SATURDAY, OCTOBER 6

FOR A RECORD VOTE
Well, on Monday Manchester is to go about its regular pro-forma business of electing to its town officers the candidates picked by the Republican primary of September 30. It is the opportunity of a town election in this community that there isn't much kick to be gotten out of a town election.

of some especially quiet election precincts.
A great many Americans—the sort of candid, unphilosophical, clean minded Americans who have been scolding at fate value the "good neighbors" and "good neighbors" confidence of the general Mr. Roosevelt—will be pretty severely shocked to learn of the shoddy and unscrupulous methods which have been used to get Mr. Roosevelt's heart-breaking solicitude for the "forgotten man" at all hands, the glib and the cynical and the in-betweeners alike, will be amazed that any President of the United States should resort to such a completely shyster device as this for carrying favor with the people. Never before has one deigned to such low-grade electioneering.

GLASS TRADE WINS
The glass bottle industry, which incidentally has no unit anywhere in the world, has won a victory which does not employ a single one of this state's workers in the production of its commodity, has been successfully protected from the competition of the paper bottle industry to the extent that the latter has been shown out of the market by our own little factory NRA, commonly known as the Milk Administration. For, that is, the time being, the NRA has been successful in its effort to protect the industry from "leak."

The incident is less than a year old. It is the opportunity of a town election in this community that there isn't much kick to be gotten out of a town election.

BEHIND THE SCENES IN WASHINGTON
BY RODNEY DUTCHER.

Manchaster Herald's Washington Correspondent

War and World Series Only Two of Many Events That Keep Capital Streets Busy
More News on Martha's Vineyard
Notable Through There to West

Washington, Oct. 5.—Washington, perhaps as never before, feels itself on the inside looking out. Which is one way of saying that there's very little news here and that all those who aren't off on trips are squashed behind lotisepages, pouring in every outward direction toward events which interest. Washington intensely, but whose scenes are remote.

War is on in Africa and official eyes are strained at the league and a dozen nations, not forgetting Germany and Japan. The world series is so far off that few local boys and girls are attending it, though many seem excited.

Roosevelt has been off at the other end of the country, his speeches and his reception followed breathlessly by his home town. Local notes are cranked at Kansas since Hearst declared for the Republican presidential candidacy of Gov. Alf Landon.

Plenty to Worry About
Overs in Baltimore a conservative federal judge is considering the validity of the holding company act. The American Legion just met at St. Louis and now the A. F. of L. meets at Atlantic City.

The RFC and IFC were all of a twitter while the Van Sweringen, who may have developed an alliance over their railroad empire in a New York action court. Others are wondering what an ex-Governor Johnson, far out west, will be doing in the fall.

Strike threats, local reactions to WPA projects and PWA's collapse, feeling in the Missouri state house, settlement schemes—these and other things are Washington's mind on matters outside.

The capital distinctly isn't the center of the stage. But the supreme act is back, the President will be returning, and then Caligula. So no one here is worrying about possible oblivion.

Island Hums With "Dope"
You could hear almost as much news and dope on the little island of Martha's Vineyard, under Cape Cod, where your correspondent spent a quiet week in the last few days. It was a cockeyed cross-section. But everyone was having a swell time.

HOUSE LOUD SPEAKERS TESTED WITH "PROMISES"
Austin, Tex., (AP)—The loud speakers in the house of representatives here rang out.

"I promise every voter a pension, a quart of gas if he wants it, a suit and a pair of pants," the premier of the hour shouted. "Moreover, never mind," said a voice from the mechanical room. "You don't have to promise anything else. The machine's O. K."

They were mechanics repairing the loud speaker system.

of some especially quiet election precincts.

Never before has one deigned to such low-grade electioneering.

GLASS TRADE WINS
The glass bottle industry, which incidentally has no unit anywhere in the world, has won a victory which does not employ a single one of this state's workers in the production of its commodity, has been successfully protected from the competition of the paper bottle industry to the extent that the latter has been shown out of the market by our own little factory NRA, commonly known as the Milk Administration. For, that is, the time being, the NRA has been successful in its effort to protect the industry from "leak."

of some especially quiet election precincts.
A great many Americans—the sort of candid, unphilosophical, clean minded Americans who have been scolding at fate value the "good neighbors" and "good neighbors" confidence of the general Mr. Roosevelt—will be pretty severely shocked to learn of the shoddy and unscrupulous methods which have been used to get Mr. Roosevelt's heart-breaking solicitude for the "forgotten man" at all hands, the glib and the cynical and the in-betweeners alike, will be amazed that any President of the United States should resort to such a completely shyster device as this for carrying favor with the people. Never before has one deigned to such low-grade electioneering.

LABOR ASKS VETS TO BATTLE REDS
A. F. of L. Head Proposes They Join Forces to Fight the Propaganda.

Atlantic City, N. J., Oct. 5.—(AP)—An alliance between the American Federation of Labor and the American Legion to combat Communism was suggested by Matthew Woll, vice president of the Federation.

"Both organizations have the same feeling about the need for fighting the growth of Communism. We will see when he arrived for the Federation's annual convention 'Joint action may be taken.'"

Woll predicted that the Federation would be the "strongest ally" of Communists in this country and that the Legion would be the "strongest ally" of Communists in this country.

"Trade with Russia," he said, "has amounted to nothing at all, while this country is being flooded with inferior goods."

Communists, he declared, had renewed their old policy of "hoarding" into the American labor movement.

Class "Hot Spots"
"Hot spots," he said, were the furriers and teachers unions, and every labor organization in St. Paul and Minneapolis. The Communist drive to undermine waterfronts on the Pacific coast, he said, was subsiding.

The powder keg of the Federation's current controversy—union organization by craft or by industry—may be touched off at any moment after the convention convenes Monday.

Factious Fight
The union department of the Federation came forward as champion of the craft faction against John L. Lewis, head of the United Mine Workers, and his associates in the International Industrial Union.

The explosion may be produced by any one of several factors: internal battles, among them the complaint of the International Brotherhood of Boilermakers, Iron Shipbuilders and Helpers, a craft organization, against the International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers, and his associates in the Brotherhood of Carpenters.

The metal trades department ignited the battle yesterday, adopting a resolution condemning the action of the International Brotherhood of Boilermakers, Iron Shipbuilders and Helpers, a craft organization, against the International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers, and his associates in the Brotherhood of Carpenters.

MERRITT BRIDGE IN STATE PLANS

Macdonald Announces Seven Projects; Surface Improvement 10 1-4 Miles.

Plans for ten and one-fourth miles of new highway paving and surfacing, and for the construction of a new bridge on the Merritt Parkway were announced today by Highway Commissioner John A. Macdonald.

The work will be included in seven different projects for a contract let on October 21.

Three of the new jobs will be PEA public works projects, two of them regular state jobs, and the remaining will be from A. M. D. projects.

The Merritt Parkway bridge will be a grade separation project and will be included in the new traffic boulevard will intersect Route No. 26, running between the Merritt Parkway and the new bridge, will separate the two highways, eliminating any intersection and enabling traffic on the Merritt Parkway to proceed without interruption. This project will also include grade work on local roads in Greenwich and Middletown.

The other two federal jobs call for about two miles of waterbound macadam paving on Candlewood Lake and nearly four miles of similar pavement on the Merritt Road in the Town of Tolland.

Large of the two state projects will require upgrading of a four-mile stretch of road on the Merritt Parkway, while the other calls for paving on the Jefferson Bridge in Middletown. The latter work will be done on local roads in Greenwich and Middletown.

Bids on the new jobs will be received from contractors at the headquarters of the State Highway Department in the State Office Building, Room 1111, at 11:00 p. m. on Monday, October 21.

The work announced by Commissioner Macdonald today is described as follows:

Emergency Public Works Projects
Town of Sherman: About 10,000 feet of waterbound macadam on the Candlewood Lake Road.
Town of Middletown: About 20,000 feet of waterbound macadam on the Merritt Road.
Town of Tolland: A grade separation bridge and grading at Route No. 26 on the Merritt Parkway.
Town of Middletown: About 325 feet of waterbound macadam on the Jefferson Bridge and grading at Route No. 26 on the Merritt Parkway.
Town of Middletown: About 4,711 feet of waterbound macadam on the Merritt Road, Route No. 130.
Town of Middletown: About 7,630 feet of waterbound macadam on the Merritt Road, Route No. 130.
Town of Middletown: About 10,437 feet of waterbound macadam on the Merritt Road, Route No. 130.
Town of Middletown: About 10,437 feet of waterbound macadam on the Merritt Road, Route No. 130.

CABARET NIGHTS PLANNED BY CO. K

First of This Season's Parties to Be Held in Armory on October 26.

Due to public opinion and the matter of the town of Middletown, Co. K of the local National Guard is planning another of a series of annual cabaret nights.

This will be the second annual cabaret night, held at the Armory on October 26.

The committee in charge, quartermaster and entertainer, are: Charles E. Field, G. W. and Retired Workmen, and a group of local citizens.

The metal trades department ignited the battle yesterday, adopting a resolution condemning the action of the International Brotherhood of Boilermakers, Iron Shipbuilders and Helpers, a craft organization, against the International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers, and his associates in the Brotherhood of Carpenters.
