DISCUSSION ON OVER LEGALITY OF HOME LOANS

Governor Cross Confers With State Leaders Over the Necessity of Calling Extra Session of Assembly

Hartford, Aug. 10.—(AP)—Peter M. Kennedy of New Haven, state director of the Federal Home Owners Loan Corporation and Archibald McNeil of Bridgeport, Democratic National committeeman and member of the Federal Public Works Board of Connecticut, will confer with Governor Cross this afternoon on the legality of Connecticut banks investing in home loan bonds.

There have been submitted to Governor Cross suggestions that a special session of the legislature be called to legalize such investments, Democratic State central committee chairman David A. Wilson having written to the governor in support of such action, but before determining that such authorization would constitute an emergency and necessitate the calling of the General Assembly, the governor is seeking all information possible in the matter. He has conferred with State Bank Commissioner Walter Perry and his deputy R. Gordon Baldwin, and today's conference is a "follow up" in the home loan proposal.

The governor on Friday afternoon will confer with his state recovery board. This board includes in its membership Dr. Edward G. Dolan of Manchester, recently named United States collector of internal revenue; Mrs. Fannie Dixon Welch of Columbia, member of the state tuberculosis commission; Frank D. Coster of Fairfield, E. Kent Hubbard of Middletown, president of the Connecticut manufacturers' association; Deputy State Commissioner of Factory Inspection, William J. Fitzgerald, Joseph Halloran of New Britain, John J. Walsh of Stamford and Milton McDonald of Bridgeport.

FEDERAL RELIEF
Bridgeport, Aug. 10.—(AP)—Expressing the view that a special session of the legislature is "absolutely necessary" for the promotion of Connecticut public works projects with Federal aid, and for the relief of home owners unable to meet mortgage obligations, Democratic National Committeeman Archibald McNeil left Bridgeport today for Hartford to urge on Governor Cross the speedy calling of a special session of the General Assembly.

Mr. McNeil, who is chairman of the state advisory board on public works, said this morning, that a special enabling act must be passed

SENTENCE IS CUT FOR HEROIC DEED

Man Who Volunteered for Blood Transfusion Will Be Given Freedom.

Hartford, Aug. 10.—(AP)—About a month ago Dr. John R. Elliott, resident physician at the Municipal hospital, called for volunteers to give blood to a dying patient who was destitute and had no relatives here. John J. Galligan, 31, of 19 1/2 East street came forward and the blood transfusion was made. There was no monetary compensation as a reward for Galligan's services to humanity.

A short time later, Galligan got into trouble and he was arrested on charges of assault and battery and resisting a police officer. Judge William M. Harney, in Police Court, gave Galligan 15 days on each count.

Found in jail
Another patient at the hospital needed blood last Sunday to save her life and Dr. Elliott looked around for Galligan. He learned that the man was in jail. The hospital authorities visited Galligan and he unhesitatingly agreed to go through the same experience. He was taken from the jail to the hospital and after the blood transfusion was returned to his cell.

But Dr. Elliott did not forget. He learned that Galligan was serving thirty days, having been committed on August 5. He wrote to Judge Harney and the latter today cut 15 days from Galligan's sentence and he will be released soon.

Havana Throng Flees Before Gunfire of Machado's Guards

Almost as the camera clicked, the machine guns of presidential palace guards opened death-dealing fire upon this throng which had gathered in Havana streets to celebrate a false report that President Machado had resigned. Twenty-five were killed, more than 100 wounded. Members of the crowd ran in all directions to escape the grim spray of bullets.

INSURANCE FIRM TO SPEED RELIEF

To Accept Federal Bonds for Mortgages in State Because of Legal Tangle.

New Haven, Aug. 10.—(AP)—A plan to accept Federal bonds in payment for mortgages was received today from Prudential Insurance Company of America by the Connecticut branch of the Home Loan Owners Corporation.

The insurance company notified Peter M. Kennedy, state manager of the loan corporation of its decision regarding the plan. "We are anxious to cooperate with the Home Owners Loan Corporation and render assistance to home owners wherever possible, and have given full consideration to the question of accepting home owners loan corporation bonds in payment of mortgages in distress. While we cannot overlook the fact that Prudential Insurance Company is acting as trustee of millions of policy holders, whose funds have been entrusted to it, and that the safeguarding of these funds must necessarily be its guiding principle, with due regard to the obligation, the Prudential has and will continue to sympathetically consider each case presented to it.

SEEKING ACCORD IN COAL FIELDS

Union and Non-Union Operators Are Trying Now to Agree on a Code.

Washington, Aug. 10.—(AP)—Cleveland between union and non-union proposed codes for conduct of the coal industry, stood forth today at NRA hearings, with presentation of the union agreement supported by a group of producers from 14 states and the United Mine Workers.

George Harrington of Chicago expounded on this plan for trade practices while another crowd followed his ever word.

Frank C. Taplin, operator from Cleveland, had plastered the walls around the Commerce Department auditorium platform with charts showing how northern bituminous fields had lost a great deal of business to the southern in recent years.

To follow Harrington on the stand, he planned a plea or reduction of the wage spread between northern and southern fields.

MILK STRIKE IS AVERTED; TEMPORARY TRUCE IS ON

All Action on Part of Farmers Postponed Until After Another Meeting Has Been Held Tomorrow.

Hartford, Aug. 10.—(AP)—A temporary truce between opposing factions in Connecticut's milk dispute prevailed today as the increase in milk prices, established by the state control board, became effective.

This day on which farmers had threatened to call a strike if their program had not been accepted, saw all action postponed until after another meeting tomorrow of the control board and a committee representing the Farmers National Association.

The new milk prices, ordered to start today by the control board, provided payment of 7-3-4 cents a quart to the producer, lifting the

STATE UTILITIES COME UNDER CODE

Johnson Rules All Utilities Are Included—No Word from Retailers, Grocers.

Washington, Aug. 10.—(AP)—The recovery administration today revealed a ruling whereby all privately owned utilities—whether controlled by the state in which they are located or not—must come under its wage and work time supervision.

This matter emerged as the dominant development of a day filled with continued hearings on codes proposed for the coal and other industries, while Administrator Hugh S. Johnson awaited replies from retailers and grocers to his ultimatum of yesterday that store operating hours must not be reduced to avoid having to hire new workers.

Writing the speech which he will deliver in Baltimore tonight, the administrator was said by his aides to have received no word from the spokesmen for thousands of stores affected by the wage and hour agreement approved for them.

Largest Group
The retailers and grocers, employing more than 5,000,000, are the largest group yet brought under the NRA's modified presidential re-employment agreement and their compliance with the terms laid down by the administration is being watched closely by officials.

As to the future of public utilities, Colonel J. G. Wilson, executive secretary of the program, stated the status to clarify a situation which had arisen in New Hampshire.

The New Hampshire Public Service Commission had released a letter from the NRA quoting Wilson's office as having said that public utilities of that state would not be required to come under the President's agreement.

Wilson, the assistant to the director of the President's emergency re-employment campaign, said that conditions in New Hampshire as outlined in his communication has office had received from the New Hampshire Public Service Commission had been misunderstood.

BALBO PREPARING FOR FINAL FLIGHT

Air Armada to Make One Hop to Rome's New Port Ostia; Fliers Decorated.

Liabon, Portugal, Aug. 10.—(AP)—Sorrow over the death of a comrade in the Azores dimmed for members of General Italo Balbo's seaplane squadron the happiness they otherwise would have found in preparation today for completing their flight to America and back.

The airmen prepared to fly directly to Ostia, Rome's new port, where thousands of Italians were expected to do them homage and escort them in a triumphal procession to Rome.

Twenty-three planes of the fleet arrived here at 9:30 a. m., e. s. t., yesterday. The 14th was damaged in taking off at Ponta Delgada, Azores, causing the death by drowning of Lieut. Enrico Squaglia, relief pilot, and injuries to three others.

General Balbo decorated his men with the "Wings" awarded to trans-oceanic fliers. After three cheers for Premier Mussolini, he embraced and kissed each aviator twice.

Afterward, there were two minutes of silence in memory of Lieutenant Squaglia.

RECEPTION AT ROME
Rome, Aug. 10.—(AP)—A Roman triumph, a custom not followed for many centuries, will be revived Saturday to give Gen. Italo Balbo and members of his trans-Atlantic seaplane squadron a rousing welcome home.

It will have another purpose, too—to pay tribute to Premier Mussolini as the inspirator for Italy's renaissance in aviation. It will compete in enthusiasm with the receptions given the fliers in Chicago and New York and in other places along their route.

General Balbo advised the air ministry today, that he plans to bring his armada to Ostia, Rome's new port, from Liabon, Portugal, 1,300 miles away, without stopping. Their arrival in Italy is set for Saturday evening.

Returning from Ostia, the premier and General Balbo will be driven through the central passage of the Arch of Constantine, just outside the ancient Coliseum, which thousands of Americans have visited.

New Highway
A new road has been constructed under the arch and a railing around it has been removed. The 1,600-year-old monument, erected after Constantine's victory over Maxentius, will again become the

CUBAN CHIEFS PONDER OUSTING OF MACHADO

"No Need of Monroe Doctrine"—Pittman

New York, Aug. 10.—(AP)—Saying to extend their governments to Latin America is negligible." He declined to commit himself on whether the United States had cause, as yet, to intervene in Cuba under the Platt amendment. It was the Cuban question, to which he is planning to give his attention in Washington immediately, that brought an inquiry as to his stand on the Monroe Doctrine.

Pittman said there were two procedures which may be followed regarding Cuba, one that the United States renounce the Platt amendment to the treaty giving Cuba her freedom and allow foreign powers to intervene, or that the United States intervene, should there be sufficient cause, under the Platt amendment.

He said he believed corruption in government to be the main cause of the present Cuban unrest. "Does that include President Machado?" he was asked. "I think it does." "If he happens to be in line with the shot," he replied.

MACHADO MUST RESIGN SAYS CONGRESSMAN FISH

Ranking Republican in House Assures President of Support in Any Action Taken on Cuba.

Hyde Park, Aug. 10.—(AP)—President Roosevelt was assured today by Representative Fish of New York, ranking Republican member of the foreign affairs committee, of united support in whatever action he deems necessary to restore order in Cuba.

The Republican leader called on the President who is demanding an immediate new deal in the island Republic in the interests of eliminating the political warfare.

"I told Mr. Roosevelt," said Representative Fish, "that as ranking Republican member of the House foreign affairs committee I could assure him of united support on whatever action he takes in Cuba." Representative Fish declared that the first step which must be taken in Cuba is the obtaining of the resignation of President Machado. "Nothing can be done until Machado gets out and he must get out," said the New York-

Force Not Necessary
"I do not believe armed force is contemplated or is necessary," he said. "I have the fullest confidence in President Roosevelt and Ambassador Welles."

Fish expressed confidence that the situation would work itself out under the present program. He said the next move undoubtedly would be withdrawal of recognition of the Machado administration and an embargo on raw exports.

Incidentally, Mr. Fish said he would favor early downward revision of tariff on all products imported from Cuba, and all other North and South American countries. He said he did not discuss this with the President.

FIVE MEN KILLED AS PLANE CRASHES

Two Bodies Recovered After Naval Machine Falls Near Honolulu.

Honolulu, Aug. 10.—(AP)—Navy salvage equipment grappled in 50 feet of water today for wreckage of the twin-motored Navy seaplane which carried five Navy men to their deaths in an offshore crash and which still held the bodies of three in its splintered cabin.

While Naval officials planned an investigation, N. A. Tuft, aviation machinist's mate, second class, the only survivor was recovering from bruises and slight injuries and the shock of plunging into the ocean yesterday with the doomed plane.

Those killed were Lieutenants Charles P. Hill, pilot, and Ted C. Marshall, pilot under instruction; and C. C. Stewart, V. C. Hovey and L. B. Pitt, enlisted men.

Tuft, whose home is in Sacramento, Calif., attributed the crash to stripping of the plane's tail surfaces, making it unmanageable and

Leaders of President's Own Party Confer on Demand for His Resignation—Party Lines Breaking Down as Strike Continues in Face of Decree of State of War.

Havana, Aug. 10.—(AP)—The question whether President Machado should resign his post to bring peace to Cuba, now under a formally declared state of war as the result of the menace of revolution, was placed today before the National Executive Committee of General Machado's Liberal party.

The executive committee met to consider the formula of peace presented by United States Ambassador Sumner Welles, acting as mediator in the conflict between the Machado supporters and the opposition. Would Eliminate Machado.

This formula entails the withdrawal of Machado to make way for a President approved by all parties. Differences within the parties over the mediation program widened as the Liberal conference got underway, and it appeared possible that the old party lines would be completely obliterated. Meanwhile the general strike, which brought the conflict over Machado to a head, continued unbroken despite the efforts and expectations of the government.

Havana, Aug. 10.—(AP)—A state of war gripped Cuba today, its purpose being peace. Military forces controlled the island under decree of President Machado, who said the general strike, paralyzing industry and trade, had given enemies of the public peace "a chance to create a revolutionary state in the country."

Conflicting and unyielding attitudes of numerous elements involved in the growing crisis increased the public tension. Machado has been deaf to suggestions that he resign and that his secretary of states Orestes Ferrara resign.

The United States Ambassador Sumner Welles, moved swiftly in his efforts to bring quick fruition to efforts to restore normalcy. Governmental and political leaders sought in conferences today to bring the several factions into agreement on some program of solution.

Food Shortage
Grave concern was expressed for the welfare of thousands of strikers could be brought to a quick termination. There is little bread, and the distribution of milk is being made under armed guard. Stocks of foodstuffs are being exhausted rapidly.

Since the state of war became effective at 6 p. m., yesterday, the military has been in full control. Unrest has increased and the attitude of the United States is being watched closely. President Roosevelt's desire, as expressed yesterday at Hyde Park, N. Y., is that the political difficulties be solved "at the earliest possible moment," so that economic welfare may be preserved.

Police Precautions
Widespread police precautions have been taken to halt violence. Explosion of a bomb early today, however, emphasized that strikers are not retreating from their position. The bomb damaged a bakery shop whose owner had not joined the strike.

The war declaration was attended by a series of swift moving development, among which were: Bertha Skirving, a cable company employee who said she is an American, was arrested for allegedly speaking unfavorably of Cuba, but was released after being warned against a recurrence.

Spanish Ambassador Luciano Lopez Ferrer, according to an authoritative source, protested to the President against treatment accorded Spaniards, two of whom were killed Monday, when Guards fired on crowds near the presidential palace and killed 21 persons.

Officials at the British legation declined to confirm a report that Grant Watson, the British minister, had conferred with Welles about treatment of British subjects and damage to British property during disturbances.

Meanwhile Senator Wilfredo Fernandez, a Conservative who has supported the administration, announced a commission of congressmen would call of Senator Machado today to assure him of their support.

"In any moment of crisis a solution may be found among Cubans," he asserted. "Strong opposition will develop against inter-meddling." This apparently was in reference to Welles peace efforts with opposition and government chieftains.

DALRYMPLE QUILTS AS DRY DIRECTOR

600 of the 1,800 Employees of Prohibition Bureau Slated for Removal.

Washington, Aug. 10.—(AP)—A. V. Dalrymple retired today as director of prohibition with the abolition of the dry law enforcing bureau by the creation of a new unit in the Justice Department's division of investigation, headed by J. Edgar Hoover.

William Stanley, first assistant attorney general, told newspapermen today that the reorganization had been completed in so far as carrying out President Roosevelt's executive order, effective last night, but that details would not be made public until Attorney General Cummings returns to Washington next week.

John S. Hurley, who was assistant to Dalrymple, a Californian, is slated to head the dry unit in the investigation division, and will become assistant director.

There were 1,800 employees in the Prohibition Bureau of whom 600 were slated for removal. Stanley said that despite telegrams dispatched to prohibition administrators throughout the country yesterday instructing them to maintain their existing set-ups, that all 1,800 had actually been dropped last night and that it was known in the various enforcement offices who had been reemployed in the new unit.

Troy, Ohio, Aug. 10.—"Joe Vance" is the Democratic nominee for mayor of Tippencanoe City, but city officials don't know who he is, if at all. Va.—A zealous policeman slipped up and hung a tag on the collar of a horse hitched to a buggy, standing patiently in a no-parking zone. The owner, half an hour later, rushed to police headquarters. WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go. If you feel sour and sick and the world looks punk, don't swallow a lot of salt, mineral water, oil, laxative candy or chewing gum and expect them to make you feel sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Your skin often breaks out in blemishes. Your head aches and you feel dazed and out. Your whole system is poisoned. It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills on the red label. Remember, Little Liver Pills on the red label. Remember, Little Liver Pills on the red label. © 1931 C. M. C.

OIL TANKER EXPLODES TWO MEN ARE RESCUED

For the LOVE of EVE by Lucy Walling

BEGIN HERE TODAY EVE BAYLESS, pretty assistant to EARLE BARNES, advertising manager of Bixby's department store, secretly marries DICK RADEE, a construction superintendent. Dick opposes her continued employment and pleads for a home but Eve is determined to go on working.

The name day Eve learns that she is to be sent to New York by the store and must leave that night. She does not tell Dick this news until they are at dinner. He sees her aboard her train.

In New York Eve meets FREDA CARTER, dress buyer for Bixby's, who introduces her to THERON REECE. Reece is much attracted by Eve. He angers her by trying to kiss her in a taxi. Eve leaves him without a word.

NOW GO ON WITH THE STORY CHAPTER IV Eve sat at the desk in her hotel room until nearly dawn, writing a letter to Dick. After her unpleasant experience with Theron Reece in the taxi cab she longed for the safety and contentment she always felt in Dick's presence.

After Freda's departure Eve felt the need of companionship and called on Irene Prentiss. They had been classmates in high school. Irene had gone to New York immediately following graduation and now, after five years of marriage, was still working in the office of a financial magazine.

Irene appeared with several galley proofs in her hand. Eve thought she looked tired and a bit worn. Irene seemed glad to see her but explained that it was not her fault. Eve realized she should have telephoned to learn when it would be convenient for her to call.

They went to lunch together but it was a hasty meal at a nearby restaurant. Irene wore a dark fur jacket that Eve admired. "It's really dyed bunny," the other admitted.

The Prentiss apartment consisted of a luxuriously furnished living room and a spacious sleeping room with all its furnishings in pairs—two beds, two chests of drawers, a slipper chair and sturdy arm chair, two night stands, two reading lamps. There was a cozy yellow and blue kitchen set here.

New Yorkers Lose 4-1; Cubs-Pirates Open Duel for Second Place in National; Braves Are Fourth; Red Sox Again Drub A's.

A great comeback by the Washington Senators has ended their "crucial" series with the New York Yankees all square today and the fans began to turn their attention to the National League, where the Pittsburgh Pirates and Chicago Cubs were about to open a duel for second place which might carry one or the other right up behind the pace-setting New York Giants.

The Cubs set the stage for their struggle with the second place Pittsburgh club by pasting their old teammate, Burleigh Grimes, in the first inning and defeating the St. Louis Cardinals 10-7. The victory left them only a half game behind the Pirates and a half behind New York, as both clubs were idle.

ATHLETICS-GREEN IN CRUCIAL CLASH

Play Third and Final Game at West Side Tonight at 6.15 o'clock.

Manchester Green and the Manchester Athletics, meeting this evening at the West Side diamond, for the third and deciding game of a best two out of three games series, will aside from deciding which is the better team, cause plenty of headaches, for one team is going to lose, and that team is going to disappoint a host of followers who have wagered, according to report, everything but the kitchen stove.

The teams are very evenly matched, as evidenced by the close scores of the two preceding games, and with each side determined to win this final game tonight the fans should be afforded an opportunity to witness a real battle. Manager Eulard will have something up his sleeve, which will be sprung during this contest, whether it is in the way of old time baseball strategy or some modern innovation, remains to be seen, but at any rate our inquiring reporter finds that offered wagers on the Athletics are being quickly covered by Green supporters, so there must be something in it.

The game will be called promptly at 6:15 p. m.

Taking advantage of Jeby's bewilderment at his annoying southpaw style Brouillard shot in body punches until the east sider's guard came down, then worked on his chin until it moved up again. He broke loose with a series of smashing lefts to the body that left Jeby helpless as the bell ended the sixth.

In the seventh Brouillard made an opening with a body mass and as Jeby's guard dropped, whaled away with a long sweeping left to the chin that put Jeby down and out in 2:21.

Brouillard weighed 158½, a half pound less than his opponent.

In winning the Oregon Women's Puhlis Links association golf tournament, Mrs. Daisy Mauch of Colwood established a course mark of 76 on the Peninsula course.

They say the strain has untold importance under which he began his "iron-man" streak of consecutive games away back in 1926, when he was just an enthusiastic big league "freshman" trying to make good for the Yankees the way he used to do for Dear Old Columbia.

Why All the Fuss? What more, he hasn't thought much about it since and he has no idea whatever of asking for a day off after he plays consecutive games number 1,308, probably some time next week in St. Louis to surpass the world record for baseball endurance set by Everett Scott, Yankee shortstop the next year Gehrig took off on his non-stop flight.

Scott to Be There. St. Louis, Aug. 10.—(AP)—When Lou Gehrig, New York Yankee first baseman, establishes a new major league record for playing in consecutive games, as he is scheduled to do—barring injuries and postponements—against the St. Louis Browns here next Tuesday, the press will be invited to witness the performance.

Everett Scott, former Red Sox and Yankee insider, who starred in 1,307 straight games before creeping age formed him out, has been invited by the Browns' management to attend the game.

Scott, who began his string back in 1917 and retired May 6, 1926, just a month before Gehrig started to work, now operates a bowling establishment at Fort Wayne, Ind.

Gehrig Nears New Mark For Consecutive Games

New York, Aug. 10.—(AP)—Lou Gehrig has not the slightest recollection of the game or circumstances under which he began his "iron-man" streak of consecutive games away back in 1926, when he was just an enthusiastic big league "freshman" trying to make good for the Yankees the way he used to do for Dear Old Columbia.

SENSE and NONSENSE

MAKE USE OF TODAY.
During all the years since time began, "Today" has been the friend of man; But in his blindness and his sorrow He looks to "yesterday," "tomorrow." Forget the past that brought you sorrow There was, but is, no "yesterday," And there may be no "tomorrow."

Son—Mother, what's the idea of making me sleep up here every night?
Mother—Hush, Junior dear, you only have to sleep on the mantelpiece two more months and then your picture will be in a "Believe-It-Or-Not" cartoon.

REBOUNDS—Now that farm prices have gone up 17 per cent how many of the farmers have noticed it? By the way, what has become of the old fashioned front gate? If the tongue could kill, few persons would ever die of old age. Too many people salt away money in the brine of other people's tears. Isn't nature wonderful? A million years ago no one had any idea of spectacles yet look where she placed our ears. What this country needs is fewer persons to press the buttons and more persons to sew them on. We suspect that the next generation of college students will be studying courses on "How to Pay War Debts." One of the biggest questions to be decided by every department store is how often to hold its annual sale. The hand that pulls the trigger rules the world.

"LET'S PLAY HOUSE, EH?... YOU BE THE DOOR AND I'LL SLAM YOU!"

Lady Customer—What's the price of this coat?
Owner of Store—That one is \$25.00.

Lady Customer—Too cheap. I want a coat of quality.

The clothier shuffled up the coats and produced the same coat. He offered it for \$50.00 this time, and the lady bought it. After she had gone, a minister, who had been standing nearby came over and said:

Minister—Can you account for the right of that in the Scriptures?
Owner of Store—Certainly. Let me refer you to that part which reads: "She was a stranger, and I took her in."

In 1930 the United States sold in foreign lands more than twelve million dollars' worth of musical instruments. No wonder Europe hates us.

Pearl—I made this dress myself. Paul—How much ribbon did you use?

Scientists now tell us that some of the coal that we now use was thousands of years in formation: the older the coal, they say, the better it is. Which only goes to prove that there is no fuel like an old fuel.

Mrs. Highbrow—Does your son keep a diary while at college?
Mrs. Futton-Ayres—Yes. He saves all his check stubs.

FLAPPER FANNY SAYS:

Maid (excitedly)—Oh, ma'am, I believe I've cut my finger off!
Mistress—Why, what makes you think such a silly thing as that?
Maid—Because I can't find it, ma'am.

SCIENCE SAYS THERE ARE ONLY NINE KINDS OF WATER. AND EVERY ONE OF THEM HAVE BEEN TRIED IN STOCKS AND BONDS.

Child—Why do you put powder on your face?
Mother—To make me beautiful, darling.

Child—Then you must not be using the right kind, mother dear.

While you are trying to become a champion, people encourage you. The minute you become champion the people begin looking around for a "guy" to whip you.

Mrs. Riches—My husband is so literary.
Mrs. Friend—Really?
Mrs. Riches—Yes, he's always calling up his broker to get quotations.

Some girls from the city have to go to the country to get down to earth.

POLICE COURT

John Evans, of Norwich was fined \$10 and costs in town court this morning for operating a motor vehicle on the highway without a license. Evans was arrested last night on Center street by Officer Joseph Prentice when he was suspected of "coasting" down the Center street hill and upon investigating the officer found that he was driving without a license. Upon being questioned concerning the middle initial, Galligan admitted that he did not have a Connecticut license but had one for operation in Massachusetts. He told Judge Johnson that he was under the impression that he was required to have a Connecticut license to operate on Connecticut highways, that being the reason for lying to the arresting officer.

Sidney Werbner, Son of Local Shoe Store Manager Injured at Bolton.

Sidney Werbner, 5, son of David Werbner of 65 Durkin street, manager of the Brownbilt Shoe Company, 338 Main street, was seriously injured last night on the Andover hill, so-called, at Bolton Notch, when the automobile in which Sidney was riding, driven by his father, collided with a car driven by Miss Marie Vezina of 24 Owen street, East Hartford, about 300 feet from the top of the hill.

David Werbner was driving west behind a truck and turned out to pass the vehicle ahead of him, striking the automobile driven by Miss Vezina head-on. Constable Fred Gregor who lives at the foot of the hill had just turned into his driveway, and on hearing the crash at the top of the hill, hurried to the spot and met Werbner running towards him, blood streaming from his face. On reaching the scene he found Miss Vezina sitting on the bank in a dazed condition. He immediately called the state police. Miss Vezina was taken to the Manchester Memorial hospital by Diana Fuch of Andover and E. J. Weingartner of Fort Wayne, Indiana, passing shortly after the accident to the Westchester hospital.

At the hospital it was found that Sidney had suffered a possible fracture of the skull and concussion when he was thrown against the windshield. Alfred Werbner, 9, received abrasions of the right knee and face and the father was cut on the forehead. Miss Vezina was injured internally, possible fractured ribs. MOTORCYCLE CRASH MAY COST MAN LEG

Joseph Bika of Summer St. Thrown Off Machine When He Hits Truck.

Joseph Bika, of 75 1/2 Summer street, this town, suffered a compound fracture of the right leg at 5:30 yesterday afternoon when he was struck by a truck owned by the Highgrade Oil Company of Rocky Hill, and driven by Lawrence C. Gordon of 77 Whitmore street, Hartford, on Oakland street in front of the Oakland Filling station. Bika was riding a motorcycle south on Oakland street behind the oil truck. When nearly opposite the entrance to the filling station, the truck started to turn into the station to deliver a quantity of gasoline. Bika attempting to pass the vehicle at the moment was thrown against the running board of the truck, throwing him off the motorcycle and crushing his right leg.

Bika was taken to the Manchester Memorial hospital where emergency treatment was given. It was thought that amputation would be necessary due to the nature of the wound and of the compound fracture.

Gordon, driver of the truck, told police that he signalled with his hand for the turn into the north driveway of the filling station. Bika said he did not see the sign for the turn. Policeman Rudolph Wirtalla investigated.

LOWER FREIGHT RATES HERE ON ANTHRACITE

Effective Tomorrow Tariff Will Be \$3.46 Per Net Ton Instead of \$3.71.

Anthracite rates from the mines to Manchester will drop 25 cents per ton, effective tomorrow, according to announcement by the New Haven Railroad. The new rates were authorized by the Interstate Commerce Commission upon application by the railroad company, which requested authority to put them into effect upon ten days' notice, instead of the usual thirty days.

The new tariffs are the result of protracted efforts on the part of the New Haven Railroad and other New England lines to give coal consumers in this territory the benefit of lower rates, and it is the hope that the reduction in rates will attract sufficient additional tonnage to more than offset the lower revenue per ton.

The present rate on anthracite from the mines to Manchester is \$3.71 and commencing tomorrow the rate will be \$3.46 per net ton.

A truck driven by Louis R. Southgill, of 79 Adams street, Buckland, collided with a sedan driven by John F. Hunt of Somers late yesterday afternoon at the Goat Farm crossing. The truck was approaching the intersection from Doboosville as the sedan, driven by Hunt, reached the junction from the west. The truck struck the sedan on the right side, throwing it against the guard rail. An unidentified woman riding in the back seat of Hunt's car was thrown forward and through an open window at his left. She was shaken up and bruised as she struck the steel cable of the guard rail, rolling off onto the shoulder of the highway outside of the guard rail barrier. Another person in the car was slightly cut on the right wrist and bruised on the right elbow. State Policeman Kenneth Stevens investigated.

MILK DEALERS GIVE PRICE ADVANCE NOTICE

Starting Today Quart Cost Goes to 14 Cents—Discount If Three Are Purchased.

Milk distributors in Manchester took occasion this morning to notify most of their customers that milk purchased by the quart, starting today, would be sold at the rate of 14 cents, but in case a customer purchased three quarts at a time the price would be 13 cents a quart. There had been no official notice given to the distributors as to the correct price as there were hopes up to last night that they might be able to get the reduction from the price ordered by the Milk Control Board, but this was not secured although Manchester men were given the right to sell at the discount when three quarts were delivered at one time.
