JAPANESE OCCUPY CHIUMENKOW CITY

Pass Through Great Wall On Way To Jehol—Second City Captured Within a Week.

Tokyo, Jan. 10.—(AP)—Japanese cavalry and infantry units occupied Chiumenkow Pass in the Great Wall of China today, blocking a further pouring of Chinese troops through that famous gate into Jehol.

It was the second strategic position taken by the Japanese in a week to frustrate Chinese attempts to defend the Manchurian province against impending invasion announced by Japanese military commanders.

Occupation of the Chinese city of Shanhaiwan just a week ago by Japanese shut off the eastern gate, only a short distance from where the wall comes down to the sea.

Chiumenkow is 12 miles north of Shanhaiwan and near where the 2,000-year old barrier turns westward.

A communique from the Chinchow, Manchuria, headquarters of the Ninth division said a Japanese column, mostly cavalry, left Shanhaiwan early today and occupied Chiumenkow at 9:15 a. m.

The communique said the Japanese flag was raised over the town after a brief skirmish.

REVOLT IN SPAIN CAUSED 36 DEATHS

Federal Troops Now In Control But Extra Precautions Are Taken All Over Nation

Madrid, Jan. 10.—(AP)—An official report indicated today that simultaneous Extremist uprisings throughout Spain against the Republican government apparently have collapsed.

Authorities, however, were taking extra precautions in Seville, Barcelona, Cadiz and Madrid to prevent the movement from spreading to railroad, mine and metallurgical workers, who has far have had no part in the uprising.

Unofficially, 36 persons are reported to have been killed and more than 100 wounded in the battles which began Sunday.

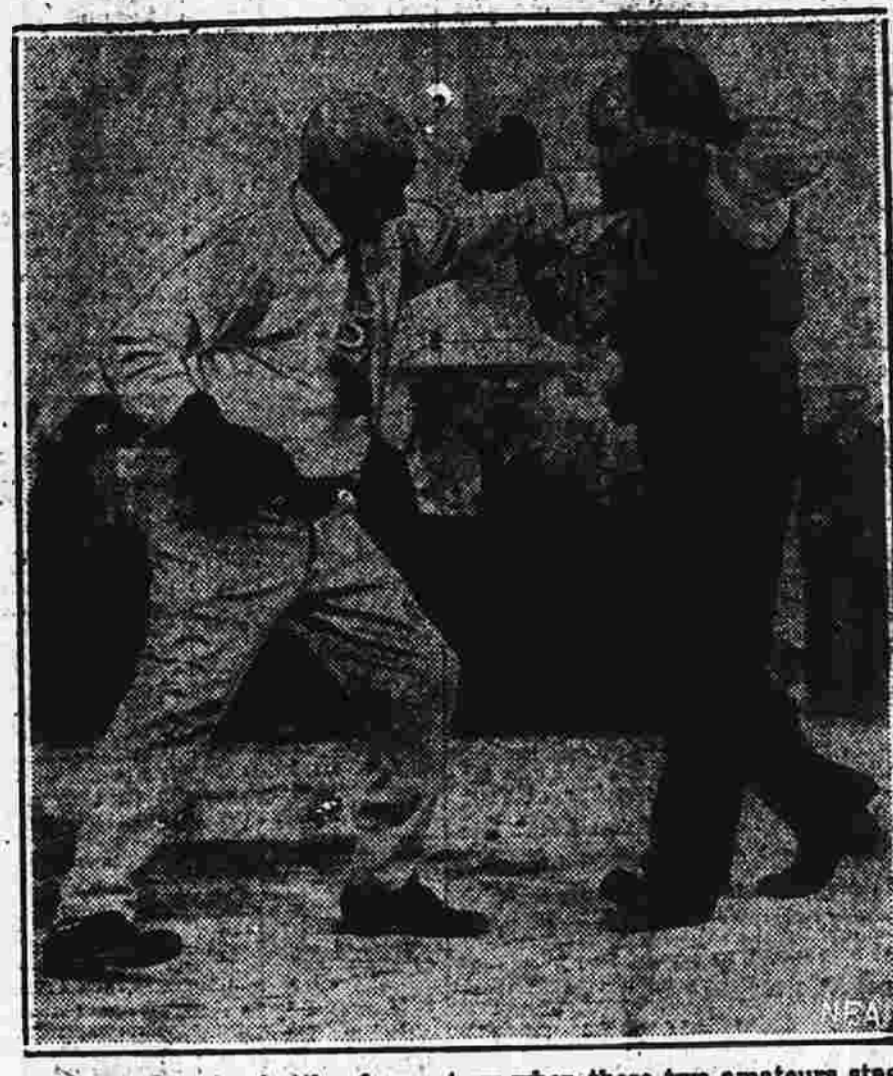

A definite check of the number slain was impossible, since many of those gravely wounded in street gun battles were taken to their homes where some presumably died.

Apparently the movement was aimed especially as an attempt of seizing arms. Plans apparently were set in advance to be carried out Sunday while soldiers were allowed their Sunday walk.

The planned assaults on the Cabaneros and San Augustin barracks in Barcelona, the Castillo, La Fanera and Casa Banchel barracks in Madrid failed because the authorities previously learned confidentially the day and the time the assaults were planned.

At least seven persons were killed in Barcelona during fighting occurred in front of the Palace of Justice and the railroad terminal.

"Whiskerweight" Bout Ends in Draw

It was almost a battle of a century when these two amateurs staged a boxing match before some 2000 onlookers assembled at St. Petersburg, Fla. For William Judd, wielding that snappy left, is 22 years old, and George Washington Brown, his opponent, is 80.

U. S. ECONOMIC SYSTEM IS ESSENTIALLY SOUND

Head of National Bank Sounds Hopeful Note At the Annual Meeting of the Bank's Stockholders.

New York, Jan. 10.—(AP)—Expressing his belief that "the economic system of the United States is essentially sound" and that "the integrity of the standard of value" should be maintained, Charles E. Mitchell, chairman of the National City Bank of New York, sounded today a moderately hopeful note at the annual meeting of the bank's stockholders.

Mr. Mitchell stressed the present dislocation of foreign currencies, due to their renunciation, and declared that America should consider the entire problem in a spirit of co-operation.

"Of vital importance to the progress of recovery in this country," said he, "is the re-establishment of a stable relationship between the various foreign currencies, thus relieving our price structure from the most destructive of all kinds of competition, namely, that of depreciating currencies of competing nations."

"Since it is neither practicable, nor indeed thinkable, for the United States to adopt either the course of attempting to withdraw behind impenetrable tariff walls, or that of entering upon a competition in currency depreciation of which the end is zero for all, there remains only the alternative of co-operation with foreign nations in the effort to remove such obstacles as may still bar the way of their return to a gold basis."

"Above everything else, this country should avoid any action or declaration of policy affecting the integrity of the standard of value which may renew the uncertainty which existed upon that subject one year ago and which has had most unmeting effects. Any such action, if it were to increase the state of world confusion and render futile the hope of early international co-operation to the end which all countries desire."

The chairman reported that the bank's stockholders received about \$3,000 last year to some \$1,000, the largest total in the history of the institution.

SENATE PROBE OF MARKET TO BE CONTINUED

Banking Committee To Employ Seabury Investigator To Help In Inquiry—Norbeck Explains Purpose.

Washington, Jan. 10.—(AP)—Clearing the way for resumption of its investigation into the New York Stock Market tomorrow, the Senate Banking Committee decided today to employ Irving Ben Cooper, of New York, associate counsel of the Seabury investigation, to conduct the inquiry.

The committee resumes its investigation tomorrow with a public hearing in connection with the sale of Kreuger and Toll securities in this country.

Chairman Norbeck announced that four witnesses, in addition to the four already called, have been summoned for tomorrow.

They are: Dr. Max Winkler, associate professor of economics of the College of the City of New York; A. D. Birnir, of the firm of Ernst and Ernst, auditors of the International Match Corporation for Leo Higginson and Company; G. O. May, senior partner of Price, Waterhouse and Company, auditors, and Gilmer Siler, partner in the brokerage firm of Eastman-Dillon and Company.

Witnesses already announced for the investigation tomorrow are: Roland L. Redmond, counsel for the New York Stock Exchange; Allen Lindley, chairman of the committee on business conduct of the New York Stock Exchange; Donald Duran, of the firm of Lee Higginson and Company; and Frank Altshuler, chairman of the stock list committee of the Stock Exchange.

Purpose of Hearing Norbeck has announced the purpose of the hearing tomorrow is to "find out to what extent the American investor has been misled by the European promoters, with the help of American bankers and the Stock Exchange."

Employment of Cooper, as counsel to conduct the investigation, was announced today at a meeting of the steering committee in charge of the investigation.

PRESIDENT URGES BAN ON ARMS SHIPMENTS

Democrats Divided Over the Beer Bill

Washington, Jan. 10.—(AP)—A wide open breach between Senate and House Democrats on the form a prohibition repeal resolution should take, today threatened to kill off any chance of Congressional approval this session.

Speaker Garner who holds the whip hand, was outspoken in his criticism of the proposal reported to the Senate yesterday. It provides protection for dry states, gives Congress power to ban the saloon and calls for ratification by State Legislatures.

He asserted it did not conform to the Democratic platform and told newspapermen he would not allow it to be taken up in the House under suspension of rules, as was done the first day of Congress when an outright repeal resolution was beaten by six votes.

Senate Democrats, on the other hand, apparently have decided to accept the resolution approved yesterday by the judiciary committee and not press for outright repeal as called for in their program. Its passage in the Senate has been forecast by many.

Representative Rainey of Illinois, Democratic floor leader, joined Garner in opposition to the Senate resolution in its present form. At the same time, Joust Shouse, president of the Association Against the Prohibition Amendment, said it would be better to let the present amendment stand rather than pass the Senate proposal.

Garner and Rainey said it was agreed in conference with President-elect Roosevelt last week that an effort would be made to make the resolution conform to the party platform. But Senate Democrats disputed this, saying no agreement was reached.

There was a probability the Senate would celebrate the thirteenth anniversary of prohibition next Monday by debating it.

In Special Message To Congress Chief Executive Asks That Authority Be Given Him To Limit Or Forbid Shipment of War Implements Out of the U. S.

Washington, Jan. 10.—(AP)—President Hoover, in a special message to Congress, today urged either the speedy ratification of the projected convention to suppress trade in implements of war or special legislation empowering the Chief Executive to limit or forbid shipment of arms for military purposes.

The message, which has been awaiting Presidential approval for several weeks, did not mention any specific conflict such as the unusual Sino-Japanese war or the differences between Paraguay and Bolivia in the Chaco.

The Chief Executive said, however, that either ratification of the international convention signed at Geneva in 1925, or the special legislation to forbid arms shipments in cases where cooperation could be secured with other major arms manufacturing nations would aid in the "prevention and limitation of war."

Wants Authority Recent events, the President said, have emphasized a need for more authority in the control of shipments of arms for military purposes.

"There can be no doubt," he said, "that the control of such shipments to areas of prospective international conflict would greatly aid the earliest and unceasing efforts which all nations now make to prevent and lessen the dangers of such conflicts."

However, for one nation alone to engage in such prohibitions while other nations continue to supply arms is a futility. Moreover, it would tend to give advantage to one nation over another by increasing the war potentialities in manufacture and skill of non-cooperating nations.

The President indicated he believed it would be "impossible" for the Senate to ratify the international convention suppressing trade in arms, signed at Geneva, and added that if this were the case "it is urgent that legislation should be passed conferring upon the President authority in his discretion to limit or forbid shipment of arms for military purposes in cases where special undertakings of cooperation can be secured with the principal arms manufacturing nations."

FRANCE CLAIMS U. S. SUGGESTED DEBT CUT

Senator Says Hoover Told Laval If Reparations Were Cut U. S. Would Slash What Was Owed To Her.

Paris, Jan. 10.—(AP)—Senator Deming, dean of the Upper House, declared in the Senate today that President Hoover clearly told former Premier Laval that if France consented to reduce her reparations claim against Germany the United States would proceed with revision of the war debts.

United States Senator Borah, he asserted, had recognized the accuracy of this statement.

Today's newspapers, commenting on the debts debate in Washington, agreed with the Senator. The Hoover moratorium and the Hoover-Laval communique after the two had talked in America, the evening papers said, clearly established the American responsibility in the matter of reparations and debts.

Link Established Both these developments established the link between debts and reparations, the press contended, and the communique issued by Hoover-Laval implied that if Europe would put its house in order that would be the best means of approaching a solution of the debts.

Le Temps said that any controversy over what Mr. Hoover may or may not have promised outside the official texts was purely an internal American affair, but that the texts of the moratorium declaration and the Hoover-Laval communique established Mr. Hoover's responsibility.

PRESIDENT DONATES CAMP TO NATION

Wants It To Be Made Part of the Shenandoah National Park.

Richmond, Va., Jan. 10.—(AP)—President Hoover and Mrs. Hoover have donated their camp, the summer White House in Madison County, Va., to the commonwealth with the request that it be made a part of the Shenandoah National Park.

The deed was made to Mr. Carson as trustee, and in it was expressed Mr. Hoover's desire to have the camp made a part of the proposed National park and preserved for the use of other presidents who may wish to camp there.

President's Letter A letter from the President to Mr. Carson incorporated in the deed of trust, reiterated his original intention in regard to the camp as expressed on August 2, 1929, as follows:

"As I told you some months ago, I should like to put it in permanent form for the use of my successors. I desire that the camp shall ultimately become the property of the Shenandoah National Park so that at the expiration of my term of office, they may hold it for my successors for a week-end camp, or, if future Presidents do not wish to avail themselves of it, it is at the disposal of the park itself. Therefore I would be glad to either deed it now or await the transfer of the park to the Federal government, whichever you think best."

Three Tracts The area covered in the deed includes three tracts, the camp tract, of 164 acres, the President's school tract, of 138 acres, both owned in fee simple by Mr. Hoover, and a 46.5 acre tract near the camp in which leasehold rights were held by the President.

MORE WAR CLOUDS IN SOUTH AMERICA

Peru and Colombia May Be Next To Start Fighting; Fleet Starts On Trip.

Bogota, Colombia, Jan. 10.—(AP)—A note from the Peruvian eastern military commander was made public here today in which he was quoted as saying "progress of a Colombian expedition toward Leticia means the initiation of hostilities."

(Rio de Janeiro dispatches said three Colombian ships arrived yesterday at Manaus, Brazil, at the confluence of the Rio Negro and Amazon rivers. Upon arrival of a fourth ship, the fleet was to proceed to Leticia, the upper Amazon port over which Colombia and Peru have been in dispute.)

The message of General Vicente Ramos, Peruvian commander, was followed by Colombian authorities as follows:

"As progress of a Colombian expedition toward Leticia means initiation of hostilities, I have ordered all measures of a military character to prevent the arrival of the expedition at Leticia, thus ensuring Peruvian security."

Noted German Scientist Talks For Many Hours With American Scientists.

Pasadena, Calif., Jan. 10.—(AP)—Far into the wee hours of this morning, Albert Einstein talked things over with the men who caused him to change his mind about the universe.

The German scientist, who arrived yesterday for his third annual visit to the United States, not only has discarded a concept of a static universe, but he expressed pleasure at the working out of new details of relativistic mechanics.

The two most intimate conferees of the relativity enclavier were Dr. Richard Chase Tolman, mathematical chemist and physicist who believes the universe to be pulsating in cycles, and Dr. Paul Sophus Epstein, theoretical physicist with whom Einstein always spends much time on visits here over interpretations of new laboratory experiments bearing on relativistic mechanics.

The smiling German professor had nothing to say about new ideas he may have developed concerning the unified field theory, the quantum theory and relativity. He said E. R. In reports that he proposed a new interpretation or use of the Lorentz transformations in mathematics were without foundation.

Tomorrow he expects to hear an

STALIN CHALLENGES CAPITALIST WORLD

In First Public Speech In Year, Soviet Head Tells of Future Plans.

Moscow, Jan. 10.—(AP)—A challenge was cast to "the capitalist world" today by Joseph V. Stalin in the industrial program he has mapped out for Russia for the next five years.

The Bolshevik chiefman announced a 16 per cent increase in general production over last year as this year's goal of the Socialist nation. The annual average increase for the second five year plan, now being inaugurated must be 13 or 14 per cent, he said.

This he declared, "would be impossible in capitalist countries."

ALCORN TO DROP PROBE OF REILLY

State's Attorney Says No Evidence Found To Warrant Prosecution.

Hartford, Jan. 10.—(AP)—"We have made a complete investigation of the case, and we do not believe the evidence is sufficient to warrant prosecution," said State's Attorney Hugh M. Alcorn this afternoon when queried on the result of his office's probe into charges that Sheriff Reilly of Fairfield county was involved in an attempted prison break last October.

The case had been under investigation ever since the plot to free Michael J. (Lefty) McDonnell, regarded as one of the most dangerous criminals in Wethersfield prison, was uncovered by a prison guard, in time to block it.

Two New Britain youths, Albert and Adolph Mankus, implicated in the scheme are now in prison for participating in the conspiracy. On the other hand, a letter written by McDonnell to friends in New York, in which Sheriff Reilly's name was mentioned as the source of information from the "outside."

Mr. Alcorn, in indicating today that the investigation had been dropped as far as Sheriff Reilly is concerned, would not enlarge upon his terse announcement.

SNELL CRITICIZES DEMOCRATS' PLANS

They Will Neither Balance Budget Nor Bring Back Beer.

Washington, Jan. 10.—(AP)—Postponement by the Democrats of any revenue-raising plans until the end of the session, and their announced intention of depending mainly upon expenditure reductions for bringing the budget into balance, today brought from the Republican House leader, Charles McNary of New York, a prediction that they would fail.

Snell said it was "perfectly evident that the Democrats are not going to do anything about balancing the budget this session. They don't intend to try before ten or fifteen days from the end of the session and that means they have thrown it up in despair."

Blame Sleeping Sickness For Eight Sudden Deaths

Cincinnati, Jan. 10.—(AP)—A strange form of encephalitis seemingly akin to sleeping sickness (lethargic encephalitis) was blamed today for the deaths of eight persons here within the last several days.

At least eleven others have been stricken, but have totally or partly recovered. The diagnosis was embodied in a report based on a study by Dr. Howard D. McIntyre, neurologist at Cincinnati General hospital

Infant Is Murdered In Its Crib at Home

New York, Jan. 10.—(AP)—A black-handled stiletto with a blade six inches long was the only clue today as detectives hunted the killer of a baby boy in his crib.

Frank Michael Cammarano, four months old, sleeping in a darkened room in the Bronx last night, was the victim. His father, Amanda, 25, was at night school learning the plumbing trade. Other relatives chatted in an adjoining room.

U. S. ECONOMIC SYSTEM IS ESSENTIALLY SOUND

(Continued From Page One) the investment banking business, the National City Co., showed a net operating profit of \$463,616.

In referring to the City Company, the bank's investment affiliates, Mr. Mitchell regretted that efforts were being made to legislate against this form of banking and declared that "conservatively operated investment banking affiliates, which in the aggregate are now doing more than half of the investment banking business of the country, constitute not only a desirable but an essential element in the financial machinery of the United States."

Mr. Mitchell pointed out that the danger of panic had been averted with the return of currency to the banks and gold to the United States and with the liquidation of a large body of short-term foreign investments "which has been an uncertain element for years" the country "is in stronger position in consequence."

He warned that the situation of the railroads was even more critical than a year ago and was a subject of prime importance to the American people.

"Railroad credit," he stated, "must be maintained and this requires that the roads shall regain a self-supporting basis."

The economic system of the United States is essentially sound, said Mr. Mitchell, in conclusion, "the most efficient in the world, and capable of providing a higher standard of living for the people than yet has been known in any country. Upon this point it is possible confidently to repeat the opinion offered here one year ago that until human nature is changed and people are satisfied with what they have, there need be no fear of the change and the new by-laws and expansion in production and distribution."

The fighting in Lerida, capital of that Province of Catalonia, was said to have taken seven lives. Deaths were placed at five in the city of Valencia.

Two bombs were found in the opera house at Burgos. Otherwise the capital was generally quiet after Sunday's short-lived attacks on the barracks.

Dispatches from Seville indicated police expected syndicalist to declare a general strike Tuesday. Cavalry, troops and civil guards were sent to the railroad station in many cities to take charge and prevent any attempt to spread strike propaganda.

Hundreds of arrests have been made since the rising began and large stocks of bombs and firearms have been seized. All syndicalist and anarchist headquarters have been closed.

DEPRESSION HITS CALENDAR SUPPLY

Homes and Offices Note Shortage This Year—Few From Out of Town.

"Get a calendar, Mister?" For the past ten days merchants, insurance offices, garages and milk dealers have been besieged with like inquiries from a large number of children, who, annually, are sent by their parents on a wide tour of the town's business places to secure the season's supply of calendars.

A canvass of the many firms, which, in the past decade have supplied their customers and others with a single calendar, and in some instances none at all. In the past few days parents have supplemented the calendar search with little success.

Cheney Brothers, which concern has for years received an adequate supply of calendars from the trade, has been unable to fully supply the various offices and mills this year and has secured calendars from local sources to supply the firm's many offices.

Arthur A. Knopf, Edward J. Holl and Robert J. Smith insurance agencies and realtors supplied a large number of people with the familiar business office calendar, in the large-lettered blue and white, and red, black and white pads.

The Quinn Pharmacy has received for use in emergency cases, what is said to be the latest type of oxygen tent.

Visibility for the attending physician and nurse is a notable feature of the new equipment, making possible observation of the patient through glass windows.

Through the use of the new tent there will be a minimum of loss in oxygen. The temperature of the air in the hood of the tent can be reduced many degrees in the hottest weather.

TOLLAND

The Ladies' Aid society of the Federated church will serve the regular monthly supper Friday evening in the church dining rooms.

Mr. and Mrs. Walter Pearson of Hartford were Sunday guests of relatives here.

Mrs. Minnie Berry returned last week to the home of her daughter, Mrs. Erva Doye, after two weeks spent with relatives in New Hampshire and Maine.

COLDEST TOWN IN EAST

Owl's Head, N. Y., Jan. 10.—(AP)—The inhabitants of this vicinity known as New York state's coldest town, are fretting about the mild winter.

Called the "ice box" of New York, and by reputation as cold a spot as there is in the Eastern states, Owl's Head nestles among Adirondack islands not far from the Canadian border.

The tiny lumbering village has inhabitants who insist that in the "old days" temperatures of 60 degrees were not uncommon, and it might have been colder but the mercury in the tube couldn't squeeze any lower.

A dozen years ago the mercury went to 52 below, but in recent years 45 below has been the coldest. Forty below was registered last month.

WORKERS CONFERENCE

Geneva, Switzerland, Jan. 10.—(AP)—A preparatory conference on the reduction of hours of work as a means of diminishing unemployment began today under the auspices of the international labor office.

Governments, employers and workers of 34 countries were represented. The American government notified the conference that it would be unable to participate but that Prentiss B. Gilbert, consul at Geneva, would follow the meeting and report on the proceedings.

CATTLE ARE BURNED

Brownington, Vt., Jan. 10.—(AP)—Ten head of cattle perished in a fire during the night at the Lyle Fox dairy farm here. Several buildings were damaged. Loss was estimated at \$7,000.

The other officers are: Vice-president, George Simpkins; secretary, Luther Skinner; treasurer, John McKinstry; auditors, Theodore Palmer, N. Morgan strong. It was voted to continue H. H. McKnight as manager of the organization.

Woman Found Dead

Mrs. Kate (Hahn) Osborne, 69, widow of George Osborne, died suddenly early Monday morning from a heart attack. She was found by members of the family lying near the kitchen sink at breakfast time. Mrs. Osborne had been suffering from a cold and it is thought she had gone to the sink for a drink of water when death occurred. Medical Examiner Thomas F. O'Loughlin was called and he said the woman had been dead about six hours.

Card Party

The next whist sponsored by the Home Economics Committee of Vernon Grange will be held on Thursday afternoon, Jan. 19, at the home of Mrs. William Johnson of Vernon Center. At the last card party prizes went to Mrs. Clarence Burke, Mrs. P. H. Holton and Mrs. Jeanne Guillard.

Notes

SENATOR SMOOT IS 74

Washington, Jan. 10.—(AP)—The dean of the Senate, Smoot of Utah, is 74 years old today. Birthday greetings came to him for the last time as a member of Congress. His thirty years of service ends March 4 when a Democrat takes his seat.

Smoot, co-author of the Hawley-Smoot tariff law and a power in the high Republican councils, has not said what he will do in the future. But his friends expect him to give close attention to his banking interests.

His family prepared a dinner in his honor for tonight.

EDITORIAL CONVENTION

Indianapolis, Jan. 10.—(AP)—Walter Cohn of Salem, Ind., chairman of the convention committee, today announced June 5-8 has been set as the date for the annual convention of the National Editorial Association to be held in Indianapolis. Following the business sessions, Crim said, delegates will be taken on a motor bus tour of Indiana, ending in Chicago where they will visit the Century of Progress Exposition.

Bank was held this morning at 10 o'clock for the election of directors and officers.

The James J. Regan Manufacturing Company are having a new section added to the upper half of one of their three smoke stacks at their plant on West Main street. The gases from their boiler plant damaged one of the old stacks so that the upper section, about forty feet in length, had to be removed. The Roger Sherman Transfer Company worked on the removal of the old stack on Sunday and started erecting the new stack yesterday. The heavy snow and rain proved a big hindrance.

The Tolland County Bar Association held a special meeting, this morning at the opening of the January term of the Tolland County Superior Court for the writing of a resolution on the death of the late States Attorney Thomas F. Noone into the minutes of the court. Judge Ernest F. Inglis of Middletown presided. This session was postponed from January 3 by the illness of the judge.

Mrs. Carrie Kane of Rockville was in charge of the installation of the officers of Wauwame Council, D. of P. of Hartford on Monday evening.

The Camp Fire Girls of St. John's Episcopal church will hold a public whist and bridge party this evening in the parish rooms.

The Vernon Civic Betterment Association held an important meeting last evening at the Dobsonville school house.

BOLIVIANS TAKE FORT

Buenos Aires, Argentina, Jan. 10.—(AP)—By the capture of the Paraguayan fort, Mariscal Lopez, 100 miles southeast of Fort Munoz, the Bolivian army today was entrenched more deeply in the lower Chaco than at any time since the boundary controversy became an international issue in 1880.

They have penetrated to within 150 miles of Concepcion and 175 miles of Asuncion. With the fort, which was taken yesterday, the Bolivians captured ammunition, foodstuffs, cattle, horses and mules and reached the headwaters of the Aguayru Guazu river, insuring them a more plentiful water supply.

"NOT CONSTIPATED FOR SEVEN WEEKS"

Writes Mrs. Johnson After Using Kellogg's ALL-BRAN

Sufferers from constipation will be interested in this unsolicited letter: "Your ALL-BRAN surely relieves constipation. I am so glad over the good it has done me that I feel I must write and tell you of it. "For lunch I take a banana, a large one. Six tablespoons of ALL-BRAN in a sauce dish, and dip banana at each bite until all is consumed. I haven't been constipated now for seven weeks."—Mrs. Louise Johnson, 1433 Forest Street, Denver, Colorado.

Constipation often causes headaches, loss of appetite and energy, sleeplessness. This condition is usually due to lack of "bulk" to exercise the intestines, and vitamin B to further promote regular habits. Kellogg's ALL-BRAN has both, as well as iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the wastes.

Try ALL-BRAN in place of patent medicines—often harmful. Two tablespoons daily will overcome most types of constipation. Chronic cases, with well tested, do not relieve this way, see your doctor.

Use as a cereal, or in cooking. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.

# SENSE AND NONSENSE

## The Loving Word

Take time to speak a loving word  
Where loving words are seldom heard,  
And it will linger in the mind  
And gather others of its kind  
For long such words will echo  
Where the heart is poor and sore,  
And somewhere on the heavenward track  
Their music will come echoing back.

The witness was obviously a rustic and was quite new to the ways of the court room. So the Judge directed him:  
Judge—Speak directly to the jury, sir—the men sitting over to your left on the benches.  
Witness (turning to the jury, bowing clumsily)—Good morning, gent.

Two Scotchmen were arrested for being drunk and disorderly. When they were brought into court the judge asked the officer where the third man was.  
Officer—Your Honor, there was no third man.  
Judge—There must have been. Who bought the liquor?

It sometimes happens that the careful man saves money and then loans it to somebody who invests it and gets rich.

The manager of the Brushville building firm stared at the wrecked fraternity hall.

Manager (to foreman)—What in the world happened?  
Foreman (scratching his head)—As soon as we began to take the scaffolding away the whole place collapsed.

Manager—You idiot! Didn't I tell you not to touch the scaffolding until the wallpaper was up?

Asked in Sunday school if he wouldn't like to be an angel, a little boy replied: "No, I would rather be an airplane pilot or a baseball pitcher."

A bit of wisdom: "A man pays dearly for all the satisfaction gained by going to law."

Jerry—Good Heavens! Who gave you that black eye?  
Friend—A bridegroom for kissing the bride after the ceremony.

Jerry—But surely he didn't object to that ancient custom?  
Friend—No—but it was two years after the ceremony.

Most of the habits men acquire are like whiskeys. They just grow on them.

Speak Kindly  
The hard word hurts; why mutter it?  
A grumble pains; why mutter it?

## Your heart is kind; why clutter it?

The soft word helps; just say it; A hand-grip choker; don't do it; A kindness shown, just repay it; And help the world along.

Pompous Physician (to man plastering a defective wall)—The trowel covers up a lot of mistakes—what?  
Workman—Yes, doctor—and so does the spade.

An exchange says: "Should a mother of 40 get married again?" Our answer would be: "Not unless she wishes to be like the old woman that lived in a shoe."

Teacher—Come now, Tommy, will you point out Australia to the class?  
Tommy did.  
Teacher—Who discovered Australia, Judith?  
Judith—Tommy did.

## WELL CONTROLLED

Lawyer: Was your car under complete control at the time?  
Defendant: Yes, my wife was sitting in the rear seat—The Wheel.

## TAKING NO CHANCES

Insurance Agent: Better let me write you a policy, Rastus.
