Gligo, 6-3 and 6-1, while Gladys Lamprecht won a hard fought match from Marion Moeand, 6-1, 5-7, and 6-3. Miss Weber will meet Miss Lamprecht and Elisabeth Washkiewicz and Dorothy Lamprich come together in the other match.

This year's men's tourney showed a reversal of the standing of the Bissell brothers. Last year, Earl was defeated in the early rounds but this year Sherwood fell before Robert H. Smith, and Earl won two matches to enter the second round. The latter scored a straight set victory over Clarence Wogman, without losing a game, 6-0 and 6-0 and then went on to defeat Anton F. Ward, 6-2 and 6-2.

Ward is a fine tennis player, but he was unable to cope with Bissell, whose remarkable improvement in form is one of the surprises of the tourney. As a result Bissell will meet James Britton. In the only other match reported, Robert H. Smith easily eliminated Roger Winston to enter the quarter-finals. Smith will meet the winner of the Bissell-Britton match.

Players are again requested to notify The Herald of the results of their matches as soon as possible.

CANADIAN COPPER GOES TO BRITISH MARKET NOW

Sudbury, Ont., Aug. 25—(AP)—With Canadian copper moving into the United Kingdom markets in steadily increasing volume, recent copper sales have been the highest since June 21, when the United States tariff against the Canadian product went into effect, it was stated on good authority here.

Within the last week, eight cars of refined copper have been shipped from copper cliff seven for export.

SAYS HOOVER SECRETARY JUNKED BONUS PROTEST

Civil Liberties Union's Head Asserts Petition Signed By Notables Was Suppressed.

Washington, Aug. 25—(AP)—John Haynes Holmes, chairman of the American Civil Liberties Union, said today in a statement that Lawrence Richey, one of the President's secretaries, had refused to present to Mr. Hoover a letter of protest against the eviction of the bonus army.

Holmes said the letter was signed by Dr. John Dewey, Roy W. Howard and 39 others and was presented on August 12. He said Richey declared its authors had been guilty of misrepresentation of fact and that "I do not propose to present it to the President."

Holmes said he then wrote Richey asserting that information on the eviction was taken from reliable sources and "we are at a loss to understand how the facts could be misrepresented."

There was no reply to this letter, the statement said, adding "evidently" the administration has been driven to the point where it can only take refuge behind charges of misrepresentation without having a scrap of evidence to support its position or confound its critics."

WEST SIDE JUNIORS TAKE TRACK MEET

Defeat East Siders 37 1-2 To 30 1-2—West Takes Six Firsts in Eight Events.

In the junior track and field meet at the West Side playgrounds yesterday afternoon, the West Siders scored a seven point triumph over the East Side athletes, placing first in six of the eight events. The final score was 37 1-2 to 31 1-2.

In the first event on the program, Einar Solmonson of the West Side won first place in the 50 yard dash for boys under 12 years. S. Zapata and F. Barrett of the East Side taking second and third respectively. Solmonson also captured the race around the track, with Zapata and Rautenberg, the latter of the West Side, placing second and third.

Solmonson made a clean sweep of the event when he also won the running broad jump. Barrett of the East Side was second and Bosco, another East Sider, was third.

In the 75 yard dash for boys from 13 to 15 years old, Everett Solmonson, a brother of the junior champ, was first, two East Siders, Caspiakly and Starr, finishing second and third. Then Caspiakly raced to triumph in two laps around the track, second going to Judd of the West Side and third to Peckingham of the East Side.

The running broad jump was won by Bellamy of the West Side and his team mate, Judd, placed second, with Peckingham third. The high jump created two ties, the first between Caspiakly and Lane, both East Siders, for first place, and Bellamy and Starr for third.

The mile relay was won by the West Side team, consisting of Solmonson, Bellamy, Hagenow, Judd and Salmonson. Four events were run for girls, but the results were not counted in the point tabulation. The results were as follows: 75 yard dash for girls 12 years or under, E. Taggart, first; G. McNeil, second; and G. Benson, third; 75 yard dash for girls 13 to 15 years, C. Wilson, first; C. Foley, second; and M. Hall, third; one lap around the track, C. Wilson, first; M. Hall, second; and C. Foley, third; special race for girls five or under, H. Janicke, G. Tedford and E. Vennart.

The meet was in charge of Nick Angelo, Ralph Russell, Elmo Mantelli, Lewis Lloyd and Walter Holland.

BELIEVE 13 YEARS OLD GIRL SET FARM FIRES

Lens Johnson, of Fall River, Granddaughter of Mrs. Lathrop, Taken Into Custody.

Lens Johnson, 13 years of age, of Fall River, Mass., a grand-daughter of Mrs. John Lathrop of Pleasant Valley, South Windsor, was yesterday taken into custody as being responsible for the three fires at the Lathrop farm. The arrest of the girl was expected after the investigation made by Assistant Chief John Armstrong of the East Hartford fire department. State Policeman Carroll E. Shaw and Chief of Police William McKee of the East Hartford police department following the third fire on Monday night.

It was not until yesterday afternoon that Sergeant Paul Levin of the Hartford State police headquarters went to the home of the grandmother of the girl and took her to the Hartford headquarters where she was questioned further. She is said to have broken down under the examination and presented with certain details concerning the fire that she thought had been fully covered. It is said by the State police that the girl told of setting the fire to the barn a week ago tonight by dropping a lighted match into the hay, that there is a mental defect in the child. She is to be given a hearing in chambers in South Windsor late this afternoon.

Fat Man Reduces 53 Pounds—Oh Boy!

Don't be stubborn, you big fat men—throw off your fat before your fat throws you into the discard. Do as Mr. E. A. Lanier of Sawtelle, Calif., did—read his letter:

"I have used two reducing belts to no benefit but since using Kruschen Salts each morning in my coffee I have taken off 7 lbs. in a week and eat most anything I like. I weighed 245 lbs. 6 months ago and now I weigh 190 lbs."

Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats, potatoes and sweets—now you know the safe way to lose unsightly fat.

For a trifling sum you can get a jar of Kruschen Salts that lasts 4 weeks at J. H. Quinn & Co., South Manchester—or any drugstore in the world—but be sure and get Kruschen—your health comes first.—Adv.

THURSDAY, AUGUST 25.

**JIMMY AND SANTA**

Perhaps we are—all of us—all  
 wrong about Jimmy Walker. It  
 would almost seem, as the Albany  
 hearings go on, as though we must  
 be. So many quite important gen-  
 tlemen, almost all of them brought  
 up with a deep respect for the sanc-  
 tity of an oath, agree so completely  
 that while it just happens that they  
 variously did things that oddly  
 enough poured ducats into the  
 pocket of the mayor or his man of  
 business, the missing Mr. Sherwood,  
 they never in all the world would  
 have thought of such a thing as sug-  
 gesting that he grease the ways for  
 their sundry and diverse projects.

And the whole fashion in which  
 these worthy persons did business  
 was so casual and accidental, as it  
 were, as to bring conviction that  
 even if they had dared to bribe the  
 mayor and even if the mayor  
 weren't a million miles above being  
 bribed not one of the lot would have  
 had enough business acumen about  
 him to conceive of such an idea or  
 brains enough to know how to do it.

These various sources of purely  
 accidental revenue are, according to  
 their own confessions, the most  
 lamblike and innocent group of pud-  
 ding-heads that a wondering world  
 has ever had a good look at. They  
 tossed wads of bonds and cash and  
 letters of credit about without even  
 bothering to see where they came  
 from or where they landed. They  
 took each other's word for any  
 amount at all, and sometimes didn't  
 bother about even taking that.

We are gradually being brought  
 to the conviction that Jimmy and  
 these friends of his were just one  
 big happy family, a community  
 among themselves in which every-  
 body was welcome to anything in  
 the way of bundles of jack that  
 happened to be lying about, and it  
 just happened, perhaps, that Jim-  
 my's needs at many a moment were  
 greater than those of some of the  
 others—for which reason he appears  
 to have found it more blessed to re-  
 ceive than to give.

Jimmy appears to have been, in  
 the life of the circles in which he  
 moved, a sort of his premier danseuse  
 at whom everybody around was  
 throwing bouquets of thousand dol-  
 lar bills, without in the least expect-  
 ing favors in return.  
 Yes, we may have been—it is to  
 be suspected must have been—  
 wronging Jimmy very deeply. He  
 is, it appears, just a happy child,  
 delightfully retaining his faith in  
 Santa Claus and believing with  
 very good reason that Christmas  
 comes every day when you're  
 mayor of New York.

**HEADLONG**

Alfred E. Smith, though all his  
 life a politician, is a rather forth-  
 right person. Now and then he has  
 even been a bit headlong. Per-  
 haps the quality of making snap  
 decisions—as when once, in a holy  
 second, he refused flatly to run on  
 the same ticket with the awesome  
 Mr. Hearst—has helped him greatly  
 in the making of friends. He has  
 probably made two right ones for  
 every wrong one; and that's as good  
 an average as anybody can expect  
 to reach, in any walk of life, even  
 after long worrying.

Just the same it seems to us that  
 Al made a mistake in very sud-  
 denly announcing, on Tuesday, that  
 he would have an important state-  
 ment to make in the next morn-  
 ing's papers; when all the time he  
 only had in mind to make known  
 his new job as a magazine editor.

Mr. Smith is a mighty important  
 factor in the political situation of  
 this country right now. It is en-  
 tirely possible that the fate of the  
 Democratic ticket may hang on his  
 word—or on the continuance of his  
 silence until election day. He must

have known perfectly well that lit-  
 erally millions of people were deeply  
 interested in his course in this cam-  
 paign. And he ought to have  
 known, if he had stopped to think  
 for half a minute, that when he for-  
 mally promised an "important an-  
 nouncement" the whole country  
 would take it as a promise that he  
 was going to declare his position  
 with relation to the Democratic na-  
 tional ticket. When it turned out  
 that he had nothing to say but that  
 he had taken a job on a revived  
 magazine badly in need of publicity  
 the people felt that he had let them  
 down—and that the proceeding  
 wasn't quite worthy of him.

Still and all, it is one of the  
 charms of Al Smith's character that  
 he does things right off the bat, like  
 that. Perhaps almost everybody  
 will give him credit for not having  
 considered the matter long enough  
 to realize just how it was going to  
 react.

**A WISE DECISION**

Seven New Jersey youngsters  
 have just tried baking in fame and  
 found they didn't think much of it.

The seven were Johnny Donito,  
 aged 18, and six of his friends who  
 undertook to prove that Johnny's  
 self-made coaster wagon was just as  
 durable as any handsome, highly  
 varnished coaster bought at a store.  
 The boys, who live in Hackensack,  
 organized a long distance, non-stop  
 wagon-pushing endurance mara-  
 thon.

They christened Johnny's wagon  
 "The Spirit of Hackensack" and,  
 working in one-hour shifts, they  
 pushed and steered it up and down  
 the block day and night, rain or  
 shine for 280 hours. Crowds came  
 to watch them. Newspapers print-  
 ed their pictures. It was all just  
 like a regular marathon.

At first it was a lot of fun.  
 Presently—just as in a regular mara-  
 thon—the boys became tired. It  
 occurred to Johnny Donito that,  
 even if his coaster did set a record,  
 by the time he had won the wagon  
 would be badly used up, maybe worn  
 out.

Some of the others thought about  
 baseball and swimming and the  
 movies. School vacation was draw-  
 ing to an end and what remained  
 should be made the most of. So the  
 youngsters called off their marathon.  
 Most of the seven were 13 years  
 old or younger, but they have set an  
 example their elders would do well  
 to follow. The hundreds of adults  
 all over the country quick to adopt  
 each new whim of the exhibitionist  
 —dances marathons, flagpole sitting,  
 walking derbies and the like—would  
 do well to bow their heads to these  
 seven youngsters who tried a mara-  
 thon, discovered it was foolish and  
 made the wise decision to quit and  
 go home.

**NEEDLESS JOBS**

One of the things difficult to un-  
 derstand is why, in better than four  
 out of five instances, when some in-  
 dividual or group comes out with a  
 resonant blast of insistence on the  
 reduction of taxes through curtail-  
 ment of public expenditures, the  
 trumpeting fades away into a mere  
 tootling toward the end of the  
 strain as the demanders blast: "Not  
 through reduction in salaries or the  
 dismissal of public employes but  
 through getting rid of duplication of  
 services and—" they always take  
 silly refuge in it—"general ineffi-  
 ciency."

Here we have the advertising men  
 of the country and the American  
 Federation of Labor joining hands—  
 and voices—in this same demand for  
 less public expense; and making  
 their tune the same old song.

We cannot have any real economy  
 in government until we unload from  
 the back of the people the countless  
 thousands of absolutely unneces-  
 sary place holders who, throughout  
 this whole three years of depres-  
 sion, have still managed to hang on  
 to their stations at the public  
 trough.

Nineteen twentieths of the exces-  
 sive cost of government is repre-  
 sented by public jobs, not one of  
 which is truly essential to anybody  
 but the job holder. So long as re-  
 formers are afraid to openly recog-  
 nize that fact because the place  
 holders and their friends may take  
 offense there will be very little im-  
 provement in the matter of munici-  
 pal expenditures. You can't eat  
 your cake and have it too. We  
 can't get rid of the burden of a  
 horde of useless jobs until we get rid  
 of the jobs.

**URGE TO ADVENTURE**

From London comes news of one  
 of the strangest expeditions to be  
 undertaken in recent years. A  
 group of British explorers, headed  
 by Captain V. De La Motte Hurst of  
 the Royal Geographical Society, are  
 preparing to set forth for Madaga-  
 scar to find the "sacred tree," said  
 to devour human beings.  
 During tribal ceremonies there it  
 is reported that natives offer up  
 young girls in sacrifice to this tree,

described as about eight feet high,  
 six feet at the base and having huge  
 concave leaves lined with "clews"  
 secreting an intoxicating liquid. The  
 victim is compelled to drink this  
 liquid and then forced into the tree,  
 after which the leaves wrap about  
 her, crushing her to death.

It all sounds like a chapter from  
 Trader Horn's adventures, but the  
 expedition is to be made in real  
 earnest. When Captain Hurst's  
 party returns perhaps the world will  
 know more about the sacred tree  
 —and perhaps not. In order to  
 search far corners of the earth there  
 must always be an "object" and a  
 sacrifice tree will do as well as any  
 other. In reality that object is likely  
 to be man's thirst for adventure.

It's deep down, this yearning to  
 shake off civilization and revert to  
 the thrills and hazards of primitive  
 life. Those who can not make such  
 trips can at least read about them.  
 Thousands are doing it, for travel  
 and adventure books have never  
 been more popular. Motion pictures  
 of jungle life are pronounced box  
 office successes. The machine age,  
 for all its heralded dangers, has not  
 yet changed this element in human  
 nature.

**NOT AN ILL WIND**

The two major political parties  
 are bemoaning the fact that their  
 campaign chests will be all but  
 empty this year. The chances are  
 that the public won't miss the litera-  
 ture, radio hot air, and political  
 breath-heating which will be absent  
 as a result.

But there is another and more  
 real benefit. The winning party  
 will not have its "angels" to take  
 care of in such numbers as is cus-  
 tomary.

With the donors of \$100,000  
 checks reduced to ranks, the chances  
 of getting men really qualified for  
 public places will materially im-  
 prove.

**BEHIND THE SCENES IN Washington**

**HOOVER, ROOSEVELT  
 LIKE MEDICINE MEN  
 BATTLING OVER PATIENT**  
 BY RODNEY DUTCHER  
 NEA Service Writer

Washington—Hoover and Roose-  
 velt are in the positions of a couple  
 of medicine men, striving for the  
 passage of a wealthy patient and  
 seeking to convince the tribe that  
 the patient can't get well under the  
 other medicine man's ministrations.  
 They have to play both ends  
 against the middle in their rival  
 sales talk, however, because the  
 tribe is bitterly split up over the  
 relative merits of such remedies  
 as mental healing, intravenous  
 and alcohol.

One day Medicine Man Hoover,  
 as in his acceptance speech, boasts  
 of the hundred and more magic  
 remedies which he has taken  
 from his kit and applied to the  
 patient, admits that the patient  
 has had a tough siege from which  
 only medical skill is pulling him  
 through and predicts a healthy,  
 glorious future for the fellow if  
 only there is no change in the  
 medicine.

He implies that Medicine Man  
 Roosevelt is a mere inexperienced  
 quack whose tubes and bottles  
 are filled with slow poison.  
 Recalls Former Healthy State  
 Next day Roosevelt points to  
 the patient, howls in dismay  
 at his condition, reviews the pains  
 that he has suffered, recalls how  
 healthy he used to be before he  
 hired Hoover, and asks how anyone  
 can have faith in a healer who  
 has a subject get into such gosh-  
 awful shape.

If, he says, the patient has  
 seemed slightly more cheerful and  
 frisky of late, it's only because he  
 heard good Doc Roosevelt was  
 coming to take care of him.  
 That picture closely reflects  
 the fundamental aspects of this  
 campaign. Either you put your  
 trust in Doc Hoover, endorsing  
 his methods, or you want to  
 "change doctors."

Most American families, with  
 a valued and beloved member laid  
 low, have faced such a decision  
 at one time or another, usually in  
 fear and doubt. After three years  
 of talking Hoover prescriptions,  
 they now ponder the wares of the  
 good-looking young doctor from  
 Albany. And, as is always the  
 case among people who are look-  
 ing for cures, many of them are  
 determined to resort to the less  
 orthodox healing cults led by  
 Norman Thomas and William Z.  
 Foster.

**HEALTH-DIET ADVICE IN NEW YORK**

Neighboring New York  
 New York, Aug. 25.—At infre-  
 quent intervals, growing weary of  
 what are advertised as Jimmy  
 Walker's witty wisecracks, and of  
 our skyscrapers, subway rushes and  
 our past-tense Broadwayites, most  
 of whom haven't been heard from in  
 months, I find myself taking a nice  
 open-car street car ride.

On such occasions one meets the  
 New York peasantry and the city's  
 more cordial and homely people.  
 They seem quite aware that the ar-  
 ches carry up the mathematical  
 rule and prove that, in one instan-  
 ce, a straight line is the longest dis-  
 tance between two points.

New York street cars may take  
 their time, but they're comfortable.  
 The passengers are not interested  
 in the decline of the theater, but  
 they are most eager to advise you  
 where meat and vegetables may be  
 purchased at the lowest price.  
 Dozens carry market baskets and  
 large, bulging bags. Now and then  
 a woman in a Mother Hubbard gets  
 on. Youngsters mess up the seats  
 with dripping ice cream concoctions.  
 After five blocks it becomes pos-  
 sible to imagine that the country  
 fair may be the destination. With  
 this return to the leisurely, it is pos-  
 sible to become variously philo-  
 sophical and critical. No one, thank  
 heaven, can remember the Jimmy  
 Walker wisecracks, which, usually  
 are not one-half as good as those of  
 Robert Benchley or Broucho Marks,  
 but gain importance through wide  
 advertising. It's comforting, too, to  
 realize that two cents with the  
 saxophone and the cornet must be  
 out of jobs or they wouldn't be rid-  
 ing on street cars.

Such conversation as one over-  
 hears is as neighborly as any this  
 side of Tenth Avenue, and talking  
 about their babies. If you want to  
 feel right at home in New York,  
 take almost any surface car line!

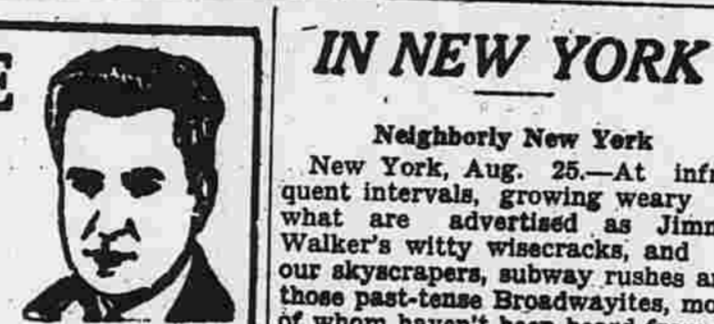

**QUESTIONS AND ANSWERS**

(Diet in Manual Labor)  
 Question: Lester S. asks: "Do you  
 think that a man working at the  
 machinist trade can get enough  
 nourishment from a diet that con-  
 sists of one grapefruit four slices of  
 wholewheat toast and a handful of  
 peanuts for breakfast; a handful of  
 peanuts for lunch; and a raw vegeta-  
 ble salad for dinner consisting of  
 carrots, cabbage, celery, beets and  
 parsnips, in all weighing about a  
 pound? Is it all right to eat that  
 same diet every day or should it be  
 changed?"

Answer: The diet you outline does  
 not seem sufficient for a working  
 man to use for any length of time.  
 The average person doing hard  
 exercise should use as much protein  
 in one day as that contained in two  
 eggs and about a quarter of a pound  
 of lean meat. My weekly menus ap-  
 pearing in this paper every Friday,  
 should be suitable; or, I will be glad  
 to send you some special articles,  
 including a menu which outlines a  
 diet which I would recommend for  
 anyone doing manual labor. Please  
 enclose, with your request, a large  
 self-addressed envelope and a three-cent stamp.

**(Corn Oil)**

Question: F. inquires: "May oil of  
 corn be used as a part of a health  
 menu? Someone told me that it is  
 very wholesome, but I have been  
 using it for a long time and it seems  
 to agree with me."  
 Answer: Corn oil is usually pressed  
 from the germ of the grains of corn.  
 It has a pleasing taste and a  
 golden yellow color and does not  
 become rancid readily. It is quite  
 wholesome and may be used in  
 salad dressings, for preparing  
 French fried potatoes, or in other  
 methods of cooking. Experiments  
 have proven that it contains some  
 growth promoting and anti-sterility  
 vitamins.

Questions in regard to Health and Diet will  
 be Answered by Dr. McCoy who can be  
 addressed in care of this Paper. Enclose  
 stamped, self-addressed envelope for Reply.

Millions of people are handicapped  
 and crippled from aching painful  
 feet and legs due to weak or  
 fallen arches. The pain and discom-  
 fort is sometimes not felt in the feet,  
 for it may be referred to other  
 parts. Many cases of supposed  
 rheumatism of the lower limbs,  
 weakness of legs, and even spinal  
 disorders are referred to normal.  
 Foot ease is essential for  
 work or play. One with arch  
 troubles becomes tired sooner than  
 he should, and the strain of aching,  
 protesting feet shows itself on the  
 face by being tired lines.

A good way to find out if your  
 arch is fallen is to wet the sole of  
 the bare foot with a weak solution  
 of bluing or any other fluid which  
 will leave a mark. While foot is  
 wet, place on white paper. When  
 the arch is fallen, the outline will  
 show almost all the bottom of the  
 foot, while a high arch leaves a  
 wide, blank space on the inner side  
 of the foot between the ball of the  
 foot and the heel. If the print of  
 the foot shows the toes, the ball of  
 the foot, the heel, and the connect-  
 ing line on the outer edge, and very  
 little else, then you may be sure that  
 you do not have fallen arches.

The bones of the arch should form  
 a graceful bridge or arched effect,  
 which carries the weight of the body  
 while walking or running. When  
 the arch is pushed down flat, there  
 is an interference with the proper  
 functioning and use of the foot. The  
 name "flat foot" arises from the flat  
 appearance of the foot when the  
 arch is depressed.

Some of the causes of flatfoot are  
 poor posture, walking with the toes  
 turned out, overweight, walking  
 barefoot on cement or hard sur-  
 faces, prolonged standing in the  
 wrong kind of shoes, and general  
 muscular weakness.

Although the effects of fallen  
 arches are so far-reaching and the  
 condition may produce a marked de-  
 formity, it is encouraging to know  
 that this trouble is usually correct-  
 able. I have seen cures even in  
 patients up to the age of 65 or 60.  
 The cure of flat foot depends partly  
 upon strengthening the muscles  
 which support the arch to the point  
 where they hold it in place, and  
 partly upon shifting the bones of  
 the arch into their natural position.  
 An effective means for the cor-  
 rection of flat feet is to take sys-  
 tematic exercise to increase the tone  
 and strength of the foot and calf  
 muscles. One of the best exercises  
 is to learn to walk pigeon-toed dur-  
 ing the daily walk. Point the toes  
 so that they will grip the ground  
 and the foot is arched more natu-  
 rally. Try walking this way in an  
 exaggerated manner every other  
 block. Another splendid exercise  
 is to use the toes to pick up marbles,  
 while the feet are bare, in the morn-  
 ing.

**Motor Hints**  
 Timely Suggestions on the  
 Care of the Car by the Auto-  
 mobile Club of Hartford.

**PLUGS NO OIL GUIDE**  
 Not all motorists appear to know  
 that oil may pump past the pistons  
 even though the spark plug pistons  
 show no sign of oil. Not all of them  
 know the reverse is true, that  
 fouled plugs do not necessarily indi-  
 cate oil pumping.  
 An engine may lose a lot of oil  
 past the piston rings and yet show  
 plugs in very good condition. This  
 might be due to several causes. The  
 motor may operate at a high tem-  
 perature and burn up the oil. The  
 plugs may not be sufficiently "hot"  
 in type to burn clean. Also the pos-  
 sibility of the plugs in the cylinders  
 may be such that they do not so  
 readily catch the surplus of oil.

Fouled plugs may have nothing to  
 do with the condition of the cylin-  
 ders, pistons or rings, or the grade  
 of oil used in the crankcase. If a  
 plug is of too cool a type, for in-  
 stance, it will not burn clean, leav-  
 ing an oil fouled appearance.

**POINTERS ON BREAKING IN**  
 So much consideration is given to  
 breaking in a new car there is a  
 natural tendency to forget that  
 there are other parts of the car  
 which need consideration. An owner  
 will watch the motor heat indicator  
 like a hawk, but will he think to get  
 out to feel the temperature of the  
 brakes or the wheel bearings?  
 One of the most important things  
 to do in breaking in a new car is  
 to watch the lubrication level in the  
 transmission and the rear end.  
 Overights are always possible in  
 servicing a car for delivery, and  
 leakage is also likely. Be especially  
 careful of the universal joints, es-  
 pecially if they have a slip sleeve.  
 Spring clips should be kept tight,  
 and it is also important to go over  
 the body bolts after the car has  
 been driven about 3 thousand miles.  
 Watch the hydraulic shock absorbers  
 for leakage. The clutch pedal  
 should have about an inch slack.

**SAVES TIME AND ENERGY**  
 One of the most annoying things  
 in servicing the car is to be flat on  
 with dripping air and to bring  
 the right tools with you.  
 Sometimes in greasing the un-  
 versal joints it happens that the  
 grease holes or nipples are in the  
 wrong position. This seems to  
 necessitate scrambling about and  
 pushing the car forwards and back-  
 wards, and many owners actually  
 go to all that bother.  
 How much easier it is to grasp  
 the propeller shaft and turn it  
 until you find it surprisingly easy to  
 move the car from that unaccus-  
 tomed point. The car, of course, should  
 be on level ground with the brake  
 released.  
 And incidentally, if you are  
 ever under the car and it should  
 start to roll remember that you can  
 stop it easiest by grasping the  
 propeller shaft.

**TEST FOR SLOW START**  
 Whether the difficulty of starting  
 the engine is due to the carburetor  
 mixture can be determined by a  
 simple trick. After the engine  
 starts immediately press the choke  
 button all the way in and close the  
 throttle to the idling position for a  
 moment. If the engine doesn't hesi-  
 tate or stall when you open the  
 throttle again the mixture is not too  
 lean, and the starting trouble is  
 more likely to be due to the need for  
 cleaning and spacing the breaker  
 points.

This serves as a double check.  
 Sometimes the mixture is so rich  
 that it continually fouls the spark  
 plugs. Any insulation of soot on the  
 plugs retards the starting process.  
 Do not make the test with the  
 motor slow cold, nor after it has  
 been warmed up. Select some time  
 when it is moderately cool and when  
 it is necessary to use the choke to  
 re-crank.

**RADIATOR NOT TO BLAME**  
 Looking for causes of overheating  
 is largely a waste of time. Give  
 attention away from the radiator.  
 The trouble may be due to some re-  
 mote condition such as the dragging  
 of the brakes or leakage of engine  
 oil from the crankcase.  
 One frequent cause of overheating  
 is lack of lubrication of the fan  
 bearing. This is deceptive because  
 while the engine idles and the hood  
 is lifted the fan usually spins around  
 as if everything were in good order.  
 When the owner wants to test the  
 belt adjustment he releases the  
 engine, and the net result is that he  
 doesn't know if the fan slows down  
 when the engine runs fast.

Thousands of steaming radiators  
 are merely evidence that the clutch  
 is slipping.  
**GREASING THE UNIVERSALS**  
 When the instruction book plainly  
 states that heavy oil should be used  
 for the universal joints, and the  
 mechanic who is doing the actual  
 work advises the use of grease any  
 owner may well be puzzled. But  
 there are several rules for guidance  
 in such a situation.  
 In the first place, there is a differ-  
 ence in the construction of  
 mechanical universal joints. Some  
 are so well sealed that heavy oil is  
 most satisfactory while others  
 throw oil in revolving and thus need  
 something heavier in the way of  
 grease that will stay put. If oil can  
 be used it is normally preferable,  
 since it will lubricate better, but the

WHEAT RISE AIDS HESITANT MARKET

Gives Stock Prices a Boost But Quick Profit Taking Hints Morning Uprush.

New York, Aug. 25.—(AP)—The bull movement in stocks received a fillip from the wheat market today. Stocks surged ahead in heavy buying at the start, turned somewhat hesitant but started up again after wheat had rushed up some 2 cents a bushel. Some of the leaders, however, held in check by rather persistent selling whenever they turned upward. This was particularly true of American Telephone.

Eastman shot up 7 points, apparently in a demonstration against shorts, then lost some of its rise. Case rose more than 5, and International Business Machines nearly as much. Issues up around 2 to 3 points included U. S. Steel preferred, National Steel, Albert Chemical, Johns Manville, Lambert, Safeway Stores, Associated Dry Goods, International Harvester, American Can, Union Pacific, Norfolk and Western, and others. Gains of a point or more appeared throughout the list. There was some recession in a moderate wave of selling in the early afternoon.

The strength of wheat was a particularly welcome development in Wall street, for the somewhat soggy tendency in that market had tended to dampen bullish enthusiasm in the securities markets from time to time during the past few weeks. Wheat had a substantial recovery, during the earlier phases of the present bull movement, but more recently had receded to within a few cents of the June lows.

Bullish quarters were impressed with further scattered indications of seasonal pickup in business, particularly improvement in sales of office equipment. This, presumably, reflected preparations for a more active autumn season in many business establishments. International Business Machines reported that August had developed into its best month so far this year, although it probably reflected in part the introduction of new models. Most of the leading typewriter manufacturers reported a pickup in sales since July, although August is not usually a month of gain in that business.

Buying of firm implement, mail order and chain store stocks, was again based on gain in wheat and cotton. Rails were bought in some volume, particularly Canadian Pacific. Early developments toward unification of Canadian Pacific and Canadian National were expected in brokerage quarters with Canadian connections. The buying of coppers dwindled somewhat. Oils were fairly active, but made moderate progress. Utilities were inclined to lag during most of the day.

Bradstreet's compilation of bank clearings for the week ended yesterday was disappointing, failing to indicate any general commercial pickup. Clearings outside of New York City declined nearly 10 per cent, or somewhat more than the usual decline for the period, to a new low for the year.

ROOSEVELT BARS MOTIVE EVIDENCE

(Continued from Page One) paper clipping bureau. Hiams said that about the time it was announced Samuel Seabury was to be counsel for the Hofstadter investigation committee he went to see Seabury and subsequently called on one of his assistants, Jacob Gould Schurman, Jr., to discuss a contract for clippings.

"For what purpose is this testimony?" Governor Roosevelt interrupted. "To establish," Curtin replied, "that this investigation had one individual in mind even before it started."

"I don't believe this testimony is needed," the governor said. "When did this take place?" Curtin replied that the conversation took place in February, 1931. "If a man says 'my purpose is to get Mayor Walker,' and that is stated even before the journey is started," Curtin argued, "don't you think that should be brought out?" "I again rule," said Governor Roosevelt, "that I cannot take such testimony."

Morning To Night The other witnesses at last night's hearing—the first of a series of evening sessions, apparently, for the governor announced at its close that sessions today would run morning, afternoon and night—were Dr. E. Stiles Potter, physician attached to the office of the corporation counsel, and Chairman J. H. Delaney of the New York City Board of Transportation. Dr. Potter, after discussing the procedure by which city compensation cases are assigned to doctors, revealed that, on the order of his superior, he had sent no cases in the last four weeks to four physicians who were involved in testimony before the Hofstadter committee out of which grew the charges that the mayor conspired to charge Dr. William Walker, splitting fees with doctors handling city cases. Defends Equitable Deal Delaney was on the stand most of the evening, while Curtin, reading at length from records and reports, led him through the entire procedure by which the application of the Equitable Coach Company, Inc., for a New York City bus franchise was approved. The discussion was long, involved and technical, Delaney testifying at its conclusion that it was his opinion, when the application went before the board of estimate, that the equitable proposition was a good one and properly financed. Delaney First Today John H. Delaney, chairman of the

New York City Board of Transportation, resumed his testimony as Governor Roosevelt called to order today's session of the hearing. Delaney testified at length last night, describing the procedure by which the application by the Equitable Coach Company, Inc., for the much discussed bus franchise, was brought before the board of estimate and apportionment, which granted it. The franchise was later revoked by the state transportation board.

Mayor 15 Minutes Late Accompanied by his friend, A. C. Blumenthal, real estate operator and theatrical producer, Mayor Walker arrived at the hearing fifteen minutes after it had started. Attendance at the hearing has fallen off. During the first few days there were many demands for each of the 30 or 40 seats available for the public. Crowds filled the statehouse corridors seeking admittance. Today there were hardly more than a dozen spectators.

The questioning Delaney droned along—a highly technical and involved discussion. In reply to one question by John J. Curtin, Walker's chief counsel, Delaney said: "I considered the Service Bus Company proposition inferior to the Equitable proposition, and I still feel that way today." The Service Bus Company was the chief competitor against the Equitable for the New York City bus franchise.

Mayor Walker remained at the hearing only a few minutes. A member of his party said he had gone to another part of the building to attend to some official correspondence. Question of Backing After an hour of direct examination, Curtin turned the witness over to Samuel Seabury, counsel for the Hofstadter committee, for cross-examination.

Seabury started questioning Delaney about the Equitable's financial backing. Once during the discussion Delaney rose to his feet and addressed the governor, earnestly reiterating his belief that the resources of the J. S. White banking firm were behind the offer of its subsidiary. It is the contention of Seabury that the White banking firm was in no way committed to back the Equitable Coach Company.

Under Seabury's cross-examination, Delaney said there was no "legal commitment" on the part of any company to finance the Equitable company when its bus franchise was up before his board. He added, however, that the Service Bus Company had no legal commitments for financial backing, either. The hearing adjourned shortly after noon for luncheon recess to last until 1:10 p. m., (E. S. T.).

WHO IS TO PAY?

Cost of Walker Hearings Already In Excess of \$100,000. Albany, N. Y., Aug. 25.—(AP)—Among other questions arising out of the Walker hearing is: "Who's going to pay the bill?" Officials estimated today the cost has mounted beyond \$100,000. The State's largest expense is stenographic transcript, made by a firm of stenographers. So far it is about \$35,000.

With Mayor Walker the cost is more sizeable—his own stenographers, a corps of lawyers, witnesses transported to Albany and maintained there for days, awaiting calls to the stand. It is a serious question if the law does not require the City to pay the bill for his hearing.

The inception of the Walker inquiry was in the Legislative investigation of the Tammy administration of the City—an investigation for which \$750,000 was appropriated by the legislators. Samuel Seabury, counsel for the committee utilized the evidence obtained at the Legislative committee hearings as foundation for his "conclusions" was unfit to continue in office.

RAIL WORKERS URGE U. S. GO ON A WAR BASIS

(Continued from Page One) gency governmental control is now as essential to the national welfare as it was in a time of war. Opposed to Dictatorship "We, therefore, advocate a civil mobilization, under civil authority, to organize our resources for national defense against the destructiveness of present uncontrolled economic forces.

"We are opposed to the private or political dictatorship of any class interest. But it is time for a representative leadership to be organized in accordance with the Democratic institutions and traditions and to substitute an aggressive, courageous program of self-reliant action for a policy of faith, hope and charity." In addition to adopting the governmental control policy, the organization decided to oppose all further consolidations of railroads "until additional legislation is passed by congress protecting the public and the employees against increase of unemployment, property losses and the destruction of community interests."

GREEN TAKES LEAD IN GOLF TOURNEY

Waterbury, Aug. 25.—(AP)—W. B. Green of Wampanoag Country Club posted a 79 to take an early lead in the qualifying round of the first annual three-day invitation golf tourney at the Waterbury Country Club today. Over 100 leading golfers in the State were entered in the 18 hole competition.

Bobby Grant, New England and Connecticut Amateur champion, is scheduled to play at 2 o'clock this afternoon in a threesome with Charley Clark, 1931 State champion, and Frank Ross, a former titleholder. Match play will start tomorrow with the first 16 low scores entered in the championship flight.

The early scores for today were: W. B. Green, Wampanoag Country Club 79; J. O. Gray, Mattatuck Country Club 85; D. L. Miller of New Haven Municipal course 82; Harold Schoenmehl, Waterbury Country Club 84; S. Morgan, Waterbury Country Club 84; D. M. Gray, Waterbury Country Club 100; R. H. Trowbridge,

MOLLISON GETS OFFER TO GO INTO THE MOVIES

Warners Tender Him Job As Technical Adviser and Actor in Some of Their Films. New York, Aug. 25.—(AP)—Captain James A. Mollison, Scottish flier, today was considering an offer to go into the movies as a technical advisor and actor. He was tendered an offer yesterday by Warner Brothers to serve as technical advisor for the company's aviation films as well as to take part in some of the pictures. He may announce his decision today.

Meanwhile he awaited reports of favorable weather for his return flight to England. Dr. James M. Kimball, the weatherman, said stormy weather blocks Mollison's path and that it would be two or three days before the contrary conditions move out of the way.

Ansonia, Aug. 25.—(AP)—The body of an unidentified man between 45 and 50 years of age was found hanging from the limb of a cherry tree near the home of John Matejak, on Coe Lane, at 9:30 o'clock this morning. The body was still limp. The man was about five feet six inches tall, about 135 pounds in weight, with brown hair, blonde mustache and blue eyes. He wore a striped shirt, gray trousers and black shoes and his hands indicated he was a laborer. His clothing was wet to the waist. In the pockets were \$19 in bills and a rubber stem of a pipe, but nothing else.

Gasoline Cut Cent and a Half in S. N. E. Area. New Haven, Aug. 25.—(AP)—Retail prices of gasoline have been reduced one and one-half cents a gallon throughout Southern New England, resulting in the lowest rates since last winter. The new price is 16 cents a gallon for regular gas and 19 cents for high compression fuel.

INVADE NORTH ILLINOIS Peru, Ill., Aug. 25.—(AP)—The union coal miners' war upon the new \$5 basic wage contract reached a new front today when a caravan of 2,500 miners surrounded a pit at Mack, five miles southwest of here, and forced the mine into idleness. There was no violence. This was the first invasion of northern Illinois coal fields by the militant miners discontented with the wage agreement reached by union leaders and coal operators. Five hundred automobiles formed in line for the peaceful but grim attack. The invading miners, unarmed but determined, reached the pit of the Prairie State Coal company at 4 a. m. The night shift left the pit early, and the day workers failed to report. The mine was deserted. It had been operating on a non-union basis.

INVADE NORTH ILLINOIS Peru, Ill., Aug. 25.—(AP)—The union coal miners' war upon the new \$5 basic wage contract reached a new front today when a caravan of 2,500 miners surrounded a pit at Mack, five miles southwest of here, and forced the mine into idleness. There was no violence. This was the first invasion of northern Illinois coal fields by the militant miners discontented with the wage agreement reached by union leaders and coal operators. Five hundred automobiles formed in line for the peaceful but grim attack. The invading miners, unarmed but determined, reached the pit of the Prairie State Coal company at 4 a. m. The night shift left the pit early, and the day workers failed to report. The mine was deserted. It had been operating on a non-union basis.

GREEN TAKES LEAD IN GOLF TOURNEY

Waterbury, Aug. 25.—(AP)—W. B. Green of Wampanoag Country Club posted a 79 to take an early lead in the qualifying round of the first annual three-day invitation golf tourney at the Waterbury Country Club today. Over 100 leading golfers in the State were entered in the 18 hole competition.

Bobby Grant, New England and Connecticut Amateur champion, is scheduled to play at 2 o'clock this afternoon in a threesome with Charley Clark, 1931 State champion, and Frank Ross, a former titleholder. Match play will start tomorrow with the first 16 low scores entered in the championship flight.

The early scores for today were: W. B. Green, Wampanoag Country Club 79; J. O. Gray, Mattatuck Country Club 85; D. L. Miller of New Haven Municipal course 82; Harold Schoenmehl, Waterbury Country Club 84; S. Morgan, Waterbury Country Club 84; D. M. Gray, Waterbury Country Club 100; R. H. Trowbridge,

True Love Triangles—4

Killing By "Chicago's Prettiest Slayer" Bares Queer Romance Of Underworld

EDITOR'S NOTE: This is the fourth of a series of six daily stories, detailing glamorous romances that have marked true love triangles of 1932, a subject made timely by the three-cornered Libby Holman-Smith Reynolds-"Ab" Walker tragedy in North Carolina.

Through every stratum of society—from movie queens to evangelists, from millionaires to bootleggers, run the treacherous cross-currents of three-cornered love.

Often they sweep some married craft on the rocks of divorce, occasionally they result in a spicy alienation-of-affections suit for a huge sum to heal a wounded heart, sometimes they terminate in grim tragedy with its resultant murder trial.

No layer of life—high or low—seems to be immune. In North Carolina, Mrs. Libby Holman Reynolds and "Ab" Walker await trial on charges of murdering Smith Reynolds, husband of the Reynolds tobacco millions.

The case of this 26-year-old self-made widow offers a good example of how love affairs can become just as tangled in the underworld as elsewhere.

Chicago police lean to the theory that underworld leaders, eager to be rid of her middle-aged husband, Joseph Pollak, stockyards "alky" king, gossiped young Mrs. Pollak with stories of his unfaithfulness to the point where she put a bullet through his brain.

Modestly clad in the same dress which she donned for her husband's funeral (black flat crepe, touched off with bows of crisp white organdy), Mrs. Pollak sits in her cell alternately shedding tears over "Poor Jo," deploring the fact of her being in a prison cell, and wondering what dress to wear on her next appearance in court.

"I shouldn't have shot poor Jo," she sighed bitterly, sweeping the grim, white interior of the workhouse quarters with her penitent eyes. "It was a dirty trick, and I'm sorry."

"Of course, Jo beat me up all the time during the last year and a half. And he was jealous and moody. And he wouldn't take me out. And he had a violent temper. And all the time he was carrying on with that other woman. And—"

She halted her recital to ask if everybody had heard how the "other woman," Mrs. Julia Cebulak, wife of one of the late bootleggers, "alky" drivers and mother of two small children, had visited the mortuary chapel the morning of the funeral and requested the undertaker to raise the glass of the \$1500 hammered silver casket so she could "kiss Jo goodbye."

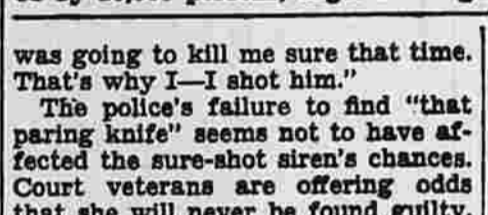

No film actress ever enacted the role of murderess for love to better advantage. As you watch her daintily dab away her tears, it is easy to understand why a crowd estimated at from 5000 to 8000 pushing, laughing, disputing persons had attended her husband's funeral for a glimpse of her.

Nor was it difficult to vision her trying to throw herself into his grave as the casket, blanketed by lilac bearing a card "from His Beloved Wife," slowly disappeared into the ground.

Not since a succession of susceptible juries exonerated such shooting sirens as Beulah May Annan and Belva Gaerrier and Mrs. Mavis O'Brien of shooting their sweethearts has Chicago beheld such a combination of screen beauty and ability.

Did Chicago gangsters, preying on the primal instinct of jealousy, use Mrs. Dorothy Pollak, 26 (upper left), as their tool to bring about the killing of Joseph Pollak (right), wealthy bootleg king? Police believe they gossiped her with stories of her husband's unfaithfulness until she shot him. Shown below are Mrs. Julia Cebulak, of whom Mrs. Pollak was jealous, and a scene at Pollak's funeral which was attended by 10,000 persons, eager for a glimpse of the pretty slayer.

was going to kill me sure that time. That's why I—I shot him." The police's failure to find "that paring knife" seems not to have affected the sure-shot siren's chances. Court veterans are offering odds that she will never be found guilty.

Queer Twists In Day's News

By ASSOCIATED PRESS. Saulte Ste. Marie, Ont.—Aboriginal cunning killed a big black bear without the use of firearms. A party of Indians coming down Canoe Lake saw Bruin swimming ahead of them. Having no firearms, they reached out and rested a long pole on his neck. He dug his claws into the pole, forgot to swim, and was drowned. So say the Indians.

Los Angeles—Benjamin Chapman, financier, won a divorce from Jessie Chapman because, he said, she flew away and left me. Mrs. Chapman is now flying in the National Air Derby. "She said," complained Chapman, "that she wanted to be as free as the birds of the air."

Lincoln, Kas.—Lady Nicotine is an old pal of Mrs. Abbie Holman, pioneer. Placidly puffing her pipe, Mrs. Holman celebrated what she announced was her 102nd birthday. She has smoked since she was 15.

Helsingfors, Finland—The prisons are crowded, which apparently is a bit of good luck for 20,000 Finnish scoundrels. The government is preparing a bill of amnesty to benefit persons sentenced to prison or fined for drunkenness and other alcoholic offenses. All of them were convicted before prohibition was done away with last April.

Los Angeles—Baron Takeishi Nishi, member of Japan's Olympic team, is courteous to a supreme degree. Spencer Tracy, movie actor, bade him goodbye aboard the Chichibu Maru. When the ship reached San Francisco, the baron remembered something. So he made a special plane trip back here to present to Mrs. Tracy a box of candy for her birthday.

AD MEN, LABORITES ADOPT PLATFORM

Join In Seven Point Plan For Business Recovery Based On Thirty Hour Week.

New York, Aug. 25—(AP)—A "seven point plan of action" for economic recovery, endorsed jointly by the board of the Advertising Club of New York and the American Federation of Labor, was presented by Grover Whalen, president of the Advertising Club, at a luncheon. The plan called for revision of the anti-trust laws, the six-hour day and five-day week in industry, an increasing program for public works, a broadening of the base of taxation, reduction in the cost of government and abolition of prohibition.

As preamble to the plan Whalen said: "While this plan primarily is intended to reflect the combined viewpoint of business and labor, nevertheless it should be borne in mind that the only major division of activity throughout the country, namely agriculture, is an equally important factor and the interests of both halves of the equation are interdependent."

"Business is not in a position to make specific recommendations in behalf of agriculture, but business should declare itself as willing to support those governmental policies which serve fairly the interests of agriculture along with the other half of the country."

The seven-point platform voiced by Whalen, in order, follows: "1. That business and labor—the American Federation of Labor—join in working out a plan for their common problem—to wit, stabilization for business and security of employment."

"2. A revision of the anti-trust laws. "3. The question of unemployment—the co-operation of business and labor in advocating and securing wherever possible by industry the six-hour day and the five-day week."

"4. An aggressive and increased program by the Federal, state and municipal governments for public and semi-public works. These works, wherever possible, should be primarily income producing or self-liquidating."

"5. That in the present financial necessities of our government, we advocate the broadening of the base of taxation to more generally and fairly distribute the burden as a means of balancing the National budget."

"6. That the reduction of the cost of Federal government, state government, and municipal government, be the immediate concern of business and labor. (It is intended to outline the approved plan to accomplish this end that it be achieved not necessarily by salary or wage cuts, but primarily by cutting out the duplication of bureau activities and by reducing non-essential and duplicated non-departmental activities.)"

"Change Volstead Act "1. That we urge the abolition of prohibition and the immediate liberalization of the Volstead Act as a means of securing additional employment for the unemployed and raising additional revenue for the government."

Present at the luncheon to make response to the plan were Matthew Wolf, vice-president of the American Federation of Labor; Lee Bristol, president of the Association of National Advertisers; and Edgar Kohak, president of the Advertising Federation of America.

CEAR OF DOUBTBOBONS OFFERS RESIGNATION

Future of Community With Millions of Ancestors in Problematical With Head In Jail.

Winnipeg, Man., Aug. 25—(AP)—The future of 25,000 Doubtboobons in western Canada was uncertain today as a result of the proffered resignation of Peter Verigin, II, president of the Christian Community of Universal Brotherhood.

Verigin has resigned almost as an absolute monarch since the social, business and religious life of the Doubtboobor colonies since 1897. He is now serving an 18 month sentence for perjury in the fall at Prince Albert, Sask.

The executive board of the community has not yet accepted the resignation of E. W. Focchola, vice-president, said it had been rejected. Verigin's proposed withdrawal and rumors of financial difficulties besetting the community revived speculation as to the dissolution of the organization, which controls farm lands, industries and other wealth running to millions of dollars.

BEGIN HERE TODAY MONA MORAN, born on New York's East Side, marries JOHN BARNETT TOWNSEND, millionaire. The strange marriage is arranged by Mona's employer, also Townsend's lawyer, who tells her a wealthy client wishes to marry her with the understanding that she will occupy her own apartment and have unlimited charge accounts for one year. At the end of that time she must decide whether to become Townsend's wife in actuality, or secure a divorce.

NOW GO ON WITH THE STORY

CHAPTER XXXII Mr. Garretson spoke amiably. "As far as Barry is concerned there is nothing to be done. It isn't necessary. I don't think he would accept any of his uncle's money even if you could offer it. The wife, you say, is going to be a success. Suppose this young Saccarelli does own more than half of it? Let Barry wait. At 30 he can buy back his share. Or he can return and enter the family business. There is always a place waiting for him."

In her sitting room she paused at the little French telephone, called Pilgrim's and asked for Lottie. "Dine with me tonight?" It was agreed without delay. Lottie had come to the telephone only a few moments before she was expected on the floor. She assured Mona that the rose taffeta she was wearing was "a knockout."

# Frenchmen's Rally Earns Great Five Set Victory

## Down Two Sets, Cochet and Bernard Stage Amazing Comeback To Win Berth In Semi-Finals of Doubles Tourney.

Brookline, Mass., Aug. 25.—(AP)—Overcoming the widest sort of lead, Henry Cochet, France's premier tennis player, and his 18-year-old countryman, Marcel Bernard, yesterday fought Berkeley Bell and Gregory Mangin, fourth-seeded American team, off their feet to gain a semi-final berth in the 61st national doubles championship.

The Frenchmen were on the verge of a three-set defeat when they put on their amazing rally. They were two sets down and trailing two games to love in the third when they cracked their American foe men wide open and swept on to a 1-6, 4-6, 6-4, 6-4, 6-1 victory.

Bell and Mangin were red hot as they built up their early lead. Over-estimated Stamina. When the Frenchmen gained the third set and forced the match into overtime, the Americans agreed to continue without the usual rest. They over-estimated their stamina for during the last two sets they were played out and Cochet and Bernard appeared as fresh as ever.

As the Americans wearied, Cochet put on terrific pressure. His deadly chops over the net took many a game and during the critical points he aimed his speedy drives at Bell to break his service in each of the last two sets.

Cochet came to this country to wipe out the defeat he suffered from champion Ellsworth Vines in the Davis Cup final. On Friday he will face that lanky Californian for the first time on this side of the ocean. Vines and Keith Glavin gained the other upper semi-final place by trouncing Jack Tidball and Elbert Lewis, 6-4, 6-4, 6-3 in an all-California tussle.

Today's semi-final will bring the defending champions, Wilmer Allison and Johnny Van Ryn, against Lot and Frank X. Shields. The 1931 winners, who also hold the Davis Cup titles, swamped Sidney Wood, New York, and Lester Stiefen, Los Angeles, for the second time in a week in four sets, 2-6, 7-5, 6-3, 6-4.

History Repeats. Another bit of recent history was repeated when Lot and Shields passed into the second-last bracket by eliminating Henry W. "Bunny" Austin and Frederick J. Perry of England, the top-seeded foreign team, in three sets, 6-4, 6-4. These teams met in the third round at Newport last week and the Americans won in four sets.

The top-seeded teams in the other three national team championships made their expected progress. Helen Jacobs, newly crowned women's champion and Vines led the mixed field into the second round. J. D. E. and Arnold Jones of Providence, R. I., defending titlist in the father-son play, also gained that bracket and the veterans' parade into the semi-final round was led by Dr. William M. Rosenbaum and Fred C. Baggs, the New Yorkers who won here last year.

# PHILLY PAIR HOLD BULK OF HITTING MARKS IN MAJORS

## Foxx and Klein Lead Leagues In Nearly Every Important Slugging Department.

Philadelphia, Aug. 25.—(AP)—No pennant may land here this season, but it is almost a cinch that the Quaker City forces will boast the leading slugger in both of the major leagues when the firing ceases.

"Double X Jimmie" Foxx, first baseman of the Athletics, and Chuck Klein, Fort Wayne's gift to the Phillies' outfield, all season have been padding their respective leading in practically every important hitting department.

Going into the fourth week in August, Klein was in the van in the National League in runs, total hits, runs batted in, and home runs. Only Lefty O'Doul of the Dodgers was above him in batting percentage, and Chuck was in second place in production of both triples and doubles. He also was the leader in stolen bases.

Though not quite as versatile, Foxx at the same time had a batting line in the American League as impressive as that of Klein. Jimmie was at the top of the head in batting, runs, runs batted in and home runs. He was well ahead of Babe Ruth in the matter of home runs and appeared a certainty to win the championship.

Both Foxx and Klein have been enjoying their biggest year since breaking into the majors, though neither ever has been exactly a weaseling at the plate.

Foxx batted .345 in 1932, an awkward 19-year-old Maryland country boy, and in 10 games that season revealed what he had in store for American league hurlers by batting .667. He had had just one year of experience in the Eastern tournament.

Klein likewise had only a year's experience—with Fort Wayne in the Central League—when he joined the Phillies in 1928. He proceeded to hit .380 and has been that kind of a slugger ever since.

### DON MOE ELIMINATED

Rockford, Ill., Aug. 25.—(AP)—The battle for the western amateur golf championship rounded on today with the defending titleholder, Don Moe, Portland, Ore., out of the picture and stars from Illinois, Iowa, California, Wisconsin and Texas still in the drive.

# COLLEGE STARS MAY BRING VETS GRIEF IN AMATEUR TUSSLE

## More Than Twenty Entered In Golf Tourney At Maryland Next Month; Here's a Few.

Baltimore, Md., Aug. 25.—(AP)—America's college stars, paced by the intercollegiate champion, Johnny Fischer of Michigan, may spoil the hopes of some of the veterans in the National amateur golf tournament here next month.

Probably a score or more players in the big field which tees off over the Five Farms course near Baltimore September 13, will be golfers who were members of college teams last spring.

The 20-year-old Fischer of Cincinnati and Fort Thomas, Ky., also is the Western conference titleholder. He is the first sophomore to win either the Western or the National intercollegiate and also the first mid-westerner to come home first in the school boy competition.

Fischer is not exactly a newcomer to the big time tournaments, for he was second low amateur in the National open at Fresh Meadow last June and qualified sectionally for the 1931 amateur, only to finish a stroke over the qualifying deadline at Beverly.

Billy Howell of Richmond, Va., who was graduated from Washington and Lee University in June, and Don Moe of the University of Oregon, will rank among the most serious of the college stars.

It was the 20-year-old Virginian who carried Francis Outmet to the 35th hole in their semi-final engagement a year ago and was called the "boy wonder" of the year. Howell was runner-up to Fischer in the intercollegiate event at Hot Springs, Va.

Moe Cup Player. Moe was a member of the Walker Cup team in 1932 and, like Howell, has again been named to represent this country in the matches this year, shortly before the start of the amateur tournament.

### HORSESHOE MATCH

Schenkel and Sheldon defeated Ball and Shannon two out of three games of horseshoes played last night at Washington street grounds. They will play four games tonight. Last night's scores: 21-2, 19-21, 21-11.

# Georgetti Unable To Play For Title

Due to an accident while at work yesterday, Guido Georgetti, Manchester's horseshoe pitching star, was unable to team up with Big Jim Thomson, his running mate in the contest for the town championship last night on the Center Springs Park courts, against B. Gess and B. Neubauser.

To please the big crowd which had gathered for the battle, Thomson teamed with Jim McLaughlin for a series of six games which were tied at three all.

The scores: B. Gess and B. Neubauser won from Thomson and McLaughlin, 53-52 and 52-51. Thomson and McLaughlin won from B. Gess and Neubauser, 50-50, 52-50 and 52-52.

Ringers were scored as follows: Thomson, 52; McLaughlin, 72; B. Gess, 61 and B. Neubauser, 67.

SAVITT GEMS WIN 1ST SERIES GAME

Defeat West Hartford, 5-3; Play Rafts For Twilight Title Friday Night.

"Art" Boisseau's single with two on the path in the sixth inning last night in Bulkeley Stadium scored two runs, breaking the tie game in the first of the playoff series between the Savitt Gems and the West Hartford team for the championship of the second half of the Hartford Twilight League. The Gems won 5-3.

Boisseau, former Dartmouth mound star, was in trouble after two innings, with the bases loaded up in the fourth and fifth. Stratton and Putnam held the hard-hitting West Siders to eight hits while the Gems collected seven off Jones, the West Hartford curve-ball artist.

John Dixon, West Hartford first baseman, lifted a long double to deep center which nearly topped the fence for a home run. Fast fielding by Putnam who played the blow mildly off the fence, held Dixon at second.

As a result of the win in elimination series for second-half honors, the Savitt Gems will play the West Hartford team Friday night at 8:30 at the Bulkeley Stadium. If the Gems win Friday night's game they will win the 1932 Twilight championship, having previously won the first half of the annual race at Colt Park.

### CHAMPION PLAYS TODAY

Peoria, Ill., Aug. 25.—(AP)—One of Chicago's younger golfers, Jean Armstrong, today took a turn at trying to keep Mrs. Ope Hul of Kansas City from winning the women's western championship for the second consecutive year.

# ALL CLUBS PLACE ROOKIES ON HONOR TEAM THIS SEASON

## Sports Writer Names His Choices; Weaver, Warnke, Allen Named As Pitchers.

Chicago, Aug. 25.—The 1932 all-rookie major league ball team, as far as this observer is concerned, is: Moore, Giants, left field, 329. Herman, Cubs, second base, 303. G. Walker, Tigers, right field, 323. G. Davis, Phils, center field, 315. Lombardi, Reds, catcher, 334. Vaughan, Pirates, shortstop, 315. N. Scharen, Browns, third base, 300. H. Davis, Tigers, first base, 367. Weaver, Senators, pitcher, won 18. Warnke, Cubs, pitcher, won 18. Allen, Yankees, pitcher, won 12.

The supporting cast for this array of freshmen talent includes pitchers Tony Freitas, Athletics; Oral Hildebrand, Indians; Dixey Dean, Cardinals; Bl. Swift, Pirates; Van Mungo, Dodgers; and Bob Brown, Braves; infielders, Carey Selph, White Sox and Frank Cross, Yankees; outfielders, Johnny Moore, Cubs and Bruce Campbell, Browns and Catcher Al Todd, Phils.

How's that for a full major league team of rookies? And not a man of 'em ever played regularly in the big leagues before this season.

Most of these players are first year men. A few—Warnke, Lombardi, George Davis and one or two others, have knuckled around for some time without gaining regular employment.

How do you like that infield of Harry Davis, Billy Herman, Floyd Vaughan and Art Scharen? That kind of talent will be around for a good many years, their respective managers testify.

The batting average of the young Tiger first baseman isn't exactly a bust, but it includes a lot of hits and runs batted in. And the Grims, Gehrigs and Terry, even in their most elastic moments, never stretched farther for a wild throw than Davis. Buckey Harris brought him from Toronto on the eve of the campaign opening and he has been on first ever since.

This is Herman's first full year with the Cubs. He came on from Louisville late last season and this year mad' Hornaby strictly a bench manager. The young Cub has hit above .300 right from the start.

Vaughan, the Fullerton, Calif., kid, stepped out of the Western League to star for the Pirates. Although Manager Gibson was impressed by his spring training work, Vaughan was held back for a time. When Thevenou slipped, Vaughan went in and has stayed.

Scharen might not have broken into the big leagues until next season if an emergency had not arisen on the Browns' infield. Third basemen were injured right and left and the youngster was hurriedly called in from the Texas League. He sealed in first ever since.

The outfield of Joe Moore, Gerald Walker and George Davis boasts a collective batting average of well over .300 and all are fast fielders and strong-armed. Moore's average just under .300 in the leadoff position is rare, even among veteran first basemen.

But look at the pitching! Monte Weaver, Lou Warnke and Johnny Allen are among the highest winning pitchers in the rival leagues, young or old. At that, there is reasonable doubt that they are better than: Dean, Freitas, Hildebrand, Swift, Huggs and Brown would be if all conditions were equal. Dean is the National League's leading strikeout pitcher, having fanned over 25 more than his closest rival, the veteran Carl Hubbell.

Consider Lombardi, the catcher. Manager Howley of the Reds believes he will become the outstanding catcher in the league. In this, his first season of regular employment back of the plate, he has displayed efficient handling of pitchers and a powerful punch with the bat.

Oddly, this collection of rookies represents every team in the majors. And that's without stretching any points, too.

### BAER WORKS HARD FOR SCHAFF BOUT

Heavyweights Meet Wednesday Night At Chicago Stadium; Max Seeks Revenge.

Chicago, Aug. 25.—(AP)—If Baer work will help him beat Ernie Bohart of Boston, when they meet in the Chicago stadium next Wednesday night, Max Baer, the Livermore, Calif., heavyweight, has a good chance to avenge a previous defeat by Schaff.

# CUBS TAKE FIRM HOLD ON LEAGUE LEADERSHIP

## CROTHERS AGAIN WINNER OF TITLE AT VANDALIA MEET

Vandalia, O., Aug. 25.—(AP)—Steve Crothers of Chestnut Hill, Pa., who seems to have taken a long-term lease on the Pennsylvania state trapshoot title, was crowned champion of champions in the feature event of yesterday's program of the thirty-third grand American handicap tournament.

Along with Charlie Bogert, of Sandusky, Ohio State champion, Crothers shattered 199 out of 200 targets and then went on to break 50 straight in the knockout while Bogert missed his 47th clip.

This was the second straight year that Crothers triumphed over state champions from all parts of the country. In breaking 260 straight, he boosted his string for the last three days to 846 out of a possible 950.

Two targets back of Crothers and Bogert came C. L. Waggoner of Dulles, Neb., to take third prize. No less than 15 state champions tied for fourth with 196 and then did not shoot off the deadlock.

F. D. Kelsey, 77-year-old marksmen from Aurora, Ill., won the veteran trophy for the third consecutive year when he broke 190 out of 200. Kelsey is the only marksman ever to win any grand American championship more than two years in a row. Fourteen veterans took part in the race limited to shooters over 70 years old.

At the perfect score of 199 won for W. B. Sale of Denver, Colo., the professional clay target champion of America. Fred Tomlin of Glasco, N. J., was second with 198. Tomlin won the annual open championship Saturday with a perfect score.

At the close of firing officials selected the first all-American trapshooting team on the basis of yesterday's scoring.

The team with the scores: Fred Harlow, Newark, O., 200; W. S. Beavers, Berwyn, Pa., 199; Mark Arlie, Chicago, Ill., 199; E. P. Woodward, Houston, Texas, 198; R. A. King, Wichita Falls, Texas, 198; S. M. Crothers, Chestnut Hill, Pa., 199; Joe Heistand, Hillsboro, O., 199; and E. B. Chamberlin, Martville, N. Y., 199.

### Yesterday's Stars

(By Associated Press)

Diszy Dean, Cards—Held Giants to five hits and knocked in four runs with a home run and single.

Larry Benton, Reds—Beat the Braves, 3-1, winning his own game with a double.

Billy Herman, Cubs—Clouted a triple, double and single and scored twice to help tame Brooklyn. E. Wood Hurst, Phils—Drove across three runs with a home run and single to beat the Pirates, 9-6.

Ted Lyons, White Sox—Pitched and batted Boston into defeat, knocking in three runs with six home hits.

Jimmy Levy, Browns—His home run with one on in the eleventh beat the Athletics, 5-3.

Monte Weaver, Senators—Turned back Detroit, 2 to 1 for his 19th victory.

### INVITATION TOURNEY OPENS

Waterbury, Aug. 25.—(AP)—The country club of Waterbury became the starting grounds for leading golfers of Connecticut and other eastern states as the club's three-day invitation tournament opened today with nearly 150 players. A half dozen golfers who have qualified for the National Amateur tournament headed the entry list. These included Bobby Grant, New England and Connecticut amateur titleholder. Match play will begin tomorrow.

### Trounce Dodgers In First Game of Series; Stretch Lead To 4 1-2 Games; Pound Three Pitchers For Ten Hits, Winning 7-4; Other Results.

Victorious in their first engagement with Brooklyn's storm troops, the Chicago Cubs dug in behind a four and one-half game lead in the National League today and prepared to deal another blow for the cause—a bigger and better world series on the shores of Lake Michigan.

The Dodgers, who came west with high hopes of crashing through the Cubs barrage and again making a race out of the National League, were repulsed in yesterday's encounter, 7-4.

Use Three Hurlers. Three of their pitchers, Van Mungo, Thomas and Quinn, were pounded for ten hits. The Cubs led by Billy Herman with three rousing hits, made six of their hits go for extra bases and sewed up the game with a four run drive in the fourth inning.

Charley Root, after a wobbly first frame, settled down and held the Dodgers at bay until the seventh, when Bob Smith went in and finished the job.

# Georgetti Unable To Play For Title

Due to an accident while at work yesterday, Guido Georgetti, Manchester's horseshoe pitching star, was unable to team up with Big Jim Thomson, his running mate in the contest for the town championship last night on the Center Springs Park courts, against B. Gess and B. Neubauser.

To please the big crowd which had gathered for the battle, Thomson teamed with Jim McLaughlin for a series of six games which were tied at three all.

The scores: B. Gess and B. Neubauser won from Thomson and McLaughlin, 53-52 and 52-51. Thomson and McLaughlin won from B. Gess and Neubauser, 50-50, 52-50 and 52-52.

Ringers were scored as follows: Thomson, 52; McLaughlin, 72; B. Gess, 61 and B. Neubauser, 67.

SAVITT GEMS WIN 1ST SERIES GAME

Defeat West Hartford, 5-3; Play Rafts For Twilight Title Friday Night.

"Art" Boisseau's single with two on the path in the sixth inning last night in Bulkeley Stadium scored two runs, breaking the tie game in the first of the playoff series between the Savitt Gems and the West Hartford team for the championship of the second half of the Hartford Twilight League. The Gems won 5-3.

Boisseau, former Dartmouth mound star, was in trouble after two innings, with the bases loaded up in the fourth and fifth. Stratton and Putnam held the hard-hitting West Siders to eight hits while the Gems collected seven off Jones, the West Hartford curve-ball artist.

# SENSE AND NONSENSE

**CONNECT THESE SENTENCES**—Get his face all during breakfast? The police will certainly have the criminal in custody within a very few hours.

**NEW-WED**—Yes, that's my home. And my wife is cooking dinner for the first time today. Will you come along and share it?  
**FRIEND**—Of course. I've always shared your troubles, haven't I?

**THE FELLOW WHO FIRST HUNG A DIRTY OVER THE END OF A CURTAIN WAS THE DISCOVERER OF WHERE IT LOOKS BEST.**

**Wife**—Fred, dear, I like the looks of that hat in the window.  
**Husband**—Fred—All right, you can come back tomorrow and look again.

**Next To The Highest Hill In Pea Ridge County, Miss Cutie Funnycake of Bruchville, Says Is The Black of Dishes In The Sink After Dinner.**

**Government first taxes the people to build a track for trucks, then it taxes them some more to save the roads from truck competition. Ain't life grand?**

**The only problem confronting the woman when she entertains her bridge club is getting something to put under the mayonnaise.**

**Harry**—I say, old fellow, why on earth are you washing your spoon in your finger bowl?  
**Frank**—Do you think I want to get egg all over my pocket?

**A PESSIMIST IS A MAN WHO IS SURE IT'S GOING TO RAIN. AN OPTIMIST GOES AHEAD AND WATERS THE LAWN, ANYWAY.**

**The lights in the crowded bus had failed, and the passengers were thrown into confusion.**  
**Tall Young Man** (to young lady at his side)—May I find you a strap?

**Young Lady** (sweetly)—Thank you, but I have just found one.  
**Tall Young Man**—Good. Then perhaps you wouldn't mind letting go of my tie.

**An Ideal World**  
Oh, wouldn't this world be fair, and wouldn't this life be sweet if you were a millionaire and could eat what you liked to eat? And wouldn't this life be gay and wouldn't this world be grand if all the schemes we lay turned out as we have them planned? Oh, wouldn't this world be great and wouldn't this life be fine if every man found his mate by some infallible sign? And wouldn't this world be good and wouldn't this life be dear if all men did as they should and no one had cause to fear? Oh, wouldn't this world be bright and wouldn't this life be sublime if, being with HER, you might call a halt on the flight of time— if when she contentedly let cheek on your shoulder drop you could, somehow, suddenly get all the clocks in the world to stop?

**"A cook is known by his knife," says an ancient proverb, written long before the lowly can-opener was invented.**

**Mrs. Naylor**—How can you stand it when your husband keeps the newspaper propped up in front

**Sign in the Abington Memorial Hospital in Philadelphia:**  
— MATERNITY WARD —  
— No Children Allowed —

**The same girl, who keeps trying until she can kick higher than her head, makes her escort do the stooping when there's any golf balls to retrieve.**

**Wife**—John, what do they mean by a politician carrying water on both shoulders?  
**Husband**—Right now it means he is trying to carry plain water on one and firewater on the other.

**I was so nervous and excited and hopeful of winning inside that it made me sort of dead on the outside.**  
—Georgia Coleman, Olympic diving champion, after winning.

**I believe that nothing is apt to spoil a woman's character more than a complete dependence upon her husband in money matters.**  
—Viola Baum, novelist.

**Prosperity is just around the corner but we are still looking for the Boy Scouts to tell us where the corner is.**  
—Norman Thomas Socialist candidate for president.

**To me, woman is life's greatest pleasure—and my greatest worry!**  
—Emir Abdullah of Transjordan.

**The trouble is, as they say, that the English do not know when they are beaten; and are sometimes so stupid to be proud of the fact.**  
—G. K. Chesterton, British writer.

**Properly is just around the corner but we are still looking for the Boy Scouts to tell us where the corner is.**  
—Norman Thomas Socialist candidate for president.
