LEADERS PREPARE TO RENEW BATTLE ON BEER TUESDAY

(Continued From Page One)
statement said, "to provide at this session for the possibility of repeal of the 18th Amendment. It is not committed to a system placing the control in the hands of the county commissioners."

Peck's Argument
Declaring more centralized control would result in the injection of less politics in the liquor traffic, he said, "the higher you go in the scale, the further you get away from politics, and the most corrupt of our governments are usually our local governments."

The statement followed one issued by Governor Cross who favors the bill proposed by the Buckley study commission, in which he charged the bill was the "worst possible solution," of the problem and would endanger the possibility of repeal.

He prophesied that after six months of control under the measure, the legitimate leaders would drop out, leaving the field to those who obtained a beer license but who also illegally sell beverages of a higher alcoholic content.

"This bill separates the control of non-intoxicating beverages from the control of gin, whiskey, rum and other intoxicating liquors. The repeal of the 18th Amendment has not been accomplished as yet and requires the approval of 35 states before it becomes an accomplished fact. As firmly as I believe that ultimate repeal is necessary, it yet is in the future. x x x"

Eleven Republicans, principally from Tolland county, the balliwick of Major John Buckley, Republican chairman of the liquor control study commission, voted with the Democrats against a motion making the beer bill the order of the day at noon Tuesday without a public hearing.

"The Republican party is pledged x x x to exact legislation amending the state enforcement act making possible an adjustment in the event of a modification of the Volstead Act and repeal of the 18th Amendment. The Volstead Act, having been modified permitting the sale of 3.2 beer and wine, this bill serves immediately to meet that problem."

Baldwin made similar arguments and took the bill up clause by clause, explaining the reasons for the recommendation of each, at the Republican caucus. Only one question was asked of him by the assembled Legislators, and in reply to that he said the measure did not prevent the manufacture of home brew for home use.

Representative Peck, on the other hand, criticized the bill for placing the power of licensing in the hands of the town clerk, and the powers

tions of the kind directed at Long were presented to Congress.

Freedom of Press
Freedom of the press, as Ashurst saw it, meant a "citizen may publish whatever he sees fit, but he must take the consequences for his publication before the courts of the country."

He contended Long undoubtedly had the right to bring suit for damages if he had been libeled. Long disagreed, but said the matter should be cleared up and if such documents were privileged "we should amend our rules."

Directing his attack on John M. Parker, one of the signers of the petition charging him with "corruption" and "dishonesty," Long said the petition was the "same old claptrap and rottenness that he has undertaken to parade over Louisiana for 12 or 15 years."

PRISONER SLASHED IN TOMBS PRISON

Tells Court Other Prisoner Cut Because He Was Not Supplied With Clean Linen.

New York, April 14.—(AP)—William Sands of (23 Burnside avenue) Newport, R. I., was slashed with a razor blade on his back and left cheek today as he entered his cell in Tombs prison.

Later he named another prisoner, Harry Tester, awaiting trial on a robbery charge, as his assailant. His injuries were trifling, and he said he thought Tester was angry at not getting clean linen for his cell and blamed Sands, who is "captain" of the cell tier.

BONDS SOLD AT AUCTION

New Orleans, April 14.—(AP)—C. A. Tessier, Jr., public auctioneer, announced today that approximately \$900,000 was realized yesterday at the end of the first day's auction of stocks, bonds, mortgage notes and other collateral worth \$12,000,000 at par, which had been pledged for Reconstruction Finance Corporation loans by the Union Indemnity Company, Inc., and the Union Title Guaranty Company, Inc., now in receivership.

The auction will be resumed tomorrow and continued until the collateral is disposed of. Tessier is acting for the United States District Court in the auction. The auctioneer said that bids in nearly all instances were far below par.

TO SUPPORT GOVERNOR

Waterbury, April 14.—(AP)—Horace D. Tait, headmaster of Tait School, Waterbury, has forwarded to Senator Howard Aborn, a petition signed by 122 voters of Waterbury, urging support of Governor Cross' plan of liquor control by a state commission. The petition specifically condemns control by county commissioners or by municipal officials. In a letter to Senator Aborn, Mr. Tait states that the signatures were obtained in 24 hours and that they might be considered only one-half or one-third of the number which would be obtained before the petition has finished its circulation in Waterbury. Copies were sent to Governor Cross, to Representative Baldwin and to local representatives.

EDWARD J. KELLY CHICAGO'S MAYOR

One Time Pick and Shovel Man Now Heads Second City in United States.

Chicago, April 14.—(AP)—A one-time student undertaker who abandoned his mortician apprenticeship to take up a pick, shovel and ax to start at the bottom of an engineer's career, today was at the helm of the country's second city.

He is Edward J. Kelly, whose Irish parents, Stephen and Helen Kelly, apprenticed him to an undertaker. He got out of that business and worked his way to the top of the engineering profession.

Kelly, 38 years old, six-foot Democrat, who was president of the city's youth party system for nine years and director of a \$120,000,000 sanitary district improvement project, was elected late yesterday by the City Council as "World Fair" mayor to succeed Anton J. Cermak, fatally shot at Miami, Fla. He was named after the veteran Democratic leader, Patrick A. Nash, declined the honor because of his age. He is 70.

Republicans Protest There were cries from Republican members of the council of "Democratic machine politics," after Kelly had been named, and they threatened to contest his selection as illegal. They had tried to force a primary and election on the mayoralty and opposed legislation adopted by the State Assembly permitting the council to make its own selection.

Acting Mayor Frank J. Carr resigned immediately on Kelly's election, which was by unanimous vote of the Democratic members. Three Republicans declined to vote. Kelly is a Chicago product. He was born here and it was here that he got his inspiration to become an engineer by watching a group of workmen lay out the World's Fair of 1893. That sight caused him to give up undertaking as a life's work and pick up an ax to wield for the sanitary district in 1894. He supplemented his practical education by night school study and a course of engineering at Notre Dame.

HEBRON Edward A. Smith has begun tearing down the old Riley Woodworth house, for many years known as the Carver place, at the request of the new owner of the site, Fraser B. Wilde of West Hartford.

County Agent Eugene E. Tucker was making a report about the town this week in the interests of the Farm Bureau extension service.

The Rev. J. H. Fitzgerald, rector of Christ church, Bay Ridge, New York, has sent a gift of Easter Bibles to be placed on the altar of St. Peter's Episcopal church on Easter Sunday. Mr. Fitzgerald is the son of a former rector of St. Peter's, the Rev. John Fitzgerald. He always remembers the church on Easter Sunday. Mrs. William Carroll of Hartford sent her usual check for Easter flowers. Mrs. Carroll is the daughter of the late F. Clarence Bisell, formerly of Hebron and an organizer of the church for many years.

LATE D. A. BLAKESLEE REMEMBERED EMPLOYEES Former Lt. Governor Left Legacies Ranging from \$5,000 Down to \$200.

New Haven, April 14.—(AP)—The bond of friendship which existed between the late Dennis A. Blakeslee, former lieutenant governor, and veteran employees of C. W. Blakeslee and Sons, Inc., of which he was active head for many years, is manifest in his will just offered for probate. There are legacies to many employees, men and women, ranging from \$5,000 down to \$200. After a number of bequests in organizations in which he was interested, Blakeslee provided in his will that his widow should have \$200,000 in cash and the rest of the estate should be divided among his six children. The value of the estate was not indicated. The will was admitted to probate in the town of New Haven.

Among the public bequests are \$10,000 to the Dwight Place Congregational church, \$5,000 each to the New Haven Orphan Asylum and St. Francis Orphanage, and \$2,500 each to the Jewish Home for Children and the Home for Cripple Children, all of New Haven.

A Good Friday service was held at St. Peter's church (this morning) at 11 a. m., Allan L. Carr, reader, in charge.

SPAIN CELEBRATES 2ND ANNIVERSARY Groups Gather in Front of Churches to Sing Religious Songs—Minor Riots.

Madrid, April 14.—(AP)—Spain today celebrated the second anniversary of the second republic. A forty-page special edition of the newspaper Sol was brought out commemorating the anniversary to which President Alicia Zamora, member of the Cabinet and other government leaders contributed articles.

Despite a government authorization to remain open, forty-five of the 66 theaters in Madrid were closed. Meanwhile reports said that churches all over Spain were crowded for Good Friday services. Catholic newspapers did not publish, but others appeared. Commerce and industrial work were closed throughout the country except in a few isolated cases.

In Seville groups gathered at the doors of several churches singing religious songs, while near Madrid the churches anti-Communist manifestations were staged. One person was seriously injured and several received slight injuries when police were forced to intervene in three minor disorders.

A parade in which more than 40,000 persons participated was staged at Barcelona. Special delegations came from the entire Catalan region for the event. Police arrested several anarchists who attempted to interrupt services at St. Andrew's church.

TURKEY PRODUCTION INCREASES IN STATE Is Important Agricultural Enterprise Within Four Years—Worth \$200,000.

Hartford, April 14.—Turkey raising in Connecticut has changed during the past four years from comparative unimportance to a real agricultural enterprise on several hundred farms. Comparative figures tabulated by the State Department of Agriculture show that the number of turkeys increased more than 100 per cent from 1929 to 1932.

The growth of the industry in Litchfield County, while not as spectacular as that in some of the others, is considered by many farm leaders to be along sound and permanent lines. In 1929 Litchfield County had 1,750 turkeys and in 1932 this number was increased to 2,834. Fairfield County increased its turkey population during the same period from 1,785 to 5,000 birds. Hartford County has been averaging approximately 7,000 birds a year for the past four years.

Middlesex County had 1,145 turkeys in 1929 and 4,779 in 1932. New Haven County increased its number from 2,100 in 1929 to 6,120 in 1932. The largest turkey producing county is New London with 5,069 in 1929 and 18,361 in 1932. Tolland County had 3,513 in 1929 and 6,877 in 1932. Windham County increased its number of birds from 2,848 in 1929 to 6,864 in 1932.

The rapid increase in turkey production is believed by the State Department of Agriculture to be accounted for through the inauguration of a sound turkey marketing program for Connecticut farmers which involves advertising, grading and official inspection of "yellow-tagged" birds. This program has developed the confidence of consumers and has returned to producers a relatively favorable price for turkey meat. However, the prices received last year were not as satisfactory as growers might wish and the prospects for the continuance of low

prices this year may indicate that the turkey crop will not show the same rapid increase that it has experienced since 1929.

SIX ROAD JOBS ARE ANNOUNCED BY MACDONALD

Three Are Town Aid, Others Miscellaneous—Bituminous Highways Being Patched.

Highway Commissioner John A. Macdonald today announced six new highway projects, involving the improvement of slightly more than five miles of road and the construction of one new bridge. Three of the projects will be carried out under the Town Aid appropriation, while the others are of miscellaneous types.

Sealed bids on the six new jobs will be received from contractors at the Highway Department headquarters in the State Office Building, Hartford, until 2:00 p. m., Monday, April 24, 1933. The projects are as follows:

- Town Aid Projects: Town of Durham: About 9,960 feet of Trap Rock Waterbound Macadam on Farmee Hill Road, Maiden Lane and Haddam Quarter Road. Town of Old Lyme: About 5,800 feet of rolled bank run gravel on the Four Mile River Road.

Town of Bridgewater: The completion of about 11,250 feet of rolled crushed limestone on the Second Hill and Keller Roads. Miscellaneous Projects: Town of Fairfield: About 900 feet of grading and rolled bank run gravel surface on the King's Highway Extension.

Town of Fairfield: An eight-foot span concrete slab bridge and about 250 feet of rolled bank run gravel approaches on the Easton Road.

HIGH WATER EXPECTED TO CUT TROUT CATCH

Heavy Rains Swell Streams—Season Extended to July 14 by New Bill.

Hartford, April 14.—Recent heavy rains in southern sections of the state, and snows along the northern border, which have caused many Connecticut streams to overflow, are expected to curtail catches of trout fishermen when the season opens tomorrow, Superintendent Arthur L. Clark of the State Board of Fisheries and Game said today.

Two bills, signed by Governor Cross the past week, extend the fishing season from July first up to and including July 14 and reduce the daily creel limit to 15. The legal weight limit remains at 10 pounds per day.

"Plans of the State Board of Fisheries and Game to conduct a statewide survey of trout movements by liberating 18,000 tagged trout have been completed," Superintendent Clark said. "Due to the large number of anglers who are expected to be out on the state-leased streams Saturday and Sunday, seven special prizes will be awarded for tags secured on these two days and returned to the Hartford offices of the board."

"The Union Hardware Co., U. S. Rubber Co., Horton Manufacturing Co., Beacon Falls Rubber Co., Alling Rubber Co. and Hodgman Rubber Co. are cooperating by supplying prizes. Tags returned with the following numbers, or numbers nearest them, will be declared winners: 5555, 11,631, 7777, 6968, 6362, 18,800 and 9779."

Data desired by the board, which must accompany tags returned if the angler wishes to become eligible for prizes, is as follows: (1) Name and address of angler, (2) name of stream, (3) date trout was caught, (4) species and tag number, (5) location in stream caught, i. e., above or below leased area, upper or lower portion of leased area, (6) location in relation to landmarks. Returns are to be made within seven days after tag is found. Other prizes are to be awarded after the season closes.

FIVE BURNED TO DEATH Roanoke, Va., April 14.—(AP)—A family of five lost their lives and two firemen were overthrown by smoke when W. B. Garlands general store at Buchanan burned early this morning.

The dead were Mr. and Mrs. Roy Layman, their son, about 18 years old, a daughter about 14, and a baby. A volunteer fireman, Jack Fitch, son of the mayor, was brought to the Jefferson hospital here. Fitch signaled the presence of the bodies when he climbed from a ladder into the apartment.

MOTOR AUTOCRACY. Elimination of the efficacy of the automobile junk yard law by the Supreme Court of Errors does not result from any defect in the principle of protecting the public welfare...

It is regrettable that the validity of the junkyard law is called into question by the court's condemnation of this part of it.

This is a long way, however, from being the only instance of autocratic powers of very doubtful constitutionality bestowed upon the Commissioner by the statutes.

Perhaps some of these fine days the final phases of that section will come to the attention, officially, of the Supreme Court of Errors.

As a matter of fact, when the statute establishing the powers and duties of the Commissioner of Motor vehicles was drawn its framers apparently forgot all about these being such a thing as a Constitution.

COVERING UP. The policy of "keeping it out of the papers"—first, second and last recourse of any number of persons, concerns and institutions whenever anything unpleasant happens to them—worked about as well in the case of the Walker School at Stimbury as it usually works.

It now appears that before the configuration of Wednesday there had been a series of small fires, no fewer than five, at the institution within a few weeks. These were, as might have been expected in any similar case, kept from public knowledge.

than what has now transpired. It has been put out of business, besides suffering heavy financial losses. Possibly it may have been a ramification of the same policy of keeping its affairs to itself that stimulated the school management in getting the girl pupils out of town in such haste. Any adequate police inquiry into these fires would, of course, contemplate the testimony of a considerable number of the students.

HUEY LONG. The petition of Louisiana citizens, asking the United States Senate to investigate accusations they bring against Senator Huey Long, and to eject him from the Senate if the charges are substantiated, certainly is worthy of the respectful consideration of the membership of that body.

The very nature of the charges make it impossible for the Senate to ignore them because according to the accusations set up in the petition Long has so corrupted the government of Louisiana that nowhere else but in the United States Senate have the citizens of that state any recourse whatever.

MOSCOW "TRIALS." Americans, and particularly Americans of immediate British antecedents, have been greatly at a loss to know what to think about the trial of a number of British engineers in Moscow on charges of sabotage.

Now, however, it develops that what the Soviet government is trying to do is to show that these engineers constituted part of a system of espionage by which the British government was endeavoring to obtain military, political and economic information concerning Russia.

starch. Remove from the oven and turn out onto a clean cloth and crush with a rolling pin. Next mix thoroughly with a cupful each of finely chopped walnut meats and celery. Moisture with canned tomato juice to a consistency to mold into a loaf and bake under a cover for about thirty minutes in a hot oven, then remove cover and brown under the flame. Serve hot in slices with a sauce made of the remaining tomato pulp which has been stewed down to the thickness desired, adding a little butter and chopped parsley to each serving. Sufficient for four.

pancreatic secretion. What does it mean? Answer: The pancreas has at least two different forms of secretion. One form is secreted through ducts and this is the juice which is concerned in digestion and which contains three principal ferments, namely: amyllopsin, trypsin and steapsin. The other form is not secreted through the ducts and is called a secretion of a ductless gland, or an internal secretion, being called by this term it is thrown directly into the blood stream.

ant derangement resulting from disorder of the pancreas. (Removing Papilloma) Question: Mrs. H. writes: "Please tell me how to remove a papilloma from the bottom of my little boy's foot." Answer: About the best and quickest way to rid your little boy of the papilloma on his foot is to have a doctor remove it. This is usually done by burning it out with a strong solution or with the electric needle. Either way, if done competently, is effective. (Lowered Blood Alkalinity) Question: O. I. asks: "What will take the acid out of the blood?" Answer: The blood is never acid until death, but most people who are ill have a lowered alkalinity of the

blood. This can be corrected by living on a well-balanced diet such as I recommend in this column each week. HITLERITES MOBBED Metz, France, April 14.—(AP)—A group of brown-shirted Hitlerites coming from Ellersfeld, Germany, in an automobile bearing a swastika flag, was requested by police today to return to Germany after they had been mobbed by a crowd. French authorities were advised of the incident by police, who were obliged to rescue the men from possible violence by a crowd which gathered around the car quickly when it stopped. The nests of bald or yellow eagles weigh from 10 to 15 pounds.

REPORTS BUSINESS ON A SOUND BASIS

Mercantile Review Says There is Upward Trend in Nearly All Lines.

New York, April 14.—(AP)—Influenced by the expanding force of an upward seasonal trend, developments this week have contributed constructively to the broader forward movement in nearly all branches of trade.

While trade expansion during the week was most marked in wholesale and retail distribution, there was a reflection of higher manufacturing schedules in the increase in the number of employed and the decrease in the number of relief beneficiaries which dropped for the first time since fall.

Retail buying this week was the largest since the Christmas shopping season and in many stores volume ran ahead of that for the busiest days of December.

WOMEN VOTERS FAVOR STATE LIQUOR CONTROL

Claim Efficient Government Would Result—Have Not Taken Stand on Prohibition.

The Connecticut League of Women Voters has declared its support of centralized non-political control of liquor licensing in the state.

The Board of Directors of the League at its meeting in Hartford April 12 sent the following letter to the members of the legislative Judiciary Committee and the Governor:

"While the League of Women Voters has taken no stand on the wet or dry issue, it is very keenly interested now in the question of the administration of liquor licensing as an efficiency in government problem.

One I Love

JANET HILL breaks her engagement to ROSE CARLYLE...

She rubbed his head and the cat, in response, raised his pink nose high in the air...

Janet still loves Rose. She has become friendly with JEFF GRANT...

Janet nodded. "Yes, she knows about it. The paragraphs below the picture gave a brief and somewhat garbled account of the loss of the necklace..."

That evening Betty discovers her pearl necklace is missing...

"Do you mean Marie?" Lucy asked excitedly. "She's the only one they could mean! My stars—"

NOW GO ON WITH THE STORY

CHAPTER XLIV. Rose's voice came clearly over the wire. "Hello, Janet. This is Rose. Have you seen Betty today?"

"Oh, I haven't," Janet said. "I thought she might have dropped in to see her mother..."

"No, Mrs. Curtis talked to her on the telephone this morning. She promised to call if there was any news."

"But why did you do it?" Lucy gasped. "Didn't you know you'd get caught?"

"There's something funny about your voice. It doesn't sound right. Now remember, there isn't anything for you to worry about..."

"The matter," Mrs. Curtis said, "is in the hands of the police. I do not want any more talk about it and am particularly anxious to keep it out of the newspapers..."

"No they won't. I don't believe it. Mrs. Curtis doesn't. And Betty won't either after she's calmed down. There's nothing for you to worry about..."

"The sharp ringing of the doorbell brought the girl to her feet. Now! Now! They had come for her!"

Janet said goodby and put down the telephone. Rose's words had both warmed and frightened her...

"I am sorry that the second and third card had to be left to my imagination. But I could guess. Lucy would hang on to edge of the crowd..."

FOOT CARE FACTOR IN GENERAL HEALTH

To Preserve Body Beauty One Must Preserve Arch— Says Local Doctor.

We are all interested, or should be, in the proper care of the feet, for this is a matter of prime importance to health and comfort. To preserve body beauty you must preserve your arches...

Instead of receiving intelligent care, however, they have ever been neglected and subjected to unaccountable, unreasonable and injurious fads. This dates back thousands of years, in the instance of the foot binding of the Chinese, and early in the history of the white race can be found traces of freak-shaped footwear with various types of heels...

When in 1917, millions of men were called for military service, it was discovered that over 80 per cent of those who failed to pass the physical examination were rejected because of defective feet. This was an astounding revelation to the general public and may be said to have resulted in America becoming feet conscious...

KANSAS RELAYS TO FEATURE FIGHT IN 1500 METER EVENT

Rivalry Between Dawson and Cunningham to Flare Again on April 22; Venzke May Also Compete.

Kansas City, April 14.—A thousand young men, clad in running shorts, spiked shoes and thin jerseys, will brave April winds, possible rains and charley horses to take part in the eleventh Kansas relays at Lawrence April 22.

A rivalry that flared during the indoor season will continue when Glenn Cunningham, University of Kansas star miler, and Glenn Dawson, of the Tulsa Athletic Club, engage in the 1500-meter run.

Glenn Dawson... hopes to beat Cunningham again.

Anglers Find Devices for Fooling Members of the Finny Tribe This Season

By Jimmy Donahue, NEA Service Sports Writer. Old Ike Walton, the ancient guy to whom all anglers look for their inspiration, probably would turn over a few times in his grave if he could see the collection of new fishing paraphernalia tackle manufacturers are preparing to dangle in front of the ogling eyes of anglers this season.

Reel makers are apparently out to settle once and for all the question of supremacy of bamboo over steel and vice versa. One devotee of tempered steel has met this challenge after three years of laboratory experiment with a reel made in a new way from a new material.

Another steel rod maker has perfected a new type of hollow tube, drawn steel casting unit. This new rod is constructed of steel so fine that a one-piece tip weighs only two and three-quarter ounces.

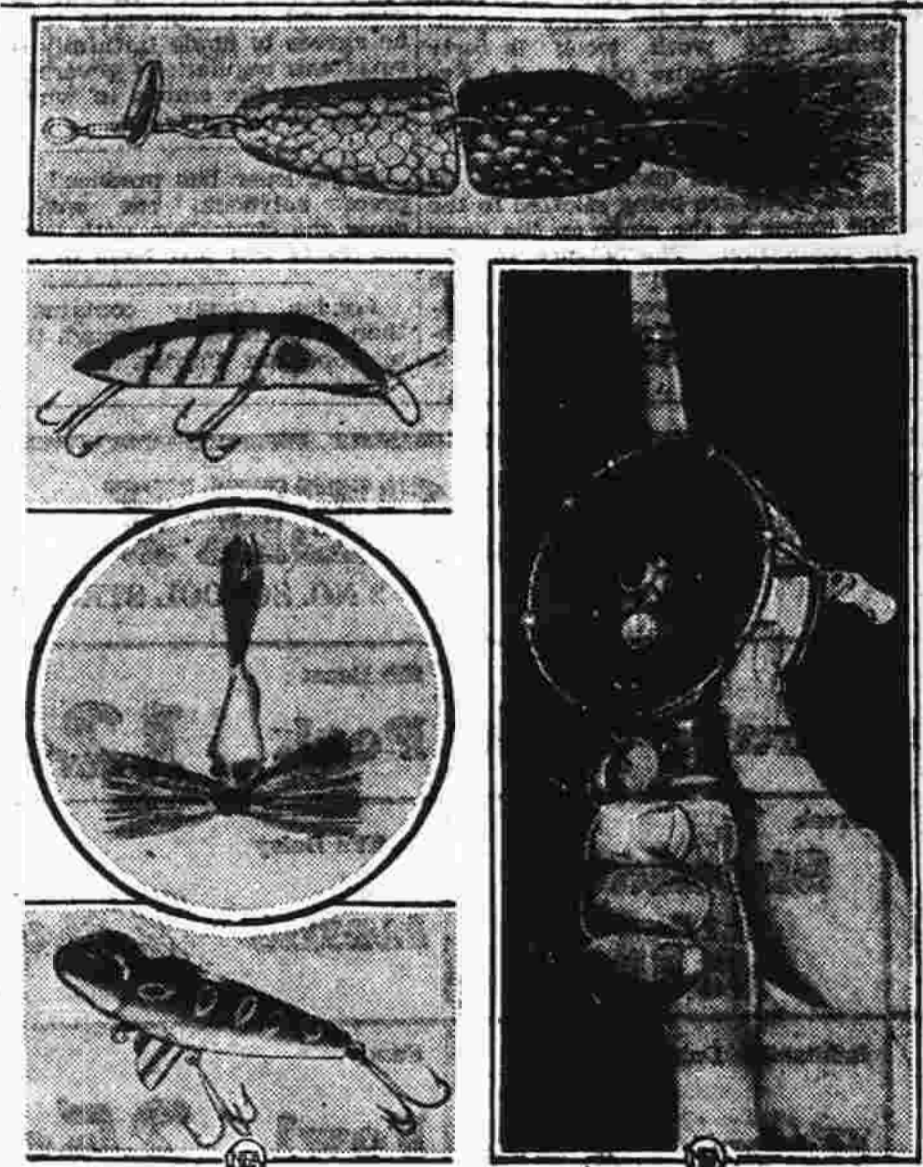

Two new types of bamboo fly and bait-casting rods have been shown. One features a chrome vanadium steel core through the center.

Reel manufacturers have improved their products and brought their prices way down. About the most outstanding mechanical development is the new "two-pawl" idea in bait casting reels, which offers a reversible pawl, thus doubling the life of this important part of the reel.

In the lure line, both fly and bait, the imaginations of the manufacturers have run rampant.

There are imitation flies, minnows, frogs, crawfish, shrimp, squid, worms, leeches and goodness-knows-what.

Three of the eye-catchers are the new "dini-le-moocher," "Jigger" and "Hilde-Flicker" lures for bait casting.

A new rod and a few new bait and fly-casting lures for fishermen. Above is "Minnie the Mocher", an evil-acting bait-casting lure.

and "Hilde-Flicker" lures for bait casting. "Minnie", so 'tis said, "has a sinuous wriggling motion that no rigid body bait can ever achieve."

The "Jigger" is a top water wiggler. It swims, darts, wiggles and wobbles with an appeal that "tempts, tantalizes and teases all game fish."

At present the new nymph patterns are of main interest to fly fishermen. These are especially effective in early season trout fishing. But there are plenty of new patterns of wet, dry, spent-wing, fan-wing and bi-visible flies to be had.

CREWS MEET TOMORROW

Long Beach, Cal., April 14.—The University of California varsity crew tomorrow will attempt to defeat two west coast rivals on the Marine Stadium course where last August it pulled to victory over Italy in the Olympic games championships.

California's opponents will be the University of Washington and the University of California at Los Angeles. Three oarsmen and the coxswain or the 1933 boat load were members of the Olympic championship eight while another was an alternate but did not compete.

YESTERDAY'S STARS

Larry French, Pirates—Limited Reds to four singles for 5-2 victory.

Sam West, Browns and Law Fonseca, White Sox—West made six straight hits; Fonseca batted in three runs with homer and two singles as Sox won 11-inning slug.

Osse Bluege, Senators—Led attack on Athletics with three hits and three runs.

Jim Collins, Cards—Made three of Cards six hits against Cubs and drove in all three runs.

Lou Gehrig, Yankees—Clouted homer with two on base and fielded brilliantly to lead in 4-3 victory over Red Sox.

Bill Knickerbocker, Indians—Hit home run with one on, in a 7-4 victory over Detroit.

PING PONG TOURNAMENT

In one of the ping pong town championship matches played at the Y. M. C. A. table last night, Mike Swilka defeated Earl Bissell in three straight games, 21-19, 21-9, 21-18.

George Sialer, former major league star, has formed a partnership to operate a sporting goods house in St. Louis.

CHAMPS TURN BACK BOSTON RED SOX IN OPENING GAME, 4-3

Dodgers Beat Phils, 5-2; Pirates Win 2nd Straight to Take League Lead; Other Results Yesterday.

The Major Leagues laid aside the opening day trappings today and settled down to the long march through the 154-game schedule which leads to the world series.

The world champion Yankees attacked more than 20,000 to their opening triumph over the Boston Red Sox and they treated the customers to a typical Yankee victory as a booming drive by Lou Gehrig in the first inning dropped into the bleachers for a home run with two on base.

The other opener brought out about 12,000 fans who saw the Brooklyn Dodgers turn back the Philadelphia Nationals 5-2. A double steal by Jake Flowers and Al Lopez and the ability of Southpaw William Watson Clark to bear down in the pinches stood out among the things that ruined the day for the home fans.

The mid-season pitching which was in evidence Wednesday when the clubs first moved into action cropped up again although there was one notable slugger and other indications of the arrival of the annual base hit and home run barrage.

The Pittsburgh Pirates got a four-hit pitching feat on top of their five-hit opener and turned back the Cincinnati Reds 5 to 2, to take an early but undisputed lead in the National League.

Bill Hallahan, St. Louis left-hander, and Guy Bush, Chicago's noted "Mississippi Mudcat" each granted six blows in a neat duel but Hallahan had the backing of Jim Collins and won 5-1. Collins pasted a homer with one on in the fourth and singled home a run in the ninth.

The Washington Senators rot both pitching and hitting as they trounced the Athletics collection of rookies for the second time, 11-4. Goose Goslin topped off the triumph with a homer.

Bill Knickerbocker, Cleveland's newest rookie sensation helped himself to a homer on his second day in the big league as his contribution to a ninth inning rally which netted the Indians 6 tallies and a 7-4 victory over Detroit.

The Chicago White Sox and St. Louis Browns went to the other extreme, pounding the apple vigorously through 11 innings before a four-run rally by the greatly revamped Sox brought them an 11-7 decision.

TOWN'S QUOTA FOR FORESTRY JOBS 40 MEN

(Continued From Page One)

amination he will be transported at government expense to Fort H. G. Wright on Fishers Island, opposite New London. At Fort Wright the applicant will be required to sign, under oath, his final application and pay allotment to the dependent named in his application memorandum.

He will also be given a final medical examination. If he passes the latter he will be accepted and his pay will start. He will be kept at Fort Wright for ten days or two weeks getting in good physical con-

dition. He, with others, will then be sent to the forest camps. It is expected that all applicants from this state will be assigned to forests in Connecticut. There will be 200 men to each camp. Some men may be sent further north in New England and even west if the quotas there are not readily filled.

40 Hours a Week

The work in the state and national forests is wholesome out-of-door work under the direction of experienced supervisors. The forest camps will be well supervised and sanitary, under army regulations. The work week is forty hours, eight hours per day for five days. The long week-end will allow time for baseball and other sports, including fishing and hiking.

Connecticut's quota is 3,250. Of these, 2,925 are being allotted to the 169 towns in the state on the basis of population. The balance, or 325, is being withheld to enable the foresters in the work areas to enroll trained supervisors and unemployed men of forestry experience

and to take care of additional allotments to communities where the greatest need exists.

Information Needed

The application memorandum is in the form of a questionnaire and the following information is requested: Name of applicant, place of naturalization if not a bona fide citizen, birthplace, usual trade or occupation, length of unemployment, extent of education, dependent relatives to whom parts of cash allowance will be allotted and the sums applicant desires each one to receive and the applicant's oath that he agrees to abide faithfully by the rules and regulations governing the work and the camps in which he desires to be employed.

MITCHELL TRIAL SET FOR MONDAY

New York Financier Pleads Not Guilty to Charge of Evading Tax.

New York, April 14 — (AP) — Charles E. Mitchell, former chairman of the National City Bank, pleaded not guilty today to an indictment handed up yesterday, charging him with evading his 1930 income tax.

Mitchell had previously pleaded not guilty to an earlier indictment charging him with evasion of his income tax for 1929.

Trial on the first indictment had been placed on the calendar for next Monday but when Mitchell pleaded not guilty to the earlier indictment, Judge George Z. Medalle announced that he would move on Monday to consolidate the two indictments.

Over the protest of Max D. Steuer, counsel for Mitchell, Federal Judge Frank J. Coleman thereupon set April 24 as the date for trial.

The Charge

Mitchell is accused in the indictments of evading income tax payments in 1929 and 1930 by creating apparent losses, in 1929 by creating stock to his wife at a figure far below what he paid for it, and in 1930 by the same means except that no member of his family figured in the transaction that year.

In each instance he is alleged to have bought the securities back for the same price he sold them after the sale had been used to indicate that he had no taxable income.

Steuer continued to protest after the trial date was set, saying it did not give him time for full preparation. The judge then offered to set a later date if Medalle agreed. The prosecutor said that if Steuer could show next week that he was really unable to prepare his case by the 24th he might present a motion to the court for a later date. The judge said he would consider such a motion, accompanied by "definite and concrete evidence" that a postponement was necessary, and there the matter was allowed to rest.

The indictments charge Mitchell with evading a tax of \$573,312.51 for 1929 and of \$186,791.09 for 1930.

FISHERMEN READY FOR SEASON OPENING

Hundred or More to Go Out Trying Luck Tomorrow — 16,000 Trout Tagged.

Manchester's hundred or more fishermen who, without fail, respond to the season's call when the trout season opens will join in the "surprise" party prepared by the state Fish and Game Committee with the rest of the devoted disciples of Isaak Walton early tomorrow morning. The surprise will be in the form of seven special prizes which will go to those who are fortunate enough to capture one of the "tagged" trout. The tags are to be found inside the fish when cleaned and will bear one of the following numbers: 5555; 13; 631; 7777; 8988; 62-62; 15; 850 and 9779. Sixteen thousand trout have been tagged for the purpose of a survey of trout movements.

The method employed by the Commission in placing the celluloid tags inside the trout is kept "state secret." It will not be until the fisherman arrives at home that he will learn whether or not he has been fortunate enough in landing a prize trout. Then if he finds one of the tags he may turn it over to the nearest warden and claim the prize that the tag number calls for.

The prizes, the Commissioner has stated, will be accessories dear to the heart of the angler, rods, lines and such.

Rains and snows during the past

weeks have swollen the state-leased streams and the water is cold, but it is expected that there will be plenty of fishing for the early fisherman tomorrow. Chief Warden A. Joseph Williamson of Wethersfield predicted today that anglers would find the trout in a fighting mood. Last year the opening day was so cold that ice formed on the lines in many places throughout the state.

The number of angling and combination fishing and hunting licenses issued this year is the lowest in many years. Licenses can be secured downtown at the F. T. Elish Company and at the office of the town clerk.

HUNT MISSING GIRL

Bridgeport, April 14 — (AP) — Police today turned their search for 14 year old Vivian Archambault of this city, to Westport, N. J., on receiving word that an automobile in which she drove away from here Saturday had been found in a garage there.

The girl was last seen in a dispute with a youth her own age. Witnesses said she leaped into a car owned by J. D. Patrick of Devon, which was parked near her home, and drove away.

Attendants in the Westport garage said she borrowed \$8 there, leaving the car as security. A note asking that the machine be returned to a Bridgeport address was found in it later.

"What a futile business it is to urge people to be good," sighs Dr. Harry Emerson Fosdick. Yet quite a few professional reformers have made the business pay.

YOUNGSTERS BEAT ELDERS IN TRAFFIC

Improve More Rapidly as Far as Safety is Concerned Says Bulletin.

The record of success in Connecticut in reducing the number of deaths and injuries which occur through the use of the motor vehicle would stand at a much higher place if the adult improved as a participant in traffic situations as rapidly as does the juvenile. Children are taking their places in traffic much more securely than are their elders, says a bulletin of the Department of Motor Vehicles today.

More Responsive

The reason for this is two-fold: Children are more responsive to educational and instructive efforts than adults, and, adults are increas-

ingly vigilant to protect children both through provision of special traffic officers at regular street crossing points and through generally bettered alertness on the part of motor vehicle operators.

But the record is still far from enviable from any standpoint. In three months of this year, for instance, 11 child pedestrians and one child passenger in a car have been killed. This is an increase of four over the same period one year ago but, again, the casualty record of the first quarter of 1933 is worse than that of 1932, an increase of 14 adult deaths having been recorded for the period. There were 20 fewer child pedestrian deaths in the year 1932 than in 1931.

In the five years ending with 1927 there were 1,229 adult and 404 child deaths in Connecticut. In the last five years, ending with 1932, there were 1,861 adult and 373 child deaths. While adult deaths increased 52.5 per cent, there was a

decrease in child deaths of 7.7 per cent.

Increases Noted.

Comparisons for these periods of injuries for adults and children show that while the number of adults injured increased 73.3 per cent, the increase in child injuries was but 8.8 per cent.

It is an illuminating story which the figures reveal for the 10 years, with a total of 3,858 deaths, including 3,061 adults and 777 children, and injuries to 106,560 persons, including 81,613 adults and 24,947 children. The total casualties, therefore, have been 110,418.

Comparative figures are interesting as follows: The 10-years' death total is 3,858. The 1930 census showed Bethel, in Fairfield County, with a population of 3,886; East Windsor, in Hartford County, with 3,815. The 10-years' total of injuries is 106,560. The combined counties of Windham and Middlesex had a population in 1930 of 106,307.

Have you ever made good bread, and poor biscuits, from the same sack of flour? This expensive trouble comes when you use a flour which is not properly "balanced".

When you buy Pillsbury's Best, you have a feeling of real security. For Pillsbury's Best is made of a blend of wheats which is "balanced" for unfailing success in all your baking—bread, biscuits, cake or pastry. First for the sake of your pocketbook, and then for your own peace of mind, be sure you get this "balanced" flour—the standby of millions of women for over sixty years.

Physicians will testify to the fact that thousands of their patients, by indulging an insatiable appetite, have eaten themselves into an untimely grave. Perhaps it was this thought that concerned the old colored woman in the story. This colored mammy viewed with misgivings the great amount of sugar cane being eaten by her six-year-old grandson. Eventually she warned the boy: "Chile, ain't Ah done do! 'o time an' agin dat youse eatin' too much cane? Don't yo' know, chile, dat cane killed Abel?"

ABOUT TOWN
 Miss Marion Pearl will entertain the Forget-Me-Not circle of Junior Kings Daughters at the home of her grandmother, Mrs. Julia Wood of Woodland street tomorrow afternoon at 2:30. Lois and Jeanette Buchanan will have charge of the program. A special rehearsal will take place at this meeting and a perfect attendance is looked for.

Mr. and Mrs. Peter Flynn and daughter of Cambridge street left yesterday for Fall River, Mass., to attend the funeral in that city today of Mr. Flynn's uncle.

Dr. Clyde R. Salmons of Hartford will be the guest speaker at the Monday noon meeting of the Manchester Kiwanis club at the Hotel Sheridan. He comes on the invitation of Dr. E. Y. Moore. Charles E. House will furnish the attendance prize.

Rev. and Mrs. James Greer and James, Jr. are guests of Rev. and Mrs. M. S. Stocking on North Main street, parents of Mrs. Greer. Mr. Greer will return to Hull, Mass., for the Easter services at his church.

Mrs. Frances Chambers of this town, past grand chief of the Pythian Sisters in Connecticut, accompanied the present incumbent of that office, Mrs. Sarah Hartt of Hartford, who made her official visit to the temple at Naugatuck last evening.

Mr. and Mrs. John Howard of Henry street have been entertaining their nephew, Howard Rowell, and his roommate, Albert Ferry, both of whom are attending the Bronxville, N. Y. training school.

Vesper will be held this evening at 7:30 at the Polish National church on Golway street and at 7:50 tomorrow morning an early mass will be celebrated by Rev. Peter Latas, with blessing of the fire and holy water.

The regular meeting of the American Legion auxiliary will be held at the State Armory Monday evening at 8 o'clock. At this time "Neighborhood Night" will be observed. Officers are expected from East Hartford, Glastonbury, Rockville, Mansfield and Coventry. Mrs. Oliver Charter will be chairman of the hostesses.

Charles W. Riley, proprietor of the Memorial Corner Store, at Main and Haynes street, is in a serious condition at the Manchester Memorial hospital. He suffered a hard cold which developed into pneumonia. His condition is not improving and he has been given oxygen treatment, but even this has caused little improvement.

Miss Jessamine Smith, librarian at the South Manchester Public Library, is spending Easter at her home in Rutland, Vermont.

The Men's League of the Center Congregational church will omit its meeting Sunday morning on account of the communion service at 9:30.

Rev. Watson Woodruff, Rev. Marvin S. Stocking and Rev. R. A. Colpitts will conduct the union service and will be in charge of the Holy Communion service tonight at 7:00 at the South Methodist church. The choir will render special music. Acting Organist G. H. Byles is preparing an unusually attractive program for the morning service at 10:40, Easter Sunday, which will conclude with the great climax of the "Hallelujah Chorus."

HIT CROSSING STREET MAN IS BADLY HURT

Henry J. Schaeffer of Garden Street Victim—School Teacher Driving Auto.

Henry J. Schaeffer, 73, of 38 Garden street was struck and seriously injured last night at 7:55 on Center street, near McKee street, by an automobile driven by Miss Arlyne E. Wilkie, of 160 Oak Grove street. Mr. Schaeffer was crossing Center street when struck by the right front fender of Miss Wilkie's car which was proceeding west on Center street. Miss Wilkie, who is a teacher in the Nathan Hale School, assisted by Timothy Hayes and James Crowe, removed the injured man to the Manchester Memorial hospital where it was ascertained that he had sustained a possible fracture of the skull, laceration of the scalp and an injury to his left eye.

In an effort to avoid striking the man, Miss Wilkie pulled her car left toward Davidson's filling station located at that point. Sergeant John McGilgan conducted the investigation.

At the hospital today it was reported that the condition of the injured man had improved somewhat during the night. X-ray pictures will be taken to determine the seriousness of the injuries.
