TAMING OF HORRORS DELIGHTS BIG CROWD

Miss Grace Proctor Scores Hit in Leading Role in Citadel Play Last Night.

Over 300 people were present last evening in the Salvation Army Citadel, when the Life Saving Guards presented the four act play "The Taming of Horrors."

The play opened in "Horrors" room at school where things were quite topsy-turvy. To make matters worse, she was informed by "Lippy" that she was to have a roommate, whom she hoped would influence her.

A few months later the girls who played basketball on Saturdays and the girls who were swimming enthusiasts found it difficult or rather impossible to get "Horrors" to join them, and were amazed to find her studying and doing things which she never did before.

The play designed to bring out the work of Life Saving Guards was very interesting and delighted the large audience, who seemed to enjoy the four acts immensely. All of the parts were well taken and the results showed intense training and rehearsing.

An instrumental quartet, consisting of Hudson Lyons, Alex Nicol, Jr., Maynard Clough and David Addy; Russell Clough as trombone soloist and Harold Turkington as piano soloist, furnished music between the acts.

INTEREST REDUCED ON UNPAID TAXES

State House Passes First Tax Relief Measure to Stop Foreclosures.

Hartford, April 27.—(AP)—Interest on unpaid taxes was cut by 7 per cent and the time limit on tax liens extended to 15 years in a bill passed in the House today.

The tax relief measure was the first passed during the present session and is designed to forestall foreclosures by tax collectors.

The bill, favorably reported by the judiciary committee, restores the 15 year lien which was in force previous to 1927, when the limit was cut to five years and later abolished.

Members of the committee said that the five year liens were now falling due and foreclosures were resulting.

MUSICAL ON SUNDAY AT SOUTH M. E. CHURCH

Director G. H. Byles Arranges Unusual Program for Regular Monthly Service.

The regular monthly musical service at the South Methodist church will be presented on next Sunday evening, April 30 at 7:30 o'clock. G. Huntington Byles, organist and director, has arranged a very interesting and pleasing program one that will appeal to all classes both from a musical standpoint as well as from the worship point of view.

As organ numbers Mr. Byles has chosen as his individual offerings, three outstanding compositions for organ, as follows: Adagio in E, by Frank Burg, Olive Maria; the Arcadella, and the Allegro from Symphony VI, by Ch. M. Widor.

The choral offerings are "The Radiant Morn" by Woodward, and the Litany in B flat by W. A. Mozart. The Litany is one of the lesser known works of this outstanding and world famous master in musical composition, and is being offered in this vicinity for the first time as far as can be learned. Where it has been presented it has always been acclaimed as a gem of composition that was too precious to be neglected, and it is not at all strange that it is becoming more widely presented as it charms and excellence becomes more widely known. It is a joy to have heard more of the theme as presented in this work.

Hallock, pastor of the church will speak at the Guild will serve supper at 6 o'clock at 60 cents per plate. In the evening at 7:30 each circle will respond to the roll-call, giving the number present and the motto of each circle.

CHAMBER WORKERS NEGLECT TO REPORT

No Results Announced Yet As to Money Collected to Aid Organization.

The failure of members of the drive organization of the Chamber of Commerce to attend the first report meeting at Watkins auditorium last night made it impossible to announce the progress of the campaign to raise \$5,000 with which to continue the activities of the Chamber through the remainder of the year.

The final meeting of the workers will be held tomorrow night at Watkins auditorium at 7:15 o'clock and it is hoped that all reports will be made at that time as the drive will then come officially to a close.

Only a small percentage of the organization of more than fifty workers was present last night. The reports of these few were most encouraging and if they can be taken as an indication of the final results the drive should prove an overwhelming success.

DEFER ACTION ON PURCHASE OF UTILITIES

men was elected last October, Aaron Cook, a qualified expert on financial matters, was added to the committee on the Cheney utilities. The original price set by Cheney Brothers and given the committee selected by the full Board of Selectmen, was \$1,500,000. When the report of Bennett and Terry was reported to the Board, the price quoted was \$1,200,000 as representing the true value of the properties. At a meeting of the committee Cheney Brothers pared \$50,000 from the engineer's reported value, representing the lowest figure to be given for the town for the combined properties.

The Chamber of Commerce became interested in the matter and a committee from that body was selected to study the situation, later to give a report of their findings to the Selectmen, which approved the purchase of the utilities at a price under a million dollars.

The proposal has been held in abeyance during the past few months due to uncertain conditions. It is expected that the next move will be up to Cheney Brothers. The company may later place the matter before the full Board for a final definite stand or may ask the town for a vote on the purchase at a special town meeting.

SPENCER IS PICKED FOR LIQUOR BOARD

(Continued From Page One) subject which is said to have been vexatious because of factional differences.

Was Lieut. Governor Spencer was lieutenant governor during Governor Cross' first term. He first entered the General Assembly in 1915 and during two terms in the House was on the finance committee.

The completion of the commission today turned attention to the probabilities of an early proclamation by the governor legalizing traffic in beer in the state.

In the General Assembly many amendments to the control law are to be offered and it was forecast by Legislators these probably will have to be disposed of before the commission can fully function and permits be issued.

HOLDS FIRST SESSION. Hartford, April 27.—(AP)—The state liquor commission met this afternoon for its first session shortly after its personnel had been completed by Governor Cross with the appointment of Samuel B. Spencer.

Senator Bergin, named as chairman said the commission planned to discuss its personnel and equipment needs preparatory to submitting its request for money to the Board of Finance and Control.

Speedy setting up of the regulatory machinery to the end that 3.3 wine and beer may be sold in Connecticut as soon as possible was promised by Bergin.

In making his appointments Governor Cross did not specify the terms of the three members. Under the control act, one will serve for two years, another four years and the third for six years.

Another petition from druggists asking for a liberalization of the provisions of the control act dealing with their profession was received by the Senate.

Kenneth Wynne, executive secretary to the governor, said "thousands" of requests for jobs in the control system have already been received.

DEPUTY SHERIFF DIES. Greenwich, April 27.—(AP)—Edward L. Mingo, 46, for four years a deputy sheriff of Fairfield county and a town constable the last two years, died at Greenwich hospital today from peritonitis following an appendicitis operation.

Mingo was in the restaurant for many years and had membership in several fraternal organizations.

HIGH SCHOOL NEWS

The assemblies today were put on by the Commercial Department and their program consisted of a comedy in one act. The cast of four characters had been well coached by Alice Aitken and Lillian Carney, and its smooth running gave evidence of much preparation.

Alice Aitken acted as general chairman for the play and working with her on the property committee were Winston Smith, Mildred Fremont, Helen Gustafson, Steffie O'Brien, Dorothy Harvath and Evelyn Fish, who assisted with the typing.

Following the play Principal Quimby gave out numerous awards which have been earned by students in swimming track, basketball and awarded to the following: Ernest "Butch" Neil, '33; "Put" Salmonds, '34; Tom Johnston, '34; "Chet" Sen-drowski, '34; "Chaucky" Smith, '34; Tom McParland, '33; "Gelop" Enrico, '33; "Teddy" Tedford, '33; Francis Mahoney, '33; "Pop" Rutinow, manager '33; "Joe" Sartor, '33; Orlando Garrone, '34.

The room winning the Girl's Homeroom Basketball tournament was awarded the banner for their excellent record. The finals were held between Room 14, Franklin, and Room 15, Main, the first game ending in a 14-14 making it necessary for one more deciding game, which ended 25-9 in favor of Room 14 of the Franklin Building.

Letters for swimming were awarded to the following: Cliff Treat, Wil-stuart Joalin, Elmore Hultine, Wil-stuart McCormick, Alton Cowles, Robert Carney, George Leary, Robert McConnell, Ewald Stechholz, Dana Cowles, Captain, and Francis Deleferas, Manager.

Special awards were distributed to members of the indoor track team who placed in events either at the indoor meet at Wesleyan or at Hartford, Arthur Patton, tie for second place in the high jump at the Hartford Armory meet, and won first place in the high jump in the State indoor meet at Wesleyan.

Robert Smith, Harold Civello, Gordon Fraser and Arlon Judd received a medal for placing second in the Class A 700 yd. relay at the State indoor meet at Wesleyan.

Robert Lane received his medal for winning first place in the high jump at the Hartford Armory meet while Earl Shedd was awarded his medal for placing first in the 600 yd. run at the same meet. Ray

ABOUT TOWN

The Italian Democratic club will hold a meeting tomorrow evening at the office of Dr. E. G. Dolan in the Johnson building on Main street.

PROMINENT PERSONS IN KIWANIAN SHOW

Clarence P. Quimby to Fill Role of Soloist in Monday Night's Minstrels.

"Minstrel Chicks," the show to be presented by the local Kiwanis club at the High School hall next Tuesday evening, for the benefit of the Kiddies Camp at Hebron, will open with a series of specialty acts, featuring a number of prominent local persons.

William Halsted and Thomas Bentley will be seen in a short comedy sketch, after which Clarence P. Quimby, high school principal, will make his debut as a vocal soloist in what is being called a vocal pocket revue.

Miss Aryene Moriarty, widely known local singer, who has been ill with a cold, will also appear on the program, a fact that has greatly encouraged the Kiwanians as they feel Miss Moriarty will contribute to the success of the production.

Eight trunksful of scenery and costumes arrived at the high school today. Director Jerry Novak will be assisted by a group of volunteers from the Sock and Buskin Club in putting up the scenery. Large pictures advertising the show, with lettering by Carl Jamroga, were distributed around town today. Rehearsals for the show are being held daily.

TO GIVE TWO LECTURES HERE BASED ON TRAVEL

Summer R. Vinton to Be at "Y" Saturday and Center Church Sunday. Considerable interest is evinced in the return engagement of Summer R. Vinton of Roselle, N. J., for two lectures here, Saturday evening at 8 o'clock at the Y. M. C. A., and Sunday evening at 7 o'clock at the Center Congregational church.

Mr. Vinton's lecture Saturday evening will be on "Pagoda Land." He was born in Burma, his parents being pioneer missionaries from Eastern Connecticut. By long residence and extensive travel in both the Near and Far East, he is well qualified to describe the people and their customs.

On Sunday evening at 7 o'clock Mr. Vinton will repeat his lecture on "The Beauty of the Commonwealth," by special request of the Cyp Club and the Manchester Garden club. Pictures of landscapes and flowers have been taken all over the world and their natural colors reproduced by Mrs. Vinton. Flowers inspired some of MacDowell's most descriptive music, and in this lecture the synchronization of music and flowers adds to the effectiveness of the program.

The young people's choir of the Center Congregational church will sing, and the organist, Mrs. Jennie Aborn will play MacDowell's "To a Wild Rose," "To a Water Lily," "In Deep Woods," "To An Old Pine Tree" and other compositions, while Mr. Vinton's dissolving stereopticon will

THURSDAY, APRIL 27.

INFLATION NEARLY HERE.

There is every prospect that the inflation legislation now pending in Congress will be enacted into law substantially in the form in which it was expected to be passed by the Senate today. The House appears to be waiting for the opportunity to adopt, not to importantly change, the Senate measure. There appears to be scarcely a chance of a break-down in the plans of the majority.

That the methods by which inflation is being brought about are revolutionary there is no denying. That the purpose to be attained is risky we do not believe. An enormous amount of power appears to be placed in the hands of one man. Yet the individualism of that power is more apparent than real. President Roosevelt can do nothing under that legislation beyond what Congress expects him to do—nor beyond what the great majority of the people want him to do. If he should do much less than the utmost permitted he would simply be failing to use the power delegated by Congress. He is not much of a free agent; merely the executive of the will of Congress and the nation.

The great purpose of this legislation is to break the strangle hold of an erroneous monetary system on the industry, agriculture and trade of America. There is every reason to believe this is about to be accomplished.

After that, with our national body liberated from its bonds, the country will have to learn how to use its hands and feet again.

NOVELS AND MOVIES.

Sherwood Anderson, who is usually ranked among the half dozen finest novelists in America, believes that writing is a dead business. The "great American novel" that everybody has been waiting for, he says, will never be written; instead, we shall have a great American movie.

This, he points out, means that the ardent young writer who feels that he is a budding genius should not waste his time trying to write novels; he should look to the moving picture if he hopes to get anywhere.

"The movie really reaches the people," says Mr. Anderson. "In a small town everyone goes to the drug store after the show and talks it over, and then they go home to tell the plot to granddaddy, whose head knee has kept him in his chair, and they discuss it for a week until a new one comes.

"Movies should be simple. I am not sure I believe in propaganda movies, although Eisenstein's 'Potemkin' with that wonderful sense of the terror on the long flight of steps, was a great work. But the movies I have in mind should be simple stories of life in this country, in America."

Just to clinch his argument, Mr. Anderson points to the contrast between the movie-makers, whose product goes before millions upon millions of people, and the novelist, who feels lucky if he reaches as many as 10,000 people.

Despite the obvious fact that the average serious novel towers above the average program movie, intellectually, as Pike's Peak towers over a prairie dog's ear mound, it is more than possible that Mr. Anderson is entirely right.

With all of its faults—and they are almost beyond counting—the moving picture does offer to the artist a field which is simply breathtaking in its breadth and scope. To date the possibilities have hardly been tapped. But they are there, waiting to be exploited; and when the exploitation comes we are quite likely to present the world with a new richness of artistic creation that will be nothing less than dazzling.

So far the arts in America have

not taken very deep root in the life of the ordinary man. They have a way of resembling shoots grafted onto the main stem. The movie offers a chance for an art that springs up from the grass roots; an art that could express and transmute the hasty, many-sided, turbulent and externally vital life of a great nation.

MUNICIPAL BONDS.

The experience of Manchester, New London, Baltimore, Pittsburgh and any number of other municipalities in the matter of bids for their bonds is becoming significant. It might not be improper to say that it is becoming suspicious.

The procedure seems to follow a regular program. A municipality of unquestionable solvency proffers an issue of bonds well within its legal limits. The security for those bonds is every dollar's worth of property in the place—in the worst of times many times exceeding the city's or town's indebtedness. The rate of interest is, for this class of securities, high. Various representatives of investment institutions visit the town and verify its financial statement. On the day when the bids are to be opened there are no bids. Then the municipal authorities receive an offer from some one bank or bond house to take the issue—at a discount. In distraction the offer is accepted and the deal goes through. A week afterward these same bonds are advertised in the financial columns of the big city papers at a price to net the investor about one and a half or two per cent less interest than the municipality is paying. In other words the first purchaser cleans up—as its profit a quarter or a third of the entire amount of the issue.

Perhaps these percentages may be a little overdraw—but not much. One does not have to be a morbidly suspicious temperament to wonder if there is, in the municipal bond market, a racket. Whether there is not collusion among these banks and bond houses that with such unanimity are "laying off" city and town bonds. Whether there is not either an expressed or tacit understanding of the "you take this and I'll take that" effect—like bootleggers and their territories.

There's an odor in the air—of something that is not keeping well.

OUR LIQUOR LAW.

It has not occurred to this newspaper that, in these days of stupendous events transpiring or pending, it has been a matter of the very utmost importance whether the legal sale of beer in this state began last week or this or the week after next; whether, as a matter of fact, the liquor control measure adopted by this General Assembly was merely silly or sillier; whether the Republican or Democratic battles over the liquor laws won the decision. Our view has been, and still is, that inexcusable neglect of any proper preparation made a satisfactory settlement of the whole question practically impossible at this session, and that any system of liquor control adopted now would inevitably have to be abandoned in favor of some more carefully thought out plan, probably as early as the 1938 legislative session.

One cannot fail to be impressed, however, in view of events of the last week or so, by the recollection that this presumably existing law is the one so loudly proclaimed by so many excellent citizens as calculated to "keep liquor out of politics."

Nobody knows for certain whether the law is a law or not; whether it is in being or whether it awaits birth on the first day of July. Yet it has already fostered, before it has really begun to breathe, a scordid battle for salaries and a frankly partisan tug-of-war for control of the commission's personnel.

All we had to do to get rum out of politics was to accept the Cross Commission's say-so. Well, it has been accepted. And now, if we may offer the suggestion—look at the darned thing!

We are going to need, in Connecticut, an entirely unofficial "commission" to draft, for the consideration of the 1938 General Assembly, an alcoholic beverage code based on the social and economic needs of the state of Connecticut. We are not, it is perfectly obvious, going to get any such thing out of the present set-up.

PAINLESS EXECUTION.

The death recently of Dr. Alphonso Rockwell passed almost unnoticed. But this man, a distinguished physician and scientist, put his mark on his generation in a way as striking and as bizarre as that of old Dr. Guillotine of France. For it was Dr. Rockwell who invented the electric chair.

Oddly enough, Dr. Rockwell himself was not in favor of capital punishment. But the electric chair was devised as a reform. A more humane method of taking life than

Health and Diet Advice

By Dr. Frank McCoy

AN OUNCE OF POISON A YEAR

Once in a while we find a substance which is poison to the body if taken to excess, yet a certain amount of it is necessary to health. One of these "kindly poisons" is iodine. While iodine is needed for normal well-being, yet the amount which the body needs is only one ounce a year. Not much iodine is needed in a day—about one thousandth of a grain.

One of the first legends about iodine comes from China and is about four thousand years old. It tells the story of a young wife who had a goitre. As we hear the story we can almost watch the tears come when each day she fasts about the house, and how much larger it is growing. Her husband wrings his hands in despair and goes to the temple for help where he is told to rise at break of day and hunt for seaweed along the shore. With thankfulness his trembling fingers pick up the precious seaweed and he burns it while she sits beside the small flame, ready to treasure the ashes. These ashes he believes to hold a miracle which will make his wife well again if they are mixed with wine. She drinks a little of the wine day by day and the lump grows smaller and smaller. Thus grew up the first story about the iodine which lies in the sponge from the sea.

Of course, we know that her goitre was cured because of the iodine in the ashes. For a long time the iodine supply of the world was obtained from ashes of seaweeds or kelp. The name iodine means "violet-like" and comes from the violet vapor which rises when the sea-weed is burned. It is a colorless, odorless liquid which is soluble in alcohol and in ether. It is a powerful antiseptic and is used in the treatment of many diseases.

AID TO HOME OWNERS.

The proposed new Federal law to provide mortgage relief for the owners of small urban homes may eventually have a very beneficial effect on depositors in frozen banks and on the tax incomes of cities and states.

It looks very much as if many frozen banks, with vast sums invested in small real estate mortgages, would be able to thaw out a good part of their frozen assets by exchanging their mortgages for the four per cent bonds of the Home Owners' Loan Corporation. This, naturally, would be a break for their depositors.

At the same time the scheme is designed so as to enable home owners to pay up their delinquent taxes; and such payments would lift a large part of the financial burden which today lies upon innumerable states and cities.

If this measure would achieve those two results, it would be very welcome indeed.

BEER AND YOUR FIGURE.

One of the minor issues of the day seems to be the question whether or not the consumption of beer will add unwanted pounds to the figures of women who want to be slender. Professor Lafayette B. Mendel of Yale predicts that it will.

A quart of beer, he points out, contains 646 calories—only 105 less than a quart of milk. Consequently, if you add a quart of beer to your regular daily diet, and don't cut down on anything else, you are pretty certain to take on weight, just as you would if you drank an extra quart of milk every day.

Of course, you can get around that by leaving off the meat a sufficient quality of some other food to balance the diet. And if you are a feminine beer drinker, and you want to keep your figure, it looks as if that is about what you'll have to do.

SWOPE CRITICIZES SHORT WEEK BILL

Washington, April 27.—(AP)—A new alternative to the Black 30-hour work week bill, under which all but agricultural and domestic labor would be limited to an average of 32 hours a week, was proposed today by Gerard Swope, president of the General Electric Company.

Mr. Swope's program after William Green, president of the Federation of Labor had pronounced his organization's general approval of the bill, a six-hour, five-day week proposal, and of change advocated by Secretary Frances Perkins of Labor for Federal control of production.

Green opposed Miss Perkins' plan for minimum wage legislation, saying it had been the rule that minimum wages set by the government became the maximum paid. He sought general application of the 30-hour week, however, while the bill as passed by the Senate exempts many classes of workers.

In his criticism, Mr. Swope said that the average working time he proposed would be limited in this way: No more than 32 hours per man in any 28 week period; no more than 48 hours in any one week; no more than eight hours in any one day.

The plan would be limited to two years as an emergency program, the Labor Department should have power to set minimum wages by localities for men, women or children; there should be a maximum of co-operation and administration by Chambers of Commerce and trade associations.

The limit of application would be such as to include all public and private employment except agricultural or domestic, for which earnings are less than \$1,500 per annum on a full time basis.

QUESTIONS AND ANSWERS

(Tuberculosis of Eyes and Throat)
 Question: No. 5 asks: "What are the symptoms of tuberculosis of the eyes and throat, and does it result in death? If so, in what way? Is it curable? If so, what is the treatment?" Tuberculosis of the eyes and throat would not be diagnosed by symptoms as they would resemble any inflammation of these regions. A microscopic examination of the secretions is necessary to definitely determine the condition. The disease is curable in the early stages. It would not necessarily cause death unless it was too far advanced at the start of treatment. The dietetic treatment is the same as that of tuberculosis of any other part of the body, and I shall be glad to send articles outlining instructions if you will forward a large, self-addressed, stamped envelope.

Silence from Mister John was an accolade.

The trial of Tom Mooney was continued to May 23 today by Superior Judge Louis H. Ward on the grounds that demonstrations outside the courtroom such as occurred today would prevent a fair trial on the old charge against him.

The ruling was made while the shouts of Mooney sympathizers resounded in the courtroom.

The continuance came even after the prosecution had informed the court it would not present any evidence in the case, which was followed by a statement from Frank P. Walsh, veteran attorney for Mooney, that the defense would continue to present testimony to prove the guiltlessness of Mooney.

District Attorney Henry, who for years has favored a pardon for Mooney on the grounds that he is unfairly convicted more than 20 years ago of homicide of the San Francisco newspaperman James J. Connelley, said today that he would not present any evidence in the case.

Any witnesses, including the late William J. Weaver, who testified that Mooney was innocent, will be called.

Down below, in the labyrinthine

mass of the Garden's basement, things were quiet, but uneasy. Cages, boxes, and many from winter quarters, paced their smaller cages. . . . Horses were jittery with excitement. . . . Ill-phants swayed and shuffed, and their keepers were vigilant, with newly-sharpened bull-horns ready.

Burst of all the behind-the-scenes people was Mrs. Phyllis Nelson, who now, after a career of Broadway musical comedy and working under the big top, is wardrobe mistress of the circus. She bosses nearly 50 dressmakers, tailors, creates and keeps in order the 1,700-odd costumes worn by the performers, and even makes the pants and hats and such for the animals. Several people assist her with stapled and taped tapes when she takes the measure of an elephant.

"Mister John" Missing, that there's just one thing wrong with the show this year, "Mister John" is still ill in Florida, and for the first time in anybody's recollection didn't get here for rehearsals and opening night.

There never was anyone like Mister John to whip a show into shape, and the veterans don't feel quite right about starting the season without him. He had a quick eye, and always noticed when anything was amiss, such as the second of faulty timing on the part of an acrobat. He always mentioned mistakes, too, but never offered praise. Silence from Mister John was an accolade.

However, everyone is doing his best for the show. The new general manager, Mr. Sam Gumpertz, they know that Ringling and Gumpertz were intimate friends for many years, and that Mrs. John personally selected him as his successor. The new executive, besides owning several shows, is the biggest showman in the East, and has operated the Islander Dreamland Park at Conay, and one of his recent stunts was the importing from Africa of a whole small village with 75 natives. P. T. Barnum would have loved him.

NEWPORT PROTESTS

STATION'S REMOVAL

Business Men Ask That Training Base Be Kept—Their Arguments.

Washington, April 27.—(AP)—Rhode Island representatives in the House and a delegation of Newport business men today protested to Assistant Secretary of the Navy Department against closing or curtailing the Newport training station.

The delegation called at the Navy Department while in the East and met with the chief of the Rhode Island State Democratic committee, and Attorney General John F. Hartigan, representing Governor Green of Rhode Island.

The Rhode Island men told Assistant Secretary Roosevelt there would be no economy in closing the Newport station. They said surveys had shown the cost of procuring and training 2,700 men and that should the yard be closed the government would lose heavily through deterioration of the permanent buildings there. The delegation stressed health conditions at Newport which they said were vastly superior to those at Norfolk and the Rodman report of 1922 which cited Newport as one of the most efficient stations in the country.

A. P. ANNOUNCES ITS RADIO POLICY

But Brief 30 Word News Bulletins Will Be Given Out, Resolution Declares.

New York, April 27.—(AP)—Regulations under which Associated Press newspapers may broadcast brief news bulletins over stations located at the place of publication were prescribed yesterday by the board of directors in conformity with the resolution passed yesterday at the annual meeting of the news association.

The board's resolution reads: Recognizing that any action at this time must be tentative the board prescribes the following regulations:

Resolved that Associated Press news of major local, national and international importance may be broadcast only by a member over a broadcasting station located at the place of publication in a brief bulletin form of not more than 30 words each, and one bulletin only on any subject. Sports events need not be subjected to the thirty word or one subject limitations. Such bulletins shall be broadcast only within the hours of publication of the member with full credit to the Associated Press and the member newspaper broadcasting. Such broadcast of bulletins shall in no way be connected with commercial programs; that EOB material, which is not subject to limited hours of publication, is excepted, but such matter shall be subject to the thirty word limitation. And be it further resolved that all resolutions heretofore adopted by the board concerning broadcasting inconsistent with this resolution, be rescinded.

That concerning the recommendation of the membership that added assessments be imposed upon members broadcasting, this question involving many complications, is deferred for further study. In pursuance of its policy to protect the news reports of the Associated Press the suit now pending in the Federal court to prevent the unauthorized use by radio such news reports will be vigorously prosecuted.

OPEN FORUM

Editor of the Herald: My reaction to the proposal of the Odd Fellows that the police commissioners take steps to prevent the overcrowding of the bus in front of their building was one of indignation. They're making a mountain out of a molehill. What harm does it do the Odd Fellows block if the bus on its northbound trips stops at the curb at that part of Main street? Does their property line extend to the curb? Do they control what goes on in the street?

There is not a more dangerous crossing in the state for pedestrians during times when traffic is at the peak, than this one from the Odd Fellows property to the "parklet" where the bus also stops for the convenience of passengers for the Green. It's a decided convenience for people doing business at the stores near the Center to be able to board the bus at the Odd Fellows building, as well as for passengers transferring from the Hartford trolleys. Why make it more dangerous and more difficult for travelers just because the Odd Fellows, for no good reason that I can see, object to the bus stopping on the highway at their property? Odd Fellows, Rebekahs, Grangers and all other lodge members who meet at Odd Fellows hall, if they board the bus at Charter Oak street for the Center parklet will be obliged to dodge swiftly moving cars to cross the street back to Odd Fellows hall.

Does the Odd Fellows object to the through bus for New York, Providence and Boston, taking and discharging passengers at their property which happens to be at the business center of the town? These buses might be switched over toward the federal building, the new postoffice, and while the police are on the controversy they can make a complete job of it.

SEEKS DIVORCE

Bridgport, April 27.—(AP)—During their ten weeks honeymoon in Bermuda her husband became intoxicated 20 times and she had to pay for the liquor. Mrs. Aline Stumser Von Rhuu, of Stamford, testified before Judge Arthur F. Ellis in Superior Court today in a suit for divorce from Henry Von Rhuu, actor and writer, whom she charges with intolerable cruelty. They were married in 1927.

ROCKVILLE

"RADIO FROLIC" PROVES TO BE GREAT SUCCESS

Miss Corinne Lee Wins Much Credit for Her Work in Producing Church Benefit.

Miss Corinne Lee was the recipient of much praise for the success of the "Radio Frolic" presented last evening in the town hall, Memorial Building, for the benefit of St. Bernard's Catholic church.

The presentation was in two acts and nearly three hours were needed because of the musicals taking part in the first act were "Dutch" Kraynig, Alderman Francis B. Cratty, Miss Rita Eocles, Mrs. Ida Bachroch, "Bud" Cratty, "Rob" Reedy, Miss Ora Moran, Robert Wendeliner, LeRoy Morgan. These were followed by three dance numbers by Miss Marie Ferrer, Miss Ruth Chapman and Mrs. Elmer Hartenstein. The star attraction of the first act was the song and dance by LeRoy Morgan necessitating seven encores.

Opening with the song "Shuffle Ono Buffalo" the second act was not to be outdone by the first act. The star attraction of the second act was the "Irish Jig" by Miss Mary Ellen Cosgrove and Patrick Naughton which met with hearty applause. Both are natives of Ireland and this was the last performance to be presented by Patrick Naughton before he leaves for Ireland Saturday.

Among the soloists in the second act were the following: Paul Homer, William Smith, Herbert Hunniford, Elmer Hartenstein, Arthur Brown, William Hahn and Charlie Preasler. Several novelty numbers were presented in the second act including the Hawaiian selections by LeRoy Morgan and Peter Duo. The comedy dance by Miss Grace Vanderman and Miss Helen Ertel also proved a feature.

The following are the members of the chorus: Betty Smith, Gertrude Murphy, Sarah Moran, Olive Sullivan, Ruth Doyle, Laura Minor, Helen Regan, Helen McCarthy, Mary Brennan, Stephanie Yambesky, Catharina McCarthy, Della Trapp, Helen Skollanik, Grace Cally, Gertrude Meyer, Mary Lally, Rosemary Hannan, Irene Wilson, William McLaughlin, Raymond Cratty, Kerwin Purnell, John Aborn, John Asha, William Aborn, Carlton Walters, John Malinowski, Casimer Roszkowski and John Gansay. Following the presentation of the musicals, dancing was enjoyed for the remainder of the evening. Both modern and old fashioned dances were enjoyed with "Jim" Rhodes the "radio announcer" prompting for the old fashioned dances. The music for the evening was furnished by Stein's orchestra, with Arthur Stein directing.

Bolton Suit Unfinished A second day will be needed in the trial of the three civil suits against Giovanni Peracchio and Guido Rossi of South Bolton which opened before Judge John Rufus Booth of New Haven in the Tolland County Superior Court yesterday at Rockville. Three separate actions are on file with the evidence in each identical and with the same defendants but with three different plaintiffs. One case is to be tried and the remaining two cases will be settled by agreement in accord with the judgment given in the one case tried.

Damages of \$88,800 are being sought against Giovanni Peracchio and Guido Rossi of South Bolton by Alice Jans and Bernard Flynn of Pittsfield, Mass. Alice Flynn is suing \$88,800 damages claiming permanent injuries as the result of an automobile accident. Jane Flynn is asking \$10 damages for injuries suffered and damages of \$800 are being sought by Bernard J. Flynn for damage to his automobile.

The trio of cases resulted from an automobile accident in Chesterfield, Conn., last fall when Peracchio was delivering a truck load of peaches to market in New London. Alice Flynn was driving Bernard's car in the opposite direction with Jane Flynn as a passenger. While making left turn the Peracchio truck struck the car resulting in a serious accident. Due to the fact that the peach orchards in Bolton are owned jointly by Peracchio and Rossi a joint suit was filed. Attorney Leo Dowling of Hartford is appearing for the Flynn's and Attorney Martin Gornley of Waterbury for the defendants.

AMERICAN IS KILLED IN AIRPLANE CRASH

Son of Wealthy New York Family Among Seven Passengers of Plane in Italy.

Cosenza, Italy, April 27.—(AP)—An Air-Orient plane was reported found today at Cosenza, where it had been shattered against a mountain side. All the occupants were dead.

Apparently this was the airplane containing seven passengers, one of them an American named John van Clee, which was lost Sunday in a flight from Corfu, Greece to Naples.

Dispatches from Corfu said that the American aboard the plane was John C. van Clee, about 28, son of a wealthy New York family and a graduate of Princeton University, who was making a round-the-world trip. He went to Greece from Egypt, these dispatches said, and boarded the plane at Corfu.

Farmers from the airplane in a wooded spot in the Calabrian mountains near the map of the Italian boot. The plane is only ten miles from the coast where the plane might have been saved in a forced landing.

TOURNOY KILLS TWO

Texarkana, Ark., April 27.—(AP)—A violent storm ripping across parts of Texas, Oklahoma and Arkansas brought death to at least two persons, severely injured more than a dozen and caused extensive damage to buildings and crops.

Sweeping out of the west, a tornado raged through a strip of plantation country northwest of Texarkana last night. John Moseley, 75, and Lissie Robertson, negroes, were killed.

Along the Oklahoma-Arkansas boundary, hail beat furiously on crops.

JUDGE KILLS HIMSELF

London, April 27.—(AP)—An inquest tomorrow into the death of Sir Henry Alfred MacCardie, England's noted bachelor judge, was generally expected today to reach the conclusion that he took his own life because of ill health.

Sir Henry, found shot to death in his home, was suffering from effects of influenza, although he was convalescent. Police said a servant found a rifle near the body of the 68-year old jurist, a string running from the trigger to his hand. The bachelor judge was widely known because of his outspoken views on life and he made decisions in many sensational marital relations cases.

FLYING MOLLISONS TO USE GIANT PLANE

So Heavy When Loaded No Suitable Runway in England for a Takeoff.

London, April 27.—(AP)—A big plane so heavy when loaded that there is no suitable runway in Great Britain for a takeoff has been selected by the flying Mollisons, Jim and Amy, for their projected New York-Bagdad non-stop flight.

The Daily Mail said today it will be taken to New York in sections, for that reason, to be reassembled at Roosevelt Field, Long Island, N. Y.

The plane will have three vast cylindrical tanks and a single-seated cockpit, with just enough space for Captain Jim Mollison and his wife to change over controls. The resting pilot will use a tiny cabin in the machine's tail.

A hatchway, one foot high, underneath the tanks will give access to the cabin. The resting pilot can lie with his or her head and shoulders in the cabin and the remainder of the body beneath the gasoline holders.

PROTEST TRIAL DELAY

San Francisco, April 27.—(AP)—Defenders of Tom Mooney today protested an anti-demonstration ruling postponing to May 22 his second trial here for the 1918 San Francisco preparedness day bombing.

While "deploring" the shouts of demonstrators which caused Superior Judge Louis H. Ward to order the postponement "until this feeling dies down," Frank P. Walsh, of New York, defense counsel, objected to the delay.

Brilliant Pitching Continues In The Major Leagues

TWO SLAB ARTISTS JUST MISS THE NO HIT HALL OF FAME

Parmalee of Giants and Hildebrand of Cleveland Allow Single Hit Each; Three Players Are Suspended.

(By Associated Press)

Regardless of the quite logical explanation offered by Will Harridge, president, that the weather is to blame for all this remarkable early season pitching this spring, the fact remains that the slab departments of the two major leagues are doing outstanding work against the chilled batters.

The latest additions to the list of April heroes are Leroy Parmalee of the N. Y. Giants, who has visited the major league several times only to be farmed out each season, and Oral Hildebrand, something of a veteran although he is only in his second season with the Cleveland Indians. They hurled a pair of one hit games yesterday, each barely missing the no-hit hall of fame.

Cold Is Factor?

Parmalee won his spurs in his first start of the campaign as he turned back the slugger Phil Ciesla 3 to 1.

Hildebrand came just about as close to a no hit feat but lost it when Art Schareir cracked out a snappy single. The Indians however, had little trouble blanking the St. Louis Browns 2 to 0.

In support of the Harridge theory that cold, damp weather is responsible for such flinging, feats, both these games, along with a four hit job by Owen Carroll of Brooklyn, which led to a 5 to 1 triumph over the Boston Braves and a five hit game by Elias Johnson of Cincinnati beating St. Louis 2 to 1, came on a day when chilly weather reigned over major league territory.

The Chicago-Pittsburgh National contest in the American west postponed because of cold and Washington and the Boston Red Sox were rained out. In the remaining game on the program, the Detroit Tigers went 11 innings to give the Chicago White Sox their fourth defeat of the season 6 to 4.

SUSPENDS PLAYERS

Chicago, April 27.—(AP)—President William Harridge of the American League yesterday indefinitely suspended Buddy Myer, Washington infielder, Ben Chapman, New York outfielder, and Ed Whelan, pitcher, also of the Senators, for their participation in a fight which broke up in a riot during the Washington-New York game Tuesday.

Dixie Walker of the Yankees was not suspended as reports to President Harridge said he went to the protection of the Senators but was not engaged in the fight. President Harridge went to Philadelphia yesterday, where the Yankees are playing, to extract a full report from the umpires. After completing his investigation, President Harridge said he would take definite action against the players involved.

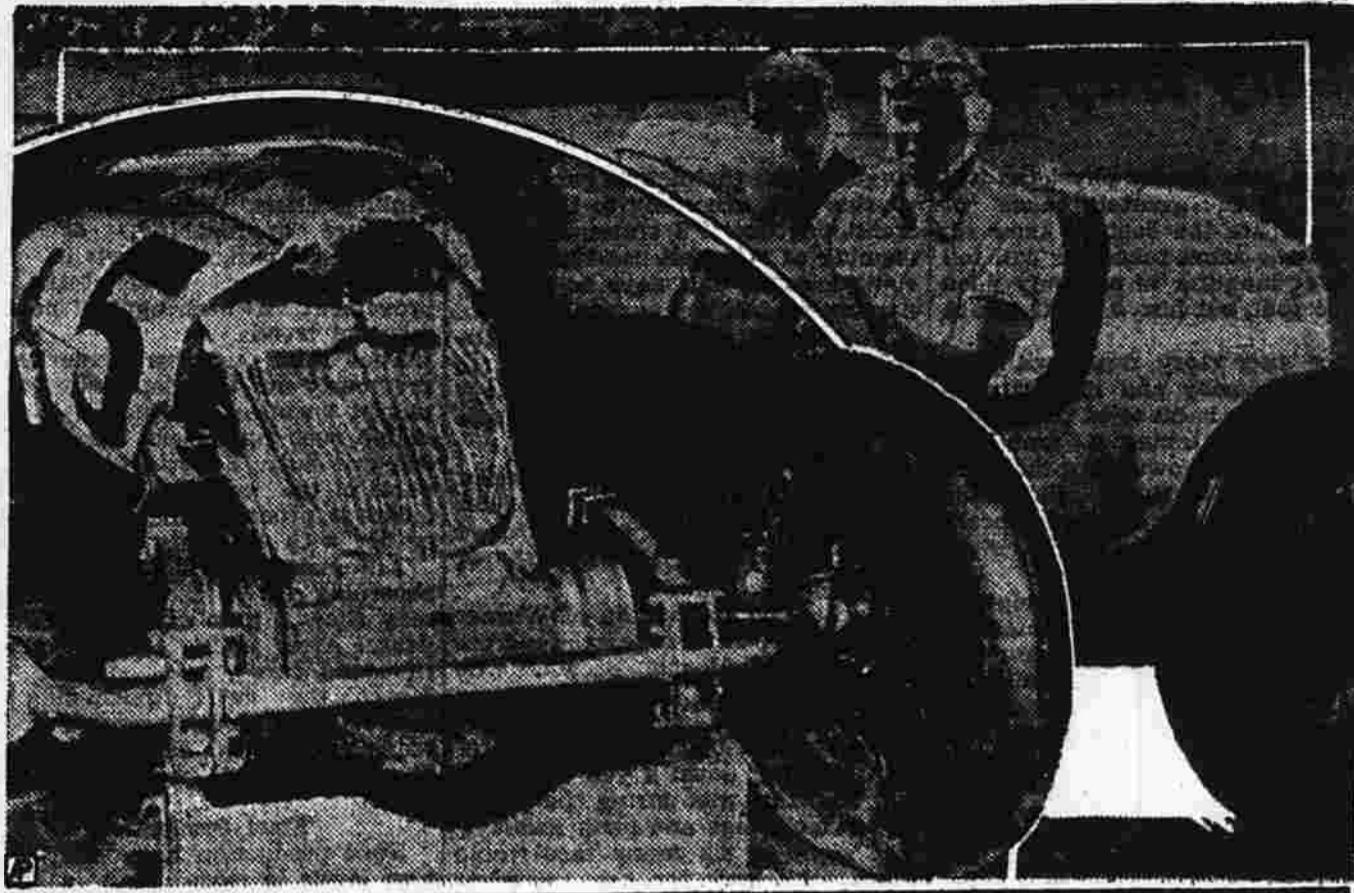

CUBS OPTIMISTIC

Chicago, April 27.—(AP)—You can't rub that smile off Bill Veck's face. His Chicago Cubs, probably still a little shell shocked by the booming of the Yankee bat series, are waddling about the National League cellar like permanent tenants and the surprising White Sox rivals from the south side are getting all the bouquets but the Cub president keeps right on grinning.

When word was received that the Cubs were somewhat panic stricken because of their poor start this year on the road, reporters peeked into Veck's office on the lookout for team shakeups and a deal or two for new playing talent. Instead they found the Cub president still smiling and confident.

"Sure we're off to a poor start,"

he replied to the usual questions, "but don't sell us short yet. We've lost six games. Last year we won the pennant by losing 64 of 'em. I haven't started worrying yet. The boys will hit their stride before long. Remember the weather has been cold and some of the Cubs aren't polar bears."

BALL BOY PARKER BEATS BIG SHOTS OF TENNIS WORLD

Youth is Regarded as Potential Tilden of the Net; Holds National Boys' Title and Has Defeated Lott.

New Orleans, April 27.—A ball boy, who would be champion! That's Frankie Parker, national boy's champion and conqueror of George Lott.

On the courts of the Milwaukee Country Club he was discovered as a ball boy by Merber Beasley, the man who gave Ellsworth Vines and Cliff Rutter—among conquerors—their start on the tennis courts.

That ball boy, now 17, is regarded as a potential Tilden of the net. Beasley wants to see him national singles champion; he wants to watch him play for the United States in the Davis Cup matches; he wants to see him conquer the field at Wimbledon and Roland Garros stadium.

The middle west and the east will see this newest phenomenon of the courts in action this summer.

He is certain to compete in three tournaments. One of these is the national junior champion, to be held at Culver Military Academy in Indiana. He will be the defending titleholder in this event. Another will be the western championships at the River Forest Country Club, Chicago, and the third will be the national clay court championship in Chicago.

Frankie also will defend his title in the western meet. It was in that tournament last summer that he eliminated George Lott in a five-set quarter final match and then took the title by beating Wilbur (Junior) Coen, once protege of Bill Tilden.

In the east he probably will defend his Canadian men's championship. He will also appear at New York's Southern Forest Hills, Merion, Brookline and other tennis courts.

Beasley, renowned teacher, believes there is no limit to the youngster's possibilities. He has all the knowledge Beasley can impart, plus a few ideas of his own as he plays and studies the game daily.

For nine years the youngster has lived in a concentrated tennis atmosphere. He attends high school four blocks from the Tulane campus, and after each school day works out with the Tulane varsity with strict opposition as Cliff and Eddie Sutter and Kendall Cram available, and occasionally such visitors as Gilbert Hall, Wilmer Allison and Vines. His victories over Lott and Sutter have placed him among the finest tennis players of the country.

Wrecked by Skidding Bival
His iron nerve apparently unshaken, Arnold was back on the speedway last May with the car completely rebuilt and full of speed as ever. Again, he swept through the broken field by sensational driving on the turns and soon was in front setting a pace that looked like a new record for the 2 1/2-mile course.

But a skidding car in front sent Arnold to the upper wall, and a broken collarbone cost \$3,800 of lap repairs and the same old well-battered Arnold was back.

Now they are guessing that Arnold will wheel out his favorite for another try this year.

S. T. S. LOSES OPENING CONTEST OF SEASON TO WINDSOR LOCKS BY 7-3

Visitors Break Loose in Fifth to Pile Up Big Lead; Locals Last Inning Rally Cut Short; Draghi Allows Seven Scattered Hits and Gets 11 Strikeouts.

The Manchester Trade School baseball team opened its season at the Charter Oak field yesterday afternoon, bowing to Windsor Locks High School by a score of 7 to 3. Draghi, pitching for Windsor, allowed the local boys seven scattered hits and turned in eleven strikeouts and was assisted by fast and snappy fielding.

The game went scoreless for the first four innings and seemed to develop into a pitchers' battle until the visitors opened up in the fifth and put across two runs. Loose fielding and timely hitting accounted for the balance of Windsor's runs.

The Mechanics scored for the first time in the seventh and again in the ninth on a last minute rally that netted two runs. Farwell and Kovis shared the pitching assignment for the locals, each allowing five hits. Draghi went the distance for the visitors.

Tomorrow afternoon the Traders travel to Springfield to tackle Springfield Trade there, this being the last game before meeting Manchester High at the West Side on May 8.

IN THE DERBY PADDOCK

War Glory in the Paddock

Chariot, after having been interfered with. His next start found him fourth after being left at the post.

The first victory for the son of Man of War came at Fimlico when he easily defeated a field of maidens over a sloppy track. H carried 117 pounds and drew away to a three-length lead at the finish. He was next second a nose to Euphette with Garden Message and Caesar's Ghost out of the money.

War Glory was a rather easy winner of the Walden. He had only 100 pounds aboard and obviously enjoyed the muddy going. He set all the pace and gradually drew out in the stretch. Behind him were the Derby candidates, Garden Message, Sarada, Caesar's Ghost, Pomponian and Baltes. The race was at a mile and a sixteenth and War Glory apparently could have gone on farther if called upon.

War Glory has grown into a magnificent horse over the winter. He's a superior mid runner, can run all day, and should have little trouble carrying weight. It may, however, be hard to get him to the peak of his form by May 6.

Running in a maiden affair at Saratoga in which another Derby candidate, Sun Alley, was fourth, War Glory finished second to Sweet

War Glory in perhaps the better of the two colts and was a winner of two races, one a maiden affair and the other the Walden Handicap. In previous years, the Walden has been won by such stars as Mars—another son of Man of War—Reigh Count, winner of the Derby in 1928, Ned O., third to Gallant Fox and Gallant Knight in 1930, and Mate, which was third in Twenty Grand's Derby.

SHIELDS MAY GAIN DAVIS CUP LINEUP

New Yorker Has Chance of Being Selected if He Goes Well at Wimbledon.

New York, April 27.—(AP)—The Davis Cup selection committee was looking forward to the interzone finals and the challenge round at Paris when it named Ellsworth Vines, Wilmer Allison, George M. Lott, Jr., John Van Ryn and Clifford Sutter to represent the United States. That is the word of Bertron S. Prentice, who ought to know.

Discussing the selections, Prentice, chairman of the committee said, "We picked the team mainly with the idea of putting players experienced with conditions on the slow French courts into the lineup and we believe the men chosen are best qualified to face the task."

Frank Shields, the husky New Yorker who won at White Sulphur Springs last week, will go to Wimbledon independently, Prentice said, and if he should make a particularly good showing there he may get a place in the singles lineup on the Davis Cup team.

Prentice also praised Lester Stofen, the tall youngster from Los Angeles, saying he would urge Stofen be sent to Wimbledon for experience, and that he expected great things from the coast star in another year.

EAST TAKES FIVE OF EIGHT TITLES

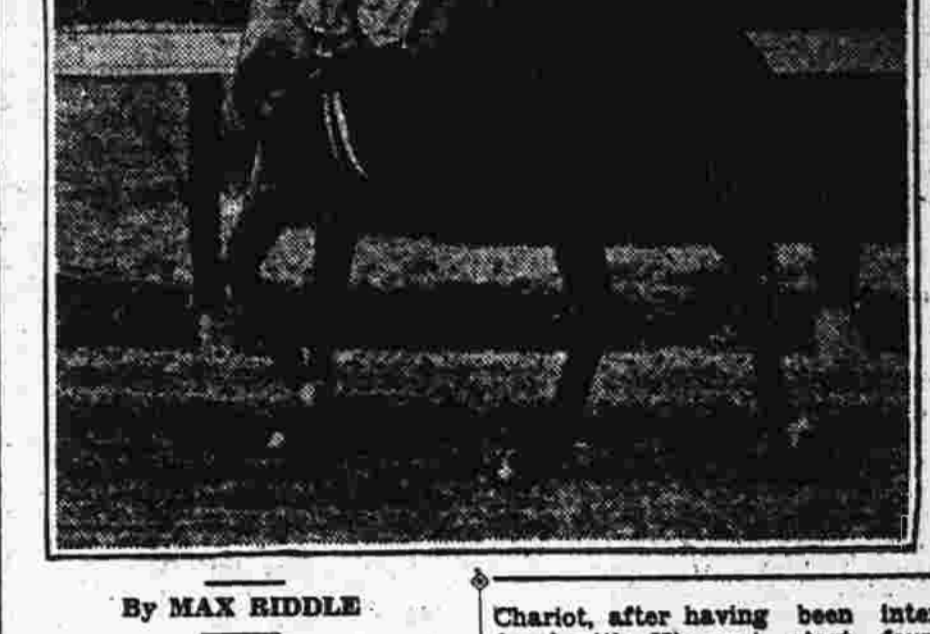

Wins Most Honors in National A. A. U. Boxing Championships at Boston.

Boston, April 27.—(AP)—Eastern amateur boxing talent, which has not fared so well in recent national competition, today gloated over the capture of five of the eight National A. A. U. championships from one of the strongest midwestern delegations that has ever participated in the competition.

During most of the three days tournament the marathon battling was dominated by the strong Cleveland and Chicago groups, aided by small but capable bands from Oklahoma and Kansas.

The 1933 National championship list:

- 112 pounds, Tony Valero, Cleveland.
- 118 pounds, Angelo Tardugno, Washington.
- 126 pounds, Louis Barisano, Boston.
- 135 pounds, Frank Eagan, Buffalo.
- 147 pounds, William Celebron, Chicago.
- 160 pounds, Tom Chester, New York.
- 175 pounds, Max Marek, Chicago.
- Heavyweight, Izzy Richter, Philadelphia.

PRIMO TO GIVE MAX TITLE SHOT IN '34

Rome, April 27.—(AP)—Primo Carneri now on his way to the United States for his championship bout with Jack Sharkey in June, already has planned what he will do with the heavyweight bubble when he brings it back to Italy.

He's going to fight Max Schmeling here in 1934 and guarantee the German puncher a cool \$100,000. He takes it for granted, somehow, that Schmeling will merge victorious from his approaching encounter with Max Beer at New York.

Two-time plans (Primo's) are to hold the big scrap in Rome's new football stadium, now under construction, which will seat 150,000. The man mountain feels that his vast popularity in Italy will guarantee a capacity crowd.

FRANCE PREPARING TO PAY U. S. DEBT (Continued From Page One)

strongly impressed the government. An official spokesman said it was a "distinct evolution in American policy" of the greatest importance. This attitude, combined with friendliness over the debt matter, has created a new atmosphere, he said.

The premier had withheld his approval in previous attempts to obtain payment recalling the fate that befell former Premier Herriot's Cabinet when he demanded it.

The moratorium, it was pointed by political leaders, will fulfill the requirements for payment laid down by the Cabinet.

The Cabinet caused postponement of the moratorium a month ago to have the payment approved pending completion of the negotiations seeking some concession by the United States.

These negotiations were culminated in the agreement between former Premier Herriot and President Roosevelt and how government supporters are confident that the expected moratorium will prove satisfactory to the Chamber of Deputies.

M. Herriot had urged payment continuously since his overthrow as premier, but the resolution proposed last month died in the Chamber finance committee.

THE AFFAIRS OF THE MANCHESTER TRUST AND SAFE DEPOSIT COMPANY.

NOTICE IS HEREBY GIVEN:

1. The undersigned as Bank Commissioner of the State of Connecticut, has been empowered by a Special Act passed March 29th, 1933, to take possession of and liquidate the business of The Manchester Trust and Safe Deposit Company (formerly The Manchester Trust Company). The Bank Commissioner, by virtue of Section 3864 of The General Statutes, has duly designated J. F. DiNanno as his agent to liquidate the business of said Bank.

All matters relating to the said Bank, now in liquidation, should be transacted with the said J. F. DiNanno at 923 Main Street, Manchester, Connecticut.

2. All persons indebted to said Bank in any manner, or having any property of said Bank in their possession, are hereby required to pay such debts or obligations forthwith, and to deliver all such property to the said Agent at the above address.

3. All persons having claims or demands of any character against the said Bank are hereby notified to file such claims within sixty (60) days from April 18th, 1933.

4. Pursuant to the said Special Act, on May 1, 1933, a ratable dividend of 15% will be paid to the depositors, representing the disposition of assets transferred and conveyed in accordance with the authority granted by said Act, which dividend will be disbursed by making available, on the books of the acquiring Bank, credit in favor of depositors, payable on demand, which shall be regarded as a payment.

The dividend referred to above does not apply to deposits owned by the Bank as executor, administrator, guardian, trustee, or other fiduciary of like character and—other deposits of the United States Government, having priority over other deposits under provisions of The General Statutes of the State of Connecticut or by any Depository Act of the United States, which will be paid in full to succeeding fiduciaries, succeeding trustees and representatives of the United States Government.

No dividends will be disbursed to persons who are directly or indirectly liable (either as endorser or guarantor) to the Bank upon notes or other obligations. The retention of such dividends will be to the extent of the liability to the Bank as endorser or guarantor and until such time as such endorsement or guarantee is cancelled by payment and—or the account between the liquidating Bank and the depositor—endorser or the depositor—guarantor is adjusted and settled.

5. Until further order or until such time as, by judicial decisions, the status is definitely established, no payments will be made on the following claims:

- (A) Treasurer's Checks (B) Certified Checks (C) Unpaid Drafts Drawn Upon Corresponding Banks (D) Unpaid Invoices for Merchandise Purchased, or Services Rendered Prior to This Liquidation as Authorized by the Special Act (E) All Other Unsettled Claims or Demands of Any Other Character.

DATED AT HARTFORD, CONNECTICUT APRIL 26th, 1933. GEORGE J. BASSETT, COMMISSIONER.

Docs Say 10 Hearty Laughs Every Day Will Prolong Life

Worry, your family physician will tell you, is the greatest cause of shortened life the doctors know of. And by the same token, he will tell you that laughter is not only good for the soul, but also a great health tonic.

Since this story deals with the value of comedy and its contribution to health because of the laughs we get out watching a comedian such as Joe E. Brown strut his stuff, we are going to strut Old Man Worry into the ash can and concern ourselves with laughs, and their effect upon us.

From the medical standpoint, there were some very interesting figures given out by a doctor not long ago proving that laughter works as a life-prolonging tonic. Ten hearty laughs a day—and by laughs the doctor meant abdominal snarls and not just mild titillations—will add one day to a person's life.

Such hearty laughter, says the doctor, is not only a valuable emotional outlet, but the situations which give rise to it drive all care and worry from the mind, giving it a much needed rest from daily, troubling affairs.

Ten laughs per day is quite an order when it is known that there are really only seven basic situations for pure comedy. Every "gag" and comedy situation used on the stage and screen is a variant or offshoot of one of these seven. But this does not prevent getting more than seven laughs into a feature length comedy.

55 Laughs Clockwork At the preview of Joe E. Brown's latest First National comedy, "Elmer the Great," which comes to the State theater on Friday and Saturday, an analyst clocked the audience for 55 unrestrained, hearty

NATION-WIDE SURVEY SHOWS TRADE UPTURN

Extremely low levels of the March banking crisis. Nevertheless, some lines are approaching, or have actually crossed, the levels of this period last year. Much of the improvement has been against normal seasonal trends.

The false upturns experienced previously in the depression have taught business executives to examine such bulges as the current one critically. Reports from many parts of the country, however, indicate a pronounced confidence, together with fattening orderbooks.

Automobile production for April, according to present indications, may show a gain over April last year, owing to some ninety thousand cars and trucks in March, the swift quickening in output this month, according to trade authorities should carry it above the 148,500 produced in April 1932.

Steel Production Steel production has risen to the best levels in more than a year. Freight car loadings have gained steadily in April, contrary to the usual trend, which usually carries them to a peak in March.

Latest mercantile reviews report a sustained volume of retail trade. The usual pronounced uptick after a sluggish winter has failed to materialize.

Chicago—Electricity output in the Chicago district for the week ended Saturday was \$7,084,000 kilowatt hours, one per cent less than a year ago, but the best showing with that one exception since Sept. 1931.

San Francisco—The Federal Reserve Bank for this district says business has recovered rapidly to the February level.

Moderate gains are reported in carloadings, debits, lumber production commodity and stock prices, with exchanges active.

Minnesota—The Civic Commerce Association announces that during the past six weeks a ten to 20 per cent gross sales increase has been noted in wholesale hardware, general merchandise, farm tools, dry-goods, and ladies apparel.

Miami, Fla.—More building permits have been issued at Miami Beach this month than in any month since last September. Half a dozen good sized retail deals have been recorded. Miami merchants say prospects are good for an excellent summer. The season just closed was the best since 1926, they say.

Cleveland—Increased buying orders have caused a pickup in steel mill operations. In Cleveland, production was estimated at 41 per cent, the highest since 1931, with

prospects of a higher rise quickly. Operations in the Youngstown district have increased to 23 per cent, the first time in three years that the rate is higher than for the same date on the preceding year. Last year in the corresponding week, production was at 22 per cent.

Seattle—Shipping has manifested definite improvement in this area, officials say.

The West Coast Lumbermen's Association said Pacific northwest lumber shipments reported last week exceeded current production by 9.9 per cent.

Buffalo—Chamber of Commerce indices show that flour milling, one of Buffalo's major industries, reported a 188,700 barrel gain for March over a year ago. Each month this year has been twenty thousand barrels or more better than last year. Steel production has jumped in the past month from about 15 to nearly 30 per cent of last year's output. Seven breweries and a number of brewery supply plants are reported very busy.

MacDONALD SAILS; ASKS COOPERATION

House," he said, "I shook hands with a host that happened to be your President, as a guest who happened to be the Prime Minister of Great Britain. When I left, I shook hands with a host and President, who in the brief interval of a long week-end, had come to be regarded by me as an old and firm friend."

Constructive Work On the side of the conference table with the two English-speaking countries, the prime minister said he desired to see "other enlightened nations, other nations that do appreciate their duty to the individual and with courage and yet with reason, face these problems and produce constructive proposals for overcoming them."

One thousand persons filled a hotel ballroom to hear the address. Such notables of the financial world as J. P. Morgan, who rarely appears at such functions; Andrew Mellon and Thomas W. Lamont were present. Dr. Nicholas Murray Butler introduced the premier.

Before the Berengaria departed late at night, the prime minister sent a message to President Roosevelt thanking him for his hospitality.

Miss MacDonald fresh and smiling as she ascended the gangplank, said that her busy round of engagements in America had not tired her at all.

"It was almost a perfect rest," she said.

She, too, accompanied her "au revoir" to America with a plea for international co-operation as the best way to cure the world's ills.

LINDBERGH'S FLIGHT Oklahoma City, April 27.—(AP)—Col. and Mrs. Charles A. Lindbergh landed here today, flying from Tulsa on their Transcontinental Airline inspection tour.

OLD TELEGRAPHER DIES Trenton, N. J., April 27.—(AP)—Richard B. Smith, described as New Jersey's "official state telegrapher" and known to thousands throughout the state, died in Merger hospital today after an illness of two weeks. He was 65.

THEATERS AT THE STATE

"Elmer the Great" starring Joe E. Brown follows "Central Airport" in the parade of hit shows at the State Theater starting Friday.

"Strictly Personal" with Eddie Quillan, Marjorie Rambeau and Dorothy Jordan will be the co-feature on Friday and Saturday bargain program.</

MORNING PROGRAM ON MEMORIAL DAY
Committee Votes to Change Custom—Woman May Be Marshal of Parade.

Memorial exercises this year, for the first time in history, will be held in the morning of Memorial Day, according to a vote taken by the members of the Permanent Memorial Day Committee at their meeting held last night in the municipal building. The vote was induced after a frank statement made by Captain James H. McVeigh of Company G, 169th Infantry, C. N. G., also representing the Howitzer Company.

It is expected that the annual decoration of graves in Manchester cemeteries will take place on the afternoon and evening of May 29. The privilege of selecting the Memorial Day marshal will this year fall to the Daughters of the Union Veterans of the Civil War, the first auxiliary unit to obtain representation on the committee. It is possible that the local unit may name a woman to the office of Memorial Day marshal, two names being suggested for the post, Mrs. Maude Shearer, past Regent of the Chapter, and Miss Jessie Reynolds, a World War nurse. The selection will be made at the next meeting of the committee, Monday evening, May 1.

The by-laws of the committee were amended last night to allow for the substitution of interested members for non-attending, interested members on the committees. The amendment read into the records of the committee is as follows: "Sec. 3, Article 3: (Membership) It is further provided that the Committee of any executive organization or the presiding officer of any patriotic body, entitled to membership on the Manchester Permanent Memorial Day Committee, may remove for sufficient cause, any member of their representation, and place in nomination the name or names of other candidates for membership on the Permanent Memorial Day Committee. A majority vote of any duly called meeting will be necessary to elect."

Wilbur Loveland, chairman of the War relics committee gave a detailed report of action taken to date in the remaining Civil War relics in town. A cabinet will be constructed and the monuments of the Civil War will be later permanently displayed in the Municipal building.

Mrs. Caroline K. Britton asked to present a program sponsored by the World Peace movement in connection with the future observance of Memorial Day. After giving an outline of the type of program to be introduced, the committee asked Mrs. Britton to bring in a written list of the proposed type of program at the next meeting.

CANDLELIGHT CEREMONY CONFERENCE FEATURE

Impressive Session to be Held Saturday Night—Older Boys' Groups Tomorrow.

One of the most impressive sessions of the County Older Boys' Conference, to be held in Manchester tomorrow and Saturday, is the closing summary and candlelight ceremony, this year under the direction of Porter Bower, director of religious education, Connecticut Association of Congregational churches. From the large conference candle, signifying the torch of truth, the delegates light their individual candles, symbolizing their desire to carry out into the world the things they have learned at the conference and to bring to fulfillment the aims and hopes kindled by the conference.

E. T. Thienes, executive secretary of the County Y. M. C. A., has had personal supervision of the planning of the conference program, which will start tomorrow with registration at 3:30 in the local Congregational church of Manchester.

Joseph Madden Arrives Here After Winter in West—Many of the Ruins Still Remain.

Joseph Madden has arrived in town after spending the winter months in Phoenix, Arizona and Los Angeles, California. He was in the earthquake zone in Los Angeles and said today that many of the ruins of the buildings remain today, as they did a month ago when Los Angeles and Long Beach were stricken with 150 tremors in 48 hours. A theater in Compton still in ruins, is believed to have several bodies buried beneath the debris. Madden drove over the road from Los Angeles last week and reported that no section of the country through which he passed showed signs of prosperity. The farming and cattle raising sections are in a better condition, he said, than any of the other areas of the west. The former Manchester man said that his brother Frank was in good health, having met him in Salt Lake City last week.
