EXPECT SCHOOL EXPENSE TO GO UNDER \$300,000

Budget Prepared Last Night Does Not Include Main- tenance Cost — Seven Teachers Not to Return.

The school budget for 1933-34 in all probability will not exceed \$284,000, it was announced today by Superintendent of Schools F. A. Verplanck, following a meeting of the Board of Education last night. This figure is exclusive of the maintenance of school buildings, and is seven per cent less than last year and more than thirty-five per cent lower than two years ago.

Effective in September a five per cent decrease in the salaries of teachers and other employees of the local public schools was also voted in an effort to pare the budget for next year to the minimum figure. This cut brings the total reduction in salaries during the last two years to twenty-five per cent, and is effective at the opening of the fall term in September.

The budget announced today by Mr. Verplanck is not exact or final. The budget to be recommended to the Joint Board of School Expenditures late in June for formal approval before submission to the town meeting in October will be in the vicinity of \$284,000, Mr. Verplanck said. It is impossible, at this time, to release actual figures as the salary item is the only one that is now available. The Board of Education will have exact figures to present at the next meeting.

Not to Fill Vacancies Through reorganization of the kindergarten department of the local schools and other changes, seven teachers were recommended for present positions here in September. Mr. Verplanck stated emphatically that in no instance will the vacancies be filled by additions to the teaching staff.

The seven who will leave at the end of the current term are as follows: Miss Sophie J. Gardner, for many years a nurse in the local schools; Miss Phyllis Irwin, who has been in charge of the special room to be eliminated at the Union school; Miss Catherine Bossen, second grade teacher at the Nathan Hale school; Miss Byrd at the Robertson school; Miss Dorothy Pike, second grade teacher at the Washington school, who resigned to continue studies in New York; Miss Elizabeth Barnes, kindergarten teacher at Highland Park and Manchester Green; and Mrs. Elizabeth Hawley, fifth grade teacher at the Nathan Hale.

Reorganizing Kindergartens The kindergarten department has gradually been undergoing reorganization during the past few years. At one time eleven teachers were employed in this department, but this number has been lowered to seven this year and will be further decreased to five next year, two teachers being eliminated at this time.

ASKS 80 P. C. CUT IN DEBTS TO U. S.

Italy Says It Can Only Pay 20 Per Cent Even If All Other Debts Cancelled.

Rome, May 19.—(AP)—An 80 per cent reduction in the debt of the former allied government to the United States was suggested today by Deputy Minister of the Ministry of Finance, which was presented in the chamber of deputies by Finance Minister Guido Jung.

Jung returned yesterday from the United States, where he participated in President Roosevelt's economic discussions preliminary to the world economic conference.

Deputy Giuseppe Mazzini, who wrote the report, said that 20 per cent of the debts is all that the debtor countries can pay after sacrificing 90 per cent of German reparations. This was true, his report said, even if inter-European allied debts were cancelled.

The suggestion that Italy should reconstruct the devastated zones, with unemployment which is higher than in other countries, is a heavy, with a budget deficit, after having repaid the indemnities from Austria, Hungary and Bulgaria under the St. Germain and Trianon treaties, and not receiving \$45,000,000 annually in German reparations, pay an average of \$28,000,000 annually to the United States for more than fifty years.

BOY CONFESSES SETTING BLAZE IN NEW AUBURN

But Eleven Years Old, He Tells Police He Started Fire That Made Over 500 Homeless.

Auburn, Maine, May 19.—(AP)—The arraignment of Renaud Cote, 11 year old Auburn boy who police say confessed he set the fire which swept the New Auburn section of the city Monday, rendering more than 1500 homeless and causing damage in excess of \$1,000,000 was postponed today to give authorities time for further investigation and permit an examination of the boy's mental condition.

Renaud was left in the custody of his father, Arsene Cote. His hearing was set for next Wednesday. Only Boy's Word County Attorney Frank T. Powers, who authorized the delay, said: "We have nothing but this boy's word for it, and there are many things to be taken into consideration."

"Great as is the suffering from this disaster, for which young Cote may have originally been responsible, the state desires to work wrong upon him."

The county attorney said permission of the parents would be sought for an examination of the boy by alienists.

HOLD ACCOUNTANTS IN RIDLEY MURDER

Mystery Case Back in Spot- light as Sleuths Dig Up New Clues.

New York, May 19.—(AP)—The case of Edward A. Ridley, murdered millionaire leaped sensationally back into the spotlight today when two accountants were seized in what police called a \$210,000 theft from the Ridley real estate fortune.

Detectives locked up the pair, George Goodman and Arthur J. Hoffman, and began charging the \$210,000 theft, they announced that Ridley, aged and infirm son of a pioneer department store family, did not know what he was doing when he signed a will leaving \$200,000 to his secretary, Lea Weinstein.

They further charged that Hoffman thrust the will in among other papers, the bewildered eccentric was signing, and that Ridley scrawled his name in quaking hand without knowing he was signing a will.

Grand Larceny Charge Goodman after being grilled many hours was charged with grand larceny and conspiracy in connection with the \$210,000 thefts and Hoffman was accused of acting in concert with him. Police said Weinstein also was involved in the thefts.

They are accused of transferring more than \$200,000 from a certificate bank account of Ridley's to a checking account. Then police say, they formed three dummy corporations with Weinstein's aid and issued checks to the corporations in alleged payment for work done on Ridley's vast real estate holdings.

From the home of Hoffman an inspector said he recovered bonds valued at \$31,000 which detectives say were bought with part of the proceeds of the larceny.

Auto Sale as a Clue A bill of sale for an expensive car gave police the clue which led to the arrests. The paper was found in the apartment of Weinstein's widow, a woman whom the secretary married in Richmond, Va., under the name of John Lee. The marriage was not (Continued on Page Eight)

Many Gassed In Milk Battles

This serious clash between Wisconsin's milk strikers and civilian garbed National Guardsmen, in which tear gas, clubs and rocks were freely used, resulted in a hurry call for military units of the state militia. This picture was taken near Shawano at the height of the battle, in which several were wounded and 200 taken prisoners. It shows guardsmen-deputies, wearing gas masks, advancing behind their barrage of tear bombs.

MENTION HUGH JOHNSON FOR INDUSTRIAL LEADER

Illinois Manufacturer Slated to Wield the Widest Power Ever Granted an American.

Washington, May 19.—(AP)—President Roosevelt has been conferring with Hugh Johnson, Moine, Ill., manufacturer, on the industrial control program now before Congress; but was said today at the White House as having yet to make his appointments to administer the huge set up, in event it is written into law.

These important appointments, of course, must await final congressional action. "Meanwhile, however, Johnson has an office in the State Department across the street from the White House making ready for putting the extensive provisions into effect."

Although it was said at the White House today that offers remain to be made, as late as last night it was being taken for granted in high quarters that Johnson was in line. In an interview, he was reluctant to discuss the exact situation but said he was asking himself whether he were competent to accept an offer of the huge assignment.

Working On Plans Johnson's office is near that of Raymond Moley, assistant secretary of state and another of Mr. Roosevelt's advisers. With Lewis W. Douglas, director of the budget, Johnson has been working long hours of late on devising the industrial legislation which the President recommended to Congress yesterday.

Many weighty decisions will fall to his lot, if and when the appointment expected by his intimates is finally made and he accepts.

Broad Powers The almost unlimited power conferred on the Chief Executive under the industrial control-public works bill to approve agreements within industry and enforce them through licensing of plants if necessary would be shifted to the broad shoulders of Johnson, a soldier, lawyer and manufacturer.

While providing the President with this broad authority the broad measure sent to Congress Wednesday specifically directs him to "establish such agencies as may be necessary and to delegate any of his functions and powers under this title."

These would go to Johnson, a former member of the old War Industries Board and a close associate of Bernard Baruch. Johnson is a native of Kansas and a graduate of West Point. When he retired in 1919 he was a brigadier general holding the distinguished service medal.

DAIRYMEN FORESEE SURPLUS DANGERS

Ask Sec. Wallace to Prevent Farmers from Turning to Milk Production.

Washington, May 19.—(AP)—If plans are worked out by Secretary Wallace for agreement with farmers to reduce acreages devoted to wheat, cotton, corn and tobacco, representatives of dairy groups intend to insist on this point.

That the agreement contain a provision that the farmer will not turn to dairying. Dairymen assert that there will be a natural tendency to make such a switch and, they contend, it would have the effect of over expanding dairy production.

They take the position that authority to insist on this provision is vested in the Secretary under the new farm adjustment act.

Dairy Production Dairy production has been about equal to domestic consumption for many years. There has been a tendency to increase output since 1928 as dairy prices declined less rapidly than the prices of other farm products. Dairymen have not been depending on foreign markets as have growers of cotton, wheat and wine. In approaching administration of the act, Wallace finds that dairying involves two distinct types of activity. The fluid milk markets are "switched" and the butter trade throughout the country.

For the fluid milk markets, Wallace finds that dairying involves two distinct types of activity. The fluid milk markets are "switched" and the butter trade throughout the country.

Butter, cheese and other products, on the other hand, are sold mainly in a national market with prices at New York for butter forming the basis for most of the other trade throughout the country.

BUSINESS UPTURN IN U. S. KEEPS UP

Trade Review Reports Ex- pansion is Noted in Every Section of the Country.

New York, May 19.—(AP)—Reports of further business expansion to Dun and Bradstreet, Inc., were more numerous this week and indications of sustained gains were more convincing, although the forward movement was at a slower pace, the agency said today.

"Business in general," it asserted, "has assumed dimensions wider than seasonal and has progressed to such a degree that it is becoming the exception to find a report from any section of the country which does not enumerate at least a few trades in which production and distribution have risen from the point at which they stood at the beginning of the quarter."

Employment Increase "Employment in the steel, automobile, rubber and brewing industries has increased as much as 100 per cent during the last two months while the recent advances in agricultural products have given the farmers approximately a billion dollars more to spend, exclusive of funds provided by the farm bill. While the check to the downward as yet, in wide re-employment, further reductions are appearing weekly in the number of applications for relief in many of the large industrial centers."

"During the last three weeks retailers in many parts of the country have announced that they are recording small profits after more than two years of deficit operations. Doubtless the rise in commodity prices since 1930, together with the low levels at which inventory of unsold goods have been held, will help both large and small concerns even though sales may continue under the total recorded in more prosperous times."

WASHINGTON, May 19.—(AP)—Treasury receipts for May 19 were \$22,470,021.05; expenditures \$20,543,304.54; balance \$1,926,716.51. Customs duties for 14 days of May were \$11,728,341.55.

GERMANS AGREE TO BRITISH PLAN FOR ARMS CUT

Last Obstacle to Geneva Dis- armament Treaty Re- moved, Says French En- voiy; Cables Thanks.

Geneva, May 19.—(AP)—Germany accepted the British disarmament plan today as a basis for an agreement to be reached by the world disarmament conference. Count Rudolf Nodolny, the German delegate, informed the conference of the decision of his government. Manifestations of approval greeted Nodolny when he said that any German suggestions would dovetail with the British draft, which already had been accepted by all nations save Germany.

"I hope this will be regarded as new proof of German moderation," the Berlin delegate said. He referred to President Roosevelt's disarmament message to the world as "another great manifestation of peace." His entire address was conciliatory.

British Envoy Praised Captain Anthony Eden of Great Britain emphasized the importance of Germany's decision to cooperate without stint, and spoke glowingly of the spirit in which the decision was announced. Rene Massigli for France pledged his government's readiness to cooperate and assured that Nodolny's statement meant that now there was no obstacle in the way of completing a disarmament treaty.

The conference voted to send a cablegram to President Roosevelt voicing appreciation for his disarmament proposals and assuring him that they would be given every consideration.

Consideration of the German delegate was (Continued on Page Two)

FIGHTING CRASES IN NORTHERN CHINA

Reports Reaching Peiping Agree That Virtual Truce Exists On All Fronts.

Peiping, May 19.—(AP)—Reports reaching here today concurred that a virtual truce exists on all fronts in North China. In the Luan river area, the Chinese reported they had retaken concentration at Luitai, while the spearhead of the Japanese and Manchukuan forces was a few miles to the west of Tangshan, showing no evidence of a further advance. The main body of the allied troops meanwhile was said to be at Kaping, east of Tangshan.

North of Peiping, the Chinese claimed their major lines remained at Miyun, 35 miles away, and that there had been no fighting there about for three days. Some of the Chinese had withdrawn. Fear Disorders Many Chinese in Peiping and Tientsin who departed, fearing disorders, have returned. Tientsin, where housing was reported scarce. The Japanese Legation today denied that notification had been given to foreign diplomats that Peiping and Tientsin would be placed under martial law unless the Chinese military opposition in North China ceased.

Spokesmen for the American and British Legations said they had not heard such reports and characterized them as absurd. Reports Denied The military attaché at the British Legation branded as untrue reports that the guards had been increased at the Legation. Commenting upon reports that the Japanese were within six miles of Tientsin and 30 miles of Tientsin, a checkup among foreign military observers indicated they were 60 miles from Tientsin at the nearest point, namely Tangshan and Tientsin. The nearest they were to Tientsin, the survey disclosed, was at Miyun, 35 miles to the north and 40 miles from Peiping.

Cuban Commander Plans To Hang Rebel Leaders

Havana, May 19.—(AP)—Hanging following a drumhead court-martial, apparently has been decided on by Major Arseno Otría to combat rebel activity in Santa Clara Province. Reports reaching here said the army officer, whom this week led Federal forces against rebels in Santa Clara and Camagüey provinces, already had executed several revolutionaries by hanging them to their deaths. Meanwhile it was learned a heavy guard of soldiers had been stationed at Santa Clara, west of Havana.

PLAN TO COMPLETE RELIEF PROGRAM BY END OF NEXT WEEK

NEW RAIL MEASURE WORRIES DIRECTORS

Road's Ability to Weather the Depression Must Be Shown.

New York, May 19.—(AP)—Banking houses associated with railway financing are urging mid-night oil analyzing the possible effect of the administration's proposed transportation bill on rail stockholders and bondholders. Attention is concentrated largely on the section which dictates how financial aid is to be meted out to needy carriers. This states that the commission cannot approve a loan "unless it shall find that the financial structure of the carrier is such that there is reasonable prospect of reorganization survive the existing economic depression and provide for its capital needs thereafter."

What yardstick can measure a railroad's ability to weather the depression? Seeking an answer to this question, transportation quarters are interested in data compiled by the Chicago, Milwaukee, St. Paul and Pacific railroad in its recent application for a loan under authority of the Reconstruction Finance Corporation Act.

Have Four Tests As filed with the interstate commerce commission, this constitutes four tests which have been applied to the 43 railroads that had gross revenues of \$12,000,000 or more in 1932.

The first yardstick computes the percentage of last year's gross required to pay all fixed interest charges. The second shows the dollars of fixed interest bearing debt per 100 cubic units of 1931, which means ton miles plus passenger miles multiplied by three. The third outlines the per cent of value computed by the commission and brought down to Dec. 31, 1931—Re (Continued on Page Eight)

JAPAN TO ACCEPT ROOSEVELT APPEAL

But With "Strong Reser- vations"; Object to Sen- tences Against Invasions.

Tokyo, May 19.—(AP)—A spokesman for the foreign office said today acceptance by Japan "in principle" of the world wide peace appeal of President Roosevelt, but with strong reservations, likely would be sent to Washington next week.

Speaking of the President's proposal not to send troops across another nation's frontiers, the spokesman said: "Replying to this most important and most dangerous proposal, Japan must call attention to the peculiar situation in the Far East."

"We learned at our cost the danger of signing international pledges without sufficiently clarifying what pledges the parties thereto really meant. States Not Normal "Were Japan surrounded by normal states, we could give a clear answer, accepting wholeheartedly. If the world recognized the Great Wall as the boundary between Manchukuo and China, we would accept unreservedly."

"However, it is Japan's impression that the appeal was framed hurriedly in order to forestall Hitler's speech May 17 and hence the President probably was unmindful of the complexities of the Oriental situation."

SCORES ARE KILLED AS BOMB EXPLODES

Shanghai, May 19.—(AP)—One hundred persons were reported killed or wounded tonight by a bomb which exploded in a crowded railway station in the eastern portion of Tientsin. Japanese dispatches telling of the explosion said the bomb was hurled by persons unknown. The bomb went off in the center of the waiting room, which was crowded with Chinese soldiers and refugees from the North China war area, the Japanese dispatches said. Most of the victims were soldiers or refugees.

Some of the Chinese soldiers established perils throughout the area, which is within the Chinese portion of the city. Nobody was allowed to enter the district, according to the Japanese reports, which said that the bomb was hurled by a Japanese spy.

Governor Says Matter is Almost Ready for Legisla- ture— Another Confer- ence of Tax Experts and Party Leaders to Be Held on Monday.

Hartford, May 19.—(AP)—Governor Wilbur L. Cross expressed confidence today that a program of relief for financially distressed municipalities would be ready for presentation to the Legislature by the end of next week. Satisfactory progress, the governor said, has been made on the relief program during his series of conferences with tax experts and legislative leaders of both parties. The latest conference was held yesterday afternoon and another will be held Monday.

Asked if there was any possibility that the relief plan might be completed at the Monday conference, the governor replied: "It may be."

Thus far no definite indications have been received from those working on the subject as to how far the state will go in extending aid to municipalities and their unemployed citizens. At the conclusion of yesterday's conference, the governor said the conferees were not permitted to any specific plan and that they were still open-minded on the question.

HOOK'S OPINION New Haven, May 19.—(AP)—The Connecticut would be unable to qualify for a share in the \$500,000,000 Federal fund appropriated by the Federal government because it has no active relief commission, was the opinion today of James W. Hook, state chairman of the unemployment commission which will be disbanded.

He said the state to obtain money must be prepared to show the government it is able to administer Federal funds properly and without a regular commission and general standards of relief this cannot be done.

Hook said he thought it was time the people of the state knew what was going on. He said Senate bill 365 drawn by his commission aided by social workers, to provide for an active commission as will be required by the Federal government for participation in the fund has been pending since February.

The unemployment commission will be ended July 1, but even if it did not die, it is not the authority nor funds to maintain the required state chairman of the unemployment commission which will be disbanded.

Hook said he thought it was time the people of the state knew what was going on. He said Senate bill 365 drawn by his commission aided by social workers, to provide for an active commission as will be required by the Federal government for participation in the fund has been pending since February.

GOVERNOR SIGNS BILL ON TOWN BOND PLAN

Meeting of Voters for Ratification to Be Held Next Week, Day Indefinite.

Governor Cross signed the Manchester bond issue bill which has been waiting for his official signature in the Capitol for a week, last night.

ment on the town's \$475,000 worth of temporary notes is understood to have been satisfactorily arranged through the First National Bank of Boston, through which agency the notes are to be paid.

As soon as the pending matters are cleared to the satisfaction of the Selectmen, the regular monthly meeting of the Board will be held. Uncertainty of the situation respecting the bonds and note payments caused the postponement of the regular meeting of the Selectmen.

J. W. MARTIN DEAD North Attleboro, Mass., May 18.—(AP)—Joseph W. Martin, 78, father of Joseph W. Martin, Jr., Representative of the 15th Massachusetts District died today at his home.

BOOM IS EXPECTED AT MUSCLE SHOALS

But President Warns Against Land Speculators; Creates Many Jobs.

Washington, May 19.—(AP)—A President's vision for model development of the sprawling Tennessee valley soon will begin to take form. Mr. Roosevelt signed the Muscle Shoals bill yesterday, and within a few days will name the men to carry out government operation of that giant power plant and develop the broad countryside to its maximum service for the community.

Meanwhile, a Department of Justice investigation has been started into charges that private companies which have leased Muscle Shoals in recent years misused and damaged the hydro-electric plant.

Arthur E. Morgan, president of Antioch college in Ohio, was mentioned today in Congressional circles as being seriously considered by Mr. Roosevelt for service on the government corporation of three directors which will supervise the entire Tennessee valley program.

As soon as funds are appropriated construction of a dam at Cove creek, in the Clinch river in Tennessee will be started as one of the first steps.

In signing the Norris-Bill measure, Mr. Roosevelt warned against land speculators. The land development phase of the program is the President's own and if it succeeds in Tennessee he intends to extend it to other parts of the country.

What Mr. Roosevelt is striving for is the employment of thousands of idle men, rehabilitation of agriculture, reclamation of land, reforestation, and full development of navigation and waterpower resources.

AUTO KILLS HORSE

New Haven, May 19.—(AP)—Two men were hurt and a horse killed today when a truck of the Byrdell Transportation Company of Springfield, Mass., struck the ice delivery wagon of Anthony Pawlins in State street, Hamden.

Eugene Hammond of West Springfield, the truck driver, was arrested on a reckless driving charge while Hamden police made an inquiry.

Pawlins and his helper, Walter Longa, 22, were thrown from the wagon by the impact which almost instantly killed the horse. Both men had skull injuries and each refused to go to a hospital. They also have limb and chest wounds.

RUSSIA ANSWERS ROOSEVELT'S NOTE

Disarmament and Economic Peace is in Accordance With Aims of Soviet.

Washington, May 19.—(AP)—The Soviet government commended to President Roosevelt today that it felt certain his arms reduction appeal "will meet with warm response from the peoples of the union of Soviet Socialist Republics."

Made public at the White House as the latest of many commendatory messages from among the 64 nations of the world, the note was signed by President Mikhail Kalinin, of the All Union Central Executive Committee of Moscow.

Soviet friends of Soviet recognition had asserted that including Russia in the list foreshadowed official recognition of that government, but that interpretation has received no confirmation at the White House.

"I have received your message of political and economic peace to all states and I feel sure that it will meet with warm response from the peoples of the Union of Soviet Socialist Republics."

"The Soviet government, expressing the will of the peoples of the Soviet Union, has never ceased, at international conferences in which it has for over ten years, taken part, to draw attention to the necessity for universal disarmament as an indispensable premise for peace between nations."

The Soviet government itself proposed and supported at Geneva definite projects for universal disarmament, especially those which provided for the utmost reduction of armaments, at the same time opposing unworthy attempts to discredit the idea of disarmament by exploiting it in the interests of some states against other states.

"The Soviet government also proposed and supported measures aiming at preventing or at least impeding any kind of aggression or any attempt on the part of any state to enlarge its territory at the expense of others."

"The Soviet government has concluded no aggression pacts with most of the countries with which it has official relations and can therefore not welcome your proposal for the conclusion of a pact of non-aggression by all countries."

"The same may be said of the Soviet government's policy with regard to economic peace. It is common knowledge that bearing in mind the economic interdependence of countries in all continents, we propose at Geneva a pact for economic non-aggression."

"Aggression whether military or economic, on the part of one country against another, affects the interests not only of the two countries concerned, but also of all other countries, by adding to the existing economic chaos."

"The Soviet government intends to continue in its efforts in the realization of this policy. It will willingly cooperate with governments interested in the realization of such a policy, whether at the Geneva disarmament conference or at the London economic conference."

CHINESE ENVOY SOUNDS ROOSEVELT ON SILVER

Are Agreed That Price of White Metal Should Be Enhanced and Stabilized.

Washington, May 19.—(AP)—A joint statement today by President Roosevelt and T. V. Soong, Chinese minister of finance, said the two were in agreement on measures to be taken to solve world problems and that it was considered "essential that the price of silver, the great medium of exchange of the East, should be enhanced and stabilized."

The statement touched on the Far East situation, which finds Japanese troops marching further into Chinese territory.

MODERN—OLD FASHION DANCE

TOMORROW NIGHT JARVIS GROVE—WALKERS ST. MIMI'S ORCHESTRA.

DANCE—TURN HALL SATURDAY NIGHT, MAY 20 Given by the Hall Management.

ABOUT TOWN

Chapman Court, Order of Amaranth, will hold its regular meeting this evening at 8 o'clock at the Masonic Temple. The annual memorial service will be exemplified, and all officers are requested to appear at 7 o'clock for rehearsal.

Rehearsals are going well for the musical, "College Days," which the Epworth League of the South Methodist church will present Friday evening, May 25, in the social hall of the church.

All members of the Epworth League of the South Methodist church who are planning to attend the annual meeting and sessions of officers of the Nutmeg Trial in Rockville tonight are requested to meet at the church at 6 o'clock, where transportation will be provided. Rev. George Brooks will be the speaker at the meeting and a social hour will be held.

Helen Davidson Lodge, Daughters of Scotia, will hold its regular meeting in Tinker hall this evening at 7 o'clock. The music is called "The early as there is considerable business of importance, and the lodge has been invited to attend the twelfth anniversary celebration of Juan McLean in Orange hall tonight, following the regular meeting of the clanmen."

A meeting for organization purposes of the unemployed of Manchester is to be held tonight in the shelter building, building owned by Jacob Lauffer on Main street.

The national convention of the Daughters of Isabella, is to be held this year on August 8-12 in Montreal, Canada. Mrs. James McVeigh is the regent of the local circle and is the delegate that will be selected to represent St. Margaret's Circle should a national delegate be sent. This question will be disposed of at the next meeting of the Circle when it is expected that the selection will be made.

George Mers, who has been absent from his duties at his brother's barber shop, was at the shop today, the first time since his January when he was taken ill. He is much improved in health, but is not as fully recovered to resume his regular work and spent the better part of the morning receiving congratulations from his many friends.

Antonio Netto, concert soloist, Mrs. Aida Weston and a string trio will be heard in a recital at St. Mary's parish house at 8 o'clock tonight. The concert is being given for a benefit of the Ladies Guild. A good attendance is expected.

County Detective Edward Hickey will be the guest of the Manchester Kiwanis club Monday noon and will talk before the local club members on his work. Detective Hickey is an interesting speaker. The Kiwanis club has tried repeatedly to get him for a luncheon speaker and has met with a sharp rebuff of the membership to hear him.

Hose Company No. 1, S. M. F. D., answered a still alarm at 3 o'clock yesterday afternoon at the cottage at the north end of Packard street.

William A. Allen, of Henry street, secretary of the Aetna Life Men's club, is chairman of the committee in charge of music and entertainment at the bridge and dance to be given tonight for the benefit for the Times Farm and Courant Fresh Air fund by the combined Aetna Men's and Girls' Clubs. McManis' orchestra will play for dancing.

The volunteer choir of the Second Congregational church will picnic tomorrow afternoon at the cottage owned by William A. Knofia at Columbia Lake. It is planned to leave town as soon after 1 o'clock as possible. Transportation will be provided for those who desire it by calling any member of the music committee, which is in charge of arrangements, Mrs. James Shearer is chairman, Mrs. Knofia and Mrs. Millard Park are the others on the committee. The choir members will return to town for the regular 7:30 p. m. rehearsal.

All officers of Washington L. O. K. No. 117 are urged to be present at a meeting at the clubrooms tomorrow evening at 8 o'clock as important business is to be discussed.

Mr. and Mrs. Walter E. Lydell of Imlay street, Hartford, have rented Arthur D. Hale's house at Main and Russell streets, and will move to Manchester, June 1. Mr. Lydell is a brother of Edwin H. Lydell of the "Star" office. He has lived in Hartford for a number of years but was brought up in this town. The many friends of Mr. and Mrs. Lydell will welcome them back.

Mrs. John M. Williams, chairman of the committee in charge of the "treasure hunt" for the benefit of the Second Congregational church, who has received responses, that they are to be deposited in the "treasure chest" Sunday, at the morning service, containing broken silver spoons, solid silver trinkets, and old gold, solid or filled.

The Missionary committee is sponsoring a Silver Tea at the home of Mrs. E. S. Bagston, 655 North Main street, on Thursday, May 20 at 3:30 p. m., d. e. t.

GERMANS AGREE TO BRITISH PLAN FOR ARMS CUT

(Continued from Page One)

nounced the Berlin decision, Arthur Henderson, chairman of the conference, remarked that there were many conciliatory points in the disarmament speech made before the German Reichstag Wednesday by Chancellor Hitler.

Urges World Peace The conference president made an impassioned appeal to the delegates to reach a disarmament agreement before the World Economic Conference started in London June 12, such an agreement, he said, would narrow the appeal of President Roosevelt.

The British disarmament plan was presented at the Geneva conference in March by Prime Minister Ramsay MacDonald.

Outstanding among its proposals was a suggestion that a conscript army of 200,000 men be substituted for the German Reichwehr, which is limited to 100,000 men by the Treaty of Versailles. These men are volunteers and they must serve twelve years.

The British plan provided for a domestic army of 200,000 men for France, plus a colonial army of 700,000.

Italy would be allowed a Homeland Army of 200,000 and an overseas force of 50,000. Austria's effectives would be fixed at 50,000, Hungary's at 60,000 and Bulgaria's at 60,000.

The French "Allies" would be lined up: Poland, 200,000; Rumania, 150,000; and Czechoslovakia, 100,000. Russia would have 500,000 men.

Naval Treaty The British plan also provided for extending the London naval treaty to include France and Italy. It extended the naval holiday on capital ships to all powers except Italy, which would be permitted to build one ship to balance the new French cruiser Dunkirk.

Germany would be freed legally from the naval restrictions imposed by the Treaty of Versailles, but actually her naval power would be fixed at the present level until 1936.

The arms treaty proposed by the British would remain in force five years. During that period special international commissions would be created to attempt to settle the political problems now disturbing Europe. A second general arms conference would be held before the expiration of the five-year period.

Prime Minister MacDonald also suggested limitation of military aircraft, giving these specific figures: United States, 500 airplanes; Great Britain, 500; France, 500; Japan, 500; Italy, 400 and fewer planes for other countries. He did not suggest a maximum for Germany. The restrictions of the Treaty of Versailles, now in force, the Germans may not have either military airplanes or submarines.

BROWN ROT APPEARS IN STATE ORCHARDS

Experts Believe Peach Crop This Year Will Be Only Fraction of Normal Year.

New Haven, May 19.—(AP)—An epidemic of brown rot sweeping through peach orchards of the state was reported today by experts of the state agricultural experiment station. It was their opinion that the crop in Connecticut is threatened to the extent that yield will be only a mere fraction of the normal year figure.

This brown rot epidemic is regarded as unusual. The weather this spring has been favorable for growth and spread of the fungus. It appears on the tip of the bud, spreads to the blossoms and down to the twig, killing the latter which drops off. The disease must be fought during the next two weeks which is first blossom spraying time. Station experts advise delay in spraying until the blossoms shutle drop off so that spray solutions may be thrown directly on the embryo peach. The spray may kill the rot before it destroys the peach and twig.

OBITUARY

DEATHS

Nathan D. Irish Nathan D. Irish of Buckland died suddenly last night at 11:50 o'clock. He was 74 years old and lived in Manchester for twenty years, coming here from Beantown, N. I., where he was born. He was employed at the Hartland tobacco plantation.

He leaves his wife, Mrs. Jessie Irish, his two sons, Mrs. Joseph Noel of Brookline, Mass.; Nathan D. Irish of East Hampton, Conn.; Mrs. Howard White of Wapping; Louis Irish of Norwalk; Wallace, Kenneth and Ernest Irish of Manchester; three step children, all of this town; and fifteen grandchildren.

Funeral arrangements are incomplete. The body has been brought to the Mark Holmes funeral home on Woodbridge street.

MANY BUYERS ATTEND TEACHERS HALL SALE

Furnishings Go Under Hammer Today With E. M. Reid "Knocking 'Em Down."

A large number of individual buyers were on hand for the auction of furnishings at Teachers Hall on Main street this afternoon. Up until 3 o'clock Auctioneer Robert A. Reid and his son disposed mostly of small articles, such as rag rugs, pillow cases, blankets and tables. Due to the large amount of goods to be sold the auction will continue again tomorrow, at which time the larger pieces will go under the hammer. Second hand dealers were noticeable by their absence.

HACKETT TO OPPOSE STATE BUDGET BILL

New Haven Democrat Says It Will Be Deadlock When It Comes to Senate.

Hartford, May 19.—(AP)—Senator William H. Hackett, chairman of the appropriations committee, reiterated today he will oppose some of its provisions when the state budget reaches the Senate next week.

Approved by the House after an hour debate the budget was reported last week to that chamber by the appropriations committee over the protests of Senator Hackett, New Haven Democrat.

Hackett said he was content that his fellow Democrats in the Senate will support in his fight. By voting as a unit, Senate Democrats can deadlock passage of the budget as approved by the Republican House.

The New Haven Senator declined to divulge what provisions of the \$68,172,585 budget he will oppose. He said that he will attempt to have it amended.

Any amendments which might be passed by the Senate would require House approval. Hackett has charged that the appropriations committee dominantly Republican voted to report the budget before he had completed an analysis of all its provisions. The measure is expected to come up for Senate action Wednesday or Thursday.

HURT BY TRUCK

Middletown, May 19.—(AP)—David R. Berrie employed by the Connecticut Company received a concussion of the brain today as the body of a truck he had backed up and under which he was at work, dropped as the jack released itself. He was sent to the hospital.

FRANCE REFUSES TO REDUCE ARMY

Strong Army Is Its Reply to Speech Just Made by Chancellor Hitler.

Paris, May 19.—(AP)—Maintenance of a strong army was the French reply today to Chancellor Hitler of Germany.

Premier Edouard Daladier, categorically rejecting a "ritter" cut in war expenses, declared in the Senate today that the French army is strong and must be kept strong.

This firm stand suddenly squelched talk of a meeting between the Premier and Chancellor Hitler of Germany.

The government also officially denied that such a meeting was contemplated.

The premier told the Senate that war economies had been made but that they had not impaired the army's strength.

"I affirm," he declared, "that we can have confidence in the army and I affirm that our National Defense is assured."

Daladier said this was in accordance with the judgment of the chiefs of the army, as set forth at a recent meeting of the superior War Council over which he presided.

The Senate immediately exempted the defense budget from a five per cent additional cut.

The disarmament conference may achieve something, the premier said, but "for the present" would be deluding ourselves if we slackened military preparations.

Only the future can tell if other peoples are ready to disarm.

In official circles it was said that Chancellor Hitler's speech before the Reichstag Wednesday had changed nothing. One person in touch with the government said that "Hitler is still Hitler and he has merely camouflaged."

This commentator predicted that the disarmament conference soon would take an adjournment for a long period.

JUDGES TO CONTRIBUTE

New Haven, May 19.—(AP)—A contribution from their salaries in preference to a specific cut in their compensation on the state payroll, has been agreed to by the judges of the Superior Court, at a recent meeting of the judges.

The individual contribution to be \$1,320 annually, or an equivalent of about 16 per cent. This action was decided on at a recent meeting of the judges.

Contribution of the judges will be effective in advance of the cut in the payroll of the state administrative and departmental officers and all employees under provisions of the economy act recently passed by the Legislature.

LATEST STOCKS

New York, May 19.—(AP)—Financial markets were somewhat wobbly today, with shares under scattered selling.

Cotton receded slightly, and wheat lost about a cent a bushel. The stock market dipped slightly in spots in the industrial and rails, despite an unwavering in the oil, in anticipation of announcement of a Federal program of control. The entire list, however, stiffened a little after midday.

American Telephone, Dupont, Union Pacific, Santa Fe, and Allied Chemical dropped about 2 points, then recovered a fair portion of their losses. U. S. Steel, General Motors, and General Electric stiffened after sagging nearly a point. Other issues off a point or more at the lowest included International Harvester, American Sugar, Goodyear, Case American Case, National Distillers and Liquid Carbonic. Extreme gains of about 3-4 to 1 1/2 points appeared in standards of New Jersey and California, Socomy-Vacuum and Texas Corp.

During the morning, the market advanced over about half lost. Some of the metals were up slightly, notably Kennecott and U. S. Smelting.

Standard of N. J. advanced with other oils, despite publication of its annual report showing net of only 1 cent a share for 1932. This was counterbalanced as a market factor, however, by Washington news that early introduction of Federal legislation was planned.

Factors influencing profit taking in stocks were said in brokerage quarters to include failure of the rail group to break through the upper resistance level reached last September, to "confirm" the action of industrial, and continued strength of dollars in foreign exchange dealings.

News from the steel trade included advances in sheet and strip prices in the Chicago area. The weekly mercantile review of Dun & Bradstreet said reports of further business expansion this week were "more numerous and indications of sustained gains were more convincing," but it said the movement forward was at a slower pace.

REJECT GASOLINE TAX Hartford, May 19.—(AP)—Senator Joseph E. Lawlor, chairman of the committee on roads, bridges and rivers, said today that group has voted to report unfavorably a bill increasing the gasoline tax to finance the Merritt Highway.

The bill proposed a one cent increase in the gasoline tax, the funds realized from the extra cent to go for the construction of the highway. Lawlor said the committee has not acted as yet on proposals for financing the project with a Fairfield county bond issue of \$15,000,000 or a state bond of \$20,000,000.

FINDS DIAMOND RING New Britain, May 19.—(AP)—While Dan Politis, starter at the Stanley Municipal golf course, was hunting for a lost ball in the rough yesterday he found a diamond ring. It proved to be the property of Fred Harrington of this city, who lost it last year. Politis returned the ring to the owner today.

TO REVOKE PERMITS Hartford, May 19.—(AP)—The liquor control commission today announced that revocation of some permits recently granted for the sale of beer is a possibility. The commission will shortly refer to the state's attorneys in the various counties concerned, information given by applicants in sworn statements when applications for licenses were made.

ONE-ACT PLAY—DANCE

**WOMEN'S ACTIVITIES
AT MANCHESTER "Y"**

**Report of Work Accomplished
is Made by Mrs. Julia M.
Loomis, Women's Secretary.**

The annual report of the women's division of the Manchester Y. M. C. A. read at the annual meeting Wednesday night was not in form for printing with the other reports yesterday. It is printed herewith:

Annual Report of the Women's Division of the Y. M. C. A.
During the year from April 27, 1933 to April 25, 1934, the Women's Division has held seven meetings:

April 27, the annual meeting;
April 30, farewell party for Miss Mason and a supper;
Nov. 2, social to meet Mrs. Simons;

Nov. 22, short meeting prior to Mr. Bentley's talk about the schools, when the following ladies were appointed: House committee, Mrs. J. K. Ebsary; finance committee, Miss Grace Robertson; athletic committee, Mrs. Mary Crockett; membership committee, Mrs. R. K. Anderson.

Nov. 30, an evening of games followed by refreshments;
Jan. 25, 1934, talk by Mrs. Moe on the War conference, cause and cure;

Feb. 25, an attic party. Hilarious time enjoyed by all.
The fall activities began Oct. 18 with a talk by Rev. Watson Woodruff;

Oct. 25, George Waddell on Town Government;
Nov. 1, Mrs. Aldrich on Our Hospital;

Nov. 8, LaMotte Russell on Our Bank;
Nov. 15, Miss Buttle on Home Nursing;

Nov. 22, Mr. Bentley on Our Schools;
"One afternoon in November we had a tea for the school teachers. Mrs. Ellis, Mrs. Simons and Mrs. Crockett each had a group of girls doing different kinds of craft and athletic work. A group of men met once a week for the set-back parties, the ladies furnished refreshments at the end of each party. A series of cooking lessons was held each Tuesday afternoon for several weeks and very largely attended. Five dinners were served to the Kiwanis club. An all day meeting of the Hartford County Federation of Women's clubs and a luncheon by our ladies.

"Two dinners were served to Camp Woodstock girls. One dinner for Girl Scout officers. Supper for the county and local boards of directors of the Y. M. C. A. World Service supper and talk by Frank Lenz. A hospital unit has met once a week to do work for the hospital. The Garden club has had several meetings here. One bridge party was held for our benefit, there have

also been bridge parties for the hospital. Veterans of Foreign Wars, Mothers Club and the D. A. R. Feb. 17, a rally of the Boy and Girl Scouts with a talk by Mrs. Joseph Merritt of Hartford was sponsored and nearly seven hundred attended. Other activities during the winter have been the current event lectures by Mrs. Lewis Rose; talks on interior decorating by Miss Greiner; class in jewelry making; eight lessons in contract bridge; dancing classes for the little folks; an Easter breakfast was served Easter Sunday; Well Baby conferences were begun early in the spring and are being continued on Wednesday of each week.

"Our activities have brought a profit of nearly three hundred dollars. Those that have netted an income are the dancing classes, current events lectures, the meals served, set-back and bridge parties, broom rentals and the cooking classes.

Respectfully submitted,
JULIA M. LOOMIS,
Secretary of the Women's Division."

**FIRST LADY TO REMAIN
IN STATE OVERNIGHT**

**Tomorrow She Will Go to Groton,
Mass., to See Her Son
Row in Race.**

New York, May 18.—(AP)—Mrs. Franklin D. Roosevelt came to New York early today by train and will leave in her own car late this afternoon for a week-end in New England.

Driving her blue roadster she will stop overnight with friends in Connecticut. She has not announced where this stop will be.

Tomorrow morning she will continue to Groton, Mass., to spend the day and evening with her two sons who attend Groton school. In the afternoon she will watch her son, Franklin, Jr., captain the Groton crew in a regatta.

Sunday she will motor back to New York and Monday she will attend the May ball for the benefit of her hostess houses for unemployed girls. Tuesday she will return to Washington, probably by air.

TO CLOSE STORE
New London, May 18.—(AP)—As an economy move the commissary store and the gasoline station at the submarine base will be closed effective June 30 and because of a temporary cessation of recruiting for the navy, the recruiting office here will be closed May 23.

**NEW U. S. AMBASSADOR
TAKES OVER HIS POST**

**Robert W. Bingham Calls on
Sir John Simon, Foreign
Secretary—Then Meets Lon-
don Reporters.**

London, May 18.—(AP)—Robert W. Bingham, new United States ambassador, called on Sir John Simon, foreign secretary, at the foreign office this morning.

He entered upon his duties as ambassador during the morning, taking over Andrew E. Mellon's desk at the Embassy, and meeting members of the Embassy staff secretariat who was presented by Ray Atherton, embassy counsellor.

He then held his first conference with American newspaper correspondents, for whom there was little news.

He said, however, that he had no instructions to negotiate with the

British government on the war debt payment due June 15.

He declared he intended to devote himself to preliminary work for the world economic conference, the success of which he asserted he considered essential to world recovery.

The new ambassador will enter into royal pagantry when he is received in audience by King George next week.

Recent American ambassadors have been presented to the King at Windsor Castle, but Mr. Bingham will go to Buckingham Palace. The King will send a royal coach and four to the Embassy residence in Prince's Gate with outsiders and attendants in bed coats. The ambassador and the Embassy attaches will then ride to the palace.

The King, on account of rheumatism, will not wear a uniform when he receives Mr. Bingham, but will be dressed in morning attire. Mr. Bingham and his staff will be similarly dressed.

King George of England makes a hobby of rearing budgerigars, the beautiful Australian lovebirds.

Deaths Last Night

Washington—Porter J. McCumber, 75, Senator from North Dakota from 1890 to 1923. Known as father of pure food laws.

Berkeley, Calif.—Mrs. Mary Tullman, 97, one of seven surviving original members of the Daughters of the American Revolution until her death.

Passaic, N. J.—James W. Finnegan, 71, diver commissioned in 1898 to investigate sinking of the Maine in Havana harbor.

GOVERNMENT ECONOMY TO BE LEAGUE THEME

Women Voters to Have Four-Day Institute at Connecticut College June 13-16.

Two governors will open the program of the four day institute on constructive economy in government which the Connecticut League of Women Voters will present at Connecticut College, New London, June 13-16. Governor Wilbur L. Cross will speak informally and introduce Governor John Gilbert Winant of New Hampshire who will address the opening dinner meeting of the institute on Tuesday, June 13, on "Reorganization of State Government."

Governor Winant is well known as a leader in the nation-wide movement for reorganization and consolidation of governmental agencies. The survey of the state government of New Hampshire recently made by the Brookings Institution has attracted wide attention among political scientists and students. Governor Cross is also interested in the reorganization of state government, having in his two inaugurations asked the appointment of a commission to study the problem in Connecticut and make recommendations. The League is particularly concerned with the matter from the point of view of economy and government efficiency.

The president of Connecticut College, Dr. Katharine Shunt, and the president of the League, Mrs. Edith Valet Cook of New Haven, are expected to have a part in opening the program of the institute.

Discussions during the following three days will cover such questions as the structure and responsiveness of state legislatures, problems of local government administration, rural and municipal, the tax structure, the financing of state government, and the personnel problem of government. Among the other speakers and leaders already secured are Thomas Reed of the University of Michigan, Milton Conover of Yale, Pearl Bernstein, city finance expert of the New York League of Women Voters, Mabel Walker of the General Welfare Tax League, Beulah Bailey of the New York State Department of Taxation and Finance, and William E. Blodgett, Tax Commissioner of Connecticut. Lectures from the New England States, New York, New Jersey and Pennsylvania and sending delegates to take part in the discussion. All sessions of the institute will be held at Connecticut College and room and board can also be obtained at the college for the duration of the institute.

BETTER BUSINESS

Chicago, May 19.—(AP)—Household washing-machine factory sales in April totaled 54,184 units, an increase over 1932 figures for the fourth successive month. J. R. Bohnen, secretary of the American Washing Machine Manufacturers' Association, said today: "April was the industry's best month since October, 1931, with the exception of September, 1932."

PUBLISHER TO SPEAK

Monroe, La., May 19.—(AP)—An address by Col. Robert R. McCormick, publisher of the Chicago Tribune, headed the program for the opening session of the Louisiana Press Association today. He was expected here by airplane to speak on "Our Responsibility in the National Emergency."

WAPPING

The Wapping Christian Endeavor Society will hold a "Fiesta of appreciation" hour at the Federated church at half past seven o'clock, (D. S. T.) It is to be an open meeting and all are cordially invited to attend.

The Wagon Girls' club held their annual Mothers' and Daughters' banquet last Wednesday evening at the Wood Memorial library at South Windsor. There were thirty present. The young women certainly proved themselves to be ideal hostesses, and treated their mothers to a bountiful three-course dinner. Songs were sung at intervals through the evening and a welcome to the mothers was extended. They were then by the president, Miss Dorothy Dewey and was responded to by one of the mothers, Mrs. Hattie Spencer, after which the speaker of the evening was introduced, Miss Faith Tenney of Tauberville, who spoke very interestingly on "The Atmosphere."

Mr. and Mrs. Dwight Newberry and Mr. and Mrs. Ellsworth Newberry of South Windsor spent a few days recently at their summer home, in Munsonville, New Hampshire.

The Oakland Neighborhood club met at the home of Mrs. Georgia M. Shipman last Thursday afternoon.

Olooff F. King of South Windsor has been given the position of state commissioner of agriculture. His duties are to commence July 1, 1933.

THEATERS

AT THE STATE

Two Features Today

A giant double feature program starts at the State Theater today and continues on Saturday. Laurel and Hardy appear in "The Devil's Brother" with Thelma Todd and Dennis King while the co-feature is "Hello Sister" with Jimmy Dunn and Zasu Pitts. On Saturday the first chapter of "Clancy of the Mounted" with Tom Tyler will be an added feature, together with the final eliminations of the Baby contest on the stage.

On Sunday, Monday and Tuesday another great double feature program, will be presented, the pictures will be George Arliss in "The Working Man" with Betty Davis and "Night Club Lady" with Adolphe Menjou acting as Thatcher Colt.

SOUTH'S STEEL PLANTS RESUME OPERATIONS

No Big Orders But Numerous Small Ones Will Keep Many Men Busy.

Birmingham, Ala., May 19.—(AP)—Orange glows against night skies tell the story of a gradual comeback of the steel industry in the Birmingham district.

There have been no recent big orders but small lots are making up shipments that have depleted stocks.

A new blast furnace of the Sloss-Sherfield Steel Company, will blow to tomorrow and in the company's Bessemer and Russellville mines 500 men go back to work. This will put four of the 21 blast furnaces in the district to work with a total production of 1,500 tons per day, 1,200 tons of pig iron and 800 tons of basic iron.

Sheet and plate mills of the Tennessee Coal and Iron Company here, and of the Galt States Steel Company at Gadsden, are working on part-time basis, and the wire mills of the same companies are pushing forward.

Production of pig iron in the district for April reached 80,976 tons and steel operators estimate May will see the 45,000 mark sur-

passed. Steel men say, however, that railroad's most basic buying equipment before the district approaches normal.

Three thousand tons of structural steel have received specifications on 10,000 tons for the Southern Railway Company of Corpus Christi, Tex., and one mill here has received an order from a railroad for 150,000 plates.

Approval of the Muscle Shoals operations bill by President Roosevelt has caused some encouragement to operators, but new orders from this source largely will be confined to the cement mills and to the coke ovens.

TO DISCUSS MARRIAGE

Paris, May 19.—(AP)—Miss Barbara Hutton, granddaughter of the late F. W. Woolworth, and her father reached opposite ends of France today enroute to a meeting to discuss her intention to marry Prince Alexis Midvani.

Miss Hutton and Prince Alexis Midvani, on the liner Chitra from the Orient, declined to make a statement, but said they were continuing to London.

Mr. and Mrs. Franklin Hutton disembarked from the Europa at Cherbourg with their father. "The engagement is not official," they said and then started for Paris, where Miss Hutton and the prince were expected to come.

TOLLAND

The Tolland County Congressional Association met with the Ellington church Wednesday, May 17th, beginning at 10 a. m. and closing with afternoon session. Those attending from Tolland were, Mr. and Mrs. Hoyt Hayden, Mrs. Hubbard West, Mrs. Charles Gunther and Rev and Mrs. James A. Davidson.

The woods belonging to Burt C. Hallock caught fire Wednesday afternoon and the State Forestry Department maintaining a fire patrol headquarters at the Holman-Bye forest at the eastern section of the town made quick work of extinguishing the fire.

Mrs. Marion Agard Baker with friends motored to Lebanon, Conn. Thursday and called on friends.

William Agard, Miss Lucille Agard and Samuel Simpson called on relatives in Hadlyme Monday afternoon.

Mrs. Keat Newcomb Burgess of Hartford made a business trip to Tolland Tuesday and also called on friends here.

Remember the meeting of the Men's Community club which will be held in the social rooms of the Tolland Federated church Thursday evening, May 25th at 8 o'clock. All men of the community are cordially

invited. The meeting of a month ago was much enjoyed by the men present. The committee on program is Ivan Wilcox, L. Ernest Hall and Rupert West.

FARLEY POSTPONED

Berlin, May 19.—(AP)—The Reichbank postponed today a conference of trustees of foreign bondholders and the so-called standstill committee to discuss the transfer (foreign exchange) problem from May 26 to May 29. The decision was made in view of the itinerary of the American participants.

GANDHI'S CONDITION

Poona, India, May 19.—(AP)—The Mahatma Gandhi entered today the twelfth day of his three weeks fast against "untouchability" with his condition reported as very satisfactory. He passed a good night. His friend and secretary, Mahadev Desai, was released today from Yeroda jail and hastened to the Mahatma's bedside.

DAMICO'S ORCHESTRA AT RAU'S SATURDAY

Peter Damico's orchestra from the Barimire Hotel at the end of the trail in North Adams, Mass. will be at Rau's Crystal Lake, Saturday, May 20. Freddie Marco, one of the vocalists at Radio Station WEE is featured with Damico's orchestra. This band scored a big hit with the season's new record, "The season that year" at present they have a large following in Eastern Massachusetts and are playing at Crystal Lake dance halls to their joyous delight.

ATHLETE'S FOOT HEALED IN WEEK

"For sometime, ever since I played football, I have been troubled with 'athlete's foot' and have tried many of the popular remedies, also several prescriptions without success. At my mother's suggestion I finally used Resinol Ointment and it healed the trouble in about a week. Now I use Resinol ointment once a month and have never had a trace of 'athlete's foot' since I began this treatment." (Name)—John Row, 812 and Ave., N. W., Washington, D. C. TYDOL REVOLUTIONIZES GASOLINE!

The First Lubricating Hi-Test Gas
WATCH FOR NEWS OF TWO OTHER REVOLUTIONARY QUALITIES

AT REGULAR GAS PRICE!

Today, TYDOL announces a new type gasoline. A gasoline that lubricates as it drives.

For the first time! . . . Absolutely free! . . . Top-cylinder lubrication in a hi-test gasoline.

In every gallon of the new Triple "X" TYDOL there has been blended the scientifically correct proportion of a water-white, carbonless lubricant, refined by Tide Water's secret K.A.E. process. This lubricant insures perfect top-cylinder and valve lubrication, acts as a carbon solvent and actually results in a definite increase in gasoline mileage.

The benefits of this remarkable lubricant have actually been proved on the road in tests of more than 11,000,000 miles.

But that is not all the story. In addition to this free, extra lubricating feature, Triple "X" TYDOL will give you two more premium qualities never before combined in any other regular price gasoline.

Watch for news of these two other qualities . . . each as revolutionary as this lubricating feature.

 FRIDAY, MAY 19.

DISHING IT UP

Connecticut has plenty of money. Its principal trouble is to find ways to spend it. However, leave it to the State Board of Finance and Control—the good little old board will find a way.

The Board found one ingenious way of getting rid of \$3,500 in hiring Griffiths and Associates to draw up a report defining the qualifications and duties requisite in the personnel of the Governor's office. Let the paragraph of the report dealing with chauffeurs suffice:

Chauffeurs employed by the state should be capable of driving the head of a department and other officials and employees as authorized to designate locations, taking children to school; making scheduled or special trips for collection and delivery of supplies, messages, light packages or small articles; removing tires and fitting minor repairs and adjustments; washing the motor vehicle; keeping a small garage clean and orderly; when not engaged on the regular duties assisting on other simple work such as messenger service or filing, taking complaints and answering inquiries of the public, keeping record of a small stock of supplies, or assisting in the maintenance of grounds as assigned.

In addition to which, perhaps as an afterthought, the report suggests that the chauffeur should have at least a common school education, a license to operate an automobile, one year of experience in driving, familiarity with several makes of cars and he should be careful, cool in emergencies, neat and in good physical condition.

It may be worth the whole of the \$3,500 to have the state's mind clarified on the point that a chauffeur should be able to drive the head of a department to a designated location; otherwise was meant to be hiring some state chauffeur who had the idea that when he started out with a department head in the car he was supposed to just keep on driving and might as well keep on driving around Bushnell park forever as to do anything else—which, just possibly, might not be so far wrong but probably wouldn't answer very well because the department head might get hungry. And it certainly was a stroke of genius to stipulate that a chauffeur should be able to change a tire—and a little regrettable that it didn't also provide that he must know how to blow the tire up. However, we don't suppose you can expect to get everything for a lousy little eighty-five hundred bucks.

At the same time, lost in admiration as we are of the Board of Finance and Control's ingenuity in preventing unhealthy treasury surpluses to accumulate, we can't repress the wish that, the next time it feels the need of getting one of these "expert" reports, the Board would give the Manchester school system a shot at the job. We could almost guarantee such a report produced by a select delegation from the third grade pupils to be quite as good as the one quoted—and haven't the least doubt that the youngsters would consider themselves overpaid if they got eight dollars and a half for it. Anyhow, they would be.

HOP LIGHT CHANCE

There's a new kind of organization of the unemployed in New York. Its members are all women. They expect to wear gay costumes as they follow out their various and ingenious schemes for making a living. The names of their group is The Hop Light Ladies. They got it from an old Virginia song, part of the Virginia Reel, where the lines go—
 Hop light ladies, your eyes are all dough,
 And never mind the weather if the wind don't blow.
 The Hop Light Ladies expect to do a lot of little odd jobs of painting and furnishing in homes—

will carry the paint and brushes right with them when they are on this particular job; and to sell a great many flower box plants, to open book stalls in public parks and squares to provide trained attention for the children of busy parents and—very particularly—to "go about town selling house numbers of the size and visibility in accordance with the legal requirements."

It's this latter idea that makes the special bit with us. Probably it wouldn't pay the Hop Light Ladies to hire a bus and come all the way to Manchester to sell street numbers to this town's inhabitants; but it might not be a bad idea for some local Hop Light Ladies or Hop Light Gentlemen to see what they could do with these storekeepers of ours in the way of inducing them to street-number their establishments with some degree of completeness and uniformity.

One of the easiest things to do in Manchester is to lose ten minutes looking for a business street number. A street number on a Manchester store is just now and then a number, at all events, that you can see. And yet this is no little village. There are a lot of stores. And there are always people looking for some of them, or for some office, who didn't see the town built and who are not as familiar with its store housing as with the palms of their own hands.

Heads up, Manchester Hop Light Ladies; maybe there's a chance here.

TERMINES

Home owners throughout the suburban areas of Greater New York have developed a sudden panic over termines. For the first time in the city's history it is having an experience with the so-called white ants and it doesn't in the least like it.

A tremendous lot of "nature" literature has been written about termines, a great deal of it true and a great deal of it sheer exaggeration or untruth. Even the truth about termines is rather startling and so many people have read a little of it, and in addition a little of the fiction, that when it was discovered that termines were actually eating up the woodwork of a number of buildings in the greater city there was no trouble at all about starting a first class case.

And it appears that a lot of busy gentlemen have been very busily employed in promoting the scare. They see the opportunity to sell all sorts and conditions of powders, sprays and devices of one and another sort, each "guaranteed" to exterminate the termines—and none of them the slightest use.

Maybe we shall eventually have a visitation of termines up this way. It is devoutly to be hoped we shall not, because the infernal things do do a terrific amount of damage and are exceedingly hard to get rid of. But if we should, by any hard luck, find ourselves up against the job of combating a termines invasion it would be well to bear in mind the advice of the Bureau of Entomology of the Agricultural Department. That is for home owners to ask the advice of their own state agricultural authorities or of the Bureau at Washington, since the commercial termines-control agencies are good only to get your money away from you, and the task of combating the wood devouring insects presents a different problem in almost every case.

REFEAL OR PAY.

On June 20 Connecticut citizens will go to the polls to elect delegates to the Constitutional convention on the repeal of prohibition. As they cast their ballots they will, at the same time, be voting on the question of whether they shall tax themselves on every dollar of their expenditures for every sort of commodity, probably including every mouthful of food, in order to finance the great public works project; or whether that project shall be financed by taking the liquor traffic out of the hands of the racketeers and bootleggers and subjecting it to legal taxation by the government.

Those who vote dry will be voting to tax themselves, their children and their neighbors. Those who vote wet will be voting to have the government take over the taxing power now possessed and exercised by the gangsters and the illegal liquor vendors.

This flat statement of the issue can now be made on the authority of the director of the budget, Lewis L. Douglas, who made definite declaration to that effect before the House Ways and Means Committee yesterday.

Hundreds of millions of dollars that are sorely needed by the government to make possible its great work of re-establishing the nation's business are being absorbed by gangdom and constitute the capital of enormous crime syndicates. Repeal of the Eighteenth amendment will automatically end this financing of the underworld and divert the

Basis For An Anglo-American Agreement

It is a serious responsibility to oppose a reform as vast, as essential as this. A responsibility that perhaps will be the more fully realized when the voter understands that he himself will be called on to help make good the loss if ratification of repeal should fail.

BRAVE COURAGE.

It is doubtful that Rear Admiral Butler, Captain Shoemaker and Commander Kraus, who signed the report of the naval court of inquiry into the Akron disaster, will have copies of that report—expressed, framed and hung on the walls of their homes. They have little reason to feel proud of it.

"The court is of the opinion," the report says, "that . . . the commanding officers committed an error of judgment in not setting such a course as would have kept him in the safe semi-circle, thereby probably avoiding the severe conditions finally encountered, and that this error in judgment was a contributory cause of the loss of the Akron."

Yet the evidence compelled the court to say this: "The court has but little direct knowledge of the considerations upon which this judgment was based. Everything within the knowledge of Commander McCord at the time his decision was made might have pointed to his plan of action being justifiable."

In other words, the court having decided, in spite of evidence that the ship began to go to pieces in the air, that the Akron was a perfectly good airship had to blame some individual for her loss, so a dead man is charged with having blundered. It was either that or an admission that the meammoth dirigible is, in its very nature, an extremely dangerous machine in which there is no way of insuring safety. And the influence of the big-airship party in the Navy is still too powerful to be braved by a mere court of inquiry.

Those three officers must have squirmed in their skins when they signed that report. Every brave man, in or out of the Navy, hates to do a cowardly thing under compulsion—and that was a cowardly proceeding.

Health and Diet Advice

By Dr. Frank McCoy
 Eternal Vigilance Necessary To Avoid Injury

As we pass through the devious and unknown trails before us, in the journey through life, we are on our guard against the expected dangers such as of being hit by an automobile when we cross highways, or trains when we cross railroad tracks, or exertion when we have high blood pressure, or handitis when we are on dark and lonely roads. The surprising fact is that we are not usually injured by very real dangers when we are watching for them. It is the unexpected ones that take us to the hospital or the last resting place. There are fewer serious automobile collisions on well-traveled highways than there are on little-known roads. While on this subject, some of the unusual accidents of the past year may be interesting to my readers.

A newspaper man was playing bridge. He made a grand slam and was so surprised that he leaped up from the bridge table in too much of a hurry and dislocated his shoulder. Another shoulder was dislocated in a football player, not from forcing his way through the opposing eleven, but by being kicked by his younger brother who was sleeping.

More people would be drowned while swimming were it not for the lifeguards who are on watch to prevent this expected danger. However, there was no lifeguard on hand when a man fell head first into a crock of sugar and was drowned. Another unusual drowning, which we hope was more pleasant, was that of a man who drowned in a puddle of wine.

Knowing all of the dangers of the things which one is accustomed to handling, does not necessarily guarantee safety. A teacher of chemistry absent-mindedly made the mistake of picking up a glass of acid from his desk, drank it like water and died. If anyone should know the dangers of an infection, it is a doctor; yet a famous doctor in Chicago, in adjusting a dressing, pricked his finger with a safety pin, neglected to care for the wound and was killed by infection.

Those who watch acrobats going through their dangerous acts before audiences wonder how they escape being dashed to death. No one would expect an acrobat in everyday life to make a mistake while walking, yet an acrobat strolling along on a level sandy beach, tripped and broke his neck.

In observing an accident it sometimes seems that nothing can save the victim, yet there is an authentic case of a little girl who ran in front of an automobile which, impeded her way and passed over her body, save for a few scratches she was unscathed; however, the aged driver of the car died from the shock.

A strange incident is that of a boy who flew a kite which contacted a high tension wire. The line short-circuited, fanned and broke. A fear could be conceived with hypothetical applications.

(Woolen Knives and Legs)
 Question: Lem T. writes: "I was

IN NEW YORK

By PAUL HARRISON

New York, May 19.—The man who knows the most dapper male celebrities of stage, screen and society is a shopkeeper named Sam Simon. As his father did before him, and as his son will continue into the third generation, Mr. Simon makes and sells canes, Charlie Chaplin, Eddie Cantor, the Whitneys, Goetz, Ryans, Vanderbilts and people like that go to "Uncle Sam" for their favorite types of sticks.

The business was started in the Bowery, opposite London and Minors' theater, in 1876. In those days canes were more handsome, better made of heavy woods with solid ivory handles, and were considered emergency weapons. Swords canes were popular, too, especially with southerners. Mr. Simon remembers the old style canes personally, always assuming that it is intended for a collection, since it is against the law to carry them.

Uncle Sam has a crowded little shop in the center of the theater district now, and says he serves just about all the men-about-Broadway. Irving Berlin, Clifton Webb, Le. Shubert and the Harriess, William A. Brady, Bert Lehr and Ted Healy are regular customers. Gus Edwards carries light and very flexible sticks, and breaks about one a month. Chaplin's canes are made of a lumber Chinese wood called waukwa. Preston Sturges, the playwright, used to give canes to the casts of all his shows.

Canon's favorite is a heavy natural history that Simon himself cut in the woods in Delaware Water Gap. That's the way the little cane man spends his vacations—prowling around mountainsides looking for suitable materials. He seasons the woods and carves them himself. He also makes a few umbrellas, but prefers to devise novel ones like that made for Joe Cook, the comedian, which supplied his own rain from a tube running through it.

Simon has orders for all sorts of novelty sticks, too. Some are elongated liquor flasks, others have electric lights or cigar lighters in the handles. Simon has seen, but never made, pistol canes, except that he did once fashion an orchestra leader's baton that would shoot a blank cartridge. It was used in a mystery movie. He has sold a 54-inch cane to a circus giant, and several 18-inch ones to midgets. A Negro actor once ordered an ebony stick "ridiculous with rhinestones" and became the talk of Harlem when he flashed his 800 brilliants. Simon also makes leather-covered lead canes weighing fourteen pounds with which some men take strenuous arms and shoulder exercises while strolling the avenues.

Uncle Sam, by the way, never carries a cane himself. Says it would make him feel self-conscious.

Pipe Craftsmen
 As neighbors, the Simons used to have Carl Stehr and his father, who ran the oldest pipe shop in New York. It was started in 1867. The Simons moved when the complexion of the lower east side changed, but the Stehrs wouldn't budge from their original location, which is on Broome street just off the Bowery. The son is nearly 60 now, and alone in the business, where he concentrates on hand-carved meerschaum pipes.

Stehr regrets the passing of symbolism in pipe carvings. He used to do Mephistopheles designs for actors, skulls for doctors, Indian heads for Tammany Hall politicians, bulls' heads for butchers, and so on. Now men just want their pipes plain.

Behind the Scenes in WASHINGTON

The New Deal in Washington.
 By ROONEY DUTCHER
 N.E.A. Service Writer.

Washington, May 20.—A new third party—a radical party appealing to labor and the farmers—may be born from the recent Congressional Congress for Economic Reconstruction which met in the capital.

Leaders of the Socialist Party and other moderate left wing groups which operate in the large field lying between the major parties and the conservative labor and farmer organizations on one hand and the Communists on the other, are distinctly hopeful.

Old-time Socialists thought the Congress was the most impressive convention they party had ever had. They recognized a stronger militancy among the country's dissatisfied elements. They were surprised that the meeting actually drew nearly 4,000 delegates from all parts of the country.

Manifestations of such new revolutionary spirit as has been created by the depression were not alarming, since the Socialists who dominated the meeting continue to place their faith in the ballot box and in democratic, parliamentary government.

The Disputed Label
 The leaders, however, are going to seek a broader political base for American radicalism. They want to organize among the millions of the employed workers and millions of hard-pressed farmers. The Socialist Party has had little success at this job. Now many of its members are perfectly willing to change the party name and drop some of their shibboleths in the hope of building quickly an organization which might begin with the political proportions of the LaFollette independent progressive movement of 1924. There would surely be a fight over that point, however, as many old-line Socialists prefer to retain the party label at all costs.

Among the larger organizations which met with the Socialists were the Farmers' Union, the National Farm Holiday Association, the Amalgamated Clothing Workers of America and a couple of dozen state farmer and labor federations. Although the Socialists and their

abdominal muscles. Good results may be obtained by using a grape fast to cleanse the body.

(Wholesome Pie Crust)
 Question: Mrs. Ella Mae R. writes: "I would like to know if there is some way of making a dehydrated pie crust, that is, a crust that can be used for a fruit pie, preferably stewed fruit without sugar."
 Answer: It would be quite difficult to make a pie crust with dehydrated flour and in cases where pie is permissible I believe the whole-wheat flour will prove satisfactory, but the crust should be browned before adding the filling.

stinting still and it causes my legs to ache and pains me below the knees. Would a special diet or fruit fast help me to overcome this trouble? Would grapes be as good as oranges for removing the toxins from my system?"
 Answer: The extreme amount of swelling you have in your lower limbs may be caused from an interference with the circulation because of prolapus of the abdominal organs. A careful diet system of setting up exercises for developing

QUESTIONS AND ANSWERS
 (Suggested Treatment for Late Mayer Carmak)
 Question: M. V. asks: "What would have been your method of treatment of the late Mayer Carmak? Was there any reason why this man should not have been dehydrated food of any kind? With his comparative youth and his evident strong constitution would any harm have been done had he been kept on a diet of water and fruit juices, at least while he was running a fever?"
 Answer: It is, of course, impossible for me to say just how I would have treated the late Mayor Carmak without having examined him and knowing his condition. The newspaper reports were very vague on this subject. As a rule, however, I have found it advisable to restrict heavy foods in any type of injury where infection has set in, and post-operative patients who are kept for a few months on a diet of water and fruit juices, at least while the infection has been brought under control. Considering the build of the late Mayor Carmak, I do not believe there would have been any danger of him starving on such a regimen for many weeks. The fever could be controlled with hypodermic applications.

The evening services at the Emanuel Lutheran church will be discontinued after Sunday, May 26, at which time the church choir, assisted by the G. C. Glee Club, will present Handel's "Messiah."

MOONEY'S RETRIAL TO START MONDAY (Continued from Page One) In excellent spirits and health despite his years in prison, expressed hope none of his sympathizers would do anything to cause a delay.

CONVICTS KILL GUARD (AP)—Two convicts on their way to the state prison farm last night killed one of their guards and wounded the other to a grave and died in the officers' automobiles.

Tomorrow is your last chance to receive a Max Factor Color Harmony chart, listing the types and colors of cosmetics that will most flatter you. Be sure to stop at Hatter's Cosmetic Department, where Miss Gwen Strong is displaying the famous Max Factor cosmetics, used by 96 per cent of Hollywood's stars.

Discrimination The clever hostess adapts her menus to types of guests. The most obvious example is that luncheon exclusively for women should never have even a remote resemblance to a menu planned for a luncheon or dinner at which men are to be present.

New and Nifty It seems unnecessary to point out that clothes were originally intended to be seen, and not heard. Some of the new jewelry, however, has different ideas.

Good news for the men is the arrival of a large new selection of summer cravats at Cheney Hall Salesroom, at prices ranging from 45c each to \$1.25. Especially large and attractive is the new display at 45c all in newest colors and patterns.

Second Life for Toast Left-over toast can be used as the base of various canapés, which are better anyway when the toast is somewhat crisp. Or it may be cut into squares, re-heated and served as croutons for soup.

Reasonably priced, the sturdy suitcases are sold by G. E. Williams & Son, Inc., 2 Main street, will last years. Their 6-ft. trunks are made in a variety of attractive designs.

KNIGHT'S COMMUNION BREAKFAST SUNDAY To Attend Church in Body at 8:30 and Then Meet at St. James's Hall.

Leo Kwasi, John Hutchinson, Jr., and John McCluskey, the committee named by Campbell Council K. of C., to arrange for the annual communion and communion breakfast of the Council have received assurance of the greater number of the members of the Council, who are living in Manchester, that they will be present and take part in the communion and breakfast that will be held Sunday in St. James's Hall.

HOUD ACCOUNTANTS IN RIDLEY MURDER (Continued from Page One) disclosed until after Weinstein was slain. Detectives said the bill of sale disclosed the \$2,000 car was paid for by checks drawn on the accounts of the Lego Iron Works, the Allegheny Construction Company and the George Heating and Plumbing Company Inc.

RAINBOW CEREMONY TO BE SEMI-PUBLIC Parents and Friends of Girls to Get Invitation to See Installation.

Manhattan Assembly, Order of Rainbow, will have a semi-public installation of officers, Monday evening at 8 o'clock at the Masonic Temple. All members of the Masonic bodies will be welcome to attend the ceremony as well as parents and friends of Rainbow girls.

HOSPITAL NOTES Mrs. Doris Brickland, of 474 Main street, was admitted to the hospital, assisted by her daughter, Miss Doris Brickland, and Miss Doris Brickland, of 124 Elm street, and Miss Doris Brickland, of 124 Elm street, were discharged yesterday.

ASSEMBLY DODGES DEBATE SUBJECTS

Observes Fightless Friday Rule—Both Houses Reject Number of Bills.

Hartford, May 10.—(AP)—The General Assembly, harassed during the first three days of the week by frequent clashes on the state budget, appointments and consolidation of educational functions, steered clear of all controversial issues today to clear its hoppers of a mass of relatively unimportant business.

Both Houses devoted a large part of their short sessions to the rejection of nearly a score of bills proposed during the day in the Bridgeport city government. The Senate passed only two calendar measures during its half hour meeting and suspended the rules to consider in its passage a bill designed to relieve custodians of public funds from personal responsibility for such funds in the event a bank is closed.

The New Model Laundry specializes in "doux" all kinds of curries and they guarantee against shrinkage... an important point to know. New Model charges are low for such efficient service—50c per plain curtains; ruffled ones, 75c per. Just phone 8072.

Good news for the men is the arrival of a large new selection of summer cravats at Cheney Hall Salesroom, at prices ranging from 45c each to \$1.25. Especially large and attractive is the new display at 45c all in newest colors and patterns.

POPPIE SALE MEETS WITH QUICK SUCCESS

Both V. F. W. and Legion Corp of Workers Find Ready Response.

Reports from Edward Frazer and Mrs. John Gleason, chairman, respectively of the V. F. W. and Legion Poppy sales committees conducted yesterday on the streets of Manchester, indicate a good sale. Each of the ex-service organizations were early on the street with a large corps of salespeople from the posts and auxiliaries, and the drive for the annual welfare funds of the posts and auxiliaries, conducted at this time throughout the United States, should terminate Saturday.

Well Received The appeal of the veterans in the annual sale of the little "flower of Flanders" was well received here, although the amount received will not approach the total of other years. The effort on the part of the people to "honor the dead, by helping the living" and aiding disabled comrades and dependents who are in dire need, is the one principal object of the Veterans of Foreign Wars, and the reception given the workers yesterday is highly encouraging.

Chairman Frazer appeals to the people to help the living and aid the disabled, comrades and dependents who are in dire need, is the one principal object of the Veterans of Foreign Wars, and the reception given the workers yesterday is highly encouraging.

Chairman Frazer appeals to the people to help the living and aid the disabled, comrades and dependents who are in dire need, is the one principal object of the Veterans of Foreign Wars, and the reception given the workers yesterday is highly encouraging.

MENTION HUGH JOHNSON FOR INDUSTRIAL HEAD (Continued from Page One) wield the widest power over industry ever granted to an American, has long been noted for his organization of the industrial revolution.

Bill Approved The House also approved a bill requiring the state board of education to make a survey and prepare a plan for providing high school education in small towns. The board is ordered to report its findings to the next session of the General Assembly.

Two compromise bills granting part of the request of the New Haven railroad for limitation of length and weight of trucks were favorably reported in the house. One would limit the weight of trucks to 35,000 pounds after Jan. 1, 1937, while the other bans trucks longer than 35 feet after that date.

Calendar bills passed included: Providing for extending the time for the filing of certificates of organization validating the corporate existence of the Potomac Land company, of Waterbury; extending the time for the filing of certificates of organization validating the corporate existence of the Metropolitan district power to improve the park river.

Among the Bridgeport bills rejected by the Senate were: Abolishing the office of tax attorney and transferring its powers to the city attorney; making permanent a member of the board of education and requiring that the question "shall the normal school be abolished?" be put on the voting machine at the special state election on August 20; empowering the Common Council to redivide the city and set up voting districts; combining the offices of town and city clerks; empowering the Common Council to investigate the official conduct and expenses of any officer or department; empowering the mayor and aldermen to change the salary of any city employee and to transfer employees from one department to another; empowering the Common Council to enter into a 20-year contract for garbage disposal; providing for the annual election of 16 aldermen for two-year terms; providing that retired policemen or firemen may be recalled to duty; providing for the payment of taxes in four equal installments and prohibiting any department from spending more than a quarter of its appropriation in any quarter; making the city treasurer a member of the park and library commissions; and abolishing the office of city treasurer and transferring its duties to the comptroller.

The Senate received favorable reports on a bill placing Peter Coughlin on the retired list of the Waterbury fire department at half pay in lieu of compensation payments he is now receiving and on a measure granting houses to persons who have practiced naturopathy for three continuous years.

ROCKVILLE

QUICK WORK PREVENTS BIG FIRE IN MILLS

Flames Discovered Eating Through Roof of American Mill Quickly Extinguished.

The American Mill, a six-story wooden structure of the Hockanum Mills Company, local woolen concern, mysteriously caught fire at 10:30 o'clock Thursday night. A general fire alarm was sounded from Box No. 22, corner of School and Cottage streets. It was discovered by Patrolman Merrill Cedor.

Through the quick work of the Rockville Fire Department the damage was only a few hundred dollars covering the loss of the mill's now under investigation as this six-story wooden structure, dating back to 1848 is one of the vital elements of the Hockanum Mills Company as it houses the carding and spinning departments.

The American Mill, housing the carding and spinning department of the Hockanum Mills Company is located on East Main street but a few hundred feet from the center of Rockville. The fire was discovered by the police when the flames broke through the roof on the west side of the structure.

Rumors were current during the past few days that the Hockanum Mills Company were to again expand in order to fill the void now on their books. This corporation, headed by Col. Francis T. Maxwell has been working day and night shifts all during the depression.

The Hockanum Mills Company has been rumored to such an extent during the past 18 months that ten ton trucks have been sent out of Rockville to New York and Philadelphia each evening in order to make deliveries according to the contracts of the concern. Raw wool has been brought here to Rockville in ten and fifteen-ton truck loads daily. More than a million dollars has been expended for modern automatic woolen machinery.

The Hockanum Mills Company is recognized as one of the leading woolen concerns in New England and operates seven mills in Rockville. Loyalty of the employees has been a feature to a marked degree and no labor difficulties have been in evidence.

A record attendance is expected at the auditorium of the George Sykes Memorial school this evening at which time a triple action entertainment will be given under the auspices of the combined Dramatic clubs and the Glee clubs of the Rockville High school. These will also be a concert followed by a play and also dancing. The evening's program will open at eight o'clock under the personal direction of Malcolm G. Humphreys, music teacher. A feature of the evening will be the presentation of the play "Haunted" by the combined Glee clubs of the school.

Miss Betty E. Jessy of the Savings Bank of Rockville was elected secretary and treasurer of the Association of Savings Bank Women of Connecticut at their annual meeting held at New London, Conn., on Thursday. Miss Jessy is one of the prominent young women at Rockville and active in the social affairs of the community as well as one of the valuable employees of the Savings Bank of Rockville.

Wall Street

Briefs

New York, May 19.—The "Annual" preliminary index of business activity for April stands at 56.3 against 52.7 for March and 56.6 for April, 1932. All components of the index for which April figures are available, showed boom and shoe production, except increase over March. The most significant gains were in freight loadings and steel ingot production.

Local trust companies holding guaranteed mortgage participation certificates issued by title or guarantee companies will form a committee, it was announced today, to cooperate with the New York Guaranteed Mortgage Protective Corporation which recently was authorized by the Legislature to represent holders of such certificates.

Effective today, the volume of stock transactions on the New York Stock Exchange tickers will be printed on three even hours, starting at 11 a. m., instead of 10:30, noon, 1:30 p. m., 2:10 p. m. and 3 p. m., as in the past. On Saturdays the volume will be printed at 11 a. m. and noon instead of 10:30, 11:30 and noon.

Directors of the Tide Water Associated Oil Co., are expected to meet next week to select a new president as successor to Astell J. Byles, who will retire to accept the presidency of the American Petroleum Institute.

PLANTS CLOSED DOWN
Manchester, N. H., May 19.—AP)—The Amoskeag Mfg. Company closed its entire plant today after operatives in two of the mills walked out. The walkout and shutdown of power affects 7,800 textile workers.

Stanley Kunicki of the Class of 1933 of the Rockville High school has been selected by the members of the graduating class to represent the class on the graduation program. This was taken by a popular vote. The members of the faculty will make a faculty selection within the coming week. Others taking part in the graduation program will be Miss Barbara Haywood as valedictorian and Miss Mary Plender as salutatorian.

The annual banquet of the Maple Grove Bowling League odeity was held last evening at Maple Grove at which time a delicious turkey dinner was served to over sixty members and guests.

An important meeting of Maria Newell Tent, Daughters of Union Veterans, was held last evening in the G. A. R. hall, Memorial building.

Mrs. Harry Ungewitter of Monson, Mass., is the guest of her parents, Mr. and Mrs. Julius Kepp of this city.

The Sewing Circle is holding its regular food sale this afternoon at the Sunday school rooms of the Tolland Federated church, opening at 3 o'clock.

The Rockville Lodge of Elks and the Maple Grove society have received "club permits" from the Connecticut Liquor Control Commission and are doing a rushing business in the sale of beer.

The Every Mothers Club of the Rockville Baptist church will hold an important meeting this evening at the church social rooms. Mother's Day will be enjoyed followed by a social hour at which time refreshments will be served.

SEC. WOODIN DENIES OLD REPORTS AGAIN

Says He is Not Going to Resign—Hopes to Hold His Job for Long Time.

Washington, May 19.—(AP)—Voicing anew his denial that he intended to resign, Secretary Woodin observed today that a record seemed to have been set in going six days before the latest report sprang up that he intended to quit.

He denied such a rumor recently from his sick bed but it came up again yesterday.

"We have gone six days without it being reported I was going to resign and that's a real record," Woodin said. "I am in perfect health and hope to be here a long time."

"I am deeply interested in the work here and no man could have a more delightful chief with whom to work. Our relations are the most cordial that could exist."

"I have no intention of resigning. Just deny it as emphatically as possible and perhaps this time we can go seven days without the report being revived."

60th anniversary of their marriage. Their ages are 64 and 63 respectively.

STATS FOREST WORK
Boston, May 19.—(AP)—Massachusetts may be given the opportunity to put its thousands of work in bar state forests, under the Federal government provisions for the Civilian Conservation Corps, state commissioner of conservation Samuel A. York announced today.

The program calls for having the first camp in operation by May 22 and the last by June 6.

WEDDING ANNIVERSARY
Bridgeport, May 19.—(AP)—With children, grandchildren and one great grandchild gathered about them, Mr. and Mrs. John Terrill of Park avenue, today observed the

PASTURE CONTEST TO BE SPONSORED

Hartford County Farmers Invited to Take Part in Contest During the Season.

Announcement is made by the Hartford County Farm Bureau that the pasture contest sponsored by the Connecticut Dairymen's Association and the Extension Service of the Connecticut Agricultural College will be continued during the coming season. Any dairymen who wish to enter this contest and keep a record of their pastures during the season is urged to secure an application blank from the Hartford County Farm Bureau office.

The records should cover the entire pasture season so co-operating dairymen are invited to get their applications in promptly. The following will be considered in placing the awards:

1. A long-time plan for developing adequate pasture for the particular farm.
2. Pasture records for the 1933 pasture season, showing:
 - (1) Feed used in the barn.
 - (2) Animals pastured and milk produced.
 - (3) Evenness of pasture production through entire season.
 - (4) Cost of the pasture improvement.
 - (5) Progress in developing the long time program.

12 STATES RATIFIED CHILD LABOR MEASURE

But Only Seven of Them Have Made the Required Report to the State Department.

Washington, May 19.—(AP)—Twelve States have now ratified the child labor amendment, but only seven of them have made the required report to the State Department. Michigan, the eleventh in point of time to vote the ratification amendment in its State Legislature, went down as seventh state to ratify on the State Department records. The other six on record there are: Arizona, Arkansas, California, Colorado, Montana, and Wisconsin. Four that ratified this year previous to Michigan but not reported as recorded at the State Department are: North Dakota, Ohio, Oregon, and Washington.

The twelfth state was New Hampshire, hailed by friends of the amendment as the first ratifying state in the industrial east. Thirty-six states are necessary to make effective the amendment, which has been pending in the Senate since June 4, 1924. Four legislatures are still in session in which a ratification resolution has been introduced, and which therefore have some chance to join the 1933 list—Massachusetts, Illinois, New Jersey, and West Virginia.

CONVICTS ON STRIKE

Baltimore, May 19.—(AP)—Eighteen prisoners in the Maryland state prison including three lifters and several of national notoriety were in segregation cells today as 34 of them continued their hunger strike for the fourth day. The strike began Tuesday when three prisoners declined the food offered them for breakfast and prison officials made no attempt to force them to eat. William Niemoth, 39, one of Chicago's pugilist enemies was one of the four men in the segregated group who were not on the hunger strike. These were blamed by officials for a large share of the unrest at the institution. Warden Patrick J. Brady said the hunger strikers will be allowed to go hungry "until they come to their senses."

RUSSIA TO ACCEPT

Moscow, May 19.—(AP)—The Soviet government, it was learned today will accept the invitation to participate in the London economic conference. Formal announcement to this effect may be expected in a few days.

Although the invitation was received several days ago, Moscow so far has withheld acceptance, apparently waiting to gauge the extent of world opinion as to the usefulness of the party.

What concrete proposals the Soviet government will offer has not been revealed.

It was considered certain Maxim Litvinoff, commissar for foreign affairs will head the Soviet delegation.

8 BABIES ENTERED IN STATE'S CONTEST

Five Prizes Offered to Both Babes and Mothers—Finals Tomorrow Afternoon.

Babies who have been selected to compete in the finals of the Baby Contest on the State Theater stage Saturday afternoon will be:

- James Hamilton, 271 High street.
- Robert McIntosh, 10 Trotter street.
- Stanley Brazansky, 60 North street.
- William Carrington, 15 Trumbull street.
- Richard A. Taggart, 111 Cooper Hill street.
- William Habereyn, 135 Bissell street.
- Patricia Hagedorn, 50 Glenwood street.
- Gertrude Blevins, 184 South Main street.

G. A. COULTON DEAD

Cleveland, May 19.—(AP)—George A. Coulton, 68, widely known in Ohio and National banking circles, died suddenly yesterday of a heart attack. He has been an official of Cleveland banks for 30 years and for the last three was vice-chairman of the Union Trust Co., now in the hands of a conservator for liquidation.

He had been president of two of the several banks which became part of the Union Trust on its organization Dec. 31, 1919.

He is survived by his wife, Mrs. Emily Dering Coulton, and three children, Henry, a student at Princeton; and Lydia, a student at Seaside School in Boston.

PREMIER PLANS VACATION

London, May 19.—(AP)—Prime Minister Ramsay MacDonald plans to take a good breath of Liosse-mouth air to brace himself for his strenuous work in connection with the world economic conference of which he is president.

According to tentative arrangements he will fly to Scotland next Wednesday after the Cabinet meeting to remain ten days, returning to London some time around Whit-sunday to start his preliminary work for the conference and to greet delegations from all parts of the world.

His departure Wednesday depends on whether he decides to participate in the foreign affairs debate in the House of Commons.

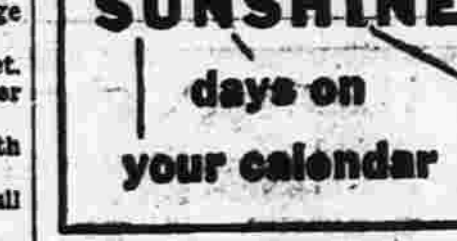

SENATOR PORTER DEAD; WAS NOTED STATESMAN

Father of Pure Food Laws and Co-Author of Fordney-McCumber Tariff Bill.

Washington, May 19.—(AP)—Nearly two score years service in public life was at an end today for former Senator Porter J. McCumber of North Dakota.

The 75 year old lawyer statesman, remembered as father of pure food laws and co-author of the much debated Fordney-McCumber tariff of 1922, died last night from a stroke suffered three days ago. Funeral services and burial will be in Washington Saturday afternoon.

After his defeat in the 1922 primaries by Lynn J. Frasier, incumbent, McCumber, who had held his Senate seat since 1898 and had risen to the chairmanship of the powerful finance committee, backed

How many days in the month do you feel your best? You can add to these sunshine days by simply obeying nature's laws.

The first of these laws is regular elimination. Avoid common constipation by eating a delicious cereal.

Tests show Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines, and vitamin B to help aid regularity. ALL-BRAN also contains twice the iron of an equal weight of best liver.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much more pleasant than pills and drugs—so often habit-forming.

Serve as a cereal or use in cooking. Directions on the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

Frasier in the campaign "because he bore the Republican stamp" and then returned to law practice in Wash. Washpeton, North Dakota, and later to Washington.

In 1928 he was appointed by President Coolidge to the international joint commission on disputes between the United States and Canada over boundary waters, and served until his death.

OLD MERCHANT DIES

Detroit, May 19.—(AP)—Death has removed a veteran merchant of

Detroit, Daniel Joseph Healy, 71, native of Ireland, who had been in the mercantile business here for 53 of his 71 years.

He was barely out of his teens when he founded the store here that bears his name.

Three of his eight children are members of Catholic orders. They are: The Rev. Fr. Sylvester T. Healy, O. B., of Latrobe, Pa.; the Rev. Fr. Edwin F. Healy, S. J., of St. John's College, Toledo; and Madame Helen S. Healy, religious, of the Sacred Heart Academy, Providence, R. I. Mrs. William H. Brine, a daughter, lives in Boston.

PILLSBURY'S BEST FLOUR

"Balanced" for perfect baking!

Have you ever made good bread, and poor biscuits, from the same sack of flour? This expensive trouble comes when you use a flour which is not properly "balanced".

When you buy Pillsbury's Best, you have a feeling of real security. For Pillsbury's Best is made of a blend of wheats which is "balanced" for unfailing success in all your baking—bread, biscuits, cake or pastry. First for the sake of your pocketbook, and then for your own peace of mind, be sure you get this "balanced" flour—the standby of millions of women for over sixty years.

IN COMBINATION

WIFE SHOTS SELF
Windsor, Cal., May 18.—(AP)—Mrs. Helen A. Lohr, 42, shot herself with a .38-caliber revolver this morning, then wounded herself critically. Physicians said she is near death.
Police said that Mrs. Lohr, separated from her husband for several months,

drove a pistol when he met her on the street shortly before 5 p. m., and fired two shots into her body. Then she ran to a nearby alley and shot herself in the head.
A certain vine from tropical Africa will cling to glass and eat away the surface when planted beside a window.

FIGHT OVER CARDS
New London, May 18.—(AP)—Mrs. Elgar Morton of this city made the mistake last night of tripping her husband's son in a bridge game and the row that followed was aired in the Police Court today. The woman had her husband arrested and charged that he had become an

insulted that he had struck her. She insisted that all he did was punch her. Morton was placed on probation.

50 ON JOBLESS LIST
GET EMPLOYMENT
Best Indication Here of Pick-Up in Business—6 More for Forecasts.
Fifty registrants in the office of the Manchester Emergency Employment Bureau have notified Manager Herbert McCann that they have obtained full or part-time work in the past few weeks, indicating that business conditions in this section are better than for the past several years. Several of the boys slated to go to camp with the "forest army" have also notified the office that they have obtained work.
Due to the large list of unemployed in this town and the rapidly ed which the applicants for the Citizens Conservation Corps have been selected, and certified for service, the State Unemployment Commission has allotted this town

an additional man. Ten have already gone to camp and there remain 35 applicants to go when the New Haven bureau gives notice of the physical examination.
Manager McCann expects to receive word today or tomorrow to report in Hartford with the "larger part of the remainder of the Manchester "forest army" group for the preliminary physical examination.

GUARDSMEN MAY LOSE CAMP TOUR

Officers and Men Don't Like Latest Economy Move in Washington.

The possibility of eliminating the annual summer training course for the National Guard of the State of Connecticut, which action is now being considered by President Roosevelt and his "brain trust" in Washington, has not found favor with the rank and file of the National Guard here. Along with the need of training this year, due to the fact that in the past six months National Guard troops of over a dozen States have been called out for service in connection with internal troubles, and the elimination of the summer camp, the one period of the year when the National Guardsmen receive the intensive training in the field so necessary to condition the recruit personnel, would be disastrous to the morale of the National Guard.

The average member of the National Guard units looks forward to the summer training schedule, the period of two weeks in camp, as the one bright spot in the annual service tour. If the summer camp is cut off for even one year, officers believe that the morale of the service will be seriously affected.

For many years seasoned and trained men have re-enlisted each year several months in advance of the summer camp for the purpose of enjoying the training out of doors, and for a glimpse of the seashore and the recreation permitted them outside of their tour of duty. With the clamping on of the order in connection with the economy program, a large number of local men, belonging to Company G and the Howitzer Company, whose enlistments expire this month, will not re-enlist for camp. The result will be that the companies will be filled with recruits, thus lowering the quality and efficiency of the personnel.

The local units are supposed to remain for camp, on July 1, local officers are in a quandary as to how to proceed. Department orders were issued prohibiting the enlisting of recruits for camp after May 1, which further complicates the situation, because under the old ruling, the company cannot go to camp each year unless the roster of the company is at least up to minimum strength at the time of departure for Camp Cross Forestry Army.

There are several men in the local companies who are listed as approved applicants for the Citizen's Conservation Corps for the Forestry jobs, and although their first leaning is toward the National Guard, the closing of the summer camp will throw at least a dozen of the best men of the two local units into the C. C. C. for the summer, thus lowering the present high status of the Guard.

Those of the National Guard companies who are listed in the Conservation Corps from Manchester, will be called shortly, and under the present status of the National Guard, the companies will be powerless to enlist new men to take their place. An effort is being made by the Company Commanders here to re-enlist those whose enlistments expire this month, but with the summer camp period in doubt, few of the men will sign up again with the prospects for the extra pay and the period at Camp Cross, Niantic, in doubt.

Wait Information
Information regarding the camp schedules for the National Guard

throughout the country is expected soon at the headquarters of the National Guard, in Hartford, and officers here are hoping that the summer camp will be continued as in other years. If the camp training period is foregone this year, it will have been the first time in many years that this annual tour of duty at the Niantic camp has been eliminated except when the entire 48th Division, National Guard of New England, at which the Connecticut units are a part, assembled for the summer camp training at Camp Devens, Mass., in 1930.

8,000 ON HUNGER STRIKE
Warsaw, Poland, May 13.—(AP)—Thirty-five hundred employees of an artificial silk factory at Tomaszow are on hunger strike as the result of a dispute over wages. The workers are remaining in the factory day and night, refusing either to eat or to work.

Is your appetite hard to please?

Change to crispness!

999 is the oil that is used in Seidner's MAYONNAISE

Only a high culture grade of vegetable oil is used in Seidner's Mayonnaise. It costs more than is paid in other brands, and—

—it is known as "Seidner" standard.

The same high quality is maintained in every other ingredient used in Seidner's. And that high quality never changes—it is always uniform.

SENSE and NONSENSE

The office door of the business department of this newspaper flew open Friday morning and two small boys on roller skates and scooters rushed in like twin cyclones and left a "room for rent" classified ad, which contained the statement that "no children will be allowed unless they are well trained." Then after running into and dislocating most of the office furniture the youngsters roller skated and scooted out again leaving the door wide open behind them.

Why is it that when a man stands in the middle of a room and happens to drop his collar button the blamed thing will roll across the room in order to hide under the dresser?

The following amusing incident is vouchsafed by a prominent shoe man:

"An unusually interesting thing was witnessed by a customer in a shoe store the other day. A lady of stupendous dimensions, stylishly attired, entered the shoe store and seated herself to be waited upon. Soon a bald-headed clerk came up to serve her. After rejecting this pair of shoes and that pair of shoes, she decided on some brown oxfords. The clerk knelt down to lace them, and she looked down and saw his bald head. Thinking it was her rolled topped knee, she modestly drew her skirt over it.

The young insurance agent had gone out with a prospective client for a round of golf, and could do no better than an approximate 116.

Opponent—But you're not playing anything like your usual game?
Insurance Agent—Oh, yes, this is about my usual game.
Opponent—Well! Bring around that proposal tomorrow morning and I'll sign it. You may be no golfer, but you are at least an honest man.

Henderson—Thankful! What have I got to be thankful for? I can't pay my bills.
Anderson—Then, man alive, be thankful you aren't one of the predators.

Marjorie—What did you say when Jack asked you for a kiss?
Elizabeth—Same old thing.
Marjorie—What did he do?
Elizabeth—Same old thing.

It used to be when you saw a man carrying a brief case down the street that you knew that he was either a lawyer or a musician. Now almost every person carries one, even the janitor brings his lunch in one.

HOME—The Place Where We Are Treated Best And Grumbled Most.

MAY BLOSSOMS Perfect men are scarce as four leaf clovers, and the girl who finds one can call herself mighty lucky "The boy who makes eyes at a girl—who is crazy to get married.—is flirting with fate Don't get carried away when a girl gives you the key to her heart, for the next day she may change the lock There was gold in them that safety deposit boxes too Two can live as cheaply as one, provided both work When a woman can't find anywhere else to place a thing she holds it in her mouth A cynic is a man who mistakes cheerfulness for ignorance Another thing the country needs is less gold in the sock and more in the heart It's still an honest dollar, provided you don't cheat somebody to get it

You can't get around it, kindness always pays. Pat a stray dog and it will follow you a mile. Lead some men a quarter and they will come back tomorrow to borrow a dollar.

Give a girl a string of beads and a pair of earrings and she feels all dressed up.

DO YOU KNOW THAT—

There are 24,000 concerns in the United States which either deal in waste materials or use them as raw materials in their own industry. The average time taken by a telephone operator to answer a subscriber's call is 4.8 seconds, according to official tests.

ABOUT TOWN

The third sitting in the British-American club setback series will be held tonight at eight o'clock.

Mrs. Charles Lucas of 80 William street is confined to her home because of a mishap yesterday morning. She fell downstairs and after a medical examination it is believed she has a fractured elbow.

Bills still outstanding in the accounts of the Polish Grocery, the cooperative store on North street which went into bankruptcy several months ago, have been sold to a Hartford collector who is now attempting to realize on his investment. He finds several cases where stockholders in the store ran up accounts to the amount of money they had invested and who now refuse to pay anything insisting that the account is balanced.

The Children of Mary of St. James's R. C. church are sponsoring a minstrel show which is to be given in St. James's Hall on Wednesday and Thursday, May 24 and 25. Rehearsals are being held twice weekly and the direction is by Max Smith, of Rockville, who has had experience in promoting minstrel shows.

The Center Church Men's League will hold its annual meeting Sunday morning at 9:30, with election of officers for the coming year.

The Forget-me-not Junior King's Daughters will meet with the leader, Miss E. L. Lydall of 23 Hudson street, tomorrow afternoon at 2:30 instead of with Faith Stevenson as previously announced.

The Manchester Green Community club will hold its regular business meeting this evening at eight o'clock at the Green school.

The local branch of the W. C. T. U. of which Mrs. J. L. Hardy is president, assisted by the Young People's Branch, is sponsoring a silver medal contest Monday evening of next week in the parish hall of the Center Congregational church. Five young people will contest and the subject will be "Peace." The hour is 7:30. No admission will be asked but a free will offering will be received.

Group 4 of the Memorial Hospital auxiliary will meet Monday at 3 o'clock with Mrs. Ellen Rogers of 77 Chestnut street.

Mrs. Edith Gerrish of Chalmersford, Mass., is the guest of Mr. and Mrs. G. H. Wilcox of Greenhill street.

Max O'Connell's orchestra, one of the leading traveling bands in New England will play for the dance tonight at the School Street Recreation Center. One of the biggest dancing crowds of the season is expected.

"Uniformity vs. Individuality" will be the theme of Rev. R. A. Coppitt's sermon Sunday morning at the 10:40 service at the South Methodist church. In the evening at 7:30 meeting he will give a brief history of the hymns of various religious denominations in a "Fellowship of Song" at the chapel. The singers will be Mrs. Robert Olson, Mrs. Alice Scott, Paul Voiquardon and Robert Von Deck.

STATE TO BUILD
RANGE IN BOLTON

Site Used by Company G
Taken Over — To Push
Work for This Summer.

A new range for rifle practice is being constructed by a detachment of men under the direction of Lieutenant Raymond E. Hagdorn at Bolton Notch for the use of Company G and the Howitzer Company, 169th Regiment. The new range is in rear of the College Inn at the top of Nigbee Hill and will consist of concrete, rock and gravel. The work will be paid for by the state.

For several years Company G, under the direction of Captain James H. McVeigh, has sought out a good location to erect a company range for rifle practice. Last fall Captain McVeigh and other officers of Company G inspected the terrain east of College Inn and found it adapted for

Ladies' Aid Society Swedish Congregational Church.
Baked Beans, Brown Bread and other foods in variety.

a range. Work was begun last fall and this spring the range was nearly complete when the state decided to erect the range last Wednesday. The state has engaged a truck from the Manchester Road & Gravel Company to assist in the construction of the range and unemployed men from Company G have been hired to rush the work so that rifle practice may be held before the summer training period at Camp Niantic.

The range butts which were constructed by Company G before the decision to build by the state was made, will be used for a range house. The butts will be planked over and closed in at the west end and range material will be stored in the butts. Room will also be available for those engaged in rifle practice to eat their lunch and to use as a shelter in case of rain.

The new range is located on property owned by Police Commissioner C. R. Burr which will be leased, annually, to the state.

McCALLUM HOSIERY
Prices Reduced 25%
75c Regular \$1.00 Grade
We want more women to wear McCallum Ingrain Stockings, because we know there's no stocking so glamorous looking, so luxurious-feeling, so flattering.
Wear it. Feel its live elastic quality, note its richness of color, its fine seams, its altogether expensive air. And you'll never want to wear anything but a McCallum Ingrain again.
All sizes... All styles... in a beautiful array of new Spring colors.
