Practice of Naturopathy and Registration Involved in Disputes.

The State Department of Health in its current monthly bulletin reports the receipt of two opinions from the office of the attorney general with respect to the practice of naturopathy and the registration with the department, annually of the practitioners of the profession.

The first question was raised following notice to the letter from Dr. P. B. Smith, secretary of the Connecticut Board of Naturopathic Examiners, that certain persons have been giving colonic irrigations without having been licensed to practice naturopathy.

All statutory regulations pertaining to qualification and training of applicants for a certificate of registration of the board, and possession of a certificate of registration of the board, in addition to their regular Friday night meetings.

Dr. Hamby, of Atlanta, credited with firing the smallest group of 20 shots ever made at 100 yards, all within an inch circle.
