WATKINS NOW BACK IN STATE'S PRISON

Former Hartford Broker, Paroled in 1933, Taken to Wethersfield on Charge of Violating Parole.

New London, Dec. 27.—(AP)—Roger Watkins, former Hartford broker whose financial deals sent him to prison in 1928 but who was paroled in 1933, is back behind the bars of the state prison in Wethersfield. He was taken to prison last night for what officials described as "flagrant" violation of his parole in connection with the recent bankruptcy of the Puritan Bakery Company of West Hartford. Specifically, he is charged with defrauding several New London salaried men who were promised employment after posting \$300 of the bonds. They complained that Watkins insisted they give a \$150 cash bond to guarantee their honesty and protect the bakery, of which he was president, in case anything should happen. The \$150 as first payment on delivery trucks which eventually would be theirs when other payments were completed. The complainants charge they never obtained ownership of the trucks and that Watkins used the money for his petition for which he filed a voluntary petition in bankruptcy on December 14, listing practically no assets.

When the complaints were filed with George H. Bradley, state parole officer, an investigation was started immediately. Mr. Bradley came to New London yesterday and after questioning the seven men he determined that Watkins' transactions constituted a violation of the provisions of his parole. It was not necessary to arrest Watkins, Mr. Bradley simply took him into custody and returned to the state prison. Watkins' sentence behind prison walls was short lived. The broker who maintained luxurious offices in Hartford in the hey-day of his success as head of the Winthrop, Gregory and Co., R. W. Watkins & Co., and the National Associated Investors was convicted in the Hartford Superior Court in October, 1928 on charges of conspiracy to cheat and defraud and making a fraudulent return to the state tax commission. The charges were preferred after his financial structure collapsed with a loss of hundreds of thousands of dollars to investors in all parts of the state. He was arrested in Lorain, O., after a four months chase across the country and back, by County Detective Edward J. Hickey of Hartford.

After a spectacular trial he was (Continued on Page Two)

HELPLESS VESSEL IS NEARING PORT

Belgian Freighter, Without Rudder, Being Towed to Halifax Harbor.

Halifax, Dec. 27.—(AP)—A low-lie was shot across storm sweeps today to the rudderless Belgian freighter Emile Franconi, averting the possibility of the crippled vessel being swept on to the Sambro ledges. After a long battle during which a towline once was parted, the tug Foundation Franklin made ready to tow the Franconi into Halifax harbor. The full gale which impelled the 6,000-ton craft and its crew of 35 last night had abated today and its difficulty was expected in completing the rescue. Three other vessels, the government steamer Lady Laurier and two small tugs, the Bunshee and the Bots, were standing by to assist if needed.

Night of Tension Chimer weather brought an end to a night of tension during which it appeared that the safety of the disabled Franconi was imperiled after original rescue efforts were frustrated. The Foundation Franklin itself experienced trouble with its steering gear after the towline parted. The Franconi put down two anchors and maneuvered with its engines to keep from piling up upon the reef. The steamer was homebound bound from New York Sunday when her rudder was carried away 200 miles southeast of Sabre Island and was taken into tow this morning by the Henri Jaspard, another freighter of the same line. When the two vessels neared Halifax yesterday, the line snapped and they were parted by the bounding tugs. The ocean-going tug Foundation Emile Franconi then put a line on the disabled Franconi and began to tow her toward the harbor while the Henri Jaspard, believing the rudderless craft was safe, continued on her way to New York.

RELIEF, BONUS, NRA ARE MAIN SUBJECTS NOW

Democratic Leaders in Congress Say They Will Be First to Be Brought Up Next Week.

Washington, Dec. 27.—(AP)—The season of Congress opening next Tuesday will in the opinion of some Democratic leaders see three major debates, over relief, the cash bonus and NRA. They are other headline disputes in the making too—notably inflation, methods of handling unemployment insurance and social security measures and possibly the World Court, but they said today the first three are uppermost in their minds now. While these leaders who do not wish just yet to be quoted by name sought to read the future and prepare for it, President Roosevelt's words in the message he will deliver January 4, some persons close to the White House described it as largely as a "middle ground" document. Cabinet officials and other high officials were to confer with him today or tomorrow.

Future of NRA How many times the message will deal with it is not known, but most observers believe relief and the future of NRA will be included. Whether the president would have any suggestion to make on the soldiers' bonus, perhaps in a later message, is a subject causing speculation. As for relief, the size of the spend and the question of debt vs. made-work are considered leading problems. In recent months, administration leaders have shown signs of favoring a swing to work relief.

POILUS AND TOMMIES MEET

Another generation of soldiers renewed the friendly alliance that was cemented in Flanders mud during the World War, when British soldiers en route to police the Saar basin during the plebiscite next month made the acquaintance of French troops at Calais, where they landed. The French detachment was the largest group of British soldiers to land in France since the Rhineland was evacuated. Moscov, Dec. 27.—(AP)—The Soviet government acted speedily today against a band of young Communists charged with having plotted the assassinations of Joseph Stalin and other high leaders with the aid of the exiled Leon Trotsky. The assassinations were to be followed, the government alleged, by the intervention of capitalist powers. The company's investigation of the unfortunate accident at Dundas on the night of Dec. 25 shows that Passenger Extra 5300 arrived at Dundas siding at 9 p. m. and stopped there out of control at 10:05 p. m. After the passenger extra had entered the siding, crew chief Brakeman Phelps properly set and locked the switch for the main line and turned the marker lights on the rear of his train from red to green to indicate to the engineer of any following train that the passenger extra was clear of the main line. Many witnesses testified he often said the present Soviet officials would be stripped of their power through foreign assistance.

BRIDGEPORT FINDS ITS FUNDS EXHAUSTED — MERCHANTS WOULD ACCEPT THE PAPER.

Bridgeport, Dec. 27.—(AP)—The use of scrip to pay the \$5.00 weekly wages to about 1,600 relief workers on the payroll of the welfare department may be necessary within the next month, it was learned today as a result of depletion of the unemployment relief fund. The fund was exhausted on December 21. Members of the welfare board took official cognizance of the exhaustion of their fund at a meeting last night when they voted to notify the tax board of conditions and asked that ways and means of securing more money or extending credit be made. Simultaneously the board asked for a record-breaking appropriation of \$3,081,890 for departmental expenditures during the fiscal year of 1935-36.

GALE WHIPS TOWN WITH ICY BLASTS

Branches of Trees Torn Off But Damage Is Small—Mercury Drops Fast.

Riding in from Lake Huron on the heels of a driving rain, a north-west gale that attained a velocity of over 50 miles an hour lashed Manchester all last night but did no appreciable property damage.

The gale ripped off a huge limb, fully 18 inches in diameter, from a maple tree on the Rich property on Oak Center street, opposite the East cemetery.

The wind also broke off a limb on a tree on the property of Dr. Le Verre Holmes at 267 Main street. The limb, however, dropped into another tree and did not obstruct traffic.

At the close of the program, the school, on masses, including the teaching staff came forward to deposit their envelopes containing money for missions, then separated.

EXPECTS PERFECT SKATING TONIGHT

Parks Superintendent Believes Cold Spell Will Make Ice Ideal Today.

Superintendent Horace F. Murphy of the park department announced today that, as a result of the cold spell, the ice at Center Springs park will be in perfect condition for skating by this afternoon.

Mr. Murphy said that the mild weather of the past few days has "softened" the ice to the extent that marks cut by skates are left on the ice, leaving ridges that remove ideal skating conditions.

It is expected that the cold spell will be broken this afternoon, indicating to skating enthusiasts that the condition of the ice is good enough to permit them to indulge in the sport.
