

O. K. OF THOMPSON AGAIN SIDETRACKED

For Second Successive Day Nomination Is Held Up—Cross Accepts Gates Resignation in Surprise Move.

State Capitol, Hartford, May 1.—(AP)—For the second successive day the Senate temporarily sidetracked today the nomination of Senator Harvey L. Thompson, Democratic, as state agent of agencies and institutions.

Acceptance of the Gates' resignation came as a surprise move while the Senate prepared for a showdown on the governor's nomination of Thompson.

Acceptance of the Gates' resignation came in the midst of a series of dramatic developments which included the adoption by the Senate of a resolution ordering all spectators behind the bars that separates the Senate floor proper from the corridor reserved for visitors.

When the Senate convened at 12:38 p. m. (E. D. T.) Senator W. H. Hungerford made a plea for visitors to clear the space behind the brass rail in the Senate chamber.

**Supreme Court Hears Arguments Involving Authority in Humphrey Case.**

Washington, May 1.—(AP)—The authority of President Roosevelt to remove the late William E. Humphrey from the Federal Trade Commission was attacked in the Supreme Court today by William J. Donovan, a New York state Republican leader.

Representing the executor of Humphrey's estate, Donovan filed a brief insisting the President had no authority to remove Humphrey from the commission. He argued that the commission was created by an act of Congress and its members were appointed by the President.

In July, 1933, Mr. Roosevelt resigned Humphrey to resign, saying in a letter, "I feel that the aims and purposes of the administration with respect to the work of the commission can be carried on most effectively with personnel of my own selection."

Humphrey refused to resign, saying he had at all times conscientiously and efficiently discharged his duties as commissioner. The President removed him in October, 1933, and appointed a successor who was confirmed by the Senate.

Humphrey vigorously protested, contending the President was without authority to remove him. He said he was innocent of any charges of inefficiency, neglect or malfeasance.

**ABANDON NRA CODE, WALKOUT FOLLOWS**

re-opened tomorrow morning under heavy guard to see whether sufficient workers could be recruited for operation.

There was no indication from the management of intention to re-tract the orders, and what steps the workers would take was indefinite. Several hours after the walk-out the workmen apparently had not perfected an organization and had no authorized spokesman. An organization meeting was expected to hold later in the day.

Police reported the area was quiet after the first scattered outbreaks.

500 Employees of Southern Plant Strike on Receipt of New Orders.

Goldboro, N. C., May 1.—(AP)—Approximately 500 employees of the Atlas Plywood Company went on strike here today upon receipt of orders from the home office at Boston in abandoning the NRA code. Outlets wages and increasing hours.

The strike apparently came spontaneously when employees, who are understood not to be unionized, read a posted notice at opening time which announced a cut in wages from 23 to 18 cents per hour and an increase in the weekly hours of work from 40 to 44.

The first without came at the company's Empire plant, where approximately 250 persons are employed. A scattering of workers who insisted on returning to their posts in the plant was required by a barrage of bricks and hastily summoned police cordons were required to restore order. No one was hurt.

Strikers from the main plant then went to the utility plant nearby, where they were joined by about half of the 150 employees there, and began picketing, which was promptly broken up by police. James Fields, a Negro, was arrested when he defied police orders to leave the property, but no formal charge was lodged against him.

First reports said the utility plant was closed, but it was operating a short time later with a partial shift. Guards were stationed at both plants.

Company officials announced an intention to take the workers to court for adequate service and future growth in land.

The statement issued by the members of the exchange companies Valley Power Exchange was as follows:

"Since 1929 New England has lost a considerable number of manufacturing concerns through moving, failure or voluntary liquidation. Very few have been replaced. This statement holds true about the territory served by the members of the Connecticut Valley Power Exchange. Considering the industrial load for this territory by itself, it would take an increase in the manufacturing business of 40 per cent over the 1929 peak demand to equal that of 1929.

On the other hand, the aggregate peak demand for all classes of service of the exchange companies was 300,000 kilowatts in 1929 as compared with 246,000 kilowatts in 1928.

**BIG SURPLUS OF POWER CAPACITY IN CONN. VALLEY**

Exchange Companies Amplify Federal Report Showing 174,000 K. W. Excess in 1935 Over 1934.

The recent statement of the Federal Power Commission that in a nationwide survey it had found a shortage of capacity in electrical generating facilities in the country at large with the exception of 13 states including Connecticut, Rhode Island, Massachusetts, Vermont and New Hampshire was supplemented today by a joint statement of Connecticut utilities which are members of the Connecticut Valley Power Exchange, showing an excess capacity in their territory of 71 per cent above the present demand.

These companies are the Hartford Electric Light Company, the Connecticut Light and Power company and the Western Massachusetts companies.

The five New England states mentioned above were among the only 13 states which were credited by the commission with a surplus of generating capacity. The commission's report, issued by the Federal Power Exchange was as follows:

# LET SUMMER COME! QUINS HAVE BONNETS READY

The Quaker Girl, 1935 model, as interpreted by Annette Hoimes in her fetching Easter bonnet. Look at these oval-shaped, and the caplets way she's spread her strong little hands out on the table-top. Your favorite actress has no better "camera presence" than this.

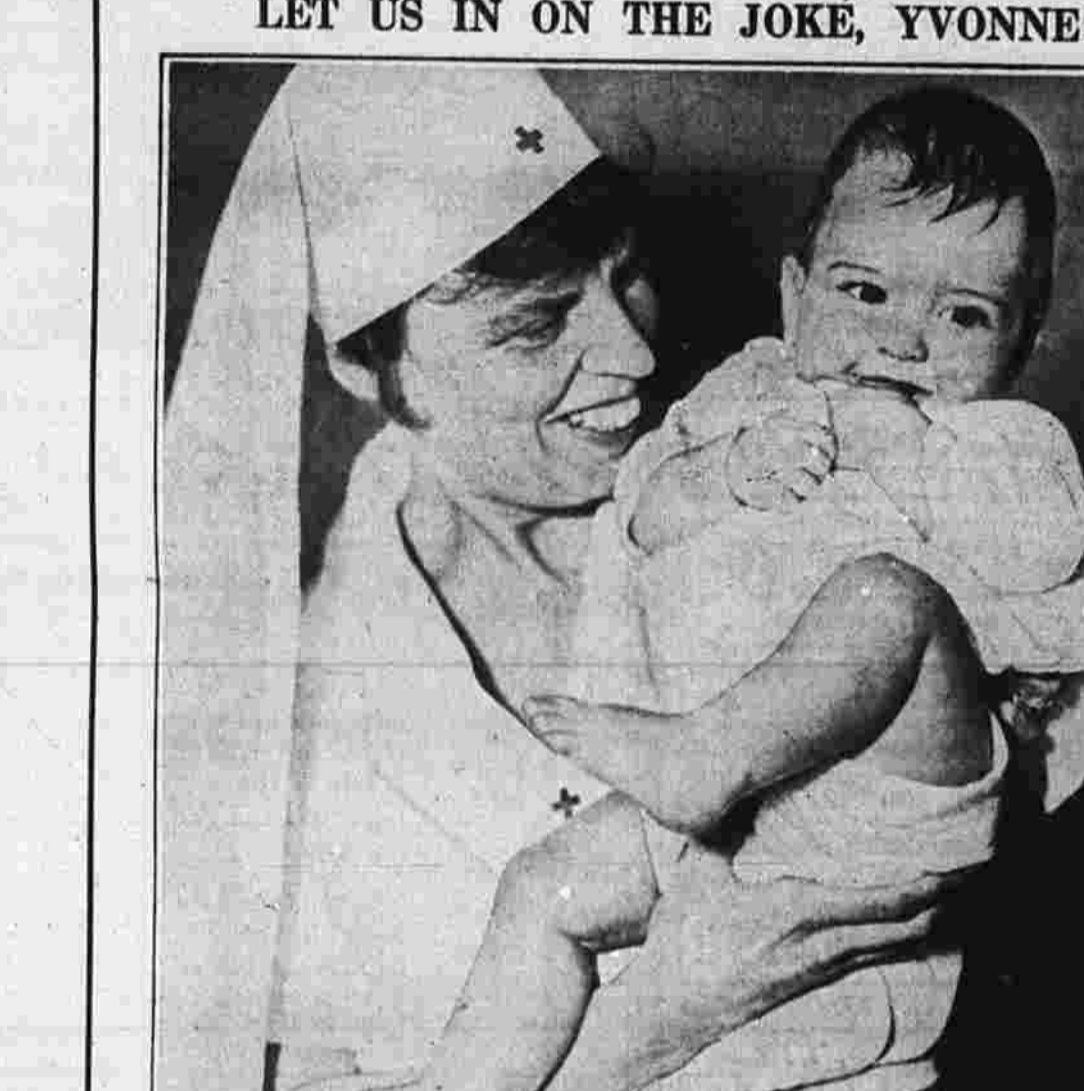

Yvonne just doesn't seem to care about the rakish angle of her bonnet as she flops back on the pillow and says, "I'm going to rest, bonnet or no bonnet, and what do you think of that?"

But Marie seems just a bit startled by the camera or something. Her wide eyes sparkle as she ducks back in the chair, throwing the bonnet a little askew. Still the smallest of the "quins," Marie's fat little wrist and hand tell the story of ever-increasing sturdiness.

No painting by Sir John Reynolds could better portray the happy innocence of childhood than this study of Colette D'Amico by Photographer Fred Davis. In her wide, rapt eyes she knows everything that makes babies loved all over the world.

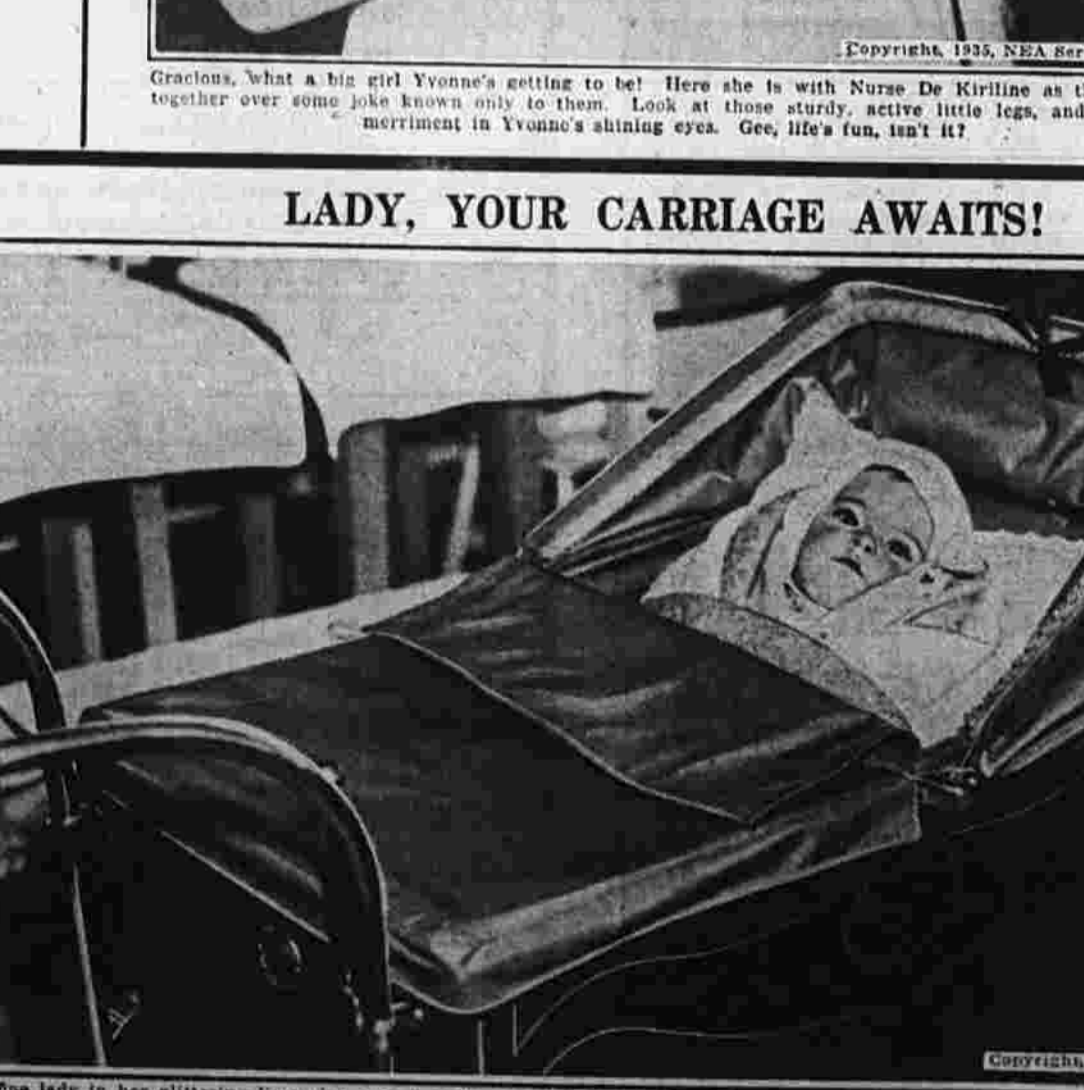

What young lady wouldn't look bright and happy if she could meet the spring with such a perky bow on such a summery bonnet as this one being sported by Ennie and her sisters? Ennie certainly looks ready for whatever comes next.

Gracious, what a big girl Yvonne's getting to be! Here she is with Nurse De Kiriline as they laugh together over some joke known only to them. Look at those sturdy, active little legs, and the real merit in Yvonne's shining eyes. Gee, she's fun, isn't it?

With a hat her hair looks and pale of the blanket by Nurse De Kiriline, she's ready for the daily sitting in her carriage. Doesn't she look proud and happy at the prospect?

No lady in her glittering impudience ever was turned out better for her afternoon drive than Annette as she reclines, song and warm in the carriage, one of five breeched to the minutest. Each has been engraved on the past visible in the middle of the side of the carriage, and each is tucked in, like Annette, with almost military precision before the daily venture into the outdoors.

Now we're ready, and get into the sunshine soon. Annette as Nurse De Kiriline directs the carriage and a straight, sturdy protector's soldierman stands against each of the "quins," being disturbed.

## TIGERS HIT STRIDE AFTER BAD START

### HURLERS, HITTERS ARE BACK IN FORM FOR AMERK CHAMPS

### Trim Browns for Third Straight Win; Yanks Edge Nats; Dodgers Wallop the Giants, Cubs Blank Bucs.

By HERBERT W. BARBER  
Associated Press Sports Writer.

That surprising early season slump of the Detroit Tigers, champions of the American League, is beginning to yield to baseball's inflexible treatment—heavy hitting, tight fielding and effective pitching. Mickey Cochrane's Bengals after dropping nine of their first 31 games, have won three games in a row, sweeping along in much the same steam-roller fashion they did a year ago.

Hurlers Begin Form  
A falling pitching star suddenly has regained form with Joe Sullivan, Tommy Bridges and Alvin Crowder starting and finishing the Tigers last three engagements; the team has played errorless ball in that span and the hurlers have scored 24 runs on 41 hits, 14 of them for extra bases.

Yankees Win Sixth  
Measurably in New York, the Yankees shaking up their sixth triumph in a row, rallying to two runs in the ninth to nose out Washington Senator 8-3. Bill Dickey's single drove the home runs with the winning run.

Chicago Wins  
The Chicago Cubs pulled closer to the leaders by beating Pittsburgh 3-0, with Roy Henshaw easily outpointing Ralph Bidinger in the decisive pitching struggle. Gene Schott throttled the St. Louis Cardinals, permitting only five hits, and the Cincinnati Reds clubbed out a 12-2 victory.

Dodgers Win  
The setback which Manchester Trades suffered from Windsor Locks last night and the local Mechanics with determination to return to the winning column to Cook burst through ball to beating Stafford High 6-2, and Quartus went out against Windsor, although he had difficulty with his control.

St. Louis Wins  
The St. Louis Cardinals, who had been in a slump, won their first game in a row, beating Philadelphia 2-0.

## BONURA'S APPETITE THREATENS CAREER AS BASEBALL STAR

### White Sox First Sacker Slowed Up Afield by Big Waistline; Too Fond of Spaghetti and Bananas.

By JIMMY DONAHUE  
NEA Service Sports Writer

Walter Marty, Fresno State College world high jump record holder, illustrates the western style of crossing the bar.

Chicago's surprising White Sox are going to lose the batting punch that is keeping them in the hair of American League leaders if big Zola Bonura doesn't curb his appetite for spaghetti and bananas and cream.

So says Jimmy Dykes, who, as boss of the Sox and singer of the Sox, has been the most prominent of the huge quantities of spaghetti and bananas that have been stuffed away, and who is in a position to know what means a quick ticket back to the bullpen.

Three strides, all spring and crouch, will bring his left foot accurately on the takeoff. The left foot hits the takeoff flat, to have the advantage of the lever action of the arch. The body goes into a gather, and the left knee is slightly bent. The right leg is kicked upward and side-ward, and, as it goes up, the body inclines to the left.

Then the right leg is straightened, and the left tucked under, to have the body into a horizontal position over the bar. After clearance, the jumper lands on his left foot.

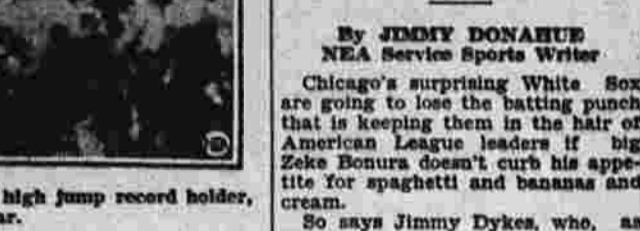

Excuse me, but he doesn't seem to be in a hurry. He is always in a position to be a champion, but he is not a champion. He is a champion, but he is not a champion.

It isn't the quantity of food a player eats that counts, but the quality. A player who eats a lot of food, but who is not a champion, is not a champion.

FIRES AT TOWN DUMP PROVING TOO COSTLY Apparatus Called 28 Times During April—None Warranted Turning in an Alarm. Firemen in the South Manchester fire district responded to 28 alarms of fire during the month of April.

and of this number three were bell alarms. The others were all still alarms. Not one of the fires to which the firemen were called on while or bell alarm warranted the turning in of an alarm. Grass, brush and dump fires caused the calls with a few for chimney fires. The expense of having water mains and installing hydrants becomes necessary because of the many calls that brought the apparatus to the dump, some often keeping men on duty a whole day. The dump on Broad street has been in use but a short time, and already is proving a costly proposition for fire apparatus and the idea of purchasing more had to be further enlarged the dump is not meeting with favor among the members of the fire department or the taxpayers of the South Manchester fire district who realize what a costly proposition it has been taking care of during the month of April. The most serious fire in Manchester in a number of months was in the Eighth District in April when a two family house and a barber shop were called to take care of a grass fire on Hilliard street, that did little damage.

Harold Topf Jr., of 36 Apple Place, Ernest Smith of 64 Hill street were admitted, and Walter Burlock of 38 Cottage street, was discharged yesterday. A son was born yesterday to Mr. and Mrs. Benjamin Eaton of 9 Minna Court. Walter Rubacha of 85 North street and Walter Marsh of 14 Warren street were admitted, and Mrs. Katherine Zwick of 437 Center street was discharged today. A son was born today to Mr. and Mrs. Joseph Hoher of 27 Proctor Road. The hospital census today is 75 patients, the highest since last February.
