Bombed on Three Separate Lines in Austria; Over 200 Nazis Arrested in Raids.

Vienna, June 8.—(AP)—Opponents of the Dollfuss regime continued to defy the gallows today by bombing three separate railway lines, endangering numerous lives and disrupting transportation.

**Phone Lines Wrecked**  
Besides the various railway bombings, it was reported that telephone lines connecting Austria with Western Europe were blown up near St. Johann.

**Other Bombings**  
Another bridge was bombed near Remetzing, temporarily interrupting railway connections between Vienna and the nearby mountain resort.

**Third Railway Bomb**  
The third railway bomb tore up tracks near Krems, in lower Austria, 30 miles northwest of Vienna.

**Unidentified Persons**  
Unidentified persons fired at a Fascist auxiliary police patrol near Kitzeberg, killing one and injuring another.

**Near Linz**  
Near Linz, a member of the Fascist Heimwehr was stabbed and killed by political opponents.

**No Fatal Accidents, Commissioner's Aim**  
Not Satisfied With Merely Reducing Number of Crashes Motor Vehicles Head Asks For Clean Record.

By MICHAEL A. CONNOR, Commissioner of Motor Vehicles  
There were only two fatal motor vehicle accidents last Saturday and Sunday. This reduction in the week-end record from seven and eight to one or two is great—but we have gone far enough now to demand WHY TWO? WHY ANY?

**Awaken The Few**  
Now that the great group of motorists on the highways is accustomed to be well over 300,000, it is not enough to have a few accidents. It is trying to do the right thing, it remains for us to awaken the minds of the few who are heedless and careless, and hard to reach through these agencies.

**Enforcement of Law**  
There is a justifiable demand for vigorous prosecution of those who can be cured of their misbehavior only by application of the penalties of the law. These penalties, I want to remind you, are within easy reach of the enforcing agency to use promptly and effectively. The public now is aroused to a point where it will back street, and even severe enforcement of the law.

**Police**  
I believe it is economically impossible to solve this problem by more and more policemen. Even if it were possible to put a great army of police on the streets, it would not be enough to handle the cases. Therefore, it stands to reason that the public must help on its own.

**Excuse Carless**  
Every motorist who goes out on the highway, whether in an excuse carless or in a motor vehicle, is responsible for his own safety. It is his duty to observe the rules of the road and to avoid collisions.

**Motorists' Responsibility**  
The newspapers will carry the story next Monday of the record made this week-end. Let me repeat—let me repeat that the aim acceptance of what he prescribes a hearty disapproval of bad habits and reckless habits in motor vehicle operation.

**Long Task**  
This needed reform in driving habits and the attendant reduction of accidents cannot be accomplished in a few weeks—we have no illusions about that, but we are confident that slaughter on the highways can, eventually, be stopped.

**Every Means Will Be Tried**  
Every means will be tried to prove that motoring can be made safe. Improvement has already been shown by a decrease in fatalities in this state from a record of 175 last year up to June 4th, to 128. The comparative record this year, whereas there has been a general increase in the other states of approximately 25 percent. This is evidence enough to convince us of the possibility of success, and makes us more determined to go through with our program.

**DOLAN, BERGIN LIKELY TO KEEP JOBS IN RECESS**  
Farley Believed Bound to Defy Lonergan and Let Senate Reject Mrs. Welch, All to Be Named Again.

By FRED W. MARBET  
Washington, June 8.—(AP)—Although Senator Lonergan has already struck two powerful blows in his attack on the administration patronage policy, and is holding a share in the comparative reduction in the number of jobs in the executive branch, Senator Dolan and Senator Bergrin are believed bound to defy Lonergan and let the Senate reject Mrs. Welch, All to Be Named Again.

**Local Observers**  
Local observers who now regard the situation as a foregone conclusion, and even look on settlement by the end of the session as extremely improbable. To save his face, Senator Lonergan will force, therefore, to go ahead and sweep the slate clean by rejecting Mrs. Fanny Dwyer Welch as Collector of Customs.

**Farley's Suggestion**  
Farley's suggestion that his conference with the committee, held after the latter obtained the rejection of the nomination of Frank E. Bergrin, as district attorney and of Edward G. Dolan as Collector of Internal Revenue, was fruitless.

**Maneuvering**  
Maneuvering has been indicated that administration circles fully expect Mrs. Welch's nomination to be rejected. The doom of Senator Lonergan, Senator Bergrin, and Senator Dolan, who were asked at a press conference held at the state capitol, in turn, how many had so far been interested.

**Future Action**  
Future action on the three offices remains highly uncertain. At the Department of Justice, it was reported that Lonergan will continue to act as District Attorney, although drawing no salary, until his success or disappointment comes.

**At the Same Time**  
At the same time Cummings said no new appointment might be expected in the very near future. His answer applied to questions both as to the possibility of a report now as to the nomination of David E. Wilson to the post and as to the filing of the nomination left over from the action of the Senate.

**Second Appointment**  
However, the appointment after the adjournment of Congress is regarded here as the logical one. Unconfirmed reports that the administration plans to send in the name of the North Sea last year in a salvage operation that almost ended in disaster for him.

**One Man's Fate**  
One man's fate, that of the man who was killed at the side of the board of inquiry of National Guard officers started sitting charges made before the Dickstein committee in Washington.

**Fair Enough For Anyone**  
Joe Hrab will probably see more of Chicago's Century of Progress this year than anyone else, for his job is washing windows on the sky line.

Joe Hrab will probably see more of Chicago's Century of Progress this year than anyone else, for his job is washing windows on the sky line. Here, Joe with 600 feet of very thin air between him and the ground, spread along the Chicago lakefront below.

**LEVITT IS IGNORED BY 3RD. PARTYITES**  
Chairman of Independent Republican Party Says That Redding Man Is Considered a Democrat.

New Haven, June 8.—(AP)—The state commission of the Independent Republican Party meets here today with Nathan B. Stone, its chairman, to discuss questions presented to it by conditions which have originated in a report now as to the nomination of David E. Wilson to the post and as to the filing of the nomination left over from the action of the Senate.

**Stone's Demerit**  
Stone's demerit, that of the man who was killed at the side of the board of inquiry of National Guard officers started sitting charges made before the Dickstein committee in Washington.

**Same Problem Again**  
Moreover, reappointment of the same man would put up to the next session of the Senate the same test of that body's stand on patronage questions that Lonergan has laid out in the last two weeks.

**Nothing More Difficult**  
Nothing more difficult than a sort of "moral individualism" is needed, Cummings said. "There are within this country millions of men who are living quietly and unobtrusively, and who are content for a wholesome life lived in the quietude of their own homes. We have power to exercise our country over our own fate. We can live individually, so with our country in these years to come."

**CONGRESS ASKED FOR 525 MILLIONS TO HELP FARMERS**  
Roosevelt Requests Funds for Drought Relief — Declares Large Scale Assistance by Government Necessary to Protect People in Stricken Areas.

Washington, June 8.—(AP)—President Roosevelt asked Congress today for \$525,000,000 to finance the drought relief program the Administration already has undertaken.

**Local Compliance Board Quits Soon**  
June 15 Set as Date for Conclusion of Work—Codes at Chamber Office.

Dissolution of the Manchester NRA Compliance Board, effective June 15, has been ordered by National Administrator Hugh S. Johnson in a letter received today by local chairman, Rev. Watson Woodruff.

**Message**  
The message follows: "The most perplexing problem here which confronted the board concerned the labor troubles at the various nurseries in this community. The nursery industry did not come under the classification of agriculture nor was it regarded as such by the Federal government."

**Nurses' Difficulties**  
The young parents of two children were arrested Thursday night after neighbors had complained that the children were being used to beg for money and to solicit for the Red Cross.

**Passion Causes Four Shootings**  
Blonde Young Wife Fires While Resisting Improper Advances of Admirer.

Philadelphia, June 8.—(AP)—The blonde young wife of a Navy Yard chief petty officer is under arrest today on charges of shooting her "passion" in three days.

**Experiment Valuable**  
"Although the local compliance boards will go out of existence on June 15, there will no doubt be many occasions when your kindred edge and experience, gained as a member of your local board, will be of immense help to your state director, and it is my hope that you will continue to lend him your valuable assistance when necessary."

**RUSSIA'S ENTRANCE INTO LEAGUE NEAR**  
Countries of the Little Entente Have Decided to Recognize the Soviets.

Geneva, June 8.—(AP)—Countries of the Little Entente have decided to recognize Soviet Russia, it was learned today. Geneva observers called the action a big step toward Moscow's entrance into the League of Nations.

**Hand of Friendship**  
Russia, it was held likely, will be admitted to membership at the September Assembly.

**His Injuries**  
When he came into New York on the liner Leviathan in May last year, he was nursing a broken left hand, and a long scar on his right side, and his imprisonment at the bottom of the sea for about a year had caused his hair to turn several shades whiter.

**Keeps His Secret**  
However, he would not discuss his present trip. In fact he said he had no orders other than to sail for England. He prepared to sail late in the afternoon.

**PARENTS ACCUSED OF BINDING TOTS**  
Taped Children's Mouths Shut While They Went Out to a Show.

Pontiac, Mich., June 8.—(AP)—The young parents of two children were arrested Thursday night after neighbors had complained that the children were being used to beg for money and to solicit for the Red Cross.

**REVENUE BALANCE**  
Washington, June 8.—(AP)—The position of the Treasury today: Receipts \$15,777,138.19; expenditures \$20,000,000. Balance \$1,097,143,333.73. Customs receipts for the fiscal year (since July 1) \$2,800,010,807.48; expenditures \$4,000,715,010.60. (Incl.) \$1,199,704,702.24. Gold assets \$7,700,385,222.92.

PARADE MARSHAL MUST BE VETERAN

Suggestion Incorporated in New By-Laws of Permanent Memorial Day Group.

Albert Downing, commander of Manchester Chapter, Disabled American Veterans of the World War, was elected chairman of the Manchester Permanent Memorial Day committee for 1935 at the final business meeting of the committee last night.

When the war clouds gathered in 1914, Hughes, the County Cavan farmer presented himself to the officers and was accepted as a recruit in the 16th battalion, Royal British War Veterans.

Committee chairman chosen for the ensuing year are: flower committee, Wilbur Loveland; speaker, Victor Bronke; music, Michael McDonnell; transportation, Arthur Loomis; flag, Frank Cervini; school children, John Jensen; printing and programs, E. G. Hohnthal, Jr.

Upon the suggestion of the secretary that a new set of by-laws be made, a committee of ten, representing one from each organization present on the parent committee, was selected.

One of the important changes suggested for the new by-laws is an article stipulating that the marshal of the Memorial Day parade always shall be a veteran or an ex-serviceman. Another change suggested was limiting the membership of each organization on the committee to three members.

The Masonic Veterans Association is composed of members of the Masonic fraternity who have been affiliated with the order for 25 years. Several from Manchester belong and many will attend this reunion.

'OLD DICK' RETURNS TO NATIVE IRELAND

Veteran Hughes, One of Old-est Men to Enlist During War, Leaves Town.

Richard Hughes, 85, formerly of 82 Maple street, the "grand old man" of the British War Veterans post of Manchester, has gone back to the homeland. Homesick for the land of his birth and in failing health, Hughes, said to be one of the oldest men to enlist in the British forces in the World War leaves New York today for Ireland.

Richard Hughes, 85, formerly of 82 Maple street, the "grand old man" of the British War Veterans post of Manchester, has gone back to the homeland.

When the war clouds gathered in 1914, Hughes, the County Cavan farmer presented himself to the officers and was accepted as a recruit in the 16th battalion, Royal British War Veterans.

Committee chairman chosen for the ensuing year are: flower committee, Wilbur Loveland; speaker, Victor Bronke; music, Michael McDonnell; transportation, Arthur Loomis; flag, Frank Cervini; school children, John Jensen; printing and programs, E. G. Hohnthal, Jr.

Upon the suggestion of the secretary that a new set of by-laws be made, a committee of ten, representing one from each organization present on the parent committee, was selected.

Irish Volunteers

He was then 47 years of age and was assigned to Camp Clonsilla, County Down. After four months service he was ordered to Lurgoe and appointed cook with the rank of sergeant.

On July 1, 1916 Hughes participated in the famous "Easter Sunday" in the battle of "The Ashes." Hughes witnessed the slaughter of the Royal Irish Rifles, with 74 men remaining of 1,264 officers and men of the 13th regiment, Royal Irish Rifles.

After 10 months in France Hughes was sent back to Ireland with rheumatism contracted in the Flanders trenches. Disturbed in the meetings of the "Moss-Tyres Command, British War Veterans and all patriotic observances, although it was difficult for him to move about due to his crippled leg.

Comrade "Dick" Hughes has gone back to the homeland—the fields and lakes of County Cavan. All Manchester veterans are better for having met "a real soldier and a patriot."

GARRITY FAVORS DISTRICT COURTS

Tells Holy Name Society That System Would Abolish Existing Abuse.

Confucius who lived from 551 B. C. to 478 B. C. and Mohammed who lived in the age of 570 B. C. to 632 B. C. or 600 years before, the birth of Christ, were judges and early history shows there were courts of law as early as 3500 B. C. in China, yet the principles of all courts of law are based on the Ten Commandments. Attorney Harold Garrity, speaking to the Holy Name Society of St. Bridget's church, declared last night.

The first court proceeding of which there is any record was held in China in 3500 B. C. and about 3000 B. C. a similar court proceeding was held in Egypt. In 2500 there is record of a court being held in India, which closely resembled those held in China and Egypt.

The strange part of this, he said, was that there was no way of either having knowledge of the manner in which justice was handled by the other one did they know that which justice was dealt out was crude but swift. Court was held around the tent of the king of the tribe. The king was both prosecutor and judge and the people consulted the judge.

This seemed to be the same underlying principle on which all courts were later held. Abuse has always arisen in these courts and an example, he pointed out, was the case of Christ, before Pontius Pilate. Hood has been used in various countries who demanded their rights. English people fought for their Magna Carta and later their Bill of Rights which eventually made their king a figure head only.

Parlous and pilgrims in leaving England to set up their freedom of worship in America started in America the development of the American court system protecting the rights of people and of property, which is the system of the common law courts of today.

Abuses of Justice. One of the abuses of Justice is to be found today in the justice courts in some of the small town courts, a condition, he said did not apply to the Manchester town court. The proposed setting up of district courts would, he felt, do much to abolish the existing conditions in the small town courts and the justice courts. The district courts, he said, would cut out all inferior courts below the common plea court and would establish a full time court with salaried officers. Garrity being received, under the fee system. This would reduce to a minimum the abuses that now creep into the courts.

Attorney Garrity contended.
