NEW DEAL PLANS ARE CALLED 'MESS'

Rep. Bolton Declares That Fantastic Projects Mean a Terrific Waste of Money.

Washington, Oct. 9.—(AP)—While a Republican leader hammered away at the New Deal, world program today as a "horrible mess," House officials released figures indicating that \$2,127,253 worth of WPA projects are piled up in the comptroller general's office awaiting approval.

The statement of the New Deal officials hastened to add: "No apparent lag in the comptroller general's approval is to be attributed to the heavy volume of work devolving upon his office."

The Republican leader who attacked the Roosevelt program was Representative Bolton of Ohio, chairman of the Republican Congressional committee on the New Deal.

"Present Roosevelt's recent effort to defend the horrible mess of his public works and relief program, was forced by the growing condemnation of the terrific waste of money."

"The New Deal's program seems to be a mess," Bolton says, "and it is a waste of money to pay for it."

"The Works Progress Administration statement that WPA projects for all states have been fixed at \$1,400,000,000, of which the President has allocated \$900,000,000, and the latter amount the comptroller general has approved \$368,889,956. This leaves \$2,127,253 unapproved."
