

BRITAIN'S KING REGRETS WAR ACT BY ITALY

Message Adjourning Parliament Expresses Concern at Crisis; Sees Need of Air Force Expanding.

London, Oct. 25.—(AP)—King George expressed "grave concern" over the Italo-Ethiopian crisis today in an address on prorogation of the eighth parliament of his reign.

Domestically, he noted the kingdom's "further considerable advance toward prosperity" in a speech which was read by Lord Hailsham, before an impressive House of Commons and Lords.

The address included the paragraph which appears in all the King's peace-time speeches:

"My relations with foreign powers continue to be friendly."

Referring to the Italo-Ethiopian crisis, the speech said: "The critical situation which has happily arisen between Italy and Ethiopia has aroused by gravest concern."

"From the moment that dispute occurred between the two countries as a result of frontier incidents in December of last year, my government have exerted themselves to the utmost, both individually and in co-operation with other states, members of the League of Nations, to promote a peaceful settlement."

"To my regret, those persistent endeavors did not avail to prevent a recourse to force, and my government have loyally supported the efforts of the League of Nations with a view to restoration of peace and achievement of an equitable settlement in the spirit of the covenant."

"To my regret, those persistent endeavors did not avail to prevent a recourse to force, and my government have loyally supported the efforts of the League of Nations with a view to restoration of peace and achievement of an equitable settlement in the spirit of the covenant."

Reviewing the recent steps for expansion of the British Air force, the King said:

"While my government have not ceased and will not cease their continuing efforts to promote limitation and reduction by international agreement of all forms of armament, it has been found impossible to postpone further expansion of the Royal Air Force to a strength which will enable it to fulfill its vital duties in national and imperial defense, and this program necessary to give effect to this has now been undertaken."

Referring to the home economic situation, the King said:

"A more confident spirit of industry, continued growth in national revenue and prudent, successful management of our financial affairs have permitted a further considerable advance toward prosperity."

He noted that "overseas trade of this country continues to expand."

Mentions India Act

The King's message today to parliament included mention of the India act for a future government of India at Burma, and the British government's efforts to increase employment and reduce the problems of slums and overcrowding.

At the conclusion of the speech, which occupied nine minutes, the letters of patent were read after which Lord Hailsham announced in the King's name that parliament stood prorogued until November 19.

The date was purely formal since it will be wiped out as soon as the proclamation dissolving parliament is issued.

ALDERMAN SLAIN; MOTIVE IS SOUGHT

Police Believe Youthful Politician Was the Victim of a Black Hand Feud.

Gary, Ind., Oct. 25.—(AP)—Five men were held in the Gary and Crown Point jails today as officials sought a solution of the mysterious slaying of Dan Perrotta, 25, Gary's "Boy Alderman," whose bullet-punctured body was found on a roadside at Griffith, Ind., yesterday.

Held at Gary were Patara Barabolas, 38, and Gabriel Barabachia, 37, laborers, and Daniel Lamorte, 31, a saloonkeeper. They were seized early today by police and deputy sheriffs at East Gary. Two other suspects, whose identities were withheld, were in custody at Crown Point.

Although Perrotta, the youngest official ever elected in Gary, frequently opposed gambling rackets, authorities were inclined to disregard this as a motive in favor of a theory that he was the victim of a "Black Hand" feud.

Investigators said they learned that Perrotta was seen two hours before his body was found, in a Gary restaurant in company with two strangers. The three left in a black sedan, presumably the same car seen later near the spot where the body was found.

Police Chief Lawrence Studness of Gary said Perrotta recently reported he had been threatened, but declined to give the origin of the warning.

MAY QUIZ STATE OFFICIAL ABOUT HIS PURCHASES

Unnamed Trustee of An Institution Likely to Be First Questioned in New Investigation.

Hartford, Oct. 25.—(AP)—The unnamed trustee of a state institution reported to have sold articles to it may be the first to be questioned in the state's investigation of purchases by state institutions and departments.

The sub-committee of three appointed by Governor Croft yesterday to conduct the inquiry for the State Board of Finance and Control will meet Monday, at 10 a. m., in the office of Attorney-General Edward J. Dineen, chairman. Tax Commissioner William H. Hackett will return then from a western trip. Comptroller Charles C. Swartz is the third member of the committee.

Extent Not Indicated

How far the committee will go in its probe of suspected favoritism in the purchasing methods Mr. Daly is understood to be prepared to go the limit in bringing out the facts.

No time will be lost in getting at the facts, Mr. Daly said today. The committee will operate secretly, reporting periodically to the board which may record the reports in its records which are available to the public.

No Intent to Embarrass

Mr. Daly indicated he has no intention of embarrassing anyone unnecessarily, but he feels it is time the state knew how its money was spent on the purchase of supplies and whether it was getting its money's worth.

The attorney-general is an advocate of competitive bidding on all staple and standard products that may be purchased in this manner at a saving to the state.

CANCER CONTROL NEW HEALTH PLAN

New Units Are Added to State Department; Prompt Treatment Is Necessary.

Hartford, Oct. 25.—(AP)—The State Department of Health today announced a new unit for cancer control and the use of narcotic drugs.

Dr. Stanley H. Osborn, commissioner, announced the appointment of Herbert F. Hirsch of Waterbury, a Yale graduate, as research statistician to handle the cancer study and Arthur J. Ribbard of New Haven as narcotic agent. Both will work in the bureau of preventable diseases under Dr. Millard Knowlton.

The two posts were created by the 1933 legislature as part of a wide program in the cancer and narcotic fields, the State Health Department getting sweeping powers under the uniform Narcotic Drug Act now used in 25 states.

Mr. Hirsch has been executive secretary for the cancer control committee of New Haven.

He will cooperate with the tumor committee of the State Medical Society, sponsor of the cancer control bill.

"Every study of the cancer problem shows death can be decreased in places where no concentrated effort has been made," Dr. Osborn said.

Prompt Treatment

"Prompt treatment is necessary," the legislature appropriated \$10,000 for the cancer unit.

Mr. Ribbard, a pharmacist, will join the department in November. He will determine types of institutions and laboratories to be licensed by the department for the custody of drugs. The manufacturers and wholesalers who may produce or prepare narcotic drugs in accordance with the law will be under his supervision.

He also will supervise the recording of narcotics by persons authorized to handle them.

The narcotic law instructs the

LOSES \$4,000 IN PAPER BAG, HAS LUCK TO GET IT BACK

New Haven, Oct. 25.—(AP)—Mrs. Julia Stawicka of this city was happy again today. She had recovered \$4,094.11 in cash, lost in a local department store.

The money, contained in a brown paper bag, lay unnoticed on the floor of the store (W. J. Grant) for more than an hour yesterday before an unidentified person discovered it and turned the valuable little package into the store's lost-and-found department, where it was retrieved by a detective.

Howard W. Allen, manager of the store, said he did not know who turned in the money.

Upon receiving it from Detective James F. Dinan, Mrs. Stawicka clutched the parcel to her bosom and blessed herself amid a flow of tears.

She was about to leave the police station but was stopped by officers who provided an escort and directed her to a nearby savings bank.

Townsend Pension Advocates Hold Convention

Five thousand adherents to the Townsend old age pension plan assembled in the Chicago hotel ballroom where they are holding a National convention to discuss their campaign for the 1936 elections. Although most of the delegates are between 50 and 80 years of age, they have all the enthusiasm of youth and the sessions are lively.

NO FANFARE AS WALKER BOARDS SHIP FOR HOME

Jimmy Assumes Role of Dignity As He Concludes European Hideout; To Reach New York on October 31.

Southampton, Eng., Oct. 25.—(AP)—A slender, energetic, little man moved slowly up a crowded gangplank of the liner Manhattan early today as the ship lay wrapped in a deep fog.

No hand played "Will You Love Me in December As You Did in May?" There were no cheers. No one cried, "So long, Jimmy!"

He was just another passenger; James J. Walker leaving England on his way back to his native New York.

His For Health

Once a symbol of New York to New York's millions, Walker was going home after three years of his self-called "chick-out for health" from the strain of American political life.

For an hour before the boat sailed, he stood up in his old-time urbane manner and with foreign news discussed the questions of London newspaper men who want to know why he went abroad in 1932, at a time when the cables were humming with reports of Gov. Franklin D. Roosevelt's censure of his mayoral regime.

He explained he was not going back now because "the coast is clear" because Federal authorities had announced they were dropping all investigations of his income tax, but because his health had improved enough in three years abroad to permit it.

"Personally, I am through definitely with politics," he said. "I never run for office again."

Through With Broadway

Walker emphasized he had discarded his role of frequenter of Broadway bright spots, as well as purveyor of the metropolitan wisecrack in view of the new dignity required by his practice of law.

HOLC HAS BECOME RENTING LANDLORD

Sells Some Foreclosed Homes, Fixes Others Up and Gets Tenants.

Washington, Oct. 25.—(AP)—The government emphasized today that it would be lenient with its home loan debtors if they are in real distress, but would deal severely with "chiselers."

Already, officials said, the government has foreclosed and taken over a number of properties owned by persons who obtained government financial aid to save their homes, and then failed to keep up the payments.

Of the first batch of homes thus taken over, seven houses were sold at a small profit, and 69 others are being rented.

Home Owners Loan Corporation officials reported that of the 2,195 foreclosure cases started against urban borrowers with properties valued at more than \$6,000,000, more than half, 1,099, were to recover homes from "downright chiselers"—those who have the money to pay, but think they can beat the government.

The officials added that 728 were against persons who abandoned their properties—some of them just "walked off leaving the door open."

Others because of divorce, or for other reasons. In 211 cases the borrowers died and heirs did not wish to assume the obligation, while 49 cases were started because of legal complications.

Foreclosure cases started against borrowers came in at the last minute and bought back the properties.

82,470 loans made for \$2,895,274,358.

It is inevitable that thousands of homes must be acquired by the HOLC in the normal course of its business," he said, adding that 5,000 foreclosure cases probably will be instituted by the end of 1935.

He said the corporation would sell and rent foreclosed homes, but would not "dump" them hastily on the market for fear of "stimulating a new depression of real estate values."

Harold Lee has been named a deputy general manager in charge of the management of homes taken over. Where houses can not be sold and need repairs, they will be reconditioned and rented.

Vast Majority Pay

Fahey said that a vast majority of borrowers were paying their 5 per cent, 15-year loan installments regularly. Although the HOLC is only a little more than two years old, 2,000 borrowers have paid off their loans in full, he said.

He asserted that borrowers with legitimate excuses would not be harassed. Under the law, extensions up to six months are permitted in these instances. At the end of last month, when \$22,355,088 in monthly installments fell due, \$31,037,944 was overdue for 90 days or more. This percentage was said to be around the same as for private lending agencies.

QUIZ MAN CHARGED WITH KILLING SIX

Defiant and close-lipped, Leo Hall, 33, resisted questioning concerning a mass murder mystery today after authorities said he had been implicated in the crime by the confession of a woman.

WOMAN CONFESSES SHE AIDED IN ROBBERY PARTY, SAYS MAN MURDERED

Seattle, Oct. 25.—(AP)—Defiant and close-lipped, Leo Hall, 33, resisted questioning concerning a mass murder mystery today after authorities said he had been implicated in the crime by the confession of a woman.

Sheriff William B. Severyn said Mrs. Larry Poolos, 28-year-old beer parlor waitress, had signed a confession accusing the former boxer and dry dock worker of killing six persons at a gay house party on Erland's Point in March, 1934.

The alleged confessor said Mrs. Poolos and Hall, masked and wearing gloves, entered the Frank Floder home in quest of "easy money," and after the six people in the house were robbed the victims were killed so "they couldn't talk."

Police Confident

"Hall seems to have a lot on his mind," said Detective Captain Ernest Yoris of the Seattle homicide squad. "We have a lot of corroborative evidence for Mrs. Poolos' statement."

Earlier in the evening, O. K. Boda, chief criminal deputy sheriff, had declared: "We have the man, beyond a doubt, and we don't care if he never confesses."

Hall was arrested Wednesday at Portland, Ore., on a charge of carrying concealed weapons.

The victims in the Erland's Point tragedy, some beaten, some shot, and one stabbed, were Mr. and Mrs. Floder and their guests, Mr. and Mrs. Eugene Chenevert, Magnus Jordon and Ezra M. (Fred) Bolcom.

Mrs. Poolos, who alleged confession, said she trailed up the victims but fled after she saw Hall come out of Mrs. Floder's bedroom with blood on his clothes, and armed with a knife, take one of the men into another room. It said Hall shot at her as she fled.

Mrs. Poolos has been questioned at various times concerning the mass murder and as recently as two weeks ago denied knowledge of the killings.

DEMOCRACY FAILS, EDUCATORS THINK

Dr. Stanley High, Believes That U. S. Is Still in "New Deal" Frame of Mind.

New Haven, Oct. 25.—(AP)—Dr. Stanley High, author and school traveler, told nearly 5,000 school teachers at Woolsey Hall today that despite a certain amount of wavering, the country is still in a "New Deal" frame of mind.

Speaking at the one-day session of the Connecticut State Teachers' Association, Dr. High asserted the United States continues to be "overwhelmingly capitalistic, but not capitalistic in the pre-1929 sense."

He said:

"The one thing that in the economic field would turn the average capitalistic America into something else would be a governmental attempt to turn back the clock and re-establish the status quo that prevailed before the big crash."

Dr. High told the teachers gathered from all over the state, that there was a popular opinion even in the United States, that democracy "was a failure."

BLACK ARMY MARCHES TO BATTLE FOR HARAR

War Situation at Glance

By ASSOCIATED PRESS

The King of England, proroguing Parliament, bespoke his "gravest concern" over the situation in Africa.

To the shrieks and sobs of their women and with the blessing of their church on their colors, 12,000 well-equipped Ethiopian soldiers moved from Harar to the southern front.

Premier Mussolini announced he would withdraw 15,000 soldiers from Libya, the re-enforcement of whose defense annoyed Great Britain.

Emperor Haile Selassie expressed increased confidence in the ability of his soldiers to withstand the Italian challenge.

Rome reported the occupation of the southern front of Geledi and "various villages" on the banks of the Shibli river.

A Reuters (British) dispatch said more than 200 bombs were dropped by Italian fliers on Gabradarre, (not shown on map), wounding seven Ethiopian soldiers.

Peace talk was heard in Paris, London and Rome, but it was indefinite and vague.

LIFE IMPRISONMENT FOR MRS. SCUELER

Bridgeport Woman Is Found Guilty of Killing Her Young Step-Daughter.

Bridgeport, Oct. 25.—(AP)—A life term at the Connecticut state prison for women in Niantic faced 25-year-old Ada Mildred Schueler of Stamford, today.

A jury in Superior Court here found her guilty of second degree murder late yesterday in connection with the death of her nine-year-old step-daughter, Marilyn.

Judge John Rufus Booth heeded State's Attorney William H. Conley's request for an immediate sentence and said:

"The verdict leaves the court no alternative. I therefore sentence this woman to the Connecticut State Prison for Women for the balance of her life."

During the trial, which began on Thursday of last week, the defense did not attempt to deny that Mrs. Schueler, in a fit of rage, beat Marilyn to death in the kitchen of the Schueler home last Sept. 5.

Insanity Plea

Rather, an acquittal was sought for the former student nurse on the grounds of insanity. The defense stressed her alleged unhappy home life as a child and introduced medical testimony to show she was epileptic.

THEORY WRONG, CHEMIST DIES

Amateur Tries to Immunize Self From Poison, But 'His Plan Just Doesn't Work.'

Denver, Oct. 25.—(AP)—Robert B. Lagerston, 21-year-old Hartman camp resident and amateur chemist, had a theory police believe he could immunize himself to poison by taking gradually increased doses.

He died in an ambulance last night.

Detectives Thomas Lady and Andrew Haze said they discovered poison capsules in his pocket and transient camp friends of the dead youth told them he had claimed he could prove by experiment that it was possible to build immunity to poison by taking graduated doses.

SCHULTZ'S WIDOW

Gang Leader Dies from Wounds; Three Henchmen Pass Away Before Him.

Newark, N. J., Oct. 25.—(AP)—Newark police held the young widow of Arthur (Dutch) Schultz, fledgeling today in the hope she can supply some clue in a sweeping search for the assassins of the gang chieftain and three henchmen.

The 21-year-old woman, Mrs. Frances Flegelheimer, was booked as a material witness last night, less than three hours after Schultz died of the wounds inflicted by rival gang bullets.

The racketeer himself, one of the last of the bigtime underworld leaders who became notorious during the prohibition era, gave the police no help.

He died at 8:35 p. m., yesterday in City Hospital, deliriously mumbled words which those by his bedside could not understand.

Bernard Rosenkrantz, Schultz's chauffeur and one of the quartet moved down in a cafe gun battle Wednesday night, died early today.

Otto Berman and Abraham Landau, alias Leo Frank, the other members of Schultz's party, preceded their leader in death.

Martin Krompner, who met a hail of bullets in a New York barber shop about two hours after the Newark shooting, was in a critical condition in a New York hospital.

New York detectives pressed their search for Albert Stein, 21-year-old mobster suspected of several recent killings in the outbreak of gang warfare in the metropolitan area.

FELLOW COP KILLS SLAYER OF CAPTAIN

Enraged Patrolman Shoots Superior, Another Policeman Then Kills Him.

New York, Oct. 25.—(AP)—Police considered a closed case today the slaying of Police Captain Richard McHale, 58, of Flushing precinct, Queens, by Patrolman Walter Miller, 29, who in turn was shot and killed by Patrolman Edward Hayes.

Called Unit

Captain McHale, a report to headquarters said, was killed after Miller became enraged at being pronounced unfit for duty and placed on reserve. He had been taken from his post yesterday afternoon after a sergeant said he had been seeing as if intoxicated.

The report said Miller walked into the captain's office and said, "Captain, you've caused me an awful lot of trouble," firing twice.

Hayes, on station duty, heard the shots and rushed into McHale's office where he heard two more shots in the adjoining washroom.

Seen Smoking Gun

He said he mounted a desk and looked over the partition to see Miller, with a still-smoking service pistol, covering Captain McHale, who, wounded twice below the heart, slumped over the washstand.

Miller said Hayes told them he fired twice, one bullet entering Miller's back, killing him.

Air Conditioning in Auto Industry Starts With Bus

New Orleans, Oct. 25.—(AP)—The first air-conditioned auto and plans for air-conditioning buses to compete with cooled railroad coaches were announced today at a meeting of the National Association of Motor Bus Operators.

A five-passenger car has been hunting hot spots and hot thirty-one all summer between Buffalo, Chicago and New York. Its air was cooled on the hottest highways. There was never any dust inside. Its passengers were free even of the hay fever pollen.

It is convertible in winter, to carry its own custom made, warmed climate, free of dirt, comparatively pure of the respiratory infections.

It was described in a paper written jointly by Ralph F. Peo, general manager of the House Engineering Corporation, Buffalo, and E. P. Heckel, vice president of the Carrier Engineering Corporation, air-conditioning specialists.

The innovation is foreseen as probable for private cars.

Selassie's Crack Troops

Move to Meet Italian Advance in Southern Ethiopia — Warring Empire Takes No Interest in Europe's Diplomatic Game—Nasubi Reports Enemy's Expenditure of Bombs Is Ineffective—Have Killed Only Six in Shibli Region — Capture of Villages There Not Resisted.

By The Associated Press

With their women behind, shrieking, singing, crying and with the blessings of their church on their colors, 12,000 of Haile Selassie's smartest warriors swept southward from the city of Harar today to meet Italy's challenge to their kingdom.

Ahead, moved 2,000 camels laden with munitions and supplies. Equipped came infantry, cavalry and anti-aircraft corps, all well equipped and all ready to strike back at the soldiers of Rome.

All Ethiopia, plateau and desert and deep jungle alike, echoed to the tom-toms of war, unaware mostly and seemingly unconcerned about the talk of peace that was gaining more assurance among the diplomats of Europe's capitals.

Paris Rumors

There was a Paris account that said Mussolini, holding forth a tentative olive branch, was ready to concede Britain's right to mass its fleet in the Mediterranean even though he has ordered 15,000 of his soldiers to return from Libya; and that under some conditions he was ready to order a stop to his military operations against Ethiopia.

From Addis Ababa, a word that individual diplomatic moves for peace didn't interest Ethiopia; that the unconquered kingdom had its case entirely in the hands of the League of Nations.

Whatever assistance may attach to talk in Europe, there was no note of peace in the laconic statement in a Rome war communique today which said: "The action continues."

For the moment the war to civilize one of the world's oldest Christian nations booms loudest on the southern front—a front which is not a front at all but rather a series of widely separated penetrations.

Along Two Rivers

Leading deep into Ethiopia from Italian Somaliland are two important rivers—the Juba and the Shibli. It is up these valleys that the Italian strategy is directed, the advance being necessarily slow because the terrain is none too favorable.

The first gesture along the Juba was at Dolo in the early days of the war. No significant infantry advance has been reported from Dolo since the Italians captured it; but the aerial reconnaissance is active along the Juba and its tributaries as far as Magala.

Italian conquests have occurred, however, along the Shibli river or (as the Rome communique refers to it) on the Scaveli sector. (The action continues in the Scaveli-Shibli sector," Rome announced today.

The occupation of "various villages" along the river bank was announced. Geledi, which is on the Shibli river and about 50 miles from the Somaliland-Ethiopian frontier, has been occupied.

Ethiopians Unconcerned

These numerous reports of village occupations do not appear to cause much concern among Ethiopian officials, and the suspicion that slight resistance has been offered, the Ethiopians still preferring to defer a decisive encounter.

The Rome communique continues to tell of tribal chiefs who are turning tail to the king of kings and throwing in their lot with those who bear arms for Il Duce.

There was no mention in today's war reports from Rome of casualties among the Italians.

The Italians continue to make regular use of their airplanes, but Ras Nasubi, leading the Ethiopian forces in the south, said that the bombing planes were ineffectual.

The total casualties among Ethiopians in bombing operations along the Shibli river, the Ras said, were six dead and three wounded. The Ethiopians get much satisfaction out of realization that these air bombs are expensive weapons of war, and they feel that the Italian army will have to get a better casualty score than this if bombing

BARGAIN HOUND

Montgomery Ward & Co. can take care of your wardrobe needs as well as your home needs. A matter what kind of stove you want you will be sure to find it in their store department on the second floor. Circulating ranges that burn coal and wood, combination coal and gas ranges and plain coal ranges are the most popular styles right now and will continue to be because of their perfect and unflinching service to us. These stoves are priced not only for the way they look but also for the way they work. Stop in today to see the Montgomery Ward & Co.'s store and look them over.

Important again this season. Many of the new styles are made of rayon. One especially nice model, with extremely full sleeves and hanging hemline has an Elizabethan collar of starched lace. Important, too, are tulle dinner dresses. Many of them are made of rayon.

WRECKAGE IS BELIEVED TO BE FROM WELDED SHIP. Flotsam ashore at Newfoundland thought to be from wreck of the Joseph Medill.

St. John's Newfoundland, Oct. 25. (AP)—Flotsam today was thought to be wreckage of the steamship washed up on Twillingate Island. Three hatches and a saloon chair were picked up yesterday. It was thought possible the articles were from the missing freighter Joseph Medill which was reported missing a month ago on her maiden voyage from England to Montreal. One of the hatches was 87 inches long by 21 1/2 inches wide and was marked C I and the third, painted blue on the top side, was 87 1/2 inches square and marked B I. A seat from a ship's saloon was discovered floating in the water yesterday. A bolt on the seat bore the marking Ontario. The bolt was unfastened and the pieces were found in shipping registers, was not believed to be the vessel's. The newly-built Joseph Medill, largest all-welded steamer in the world, set out from Quebec to attempt to enter Great Lakes service but the vessel was wrecked on the Atlantic coast the time vessel was leaving Newfoundland.

HESTATATING SUICIDE TOO LATE IN DECIDING. Kansas City Man Finally Tries to Kick Out Bad Drops Into Kaw River.

Kansas City, Oct. 25. (AP)—John Peterson, 39, couldn't decide whether to live or die—but the matter was decided for him. John Brula, 12, told police about his father when they pulled the body from the Kaw River yesterday. John, he said, saw Peterson walking on the James Street bridge. From end to end he was walking in rattle. Once or twice he climbed the railing and then got down. Finally he climbed over, seemed about to drop into the water. Then clung with desperate hands to the jutting bridge girders. The boy screamed and ran to the river. Peterson was trying to climb back to the bridge and safety. John Brula saw him hit the water. He tried to jump in but was told when policemen pulled him out.

BELGIUM'S PROFITS IN REVALUED GOLD COMBAT DISTRESS. Brussels.—(AP)—Belgium will spend \$100,000,000 within three years to combat unemployment through a program of public works, working camps and credit assistance to young married couples. The funds represent the benefit derived by the National Bank of Belgium from revaluation of its gold stock in terms of the depreciated Belgian franc. The money has been held for emergency use in supporting the market in Belgian francs and state debentures, but now is considered available for direct relief. Working camps for unemployed youth will resemble those of America. C.C.C. seasonal camps already operating under supervision of the Catholic Church and the Socialist Party will be taken over by the government. To stimulate marriage it is planned to arrange long term credits for furniture.

LONDON TOBACCOISTS OFFER WOMAN A 'STOGE' TO SMOKE. London.—(AP)—English women may now smoke the same pipes, but not cigars. Two provisions attempt to induce them to favor the lighter pipe. Now London tobaccoists are making another concession, drive. A new type of feminine cigar is on the market, made from Havana leaf of the most delicate mildness. "These latest importations are made of the finest material and fragrant cigar leaf, so mild they wouldn't make even the most amateur smoker choke," a leading importer said, predicting a future of cigar-smoking among women in the near future.

MAILMAN G. E. SMITH RETIRES THURSDAY

His Last of Original Carriers to Leave; Nyquist to Be Regular.

To most people in Manchester, October 31 means Halloween, but to George E. Smith, a letter carrier at the Manchester postoffice it means the end of his work as a carrier after 29 years of service, starting February 1, 1907. Mr. Smith was one of the three original carriers appointed by the late Walter R. Cheney when delivery of mail was started at the South Manchester postoffice. He had worked in the office of Mr. Cheney since 1907. Two years ago he was promoted to assistant postmaster and he will be leaving the service on the completion of his work on Thursday, when he will have five days more to serve his customers.

Mr. Smith was employed as a carrier, working under Mr. Cheney, who was the first carrier to be employed in Manchester. He was promoted to assistant postmaster in 1934 and he will be leaving the service on the completion of his work on Thursday, when he will have five days more to serve his customers.

INVENTION, OLD COINS NO VALUE TO ESTATE

Sewage Disposal Process Patented by C. R. Griffiths Worthless to Heirs Say Appraisers.

The patent on the sewage disposal process patented by Charles R. Griffiths who died two years ago next month, and a collection of old coins left by him, have no value according to an inventory of the estate filed in the Probate Court by the Manchester Trust Company, administrator.

Superintendent of the sewage disposal plant while the system was owned by the Griffiths, he owned the Federal government patent rights to the unique method devised by him. Engineers from many American and foreign cities visited the disposal plant now owned by the Manchester Trust Company. Mr. Griffiths at various times started negotiations with municipalities but never realized any return for his invention.

Sound Machine to Keep Court Testimony Record

Chicago, Oct. 25.—(AP)—Edward P. Lee, dean of the John Marshall Law School, today hailed a new sound machine, capable of reproducing instantly the voices of trial witnesses, as the last link in the chain of communication.
