

WORKERS OF NATION WILL BE GIVEN HELP

President Prepares Program of Jobless Insurance, Old Age Pensions and Permanent Relief System.

Washington, May 18.—(AP)—President Roosevelt, still at grips with the effects of one depression is striving to erect new safeguards for the laboring classes and thereby bar much woe from future economic disturbances.

A dovetailed plan of social legislation, which he will send to Congress for study in a few days, was described by some leaders today as the broadest ever proposed by an American President.

He is expected to point an approach to such problems as unemployment insurance, old age pensions and a permanent relief system, for the next Congress.

NOTED ARCHITECT GILBERT IS DEAD

Father of Modern Skyscraper Passes Away in England—Was 74 Years Old.

New York, May 18.—(AP)—Cass Gilbert, architectural father of the skyscraper, is dead at the age of 74.

The noted architect died unexpectedly yesterday in a hotel room at Brockenhurst, England, while on a pleasure trip.

A heart attack caused death. Mrs. Gilbert and their daughter, Mrs. Charles Morgan Post, were at his bedside.

Gilbert designed the Woolworth building in New York—the world's tallest for many years—and numerous other notable structures, including the State Capitol buildings of West Virginia, Minnesota and Arkansas, and the New York Customs House and the George Washington Memorial bridge across the Hudson river.

Born in Zanesville, Ohio, he attended public schools at St. Paul and then studied architecture at the Massachusetts Institute of Technology.

He married Miss Julia T. Finch of Milwaukee Nov. 29, 1897, and they had three children. Emily F. Gilbert and Cass Gilbert, Jr., received word of their father's death at the family home here.

DIES SUDDENLY Brockenhurst, England, May 18.—(AP)—The body of Cass Gilbert, famed American architect, rested in a local hospital today pending arrangements for transportation to the United States and many other parts of the world.

Mr. Gilbert's illness had its inception in London where he arrived April 20.

Doctors who attended him at a hotel here during an illness of ten days informed him he was suffering from extreme fatigue and the effects of a severe cold. They advised him to visit Brockenhurst for a rest.

AMERICAN GIRLS WIN THEIR FIGHT

Smith College Students Will Be Allowed to Enter France Without Visas.

Madrid, May 18.—(AP)—The thirteen American college girls who had been refused permission to enter France without certificates of good conduct won their "battle of visas" today against the French consul without filing a single cablegram.

Twelve of the girls are from Smith college and the other from Barnard college or Columbia University. The consul yesterday refused to grant them visas unless they cabled to America for character vouchers.

Today he capitulated. "The visas are ready for the girls at any time," he announced. He gave profuse explanations but declared he reserved the right in the future to demand assurance of good character from any other person desiring to visit France.

Spain Protested His surrender today came after officials of the Foreign department of the University of Madrid had called on him in behalf of the American girls. The girls have just completed a short course at the university and planned to take up temporary studies in France.

Although informed by the director of the American group that the conflict was over, Curtis Jordan, United States consul, said he is still awaiting a letter of explanation from the French consul.

A thorough investigation by the American authorities was under way when the controversy ended. Several of the girls are now undecided whether to visit France or return directly to the United States. The majority, however, are expected to follow the original plan as most of the students had already purchased return steamship passage on a French line, to be used after a brief course of studies in France.

Before the French consul's reversal of decision became known some of the girls discussed legal action against the French government and the steamship line. The action was to be based on the grounds that after they had purchased tickets from a line reported to be partly owned by the government the government obstructed their entry into France to make use of the tickets.

PRATT & WHITNEY STRIKE IS ENDED

1,400 Employees to Go Back to Work on Monday, Agreement Is Reached.

Hartford, May 18.—(AP)—More than 1,400 employees of the Pratt and Whitney Aircraft and Hamilton Propeller companies prepared today to return to work Monday, after announcement last night of the settlement of a six weeks strike in the two plants.

Announcement of the settlement came on the heels of a closed meeting of the employees of both companies last night in which it was voted to accept the agreement.

A hearing of representatives and company officials before the New England Regional Labor Board in Boston.

Only from a reliable source close to the situation could it be learned the companies had agreed to recognize the Industrial Aircraft Workers of America, Hartford branch.

A British alliance with Japan, he said to reporters would "drive America into the arms of Russia which we have already done to some extent."

"Then Australia, New Zealand and Canada would come in with the United States—if it will have them."

Shaw discoursed on many other matters in his customary bluff style, declaring for one thing in at least assumed seriousness that another "step to the Empire" lay in the playing of games between its component parts such as the coming together in cricket matches between England and Australia.

"These things break up the British Empire," he said. "The games induce intense animosity and rivalry and distract attention from serious things like politics."

Shaw revealed that he had written three plays during his long voyage. He did not mention the names of them.

Camera Records Dramatic Rescue After Sea Crash

An episode in a gripping tragedy at sea is recorded in this striking photo showing the actual rescue of survivors of the Nantucket Lightship after it had been rammed and sunk by the liner Olympic off Nantucket Island, Mass. The survivors shown here are: John F. Perry, radio operator, about to step off; and L. U. Roberts, oiler, bending over.

BRITON DECLARES JAPAN IS PLANNING EXPANSION

Sir Stafford Cripps Tells Commons It Is Time to Call a Halt "In This Type of Behavior."

London, May 18.—(AP)—Charges that Japan is planning to carve out of Chinese territory a "Manchukuo Number Two" were made on the floor of the House of Commons today.

The charges were aired by Sir Stafford Cripps during debate on foreign affairs.

Asserting that Great Britain should now move for a "unified, long-term plan," Cripps said that the charges were aimed by Sir Stafford Cripps during debate on foreign affairs.

"It is time to call for a definite halt in this type of behavior," he said, mentioning the establishment of the Japanese protected Empire of Manchukuo, a state set up after the Japanese campaign in China two years ago.

"It is time to call for a definite halt in this type of behavior," he said, mentioning the establishment of the Japanese protected Empire of Manchukuo, a state set up after the Japanese campaign in China two years ago.

"There has been no weakening of confidence in the immediate future and resumption of the upturn, with more vigor than that which characterized it even during the first quarter of the year, doubtless will be achieved as soon as distribution receives the benefit of more normal temperatures and producers of goods will have been given a clearer appraisal of the administration's policies."

"Trade is at its lowest ebb in the corn belt and the northwest, where precipitation during the past four months has been the lightest in nearly a quarter of a century. Majority of reports stress the certainty that the summer letdown will be less marked than was anticipated a few weeks ago and will be followed by a general expansion in the fall."

Washington, May 18.—(AP)—The position of the Treasury May 18: Receipts, \$110,910,479.45; disbursements, \$90,809,120.12; balance, \$2,130,648,407.39. Customs receipts for the month, \$10,905,133.47.

Receipts for the fiscal year (since July 1) \$2,845,890,051.59; expenditures, \$6,161,855,061.50 (including \$8,427,926,886.18 of emergency expenditures); excess of expenditures, \$3,317,675,809.72. Gold assets, \$7,752,669,048.27.

BORAH ASSAILS TRADING TARIFF AS DICTATORIAL

Senator in a Brilliant Speech Warns Against Surrender of Taxing Power to Any President.

Washington, May 18.—Senator Borah challenged President Roosevelt's reciprocity tariff program yesterday as another step away from constitutional democracy. In an address in the Senate, when discussion of the measure formally began, he spoke with a fire and an eloquence that recalled to many of his associates the fight he waged fourteen years ago against the League of Nations covenant.

Denying nearly an hour to an attack on the logic and constitutional status of the tariff measure, the Idahoan rose to a climax wherein he declared there was a nice line for those who now would defend and preserve constitutional government "against all comers, emergencies or otherwise, and at all costs and at all hazards."

Mr. Borah's oration brought Senators from the cloak rooms and kept the galleries in silence. Some members thought his speech would alter the nature of further consideration of the tariff bill. Before his attack on the measure it had appeared that some of the measure's partisan opponents would make an effort to pepper it to death with amendments.

Senator Borah disagreed emphatically with the arguments of Senator Harrison, who opened the debate, that an emergency warrant under the government's emergency powers exercised under the Constitution. The Constitution he said, was framed in an atmosphere of emergency and was designed to give power to deal with all questions.

"I know it has been said that this delegation of power is for a limited time and is to be given to one in whom the people have great confidence," Mr. Borah went on, "but the precedent established by President Roosevelt will be followed and enlarged upon by his successors whoever they may be. Precedents established by capable hands for desirable purposes are still precedents for incapable hands and undesirable purposes."

The senator declared that it was no reason for passage of the pending bill that President Hoover had received powers to fix rates under the flexible tariff.

Hoover's Power Is Recalled "Hoover's Power is recalled for fix tariff rates," continued Mr. Borah. "In my opinion it was an unwieldy and unwarranted power, but under the plea of public necessity and of party solidarity the power was given. It ought never to have been given."

"Now, however, Mr. Roosevelt succeeds Mr. Hoover and using that precedent as a stepping stone, he moves an arrow's flight beyond that of his predecessor.

"Mr. President, I think that the opposition to Mr. Hoover's flexible tariff proposition was based upon sound principles of constitutional law, but I am not interested today in those who supported it or those who opposed it.

"I am interested, I frankly say, in trying to present to my colleagues something which will stop the trend which I think is exceedingly dangerous. That does not apply to Mr. Hoover or to Mr. Roosevelt; it is a trend and it is a delegation of the taxing power."

"It is getting away from those in whom it was entrusted by the framers of the Constitution, and if it had not been entrusted by the framers of the Constitution to the Congress of the United States, it ought to be done now; it should be done now, and I think that we are just step by step delegating away the one power upon which parliamentary government rests. There is no justification on earth for you and me to be here after the taxing power is gone."

Stands For Constitutionality "Mr. President, the integrity of constitutional government has never meant so much to the average man and woman, to those whom Lincoln was wont to call the 'Common People'."

New Haven, May 18.—(AP)—A double-barreled warning against ungentlemanly behavior at the Derby Day regatta was directed today at Yale students.

On the eve of the Carnegie Cup races between Yale, Princeton and Cornell Malcolm Farmer, Ell director of athletics told Yale students in a formal statement that this annual event would be discontinued if they didn't behave properly.

A similar warning but more mildly worded, was issued by the Yale News.

Farmer's statement said: "Saturday, May 19, ushers in another Derby Day on the eve of which comes the usual apprehension over the general results of the day."

"It can be said quite definitely that conduct on the part of Yale men which would bring discredit on themselves or the university will meet the disapproval of the Derby Day races, which in turn will be discontinued."

Death Has Various Forms; A Marble, a Bird, a Wheel

New York, May 18.—(AP)—\$was torn from the wall and became a weapon that struck her down. Death is a marble, rolling on the street.

HOCKANUM MILLS SOLD; BAY STATE FIRM PURCHASER

Controlling Interest in Rockville's Leading Industry Passes Into Other Hands—M. T. Stevens & Sons Co. New Owners.

Rockville, May 18.—The sale of the controlling interest of the Hockanum Mills Company, manufacturers of the well-known "Hockanum Worsted", was confirmed this morning at the Hockanum Mills office in Rockville. This is by far the largest business transaction in the history of Rockville.

Percy Ainsworth, general manager of the Hockanum Mills Company, announced today that negotiations were under way for the purchase of the local mills by the M. T. Stevens & Sons Company of North Andover, Mass.

Inventories Taken Inventories are being taken in the mills, and when these are completed, it is expected that final arrangements will be entered into for the transfer of the mill properties to the new owners. The Maxwell and Sykes families, who have been in control of the mills for three generations, will no longer be active in the management but will retain a substantial financial interest.

The M. T. Stevens & Sons Company, whose products are sold by J. P. Stevens & Company of New York, operates woolen mills in Andover, North Andover, Lowell and Haverhill, Mass., Franklin, N. H., and Peabody, R. I., and is capitalized for \$3,179,000.

An old established concern, founded in 1810, almost identically the same year as the Hockanum company, it is one of the largest independent woolen manufacturing units in the country and the acquisition of the local mills will round out its present diversified line.

No Personnel Changes It is expected that the Hockanum Mills will continue under the management of Percy Ainsworth and operate without any changes in the present personnel either in Rockville or New York.

The Hockanum Mills Company, which was incorporated on April 11, 1906, has its main office located at 155 West Main street, Rockville, and is capitalized for \$6,000,000.

The Hockanum Mills Company is the holding company of the five woolen and worsted mills operated in Rockville, each of which have its own staff of officers but an identical directorate.

The officers of the different companies are as follows: Hockanum Mills Company: President, Francis T. Maxwell; Treasurer, Francis T. Maxwell; General Manager, Vice-President, Percy Ainsworth and Frederick N. Belding; Secretary, Francis T. Maxwell; Assistant Secretaries, Percy Ainsworth and Frederick N. Belding; Directors, Francis T. Maxwell, William Maxwell, J. Alice Maxwell, George N. Sykes, David A. Sykes, George E. Sykes, Arthur L. Shipman, Frederick N. Belding, Percy Ainsworth and Francis S. Nettleton.

Maxwell President The Hockanum Company, President, William Maxwell; Vice-Presidents, David A. Sykes and Frederick N. Belding; Treasurer, Francis T. Maxwell; Assistant Treasurers, Percy Ainsworth and Frederick N. Belding; Secretary, Francis T. Maxwell; Assistant Secretaries, Percy Ainsworth and Frederick N. Belding.

The Springville Manufacturing Company: President, Francis T. Maxwell; Vice-Presidents, David A. Sykes and Frederick N. Belding; Treasurer, William Maxwell; Assistant Treasurers, Percy Ainsworth and Frederick N. Belding; Secretary, William Maxwell; Assistant Secretaries, Percy Ainsworth and Frederick N. Belding.

The American Mills Company: President, the late Charles S. Boltmeyer; Vice-Presidents, David A. Sykes, Francis T. Maxwell, Frederick N. Belding; Treasurer, William Maxwell; Assistant Treasurers, Percy Ainsworth and Frederick N. Belding; Secretary, William Maxwell; Assistant Secretaries, Percy Ainsworth and Frederick N. Belding.

The New England Company: President, Percy Ainsworth; Vice-Presidents, David A. Sykes and Frederick N. Belding; Treasurer, William Maxwell; Assistant Treasurers, Percy Ainsworth and Frederick N. Belding; Secretary, William Maxwell; Assistant Secretaries, Percy Ainsworth and Frederick N. Belding.

The Minterburn Mills Company: President, David A. Sykes; Vice-Presidents, Francis T. Maxwell and Frederick N. Belding; Treasurer, William Maxwell; Assistant Treasurers, Percy Ainsworth and Frederick N. Belding; Secretary, William Maxwell; Assistant Secretaries, Percy Ainsworth and Frederick N. Belding.

BETTER TEACHERS NEED OF NATION

Not Finer School, Commission Reports; Declares It Is Up to Our Educators.

New York, May 18.—(AP)—Better teachers, not finer school buildings or more smoothly functioning methods, should be the primary concern of American education, the social studies commission of the American Historical Association today reported.

"Faith must be placed primarily in more judiciously appointed school buildings, or in refinements of the material and mechanical aspects of administration and supervision, the commission declared, "but in the increase of the competence and spiritual power of the individual teacher."

Referring to the place of social science instruction, the commission said it could rise no higher than the "scholarship, courage and vision of the social science teacher."

The teaching profession will tend to draw persons of mediocre mentality, the commission declared, until the work is made more challenging, inspiring and attractive."

Up to Teachers The commission predicted that this condition would be solved mainly through the teachers themselves "by the more active spirits in the conditions of work, or formulating a more challenging and inspiring conception of teaching and carrying the argument intelligently and persistently to the public."

In the field of teacher training, the commission proposed curtailment of the number of courses offered in schools, an insistence that persons engaged in training teachers be competent scholars themselves, and the abandonment of the education of a distinct "science of education."

The commission further suggested that the divisions between colleges and universities, and between normal schools and teachers' colleges, be abolished.

STUDENS WARNED TO BEHAVE SELVES

If They Do Not Yale's Derby Day Regatta Will Be Discontinued.

New Haven, May 18.—(AP)—A double-barreled warning against ungentlemanly behavior at the Derby Day regatta was directed today at Yale students.

On the eve of the Carnegie Cup races between Yale, Princeton and Cornell Malcolm Farmer, Ell director of athletics told Yale students in a formal statement that this annual event would be discontinued if they didn't behave properly.

A similar warning but more mildly worded, was issued by the Yale News.

Farmer's statement said: "Saturday, May 19, ushers in another Derby Day on the eve of which comes the usual apprehension over the general results of the day."

"It can be said quite definitely that conduct on the part of Yale men which would bring discredit on themselves or the university will meet the disapproval of the Derby Day races, which in turn will be discontinued."

BOLIVIA PROESTS EMBARGO ON ARMS

Says It Would Help Paraguay; League Jurists to Take Up Proposal.

Geneva, May 18.—(AP)—The proposal to clamp an embargo on arms shipments to Paraguay and Bolivia was referred to jurists by the League of Nations Council today after a Bolivian representative had vigorously opposed its application to his country.

Costa Durula of Bolivia told the council that the embargo—urged to end the warfare in the Chaco Boreal—would be unjust to Bolivia from juridical, geographical and political standpoints.

"Its application on both countries would further the aims of Paraguay and would be a penalty not deserved by Bolivia," he contended.

The jurists will determine the legal form the proposed embargo would take and report at the earliest possible date to the Council.

Ramon Caballero De Bodeya of Paraguay declared that the embargo penalty necessitated beforehand a determination of the aggressor and he believed the jurists should examine the question of responsibility in the Chaco fighting.

Denmark's representative, advocating the embargo suggested before the council yesterday by Captain Anthony Eden of Great Britain, said embargoes should even be applied to countries where conflicts threaten to degenerate into war.

DE VALERA GREETSS ATLANTIC FLIERS

Great Reception Staged in Dublin When Aviators Visit the President.

Dublin, May 18.—(AP)—President Eamonn De Valera welcomed the trans-Atlantic fliers Captain George Pond and Lieutenant Cesare Saba to the Irish Free State today in behalf of the Irish people.

He received them with outstretched hands, warmly congratulating them on their safe landing near Lahinch Tuesday after the arduous ocean crossing.

Crowds lining the streets from the American Legation, where the fliers are staying, to the government building, cheered the aviators as they passed in an automobile en route to see the President this morning.

Accompanied by James Orr Denby, American charge d'affaires, and the Italian consul, they listened for a few moments to the proceedings in the hall and then were ushered into De Valera's room.

The President rose from his chair when the door opened and advanced to shake hands with his visitors.

"Your flight is further proof that in the future Ireland will be an important air link between Europe and the United States," he said.

Selection of Portmarnock Strand as the take-off for the return flight to America, he added, indicates that it has great possibilities as an air traffic center.

He concluded by assuring them of the delight of the Irish people over their successful crossing.

After the interview the aviators left for Baldonnel Airfield to be guests of the Irish Air Force.

DEATH HAS VARIOUS FORMS; A Marble, a Bird, a Wheel

New York, May 18.—(AP)—\$was torn from the wall and became a weapon that struck her down. Death is a marble, rolling on the street.

William Abel, only six, pursued his "glasse" onto the pavement yesterday. It rolled under a concrete mixer. The operator of the mixer, not seeing the child, pulled a lever, the hopper descended.

Death is a bird. Eugene was watching a sparrow. A cat pounced upon it. The sight so unnerved Mrs. Cross that she took a few drinks, to forget. Drinking, she delayed dinner for her cab-driver husband, Alexander. There was a quarrel. Their marriage home, neatly joined,

**BUSINESS BLOCK
NAME REMOVED**

Opposition of Arthur Bowers, Builder, to Liquor, Believed Reason.

The three story stone and brick building erected in 1906 by the late Arthur Bowers to house the Manchester Trust Company and the Savings Bank of Manchester and also to provide law office for his brother, the late Judge H. O. Bowers, contained a stone between the second and third floors with the words "Bowers' Block."

It became known alternately as the "Bank Building," the "Postoffice Building" and more recently the "Bowers' Block." The property was sold by Mr. Bowers several years ago to the Manchester Mutual Realty Company and within the past few weeks it was resold. The announcement has since been made that there is to be a change in ownership again on June 1 and that the place will be used on the ground floor for a tavern.

Arthur E. Bowers was an advocate of prohibition and as a legislator voted in favor of prohibition. Knowing this and feeling that the name should not be allowed to remain on the building, yesterday afternoon a stone cutter went to work and cut off the name of "Bowers" in the stone.

A new name must be found for the building.

**NOTED ARCHITECT
GILBERT IS DEAD**

(Continued from Page One)

On his arrival in Brockenhurst last Friday, he complained of feeling badly and did not appear to improve as had been expected.

Yesterday when Mrs. Gilbert returned to her husband's room after breakfast, she found he was having difficulty in breathing. She gave him a stimulant and called a local doctor.

When the physician arrived, the famous architect already had passed away.

**HOCKANUM MILLS
SOLD; BAY STATE
FIRM PURCHASER**

TO BEHAVE SELVES**

(Continued from Page One)

would have a very detrimental effect on the whole rowing program.

Showing Fine Spirit

"Last year the consideration and co-operation of the student body showed a fine spirit, and I trust that the same enthusiastic but gentlemanly conduct will prevail again this year," said Mr. Ainsworth.

Reminding students that "conduct of the institution depends largely on the events of this year's week-end," the undergraduate publication said:

"We hope you will be merry for day after tomorrow you have your first exam. x x x

"We hazard the modest suggestion that if the Yale man thinks that a little good thing is worth keeping, he will curb his natural exuberance this week-end."

**28 HONOR PUPILS
ON NEWEST ROLL**

Twenty-eight students are listed on the honor roll of the local State Trade school for March and April, it was announced today by Director J. G. Echmalin. The list, which includes two girls students, is headed by the Electrical and Textile departments, both of which have nine honor pupils.

The list follows:

Carpentry Department
Robert Barwell.
Robert Grumbuck.
William Rice.
Frederick Sweet.

Drafting Department
Raymond Irwin.
Walter Kayan.
Alexander Misaliko.
Roy Peterson.

Electrical Department
John Adams.
Roger Benson.
Evanet Brewer.
Maynard Briggs.
Fred Luge.
Andrew Raguskus.
Joseph Schoen.
Adolph Storm.

Machine Department
John Kynoch.
Bernard Miron.

Textile Department
Edith Chapin.
William Demko.
William Krieh.
Walter Silkowski.
Roland Lashinski.
Walter Stalinski.
Peter Stamm.
John Weiser.
Mae Werner.

**FORGET-ME-NOT JUNIOR KINGS
DAUGHTERS WILL MEET TOMORROW**

Forget-me-not Junior Kings Daughters will meet tomorrow afternoon at 2:30 with Miss Faith Stevenson, 20 Marble street.

Mary C. Keeney Tent, Daughters of Union Veterans, observed Mother's day with a special program last evening in charge of Miss Emma Strickland, Mrs. Calvin Strickland and Miss Edith Maxwell. A duet, "Mother Machree" was sung by Mrs. Ida Gilman and Mrs. Rena Smith. Readings appropriate to Mother's day were given by Mrs. Grace Ames, Mrs. Helen Henry, Miss Edith Maxwell and Miss Emma Strickland. Miss Virginia Armstrong sang a solo, "Mother." Home made candy was served.

Ever Ready Circle of Kings Daughters will hold a rummage sale Wednesday of next week in the Buckland building, Depot square, as its final activity of the season.

Due to the fact that a large number of those who have made application for home gardens did not receive notification cards, requiring them to report for small seeds at the Knox homestead, distribution will continue today and this evening. Fertilizer and potash seed will be delivered by truck later.

Mrs. W. W. Ellis, chairman of the committee in charge of the Manchester Garden club's plant sale tomorrow, announces that members of the committee will be at the store, Main street and Brainard place this evening from 5 to 7, to receive items for the sale, and at 8 o'clock tomorrow morning. The sale will open at 10:30.

St. Mary's Girls Friendly society and the Young People's Fellowship have been invited to repeat their comedy, "The Meddlesome Maid," under the auspices of the Dramatic club of Manchester Grange. The date set for the entertainment is Friday evening, May 25, and the place, St. Mary's Parish hall. The Grange members will sell home-made candy.

Mrs. Jessie E. Neas of Detroit, Michigan, grand mistress of the local lodge No. 125 that she will pay them an official visit on Thursday evening, May 31. A special meeting of the members of the lodge is called for Tuesday evening at 8 o'clock at Orange hall to make arrangements for entertaining the distinguished guest. All members are urged to be present.

Group No. 1 of the Memorial Hospital auxiliary, Mrs. D. M. Caldwell leader, will meet Monday for work.

Thomas Conran, named as chairman of the men's committee to arrange for the festival to be held in June under the auspices of St. Bridget's church, will meet with the committee of women, headed by Miss Eleanor Dwyer, in the church hall tonight. At the meeting tonight the date for the festival will be decided upon and the necessary plans for the details of the festival will be started.

William Foulds, Jr., and Harold Norton left this morning for Fourth Lake, Old Forge, N. Y., and will be absent about two weeks. Mr. Foulds is going to prepare the opening of the cottage which will later be occupied by his father, who spends the summer each year in that place.

St. Margaret's Circle, Daughters of Isabella, will hold its regular meeting on Wednesday evening next Tuesday evening next week. It will be held at the home of Mrs. James Breen, 76 Alton street. A members' social will follow the business.

Beginning Monday, May 21, the Manchester Kiwanis club will meet for the summer season, as customary, at the Manchester Country club. The speaker will be Dr. Lee Mickle of the State Laboratory, and Helge Pearson will furnish the attendance prize. Members who have not already made returns for the annual show for the Kiddie camp, are urged to do so at this time.

There will be a meeting at 9:30 tomorrow morning of Oak Lodge, No. 43, International Brotherhood of Papermakers, in Thayer hall. All members who have not received their obligation and are entitled to the same are urged to attend.

ABOUT TOWN

Sunnyside Junior Circle of King's Daughters will hold its business meeting this evening at 7:30 in the directors' room of the Whiton Memorial Library. Miss Anna Bailey will be in charge of devotions and her subject will be "Leisure Time."

The young people of Center church CYP club will meet at the church at 8:30 Sunday evening and proceed from there to Enfield for the spring meeting of the Young People's Branch of the Hartford East association.

The World Service committee of Center Church Women's Federation has set the date of June 9 for an Oriental garden party at the home of F. E. Watkins.

Dilworth Cornell Unit, No. 108 has received an invitation from the auxiliary of the Spanish War Veterans to take part in the dedication of their monument at Center Park Sunday afternoon. Members of the unit are requested to meet at the Armory at 1:45 to take part in the parade. Those wearing uniforms are requested to wear them.

Forget-me-not Junior Kings Daughters will meet tomorrow afternoon at 2:30 with Miss Faith Stevenson, 20 Marble street.

Mary C. Keeney Tent, Daughters of Union Veterans, observed Mother's day with a special program last evening in charge of Miss Emma Strickland, Mrs. Calvin Strickland and Miss Edith Maxwell. A duet, "Mother Machree" was sung by Mrs. Ida Gilman and Mrs. Rena Smith. Readings appropriate to Mother's day were given by Mrs. Grace Ames, Mrs. Helen Henry, Miss Edith Maxwell and Miss Emma Strickland. Miss Virginia Armstrong sang a solo, "Mother." Home made candy was served.

Due to the fact that a large number of those who have made application for home gardens did not receive notification cards, requiring them to report for small seeds at the Knox homestead, distribution will continue today and this evening. Fertilizer and potash seed will be delivered by truck later.

Mrs. W. W. Ellis, chairman of the committee in charge of the Manchester Garden club's plant sale tomorrow, announces that members of the committee will be at the store, Main street and Brainard place this evening from 5 to 7, to receive items for the sale, and at 8 o'clock tomorrow morning. **TICKETS NOW ON SALE
FOR ANNUAL FESTIVAL**

Children of Mary Sodality at St. James Church to Provide Fine Entertainment.

Tickets are now on sale for the annual May festival to be given under the auspices of the Children of Mary Sodality in St. James' school hall on April 24 and 25. There will be an entertainment each night and the committee arranging for the festival has secured unusual talent for the production each evening. There will be booths erected around the east and west sides of the hall and these will be in charge of members of the Sodality. Dancing will be to music furnished by O'Brigh's orchestra, which has been engaged for the two nights. In the basement of the hall there will be a special provision made for the serving of refreshments. This will be in charge of the "Cottonwood Club."

This is an annual event that draws to the hall the members of the parish in large numbers each year and in order to make it the most successful of all a canvass of the members of the parish is to be made.

position of restrictions on Japanese commerce.

"The German-Japanese combination, which is developing rapidly, is creating more fear in the world even than there has been in the last few years as the closeness of the danger of war has become more and more apparent," he went on.

"As long as this government insists upon complete and absolute freedom for itself and others on every occasion," the speaker declared, "so long will it be impossible to regulate international security for the world."

"Japan's invasion of Manchuria," said Cripps, "and the incident which took place at the same time at Shanghai were the first steps in the design by which Japan sought to gain the preponderating power throughout the whole East."

"Since that time Japan has extended her conquest in North China and withdrawn from the League of Nations."

SIMON'S ANSWER

London, May 18.—(AP)—Sir John Simon, British foreign secretary, declared today that Great Britain is not pledged to "preserve" the integrity of China and will not participate in direct sanctions against Japan or any other power in other parts of the world unless the United States gives its full cooperation.

Referring to the demands of some of the opposition that Great Britain should not undertake any economic sanctions in an effort to forestall any war, the foreign secretary declared:

"Economic sanctions cannot be applied without the risk of war. And we cannot undertake any system of sanctions or effective action of this type unless the United States cooperates."

Simon extensively praised the United States aid to the League of Nations "which I hereby gratefully and publicly recognize," he said.

Ones Limitations

The House of Commons, he declared, "must understand, however the limitations under which the United States is likely to act."

He intimated that Great Britain was willing to participate in an international policy of sanctions (that is, reprisals against treaty violations) in specific cases should the United States as well as other nations interested agree to it formally.

"Nevertheless," said Sir John, "it must be recognized that a policy of sanctions cannot be set up like a bottle of medicine for dosage where and when it is needed."

"This is a matter necessitating the full review of each individual case and, before action by any power of this nature is taken, all interested must formally agree."

Simon reaffirmed Great Britain's desire to reach an agreement at Geneva on disarmament and said Great Britain already has sent an example in the reduction of arms and now it is up to other nations to follow suit.

**SENATOR TYDINGS
RAPS EXPERIMENTS**

(Continued from Page One)

land Democrat offered this suggestion in an interview:

"I should like to see the President appoint a body composed of business men, heads of various alphabetical organizations and other representative citizens, who will weigh the various temporary expedients to which we have resorted and be ready at the next session to present to Congress a unified, long-term plan for reconstruction plus some method for paying the bill."

As for methods of paying the bill, he said:

"I do not see how we can avoid a manufacturers sales tax, eliminating food, cheap clothing and medicine. It would practically amount to a luxury tax and should constitute a special fund to liquidate emergency appropriations."

Among other things, he urged stabilization of currencies, "give and take" in world trade, a lump sum settlement of war debts ("and let the securities act") and amendment of the securities act.

"In our legislation to control business we must stop being punitive," he said. In conclusion, he declared:

"President Roosevelt has absorbed and held the enthusiasm of the people. But if it should ever escape, people will begin marching behind some slogan and it is pretty sure to be a poor one. If the administration ever loses the leadership, somebody else is sure to grab it and make it a leadership of prejudice and hate."

"That is the reason why I think it is of paramount importance to analyze our past experience and be prepared not only for long-range national planning but also be ready within our sphere for definite, business-like world planning in the fall."

of which Charles T. La Vista, leader of the strikers, is president and that wage adjustments would be made.

Immediate adjustments in this source said, would be made in the low paid groups and wages equalized among workers engaged in the same types of work. Within 30 days a general readjustment would be effected, the unofficial spokesman said.

Provisions also was understood to have been made for adjusting arbitration of disputes arising out of these adjustments.

Meanwhile, following a "victory entertainment" last night after word of settlement had spread, state police and Hartford super-numerary police, employed to preserve order during the last few days, awaited word today that their work was done.

ple, as in this very hour. Nowhere on this round globe today do the common people enjoy the blessings of liberty except in a constitutional democracy.

"There and there alone are to be found a free press, free speech, personal liberty and all those blessings which distinguish the people of a free country from the helpless, hapless, persecuted individuals who constitute the mere cogs of some vast machine in an absolute dictatorship.

"Fascism, nazism, communism, appealing to the forces of terror and fanaticism, have buried the individual beneath the schemes of personal advantage and now they are constantly ridiculing and attacking democracy.

"It is the only form of government which makes personal liberty the keystone of the arch. The disturbing fact to me is that in the midst of this universal onslaught upon personal liberty and free institutions, democracy seems to become apologetic, distrustful of its own weapons of warfare and its own weapons of defense.

"We have an emergency and we immediately appeal to measures which cast a doubt upon our faith in our own institutions. We have an emergency and we employ instrumentalities to discredit our faith in democratic institutions.

"We need something of the ancient faith, something of the ancient vision. You will remember, Mr. President, in the history of the American Revolution when the British forces were in possession of the Old Dominion, when the traitor, Benedict Arnold, was leading his marauding forces up and down the coast, when Tarleton was burning the homes and villages, Mr. Nicholas, a distinguished citizen of Virginia, seconded by Patrick Henry, moved that a dictator be appointed. Thomas Jefferson was then Governor of our own institutions. We have an emergency and we employ instrumentalities to discredit our faith in democratic institutions.

"The words of Jefferson: 'The very thought alone was treason against mankind in general; as riveting forever the chains which bowed down their necks by giving their oppressors proof, which they would have trumpeted throughout the universe of the imbecility of Republican government in times of pressing danger to shield us from harm.'

"In the midst of internecine strife, when brother was arrayed against brother and father against son, in the bitterest hour of the Civil War, Lincoln declares that the 'Government of the people, for the people and by the people' should not perish from the earth.

"There is a niche alongside of these immortal defenders of free government for the brave American who, in his place of power, challenges these apostles of terror and fanaticism, challenges these enemies of free government and who announces his willingness to rely upon it and to defend and to preserve the integrity of constitutional government and to rely upon it and defend it against all comers, emergencies or otherwise and at all costs and at all hazards."

The most valuable pearls are produced in tropical waters.

**OPINION IS ASKED
ON PACKAGE STORES**

State Board Wishes to Know Whether it Must Revoke Violators' Licenses.

Hartford, May 18.—(AP)—The State Liquor Control Commission today died a request with the attorney general for an opinion as to whether it was required to revoke the permits of package stores which have been operating in violation of the Liquor Control Act while their recent test case was in the Constitutional Court.

"The request signed by Chairman Frank S. Bergin of the commission follows a meeting of the commission yesterday afternoon at which this case was decided upon. It was pointed out that if the attorney general advises the commission the law requires revocation of permits, no such action would be taken without giving a hearing to each offender. From 350 to 375 package store proprietors are affected by this situation."

AWAIT OPINION

Hartford, May 18.—(AP)—An opinion was awaited today from the attorney general as to whether or not the liquor commission will revoke the permits of package store proprietors who availed themselves of the restraining order issued in Federal court to violate the terms of the Liquor Control Act.

Such a move was indicated by Chairman Frank Bergin of the commission late yesterday after a meeting of the commission.

Bergin said the commission will ask the attorney general for an opinion regarding the possible revocations, involving approximately 350 store owners, who participated in the test case.

To Act If Forced

The statement was construed in package store circles today to mean that the commission itself would not act unless it became mandatory.

Section 708 of the Liquor Control Act gives the commission the right to revoke "any permit for the sale of alcoholic liquor, upon cause found after due hearing had."

But the commission has pointed out that its action regarding package stores in the test case would not be permissible, in view of the fact that "each package store proprietor, in selling in containers less than one-fifth gallon or in carrying on his business after 8 p. m., was guilty of a 'positive violation' of the Control Act."

Golf knickers are called "plus fours" because a tailor added four inches to the width when he was told that the standard length was not roomy enough.

prospective arms embargo to South America would have little effect on the business of the Remington Arms Company of this city, according to C. K. Davis, president of the company. Mr. Davis said that he would refer those desiring information to the Army Ordnance Magazine for this month, where there is a statement of the arms and ammunition production of the country in which it is set forth that the Remington Arms Company has not sold a piece of military firearms during the past ten years.

Further, the magazine sets forth that the company is engaged in making sporting rifles and shotguns, and that of its metallic cartridge business only one per cent of its total business is sold the United States government, and one-half of one per cent to foreign countries.

THE BARGAIN HOUND

Keep cool in an attractive summer print. You'll find one that suits you to a "T" at Chaney's Summer Print Sale. There's a grand selection of printed chiffrons and flat crepes at greatly reduced prices.

Sparkling clip earrings which clamp close to the lobe of the ear are the smartest ornament for evening wear. Some are jewel-studded wings, others gem-set leaves which curve to the ear tip.

I found that all the activity in Montgomery Ward's means more than just "doing over" the store. There are loads of bargains as a result. Two wonderful floor model electric refrigerators regularly \$139.00 now \$119.00—two 10 tube radios formerly \$54.95, now \$46.95.

Leaf prints are smart this spring. Iron gray taffeta, black crepe or brown chiffon splashed with white leaves make some of the smartest afternoon and evening frocks of the season. One chic evening gown in the mid-season collections was fashioned of iron gray taffeta splashed with white leaves, designed with a full billowing skirt and finished with a brilliant pimento red taffeta girde.

Saturday is another lucky day for stocking shoppers. Norton's are featuring their first quality chiffron and semi-service stockings at 50 cents a pair—you know, the wear-like-iron kind.

It would be somewhat difficult to indicate the ruling principle certain of insuring a quality of youthfulness to any dress. As a matter of fact, there is no set ruling, anyway, so far as color is concerned. There are some little black dresses, for example, which are unquestionably more youthful than many lighter ones, even when entirely unrelieved.

When analyzing dress or even a style, you inevitably are led to appreciate either or both from a technical point of view, especially if you happen to be a creator.

Hollywood's younger set is still "cott-ing" its summer wardrobe together. Frances Drake, Paramount player, is wearing a stunning white pique evening coat. It is very long, like a coachman's robe and buttons in a zig-zag line down the front with huge pearl buttons.

A new touch of elegance to your bath—Lavender and Pine Oil Essence—50 cents a bottle at Hale's drug counter.

Preparing the youthful wardrobe for the outdoor sports season is almost as much fun as playing the game when one has so many new and attractive styles to choose from. Designers of girls' and juniors' sport clothes have evidently given considerable thought to comfort and freedom in planning the latest models, without overlooking the importance of smartness in styling.

Just the thing for summer kitchen and porch wear are the housecookers for only 50 cents at Montgomery Ward's.

Why not try mint and new cabbage? One tablespoon minced mint leaves added to one cup crisp shredded cabbage and the whole dressed with oil and lemon juice makes an unusual and delicious salad or you may stuff tomatoes with the combination. Cucumbers sprinkled with fresh minced mint leaves are appetizing and novel.

Now here's a not-to-be-missed bargain! A Bouton set of three—bath salts, dusting powder and talc for 50 cents at Hale's drug counter. What an ideal thing to take away to your summer cottage to use after swimming.

The raw taste of so many uncooked icings is overcome if the icing is permitted to stand over hot water for fifteen or twenty minutes. Also you can keep icings in a pliable condition if they are put over hot water while frosting cake. Sometimes merely dipping the spatula into hot water makes the frosting spread easily.

How about a luscious red raspberry shortcake for Sunday dinner, or may be raspberries and cream for Sunday supper? Garrone's have them at 25 cents a basket. Dial 6367.

There are dinner suits and dinner suits but Claudette Colbert's black one with a printed top is the swankiest one in Hollywood. She has two jackets, one of print to match the jumper and one black to match the long skirt of the suit.

At Potterton and Krah's I had to stop to see the new Crosley refrigerators—are they convenient! The exclusive "Shelvador" is the best place for small things—always in sight and at hand. These "shelves in the door" are in addition to the regular space and add 50 per cent to the usable space. All models also have an electric light and automatic defrosting. A trouble free, high quality refrigerator at the very low price of \$99.50 up.

In Grandmother's day someone might have whispered slyly "Your petticoat's showing." Not so today, for many of the fashions are designed particularly to reveal a bit of petticoat. Taffeta petticoats are being worn under afternoon frocks, with lace or organdy models peeping from under summer evening gowns.

Among the 50 cents "special items" at Hale's drug counter are the decanters of bath salts.

The new cottons are appropriate and smart not only for wearing apparel but for use in the home. For instance, there are intricately woven cottons that look like tapestry and these make ideal draperies and divan covers. Others resemble heavy linen crash and can be used for all kinds of slip covers.

Don't overlook waterproof showerham—it's simply grand for shower curtains, bathroom curtains and the like. Organdy and voile, as always are ideal for kitchen, bedroom and sunporch windows.

I saw them being unpacked at The Vogue Shop—the tricked little "Beau-Fal" sweaters—ideal for all sorts of sport wear—and some little linen thread sweaters that are so new looking—\$2.98.

Picnic tips—When stuffing tomatoes for picnics, a good way to keep them intact and fresh is to pour paraffin over them.

When cutting bread for sandwiches which you wish to be particularly dainty and of fancy shape, always cut lengthwise to avoid waste.

Anklets to match every dress—only 9 cents at Montgomery Ward's.

These are delicious with afternoon tea—

Scotch Scones
Two cups flour, 2 tablespoons butter, 2 teaspoons baking powder, 1-2 teaspoon salt, 1 egg, 3-4 cup cream (about).

Mix and sift flour, salt and baking powder. Rub in butter or other shortening with pastry blender or two knives. Beat egg with cream, using 1-2 cup to start with. Make a well in the center of the dry mixture and pour in egg and cream mixture. Stir until well mixed. The dough should be quite soft. If too stiff add more cream. Turn onto a lightly floured molding board and roll into a sheet about 3-4 inch thick. Cut in squares and prick with a fork. Bake in a hot oven for fifteen minutes. The oven should be 425 degrees F.

Off at a trot—remember that you read about it in The Bargain Hound.

Marianne

HOSPITAL DRIVE WORKERS REPORT

Meeting Will Be Held at 6.30 This Evening at Masonic Temple.

At 6:30 o'clock tonight, the first report meeting of the entire organization of 183 volunteer workers of the current Memorial hospital campaign for \$15,000 will be held at the Masonic Temple and all workers are urged to be present, in order that a complete report of the work obtained to date may be secured.

Recently at the Manchester Memorial hospital an incident occurred which plainly demonstrated the great value to the community of having a hospital with an X-ray department with good equipment and with personnel prepared to give the most modern scientific advice and treatment in obscure cases which respond to X-ray and radium therapy.

X-Ray Pictures
A healthy, fat, apparently normal child was born at the hospital. Following the birth it was noticed that the child appeared "croupy". When it breathed it had crouching, harsh, breath sounds and seemed to have difficulty getting an adequate amount of air into the lungs. This condition is sometimes caused from muscle spasm of the larynx. However, if such is the case this spasm quickly subsides and the breathing improves. In this particular case the breathing was gradually becoming worse and it was evident that there was some mechanical obstruction which prevented the air from passing through the windpipe.

Radium Destroys Gland
Scientific investigations have

proved that this gland is very sensitive to radium which when applied, rapidly partially destroys the gland. Consequently, within three hours after the X-rays had been taken, radium was procured and applied by the X-ray department. The mother was then advised that if her baby lived 24 hours, during which time it takes the radium to act, there would be no further danger from this unusual serious congenital complication of the new-born. This baby was very definitely saved from a death by suffocation, by the timely use of the latest scientific methods of diagnosis and treatment.

No one can set a monetary value on that life saved or on any others that are saved each year in the hospital, because it is well equipped and because highly skilled doctors and nurses are always quickly available when any emergency arises.

Police Court
Joseph Ortelli, 18, of 28 Warren street, entered a plea of guilty to a charge of speeding in police court today and was fined \$10 and costs. Ortelli was arrested by Policeman Herman Muske on Spencer street last night. He was represented by Probation Officer Edward Elliott. James Findlay, of 133 McKee street, was arrested at his home at 9:35 o'clock last night by Sergeant John McGinn and charged with assault upon his wife and intoxication. In police court today, his first appearance, judgment was suspended on the intoxication charge. Findlay was sentenced to 30 days in jail on the assault count, but the sentence was suspended and he was placed on probation for six months. Mrs. Findlay was reluctant to press the charges in court today.

CASH LOANS

If you need money to pay bills, taxes, etc., you can borrow it from us in 24 hours... and repay monthly according to your income. Our charges are figured only on the unpaid balance of the loan—and only for the exact number of days you owe that amount.

LA TUBINESE SOCIETY TENTH ANNUAL DANCE

Will Be Held at College Inn, Bolton, Tomorrow Night—Free Transportation.

The tenth annual dance to be given by La Tubinese society, an Italian organization, composed of members who all came from one particular county in Italy, is to be held at College Inn, Bolton, Saturday evening. To make it possible for those who do not own automobiles and who would like to go to the dance arrangements have been made to furnish transportation. Automobiles will leave Spruce and Oak streets at 8 and again at 9:30 o'clock tomorrow night, standard time, to bring the dancers to the hall.

OFFICERS WOUNDED TRYING TO HALT AUTO

Newton, N. C., May 18.—(AP)—Two officers were seriously wounded here early today by machine gun fire from a small sedan which they had sought to halt. Becoming suspicious of three men who drove in and out of the city during the early morning hours, Patrolman Arthur Hoffman called Deputy Sheriff Ray Pitt to his assistance and sought to halt the car which bore Tennessee license plates. They said a machine gun was poked through a window as they approached, and a hail of lead met them. Then the car sped away before residents, hearing the shooting, reached the spot. The officers were taken to a Hickory hospital, where they were said to be dangerously wounded, although the full extent of their injuries had not been determined.

BALLOONISTS DIED FROM SUFFOCATION

German Aeronauts Had Soared Up Six Miles, Instruments Show.

Moscow, May 18.—(AP)—An investigating commission of the German government today probed the circumstances surrounding the deaths of its two sub-strato-

sphere balloonists, Dr. Herman Victor Masuch and Martin Schrenk. The two were the crew of the Bartsch Von Segefeld, Germany's biggest balloon which smashed down Sunday after a take-off from Bitterfeld, Germany.

The commission decided that the two men probably were suffocated by lack of oxygen two hours after they set out for a flight above the clouds and that their suffocation was due to a defect in the respiratory apparatus. The balloon's instruments showed the men had reached a height of about six miles, but there was nothing recorded to indicate that the aeronauts had anticipated danger.

Unrooted House.
They found the balloon had

crashed near the Soviet frontier and had been dragged by the wind about 16 miles over rough country, unroofing a peasant's hut, knocking down telephone and telegraph wires, and smashing the sides of the gondola.

The body of one of the crew had been thrown into Lake Ilbita from which peasants had recovered it. "All indications," reported the commission, "point to the fact that the balloon was not under the control of human hands for some time before the crash."

The bodies of the two fliers arrived here today and will be sent to Berlin tonight.

FARMER BREAKS BACK

Willimantic, May 18.—(AP)—Jacob Zawinski, 53, a Columbia farmer, died at the Memorial hospital today from a broken back which he had suffered in a fall from a four-foot wall. Zawinski was found by police yesterday and in belief as was intoxicated and taken to the police station and given emergency treatment for what appeared to be a superficial injury. Later, he was transferred to the hospital. Medical Examiner Simonds gave an opinion of accidental death.

WATER COMPANY USES MAN LABOR

New Mains Being Laid at North End to Make Pressure Uniform.

The Manchester Water Company, in 1927, laid a new 12-inch water main from the corner of Main and Woodbridge streets to a point near the Thomas Coleman place on Lydall street, thus paralleling the 8-inch main and connecting with the 10-inch main.

The company now has perfected plans to continue this 12-inch main and enlarge it to a 16-inch main to the supplying reservoir. When this work is completed it will give two direct supplying lines from the reservoir to the center of the town. It will give the maximum volume of water, increase and maintain a more uniform pressure, thus increasing the efficiency of the system for fire purposes and domestic use.

While the company recognizes the advantage in machine digging it has planned to use man labor for excavating and filling, for the expense of helping out the unemployment in the town and particularly in the district it serves. This work will be in charge of Joseph Sylvester of town, under the supervision of Superintendent Charles B. Loomis. C. Henry Olmsted is consulting engineer. It is so planned that there will be no interruption in the water service during this installation.

TAVERN KEEPERS PLAN TO FIGHT

Unusually Large Crowd Expected at Special Town Meeting This Evening.

Two controversial articles in the warrant for the special town meeting this evening at 8 o'clock, the petition to limit the opening hours of taverns on Sunday and the petition for a reduction in the peddler's license fee, have created unusual interest among town voters. It is expected that the meeting to vote on the items in the call, also to vote on the \$30,000 extra appropriation for road construction, will be largely attended by factions opposing and favoring each proposal.

It is apparent that the objective of the petitioners for limitation of the open hours of taverns is the closing of taverns on Sunday, but due to the legal phrasing of the Liquor Control Act, municipalities may regulate the opening and closing hours of taverns, which in itself precludes the possibility of complete closing of taverns on Sundays.

The petition for reduction in the license fee for peddlers is also opposed by local vendors who feel that lowering of the fee for itinerant vendors will allow a flood of outside peddlers to come into town, seriously affecting the trade of local licensed vendor and tradesmen in general.

The reduction in the peddler's license fee is opposed by the Manchester Chamber of Commerce. The town meeting was called on the petition of twenty citizens of Manchester and the Selectmen included the items for limiting the open hours of taverns on Sunday, also the item for the road construction extra appropriation in the meeting.

As for the road appropriation, the Selectmen are agreed that it is the duty of that board to keep the town roads in proper condition. Due to the unusual severity of the past winter, many of the town roads are in need of immediate attention. The regular appropriation for highway maintenance is nearly exhausted.

A 60-year-old German, Konrad Kluebler of Munich, wrote 20,000 words on a postcard.

JUNE ROBLES UNABLE TO IDENTIFY SUSPECTS

Six Persons Shown to Her — Is Recovering Rapidly from Her Experiences.

Tucson, Arizona, May 18.—(AP)—Their star witness having failed to identify six possible suspects in her kidnaping, authorities sought more today for six-year-old June Robles to view.

June, recovering rapidly from the effect of her 19 days of imprisonment in a desert trench, viewed six of the numerous persons questioned yesterday, but she was unable to identify any of them as having connection with her abduction. No arrests were made nor was any suspect held.

INDUSTRIAL CONFERENCE TO BE HELD IN CHESTER

Howell Cheney Will Address Gathering on June 16 — Local Y. M. C. A. Cooperating.

The tenth annual Connecticut Industrial Conference, under the auspices of the state Y. M. C. A., Industrial Council, will be held this year on June 16 at Camp Hazen, Cedar Lake, Chester. The conference is held in cooperation with the local Y. M. C. A.'s and the industries of Connecticut.

Howell Cheney of Cheney Brothers will be the principal speaker at 1:45 in the afternoon of that day and a general discussion will follow. An effort is being made by General Secretary Thayer of the local "Y" to have the different manufacturers in Manchester send delegates to the conference, as many of the manufacturers of the state will be represented.

BRIDGEPORT DIVORCES

Bridgeport, May 18.—(AP)—Florence V. Savage, assistant tax collector in Stamford, was granted a divorce today, custody of a 9-year-old son and alimony and support of \$45 weekly in her action of desertion against Paul A. Savage, a civil engineer, also of Stamford. Mary Turgeon Miller of Stamford was given a divorce from Byron Wade Miller of New York. Desertion was charged.

Rose Velle Adele Soloway Peter, of West avenue, Darien, was given a divorce and custody of a minor son in her suit against Fritz Max Peter, also of Darien, who is alleged to have beaten her.

Y. M. C. A. Notes

At the annual meeting of the Hartford County "Y," nine members of the Manchester Y. M. C. A. were presented with a certificate for service rendered this past year. Those honored were: one year service, Frank Vittner, Dr. C. Y. Hauch, Charial Nowick, Andrew Flecker, Dr. LeVerne Holmes, Roland Daigle; two years service, Jimmie Spillane; three years service, David Hamilton and Edward Wilson.

The volunteer service in the Young Men's Christian Association plays a very important part in the "Y" program. These young men direct group activities, coach, teach and conduct numerous other activities which are in the interest of the Y membership.

President Wells A. Strickland of the Y. M. C. A. has announced the annual meeting of the "Y" for June 13. At that time various committee reports will be heard, as well as plans for next year. The meeting will be preceded by a supper under the direction of Mrs. James Shearer, chairman of the women's division. An interesting speaker is being secured and an effort made to have a large gathering of the membership for this meeting.

Soft Ball Team — Notice is being sent out to the members calling the first practice for May 25. Those interested in baseball are asked to look into it. Soft ball is gaining in popularity throughout the country among adults. Last January the first soft ball convention was held. The ball is somewhat larger in circumference than the regular baseball. The game requires just as much skill to play. The activity is in charge of C. P. Thayer.

Boys Camp — Boys interested in hiking and overnight camping are asked to get in touch with Mr. Hamilton. Every Saturday a group of boys will be taken to Camp Wells, six miles from Manchester. Under the supervision of Mr. Hamilton, a suitable camp is now under construction. The boys will return home Saturday evening. If you want to go camping, see Dave.

Y Track Team — The Manchester Y. M. C. A. will again send a strong track team to compete in the Hartford County "Y" outdoor track meet to be held in New Britain, Saturday, May 19. Frank Vittner, manager of the team, has sent in a large entry list. Last year Manchester won 17 places and with a strong aggregation this year, should make a much better showing. Among those who will compete are Frank Vittner, Charles Nowick, George Baske, William Archive and many others.

Track has been somewhat handicapped owing to inadequate facilities but upon the completion of the new "Y" track, the sport will take on new life. It is hoped that the track will be finished early this summer. There will be when completed a six lap cinder track, with a

100 yard straightaway. There will be vaulting, high jump and broad jump pits, as well as other track facilities.

New Hobbies Court — The Y. M. C. A. is to have two new horseshoe pitching courts, ready for use next week. These courts are open for use to any one interested in the sport. C. P. Thayer, secretary of the Y. M. C. A. is in charge of the courts. Match games with other teams will be made as soon as interest develops.

MAY HOLD CONCERTS IN WEST ON THIS YEAR

Weston, Conn., May 18.—(AP)—The symphony concerts which last summer shared Nikolai Sokoloff's back pasture with the whip-poor-wills and katydids may be repeated this summer after all.

A week ago, Sokoloff, conductor of the concerts and president of the sponsoring association, announced that advance subscriptions were \$30,000 short of the amount needed, and that since the concerts lost \$4,500, the association felt it could not proceed this year.

Now a committee, headed by John Orr Young of Weston and Robert T. Baldwin of Weston has been formed to underwrite the season of 12 concerts planned. Members of the New York orchestra, which plays the series, have agreed to postpone making summer plans until May 25, when the committee will have reported.

The 12 concerts, two a week, would begin July 6.

ANTMAN AS DIRECTOR OF INDEPENDENT PARTY

Hartford, May 18.—(AP)—Harry O. Antman of New Milford will be chairman of the tentative state committee of the Independent Citizens' Party, Albert Levitt, its organizer announced today from Washington. The membership of the state committee is not completed, Mr. Levitt said.

However, the temporary executive committee has been formed. The members are W. E. Hogan, Bridgeport; Joseph N. Nygren, Naugatuck; Walter R. Lord, East Haven; James L. McGuire, Hartford; Helen Antman, New Milford; N. Nichols Danz, New London; Ellen Jewett, Hampton; Elsie M. Hill, Redding. G. H. Robertson of Coventry has been invited to serve on this committee also; but he has not yet accepted.

Mr. Jewett, one of the leaders in the Independent Republican Party, is still active in that party despite the fact that Mr. Levitt is no longer actively connected with it. Mr. Jewett is a member of the committee arranging for a convention of the Independent Republican Party which they become affiliated with the new National Commonwealth Party.

Recreation Center Items of Interest

Don't forget the hamburger stand that will be for all women members of the Recreation Centers Monday night, May 21. All those intending to go are urged to sign up at the Rec office not later than Monday noon. We will leave the Rec at 7 p. m. Let's go!

We are now forming classes for women interested in learning how to play tennis. Call and get particulars.

Dancing in the gym tonight. Music will be furnished by Art McKay and his 10 piece band. Dancing from 8:30 to 12:30.

The women's plunge period will be from 7 to 9 o'clock.

Anyone interested in ordering pictures of the girls' dancing recital may see the pictures by calling at the Rec at any time.

SHOE REBUILDERS PLAN MEETING IN NEW HAVEN

Dinner at Reno Inn Will Be Followed by Discussion of Code Details.

The state meeting and installation of officers of the Connecticut Shoe Rebuilders Association will be held at Reno Inn, North Haven, on Sunday evening. There will be a dinner and arrangements are being made by the local shoe rebuilders to attend. They are to leave by automobile for the Center Sunday afternoon at 3 o'clock. In addition to the installation and the dinner there will be a general discussion relating to the shoe rebuilders' code.

KINGFISH IMPROVES

Chicago, May 18.—(AP)—Mr. Kingfish Levinsky, the celebrated patient who fears no man, must remain in his hospital bed until Monday, Dr. W. Morley Sherin, his physician, said today in announcing his patient was showing steady improvement.

The Kingfish is in a highly nervous mental condition, but organically sound, according to Dr. Frank Lagorio, who examined him yesterday at the request of the Illinois State Athletic Commission.

No closely related fossil ancestor of the zebu, or Indian ox, has ever been found.

AWAIT FIRST MOVES IN PAYMENT OF DEBT

European Nations Watch One Another as Date Nears for Settlements.

Washington, May 18.—(AP)—The United States and the nations that owe \$175,000,000 in war debts on June 15 apparently are playing a waiting game—each waiting for the other fellow to make the first move.

Whether Great Britain has taken that step remained undisclosed today amid speculation resulting from a visit to the President yesterday by Sir Ronald Lindsay, the British ambassador.

President Roosevelt has made known that this country expects payment in full on the due date—less than a month off now—but he stressed that the door was open to proposals from nations which felt they could not raise the entire amount.

On the other hand, the European nations, which have insisted for years that the amount of war debts paid depended on reparations obtained from Germany, appear to be waiting for the United States to make a definite offer scaling down the amount.

There has been a 15-year controversy over final settlement of \$12,000,000,000 borrowed during the World War.

Discussions with the President and State Department officials by the British ambassador, the special Belgian Mission and other European diplomats within recent days are considered generally to have made attempts to discover the real position of this country on the long disputed question.

PUBLIC RECORDS

Marriage Intention — William B. Hill and Della Allen, both of Bolton, applied for a marriage license yesterday afternoon in the town clerk's office.

French, Spanish and Catalanian is spoken by the people of Andorra in the Pyrenees; when they are greeted in one language they usually reply in either of the other two.

AMUSEMENTS

"DOC" PEYTON AT SANDY BEACH

Adding another nationally known figure to the group of famous artists already presented at Sandy Beach, the management has secured a sensational attraction in "Doc" Peyton and his famous Victor Recording orchestra, who will appear in the ballroom and play for dancing on Sunday evening, May 20.

Wherever radio, phonograph recordings and talks are to be heard "Doc" Peyton is a familiar name. All over the country the music of "Doc" Peyton and his orchestra has been the constant delight to thousands of people. They have played three seasons at the Kenmore Hotel, Albany, N. Y., broadcasting over the powerful WGY station. Was also one season at the Syracuse Hotel in Syracuse; two seasons at Emma Jettick Park at Auburn, N. Y., and four seasons at the Pier, Geneva, Ohio; four weeks at the famous Gibson Hotel, Cincinnati, and has just closed a wonderful season at the Livery Hotel at St. Paul, where he broadcast over station WCCO of the Columbia network. He has played several one-night ballrooms throughout New England and has proven to be one of the best and most consistent drawing cards of any band that ever toured one-night ballrooms in New England.

With his celebrated orchestra of twelve musicians, featuring the charming voice of that lovely little lady, Kathleen Lane, "Doc" Peyton

Keep Watch for the "Feverish Cold"

If you are "run down" or out of condition, if sluggish bowels have allowed poisonous impurities to accumulate in your system, you are very liable to suffer from "feverish" colds.

Dr. True's Elixir Laxative Worm Expeller

will ward off or lessen these attacks by giving relief from constipation. Mrs. E. W. Stephan of 31 Kennerly Road, Dorchester, Mass., writes:—"It was recommended to me by a relative who had used it for years, and I in turn most sincerely recommend it, most of all for children, but also as a laxative for adults."

Successfully used for 81 years.

BOSTON BAND AT SANDY BEACH

The 1934 season at Sandy Beach, Crystal Lake, opened last Saturday with a large number of gay dances in attendance. Dan Murphy and his Musical Skippers furnished a variety of rhythms and a number of entertainment novelties, and scored a big hit with the platform. They will return to Sand's in the near future.

This week Saturday, Herb Whitney and his orchestra, another one of Boston's favorite dance bands, will come to Sand's. For the past four summers, Herb Whitney and his orchestra have been playing at the Lakeview ballroom in Wrentham, Mass. They have had extended engagements in several of the leading restaurants and hotels in Boston and are heard frequently over the Boston radio stations.

The following Saturday Vic Vass and his Variety Band will come to Sand's.

Charles Farrar Browne was the real name of "Artemus Ward," the famous author.

LIQUOR LAW SHOWN UP

The decision of the Constitutional Court called to determine the validity of the druggists and package store permit provisions of the Connecticut Liquor Control Act, which supports the legality of the alleged "discrimination" in favor of the druggists concerning hours of sale and other matters, contains one line of reasoning which seems to us to be a complete indictment of the Control Act; not with relation to its constitutionality but to its wisdom, which is something with which the Constitutional court, of course, had no concern.

Pointing out justifications for making separate rules for pharmacists and for package stores, the court says:

Pharmacists . . . must file certificates of fitness from the Pharmacy Commission before permits may issue. This signifies that such permits can be issued only to persons of considerable educational attainment and intelligence with a correspondingly high judgment and sense of responsibility. The case does not necessarily apply to a package store permit.

It is beside our point that there is force to this distinction between the probable quality of the druggist and that of the package store keeper. The indictment of the law lies in the fact that the court was compelled to assume that these two classes of permittees are of entirely different character. It is the Control Act that is responsible for any such difference.

This newspaper has all along maintained that the Liquor Control Act never, at any point in its text or in the history of its development, made the slightest effort to provide the people of this state with a liquor traffic respectable in personnel and methods alike; that on the contrary the law was framed with what seemed like a conscious determination to degrade the business and keep out of it the very class of persons best qualified to conduct it in an orderly and civilized manner.

If our state law had been framed with any really high purpose in view it would not have been necessary or even possible for a federal court to hang a constitutional decision on the essential difference in education, character and responsibility between a pharmacist and a liquor seller.

It is certainly at least as vital to any proper system of liquor dispensing that the dispenser be a person of character, intelligence and responsibility as that the dispenser of drugs shall be such a person. He need not, perhaps, be a person of an equal amount of technical training, but that he should be the equal of the druggist in every other way is perfectly obvious.

It is deeply regrettable that Connecticut muffed the finest opportunity it will ever have of establishing its new legal liquor traffic on such a basis of decency and responsibility—it could have been done so easily at the termination of federal prohibition. Instead, the serious, orderly elements in the community, through sheer intellectual and moral laziness, permitted the liquor problem to be handled as a political football—with the result that we have a wretched, half baked and degrading system which is good for nobody and utterly unworthy of our civilization.

HANDICAPPED

A proposal made at the semi-annual meeting of the Eastern Conference of Motor Vehicle Administrators at New York today by G. D. Newton, supervisor of the news bureau of the Travelers Insurance Company, is one which newspapers will find some little difficulty in supporting with all the enthusiasm they may feel for it—for the singular reason that they would become

direct beneficiaries of it. At the same time they will feel that here is a project for which, from its very great value in the saving of human life, they should boost without limit. It is a rather embarrassing situation.

Mr. Newton's proposal is that the state authorize their motor vehicle departments to expend, in a great safety advertising campaign throughout the country, one cent out of each dollar of registration and license fees and gasoline taxes. The extreme gravity of the automobile casualty situation—which is growing worse so rapidly that it is now estimated that 30,000 people will be killed in this country this year—certainly demands extraordinary measures. The experience of the entire business world is that there is no medium to compare with the daily press in the promotion of any idea of whatever magnitude. Mr. Newton's proposal is made in recognition of a fact.

Its adoption, however, is one for which the newspapers cannot conduct a very vigorous campaign, for obvious reasons. It may be said, however, without apology, that if there is any better way to expend one per cent of the direct and indirect taxes paid by motorists than in the saving of an incalculable but very large number of human lives we don't know what it is.

NO ARMS TO CHACO

For almost two years, with the exception of a truce lasting a number of weeks and terminating early this spring, Bolivia and Paraguay have been engaged in bloody and desperate warfare over possession of a vast area of ground that is of next to no value, in itself, to either of them. And before the present highly destructive phase of the conflict they were engaged in desultory but frequent fighting, beginning back in 1928, over the same question.

The aggressor is Bolivia, which country for years has been seeking to establish itself far within the recognized boundaries of Paraguay; not for the value of the territory itself but with the very clear out purpose of gaining an outlet to the Atlantic ocean by the establishment of one or more ports on the Paraguay river, which, with the Parana, constitutes a steamship highway to Europe and the rest of the world.

Bolivia has a wealth of minerals and there are numerous foreign corporations and individuals interested in their exploitation. It has always been strongly suspected that it is they, rather than the Bolivians themselves, who have egged on the aggressions.

Now, when all other means of ending this terribly fatal war appear to have failed, Great Britain is calling on all munitions making nations to join in refusal to supply the belligerents with any more of the materials of war. With the greatest promptness half a dozen of these nations have expressed their willingness to adopt the proposed embargo. A majority of them, including the United States, have not.

Whether the former includes only those countries that have not numbered either Paraguay or Bolivia among their munitions customers, and the latter only those who have is not a matter of general knowledge. Nor is a matter of general knowledge whether pledges against arms shipments will prove entirely bindings even after they are given. Perhaps this sudden outburst of European humanitarianism is attributable to the possibility that the United States may be doing most of the business in munitions down there—or at least that it is not being done by Britain, France, Italy, Spain, Czechoslovakia or any of the other present signatories to the agreement.

But in any event it is to be hoped that Congress will respond by speedily passing the arms embargo bill and that President Roosevelt will immediately thereafter decree the suspension of all munitions shipments, directly or indirectly, to our warring South American neighbors.

If we cannot get out of our depression without depending on such a shty business as supplying those two little nations with the means of destroying themselves and each other, then we would do better to go naked and hungry till the end of time.

LEGISLATIVE STRAINERS

One thing that most Legislatures lack is a sort of strainer or sorting apparatus at the very mouth of the hopper—some official or committee to whom all individual members' bill should go first, with a view to keeping an immense volume of rubbish from ever getting as far as the speaker's desk. Such official or committee ought not, of course, to have the power to block and proposed legislation, but it

might at least point out to its introducer or author such faults or errors as it may contain which call for its changing or its entire elimination.

Governor Lehman of New York was called on this week to veto a bill which had passed both houses of the New York Legislature and which provided that all school teachers be required to take an oath to support the Constitution of the United States and that of the state of New York. The state already had an iron clad law requiring such an oath from every official and civic employe, including school teachers.

Legislators are forever introducing bills which are mere duplicates of existing laws and a lot of time of members and committees is consumed in sweeping such litter off the legislative dockets. Sometimes, as in this case, they get through.

BLUSHING GHOST

At last the world no longer owes Stephen Collins Foster anything. The long outstanding obligation of this nation to its greatest minstrel, whom it permitted to live in poverty and die in wretched loneliness, has been magnificently discharged. The shade of Stephen Foster must be smiling, overwhelmed by embarrassment delight. Henry Ford has bought Foster's birthplace. To what higher posthumous honor could any shade aspire?

BEHIND THE SCENES IN Washington

Another Hoover Roosevelt Scandal Brews . . . Leavelets Want to See Beamed Sailor Picture . . . Tugwell "Out in Open" . . . Garner Still Texas Boss . . . More Exposures Coming in Utilities Field . . . New Rail Pay Fight Looms.

By RODNEY DUTCHER
 Manchester Herald's Washington Correspondent

Washington, May 18.—Steel yourself for one or two more scandals from the Hoover administration.

One due to pop soon involves contracts for certain materials used in the big Federal building program which began a few years ago. There may or may not be a congressional investigation, but those who have seen documents which will be disclosed say they call for a large amount of explaining.

Collusion between government officials and corporation officials was so thick you could walk on it. Among names to be mentioned will be those of an especially prominent Republican ex-Senator and his brother. Others are a Cabinet member, the lobbying son of a famous Senate leader, and a former House committee chairman, now occupying an important Federal post.

Investigation of the investigation to date happens not to have been political. Neither was that of a current Department of Justice inquiry into the affairs of an investment company controlled by three former officials.

F. E. Would Speak a Look President Roosevelt, an old navy man himself, and Mrs. Roosevelt were anxious to see the CWA art project picture which the navy supported. ("The Fleet's In," by Paul Cadmus. It showed sailors on leave roistering with some girls, described by Admiral Rodman, who demanded suppression, as "street walkers.")

Cousin Henry L. Roosevelt, assistant secretary of the navy, had taken the picture home, implying that he would destroy it. The White House Roosevelt asked him to bring it around for a private showing.

Cousin Henry replied that he couldn't sneak it into the White House without reporters finding out. But he probably will. Anyway, the picture still exists.

Tugwell Shows Himself Rexford G. Tugwell, assistant secretary of agriculture, branded by anti-New Deal propagandists as the Brain Trust's "archplotter," decided to answer back and show himself to the country. No announcement is being made, but he suddenly accepted seven invitations to speak in a single month.

His debut was before the American Society of Newspaper Editors, with engagements following at Dartmouth College, Buffalo, Cleveland, Oberlin, O., Kansas City, and a place still unnamed.

His audiences include groups of college students, bankers, and social workers. Handsome Rex makes a good speech and a good impression.

Garner Still Boss The patronage boss of Texas is still Vice President Jack Garner. Some Texas Congressmen made a fuss about that a few weeks ago and it was denied that he had anything to do with handing out Federal jobs in his home state.

Nevertheless, Jack—who works well with leaders in the Texas delegation—is in full control. Famous Fresh Scandals

With unflinching regularity, the Federal Trade Commission keeps right on dragging out new scandals in the public utilities investigation. (The investigation began years and years ago.)

IN NEW YORK

By PAUL HARRISON
 New York, May 18.—There are ship-new and water-front reporters, and there are columnists whose business is to seek out and chronicle Gotham's colorful and little known spots. But none of us has gone literally "all around the town" in the way that Helen Worden has done.

She is a prominent newspaperwoman with an insatiable curiosity about the big town. When she finds out enough interesting things she packs them into a book. This time the book is called "Round Manhattan's Rim" (Robbs Merrill).

Miss Worden started her 33-mile tour on South street, on the east side of lower Manhattan, where stand houses which are relics of clipper-ship days, and where sailors from every port in the world are to be seen. She visited quaint shops where ships' supplies are sold, and saw the prominent newspaperwoman with an insatiable curiosity about the big town.

At Corlear's Hook Park (Miss Worden is still going north) are delightful old houses occupied by famous families of wind-jammer times. Next comes a drab section of coal yards, power plants and abandoned piers. The pier building at the foot of East Twenty-fifth street is the largest beam in the world—a municipal lodging house where 4500 men and women are sheltered each night. Gigantic Bellevue hospital flanks the East River, and next to it are dreary tenements, slaughter houses, and finally fashionable

apartments looking over the river toward Welfare Island.

Booker's Place is quaint, but one of the most curious sections of New York. From there on for many blocks are the residences of famous people—Whitneys and Marshalls, Rhinelanders, Stewarts and Bradford Normans. The old Grace mansion in Carl Schurz park now is owned by the Museum of the City of New York.

Suddenly, though, the tone of the waterfront falls away into the booming Harlem market, and later into rag yards and the largest rag market in the world. Blocks of the city's thousands of junk men. There used to be fine mansions and famed inns along the Harlem river. Now the historic spots are marked by huge gas tanks, squatters' shacks and coal yards.

Around the upper tip of Manhattan, where Spuyten Duyvil and a ship can connect the Harlem and Hudson Rivers, are houseboat colonies and boating clubs, and placid waterfront parks. Columbia University carmen row on the Harlem, and have their crew house near the end of the canal. Around on the Hudson side is Inwood Park, and it is there, incidentally, that Inwood pottery is made. Southward there is a shipyard, and Washington Heights and another park donated by John D. Rockefeller, Jr. Scattered along the Hudson's edge, below Riverside Drive, are some 50 boat clubs, each with its own building, and under the gigantic George Washington Bridge is picturesque Jeffrey's Hook Light-house, marking the swiftest waters in the river.

It is in this stretch of the river that our naval vessels anchor in imposing array, and sharply in contrast are three real schooners—one of them Count von Luckner's Mopelia—moored to docks. Nearby is a large squatter settlement, relic of the bonus army, hanging on the rocky bank of the Hudson. South of Grant's Tomb and the Columbia Yacht Club, the shore is lined with piers of the great shipping lines, and they continue in unbroken sequence all down the island to Battery Park, at the southern tip. Which is where the tour started.

and employed railroaders, displaying remarkable solidarity, displaying great sacrifices in dividing their working time with others.

They're paid by the mile and firemen, for instance, who once averaged 48000 miles a month are now down to 400 or 3800. Thus actual income in most cases been cut 40 or 50 per cent.

Railroads, hard hit, have used every possible labor-saving device. Younger men are laid off first, with the result that many old railroaders are supporting sons and sons-in-law who anticipated railroadings as a livelihood. (The broods of engineers and conductors, highly paid, were the two which refused to share work.)

Health and Diet Advice

By Dr. Frank McCoy

DEFECTIVE HEARING

Have you sometimes noted a feeling of pressure or fullness in the ears that could be relieved by swallowing? You may notice this queer feeling in the ears when going up or down too fast in an elevator and sometimes it comes while swimming or diving. The cause of it is that the air in the ears is not properly balanced with the outside air. The swallowing causes a reflex action which sends the air into the ears through the eustachian tubes and the proper relationship between the outside air and the air inside the ear is again restored and you lose the stuffed up sensation.

It may surprise you to know that your middle ear needs air in order to equalize the pressure on the eardrum. The air travels through the eustachian tubes and, if they become clogged up, this not only interferes with the free aeration, but with hearing. If the tubes remain clogged, a number of changes occur in the middle ear which lead in time to what we call catarrhal deafness.

The ordinary case of inflammation of the middle ear without the formation of pus can be traced to a stopping up of the air passages through the eustachian tubes by catarrhal inflammation. The result of the inflammation is that the patient grows steadily and slowly poorer of hearing. A catarrh of the throat may affect the ears by extending along these tubes which are lined with continuation of the same membrane lining the throat and nose.

Those having catarrh of the nose and throat are in danger of developing catarrhal deafness. Many of you who are reading this article now have catarrh. Perhaps, when clearing the throat of thick mucous in the morning, you decide that some day you will do something to get rid of this annoying condition. But you do not worry much about it as you have found out that almost everyone has more or less catarrh. It is very easy to delay the treatment of catarrh even if it is bothering you, but ten years later a certain proportion of those troubled in this way will be found to have defective hearing due to catarrhal deafness.

When a catarrhal state of the nose and throat is the real cause of deafness, the cure is certain as soon as the catarrh is cured. I have examined many thousands of cases of deafness and I believe that fully 99 percent of them originated with chronic catarrh, but there are some other causes. Defective hearing may be due to a plug of hardened ear wax, to an accident or infection which has ruptured the eardrum, to

long-continued noise, Meniere's Disease or high living.

Some of the usual symptoms which precede deafness in addition to the lessened ability to hear sounds are: Ringing in the ears, feeling of fullness in the ears, dizziness, pain or discharge of pus from the ears. However, in many cases no symptoms whatever appear except a gradual loss of hearing. Sometimes this loss of hearing is so gradual that it is not noticed until it has progressed to such an extent that it is difficult to catch ordinary conversation. It has been my experience that most cases of deafness can be improved by dieting unless there is some mechanical defect of the ear or a destruction of the auditory nerve.

If you wish to secure an article on defective hearing together with a diet to follow, I will be pleased to send you this information if you will write to me, enclosing one large, self-addressed, envelope and two loose three-cent stamps.

QUESTIONS AND ANSWERS

(Use White Bread for Melba Toast)

Question: Mrs. V. H. writes: "Why is it that you cannot use wholewheat bread in making Melba Toast, leaving the crust on the slices as they are toasted?"

Answer: It is all right to use the average wholewheat bread which is made partly of white flour in making toast, however, if you use the one hundred percent wholewheat bread and toast it thoroughly, you will find that it develops a somewhat bitter taste, because of the protein and the bran elements. Wholewheat bread only partially toasted makes an excellent food, if you are in good health and are able to use the starch which it contains. However, it cannot be considered Melba Toast as Melba Toast refers to white bread which has been thoroughly browned all the way through.

(Enclose Name and Address)

Question: From Jean: "I wrote you a letter some time ago and you have not answered it so I believe as it was poorly written you considered it only a letter from another crank. Will you please answer this letter?"

Answer: Yes, I remember having received your previous letter; however, you did not enclose your name and address and inasmuch as your question is not one which could be discussed in a newspaper, there is no way in which I could answer you. I note that your second letter does not give me your full name and it is impossible for me to reach you in any way. I try to give each letter sent to me my careful consideration.

(Temporary Constipation Remedies)

Question: Joe M.: "What is your opinion of such preparations as psyllium seed, agar agar, and senna leaves for overcoming constipation?"

Answer: I very often recommend these remedies; however, they should be considered as a means of temporary relief to be used during the time that the intestines are being re-trained to do their work in a natural way. They cannot be considered a permanent cure. The purpose of the psyllium seed and also of the agar agar is to fill the intestine with a bland bulk which is not irritating.

PRINCIPAL RESIGNS

Killingly, May 18.—(AP)—Ernest P. Warren, principal of the Killingly High school, has resigned, effective at the end of the school year. He will be succeeded by Robert J. Jones, vice principal of the Bradford High school.

It's true!
 Your old range is worth
\$15.00
 in trade for a new
Detroit Star

Believe it or not, your old worn out coal or gas range is worth \$15.00 this week in trade for one of the shiny new Detroit Star Ranges! You'll like the Detroit insulated ovens; oven heat controls and dozen and one other features. See the complete display tomorrow.

(Above) Detroit Star with "Measured Time" to remind you when it's time to take out the roast! Roll-drop broiler you never have to touch when hot. Regular \$104.50, less \$15.00 allowance... **\$89.50**

(Above) The finest Detroit Star of all, fitted with electric timer-clock that tells you when things are cooked. The chromium lamp illuminates entire top of stove. Regular \$129.50, less \$15.00 allowance... **\$114.50**

Other Detroit Star Ranges as low as \$39.50

MAPLE . . .
 a breakfast suite
 with extension table

\$29.75

Seats four or six when used as shown . . . and then extends with extra leaf to accommodate two more! Rich deep Pilgrim maple with four braced-back Windsor chairs. Similar to sketch.

POINTS TO NRA PHASE OF PEDDLER QUESTION

Forum Writer Sees Outside Hucksters As in Same Class With Sweatshop Competition

Editor of the Herald:

May I take space in your valued paper to commend the sentiments expressed in your editorial of last night, and the letter of the Manchester Chamber of Commerce, both of which pointed out the foolishness of voting to reduce the present license fee for out of town peddlers, at tonight's town meeting.

I think the points mentioned in both articles are well taken. In balancing the arguments pro and con the balance is heavily in favor of retaining the present law.

The peddlers of Manchester should consider the fact that these itinerant peddlers are not interested in Manchester, except to get money out of it.

They are reactionary and would stop every auto, close every filling station and force everyone to make long, sour faces on Sundays while listening to their roarings, which they call religion.

Further, on the matter of prices, the N.R.A. now provides for a set scale of prices in the retail field. An established business advertises and stands back of its prices as advertised, and those who do not conform to the regulations of the N.R.A. are out-of-town peddlers, on the other hand, not responsible to any code, moves around from place to place, evading any regulation or check-up, and is making not only his taxes but the obligations of the New Deal.

The sole argument of the Hartford hucksters appears to be that other towns in the neighborhood have lower license fees. If that is the case, then certainly there is a wide enough field in which they can work, without coming into Manchester.

Another Taxpayer.

STRANGE UNIONISM

Editor of the Herald: One of the effects of our economic lack of system is to discourage the most battered strata of citizenry from using the democratic right of free speech.

It is a little difficult to understand how the officers of a labor union should want to countenance cut-rate competition. It is just such a condition which has reduced workingmen generally to a state of beggary.

AS TO TAVERN

Editor of the Herald:

The historical treasures chest I have a copy of the case about the sea captain who had been away from home for two years, sailing the seven seas.

That fanatical and puritanical spirit which is showing signs of growing pains, for a group of fanatics will expose their withered souls tonight at the town meeting regarding our local taverns.

Look at them and see how they are split into many sects. They cannot agree among themselves, excepting when the spirit of intolerance dictates coercion of others.

Every true American should attend the town meeting tonight and oppose these Puritans who are three centuries behind the times.

C. O.'S POSITION

Editor of the Herald: There having appeared articles in the Manchester Evening Herald recently, setting forth the opinion of the Chamber of Commerce regarding "public opinion shaping" organization, it seems proper that some explanation be given to the citizens of this community as to the reason for the Chamber of Commerce attitude relative to this subject of licensing non-resident vendors.

The Chamber of Commerce of Manchester has never, during the writer's term of office, been so foolish as to think it practical to license a peddler.

We have considered this matter of taxing the non-resident vendor, or in other words the transient peddler, from the angle of the angle whereby he would pay his reasonable share of the cost of government.

MISSIONARY PAGEANT TO BE GIVEN MAY 25

21 Children at Emanuel Lutheran Church Will Stage "The Little Lights."

"Christ in America," a missionary pageant, will be presented Friday evening, May 25, at Emanuel Lutheran church, under auspices of the Ladies' Missionary society.

HARRIMAN LINKED WITH FALSE ENTRY

Bank's Cashier Tells How Fake Sales Were Placed in Firm's Books.

By GEORGE ARLISS

The interesting method of communication playing an important part in "The House of Rothschild," which by the way is my birthday contribution to 20th Century Pictures; it's their first anniversary.

Colombo testified that Albert M. Austin, executive vice president who is co-defendant with Harriman, came to him on April 26, 1932, and told him:

"Harriman made some stock sales and asked me to see that the proper entries are made."

The witness said the conversation referred to alleged spurious sales of the bank's stock totaling \$1,998,080 which were charged on the books that day against 11 depositors.

On April 28, he said, the debts were cancelled by credits, making the books show reversed sales.

Colombo said bank examiners asked for the tickets on the entries and they could not be found. There was a conference then, he said, among himself, Austin, William A. Burke, controller of the bank and manager of the securities corporation.

He said the amount involved led him to say at the conference that he remembered preparing the tickets. It was decided, he said, to consult the bank's attorney, Bertram L. Krause.

Krause, he said, advised duplicate tickets. Colombo prepared them. Harriman was called to the attorney's office to sign the tickets.

As he signed them, Colombo related, the meeting was being held at 7:30 o'clock sharp.

Following the regular meeting the rehearsal will be held. It is planned to put this degree on in full form and it will be the first time in years that it has been attempted.

It is expected that the Memorial services will be held in connection with the Sunset Rebekah and Shepherds' Benevolent Society, Sunday, June 11, at which time all local Odd Fellows and associate lodges will attend at the request of Rev. Watson Woodruff.

ARLISS HERALD STAFF WRITER

This levy of featured performers unconsciously placed the work of Arliss in the hands of the "House of Rothschild," new Century Production starring George Arliss, President of the United States, in the story of the rise and fall of the Rothschild family.

Interesting episode in book by George Fox Colin, gave Arliss this slant on the old-time signaling which plays an important part in "House of Rothschild."

With the use of dioptric instruments, older Greek's read messages in code from the similar alphabet boards displayed at great distances. Colin's "The Story of Communication" abounds in authentic and interesting points like this.

SIGNALLING METHODS REVEALED BY ARLISS

LONG LANE FARM

Visitors Are Impressed By Fine Work Accomplished at Middletown Institution.

Judges, deputy judges and officials of town courts throughout the state, numbering more than 100, were undoubtedly surprised and un-

mistakably impressed by the uplifting environment and effective methods used to regenerate wayward girls at the Long Lane Farm in Middletown during an inspection of that institution yesterday.

Supervising Caroline deF Pennington acted as hostess and, after supervising the serving of a delicious luncheon, saw to it that officials of Long Lane Farm conducted the visitors through the buildings and about the spacious premises.

The idea behind the inspection was to give the court officials a glimpse of living conditions at the Farm and provide training designed to give girls sentenced there for being in danger of falling into habits of vice, a new perspective of life.

Supervising Pennington at the close of the luncheon presented a brief resume of the work at the institution and the results that had been accomplished.

Long Lane Farm, which is located just outside the city limits of Middletown, was established by altruists, thinking people shortly after the Civil War. At present there are about 210 girls there and more than 800 out on parole.

Every facility for right living is available at the Farm. There is a well appointed school, an infirmary with modern improvements, a spacious building housing a herd of dairy cows and a group of dwellings where the girls live.

Athletics are encouraged and a splendidly equipped gymnasium is used to build up the girls physically and give them a place where they might engage in games of basketball, volleyball and tennis.

Following the inspection yesterday the girls staged a basketball game. The enthusiasm which they displayed, an evidence of good sportsmanship which characterized the match, made a deep impression on the visitors. They realized that play as well as work had rejuvenated the girls physically and morally.

There were cheer leaders and cheering sections and Yale never played Harvard before a more excited, happy throng of onlookers.

The girls cultivate flower and vegetable gardens and seem to take pride in seeing that the plots are kept free of weeds and are made to develop into areas of beauty and productivity.

The dairy farm is as clean as a hospital kitchen, girls assisting in doing the chores.

Each house has a "mother," a cook and assistants and is occupied by 35 girls. Cleaning, laundry work, dish washing and other jobs in the houses are done by the girls.

Another pleasing surprise given the court officials was the concert given by the Girls' Chorus. These girls revealed that they possess well trained voices and the numbers they sang made a decided "hit" with the visitors.

Directors of Long Lane Farm are as follows: Mrs. Laura Mosely, Meriden; George A. Craig, Middletown; William W. Wilcox, Middletown; E. Harshy, New Haven; Walter H. Clark, Hartford; Walter G. Cady, Middletown; Dr. James Murphy, Middletown; Rosemary O. Anderson, New London; Mary R. Downs, Danbury.

At the same time Pelley scouted reports a general transfer of employees from various departments was planned.

"Effective June 1," his statement said, "Mr. F. J. Wall, vice president in charge of traffic will transfer his headquarters to State Station, Boston, retaining an office in New Haven.

At the present time there are approximately 100 officers and employees in the traffic department at New Haven. The transfer to Boston will involve only between 25 and 30 persons."

The idea behind the inspection was to give the court officials a glimpse of living conditions at the Farm and provide training designed to give girls sentenced there for being in danger of falling into habits of vice, a new perspective of life.

Supervising Pennington at the close of the luncheon presented a brief resume of the work at the institution and the results that had been accomplished.

Long Lane Farm, which is located just outside the city limits of Middletown, was established by altruists, thinking people shortly after the Civil War. At present there are about 210 girls there and more than 800 out on parole.

Every facility for right living is available at the Farm. There is a well appointed school, an infirmary with modern improvements, a spacious building housing a herd of dairy cows and a group of dwellings where the girls live.

Athletics are encouraged and a splendidly equipped gymnasium is used to build up the girls physically and give them a place where they might engage in games of basketball, volleyball and tennis.

Following the inspection yesterday the girls staged a basketball game. The enthusiasm which they displayed, an evidence of good sportsmanship which characterized the match, made a deep impression on the visitors. They realized that play as well as work had rejuvenated the girls physically and morally.

There were cheer leaders and cheering sections and Yale never played Harvard before a more excited, happy throng of onlookers.

The girls cultivate flower and vegetable gardens and seem to take pride in seeing that the plots are kept free of weeds and are made to develop into areas of beauty and productivity.

The dairy farm is as clean as a hospital kitchen, girls assisting in doing the chores.

Each house has a "mother," a cook and assistants and is occupied by 35 girls. Cleaning, laundry work, dish washing and other jobs in the houses are done by the girls.

Another pleasing surprise given the court officials was the concert given by the Girls' Chorus. These girls revealed that they possess well trained voices and the numbers they sang made a decided "hit" with the visitors.

Directors of Long Lane Farm are as follows: Mrs. Laura Mosely, Meriden; George A. Craig, Middletown; William W. Wilcox, Middletown; E. Harshy, New Haven; Walter H. Clark, Hartford; Walter G. Cady, Middletown; Dr. James Murphy, Middletown; Rosemary O. Anderson, New London; Mary R. Downs, Danbury.

At the same time Pelley scouted reports a general transfer of employees from various departments was planned.

"Effective June 1," his statement said, "Mr. F. J. Wall, vice president in charge of traffic will transfer his headquarters to State Station, Boston, retaining an office in New Haven.

OBITUARY

DEATHS

Mrs. Michael F. Dunn

Mrs. Mary Hayes Dunn, wife of Michael F. Dunn of 108 Ellsworth street, Hartford, died last night after a long illness.

Mrs. Dunn leaves besides her husband, three sons, Attorney Stephen Dunn of New Haven; Walter J. Dunn and Raymond F. Dunn, who are engaged in the real estate business in Hartford. She also leaves two daughters, Mrs. Thomas Mc-

Donough of New Britain and Miss Marion Dunn who lives at home, and three sisters and one brother, Mrs. Katherine Griffin and Mrs. Elizabeth Taylor of Hartford, Mrs. Daniel Altken and Archie Hayes of this town.

Mrs. Cora Oakes

Mrs. Cora Oakes, of 127 Birch street, died at 7:30 this morning following an illness of two weeks. She is survived by three sons, Frank, Oscar and Abram J. Oakes; two daughters, Frederick Barrett, of Hartford; Paul, William, Joseph and John Barrett, all of Manchester; a sister, Mrs. John Warden, of this town and her mother, Mrs. Mary Barrett, with whom she had made her home. Funeral arrangements are incomplete.

FUNERALS

Ronald Jarvi

The funeral of Ronald Jarvi, 20 months old, son of Mr. and Mrs. Archie Jarvi of 470 Adams street, who lost his life by drowning Wednesday morning, was held at the undertaking rooms of William P. Quish at 8:30 this morning. The burial was in St. James' cemetery.

LEFT LEG BROKEN AS CASKET FALLS

East Hartford Man Victim of Unusual Accident at Holoran's Funeral Home.

John Hull, an employee of the Hartford Burial Case company, sustained a broken leg at 12:45 today when a casket which he was unloading for delivery to Holoran's funeral home on Center street fell on top of him.

He was taken to the Memorial hospital by Mr. Holoran and is resting comfortably. Mr. Hull resides at 1128 Main street, East Hartford. Incidentally, he was the sixth person admitted to the hospital within the last few days with a broken leg.

NEW TYPE OF SUITS NOW AVAILABLE AT HOUSE'S

Among an extensive assortment of summer clothing, C. E. House & Son, Inc., are featuring men's suits known to the trade as "Choclo-Agora Twist." This new fabric is made by an exclusive method of interweaving angora and cotton. When it is finished it has all the handling qualities of worsted. It is also Sanitized, a new process that makes fabrics non-shrinkable and yet the cloth can be washed. Likewise, although washable, it does not have the appearance characteristic of wash suitings.

Mrs. William Risma of Talcottville was discharged yesterday.

A daughter was born today to Mr. and Mrs. Walter Hansen of 113 Pearl street.

Edward Fraser of 198 Eldridge street and Edward McCann of 144 High street were discharged today. John W. Hull of 1125 Main street, East Hartford, was admitted at 12:45 with a fractured leg.

ABOUT TOWN

No. 1 of the South Manchester fire department responded on a call for a chimney fire at Wetherell street, the home of John McCann. The fire was confined to the chimney and was extinguished without damage to the house.

Alabama Has Another Boy Ready for Majors

Los Angeles, May 18.—Another product of the University of Alabama appears ready for major league service.

J. Millard Campbell, a right-handed pitcher who seems to be on his way up, hails from the institution that turned out Joe Mauer and Luke Sewell, Riggs Stephenson, Minter Hayes, Andy Cohen and Ray Pepper, the recruit with the St. Louis Browns.

Campbell, who was given a brief trial by the Washington club a year ago, is becoming a star in the Pacific Coast League. He is the property of the Los Angeles club, which means that the Chicago Cubs have first call.

Campbell was brought west from the Albany International League outfit to fill the brogans left vacant by the graduation to the majors of Buck (The Great) Newson and Dick Ward. He won his first five games.

After pitching his alma mater to a Southern Conference championship, "Whitey" Campbell, now 25, continued to show great promise in 1933, when he broke into professional ball with Birmingham.

Campbell says he still has salary for a month and a half coming from the New Haven club, for which he toiled when the Eastern League blew up in July, 1932. He caught on with Reading, and was switched to Albany with the franchise.

Campbell has a fine curve ball and there is a hop on his fast one. Although he has thoroughly puzzled batters to date, he declares warm weather will make him more effective.

The young man's home is at Daytona Beach, Fla., and protests are expected from that town's Chamber of Commerce if he continues to win games and add to the honor and glory of Southern California.

"Of course, my goal is to land in the majors," says "Whitey."

J. Millard (Whitey) Campbell, a right-hander with the Los Angeles club of the Pacific Coast League, appears to be a major league prospect. The Chicago Cubs have first call.

HORSESHOE CLUB TO HOLD MEETING TONIGHT

Guido Giorgetti requests that all members of the Horseshoe Club meet at his home on Eldridge street tonight at 7 o'clock. The object of this meeting is to settle some financial matters that were left unfinished from last year.

Local Sport Chatter

The local State Trade School today came forward with a refutation of the charge that one of its players took a turn at bat after being replaced by a pinch hitter in the recent High School-Trade School fiasco that ended with the Mechanics on the long end of a 26 to 17 score.

The explanation indicates that the error was made through mistaken identification and this department extends its apologies to Coach Frank Crowley and the Trade School for rushing into print with a statement that the Traders were guilty of illegal or unsportsmanlike conduct.

Mr. Crowley says: "I realize very well what the scorekeepers were up against during that last Trade and High encounter and can see where a mistake could creep in. But why in your 'sport chatter' column put us in the light as not following or not knowing the rules of baseball or worse still, playing unsportsmanlike, especially so when there were no grounds for the accusation."

"We had two scorekeepers on the job and their account of that game jibed all the way through. I also checked on the players in question as to their part during the change and all the same version as the scorekeepers. During that game I would surely have noticed such a glaring error and want to emphatically deny any wrongdoing. Here is the correct story on the 8th inning as composed by Thomas Cnaia and Mitchell Babel, our official scorekeepers.

8th-Trade — Jarvis walked, stole second. Keith singled through third scoring Jarvis. Keith went to second on the throw in. Raguskus singled to right, went to second as Keith went to third on the throw in. Raguskus singled along the third base line, scoring Keith and Raguskus. Quartus went to second, Cooney, batting for Gill, fanned. Lashinski fanned. Quartus scored. Third, F. Smith walked. Karkevich hit to second, G. May made a poor hit to first and Karkevich advanced to second. F. Smith scored on a passed ball and Karkevich went to second on a wild pitch. Phelps, not Gill, singled, scoring Karkevich. Phelps going to second on a wild pitch. Jarvis singled with a line drive to left center, scoring Phelps. Keith walked, advancing Jarvis to second. Raguskus singled to left scoring Jarvis. Keith advanced to second. Quartus grounded out third to first. Eight runs, six hits.

When Harold Cude of the High School track team recently broke the school record in the 440 at the West Side field he also eclipsed the time for the local track, which leads to the interesting discovery that only three of the Red and White school records in track and field were established at the West Side. The other nine records were set on foreign fields.

Back in 1932, the late Domenico Squatrito, only a short while before his tragic death in an automobile crash, raced the 100 yards in 9.9 seconds at the West Side field. The same year, A. Olson hurled the javelin a distance of 156 feet, inches, these being the only other school records set at the West Side. Both are intact today.

Joe McCluskey, who has traveled a long, long way in the sports world since then, established two local records back in 1929 in the 880 and the mile. He stepped the former in 2:08.5 and the latter in 4:49.4. The school record for the 880 was set recently by George Leary at Kingstons, R. I., when he was clocked in 2:05.6. McCluskey holds the school record in the mile, having done 4:35 in 1929, which is better than the state record, which he also holds.

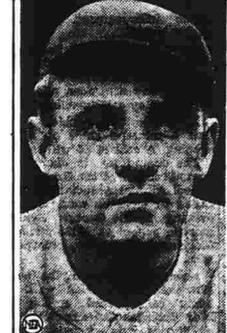

The other local track records are as follows: 220, Frans Wittmann, 1932, 23.1 seconds; pole vault, Robert McCormick, 1932, 10 feet, 9 inches; high jump, Robert Dexter, 1933, 5 feet, 7 inches; broad jump, Raymond Jewell, 1931, 21 feet, 3 inches; discus, William Johnson, 1929, 114 feet, 11 inches; 880 relay, (Fraser, Stoutner, Cude and Judd), 1933, 1:37.2.

The school records are as follows: 100 yard dash, D. Squatrito, 1932, 9.9 seconds; 220 yard dash, F. Wittmann, 1932, 23.2 seconds; 440 yard run, Harold Cude, 1934, 58.8 seconds; 880 yard run, George Leary, 1934, 2:05.6; mile, Joe McCluskey, 1929, 4:35; high jump, A. Patton, 1933, 5 feet, 8 1/2 inches; broad jump, R. Jewell, 1931, 21 feet, 11 1/2 inches; pole vault, R. McCormick, 1932, 12 feet, 2 inches; shot put, Domenico Squatrito, 1932, 47 feet, 8 inches; discus, William Johnson, 1929, 115 feet, 5 inches; javelin, A. Olson, 1933, 156 feet, 4 inches; 880 relay, C. Smyth, D. Robertson, R. Jewell and F. Wittmann, 1931, 1:36.4.

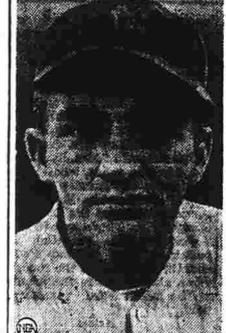

Manchester holds six of the fourteen C. C. L. records, Bristol being second with five. West Hartford has two and Middletown one. In all records are better than the League marks, the first being due to the fact that McCluskey established the League and school record at the same time in the mile. In the second, Bristol's time in the 880 relay eclipsed Manchester's, being 1:36.1. In the 880 yard run, R. Kerty of Middletown has a 2:05 performance to his credit, 6-10ths better than Leary's best.

The six League standards held by Manchester are: 230 yard dash—Wittmann, 1931, 23.5 seconds; 440

HERE ARE BASEBALL'S 1934 BABY STARS

George "Tut" Stainback earns himself a steady job in the Cubs' outfield in his first year of major league ball.

Don Heffner... Yanks' green second sacker, has been smiting the apple at a clip that assures him a steady job.

Harry Lavagetto... moved into second base for the Pirates and promises to stick there if he continues his present pace.

Stainback, Heffner And Lavagetto Head List; Red Sox Have Four Classy Rookies On Roster.

By JIMMY DONAHUE, NEA Service Sports Writer

On May 15, when the major league outfits pruned their staffs to the 25-player limit, accommodations on various railroads were filled to capacity with raw rookies on their way back to the bushes.

CATHOLICS AFTER 3RD STRAIGHT WIN

Tomorrow afternoon at the West Side field the Catholic Club will face the Trinity Parish team of New Haven. The Trinity Parish team is coached by Sam Massey, a local man. It was through Massey that Manager Nick Angelo was able to get this attraction. Trinity Parish has to date played two practices games. Trinity College only won over them by a 2-0 score and Arnold College of New Haven won a close game by the score of 7-5.

Their regular scheduled games gave them victories over the Bradford team by 7-5 scores and they hold a 14-8 victory over the Yale Junior Varsity. The New Haven team is composed of former college stars. Some of the new additions to the team this year are, Dorin, leftfielder, who formerly played with Arnold College. They also have two brothers who last season played with the Yale varsity team in the Furclosures brothers, both outfielders.

The Catholic Club to date has won three games and are out to get their fourth straight. The infield will be strengthened this week with the addition of Cliff Massey. Cliff is a brother of Sam's and follows his older brother's footsteps in playing the position. Al Boggini who has been laid up with sickness is up and around and will be ready to play Saturday. The locals will use the following men: Chet Sendorowski and Whitey Bychokli, catchers; Jack Hewitt will pitch with Jack Godek in reserve. The following men will be used in the infield, "Al" Boggini, Joe Zapata, Butch Lovett, Joe Lovett and Cliff Massey; for the outfield they have Charlie Varrick, Joe Raymond, Mahoney and Freddie Burkhardt.

Trinity Parish will use F. Furclosures, Jr., Williams 2b, Johnson ss, C. Furclosures cf, Dorin lf, Swan 1b, Walman 3b, Kling c, Davis, Robinson, Strong, pitchers. Larry Mahoney will call the ball and strikes. The game will start at 3:15.

BOWLING CHALLENGE FROM SONS OF ITALY

The Sons of Italy have organized a bowling team and would like very much to meet the fast Bluefields. The Sons of Italy have on their roster such well known stars as Giglio, Pontillo, Saidella, F. Cervini, Giorgetti, Detto and Beletti. The manager, Larry Giglio will be at the Char Oak alleys tonight to arrange a match if the Bluefields think they are fast enough to lineup against this array of stars.

BLUEFIELDS PRACTICE Bluefields ballplayers are urged to report for practice tonight at 8 o'clock and tomorrow afternoon at 2 o'clock at McKee street practice diamond.

The following players have been given uniforms: Hook Brennan, Kovis, Neubaue, Jones, Kalkveick, Rautenberg, Chuck Smith, Bob Smith, E. Raguskus, A. Raguskus, Kennedy. The other four men who will round out the 15 players will not be picked till a later date.

CHALLENGE The Holy Name Jr. baseball team is offering this challenge to any junior team in the town of Manchester and in the county of Hartford. It is preferable that the games be played on Sunday afternoons or Saturday's, either at Hickey's Grove or at such place as stated by the opposing team.

All acceptances of this challenge should be mailed to Mgr. Anthony Kaminick, 134 Oak street, Manchester, Conn., and a date shall be set for the playing of the game as soon as possible.

ALL HOLY NAME YRS. All members of the Holy Name Jr. baseball team are requested to be present at the next practice which shall be held at Hickey's Grove at 2 p. m. tomorrow.

Tommy Thvenow over from second and put the kid in at the key-stone sack.

Since then Harry has been working, like a veteran, playing a steady brand of ball in the field, and clotting around 300.

The Boston Red Sox seem to have a monopoly on the classy rookies. Boots Werber, the shortstop, is said to be the most improved player in the majors by none other than George Herman Ruth. Buckey Walters, another crut infielder, is catching up with his hitting stride and in a recent game drove in six runs with two homers, a double, and a single.

Then the Sox have Julius Solters, big outfield recruit from the International League, who is plastering the apple, and Frits Ostermuller, pitcher, who with Grove, Walberg, Welland, Welch and Pipgras to teach him, should develop into an outstanding pitcher.

The White Sox have two good prospects in Zeke Bonura and Frenchy Bordagaray. The former is a slugging first baseman of the Dale Alexander type, although he probably is even slower than the Ox on the paths.

The National League has turned up with a trio of young pitchers who may set the loop on fire before the year's over. One is Bill Lee, Chicago Cubs' and, who recently hurled a two-hit win against Brooklyn, and who is on the way to a steady turn on the mound. Another is Joe Bowman, Giants' bright prospect, up again, and the third is bulky Ralph Birkhofer, who has been pitching some classy wins for the Pirates.

Connie Mack bobs up with a pitching phenom in Joe Cascarella, who won his first three starts as a major leaguer, and who is now a regular on that staff that was wadded by sales and trades last fall.

M. H. S. Golfers, Netmen Turn In Easy Victories

Linksman Drub Balkeley 13-5, for Seventh Win in Eight Starts; Tennis Team Upsets Hartford High 3-2, for Third Triumph in Row.

Resuming the winning streak halted by Windham High after six straight victories, Manchester High's golfing quartet turned back Balkeley High of Hartford at the local Country Club yesterday afternoon by a score of 13 to 5, as the Red and White tennis team chalked up its third consecutive triumph by downing Hartford High at Pope Park in Hartford, 3 to 2.

Civello's Tied

Harold and Daniel Civello tied for low medal in the golf match, both shooting an 81. Harold defeated Bignone, who had a 90, five and three, for three points, while Danny took three points from Greenleaf in winning five and four. His opponent shot a 90, William Weir amassed a 90 to beat Wilkof, having a score of 93. Martin Anderson lost to Fanelli, one up, but captured one point.

In the doubles the Civello brothers paired to humble Bignone and Greenleaf, three and two, for two points, while Weir and Anderson defeated Wilkof and Fanelli by the same margin for another two points.

This afternoon the team travels to New Britain to meet New Britain High, beaten here by 6 to 2.

Manchester

H. Civello (81)	3
D. Civello (81)	3
H. and D. Civello	2
W. Weir (90)	2
Anderson	1
Weir and Anderson	2
Bulkeley	13
Bignone (90)	0

By HUGH S. FULLERTON, JR. (Associated Press Sports Writer)

Stimulated by the influence and example of Manager Rogers Hornsby, the St. Louis Browns have begun to assume a threatening attitude toward their American League rivals.

The Browns wound up their recent eastern tour with a flourish of four victories in their last five games. Returning home yesterday they avenged two defeats in Boston by trimming the Red Sox 4-3 and moved ahead of the losers into sixth place in the standing.

For seven innings the Browns could not do a thing with Frits Ostermuller. Then Hornsby inserted himself as a pinch hitter in the eighth after another pinch batsman, Al Bejam had doubled, and smashed a home run that tied the score at 2-2. Ray Pepper and Earl Clark followed with doubles and Oscar Melillo singled for the other two St. Louis runs.

The Detroit Tigers made the only other American League gain as the western clubs, starting their home stands, swept the program. The Tigers beat out the league leading Yankees 5-4 to move into third place. The White Sox defeated Philadelphia 4-3 in their first home game, under Jimmy Dykes management.

Cleveland's Indians spotted Washington four runs in the first two innings, then cut loose with a 17 hit attack on four senator pitchers that produced seven runs in the seventh and a final score of 14 to 6.

The Cubs regained the National League lead in their first game in the east as Chuck Klein socked his tenth and 11th home runs and led the way to a ten to three triumph over the Phillies. Pittsburgh dropped to second when Earl Grace made a wild throw past first trying for a double play in the tenth inning of a hurling duel between Van Mungo and Bill Swift and the error gave Brooklyn a 2 to 1 decision.

The St. Louis-New York struggle for third place remained unchanged as both clubs won. The Cardinals defeated Boston 5 to 3, and Big Fred Fitzsimmons pitched the Giants to a 6-3 victory over Cincinnati, giving only four hits in the first seven innings.

PASS RED SOX TO GAIN 6TH PLACE IN STANDING

Manager Hornsby Proves Sparkplug as Team Moves Up; Tigers Nip Yanks to Take Third Place; Cubs Regain Lead in National.

By HUGH S. FULLERTON, JR. (Associated Press Sports Writer)

Stimulated by the influence and example of Manager Rogers Hornsby, the St. Louis Browns have begun to assume a threatening attitude toward their American League rivals.

The Browns wound up their recent eastern tour with a flourish of four victories in their last five games. Returning home yesterday they avenged two defeats in Boston by trimming the Red Sox 4-3 and moved ahead of the losers into sixth place in the standing.

For seven innings the Browns could not do a thing with Frits Ostermuller. Then Hornsby inserted himself as a pinch hitter in the eighth after another pinch batsman, Al Bejam had doubled, and smashed a home run that tied the score at 2-2. Ray Pepper and Earl Clark followed with doubles and Oscar Melillo singled for the other two St. Louis runs.

The Detroit Tigers made the only other American League gain as the western clubs, starting their home stands, swept the program. The Tigers beat out the league leading Yankees 5-4 to move into third place. The White Sox defeated Philadelphia 4-3 in their first home game, under Jimmy Dykes management.

Cleveland's Indians spotted Washington four runs in the first two innings, then cut loose with a 17 hit attack on four senator pitchers that produced seven runs in the seventh and a final score of 14 to 6.

The Cubs regained the National League lead in their first game in the east as Chuck Klein socked his tenth and 11th home runs and led the way to a ten to three triumph over the Phillies. Pittsburgh dropped to second when Earl Grace made a wild throw past first trying for a double play in the tenth inning of a hurling duel between Van Mungo and Bill Swift and the error gave Brooklyn a 2 to 1 decision.

The St. Louis-New York struggle for third place remained unchanged as both clubs won. The Cardinals defeated Boston 5 to 3, and Big Fred Fitzsimmons pitched the Giants to a 6-3 victory over Cincinnati, giving only four hits in the first seven innings.

ROCKVILLE

ISLE OF SAFETY TO BE RELOCATED AT ONCE

Objections to Removal of Tree and Hydrants Now Disposed Of—To Use FERA.

The hazardous entrance into Rockville, at the site of safety at the intersection of Union street, West Main street, Main street and Elm street, can now be eliminated at practically no expense to the city of Rockville or the town of Vernon.

This site of safety, a small park about 30 feet wide, lying to the south of the direct intersection of these four main streets in the center of Rockville, can now be relocated with the consent of all parties concerned and at no direct cost.

The small park, containing a large tree and two fire hydrants, has been the cause of many complaints for many months and several accidents have been narrowly averted there. The large buses of the Connecticut Company and other bus companies coming into Rockville have had many close calls during the past winter and the drivers have complained to the city officials.

The original ownership of the tract was vested in Frederick Swindells, owner of the Rock Manufacturing Company.

The tree in the parklet has a historic background and for that reason there were objections to its removal.

The two fire hydrants also have been a cause of objections to the relocation of the site. One of them having four outlets, was for the safety of the large wooden factory owned by the Rock Manufacturing Company and the other the general use of the Rockville fire department.

Mr. Swindells made a statement yesterday morning that he would have no objection to their removal. He also said he would have no objection to the removal of the tree or to the placing of his fire hydrant in the yard at the plant.

Yesterday afternoon Mayor G. C. Scheets said he favored the relocation of the site of safety and the removal of the tree.

Mayor Scheets said he favored the relocation of the site as soon as possible. He will take the matter before the Board of Common Council, Supt. of Public Works George B. Milne, who is also Chief of the Rockville Fire Department, also approves of the relocation.

At a conference yesterday afternoon it was suggested that FERA labor be used on the job.

As to the provision of a flasher or traffic light, it is hoped that it may be paid for out of present funds.

As the result of the nearly fatal accident at the so-called "Goat Farm" on Wednesday evening, James W. Meacham, aged 19, of Tolland avenue will be brought before Judge John E. Fisk in the Rockville City Court on Saturday morning.

Meacham was summoned by Sergeant Peter Dowgiewicz and Patrolman Merrill Cedor following the crash on Wednesday evening about 9:30 o'clock when he struck the car driven by Walter J. Sadrozinski of 59 Bridge street, Manchester.

Meacham was driving towards Rockville from Manchester behind the Sadrozinski machine and when the latter went to turn off the road Meacham misjudged the drivers intention, thinking he was to turn to the right. Sadrozinski turned to the left and was struck by Meacham machine. The left running board was torn off and the bumper buckled when it struck a fence post.

Another accident occurred about 6

o'clock yesterday morning when the automobile driven by Floyd L. Jackson of Leominster, Mass., struck a bad spot on the state highway at Vernon Center and ran off the highway. The car struck a telephone pole near the Vernon Grange Hall, breaking the pole. The damaged car was towed to Rockville and his party continued on to New York in a rented car. No one was injured.

State Police from the Stafford Springs barracks are in Rockville this week checking several cases of reckless driving because of the directing of the heavy traffic from the Hartford Turnpike road through the center of Rockville.

The changing of this traffic is necessary because of the work of eliminating the death trap at the Goat Farm.

Nurses Make Report

The Rockville Visiting Nurse Association, through Miss Miranda Bradley, supervising nurse, has made its report for the past month showing a total of 389 visits made during the month and a total of 491 miles traveled.

The report is as follows: Total number of visits made during the month, 389; miles covered, 491; medical cases, 122; chronic cases, 83; tuberculosis contact cases, 30; prenatal cases, 10; post partum cases, 7; new born babies visited, 12; children under one year visited, 32; children from pre-school age to 5 years, 12; school age visited, 1; adults (health supervision) 6; visits on behalf of cases, 31; cases not home, 7; miscellaneous cases, 36; total number of cases on file, 534; patients living in Rockville, 424; patients living in Ellington, 72; patients living in Vernon and Vernon Center, 47; number of well baby conferences held, 2; number attending conferences, 17.

A conference of state nurses was attended at the Veterans hospital in Newington. There were ten interested nurses from various phases of the nurses work.

Miss Helen Regan became a member of the regular staff following the resignation of Miss Florence Barrett.

Celebrate Anniversary

Mr. and Mrs. Oscar Badstueber of 59 West street, celebrated their 40th wedding anniversary at their home yesterday. Many friends visited the Badstueber home to extend their congratulations and presented numerous gifts. Mr. and Mrs. Badstueber were married in Broad Brook, May 18, 1894, and have lived in Rockville more than a quarter of a century. They have seven children who assisted in the reception yesterday, as follows: Mrs. Henry Cline of New Haven; Mrs. Arthur Ultsch, Mrs. Florence North, Mrs. Mildred Miller, Mrs. Alice Anderson of Manchester and Arthur and Edward

Maple Grove Minstrels

The Maple Grove society will present a minstrel show for members and friends at the Maple Grove hall on Saturday evening. A very interesting program is being arranged by the cast which will comprise 35 members. The Silver Lane Quartet from Meriden will render several selections and the music for the evening will be furnished by Prof. Arthur Stein and his orchestra.

Masonic Meeting Held

Adoniram Chapter, No. 18, Royal Arch Masons, held a meeting last evening in Masonic Hall at 7:30 o'clock. Rev. Valentine Allison, pastor of the Tolland Federated church, officiated at the funeral services. Burial was in the family plot in the South Yard cemetery, Tolland.

Martley-Dalley Wedding

Announcement is made of the marriage of Miss Madeline C. Dalley and Walter P. Martley, both of Lawrence street, who were united in marriage at St. Bernard's Catholic church on Wednesday morning. Rev. George T. Sinnott, pastor, officiated at the wedding ceremony following a nuptial high mass.

The couple were attended by William Dalley and Mrs. Nellie Blais, brother and sister of the bride, as attendants.

Immediately following the cere-

mony a reception and wedding breakfast was held at the home of Mrs. Curtis K. Christopher, attended by the immediate families of the party.

Following the reception, Mr. and Mrs. Martley left for a wedding trip. They will live on Lawrence street and will be at home after July 4th.

Funeral of Mrs. Condon

The funeral of Mrs. Sarah K. Condon, aged 84 years, who died at her late home on Tuesday following a short illness, was held from the funeral parlors of the E. H. Preston Company on Thursday afternoon at 2 o'clock. Rev. Valentine Allison, pastor of the Tolland Federated church, officiated at the funeral services. Burial was in the family plot in the South Yard cemetery, Tolland.

Briefs

Superintendent Francis S. Nettleton of the Hockaumm Mills company was in New York on business yesterday.

Everything is in readiness for the annual concert of the Boys and Girls Glee clubs and orchestra of the Rockville High school which will be held this evening at the auditorium of the George Sykes Memorial school.

Henry Cosgrove, head clerk at the Rockville House, is showing consid-

erable improvement following a sudden illness.

The Lafayette A. C. baseball club will play the St. Bridget's baseball team at the Rockville Fair Grounds on Saturday afternoon and on Sunday will play a Massachusetts team.

The Maple Grove society will present a minstrel show on Saturday evening. A cast of 35 will take part.

The committee in charge of the annual reunion of the Rockville High School Alumni Association has been called to meet on next Wednesday evening in the George Sykes Memorial school at 7:30 o'clock by Clarence J. McCarthy, general chairman.

Leverett N. Charter, the last Civil War veteran, is seriously ill. He is being remembered by the World War Veterans and members of their auxiliaries, who are sending flowers.

A children's night program will be held on Tuesday evening by Mayflower Rebekah Lodge in Odd Fellows hall following their regular meeting.

Five courses were given in Kentucky recently to teach instructors in state agricultural institutions how to grade tobacco according to standards of the department of agriculture.

Overnight A. P. News

Boston—Massachusetts unemployment committee reports the population of Fall River, an important textile center has declined 2,174 since the 1930 Federal census, and 23.3 per cent of its employable men and women are without work.

Providence, R. I.—Foster Lardner, for more than 20 years an executive with the Albee Theater in Rhode Island died suddenly.

WAPPING

The Wapping Federated Workers and their friends to the number of fifty ladies motored to Springfield today to attend the Food Forum.

The South Windsor American Legion has rented Wolcott chapel where they will hold their meetings.

In the second and fourth Friday evenings of each month. Alexander Dezzo is getting the place in readiness.

The three-act comedy play "Chintz Cottage," was presented Wednesday evening by members of the Warehouse Point Faculty club at the Wapping grammar school hall to a good audience. It was much enjoyed. Dancing followed.

TUGBOAT BURNED.

New York, May 18.—(AP)—Fire destroyed the tugboat J. B. McAllister, of the McAllister Lightering Line, as she was bringing a barge tow up Gravesend Bay early today.

The crew of twelve escaped by boarding the leaning barge, whose momentum carried her up to the tug after the latter's engines were stopped. The fireboat Zophar Mills, from St. George, Staten Island, fought the fire for two hours and beached the hull after the flames had burned the boat to the water line.

BOLTON

Dorothy, Ruth and Earl Shedd and Junior Jones sang in the Manchester High School Glee Club in competition singing at the Bushnell Memorial Thursday afternoon.

Miss Annie Alvord and Mrs. Elsie Jones were delegates from the Congregational church at attend the Conference of Congregational churches and ministers that was held in South Coventry this week.

Miss Pearl Lee of the Center school won the \$1 prize on a poem on cigars. Miss Helen Blake of the North school won the \$1 prize on "Why is rule G necessary?"

Best as a CEREAL

Best for COOKING

It's so convenient to keep a package of Kellogg's ALL-BRAN in the kitchen. Serve it as a cereal. Use it also as a beautiful ingredient in your cooking. For muffins, breads, omelets, waffles, etc.

ALL-BRAN brings your family the "bulk" that is so helpful in correcting common constipation.

Two tablespoons daily are usually sufficient. In severe cases, with each meal. How much better than rickety patent medicines!

Laboratory tests show Kellogg's ALL-BRAN supplies "bulk" and vitamin B to aid regular habits. This "bulk" is similar to that in leafy vegetables. ALL-BRAN is also rich in iron for the blood.

Special processes of cooking and serving make Kellogg's ALL-BRAN softer, more palatable than ordinary raw bran.

And because it is all bran—with only flavoring added—it brings you more "bulk" than part-bran products.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

MENUS

For Good Health
A Week's Supply Recommended By Dr. Frank McCoy

Dr. McCoy's menus suggested for the week beginning Sunday, May 20th:

- Sunday**—
Breakfast: Eggs poached in milk, served on Melba toast; Stewed figs.
Luncheon: Escalloped potatoes; Asparagus; Salad of head lettuce.
Dinner: Baked chicken; Shredded wheat biscuit dressing; Buttered peas; Spinach; Salad of raw celery; Pineapple sponge.
Monday—
Breakfast: Crisp waffle with a little maple syrup; One coddled egg; Applesauce.
Lunch: Pint of buttermilk; 10 or 12 dates.
Dinner: Mincemeat chicken in tomato jelly (chicken left from Sunday); Fresh green peas; Cooked greens; Salad of grated carrots; Cup custard.
Tuesday—
Breakfast: Wholewheat muffins with peanut butter; Stewed prunes.
Lunch: Cooked diced carrots; Egg plant fritters; Salad of raw spinach and lettuce.
Dinner: Vegetable soup; Roast beef; String beans; Mashed turnips; Salad of grated raw carrots on lettuce.
Wednesday—
Breakfast: French omelet; Melba toast; Stewed prunes.
Lunch: Oranges as desired; Milk.
Dinner: Broiled fillet of sole; Green peas; McCoy salad (tomatoes, cucumbers, and lettuce); No dessert.
Thursday—
Breakfast: Berries (canned without sugar); Glass of milk.
Lunch: Baked potato; Cooked lettuce; Ripe olives.
Dinner: Roast mutton; Baked ground beef and carrots; Vegetable salad molded in gelatin; Ice cream.
Friday—
Breakfast: Baked eggs; Roast-

ed shredded wheat biscuit; Pear sauce.
Lunch: Raw apples as desired with handful of pecans.
Dinner: Baked fish; Asparagus; Salad of sliced tomatoes; Plain Jelly or Jell-Well (no cream).
Saturday—
Breakfast: Cottage cheese; Pineapple.
Lunch: Spaghetti, boiled in plain water and seasoned only with butter; String beans; Salad of raw celery.
Dinner: Broiled lamb chops; Cooked spinach; Steamed carrots; Salad of sprouts, raw cabbage and parsley; Apricot whip.
*EGG PLANT FRITTERS: Roll egg plant in as little water as possible until done. Then mash and roll in Melba toast crumbs making small patties. Put a dab of butter upon each fritter and bake. Serve hot.

QUESTIONS AND ANSWERS

(Sulphur, also Cure for Pterygium)
Question: Mrs. C. P. writes: "Will you kindly state whether or not you approve of sulphur for the cure of pterygium? Also is there any cure for Pterygium?"
Answer: The answer to your question on sulphur is no. It is much better to fast and diet scientifically to bring about blood purification. The disease you have named refers to a formation on the corner of the eye which is due to an irritation which may be brought about through several different causes, such as an outside infection from dust or bacteria, or an internal cause due to an over-acid secretion of the eye lubricant. This trouble can be checked and often cured by dieting and the use of a simple eye wash, applied several times daily.

(Symptoms of Anemia)
Question: Marjorie N. writes: "What are some of the symptoms of anemia?"
Answer: Some of the symptoms present in anemia are as follows: Pallor of the skin, headache, dizziness, faintness, fatigue, chilly sensation, and rapid heart beat. The patient with anemia very frequently suffers also with lack of appetite. If you have developed secondary anemia, I believe that you would be able to benefit through

carrying out the treatment which I prescribe for this disorder and if you will send me a large self-addressed envelope and six cents in stamps, I will see that you secure two of my articles on the subject of Anemia. Address me in care of this newspaper.

(Rhubarb)
Question: Mrs. B. C. writes: "Do you consider rhubarb a vegetable or a fruit?"
Answer: Rhubarb is a plant which belongs to the buckwheat family and is often called "Pie-plant." While it has a slightly laxative action, it should be especially avoided by those with any tendency to rheumatism due to the fact that it contains calcium oxalate. Rhubarb occupies the same place in the diet as fruit.

BROWNBILT SHOE STORE
FEATURES WHITE SHOES

Shoe manufacturers are being hard pressed every summer season to supply the constantly growing demand for white shoes. The season is a long one too, because it begins early in the southern sections and as the weather moderates it advances northward, eastward and westward. White footwear—for men, women and children—has become equally as good in cities, towns and countryside. This universal attention to white shoes has been brought about largely

by the improvement in white materials—their easily cleaned qualities and the vast variety of styles—the increasing amount of leisure time in which to wear them. Also, it has now become good taste for men and women to wear white shoes for all purposes, business, sport and pleasure.

There are many fabrics from which to choose, the most popular being Nu-Buck, Genuine Buck, White Washable Calf, White Kid, White Suede and innumerable kinds of fabrics and mesh cloth made up in woven patterns. The two tone white with black or brown are continuing popular. The smartest thing this season in the spectator sports type of two tone are those with natural leather heels. They may also have some brown trimming.

Men have been slower in accepting white shoes than have the feminine gender. Nevertheless, they are following the trend and once they get into a pair of white shoes, they are ardent boosters. Comfort abounds in white shoes and this summer will be greeted by millions of "white shoe" Americans. Brownbilt Shoe Store, like hundreds of leading shoe stores throughout the country, are now featuring white footwear.

INTERESTING TALK BY NATURE LOVER

Sumner R. Vinton Lectures on Orient Under Auspices of Educational Club.

An appreciative audience listened with interest last evening to a charmingly illustrated lecture, given by Sumner R. Vinton of Roselle, N. J., at the Hollister street school. The Educational club arranged with Mr. Vinton for a series of three talks to the children of the Nathan Hale and Hollister street schools on "Pagoda Land," during the day. "Nature, Master Artist," was Mr. Vinton's subject last night, and as is the case with all his lectures, it was illustrated with marvelous photographs, accurately colored by Mrs. Vinton who accompanies him on many of his trips and who is an artist of ability.

Mother Nature's versatility, in all her moods, in each of the four seasons, was truthfully reflected by the specially designed dissolving stereopticon Mr. Vinton uses, one breathtaking picture blending into another—clear days and dull shadows on the snow and brilliant fall foliage, exquisite wild flowers, gorgeous sunsets, striking cloud effects—pictures taken in all parts of the world, but chiefly in our own New England. About them Mr. Vinton wove a story which could not help but send people who heard him away with a greater appreciation of nature, and the glorious pictures she provides for us each hour of the day throughout the year. In "Pagoda Land," Mr. Vinton gave a graphic picture of life and customs in India. From kindergarten through to the eighth grade he held the interest of every child. He appeared in Burmese costume, and having lived in Burma for years, he was able to speak with authority on the subject, ably adapting his talk to the ages of his audience. Their responses were indicative of their pleasure, in hearing his educational story of Oriental life. At the close of his lecture last

night, Rev. F. C. Allen announced that Mr. Vinton would repeat by request his "Beauty of the Commonplace," Sunday evening at 8 o'clock at the Second Congregational church. The collection will be for the benefit of the vacation church school.

CHILDREN TO RECEIVE COMMUNION ON SUNDAY

Crowning of Statue of Virgin Mary to Be Held at St. James Church.

A special meeting of the Children of Mary of St. James' church will be held this evening at 8:45 in the basement of the church. Sunday the members of the society are to receive communion in a body at the 8:30 mass, and this is to be followed by a communion breakfast at the Hotel Sheridan.

NEW NAME REGISTERED.

New York, May 18.—(AP)—"Wirephoto" is the name by which Associated Press pictures will be known when the new service of photographs by leased wire is started this year. The name has just been registered at the patent office in Washington.

HILLIARD STRIKE STILL UNSETTLED

Pickets Remain on Duty at Mill as Boston Parley Continues.

No decision was reached as a result of the hearing between representatives of Textile Local 2127 of Hilliard employees and E. E. Hilliard, which was held before the New England Regional Labor Board in Boston yesterday. Pickets were again on duty at the mill this morning. The session was to have been held yesterday morning, but because of the hearing between the employees of the George Prentice Manufacturing Company of Berlin, which took up a greater part of the morning and afternoon, the case relating to the Hilliard strike was late in being reached.

The major issues were considered by the board without a settlement being reached. It is still before the board, but the local men and women on duty do not expect that the differences will be adjusted and work resumed as a result of the conference yesterday. There was an indication that it might go to Washington for further review. The employees left their work six

3 FIRE DEPARTMENTS AT BLOOMFIELD BLAZE

Windsor, May 18.—(AP)—Three fire departments from Windsor, Bloomfield and Blue Hills, battled for two hours this morning to save a group of barns at the Hartman Tobacco Company's plantation, which is just over the Windsor town line in Bloomfield. The plantation is known as the Stewart plantation of which John B. Stewart of this place is manager. The fire started in the barn used for the storage of farming implements and this together with most of its contents, and a long shed adjoining, burned. The latter included a corn crib in which were 1,800 bushels of corn. Mr. Stewart said that a few minutes before the fire started he was in the building where the fire started and

there was no sign of the blaze. Large field nearby, owned by Stewart, was damaged by the fire, so that a group of other barns and sheds were saved. Stewart said that he would not attempt to estimate the loss on account of the many burning implements burned. Some estimates made of approximately \$5,000 to buildings and contents and it is understood that there is no insurance. Iceland has the oldest parliamentary body in the world.

Would You Like A Nice Salad of Rattlesnakes?

Rattlesnakes are increasing in Florida so fast that they no longer remain in the swamps but are coming out into the open and can be found on improved roads, golf links and even in the back yards of some of the more thickly settled towns. Their presence is such that the snake industry has been set up. The snakes are now being prepared as a food, and in cans the meat looks like chicken. There is a market, too, for canned "rattlesnake meat."

This was part of the interesting story told last night to the gathering of members of the Manchester Improvement Association by William Foulds, Jr., who spoke after the business meeting.

Wintered in Florida
Mr. Foulds has been spending the winter in Florida for several years and last night told of some of the interesting changes that were taking place in that state. The presence of the rattlers is due, he said, to the lack of turpentine to kill them off, caused by the sudden shutting down of activities in building trades. With no work being done cutting down trees for lumber there was no juice from the woods to kill the snakes. They have continued to increase until there is real fear of them.

Poison Removed
Mr. Foulds told of the establishment of a curing center that is now gathering rattlesnakes. When he visited the place last winter he found between 50 and 75 snakes. There is a process used in removing the poison and when the snakes are ready to be canned they are white and resemble chicken meat. It is claimed, Mr. Foulds said, that the curing process is being visited by doctors and the flesh of the reptiles used as a food in combatting certain diseases. The snakes that were on hand when Mr. Foulds visited the place measured from four to six feet in length. He told how he was driving along an improved road in Florida last winter and saw a snake on the road. He stopped the car, got a stick and had the snake in a position where it was coiled to strike. A friend secured a pole and killed it. The snake measured six feet and had 24 rattlers.

Snakes Common
The snakes are becoming so common that the doctors are carrying a serum to offset the poison in case of persons being bitten. Once a dog was killed in a back yard by a snake. In another instance a man walking around his yard was struck by a snake in the leg. He was rushed to a doctor and the serum administered, but the man was laid up for six weeks. Even then the flesh fell away and only the skin covered the bones of the leg.

Baseball Camps
Continuing his talk, he went into some of the conditions that exist in the baseball training camps in Florida. He said there were few of the stars in baseball who really put in any real effort in their playing while in the South. In the case of the Boston Red Sox, Lefty Gray, did not even put on a uniform and the stars would play but a few innings a game, leaving the rookies to go through. This was done because of the conditions of the outfield and diamond, and the owners and managers were not taking chances on the players being injured. This was resented by the residents of Florida and by the visitors.

Ringling Brothers Circus
In the city where he was located the Ringling Brothers circus maintains winter quarters. It was considered a good plan by the residents of Florida to have winter quarters for the circus located in the state and land for the purpose was given to Ringling Brothers. Bridgeport lost the winter quarters for the Barnum & Bailey circus, but Sarasota in Florida did not gain much. The climate is too hot for horses and animals. Only a small number of men are employed in the circus headquarters during the winter. With a herd of elephants the cost of furnishing hay to them, which amounted to two carloads a day, made necessary quartering them in another part of the state.

Animals Temperamental
It is not until the show starts to move out that the real activities begin. The opening days in New York and to get the circus out of Florida into New York is no small task, Mr. Foulds said. It has been found that the animals will not eat while aboard a train. This makes it necessary to stop the train, unload the animals and feed them. Fair such stops are made between Florida and New York. The unloading for the New York opening is done on the New Jersey side and it is necessary to ferry all animals across the Hudson.

Women in Charge
The death of Charles Ringling and the illness of John Ringling has resulted in Mrs. Charles Ringling going out on the road with the circus this year. With her is her son, Robert, who is learning the circus business from the ground up. The billing for the circus is done by a Chicago concern.

Mr. Foulds explained that the manner in which the money was handled in a circus ticket wagon was not so much for show as a method of safety. The money taken in is allowed to fall onto the floor and when the ticket office is closed the ticket seller may be standing waist deep in money. The ticket wagons are built of steel and when the windows are

locked men start in to count the money. The advance man has made arrangements with some bank in the city where the show is performing to come to the grounds and take the money. For doing this the circus pays the bank a percentage of the money taken in. A draft is then drawn by the local bank and deposited in the New York bank, where the business headquarters are located and from where the large bills are paid.

The talk by Mr. Foulds was followed closely by those present. It came at the close of the business meeting of the association which elected officers for the coming year.

Jenny Elected
A nominating committee consisting of Edward Brosnan, Daniel Fagan and Matthew Merz brought in the names of John Jenney for president; William Foulds, Jr., for vice president; J. N. Nichols for secretary and Matthew Merz for treasurer. These men were all elected, as was an executive committee consisting of Dante Fagan, Edward Brosnan, John J. Dwyer, M. J. Coughlin, W. W. Robertson, C. A. Sweet, Karl Keller, Edward Stain, C. R. Burr and A. L. Brown.

The committee in charge of the proposed changes at Main and North Main street will continue to function.

Before the business meeting a lunch was served. J. N. Nichols sang and also led in the community singing. In addition to the talk given by Mr. Foulds, C. P. Thayer of the Y. M. C. A., also addressed the gathering.

FR. COUGHLIN RESTING
Garrison, N. Y., May 18.—(AP)—Rev. Fr. Charles J. Coughlin of Detroit, internationally known as the "Radio Priest," is "resting up" and taking the prescribed course of exercises at "Bill Brown's Place" here. The clergyman has been at Brown's place about a week. He is pretty well tired out when he arrived, and the length of his stay will depend upon how soon he can obtain the desired rest.

Inquiries developed that Fr. Coughlin was out hiking, but no information was given concerning the regimen of exercise to which he is subjected.

Manchester Date Book

Tonight
May 18.—Annual concert of Salvation Army Songsters Brigade at Citadel.

Also special town meeting at High school hall.
Next Week

SENSE and NONSENSE

Why Walk And Worry Over Your Lot? Why Weakly Sigh And Fret? Cheer Up; The More You Haven't Got The More There Is To Get.

Visitor—How old are you, my little man?
Boy—Darned if I know, mister. Mother was twenty-six when I was born but now she's only twenty-four.

About the hardest job father ever tackled is trying to get through a day in such a way that mother won't be able to find a single fault with him.

Woman (to applicant for work about the house)—I want a man to do odd jobs about the house, one who never answers back and is always willing to do my bidding.
Seeker For Work—You're looking for a husband, ma'am, not a servant.

It doesn't take the bride very long to discover his pre-wedding promises didn't mean any more than her promise at the wedding to obey him.

Mother—Now, Junior, run up stairs and get baby's nightie.
Junior—I don't want to.
Mother—Oh, well, if you're going to be unkind to your new little sister she may put on wings and fly back to heaven.
Junior—Then let her put on her wings and get the nightie.

There are people who are always trying to get out of paying anything and they make an extra effort when they can get by without paying any taxes. The sales tax for those babies.

Dentist—I'm sorry—the trouble with this tooth is that the nerve is dying.
Man (moaning while he suffered)—Then, please, treat the dying with a little more respect.

Experience is a great teacher, but you have to be mighty careful what you let her teach you.

Friend—That man Smith is going around telling lies about you.
Man—I don't mind that, but if he begins to tell the truth I'll break his neck.

When a boy gets a girl on his lap it won't be long till he has her on his hands.

If a man thinks everyone is against him, he will soon begin to treat them as they will be. If he thinks everyone is his friend, he will unconsciously treat them as such, and they will soon be his friends.

It has lately been conceded that the chap who made two blades of grass grow where only one grew before was all wet.

Observant Child—Mother, why hasn't Daddy any hair?
Mother—Because he thinks too much, darling.
Child—Why have you such a lot, mother dear?
Mother—Because Go to bed this instant!

Co-eds at Indiana University have been ordered to wear bloomers that reach the tops of their stockings. That, however, is very indefinite.

A judge was holding court in one of the remote rural districts. He was listening intently while a prospective juror was questioned by a lawyer in the case.

Lawyer—Do you know anything about this case?
Prospective Juror—No.
Lawyer—Have you heard anything about it?
Prospective Juror—No.

Lawyer—Have you read anything about it?
Prospective Juror—No, I can't read.
Lawyer—Have you formed any opinion about the case?
Prospective Juror—What case?
Lawyer—Accepted.

The first cargo of furs was sent from Canada to England in 1878.

BOARD OF HEALTH

calls attention to Regular 123 of the Sanitary Code, particularly sections (e) and (f), which applies to stores, restaurants, taverns, soda fountains and reads as follows:
(e) All foodstuffs stored or exposed for sale must be protected from flies and dust by such screens, fans, covers or tight containers, as may be approved by the local health officer. The term "foodstuffs" includes both raw and cooked foods, candy and other food not sold in single service fly-tight containers, except food in the process of cooking. All exposed food shall be stored at least eighteen inches above the floor.
(f) Single service cups, dishes, spoons and drinking straws shall be protected from flies and dust. All glasses, cups, knives, forks, spoons or dishes that are subject to repeated use, shall be thoroughly washed after each use by cleansing with hot water and soap and then rinsing in clean hot water, or by other process approved by the local health officer.

ABOUT TOWN

The Walnut Tavern, located on Walnut street, is now open for business, being operated by the Vesco brothers. The official opening will be held tomorrow night, when an entertainment will be presented.

Louis Barker of Boston street attended the funeral yesterday of his grandmother, Mrs. Lola Godding, of Topsham, Me., whose death occurred on Monday after a long illness. Mrs. E. F. Walton of Strong street, who is a daughter of Mrs. Godding, has been with her mother for the past few weeks.

The Junior Mission Band will meet at Emanuel Lutheran church tomorrow afternoon at 1:30 sharp. The rehearsal for the "Little Lights" and missionary pageant, will start promptly at that hour so that those who desire to attend the Girl Scout rally may do so.

The Luther League of the Emanuel Lutheran church will hold its first outdoor picnic of the year at the Scout cabin in Glastonbury tonight. Cars will leave the church at 6:30 o'clock and all drivers and members are requested to be on hand at 6:15 o'clock.

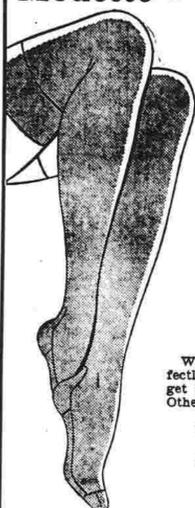

R. L. Mott, treasurer of the Savings Bank of Manchester, is attending the 14th annual conference of the National Association of Mutual Savings Banks at the Waldorf-Astoria in New York. More than 800 bankers from 18 states are present.
