Representatives of Executive, Judicial and Legislative Branches Pay Tribute to Those Who Laid Foundation of Connecticut's Government.

Hartford, April 26.—(AP)—Homage to the men who laid the foundation of Connecticut's government was paid today by representatives of the executive, judicial and legislative branches, as the state formally opened its Tercentenary celebration. While factory whistles wailed and motorists tooted the horns of their automobiles, high dignitaries of the state led by Governor Wilbur L. Cross marched from the Capitol to the Bushnell Memorial Hall across the street to commemorate the first meeting of the General Court of Connecticut.

In the procession as it filed out of the Capitol into the brilliant sun, were the black robed members of the Supreme Court of Errors and the General Assembly, the governor's military staff and the historic First Company of the Governor's Foot Guard which dates back to the days of the revolution.

FARMERS MADE SLAVES BY AAA, COLBY ASSERTS

Former Democratic Cabinet Member Calls New Deal Tyrannous — People See Mistake Now, He Says.

New York, April 26.—(AP)—The Democratic Party was charged with making the Nation a Socialistic state and enveloping it in a mesh of tyrannous and bureaucratic rule in an address by Bainbridge Colby before the American Newspaper Publishers Association, which ends its convention today.

The former secretary of state said that freedom of the press is often stressed at the convention, was not the only thing imperiled by the proposed legislation, he said last night, would reduce the farmer to the level of a serf with the secretary of agriculture controlling every step from "sowing to consumption."

He asserted the "bureaucrats" would be given power to make regulations which would violate without going to court.

"No Democrat," Colby continued, "I would venture to remind the body and the nation that the instruments of the Democratic Party, which are the instruments of the government of the United States, were established at the risk of arbitrary, discretionary executive power."

No counterpart saying the present administration has no counterpart save the autocratic way of unrestrained dictatorship.

"The Democratic Party cannot, we will turn from legal regulation to executive regulation, from law to personal power without regard to the law."

Gov. Talmadge Declares Political Strings Are Tied to All Relief Funds.

Atlanta, April 26.—(AP)—Gov. Eugene Talmadge, whose criticism of the Roosevelt administration has been condemned by the newspaper, said today that the relief funds which supported him in his rise to the gubernatorial chair, charges the administration with using "Tammany methods" in handling relief funds.

SEE SETTLEMENT OF TRUCK STRIKE

Hartford Reports Agreement Has Been Reached But Picketing Continues.

Hartford, April 26.—(AP)—Possibility of a settlement of the truck drivers strike within 48 hours loomed today as union officials and operators prepared for a conference which will be held late this afternoon.

At a meeting yesterday, "auto-factory progress" was reported by both John J. Murphy, president of the local truckmen union and Joseph H. Adley, representative of the transportation companies.

Both factions were pledged to secrecy concerning the detailed topics discussed at the conference. It was understood today that a compromise will be effected between the two groups. The main question at issue is that of the open or closed shop with operators free to work for either side.

Use Photo-Electric 'Eye' To Check Liver Trouble

New York, April 26.—(AP)—Blood pigments split up by faulty liver action.

The electric eye distinguishes between the two sources of liver trouble through use of a little special light on the blood under observation.

An explanation of convolution was given by Dr. Mona Spiegel, University of Pennsylvania, Philadelphia. They have found that convulsions of the kind may spring from one common type of brain mechanism gone wrong.

Under their theory, a convulsion would occur when brain tissues lose their normal density, so that they would denature more easily.

This theory they tested electrically on brain swellings, one of the causes of convulsions. They found that with swelling, the brain tissues lost density—regained it when the swelling went down.

"These experiments," they stated, "are a first step in the search for therapeutic measures that influence the physico-chemical properties of the nerve cells in convulsive diseases."

HOLLYWOOD MYSTIFIED OVER TRIPLE SHOOTING

At First Glance It Appears as Murder, Near Murder and Suicide But Circumstances Queer.

Hollywood, April 26.—(AP)—Death stalked through Hollywood last night in a triple shooting which left three men dead and a third probably fatally wounded.

With apparent ease, a man of 35, an ex-Navy ensign and chauffeur for the late Edward Atkinson, twin-brother of Miss Margaret Atkinson, valletorian, was shot dead in the street.

Henry E. Bello, 38, law instructor at University of California at Los Angeles, was shot dead in the street.

Wharton, known professionally as Paul Ivor, who assertedly had current assets set down at \$25,000, was shot dead in the street.

SENATOR BAILEY DENOUNCES PRIEST

Declares Rev. Coughlin Has No Right to Title of Father Because of Acts.

Washington, April 26.—(AP)—Absorbed in the preliminary framing of political lines for 1936, the capital sought today to assuage the office of Senator Bailey's denunciation of Father Charles E. Coughlin as a man of "damnable ambition," who seeks to "sit up the fountains of hate in a distressful land amongst a suffering people."

With this party talk very much in the air, observers also watched to see whether an answer might be forthcoming soon to the question whether Father Coughlin and Senator Long (D., La.), may unite their forces in 1936.

Senator Long was ready to denounce Father Coughlin, Bailey said, but he held back because of the pressure of the election.

BRITISH FREIGHTER STRIKES ICE FLOE

Hull Badly Damaged and Other Vessel Is Rushing to Her Assistance.

St. John's, N. F., April 26.—(AP)—With her hull badly damaged in a heavy lead, the British freighter, the *Titania*, was seen today by the British motor ship, *Titania*, requested immediate assistance.

The head of the *Titania* immediately sailed under full steam from this port toward the *Titania*.

The message received here indicated that the *Titania* had been damaged in other parts and probably should be assisted only by an ice breaker.

Because of the similarity of names it was at first thought that the ship was the Italian steamer, *Titania*.

It was estimated that the *Titania* would require 12 to 15 hours to reach the *Titania*'s position.

The motor ship, owned by W. A. Bourne and Co., a British firm, sailed from Newcastle, Eng., on April 25 for Port Alfred, Quebec, 11 of 4,900 tons.

"These experiments," they stated, "are a first step in the search for therapeutic measures that influence the physico-chemical properties of the nerve cells in convulsive diseases."

SILK SHIPMENTS GOING BY EXPRESS

Perrett and Glenney Not Attempting to Operate Trucks During Strike.

Outgoing shipments of finished merchandise from C. Fisher Brothers to New York are being handled by the Railway Express Agency and will continue to be until the strike of truck drivers has been settled, it was learned today.

Reports were in circulation around the Cheney mills this morning that two Perrett and Glenney trucks with goods for the mills loaded on York, but this was vigorously denied at the Perrett and Glenney offices.

All of our trucks are in the garage. It was said at the Perrett and Glenney offices. This informant added that a checkup would reveal that the Railway Express Agency was transporting the Cheney mill shipments to New York.

Main arteries of travel through Manchester, which ordinarily rumbled under the wheels of cars and passing trucks en route to the regional centers during the early morning hours, have been devoid of truck traffic since the strike started.

The truck traffic section is reported complete.

Strike leaders and truck workers were expected to confer in New York today, with prospects of a settlement of the strike appearing bright. Some paralytic violence has been reported since the strike began.

JEFF DAVIS REELECTED KING OF THE HOBOES

Perpetual Title Conferred on Leader of the Knights of the Road.

Pittsburgh, April 25.—(AP)—Jeff Davis of the hoboes is perpetually reelected—the crown rests on Jeff's head "as long as he lives."

Workers unananimously acclaim the itinerant assembly leader, voted it today. He has no other monarch as long as he lives. Little veteran can still wander the roads.

The perpetual title was conferred on Davis, now in his 50's, has been proclaimed the king of the hoboes because there have been some claims to the kingship of the hoboes among them. J. L. D. M. C. S. Lazarowitz, of no special address, whom Jeff says is not a member. Lazarowitz recently renounced his aspirations, however.

WALL ST. BRIEFS

New York, April 25.—Wood goods markets were generally slow last week, as is customary during the period immediately preceding Easter. The New York Wool Top Exchange in its weekly summary of trade conditions, Men's wear market was active on full market, and most wearing parlors are reported sold up for May and June.

Postal inspectors were summoned here to investigate, and Coroner William Jenkins called an inquest. Barrett's bond of \$10,000 was ordered forfeited, and a bench warrant was issued for his arrest by Federal Judge H. Church Ford after Barrett failed to appear for trial. He was charged with complicity in the \$12,000 robbery of the Harry-Burleigh Mining Company's payroll from a mail truck near Hazard, February 27.

Barrett was indicted with Floyd Hendrix, Ralph Hall, Marvin Hall, and Blake Centers, who are held in jail here.

New business booked at the lumber yard for the week ended April 20 was the heaviest of any week of this or last year with exceptions, according to the National Lumber Manufacturers Association. In comparison with the corresponding week last year production was 3 per cent lower, shipments higher by 7 per cent and orders by 25 per cent.

A new issue of \$2,000,000 coupon serial debentures of the Addressograph-Multigraph Corp. is being offered for investment subscription at par and accrued interest. The proceeds will be used to retire bonds of \$1,500,000 and for working capital.

Shares of Silver King were an especially strong spot with a gain of a point or more abroad, including a point. Esmeralda Kodak was up a point. Others fractionally to a point or more abroad, including Esmeralda Kodak, American Smelting, Howe Sound, American Smelting, Park Utah, American Smelting, Standard Oil of California and New Jersey and American.

Coca Cola lost 4 points. U. S. Steel, Case, Chrysler, General Motors, American Gas, Celanese, Deere, Consolidated Gas, National Dairies and Schenley drifted lower. The rally spotted a shade in either direction.

In New York imported silver for commercial use was boosted 5 cents an ounce to 81 cents. Privately, in London, the metal was raised to an equivalent of 78.75 cents an ounce and distant futures in Montreal showed the permanent day's limit of 78 cents to 81.81.

Trading in Bombay was uneventfully suspended owing to price fluctuation. Exchange commentators were still bullish on stocks, as a whole, but the recent sharp upturn in mining issues brought some cautionary advice from these quarters. It was pointed out that the maximum benefits of hoarding silver prices will be realized only by a few companies until such a time as the production of copper, lead and zinc increases. In many mines silver is by-product. Stock observers were cheered by the freight car loadings report for the week ending April 25, which showed a much more than seasonal increase over the previous week of 22,225 cars. The report gain was 75 per cent more than the previous week.

ABDUCTION VICTIM PLEADS FOR MCGEE

Miss McElroy Asks Governor to Spare the Life of Gang Leader.

Jefferson City, Mo., April 25.—(AP)—Miss Mary McElroy pleaded with Governor George B. McEwen today to spare the life of Walter H. McGehee, leader of the gang that kidnaped her for \$30,000 ransom nearly two years ago.

Virtually all legal avenues of escaping the gallows had been closed to McGehee when the 26-year old daughter of H. F. McElroy, city manager of Kansas City, visited the governor—in behalf, she said, of both kidnaper and victim.

"In pleading for my own peace of mind, I am pleading for the peace of mind of the thousands of people who are still in the grip of the McGehee gang," she said.

Miss McElroy previously had expressed sympathy for the men convicted on her testimony and had disclosed the thought of sending McGehee to his doom was a "nightmare" preying on her mind.

McGehee's attorney had spent 22 1/2 minutes in his private office, Gov. McEwen said.

"I did not indicate to them what course I would take. He asked me to let 'em go," she said, but she would not say if she would do so.

Guests are expected from clubs in Glastonbury, Rockville and Hartford.

Karl Koller has served as business manager, Miss Faith Fallow has had charge of tickets, Walter Henry as usual, the stage, and Ernest Malloy the house. Miss Owen Prescott who has had charge of properties has secured several fine pieces of furniture from friends of the Players.

ORGANIZE JUNIOR ORANGEMEN HERE

Nathan Hale Lodge Is Started at Meeting Held Last Evening.

A group of 28 boys came together in the Orange Hall last evening and organized a lodge of Loyal Orange Young Americans. The name of Nathan Hale Lodge, No. 7 was adopted.

A petition has been sent to the Supreme Grand Secretary for the granting of a charter. Captain Curtis is present and gave the boys excellent advice on "The Building of Christian Character" and how to conduct an Orange Young American lodge.

The lodge will be instituted the latter part of May with the Supreme Grand Master and associate officers conducting the ceremonies. It is planned to keep the charter "open" for a period of three months to give any boy who is eligible for membership an opportunity to join.

The organization of these boys' lodges is in keeping with the contemporary celebrations this year in the state of Connecticut. Similar units are in vogue in Massachusetts and other states of the union.
