Putnam Mill Closed and Pickets Leave for Uncas Co. Mills—Company 1 Sent at Once to That Town and Two Other Companies Ordered to Mobilize.

By ASSOCIATED PRESS

New movements of National Guard troops were ordered today in Connecticut as one textile mill closed its doors and another became an object of picketing.

Scene of disturbances Tuesday and Wednesday, the Bellows Falls-Cortland mill in Putnam, was ordered closed by the president of the firm, pending a conference with Gov. Wilbur L. Cross.

Pickets were removed immediately from the mill and invaded nearby mechanical mills with the avowed intention of effecting, if possible, the shutdown of the Uncas, Finishing Company plant where 100 employees have struck to their jobs.

Troops Ordered There With reports that trouble threatened in Mechanicville, Adjutant General William F. Lead ordered Company 1 of the 16th Infantry to proceed at once to that town.

The adjutant general also ordered the mobilization of Company A of the 16th Infantry to the headquarters of the 16th Infantry at Bristol.

Meanwhile, strike and mill officials prepared to present divergent views to the governor.

Putnam, Sept. 13.—(AP)—The objective—the closing of the Bellows Falls-Cortland plant—attained temporarily, at least, pickets were ordered today to shift their activities to nearby Mechanicville in an effort to effect the shut-down of the Uncas mill.

The Bellows Falls-Cortland mill, scene of disturbances Tuesday and Wednesday and one of the textile areas patrolled by National Guardmen was ordered closed today by its president, R. E. Kramer.

Do Not Use Violence Leader Tells Workers

Washington, Sept. 13.—(AP)—Francis J. Gorman, chairman of the textile strike committee called upon all strikers today to refrain from violence as the War Department prepared to send troops to Rhode Island if requested by local authorities.

Gorman at the same time renewed his demand to governors in the strike area to provide protection to strikers.

He contended union men in the turbulent strike areas had been the victims of violence and not its instigators.

In response to a telegram from Governor Greene of Rhode Island protesting against a strike in the Woonsocket rayon plant which the governor said he understood was exempt from the strike order, Gorman wired:

"The Woonsocket rayon plant has fought our union for several months. They have discharged a number of our members in violation of Section 7A. Our union was destroyed by this company. Organized rayon workers will meet here Sunday to declare a strike in the rayon industry.

"The destruction of life and property in Rhode Island can be traced to labor hating tactics of management. I would suggest that they close their mills and not try to compel people to work at the point of guns and bayonets.

"All disorders will stop when the strikers are permitted to picket without interference. Textile employers have refused arbitration by the President's board. The union pledged co-operation. Why are you blaming for this situation, the union or the employers?

"We are satisfied to leave the answer to you. I am today making an appeal in behalf of the strike committee to the strikers urging them to maintain their discipline and avoid any semblance of violence and any other service free of charge to defend John Gardner, 33 1/2 St. Mary street, who was arrested by state police in Woonsocket yesterday and is now being held in the state prison at an automobile.

Announcement was made by President Arthur Short of Local 215 that Attorney George Leazer had offered his services free of charge to defend John Gardner, 33 1/2 St. Mary street, who was arrested by state police in Woonsocket yesterday and is now being held in the state prison at an automobile.

Mr. Short also called attention to a letter which he said he had received telling him that he was getting a "fat sting" out of the union and accusing him of being responsible for the strike of Cheney factory which he said was being staged by textile mill workers at Saylesville, R. I.

Above a soldier in uniform of the local union officials received any remuneration for their work and that as far as he personally was concerned, he was eating only one meal a day.

Appreciates Invitation. Mr. Kopplemann expressed appreciation for being invited to speak before the strikers and said he was particularly pleased because "we are not to enter a campaign which means much to every man and woman throughout the nation."

LOCAL STRIKERS HEAR VOTES BID BY KOPPLEMANN

Congressman Addresses the Meeting in Park Today—Shorts Denies Officers of Union Are Being Paid.

Playing the Republican party as a tool of the special vested interests which have bitten deeply into the vitals of the party like a cancer, Congressman Herman P. Kopplemann in an address at the strikers' mass meeting in Center Park this morning urged the people to rally behind President Roosevelt by electing to the Congress the United States men who will support the administration's policies.

Mr. Kopplemann reminded that he always had favored legislation to help the working man and strikers and that the Democratic party stood behind unemployment insurance and old age pensions.

Head of Du Pont Corporation Tells of War Profits to Senats Probers—Company's Holdings.

Washington, Sept. 13.—(AP)—A financial statement showing the Du Pont Corporation now owns about \$270,000,000 in capital stocks of about 30 other corporations in the United States and abroad was given to the Senate committee today.

The committee also learned that \$17,000,000 in bonuses was paid officers and employees of the E. I. du Pont de Nemours Corporation between 1914 and 1919.

During that period the corporation paid \$124,000,000 of World War bonds. The largest bonuses were paid in 1916, the year before the world war entered its fiercest phase.

The testimony was given principally by Joseph P. Kamp, president of the corporation, and by other officials.

Textile Strike Gets Beyond Control of State's Resources

Scores of Persons Hurt in Last Night's Riots—Mobs Loot Stores and Thousands of Dollars Worth of Damage Caused—Governor Orders All Known Reds Arrested—Calls on War Veterans to Preserve Order.

Hyde Park, N. Y., Sept. 13.—(AP)—President Roosevelt was ready to send Federal troops into Rhode Island to help quell the riotous scenes, but an official White House statement said none has been requested so far.

"The President is in complete and constant touch with the Rhode Island situation, it is of course, hoped that disorders caused by irresponsible and disorderly individuals will terminate before nightfall.

"No orders have been issued for Federal troops to go to Woonsocket or elsewhere."

Providence, R. I., Sept. 13.—(AP)—The Rhode Island Legislature was called into special session today and wholesale arrests of Communist agitators were ordered, as Governor Theodore F. Green obtained a promise from President Roosevelt to send Federal troops into Rhode Island to quell the riotous scenes.

With Rhode Island's National Guard already taxed by demand for its services in textile centers, Governor Green today called on leaders of veterans organizations to supply 1,000 men to be mustered into emergency service and supplied with state militia equipment.

Chail National Guardsmen rushed into the city, the police were overwhelmed.

"More help or we'll perish," was the frantic cry of Police Commissioner J. Hector Paquin as he asked Governor Theodore F. Green to send Federal troops.

The rioting, accompanied by looting, was the worst outbreak in New England since the start of the textile strike.

Hooligans ran rampant through the mill and business district, smashing windows and street lights, burning stores and looting the police and Guardsmen and breaking into stores. Goods were carried from the shops.

Police Open Fire. The violence reached its height when the police and soldiers, their eyes of fear, gun, turned on the rioters. Eight fell wounded.

The only Federal troops now in Rhode Island are stationed at Fort Adams, Newport, but the entire League of Nations assembly today by announcing that, beginning at once, it will not abide by the general treaty for the protection of minority peoples.

Joseph Beck, Polish foreign minister, told the Assembly that until all states protect the rights of minorities Poland would refuse any control by an international organization of the American League and its treatment of minority groups.

The Polish stand was regarded as a severe blow to the League of Nations. One of its cardinal objects has been to win adequate protection for minority groups in all nations.

Beck's announcement caused consternation at a moment when the League was reported to be more or less dormant and there were pessimistic rumors that Moscow might abandon its negotiations and side after all not to pay for admission.

One Person Killed. Since the rioting began in the Salaville and Woonsocket areas 10 persons have been wounded and one killed and scores have been injured by being mistaken for either by hooligans, strikers or sympathizers.

Martial law virtually existed in Woonsocket.

Police Commissioner Victor Paquin of Woonsocket said he turned all his authority over to Colonel Thomas F. Hammond in charge of the mill forces. As a result Hammond ordered all saloons and liquor stores closed at noon. No evening performances will be allowed at the theaters, he said.

A warning to 45,000 citizens to stay off the streets after dark was given by Hammond.

Until National Guardsmen rushed into Woonsocket last night police were overwhelmed.

"More help or we'll perish," was the frantic cry of Police Commissioner Paquin, as he asked Governor Theodore F. Green to send Federal troops during the peak of the rioting.

Police said they were shot by snipers from upper stories of windows as they approached one downtown establishment.

Woonsocket, R. I., Sept. 13.—(AP)—High tensions spread over this city today after a fearful night of rioting and death.

Soldiers clashed with a wild raving mob of more than 3,000. Violence of gunfire more sent at the rioters at frequent intervals.

One youth lay dead from gunshot wounds. Seven others were wounded, three critically.

Metal Used to Diagnose Tuberculosis a Success

Cleveland, Sept. 13.—(AP)—That it can be injected under the skin makes tuberculosis tests "Tests on 100 guinea pigs showed this. The unexpected effect of boylism was used to speed diagnosis. Sputum of human beings injected guinea pigs. If the pigs developed tuberculosis serum tests were made. The serum infections were so slight that the tuberculosis failed to be found, that is by ordinary tests. The patients were negative. When guinea pigs were given boylism they developed marked signs of tuberculosis proving the negative human really had the disease."

CLAIMS ROOSEVELT POLICIES FAILED

Mussolini's Newspaper Says None of Four Objects Has Been Achieved.

Milan, Italy, Sept. 13.—(AP)—Premier Mussolini's newspaper, Popolo D'Italia today said President Roosevelt has failed to achieve four fundamental objects, but it is too soon to conclude that experiments he is undertaking are unsuccessful.

The newspaper's estimate of the Roosevelt administration is believed to have been written by E. Duce himself. Its editorial comment is inspired by the President's recent writings, which Mussolini is reading.

Roosevelt's principles are not Fascist and even less are they Communist," the Popolo D'Italia said.

"When one reads his address of May 4, 1933 to the United States Congress and there were peace."

"Roosevelt set up for himself four fundamental principles, reduction of armaments, lowering of tariff barriers, stabilization of currencies with other nations."

"None of these objectives has been reached. On the contrary they have been a dramatic departure from them. Their opposites have been reached."

"Instead of disarmament there is an increase in armament. Second, instead of a lowering of tariff barriers there has been a universal elevation of them. Third, instead of stabilization, the wandering course of currencies has been maintained or less volatile. Fourth, instead of reciprocal trust and confidence among nations, there has been a general suspicion and distrust."

"The editorials give tribute to which Roosevelt set out to extricate the country from the depths to which it had fallen."

It will be blessed and dedicated on duty in the vicinity of the plant and in adjoining streets.
