"A vagabond is the only kind of bond not subject to fluctuations in the market."—Don Marquis.

If you're tired of cheap stockings that "run at a glance" try ALEA SILK CHIFFONS. They are sold only at Stelger's in Hartford—and they are famous for wear. This week they are specially priced at three pairs for \$2.25. Mail or phone orders are filled promptly.

Paris Says... One smart blouse to wear with your full suit is of hand crocheted cotton. A chic model with high round neck is lacy and feminine and very simple to make. It has alternate stripes of white with brown or any dark color that harmonizes with your costume.

Women office workers, teachers and such types of earners can insure themselves for all accidents and illnesses, as well as an additional amount for nursing, hospital care and operation fees. For details contact Fayette B. Clarke, 829 Main street.

King I have a desert island in a sapphire, toasting sea. With a beach of sand-white pebbles and a lone banana tree; There's a puppy and a kitten and a parrot that can swear, And a lot of useful things that I am taking with me there.

There's a frying pan, some matches, a fishing line and hooks, Three pipes, and fresh tobacco, and half a ton of books. A notebook, and a pencil and a tenor-banjo there— And the Queen of Sixty-Third Street with a pansy in her hair. —The Dauber.

Customers who once try Old Company Lehigh coal always order again the next year. This coal, sold by G. E. Willis & Son, Inc., is an extremely clean coal, burns long and evenly, and does not need frequent firing. These points make it excellent for homes.

Court and Church Any jury would decide in favor of the "French judge's" collar and cuff set of pin-striped white satin with a tiny bow of black satin ribbon at the throat. Fashion even invades the court for inspiration. And the church too. The "nun's collars" that are having a great vogue resemble those worn on members of religious orders and on religious statues.

New wallpaper in one or two rooms will make the whole house more liveable. Women get tired of "looking at the same old walls." The many attractive papers at Olson's Paint Shop, 899 Main street, are durable, the colors are fast, and Olson's prices are right.

Spanish Rice Here's a delicious combination of rice and tomatoes, with a dash of onion and peppers. One-half cup brown rice, 2 cups canned or chopped tomatoes, 2 tablespoons butter, 1 Bermuda onion, 3 green peppers, 1 teaspoon salt, 1-3 teaspoon pepper. Melt butter in frying pan and add onion and peppers finely minced. Cook five minutes. Add tomatoes. Sprinkle rice over top and season with salt and pepper. Cover frying pan and cook over a low fire for one hour. As soon as rice begins to absorb tomato juice watch and stir occasionally to prevent sticking and burning.

We noticed today the attractive display of baby pictures outside the Fallot Studio, 472 Main street.

Pickle Doesn't watermelon pickle add zest to a meal, though? If you're making some, use red cinnamon candies to flavor the syrup. The cinnamon will give it an attractive pink color, too.

Prices in themselves mean nothing. It's what you get for your money that counts. The New Model Laundry has not lowered the standards of its service; yet the prices suit the most modest budget.

ARRESTED FIFTY TIMES New York, Oct. 10.—(AP)—Abraham Levy, 54, who said he was a Boston salesman, was under arrest for the fiftieth time today as the result of the theft of a .22 calibre rifle with which a boy accidentally shot a man October 7. The boy told police he bought the rifle from Levy and this resulted in the arrest of Levy and Harry Rubinstein, with whom he was living. Levy and Rubinstein are charged with stealing the rifle and a shotgun from the home of John Knapp shortly before the shooting. Both deny the charge. Levy was first arrested in 1897 and since then police said, he has been arrested in nearly every state in the Union as a pickpocket and on grand larceny charges. Rubinstein has a record of 11 arrests.

PASTOR SENTENCED Jackson, Mich., Oct. 10.—(AP)—The Rev. Arthur G. Larkey, former assistant chaplain at Michigan State prison here, today was sentenced to one to five years in the state reformatory for conversion of funds belonging to a prison inmate. Circuit Judge John Simpson recommended he serve the minimum. Larkey was convicted last week of converting to his own use funds derived from the cashing of a compensation certificate of a war veteran inmate of the prison.

INTER-SCHOOL LEAGUE MEETING TONIGHT

Manchester Represented at Session in West Hartford—To Plan Glee Club Contest.

Manchester is to be represented this evening at West Hartford at the first fall meeting of the Central Connecticut Interscholastic League. Principal Quimby and Vice-Principal Arthur Illing, Coaches Kelley, Clarke, Greer and Wigren, Faculty Manager Dwight E. Perry and Glee Club Leader Albert Pearson went to the William Hall High school cafeteria where the meeting was called by President Ray W. Harriman. The first business of the meeting was to receive from the Manchester representatives the silver Walker trophy which the local tennis team relinquished to Meriden. This cup was a gift of Principal Raymond Walker of Meriden High to the League, hence it is fitting that a team from his own school should get a leg on it.

In return for the tennis trophy, however, Manchester will receive from President Harriman the silver cup for winning the spring tournaments in a round robin tennis competition which Manchester carried off last spring but which was made up this summer and was first ready for presentation tonight.

Another important matter which had to come to a decision at this meeting was that of perfecting the plans for the annual glee club contests. These are generally held each April and next year will probably go to Middletown. The Middletown High representatives invited the League to come there in 1939 and this evening the details will be arranged to cover choice of required songs, exact date, etc.

The athletic coaches were looking forward to an opportunity to exchange ideas and experiences regarding the new football rules, interpretations, etc. The rule about new equipment which must be more carefully padded than in the past was up for some discussion. At the present time Bristol leads the league with two victories, Meriden is second with one victory, Manchester is third with one defeat and one victory. Middletown has lost once and East Hartford twice, while West Hartford has yet to play a League contest but is looked upon as the strongest team in the conference.

FLOODS IN TEXAS

Raymondville, Tex., Oct. 10.—(AP)—Flood waters of the Rio Grande were spread over thousands of acres of land in Willacy county today and carried a "three" of inundation almost to the limits of this city.

Flowing from a levee break in a roadway, the waters battered for many hours against a levee south of the town, thrown up by hundreds of workmen, before finding an outlet to the east.

While most of the territory inundated is brushland, about 2,500 acres are under cultivation, and growers feared the planting of onions, one of the principal crops in that area, had been delayed seriously.

Oklahoma, Okla., Oct. 10.—(AP)—A young farmer who allegedly seized his 6-month-old daughter from the arms of his estranged wife and swung it by the heels against the ground, causing a probably fatal concussion, was sought by Oklahoma county authorities today.

The man, H. A. Hall, summoned his wife from a rural church Saturday night. Her brother, Alvin Jackson, 16, told officers they quarreled and that he saw Hall seize the infant.

"The Good Old Days"—

Who is there that has not, at one time or another, listened to the reminiscences of some elderly person about the "good old days" when they were young and active. They may refer to conditions, the weather, business or most anything but we, of today, know that we MOST CERTAINLY WOULD NOT want to go back fifty years or twenty-five years or for that matter step back at all. Who is there with any ambition that wants to go backwards and be content with old fashioned modes and methods?

Modern business, large or small, which intends to make a success of it and keep in the running CANNOT TURN BACK. There can be no turning back in methods nor policies.

PUBLICITY NEEDED
Washington, Oct. 10.—(AP)—Full publicity concerning the affairs of public utility companies to bring about more effective regulation was advocated today by George Otis Smith, chairman of the power commission in an address to the public utility law section of the American Bar Association.

As news provides the news of public opinion the newspaper today is indispensable in all public affairs as long as the principal function of the state, the church, the home, the school and business are dependent upon public action, the press will advance as a profession.
—Carl W. Ackerman, dean of Columbia School of Journalism.

Today, American popular music may truly lay claim to being the most vital of contemporary music.
—George Gershwin, New York composer.

COMMUNISTS BUTT OF KLAN'S BATTLE

Imperial Wizard Evans In Address Sees Attempt To Undermine Homes.

"Terrifying conditions exist in the United States for those that truly love their God, Country and Home," declared Hiram W. Evans of Alabama, Imperial Wizard of the Ku Klux Klan, in Orange hall Saturday night, in a meeting called to protest against the inroads of Communism in America.

"We are a Christian, God-fearing, law-abiding people, and we are proud of our American citizenship," said Mr. Evans in his outline of the conditions confronting the nation with respect to Communist activities.

"Russian Communists say that there is no God and that those that believe in God are both superstitious and ignorant and that death ends all. It is unthinkable that the American people shall condense to accept that our fathers and mothers were ignorant and superstitious. Would you believe thus?" he asked.

Imperial Wizard Evans drew from his ample store of knowledge of national conditions and told his audience how the Communist group is undermining the old established principles of government, home life, industry and religion. He portrayed life and living conditions in the Russia where the so-called capitalist system has been abolished, and a new and revolutionary system of property rights set up falsely intended to uplift and benefit the masses.

"In Russia, marriage, Holy Matrimony as advocated by the Master, has been expunged, and the home has been desecrated," he said. "Children become the property of the state and they are being systematically taught to hate their fathers and mothers."

The speaker told of the danger confronting the home life of America through the increasing systematic seeping in of Communist principles, backed by a well-organized and financed organization. He told of the breaking down of opportunity as expressed by the robot masses of Russia, bereft of inspiration and ideals in a country where knowledge, hope or individuality is frowned upon and kept in the background and retarded.

"Young people today like to experiment," he admitted. "It is the spirit of the age. Several years ago they tried out trial marriage. It didn't work."

Stability Insecure "The present generation is disposed to play with the Holy of Holies—God, Home, Father and Mother—and to tamper with the long-established principles of good government, solid idealism; rendering the stability of our country insecure, and hence the future generation uncertain," he charged. Then came a stark indictment of the world from one who has been in close contact with international affairs for a decade. He said that the world is broke today because the lack of security and stability because the world "shot values away during the World War and in return received nothing."

During the World War values in the form of steel, copper, gold, manpower and other essentials were expended, leaving at the end of the four-year struggle, nothing but a tremendous tax burden which has throttled the universe and has destroyed the credit of individual and nation.

that recently found expression for the development of new ideas." Frances Coolidge

Calvin Coolidge, ex-President of the United States was pictured by the speaker as a rock-ribbed son of the Green Mountains, "hard as the granite hills" and close fasted in his financial dealings.

"Russia has been settled 2,000 years," continued the Imperial Wizard. "In that time what has Russia done to further the advancement of the world? Russia has had plenty of natural resources; plenty of land for agriculture, lumber, furs, minerals, but for all that it has not performed essential service to mankind through the span of history."

Compared America "On the other hand, America, founded on love of God; respect for Womanhood, love for the Home, freedom of individual expression where it does not conflict harmfully with others, and well-ordered liberty, has gone forward to new heights in all channels of life—industry, education and commerce."

The noted Klan visitor and orator closed his initial address by stating that the American Home as instituted is the best thing on earth, embodying love of God, Home, industry, thrift and energy, and warned his listeners to work and combat the encroaching food of Communism to keep the home and the government supporting it, secure from destructive invasion from the Red Menace.

Grand Dragon Here Rev. J. W. Terry, Grand Dragon of Providence 3, Realm of Connecticut and Rhode Island, introduced the visiting National Klan official following an illness of nearly six months. Members of the local organization gave the visiting officers a rousing vote of thanks on their departure for Washington shortly after the meeting.

VANDAL DESTROYS FAMILY'S CLOTHING

Five Lines of Washing In Gustafson's Yard Cut and Torn Into Small Bits.

Manchester police are cudgeling their wits for a clue as to the kind of person it would be who would cut up five clotheslines full of washing put out to dry on Sunday, as some one did to the family wash which Mrs. Hulger Gustafson hung out yesterday.

The Gustafsons live on Norman street. Mr. and Mrs. Gustafson were going out to spend the evening. They expected to be out rather late and Mrs. Gustafson, who likes to have her washing out early on Monday, couldn't quite see her way clear to an especially early rising this morning. So for once in a way, she decided to get it one on Sunday. When she and her husband left the house for their social engagement the wash was all out, five lines full in the yard.

At midnight, when they returned, the Gustafsons noticed that there was a queer appearance about the appearance of the clothes on the lines. Taking a closer look they found that someone had been doing his best to fit the whole assortment for the rag-bag, and had succeeded. Three sheets had been cut into ribbons, shirts backed into pieces, most of the articles cut or torn beyond repair.

The Gustafsons were unable to tell the police of anybody who might hold a grudge against them or give any lead to the identity of the vandal. The police are trying to see if they can link up this piece of wanton destruction with the fact that in that neighborhood recently an automobilist who had left his car parked in the street found his tires cut to pieces. They think it unlikely that there can be more than one person in that neighborhood animated by a perverted impulse for senseless destruction.

PASTOR DEPLORES LACK OF RELIGIOUS OPINION

Rev. C. C. Noble In Address Here Says Convictions Await Developments of Science.

Rev. Charles C. Noble, D. D., pastor of the First Methodist Episcopal church in Hartford, was the guest speaker last night at the opening of a series of monthly Sunday evening services sponsored by the United States Bureau of Biological Survey. He deplored the lack of religious opinion on all other matters.

"Science has done so much for us that we have fallen into the habit of expecting it to bring us salvation," Dr. Noble declared. "This it cannot do. The only salvation known comes from the Church." Evelyn Metcalf, as Paul declared. Not the scientist, the technician nor the banker can save us, but God's love can."

The combined choirs of the north end Congregational and Methodist churches rendered Gounod's "Crucifixus." The Rev. Noble also led the congregation in singing hymns. The next union service will be the first Sunday night in November and will be held at the Methodist church. The combined choirs will again sing.

STATE WAR ON RATS TO BE HELD OCT. 31

To Distribute Poisoned Bait Here—To Cost 50 Cts. a Package.

Connecticut farmers are joining farmers in thirty-five New York counties in serving a grand rat feast Halloween night, October 31 this year according to an announcement made by the Hartford County Farm Bureau.

The poison bait already to serve is distributed through the county farm bureau offices and each package consists of three cans, one of fish, one of hamburger, one of cereal, all seasoned to the rat's taste with red squill, a poison which is not supposed to cause the death of any domestic animals.

In Hartford County the bait will be distributed through the directors of the Farm Bureau, feed stores and others wishing to co-operate and may be purchased at fifty cents a package from the nearest director or feed store in your town.

Two things are very important in a successful rat campaign. First, the rats should be offered all three kinds of bait because extensive experiments carried on by the United States Bureau of Biological Survey have proven that some rats may prefer one food while others prefer another.

The bait should be placed in secluded places where it will not be necessary for the rat to eat in public because he is afraid some cat

might slip on him while he is lost in the joys of red squill bait.

Second, everyone in a community should put out poison on the same night because rats are great visitors and your family of rats may be calling on mine the night you put out poison, so that unless you put out some too, your rats will all return safely.

It is estimated that rats in Hartford County average about \$40 damage to every farm family a year and if you can save this loss by spending fifty cents for a package of bait and going to a little trouble, it is a good investment in times like this.

The bait will be distributed from the Farm Bureau office, October 28 in order that individuals may purchase it at the distributing points, October 29 and 31.

Applications should be made to the nearest Farm Bureau director or feed store and in case the feed store has not received a supply, it can get some on request to the Farm Bureau.

Distributing points in Manchester are S. G. Bowers, L. C. Bunce, F. V. Williams, W. T. Little, Eliah Hardware and Little & McKinney.
