Twenty-five Injured When Mutineers On Stolen Cruiser Refuse To Obey Orders—Later Surrender.

Batavia, Java, Feb. 10.—(AP)—Eighteen men were killed and 25 injured aboard the rebellious Dutch cruiser de Zeven Provinciën when a naval fighting plane dropped a bomb on the ship's deck today, forcing the mutinous native crew to surrender.

Rebels Defiant The rebels, defiant to the last, flashed a reply: "Don't hinder us!" They failed to show a white cloth on the deck awning, as directed, in token of unconditional capitulation.

25 Are Injured It exploded with a roar on the cruiser's deck bringing death to 18 members of the crew and wounding 25 others.

BOSTON TAXPAYERS ASSAIL THE MAYOR

Say If Relief Is Not Given They Will Go On Strike and Refuse to Pay.

Boston, Feb. 10.—(AP)—The attack on Mayor James M. Curley's administration of the affairs of the city of Boston continued today at a public hearing in the State House before a capacity audience. Warnings were sounded that denial of relief to taxpayers would result in a taxpayers' strike and that the continuance of extravagant expenditures would bring the overthrow of the city's credit and place it, in default. These came from Russell Codman, prominent Boston realtor, as he favored the bill for a legislative investigation of Mayor Curley's activities and the administration of the city's affairs under him. Codman charged that the representatives elected by the citizens were more like masters than servants and that requests for relief have been met with hostile attitudes instead of sympathy. He said the real estate situation in the city was "appalling." He said store owners were suffering losses they never expected and tenants were unable to pay rents.

Unusual Bargain In Antiseptics At Local Druggists

Local druggists are introducing a new local antiseptic made by the makers of Vicks VapoRub. It is called Vicks VoroRub. It is of course, the only real proof of its quality and economy is actual use. To make this proof possible, a special trial size has been prepared. It contains 2 1/2 ounces—a 25c value. Its price, while the limited supply lasts, is only 10c. You can use Vicks Antiseptic in your customary way, for bad breath; as a gargle, mouth-wash, or antiseptic lotion; and for all the other customary antiseptic uses. Born in a depression year, Vicks Antiseptic is priced accordingly. The regular size, large 10-ounce bottle—a usual 75c value—is only 35c. Advt.

had been made previously at the hearing. Edward L. Schoenberg of Boston said, "with present conditions we have reached the parting of the ways and can no longer stand corruption, extravagance and waste." He asked, "I wonder why the police investigation of the public welfare expenditures was stopped just when it was beginning to get somewhere? It was stopped when graft and gross favoritism had been shown."

ASSEMBLY'S INACTION TARGET FOR ATTACK

(Continued From Page One) the same time the House committee on constitutional amendments held public hearings on three proposed amendments which would change the system of representation in the House. It had before it also a proposed amendment requiring a two-thirds vote of both Houses rather than a simple majority to override the governor's veto. The veto amendment was recommended by Governor Cross in his two inaugural messages.

IN THE SENATE Hartford, Feb. 10.—(AP)—A bill authorizing Bridgeport to issue \$800,000 in welfare bonds to finance its relief program was passed unanimously today by the Senate. Under suspension of the rules it was immediately transmitted to the House.

Speedy action on the measure was urged by Senator Cooney, chairman of the finance committee. "It is absolutely necessary for Bridgeport to get the money and to get it soon," the Hartford senator said.

IN THE HOUSE Hartford, Feb. 10.—(AP)—Repetition of what he termed the "incompetent leadership of both parties" by Representative Oscar Dannenberg (D., of Bridgeport). Dannenberg, rising to a point of special privilege, questioned the need of the members of the House to "submerge themselves to the ambitions of a few selfish Legislators."

POST OFFICE JOBS AVAILABLE IN STATE

Highest Salaries, \$7,000, Paid in Hartford and New Haven—List of Offices.

Washington, Feb. 10.—(AP)—Two Connecticut Democrats will get 77,000 positions as postmasters within the next two years—but they must live in Hartford and New Haven.

The posts carry the highest salaries of the 166 first, second and third class postmasterships which will become vacant in the state during the Roosevelt administration.

The term of the present Hartford postmaster does not expire until December 8, 1934, while that of the New Haven incumbent runs until July 1, 1934. The postmaster in Bridgeport, which pays \$6,000 a year, will not become available to a Democrat until April 27, 1936.

These expirations dates however, are conditional on the present postmaster serving his full term.

Other Postmasterships

Here are the other first class postmasterships, their salaries, and the dates on which the present terms expire:

- Ansonia, \$3,300, Dec. 16, 1933.
- Eristol, \$3,600, Dec. 8, 1932 (acting postmaster now serving).
- Danbury, \$3,700, Jan. 9, 1934.
- Danielson, \$3,200, Feb. 21, 1935.
- Derby, \$3,300, Jan. 18, 1933 (acting postmaster serving).
- Fairfield, \$3,200, Dec. 16, 1933.
- Greenwich, \$5,000, Jan. 8, 1934.
- Meriden, \$4,000, Jan. 25, 1936.
- Middletown, \$3,700, Feb. 4, 1935.
- Milford, \$3,400, Dec. 16, 1933.
- Naugatuck, \$3,500, Jan. 9, 1936.
- New Britain, \$4,200, March 10, 1936.
- New London, \$3,800, Feb. 25, 1933.
- Norwalk, \$3,500, April 12, 1936.
- Norwich, \$3,700, Jan. 9, 1936.
- South Manchester, \$3,300, Jan. 9, 1936.
- South Norwalk, \$3,700, Dec. 18, 1934 (acting postmaster serving).
- Stamford, \$4,200, Jan. 9, 1934.
- Torrington, \$3,600, Feb. 10, 1936.
- Wallington, \$3,500, Jan. 13, 1935.
- Waterbury, \$6,000, Jan. 15, 1933 (acting postmaster serving).
- Westport, \$3,400, Dec. 12, 1932 (acting postmaster serving).
- Willimantic, \$3,500, Jan. 28, 1934.
- Winsted, \$3,200, Jan. 22, 1935.

Among the second class postmasterships are the following:

- Darien, \$3,700, Dec. 19, 1931 (acting postmaster serving).
- Manchester, \$2,700, Jan. 9, 1936.
- Plainville, \$3,000, Feb. 25, 1934.
- Shelton, \$2,800, Jan. 22, 1935.

COLUMBIA

Mrs. Emily Little celebrated her 91st birthday Monday in quiet way in Willimantic where she is spending the winter. Her daughters, Mrs. Grace Tucker and Mrs. Cora Hutchins of Columbia, and her granddaughters, Mrs. Margaret Woodward of Columbia and Mrs. Rachel Stanley of Andover, with her little great granddaughter Jean Stanley, spent the afternoon with her, taking with them a decorated birthday cake and other refreshments.

Mrs. Little had carnations and other flowers and many birthday cards from her friends. She has been a life long resident of Columbia, and spends her summers here at her home on the Green and her winters in Willimantic at the home of Mrs. Moran on West Main street. She is Columbia's second oldest resident, Mrs. Lucy Clark being her senior by a few years.

Mrs. Percy Carver entertained at a Valentine party Wednesday afternoon, a number of her friends, four tables of hearts being played.

The cold snap of the week-end froze the surface of the lake raising the hopes of anglers and those wanting to harvest ice, but the rain of Tuesday night and the temperature of around 50 degrees Wednesday morning again ruined their hopes.

Perfect attendance for January in the Chestnut Hill school was as follows: Celia Berkowitz, Liza Tashlik, Rachel Tashlik, Helen Zushitski, Myron Berkowitz, Irving Tenenbaum, Arthur Zenowitz.

Mrs. Percy Carver left Thursday to spend a few days with friends in Manchester.

Clyton E. Hunt, Jr., returned with his studies at the Worcester Polytechnic Institute Wednesday night after spending the mid-year vacation at his home here.

Miss Katherine Ink spent Tuesday in Hartford.

The Board of Relief consisting of W. C. Robinson, Alvin Greene and Charles Palmer met at the hall Wednesday. The grand list as turned over to them by the assessors is \$1,080,854, an increase of over \$100,000 over last year. This is due to the revaluation of the lake property in order to pay for the lake which the town purchased last spring. Horses and cattle show a slight decrease from last year, and sheep a small increase. Even with the increased valuation it is probable that the tax rate will have to be somewhat higher this year than last, in order to meet the payments on the lake when due.

The regular meeting of Columbia Grange was held Wednesday evening. The master, Donald Woodward and Mrs. Woodward reported on the sessions of the state Grange to which they went as delegates.

PISCATORIAL CULTURE

NOV INTERESTS SOCIETY

Balanced Aquariums In Which Water Need Never Be Changed Are the Latest Innovations.

Chicago, Feb. 10.—(AP)—Piscatorial culture was found today by inventing not only numerous homes but many business offices.

The balanced aquarium, populated with gaily colored, fantastically shaped midge tropical fish from the fresh waters of Africa, Asia, Central and South America, is quite the latest thing.

And the setting up of the aquariums, in which the exotic plant and fish life balance and the water need never be changed, is an industry that has only recently got into the swim in a big way, so to speak.

One large Chicago department store has turned part of its art galleries into a piscatorial section, and there it was learned that these water gardens are becoming to the modern home what the goldfish bowl was to the American parlor when "ma was a gal."

Furthermore a number are being installed in business offices as men are reported to be leading women in interest in them.

Also they are something different for interior decorators to work with. In addition to a variety of new stands, there are built-in aquariums for permanent installation in the wall or in interior windows between two rooms.

The principle of the balanced aquarium is that the water plants absorb carbon dioxide and give off oxygen. The gill-breathing fish take up the oxygen in the water and give off carbon dioxide. The fish excreta serves as a plant fertilizer. Scavengers, including snails, consume decayed vegetable matter.

Consider Gandhi. It is not always necessary to have the clothes to teach a lasting lesson.

LONG LEGAL SUIT IS FINALLY ENDED

Suit Over Half Million Estate Has Been In Courts Since June 1923.

Bridgeport, Feb. 10.—(AP)—The long litigation of Mrs. Audrey Palmer of Stamford against the Misses Virginia and Theodora Palmer of New London, covering approximately half a million dollars of the estate of Charles T. Palmer, her husband, came to an end today when Judge John Richards, Both of the Superior Court, signed a cross complaint of the Misses Palmer, which denies all the allegations in the suit against them and also enjoins the Stamford widow from bringing any more suits.

Attorney Charles Hadell Hull of New London, representing the interests of the Misses Virginia and Theodora Palmer, appeared before Judge Richards and presented the cross-complaint to the suite of Mrs. Audrey Palmer, which have been in the courts of New London county since June, 1923.

The cross-complaint sets forth that Mrs. Audrey Palmer was not proceeding in her suits in good faith, and were maintained by her to annoy the two defendants.

Mrs. Audrey Palmer was married to Charles T. Palmer of New London in New York City, April 25, 1918. Mr. Palmer died in San Francisco in July, 1922. He died intestate, leaving an estate worth nearly \$800,000. The widow received \$389,000 and like sum went to his mother, Mrs. Louis Palmer of New London.

The mother died in April, 1925, leaving her estate to her two daughters.

It was the claim of Mrs. Audrey Palmer that her husband made an agreement with her that if she would live in California with him, he would leave her his entire estate.

Queer Twists In Day's News

Seattle—Max Oshinsky thinks his wife's "help and companionship" for a period of 16 days is worth \$800.

Injured while boarding a cable car and incapacitated for household duties for the length of time, Mrs. Oshinsky and her husband filed a joint claim against the city.

Chicago—The present cold snap is just a heat wave as far as certain persons are concerned.

The certain persons are veterans of the A. E. F. of Siberia, who gathered for their annual reunion.

"It's practically torrid" compared with Siberian winters" said W. C. Fandre, chairman.

Mexico City—The foreign office announced 1,276 Spaniards, Germans, Poles and other foreign citizens obtained naturalization and full Mexican citizenship papers, last year.

Beaver, Pa.—Technically an oyster is not a fish, but selling oysters constitutes "engaging in the fish business," Judge William A. McConnell held in an opinion yesterday.

Miami Beach, Fla.—George Ade was late at his own birthday party Thursday.

More than a score of friends visited Mrs. Ade at her home at 9:30 a. m. Everybody except Ade was there—except the humorist.

At 10 o'clock, a door slammed. Ade, 67 years old, walked in spoiling the fun.

"The sun always wakes me up," he explained, "and this morning there wasn't any sun so I had no way of waking."

Chicago—A Saxophone stood indicted today as the big discord in the late marital life of the Debits.

Of her husband, Herman, a musician, Mrs. Edith Bell Debits testified: "He said he loved his saxophone more than me."

Judge Joseph Sabath granted a divorce.

Evanston, Ill.—The thermometer stood around 20 below when a man giving the name of Jack Frost, applied for admission to the police station for a little heat.

Cleveland—A tough break for "Highway Romeos."

The City Council safety committee approved a traffic regulation providing: "No operator of a motor vehicle shall have either arm around another person while the vehicle is in motion; nor shall another person have either arm around the operator."

This it went a step farther and approved a regulation making it illegal for any person, "adult or minor," to sit on the lap of any automobile driver while the vehicle is in motion.

Havana—The Cuban government may be in dire financial straits.

The Department of Agriculture has set aside \$6,000 to aid Emilio Mamate in buying gay-colored fish for his restaurant, "The Bull-Head."

Chicago—Mrs. Rodney F. Allen was to have received a separate maintenance decree from her husband whom she charged with cruelty, but her attorney appeared in court and said:

"My client doesn't want the decree. Her husband came over to her house and shoveled all the snow off her walks. She invited him in to warm himself and they patched things up."

Oklahoma City—It was her nose that was broken. So a woman, who crashed her car into a telephone pole, refused to give her name, police reported.

Kansas City—Robert Hayes discovered Fire Station 23 ablaze when he went upstairs to take a nap. He called his mates, who called three other companies to help them. The fire was extinguished after 45 minutes.

New Philadelphia, O.—The unhusked corn in a field near here was the alimony Mrs. Amy Smith received when Judge E. E. Lindsay granted her a divorce from Loren Smith.

LIFE OF NATION AT CROSS ROADS

Master Of Grangers Tells Delegates Taking The Wrong Road Means Ruin.

Geneva, N. Y., Feb. 10.—(AP)—An extensive lecturer's program, led by National Lecturer James Farmer of South Newbury, N. H., and an address by Louis J. Taber, master of the National Grange, were scheduled as features of today's session of the 60th annual meeting here of the New York State Grange.

Not only the farmer but National life is at the cross roads, with chaos awaiting a wrong choice of roads, Mr. Taber said in his message to the delegates.

"The action we take in the months and years just ahead will determine the future well-being of our nation," he said. "We must find a solution to low prices, high taxes, farm foreclosures and crippling debt burdens, or chaos awaits us. In finding this solution we must keep on the pathway of genuine Americanism."

Mr. Taber warned against attempting to find a solution for the economic situation by following the line of least resistance, attempting unproven programs or imitating experiments being tried elsewhere in the world.

"We must lift commodity prices," said the National master. "We must reduce interest charges, stop farm foreclosures and provide an ample reservoir of credit to give stability to home values and give to the men and women of rural America a fighting chance to hold their farms and homes. These things must be done to avoid the most serious consequences in our national history."

The delegates today had before them for consideration and debate more than 150 resolutions favoring reduction to taxes and cuts to farmers and opposing repeal of the 18th Amendment or a change in the Volstead Act.

The Clinton basketball team will play a double-header on next Saturday evening, February 11, in the South Windsor hall. In the first game they will play the South Windsor girls' team and in the second one, they will meet the All-Burmeses.

MONTGOMERY WARD & Co.

824-828 MAIN STREET SOUTH MANCHESTER

Manchester Evening Herald PUBLISHED BY THE HERALD PRINTING COMPANY, INC. 18 BROAD STREET, South Manchester, Conn. THOMAS FERGUSON General Manager

FRIDAY, FEBRUARY 10, 1933 HEARD ROUND THE WORLD The sudden termination of the career of the Dutch battle De Zeven Provinciën, whose rebellious crew surrendered after the dropping of a single airplane bomb on her deck, makes a dramatic story. As such it would probably be forgotten in a week—just as a story. But it will probably be a long time before the tale of that briefest of naval combats ceases to be a subject of controversy.

The case of the Provincien will be sure to pop up again and again in every country where the question of spending vast sums of money for warships arises, as forever it is arising.

For years the Big Navy crowd in the United States have been resolutely ignoring the development of air bombing in its every relation to the continuance of building and maintaining major ships. They insist that anyone who opposes the expenditure of twenty or thirty millions on a surface ship is, beyond any question, opposing the principle of national defense and they continue persistently with the arithmetical computations of "relative strengths" of naval powers from premises of tonnage and gunpowder exactly as though anybody had ever made any more of a success of flying than Darius Green.

When Billy Mitchell tried to tell the country that in another war the great battleships and cruisers would be nothing but helpless targets for air bombers the Big Navy crowd had pulled enough to take off his shoulder straps and silence him as summarily as though he were a Private Mulvaney caught stealing the captain's dog.

This is the first time that the air bomber has had an opportunity to demonstrate against a surface warship under conditions in the least approaching those of actual war. A bomb of relatively low potentiality produced devastating results. That one explosion has furnished sufficient material to blast into oblivion every argument that the Big-Navy crowd can conjure up for the wasting of the nation's money on a type of defense as obsolete as Noah's ark. That, indeed, was a "shot heard round the world."

GOOBERS IN COURT In the arguments made to the Judiciary Committee of the General Assembly against the reappointment of Judge William C. Duff of the Borough Court of Unionville, we regard as material, irrelevant and not germane to the case the one that Judge Duff eats peanuts while presiding. With the accusation that Judge Duff sits on a park bench on occasion—frequent occasion—and slyly winks at the borough constables and points with his shoulder at this, that or the other motorist who looks like good meat for the judicial table of Unionville we shall have no dealings. Maybe the good squirrel carries this sort of thing too far—we know nothing about it. But we are intrigued by the peanuts.

There is something Lincolnian about eating peanuts while considering the evidence and pondering the law in Unionville traffic cases and non-support actions. Not, odd enough, that Lincoln ever attained to the dignity of the bench; nor, so far as we know, that he ever ate peanuts. But if he had been a judge and if he had happened to like peanuts and wanted to eat them during a trial—and could get them—we are profoundly convinced that he would have done so. Also that if he had felt so disposed he would have chewed and swallowed the shells.

We have had on the bench of the honorable Superior Court of the state of Connecticut more than one severe jurist who ate tobacco in court—not outrageously, even a bit irrepressibly perhaps, but who,

nevertheless did champ the weed. And there is no record of any such ever losing his job for it.

Who can say that the rustiest qualities of the peanut are not exactly fitted to that mental concentration required of a Judge of the Borough Court of Unionville? It would be a temeritous soul indeed who dared declare, off-hand, that no historic legal precedent was ever established in America, or in New England, by some wise old rural Daniel who, as he weighed the facts and the law, whittled a pine stick into nothingness. And we demand to know if a peanut is not as innocent as or makes any more litter than a pine shaving.

Let the Judiciary Committee do what it will with all the other allegations brought against Judge Duff; but in the name of all that is Connecticutese and New Englandish and beautifully traditional, we say, Leave the peanuts out of it!

FLOWER AND SEED

George Creel, whether you like him or not, is probably the most effective propagandist reporter in America. He knows exactly how long a reader's attention can be kept fastened to the subject at hand and he tells the story, vividly, within that limit of words. A great many articles and several books have been written about the operations of Tammany Hall. It is doubtful if any of them ever contained so much of sudden illumination as "The Tammany Take," quite brief, written by Mr. Creel for this week's Collier's.

Mr. Creel's story has nothing to do with Tammany's alleged stand-in with crime and vice. It doesn't touch that angle at all. It has to do with the great New York machine's relationship with business which—except as they are forced to cooperate as payers in the profession of bribery—are legitimate. It tells how much Judge Olvanev made and how he made it. And others. It lets in the light on the lengths of the Tammany reach after the "take" and makes it easy to understand how few there are who can avoid the clutching hand.

And yet, we wonder. This part of the article for example: Take what happens when the city decides to acquire land for a school site, for park purposes, for subways. The tip is passed out to the "right people" who jump in, buy the property and straightaway have its assessed value jumped up five hundred per cent, a thousand per cent, sometimes four thousand per cent. In cases where the land is bought by direct purchase there is then much jubilation over the fact that the city has managed to get it at the assessed valuation.

One speculates as to whether that scheme was born of Tammany ingenuity—or whether the trick was brought into the city by some youth with the mud of an upstate farm or a New England village on his shoes. It seems to have a reminiscent sound. We may have heard of something like it before—and not from Manhattan nor yet from its environs.

Did the rural selectman who gave Farmer Jones' two teams twice as much road work as any other farmer's two teams, after having traded a runty shoat for Jones' fat one, belong to an entirely different genus from the Tammany vendor of pier leases, or merely to an earlier and undeveloped species?

Assuredly, as Creel shows it up, Tammany is a marvellously organized machine for the getting of crooked money. What bothers us, however, is the failure of Mr. Creel or anyone else who has written about Tammany to show that it has ever originated a single principle of graft. You find on Manhattan the perfect flower and fruit of venal politics. But no reporter, however capable, has ever related the finding there of its original seed.

BEDTIME STORY

Once upon a time in the land of Gladderaggia there were a number of persons with extremely high brows upon which were always set extremely high hats and all of a sudden they took note of the children of Gladderaggia and they said: "These poor children are not getting the right kind of food." So they went, wearing their high hats, to the ruler of the country and they said: "These poor children are being fed much too plain food. Let us prescribe for them and lay a tax." So the ruler, with his eyes on the high hats and being much impressed, said the tax and made a proclamation: "The High Hats will hereafter have the say as to what the children shall eat."

Then the High Hats had some very ornate tables built and they spread for the children a feast. They provided ten cents worth of plain food and a million dollars worth of cream-puffs and charlotterusse and nut-sundees and pinks lemonade. And when any child was filled with these things that he

could swallow no more they kindly took him aside and loaded him, like a gun, with some more and returned it home with a ramrod labeled "special training."

"And quicker than you could say 'Jack Robinson' the tax was all gone and the High Hats went back to the ruler and said: "You must lay a bigger and better tax." And the shadow of the High Hats blinded the eyes of the ruler and he laid another and fatter tax.

Then the people of Gladderaggia began to murmur. They did not so much mind having their children taken from them and bossed by the High Hats for they had a Car and Places to Go and a Contract to attend to. But their jobs were blowing up and the taxes hit them like a wolf. So they said: "Why so many cream-puffs, why not, now and then a cheap bun or a bean that the kids can bite?"

Whereupon the High Hats scoffed. Because you had Plain Food yourselves in your youth would you condemn your children to live on something less excellent than charlotterusse and nut-sundees? Shame!"

CONFLICT OF FACTS

It is rather odd to find President Hoover employing as a basis for the advocacy of increased emergency tariffs to meet foreign currency depreciation a report by Secretary of Commerce Chapin, when Secretary Chapin has so resolutely maintained that American business is not, contrary to a carefully cultivated belief, suffering from any "flood" of imports. Mr. Hoover, so it is reported, points out that while it may be true that the foreign imports "have not increased" in the total of their money value they have increased in quantity. This does not quite meet the commerce secretary's contention of a week or two ago, because he declared at that time not merely that there had been no increase in imports but that there had been a heavy falling off. This is a different matter, even if the President does choose to ignore it.

It is probable that any proposal to set up emergency tariffs against currency-depreciated countries would receive more support if it were not for the fact that a great many people are conscious that there is a deal of untruthful propaganda being disseminated by the "Buy America" sensationalists. It would seem as though we ought to be able to accept the statements of the secretary of commerce on this subject. If we can't, because the President himself is inclined to discredit them, whom are we to believe? And how are we to know what ought to be done?

IN NEW YORK

Dope On the Dopesters

New York, Feb. 10.—So hiddenly cancerous are the methods of a great city's dope traffickers that I have always felt the presence of a fictional touch, or a grain of exaggeration. Yet the facts, when they appear, make pallid intrigue of the most lurid tale. It is with the shock of water shower that one finds a newspaper paragraph telling of a peddler arrested for selling narcotics to school children.

The problem of distribution is, of course, one of the most difficult for players of this furtive, back-stair trade. There were, of course, those more gilded gentlemen in evening frocks who used to be pointed out in certain swanky night spots. "Don't you know" So-and-so, the big drug peddler? He comes here to meet certain stage folk and society women. He slips them a package while he dances with them. Or he arranges with a wardrobe woman. He gets it to them somehow. I would look at all the persons mentioned in utter amazement. The whole thing would sound like a bad dream.

But I learned just the other day of one of the newest dealers who "gives the tip." From time to time certain shady publications make their appearance on the news stands. They print incredible items and disgustingly crude cartoons. Some of these, to be sure, are just panders to cheaper tastes. But then the "tip-off" comes to watch for a certain new one. This will carry certain cleverly worded advertisements. Only the initiate would "get the point"—but the drug victims are informed, almost by code, where they can get some of the latest supply.

being bustled, we might as well be there as here—far better, in fact.

The one-time you-beer-of-them, there-are-pictures-in-the-society-sector-of-society, "play somewhere around Miami Beach, Palm Beach or way points. Which, of course, brings out, and commensurate: "That's the way I've wanted to be broke all my life."

Royal Gigolos

The dance hall competition, of which I penned some paragraphs a few columns back, has suddenly created for the gigolotti a paraphrase of the affluence which is so accustomed to observing in the romantic, if highly seasonal, movies. Thus, for the price of admission, Sadie Guitaburger, from Flatbush, can hop about with a fitted gentleman from here-there-and-there-an-else advertisement, hopping out of a morning newspaper, carries the appeal to "Dance with Baron Giorgio Suriani, of Italy... the royal pet of society."

I have not taken the trouble to check up on the sub-titles. But it isn't incredible. Many of Europe's ex-royalty, and some that haven't been royalty at all, have been taken up in a large social way. But even these must live.

BEHIND THE SCENES IN Washington

ECONOMY AX DULL WHEN IT STRIKES THE MILITARY

Congress as Sittish About National Defense as on Millions to Veterans, Through the Two Make Up the Cost of Uncle Sam's Expenses

By RODNEY DUTCHER NEA Service Writer

Washington—Cutting down military expenses seems to be just as difficult as slashing into the nearly a billion dollars a year that is spent on the veterans.

Congress won't do it. All students of the economy problem point out that extensive economy can't be achieved without cutting the veterans and the army and navy; that nearly 75 per cent of federal expenditures go to pay the cost of past wars and of preparedness. But Congress insists that there be no reduction in the items contributed for national defense.

Congressman Ross Collins of Mississippi, chairman of the House Military Affairs Committee and also chairman of the Appropriations Subcommittee on War Department Expenditures, tries to take a little hack at military expenditures every now and then. Last year he and his committee colleagues decided to save a few million dollars by lopping off about 2900 army officers on the theory that they were unnecessary and that the total number of officers was all out of proportion with the number of enlisted men. But the military lobby got busy in a big way and killed that plan.

This year Collins and the Appropriations Committee, still trying to save a little money, proposed abolition next summer of the Citizens' Military Training Camps, which cost \$2,500,000 last year to train 37,500 young men for a month and for which the president's budget of any rate, I gather from a reading of "Land of Checkerboard Families" by Arthur J. Burke. Formerly a marine lieutenant, Burke here tells what happened to him during a tour of duty in the Dominican republic shortly after the war, and to say that his life there was adventurous is to put it very mildly.

There was, to begin with, a detail which Lieutenant Burke led on a map-making assignment through the Dominican jungle. There was a desert where they got lost and howling savages who were wallowing; there was a steaming night when they took refuge in a deserted hut and learned, next morning, that it was a leper's home; there was the time they crossed quicksand and fought crocodiles. There was, too, a baby burro which they taught to sleep in a hammock, and eat beans out of a mess tin.

It was when Lieutenant Burke got assigned to intelligence work, though, that he really began to have adventures. He was trapped in a squallid resort by a bunch of howling savages who were about to skin him alive when he saved himself by a bit of leg work and a great deal of luck. He was lured off into the jungle at night and escaped falling into a hawk-breaking trap by his inches. He had, in short, enough thrills and hair-raising experiences to last any man a lifetime, and his lack in an extraordinary amount of them which all arctic adventures ought to go for, severely.

A BOOK A DAY BY BRUCE CATTON Ex-Officer Tells of Adventures in Dominican

HEALTH-DIET ADVICE BY DR. FRANK MCCOY Questions in regard to Health and Diet will be Answered by Dr. McCoy who can be addressed in care of this Paper.

OF WHAT ARE WE MADE? Chemistry has made some wonderful advances within recent years. When you study modern books of physiology, you will find tables giving the composition of the human body. Most of them state that the body consists of from sixteen to eighteen elements. Usually these are listed as: oxygen, carbon, hydrogen, nitrogen, calcium, phosphorus, potassium, silicon, sulfur, sodium, chlorine, magnesium, iron, fluorine, manganese, iodine and possibly aluminum, arsenic and copper. The uses of most of these elements in the body are pretty well known as I told about in my recent article on "Food Minerals."

QUESTIONS AND ANSWERS (Gradually Going Blind) Question: Mr. Harold C. writes: "Please tell me what I should do. My eyes are not sore and I have no cataracts, but I am gradually going blind. I am unable to get glasses to fit. How can I check this trouble?" Answer: It would be difficult for me to tell what is causing your blindness without being able to examine you. However, eye conditions are very often caused by a quantity of mineral trouble which, of course, that there is a toxic condition in the body which can often be located as coming from the lower bowel. If the eyes are weak to start with, and this poison is present, it will naturally attack the eyes. I might naturally attack the eyes. I might naturally attack the eyes. I might naturally attack the eyes.

After reading over this article I do not wish you to make the mistake of thinking that the body is composed of separate chemical elements. Chemists in the past have sometimes made this error. The truth is that the body is composed of delicately balanced organic compounds, which we know as vitamins in their natural condition, without too much refining and processing, the chances are that we will receive all of these organized minerals that we require; if some of these same elements, if supplied in a concentrated form, might act as poisons rather than as foods.

OLD R. C. CHURCH WRECKED BY FIRE South Boston Edifice Swept By Flames—Damage Is Estimated At \$150,000.

Boston, Feb. 10.—(AP)—Fire early today swept the interior of St. Eulalia's Roman Catholic church at City Point, South Boston, with loss estimated by the pastor, the Rev. Patrick J. Waters, at close to \$150,000.

The church, one of the oldest in the city, was rebuilt in 1917 after a disastrous fire almost 16 years ago to the day.

The flames had made considerable progress when discovered today by a passing policeman. Father Waters and two assistants, who were roused in the nearby rectory with the sounding of the first alarm, attempted vainly to rescue the sacred vessels on the main altar.

At the height of the blaze the roof over the nave collapsed and the heavy walls and the cross-crowned cupola over the entrance remained standing.

A heavy wind and bitter cold handicapped firemen summoned by four alarms. At one time it appeared as if the blaze would spread to the Nazareth parochial school adjacent to the rear of the blazing edifice, but a shift of the wind saved that building which was being protected by a water curtain from nine hose lines.

Later the flames shot across the street from the front of the church, forcing several families to quit a three-story wooden tenement house in haste.

Every stained glass window in the church was blown out by hot air explosions and the three altars were ruined by the heat.

CRYSTELLE VELVET INAUGURAL GOWN

Mrs. Roosevelt Announces Costume She Will Wear On March 4.

New York, Feb. 10.—(AP)—In a gown of crystelle velvet, in a grayish blue shade that has been named "Eleanor Blue" after her, Mrs. Franklin D. Roosevelt will attend the inauguration of her husband as President of the United States on March 4.

Mrs. Roosevelt said today she had ordered her inauguration costume and several other gowns to be made by a New York store.

"I did it all in half a day," she said, "and I think I have enough to last me for most of the next year."

The inauguration gown is to be made with long sleeves and a collar high in the back.

Other Gowns Her daughter, Mrs. Curtis Dall, will wear to the inaugural ball a gown of the same material, Mrs. Roosevelt said.

"Only she will wear a colored scarf with hers," she added.

U. S. FLEET TO STAY ON PACIFIC COAST

Admiral Pratt Announces Warships Will Remain There Until July 1, 1934.

Washington, Feb. 10.—(AP)—The Atlantic fleet probably will remain on the west coast until July 1, 1934.

This was announced today by Admiral William V. Pratt, chief of naval operations, who said it was made necessary "in the interests of economy."

Pratt said the Navy's budget for the next fiscal year had been cut so that it was inadvisable to make the additional expenditures necessary to return the fleet to the Atlantic.

This would cost \$400,000 above the amount required to keep it in the Pacific, he said.

The Atlantic fleet has been on the west coast since last March and under orders already in effect was to remain until April 1.

The Navy previously had said it was kept there both in the interests of economy and to permit the Atlantic and Pacific fleets to train together.

LITHUANIAN CLUBHOUSE SERVES MANY JOBLESS

The clubhouse erected two years ago by the combined Lithuanian organizations is being put to use as an assembly place for members who are not regularly employed.

Part of the basement has been fitted with pool and card tables. The place is heated and during the cold weather has served as a gathering place for many members.

A separate entrance to the clubhouse is used when the main hall is in use for other purposes. Newspapers printed in English and Lithuanian are supplied.

The opening of the paper mills in the north end section has resulted in a number returning to work, but today, when some of the mills were not in operation, there was a good many men at the clubhouse.

COLD IN NEW HAVEN New Haven, Feb. 10.—(AP)—The mercury shrank a little more early this morning than yesterday as the weather bureau reported an official reading of the thermometer at seven a. m., as 10 above or two below that of yesterday.

The lowest for this date was five below in 1899. Fair weather today and a little rise in temperature was forecast.

SWEDISH NEWSPAPER RAPs ADOLF HITLER

Berlin, Feb. 10.—(AP)—Hermann Goering, National Socialist minister without portfolio in the Hitler Cabinet, has telegraphed the Gothenburg, Sweden, newspaper Handels-Och-Sjoefartstidning, protesting against an article calling Chancellor Adolf Hitler "an insult to Germany."

"Before further steps are taken I ask you to inform me whether your management will take steps against similar observations. As an honest friend of the Swedish people, I see in the dirty remarks about the friendly relations of both nations," Goering said in his protest message.

The newspaper addressed by Goering is one of three prominent papers in Gothenburg. In politics it is described as Liberal, with Conservative tendencies.

The German minister at Stockholm, Dr. Frederic Jans von Rosenberg, has unofficially complained to the foreign office of Sweden against the attitude toward Hitler as expressed in Stockholm newspapers also.

WARD'S EXECUTIVES IN BIG CONFERENCE

Buyers and District Heads Gather At Albany To Confer On Orders.

Several million dollars in commitment orders for merchandise are being placed today at the Montgomery Ward & Co. stores in the east.

More than 200 buyers, regional and district heads, district supervisors, store managers and department chiefs from throughout the East are attending the spring merchandising conference of the organization in Albany.

A note of high optimism is struck by most of the managers in the planning of their orders.

"I am very optimistic over the outlook for spring trade," said P. C. Baker, regional manager who is in charge of the conference.

The conference comes from several of the eight states comprising the Montgomery Ward eastern division. The big party, fourth in a series in the East, began yesterday and will continue through Wednesday night.

The various branches participate in executive side-conferences. They were welcomed to the Albany plant by J. J. Denn, manager.

ENGAGE IN LEAGUE TUSSELL WITH EAST HARTFORD QUINTET

Visitors Rule As Favorites To Beat Red and White At Armory; Locals May Show Reversed Form.

GAMES TONIGHT
 Bristol at West Hartford, Middletown at Meriden, East Hartford at Manchester.
 Beaten decisively twice in three games away from home, Manchester High's basketball quintet returns to the State Armory tonight to meet East Hartford High, one of its foremost rivals, in a Central Connecticut Intercollegiate League encounter. In view of the McGrathmen's 28-18 victory over the Red and White recently and their showing in the past two weeks, East Hartford rules as favorite.

Have Good Record
 Wednesday night, East Hartford trounced Bulkeley of Hartford, 37-22, and last week lost a close decision to Hartford High, which defeated Manchester, 41-27, Wednesday afternoon. The East Siders also gave Bristol its hardest battle of the season before losing by a few points. A decisive trouncing by Middletown High is all that mars this record, but the fact that the latter game was played on the day following the battle with H. P. H. S. may have been responsible for the defeat.

Bristol High Seemed Headed for Its Eighteenth Consecutive Triumph Against West Hartford, the Weakest Team in the League. The most interesting game tonight brings Middletown to Meriden in a tussle that should decide the eventual winner of runner-up honors. Manchester has nothing to win or lose in tonight's game, although a victory would create a deadlock with their opponents for third or fourth place, depending on the outcome of the Middletown-Meriden tilt.
 Middletown has attracted wide attention lately with impressive decisions over East Hartford and Lyman Hall of the southern part of Maine. In the latter case, Middletown won by a margin of 23 points, a record for the school.
 The visitors lineup consists of Peterson and Berman forwards; Ballard, center; and Chouin, Hitt, guards. Manchester will have Sendrowski and Johnson, forwards; Johnston, center; and Salmons and Neill, guards. The second teams will play a preliminary at 7:30 o'clock with the main attraction at 8:30 o'clock, following by dancing.

BRISTOL HAS ONLY ONE STRONG RIVAL FOR STATE HONORS

Title Seems To Be Between Hillhouse High and Bell City Fives; Other New England Standings.

Intersectional state contests of major importance and a number of smaller engagements in New England high school basketball circles this past week with the exception of the New Hampshire situation occasioned only few upsets but several of the leading teams added staunch reinforcements to their positions.

Spaulding, Springfield, Rutland, and Burlington continue to lead the pack of Vermont schoolboy contending quintets. Spaulding High of Barre, leaders of northern Vermont, appear the class of the present Vermont state contenders.

Chaotic Situation
 With the defeat of the unbeaten Keene five by an acknowledged much inferior quintet from St. Joseph's High of Manchester and the upset of Manchester West by Laconia High, the New Hampshire outlook has been thrown into a chaotic situation. Portsmouth High appears to be the only school with a 29 to 23 decision over La Salle in western Massachusetts, from Westfield High, with 15 straight wins. St. Mary's of Westfield, defeated only by Holyoke, or Holyoke, which has lost one game since to both St. Mary's and Westfield, will come the Western champ.

Bristol on Top
 In its second loss of the year, Lyman Hall was soundly trounced by Middletown High and by virtue of this setback has fallen considerably in the Connecticut standing. With Bristol High, the only undefeated high school team in the Western State, and Hillhouse High of New Haven still maintaining their standing of the week before, the Connecticut title appears to be between these two outstanding fives.

East Providence High came back into the limelight and established itself once again as a contender for state honors when the Townies won a 28 to 23 decision over La Salle at Providence. The Rhode Island outlook is still in a middle condition with La Salle, De La Salle, Rogers, East Providence and Pawtucket, leaders of the numerous leagues, as the outstanding fives.

Dark Horse in Maine
 In Maine, two dark horses have appeared on the horizon to threaten the apparent champion, the Lyman Hall team of Bangor. Cheverus after a belated season, has won five straight games to date and will dispute South Portland's claim to the supremacy in the southern part of Maine. In the north, a next door neighbor of Winslow's, Waterville High, has succeeded in downing what was thought to be superior opposition to climb onto the top and challenge the right of Winslow and Presque Isle to the championship of northern Maine.

M. H. S. FROSH DEFEAT NORTH ENDS BY 34-23

Manchester High's freshman basketballers continued their winning ways last night by defeating the North Ends at the local Y. M. C. A. by a score of 34 to 23, their sixth victory in nine starts this season. The freshmen were never in danger of being headed, running up a 10-4 margin in the first period, 18-8 at halftime, and 22-13 at the end of the third quarter.

Opalach starred for the winners and Comber was best for the losers.

HOPPE ENTERTAINS 200 WITH BILLIARD ABILITY

Pairs With Partner To Give Interesting Exhibition At Temple; Defeats Local Man At Balkline, Then Anderson At Three-Cushion.

Wille Hoppe and his seemingly educated billiard balls entertained a gathering of about 200 persons at the Masonic Temple for an hour last night. It marked the first appearance of the former world's champion in Manchester. Hoppe is well below his championship peak but he gave the greatest billiard exhibition ever seen here.

The superb position play and mastery of the masses and kiss shots were a real thrill to watch. Many of his shots were played left-handed and he seemed equally skillful stroking with either hand. The follow-through of the stroke was a subject of interesting study for many. Some compared it to the follow-through in other sports, such as golf, tennis and baseball. Hoppe displayed his skill both in 18.2 billiards and in three cushion carom play. When world's champion with Anderson handling the cue. His skill was also highly entertaining. On one occasion he placed six balls in a combination cluster near the spot and then in one stroke pocketed all six in different pockets. A bit of comedy was injected when Anderson illustrated so-called Chinese pool through the use of two cue sticks.

After the conclusion of the match which lasted half an hour, Hoppe played a three-cushion billiards against Clarence Anderson, a partner of his who played a 25 cue ball. Many of his plays during this run required much skill. His ability to nurse the balls into almost any location he desired was highly entertaining. Time and again he executed shots where in a ball would travel the length of a table only to come back within a fraction of an inch of its running mate.

After a Break Anderson
 Hoppe ran out in ten innings for an average of 25 runs. His runs were as follows: 1, 1, 19, 28, 78, 1, 29, 9, 1 and an unfinished 36. During the last run, Hoppe devoted nearly twenty shots before he could throw the two balls into a cluster. Many of his plays during this run required much skill. His ability to nurse the balls into almost any location he desired was highly entertaining. Time and again he executed shots where in a ball would travel the length of a table only to come back within a fraction of an inch of its running mate.

Heading the list will be Bill Carr, the Olympic 400-meter champion, who will again run the anchor leg for the University of Pennsylvania relay team against Harry Hoffman of New York University. Carr barely missed out the New Yorker in last week's Milrore games.

The nation's outstanding sprint rivals, Emmet Toppino and Frank Wykoff, will clash in the Briggs 50-yard dash and Joe McCluskey of Fordham, third place winner in the Olympic 3,000 meters steeplechase, will start in the Williams' two-mile event, along with Emilio Pentz of the Millrose A. A., who carried the U. S. shield in the Olympic 10,000 meters run.

The famous hunter mile feature field includes Frank Crowley of Manhattan college, who competed in the Olympic 1500 meters run, and Dan Dean of Pennsylvania, the United States' second best competitor in the same Latinian-Hill 2,000 meter duel. Glen Dawson of Tulsa, Okla., one of McCluskey's steeplechase teammates, will start in the "1000," George Spitz, who broke the world's record in last year's B. A. A. high jump, will try again and two other U. S. Olympic performers, Karl Warner of Yale, and Arnold Adams of Bates, will compete in relay events.

Dawson heads the first Oklahoma delegation in the B. A. A.'s long history for two high jumps, will try to win the state title with his teammates. J. Harold Adkinson, who will compete in the dash, and Bob Hildt, 1931 big six hurdle champion, who will start in the timber event.

McCLUSKEY TO RUN IN 2-MILE EVENT AT BOSTON GARDEN

Seeks Sixth Victory of Season Tomorrow Night; Pentti Biggest Rival; Other Events Scheduled.

Boston, Feb. 10.—(AP)—Twelve veterans of the 1932 Olympic competition at Los Angeles, including Erik Ny. Swedish 1500-meter champion, will go into action tomorrow night during the 4th annual Boston A. A. meet at the Boston Garden.

Heading the list will be Bill Carr, the Olympic 400-meter champion, who will again run the anchor leg for the University of Pennsylvania relay team against Harry Hoffman of New York University. Carr barely missed out the New Yorker in last week's Milrore games.

CHARTER OAK GIRLS SET TWO RECORDS IN STATE LEAGUE BOWLING MATCH

Break Old Marks For Team High Single and Three String In New Britain Tilt Last Night, Hitting 581 and 1,616 Respectively.

The Charter Oak Girls traveled to New Britain last night and defeated the New Britain Girls two out of three games in a State League match, breaking the State League high single with a 581 game and also the league three strings with a total of 1,616.

In winning last night the local girls showed the stuff that makes champions by winning the last two games after losing the first by a close margin on hard luck. None of the local girls hit below 300.

The above scores are the highest ever hit by a Manchester girls team. Mary Strong had high single of 125 and Flora Nelson high three string with a total of 336. The local girls are now in second place in the league standing, just step behind the Maple girls of Hartford.

CARNERA IS GIVEN EDGE OVER SCHAAF

Italian Mountain Is Promised Bout With Sharkey If He Wins Tonight.

New York, Feb. 10.—(AP)—Primo Carnera will be summoned before a court of justice tonight to show cause why he should be given a chance at Jack Sharkey's heavyweight championship in June. The ponderous Italian has been promised a "shot" at the title if he can overcome Ernie SchAAF, Sharkey's personal "trial horse" in his 15-round bout in Madison Square Garden tonight.

SchAAF has been promised nothing but his share in the receipts. The big Boston blond is in an extremely unfortunate position so far as any title chance is concerned. His contract is owned jointly by Sharkey and Johnny Buckley and the fight fans, long-suffering though they have been, hardly would stand for a match between Carnera and Sharkey.

Because of this, there have been reports widely circulated, and vehemently denied that Primo might be aided to victory in the interests of the contemplated return match between the Italian and Sharkey. It is also reported that the fight also has been well reflected in the betting. SchAAF ruled a 2 to 1 choice over the Venetian all week but quotations last night were reported 5 to 5 with Carnera on the long end.

SchAAF, apparently fully recovered from his slump of last summer when he dropped decisions to Max Baer, Stanley Porets and Unknown Winston, has been broadcasting confidence on long and short waves. After knocking out Winston in six rounds early this year, SchAAF returned to the Garden a few weeks ago and disposed of Porets in the same number of heat. He was an impressive-looking fighter that night, big and strong, a powerful puncher.

Although he will be outweighted 50 pounds by Carnera, SchAAF is so ruggedly built that no one could knock him out. Of the two, SchAAF is by far the harder hitter and, on form, should win.

Carnera has done comparatively little ring work since Sharkey gave him a sound whipping in the fall of 1931. In recent months he has scored victories over Ing Levin and K. O. Christner. The semifinal ten rounds will bring together Antonio Tassera of Germany and Harry Embeth of Sweden, N. Y. The winner to meet "Mad" Rabenloob of New York on Feb. 24 for the light heavyweight title. Maxie holds in this state.

Celtics to Clash With Independents

First Game Holds Spotlight in Rec Senior Cage League Tomorrow.

GAMES TOMORROW

6:00 p. m.—Celtics vs Independents.
7:00 p. m.—Original Taffey's vs Sons of Italy.
8:00 p. m.—Herald vs Dills.

The Celtics and Independents game at the East Side Rec tomorrow night holds the spotlight. The other two games being the recent addition to the league, the Original Taffey's opposing the Sons of Italy, while the Dills will attempt to win their second game in a row from the Herald Newboys in the final game of the evening. The Celtics followers last week by turning in victories, Celtics over the Sons of Italy in a closely played game, and the Independents over the Herald in a close, but exciting contest.

The Original Taffey-Sons of Italy looks like a real good game. Both clubs can flash brilliant scoring machines, the Taffey's with their sharpshooters, and the Italians with their ability to pass.

The final game of the night brings the much improved Dills team against the Herald Newboys, the latter team having the youngest team in the league. Last week the Dills gave a good account of themselves in defeating the Original Taffey's and expect to make it two in a row against the Herald Newboys, though Louis Smith's charges have a different view of the matter.

Ben Clume pilot of the Rec Five has announced he possibly will select an all star team from the Rec Senior League to oppose the Battery B team of Westbury, R. I., on possibly Saturday, February 18. As soon as arrangements can be completed, for the appearance of this team he will make further announcement of same through the columns of this paper.

Sport Chatter

The Rec Five have been invited to participate in a tournament to be held at the Stanley Arena in New Britain the third week in March. The Rec management has not as yet made a decision as to whether they would compete in same.

Will Manager Della Ferra of the Rangers get in touch with the Rec management at once.

DISPUTE ARISES OVER SCENE OF THIRD GAME AND CONFERENCE ENDS

National Guards Insist On Playing Deciding Game At Armory and Rec Five Holds Out For School Street Rec At First Meeting of Local Quintets To Arrange Annual Tilts; Reach Agreement On All Other Details But Series Remains In Unsettled State.

The eternal disagreement that has interfered with the arrangement of local athletic contests since time immemorial was resurrected again last night when representatives of the National Guards, town champions of 1931, and the Rec Five, deposed title holders, met in a conference to discuss the annual basketball series for the championship of Manchester.

From the outset the conference was harmonious and amicable and point after point was settled with complete satisfaction to both parties until the question of the scene of the third and final game of the series was brought up. The Guards insisted on the State Armory as the most logical floor for the game, while the Rec Five held out for the East Side Rec. As a result, after more than an hour of discussion without progress in any direction, the meeting came abruptly to an end with the town series still in a decidedly unsettled state.

Home Floor Favored
 The conference was attended by Manager Jimmy Neill and Coach Will Marks of the National Guards; Manager-Coach Ben Clume of the Rec Five; Frank Busch, director of the Recreation Centers; and Erik Modean of The Herald. The meeting was held at The Herald office.

The financial arrangement, the eligibility list, the officials, and the date of the opening tilt were settled without preamble, the representatives of both teams coming to swift agreement on these matters.

As usual the proposed series was arranged on a best out of three game basis, but when it came to deciding the scene of the third game in the event that each team gains a victory, considerable discussion arose, each team's representatives holding out for their home floor.

Manager Neill's Stand
 Manager Clume suggested flipping a coin, the winner to have his choice of playing surfaces. Manager Neill refused to consider the suggestion, maintaining that from the standpoint of providing ample and comfortable seating facilities, a better place to play and finance, the Armory was the only logical spot for the game.

He insisted that the Guards had nothing to gain and everything to lose on the series, while the situation is exactly the reverse with the Rec Five. Neill felt that the Guards were entitled to as large a financial remuneration as it was possible to obtain, especially as the loss of the town championship would injure the Guards' prestige next season.

Manager Neill pointed out that the Rec building does not have the seating space that would be necessary to accommodate the fans, whose interest in the series would be revived in the event that the Rec Five defeated the Guards in one of the first two encounters. Then, too, said the Armory playing surface was superior to that at the Rec, pointing out that both teams were familiar with large-sized floors.

Manager Clume's View
 Manager Clume based his argument on the point that the Rec Five would have a considerable advantage in playing on their home floor. He admitted that the Armory was better able to handle the crowd, that the playing surface was superior and that the gate receipts would be higher, but said that he was not interested in the financial part as much as in beating the Guards. He pointed out that each team had an equal chance in the toss of a coin and that, should the Rec's function better at the Armory, he would choose it for the third game if given the choice.

When it was finally decided that this point could not be settled, the meeting ended without mention of another conference in the near future or a sign that either team would make concession to the other.

Other Details Settled
 At the start of the meeting, it was agreed to split the gate receipts on a sixty-forty percentage basis, the winning team taking the long end, after expenses had been deducted from the gross. It was also agreed that both teams would use only those players who had appeared in the lineup to date, giving the Guards the services of eight players and the Rec Five the services of twelve.

It was further agreed that the series should begin not later than March 7, a week earlier if possible. Because of various conflicting dates and several games tentatively scheduled, the exact date of the first game was not decided. The School Street Rec was chosen as the scene of the first tilt, to be played on either Tuesday, February 27, or

CANADIAN DUO RULE AT FIGURE SKATING

Brother and Sister Team Heavily Favored To Win Titles In Meet Today.

New York, Feb. 10.—(AP)—Canada's famous brother and sister combination, Mrs. Constance Wilson Samuels and Montgomery Wilson, ruled heavy favorites to sweep through all three divisions of the North American figure skating championships, opening today at Madison Square Garden and the ice club.

These two have accounted for 11 North American titles in the last four years of the championships. Mrs. Samuels has won the women's crown three times in that period and her brother has accounted for the men's title four years in succession. Together they have shared the Pairs' championship four times in a row.

Opposing Wilson in the men's field will be 13-year-old Robin Lee of Minneapolis, national junior champion; J. Lester Madden of Boston, and William F. Nagle of New York. Mrs. Samuels' principal opposition in singles probably will come from 16-year-old Audrey Puppe of New York and Mrs. Cecil Smith Gooderham of Toronto. Other entries in the women's division include Suzanne Davis of Boston and Dr. Huide Berger of New York.

For the Pairs title, the contenders include Mrs. Samuels and Wilson; Kathleen Loppell and David Cruickshank of Ottawa; Maude Smith and Jack Eastwood of Toronto; Grace and Lester Madden of Boston; and Gertrude Meredith and Joseph K. Savage of New York.

SWEETSTAKES TONIGHT
 The Sweetstakes will be run tonight as usual at the Charter Oak bowling alleys. The entries have increased every week and so long as the bowlers show interest it will be run every Friday night.

BEGIN HERE TODAY. SHEILA SEATTLE... SHEILA SEATTLE... SHEILA SEATTLE...

She secures a part in a road show and in a little midwestern city meets JERRY WYMAN...

Back in New York, she gets a job in a fashionable night club. She sees Jerry there with some friends...

She joins another road company and after several months they play in Jerry's home town...

CHAPTER XXXI. The waitress brought the coffee and set it before the two girls...

"But you mustn't take it that way!" Jappy said anxiously. "You mustn't! Why, Jerry Wyman isn't worth your little finger..."

"I'm all right," Sheila said. "But her face was pale, her lips trembling. 'I'm—I'm perfectly all right, Jappy...' Her hands trembled, and she seemed to help her steady herself."

"I didn't mean to shock you like that. Only—only Jerry is married! And he was engaged to that other girl all the time..."

"No—I suppose not. Under the circumstances, it was a question, unspoken. Sheila laughed bitterly. 'I wasn't engaged to him. No. But he had talked about marriage...'"

Jappy's quick look was a question, unspoken. Sheila laughed bitterly. "I wasn't engaged to him. No. But he had talked about marriage..."

"He's not worth it!" "They finished their coffee in silence, then rose and left the check and went out on the street..."

She walked slowly, her eyes blurred with tears. "There isn't anything you can do about it," offered Jappy. "I wouldn't have told you but I was afraid someone else would..."

The hot color flooded Sheila's cheeks. So the "bunch" had been talking about her feeling for Jerry! Sheila herself had not discussed it except with Jappy and Tillie Samper...

Jappy went on trying to make "MODERN WOMEN" need hair more than ever. She had never repeated to Tillie the precious things Jerry had said...

YOUR CHILDREN

By Olive Roberts Barton

Much has been written on tantrums, so much in fact that I believe the modern mother is well acquainted with the facts. But to tell you I don't believe the matter yet is thoroughly solved...

Children are what I like to call "fluid," where older people are more set. It is not difficult to analyze a man of forty. He is this and that...

Children often come from some obvious reason far removed from the obvious. For instance, I know one child who spends half his time in a rage for a reason his mother does not suspect...

When he goes out he is strapped to his buggy. To keep him from spitting his thumb his head are tied at night. Also keep him from throwing off bed-clothes, he wears a belt that keeps him from standing or sitting up.

Some children do not resent these things, but others, most others, feel that unbridled sense of outraged liberty that we would feel if we were likewise tied. I think this child bottles up a sort of desperation, or it may be fear, for he never knows what minute he may again be a prisoner. He is too big for a play-pen but spends hours in it and he hates the sight of it.

Unhappiness Tantrums. The first indication a baby shows when he is born is this fear of constriction. Hold him tight so that he cannot move arms or legs and he will scream even at one day old.

Children who get too tired from play or walking go into rages easily, because little nerves seek relief in a general blow-up, just as those of older people do. Lack of sufficient sleep does the same thing.

An unhappy child, or a child who is ashamed or ridiculed—Heaven preserve them from all three—will likely have tantrums. The brain seeking relief from one emotion in other. By adopting a "rage" consciousness it loses its fear, or shame consciousness. We seldom think of our own anger being a "pissant" emotion, but it is so shared. People who get angry easily love it. They are merely being selfishly indulgent.

Try to figure out why your child has tantrums. The cause may be buried. You will have to dig it up.

Washington, Feb. 10.—With a history that goes back to 1811 years, to the early days of the capital, All Souls' Unitarian church is one of the most interesting as well as one of the most beautiful churches in Washington.

It was known as the First Unitarian church when it was founded in 1821 by a group of national leaders, including President John Quincy Adams, at Sixth and D streets. The name was changed to the present one, however, when the church was moved in 1877 to a new site.

A few years ago the congregation created a new building at 18th and Harvard streets, which it still occupies.

The histories of three presidents are part of the church's own story. For not only was President Adams one of the founders, but both President William Howard Taft worshipped there.

Funeral services for Taft, who had become chief justice of the United States supreme court, were held in the church in 1930.

One of the most distinguished of the church's pastors was the Rev. Samuel Longfellow, brother of the American poet.

In the stormy days that preceded the Civil War, the First Unitarian church became one of the centers of the slavery dispute.

Efforts by many members of the congregation to remain neutral failed, for when John Brown was executed, the church definitely took its stand with the Abolitionists by tolling its bell in remembrance.

The authorities promptly forbid the use of the bell in the future, and it was not until the Civil War had been going on for a year that this ban was lifted.

The congregation was the first to offer its church as a hospital in 1861, an offer that was promptly accepted by the authorities. In return the congregation was permitted to hold its Sunday services in the Senate chamber throughout the war.

State of New York Dept. of Health by World Famous Authority

HEADACHE A SYMPTOM; NOT NECESSARILY INHERENT. Causes May Lie in Errors of Vision, Stomach Trouble, or Body Fatigue; Physicians Must Make Careful Study of the Whole System.

(This is the first of three articles by Dr. Fishbein on migraines and sick headaches.)

By Dr. MORRIS FISHBELN Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

Migraine or sick headache often is called nervous headache. It is called sick headache because it is sometimes accompanied with nausea or vomiting.

Sometimes it is found to be dependent on uncorrected errors of vision or sinus disease, or on various poisonings of the body. In other words, it seems to be associated with sensitivity to food of one kind or another, or even to serious diseases of the stomach and other organs of the body.

On occasion, severe headache is associated with disturbance of the brain, such as tumor or hardening of the arteries. In some instances, the headache may be wholly on a mental basis.

It is not well therefore to attempt to differentiate one group of headaches as migraines and others as simply headaches. Every case of the disease should be carefully studied so that the physician may evaluate all of the different factors that may be concerned. It is perhaps best at this time to consider the headache or the pain as the symptom of a disorder of the human body rather than a disease in itself.

Sometimes the headache is associated with the type of nausea that has been mentioned; sometimes with disturbances of vision in the form of blindness, dullness of vision, blurring of light, or dimness. In certain cases there are associated with the headache, emotional disturbances such as a feeling of depression or melancholia.

In other persons headaches are associated with restlessness and irritability, and in still another group with constipation, abdominal distention, or a sense of uneasiness. In some cases there are pains in the abdomen which are of the same type as the pain in the head.

Women have their symptoms chiefly at the time of their periodic functions. In many cases the headaches occur frequently, but in the majority about once in two weeks. The type of headache called migraine occurs most often between 15 and 35 years of age, but may appear at any age.

There was a time when it was thought primarily to be a disease affecting women, and some writers have said that it occurs four times as often in women as in men. More recently careful studies seem to show that headaches of this type occur just about as often in men as in women.

The reason it has seemed to be more frequent in women is that they are likely to consult a physician about the condition than are men, and that their attacks may seem to be more severe.

Norman Thomas, the country's No. 1 Socialist, says that what this country needs most is more liberals to sit on the sidelines and criticize the way the country is being run. It might be possible to recruit a few more liberals, but they are in no room to sit is plainly preposterous.

Someone has written Mrs. Franklin D. Roosevelt complaining of the appearance of her husband's hat. It appears a little misshapen, it should be remembered the president-elect is keeping a whole Cabinet under it.

Well Braced. Vivian Reid. Hollywood, Feb. 1.—There is youth, and certain odds smartness in jumper dresses that makes the younger stars love them.

Vivian Reid wears a clear wool jumper dress, with a white silk crepe blouse with puffed sleeves and a turned-down round collar. The skirt and straps are made all in one. She pulls them up over her shoulders the way a lady man does his suspenders. She wears white accessories, giving the dress a spring-look, and white earrings of the chalk-china look made for sportswear.

Other youngsters who lean to jumper dresses include: Sari Martins, who wears a black one, with red, black, white and gold plaid taffeta blouse. Loretta Young, who lunched with Joan Blondell at the First National Studio, wearing a black jumper dress with the sweetest little barrel and curvilinear organza blouse with a simple round neck and puffed sleeves, very fresh and young looking.

Alice White, who leans to black and white, and usually has a little shirt-collared of some fancy silk or cotton crepe for her dresses of this type.

WHOLESALE LAUD 'SELF SERVE' SALE

Pleased At Results Secured Yesterday—Sale Continues Through Tomorrow.

To say that the 18th. Anniversary Sale of the Self Serve Grocery has been a success is putting it mildly. A check up of sales at the end of the first day certainly proved in the words of a salesman for a nationally known product, "that when you give the people such values as are being offered at Hale's Self Serve the people can find money to buy irrespective of conditions."

Other Demonstrations

Swift & Co's Formay is being received with much enthusiasm. 245 packages of Borden's cheese were sold yesterday and the My-T-Fine Dessert people piled up a neat little record with the sale of 800 packages of My-T-Fine desserts and pie filling. Williams and Carleton are giving out a 10c box of spice free with every bottle of extract sold and they too have piled up a good sales record for the first day.

The cashiers will be doubled to handle the Saturday business as will be the number of clerks to look after deliveries and make shopping as convenient as possible. Herbert House, head of the Hale store expressed himself as being extremely well pleased with the first day of the sale and said that he was also very well satisfied with the way the delivery system of handling orders to be sent out had worked out.

Y. M. C. A. Notes

The second of the series of lectures by Mrs. Lewis Rose of Glastonbury will be given at the Y. M. C. A. tonight at 8. Mrs. Rose's lecture on current events are full of information. She is well versed and has traveled a great deal. There are to be four more of these lectures.

The regular monthly meeting of the board of control of the Manchester Chamber of Commerce will be held Tuesday evening at 8 o'clock.

GENERAL COLLINS DEAD

Washington, Feb. 10.—(AP)—Major General Edgar T. Collins, 60, assistant chief of staff in charge of operations and training at the War Department, died early today at an Alter Reed hospital after an illness of several weeks. His home was at Williamsport, Pa.

LOADED WITH GOODS FOR HALE'S

So successful was Hale's "Self Serve" grocery anniversary sale that extra quantities of staple groceries had to be ordered. Here are some delivery trucks making deliveries to the store.

ABOUT TOWN

The conditions of Miss Mary Lupachino of 75 Birch street who underwent a serious operation yesterday in St. Francis hospital, Hartford, was reported by members of the family today to be satisfactory.

A Valentine dance will be given tomorrow evening in Turn Hall by the Young People's Polish society. Music will be furnished by The Happy Five boys and a door prize will be given. A good time is promised to all who attend by the committee in charge, of which Chester Kosak is chairman.

The regular monthly meeting of the board of control of the Manchester Chamber of Commerce will be held Tuesday evening at 8 o'clock.

A business meeting of the Wesleyan Circle groups is called for Monday evening, February 20 at 7:45 at the South Methodist church. Mrs. Harley DeWolf, the president, desires that all group secretaries make reports at this meeting. A social will follow.

Victor Obrigt of Union street, one of the Manchester boys who left Manchester last June to hitch-hike across the country with the hope of seeing the Olympic games in Los Angeles, returned home this week. He made the trip to the coast, saw some of the games and started on his way back to Manchester. In a small town in North Dakota he secured work and remained there until the first of this month when he started to travel home by bus or train, making stops at interesting points along the way.

The regular Friday evening set-back and dance of the Manchester Green Community club will take place at the Green school hall this evening.

Mrs. Lewis Rose of Hartford will give the second in the series of five current event lectures this evening from 8 to 9 at the Y. M. C. A. Mrs. Rose's discussion of topics of paramount interest in the world today will be given with a special lecture on Ireland where she spent four weeks last summer was greatly enjoyed by a large number Friday evening at least.

The regular meeting of the Manchester Kiwanis club will be held Monday at noon at the Hotel Sheridan. The speaker will be Henry Dorsey of the state college at Storrs. He will give an educational, first-hand account of his trip to Russia. Aaron Cook will furnish the attendance prize.

Manchester Assembly, Order of Rebob, will meet Monday evening at the Masonic Temple. After the meeting at 7:30 the Rainbow girls will entertain the members of the advisory board in the banquet hall, past worthy advisors of the assembly serving on the refreshment committee.

The final meeting of the Masonic Ball committee will be held in the Masonic Temple at 8 o'clock tonight. A large attendance of the committee members is desired.

Members of the Legion rifle team are asked to report for practice and a lucky shot at the State Armory at 7:30 tonight. All members are urged to be present.

"The Wet Parade" will be repeated in the Rockville Methodist church Sunday evening, by a cast from this town, Talbotville and Vernon.

RED CROSS OFFICERS ARE ELECTED AGAIN

Dr. D. C. Y. Moore Heads Local Chapter For Third Consecutive Year — Appointments Later.

At the annual meeting of Manchester Chapter of the American Red Cross yesterday afternoon, the entire slate of officers was re-elected to serve another year, with Dr. D. C. Y. Moore as chairman for his third consecutive term. Other officers were re-elected as follows: Miss Dorothy Cheney, vice-president; Miss Isabel Rogers, secretary; The Manchester Trust Company, treasurer.

Reports of officers and committee chairmen were read and accepted. The appointment of chairmen for various committees was postponed until a later meeting. Miss Dorothy Cheney and Mrs. Jane Aldrich were named a committee to study plans for a proposed home nursing course.

BISHOP BUDLONG HERE ON SUNDAY

Co-Adjutor of Connecticut To Make First Visit At St. Marys For Confirmation.

The Rt. Rev. Frederick G. Budlong, D.D., Bishop Co-Adjutor of Connecticut, will visit St. Mary's Episcopal church for Confirmation Sunday afternoon, February 12 at 8 o'clock. Bishop Budlong was born in Camden, New York, the son of the Rev. Frank D. and Mrs. Sarah E. Budlong. He graduated from Hobart College in 1904 (receiving the degree of S. T. D. in 1920), from the General Theological Seminary in 1907; with the degree of Doctor of Divinity from the University of Pittsburgh in 1921.

CAPT. MOLLISON HOPS FOR RIO DE JANEIRO

Crosses South Atlantic Safely; Makes Trip From England In Three Days and 10 Hours.

Natal, Brazil, Feb. 10.—(AP)—Captain James A. Mollison, British speed pilot who completed another trans-Atlantic flight yesterday, hopped off at 7:30 a. m. (6:30 a. m. Eastern Standard Time) today for Rio de Janeiro, Brazil. Captain Mollison flew here yesterday from Thies, Senegal, completing a flight from England in three days and ten hours. He made the first westward flight across the North Atlantic last fall. He was up at dawn after a tenuous sleep, ready to go immediately but weather reports told of high winds in the vicinity of Pernambuco and he delayed his take-off. When subsequent reports showed no improvement he decided to start anyway. Pernambuco reported he had passed there a few hours after the start, flying low. The captain expected to reach Rio de Janeiro in 16 hours.

ACCIDENTAL DEATH

Bridgeport, Feb. 10.—(AP)—Stanislav Sprusk, 42, a war veteran and inmate of the Soldiers' Home at Norton, who was struck and killed on the night of February 8, by an automobile driven by Bert Derocher, 284 Cove Road, Stamford, met his death by accident, according to a finding today by Coroner Phelan.

COUPLE CONFESSES SKEELE KIDNAPING

(Continued from Page One)

Sunday night and a note demanding \$10,000 ransom was found. She was released near her home the next night, shortly before the time specified for payment of the money.

Detectives quoted Howard as saying the ransom note first was intended for use in the kidnaping of Miss Smith but when the attempt failed, because the teacher became suspicious, Mrs. Hammer suggested they attempt Mrs. Skeele.

Officers quoted Howard as saying they wanted the money to raise a mortgage on a house owned by Miss Hammer, a graduate of the music college of which the victim's husband is dean.

Miss Smith formerly was president of student body of the music college, of which she is a graduate. Her father, the Rev. Merie Smith, Pasadena, Methodist pastor, is a trustee of the university.

GOVERNMENT TO TAKE UP LINDY EXTORTION CASE

deciding on its own course of action.

The two men were arrested about noon yesterday when Bryant cashed a "cash" check at a Roanoke bank. The check was for \$17,000, a compromise figure. It had been deposited in a tree stump near the edge of the city according to instructions by the author of letters to a local policeman who posed as a representative of Colonel Lindbergh.

The United States agent arrived in the city last night. He was in the office of the assistant district attorney today.

LATEST STOCKS

New York, Feb. 10.—(AP)—The Stock Market paused today after yesterday's upswing, and prices slid back from fractions to a point, here and there, under pressure of tight surries of profit taking.

Week end mercantile reviews reported a sizeable pickup in sales of seasonal merchandise at retail, and corporate news included another regular quarterly dividend in Beechnut packing's announcement of a 75-cent disbursement. U. S. Steel report of a decline in its unfiled tonnage, however, tended to counter-balance these more favorable aspects of the news.

The steel shares held up fairly well, showing only small fractional recessions. Tobaccoos again encountered considerable selling, some of it believed to be for short account, and losses of a point or so appeared on American and Liggett and Myers Class B issues. Other issues of major fractions to a point included Union Pacific, United Aircraft, Case and Air Reduction. American Telephone dipped a fraction, although its annual report was generally interpreted favorably. A little fresh activity appeared in some of the non-ferrous metal issues. U. S. Smelting rose 1-2, and Phelps Dodge 1-2.

Wall street was busy speculating as to the probable recommendations of the national transportation committee, expected next week and one news ticker item said the report was expected to score management for not eliminating competitive waste more effectively, to urge giving up of unprofitable branch lines, and scaling down of capital structures, where necessary, among other things. In most quarters, a "constructive" report was expected.

U. S. Steel's decline in unfiled tonnage in January had been rather confidently forecast in some quarters, where the belief had been expressed that new business had not fully justified the step-up in production. Tonnage decreased 69,496 tons to 1,898,844 tons as of Jan. 31, which more than cancelled the gains of the autumn months.

Important quarters in the oil industry felt that renewed stimulation should ensue, after the American Petroleum Institutes new agreement this week on a statement of principals. Some further gasoline price recessions were reported, but a firmer tone in the Texas crude oil market was reported, and there were rumors that at least part of the slashes in crude prices in the mid-continent would be restored soon.

WALL STREET BRIEFS

New York, Feb. 10.—The National Automobile Chamber of Commerce reports that January motor vehicle production by its members exceeded that of the corresponding month a year ago by 5 percent, the first comparative rise since August, 1931. Last month's output is estimated at 115,515 cars and trucks, 38 percent above the December total and larger than production for any month of 1932 with the exceptions of March and April. The figures do not include Ford operations.

blocked, hampering transportation of food to districts believed badly in need of rations. It was 20 below at Ely, Nevada. The prolonged cold placed livestock on the western ranges in a precarious position. Up in the Rockies the temperatures were moderating and the weather-men said a further rise might be expected.

COURT DECIDES COSTS OF FUNERAL TOO HIGH

Bridgeport, Feb. 10.—(AP)—In spite of the fact that the late Jeremiah Gable of Stamford, who died July 17 last, was considered the "richest colored man in Connecticut," Judge Carl Foster of the Superior Court decided today that a funeral costing \$500 was suitable to his condition in life, cutting down a funeral bill of \$1,015.48 to \$500.

The decision was on a suit heard before Judge Foster several weeks ago on the appeal of H. H. Williams of Stamford, undertaker, from the disallowance of his bill of \$1,015.48. The administrator's report was upheld.

"DOUBLEHEADED AFFAIR"

Hartford, Feb. 10.—(AP)—Governor Wilbur L. Cross declared today that "Republicans can get away with anything in Connecticut except committing murder."

He was commenting on the latest reports of "deals" in minor court judgements and added: "The Republicans are trying to place the onus on the Democrats when it is really a doubleheaded affair."

BENNETT OPPOSES DIVERSION BILL.
Former Highway Commissioner Says Proposal Would Be Injustice.

Passage of the so-called Highway Fund Diversion Bill by the General Assembly would be a great injustice to Connecticut's 330,000 motor vehicle owners and every effort will be made by the Highway Taxpayers Association of Connecticut to mould public opinion against it, according to a statement made today by Charles J. Bennett of Hartford, president of the association and former State Highway Commissioner.

"As has been expected for the past two months," Mr. Bennett said, "the plan to divert a substantial part of the funds which are now devoted by statute for highway improvement and maintenance to help pay the general expenses of the state has been brought to a head by the introduction into the General Assembly of House Bill Number 233 which is designed to amend the State Highway Law so as to divert the funds possible."

"It is against this Diversion Bill that the Highway Taxpayers Association of Connecticut, and it is safe to say practically all of the state's 330,000 motor vehicle owners, are now centering their efforts; and no energy will be spared in our attempt to show to the people of Connecticut and their representatives in the Legislature that no other measure could result only in a gross injustice to our motorists."

"The Highway Fund consists almost entirely of the money collected from motorists as registration and license fees and as gasoline taxes. Since 1929, this money and only this money has been expended for highway improvement on the theory that the fees and taxes were levied and reasonably expended for that purpose, and that no other state funds should be devoted to maintaining and improving our roads. Thus, those who use the highways pay for them."

"This present proposal to divert or loan money from the highway fund will naturally suspend or severely limit highway building and maintenance in this state. This would be absolutely unjust to all of our motorists who have paid in about \$12,000,000 of the money annually available for highway purposes, would find their money used to pay general state expenses instead of being used to improve the roads. Citizens, have already made their contribution toward paying these general expenses through other state taxes levied upon them. Thus, to take from them the highway improvement money they are entitled to by statute would be to tax them double for the general expenses. This, the Highway Taxpayers Association believes, is entirely unfair and unjust and it is upon this basis that we are principally opposed to the Diversion Bill. The motorists are no more able to pay double taxation than any other class of citizens."

HEBRON

The Ladies' Afternoon Bridge club met at the home of Mrs. Carrie I. Burnham in Amston Tuesday, from 2:30 to 5 o'clock. Two tables were in play. Mrs. Frederick Wyman was winner of first honors. Mrs. Alphonse W. Wright, holding second place. Refreshments of sandwiches, cake, and coffee were served.

Carlman, a tank, who was taken to the Hartford hospital with appendicitis, has been operated on and is said to be in a favorable condition. Mrs. E. P. Putnam of Middletown has presented to St. Peter's Episcopal church a small oil painting of the late Bishop Williams. The portrait shows the Bishop as a young clergyman in the vestry room of the church with the collection of pictures of past rectors and other church dignitaries. The gift is much appreciated.

Mr. and Mrs. Virchel Wood of Leominster, Mass., spent the weekend at their Hopevale home. They called on Mrs. Wood's father, Paul Broomé, at St. Joseph's hospital, Springfield, and found him improving. Mrs. Wood has been suffering from blood poisoning from a cut foot.

Miss Hazel Broomé is having a few days' vacation from her work in Hartford.

Mrs. William Woodworth of Greyville was a caller in Hopevale recently.

Miss Mary Kovarovich of Willmantic was a caller on Miss Eleanor Coates one day this week.

The thermometer reached 62 degrees above zero Wednesday and the day was as warm and pleasant as summer. The next morning reports came from various parts of the town of a temperature of from two to eight below zero. Cold was reported the coldest temperature.

A number of Eastern Star members attended a party given by the organization at Colchester Wednesday evening. Those attending were Mrs. Della Porter Hills, Mrs. Chauncey B. Kinney, Mrs. Edward A. Raymond, Miss Victoria Hilding and Miss Ruth Raymond. The feature of the evening was a Valentine party. A program was presented, the game of Hearts was played, and refreshments were served.

COOLIDGE MEMORIAL TO BE ESTABLISHED

Library of New Club House in New York To Be Dedicated To Ex-President's Memory.

New York, Feb. 10.—(AP)—The first announcement of a memorial to be established in New York for Calvin Coolidge, came from the Women's National Republican Club today.

The library in the organization's new club house to be opened next December will be dedicated to the memory of Coolidge, said Mrs. George A. Wyeth, president.

Mrs. Coolidge is an honorary member of the club and her husband took an active interest in the organization while he was President. He formally opened the present club house in East 114th street on Lipicola's birthday, 1926.

In the library of the new club house at 61st street and Fifth avenue, will be a collection of letters from Coolidge and a place of honor will be given to a ship model which he addressed on the occasion of his visit to the present quarters. The furniture will be Colonial and on the walls will be several valuable steel engravings.

Miss Maude K. Wetmore of Rhode Island is chairman of the committee arranging the memorial.

The new fishing tackle catalogs are out—a bit prematurely it might seem. But then anglers might catch on if the annual crop of fantastic new baits were offered them around All Fools' Day.

Three Men Hold Up Postal Employees and Escape With Pouch.

Sacramento, Calif., Feb. 10.—(AP)—Three men drove up behind the main post office, surprised two postal employees, snatched a pouch and were at large today with cash and bonds estimated to total \$325,000 in value.

the platform, Swanson said he did not realize at first what was happening. "What do you guys want?" Swanson asked.

As the men ran for their car one fired a shot. The bullet went in the general direction of his companions and one of them shouted: "Cut that out; we don't want any of that stuff."

WOMEN OF STATE GET STREAM FOR FISHING

Fish and Game Commission Sets Aside Part of Branford Brook For Their Exclusive Use.

Hartford, Feb. 10.—At last the women are due for a "break" during the coming trout season. From the early days of fishing in this state, the gentler sex were forced to take their fishing when and where they could find it, along streams that were populated with males for weeks after the opening of the season.

When the trout season opens on April 15 it is expected that a large gathering of female anglers will assemble at the cottage leased by the state for the anglerettes along Route 139 from North Branford to Branford. A woman warden will also be secured, the State Board of Fisheries and Game announced today.

Those privileged to fish the newly-leased stream will not have to climb fences nor will they suffer the tantalizing experience of tangling their fishing gear in the brush along the stream, for the state fish and game department is constructing steps over at fences, and will clear away brush from the banks of the stream which might interfere with fly casting, to which angling will be confined.

The board plans to stock the stream with adult size speckled brook trout from the State hatcheries and Commissioner Thomas H. Beck stated today that applications would be received for the position of woman warden from those who consider the stream well qualified.

The clubhouse will afford a place for the ladies to change into fishing togs and, if the fish aren't biting, tea and a rubber or two of bridge could be in order. We can't make the fish rise—that will be up to the feminine wiles.

THREE YOUTHS HELD ON ROBBERY CHARGE

They Break Into Pharmacy and Chain Store in Portland - Are Caught in Middletown.

Middletown, Feb. 10.—(AP)—Three young men of Waterbury, Paul V. Hodges, Harold Lord and Stanley Malley, were held today without bonds on charges of breaking into and entering a pharmacy and a chain store in Portland this morning.

The arrests were made at 4 a. m. by State Officer Landon who had joined Schwartz in the chase. Both are from the Beacon Falls barracks. The machine was registered in the name of Jean Gaudin, Waterbury. It had been missed last night. The car held cigars, cigarettes, butter, fountain pens and other articles taken from Conklin's Pharmacy and from a chain store in Portland during the night. The men are set to have admitted five breaks, one in Cheshire, one in Higganum, two in Portland and one other.

RED WINGS RETURN TO TOP OF LEAGUE

Detroit Beats Chicago, 4-1. To Assume Lead in American Hockey Circuit.

New York, Feb. 10.—(AP)—Before the National Hockey League season started the Detroit Red Wings were generally picked as the fourth club in the four-team American division race. There still are a few die-hard seers who insist they are bound to "crack" and beat the Boston Bruins, the New York Rangers and possibly on the Chicago Blackhawks rush past them. But so far, with only six weeks to go before the campaign ends, they haven't shown a sign of a break.

The Red Wings, in fact, are in a better position today than at any time this season. Not only are they in first place, a position they have held before for short periods, but they are even up with the second place Rangers in the number of games played and one game to the good of Boston and Chicago.

Detroit always had played a game or two more than its rivals when it had enough points to hold the lead.

Herbie Lewis, little first-string center, and his running mates, Frank Carson and Happy Emma, were the big gun in Detroit's 4-1 victory over Chicago which gave the Red Wings the lead last night.

Lewis scored twice, with Carson assisting on both tallies and Emma on one, and his goals were the ones that decided the game.

While Detroit was winning, the Rangers were held to a 3-3 tie by the same team of Ottawa Senators that they walloped 9-2 at Ottawa a couple of weeks ago, and Boston eked out a 1-0 triumph over Montreal Maroons to bring the third American division club within a game of the leaders.

The Rangers played a lot of sloppy hockey, had plenty of trouble with Ottawa's defense and more than once allowed the Bruins to stop 60 shots in the 70 minutes of play.

But a "break" came along at the right time when Murray tried a pass-out from behind the net, hit Beverage into it and saw the puck bounce into the goal to tie the score.

Stewart, a former Maroon, accomplished the downfall of the former teammates by scoring on Vic Ripley's pass early in the first period. The Bruins' puck-up stream, led by Stewart, set up as their aim was bad and they failed to find an opening in the Bruin defense.

Three Teams in Running New York, Feb. 10.—(AP)—It began to look as if the schedule makers of the International Hockey League had some advance knowledge of how the race was going to go when they laid out the program for the home-stretch of the season.

With three teams still in the running for first place in spite of Buffalo's brilliant rush to the top, Saturday's game, bringing a "crucial" battle to Syracuse for second place and similar important clashes follow almost daily.

One big period was enough for the Bruins last night with the star scoring a combination of Peter Roth and Lloyd Gross doing the heavy work. Roth passed to Gross for the first goal in the second period and the combination was reversed for the next two.

Schultz made the final tally on Godin's assist while Goldsworthy scored for Detroit in the first minute of the final frame.

According to the "dope" London should gain an undisputed hold on second place tonight. The Tecumseh, who seldom lose at home, have been tied by Windsor twice this season, once at London, but they have walloped their only Canadian rivals in their other five clashes.

Baseball Briefs

New York, Feb. 10.—(AP)—Contracts have been flowing so steadily into the business offices of the New York Giants and Washington Senators that these world series opponents of 1934 now are doing their counting on the basis of play-

ers not signed. Fitcher Jack Russell agreed to Senator terms yesterday, leaving still unsigned Heinie Manush, Luke Sewell, Moe Berg, Bob Burk and signed last week to five, as pitcher Herman Bell and second baseman John LaBorne swung into line. Still unsigned are Hal Schumacher, Lew Koenig, Sam Leslie, Priest Lester and Homer Peel.

The Boston Red Sox added outfielder Tom Winsett to their list of contracted hirings. Winsett was farmed out to Buffalo of the International League last season and hit .357.

The Boston Red Sox added outfielder Tom Winsett to their list of contracted hirings. Winsett was farmed out to Buffalo of the International League last season and hit .357.

GOLF

Miami Beach, Fla., Feb. 10.—(AP)—The medalist, Mrs. Opal S. Hill of Kansas City, and the runner up, Miss Bea Gottlieb of New York, vied for first honors today in finals of the annual Bayshore La Gore women's golf championship.

Mrs. Hill yesterday won 3 and 2 from Miss Kathryn Braggav, East Orange, N. J. Miss Gottlieb went to the finals after turning back the challenge of Miss Ariel Viena, Chicago, in a match that went 19 holes.

Palm Beach, Fla., Feb. 10.—(AP)—A couple of novelists were finalists in the artists and writers golf championship here today. One of them is Rex Beach, and the other Arthur Somers Roche. Beach defeated the defending champion, Grantland Rice, one up, yesterday and Roche turned back Marie Thorpe at the twentieth hole.

Palm Beach, Fla., Feb. 10.—(AP)—Tommy Goodwin of Monroe, N. Y., a youngster who figures consistently among the top rankers in Florida tournaments, tried for another title today against William H. Hyde of Ridgeview, Pa., in the South Florida Golf championship.

Goodwin advanced to the finals by defeating W. E. Langford of Chicago 6 and 5 in an easy match. Hyde, whose steady string of victories has surprised the doppers, turned in a two and one victory over C. A. Edwards of Homestead, L. I.

ENDURANCE BOWLING

Saint John, N. B., Feb. 10.—(AP)—Credit Donald S. McCavour and Walter R. Golding with something new in the way of endurance tests. They started bowling candlepins at midnight Wednesday setting up as their objective a 300 consecutive strings within a time limit of 26 hours.

McCavour finished in 20 hours, 40 minutes; Golding in 21:00. McCavour set a total pinfall of 20,595 or an average of 102 8-8. Golding, with a total of 20,049, had an average of 100 49-200.

Each hurled almost 6,000 balls down the alley. McCavour collapsed at the finish and had to be taken home in a taxi. Golding went home afoot.

READ THE STORY, THEN COLOR THE PICTURE

The balloon that took the Tinymites up in the air to see new sights began to gain real speed and, shortly, Duncy shouted, "Hey! I fear I'll soon be scared to death! Why, I can hardly catch my breath! There's a gust of wind to start traveling like this. Oh, nearly time your head around, and then you will be safe and sound," gasped Society. "Don't get cowardly! This ride is lots of fun!"

ENDEES ARE UPSET BY DIXIES, 25-20

West Side League Leaders Suffer First Setback; Kaecys Also Win.

The undefeated Endees met their first setback last night in the West Side league at the West Side Rec at the hands of the Dixies. Score 25-20. Cupie Waddell jumped center for the winners and scored eleven points and was instrumental in the downfall of Capt. Pete Anderson's outfit. Swick Gustafson, and Kerr played well for the Dixies and Bill Russell tossed in a few double deckers in the last few minutes of the game to put his team out in front.

The Endees fought hard to keep their slate clean with Hewitt, Wilkinson and Anderson bearing the brunt of the burden, but luck failed to be with the boys and they went down under a barrage of baskets in the last fleeting minutes of the game.

In the second 20 the Emeralds made the Kaecys step at full speed for forty minutes in order to win their match by five points, 45-38. Jason Chapman, Eddie Werner and Jimmie Woods were the big guns for the Kaecy gang. The Emeralds led at the half way mark 20-15 with Aitken, Breen and McConkey leading the attack and the score was very close up until the last two minutes but the irresistible Chapman broke through the Emerald defense to toss in the winning points.

IF YOU MUST QUARREL WITH A WOMAN, BE SURE TO PICK A PRETTY ONE. IF YOU QUAR- REL WITH ANY OTHER KIND YOU MAY GET ANGRY.

FEBRUARY SHORTS . . . The trouble is that men who drink like a fish don't drink what a fish drinks. . . . Light wines begin to grow heavy about midnight. . . . Life should be a rout, not a rou- tine. . . . Space is about all some college students take up. . . . A boy does as his father does, not as his father says. . . . Nobody is very pleasant when he is hungry. No man can add to his greatness by belittling others. . . . The man with an axe to grind is never particu- larly whose grindstone, he uses. . . . Its a perfect fit if a woman's shoe is uncomfortable. . . . Some local people play games and other local people let games play them. . . . When a man asks for criticism he is usually seeking praise. . . . An apple caused the first downfall of man, but peaches have handed the business since that time. . . . The less work a man has to do, the more he tires other people. . . . It doesn't pay to fight other men's battles unless you are a lawyer.

One youth has solved the problem of what to do with Christmas cards. He saves and uses the nicest ones for bookmarks. The others he throws away.

Never spread an ill report about your neighbor unless you first take great pains to ascertain if it is true—and then don't do it anyway.

We always sob while looking at a cute, pink-nosed little pig, because we know it will eventually become a big, fat, dirty old hog.

IN TIMES OF DEPRESSION: When strong men tramp the streets looking for work and little children

NO DOUBT A GOOD MANY OF THE OFFICE-SEEKERS WHO WENT TO GEORGIA DISCOVERED THAT THE WARM SPRINGS WERE NOT SO HOT.

Let's do all the business we can honestly, Have all the fun we can reason- ably, Do all the good we can willingly, And save our digestions by think- ing pleasantly.

The teacher had written 97.2 on the blackboard and to show the ef- fect of multiplying by ten, rubbed out the decimal point. She then turned to the class and said: "Teacher—Now Alfred, where is the decimal point?" Alfred (without hesitation)—On the eraser.

College Student (to professor)— Is there a word in the English lan- guage that contains all the vowels?
Professor— Unquestionably.
College Student— What is it?
Professor— I've just told you.

Doctor—What is the most you ever weighed?
New Patient—One hundred fifty- four pounds.
Doctor—And what is the least you ever weighed?
New Patient—Eight and a quar- ter pounds.

USED TUESDAY MILDNESS TO GET PLOUGHING DONE

Bolton Farmer Took Advantage of Fact Frost Was Out of Ground To Get Early Start.

E. S. London, Bolton potato grower got the jump on his fellow farmers this winter. London drives a co-operative milk truck to Hartford daily, and has the entire afternoon to himself, to sleep, work or catch up on his reading.

On January 27 London hitched up his horses and turned over an acre or two and repeated with a full afternoon on the sulky plough last Tuesday. Consequently, a large part of the London farm is already for the harrow next day. London reported the ground filled with worms and grubs.

A former resident of northern British Columbia, London there learned the trick of taking advantage of the mid-winter "thaw" to perform necessary spring work.

MAINE MEMORIAL DAY IN STATE PROCLAIMED

Governor Cross Designates Feb. 15 As Day For Commemorating Sacrifices In Spanish War.

Gov. Wilbur L. Cross has issued a proclamation setting aside next Wednesday as Maine Memorial day. In his official statement Gov. Cross said: "In the rapid current of life, the secured that occurred in the childhood of those now in middle life have become part of the settled history of the Republic.

"When Admiral Dewey sailed into Manila Bay and captured the city without the loss of a man our nation suddenly became conscious of world influence and world power. I recommend that in the public schools the unselfish idealism that marked the Spanish War be recalled, to keep alive the realization that a nation's greatness lies in its willingness to protect and defend weaker neighbors."
