RUSSIA PREPARES FOR ITS ELECTION

Delegates to Various Soviets to Be Chosen Nov. 10 and Dec. 20.

Moscow, Nov. 2.—(AP)—Soviet Russia today initiated the campaign for elections to the Village Soviets with the slogan: "Get out 100 per cent of the eligible voters."

The village elections will be held between Nov. 10 and Dec. 20 and will be followed by the elections to the City Soviets.

This is the first general election since farm collectivization began to have been applied. The purpose is to get the peasants in social construction and leader them with the same enthusiasm the workers have for "classless society."

President Kallin and other leaders have particularly emphasized the importance of getting the women more generally interested in politics and electing more of them to the Soviets.

In the Moscow province alone, 1,500 factory workers have been sent to the farming districts to work among the collective farmers.

Election Campaign Fifty propaganda automobiles carrying entertainers and speakers are touring the province. Theatrical performances and musical entertainments are scheduled for the villages. Motion pictures are being used extensively in the campaign and 10 portable exhibition houses are supplying literature and 100,000 placards.

Professors and scientists are lecturing on the importance of raw materials for Soviet construction and emphasizing the vital part the so-called farming plays in the second five-year plan.

Nikolai Lenin's statement that every cook in Soviet Russia should know how to run the government is stressed by the speakers who are extending the suggestion to include all women and farm workers.

About 400,000 women are now members of the Soviets and executive committees and 6,000 are chairwomen of the collective but the voters are exhorted to increase the number of women in legislative and executive positions.

In the approaching elections there will be 10,000,000 new voters with 20,000,000 in all, eligible to vote. The local Soviets will select delegates to the District Soviets, which in turn will select representatives to the Provincial Soviets and these to the All-Union Soviet Congress, which will name 1,860 delegates, the supreme authority of Soviet Russia. The Congress will meet Jan. 14 for the first time in three years.

DISASTER RELIEF OF THE RED CROSS HEAVY LAST YEAR

POWERFUL DRAMA SEEN AT THE STATE TODAY

"British Agent" Stars Kay Francis and Leslie Howard—Strong Supporting Cast.

"British Agent" the story of great love lying with almost fanatic patriotism, set in the mad chaotic background of the Russian Revolution, opens at the State Theatre today, with two brilliant screen stars, Kay Francis and Leslie Howard, heading a large and talented cast.

Inspired by the best selling novel of the internationally famous author, Erich Maria Remarque, the drama is the stark, realistic story of the writer's own experiences in the trenches of the World War.

Leslie Howard plays the part of the author himself while Kay Francis is a beautiful and aristocratic Russian lady dedicated to the Red Cause.

UPTURN FEATURES MARKET TRADING

Recovers Up to More Than Two Points; Bonds Show Former Tendencies.

New York, Nov. 2.—(AP)—After remaining virtually motionless for several sessions, the Stock Market today sat up and took a little nourishment.

Trading activity broadened considerably and recovery of fractions to more than 2 points was displayed over a wide front. Study of recent news developments was said to have resulted in a more hopeful view of the economic situation. The uptick also credited partly to technical factors.

Grains and cotton were moderately higher and foreign wheat prices moved up sharply. Cotton improved and rubber came back half a cent or more a pound. Bonds showed tendencies. Foreign exchanges were slightly higher.

The preferred shares of McCray Stores reported nearly 6 points, the common got up more than 1 and Wilson & Co. Preferred advanced more than 2, all to new highs for the year. Wright Aeronautical advanced 3 and Union Pacific nearly as much.

Others, up major fractions to more than a point, included U. S. Steel, American Telephone, Case, General Motors, Chrysler, Johnson & Johnson, U. S. Industrial Alcohol, U. S. Smelting, Libby-Owens, Santa Fe, N. Y. Central, Westinghouse, Caterpillar Tractor, Montgomery Ward, Sears Roebuck, Howe Sound, American Sunbata Tobacco, Allied Chemical and California Packing. The utilities and oils were quiet.

The flurry in McCray stocks apparently reflected reports that reorganization plans for this chain were maturing. The company has been in receivership since early last year.

The carrier shares seemingly paid little attention to a contra-seasonal decrease in freight car loadings for the week ended Oct. 27, of 15,028 cars. The total of 694,352 was 18,171 under the total for the corresponding 1933 week, but 1,068 above the same week in 1932.

While motor stocks were unimpaired in the previous session to Ford's, properly pronounced, overnight consideration of the Detroit manufacturer's prognostications of better business attracted renewed attention to the automotive group.

The strength displayed by world markets was attributed partly to the possibilities of a cash crop on the French and German in the East. France has recently been a heavy wheat exporter and, should trade result between the Republic and the Reich, it was argued that this grain supply would dry up immediately.

The recovery in crude rubber prices was coincident with reports from abroad that a new conference of producers would be convened soon and that an agreement was highly probable for substantial price reductions.

Inflation-minded stock traders continued to maintain their view that drastic currency expansion and future dollar devaluation cannot be avoided in the long run. This was pointed to the announcement from Washington that 1934 gold production has shown an increase of \$3,238,208,000 during the past year, that the President had indicated the unbalanced budget will be stretched to restore parity with government securities and that governmental spending shows no signs of abatement.

STATE LIQUOR TAXES SHOW AN INCREASE

Over \$11,000 More Than the Preceding Quarter and \$256,000 Over Same Period Last Year.

Hartford, Nov. 2.—(AP)—The State Tax Department has just completed an analysis of the beverage tax reports filed with the department for the first quarter of the fiscal year. The tax, as provided in the State Liquor Control Act is 1 per cent on wholesale sales and 4 per cent on retail sales.

The tax yield for the period ended September 30, 1934, was \$30,092,75 which was \$11,555.28 more than for the quarter ended on June 30, and shows an increase of \$256,000 over the same period in 1933.

However, as the sale of alcoholic beverages other than beer and wine was not legalized until December 6, 1933, the revenue for the 1933 period was from the sale of beer and wine only.

The total receipts from the retail sale of alcoholic beverages for the first quarter of the current fiscal year amounted to \$6,927,506.40, of which liquor receipts amounted to \$2,735,963.0 or \$788,398.25 more than package store receipts, which were second with \$1,970,044.85.

Receipts by restaurants amounted to \$1,200,587.25, which was an increase of \$2,883,762.50, while receipts from the sale of the national distillery were second with \$1,498,832.75.

The total receipts from the sale of alcoholic beverages were \$12,061,869.40, which was \$1,977,119 more than the total of \$10,084,750.25 received from the sale of wine and other alcoholic beverages. The revenue from the sale of hard liquor was \$4,895,839.55 less than the \$5,791,679.10 received from the sale of beer. Of the tax collected by the state \$277,600.44 was on retail receipts, \$611,290.43 on wholesale receipts, and \$1,118,138 was imposed as penalties for failure to report sales as prescribed by statute.

HOPKINS ANSWERS FLETCHER CHARGE

Accuses Republicans of Lack of Understanding or Sympathy for Underprivileged

Washington, Nov. 2.—(AP)—Harry L. Hopkins, relief administrator, accused the Republican right command today of a "complete lack of understanding or sympathy for the underprivileged class of America."

Answering statements by Henry P. Fletcher, Republican national chairman, that Mr. Roosevelt's administration has been playing politics with relief money, Hopkins said at his press conference:

"The clear implication of this campaign being conducted by the former ambassador to what country was that, anyway?—that the Republicans are saying they won't take care of the destitute unemployed if they should get back into power."

"Their attack indicates a complete lack of understanding or sympathy for the underprivileged class of America."

"The business of relief funds influencing elections, buying votes, is ridiculous. It is disturbing in only one way, that it is a waste of money that ought to be spent taking care of the unemployed."

"Our November grants to the states were made at the usual time. If we'd stepped up contributions or thrown a whole mob on work relief, they might have been more excited for their attack."

"What would the Republicans do if they were in office? The only implication that they are trying to pay unemployment funds. They are afraid to say that—but that's what they mean."

HEYDLER QUITS POST IN NATIONAL LEAGUE

New York, Nov. 2.—(AP)—John Arnold Heydler, president of the National League of Professional Baseball Clubs since 1919, today announced his resignation, because of ill health. It has been accepted by the league.

Heydler's action came unexpectedly. It was revealed today when he called into session the board of directors and made known his decision, which he said was final.

The directors themselves, including Charles E. Bronson, president of the Pittsburgh Pirates, Emil E. Fuchs of the Boston Braves, and John O. Sauer of the Chicago Cubs, had no objection to Heydler's resignation, which he accepted with regret.

BATTLE IN CATHEDRAL AT MEMORIAL SERVICE

Oran, Algeria, Nov. 2.—(AP)—A fight in the Cathedral today interrupted a memorial service for the late Raymond Poincaré, war time president of France and the assassin of John Barthou, French minister of foreign affairs. The fight occurred when the Abbe Lambert, a priest who is the mayor of Oran, forced his way into the church in defiance of the ecclesiastical authorities.

BITTER POLITICAL BATTLES CONTINUE

With Postmaster General Farley on the political sidelines, the French situation is particularly interesting in the eyes of the newspaper. Farley is not expected to return to France until the next week. He is expected to be in New York, where he will be in the hands of the national distillery.

The campaigning rolled to a climax both major parties reported small expenses compared to war-time figures. The Republican Party reported a total of \$1,000,000 for the campaign. The Democratic Party reported a total of \$1,500,000.

FIND \$33,000 IN BONDS TAKEN IN WALLINGFORD

Wallingford, Nov. 2.—(Continued from page one) The textile leader pointed in glowing terms the benefits resulting from the industry's code. He said more than 100,000 workers, formerly idle, had been given work. He said that wages were 76 per cent higher during this summer's slump, than during the same period last year.

"All this increase in payrolls, he said, had resulted in a drop of eight per cent decline in production of articles under the code. He said that he had no fear regarding the attitude of the government or the new National Industrial Recovery Board on questions affecting the industry now in operation."

"Whatever concern I have," he said, "is largely to the attitude of a relatively few men who are endeavoring to impose their economic theories upon the government and upon industry."

Charles Philbourn of Norwich, president of the Connecticut Textile Council, urged labor to forget Cross on election day because he forgot labor during the strike. He said that when the strike started and Cross sent an investigator to Putnam, he had a conference with the investigator and told the latter that there was no need of troops. He said that he would not permit peace.

"In spite of my promise they sent troops to Putnam and they stayed there until the strike was over," Philbourn said. The other speaker was William Randen of Jewett City, who said that he had been a member of the national distillery and was a member of the national distillery.

In his attack on Dr. Sattl, Dans said that the candidate for secretary of state "double crossed" labor.

Dr. Sattl was attacked by the children who led the parade. Assistant professor Richard Austin said that Dr. Sattl was a member of the national distillery and was a member of the national distillery.

GERMANY REARMING CHURCHILL ASSERTS

Churchill said England must face the future "with energy and courage if a safe, coherent and peace-keeping policy is to be found."

Churchill warned his hearers Germany will have "overaken us before another year has passed" in "the gita of the plimmet warning" and the facts, practically nothing has been done during the whole year.

Churchill attacked the British government for what he termed "slowness in completing the program for air defense, declaring its attitude as one of 'wait and see'." He said that the British government, the rapidly expanding European scene, and the changes which ministers presently are declaring we have in Europe.

Modern servicing equipment of
the latest design has been added to
the Schaller garage and repair de-
partment, of a type only to be found
in metropolitan areas. For example,
the repair department is now equip-
ped with the leading unit for align-
ment of wheels and axle, which
is a marvelous piece of garage equip-
ment and one that is not to be found
in any other garage. The unit is
not only accurate, but it is also
easy to use. The unit is also
equipped with the latest type of
grease gun, which is also of a
new design. The unit is also

By the use of the Bear alignment
method of wheel setting, the
old-fashioned grinding paste, con-
sequently to receive a more reliable
job, it is absolutely essential that
modern equipment of this type be
used on the motor.

One of the greatest and most
modern pieces of equipment added
to the Schaller shop department is
the Allen motor tuner, an almost
human machine which can detect
imperfections of every moving
part of the car. The Allen tuner
is the only machine of its kind in
the area. The Allen tuner is also
equipped with the latest type of
grease gun, which is also of a
new design. The unit is also

used in operation to see the
mechanical accuracy in every
detail and to see the exact
condition of every part of the car.
For the most work the Schaller
Motor Sales management, as an in-
spection club, will give complete
inspections of your car with the
Allen Motor Tuner at a special
price of \$1.00. This special price
is available for you to let your

possible for you to let your car
drive with assurance that you
will not suffer any of the
troubles in any weather, due to
some mechanical defect, perhaps un-
noticed, but which is detected
by the motor analyzer.

THEY HAD THEIR FUN
NOW THEY'LL PAY FOR IT

Youngsters Who Broke Win-
dows Halloween Must Find
Way to Earn Cost of Glass.

It is going to cost four boys about
12 years of age 75 cents each for
the "fun" that they had on Wednes-
day night. The four boys in ques-
tion are putting stunts, as they
thought, in the vicinity of Flower
street. One of the things that they

did, and for which they were last
night rounded up by Policeman
Joseph Proutie was breaking win-
dows.

While Henry Kuster of 37 Flower
street was seated in his home read-
ing on Wednesday night he was dis-
turbed when there was a crash of
glass and a pair of old shoes landed
near him and two lights of glass in
the window were broken. The boys
made a getaway at the time, but
yesterday they were detected and
last night when their parents were
informed of their action they agreed
to pay for the damages. The boys
will have to find a way to earn the
money to pay for the damages that
resulted for their night of "fun."
