

STATE'S MILK PRICES
DEFENDED BY MORRIS
 Tells Hartford Club That Consumers Fail to Realize What Goes Into the Product to Keep to Standard.

Hartford, Jan. 18.—(AP)—Consumers of milk fail to realize that the final measure of actual value is a price that will guarantee to consumers at all times an adequate supply of milk.

He asserted the vital factor of a constant buyers market was frequently forgotten in discussions of the milk problem and that the surest solution of seasonal overproduction is intelligent understanding on the part of the consumers as to the exceptional value which it purchases behind the state's label.

Speaking at a luncheon of the Hartford Civitas club, Morris explained the prevailing consumers market in the milk industry and its economic cause.

SEVENTY-ODD CENTS

President Roosevelt yesterday presented to Congress, with a program of "social security," as a means of relieving the distress of the unemployed.

RECOVERY FOUNDATION

There was held in Washington on Wednesday an National Monetary Conference in which were represented sixteen so-called isolationist groups and which produced a set of resolutions of many times more importance and significance than Mr. Roosevelt's laundry and meaningless messages on "social security."

Money—the bank to acquire the assets of banks closed since Jan. 1, 1933; the creation of a sound and adequate currency by printing the dollar from gold and by the conversion of silver; the immediate payment of the compensation certificates in non-interest-bearing legal tender notes; the immediate payment of borrowing by the government on interest-bearing bonds and the payment of such bonds on maturity, in gold.

SPOTLIGHT JUDGE

Probably animated by a laudable desire to win the spotlight by beating the United States Supreme Court, Justice Steyer is the son of a well known New York lawyer and got his job as the result of a deal that was so sagacious that it was loudly proclaimed by most of the New York press.

HEALTH AND DIET ADVICE

Most people do not realize how much of their lives are controlled through the fears they have developed. Most of these fears are needlessly grown through habits of thinking developed from the influence of the environment.

Smartsness is captured in this group by the use of simple, graceful lines and a striking combination of antique white and chocolate brown enamel.

controlling the sea and protecting our commerce was and is the navy... It didn't quite jibe with the new foreign policy which Roosevelt is working out, which would discourage American ships from sailing into war zones and inviting incidents which, if we insist on carrying up our "rights" with the navy, might drag us into war.

BARGAIN HOUND

Try for that waffle iron door prize by attending Monday night's card party at St. Bridget's parish hall.

To remove fresh ooze or chocolate stains, scrub with water and spread with borax. Roll up for one hour, rinse in cold water and wash in warm water and soap.

Again we have strawberries 60¢ per quart at Garro's, also fresh hams and fresh watercress at 10¢ a bunch.

This year Pars will greet the springtime dressed in blossom colors. The new dresses are made with contrasting colors and ribbons. A two-piece frock of bright blue is faced with black crepe all down one sleeve. On the opposite side the lacing starts at the neck and stops before the shoulder, where the sleeve begins. Silly, to be sure. But charming! A dress in honeycomb tan (the new color) is faced at the neck and cuffs with cords of maroon wool. The lacing goes over straight from one side to the other, not the old-style erosecure.

Ripe or pimiento stuffed olives added to French dressing and poured over vegetable salad give a good flavor, rather quaint and one that blends well with roast, chop or fish dinners.

The ideal way to furnish a hangings is going to be shown to us by Montgomery Ward & Co. Have you seen the complete line of living room on display in their window? If you haven't, go down and see it and watch for the new pattern. The rooms are going to have a different one every other room, including the kitchen, bedroom, parlor, etc.

Frosted stuff with cream cheese make tasty garnishes for fresh or frozen fruit salads.

A smart afternoon dress is fashioned of metal shot jersey. Emerald and emerald stripes, which repeat the silver and green of the frock, mark the square-cut neck. A
